If you are building or going to complete some unfinished rooms, let us show you some colored sample illustrating the beautiful color effects obtained by using this sanitary and durable board for walls and ceilings in all classes of buildings.
We carry a large stock in assorted sizes.

MAIL ORDERS
We solicit out of town orders which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the rotation in which they are received, and customers can always depend on our doing everything in reason to give prompt despatch.

COL. MERSEREAU RETURNS THANKS

Writes Principal Carr in Acknowledging Receipt of Band Funds

Chatham, N. B., April 24th, 1916.
From O. C. 132nd O. S. Batt., C. E. F.
Chatham, N. B.

To Jas. B. Carr, Esq., M. A.,
Principal Grammar School,
Campbellton, N. B.

Dear Mr. Carr:—

I beg to acknowledge receipt of your letter of the 21st instant, containing Express Orders to the amount of \$172.50, being a contribution from the Campbellton High School pupils to the 132nd Band Fund.

I cannot find words to express my thanks to you and your pupils for this magnificent gift; it is by far the largest yet received from any School, and most of the Superior and High Schools have contributed. Campbellton always does things on a generous scale. Since the North Shore Battalion was started Campbellton has led all other places in everything connected with it. In fact, Campbellton originated the idea of having a North Shore Battalion and has kept the lead in everything pertaining to it ever since.

For this gift to the Band Fund I wish to thank all your pupils, but especially the Girls who were so largely instrumental in raising it.

With sincere wishes for your and their success, and with much esteem, I remain,

Yours very sincerely,
GEO. W. MERSEREAU, Lt.-Col.
Commanding Officer,
132nd O. S. Batt., C. E. F.

The Campbellton High School wishes to thank all those who so kindly assisted with the Programme and refreshments and helped to make the entertainment such a success.

LT. ROBERT K. SHIVES REPORTED WOUNDED

Campbellton Boy With Imperial Air Scouts Wounded in France

Mrs. Shives, Tuesday, received a cable from the Secretary of War Office, London, that her son Robert K. Shives, who is with the Royal Flying Corps in France, had been wounded. There are no particulars.

The following is a copy of the despatch:—

KILLED REGIMENT FOR NEW BRUNSWICK

Suggestion That a Scotch Regiment be Formed With Col. McKenzie in Command

The 132nd North Shore Battalion is practically filled, although there is room for quite a number of men who desire to join this Battalion.

Press despatches state that it is probable that two more battalions will be raised in New Brunswick, and there is talk of one of these being a kilted battalion.

There should be enough Scotch and Scotch descent in New Brunswick from which to recruit a Battalion of Highlanders, and with that Scotch Colonel, J. D. B. McKenzie of Chatham at its head, we are sure such a battalion would be very popular.

Scotch regiments are always popular and we are sure that some of our young men are just waiting for a chance to join one. Already quite a number of New Brunswick men have enlisted in the Nova Scotia Highland battalion.

INTERESTING LIFE OF DALHOUSIE SOLDIER

Was on "Titanic" When Disaster Met Her.—Also on "Empress of Ireland"

Dalhousie, May 3rd.—Among the soldiers who are drilling here is Joseph Omer Maheu. He has had a unique experience. He was aboard the "Titanic" as fireman and was among the saved. He was one of the oarsmen in the six boat that left the steamer with over fifty women on board. His description of what took place before he left the ill fated vessel is very interesting.

His second and greater experience was when he was saved from the "Empress of Ireland". He was also fireman on that vessel and had just left his post and gone above when the magnificent gift; it is by far the largest yet received from any School, and most of the Superior and High Schools have contributed. LIEUT. G. A. MOWAT WOUNDED IN ACTION

Popular Campbellton Boy Mentioned in Despatches.—25th and 26th Win Renown

Ottawa, April 30.—The heroic defence of the St. Eloi positions by one of the Canadian infantry brigades is recorded in the weekly communiqué of the Canadian general representative at the front. The splendid part played by a Nova Scotia battalion, and many individual instances of gallant and conspicuous service are given in the despatch, which follows:

Canadian General Headquarters in France, via London, April 30.—During the week the main efforts of the enemy on the Canadian front were once again centered on our St. Eloi positions. For several days one of our brigades held this section. It was an eventful experience for the men concerned. On the second night four separate bombing attacks were made by the Germans on advanced posts of a Nova Scotia battalion. In each instance the enemy was repulsed by detachments under Lieutenants W. A. Cameron and L. S. Johnston.

On the same night another of our posts under the command of Lieutenant G. C. Farrish, was heavily bombarded with grenades. After daylight a German bombing party advanced against this position under cover of intense artillery fire. When well clear of its trenches it was greeted with rapid machine gun fire and rifle fire and retired hurriedly, leaving a number of dead or wounded on the field.

LIEUT. G. A. MOWAT,
26th Battalion.

On the next three nights further bombing attacks were delivered by the enemy and beaten off. A party of Germans succeeded in getting into one of the disused trenches on the front of a New Brunswick battalion. A patrol consisting of Lieutenant Mowatt and Privates Ramsey, Kennedy and Chatterton stumbled on the enemy. Private Ramsey, who was leading as guide, was suddenly hit on the head and fell. Almost at the same instant the explosion of a bomb wounded Lieutenant Mowatt in both feet, while another bomb hit Private Kennedy in the chest, but fortunately failed to explode. Private Chatterton, who alone of the patrol was unscathed, returned to our lines for help. Sergeant Henderson started out at once with reinforcements, when the enemy retired and our wounded were brought in.

Throughout its tour of duty in the front trenches this brigade was repeatedly subjected to heavy bombardments both by day and night. In spite of fierce retaliation by our artillery the

SHE RECOMMENDS "FRUIT-A-TIVES"

German guns flung thousands of shells against the narrow frontage opposite still further churning the soaking earth and adding to the difficulties of movements. Our military observers estimated that at one time German shells fell at the rate of twenty-five rounds per minute. At night a succession of enemy flares dispersed the darkness, and hostile machine guns and rifles swept the ground between the trenches. Nevertheless, neither nature nor the enemy fire could curb the enthusiasm of our men. Trenches were dug, parapets raised, patrols sent out and many useful reconnaissances made. Two nights in succession Major J. A. Ross, of the Victoria Rifles, left our trenches to reconnoitre the enemy's positions. On the first occasion he was accompanied by Lieutenant C. G. Greenshields and on the second by Lieut. Victor Duclos. Lieut. Greenshields, at the outbreak of war, enlisted in the French Foreign Legion, having secured a transfer to this battalion. He was wounded last autumn, but rejoined his unit on April 1st.

On another night an excellent reconnaissance was carried out by Lieut. Duclos, accompanied by Lieut. Ross Robertson. Lieut. Chas. Dolphin took out patrols on three successive nights, securing useful information as to the enemy's dispositions. Separate reconnaissances by parties under Captain Stairs and Lieutenants Smith and McNeill, of a Nova Scotia Battalion, yielded good results. Lieut. S. A. Vernon, intelligence officer of the Canadian Corps, and Lieutenant A. L. Walker, of the brigade staff, made a close inspection of the enemy's front positions.

In the fighting at St. Eloi many brave deeds were performed by officers and men of this brigade. Three weeks ago when the Germans launched their overwhelming attack against the craters, Sergeant H. S. Naylor, a Toronto man, who enlisted in Montreal, was in command of a machine gun crew in a detached position when the enemy advanced. The trench had been practically obliterated by the enemy's bombardment and the gun jammed with mud. Heavy fire from three sides was soon directed on the small party but the Sergeant succeeded in withdrawing the gun to a point where it could be cleaned and again put into action. From the new position fire was once more directed on the enemy, checking his advance, but finally the gun became so badly clogged that it could not be righted. A new gun was then secured and manned by the remnants of the detachments under Sergeant Naylor. On the following day his gun was also put out of action, being repeatedly struck by shell fragments and choked with mud, splashed

GOVERNMENT ANSWER IN DURHAM MATTERS

One Agricultural Society That Has Plenty of Money.—A Farm Settlement Case

The following questions and answers have reference to Restigouche matters.

Answers to Notice of Inquiry No. 137 for Friday April 28, 1916. By Mr. Pelletier.

1. Is the Durham Agricultural Society No. 79 still in existence?

Ans. Yes.

2. Is there any balance of money to the credit of this Society? If so, how much and in whose hands is it at present?

Ans. According to the return received from this Society by the Department for the year ending 30th November, 1915, the Society had on hand a balance of \$442.19. This statement is signed by Mr. S. Laughlin as Treasurer of the Society, in whose hands it is natural to suppose the money remains.

3. When was the last Provincial Grant paid? How much was it and to whom was it paid?

Ans. The last grant was paid in 1915, being an amount of \$111.00 paid to S. Laughlin, Treasurer of the Society.

Inquiry No. 134, April 28, 1916. By Mr. Dugal.

1. Who examined the records for the title of the farm purchased by the Farm Settlement Board from James Currie, of Nash's Creek, Restigouche County?

Ans. D. M. McAllister, Notary Public, etc., Jacques Ried, examined the records for the title of the farm purchased by the Farm Settlement Board from James Currie, of Nash's Creek, Restigouche County.

2. Who recommended the purchase of this farm and who carried on the negotiations for its purchase with the Farm Settlement Board?

Ans. This property was brought to the attention of the Farm Settlement Board by Mr. Arthur Culligan, Member for Restigouche County, and the property was "inspected and all arrangements for the transfer were made by Mr. A. W. Hay, of the Farm Settlement Board, and the business part of it was attended to by Mr. McAllister.

3. Did the Farm Settlement Board receive any additional information touching the purchase of this farm since March 15, 1916? If so, from whom and what was the nature of the information?

Ans. The Secretary of the Farm Settlement Board requested D. McAllister, Jacques River, since March 15, 1916, to inquire into certain reports regarding the James Currie Farm and the information received confirmed previous information.

4. In selling this farm to the purchaser did the deed or agreement of sale of the Board specify the quantity of land in acres or chains? And in the deed obtained from James Currie are acres or chains specified in dealing with the quantity of land?

Ans. The agreement with William A. Cook, who occupies the James Currie Farm, does not specify the quantity of land in acres or chains, and the deed obtained from James Currie specifies a piece of land eleven chains wide and containing 85 acres, more or less, and known and distinguished as Lot No. 51 east, granted to John Cook. Discrepancy between the number of acres given in the former list (70) and at the present time, is because the first information was taken from the minutes of the Farm Settlement Board Meeting, from the description by the inspector which specified 70 acres, but when the deed was received it contained a larger amount.

5. Is the Department of Agriculture aware that James Currie could only sell, and only had a proper title of 35x11 chains, and if he sold 35x13 chains that he had not a clear title to the additional two chains, as a judgment issued at the instance of Ben Windsor stands against the last mentioned two chains before its alleged purchase from one Donald Cook by James Currie?

6. Does the Farm Settlement Board or the Department of Agriculture contemplate taking any steps to ascertain the exact quantity of land sold to the Board by Jas. Currie, in view of the statement made public that it contains only about forty acres instead of 70 as represented by the records of the Farm Settlement Board?

Ans. to 5 and 6. The Farm Settlement Board is taking steps to ascertain the exact quantity of land sold to the Board by James Currie. Mr. Currie, who the Board and Department of Agriculture are advised is a very reputable citizen, will have the lines run immediately after the going off of the snow and if there should be any discrepancy the same will be promptly adjusted.

onto it by exploding shells. While it was being cleaned and repaired the engine compartment was converted into a temporary dressing station for the wounded. Later the gun was fired with good effect from an improvised shelter but this position also was struck by a shell and the gun buried. Once again Sergeant Naylor succeeded in replacing the weapon. Through four days and nights of strenuous exertions Sergeant Naylor remained in the front lines, working or repairing his gun. When eventually, he left to join his unit, he had with him only two of his original detachment, Private Arundell and Lance Corporal Rose, and both these men were so exhausted that they required medical treatment.

PTE. CLARENCE MURRAY,
14th Battalion.
Died of wounds.

April 23rd, 1916. Ottawa.

John Murray, Millstream: Deeply regret to inform you 444221 Private Clarence Murray, Infantry, officially reported died No. 24 General Hospital, Etaples, April 23rd. Gun-shot wound, head.

Sgd. ADJUTANT GENERAL.

Ministers Office,

Ottawa, April 24th, 1916.

Dear Mr. Murray:—Will you kindly accept my sincere sympathy and condolence in the loss of that worthy citizen and heroic soldier Private Clarence Murray.

While one cannot too deeply mourn the loss of such a brave comrade, there is a consolation in knowing that he did his duty fearlessly and well, and gave his life for the cause of liberty and the upbuilding of the Empire.

Again extending to you my heartfelt sympathy.

Faithfully,

SAM HUGHES,

Major General, Minister of Militia and Defence for Canada.

INJURED AT STATION
Saturday an Indian was found in the men's toilet room at the depot here, with a serious wound in his head. At first it was thought that he had been struck by a young woman who was seen with him, but it later transpired that he fell, striking his head on a radiator. He was sent to the hospital for treatment.

DEATH OF LITTLE SON
Death has entered the home of Mr. and Mrs. Walter LeTurneau and taken therefrom their little son Gordon—blood poisoning was the cause of his death. He was sick but three days, all that the doctor and his loved ones could do for him was done but all in vain. God in His wisdom seen best to remove the little life and on Thursday morning at 11 o'clock, he passed away. Gordon was but four years of age and was a general favorite with all. The funeral service was held Saturday afternoon and was conducted by Captain Squarebriggs, assisted by Rev. Hugh Miller and Captain Ham. The family has the sympathy of all in this their sorrow.

ARBOR DAY

I hereby appoint Friday, May 12th, as Arbor Day in the public schools. Please observe carefully the provisions of Reg. 20.

The co-operation of parents and all others in the district is invited, and attention should be given not only to the school grounds and premises but to the roadsides and other public grounds as well.

To insure satisfactory results good trees should be purchased by the trustee, and properly planted.

The attention of teachers is also directed to the importance of preparing for the observance of Empire Day, which falls on the last teaching day preceding the 24th of May. (Reg. 20).

It is most desirable on Empire Day to hold a public meeting in the assembly hall or school room, at which, in addition to the programme prepared by the teachers and pupils, there may be addresses of a patriotic nature by ratepayers or visitors.

HAIR STOPS FALLING

Save your Hair! Get a 25 cent bottle of Danderline right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderline tonight—now—any time—will surely save your hair.

TO OUR SUBSCRIBERS

Publishing a weekly newspaper at
\$1.00 per year is a losing game. While
this price was sufficient five years ago,
prices of raw material, labor, equip-
ment, etc., have advanced to such an
extent that publishers are selling their
product at a loss. This loss has had
to be made up by increasing advertising
rates, and from profits from the job
printing department.

The war has further increased the
cost of production and publishers are
face to face with a heavy deficit in
their subscription departments. It is
not possible, even if fair, to further
shoulder the increased cost upon the ad-
vertiser, so we have decided to ask
our subscribers to pay their fair pro-
portion of the increased cost. There-
fore on and after July 1st, 1916, the
yearly subscription price of the Graph-
ic will be \$1.50 in advance and \$2.00
to the United States.

The dry goods merchant, the grocer,
the baker, the butcher, the blacksmith,
have all been obliged to advance their
prices to a paying basis. Even the
farmer receives much larger prices for
everything he raises. In view of these
facts, which are patent to all, it should
not be a matter for surprise that the
newspaper man should also require to
increase the price of his product.

For this same reason, most, if not
all of the city papers, and all of the
magazines, not only in Canada, but in
the United States, have been forced to
increase their subscription prices.

After all, the increased price is a
mere bagatelle to the individual sub-
scriber, amounting to scarcely a cent
a week. The difference, while insignif-
icant to the individual, in the aggregate
will make the difference to us of en-
abling us to pay our way and avoid
a heavy annual loss.

In order to avoid even the appear-
ance of taking our subscribers un-
aware, we have decided not to bring
the increased price into force for two
months, until the first of July. Any
subscriptions paid before July 1st, will
be taken for this year at the price of
one dollar. But after the first of July
the price will invariably be One Dollar
and Fifty Cents without respect of per-
sons.

A TIME TO GET READY

It seems to us that now is the time
for the Maritime Provinces to get
ready for the boom which will surely
follow the conclusion of the great war.
It is never too early to dip into the
future and to lay the foundation for
preparation which will mean so much.
With so much sea coast, with tremen-
dous natural resources, with a climate
that after all is better than the clim-
ate of most countries, with business
men of vision and courage these Mari-
time Provinces are destined to become
the workshop of Canada. This may
not happen to-day or to-morrow, but
it is coming just as surely as the sun
rises and sets. It is a matter of each
man doing his bit towards hastening
the day. The thing is to get people
thinking and talking and working to-
wards the industrial and commercial
ideal. Each day will bring the event
nearer; each day will see some prog-
ress made and some milestone passed.
Now is the time for preparation. Ne-
glect no opportunity to get ready.

BANISH BILE!

A bilious condition of the system is
the result of inaction of the liver, often
causing severe headache through the
eyes and temples, culminating some-
times in nausea and vomiting, which
is frequently followed by a bilious
diarrhoea.

Abbey's Effervescent Salt, when
taken as directed, stimulates the peptic
glands of the stomach and increases
the contraction of its muscles from
above downward. This action is com-
municated to the intestines and in-
creases the flow of the intestinal juice,
thus stimulating the ducts of the liver
to pour out the bile, when it can be
carried downward by the laxative
action of the Salt, instead of remaining
to clog up the liver and flow back into
the stomach.

Thus, if a person who is subject to
Biliousness and Bilious Headache will
take Abbey's Effervescent Salt, the
natural action of the stomach, liver
and intestine will be kept up and no
bile can accumulate in the system.

SAWDUST

To encourage us to swat the fly, we
are told that a single female fly will
produce as many as are represented
by the figure 4 with 21 ciphers after
it. It is far easier to kill the fly than
to convert so tremendous a proposi-
tion.

According to the Kansas City Times,
nobody is ever killed by an automobile
going at fifteen miles an hour. But
perhaps the victims are ashamed to
confess it.

Not being unnecessarily vindictive,
we feel that we could be satisfied in
dealing with Sir Roger if we were al-
lowed merely to throw a brick through
his Casement.

Whoever may be represented by the
various counsel in the fuse contract
inquiry, their common duty is to find
out the truth.

The men who made the trouble in
Dublin are the worst enemies of Ire-
land. They have done their best, of
course, to deprive Ireland of a
splendid opportunity.

As the beneficent law of compensa-
tion is still on the job, whiskers are
coming back in time to conceal the
short features of the sport shirt.

The Kaiser decided that Verdun
should fall on April 23. It was 23
skidoo for the Kaiser, not for Verdun.

The Irish loyalists are not all in the
north. Dublin Nationalists volunteers
turned out to aid the Government in
the suppression of the rebels.

Among the May flowers regularly
brought by April showers, there are
dandelions.

Mr. Charles Marcell, M.P., writing
in The Montreal Herald, says:

His Grace Archbishop Brocheau
and Their Lordships Bgrs. Gauthier
and Enard were well inspired in
applying direct to H.R.H. the Gov-
ernor-General to use his influence
to bring about a solution of the bi-
lingual difficulties in Canada. His
Royal Highness, writing in French,
penned these words:

"His Royal Highness fully ap-
preciates the gravity of the situa-
tion and hopes that an equitable
solution will soon establish peace
and harmony between the two na-
tionalities composing the greater
part of the population of Canada."
In these few lines Canadians will
find evidences of true statesmanship
and true patriotism. It is to be hoped
that ere long His Royal Highness will
be able to bring about a solution to
another and perhaps the greatest ser-
vice which he has rendered Canada.

BUTTER FACTORY PROPOSED

The residents of Belledune, Elm
Tree, Ste. Therese and Beresford, Glo.
Co., are very much interested in the
proposal made by Mr. Michael of St.
Moise, Que., in regard to the estab-
lishment of a butter factory at Beres-
ford which would serve all the country
from Bathurst to Belledune. Mr.
Michael is in earnest in his undertak-
ing and Mr. A. J. H. Stewart and the
local members are endeavoring to have
the Government extend the usual as-
sistance to propositions of this nature.

Mr. Michael expects to invest about
\$6000 and will have separators at
Belledune, Elm Tree, Ste. Therese and
at Beresford where the butter making
plant will also be located.
The success of the proposed depends
of course, largely upon the farmers of
the districts mentioned, but it is said
that they are enthusiastically in favor
of the idea, so it is likely that Mr.
Michael will go right ahead and have
the plant ready by about June 15 next.

The Canadian Magazine has begun
in its April issue a series of sketches
under the general title of "From the

more ago. The first, which appears in
the May issue, is entitled "The Re-
treat", and if the others are anything
like as good, the readers are in for a
real treat from a real writer who is
actually at the front.

FORMER BAPTIST MIS-

SIONARY IN INDIA

Died in the Lazaretto at Tracad-

ie.—He Contracted Disease

While in India

Newcastle, May 1.—The death of

Rev. John E. Davis, late Baptist mis-
sionary in Ramachandapuram, India,
occurred in Tracadie lazaretto Friday
night. Mr. Davis, whose family of 3
sons and two daughters live in Wick-
low, Ontario, was about 63 years of
age. He was converted at an early
age and was sent out to India by the
Canadian Baptist Board, where he did
excellent work, converting many to
Christ. About ten years ago, while
helping to demolish an old building in
India he scratched his hand, and in the
course of a few months developed a
disease which the doctors in India
could not diagnose. He went to Lon-
don and learned the horrible fact that
he had leprosy. Its germs had been
in the old building. Mr. Davis was so
overwhelmed with the terrible truth
that for a time he contemplated sui-
cide, but he soon submitted loyally to
the Divine will. He went to Ontario
and settled on a farm, living a little
apart from his family, until his wife
died about six years ago. Then tuber-
culosis developed and the leprosy fat-
ally progressing, he removed to Traca-
die, where he remained until death
called him home. He never regretted
going to India, bore everything with
great patience, and died confidently.

The Protestant chaplain, Rev. M. S.
Richardson, was with him the night
before he died.

He wished it to be known that the
Sisters and doctor in the Lazaretto
had treated him with the greatest
kindness, everything possible having
been done for his welfare and comfort.

The GREATEST Values

ever produced in Canada

These new SERIES 17 Studebaker cars are without any ex-
ceptions, the GREATEST automobile values that have ever
been produced in Canada. Made in Canada in the GREAT
Studebaker plants at Walkerville, they represent the enor-
mous resources and unexcelled manufacturing facilities of
one of the world's largest makers of motor cars. And dollar
for dollar of the prices, they give more real, actual, tangible
Value than any other models on the Canadian market.

The 40-horse power, 7-passenger FOUR at \$1225 absolutely
dominates the 4-cylinder market in power, size and quality.
And the 50-horse power, 7-passenger SIX at \$1450 offers
value that cannot be equaled in any other Six within hun-
dreds of dollars of its price.
We urge you to see these wonderful new SERIES 17 Stude-
bakers before deciding on any car.

Ask your Cobbler what he thinks of Red T Shoes

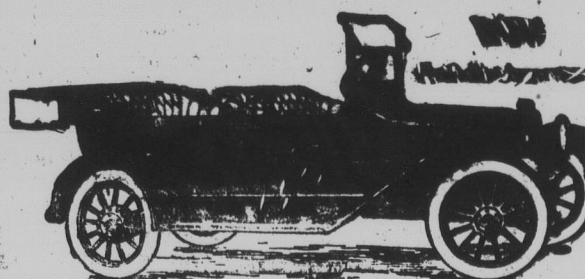

All shoes look pretty much alike when new. Only wear will reveal their true qualities. The difference you could not see between the \$2.25 shoe and the \$3.00 or \$4.50 pair will often become annoyingly plain after a short while. Since we do not make "cheap" footwear, we can afford to put that sterling quality into Red T Shoes which ensures good wear, and to secure that kind of workmanship which produces good fit and style.

The new models are now being shown at your local boot shop. Men's Shoes from \$3 to \$4.50; Women's Shoes from \$2.50 to \$4.

MANAGER ANDERSON
WITNESSED GROWTH

Bank of Nova Scotia at St. John's, Nfld., grew rapidly in few years.

The St. John's, Nfld. News of a recent date contains a lengthy description of the handsome building recently completed for the Bank of Nova Scotia in that city.

Among other things it says:—The first Bank to open for business was the Bank of Nova Scotia. It was a tiny office where the foundation of its present big business was laid, consisting of the western part of the Foran building, or that part recently used as the Manager's office, and its rearage.

From the little 10 by 12 bank of 1895 to the palatial building of 1916 is a long step, but it is the natural sequence. The small quarters became too cramped within a few weeks, and the whole of the ground floor of the Foran building was taken. In a few years the premises became too cramped to meet the ever-increasing demands of the business, and the directors resolved to erect a building of their own, and one that should do credit to their institution and to the island of Newfoundland. The site on O'Dwyer's corner was eventually selected, and in May last the work of building was commenced.

The floor space of the interior building is 40 feet by 83, leaving a convenient 10 feet passage way in the rear. The interior fittings are of the hand-somest, and an improvement on the original plans, which called for marble throughout. Instead, the walls are, for the most part, of solid mahogany, whilst the fittings and fixtures are of the most approved and up-to-date character.

The imposing entrance leads to the large office, which has been designed with a view to efficiency and convenience, as well as elegance. To Manager Anderson, Assistant Manager Young and the Bank staff, the News extends congratulations on the accomplishment of this great work, expressing the confident hope that the erection of the handsome central building will be justified by the increased volume of business which will follow. Whilst the credit of initiating and completing the work goes to Manager Anderson, to his able predecessors belongs a full meed of praise for the building up of the Bank's business and none more than they will rejoice at the success which has crowned the operations of the past 21 years.

CAPT. J. A. ROY MEETS
CAMPBELLTON BOYS

Spent Afternoon With Them Somewhere in Belgium—All Looking Fine

In writing to his brother Charles (Cec), Capt. Roy says that he had the pleasure of meeting the following Campbellton boys: Major A. E. G. McKenzie, Lieut. G. A. Mowat, Henry Arsenault, Ernest Doiron, O. Guidry, Henry Young, James Moore, Chip Duncan, Alf. Gillis, Munroe, Harry Murray, Ed. Turner, Audrey McLean, Claude Farrer, Jas. Thomas, Austin Wall, Keith, James Harris, Agents of Athol, Hill, Guil-mont, Seeley Johnston, Chas. Cooling.

He says that all the boys are looking well and are fine soldiers. Henry Young has been through twelve months of the solid fighting, and has never lost his turn in the trenches. Ed. Turner is a fine Sergeant Major and a fine soldier, in fact the whole bunch would surprise anyone, and it makes me feel good that I am from Campbellton, when I meet these fighting lads. Haven't seen Jas. Fraser yet, but expect to soon. He also has a splendid record. I can hardly express how glad I was to see the Campbellton boys, and they were all glad to see me, and they all wished to be remembered to the Campbellton people.

DAYLIGHT SAVING
FOR TEUTONS

Great Benefits Are Expected

London, April 29—A Morning Post despatch from Budapest says the daylight saving order is coming into force in Hungary, Austria and Germany, on April 30, when at 11 p. m. the clocks throughout the Central Empire will be put forward to midnight. It is estimated that the saving in lighting and power will amount to £88,000,000 in Germany and £65,000,000 in the monarchy.

VIA CANADIAN
GOVERNMENT RAILWAYS

To Manitoba and the Canadian North West

Excursion tickets will be sold every Wednesday until October 25th to Winnipeg, Regina, Saskatoon, Calgary, Edmonton and numerous other points in the Canadian North West. These tickets will be good for return within two months from date of issue. Full particulars can be obtained from any Ticket Agent of the Government Railways.

Holders of these tickets have the privilege of travelling by the new "Transcontinental Line" via Toronto, North Bay and Cochrane, Ont., to Winnipeg. Home-seekers' tickets reading via this route are good for stop-over at Cochrane, Ont., Hearst, Ont., and any intermediate station on Canadian Government Railways. Side trip tickets may also be purchased at Cochrane from points on the Canadian Government Railway east to, and including, Doucet, Que., at special low fare. These privileges will permit passengers to inspect the famous Clay-belt of New Ontario, a rich farming country, opened up by the new line of the Canadian Government Railways.

132ND BANDMASTER
Michael F. Kelly of St. John has received the appointment of bandmaster of the 132nd North Shore battalion. This news will be received with general satisfaction, as Mr. Kelly's musical ability is well known. He has devoted much of his time and energy to music. His many friends in St. John will be undoubtedly pleased to hear of his appointment, and it is safe to predict that he will rally about him a fine lot of musicians. He was at one time director of the Y. M. S. of St. Joseph orchestra, for which organization he wrote many creditable pieces of music. He will have the congratulations of a large circle of friends in that city and elsewhere in the province, and the North Shore battalion band is to be congratulated upon receiving as its head such a competent musician.

AFTER SIX YEARS OF SUFFERING

Woman Made Well by Lydia E. Pinkham's Vegetable Compound.

Columbus, Ohio.—"I had almost given up. I had been sick for six years with female troubles and nervousness. I had a pain in my right side and could not eat anything without hurting my stomach. I could not drink cold water at all nor eat any kind of raw fruit, nor fresh meat nor chicken. From 178 pounds I went to 118 and would get so weak at times that I fell over. I began to take Lydia E. Pinkham's Vegetable Compound, and ten days later I could eat and it did not hurt my stomach. I have taken the medicine ever since and I feel like a new woman. I now weigh 127 pounds so you can see what it has done for me. My husband says he knows your medicine has saved my life."—Mrs. J. S. BARTON, 1624 South 4th St., Columbus, Ohio.

Lydia E. Pinkham's Vegetable Compound contains just the virtues of roots and herbs needed to restore health and strength to the weakened organs of the body. That is why Mrs. Barton, a chronic invalid, recovered so completely. It pays for women suffering from any female ailments to insist upon having Lydia E. Pinkham's Vegetable Compound.

ATHOL

The five members of the Junior S. C. A. of Athol held a fancy work sale and tea in the school house on Monday evening, April 24th. They were assisted by the ladies of the S. C. A. for whose help in providing refreshments they are very grateful.

The sum of twenty dollars was realized and has been donated to the 132nd Battalion Band Fund. Much credit is due the girls for the energy and enthusiasm shown in their work; though weak in numbers they were strong in patriotism and the determination to "do their bit." Let us hope their success may prove an incentive to even greater efforts among a large number of our boys and girls.

PORT DANIEL GARARD-ELLIOTT

A pretty wedding took place in the Church of St. John the Evangelist, Montreal, on Tuesday, April 25th at 4 p. m., when Emily Isabel, second daughter of Mr. and Mrs. W. G. Elliott was married to George Frederick Garard, second son of Mr. and Mrs. William Garard. The ceremony was performed by the Rev. S. Lindsay. The bride wore her travelling costume of navy blue taffeta with hat to match, and carried a shower bouquet of white roses. She was given away by her father and attended by her sister, Miss Annie C. Elliott, gowned in old rose silk and carrying a bouquet of pale pink carnations. Mr. J. M. McRory of Port Henry, N. Y., acted as best man. The Bride and Groom were the recipients of many beautiful gifts, and will reside on Brooke Ave., Westmount.

BARACHOIS

There passed away at his home on Wednesday, April 26th, a man who was widely and favorably known throughout this section of the country in the person of Patrick Lawrence. A few days ago he developed pneumonia which gradually grew worse, and despite the best medical care and nursing, he was unable to withstand the attack. The late Mr. Lawrence was born 75 years ago, a descendant of one of the good old families of Barachois, where he spent the more active years of his life as a most prosperous and progressive farmer, and had been ferryman for a number of years.

There remains to mourn his loss a wife and four sons, Messrs. John, Patrick, Joseph and Edgar, and five daughters, Mrs. McGrath, Mrs. Russell, Mrs. Paulmont, Mrs. Tapp and Mrs. Comeau, all of whom were present when their father died. The funeral service was held at St. Peter's Roman Catholic Church on Friday, April 28th and was largely attended. (The church in which he had become a devout and regular communicant was a real object of his love). The body was received at his late home by the Rev. Father Plourde, the bearers being Messrs. Alphonsus St. Croix, Arthur St. Croix, Frank Bond, Patrick White, Walter and Joseph Tapp. The church was draped in black for the occasion. The music was very sweetly played by the Rev. Superiors of the convent school, and the singing was well rendered, especially by Messrs. Trachy and Tapp, whose excellent voices helped make the ceremony more impressive.

We sincerely sympathize with the family in this their sad bereavement.

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

BARACHOIS

Capt. Mercier has lately returned from a short visit here. He visited many of his old friends who are always delighted to welcome him.

Mr. and Mrs. Dallain and family expect to occupy their new residence in Grand Brulant very soon. Complete renovations have been made and the house looks exceedingly well.

Mr. Faller of New Richmond was visiting in Barachois recently.

Miss Emilda Ingroville and Miss Eunice Urquhart, who have been spending their holidays here, have returned to their respective schools in Port Daniel and Port Daniel Centre.

The many friends of Miss A. L. Maloney, who has been so ill all winter, will be pleased to learn that she is again out.

Mrs. Fios, Rebel entertained a number of friends on Monday evening when a most enjoyable evening was spent by all.

MORE RUSSIANS HAVE ARRIVED AT MARSEILLES

Paris, April 25—A second convoy of Russian troops arrived at Marseilles aboard transports today. The first force of Russians arrived at Marseilles on Thursday last week, and on Saturday passed through Lyons on the way northward, presumably for service with the French troops at the front.

The number of men in the expedition was not disclosed, although the Russian contingent was described as "a strong force."

It was intimated in despatches from Marseilles that possibly a quarter of a million men would be sent this spring from Russia to France.

Russia has more men under training than she can use on her fighting lines, and it is easier to equip them in France than in Russia.

FRENCH FOUGHT TO THE LAST MAN

Graphic Account of the Battle for Fort Douaumont Given By French Officer

Paris, April 10.—The occupation of Fort Douaumont by the Germans in March, which has been one of their most important successes during the long battle of Verdun, is described to the Associated Press by a French infantry officer in the following words:

"We had to combat detachments of the enemy that had slipped inside the fort with machine guns and a revolving cannon. At the same time we had to watch over a winding ravine opening near the church of Douaumont, through which the Germans might get through. We thus had to look two ways while we were nearly blinded by shells that furrowed the ground all about. Orders could be heard only a step away in the deafening crashes that were almost continuous. The ground quaked under the concussion. All our defence works were obliterated between two o'clock in the morning and one o'clock in the afternoon, when the Germans increased the range of their artillery fire and their infantry attacked the village. We were cut off from all communication front and rear, for every man sent out with information was a dead man.

"The Germans came out of the fort and from concealed positions had not been able to reconnoitre, and advanced through the ravine simultaneously. The men debouching from the fort were seen first. We hesitated because they wore the new helmets of our infantry. Our commandant ordered, 'Don't fire! They are French!' Then he fell with a bullet in his throat fired by the men wearing the French helmets. 'Fire! Fire!' ordered the adjutant of the battalion. 'They are Germans!'

"The loss of our commandant through this ruse, excited the fury of our men, already decided to make the supreme sacrifice.

FIGHT WITH RIFLE BUTTS.

"The battalion had had the mission of defending the village at no matter what cost. They were doubly bent up on it now, as the Germans learned when, with several of its machine guns out of action, the company fell upon masses which were menacing the left side of Douaumont. With bayonet and rifle butt our boys opened breaches in the thick ranks before them and strewn the ground with German dead. Resisting to the last man, the French held the village until overwhelmed by the weight of numbers.

"A hundred Germans advanced in the direction of a farm on the summit of a hill 800 yards south of the village. Eighty of them fell on the field under the fire of a single machine gun. The rest fled. That was our last firing until dark, at the western skirts of the village, decimating numerous groups.

"During the night we re-established our position facing east, and the Germans fortified themselves in the village. Every attempt they made to debouch during the morning of March 3 ended in more slaughter. At four o'clock in the afternoon our own heavy artillery took Douaumont for target, and the damage it worked there, plainly visible to our men, compensated our reverse of the preceding day. At nightfall two battalions of neighboring regiments lined up for the counter-attack and opened a violent fusillade. Cheers rang through the air from all sides in answer to the order—'For ward with fixed bayonets!' More cheers and choruses of the 'Marseillaise' greeted the news that soon came back that the two battalions had thrown the Germans out of the village and carried our line somewhat beyond the town.

"Again and again the Germans came back in dense masses, but the line held good beyond the town. In the morning 800 German dead lay in front of our trench.

INSTANCES OF HEROISM

"The next morning, after the usual artillery preparation, accompanied by powerful aerial torpedoes, the Germans attacked the village again. There was a heroic house to house struggle of two hours before our thin ranks were ordered to retire two hundred yards to the rear."

"The French officer who gave this description narrated also some of the incidents of heroism which he had observed, as follows:—"Quoting unconsciously the historic words of the commander of the guard, Sergeant H— walked up and down the lines of his company during the most critical moments crying 'Men of the 4th company are ready to die but never to surrender.' His men fought to the last man.

"Private S—, face to face with five adversaries in a trench, killed two with his bayonet and brought down the three remaining with bullets as they fled.

B. B. Genuine White Lead links up B. H. "ENGLISH" PAINT with a supremacy record of nearly two centuries.

LINKS IN THE B. B. AND B. H. CHAIN

1729 saw the founding of the firm of Brandram Bros., the inventors of the Brandram Process of Corroding White Lead—a process that produces a lead that has been the standard White Lead of the world ever since.

In 1906 after handling Brandram's White Lead for many years, in the Canadian market, the firm of Brandram-Henderson purchased the Brandram Bros. formulae and exclusive rights to manufacture it in Canada.

In 1909 the final link was forged when the firm decided to use B. B. Genuine White Lead in the manufacture of their B. H. "ENGLISH" PAINT and after practical tests and most careful research arrived at an exact formula guaranteed on every can under the President's signature. Thus was the chain completed.

The B. H. "ENGLISH" PAINT formula of 70 units of Brandram's B. B. Genuine White Lead and 30 units of pure White Zinc, in all tints and white with its ironclad guarantee, makes B. H. "ENGLISH" PAINT, the Quality-Service-Paint of Canada.

AFTER MEALS

When digestion fails, whether from loss of tone, climatic changes, overwork, or errors of diet, nothing so soon restores tone and healthy activity to the digestive system as the root and herb extract—Mother Seigel's Syrup. It tones and regulates the liver and bowels, and clears the system of the decayed products of indigestion—the fruitful cause of headaches.

"These," concluded the officer, "are only examples of a thousand cases of the heroism that characterized the defence of our lines around Douaumont."

"Neu-Tone" for the Walls

It is so easy and so economical to have a beautifully decorated home, with "NEU-TONE" Flat Finish.

The soft, restful "Neu-Tone" tints will delight the woman and man who appreciate refinement and delicacy in the home.

When you "Neu-Tone" the walls, you save all fuss and bother of washing and scraping the plaster to re-decorate. Simply apply another coat of "NEU-TONE" in any shade or tint desired.

"NEU-TONE" is cheaper than wall paper. It is truly economical—absolutely sanitary—can't fade, scale or rub off—AND IS WASHABLE. Soap and water cleans a "NEU-TONE" wall and takes away dust, stains and finger prints.

Marble-Its Floor Finish will withstand all the wear and abuse to which a floor varnish is subjected; it can be used on hard or soft wood floors; every can carries with it a money-back guarantee.

Production and Thrift

CANADA'S CALL FOR SERVICE AT HOME

Produce More and Save More

The Empire needs food. If you are not in the fighting line you may be in the producing line. Labour is limited—all the more reason to do more than ever before. Grow food for the men who are fighting for you. The Allies need all the food that you can produce. Every little helps. You are responsible for your own work. If you cannot produce as much as you would like, produce all you can. Work with the right spirit. Put fighting energy into your effort and produce now when it counts. The more you produce the more you can save. Producing and saving are war-service.

Make Your Labour Efficient

In war-time do not waste time and energy on unimportant and unprofitable work. Economize labour. Put off unproductive work till after the war, and, if possible, help in producing something needed now. Let us not waste labour. Canada needs it all. If possible help to feed the Allies. Make your backyard a productive garden. Cultivate it with a will. Make your labour count for as much as possible.

Do Not Waste Materials

There should be no waste in war-time. Canada could pay the annual interest on her war expenditure out of what we waste on our farms, in our factories, in our homes. Every pound of food saved from waste is as good as a pound of increased production. The way for a nation to save is for every individual to save. France is strong to-day because of thrift in time of peace. The men and women of Great Britain are not only "doing" but are learning to "do without."

Spend Your Money Wisely

Practice economy in the home by eliminating luxuries. Wasting our dollars here weakens our strength at the front. Your savings will help Canada to finance the war. Save your money for the next Dominion War issue. There can be no better investment.

BRAVE IRISH GIRL UNDER A HAIL OF SHOTS

Holyhead, April 29.—A resident of London, returning from Dublin, praised the heroism of an Irish girl, sixteen years of age, who ran from her home like a deer, in the face of a hail of snipers' bullets, to rescue wounded soldiers.

The informant said: "She grasped a wounded soldier under the arms, a stranger to her, for he had just arrived from England, and dragged him to where others stood ready to carry him to a hospital. Then back she ran for another of the stricken soldiers. Her example inspired scores. She repeatedly led nurses and doctors from a hospital, almost in the face of a rain of fire from buildings, to places where the wounded lay. Lord were the cries that she deserved a Victoria Cross."

This department is conducted by the Local Union, and is under the charge of an Editor appointed by them. This Editor assumes the responsibility for the statements and articles which appear in this column.

THE VALUE OF PRESS WORK

The pulpit and the printing press are the two great moulders of public sentiment. In early days the influence of the pulpit predominated, newspapers were fewer and were not widely read, but today the printed page reaches more through the eye than the pulpit can through the ear.

A noted writer has said. The printing press is the mightiest agency on earth for good or evil, and while the minister of the gospel standing in his pulpit has a responsible position, I do not think it is as responsible as the position of an editor or publisher.

Let us consider the circulation of the daily papers of our own Canadian cities and add to it the circulation of our weekly and bi-weekly issues and cipher if you can how far up, down and out, reach the influences of our printing press.

The mightiest of the mighty means on which the arm of progress leans.

The greatest blessing that ever came to any nation is that of an elevated literature, and the greatest scourge has been that of unclean literature, this last has its victims in all occupations and departments. It would appear that the Lord intends the printing press to be the chief means for the world's rescue and evangelization, it is the one great force in touch with the lives of people, its field is the world and its success the service of humanity. The great battle of the world will not be fought with bombs and shells but will be fought with types and presses—a purified and gospel literature triumphing over and crushing out forever that which is depraved. There is only one way to overcome unclean literature, that is by scattering abroad that which is clean, pure and healthful. What is needed is an honest, intelligent, aggressive, christian printing press. Whoever undertakes the value of press work has but grasped part of the reform problem.

The Women's Christian Temperance Union came into existence in response to the demand of the time for organized effort in temperance reform. Though small in the beginning it has stretched out its arms until, now it includes 40 departments in its organization.

The Press department is above all else an educational propaganda.

The first element in that education is to pervade through the press the public mind with the spirituality of the modern temperance movement, its deep religiousness. Then we have to show that science is our sword of great reform and law our shield, parties our enlisted soldiery and women are the reserve corps.

We have taken our place in the newspaper world. The work of the W. C. T. U. is part of the news of to-day, and we can but feel that the agitation among the clergy and the people upon the purification of the press is due to the untiring efforts of the W. C. T. U.

The arm of the press department is two fold. First to present to editors, journalists, etc., the importance of publishing temperance truth and the particular interest attaching to the progress of the W. C. T. U. as the largest and most representative organization of women philanthropists in the world.

Second, to supply all papers that would use them, with suitable articles and paragraphs of this character.

The influence of the weekly local paper upon its readers is very great. It is read as no other paper is read. In scores of families in rural districts, the only paper that comes into the home from week to week is the county paper, and whenever the reader goes to a new home this local paper goes too.

Shall we not use it then to promote the cause of temperance, clean living, and pure thinking and to keep the principles of the W. C. T. U. in the minds of those who are not of us, perhaps antagonistic to us. The voice that speaks dies on the air almost before its echoes reach us, but the firm types and black ink hold through months and years. There is no magician in this age like the clear-headed, far-sighted man or woman who impresses the thoughts that he believes are winged with God's truth, on the printed page. It is up to the Press Superintendent then to be up to time as well as up to date, if she is to inspire the confidence of the editor, who has so kindly given space to the department.

What are the material at hand with which the Press Superintendent has to work. The matters of business with which the meetings are occupied, might sometimes promote interest and even curiosity strong enough to make the readers wish to join our ranks. Then there are the different papers read and prepared by the different superintendents of departments, these assuredly become the property of the Press Superintendent to be used for her column as she sees fit. It might be easier for everyone if those papers when prepared, were written in such a manner, viz: on one side of the paper, and leaving a margin, and a good space between each line. Paragraph whenever possible. A well broken up article in attractive paragraphs, will always be read. Use plain language, unadorned short sentences and correct grammar. Then it might be well if the Press Sup. had some help from

temperance writings, from such as the Union Signal, the organ of the World's The New Voice or other papers and National W. C. T. U., the New Voice or other papers of like nature.

These papers furnish you weekly with the latest news in all branches of temperance reform and are invaluable for the press worker.

We should be grateful to those friendly men who have opened to us the use of their columns, and we should do our utmost to win and hold their respect, not only to our intentions, but our clear, practical sagacity in furnishing them suitable material with which to occupy the space they have kindly given. Let us keep our White-winger banner of truth aloft. The order to the Temperance women is "Forward, quick march!" We cannot afford to "mark time" simply. We are nearer now to win a victory than when we first believed; the day begins to dawn and the shadows flee away.

WHEN CLERGYMEN SPEAK

In favor of a remedy, it is safe to conclude that the remedy has more than usual merit. Clergymen who have used Zam-Buk have found it so excellent, that they have not hesitated to give their opinion.

Amongst them is the Rev. A. D. McLeod of Harcourt, N.B., who, in a letter written recently, refers to the remarkable popularity which Zam-Buk enjoys in the homes of the people of his parish. "Really," he writes, "I know of nothing that can compare with Zam-Buk! Having charge of an extensive mission, I meet with many sick and afflicted people, and have been amazed at the good which Zam-Buk is doing daily. For bad ulcers, old wounds, eczema, and skin diseases of all kinds, the healing powers of Zam-Buk are simply marvellous! For piles, also, it is excellent. I have known Zam-Buk give almost instant relief, and am confident if Zam-Buk were kept in every home it would save many a doctor's bill."

For injuries, Zam-Buk is equally good. Nothing cures pain, stops bleeding and draws out soreness so quickly. Being highly antiseptic, Zam-Buk prevents wounds from festering. All druggists, 50c. box, 3 for \$1.25, or from Zam-Buk Co., Toronto. Send 1c. stamp for return postage on free trial box.

Two of Our Tonic

So many customers who suffer from run down nervous condition with its consequent ills of insomnia, indigestion and general debility are being greatly helped by Zoetic—the nerve tonic, that we wish to have every ailing person in this town try this really famous remedy. It is all that a tonic should be and more than any other tonic is. It combines the most precious of health-building substances. Glycer Phosphates are the actual element of the human body in most assimilative form. You know the value of Cod Liver Oil and the invigorating effects of tonic wine. In Zoetic these are combined into an exceedingly pleasant tonic which in two weeks will bring quiet wonders in your health. If at the end of two weeks' honest trial you cannot report real progress toward health, we will refund the purchase price. Doesn't this convince you that you should start trying it today? Sold by Thomas Wran, Distributing Agent.

Today many a fellow will have the conceit knocked out of him by one or two joints of smutty stovepipe.

The Fence No Strain Can Sag

Maritime Fence remains taut and trim after years and years of hard usage. It simply cannot sag or get out of shape. Made from extra-heavy imported hard-drawn steel wire, thicker, stronger, and galvanized so it is peel-proof.

Maritime Fences are tested rigidly before leaving our factory. We know they will withstand far greater strains than any they are likely to endure. The simple lock with the bull-dog grip—never lets go.

Our Fencing is made from Standard Gauge Wire. Other makers use SCANT WIRE. WE DON'T. Full weight, full measure, 16 oz. to the pound in every case. It would pay you to act as our agent.

HAVE ARRIVED HOME
Ptes. Ross and Boswell Malcolm are at present at their home here and are being warmly welcomed. They are home on three months leave of absence, granted because of the serious illness of their father, Mr. Thos. Malcolm. While in England Ptes. Ross and Boswell acrossed James Fraser of this town and spent some time with him. One of the first visits they made on arriving here was to see Mrs. Fraser and carry James' greetings to his mother. For eleven months he has been in the trenches in France and has had very few days off, but has not yet received a scratch. He is looking exceedingly fit and every inch a soldier.

SHORTAGE OF PAPER
In many of the cities and towns throughout Canada a movement is on foot to waste up the waste paper, magazines, etc., so that they can be remanufactured into paper again. Many of the different patriotic societies are attending to the gathering up of this material. Something of this kind should be started in Campbellton. Tons of this material are yearly burned as useless waste material. The Graphic has taken up the matter and after a considerable correspondence, has found a Montreal firm which will buy this waste in carload lots only. It is necessary to have this baled. If any society is interested we would be pleased to take up the matter.

PARCEL ACKNOWLEDGED

To the Ladies of Tipperary Club,
Campbellton, N. B.
Dear Friends:

I wish to thank you one and all for the parcel which I received on coming out of the trenches. It was thankfully received and came in good time. It shows we are not forgotten by our friends at home. I have seen some of the Campbellton boys from the 26th. They are O. K. and they also received parcels, which came in handy. It helps to cheer them up, but things out here are quiet at present and we have not anything to complain of. We are well looked after, so we take it as it comes along.

Announcement

I have been appointed by the international Harvester Machinery Co. of St John to represent them in this district in place of Mr. A. C. Belle-Isle, and I will carry a complete line of all kind of farm implements etc.

As I have a large stock always on hand it will pay intending purchasers to look over the machines and get prices and terms before purchasing elsewhere.

I also carry a full line of repairs.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grownups.

WOMAN CONFESSES TO A MURDER

Vancouver, B. C., May 1—Mary Cole confessed last night that she killed Rosie Wilson, aged 35, with an axe. Both women are Indians, and quarrelled over a trivial matter.
