Ottawa, Ont., April 23.-I have witnessed many scenes in Parliament at Ottawa, but never before have I been a spectator of a more enthusiastic demonstration than that which followed Finance Minister Fielding's new tariff declarations at an early hour this morning. THE MOOSE IN HARNESS. The moose is probably the shyest animal of the deer kind, and would naturally be supposed to be the most untamable. But Peter Pruden, of New Lunnon, has a cow moose years old, which he has driven to the sleigh and is now breaking to the saddle. She is quite tame and shows very little tendency to wander away, although allowed to be at large, Mr. Pruden procured a pair from a Mr. Ladouceur, of Lac la Biche, about 3 years ago, when they were calves. Mr. Pruden at once broke them to harness, and drove them single and double. Unfortunately the bull was killed by lightning the summer before last. The cow is now about six feet high at the shoulders, and is not yet full grown .-Edmonton Bulletin.
