## THE FINEST ELECTRIC LIGHT PLANT IN THE DOMINION

This Is What Chatham Will  
Have In A Few Months  
Time

Ald. Potter Complimented  
Upon Successful Results  
Of His Splendid Work

The contract for the new electric light plant was let last night by the City Council to the Colonial Engineering Company, for the sum of \$13,000. Through this arrangement the citizens will be assured of electric lights in the future at the cost of \$21.50 per lamp on a basis of running seven hours per night. It was one of the most important and commendable strokes of business accomplished by the Council this year.

The by-law to raise \$15,000, which has been approved of by the Municipal and Railway Board, and therefore does not have to be voted upon by the people, was read a third time and finally passed, and then the Council considered the different tenders, which had been received for the work of installing the new plant. When the by-law was being put through Ald. Kerr paid a tribute to Ald. Potter, who has worked very industriously in getting this matter satisfactorily settled.

"This is indeed a satisfactory conclusion," said he, "and for it I think we are indebted to Ald. Potter, who has worked like a veteran since the matter first came up. He has got the results, and it is results that we are all after. If I were not an exceedingly modest man I would claim some of the credit myself, as it was through a question asked by me that the question of the electric light was gone into so thoroughly."

Upon arising to speak after the by-law was finally passed, Ald. Potter explained that he had received many tenders for the new plant. He thanked Ald. Kerr for the tribute paid to him, but he wished to say that of all the people who were entitled to credit, the major share should not be given to him but to Mr. L. G. Read, of the Colonial Engineering Company. This gentleman came to our city and suggested to us the plan of installing gas engines whereby the city could make a great saving on electric lights. With him, the committee went into the matter of gas engines, and the result has been that the scheme suggested and worked out by Mr. Read has been pronounced an excellent one, and it has been adopted by the committee.

"We have since asked for tenders," said Ald. Potter, "and eight have been received, including one from the Colonial Engineering Company, which is represented by Mr. Read."

The tenders were as follows:  
Struthers Wells Co., of Warren, Pa., \$13,900, not including a dynamo.  
John McDougall Co., Toronto, \$10,375, without the gas producer or dynamo.

S. M. Jones Co., Toledo, \$13,700, not including dynamo.  
Canadian Fairbanks Co., Toronto, \$12,500, not including dynamo.

Wile Power Co., Rochester, N. Y., \$15,000, not including dynamo.  
Canadian General Electric Co., \$10,000, not including dynamo or producer.

Colonial Engineering Co., Montreal, \$13,000, including dynamo and producer and all complete.

It is fair to add to the tenders without the dynamo, \$2,500 to make it compare with the tender of the Colonial Company, and thus it is seen that the tender of the last named company is the lowest.

Ald. Potter—I had thought that it might be well to throw the thing open for tenders to get uniform tenders from all of these people, but I have thought better of that since, and I have decided that we have no time to lose. We have a clear out proposition from the Colonial Engineering Company, and we can safely accept their tender. They mostly all reach the \$13,000 mark, without a dynamo, while Mr. Read's tender includes the dynamo. I don't want to spend over the \$15,000 on the building, and by accepting this tender to-night, we will be in a position to keep within these estimates, and have the finest electric light plant in Canada.

Ald. Potter then read the tender of the Colonial Company, which was a lengthy affair and very complete in every detail. Upon reading it over Ald. Potter found that the city was getting a lot of things extra that had not been noticed before, and this made the proposition all the better from the city's standpoint. It was figured out in the tender that the lights would only cost the citizens \$21.50 each per year, and a guarantee is given to this effect: Mr. Read, who is the managing director and chief engineer of the concern, offered to let the city run it themselves for a certain length of time before the plant is accepted by the city.

Ald. Potter moved that the tender of the Colonial Engineering Company be accepted.

Ald. Austin seconded the motion with a great deal of pleasure. He thought that this action of the Council marked the time when the city

Continued on Page Eight.

## Council Puts Ban On Deadly Railway Crossings

The long-suffering public are apparently about to see some definite and determined action taken by the Board of Aldermen to force the hands of the local railways to take some steps to remedy the frequent evils resulting from improperly protected crossings. This was a matter which the aldermen notified the C. P. R. they wished to take up with them some time ago, but the railway seemingly ignored the communications sent by the Mayor and the Railway Committee Chairman. At last night's meeting of the City Council, Ald. William Potter voiced the sentiments of the indignant citizens, when he said:

"We all, I am sure, feel deeply for our respected fellow-citizen, Marc Anderson, who met with such a lamentable accident at the C. P. R. crossing on Queen street Thursday night. Mr. Anderson is still confined to his home through his injuries, and his coupe was demolished. Now, this sort of accidents are becoming all too frequent in our city, and I am strongly of the opinion that this Council should take some definite and determined action at once to force the railways to make their crossings safer. The Queen street crossing is provided with a gate, but the man who tends the gate stays there only from 7 in the morning till 7:15 at night. After this hour this public death-trap is left unprotected to wreck destruction on life and property. There is a train which does considerable shunting during the evening hours, and this, with an unattended gate,

is a continual menace to life and limb. It was this train which struck Mr. Anderson. I may say that, living quite close to this crossing, I have seen several people have narrow escapes on the crossing during the evening hours. The citizens who have to drive along that street live in constant dread of this crossing. I would like to see the matter referred to the Railway Committee, and that they be asked to report on some definite action to be taken."

Ald. J. G. Kerr—In seconding Ald. Potter's motion, I would like to say that I think that the time is ripe for the Council to take up the matter of local level crossings with the Ontario Railway and Municipal Board. From this source we will get justice if other means fail. We are receiving rank treatment from the railways with regard to their crossings, and it is a shame to think that a man's life should be endangered on our public streets as Mr. Anderson's was. I am of the belief that we should ask our Railway Committee and the City Solicitors to take this matter up with the Railway Board.

Ald. James Massey, chairman of the Railway Committee, said that the committee had for a long time been trying to get in touch with the railway to have the crossing evil remedied, but seemingly with little result.

Mayor Stone said that the committee and the solicitors could not get after the railway too hard on this matter to suit him.

Ald. Potter's motion, when put to a vote, was carried unanimously.

## Alderman Put In a Very Busy Night Of Routine

Several Matters Of Considerable Importance Come Up  
For Discussion—Rate Was Not Struck—The  
Communications

The civic rate was not struck at last night's meeting of the City Council, owing to the fact, Ald. Austin said, that the estimates from the various committees of the Council had not yet been handed in.

The Civic Finance Minister asked that committees attend to this matter at once, so that the rate may be struck for sure at the next session. All of the members were present at last night's meeting. The 1907 Council tend well to business. There are very few sessions indeed at which all the aldermen are not present.

A communication from the Ontario Municipal Association, asking for a membership fee of \$15, was referred to the Finance Committee.

A joint report from the M. H. O., and the Board of Health recommend that a sewer be laid on Jahnke St. as an improvement and a sanitary necessity. Ald. Benson moved that the sewer be constructed as recommended.—Carried.

Clerk Merritt reported that the petition for a granite sidewalk on Forsyth street, and for a bit of pavement on Dover street, were neither of them sufficiently signed.

Cornelius Enright complained of a bad spot in the railway on Pattison avenue.—Board of Works.

Fire Chief Pritchard's annual report showed that during the year the department had responded to 36 alarms. The loss to buildings was \$1,987.50; to stock, \$4,137.50, making a total loss of \$6,125.00, covered by an insurance amounting to \$71,725. The total value of the buildings and stock endangered was \$150,150.00.

Pound Keeper Morrell, of North Chatham, replied to a recent complaint on the part of the Council that he had cut the hay which had been growing in the pound. He said that he was letting it grow for feed, and that the burdock which were complained of by citizens were not growing in the pound, but on Florence street nearby. He referred to the fact that last year he had made repairs to the pound which in his official capacity he was not supposed to do.

A communication was received from City Solicitors Lewis & Richards, forwarding the Ontario Municipal and Railway Board's approval of the Electric Light Extension by-law. The details of this communication have been previously published in The Planet.

A communication was received from Fred. W. Ward, complaining of language used by Street Sprinkler Chrysler. The Mayor said that the words used were so naughty that he would not read it in open Council, for fear of shocking the aldermen and the reporters.

The R. C. School Board asked for

their share of taxes from the untaxed properties of local infant industries.—Finance.

Wm. Ball made application for the position of inspector of pavements.—Board of Works.

D. J. McDonald, of the C. P. R. Hotel, wrote the Council with reference to a sewer at his hotel, which some years ago he had granted the city the use of as an outlet to the creek. As a result of the extra amount of work put upon it, the sewer often became clogged up, and he had to get the Fire Department to flush it out.—Board of Works.

A petition against the paving of Dover street was filed.

The Property Committee's report, which was read by Ald. Potter, recommended that the Council take no action with regard to the Chatham Gas Company's tender to supply the city with street lighting at \$6 per light per year.—Carried.

Mayor Stone drew the attention of the Board of Works to a defective sewer on Park avenue, about which he had several ratenayers had been complaining.

Ald. Austin drew attention to a defect in the bitulithic pavement opposite the residence of John Wandle, on Raleigh street. The pavement at this spot, he said, was hard and slippery and a constant menace to horses passing over it. He thought the paving company ought to be asked to remedy it.

Ald. Benson said that this defect had been caused through the paving being done during the heavy frosts last fall.

## PASSED AWAY

The death of R. E. Williston, of Gravel, Ont., occurred yesterday, at the General Hospital, after an illness of less than one week.

Deceased was 39 years of age, and was born at Louisville. He was married about a year ago, and was on his way home to visit his parents at Louisville when he was suddenly taken ill on the train. When they arrived at Chatham he was removed to the General Hospital. Mr. Williston was the Station Agent at Gravel for the C. P. R., and was very successful during his career. The remains were taken to Louisville for burial.

The funeral will take place tomorrow, at 11 o'clock. Interment will be made in the Louisville Cemetery.

Some folks have so much dignity that it makes them weary to bear it.

Many a preacher loses his power by pointing men the way he has never gone.

Continued on Page Eight.

## ALD WESTMAN ATTACKS THE FIVE CENT THEATRES

He Finds Very Little Support From Colleagues At The Council

Bylaw To Force Theatre Licenses Referred back To Committee

Ald. Westman got started off on a wrong track at last night's meeting of the City Council. Early in the evening he assumed the role of the general kicker, and not until the motion to adjourn was put, did he realize that he was accomplishing nothing, except the prolonging of the meeting. He should get all the credit that is coming to him, however, and the aldermen who were forced to linger unnecessarily through a tedious and oppressive session, have Ald. Westman to thank for it.

The first matter to come up, in which the chairman of the Industrial committee played a leading part, was a by-law to regulate the licensing of the music halls and the places of amusement in the city. The by-law was introduced by Ald. Westman. It was a lengthy affair with many clauses. Through his by-law, the alderman wished to enact legislation to the effect that no theatre or music hall such as that which is commonly known as Wonderland, shall be given permission to provide entertainments longer than three days at a time, without paying a license of \$200 per year. That no place of amusement where the drama, opera, etc., is presented, such as the Grand Opera House, shall give performances for more than two days in succession without paying a license of \$25 per day after the first two nights. That no indecent show shall be given in the city, and that the Chief of Police be notified to enforce this regulation. That good order be maintained through all performances in all places of amusement. That all licenses be secured from the City Clerk. That no license be granted to anyone under 21 years of age. That no license be granted for a term less than three months. That the fine for all violations of this by-law be \$50 over all costs.

The by-law was read for the first time without any comment. After the aldermen heard the clauses, Ald. Westman asked for the second reading. He was the only alderman who voted for it, and it looked as if the by-law would go by default before it got to the Council in committee where the discussion would naturally come.

Ald. Massey—I would like to know where this by-law will change the present existing conditions.

The Mayor—There is no license at the present time.

Ald. Maynell—Does the Opera House pay a license?

Ald. Austin—They pay a business tax.

Ald. Massey—Wonderland also pays a business tax, and rent.

Ald. Westman—Wonderland does not pay a license. When the people came here to establish it, they went to the Clerk to pay the license, and when they found that there was no license, they were surprised. There is not a city in Canada to-day where they do not charge a license for these houses of amusement. This city should derive a large revenue from them. We all know the taxes are high, and this is our chance to reduce them. We all know that these houses are not doing anything to uplift and benefit the people to whom they cater, especially the young boys and girls. Cases have been pointed out to me where boys have stolen scrap iron to sell, in order to get money to go to these shows. We cannot prohibit them, but we can impose a license up to the amount of \$500. We have made it reasonable by placing the license at \$200.

Ald. Kerr—Ald. Westman must remember that his remarks apply only to the first clause of the by-law. He is also asking for a license of \$25 a day on the Opera House on shows that show more than two nights.

Ald. Westman—Certain shows. Ald. Kerr—Nearly every show. Ald. Westman—Only certain shows.

Ald. Kerr—I know what I am talking about. I heard the by-law read.

After a little more discussion, it was decided to take the by-law as read a second time, and reserve the further discussion for the committee. When the Council went into committee of the whole the matter came up again, and the discussion was resumed, with Ald. Kerr in the chair.

Ald. Westman then made the announcement that he would be willing to make special regulations for the Opera House. The place he was evidently aiming at was Wonderland. He would be willing to extend the time in the case of the Opera House to one week.

Ald. Austin—Has this Wonderland been in operation before the assessors went their rounds?

Ald. Massey—Yes. They are at present paying a business tax.

Ald. Austin—Then they are on the same footing as the Opera House.

## "THAT ALL-RED FAKE."

Any adverse criticisms of Laurier's wonderful "all-red route" by the Conservative papers in Canada have been promptly attributed to partisan bigotry by the Grit organs, despite the fact that Australia openly opposes it, and even the British Government looks suspiciously upon the scheme outlined in Sir Wilfrid Laurier's glittering generalities. But it is not alone the Conservative papers in Canada which denounce the "all-red route." Here is what the Winnipeg Tribune, straight Grit, says of the scheme under the heading "That All-Red Fake":

"Usually well informed London newspapers express the opinion that the British Government will turn down the much advertised All-Red Route scheme to rid the treasuries of central and colonial Governments. This is not surprising. Indeed, it would be very surprising if the Campbell-Bannerman Government should suddenly give proof of being so easy that it could be worked into a state of jingoistic excitement sufficiently pronounced to permit it to betray the British people into an unnecessary expenditure of millions for the benefit of a corporation and a few political grafters.

"What is this over-puffed All-Red scheme anyway? What is the alleged object of promoting it?"

"It is proposed to subsidize a line of steamships that will run between England and other parts of the Empire.

"What purpose would it serve?"

"It is claimed that it would be a great patriotic scheme, tending to strengthen the bonds of Empire by increasing the trading facilities.

"Great! But is it not remarkable that all these patriotic arguments are but the introduction to a proposal to raid the public treasuries for subsidies?"

"Why should a subsidy be needed for this proposed All-Red Route? Would the thing not pay?"

"If it would not pay, it would be folly to establish it. If it would pay, a subsidy is unnecessary.

"Why is it called the All-Red Route? Is there some hidden patriotic reason for the adoption of this name? Does the virtue of the whole scheme rest in the name?"

"The term All-Red Route was invented for no other purpose than to appeal to the jingoistic sentiments of the crowd. It sounds like something and means nothing—therefore it has all the elements of a first-class political campaign fake.

"In Canada, the mere fact that Hon. Clifford Sifton has hitched himself up to the scheme should be sufficient to condemn it—but it is not. In England it seems to be subjected to coldly critical examination as a business proposition—a test that it can not endure.

"On the sound common sense of the British Government and people, then, we must once more rely for the elimination of a threatened most dangerous graft."

The Brockville Times has little doubt that the "All-red route" cry was simply one got up by the smooth Canadian Premier as a side issue to turn public attention from "wind, women and graft" scandals of his sweet-scented Cabinet Ministers. But it won't work.

"I do not oppose immigration, but I do oppose paying large salaries to innumerable political hacks, as immigration agents, to bring over here paupers and jail birds to out-vote native Canadians, in order to make dividends for politicians with a taste for speculation." From a speech made by Henri Bourassa at a meeting in Montmagny, Quebec.

## HOW'S THIS.

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. Cheney & Co., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by him.

Walding, Kinnear & Marvin, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free.

Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

The measure of a man's life is the well-spending of it—not the length.

Talk about intelligent insects, a moth can tell when a garment is all wool.

## NOTES FROM ERIEAU

Mrs. Richardson, of Victoria avenue, and Mrs. Gemmill, are visiting Mrs. Ryan at "Fleur-de-Lis."

Mr. and Mrs. Wm. Beeston, of Blenheim, are occupying Mr. W. D. Samson's cottage for a few weeks.

Miss Evelyn Park, of "Beverly Lodge," was in town yesterday.

Mr. John Northwood, William street, has purchased from Mr. Crawford a lot beautifully situated next to Jubilee.

Mrs. W. H. Bennett was in Chatham on Monday.

Mr. Milton Baggart has rented Mr. J. E. Olden's cottage, "The Mushroom," for a fortnight.

A party of twenty-three Clevelanders arrived on the "Louise" on Saturday. Some of these are at the hotels, but most of them are camping near the lighthouse.

Mr. Fellows, Sr., has a large new sail boat, the "Emerald."

The store formerly occupied by Mr. and Mrs. Moore is being repaired, and it is rumored that a Chatham merchant will soon open up a business here.

The occupants of Chicopee are the happy possessors of an organ.

The water in the lake is so high this year that bathers find it difficult to get out of the large stones. A distance of twenty feet takes one into deep water.

Miss Northwood, of Victoria avenue, is the guest of her niece, Miss Houston.

Mr. and Mrs. Wm. Brown, Queen street, were picnicking on the Point yesterday.

Mrs. H. B. Smith, of "Minnewanka," spent yesterday in the city.

Miss Rose Higley is the guest of her sister, Mrs. Wm. Beeston, at "Drumtrochty Lodge."

Mrs. John Northwood was an Erieau visitor yesterday.

## FIRE ESCAPES

"I see that the Board of Education have decided not to bother putting fire escapes on McKeough school building," said Fire Chief Richard Pritchard this morning.

"This objection on the part of the Board may bring them in for public censure, if there should be any lamentable results from a big fire over there. McKeough school is the most dangerous of the three public institutions in the city, firstly on account of the furnace downstairs, and the extremely awkward means of exit."

This is the second time that Chatham's Fire Chief has pointed the warning finger in the direction of McKeough school. The Chief is a practical man, who understands what might happen were a big fire to break out over there.

## FLOWER MISSION TEA

The W. C. T. U. held their annual "Flower Mission" tea last Thursday afternoon at the home of Mrs. Wells, Victoria avenue, and in spite of the rainy afternoon quite a number were present. The president, Mrs. Graham, explained the work of the flower mission department, and Mrs. Wells gave a reading telling the great work accomplished by one flower mission worker, Miss Frances Callaway, of Castile, N. Y. The Loyal Temperance Legion worked under her directions in gathering and packing the flowers that gladdened the hearts of thousands of city waifs who had never seen the green fields.

Miss Callaway and her L. T. L. raised money for a building in which to hold their meetings and carry on the flower mission work, and the fresh air fund brought many of the slum children to taste the beauties and life-giving air of the country.

The program included vocal solos from Miss Jackson and Miss Laura Allen, which were much appreciated; two well given recitations by Miss Haviland, and piano solos by Miss Grace Wells and Miss Doris Graham. Mrs. (Dr.) Charteris acted as accompanist.

Refreshments were served and all found Mrs. Wells an ideal hostess. The flowers given were taken to the hospital.

## Killed in Runaway.

Twoed, July 15.—Arthur Wallace, one of the most respected and well-to-do farmers in this district, died yesterday afternoon from the effects of injuries received in a runaway accident which occurred on his farm on Friday.

He was working on the mower when his team got frightened and ran away, dragging him under the mower, mangle him terribly.

## Schooner Sunk at Sea.

New York, July 15.—News of the sinking of another Boston fishing schooner was brought in Saturday, when the Russian steamer Sartox arrived, carrying the crew of the schooner Shepherd King, Capt. Brigham, which was run down and sunk off the Georges Shoals Friday morning. The Sartox struck the Shepherd King during a dense fog.

## Loose Right Arm.

Windsor, July 15.—While attempting to board an east-bound train last evening Louis Tyrell, aged 30, son of a prominent Rochester, N.Y., man, had beneath the wheels. His right arm was cut off close to the shoulder.

Even the stinky man may tell a story at his own expense.

No man is independent until he has learned to despise money.

Mr. W. Bennett was at "Outlaw's Inn" over Sunday.

Lawrence Clark, of Cleveland, arrived at the Eau yesterday and is the guest of friends at the lighthouse for the rest of the summer.

Mr. R. Fellows, Jr., leaves today for Ottawa to attend a convention of the A. F. and A. M. Hewill be absent the remainder of the week.

Crown-Attorney Smith has sold his Erieau property, located at Centreville.

Several of the cottagers were disappointed that there was no band concert last night. Many of the picnickers stayed out for the late train, and were obliged to remain over last night.

The rain last night made it much harder to discover and count the holes in the sidewalk.

A good deal of indignation was expressed by one of the Erieau fishermen on Shrewsbury Dock, on Saturday evening, when he observed the long fish nets spread out on the dock. These are supposed to be for carp only, but the anglers on the bar wonder if there is any connection between these nets and the fact that bass are scarce this year. They feel that in such a small body of water no nets should be allowed.

Mr. McVittie, of Blenheim, Fish Overseer, has issued fifty anglers' licenses to Americans this year. He has issued as many as fifteen in one day.

For some unaccountable reason the fish in the channel were greatly disturbed the other evening. The piers on both sides were lined with poor unsuccessful fishermen unable to procure a single bite, while dozens of large fish could be distinctly seen jumping several inches above the surface of the water. It was thought by some that dog fish were in the vicinity frightening their more peaceable neighbors.

## SPORT

### BASEBALL

C. F. M. WON.

The Canada Flour Mills team and the Wagon Works team played a game of ball on Tecumseh Park, yesterday afternoon, in which the former won an easy victory.

The game, from start to finish, was in favor of the C. F. M.'s, and at times it looked as though the Wagon Works would be completely shut out. The weather was bad, a drizzling rain falling through the whole game. The diamond was wet and slippery, as was also the ball.

In the first innings the C. F. M.'s made fine runnings, and in each successive innings were able to score. Robert pitched a good game throughout, but, through some mishap in throwing the ball to first base, he made a wild throw, thus allowing two men to come in.

Clark was good, as was also West, who made a home run. Grandbois, for the Wagon Works, pitched a good game. Perrott made several nice catches, and Kenney led with the bat making a home run. He landed several nice ones out to right field, and his appearance at the bat was looked for with interest during each innings. During the latter part of the game the ball and ground became so slippery that it was impossible to get along without making errors. At the end of the sixth innings the game was called off, and the score stood—11 to 8 in favor of the C. F. M.'s.

The line ups were as follows—C. F. M.—McDonald, Ward, Duff, Clements, Robert, Edenger, Clark, Dyer, West.

Wagon Works—Smith, Peek, Hicks, Myers, Grandbois, Kenney, Cooke, Wilson, Perrott.

## BRONCHIAL COUGHS

Breathe Hyomei's Healing Air and All Irritation Will Be Quickly Cured.

The most irritating and annoying form of cough is that termed bronchial. People subject to bronchial troubles whenever there is a change in the weather or they are exposed to a draft will "catch" a bronchial cough, which is a very disagreeable, irritating and annoying.

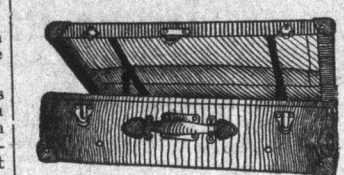

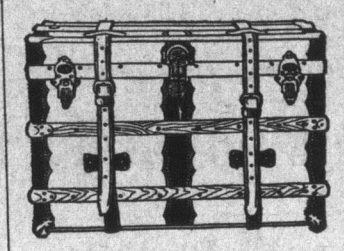

Bronchial troubles cannot be cured by stomach dosing. The medicated air of Hy-o-mei is the only treatment that reaches the affected parts and gives relief and cure. It destroys all the disease germs that are present in the nose, throat and lungs, soothes and relieves the irritated mucous membrane in all parts of the bronchial tubes and quickly overcomes the irritation.

Bronchitis is really an inflammation of the mucous membrane lining the air passages and is purely a local disease, so that it needs a local treatment like that afforded by Hy-o-mei.

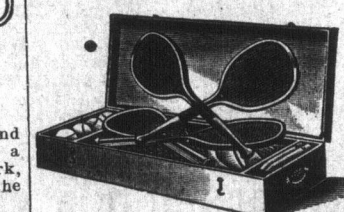

If there is any doubt in your mind as to the power of Hy-o-mei to cure bronchial troubles so that the system will resist coughs and colds, the unusual way in which it is sold by C. H. Gunn & Co. should dispel that doubt. They agree to refund the money to any purchaser of Hy-o-mei who is not perfectly satisfied with the results following the use of the remedy. They take all the risk and if the remedy does not help you it does not cost a penny, while if it cures, the expense is nominal, for a complete Hy-o-mei outfit is sold at only \$1.00.

## BRITISH JOURNALISTS.

Large Party of English Newspapersmen to Tour Canada.

London, July 13.—(C.A.P.)—Yesterday the following journalists at the invitation of President Shaughnessy sailed for an extended tour of Canada: Ernest Brain, Times; P. H. Cochran, Morning Post; A. J. Dawson, Standard; Harold Beebie, Chronicle; H. W. Smith, Daily News; Harold Gray, Pall Mall Gazette; Kenneth Barnes, Westminster Gazette; T. B. MacLachlan, Weekly Scotsman; F. Ringler, Glasgow Herald; J. A. Sanbrook, Western Mail; J. R. Fisher, Western Whig; S. Begg, Illustrated London News. Next week a party of provincial journalists, totalling nine, proceed to Canada on the invitation of the Dominion Government.

## The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every taint or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood. If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distressing stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid liver, or the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of the above symptoms and conditions, as attested by the writings of leading physicians and practitioners of all the several schools of medical practice, have been skillfully and harmoniously combined in Dr. Pierce's Golden Medical Discovery. What is absolutely true will be readily proven to your satisfaction if you will but mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.

Our greatest glory consists not in never failing, but in rising every time we fall.

## WILL BE LONG STRIKE

Mine Managers at Cobalt Refuse to Agree to Demands.

Claim Can Get All Labor They Need—Scale Ratified at Mass Meeting of Miners—Managers Think Present Rates Equitable—Western Federation Cause of the Trouble—What the Men Want.

Cobalt, July 15.—A prolonged strike is evidently in store for Cobalt, though several mine managers declare they will be able to bring in all the labor they require.

The committee of the Miners' Union was prepared to modify their schedule of daily wages as follows: Carpenters \$3.50, carpenters' helpers \$2.75, mechanics \$3.50, pipe fitters \$3, blacksmiths \$3.75, helpers \$3, engineers \$2.14 cents an hour, firemen \$7.12 cents per hour, ore sorters \$3, hammermen \$3, teamsters \$2.50, hoistmen \$2.75, cage or bucket \$3, surface laborers \$2.50, underground labor and cage or bucket \$2.75, machine helpers \$3.50, machine men and timbermen \$3.50.

The union also asked for a nine-hour shift all round, and not more than 60 cents per day for board.

The above scale was prepared by the union committee and is said to have been ratified by a mass meeting of union men, but this cannot be confirmed. However, the six union and non-union men on the miners' committee were prepared to recommend the above scale.

Managers' Statement.

The mine managers handed out the following statement: "At a meeting of the representatives of the underground mines, in session, the following resolution was adopted unanimously: 'That this body of mine managers and superintendents firmly believe that the schedule of wages offered to the employees of the Cobalt mines is eminently just and fair, and is higher than any other wage scale at present in force in Ontario, unanimously adhere to the agreement and scale of wages and hours published by themselves, and that no deviation be made from the same.'

Want to Fight Now.

The fact that the Cobalt union is a branch of the Western Federation is the cause of the trouble. The mine managers believe a struggle with this body has to come, and the sooner the better. Some mine managers who have been engaged in prior contests with this federation have strongly impressed this feeling among other managers and to-day some Canadian managers of small companies are believed to have fallen in line rather out of a dislike to fight with other managers than from a dislike to the proposed schedule. Some, however, of the superintendents of small companies are as emphatic as any in their determination to give no increase.

The mine managers are now busy preparing scales, which, they say, will be uniform, and claim that the union has taken the maximum paid at any mine in camp for each particular class of labor and used it as the minimum in their schedule.

It makes some people mad to read a book clear through before discovering that it is a story with a moral.

It is all right to hold three queens unless the game is between a man and a woman; then one will do.

You hear much praise for rural mail, but, after all, the rural female as a charmer has no trouble in holding her own.

Lightning never strikes twice in the same place except the kind that you buy in a jug.

In meeting a stranger always get busy and spring your remedy for a cold on him first.

The Great Drawback.

Sometimes when troubles multiply, like rabbits in the spring, And worry is the only thing That has me on the string, I think I'll tie me to a farm, Where grass is long and tall, But then I reconsider when The labor I recall.

It seems almost too fine a thing To be expressed in words To nestle close to nature's heart And listen to the birds, But when you take the thing in hand And try to make it pay The birds won't help you wrestle with A load of mealy hay.

It seems a light and joyous thing, When you are far away To chase the plover across the field Throughout the livelong day, But chasing homeward late at night Is not such bully fun, Particularly when your feet Weigh something like a ton.

When weary of the busy world And of its toll and strife It's nice to think about the farm And of the simple life that's there, But when we call the work to mind We're pretty apt to shrink And curl up in our easy chair And take another thought.

Just Cause, SAY ELLER AND ORR LITH.

"Why did you leave your last place?" "Sure an' the family had the bad manners, indeed, ma'am."

"Bad manners?" "Yes, ma'am. They'd say, 'Mary, attend to yer work there.' And they'd go befrunt me when I was makin', ma'am."

CURE SICK HEADACHE.

Harvard Then a College of Children.

In 1885, when elected president of Harvard, the Rev. Increase Mather refused to resign the pastorate of the North church in Boston for the sake of "forty or fifty children." Therefore he used to ride back and forth from Boston to Cambridge, charging to the college the cost of shoeing and baiting his horse and mending his saddle. Many of these students were but twelve or thirteen years old. "Individual Training in Our Colleges," by Clarence F. Birdseye.

Nurses' and Mothers' Treasure

—safest regulator for baby. Prevents colic and vomiting—gives healthful rest—cures diarrhoea without the harmful effects of medicines containing opium or other injurious drugs.

Cures Diarrhoea.

Winnipeg Fair Opens.

Winnipeg, July 15.—Winnipeg's big industrial exhibition was formally opened on Saturday afternoon by Premier Roblin. Premier Bent of Victoria, Australia, and Dr. Sproule, M.P., grand master of the fraternalism, were present at the luncheon.

BITING PAINS IN THE BACK.

Every man and woman—who has dragged the day out with back "almost breaking," and then tossed in bed from side to side in a vain endeavor to find relief from the maddening pain—would pay \$10 a box, if necessary, for Bu-Ju. The first box gives such instant relief—and afterwards takes away every trace of pain and soreness—that sufferers would not be without them at any price. Bu-Ju costs only 50c a large box—and is guaranteed to cure Kidney and Bladder Troubles, and Rheumatism. If your druggist does not handle Bu-Ju—the Gentle Kidney Pill—write The Clafin Chem. Co., Ltd., Windsor, Ont. 55

Naming the Baby.

They were choosing a name for the new baby.

"I think Emerald is too sweet," said one of the infant's aunts.

"Alfred is better and more uncommon," said another.

"How would Alvin do?" asked a third.

"Hardly," said the fond father. "You seem to be getting away from the idea that this is a baby and not a new kind of cigar."

AN HISTORIC CITY.

Is quaint old Quebec, whose winding streets and crowning battlements are pervaded with the atmosphere of departed centuries. Here is the spot where the refined luxury of the Old World first touched the barbaric wilderness of the new. A delightful way to reach this most interesting city is via the Richelieu and Ontario Navigation Co. Ask your nearest ticket agent, or write H. Foster Chaffee, A. G. P. A., Toronto Canada.

We read of Spring, Summer, Autumn and Winter medicines. As if the Stomach, Liver, Kidneys, etc., underwent a dangerous period of transformation every three months. These three month periods are merely a human arrangement for convenience in expressing the climatic variations during the year. When you feel well, leave well alone; you are well. If you feel sick, or have been exposed to contagion, take the Votran's Sure Cure. Dose—three to five drops only once a day; three days medicine cost one cent. Price, \$1.00 or 50 cents sent anywhere. If you can find a better constitutional cure, take it. We feel sure there is none. The V. S. C. Medicine Co., Limited, Stone Block, Chatham, Ont. W. K. Merrifield, Manager.

The tourist's season is now on, and we are advised by W. E. Rispin, general passenger and ticket agent, that there has some especially attractive tours for the present summer season, reading to all the summer resorts of Canada, including Muskoka Lakes, the Temagami District, Georgian Bay, Lake Superior, River St. Lawrence, and Gulf and Atlantic Coast points, and would be very pleased to furnish information to any intending passengers.

## REVIEWED BY THE DUKE

Duke of Connaught Shakes Hands With Canadians.

Tendered Compliment to Col. Gibson on Team's Fine Appearance—Scores Made by Canadian Rifleman in the Several Matches—Canada Fourth in Mackinnon Cup Contest—England Won Trophy.

Bisley Camp, July 13.—(C. A. P.)—The Duke of Connaught yesterday morning inspected the Canadians and other colonial teams paraded before the Canadian pavilion. His Royal Highness had a brief chat with each of the officers, and when speaking to Adjutant J. D. Duff Stewart he said he had not abandoned hope that some day he would inspect Stuart's regiment, the 6th Duke of Connaught's Own Regiment of Vancouver.

His Royal Highness desired the adjutant to convey his good wishes to the regiment. He shook hands with several members of the team and asked them how often they had been to Bisley, where they came from and what success they had been meeting with.

The duke recognized Sergt. Deslauriers and shook hands with him. The royal visitor complimented Col. Gibson on the fine appearance of the team.

A cable has been received here asking Sergt.-Major J. Caven and Sergt. G. S. Caven, both of the 6th Canadian Artillery, Victoria, B. C., to take part in the artillery meet at Halifax, but they will be unable to go, as they would cripple the Canadian team if they left here.

In the "Association Cup," at 200 and 600 yards, Staff-Sergt. Davidson of the 48th Highlanders, who is over here on his own account, made 33 at each range, out of a possible 35.

In the "Armourers Company," seven shots at 300 yards, Sergt. Carr scored 32 out of a possible 35.

In the "Krynok," seven shots, at 1,000 yards, Staff-Sergt. Bayles, 10th Grenadiers, scored 29.

In the "J. H. Steward Cup," seven shots at 500 yards, Bayles scored 34.

In the "Singer," seven shots at 600 yards, Bayles scored 33.

The English team carried off the "Mackinnon" trophy, Canada's team was fourth. The totals out of a possible 1,800 were:

England ..... 1,513  
Scotland ..... 1,505  
Australia ..... 1,467  
Canada ..... 1,411  
Ireland ..... 1,410

In the "Kolapore Cup," at 300 yards, the Canadians scored as follows:

Sergt.-Maj. J. Caven, Victoria ..... 33  
Staff-Sergt. A. Graham, Toronto ..... 32  
Capt. W. H. McHarg, Vancouver ..... 30  
Lieut. J. McVittie, Toronto ..... 33  
Pte. A. B. Mitchell, Toronto ..... 31  
Col.-Sergt. J. Moscrop, Vancouver ..... 31  
Sergt. F. H. Morris, Bowmanville ..... 33  
Maj. O. W. Wetmore, Clifton, N.B. ..... 32

Canada's total was 267. The totals of the other teams at this range were: Guernsey 267, India 249, Mother Country 262, Australia 260, Southern Rhodesia 240.

ANARCHISTS ARE BUSY.

Crowd Throw Fireworks Among Troopers' Horses, Causing Panic.

Toulon, France, July 15.—Eight thousand workmen, including a number of anarchists, had a meeting Saturday and demonstrated against the Government.

Towards midnight a collision occurred between the police and the workmen, several being injured on both sides.

The paraders were struggling for positions at a public concert when the police charged them.

Later it was necessary to call upon the soldiers to aid the police.

The crowd threw fireworks among the troopers' horses causing a panic. At Montpelier marching workmen and their sympathizers, singing anarchistic airs, stopped in front of the barracks and acclaimed the soldiers, whom they invited to join in the procession and demonstration.

The troops were not allowed to mingle with the celebrators, who were not disorderly.

At a mass meeting the workmen condemned the Government and expressed sympathy with the South of France.

THE SCHOONER.

Where the Fore and After Beasts the Square Rigger.

The ability of the schooner to meet the requirements of present day conditions, while the square riggers have been found wanting, can be readily understood when we take into consideration the numerous advantages possessed by the fore and aft rig that are essential to the ideal carrier.

Operating expenses, that prime factor in all transportation problems, is here reduced to a minimum, for there is no motive power so cheap as the free winds of heaven and no other craft so well adapted to utilize and control this force. The sails are of handy form and can be readily handled from the deck by a handful of men or with steam power if desired. The schooner can sail several points nearer the eye of the wind than a square rigger is able to do.

Built on the old clipper model, they sail like writers and owing to their peculiar construction can be readily loaded and discharged. They require but little ballast and having no heavy top hamper can, if necessary to the trade, take on immense deck loads.

In the lumber traffic of the Pacific northwest we find these vessels leaving port with huge deck loads towering ten to fifteen feet above the rail. Occasionally they get caught in a blow and have to sacrifice a portion of the deck load, but where one meets such a mishap dozens reach their destinations safely and land their cargoes intact.—James G. McCurdy in Outing Magazine.

Those who own a "Nordheimer" are the only ones who can really appreciate to the fullest sense the wonderful, pure, sweet, brilliant, yet powerful tone of the peerless "Nordheimer" piano. May we not have the pleasure of a talk with you, with the object in view of placing "Nordheimer" in your home?

Our Mr. R. V. Carter will visit Chatham frequently in our interest and will be pleased to furnish you with any information you may desire. Correspondence addressed to him in care of the Garner House will receive careful attention.

NORDHEIMER'S

LIMITED, LONDON

As now made, Ayer's Sarsaparilla does not contain the least particle of alcohol in any form whatever. You get all the tonic and alterative effects, without stimulation. When a stimulant is needed, your doctor will know it, and will tell you of it. Consult him freely about our remedies. We have no secrets! We publish the formulas of all our preparations.

J. C. Ayer & Co., Lowell, Mass.

No more Alcohol

A Thing of Many Names.

The Thames has been the cause of much controversy. Its name has been variously stated as Tameses, Tamesa, Tamis, Tamisia, Thamesis and finally by its true name, the Thames.

Thames, Historians trace this error to an early attempted division of the Latin word Tamesis into two words, Tame and sis, suggested perhaps by the existence of the Tame in Buckinghamshire. The Saxons called it the Thames, ancient maps and documents designating it Thamesis Fluvium.—From "In Thamesland."

Minard's Liniment cures Colds, etc.

A Thing of Many Names.

The Thames has been the cause of much controversy. Its name has been variously stated as Tameses, Tamesa, Tamis, Tamisia, Thamesis and finally by its true name, the Thames.

Thames, Historians trace this error to an early attempted division of the Latin word Tamesis into two words, Tame and sis, suggested perhaps by the existence of the Tame in Buckinghamshire. The Saxons called it the Thames, ancient maps and documents designating it Thamesis Fluvium.—From "In Thamesland."

Minard's Liniment cures Colds, etc.

Only a man with a heap of money can afford to act as though he hadn't a cent.

Some people get so used to trouble that they would be lonesome without it.

### PROBABILITIES.

Special per G. N. W.

Toronto, July 16.—11 a. m.—Moderate south and west winds, fair and warm to-day and on Wednesday, a few local thunderstorms.

### LOCAL

J. D. Shaw, of Rodney, spent yesterday in this city.

A. McLaren, of Stuart, was a city visitor yesterday.

Dr. Crookshank, of Blenheim, was a city visitor yesterday.

Loraine Oldershaw, of Toronto, is in the city visiting friends.

Mr. Will Mellish is visiting his mother, on Cross Street, for a few days.

Quite a crowd took in the Park St. S. S. excursion to Belle Isle this morning.

Miss Mabel O'Rourke is spending the week in Raleigh, the guest of her cousin, Miss Mae O'Rourke.

Miss Lettie Burwell has returned home, after a month's visit with friends in Quebec and St. Thomas.

John Collins, of Rochester, New York, a former C. B. O. student, returned home, after spending a week with friends in this city.

Mr. C. J. Moore and family, of Comox, B. C., has returned home after spending a week with his brother, T. E. Moore, Stanley Ave.

Mrs. Ballantine and daughter, Gracebridge, who have been visiting her mother, Mrs. Jas. Moore, Prince Street, returned home today.

Mr. Ed. Palmer and bride, who have returned from their honeymoon trip, and have been spending a few days with Mr. Palmer's mother on Edgar street, have returned to their home on Windsor avenue, Windsor.

### TORTURED BY BURGLARS

Buffalo, July 16.—Because he would not deliver to two burglars the keys of his employer's house, Frank Smith, 45 years old, a coachman in the employ of John Gehm, a wholesale meat dealer, was horribly tortured Sunday morning and left for dead by his assailants.

Smith slept in a room above the barn at the rear of Gehm's house. He was awakened shortly after midnight by two masked men, who demanded the keys of the house. Smith refused to give them up and the burglars then began a series of revolting tortures. Smith's tongue was slit with a knife and the soles of his feet were slashed in a score of places until he became unconscious. The man then threw Smith down the stairs, where he was found the next morning.

The matter was kept a secret by the police until yesterday, when one arrest was made. The prisoner gives his name as Taylor.

### POISONED BY CANNED SALMON.

Two Families of Persons Saved by Prompt Medical Aid.

Belleville, July 16.—William Merion and family and Iven Clancy and family, eight in all, residing in the Township of Rawdon, were on Sunday evening taken suddenly ill after partaking of supper. All were poisoned by eating canned salmon, and only medical aid being near at hand saved their lives. Clancy is in a dangerous condition, but the remainder are doing well.

### BALLOONIST DROWNS.

Fatal Ending to First Ascent—Descended in Lake.

Kalamazoo, Mich., July 16.—Chas. Sann, aged 30, of Battle Creek, was drowned in Gull Lake Sunday on making a parachute drop from his first ascent at a balloon ascension.

Small boats reached the parachute quickly, but Sann's body had gone to the bottom.

Descending he was heard to say: "Get a boat; I can't swim."

## STRANGERS IN STRANGE LAND

Eleven English Families Dumped Into Chatham Today

Wretched scenes Presented at The C. P. R. Depot.

Homeless, friendless, almost penniless, their children crying for bread, strangers in a strange land, eleven families of tired, worn-out and half-starved Englishmen arrived in the city this morning at one o'clock. The land of plenty which they had been told of before coming out here had mighty few allurements to men, women and children whose stomachs were empty, and after they had spent over thirty-six sleepless hours in railway coaches and stations.

The C. P. R. depot presented a scene of extreme squalor and wretchedness when a Planet reporter called around there at noon to-day. Small children were rolling about the floors, tired women walked about with babies in arms, and pessimistic, dejected-looking men lounged about complaining about the hardness of their lot. All appeared to be healthy and the men were stalwart looking fellows, whom the farmers of this section would be glad to get hold of now that the harvest is coming on.

"We were sent out here by the Central Bureau of the Unemployed located on Temple Avenue, the Strand, London, England," one of them told the reporter. "We understood that we were to get work as soon as we arrived here, but here we are. We have been here since one o'clock this morning waiting. We haven't had our clothes off since two o'clock Sunday morning, when we left Montreal. We were kept at Montreal from 8 o'clock one morning till 5.30 the next morning. Some of our number have been fortunate enough to get work since we arrived here, but the rest of us had to wait. Some cheese and milk and bread has been brought to us by charitable individuals since we arrived, else we would have had nothing to eat."

Immigration Agent Waugh, who was afterwards asked that all of the Englishmen will get employment. "Each one of them was given about \$25 on their arrival in Montreal. This was to pay expenses till they secure work, so that they are not so badly off. I wasn't notified of their coming, and I was thus somewhat handicapped in getting them employment," said he. "But I am glad to say that we have already got employment for some of them, and they will be all out of here by to-night. Some of them have to wait here for their baggage anyway."

"These people will make good citizens after they have been out here for a little while. They are all healthy, honest people. Look at that little girl over there. Isn't she a pretty child? You will notice they are all clean, well-kept people despite their present unhappy circumstances."

Reduced rates to Detroit and return, going every Saturday and Sunday, returning up to Monday night, was \$1.00, is now \$1.50; C. P. R. is also making rate of \$1.00 going every Thursday, good to return until following evening. For further information ask C. P. R. ticket agent, corner of King and Fifth streets.

Give others credit for the good they do even if none of it reaches them.

Everything that a man can honestly get in this world is the gift of God.

Doing right at any cost is the essence of heroism.

# Another Lot of Bargains at the Expansion Building Sale

## More Room, More Room at Once

This week the walls on the second story facing market square come down to be remodelled and made ready to receive the additional floor. We lose a large amount of shelving and floor space as a result and the goods must find other quarters. We prefer to place them in your home, to overcrowding the already congested stock. It will pay you well to come in and see the many special values that do not get mentioned here.

## A 19c Sale of Muslins

The story is a short one. On Tuesday morning we place on sale all our stock of Fancy Colored Muslins that sold at 25c per yard and upwards to 50c; not a single yard is reserved, all at the one price for immediate clearance at only 19c a yard.

## Fancy Parasols Must Go

Tuesday morning every fancy parasol in the store gets a splendid quick march ticket on it, marked this way

## DISTRICT

## BLenheim

Blenheim, July 16. — Mr. Glen Crookshank, M.D., of Buffalo, is visiting his parents, Mr. and Mrs. J. S. Crookshank, Blenheim.

Reeve Denholm, of Blenheim, is at present away on a business trip to Tara, Co. Sluce. He will be absent for a couple of weeks.

The many friends of Dentist G. J. Gibb are glad to see that he is so far recovered as to be able to be round town as usual.

Quite a number of Blenheimites were disappointed last night when it was understood that, owing to the rain, there would be no Band Concert at Erieau for that night.

Misses Lela Crookshank and Eva Green were Erieau visitors over Sunday, the guests of Mr. and Mrs. Ormond Morris, at "Brank-some Lodge."

Mr. R. L. Goswell's rink of Local Bowlers, Messrs. W. G. White, J. W. Shillington, E. Ferguson, and R. S. Goswell, skip, left for London yesterday morning, "to take part in the Bowling Tournament" which is being held there at present.

Mr. John Peters, who has held a position in T. B. Shillington's store for some years, leaves this morning for Hamilton, where it is his intention to go into the grocery business with his nephew, Mr. Eric Bousnall, also formerly of Blenheim. It is understood that as soon as he is established his mother and sister will remove to Hamilton also.

The town was startled on Sunday morning, about 8.15 o'clock, by hearing the fire alarm rung. Smoke was discovered coming out of the back of Mr. C. Jeffrey's store. After investigating it was discovered that fire had broken out from some unknown cause in the rear room, at the back of the cellar. The hose from the fire engine was brought into play, and the fire was soon extinguished, but not without considerable damage being done by the smoke and water. The store is closed at present awaiting the inspection of the insurance company.

## DRESDEN

Dresden, July 15. — Mr. Harold Hughes and his friend, Mr. Mc-Avoy, of St. Catharines, will spend Sunday with the former's parents, Mr. and Mrs. Wm. Hughes.

Miss Eva Aikin left on Monday for Red Deer Alberta, where she will be the guest of Mr. and Mrs. Stan. Carscallen for six weeks.

Mrs. Will Winter, wife of the late Dr. Winter, of Princeton, Ohio, and her two children visited with relatives in town this week.

Mrs. Will Beaver and son, of Windsor, visited Mr. and Mrs. Alex. Cuthbert this week.

Will Cuthbert, of Walkerville, spent Friday with his parents, Mr. and Mrs. Alex. Cuthbert.

Mr. J. Watson, of the Canadian Bank of Commerce staff, is taking his holidays.

Mr. W. N. Harrison, B. A., of St. Mary's, spent Sunday with Dresden friends.

Miss Gertrude Merrill, of Windsor, was the guest of Miss McKay a few days this week.

There were 475 tickets sold at the Dresden station for the Chatham celebration of the 12th of July.

Mrs. (Dr.) Webster, of Chicago, is Chicago, is the guest of her parents, Mr. and Mrs. I. B. Webster.

The Misses Maxwell, of Detroit, are visiting their grandmother, Mrs. Margaret Aikin.

Miss Maud Waterworth spent Friday and Saturday in Detroit.

Mr. and Mrs. James Burns, of Chatham, spent Sunday with friends in town.

Dr. Irvine Hayhow and son, of Detroit, spent Sunday with Mr. and Mrs. Chas. Aikin.

Mr. Lorne Webster and Mr. Thos. King, who are undergoing treatment in Chatham spent Sunday in town.

Mrs. Elsie Hazlett, of Chatham, spent Sunday with her daughter, Mrs. Robert Brandon.

Herman Green, of Toronto, and Laurie Wamsamaker, of Detroit, are visiting friends in town.

Mr. W. N. Harrison, of the Trad-er's Bank, St. Mary's, spent Sunday in town.

## ANOTHER INFANT PRODIGY.

Wonderful Dexterity of a Girl Pianist.

Yet another infant prodigy, in the person of little Ruby Taylor, of Bristol, has appeared upon the horizon of the musical world.

Though barely nine years old, Ruby is really a marvelous pianist. Seated at the piano, she looks by far the youngest of all the musical mites; her little feet can hardly reach the pedals and her fingers are far too small to stretch the octave. Yet she manages to play the works of a composer like Chopin with remarkable dexterity and effect, actually thinning down the octave passages to the compass of her tiny hands.

Her extraordinary musical memory and her command of the piano is evidenced by a strange feat she is able to perform. Blinded, with the keyboard covered with a cloth, she can render with absolute accuracy passages requiring the most perfect execution.

At a recent test of these extraordinary powers, she played one of Chopin's most difficult waltzes, following it up with a really brilliant rendering of Benjamin Godard's "Valse Chromatique."

Only Practices When in the Mood. This, of course, is only trick-work, explained her father, Mr. Taylor, "but it helps to show that the little one has a good memory, and has command of the keyboard."

Ruby is not forced to play. She has lessons a week from Miss Ethel Tharmadage, a Bristol pianist, and she only practices when she is in the mood.

Perhaps the most amazing infant prodigy of whom there is any record was a mysterious child named Filippa, aged three. The performance that this marvellous infant gave in Paris in 1838 is spoken of with enthusiasm. Moreover, Filippa was referred to in the chronicles of the time as "the distinguished solo violinist."

A considerable number of famous musicians and composers were prodigies in their childhood. Mozart was dubbed the "Kleiner Hexenmeister," or "little magician," by his Emperor when he was only six. At seven Joseph, the great violinist, had already achieved fame. Alfredo Piatti was offered the choice of becoming a violinist or a cobbler when he was five. The choice of the former, and two years later had created his reputation. Mark Hambourg was also an infant prodigy sixteen years ago.

## WILLIAM OF ORANGE.

The Statue of Him Presented to King Edward by Kaiser Wilhelm.

Much attention has been directed to the gift from the German Emperor to the King of England of a statue of William of Orange. It is a bronze figure nine feet high and the work of the German sculptor Heinrich Baake, who was assisted in the modeling of the details of the costume, so as to make them historically correct, by the Kaiser himself. A duplicate is to be erected on the terrace of the royal palace in Berlin. The site chosen for the statue presented to King Edward is in front of Kensington Palace, and one of the buildings of this palace is the historic structure known as the Orangery. Sir Henry Campbell-Bannerman, the British Premier, could not refrain from a little pun when in informing the House of Commons of the German Emperor's gift he alluded to the fact that most appropriately the statue of William of Orange would stand "in the neighborhood of the orangery."

England's Population. Under the authority of the registrar-general there will be shortly published (says The Pall Mall Gazette) the general abstract of marriages, births and deaths registered in England and Wales in the year 1906. From this abstract it appears that the registered population enumerated on April 1, 1906, in England and Wales, was 32,887,563. This total had increased in the middle of 1906 to 34,547,016. Last year the number of marriages taking place in England and Wales was 268,324, while the number of births was 304,281, this total being made up of 478,747 males and 467,044 females. As against this number of births there were 503,715 deaths—273,978 males and 229,743 females. Taking London by itself we find that the enumerated population, which was 4,536,429 in April, 1901, had increased to 4,721,337 in the middle of 1906. There were in London last year 40,412 marriages, 235,628 births, and 71,912 deaths.

## Poultry Notes.

"Duck eggs lose their fertility very rapidly, hence should be comparatively fresh when placed in an incubator or under a hen.

Cleanliness in the poultry yard is worth a whole medicine chest full of remedies in preventing disease.

Whenever young chickens are taken from the nest while the hatch is in progress care must be taken that they do not become chilled, night or day.

The busy hen is the one that lays the eggs.

## Growing—and Still Growing

Canadians know, by facts and figures, that their own best interests are served by insuring in

They know that the policy-holders own everything—control everything—get everything.

They know that this Company is gaining in financial strength every day. And they have daily proof of the wisdom of taking out insurance in a company which can show such progress as this:—

Gain in Income in 1906 . . . \$ 115,904.22  
Gain in Assets in 1906 . . . 1,089,447.69  
Gain in Surplus in 1906 . . . 251,377.46  
Gain in Insurance in 1906 . . . 2,712,453.00

yet the expenses were \$10,224.36 LESS than in 1905.

Write for the 37th Annual Statement to any of the Company's Agents or to  
Head Office, Waterloo, Ont.

**GEO. H. REDPATH,**  
GENERAL AGENT, CHATHAM.

## COMES TO BE CONVINCED.

Keir Hardie Not Favorable to Emigration to Canada.

London, July 15.—Keir Hardie, who sailed Saturday, said he was going to find out whether the efforts which are being made to induce people to go to Canada are justified by the facts. Prima facie he is a strong opponent of organized emigration, and refused to be charmed by the prospect of Canada's empty territories so long as there are three million of acres of good land in England idle for want of men to till them.

## WHEN CHILDREN ARE SICK

They eat something that disagrees, catch cold, have cramps or colic. If there is pain just apply Nerviline—it's good to rub on, and for the inside it's most comforting. Effective and pleasant, you can't find a household panacea to equal Poison's Nerviline. Used with satisfaction for half a century and in better demand every day because it does stop pain, ease suffering and cure the thousand and one ills that constantly arise in the family. Large bottles at all dealers for 25c.

## Five Cents Starts a Riot.

Rosnoke, Va., July 15.—Rosnoke is quiet after four hours of rioting Saturday night, when a mob wrecked nine Greek restaurants and three Greek butchery establishments and two Syrian shops.

The riot was caused by a dispute about five cents between a Greek employed in a Greek restaurant and an American who went there to buy a sandwich.

The great and growing popularity of Dr. Pierce's Golden Medical Discovery is due both to its scientific compounding and to the actual medicinal value of its ingredients. The publication of the names of the ingredients on the wrapper of every bottle sold, gives full assurance of its non-alcoholic character and removes all objection to the use of an unknown or secret remedy. It is not a patent medicine nor a secret one either. This fact puts it in a class all by itself, bearing as it does upon every bottle wrapper The Badge of Honesty, in the full list of its ingredients. Many years of active practice convinced Dr. Pierce of the value of many native roots as medicinal agents and he went to great expense, both in time and money, to perfect his own peculiar process for rendering them both efficient and safe for tonic, alterative and rebuilding agents.

The "Golden Medical Discovery" cures weak stomach, indigestion, or dyspepsia, torpid liver and biliousness, ulceration of stomach and bowels and all catarrhal affections no matter what parts or organs may be affected with it.

Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Much imitated but never equalled. Candy. One to three a dose.

## An Unexpected Shot.

"My dear," said the caller, with a smile, to the little girl who occupied the study while her father, an eminent literary man, was at dinner, "I suppose you assist your father by entertaining the bores."

"Yes," replied the little girl gravely. "Please be seated."

## CUTS UP THE DEFENCE

State Brings Startling Rebuttal Evidence in Haywood Trial.

Witnesses For Accused Miner Scored By Prosecution—Confess to Participation in Various Crimes—One Was Insane—Warrant Issued Against Physician For Perjury—Orchard's Partner On the Stand.

Boise, Idaho, July 15.—There were startling developments in the trial of William Haywood for the murder of Frank Steunenberg when the state began its rebuttal Saturday.

One witness confessed to participating in a labor riot resulting in the death of two men, and the record of a witness for the defence, proving his conviction for murder in the second degree, was introduced, and the proof of another having been sent to the insane asylum on the information of his neighbors, was offered. The admissibility of this last was argued, and the court will hand down a decision this morning.

Finally shortly after court adjourned for the day, information was sworn to and a warrant for perjury was issued against Dr. I. L. McGee, a physician at Wallace, Idaho, who was one of the witnesses for the defence.

A crowded courtroom showed close attention to the second session of the trial, when William Dewey, a witness, in rebuttal for the state, confessed to active, armed participation in the destruction of the Bunker Hill and Sullivan concentrators at Wardner on April 2, last, 1899, when two men were killed in a riot of a thousand men. Harry Orchard began his series of crimes at Wardner, where, he said, he lighted one of the fuses which started the explosion, and he swore that William F. Davis, known among his fellows as "Big Bill" Davis, led the mob.

Witnesses for the defence, however, swore that Orchard was not at Wardner on April 2, 1899. Davis himself has sworn that he was elsewhere, and has positively denied any connection with the crime, for complicity in which Paul Corcoran was tried and convicted and some dozen men, including Davis himself, were indicted. Davis on the stand admitted that he went into hiding immediately after the rioting.

Dewey swore that not only did Davis accompany the mob to Wardner, but that he served out guns and ammunition to the union men gathered in the hall at Burke before they went to Wardner, and was one of the leaders of the column that advanced on the concentrator before the work of destruction began.

With downcast eyes and fingers nervously picking at the braiding around the rim of a gray sombrero, Dewey told it all. He was repeated, by request, to raise his voice, and with a quick glance at counsel, he complied, only to relapse into almost inaudible tones.

Under the provocation of a sneering cross-examination by E. J. Richardson, Dewey rallied and even became combative; but throughout the recital, he gave evidence of remorse. Under the same cross-examination Dewey told why he had come to Boise to confess after eight years of silence. He had been a miner in Colorado for several years, he said, and had even risen to a town marshalship. "What promise of immunity of punishment was given you, before you decided to make confession of the crime? What reward will you receive? What induced you to make this statement now after all these years?" were some of Richardson's questions.

"None," was the laconic reply to the first two questions, but to the last one, "I read Orchard's confession."

"You saw how well he was treated and decided to get a little of it?" sneered Mr. Richardson.

"It was nothing of that kind," responded Dewey quietly. "I thought I ought to help along with the doing of justice."

Dr. McGee was also one of the witnesses who swore that Orchard was at Mullin on the day of the explosion at the Bunker Hill and Sullivan concentrator.

Ten witnesses in rebuttal were examined. Most of them were called to disprove statements as to Orchard's movements in North Idaho, and as to the disposal of his interests in the Hercules Mines.

One of the most interesting witnesses was August Paulson, once a poor miner partner of Orchard's in the Hercules Mine. He retained his interest in the mine for five years until the mine became one of the richest in the country and is now rich. Orchard swore that he planned to kidnap Paulson's children and extort a ransom of \$30,000. Paulson was called to show that Orchard disposed of his interest in the mine some time before he left Idaho.

Counsel for the state expect to finish the rebuttal by Tuesday evening or Wednesday at the latest.

Orchard's Grandfather Insane.

Boise, Idaho, July 15.—Last night the Haywood defence says it has discovered new evidence to show that Orchard's maternal grandfather, formerly a resident of Canada, was a maniac on the subject of crime.

Drank Carbolle Acid.

Ottawa, July 15.—Mrs. W. H. Farr, wife of the proprietor of the Oxford Cafe, drank carbolle acid last night and died.

Her husband had gone for a drive and she, with her little girl, visited a nearby drugist, purchasing carbolle acid to put in the sink, she stated.

About 9 o'clock she was found dead in her room.

Six Killed; Twenty Hurt.

Knoxville, Tenn., July 15.—A long-distance telephone message from Johnson City, Tenn., says:

Six persons met instant death, and twenty were injured when east-bound vestibuled train No. 42, on the Southern Pacific Railway, collided with a switch engine one mile west of Johnson City at 7.30 last night.

## RED ROSE TEA

The Expert Tea Taster is the one who knows the real value of Red Rose Tea and uses it as a standard to judge other teas by. Wouldn't you like to judge it for yourself? It is the tea that has that rich, fruity flavor—just what pleases the expert tea taster. Ask your grocer to send you a package to-day.

## THE FINEST ELECTRIC LIGHT PLANT IN THE DOMINION

This Is What Chatham Will  
Have In A Few Months  
Time

Ald. Potter Complimented  
Upon Successful Results  
Of His Splendid Work

The contract for the new electric light plant was let last night by the City Council to the Colonial Engineering Company, for the sum of \$13,000. Through this arrangement the citizens will be assured of electric lights in the future at the cost of \$21.50 per lamp on a basis of running seven hours per night. It was one of the most important and commendable strokes of business accomplished by the Council this year.

The by-law to raise \$15,000, which has been approved of by the Municipal Council, and thereupon the people, was read a third time and finally passed, and then the Council considered the different tenders, which had been received for the work of installing the new plant. When the by-law was being put through Ald. Kerr paid a tribute to Ald. Potter, who has worked very industriously in getting this matter satisfactorily settled.

"This is indeed a satisfactory conclusion," said he, "and for if I think we are indebted to Ald. Potter, who has worked like a veteran since the matter first came up. He has got the results, and it is results that we are all after. If I were not an exceedingly modest man I would claim some of the credit myself, as it was through a question asked by me that the question of the electric light was gone into so thoroughly."

Upon arising to speak after the by-law was finally passed, Ald. Potter explained that he had received many tenders for the new plant. He thanked Ald. Kerr for the tribute paid to him, but he wished to say that of all the people who were entitled to credit, the major share should be given to him, to Mr. L. G. Read, of the Colonial Engineering Company. This gentleman came to our city and suggested to us the plan of installing gas engines whereby the city could make a great saving on electric lights. With him, the committee went into the matter of gas engines, and the result has been that the scheme suggested and worked out by Mr. Read has been pronounced an excellent one, and it has been adopted by the committee.

"We have since asked for tenders," said Ald. Potter, "and eight have been received, including one from the Colonial Engineering Company, which is represented by Mr. Read."

The tenders were as follows:  
Struthers Wells Co., of Warren, Pa., \$13,900, not including a dynamo.  
John McDougall Co., Toronto, \$10,375, without the gas producer or dynamo.  
S. M. Jones Co., Toledo, \$13,700, not including dynamo.  
Canadian Fairbanks Co., Toronto, \$12,500, not including dynamo.  
Wile Power Co., Rochester, N. Y., \$15,000, not including dynamo.  
Canadian General Electric Co., \$10,000, not including dynamo or producer.

Colonial Engineering Co., Montreal, \$13,000, including dynamo and producer and all complete.  
It is fair to add to the tenders without the dynamo, \$2,500 to make it compare with the tender of the Colonial Company, and thus it is seen that the tender of the last named company is the lowest.

Ald. Potter-I had thought that it might be well to throw the thing open for tenders to get uniform tenders from all of these people, but I have thought better of that since, and I have decided that we have no time to lose. We have a clear cut proposition from the Colonial Engineering Company, and we can safely accept their tender. They most fully reach the \$13,000 mark, without a dynamo, while Mr. Read's tender includes the dynamo. I don't want to spend over the \$15,000 on the building, and by accepting this tender to-night, we will be in a position to keep within these estimates, and have the finest electric light plant in Canada.

Ald. Potter then read the tender of the Colonial Company, which was a lengthy affair and very complete in every detail. Upon reading it over Ald. Potter found that the city was getting a lot of things extra that had not been noticed before, and this made the proposition all the better from the city's standpoint. It was lights would only cost the citizens \$21.50 each per year, and a guarantee is given to this effect: Mr. Read, who is the managing director and chief engineer of the concern, offered to let the city run it themselves for a certain length of time before the plant is accepted by the city.

Ald. Potter moved that the tender of the Colonial Engineering Company be accepted.

Ald. Austin seconded the motion with a great deal of pleasure. He thought that this action of the Council marked the time when the city

## Council Puts Ban On Deadly Railway Crossings

The long-suffering public are apparently about to see some definite and determined action taken by the Board of Aldermen to force the hands of the local railways to take some steps to remedy the frequent evils resulting from improperly protected crossings. This was a matter which the aldermen notified the C. P. R. they wished to take up with them some time ago, but the railway seemingly ignored the communications sent by the Mayor and the Railway Committee Chairman. At last night's meeting of the City Council, Ald. William Potter voiced the sentiments of the indignant citizens, when he said:

"We all, I am sure, feel deeply for our respected fellow-citizen, Mrs. Anderson, who met with such a lamentable accident at the C. P. R. crossing on Queen street Thursday night. Mr. Anderson is still confined to his home through his injuries, and his coupe was demolished. Now, this sort of accidents are becoming all too frequent in our city, and I am strongly of the opinion that this Council should take some definite and determined action at once to force the railways to make their crossings safer. The Queen street crossing is provided with a gate, but the man who tends the gate stays there only from 7 in the morning till 7:15 at night. After this hour this public death-trap is left unprotected to wreck destruction on life and property. There is a train which does considerable shunting during the evening hours, and this, with an unattended gate,

is a continual menace to life and limb. It was this train which struck Mr. Anderson. I may say that, living quite close to this crossing, I have seen several people have narrow escapes on the crossing during the evening hours. The citizens who have to drive along that street live in constant dread of this crossing. I would like to see the matter referred to the Railway Committee, and that they be asked to report on some definite action to be taken."

Ald. J. G. Kerr-In seconding Ald. Potter's motion, I would like to say that I think that the time is ripe for the Council to take up the matter of local level crossings with the Ontario Railway and Municipal Board. From this source we will get justice if other means fail. We are receiving rank treatment from the railways with regard to their crossings, and it is a shame to think that a man's life should be endangered on our public streets as Mr. Anderson's was. I am of the belief that we should ask our Railway Committee and the City Solicitors to take this matter up with the Railway Board.

Ald. James Massey, chairman of the Railway Committee, said that the committee had for a long time been trying to get in touch with the railway to have the crossing evil remedied, but seemingly with little result.

Mayor Stone said that the committee and the solicitors could not get the railway too hard on this matter to suit him.

Ald. Potter's motion, when put to a vote, was carried unanimously.

## Alderman Put In a Very Busy Night Of Routine

Several Matters Of Considerable Importance Come Up  
For Discussion--Rate Was Not Struck--The  
Communications

The civic rate was not struck at last night's meeting of the City Council, owing to the fact, Ald. Austin said, that the estimates from the various committees of the Council had not yet been handed in. The Civic Finance Minister asked that committees attend to this matter at once, so that the rate may be struck for sure at the next session.

All of the members were present at last night's meeting. The 1907 Council tend well to business. There are very few sessions indeed at which all the aldermen are not present. A communication from the Ontario Municipal Association, asking for a membership fee of \$15, was referred to the Finance Committee.

A joint report from the M. H. O., and the Board of Health recommend that a sewer be laid on Jahnke St. as an improvement and a sanitary necessity. Ald. Bensen moved that the sewer be constructed as recommended.

Clerk Marritt reported that the petition for a granite sidewalk on Forsyth street, and for a bit of pavement on Dover street, were neither of them sufficiently signed.

Cornelius Enright complained of a bad spot in the railway on Pattison avenue. Board of Works.  
Fire Chief Pritchard's annual report showed that during the year the department had responded to 36 alarms. The loss to buildings was \$1,987.50; to stock, \$4,137.50, making a total loss of \$6,125.00, covered by an insurance amounting to \$71,725. The total value of the buildings and stock endangered was \$150,150.00.

Pound Keeper Morrell, of North Chatham, replied to a recent complaint on the part of the Council that he had out the hay which had been growing in the pound. He said that he was letting it grow for feed, and that the burdock which were growing in the pound were not growing in the pound, but on the fence street nearby. He referred to the fact that last year he had made repairs to the pound which in his official capacity he was not supposed to do.

A communication was received from City Solicitors Lewis & Richards, forwarding the Ontario Municipal and Railway Board's approval of the Electric Light Extension by-law. The details of this communication have been previously published in The Planet.

A communication was received from Fred. W. Ward, complaining of language used by Street Sprinkler Chryser. The Mayor said that the words used were no naughty that he would not read it in open Council, for fear of shocking the aldermen and the reporters.

The R. C. School Board asked for

## PASSED AWAY

The death of R. E. Williston, of Gravel, Ont., occurred yesterday, at the General Hospital, after an illness of less than one week.

Deceased was 39 years of age, and was born at Louisville. He was married about a year ago, and was on his way home to visit his parents at Louisville when he was suddenly taken ill on the train. When they arrived at Chatham he was removed to the General Hospital. Mr. Williston was the Station Agent at Gravel for the C. P. R., and was very successful during his career. The remains were taken to Louisville for burial.

The funeral will take place tomorrow, at 11 o'clock. Interment will be made in the Louisville Cemetery.

Some folks have so much dignity that it makes them weary to bear it.

Many a preacher loses his power by pointing men the way he has never gone.

## ALD WESTMAN ATTACKS THE FIVE CENT THEATRES

He Finds Very Little Support From Colleagues At The Council

Bylaw To Force Theatre Licenses Referred back To Committee

Ald. Westman got started off on a wrong track at last night's meeting of the City Council. Early in the evening he assumed the role of the general kicker, and not until the motion to adjourn was put, did he realize that he was accomplishing nothing, except the prolonging of the meeting. He should get all the credit that is coming to him, however, and the aldermen who were forced to linger unnecessarily through a tedious and oppressive session, have Ald. Westman to thank for it.

The first matter to come up, in which the chairman of the Industrial committee played a leading part, was a by-law to regulate the licensing of the music halls and the places of amusement in the city. The by-law was introduced by Ald. Westman. It was a lengthy affair with many clauses. Through his by-law, the alderman wished to enact legislation to the effect that no theatre or music hall such as that which is commonly known as Wonderland, shall be given permission to provide entertainments longer than three days at a time, without paying a license of \$200 per year. That no place of amusement where the drama, opera, etc., is presented, such as the Grand Opera House, shall give performances for more than two days in succession without paying a license of \$25 per day after the first two nights. That no indecent show shall be given in the city, and that the Chief of Police be notified to enforce this regulation. That good order be maintained through all performances in all places of amusement. That all licenses be secured from the City Clerk. That no license be granted to anyone under 21 years of age. That no license be granted for a term less than three months. That the fine for all violations of this by-law be \$50 over all costs.

The by-law was read for the first time without any comment. After the aldermen heard the clauses, Ald. Westman asked for the second reading. He was the only alderman who voted for it, and it looked as if the by-law would go by default before it got to the Council in committee where the discussion would naturally come.

Ald. Massey-I would like to know where this by-law will change the present existing conditions.

The Mayor-There is no license at the present time.

Ald. Meynell-Does the Opera House pay a license?

Ald. Austin-They pay a business tax.

Ald. Massey-Wonderland also pays a business tax, and rent.

Ald. Westman-Wonderland does not pay a license. When that people came here to establish it, they went to the Clerk to pay the license, and when they found that there was no license, they were surprised. There is not a city in Canada to-day where they do not charge a license for these houses of amusement. This city should derive a large revenue from them. We all know the taxes are high, and this is our chance to reduce them. We all know that these houses are not doing anything to uplift and benefit the people to whom they cater, especially the young boys and girls. Cases have been pointed out to me where boys have stolen scrap iron to sell, in order to get money to go to these shows. We cannot prohibit them, but we can impose a license up to the amount of \$500. We have made it reasonable by placing the license at \$200.

Ald. Kerr-Ald. Westman must remember that his remarks apply only to the first clause of the by-law. He is also asking for a license of \$25 a day on the Opera House on shows that show more than two nights.

Ald. Westman-Certain shows. Ald. Kerr-Nearly every show. Ald. Westman-Only certain shows. Ald. Kerr-I know what I am talking about. I heard the by-law read.

After a little more discussion, it was decided to take the by-law as read a second time, and reserve the further discussion for the committee. When the Council went into committee of the whole the matter came up again, and the discussion was resumed, with Ald. Kerr in the chair.

Ald. Westman then made the announcement that he would be willing to make special regulations for the Opera House. The place he was evidently aiming at was Wonderland. He would be willing to extend the time in the case of the Opera House to one week.

Ald. Austin-Has this Wonderland been in operation before the assessments went their rounds?

Ald. Massey-Yes. They are at present paying a business tax.

Ald. Austin-Then they are on the same footing as the Opera House.
