The great feature of this remarkable article, (*India, in the above Cyclopaedia*), and that in which its chief usefulness consists, is perhaps the constructive accounts of the Indian people, and the Synthesis of Hinduism from actually existing facts as revealed by Dr. Hunter's survey and by the first Indian census.—*The Times* first notice, May, 1881.

It is one of the grandest works of the administrative statistics which have ever been issued by any nation, and should earn for its author and designer the gratitude of every one who has the welfare and good government of our Indian Empire at heart.—*The Times* (second notice).

No nation has ever attempted so comprehensive, so detailed, and so stupendous a statistical enterprise, and the whole has been planned and executed with a smoothness and a certainty which are truly marvellous.—*The Athenaeum*.

It sets forth the fruits of the author's personal and long protracted researches, and forms a monument of Dr. Hunter's knowledge of the topography, agriculture, administration, and health-aspects of the whole Empire of India.—*Kolnische Zeitung*.
