real. As might be expected, its popularity has followed it, and its use is becoming general among all classes. The contracted limits of an advertisement necessarily precludes entering into any adequate detail of its merits, but, for the information of the public, it is intended to publish, from time to time, such statements of cures as have or may occur. It has been used for the following complaints with the most complete success:—Such as Swollen Glands, Broken Breasts, White Swellings, Whitlows, Scalds from Steamboat explosions, or other causes, Burns, Fever Sores, ofulous Sores, Sore Nipples, Carbuncles, Scald Head, Gun-shot Wounds, Bruises, Boils, Frostbites, Wens, Chilblains, Utcerated and Common Sore Throats, and Bonions. If used in time, it will prevent or cure Cancers, also, Swellings arising from a blow on the Breast, Ring Worm, Pains in the Back, Rheumatism, Gout, Pains in the Chest, Palpitation of the Heart, Complaints in the Liver, Spine, Heart and Hip, Rushing of Blood to the Head, Swelled Face and Toothache. In fact, it is impossible to enumerate half the com-plaints that have been cured by the application of this Salve.

The doubts which we shared, in common will lers, as to the feasibility of Paine's Water Gas invention ever becoming practically useful are, if we may judge from the following article, no longer justifiable. The columns of the New York Herald make honorable mention of the experiment—names and dates are stated—facts assert ed, and abundance of that description of swider upon which opinions are mutured. The importance of the discovery can be but slightly estima ed, if we confine our ideas of its application ex-clusively to the lighting of houses, public build-ings, and atreets—such appliances of this, or any ous invention, would insufficiently develope its actual value. We must look at it as a ing speed across the globe-and it, upon calm exon, it be truly proved, that Mr. Paine can make good his promise—granting him even a liberal margin for unforeseen contingencies—we may be assured that the triumphs of steam are at d, and that our stupendous Gulf navigation, instead of terrifying the mariner, will be honored

Vital Cardinal on his cross-axamination, stated bad feeling existed between the prisoner and the owner of the cow. He would not believe Pierre Timinere's eath, as he had no confidence in him; but gave no farther reason tor it.

Joseph Ouimet had been told by the prisoner that he had killed the cow, in asking witness to go bail.

Henry Goyet is proprietor of a House in Quebec Suburtis, and prisoner has some time lived in it, but left a few days before the fire; but left some feathers in a bolster, as accurity for the rent, which was produced; the case was similar to that of the bed; knew that prisoner had such a bed three or four days before fire; knew him for an honest man.

Mary Hakman lived in prisoner's house before the fire; he was borned out by it; he had a feather bed; identified the bed in Court by a yellow stain and some stiches in the corner; she saw him take it out of the hone on the night of the fire; ahe lay on it that night.

Lawrence Most, paws broker, identified the bed in Court, as having been pawned in his shop by the prisoner at an anterior period.

An Smith was an acquaintance of the prisoner who was burnt out; and had come with the bed to her house in suferty.

Judge Rolland their stated that he did not see that it was of any use to proceed farther. It was one of those cases of hardship that would sometimes occus, that the prisoner should have been kept so long in juil. No better exidence could be required than that that the prisoner had familished. Do the Jury being lasted what their opinion was they immediately said Not Guilty.

We shall, in the "meantime, confine ourselves to the publication of the names of the Senators on the division on Saturday last, reserving further remarks until we receive a final answer to our application for copies of the proceedings on that day. The question to be decided by the Senate was as follows:—The Caput sent in to the Senate a list of three names of gentlemen qualified to fill the vacant Professorship of Practical Anatomy. These names were placed on the list, in order of their qualifications, viz.:—Ist. Dr. Bethune; 2nd. Dr. Richardson; and 3rd. Dr. Desaley. It happened that the members of the Executive Government were committed to Dr. Richardson beforehand, and, being so committed, their partisans in the Senate were required to alter

their partizans in the Senate were required to alter the order of precedence on the list, before aending it in to the Governor, by placing Dr. Richardson over Dr. Bethune—to the manifest injustice was a price of the property of the pr over Dr. Bethune — to the manifest injustice of the latter—but justice was not to be thought of by parties who had only a political job to accomplish, and who were bent, at all hazards, on accomplishing it. The question then was, for retaining the list, as sent in by the Caput, or for reversing it, by placing Dr. Richardson's name over that of Dr. Bethune t The votes on the question were so follows: as follows :--

The present case affords His Excellency a mos are present case apportunity for the exercise of an independent judgment. He, and he alone, has the disposal of it. The Act confers on the Governor the power of appointing Professors, and not on the Governor in Council. The Council, or certain members of it, made themselves very officious in promising the vacant Chair in the University that religious professions are the same time the itical partizan, when, at the same time political partizan, when, at the same time, the Act does not place the appointment in their gift. Please rend, the following statement from John Bucknann, Esq., of Dixmoni, Mo.; —

Dixmoxt, July 11, 1848.

Messrs, Curtis & Perkins,—For two years past I have been entirely prostrated with the Rheumatian; both of my knees were swelled to twice their original size—a large bunch came out on my breast bone, appearing like a part of the bone thrown out. Another bone was thrown out of my wrist. In short, lendured the most exercicating pains for nearly three years, I obtained the best medical attendance the country shorted, and tried a great number of medicines and prescriptions, without the lenst benefit or allowation, when I had the good fortune to pencure a bothe, of Crump and Pain killer, prepared by Messrs, Curtin & Perkins, of Banger, Soon after taking it I found I could get scupe rest nights, and the pain became less violent. I have continued to take it and apply it externally, until I have used eight bothes. I took much larger quantities than was recommended.—The swelling has all gone down, both is my limits and breast, and I am entirely releived from pain. I have, been when to do a good day's work it any time for the last three months, for a man of my age. No description of my ease can emery the visit amont of benefit I have received from this article. I believe it is the best article in the world for Rheumatism. I have also used it for choic and pain in the stomach, and always found immediate relief.

TAKING COLD.
This sentence is constantly in the mouth of every person, in order to explain certain complaints. Those who
use it often, we think, have but a finit iden of its precise
meaning. We will offer an explanation, which we believe to be the opinion of a majority of the most ignate
divisions. A person, for instance, has been ever exerting any particular set of musches—of the throat, from viotime of the louis, by too much stooping or bendinst spenking—of the tous, by too muce accoming or oestaing, or these or any other part of the body: these parks or
muscles are, consequently, weakented and reinxod, and
become a fuir perty for any discusse. The person who has
been thus acting, secidentally or otherwise, exposes himself to the cold sir, the perspiration immediately ceases,
and the blood, which had been but just now circulating
rapidly throughout the surface of the body, is rapelled inwardly, and is sure to settle in those parts which have
been previously wearied and relaxed. Here, then, we
have an accumulation of blood, a congestion, which gives
rise in all the pain and effifices intention upon such conplaint. When this takes place in the throat, we have
what is called Soro Throat; when in the folias, Latinago

RADWAY'S READY RELIEF.

Taken Internally and applied Externally.

In first action, when freely applied, in to bluint the neute sensibilities of the herves, and almost instantly relieves the pain; its socondary action is to excite perspiration, and redden the parts over which it is applied almost to allow, thereby determining the blood from the nutured parts to the surface. In these cases, the READY RE-LIEE should be applied freely, at the same time rubbing the parts with a piece of flaunel, and it will be found in every case to give immediate and permanent relief.

N.B.—If convenient, a piece of flaunel saturated with the RELIEP, and tied or pinned around the parts, does good service.

A BAD COUGH CURED IN TEN MINUTES.

Mr. Rigdon, of Brooklyn, the celebrated Church Singer and Organ-Player, on the night of the 10th of December was attacked with a severe fit of coughing—ao timit he coughed from 9 o'clock until 42 o'clock, P. Mr. without three minutes internassions. One of the Cherks of Radway & Co., who slorps in the next room, got up and gave him a ten-spoonful of the Relief internaity, and bathed his throat, neck, and chest; he also saturated a piece of flammel with the Relief, and land it over his chest. In a few seconds the coughing censed, he could expectorate freely, and raised with perfect ease a great quantity of phicgm. The Relief instantly soothed the irritation of the throat, and removed the inflammation from he lungs, and gave free action to them, produced a free and copious perspiration of the throat and chest; and in ten minutes he was entirely free from pain, and such into an under a lease and every individual who is troubled with a cough, sort has not been from the same and we will warrant them a speedy care.

THE GENUINE BALM OF COLUMBIA FOR RESTORING THE BAIR.

'Long har is a glory to woman," says Penl. And all feel the truth of the pious quotation; Preserve it then, laddes—your glory may fail.

If you wish a rich, luxuriant, head of hair, free from disudraff and sourf, do not fail to precure the genuine Balm of Columbin. In cases of hadness, it will more than exceed your expectations. Many who have lost their hair twentity years, have had it restored to its original perfection by the use of this ladim. Age, gattle, or coudition, appears to be no obstacle wintever; it also causes the field to flow with which the delicate hair tubes. is filled, while means thousands (whose hair was gray as the Asialo engle) have had their hair restored to its entural relow by this invaluable remedy. In all cases of fewer it will be found the most pleasant wash that can be used,—as the supplications only are necessary to keep the hair from falling out. It streightens the roots, it never fails to most it is unequalled. It holds three times as much as other miscatied hair restoraives, and is more effectual.

MINERAL WATERS POINT DI JOUR, PARISH OF L'ASSOMPTION

THESS, truly valuable WATERS are distinguished for the large quantity of Bromine and Iodine they contain, and are acknowledged superior to all other Medicinal Waters. They are the most agreeable refreshment of the description that have yet appeared. They can be used cold to the greatest degree in the most oppressive best of Summer, and that without altering or affecting injuriously the health of the person using them; upon the contrary, shey are found to improve and strengthen. The large number of cures effected by the use of the above Waters, enable us to recommend them to the public as an excellent remedy in a very great number of cases. The names of a few only of the persons of celebrity, who have given their written recommendation of the Waters, are here given. These, however, show the happy results arising from their application:—

Ruymers De Prantier, March I. 1880.

Ruymers of the Point du Jour Springs have produced on systel, I most inform you, that I have used them medicinally at their Source, and have found them highly salubrious. I was at at the time so affected by the consequences of a severe disease of the Digestive Organs, that my Physician jedged it right to asspend for a time all sotive remedies, even for the removed, under both of which I was suffering severely. He prescribed for my relief the Mineral Waters, and I made use, of those of the Point du Jour, as being the aerest. I was at the time so which I was suffering severely. He prescribed for my relief the Mineral Waters, and I made use, of those of the Point du Jour, as being the nearest. I was at the time so weak, that it was with difficulty I kept my feet. However, at the expertision of three waters, I was a reasoned by maing the Waters. These Waters are of a gaseous mature, some the sufficiency of the proventing a large quantity of saline partiels, and agreration in the restrict of the account of the properties are unattended with gripings,—those even who have been using them inxative, but user pagases who have been using them with gripings,—those even who have been using them have not issen weakened or easervated in their constitution in consequence; upon the contrary, by using them they find their appoint increased, and their digestion resultered more regular. After a dose of 3 or 4 four glance, I found that they had the effect of increasing the urinary secretions at first, and that these decreased in the same proportion that the alvine secretions increased. The action of the increase and sanguage systems were thereby moderately augmented, and, instead of fanding myself moderately augmented, and been during some day before more and galety. Many who, in the same circumstances, made use of the Waters by the recommendation of Dr. Cardeneuve, experienced the same effects. To conclude, I am of opinion, in condomity with the Aulysis made by T. S. Hautt, E. Charlesses for which the Plantagenet Waters are so judiciously recommended.

Yours, respectfully, AMABLE SIMARD, M. D.

For myself, who am, perhaps, one of the first that alluded o-them in the newspapers, in the year 1836, I can testify, that since then I have had occasion to try various Mineral twisters, nevertheless it have mever doubted that the prevence must be given to those of Point du Jour—having myself had much experience.
