CONSCRIPTION AGAIN TO FORE IN ENGLAND

Winston Churchill and Earl Curzon Are Making Renewed Attempts.

KITCHENER HIMSELF IS COMING ROUND

The Whole Dardanelles Campaign is Urged to be Investigated by a Committee.

By Special Wire to the Courier.

London, Oct. 13.—The parliamentary correspondent of the Daily News writes that the conscription members of the cabinet, headed by Winston Spencer Churchill and Earl Curzon, will make a renewed attempt at today's cabinet meeting to force the issue and obtain a definite ruling on conscription.

The conscriptionists believe, The News says, that Earl Kitchener is more inclined to their view than he was a month ago, and they also believe that if the British Government should announce adoption of conscription at the present juncture, when a new war is beginning in the Balkans, it would have a striking effect on the military situation.

WESTMINSTER GAZETTE

The new war in the Balkans is being employed as an argument by the conscriptionists, and even the Westminster Gazette, which hitherto has opposed conscription, warns the public to-day that plans designed to keep up the strength of the armies at the Dardanelles and on the Franco-Belgian front may not be adequate to meet the demands of three war fronts. It states that additional men and munitions probably will be necessary for the Balkan enterprise, and that there must be no shrinking from the logical consequences of the government's decision to embark on this undertaking.

Outsider Won Race.

By Special Wire to the Courier.

Newmarket, Eng. Oct. 13.—Son-in-law of an outsider in the betting, to-day won the Cesarewitch stakes, a handicap for three years and up. Eauclaire finished second and Snow Marten was third. Thirty-one horses started in the race, which was run over the Cesarewitch course, a distance of two miles and a quarter. The betting was 100 to 1 against Son-in-law, 100 to 6 against Eauclaire, and 7 to 1 against Snow Marten.

BULGARIA INVADED SERBIA AND SUFFERED REVERSES

Russia Officially Announces an Important Success in Galicia, 2000 Men Being Captured, and Austrians May be Compelled to Retire.

By Special Wire to the Courier.

London, Oct. 13.—The issue between Bulgaria and Serbia apparently has been joined squarely. It is reported unofficially that Bulgaria has declared war. Little is known here of the progress of hostilities between these combatants beyond the fact that Bulgaria has invaded Serbia and is said to have suffered reverses in the opening engagements. In northern Serbia the Austro-German invaders are meeting with stubborn resistance.

RUSSIAN VICTORY.

The report from Petrograd yesterday of an important Russian success in Galicia has been confirmed officially. General Ivanoff has broken the Austro-German front along the Stri-pa, taking 2,000 prisoners and a number of guns. If the Russian victory is as definite as is indicated by the official announcement, the Austrians

may be compelled to fall back on Lemberg. Such a retreat would be certain to have considerable moral effect in the Balkans, where the continued neutrality of several states is believed to be due largely to the severe reverses suffered by Russia during the summer campaign. HINDENBURG STILL ATTACKS. In the Dvinsk region desperate but indecisive fighting continues with the offensive shifting frequently from one side to the other. Field Marshal Hindenburg evidently intends to continue his attack, as it is reported reinforcements for his army are on the way to the Dvinsk front.

OFFENSIVE IN WEST.

From the western front come reports bearing evidence that the French are resuming the offensive in the Champagne. Paris claims slow

"WHAT WILL GREECE DO NOW?" IS QUESTION ASKED IN PARIS

Not Believed That She Will Depart From Policy of Armed Neutrality, Even Though Bulgaria Has Launched 60,000 Men Against Serbia.

Paris, Oct. 13.—The Athens correspondent of the Matin says he has learned from a diplomatic source that the Serbian Government, having raised at Athens the question of Greece being called upon to give her support under the terms of the treaty of alliance, the Greek Government, replies that the present aggressive action of Bulgaria had not a purely Balkan character, and therefore did not come within the provisions of the Greek-Serbian treaty.

PARIS WONDERS.

Paris, Oct. 13.—"What will Greece do now?" is a question which is being asked on all sides here. Her treaty with Serbia expressly stipulates that if one of the contracting parties, already engaged in war against a third power is attacked by Bulgaria as well as the allied general staffs of Greece and Serbia must consult with the view of immediate action. The next step, therefore, it is maintained here would rest with the Greek general staff whose chief is King Constantine. That the king will consent to depart from the policy of armed neutrality is doubted here although Bulgaria has launched an army of 60,000 men against Serbia.

WHY DID BULGARIA SIDE WITH THE HUNS?

Considerable dissatisfaction is expressed by French editorial writers with the general handling of the Balkan situation. Stephen Pichon asks to what extent Russia will help or whether France and Great Britain will stand virtually alone in going to the aid of Serbia, although Russia's interests in the Balkans are greater than those of France and Italy. He claims also that the statement of Premier Viviani with reference to the Balkan situation is not sufficiently explicit to satisfy parliament. He maintains that the statement does not explain the failure of negotiations with Roumania of the triumph of "Bulgarian duplicity" WILL SUPPORT GOVERNMENT.

Paris, Oct. 13.—After the adjournment of the Greek chamber, says an Athens despatch to The Matin, former Premier Venizelos called a meeting of his supporters who constitute a majority of the chamber and notified them that in view of the present circumstances it would be advisable to adopt a tolerant attitude towards the new cabinet. This would be done, he said, to avoid a crisis, the consequence of which might be grave and to avoid giving a pretext for the dissolution of parliament.

BULGARS AND SERBS OFFICIALLY AT WAR NOW

The Newest Warring State Stood Out for the Highest Bidder.

NO LOVE BETWEEN HER AND SERBIA

Since Last Balkan War She Has Entertained Bitter Feelings Against Her Neighbors.

By Special Wire to the Courier.

London, Oct. 13, 10.28 a.m.—Bulgaria has declared war on Serbia, a Central News despatch from Paris.

TWELFTH WARRING NATION

The decision of Bulgaria, the twelfth nation to enter the war, to join the ranks of the belligerents on the side of Germany, Austria and Turkey, was reached only after a diplomatic duel waged for a month between representatives of the Teutonic allies and the quadruple entente. Each side offered tempting inducements in an effort to gain another ally, but the Bulgaria Government finally decided Germany and her friends had made the higher bid.

BULGARIA HAS 300,000 MEN.

Bulgaria is rated as one of the most powerful of the Christian Balkan states. Her army, while considerably smaller than that of her neighbor Roumania, is well drilled and equipped. Her military strength on a peace footing is only 55,000, but in time of war she is able to mobilize in the field something like 300,000 men.

RECENT HISTORY.

Since the second Balkan war in which Bulgaria fought Greece, Serbia and Montenegro, after the victory of all four nations against Turkey, Bulgaria has been warring to a certain extent from the other Balkan states. The second war which resulted from a dispute as to the division of territory won from Turkey was not participated in by Roumania, which was the first Balkan conflict. Roumanian troops invaded Bulgaria, however, and forced the latter to make territorial concessions.

DOES NOT LIKE NEIGHBORS

When peace was finally restored, Bulgaria was compelled to relinquish a large part of the territory she had gained in the first war. The ill-feeling thus engendered made it doubtful whether she would consent to enter the present war on the side of Serbia and Montenegro. She steadfastly refused to abandon neutrality unless assured of territorial concessions which would enable her to realize her national aspirations. Chief of these was to regain those sections of Macedonia, populated chiefly by Bulgars, which now belong to Serbia. She also sought a section of Turkish territory.

GERMAN DIPLOMACY SCORES.

The first important victory of German diplomacy was scored when Turkey was induced to cede to Bulgaria territory along the line of the Deodagatch railway. In view of this it has been reported that Bulgaria has been promised a regulation of the frontier north of Adrianople as far as the Black Sea whereby the district of Kirk Killiss would revert to her. She also is said to have been pledged efficient help in obtaining the so-called disputed part of Uskub and the coast region along the Aegean Sea to the Struma as well as part of Dobrudja.

HOW WAR BEGAN.

Bulgaria ordered the mobilization of her army in September. On Oct. 3, Russia sent an ultimatum to Bulgaria demanding that she withdraw the central powers in 24 hours, but the Russian demands were rejected and three days later diplomatic relations between Bulgaria and the powers arrayed with the quadruple entente were severed. The same day Bulgaria sent an ultimatum to Serbia regarding Macedonia, and on October 8 issued a manifesto announcing her decision to enter the war on the side of central powers. Bulgarian troops actually invaded Serbia about 24 hours before war was declared.

FOREIGN MINISTER DELCASSE HAS RESIGNED HIS POSITION

The Man Whom Germany Made Step Out in 1905, is Once Again Out of Office--Was One of Foremost Statesmen in France.

By Special Wire to the Courier.

Paris, Oct. 13.—11.15 p.m.—Foreign Minister Delcasse resigned to-day. His resignation was accepted.

Premier Viviani announced the resignation of M. Delcasse and his acceptance at a meeting of the cabinet council to-day, presided over by President Poincare. It was decided that the premier should take over the portfolio of foreign affairs with the presidency of the council of ministers.

Theophile Delcasse has been one of the foremost of French statesmen during the last 25 years, having to his credit above all else, the inspiration which led to the formation of the Anglo-French entente cordiale. He was also credited with an effective influence in the settlement of differences between Russia and Great Britain, making possible the formation of the Triple Entente.

In his long tenure of office as foreign minister M. Delcasse aroused bitter opposition in Germany where it was believed his policy aimed at the political isolation of that nation. His efforts to extend French influence in Northern Africa in particular, were regarded with distrust in Germany, and his Moroccan policy, leading to the crisis of 1905 between Paris and Berlin resulted in his resignation after holding office for eleven years. Subsequently he filled other public positions and in August of last year recalled to the foreign affairs portfolio.

Premier Viviani in announcing the resignation of Foreign Minister Delcasse to the Chamber of Deputies, said that M. Delcasse first offered his letter of resignation upon his return from his recent trip to England and again offered it last night. Premier declared there had been no discord between M. Delcasse and the government upon the nation's foreign policy.

BRITISH PRESS IS FALLING AFOUL OF CENSORSHIP

Northcliffe Press is After Foreign Office Over the Alleged Failure of Balkan Diplomacy—London Papers Adopt Violent Tone.

By Special Wire to the Courier.

New York, Oct. 13.—A cable to The Tribune from London, credited to Francis W. Hirst, editor of The Economist, says: "The chief topic of the moment is the Northcliffe press attack on the foreign office over the alleged failure of our Balkan diplomacy. It commenced on Friday last, and now is developing into a general attack upon the government and upon the press censorship. The only minister so far specially excepted from blame is Mr. Lloyd George. Much wrath is expressed here at The Daily Mail's war map.

"The newspaper press is falling afool of the censorship.

"Sir John Simon's letter shows the real responsibility to be so much distributed that no particular person can be fairly blamed for all the mistakes that are made.

"The present wave of pessimism, though largely artificial, may lead to political developments at home, but most of the London press critics are too violent and too much indiscreet to shake the government unless it accedes to their claim and for dangerous unpopular measures. The northern provincial press keeps a close watch on the financial and economic situation is now coming to be better understood.

MUST PRACTICE ECONOMY.

"German and Austrian war finance cannot last much longer, and our policy should therefore be to limit our obligations by the practice of the severest economy both in public and in private expenditure. Economy is difficult for military officers, and for individuals who are making money fast, and for working

Soldier Found Near St. George

The dead body of a soldier was found this morning on the Grand Trunk tracks about a mile or so from the village of St. George.

He had apparently fallen off a train and his injuries had proved fatal before he was discovered. From papers found upon him it is supposed that he was L. E. Davis of Princeton.

An investigation will be held to clear up the mystery of his death.

Inspector of Munitions.

New York, Oct. 13.—Sir Frederick Donaldson, formerly governor of Woolwich Arsenal, England, arrived here to-day on the Steamer California. He came over on government business but declined to state its character. It is understood that he is here to inspect the shipments of munition.

Called on Wilson.

Washington, Oct. 13.—Lord Reading, formerly of the Anglo-French financial commission, which negotiated the \$500,000,000 credit loan for Great Britain and France with New York bankers, called on President Wilson to-day. He spent a few minutes at the White House, but the nature of his conversation with Mr. Wilson was not disclosed.

Sudden Death.

Hamilton, Oct. 13.—Norman E. Adams, local superintendent of the Metropolitan Life Insurance Co., died suddenly here to-day. Mr. Adams came to Hamilton nine years ago from London. He was a prominent church and Y.M.C.A. worker. The funeral will take place at Picton, Ont.

RETURNED RESERVIST IS VERY OPTIMISTIC

Mr. Sydney Best, a reservist who left here on the 19th of August, 1914, to join the 41st Welsh returned to the city yesterday from England. Mr. Best's time was up, and as he has several brothers at war, found it necessary to return to support his family, the allowance for British soldiers not being sufficient for Canadian conditions.

Co a Courier man Mr. Best stated everything in England was progressing satisfactorily. The army was being well trained and equipped and there seemed to be no shortage of men. He states that immense stores of shells are being laid up for the big drive, and when it starts the Germans will be smashed to smithereens.

It is common enough knowledge in England that British soldiers are in France, possibly a large army. Mr. Best expressed it as his belief that the Teutons would fall in the Serbian drive.

TOOK A FLING AT GERMANY AND AUSTRIA

"There is No Place Here for the Hyphenated American," Says Roosevelt.

WAXES SARCASTIC AT POPULAR SONG

If the Mothers of 1776 Hadn't Brought Up Soldiers, Where Would U. S. Be Now?

By Special Wire to the Courier.

New York, Oct. 13.—Col. Theodore Roosevelt, speaking at the Columbus Day celebration at Carnegie Hall last night, gave full vent to his feelings about hyphenated Americanism and preparedness for war. The Colonel's topic was "Americanism," and he was spurred on to his best efforts by 2,500 enthusiastic men and women who cheered themselves hoarse when the national anthem was played and fairly shouted their approval on hearing the Colonel hail as the "first American citizen" by Vice General Joseph F. Mooney. In a long speech, delivered with all the vigor and earnestness of which he is possessed, the Colonel told of his convictions, scored as traitors those who were not whole-heartedly for their country first, last and all the time, and offered his suggestions for the Americanization of those who come to the United States as emigrants. The foreign population, he said, must be an American population and Americanism was a matter of the spirit and of the soul. His beliefs he characterized as "a declaration of principles," which must be carried out if the great democracy represented by this country were to exist.

LET HIM GO HOME.

"There is no place here for the hyphenated American," he said, "and the sooner he returns to the country of his allegiance the better." The Colonel took a fling at Germany and Austria for attempting to stir up strife in the munition factories of this country, and spoke a bit scornfully of labor troubles here which were not caused by foreign agents. These must cease, he said, if we were to have the true American spirit. He characterized as worse than hyphenated Americans, rich men who kept down the wages of emigrants employed so that they could not enjoy life and fostered discontent which tended to prevent true allegiance to the United States.

THAT POPULAR SONG

While talking of preparedness, he broke in also with this bit of sarcasm which pleased the crowd immensely: "I want to call the attention of the individuals who sing about the mother who didn't bring up her boy to be a soldier, to the fact that if the song had been popular from 1776 to 1783 there wouldn't be anyone to sing it to-day."

GREAT LOAN APPROVED BY PARLIAMENT

Some Criticism of the Rate of Interest, But Generally Commended.

London, Oct. 13.—The bill authorizing the loan which has been negotiated in the United States passed all stages in the House of Commons yesterday.

In the course of the debate on the bill there was some criticism of the rate of interest. John Dillon, supporting the terms, declared the success of the loan was an index of popular sentiment in America toward the allies.

"It was a business transaction, but more than that," he said, "and six, seven or eight per cent. would not have succeeded in obtaining the money if it had not been for a deep wave of sympathy in America in favor of the allies."

"The loan," said Mr. McKenna, "is for the purpose of paying our trade debt and maintaining our exchange in the United States. Our imports from North America have largely increased since the beginning of the war, and our exports have diminished. The increase in imports for the first six months of 1915, excluding Government supplies not included in the Customs returns, amounted to £58,500,000, (\$292,500,000), and the reduction in exports during the same period was £12,000,000, thus making the adverse balance £70,000,000. "Some relief for this balance

ENJOYABLE BANQUET BY CHURCH CHOIR

Wellington Street Choir Held Annual Spread Last Night.

Wellington St. Methodist Church choir held their annual banquet last night in the school room and it was a success in every particular. The tables and chairs were most tastefully decorated and the culinary display was very varied and exceedingly satisfying to the cravings of the inner man—a supper that the ladies of that worthy institution know so well how to prepare. After all had partaken of the bountiful hospitality offered the following programme of toasts were proposed and heartily drunk by all present. Mr. G. T. Strickland, president of the choir acted, most ably in the capacity of toastmaster, and proposed a toast to the King, which was responded to by all rising and singing the National Anthem.

Mr. Thos. Darwin, the efficient organist and choirmaster, in a few well-chosen words outlined the work and history of the choir for the past few years and offered the toast to "The Church and the Choir," which was replied to by the pastor, Rev. Geo. W. Henderson, whose ability both as Minister of the gospel and speech-maker is well known. At the conclusion of his address, Miss Sloan on behalf of the choir presented Miss Corinne Chave who has long been a zealous worker with them, and is leaving in the near future to take up other work, with a magnificent cut glass water set, in token of the esteem in which she is held by her fellow members. Miss Chave thanked them very kindly, and to show her appreciation sang most sweetly, "Somewhere a Voice is Calling."

The next toast was one to "Our Flag," which was most creditably handled by Mr. T. W. Standing, who outlined what the flag stood for and how proud we should be of it.

Mr. W. G. Darwin then sang very impressively the patriotic song, "We'll Never Let the Old Flag Fall," and was most enthusiastically assisted in the chorus by all present.

Mr. Fred Sugden in a capable manner replied to the toast to "Our Flag," telling of its origin and how Christianity prevailed where it waved.

The toast to the British Empire was presented in a very happy manner by Mr. George Easterbrook.

Miss Alice Bloxham rendered in fine voice, "For King and Country."

"Our Soldiers" was proposed in his name by Mr. Fred Sugden, who responded to by Mr. G. A. Darwin, who emphasized the Ideals of Soldiers.

The final toast "Our Choir Boys at the Front" was introduced in a very praiseworthy manner by Mr. W. G. Darwin, and followed by a chorus "For They Are Jolly Good Fellows."

This toast was replied to by Mr. W. G. Ranton, who gave a few truths derived from the letters of the words "Our Boys" as follows:

OUR BOYS.

O—Oh what an influence on every line for good this grand old church is ever exerting.

U—Union of consecrated pastor, trained choirmaster, Christian generalship and with the blessing of the Most High.

R—Reaching out far beyond the seas, and whether in drilling camp or armored train, in trench or battle's front.

B—Brave, the bravest of the brave, standing shoulder to shoulder with royal blood and Briton's best.

O—On the side of right and truth and liberty—mid shot and shell, fighting for Home and King and Country.

Y—Yielding to none in their response to the call of duty, in valor or in self sacrifice.

S—Serving in your place and mine, stars in the military firmament in the far east—singing the songs of Zion as they shine and while they serve.

OUR BOYS—Joe Daniel and Wilfred Laister. God bless them and bring them back safe to those they love to Brantford and to Wellington St. choir.

FOOD SOURING IN STOMACH CAUSES INDIGESTION, GAS

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, do better. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stultifying gases and acids and eructate undigested food, breath foul, tongue coated—just take a little Pape's Diapensin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women to-day know that it is needless to have a bad stomach. A little Diapensin occasionally keeps the delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your food limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapensin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake don't go on and on with a weak, disordered stomach; it's so unnecessary.

WILLIAM WEEPS OVER POOR FRANCE

By Special Wire to the Courier.

Budapest, Oct. 13.—(Dispatch to the London Morning Post)—The newspapers here relate a story of Emperor William which comes, they say, from a Socialistic member of the Reichstag. In the course of a conversation, the Emperor, with tears in his eyes, is alleged to have said that France is the greatest disappointment of his life, and that he was sincerely sorry for that country, which he thought, was destined to ruin. The Emperor is also quoted as saying: "The French method of warfare is one of a terrific nature, brutal and inhuman, the details of which will only be known after the war."

The deputy says that the Emperor actually cried when he said that France was condemned to death. "The aim of this war," added the

SCROFULA AND ALL HUMORS GIVE WAY

There are many things learned from experience and observation that the older generation should impress upon the younger. Among them is the fact that scrofula and other humors, which produce eczema, boils, pimples and other eruptions, can be most successfully treated with Hood's Sarsaparilla.

This great medicine is a peculiar combination of remarkably effective blood-purifying and health-giving roots, herbs and salts, which are gathered especially for it.

Hood's Sarsaparilla has stood the test of forty years.

PREMIER OF FRANCE GIVES EXPLANATION

Outlines Whole History of Balkan Situation Since Beginning of War.

Paris, Oct. 13.—Russian troops will be fighting in the Balkans to-day. There is a complete accord between France, Great Britain and Russia, and all have sufficient troops to throw into the Balkans without weakening any front.

These declarations were made in the Chamber of Deputies yesterday by Premier Viviani, in reply to a resolution adopted earlier in the day by a committee, which reads: "The committee is convinced of the necessity of a campaign and immediate explanation on the part of the government."

The Premier made no reference to Italian participation in the Balkan campaign.

RUSS TO FIGHT BULGAR. "Our principal preoccupation is the defence of our front and the liberation of our territories," declared M. Viviani. "France and Britain, however, will go to the help of Serbia, and today Russia will throw her troops against Bulgaria."

"France, Great Britain and Russia are in complete accord. Sufficient troops are available without weakening any front. The Balkan question was raised at the outset of the war, even before it came to the attention of the world. The Bucharest treaty had left in Bulgaria profound heart-burnings. Neither King nor people were resigned to the loss of the fruits of their efforts and sacrifices and to the consequences of the unjustifiable war they had waged upon their former allies. From the first day the allied governments took into account the dangers of such a situation, and sought a means to remedy it. Their policy has proceeded in the spirit of justice and generosity which has characterized the attitude of Great Britain, Russia and Italy, as well as France."

ROUMANIA WAS AMENABLE. "We attempted to reconstitute the Balkan union so the peoples might realize their national aspirations. The balance of power thus obtained by mutual consent would be the best guarantee of future peace. But, despite the good-will of Roumania, Serbia and Greece, Bulgaria raised difficulties, making claims on all of her frontiers in the expense of her four neighbors. Roumania was not unfavorable to a Balkan alliance. She knew that only a victory of the Quadruple Entente could assure her independence. Despite the cruelty of such a sacrifice, Bulgaria gave ready responses to our proposals and at the same time carried on parallel negotiations with our enemies."

"As to Turkey, which had thrown herself into the arms of Germany, there was no need for further consideration. "Our efforts with Roumania were partially successful. Roumania, the people of which country frequently manifested French sympathies, was not unfavorable to the re-establishment of the Balkan alliance. Her partial mobilization permitted her to repulse any threatened aggression, defend herself against all German pressure and observe with the closest attention the loss of the frontier, both Austrian and Bulgarian. Roumania knew, moreover, that only victory on the part of the Quadruple Entente could insure her independence and satisfy her national aspirations."

ASK SOMETHING OF SERBS. "In their considerate desire to give the Bulgarian people satisfaction in their aspirations the powers of the Quadruple Entente did not hesitate to sacrifice Serbia to make heavy concessions. Despite the cruelty of such a sacrifice and desirous of proving their attachment to the allies, which were combating for their common independence, the allies made this extraordinary effort and resigned themselves, hoping for compensations that the victory of the Quadruple powers would be able to give Serbia elsewhere."

"The equivocal attitude of the Bulgarian Government led the Greek Government to maintain a waiting policy. Our diverse proposals received early responses from the Bulgarian Government, which asked for additional details and at the same time carried on parallel negotiations with our enemies. Finally, at the moment when the Quadruple Entente informed Bulgaria of the important concessions Serbia was ready to make, King Ferdinand signed an accord with Turkey and engaged himself definitely with Germany."

"To our friendly question as to his intention the response was Bulgarian mobilization, in connection with German troops on the Danube, and the Austro action against Serbia. "In the presence of this attitude we immediately declared null and void the advantages and guarantees that we had announced we were ready to offer Bulgaria, and we have resumed with the other Balkan States our liberty of action toward them. On its side, heroic Serbia, whose heroic and successive glorious wars have not had the effect of diminishing its courage, silently prepared to meet upon two fronts the concerted attacks of Berlin, Vienna and Constantinople."

der to meet the efforts of our enemies, who are dominated on the west front, checked on the eastern front and who now try to obtain on a new front, with the aid of Bulgaria, a success thus far impossible to realize either in France or Russia.

"In order to succor the Serbians we must go through Saloniki, and from the outset of the Bulgarian mobilization we have conducted negotiations toward that end with the President of the Council at Athens. These negotiations are most natural in view of the definite treaty concluded between Serbia and Greece after the second Balkan war in the event of Bulgarian aggression."

"They say," continued M. Viviani sarcastically, "that we are violating the neutrality of Greece, and they even dare to compare our action to that of Germany in violating the neutrality of Belgium, perjurying her signature and plunging that noble country into fire and bloodshed. The conditions under which we went to Saloniki, the conditions under which we departed, the welcome we received suffice to demonstrate the stupidity of these accusations."

"This energetic action Great Britain and France, in accord with their allies, have undertaken. They have weighed the difficulties. Our principal preoccupation is the defence of our front, the liberation of our territory by mighty efforts, to which we owe the victories already won upon our soil with the valorous support of our heroic allies, with our forces, sacrifices and our blood. No Government could do otherwise in a duty so tragic but so simple."

"Gentlemen, we have done our duty toward our ally," said the Premier in conclusion. "Never has an accord been more direct and more complete between allies, and never have we had greater confidence in a common victory."

TUESDAY, OCTOBER 12, 1915

The Situation.

News comes to-day of Bulgaria having officially declared war upon Serbia. This announcement, of course, is a mere matter of form, for at the best of Germany she had decided upon that course some time back, and had made all preparations for action.

Little Serbia, like Belgium at the start-off, has been called upon to do her best to withstand the great German war machine, and right nobly is she standing up to the task. Those of us who live in a land still safe from rapine and bloodshed, under the aegis of Britannia, can scarcely realize what this chosen sacrifice of Serbia will involve for that people.

King Ferdinand of Bulgaria has shown his entire fitness to rank with the other outcasts of history. When it comes to standing up against great odds, the Serbians and the Belgians are in the same class.

China is about to go back to the monarchical system. The record of a Republic there has constituted a sorry tale. The Turks, in their continued massacre of Armenians, have amply demonstrated that they are fit allies for the Huns.

London Air Raids. Late English papers show that when recently in the British House a speech was made in criticism of the frequency of air raids, over the British capital, there was an immediate reply from Mr. Balfour, who as First Lord of the Admiralty is head of the Department responsible for the aerial defence of London.

REGULAR MEETING. Zion Church Young People's Guild held their regular meeting on Thanksgiving evening. After opening exercises and several items of business had been disposed of, Miss Carrie Mitchell, convener of the devotional department, took charge.

CASTORIA For Infants and Children In Use For Over 30 Years Always bears the Signature of Dr. H. P. Plummer

Everything was being done to develop and organize such defences as are possible against aerial attack, and lamentable as had been the results of these German attacks on undefended places, the actual number of those killed and injured, the actual amount of property destroyed had been relatively insignificant, although the hardship inflicted upon particular individuals had been tragic beyond expression.

NOTES AND COMMENTS. When it comes to standing up against great odds, the Serbians and the Belgians are in the same class. King Ferdinand of Bulgaria has shown his entire fitness to rank with the other outcasts of history.

BULGARIA INVADED (Continued from Page 1) but steady progress, accompanied by the capture of a few prisoners and heavy losses for the Germans. A German correspondent at the front states that a great fight in which all arms seem to be engaged, is now proceeding in the Champagne, which is regarded as an indication that the French intend to resume the offensive.

Great Loan (Continued from Page 1) against us may be obtained by the sale in America of securities held in this country. Every effort has been made to obtain relief from this source, but of itself this will be insufficient.

A Philadelphia jitney driver got away with the excuse in court that a passenger collected the fares and placed them in his pocket. J. S. Williams, told the Kentucky Bankers' Association of a case of one bank charging 2,400 per cent. on a loan of \$350 for six days.

its terms are fair and reasonable, and I confidently recommend its acceptance by the House. Mr. McKenna pointed out that when the fact was considered that higher interest was generally paid in America, the terms of the loan were not more onerous than could reasonably have been expected.

Mrs. Nellie L. McClung Will Deliver an Address in WELLINGTON ST. METHODIST CHURCH On October 19, at 8 p.m. Under the Auspices of the BRANT COUNTY ALLIANCE SUBJECT: "Prohibition in the Canadian West" Rev. G. A. Woodside will act as Chairman. Collection to defray expenses.

What will you do for these? MAGNIFICENT soldiers and sailors from every part of the British Empire are laying down their lives for you and yours. Perhaps some of your own blood are amongst them. An urgent appeal has gone forth from the Marquis of Lansdowne, President of the British Red Cross, for funds to provide medicines, appliances, comforts, and hospital equipment of all kinds to alleviate the sufferings from wounds and sickness of sailors and soldiers from all parts of the Empire.

"Our Day" For Sailors Oct. 21 and Soldiers Oct. 21 as a day of public giving to aid in this splendid cause, which stands in severe need of assistance owing to the tremendous demands upon Red Cross work. Ontario's Quota is set at \$500,000

We can and will raise this amount as a token that Ontario feels for our wounded heroes and will not see them languish in their pain and suffering for the want of medical and other comforts. Do your part and make "Our Day for Sailors and Soldiers" a tremendous success in your locality.

Give to the Red Cross Every cent collected goes to British Red Cross headquarters, where it is officially and wisely spent. No money is wasted in expenses, even this advertising space is donated by the publishers. Give a day's pay. Do your part. Give liberally and loyally. Give your money, because these brave ones—our sailors and soldiers, are giving their lives for us. Collectors on October 21 will solicit your subscription—or make it through your Mayor or Reeve.

Railway Commissioners to be Elected in January

Some Discussion at Last Night's Council Meeting on the Matter, But it Was Explained That Provision Was Already Made in By-law to Have Election.

MOVED BY AID. BRAGG, SECONDED BY AID. SUDDBY.

That a notice of motion be made that a by-law be submitted at the next regular meeting of this council for the election of three Commissioners for the management of the Brantford Street Railway, also the Grand Valley, and that the same be elected by the electors at the next municipal election in January.

DISCUSSION.

Ald. Ryerson, who was in the chair, as the Mayor had called out of the room, said that the finance committee had already instructed City Clerk Leonard to put a clause in the by-law passed each year empowering elections, to the effect named. Under the circumstances, Aid. Bragg might drop his notice of motion.

Purchase of Property Near Cemetery Entrance—Municipal Securities Scheme Endorsed.

BUSINESS DONE.

The sum of \$250 voted for property near cemetery entrance, Park Commissioners to contribute greater portion.

COMMUNICATIONS.

From W. Glover giving bread inspection report; all overweight. Filed.

REQUEST FOR GRANT.

Mr. W. N. Andrews, on behalf of the Brant City Recruiting League, asked for a grant of \$200. Hamilton council had voted \$500 for such a purpose. Recruiting just lately had been lapsing, and he was sure all realized the present seriousness of the situation, and the need for all the men obtainable.

MUNICIPAL SECURITIES.

Mr. A. K. Bunnell, at the request of the Mayor, gave an address regarding the proposal to offer municipal securities directly to the citizens of Brantford.

THE MAYOR AND AN OFFICIAL.

Mayor Spence said in connection with a corner stone in Mt. Hope cemetery, some parties had come to him and complained they had been refused permission to place initials on same—that only the number could be used. He had granted permission and word had come back to him that the Superintendent said he didn't give a rap for the Mayor or anybody else in the matter and had again refused permission. As long as he was Mayor the head of any official would go in the basket who would act like that.

THE MAYOR—'I'm not infallible and if there is a by-law against what I sanctioned, the least Mr. Thresher could have done was to phone me to that effect.'

Red Sox Won Again; Every Win Same Score

Shore, Pitching for the Second Time, Wins, Holding the Opposing Batsmen Helpless When Hits Meant Runs—Lewis Again Star of the Game.

Boston, Oct. 13.—Deprived of a game which he richly deserved to win when he met Alexander in the opening clash of the world's series at Philadelphia, the attenuated Ernie Shore came back yesterday afternoon and beat the Phillies 2 to 1. He was victor over George Chalmers, spitball artist of the National League champions.

Shore did not pitch as good a game as he showed against Alexander. His opponents got double the number of hits and hit the ball hard throughout the game. The Phillies had the advantage of facing him a second time, while the Red Sox had a strange pitcher to contend with and a moist ball performer, too.

Chalmers is the first exponent of the salivary slay to make his appearance in the series. He varied the latter delivery with a good curve ball which is not in the repertoire of many of the spitball pitchers. The Bostonians found difficulty with the curve, but pounded the spitter to good effect in spite of the fact that there is a dearth of good spitball hitters in American league.

SHORE DESERVES SHUTOUT.
Shore earned a shut out. Speaker made a very bad-looking play on Cravath in the eighth inning and enabled the Philadelphia to make three bases on a single. Up to that stage Shore had the National Leaguers blinkered. Two hands were down when Cravath worked Shore into the three and two hole and when the tall Bostonian put the ball over Cravath hit it very hard, about fifteen feet over second base. Speaker came in like a racehorse. When he realized that he had come in too far and too fast he set himself to take the ball on the first bounce, but he was too far in, and the globule bounded over his head. Hooper fortunately, backed him up and held Cravath at third base. The first thing a young outfielder is taught is to play back on low hard drives and give the batter a base rather than trying to make putouts on them. Speaker either misjudged the ball or overlooked this rule.

The Phillies scored the only run on the play that followed. Ludrus lined to centre and Speaker again messed up the play. He shinned the ball down and was lucky to recover it in time to hold the drive to a single. Paskert has shown up the fleet 'lexan in every game of the series as far as fielding is concerned, but he has not been hitting as well as Speaker.

NINE PHILLIES LEFT ON BASES.
The Phillies got on bases much more than to their previous games and showed a marked improvement in their hitting. Good work by Shore and excellent support by the team behind him left nine of the Philadelphia's stranded on the bases.

If Scott made a dumb play in the first game of the series, Niehoff duplicated it yesterday. After Barry's walk in the third inning, Gedy put down a swinging bunt. Ludrus raced in for it but Chalmers got there first and fell while fielding the ball. He clung to it, however, and was ready to make the throw to first base, but there was nobody there. That left two men on and nobody out. Shore bunted them along and Barry scored on Hooper's infield hit. The latter was a scratch. For once fortune favored the Sox.

Hobitzel's single in the sixth, was followed by a smashing double by Lewis. For the first time in the series a batter was able to get an extra base between the outfielders. Lewis' wallop sailed hard and low between Whitted and Paskert. Hobitzel scored easily.

A DOUBLE BY PHILLIES.
To date only three double plays have been made in the big clash, two

by the Phillies and one by Boston. For another run in the eighth, while Speaker and Hobitzel singled with one out. Lewis was walked, filling the bases. Gardner did the worst thing possible under the circumstances. He hit directly into Chalmers' hands. Speaker being forced at the plate and Burns getting the ball to first ahead of Gardner.

There was smarter fielding on both sides, and the game was the most exciting of the four played. The Phillies finally came through with some hard hitting, but they could not get hits when the latter would have been useful. Shore has vindicated himself, and those who contended that he could beat the Quakers are well satisfied with yesterday's performance. Had he won the first game, a battle that he richly deserved to win, the series would now be over.

A HARD TASK FOR PHILLIES.
As matters stand there is slight chance for the Phillies. They must win three games before the Red Sox win one. They don't appear equal to the task. Yesterday's was their best effort, not excepting the game they succeeded in taking. Foster and Leonard are ready to go back at them and Carrigan kept Joe Wood warmed up ready to relieve Shore had there been any indications of weakening or the necessity of using a pinch hitter.

The battery efficiency of the National Leaguers has not been seriously decreased by the absence of Killifer. Burns has done his part well. His hitting has been as good as could be expected of Killifer and his throwing has been equal to the occasions which arose. Burns has been in both of the Phillies double plays. Again yesterday the Red Sox outfielder outthrew the Philadelphia gardeners. Paskert's great work in the field has been offset by weakness at the bat.

BARRY DROPS TWO THROWS.
Jack Barry the only member of the famous Athletic combination in this series, who promised to be the star of the games, slipped a cog and gave away two Lewis, whose hitting won the battle yesterday and to-day. On both occasions the Boston left fielder came through with ringing hits which drove in the winning runs. Barry lost two perfect throws by Cady yesterday, enabling Bancroft and Ludrus to steal. The ball was at the bag ahead of the runners both times, but Barry lost it while attempting to tag the men. Lewis fielded Stock's single, and threw the runner out when the latter tried to stretch it into a double in the first inning.

It is predicted that the pitchers in the game at Philadelphia to-day will be Alexander and Foster.

Presentation to Past President

On Monday the Echo Bowling club closed their first season when the finals of the various competitions were played, the winners being: Rink Competition—J. McConkey, J. W. Grummet, C. Edmondson, M. Myers, skip.

Doubles—1st, Geo. Campbell and C. Edmondson; 2nd, P. G. Kirkpatrick and A. Edmondson.

Singles—1st, E. E. Plummer; 2nd, J. W. Grummet.

At the close of the play the Hon. President, George W. Hall, in a few well chosen words congratulated the winners and distributed the prizes. The president of the club, Mr. Alex. Edmondson was also made of a complete smoker's outfit on behalf of the members a gold mounted walking cane, as an appreciation of his services to the club. Mr. Hall in thanking the members, expressed his pleasure at the success the club had gained in this its first year, and again kindly offered the use of his grounds until the new greens are ready.

A presentation was also made of a complete smoker's outfit to Messrs. R. Ashbury and P. G. Kirkpatrick who have joined the 2nd Battery overseas contingent. The boys suitably acknowledged the gifts.

The Echo Club secured a lease on a suitable piece of ground on Burke Avenue which will give accommodation for eight rinks of tournament size, besides sufficient for a club house. Work has already commenced on leveling and preparing the greens for the coming season. When completed the grounds should compare favorably with any of the city greens and should result in a large increase of membership.

LOOK AT CHILD'S TONGUE IF SICK CROSS, FEVERISH

Look at the tongue, mother! If coated it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or stomach sourly, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of 'Caiorina Syrup of Figs.' and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless 'fruit laxative'; they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a fifty-cent bottle of 'California Syrup of Figs.' which has directions for babies, children of all ages and for grownups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by 'California Fig Syrup Company.' Refuse any other kind with contempt.

PARISIAN SAGE

PUTS HAIR ON YOUR HEAD AND KEEPS IT THERE

What's the use of being bald? What sense is there in deliberately allowing your hair to turn gray? Do you want to look old before your time? Give up the thought; old age will come only too soon.

Lo! after you have PARISIAN SAGE will kill the dandruff germs, and is the only preparation, so far as we know, that is guaranteed to do so.

Man or woman, no matter how old you are, PARISIAN SAGE will make you look young.

Come in and get a large bottle to-day, it only costs 50 cents, and your money back if it does not cure dandruff, stop falling hair, or itching of the scalp. It will make your hair luxuriant, bright and beautiful, and it is the most refreshing, pleasant and invigorating hair dressing made.

War Playing Cards Make in Germany

War enthusiasm in Germany is seen in an addition to the conventional playing cards. Instead of traditional kings, queens and knaves known to all the world, we have "German" cards with the portraits of war celebrities. The King of Clubs is the German Emperor; this card reversed shows the Emperor of Austria. The King of Spades is the King of Bavaria reversed the Crown Prince Rupert. The King of Diamonds is the King of Wurtemberg; and the King of Hearts is, of course, "Our Crown Prince," with the King of Saxony as the reverse.

The queens presented a difficulty, as it was felt that the royal ladies of Germany were hardly suitable for pictorial treatment. Resources have been had, therefore, to emblematic figures—all of them very fat and deep-chested. The Queen of Clubs is Germania with the Black Eagle on her breast; the Queen of Spades is Austria with the Double Eagle of the Habsburgs; Bavaria with a ravens lion on her armor; and the Queen of Diamonds, and the Queen of Hearts; and Turkey with an ermine boa, a fez, and a crescent is the Queen of Diamonds. The knaves are Hindenburg and Holbornoff (clubs), the Archduke Frederick and Knuck (spades), Beeler and Moltke (hearts), and Emmich and Dankl (diamonds).

The ace show more imagination. The Ace of Clubs shows the submarine, the Ace of Spades the 42 centimeter gun, and a Zeppelin; the Ace of hearts a battleship and a Taube; and the Ace of Diamonds Heiligoland and Kiaochow.

"Buried" Soldier Report All Well

In November the death of Artilleryman S. Skipp, at the front was officially announced by the War Office, and his father, Mr. F. Skipp, Royal Oak Hotel, West Bromwich, Staffordshire, England, received from the Major commanding the battery a letter stating that he had died instantly and suffered no pain.

"I had him buried," said the major "in a grave along with some more men who were killed and above them we placed a rough wooden cross. I have lost a good man."

Mr. Skipp, however, has now received a field postcard, dated August 29, last, purporting to be from his son. The card reads: "Am quite well. I am just being sent down to the base. Letter follows at first opportunity."—Syd.

Mr. Skipp says he is sure that the signature is that of his son.

No Peace Until 1917 Says "Old Moore"

"Old Moore's Almanac" recently issued in London for the 27th year, declares upon the authority of astrology that the war will not end until 1917.

"From the stellar influences," we learn, "there appears to be but little indication of peace during 1915. The eclipse of the sun in February (1816) will see Germany defeated and her legions driven back to the confines of her own country. The British arms will be triumphant and win victory after victory. Holland will suffer terrible privations and will be driven into the war. Throughout the spring the most appalling slaughter will occur, and step by step the allies will force their way ahead. A decisive naval victory is denoted in May. The culminating point in the war does not occur during 1916, and it will not be until the following year that the hordes of Germany will be overthrown finally. Power was given unto the Beast to continue for forty and two months."

Membership Campaign
Going Full Speed Ahead
 Y. M. C. A. is Out to Obtain 1,000 Members During the Remainder of the Week—Fully 200 Men Canvassing Every Available Prospective Candidate With Arguments of Most Persuasive Order.

THE CAMPAIGN IN BRIEF
 Starting to-day, the Y.M.C.A. is going into a four days' campaign to enrol 800 to 1,000 new members. Arrangements were completed for a night's banquet, and all is now in full swing. This is how it is being done:

1. Three sections formed—Section A, Section B, Section C.
2. Each section contains five teams—teams 1 to 5 in A, teams 6 to 10 in B, teams 11 to 15 in C.
3. Names of prospective members allocated to the different teams.
4. Terms: Payment down of one-third of membership fee, and balance in any way desired, but by not later than Dec. 15.
5. Teams meet every night at 6.30 in Y.M.C.A. to sum up results; final meeting Saturday night at 9 p.m.

Last night the finishing touches were put to the preparations for the Membership Campaign of the Y. M. C. A. which will be launched full speed ahead to-day. All the 15 teams gathered in the gymnasium where a most delectable banquet was prepared by the ladies, following which were two speeches by Dr. Barker and Mr. Whitford of the Y. M. C. A. of Buffalo. Both gentlemen in their speeches endeavored to show the great importance of the Y. M. C. A. to civic life. The Y. M. C. A., said Dr. Barker, is never of such importance in the British Empire as it is to-day. Twenty-five years ago, he said, the emphasis among medical men was laid upon cure; to-day it is gradually shifting to prevention of disease. No institution is so valuable in preventing disease as the Y.M.C.A.; by its opportunities for physical development offered to young men, it conserves the health of the community. The best defence against disease was a clean, wholesome, straight life. The speaker made some flattering reference to Canada at War. The people of the United States marveled at the noble response made to the call of King and Country. As their own Spanish war had shown, Y.M.C.A. men, with their superior physical development were capable of enduring great hardships. He therefore charged the teams assembled to get men into the Y. M. C. A. for this training. No one knows what the young men of Canada may have to face during the next three years. Mr. Whitford, who is General Sec-

 Italian Front, Sept. 14.—The mid-eastern arm of the Trentino Valley system is the Val Sugana. Starting from Trent it runs a short distance east to Pergine, then turns abruptly south, broadening out into the two lakes of Caldenazzo and Levico, then goes eastward again in a bow-like span, at the centre point of which lies the town of Borgo. Against this bow, which is a normal Trentino valley, the normal valley action is proceeding. Occupation of the heights on either side, installation of artillery there, artillery fire with periodic infantry advances, patient acquirement of hamlet by hamlet, the whole action developing so slowly and regularly that it seems purely mechanical. Herein indeed lies the absolute triumph of the Italian valley warfare, in this appearance of being a purely mechanical procedure. Gradual as the advance is, it gives the effect of being thought out freely and executed freely; the Austrians do not impress themselves as a retarding factor.

They are there, of course, with spies and foot and artillery, but there is no shock of masses of troops and if every now and then some Austrian village is evacuated, it is under the mortal pressure of the enveloping Italian patrols. The Austrians evacuate a village and then they fire on it and then it stands deserted, for the Italians do not enter their conquests too soon. They spread out a little more and encircle a little more, scout on and harass, harass, harass, and thus they advance.

 "Try again, x millimetres to the left," called the officer, "and, senta, raise my millimetres." A moment's silence, and the glasses go up and peer again.
 "Two shots fired, sir," comes the cry out of the rock, and more closely to the trench appear the puffs of death.
 Through all the frontier region of the Dolomites the noise of guns is continuous. The Austrian positions are powerful and cannot be given any respite. North of Mount Cavalazza and still keeping close to the frontier is the great central mass of the Dolomites, topped by Mount Marmolata. The Y. M. C. Onondaga Council
 Middleport, Oct. 4.—The regular meeting of the council, with all the members present, was held in Mitchell Hall, at 2 p.m.
 Mr. A. W. VanSickle, chairman of the road and bridge committee for division one, after speaking very highly of the work performed by Mr. Thompson, contractor, presented the following report:
 To the Reeve and Councillors of the Township of Onondaga:
 Gentlemen,—In accordance with a previous appointment, your committee met the committee from Brantford Township Council in the month of May, on the township line, and after examination of the Dawson and Armour bridges decided to rehabilitate the bridges of reinforced concrete the work to be taken in charge by the Onondaga Township committee. Plans were secured, tenders were called and awarded to Mr. George Thompson, Brantford, at \$7.87 per cubic yard, his being the lowest tender. Work did not begin until about the middle of August. The Armour bridge, with a 10 ft. clear roadway, was erected, including concrete, reinforcing and filling, at a total cost of \$291.01. The Dawson bridge with a 20 ft. by 14 ft. clear roadway, contained 76 to 27 cubic yards of concrete, and was erected at a total cost including reinforcing, railing, filling, etc., of \$792.90. Timber from the old bridges was sold to the value of \$8.25, making a total cost of \$175.38, half of which is charged up to Brantford Township.
 Your committee beg to report the construction of two culverts, known as the Greig and Merrill culverts, the former containing 25 4-27 cubic yards of concrete. The total cost, including railing, reinforcing and filling approaches, being \$2,384. The Merrill culvert contained 24 5-27 cubic yards of concrete, costing, including railing, reinforcing, etc., \$221.41.
 All of which is respectively submitted.

PROGRESS OF THE ITALIANS
 In a hundred days these quiet, pre-arranged methods have brought them in the Val Sugana from the frontier at Primolano to a point just beyond Borgo, the chief town, which has been evacuated and fired upon according to the Austrian ritual.

East of Pieve all the fiero the war enters the Dolomite country. The Dolomites have been so often described that to attempt it again would be purely indifferent repetition. Anybody who has those who are not familiar with travellers' books, it may be briefly said that the Dolomites are great limestone masses, not rising as a rule gradually from slopes but lunging high and sheer, straight up in strength, like mountain towers. They take the shape of churches and of fortresses; their rigid summits are sometimes cut square like Norman keeps and sometimes are as shaped and pointed as the cathedral of Milan. They thrust for some 8,000 ft. to 10,000 ft. up in the air.
 You would expect the operations in these surroundings to have a pungent quality. Yet it is not so. In the splendor of the site you awaken somehow to the splendor of achievement, and creeping up the high roads in the past and the future, it is not so. You would expect the operations in these surroundings to have a puny effect. Yet it is not so. In the splendor of the site you awaken somehow to the splendor of achievement, and creeping up the high roads in the passal, the advance is in miles, at least get a more vivid grasp of the war than has been my lot anywhere else. You hear the distant noise of the guns, you look down on "indistinct encampments and scarcely visible far-off lines of men, and you see the great bulk of war then, the movements over land and sea, the millions moving to the reconstruction of the world.

ON AN OBSERVATION POST: Then you go to some forward post, you are amid the men, the guns fire from close by, the war contracts for you into so much observing and loading and pointing; amid all the wonder of nature more clearly stands out the structure and form of war, the intricate, many details of fighting.

I was in such a spot some hours ago, a spot from which I could distinguish these details well. It was one of those many Italian observation posts clinging with the claws and watching with the eyes of eagles from the fissure of these Dolomite mountains. Away before us was a hostile position. Above us or else below us or to right of us or to left of us, the reader may choose a la carte—were guns engaged with the enemy. From the observation post their fire was directed. An officer stood watching with field-glasses a contributory directions, reproof, congratulation over a telephone to someone intimately connected. I think with the guns. Orderlies in a similar post near by called out news sent in as they passed it on to the officer, telephoning back his answers.

The whole thing was extraordinarily businesslike.

"Fire at intervals of so long," said the officer. "First send me two shots to such-and-such a trench." An interval, then you heard a call on the telephone. "Two shots fired, sir," said the orderly; then boom! boom! and over the enemy's trenches appeared two little white clouds out of the nowhere.

"A LITTLE TO THE LEFT." "Try again, x millimetres to the left" called the officer, "and, senta, raise my millimetres." A moment's silence, and the glasses go up and peer again.

"Two shots fired, sir," comes the cry out of the rock, and more closely to the trench appear the puffs of death.

Through all the frontier region of the Dolomites, the noise of the guns is continuous. The Austrian positions are powerful and cannot be given any respite. North of Mount Cavalazza and still keeping close to the frontier is the central mass of the Dolomites, topped by Mount Marmolata, which rises to nearly 11,000 ft. It is pierced by a single valley, the Val San Pellegriano, but this the Italians have to the west penetrated, and hold their positions there firmly.

THE PEAK OF MARMOLOTO But the Marmolata mass—is to all intents impassable and fighting begins north of it again on the valley of Livinallongo. The chief Austrian position is that of Col di Lana, the 8,000 ft. peak. Col di Lana as you look at it does not seem so very high. It is not an fantastic Dolomite formation, but an ordinary dull-greenish mountain which spreads a good deal and looks like a hill. Observing it from the east you see that in the end it rises rather sharply in a sudden cone. On a saddle to the east of this are some concentric rings which look like a series of healed cuts, or scars, on the surface. Dull and lifeless they seem, with no hint of the power concealed in them. Below them are the Italian trenches, and so facing each other the trenches curve round the south-eastern slope of the mountain top.

So the impression is that the Austrians are wonderfully favoured and the Italians woefully handicapped in every attack. Rifles are no longer used; the Austrians throw bombs and grenades to the front, probably a number together from buckets. They swing a bucket and a whole bevy is discharged upon the Italian positions below.

Onondaga Council

Middleport, Oct. 4.—The regular meeting of the council, with all the business present, was held in Mitchell Hall, at 2 p.m.

Mr. A. W. VanSickle, chairman of the road and bridge committee for division one, after speaking very highly of the work performed by Mr. Thompson, contractor, presented the following report:

To the Reeve and Councillors of the Township of Onondaga:

Geentlemen.—In accordance with previous appointment, your committee met the committee from Brantford Township Council in the month of May, on the township line, and after examination of one of the Dawson and Armour bridges, decided to rebuild the bridges of reinforced concrete the work to be taken in charge by the Onondaga Township committee.

Plans were secured, tenders were called and awarded to Mr. George Thompson, Brantford, at \$7.87 per cubic yard, his being the lowest tender. Work did not begin until about the middle of August. The Armour bridge, with a 10 ft. by 14 ft. clear roadway, was erected, including concrete, reinforcing and filling, at a total cost of \$29,101. The Dawson bridge, with a 20 ft. by 14 ft. clear roadway, contained 75 10-27 cubic yards of concrete, and was erected at a total cost including reinforcing, railing, filling, etc., of \$79,290. Timber from the road bridges was sold to the value of \$8,250, making a total cost of \$107,536, half of which is charged up to Brantford Township.

Your committee beg to report the construction of two culverts, known as the Greigg and Merrill culverts, the former containing 25 4-27 cubic yards of concrete. The total cost, including railing, reinforcing and filling approaches, being \$28,944. The Merrill culvert contained 24 5-27 cubic yards of concrete, costing, including railing, reinforcing, etc., \$22,141.

All of which is respectively submitted.

The following accounts were ordered paid: Mr. Thompson, cement work and railing on bridges and culverts, \$86,722; Burlington Steel Co., reinforcing steel, \$39,387; R. Jameson, for Merrill culvert, \$4; A. W. VanSickle, freight on reinforcing \$2,177; William Dinsmore, teaming steel, \$2; Mr. Maloney, filling Armour bridge approaches, \$15; Mr. Hanks, filling Dawson and Greigg approaches \$34; Mrs. Dawson, for danger light, \$1; Brantford Courier, ad. of voters' list \$3; Geo. H. Patterson, attending Courts Revision and selecting jurors \$10; A. W. VanSickle, overseeing work on bridges (Brantford Township share) \$20; grant to Onondaga Agricultural society \$25.

The council adjourned to meet in Onondaga, on Monday, Nov. 29, at 2 p.m.

NEW PROCURATOR GENERAL OF SYNOUD

London, Oct. 13—A despatch to The Daily Telegraph from Petrograd says: "Alexander Volzsin has been appointed the new procurator general of the holy synod. He has been the head of the general department ministry of the interior and is credited with being the initiator of the recently adopted statute extending residential rights to the Jews. Other cabinet changes are imminent. It is stated that the ministers of agriculture, M.
