

The Acadian

Vol. XXXIX, No. 47.

WOLFVILLE, NOVA SCOTIA, FRIDAY, AUGUST 13, 1920.

\$1.50, payable in advance.

Kings Co. Boys' Camp

Arrangements For This Year's Outing

A large number of boys from all parts of the County have stated that they will attend and it is expected that this year's camp will be a record breaker.

The daily program will be about the same as in other years, the morning given up to instruction in swimming and scoutcraft, the afternoons to scout games and special talks, the early evenings to baseball, and the campfire with the enjoyable talks, songs and story-telling later on. The special talks and demonstrations will include among others, "Life saving and the Schaefer method of artificial respiration" under the direction of Dr. M. R. Elliott on Tuesday; "Flowers and Trees" by Prof. H. G. Perry on Thursday; and "Birds" by Mr. Robie Tufts on Friday.

Wednesday, August 25th, will be "Visitors' Day," and a full program of water sports will be arranged for. It is hoped that there will be a large attendance of parents and others from all over the County.

On Saturday, August 28th, the finals of baseball and all other competitions will be held.

Handsome prizes will be given for the following: Best collection of wild flowers, best collection of leaves of trees, best story round the camp fire, swimming (senior and junior, and novice, the last in life preservers), Diving (senior and junior), Rowing (single and double), paddling canoe (single and double), nearest tent.

Dr. J. W. Robertson, chief commissioner of the Boy Scouts for Canada is now in Nova Scotia and it is hoped may be able to accept our invitation to visit camp.

CRICKET

The Kentville cricketers again visited Wolfville last Saturday and played their third game with the home team, which resulted in a victory for the latter. A very enjoyable time was passed. Kentville, it is only fair to say, was weakened by the absence of its crack batsman, Capt. Johnson. Mr. Spittal batted brilliantly for Wolfville and Inspector Robinson did some very effective bowling. The score was as follows:

WOLFVILLE:	
Saunders, c Fosberry, b Bolton	3
Robinson, c Grundy	4
Herbin, b Bolton	0
Spittal, c Simpson, b Henshaw	22
Koppel, c Fosberry, b Henshaw	3
G. Bauld, b Fosberry	6
Smith, b Brooks	0
Phimney, not out	6
Robinson (Jr.), b Fosberry	0
Rand, b Fosberry	0

GRAND CONCERT IN WOLFVILLE

Mrs. Cora Pierce Richmond will present the following artists at the Concert to be given at the Opera House, on Thursday evening, August 19th:

Miss Edith Bullard, Soprano
Mrs. Helen Knowles Embree, Contralto
Mr. Lewis G. Pick, Tenor
Mr. Richard Bowen, Baritone
Mr. Lyman Richmond, Cello
Mr. W. G. Mould, Flute

The Dance at Evangeline Beach this evening promises to be a very delightful social function. Music will be furnished by the popular Boston Jazz Band which is proving such an attraction in musical circles and will make tripping the light fantastic "Down by the Sea" of special enjoyment. Tickets should be secured early if you want to make sure of participation in the "dance of the season."

Ask for Minard's and take no other.

Wolfville Plays Tennis

Make Good Showing at Truro

The Wolfville tennis players are doing good work at the Nova Scotia Tennis Tournament at Truro this week. Miss Helen DeWolfe had the misfortune to lose her set in the first round, but the other players are still going strong. The results of the sets in which the local players have taken part to date were as follows:

First Day

Dr. deWitt defeated J. W. Rankin, Sydney, 6-0, 6-3.
A. Chute defeated R. H. Gass, Alexandria, Halifax, 6-3, 6-4.
Miss M. Chute defeated Miss G. Crowe, Truro, 6-1, 6-2.
Miss L. McKenzie, Bedford, defeated Miss H. DeWolfe, 6-3, 6-0.
Dr. deWitt defeated J. S. Nairn, Sydney, 6-2, 6-3.

Second Day

R. Tufts defeated J. Voort, North Sydney, 6-4, 6-1.
A. Chute and F. G. O'Brien defeated J. Jennison and R. Allen, New Glasgow, 6-1, 11-9.
Dr. deWitt and R. W. Tufts defeated G. S. Nairn and E. L. Hollyer, Sydney, 6-4, 6-3.
A. Chute and Miss M. Chute defeated J. Voort and Miss E. Reid, North Sydney, 6-4, 3-6, 6-3.

Canard Notes

Mr. Ipson, of Halifax, will occupy one of Oscar Chase's houses for a year and on Sunday was the organist of the Upper Canard Presbyterian church.

All of the candidates for Grade X of the Lower Canard school were successful, the following being the students: Beverly Prosser, Beatrice Borden, Freeman Eaton.

Mr. and Mrs. Charles Pines, who motored from Rio Janeiro, arrived at the home of Mr. Pines's parents, Mr. and Mrs. George Pines, Upper Canard, on Sunday. Mr. Pines was warmly greeted by the staff of the Royal Inn, Halifax.

A large audience assembled in the Baptist church, Upper Canard, on Sunday evening, the occasion being the jubilee meeting of the U.B.W.M.A.S., the President, Mrs. A. J. Prosser occupying the chair and with her, Mrs. Boggs, returned missionary from India, Mrs. J. H. Borden and Miss Irene Rand. After reading of the Scripture by Rev. A. J. Prosser a beautiful solo was sung by Mrs. Osborne Bowser, after which the history of the society was read by Miss Irene Rand. The Canard society was formed on July 20th, 1870, with 16 charter members, the amount contributed to foreign missions being \$15.00. In 1919 there were 69 members, with a collection of \$250, and in 1920, \$350 is looked for. A sketch of the life of Miss Norris, the organizer, in 1870, of 30 societies, the first being formed in her home, Canso, was read by Mrs. John Borden after which an able address was given by Mrs. Boggs, returned missionary from India. The thank-offering exercises by five little girls under the direction of Miss Jean Borden was much enjoyed, a pleasing part of which was the solo by little Leona Rafuse. The meeting closed with the Benediction.

For Immediate Sale

That desirable property in the town of Wolfville, lying immediately East of the Public School, having a frontage of about 200ft. on Acadia Street, and running back to Prospect Street. It comprises nearly 1 1/2 acres of excellent land, partly lawn and partly garden, on which are 16 fruit trees, more than 50 shade trees, a commodious frame house and a frame stable.

The house is of 1 1/2 stories, fully modern with a verandah on two sides and a full stone basement. It has entrance hall, parlor, sitting room, dining room, pantry and kitchen on the ground floor, and five bedrooms, bath room and linen room on the second floor. It is heated with hot air, and there are grates for wood or coal in parlor, sitting room, dining room and three bedrooms. The furniture will be sold with the house if desired.

For terms apply to the undersigned on the premises or address him at Wolfville, P. O. Box 132.

F. H. SCHOFIELD.

Social Service Convention

TO PREPARE FOR REFERENDUM

A County Convention will be held at the CAMP GROUNDS, BERWICK, on WEDNESDAY, AUG. 18th, 1920, at 1 o'clock p.m., under the auspices of Provincial and County Social Service Councils.

Addresses will be given by Dr. H. R. Grant, general secretary, and other leading Social Service workers.

October 25th is the date fixed for the taking of the referendum vote on the question of the incorporation of I quor into the Province of Nova Scotia, and at this convention, officers and committees will be appointed to successfully carry out the campaign, so that a large majority vote in favor of temperance reform may be obtained.

All churches, missionary societies, temperance organizations, labor unions, social service societies, ladies institutes, I. O. O. F., etc., are requested to send two delegates.

The work is urgent and must be taken up at once.

Pastors and church leaders are requested to announce or read this at Sunday services on Aug. 15th.

Everyone interested invited to Convention.

S. B. CHUTE
E. B. NEWCOMBE
Members Provincial Executive

Canning Notes

Miss Stoddard will have charge of the preparatory department of the Canning school during the coming term.

Mrs. Joseph Harris entertained the members of the Social Aid Club on Friday, a delightful afternoon being spent.

The schooner being built in Canning, by Messrs Lockwood and Harfield, will be launched on Saturday morning, August 14th.

Miss Sylvia Keith, Mrs. T. W. Eaton, are spending a week in Berwick.

Rev. B. J. Porter, officiated at the marriage, at the Methodist Parsonage, of Charles Lester Brown of East Halls Harbor, and Jennie Crossman, of Praseriville, Cumberland County.

Mrs. E. M. Beckwith, accompanied by her cousin, Miss Fannie Eaton, are spending the summer at Scotts Bay, boarding at the home of Mrs. Marchant Steele. Mrs. Beckwith is in poor health.

The Preparatory Dept. of Canning School, is now under the management of Miss Margaret Chase, of Lakeville, who has been awarded the Strathcona drill prize. This is indeed an honor, and reflects credit upon the teacher and pupils. Two thirds of the prize is awarded to the teacher and one third to the pupils or school, to be used for books or any useful thing.

The results of the Provincial Examinations of Grade X have been received and it is of interest to know that all of the candidates of the Canning High School were successful. Much credit is due to Mr. Pearson and his efficient staff. The names of the candidates are Misses Alice Jess, Mabel Brown, Mary Lombard, Edna Lockhart, Vivian Melvin, Mildred Porter and Mr. Theodore Ellis.

30 YEARS AGO

The following items are taken from the files of THE ACADIAN of 30 years ago: Many wells and brooks in Horton are dry. In Grand Pre and Wolfville people are going long distances for water.

A large number of tourists have been in Wolfville during the past week or so. We would like to see more effort put forth to draw them to our town, and better accommodation in the matter of amusement provided.

At the regular prayer meeting of the Presbyterian Church on Wednesday evening the pastor, on behalf the congregation presented Mr. D. B. Shaw with a handsomely bound bible as an acknowledgment of his services as superintendent of the Sabbath school.

"Resolute's All-American crew," says The Boston Transcript, "consisted of twenty-two Norwegians, seven Swedes and one Dane."

Odd Fellows Grand Lodge

The Grand Lodge of the Independent Order of Odd Fellows of the Maritime Provinces of Canada held its 63rd annual session on Wednesday and Thursday of this week, at Sackville, N. B. The Grand Secretary in his report said:

"The year has been by far the best in our history both numerically and financially, our net gain in membership 1128 making our membership on June 30th 13,524 while the cash assets have increased \$24,857.72 and the total assets \$26,282.27. These figures are exclusive of three new lodges which were instituted during July and from which no returns have been received."

D. G. Whidden and L. B. Fielding of Wolfville were in attendance representing Orpheus Lodge, No. 92, and it is expected will give an interesting report to the lodge next Monday evening.

POTATO PRICES DROP TO \$2.00 PER BUSHEL.

HALIFAX, August 12.—Potatoes are still coming down and at the rate they have been slipping for the past couple of weeks, it will be O. K. to call them by the old familiar name of "spuds" or "bumblers" soon.

Less than two weeks ago growers demand \$4 a bushel for new potatoes and received it. A week ago last Monday the descent began. The prices came down by gradual but rapid bounds until yesterday potatoes were sold in Halifax—the new crop—for \$2 a bushel, just half of what they brought a week ago Saturday.

A local commission merchant bought ten barrels of potatoes yesterday at \$7 a barrel. There were three bushels in each barrel, but the barrels cost the farmer \$1.25, which means that he sold his product at a trifle under \$2 a bushel. Another dealer was offered a consignment by a Kings county grower at \$5.50 a barrel, about \$2 a bushel, delivered in Halifax.

It is said potatoes will go down still further as the new crop is gradually harvested and put on the market.

The population of Halifax is now estimated at 85,000. Ten years ago it was 48,000.

Montreal, May 29th, '09, Minard's Liniment Co. Limited.

Yarmouth, N. S.
Gentlemen,—I beg to let you know that I have used MINARD'S LINIMENT for some time, and I find it the best I have ever used for the joints and muscles.

Yours very truly,
THOMAS J. HOGAN,
The Champion Clog and Pedestal Dancer of Canada.

An Important Work

Just Finished by Streets Department

The important work of placing a well constructed culvert across Main street at "the bridge" has just been completed by the street authorities. This undertaking was quite a big proposition and has been going on nearly all summer. Chairman Sutherland has given the work his personal supervision and he and Supt. Johnson are convinced that the expense—about \$1000.—was justified by the result. When the finishing touches are completed and the necessary grading and levelling done the improvement will be more apparent to the citizens. Owing to the character of the soil it was found necessary to first construct a foundation of wood before placing the concrete. The necessary timber was procured from the Warte-shed lands thus effecting a substantial saving in price. It is hoped that the plan of extending this culvert to the railway bridge may be carried out next season so as to provide for the completion of the work of filling in and levelling this section of the town property.

NOVA SCOTIA MEN ON A BIG JOB

EDMONTON, ALTA, July 8.—Extensive operations involving the outlay of nearly \$500,000, and the maintenance of a big fishing fleet are planned by the MacKenzie Basin Fisheries, who are establishing a cannery at Black Bay, Athabasca, equipped with modern machinery that will employ over one hundred helpers, according to Captain Leslie Baxter, of Canning, Nova Scotia, who is on his way to Peace River to take charge of a river steamer loaded with supplies that will be used in the construction of the factory. Other Nova Scotia men on the job are Joseph Thorpe, of Scotts Bay, Kings County, who has charge of the construction of the cannery and has been building motor boats for the fishing fleet, assisted by his brother Walter. The two latter young men, Messrs. Thorpe, are well known in Kings County as being first class carpenters and motor boat builders. Joseph and his brother have been building up to date vessels that were built at Scotts Bay during the war. They are sons of Mrs. Reid Shaw, of Scotts Bay.

The announcement has been received of the marriage of a former resident of Wolfville—Mr. A. M. Hoare, of Halifax, to Miss Cora M. Lavers, of the same city. Mr. and Mrs. Hoare are spending their honeymoon in Cape Breton. Both are prominent members of the order of the Sons of Temperance, which is meeting at Sydney. Mr. Hoare has for several years faithfully filled the office of Grand Scribe and Mrs. Hoare for some time did most efficient work among the young while filling the position of Grand Patron. Both have many warm friends who will join THE ACADIAN in all best wishes.

Miss Edith Bullard, who will sing at the concert to be given in the Opera House next Thursday evening, recently took part in a concert at Bates College, Lewiston, Me., with Jacques Hoffman, of the Boston Symphony Orchestra. The following was said of the concert: "We certainly had a great concert. Everybody has been pleased with all of it and there is not one who did not go away absolutely satisfied and delighted. Miss Bullard was all you claimed for her and surely we have not had in Lewiston a singer of her power, sweetness of voice, quality of tone, sense of interpretation and sympathetic interest since our coming to the city."

Notes and Comments

A town is known by the newspaper in it.

Baby-carriages are now propelled by electricity.

In Japan the wedding feast usually lasts eight days.

Paris has the only exclusively women's theatre in the world.

To Europeans in India the wild bee is more dangerous than the snake.

The man who makes the most noise talking makes the least noise thinking.

In Greece a girl's dowry consists of household furniture and linen rather than money.

Although the lily yields a delicate perfume, in toilet goods the odor is always imitated.

Some of us remember when we could go to the grocery store and buy something for a quarter.

People who are at greatest pains to advertise their social position are those who are not sure of it.

The prohibitionist who declares that corks are popping in hell probably means that hell is popping in Cork.

In olden times in Europe a royal dish was prepared from thin slices of young deerhorns, these having been previously fried.

The average woman makes a strenuous effort to discover her husband's faults for the purpose of hiding them from others.

To put an end to a quarrel by saying angry words in an angry voice, is as foolish as to put out a fire by pouring oil upon it.

Great Britain spends \$240,000,000 a year on sport, the largest item being horseracing, which accounts for quarter of the full amount.

A new device for apartment houses is a miniature system of pneumatic tubes which carry the mail from the street entrance to each apartment.

A learned professor thinks that he has invented a machine to detect when a man is lying. Such a machine was constructed years ago from one of Adam's ribs.

A French painter has destroyed all his pictures because people did not show much enthusiasm over them. This is the self-sacrificing spirit we would like to see inculcated in the spring poet.

Bad temper is like the fabled scorpion that stings itself. The poisoned sting of anger strikes deepest in our own souls. A fit of ill temper may hurt others, but it hurts us far worse. Unless we learn to control our tempers we shall be at the mercy of these tempers all through our lives.

A government tax of five per cent on the gross revenue collected from Chautauqua in Prince Edward Island was distributed as follows: Summerside \$169.05, Charlottetown \$146.11, Alberton \$134.15 and Montague \$124.60. This distribution is a clear expression of government opinion that amusement tax collections fairly belong to the municipalities.

A TONIC FOR THE NERVES

The Only Nerve Tonic is a Good Supply of Rich, Red Blood.

"If people would only attend to their blood, instead of worrying themselves ill," said an eminent nerve specialist, "we doctors would not see our consulting rooms crowded with nervous wrecks. More people suffer from worry than anything else."

The sort of thing which the specialist spoke of is the nervous rundown condition caused by overwork and the many anxieties of to-day. Sufferers find themselves tired, low-spirited and unable to keep their minds on anything. Any sudden noise hurts like a blow. They are full of groundless fears, and do not sleep well at night. Headaches and other nerve pains are part of the misery, and it all comes from starved nerves.

Doctoring the nerves with poisonous sedatives is a terrible mistake. The only real nerve tonic is a good supply of rich, red blood. Therefore to relieve nervousness and run down health Dr. Williams' Pink Pills should be taken. These pills make new, rich blood, which strengthens the nerves, improves the appetite, gives new strength and spirits, and makes hitherto despondent people bright and cheerful. If you are at all "out of sorts" you should begin taking Dr. Williams' Pink Pills.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WHY IS IT

Why is it, it is often asked, that people in small towns can find no better business than prying into other people's business, and then exaggerating the truth in regard to the same. People who pretend to be Christians, who attend church regularly, who, in the sight of their neighbours are generous and charitable, yet who, without the slightest provocation, pick up some little mistake, or more often, at nothing, will so scandalize one as to ruin his or her reputation for life. While they would not steal from them worldly goods, yet they rob him or her of what is more precious than gold—a good reputation. Why can't people practice the christianity that they preach and "do unto others as you would have them do unto you?"

THE HOME PAPER

(Read on Newspaper Day at the N.Y. State College of Agriculture.)

I am the friend of the family, the bringer of tidings from other friends; I speak to the home in the evening light of summer's vine-clad porch or the glow of winter's lamp.

I help to make this evening hour; I record the great and the small; the varied acts of the days and weeks that go to make up life.

I am for and of the home; I follow those who leave humble beginnings; whether they go to greatness or to the gutter, I take to them the thrill of old days, with wholesome messages.

I speak the language of the common man; my words are fitted to his understanding. My congregation is larger than that of any church in my town; my readers are more than those in the school. Young and old alike find in me stimulation, instruction, comfort. I am the chronicler of birth, and love and death—the three great facts of man's existence.

I bring together buyer and seller, to the benefit of both; I am part of the market-place of the world. Into the home I carry word of the goods which feed, clothe, and shelter, and which minister to comfort, ease, health, and happiness.

I am the word of the week, the history of the year, the record of my community in the archives of the state and nation.

I am the exponent of the lives of my readers.

I am the Country Weekly.

Our idea of a good citizen, and we are glad there are many in this community, is one always ready to give according to his means, to community enterprises. He takes stock in them all, and doesn't lose his faith if an occasional venture proves bad. He is not afraid to buy real estate and pay what it is worth. He talks up his town at home and abroad, believing it is the neatest place on earth, believing it to be destined to be the biggest city in its section and wants to be buried here when he dies. And he's worth a whole regiment of the luke warm kind.

AGRICULTURE IN OUR SCHOOLS

A man may never be too old to learn, but the youth is conceded to be more teachable than the person of mature age. By providing suitable instruction and training for the young men and women of the farm, more lasting benefit will be conferred than by seeking to make good the deficiencies of the older generation. The 1918-19 report of the Agricultural Instruction Act Commissioner reviews the work carried on during the year by the provincial departments of Agriculture and Education with the funds placed at the disposal of the provinces for agricultural instruction by the Federal Government. This bulletin is obtainable from the Publications Branch, Department of Agriculture, Ottawa. The report indicates that about one-half of the total annual grant of \$1,100,000 is applied to the instruction of adolescents.

For the advancement in the direction of agricultural teaching in the rural schools, the grant is largely accountable. Along with it have been developed nature study, school and home gardening, boys' and girls' clubs in poultry, pig and calf rearing, canning, bread-making and similar activities, culminating in the annual school fair. Practical projects of this kind may easily be made the medium for training the intelligence, because they are seized upon with eagerness by most boys and girls.

In certain high schools agricultural and household science courses are being developed, and in more than one province special vocational schools of agriculture have been established and receive assistance from the grant. In developments such as these lies the hope for the improvement of modern agriculture through the rank and file of the rural population, to whom the centralized college of agriculture is not available. The present day need is that it should be made easy for country boys and girls to secure an educational training of such a character as will fit them for country life and rural pursuits. Colleges of agriculture and veterinary colleges have not, however, been overlooked; they also are given liberal assistance. Following the close of the war, the attendance at these institutions shows a marked and gratifying increase, and their influence in promoting the advancement of Canada's leading basic industry, agriculture, will continue to make itself felt.

SETTLERS FROM BRITISH ISLES

Immigration to Canada is Resuming Its Old Trend

Recent statistics show that immigration is again resuming its old trend. During the war practically all the immigration to Canada was from the United States. Now the tide from Europe has again set in, and during the present season the numbers coming from the British Isles have been about double that from across the line. Continental immigration as yet is very small. At the present time the immigration averages about 18,000 per month, and of this number approximately 12,000 come from the British Isles and six thousand from the States. At present the immigration from the British Isles is proportionately English. Last month out of the 12,500 from the British Isles, 8,000 were English, 3,000 Scotch, less than one thousand Irish, and 150 Welsh. The medical and mortality squad in the Immigration Department continue to exercise very rigid supervision. About 1,800 would be immigrants are being rejected, for physical or moral disabilities, and from 30 to 40 deported.

CALGARY PROVIDES FREE CAMP SITE

For the benefit of touring motorists, the city of Calgary has provided a free camping site with certain conveniences on the Elbow river just south of Victoria park, where the exhibitions are held. Electric lights and sanitary facilities are being installed. The purpose is to attract tourists who wish to live in the open while they are on the road.

Temperance in Sabbath-schools—Mr. C. A. Patriquin.

"Y" NIGHT, APRIL 22nd, 1920, AT WORLD'S CONVENTION

The pageant was the eagerly looked for item on the programme. The music began and suddenly the hum of subdued voices grew louder, somebody clapped, somebody pointed, somebody cried, "There they are," and through the top gallery door entered a seemingly endless procession of girls led by Mrs. Dawson, the "Y" Superintendent of West London Union. Slowly and steadily the procession passed along the front of the gallery and came down the platform steps, across it in full view of everyone in the hall, up again and round the other two sides of the gallery. The first group with its tall girl bearing a globe encircled by white ribbon, with her eight small attendants holding the ribbon ends, was completed by the big banner, Y.W.C.T.U. These were the Westminster "Y's." Next came Europe, with many shields and its three proud lantern bearers, Denmark, Norway and Sweden—Local Option countries. This was shown by West London "Y's." The East, with multi-colored garments, was done by the girls from Moffat Institute Branch, and close behind them came South America in gay colors, and Africa. Peckham "Y's" and North Walthamstow "Y's" undertook these. With much applause the British Empire group appeared, Scotland's Local Option lantern being well seen, while Australia's three provinces proudly bore their lanterns. The South London Scattered Members "Y's" had gathered together for this. Canada followed, beflagged and decorated with maple leaves, and, best of all, crowned nine provinces with provincial Prohibition and one with Local Option—surely the Essex "Y's" must have vowed a vow to bring their country into line with the country they represented. Then came little Finland and the Faroe Islands, crowned and attended by train bearers, pioneers in prohibition, and last of all America with a red gown and blue star-spangled train and glittering crown, marching forty-eight States, each one's star shining brightly, each one's shield decked with laurel, each one receiving enthusiastic applause from anyone who knew anything about her. And then entered the "Reinforcements now appearing" group. No symbolic dress here, these were ordinary girls in ordinary clothes, reminding everyone of the ordinary work done by ordinary people, which has so largely prepared the way for the coming of the Day, and without whom the great things done by the great speakers could not have been accomplished. Scarcely had the last reinforcement vanished through the gallery door than the applause began again, as the leader appeared on the ground floor. In and out the procession wound until looking across the area, one saw waving laurels everywhere, and when at length the last one went out, everyone was almost too tired of clapping to clap. Adjectives ranged from the "wonderful" of the President to "topping" of some of the school-girl delegates, and that seemed the crowning comment.

One in every twenty-three persons in Canada owns a motor car and one in every twenty in the U. S. A. In England only one in every 268 persons owns an automobile.

"Your Teeth"

By REA PROCTOR MCGEE, M.D., D.D.S., PITTSBURGH, PA.

DISEASES OF CHILDHOOD

The highest death-rate is between the ages of two and six years. At two years the eruption of the temporary teeth is just being completed and at six years the eruption of the permanent teeth is just beginning. This period, from two until six, is the time that the temporary teeth are in their prime. If the twenty little teeth are free from decay and the child is able to chew its food so that the proper nourishment will be extracted, the little body will have strength to resist or overcome nearly all of the infections that may come to childhood.

The temporary teeth are of greater importance to the child than are the permanent teeth to the adult, because a child must not only be nourished to keep up the ordinary life processes but it must have nourishment for rapid growth in addition.

The temporary teeth decay much more rapidly than the permanent teeth because their structure is not so dense and, in addition, the pulp is more quickly exposed because it is larger in proportion to the size of the tooth. Nearly all dentists are agreed that the treatment of a temporary tooth with an exposed pulp is hopeless. The best that can be done in such a case is to give temporary relief. If the temporary teeth are lost, they cannot be satisfactorily replaced.

The permanent teeth lie in the baby jaw just beyond the roots of the temporary teeth and are only partially formed even at the time of their eruption. If the baby teeth are allowed to abscess, the growing permanent teeth are bathed in pus and will probably be seriously damaged or totally ruined. Children are highly susceptible to pus. Abscesses of temporary teeth produce general infections that result in lowered vitality, rheumatism, heart inflammations and many other diseases that are very serious and sometimes fatal. Don't neglect your children's temporary teeth; both the present and future welfare of your child depends upon the health of the mouth.

IMPORTANT CHANGES IN THE GAME LAWS.

There have recently been enacted some important amendments to the new Federal Game Laws which should be of vital interest to all sportsmen.

Aside from bag limits being fixed, "sink-boxes" or sunken boats being declared illegal and the bore of shot-guns to be not heavier than ten gauge, probably the most important new regulation is that which forbids the killing or attempting to kill any kind of a game-bird after sun-set or before sun-rise.

By "game-birds" is meant all kinds of geese, ducks, brant, snipe, woodcock, plover and all other shore-birds. It will be well also to bear in mind that of the snipe or "shore-birds" so called, the only kinds which may be taken legally in season are the following: Greater and Lesser Yellow-Legs, Black breasted and Golden Plover, Woodcock and Wilson's Snipe. This leaves many species of the "shore-birds" protected throughout the year.

For further particulars write to the undersigned.
R. W. TUFTS, Wolfville, N. S., Chief Game Officer for Maritime Provinces Migratory Birds Convention Act.

BABY'S GREAT DANGER DURING HOT WEATHER

More little ones die during the hot weather than at any other time of the year. Diarrhoea, dysentery, cholera infantum and stomach troubles come without warning, and when a medicine is not at hand to give promptly the short delay too frequently means that the child has passed beyond aid. Baby's Own Tablets should always be kept in the house where there are young children. An occasional dose of the Tablets will prevent stomach and bowel troubles, or if the trouble comes suddenly the prompt use of the Tablets will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"Stop my paper, there was something in last week's issue I did not like," said an irate subscriber to the great Horace Greely. "All right," said Greely, "but I want you to do something. When you get home take a pail of water, put your finger into it, withdraw the finger and look for the hole."

A clergyman who advertised for an organist received this reply: "Dear Sir,—I notice that you have a vacancy for an organist and music teacher, either lady or gentleman. Having been both for several years, I beg to apply for the position."

COAL PRICES

Report of the United States Federal Trade Commission on coal costs and prices makes interesting reading. The commission reports that the entire cost of mining soft coal is \$2.04 per ton on the average. The average selling price at the mine is \$2.74. Railway charges to seaboard range from 50 cts. to one dollar a ton. The average export price for March is given as \$5.66 a ton or \$2.92 above the selling price at the time. It is said the profits of the mining companies which in February were 29 cents a ton rose to 42 cents in March, owing largely to increased output.

Evidently the great additions to price take place somewhere in the process of distribution. Where modern coal handling machinery is lacking at railway terminals there are doubtless large additions to cost, and delivery systems are not economical; still the price of coal when it reaches the consumer seems

unduly high. In any case cheaper coal would seem to be not so much a problem of production as of organizing a more economical system of distribution.

DOG SHOW AT ST. JOHN EXHIBITION

It is the intention of the New Brunswick Kennel Club instead of holding a separate Dog Show this year to conduct one in connection with the Exhibition on the days of September 7, 8 and 9th. It is expected Mr. Charles G. Hopton, of New York, will officiate as judge for all breeds. The show will run under the auspices of the Exhibition, but the details will all be looked after by the New Brunswick Kennel Club of which Mr. W. C. McKay is secretary, and all requests for information, etc., should be addressed to him. In addition to the regular prizes and specials for the various breeds a special cup will be given for the best Dog or Bitch exhibited from Nova Scotia.

Nova Scotia Hospital Training School

Applications will be received from young ladies contemplating taking up nursing as a profession. The Training School gives a two year's course. For particulars apply to the Superintendent of Nurses, Nova Scotia Hospital, Dartmouth, N. S.

"Save the surface and you save all" Paint & Varnish

A Finish That Lasts

WHEN you paint it is with the idea of "conserving" your property, as well as beautifying it. And you wish to avoid constant repainting. If it's to be a white surface, you want it to stay white. And it will—if you use

B-H "ENGLISH" PAINT

70% Pure White Lead
30% Pure White Zinc
100% Pure Pigment

This really superior paint gives a brilliant finish that will not fade for a long time to come. Whether in white, or in colors, it will give protection, and will continue to look "fresh" for a long period. This result is obtained by the use of finest ingredients in just-right proportions. The white base for it is that superb pigment known for two centuries as Brandram's German B.B. White Lead. By using this, and other ingredients of similar high quality, there is maintained in B-H "English" Paint a standard of paint quality that other brands have to envy. It excels in "body," brilliance, covering capacity and permanence. This store is proud to be known as

Editorial Notes

The town of Annapolis Royal evidently possesses a progressive government that is ever looking for opportunities to advance the interests of citizens and the welfare and prosperity of the town. Among matters which they now have under consideration is the providing of accommodations for teachers and non-resident pupils of the school. The problem of obtaining suitable board and lodging for teachers in Wolfville at a price within the limits of their income has been a real one for some time, and the scheme now under consideration by the people of Annapolis affords a possible solution of the difficulty. The proposal at Annapolis is to erect a suitable building on their own grounds. The claim is made that the cost of operation by the town with free light and water would be cheaper than could be possible by any private individual and besides gives the kind of service required.

The debentures for the town's electric light loan are now being prepared and probably within a short time will be put upon the market. Recent legislation of our provincial government requires that there forms be printed by the government instead of by the local printer—hence the delay. In connection with the sale of these bonds, we notice that recently the town of Annapolis in floating a similar loan used the local newspaper to advertise what they had to dispose of with the result that within a short time the loan was over-subscribed by citizens at par. The contract with the local paper, The Spectator, for one month was cancelled after the advertisement had been inserted two weeks, as there was no further need for it.

The street authorities have begun the work of excavation and grading on Linden avenue, preparatory to beginning the construction of the road-bed which will be the same as Main and Acadia streets. The material is being used for grading the sidewalks which have been in a rather uneven condition since the work was abandoned last summer. It is the intention, we believe, to do some work on Front street after the completion of the paving of Linden avenue.

The Royal Bank of Canada has received another nest of safety deposit boxes which were placed in their vault this week. These boxes afford a safe place for the depositing of valuable papers, bonds, etc., and can be rented at moderate rates. The manager will be pleased at any time to show them to interested parties.

The staff of THE ACADIAN on one of the broiling days of this week was refreshed by a treat of "The Palms" delicious ice-cream from the genial proprietor.

The provincial convention of the G. W. V. A. will be held at Digby on Sept. 20th.

KENTVILLE MAN DIES IN STORE

KENTVILLE, Aug. 11.—W. M. Carruthers dropped dead here tonight at the store of A. A. Rottler. Mr. Carruthers, who resided here for about 20 years, came to Kentville from Canard, N.S., whence he had come from Western States. He took quite a prominent part in local politics and was well known.

Mr. Carruthers, who was connected with the Nova Scotia Carriage Company for a time, and later secretary of the Three-Counties Exhibition, leaves one unmarried sister, Teresa, to mourn him.

Items of Local Interest

Mr. and Mrs. T. Hibbert Purdy, Onslow, announce the engagement of their daughter, Agnes Lane, to Mr. J. Fremont Logan, of Montreal. Marriage to take place in September.

For Sale—A Two-Burner Perfection Oil Stove in good condition. Apply to Box 262.

The young ladies of the town entertained the members of the baseball team at supper at the Baptist church, on Thursday evening of last week. A most enjoyable time was spent and the boys are very grateful to the young ladies for their kindness.

Who says it does not pay to advertise? R. E. Harris & Sons received two loads of brush last Friday morning, only a few hours after their advertisement appeared in THE ACADIAN, and it has been coming in ever since.

Beard Wanted.—By two young ladies for the first two weeks in September. For further particulars apply to THE ACADIAN.

The many friends in Wolfville of Mrs. Walter Duncanson (nee Ida Murphy), of Wilmar, Minnesota, will be interested to hear of the birth of a daughter (Shirley Irene) to Mr. and Mrs. Duncanson, the latter part of June.

THE ACADIAN had a pleasant call yesterday from Mr. Fred Jones, of Halifax, a former valued resident of this town. Mrs. Jones and other members of the family have been visiting during the summer in Wolfville where they have many friends.

Five building lots on Westwood ave. for sale, trees bearing, splendid situation, will be sold at reasonable price for immediate purchase.

J. D. CHAMBERS.

The Wolfville Base-ball Team gladly take this opportunity of extending publicly their thanks to the young ladies who so kindly furnished them with an excellent supper last week. This word of thanks expresses the sentiment given at that time by three rousing cheers and a "tiger".

Quite a number of Wolfville people went on the excursion to Parrsboro on Wednesday. However the rain began as soon as they arrived at Parrsboro and continued all afternoon which spoiled the outing. The game of baseball between Wolfville and Parrsboro was unable to be played.

WANTED—Two good girls at "The Palms." Apply to E. C. H. Young, phone 238.

A number of very pretty articles of crochet work in the window of THE ACADIAN Store this week have attracted considerable attention, particularly from the ladies. This is the work of Mrs. B. O. Davidson, who takes orders for every description of work of this line. The prices are very reasonable.

The Summer School of Methods for Sunday School workers is being held at Wolfville, commencing yesterday and continuing for a week. Wolfville people interested in Sabbath school work should attend these meetings which are being held at the Seminary Building. The County S. S. Convention also opened at the Seminary last evening and will continue through to-day.

WANTED—By private individual, few pieces of old or antique furniture, preferably dining or fancy chairs, dining and card tables, sofa or sideboard. Reply to Box 11, THE ACADIAN office with full description regarding price, condition, age, etc. 47-31

Notice is hereby given to all concerned that Ex-Members of the Canadian Expeditionary Force who are entitled to and who require their Post-Discharge Dental Treatment, must submit applications to the District Dental Officer at the Headquarters of the District in which they reside on or before 1st September, 1920. Applications for Dental Treatment received after September 1st, 1920, will not be considered.

HELP WANTED

Young ladies or men wanted for local sales campaign; exceptionally pleasant work; experience unnecessary; big pay; whole or spare time work. Write giving references to: Magazine & Newspaper Subscription Agency, 202 Roy Bldg., Halifax, N.S.

Miss Edith Ballard, Soprano, and Mr. Richard Bowen, Baritone, two of the artists who will sing at the Concert in the Opera House, Thursday evening, August 19th, are both in the front rank of successful concert artists in the United States. A peculiar feature of Mr. Bowen's artistry is that he is an accomplished and unique whistler and his work in this line has attracted great attention. It is expected that upon this occasion he will favor the audience with a whistling solo in addition to his vocal number.

FORMER WOLFVILLE DOCTOR MARRIES

HALIFAX, July 29.—Rev. Dr. Curren officiated at the marriage yesterday, in St. Mary's Cathedral, of Mary A. La Pierre, formerly a nursing sister, and Major Ernest F. Moore, of the Department of Soldiers' Civil Re-establishment, Camp Hill, the bride wearing a smart tailored gown of navy blue serge and hat of navy georgette, her bouquet being a shower bouquet of bride roses. Immediately after the ceremony, Major and Mrs. Moore left for a trip to the Bras d'Or Lakes, anticipating an absence of about two weeks, and on their return will reside on Robie Street.

MOTORS AND MOTORING: A Page Full of Interest to the Owner or Prospective Owner of an Automobile.

HAS NO MORE NEED FOR JOHN D'S FLUID

Inventor Again Demonstrates Ability To Burn Air at Cost of One-fifth Cent a Mile.

Much interest has been shown by readers of THE ACADIAN in an article published on this page on August 6th which described the invention of an American for developing motive power from atmospheric gases. In that article, taken from a Webster City (Iowa) newspaper, it was stated that the inventor ran a truck around the city all day on about 5c worth of material. The following article has since appeared in the Des Moines Capital:

A. C. Bundy of Webster City, famous in his home town and vicinity as the discoverer of a process to create hydrogen gas and apply its use to the automobile, drove into Des Moines today with his car and motored over to the state house to arrange with Secretary Corey to show his invention at the Iowa state fair.

Bundy was accompanied by Rube McFerren and A. J. Peterson of Webster City. Mr. McFerren, well-known Iowa legislator, prominent in the Thirty-sixth and Thirty-seventh general assemblies, is president of Bundy's company. Peterson, former county auditor of Hamilton county, is secretary-treasurer of the company.

Cost Small

Bundy says he used about fifteen cents worth of chemical in driving the 80 miles or so to Des Moines from Webster City. The cost of operation of an automobile will be extremely low and the problem of using up all of the country's oil in the development of gasoline is solved in Bundy's opinion.

Besides patenting the process used to develop gas, Bundy has also patented a rotary engine, a type required for this new power. It has far less parts than the engines now used and it is claimed will develop a high speed.

Friends and acquaintances of Bundy say that for years he has been a mechanic. Several years ago he was working in South Dakota when he formed the acquaintance of a chemist. Bundy and the chemist worked for months on this process when the chemist was taken ill and died. Since that time Bundy has continued the work until he has perfected and patented his invention.

HOW TO STEADY A JACKED-UP CAR

To remove the tire or demountable rim from the rear wheel of an automobile it is necessary to jack up the car and revolve the wheel; therefore the brake must be released. It injures a tire to run on it while deflated and if it has gone flat on a hill the other wheel must be blocked before it is safe to release the brake. On paved roads and streets or in stoneless localities it is not always easy to find a satisfactory block. Carry your block with you.

One method suggested is as follows: Take a block of wood about 40 inches long and 4x4 inches thick and saw it into blocks of equal size making a diagonal cut. This gives a block wedge-shaped at one end just the thing for blocking purposes and large enough to hold a heavy car on a steep hill. It is light, easily stowed and does not injure the tire.

A set of these often comes in handy in the garage, for sometimes, when working around a car, both rear wheels have to be jacked from the floor and then it is necessary to block the front wheels to prevent forward or back movement.

Safety demands that when a car is left standing on an incline, it must be blocked to avoid accidental release of the brakes.

This is the time of the year when owners of new cars need to be reminded that more harm may result to the vehicle in the first 500 miles of running than all the rest of its life. After the car has been run a couple of hundred miles the driver should go over it and take up slack in bolts and bearings. Pistons should have excessive lubrication during the early wearing period. The universal joints must be kept fully lubricated during the early running of the car. A stitch at this time saves not nine but nineteen.

The automobile industry in the United States employs more than 1,000,000 men and women. This does not include accessory manufacturers.

ADJUSTED BRAKES ENSURE SAFETY

Remember That the Brakes Are the Only Safety Device in Your Motor Car

Brakes are the only safety device on the motor car and when it is considered that faulty or improperly adjusted brakes can be quickly corrected and made to function properly it is oftentimes criminal negligence to allow them to go unattended to.

In case brakes are not working properly, it is very likely that they have become coated with oil or grease, which acts as a lubricant. This condition is dangerous, for it may cause the brakes to slip when applied. At the earliest opportunity the lining of the brake-drum should be wiped clean with kerosene.

The brake lining may have become worn so that insufficient pressure is brought to bear against the revolving metal drum and the car cannot be stopped quickly. A few adjustments which any mechanic can make while you wait, will often compensate for the reduced thickness of the worn lining.

If the lining has become worn beyond the margin of safety, it is best to take no chances but to have the brakes re-lined. In the selection of a new brake lining the motorist must be guided by the experiences of the leading automotive engineers, who have made numerous analyses and tests of various kinds of brake lining materials. The wise motorist is satisfied not alone in being able to drive a car, but thankful that he can stop it. He values a smooth, short stop no less than he appreciates a quick, easy getaway. Watch your brakes—enjoy greater comfort and safety.

And while brakes are vital in the safe operation of a car, they should not be used any more than necessary. The best way to avoid brake troubles is to use the motor as much as possible as a brake on the hills. If you are going down a steep hill put the car in second and let the motor hold it back. If the hill is very steep, get into low and slide down. You who have never tried this do not realize what power there is in the motor to hold the car back. It is safer and greatly prolongs the life of your brakes.

WASHING AID

A mighty useful device for the man who washes his own car may be made by sawing a keg or barrel in half and clamping to the edge an ordinary clothes wringer. The half barrel is filled with water and the chamois cloths used for cleaning the car soaked therein and afterwards passed through the wringer so that a dry surface may be assured in the final operations of cleaning the body.

OUTLOOK FOR AUTO INDUSTRY

Second in size to only the iron and steel industry, the American automobile industry is today the world's largest manufacturing business of finished products. At the end of this year the total annual volume of United States combined motor vehicle, accessory and supply business will have reached \$4,400,000,000, of which \$2,000,000,000 will represent motor cars, trucks and tractors.

In view of these staggering figures J. George Frederick, writing in the American Review of Reviews, asks: "Can the automobile industry keep on growing? Is the ghost of saturation to begin his disquieting gig? Is not the point being reached where income limitations will prevent the further absorption of motor vehicles?"

Some comparisons and a "close-up" inspection of facts underlying this country's automotive industry—admittedly the most amazing young giant in our industrial arena—are necessary to reach sound conclusions.

First, then, there are now roundly 7,750,000 motor vehicles in use in this country, about 800,000 being motor trucks. This is one vehicle to each thirteen persons in the United States as against one to every 2,182 persons in the rest of the world. Certain sections show a higher concentration than the country as a whole. Iowa is first with an automobile to every five to six persons—one to every family. Were the same proportion maintained throughout the whole nation, there would be 40,800,000 more cars in operation in the United States alone!

Men like W. C. Durant, head of the General Motors corporation, do not see anything fantastic in such an outlook for the automotive industry, declares Mr. Frederick, who quotes Mr. Durant as saying substantially that the automobile is a part of the constructive machinery of civilization and progress—a stimulation to every phase of modern life—and is sound because it meets a fundamental human need—transportation. Motor cars are no longer a luxury, continues Mr. Durant; 90 per cent of them are employed at least part of the time in business. Unless human nature changes, there will always be a demand for them.

LOOK AT FRONT WHEELS

The average car owner is quite likely in the desire to give the rear wheels all the attention they need, to forget the front wheels. Now, the front wheels should be given careful inspection at least once a month, particularly those of the type fitted with ball-bearings of the cup and cone type. The cones wear rapidly because they are subjected to heavy stresses in travel.

Little Girl: Mother dear, can't I have a dress like that. Mother: No, darling, you are too young to wear a short skirt.

SOME OF CANADA'S BIGGEST THINGS

Canada has the largest bascule or one-way lift-bridge in the world at Fort William.

Canada has the largest fish hatchery in America at Port Arthur; capacity 90,000,000 eggs.

Canada has the largest grain mill in the British Empire.

Canada has the world's highest lift-lock at Peterboro.

Canada has the largest buffalo herd (over 4,000), and the largest elk herd (6,000-8,000) in the world.

Canada has the richest nickel and asbestos mines in the world.

Canada has the longest bridge span of its kind in the world at Quebec.

It is an excellent thing to sprinkle some French chalk or talc in the shoe before putting in the tube, but don't be prodigal in the use of it, for too much is worse than not any. If there is an excess of chalk it is apt to roll up into little balls and the continual friction of the tube against these will soon do material damage to the tube. In fact, there have been instances where the tube was literally chewed to pieces—so badly damaged that it was found impractical to repair it.—Motor Life.

The main street of Zion City, Ill., is covered with deep sand to prevent automobile speeders from annoying the town.

OPPOSE HEARST PAPERS

The Vancouver Canadian Club has passed a strong resolution against the Hearst magazine and news services and has forwarded a protest to Ottawa. A special committee was appointed by the club to make a thorough investigation into the extent to which the Hearst publications circulate here and into the anti-British character of the same. The committee which contained two of the brightest young lawyers in the city went into the matter very thoroughly. The report states that the newspapers and news services controlled by the Hearst interests "are inimical to the best interests of the British Empire and some or all are detrimental to the Canadian spirit." The Federal Government is urged to investigate the matter and to take such steps as it thinks best to exclude them or otherwise deal with them. The resolution will be also forwarded to the annual convention of Canadian Clubs which will be held in Montreal in September.

Advertising Nova Scotia

After observing the movement of the Provincial Branch Nova Scotia's Red Cross Society's two public health caravans for a period of three weeks as they move about the Province and noting the words of commendation along the routes, an editorial writer in the "Halifax Morning Chronicle" for the third day of August under the caption of "Good Advertising" writes as follows:

The progress of the Health Caravans through the Province of Nova Scotia is no longer a matter of Provincial interest only. The news of their departure from Halifax and of their reception at various points along the routes they were designed to cover, has become news of the world, and has created world-wide interest. Reports of the work attempted and accomplished will be incorporated in the reports of field work for health being done everywhere the world over.

Besides the good that must undoubtedly result to the general health of the people of this Province, the better chance given to the young of both sexes to meet and overcome obstacles on the road to success, the whole campaign of which the caravans are but a part, will advertise Nova Scotia advantageously. Amongst the questions asked by settlers of the type we wish to attract will be "What school advantages do the rural districts of Nova Scotia afford?" And next to that will come the query, "What assurance is there that, in event of need, there will be medical services of a high grade within reach?" The education and the health of the family must be to the desirable type of immigrant at least as important as the chance to make money.

The story of the Health Caravans, carrying knowledge and the services of experts in their respective lines right into the very heart of the most remote rural sections, will go far to re-assure these intelligent questioners. It will also establish Nova Scotia in the eyes of the world generally as having awakened to the importance of conserving the human resources of the country, as well as what is meant by "natural resources." So long as the death rate of a community or country is regarded as the measure of intelligence in that community or country, it is essential that Nova Scotia shall do all in her power to conserve health.

Though her record in the past has not been all it should in this respect, she has now entered upon a new era. The agitation conducted by the Provincial Health Officer and supported by the intelligent, public-spirited press, is at last bearing fruit. The old Scripture saying that "He maketh even the wrath of man to praise Him," is being fulfilled today. The dreadful explosion in Halifax and the still more dreadful war of which it was a part, both expressions of man's wrath, revealed conditions that aroused the public conscience. Now those conditions are to be remedied through the combined efforts of the Massachusetts-Halifax Health Commission and the Provincial Branch of the Red Cross Society of Nova Scotia. Thus from those two catastrophes will come good for this and all succeeding generations. The co-operation of the two societies has made possible a most ambitious programme of which the work of the Health Caravans is but a part.

It is comforting to the honest independence and just pride of Nova Scotians to know that at least the rural end of the programme is being financed by themselves. The generous support the Red Cross Society received during the war has only to be continued now from year to year to make the Public Health programme a tremendous success, and also to rob it of any taint of charity. It is Nova Scotia's own effort to put herself on the Good Health Map, a map just as important, as, and possibly more so than, the Map of Financial and Industrial Success.

Pupil: "Would you think it right to punish a boy for something he had not done?" Teacher: "No, of course I shouldn't." Pupil: "Well, I haven't done any of my lessons." Youth's Companion.

COUNCILLOR'S POSITION NOT ENVOIOUS ONE

An editorial on civic management in the Kelowna, (B. C.) Courier commences thus:

"Who would not be a City Father? What a thankless, heart-breaking thing it is to serve one's home town with the best motives and then to find the services unappreciated and rewarded with nothing better than bitter and unfair criticism. Most men who enter public life know that they must expect a certain amount of criticism, as there must always be honest differences of opinion, into which, however, it is not at all necessary to import the least bitterness, but unfortunately criticism seems to generally culminate in blind, prejudiced censure and personalities which have no bearing upon the merits of the matter at issue."

RAILROAD PRONUNCIATION

The conductor and brakeman on a Montana railroad differ as to the pronunciation of the name Eureka. Passengers are often started upon arrival at this station to hear the conductor yell: "You're a liar! You're a liar!" Then from the brakeman at the other end comes the cry: "You really are! You really are!"—Boston Transcript.

The shrewdest buyers have confidence in the merchant that advertises continually in his local paper. They know such merchants cannot afford to do otherwise than give a square deal.

Personal Paragraphs

Mrs. Ringer, of Chicago, is the guest of Mr. and Mrs. C. R. Nowlan.

Dr. Langille, of Truro, paid a short visit to Wolfville on Friday last.

Dr. W. L. Archibald returned home on Tuesday from his trip to the Pacific coast.

Mrs. Frank W. Barteaux and family have been spending a week at the Berwick Camp grounds.

Mr. C. B. Godfrey is back at his old post at F. W. Barteaux's store after a month's vacation.

Mr. Fred Beattie left on Friday last for Port Morien, C.B., where he has accepted a position.

Mrs. C. W. Ryan, of Lisbon Falls, Me., is visiting at the home of her mother, Mrs. A. J. Woodman.

Miss Elsie Smilie, who has been in Cape Breton since the Seminary closed, returned home last week.

Mrs. J. E. Hales and daughter, Bernice, are at the Central House, Kingsport, for a week or ten days.

Miss Margaret Townson, of Los Angeles, California, is spending the summer with her sister, Mrs. J. Howard Barsa.

Mrs. W. B. Eaton, who has been spending a few weeks at South Milford, Annapolis county, returned home last week.

Rev. Ross Eaton, B.D., of Mattapan, Mass., will preach in the Baptist Church next Sunday, morning and evening.

Mr. and Mrs. Guernsey Spidle and two children, of Toronto, are visiting at the home of the former's parents, Dr. and Mrs. Simeon Spidle, Summer street.

Miss Edith Langille, of Truro, daughter of Dr. Langille, is a guest at the summer cottage of Principal and Mrs. R. W. Ford, at Evangeline Beach.

Mrs. E. C. Young received word on Monday from her son Borden in Manitoba that his little boy, six years old, had had his left hand taken off in a feed chopper.

Mrs. Elliott Smith and daughter, accompanied by the former's niece, Miss Rand, of St. John's, Nfld., sail by the Metagama from Montreal on Saturday for England.

Mr. and Mrs. N. Thumim arrived on Saturday from Boston in their Standard Eight touring car and are the guests of Mrs. Thumim's sister, Mrs. Aubrey Rand, Linden avenue. They intend making a tour of Nova Scotia before returning to their home in Winchester, Mass.

Mrs. K. C. Denton, of Montreal, with her two little daughters, are visiting her parents, Mr. and Mrs. S. P. Hales, Main Street, for a few weeks. Mr. Denton is expected the last of the week from Little River, Digby County, where they have been spending the summer months.

Mr. and Mrs. Howard Schofield, of Winnipeg, Manitoba, are visitors to Wolfville, after an absence of some years. Mr. Schofield is making arrangements to dispose of the fine property on Acadia street, formerly occupied by his mother. Many old time friends are glad to give him a welcome.

Mrs. Conrad Selliken, of Calgary, Alta., who with her little daughter has been visiting at the home of her parents, Mr. and Mrs. O. Baker for about two months, left for her home recently accompanied by her sister, Miss Carrie Baker, who plans to take a business course there this coming term.

Mr. Lewis G. Pick arrived in Wolfville, Tuesday, from Boston, where he has been studying the past year. His many friends look forward with pleasure to hearing him sing at the Concert to be given at the Opera House, Wolfville, on Thursday evening, August 19th.

Prof. Ernest D. Burton, D.D., with Mrs. Burton and his daughter, Miss Margaret Burton, of New York, are visiting Mrs. J. H. Barsa, Mrs. Burton's sister. Dr. Burton is senior professor of New Testament exegesis in Chicago University and Director of the University Library. Prof. Burton is also well-known as a speaker and author, and has just completed a commentary on "Galatians" now being published by Scribners, N.Y. Miss Burton is one of the secretaries of the National Y.W.C.A. of the United States. She is author of a number of books and is in constant demand as a platform speaker.

BORN

CHUTE.—On Thursday, August 5th, to Mr. and Mrs. Arthur Hunt Chute, a daughter.

The United Farmer Party of Colchester county held a convention at Truro on Wednesday evening and nominated Capt. Hugh A. Dickson, of Onslow, to oppose Hon. B. B. McCurdy, M.P., for Public Works, in the by-election on September 20th. Capt. Dickson has accepted the nomination.
