

THEY CALL IT PROTECTION.

City Engineer Says City Is Being Held Up.

T. H. Pratt Threatens to Make Trouble for City.

Committees of Council Will Meet Next Week.

That the manufacturers of water pipes have a combine and are holding the city up for high prices is the belief of City Engineer MacCallum, after an investigation in which he discovered that pipe for which the city was charged \$33 a ton here can be purchased for \$26 a ton in the States, although the duty and freight brings it up to \$33.50 a ton laid down here.

The merger of the Canadian cement companies, alluded to in the Times several months ago, has just been completed in Montreal.

T. H. Pratt called at the City Hall to-day and registered a vigorous protest against his company being ordered to remove natural gas and water pipes out of the alley between King and King William streets.

The following building permits were issued to-day: Charles Plant, brick store, corner of Sherman avenue and Imperial street.

The committees will resume their sessions at the City Hall next week. There is very little business of importance to deal with.

The Board of Works Department has put out two blocks on Sophia street. The engineer is trying an experiment with one of the blocks, which is being macadamized.

Dr. Roberts, the Medical Health Officer, has been informed that there are a number of cases of scarlet fever in the city which have not been reported to the health department.

The success of the clean milk campaign being inaugurated here far exceeds the most sanguine expectations of those behind the scheme.

PICTURESQUE.

Glorious Moonlight and Violent Lightning at Same Time.

A picturesque storm, which was unusually severe a few miles over the mountain, struck this section about 8.30 last night. It came up in the northwest and was very threatening.

Saturday Tobacco Bargains.

Ten-cent plugs of King's Navy for 7c, Starlight 8c, Lily 9c, Black 8c, T. & B. plug 10c, Empire 8c, Black Watch check three plugs for 25c.

SAFETY DEPOSIT BOXES

To rent at \$2 a year and upwards, for the storing of deeds, bonds, stocks, wills, silver and other valuables.

GOING TO LAW.

Two Writs Issued To-day in Damage Actions.

Mr. George Harrison is taking action in the High Court against the Hamilton Street Railway Company for injuries received in a collision which took place some time ago near the Hamilton Steel & Iron works.

ENGINEERS ENTHUSIASTIC.

Convention Over But They Are Loth to Leave.

Had a Great Time and No Disappointments.

Steamboat Outing Was the Wind-Up of the Visit.

Another annual convention of the Brotherhood of Locomotive Engineers, Canadian Union, and the Grand International Auxiliary, is over and the delegates are speeding to their homes all over the continent.

The delegates had a great time as guests of Stanley Mills & Co. on their electric car trip around the city, to the mountain and down to Maple Leaf Park.

The delegates had a great time as guests of Stanley Mills & Co. on their electric car trip around the city, to the mountain and down to Maple Leaf Park.

PUBLISHERS IN THE CITY.

St. Clair District Newspaper Men Visiting in Town.

Members of the St. Clair District Printers' and Publishers' Association, their wives and families, comprising a party of forty-five, as guests of the Bunting-Gillies Company, are being entertained here this afternoon.

Courtright Sun, Mr. and Mrs. Hare, Florence Quill, H. J. Jerome and wife, Forest Free Press, H. J. Retypiece and wife.

Forest Standard, G. W. McIntosh and wife, Glencoe Transcript, A. E. Sutherland and daughter.

Parkhill Gazette, W. Dawson and wife, Petrolia Advertiser, J. G. Hutchcraft and sister.

Petrolia Topic, J. W. Kedwell and wife, Sarnia Canadian, Leslie McAdams and sister.

Sarnia Observer, A. R. Wanless and wife, Sarnia Post, W. Whitcomb and wife, Strathroy Age, D. Evans and wife.

Sombra Outlook, R. Saunders and sister, Mr. W. E. Duperow, district travelling passenger agent of the G. T. R., is in charge of the transportation arrangements.

ROMANTIC STORY OF H. A. NEYLAND'S MARRIAGE.

A fascinating story of how Cupid, King of Hearts, won a victory in a pretty romance launched here less than two years ago, comes by cable from old London, where Henry A. Neyland, for years Principal of the Hamilton Art School, has been married to Miss Jeanne Vermorel, the noted violinist, whose splendid work on the concert stage won her fame.

MISS JEANNE VERMOREL, The noted violinist, whose romantic marriage to Harry A. Neyland, principal of the Hamilton Art School, has just taken place in London.

Mr. Neyland first met his bride, it is said, while touring the United States in an automobile. She was on a concert tour with Mme. Calve, whose protegee she was, when they were first introduced.

It is reported that they became engaged during Miss Vermorel's stay here, but in Paterson, N. J., the young lady's home, it was stated that she had broken the engagement, and was to become the bride of Baron von Zach, Austrian Consul to Singapore.

Mr. Neyland succeeded Mr. S. John Ireland as Principal of the local Art School. His people, who live on the Hudson, are said to be very wealthy.

In the story cabled to the New York American the groom is referred to as Sir Henry Neyland. This is probably due to an imaginative correspondent.

A young knight's dash across the ocean to win the heart of an American girl from his rival, an Austrian baron, is the romantic story behind a cable-gram received in Paterson, N. J., yesterday, announcing the marriage of London of Miss Jeanne Vermorel to Sir Henry Neyland, of Hamilton, Ontario, says the New York American.

The news came as a complete surprise even to Miss Vermorel's intimate friends in Paterson, where it had been rumored, when she sailed for Europe seven months ago, that she had broken off her betrothal to Sir Henry. Even her father, Charles Vermorel, head of the Lodi Silk Dyeing Company, was quite astonished at the message.

Miss Vermorel, now Lady Neyland, has achieved distinction as a concert violinist in this country and Europe.

BLOODSHED IN BARCELONA. DISASTER IN MOROCCO.

Spain in Troubled Times—Fierce Fighting in Barcelona—Moor Trouble May Spread to Soudan.

Madrid, July 30.—The news from Barcelona that the cavalry and troops have gained the upper hand, captured the main bodies of insurgents and that only isolated bands are holding out in the suburbs creates the greatest relief in official circles here.

Late last night it was announced that the cavalry engaged at Barcelona had succeeded in driving into St. Martin's Square the principal band of revolutionists, against which the artillery opened fire.

No figures are given of the casualties at Barcelona, but it is certain that blood flowed like water. General Marina, commander of the Spanish forces in Morocco, reports that there is momentary quiet outside Melilla, but no details of the situation of the army at Melilla is given except that Spanish reinforcements, with a new commanding general, has arrived there.

Cerebere, France-Spanish Frontier, July 30.—All the reports received here from Spain confirm the terrible fury of the women throughout Catalonia. In Barcelona they fought behind the barricade with the men, urging them to fight to the death, and everywhere they recruited searches by gendarmes for recruits for the reserves, barring the doors of their houses and firing at the soldiers from the windows.

In Casa de la Salva the population surrounded and disarmed the civil guard and locked up the officials in the barracks. Not only in Barcelona, but throughout the province, church property was the special object of the popular fury.

In Granollers, sixteen miles north of Barcelona, two convents were burned. In Amer, fifteen miles from Gerona, the Carmelite Convent was looted and burned. The sisters narrowly escaped with their lives.

head of the revolution. He holds the workmen's organizations in the hollow of his hand.

While a member of the Cortes in 1903 Senor Leroux broke with the party because it joined with the Catalan Solidarity, which included the Carlists, whom he opposed on the ground that they stood for maintenance of a monarchist regime and clerical reaction.

Centu, Morocco, July 30.—The natives in the region surrounding this seaport are preparing to join their fighting forces at the heights before Melilla. A holy war is being preached from Ceuta to Moulmuga, and the whole country is aflame with fanaticism.

Paris, July 30.—The news of the terrible defeat inflicted on the Spanish forces by Moors at Melilla and the confirmation of the extent of the insurrection in Spain causes apprehension here. The triumph of the Moors in the Rif would suggest that in the interest of duty Europe should come to the rescue.

After the tribesmen had retired the work of burying the Spanish dead, after lying long in the sun, hurriedly was accomplished in the ravine where two columns of Spanish troops were ambushed while trying to rescue a convoy.

The steamer Movilla has arrived here with hundreds of tons of shells for the artillery and cartridges for the soldiers, whose ammunition was running low. The greatest confusion reigns at the epidemic of the bodies were dumped into holes.

Bilbao, Spain, July 30.—The authorities of Bilbao are greatly disturbed. They fear Don Jaime, who recently succeeded his father as leader of the Carlists, will take advantage of the situation and create a rising of his followers in Northern Spain, where the Carlists have a political-military organization under command of Marquis Corralbo.

STILL GRAVE. San Sebastian, Spain, July 30, via Hendaye. France—Official reports received here to-day from Madrid indicate that the situation in the Catalan provinces is still most grave.

30,000 WARRIORS. Ceuta, Morocco, July 30.—The natives in the region surrounding this seaport are preparing to join their fighting forces at the heights before Melilla.

UPRISING MAY SPREAD. Paris, July 30.—The news of the terrible defeat inflicted on the Spanish forces by Moors at Melilla and the confirmation of the extent of the insurrection in Spain causes apprehension here.

HEADED WITH CORPSES. Melilla, July 30.—The Moors have withdrawn from the outskirts of the city. It is believed they are concentrating for a new effort. They burned hundreds of their dead, whom they were unable to carry off.

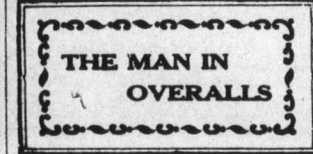

FEAR DON JAIME. Bilbao, Spain, July 30.—The authorities of Bilbao are greatly disturbed. They fear Don Jaime, who recently succeeded his father as leader of the Carlists, will take advantage of the situation and create a rising of his followers in Northern Spain, where the Carlists have a political-military organization under command of Marquis Corralbo.

Bain & Adams' List. Young plump ducks, spring chickens, squabs, ciscoes, pea-fed bacon and ham, carmeloupes, pears, peaches, plums, watermelons, oranges, celery, beets, carrots, egg plant, vegetable marrow, yams, black berries, lettuce, radishes, Romaine, Swiss, Limburger, Camembert, old Canadian cheese, all kinds of summer drinks, Heinz pickles and olives by measure. Store closed Monday.—Bain & Adams, 89-91 King street east.

PASSED AWAY.

Mr. George Petrie, Formerly of Jerseyville, Dead.

A large number of people throughout Wentworth and Brant, especially in and around Jerseyville, will regret the death of Mr. George Petrie, which took place about midnight at the home of his son, Mr. James F. Petrie, St. Catharines.

THE MAN IN OVERALLS

Probably the dog owners imagine that their dogs should be allowed to run at large in the dog days.

The mountain will be ready to receive water in six weeks. Will the city be ready to supply it then? I doubt not.

The true story of many historic duels will be told in the Times Saturday editions. Do not miss them.

Well, what do you think of the playgrounds? Great thing for the children.

That must be the house of mirth the Hospital Board has on its hands.

You will have to find your own amusement on Monday. Nothing doing.

I know who told the Herald, but who told Ald. Hopkins that the mountain people would not get water until next year?

I am beginning to wonder what fate has in store for the Children's Sick Hospital propaganda. It's not dead, is it?

The store clerks would feel obliged to you if you would get around early in the day. They want to get out at 5 p. m., rain or shine.

The man in the next block says some men have to get up and make their own breakfast. But his wife, he says, always was an early riser, and thinks nothing of having her week's washing out on the lines before he goes off to work.

If the locomotive engineers think as much of Hamilton as it does of them they will carry away with them a high opinion indeed of this pretty and prosperous city. Call again.

"Should prisoners be allowed to earn as much as will keep their families in comfort while they are in prison?" is a question that the Trades and Labor Council or the Canadian Club might discuss with profit. I know which side I would be on.

I hope you are not overworking your poor horse this warm weather. "A merciful man," etc. You know the rest.

Of course, the city will tax the tax-payers whether they are overtaxed with work or not.

To a man up a tree it looks as if Harry Thaw was the kind of man he said Stanford White was.

Who said this city was too near to Toronto to have an annual exhibition of its own? Would it be good news if ladies would take the matter up, something would be doing soon.

Have the crazy people begun yet to fix up the Beckett drive? That question leads to the thought that King street west is also in poor shape.

Of course, this weather is trying on people, but it is also trying when the icicles are hanging on to your limbs.

London reports a shortage of hogs, but does not say if it is the street car or park bench sort.

PERSONAL.

W. H. Hewlett, organist of Centenary Church, has returned from the Pacific coast.

J. M. McPherson, of Globe, Arizona, is visiting his cousin, Dr. D. McEdwards, Bay street south.

Miss Grace Lowe, assistant secretary of the Y. W. C. A., left to-day for a few weeks' visit to Buffalo, N. Y.

Master William Robertson, 149 Queen street south, is spending his vacation the guest of Mrs. McPhee, station 26, Beach.

Mrs. James Baxter, Bold street, and Miss Vera Lawrie, Jackson street west, leave on Saturday for an extended visit to Detroit.

Mr. A. J. Nixon, assistant superintendent, Grand Trunk Railway, London, is in the city on important business in connection with the company.

Mrs. Thomas Hamrahan and her little daughter Anna left to-day to join her son, Arthur, who has been staying at Britannia, Lake of Bays, Mich.

Mr. and Mrs. Thomas Dolan, relatives of Mr. Thomas Power, of the Mansion House, and friends of Mr. Patrick Arland, are in the city attending the Locomotive Engineers' Convention.

Young plump ducks, spring chickens, squabs, ciscoes, pea-fed bacon and ham, carmeloupes, pears, peaches, plums, watermelons, oranges, celery, beets, carrots, egg plant, vegetable marrow, yams, black berries, lettuce, radishes, Romaine, Swiss, Limburger, Camembert, old Canadian cheese, all kinds of summer drinks, Heinz pickles and olives by measure. Store closed Monday.—Bain & Adams, 89-91 King street east.

HOT DAY HAD BAD EFFECT

And Drinkers Were Numerous at Police Court.

Bunch of Dog Cases and Several Fines Were Imposed.

Samuel Goldberg Committed on False Pretense Charge.

The police court roster contained a long list of names this morning, but the cases were of a trivial nature. Yesterday's tropical condition created a thirst that kept the bartenders busy, and as a result many became victims of drinking too much iced tea, and the police found it necessary to escort them to cool apartments.

Katie looked a voluminous amount of disgust at the policemen present, but was effusively polite to the Magistrate, and told him she was a lady of unquestionable character.

Robert Edmund came from Ancaster yesterday in business, he said, but the business entailed the quaffing of sundry convivial glasses.

A. J. Symes came over from Cleveland, Ohio, and became soaked. He was fined \$2.

John Anderson got on a toot yesterday and was fined \$2.

Charlie Young, a post graduate from the University of John Barleycorn, was guilty with being inebriated.

William Bolton, a cosmopolitan, as he has no address, said he only had two whiskies last night, but naturally a sweet restorer claimed him, and he remained in her embrace until encircled by a strong arm of blue.

Frank Gormody was on route from Toronto to Stoney Creek via Hamilton, but the arrangements of the city attracted him, and he fell by the wayside until a good Samaritan in the form of P. C. Goodman picked him up.

Charlotte Gracey, 119 Jackson street east, was charged with being a common vagrant. She was allowed to choose between going to the House of Refuge or the jail.

For stealing some pickets from a fence belonging to the city at the foot of Mountain avenue, Norman McLeod was fined \$10 and costs.

John Crossover again came up to tell where he got the liquor, but was still in his former state of inebriation, so he was fined \$20 or three weeks.

Samuel Goldberg came up on a charge of false pretence. He declined to elect through his counsel, M. J. O'Reilly, K. C., and was committed for trial.

Quite a number of cases for breach of the dog by-law were up for hearing.

W. J. Miller, 31 Bay street south, said his dog was let out of the house, made a rush for the gate and ran down the street.

"When you have passed sentence I would like to say a few words," said Miller to the Magistrate. "Say them now," said his worship.

"Well, I think this dog-by-law the most inhuman law ever framed, and the Council are a lot of puritanical old fogies, always hunting for votes."

"Write to the press," said his worship.

"That's no good," said Miller. "You can go," said Magistrate Jelfs.

John Anderson, 211 Murray street east, owned the dog which bit Leslie Small. He was fined \$2.

Thomas Cochrane was fined \$2 for letting his dog stray, and Daniel Cotter paid \$2 for allowing his horse to run at large.

THE INJURED.

Monsoto Perono, who was injured yesterday in the rolling mills, is very low to-day.

Leslie Small, who was bitten by a dog, and who was operated on in the City Hospital yesterday, is doing nicely to-day.

Alfred Wright, who was taken to the City Hospital two days ago, will be able to leave in a few days.

Alvin Christie, the little boy who was badly kicked by a horse at Ancaster two days ago, is doing as well as can be expected to-day in St. Joseph's Hospital.

Really the Best

Place to buy a sponge is where you can get the biggest assortment to choose from. We have the greatest assortment to be found anywhere.

Dunville's Gazette.—Mrs. Horning, of Hamilton, is the guest of Capt. B. M. and Mrs. Haney at their lake shore cottage. Mr. Horning spent Sunday and Monday there.

R. McKay & Co.

Love Finds the Way

All the way to the docks his heart kept repeating "Lily, Lily!"

Clarence Clifford nodded. A hundred passenger ships had no interest for him that morning.

Clarence Clifford read this as one reads absurd things that appear and reappear in dreams.

"You don't see me!" said Miss Lucas. "I am not surprised; I was prepared for it."

STEAMSHIPS GRAND TRUNK ROUTE Reduced Rates to Mackinac

To relieve congestion on regular steamer, twenty per cent. reduction will be made between Collingwood, Owen Sound and Mackinac on Express S. S. Majestic, sailing on Tuesdays and Fridays.

THE HAMILTON TIMES

FRIDAY, JULY 30, 1909.

PLAY THE GAME FAIRLY.

Mr. Armstrong, M. P., appears to be aspiring to a place on the record of fame as the father of the Canadian agitation for rural postal delivery.

Chief of police. The sweet-box and third degree methods of which the United States have furnished so many illustrations, are as illegal and as iniquitous as other crimes of violence, and are constant reminders that our neighbors have to struggle to protect themselves, not only against the criminal element, but also against the officials who should be the upholders of the law.

AS CANADIANS VIEW IT.

Mr. J. Hall Richardson discusses in the Fortnightly Review the question of emigration to Canada, from the British point of view. He opens a large question by referring to an English writer's characterization of Canada's "selfishness" in refusing to take any surplus population which the old country might care to send us.

But whatever may have been Mr. Armstrong's knowledge of the Government's determination, he can claim no title to pioneerism in the movement for Canadian rural mail delivery. The idea was copied from the United States. Probably the one man who is entitled to claim the credit of conducting an agitation for Canadian rural mail delivery as a pioneer, is Mr. George Wilcox, who lives in Oxford County, near Woodstock.

A LOSS TO THE PROVINCE.

John Dryden, who for nearly fifteen years was Minister of Agriculture for Ontario, died at his home in Toronto last evening at the age of 69 years. Few names are more familiar throughout the Province, and few men have achieved such generally acknowledged success in office as Mr. Dryden achieved in the Ontario Ministry of Agriculture.

DENY THE IMPEACHMENT.

The convention of chiefs of police at Niagara Falls, Ontario, has passed a resolution protesting against what it calls "unfair attempts by sensational newspapers and in jury courts by references to the so-called sweet-box and third degree methods" to give the idea that it is used here.

EDITORIAL NOTES.

One of the needs of the hour is the jailing of a few bicycle thieves—no short terms, either.

For a care-absorbed family man, King Alfonso is having more than his own share of public troubles.

What with war in Morocco and revolution at home there is need for a strong hand and wise head in Spain.

So that school grant fund cheque was only "delayed in transmission." But, my, what a shock it gave to Secretary Foster!

Quit your knocking, Ald. Hopkins, and help to get the mountaineers water to drink. A lot of those people don't take whiskey.

A \$25,000,000 Canadian cement combine. Well, we hope it will not be too "wet," and that prices may not have to be forced up too high to dry it out.

The price of rubber is still soaring. The best quality, Up-River Para is quoted at 104 to 106. Automobile owners may count on higher prices for tires.

The British Government has granted Lady Wyllie, whose husband was assassinated by a Hindu, a pension of \$2,500 a year. Lieut.-Col. Wyllie was a very popular officer and a great friend to India.

By the way, who is the owner of the vermin repository into which those poor hospital nurses were placed? And if the Hospital Board be forced to pay rent for it for two years, what use will it be of it?

If a man rent to a tenant a house so infested with bedbugs that it cannot be occupied by cleanly, decent people, does the law provide no recourse? It would seem to be a place where a suit for damages would lie.

Wonder if those diligent incubators of majority booms are not disappointed at finding that Mayor McLaren did not make haste to accept that inventor's invitation to an airship cruise. Now, there's Ald. Hopkins; what's wrong with him courting fame?

Don't run away with the idea that while bedbugs may be filthy and disgusting they are not actually dangerous. The deadly disease, cerebro-spinal meningitis or "spotted fever" is said by sanitary authorities to be communicated to human beings by their agency.

The United States postal department are vigorously prosecuting the swindlers who have been operating an "endless claim" suit club. They appear to have found a large number of suckers who hoped to get a good suit of clothes at somebody else's expense. Canadians were bitten, too.

Harry Thaw argues that he is "only legally" insane—that is, only insane enough to escape the rope, but sane enough to be entitled to be at large and in the enjoyment of all the comforts of liberty and wealth; and the Thaw money can hire so-called authorities to forward such a contention.

A committee has been formed to forward the scheme for an international celebration of the century of peace between Canada and the United States, which has followed the war of 1812. It is probable that the Dominion and Provincial Governments will participate in the celebration.

All the school masters and marmas must sign new contracts. Not that the Board is apprehensive that it may get bounced under the old one; but when the girls can change the styles of their millinery with so little fuss, the trustees think they should have a right to feel that it is like to enforce a change of style once in their lives.

President Taft's influence has succeeded in keeping down the United States tariff bill duty on rough lumber to \$1.25 per m. As completed, the bill increases duties generally from 1 to 3 per cent. over the Dingley rates. The bill now passes from the conferees to the Senate, which will probably dispose of it within a week. As far as Canada is concerned the revision is of little moment, and it is not likely that it will stand long.

The United States Interstate Commission has ruled that railways are not prohibited from advertising commutation rates for children; but it holds that if a rate is given to bona fide school pupils or students, the same rates must be given to all children within the ages stated in the tariff, "regardless of their mission, errand or business." The object of travel cannot be allowed to influence the rate charged.

A little premature are the French newspapers in rejoicing that Great Britain is no longer "isolated." Let France try to invade her neighbor save in a peaceable way and then see what will happen.—Chicago Tribune.

There would be "doins" in such an event. But fortunately the best of feeling exists between the two peoples. Indeed the bad feeling which so often springs up between politicians is generally due to self-seeking politicians and evil disposed newspapers. Pity the mischief-makers could not be made to fight the lobbies themselves, marching long, heavy marches and eating hard tack this July weather.

CASTORIA. The Kid You Have Always Bought. Bears the Signature of Dr. J. C. Watson.

Our Exchanges

BIRTHDAYS. (Toronto Nes.) A man who celebrates his birthday by getting drunk would probably object if his wife followed suit on her birthday.

AN IMPERTINENCE. (M. A. P.) "Do you ever write on an empty stomach?" asked the mere man. "Sir!" exclaimed the literary person, "I am a poet, not a tattoo artist!"

NATURE FAKER. (Boston Transcript.) Kermit (in the jungle)—Why does the hyena laugh, father? Theodore—Maybe he asked the leopard if he ever tried benzine for changing his spots.

WHERE TO LAUGH. (Dundas Banner.) Hamilton is advertising cheap trips out of town for Monday next which is a good idea for towns that provide no entertainment for Civic Holidays. Come to Dundas that day where you can laugh and grow—like an alderman.

CAPITAL IDEA. (Brantford Expositor.) Hamilton, following the lead of Toronto and other cities, has opened a supervised playground for children. The idea is a capital one for the larger centers of population. In Brantford a supervised public swimming bath is probably the greatest need.

VIGILANT FIDO. (Judge's Library.) In the barber shop the scissors clicked merrily away, and the barber's dog lay on the floor close beside the chair, looking up intently all the time at the occupant who was having his hair cut. "Nice dog, that," said the customer. "He is, sir," said the barber. "He seems very fond of watching you cut his hair."

THE COLONEL OF THE SITUATION. (Atlanta Constitution.) "State after State is going 'dry,' Colonel. I know it, sir," snapped the Colonel. "And soon there will not be a 'toddy' in the whole country."

Here the Colonel paused, and then concluded: "But—come to think of it, there's a good deal of water 'twixt here and Europe!"

CENTRAL CHURCH COLONIAL. (The Presbyterian.) The Old Colonial meeting houses of New England would seem to be a subtype, especially characteristic of that part of America. Like the Norman, its glory lies in its simplicity and dignity. Under certain conditions and in certain parts of Canada, this style might be copied with good effect. The new Central Church of Hamilton is a most successful adoption of the Colonial idea, and bears a pronounced resemblance to many churches throughout Massachusetts, Connecticut and New York City. Those of our readers who have seen the Brick Church on Fifth avenue, New York, will recognize in Central, Hamilton, an almost exact copy.

DON'T KNOCK. (Paris Star-Transcript.) A town that never has anything to do in a public way is on the road to the cemetery. Any citizen who will do nothing for his own town is helping to dig the grave. A man that curses the town furnishes the coffin. The man who is so selfish as to have no time from his business to give to town affairs is making the shroud. The man who will not add to the public good is the undertaker. The man who is so stingy as to be unwilling to give times preaches the funeral sermon and sings the doxology. The man who criticizes the fellow who is trying to "do things" erects the tombstones, carves the epitaph, and thus the town lies buried from all sorrow and care.

HEROES OF INDUSTRY. (Toronto Globe.) The brotherhood now in session at Hamilton has had a peculiarly creditable history. It was founded by men who had high ideals and who strove earnestly and successfully to realize them. It has endeavored to secure for its members wages as high as could be fairly obtained, but it has never limited its efforts to that object. Its aim has been to raise the standard of life and conduct among men who are engaged in a dangerous occupation, and who are constantly exposed to perils that are absolutely unavoidable. To the locomotive engineers the public owe a debt of appreciation beyond all reckoning, among them there is a larger proportion of heroes and martyrs than there is in almost any other calling. Absolute sobriety and an abiding sense of duty on the part of the man at the throttle are the conditions of safety to the people on the train, and many of these men are cut off every year by accidents simply because they prefer dying at their posts to increasing the danger to those entrusted to their care.

The Ideal Summer Store. To finishing up a busy July Finch Bros. are advertising Saturday some extraordinary price savings in things for present wear, and what is thoroughly reliable and trustworthy in quality, and all new and fresh goods this season. Read Finch Bros.' advertisement to-night. You will find it good and interesting reading of the savings in holiday wearables and necessities. Besides shopping at Finch Bros.' these warm days, the store is cool at all times, no matter how hot it is on the street. Try it to-morrow; the ladies are all going there now; if you are shopping on Saturday evening it is particularly attractive. We call your attention to the \$30 a m. rush sale of wash goods at 60c and 12c; some wonderful bargains. Open until 10 p. m. Saturday.

HOME OF THE FRIENDLESS. The committee of the Home of the Friendless and Infants' Home acknowledge with thanks the following donations for the month of July: Mr. R. K. Pope, crate of strawberries; Central Church, quantity of milk, cake and sandwiches; the firm of Wampole, per Mr. Will, sample drugs; the G. W. Robinson

\$8, \$10 to \$12 Holiday Wash Suits \$4.88. Vacation and holiday sorts are the kinds that are reduced for Saturday. These pretty Summer Wash Suits are of linen, poplin and repps in pink, sky, navy, mauve, white and fancy stripes.

Separate Outing Coats. White Holiday Separate Outing Coats, of poplins, repps and Indian Head semi-36-inch walking length, with self-trimmings and pearl buttons, all sizes, summer holiday kinds. \$3.00, formerly priced at \$4.50. \$4.75, formerly priced at \$5.50. \$4.75, formerly priced at \$6.00.

Forcing Out the Blouses. Reductions off regular prices are only necessary for these Blouses to have a quick exit. The styles are the ones you have admirably. Co., picture cards; Mrs. Herring, cherry pie; Miss Judd, basket of soap and soap powder; R. B. Hill, buns and scones. The monthly meeting will be held at the Home on Tuesday, Aug. 3, at 10 a.m.

MADE BISHOP. For the Death of Little Willie Haggarty. The Car Was Not Provided With Modern Fender, But Was Stopped Within Its Own Length.

Rev. Arthur Lea's Work in Japan is Appreciated. Toronto, July 30.—Rev. Arthur Lea, M. A. of Tokio, Japan, son of Mr. Joseph Lea, of Balm Beach, has been appointed bishop of the diocese of Kinsai, Japan, by the Archbishop of Canterbury. It is expected that Mr. Lea, accompanied by his wife, will leave Japan for England at once, where he will be consecrated. He will return to Japan by way of Canada, when he will visit his father in Toronto.

DOWN AND OUT. Man Who Once Gave \$100,000 to Church Now Worth \$7. New York, July 29.—John Hall Deane, a really lawyer at 135 Broadway, who for some years represented the late Charles T. Barney in his real estate deals, and who once had the credit of dropping a contribution of \$100,000 in the collection in part 2, special term of the Supreme Court, to-day that his only asset now is \$7 in cash in his pocket and that there are judgments aggregating \$600,000 outstanding against him.

FIGHT OVER UNION. Parisian Employees Ordered to Pay a Fine. Paris, July 29.—Sixteen employees of the Department of Posts and Telegraphs charged with illegally forming a trade union during the latest strike were condemned to-day to pay a nominal fine of 16 francs. The dissolution of the union was ordered. The trial turned on the right of State employees to form a union for purposes of defence. Many prominent persons, principally politicians, testified to their opinion that the State employees were entitled to enjoy the act of 1884, which gives workers the legal right to strike.

The Ideal Summer Store. To finishing up a busy July Finch Bros. are advertising Saturday some extraordinary price savings in things for present wear, and what is thoroughly reliable and trustworthy in quality, and all new and fresh goods this season. Read Finch Bros.' advertisement to-night. You will find it good and interesting reading of the savings in holiday wearables and necessities. Besides shopping at Finch Bros.' these warm days, the store is cool at all times, no matter how hot it is on the street. Try it to-morrow; the ladies are all going there now; if you are shopping on Saturday evening it is particularly attractive. We call your attention to the \$30 a m. rush sale of wash goods at 60c and 12c; some wonderful bargains. Open until 10 p. m. Saturday.

HOME OF THE FRIENDLESS. The committee of the Home of the Friendless and Infants' Home acknowledge with thanks the following donations for the month of July: Mr. R. K. Pope, crate of strawberries; Central Church, quantity of milk, cake and sandwiches; the firm of Wampole, per Mr. Will, sample drugs; the G. W. Robinson

BABY GIRL CRIED AND SCRATCHED. All the Time—Torturing Eczema Covered Her Body—Could Not Sleep—Doctor Said Sores Would Last for Years—Skin Now Clear. CURED IN THREE MONTHS BY CUTICURA REMEDIES. "I take great pleasure in telling you what a great help it was for me to use Cuticura Soap and Ointment for my baby niece. She was suffering from that terrible torture, eczema. It was all over her body but the worst was on her face and neck. Her hands were so bad that she could not hold anything. She cried and scratched all the time and could not sleep night or day from the scratching. I had her under the doctor's care for a year and a half and he seemed to do her no good. I took her to the best doctor in the city and he said that she would have the sores until she was six years old. But if I had depended on the doctor my baby would have lost her mind and died from the want of aid. I used all the remedies that everybody told me about and I tortured the child almost to death. Then I saw in the paper how Cuticura was the thing for irritating skin. I bathed her with warm water and Cuticura Soap and used the Cuticura Ointment. She was cured in three months. Now her skin is as clear and smooth as could be. I shall recommend the use of Cuticura wherever I see the skin in bad condition. Alice L. Dowell, 4769 Easton Ave., St. Louis, Mo., May 2 and 20, 1907."

OUR VOLCANO. "Curse From Heaven" Is Hot Sunshine In New York's Slums.

Had One Near Burlington Bay in the Long Ago.

What George Ross Found in the Maritime Provinces.

Chief Superintendent Ross, of the Postal Department, while on a recent trip to the Maritime Provinces, unearthed a rare volume entitled, "The American Universal Geography, or a View of the Present of all Empires, Kingdoms, States and Republics in the Known World, and the United States and America in Particular."

In this work there are some real gems of information, of which the following are a few, concerning Upper Canada.

The militia in the several districts meet annually. All the males, excepting Friends, Tunkers and Mennonites, from 16 to 45, bear arms.

Curiosities: Among many others, a spring, two miles from Niagara Falls, emits a gas, or inflammable air, which, being confined in a pipe, will boil water in fifteen minutes. It was discovered when clearing away the burning brush.

Near Burlington Bay is a volcano, where the Messasague Indians sacrifice to Menitor, or Bad Spirit. They say the eruptions are frequent, with noise like thunder.

This country, extensive for the greater part, is destitute of a regular gospel ministry. Of course many are deplorably ignorant of all religions. There are at very few places, at Newark, Kingston and at a German settlement, regular clergymen, but Methodism is the prevailing religion of Upper Canada. Their teachers are illiterate and rude in their manners, and often exceptional in their lives.

TURNED WHITE.

Jacob Thomas, 74 Years Old, Passes Away at Le Roy Home.

Le Roy, July 30.—Jacob Thomas, 74 years old, a highly respected negro, died yesterday afternoon at his home on South avenue.

Mr. Thomas, during the last twelve years of his life, underwent the remarkable change in color from a negro of the darkest hue to one almost white, so much so that he would pass for a white man on the street by those who did not know him.

Mr. Thomas was a veteran of the Civil War and a member of Staunton Post, G. A. R., of this village. His wife died about two months ago. He is survived by four children.

Last Day of the Inventory Sale.

R. McKay & Co. have made great preparation for the last day of their great half yearly stock reducing sale by offering to the women bargains of the right sort and at savings that shrewd buyers cannot afford to miss.

WITNESS OATHS.

How Witnesses are Sworn In In Many Countries.

There are as many forms of administration of the oath in a court of law as there are religions.

The twenty-sixth annual report (Ontario) contains a very interesting contribution of Mr. Jas. W. Mallon, inspector of legal offices, Osgood Hall, respecting the oaths to be administered in courts of law to persons of various faiths.

ALLOWED HIS CHOICE.

The common law requires the administration of that particular form of oath which the person himself declares to be binding on his conscience, while he is always allowed to adopt the ceremonies of his own religion. It must, however, be according to some religious ceremony or other.

JEW'S HEAD COVERED.

A Jew is sworn upon the Pentateuch, with his head covered, though some swear with the head uncovered. The form of oath is the same as for a Christian, except that the conclusion is: "So help you Jehovah."

OBJECT OF OATH.

Mohammedans object to taking an oath. In India they are, with Hindus, permitted to affirm. English authorities suggest the proper way is to take their affirmations. Vide R. S. O. (1875), c. 73, sec. 13.

To Occidental people the form of

FLASHLIGHTS SHOW PEOPLE SLEEPING IN THE PARK. SMALLER PICTURE—FATHER AND BABY SEEKING SLEEP AND COOL BREEZE IN PARK.

New York, July 30.—Of course sunshine isn't a curse.

But there are hundreds of thousands in New York who believe it is.

The sunshine that brings health and prosperity in the country, kills people in New York.

You can't blame them in New York for wanting to curse something.

The afternoon of a hot day firemen in trousers and undershirts play the hose on each other and the willing horses.

At park hydrants city employees toss water over passing horses.

But there is no water for the children on the great east side.

The other evening the street commissioner tested two new sprinkling wagons for cleaning the streets.

From the fire escapes and windows they gave happy cries when they saw the wagons coming.

"Water wagons! Water wagons!" they cried joyously.

The curse of heat is terrible in the daytime.

But at night to the people of the huge tenements the search for sleep makes it more so.

In the evening you will see whole families lying on the grass, the children playing, the father and mother asleep.

When the weather is terribly hot the

park department allows the sufferers to go onto the grass.

Early in the evening you will see families rushing to find sleeping place in the parks.

As the night grows, silence settles the parks. The children are the last to fall asleep.

On the grass of almost every great park thousands of sleepers pass the night fitfully. It is a sight that can be seen in no other city in the country.

Lucky is the family with a fire escape. For they are peopled with sleeping men, women and children during the hot nights.

Neighbors who live in back

rooms envy the fire escape sleepers. It is not a rare thing for a sleeper to roll from his fire escape to death on the pavements below.

The roofs, too, contain many sleepers on the hot nights.

There is no tenement floor in New York that will hold the outstretched forms of all those who live beneath it.

A week of hot weather in New York shows how fatal the heat is.

Babies die at the rate of 15 or 20 more a day. The white hearse is the emblem of the hot spell. Every other

block in the east side shows its white crape daily.

Suicides increase. Tired men, unable to sleep because of the heat and their weariness, lose their reason. Scarcely a night passes that some man or woman does not jump to death in the river.

Workmen lose their lives during the day's rush. Their minds and bodies tired by the strain of the heat, they make fatal mistakes on scaffolds, or wrong turns with their teams.

More than any one thing—besides poverty—the terrible heat of a New York sizzard brings death.

Soak the dress over night in strong soap. Fill a boiler half full of soft water, put in one pint of javelle water (made by pouring one gallon of boiling water upon one pound of chloride of lime). Dip often to bleach evenly and then rinse through three waters.

The writer was successful in bleaching a faded lavender linen dress in this way.

TO CLEAN NECKWEAR.

The daintiest neckwear which is impossible to wash, if left over night in air tight vessel of gasoline will look fresh and clean when carefully dried.

The Art of Standing Originated With Birds.

And let us note that the art of standing began with birds. Frogs sit, and crocodiles, crocodile, alligator or tortoise, lays its body on the ground when not actually carrying it.

Note also that one toe has been altogether discarded by birds as superfluous. The dorking fowl has produced a fifth toe, but no natural bird has more than four. Except in swiftness, which never perch, but cling to rocks and walls, one is turned backwards, and by a cunning contrivance the act of bending the leg draws them all automatically together.

So a hen closes its toes at every step it takes, as if it grasped something, and, of course, when it settled down on its roost, they grasp that tight and hold it fast till morning. But to birds that do not perch, this mechanism is only an encumbrance, so many of them, like the

plowers, abolish the hind toes entirely, and the prince of all two-legged runners, the ostrich, has got rid of one of the front toes also, retaining only two.—E. H. Aitken, in the August Strand Magazine.

PRIVATE HYGIENE.

What It Means to the Individual and to the Race.

Private hygiene is even more important, and means a revolution in our habits of living. It means fresh air perpetually flowing through our houses and more of our lives spent outdoors.

It means common sense in diet—the avoidance of bolting food, from which dyspepsia springs, and the re-education of normal food instincts, the avoidance of gluttony on the one side, and body starvation on the other, the avoidance of alcohol, the most potent of the predisposing causes of tuberculosis, and the avoidance of dirty, infected milk and meat. It means the "simple life," free from over-exertion on the one hand, and indolence on the other, the habit of normal sleep, and the emancipation from worry.

In giving this prescription Dr. Trudeau once said to me: "It is as simple as bathing in the waters of Jordan, and that is why people are so slow to follow it."

But to-day people are following, and following rapidly. When they see a man, who only a few years ago was so ill of tuberculosis that he could scarcely drag himself out upon a porch, now run twenty-five miles for pure love of exercise, or when they see nine college men inside of half a year double their endurance through rational diet alone, or when they learn that ex-President Roosevelt developed from a weak and timid boy into the personification of strength and courage, and that Cornaro, about to die at thirty-seven, abjured all unhygienic habits and prolonged his life to one hundred and three, they begin to realize the practical value of personal hygiene.—From Professor Irving Fishbein's "The War Upon the Great White Plague" in the September Century.

Steel Street Cars.

Steel street cars, the first of their type to be used on surface lines in any city in the country, will be placed in service within a few days by the Chicago Railway Company. The cars have been built by the Pressed Steel Car Company, of Pittsburg, and the supervising engineers who designed them believe they will be almost indestructible.

A number of the cars are finished and are being fitted out with trucks at the shops of the Pullman Company. The only wood about the new coaches is in the doors, and the steps. The cost of the steel cars is only a little more than the other type now in use, and they will weigh completed 32,000 pounds, or 300 pounds less than the present double-deck coaches. In color and design they are the same as the new cars now in use, the minor differences being distinguishable only on close scrutiny. The cost of each car will be about six thousand dollars.—Chicago Record-Herald.

CAN THE RICH KEEP COOL IN NEW YORK WHILE POOR ARE DYING WITH THE HEAT?

Many of New York's rich escape the heat by going to cooler climes during the hot spells, or to the ocean.

But the rich who remain in the city don't suffer.

The homes of Carnegie, Morgan and other millionaires are fitted with cooling apparatus, and blasts from miniature icebergs sweep through their rooms.

The finest type of roof garden has just been opened at the Astor Hotel. No matter how much money you have, you can't get up there without a special card.

The garden covers 28 city lots. Terraces, flowers, palms, trees and fountains are bathed in breezes that are blown from out a huge ice plant. A great promenade, one-fifth of a mile in length, borders the roof.

Three and sometimes four orchestras play in these 28 city lots, and the gardens are so arranged that the music of one orchestra does not clash with that of another.

Dining rooms fit for a king are in the garden, and here, while the city beneath sweaters, the man with the money finds absolute comfort—all the more sweet to him because it is a comfort wrested from nature for him by his money.

Workmen lose their lives during the day's rush. Their minds and bodies tired by the strain of the heat, they make fatal mistakes on scaffolds, or wrong turns with their teams.

More than any one thing—besides poverty—the terrible heat of a New York sizzard brings death.

Soak the dress over night in strong soap. Fill a boiler half full of soft water, put in one pint of javelle water (made by pouring one gallon of boiling water upon one pound of chloride of lime). Dip often to bleach evenly and then rinse through three waters.

THE HOUSEKEEPER

DYING LACE.

To dye lace or embroideries to match colored dresses put a little oil paint, the nearest color of your dress, in a cup and dissolve in gasoline. When dissolved add enough gasoline to cover your lace and tie a piece of the lace. If too dark, add more gasoline; if too light add more dissolved paint until the right shade is obtained. The odor will soon leave the lace and the dye will not wash out.

TO RESTORE LIGHT DRESS.

If you have an old, faded party dress to try the color. If too vivid add gasoline and more paint, if too pale. This works wonders. I saw it worked on a white point d'esprit party dress (much soiled); it colored it a dainty pink and the effect was great.

BLEACHING FADED DRESS.

Soak the dress over night in strong soap. Fill a boiler half full of soft water, put in one pint of javelle water (made by pouring one gallon of boiling water upon one pound of chloride of lime). Dip often to bleach evenly and then rinse through three waters.

The writer was successful in bleaching a faded lavender linen dress in this way.

When they see a man, who only a few years ago was so ill of tuberculosis that he could scarcely drag himself out upon a porch, now run twenty-five miles for pure love of exercise, or when they see nine college men inside of half a year double their endurance through rational diet alone, or when they learn that ex-President Roosevelt developed from a weak and timid boy into the personification of strength and courage, and that Cornaro, about to die at thirty-seven, abjured all unhygienic habits and prolonged his life to one hundred and three, they begin to realize the practical value of personal hygiene.—From Professor Irving Fishbein's "The War Upon the Great White Plague" in the September Century.

Steel Street Cars.

Steel street cars, the first of their type to be used on surface lines in any city in the country, will be placed in service within a few days by the Chicago Railway Company. The cars have been built by the Pressed Steel Car Company, of Pittsburg, and the supervising engineers who designed them believe they will be almost indestructible.

A number of the cars are finished and are being fitted out with trucks at the shops of the Pullman Company. The only wood about the new coaches is in the doors, and the steps. The cost of the steel cars is only a little more than the other type now in use, and they will weigh completed 32,000 pounds, or 300 pounds less than the present double-deck coaches. In color and design they are the same as the new cars now in use, the minor differences being distinguishable only on close scrutiny. The cost of each car will be about six thousand dollars.—Chicago Record-Herald.

WHERE SLEEP DOES NOT BRING REST—MOTHER AND SON AT MIDNIGHT IN DOORWAY OF NEW YORK TENEMENT.

Stanley Mills & Co., Limited Friday, July 30th, 1909

STORE CLOSÉS 5 O'CLOCK DAILY (EXCEPT SATURDAY)

Stanley Mills & Co., Limited Beach Delivery Every Wednesday

THE HOUSEKEEPER

DYING LACE.

To dye lace or embroideries to match colored dresses put a little oil paint, the nearest color of your dress, in a cup and dissolve in gasoline. When dissolved add enough gasoline to cover your lace and tie a piece of the lace. If too dark, add more gasoline; if too light add more dissolved paint until the right shade is obtained. The odor will soon leave the lace and the dye will not wash out.

TO RESTORE LIGHT DRESS.

If you have an old, faded party dress to try the color. If too vivid add gasoline and more paint, if too pale. This works wonders. I saw it worked on a white point d'esprit party dress (much soiled); it colored it a dainty pink and the effect was great.

BLEACHING FADED DRESS.

Soak the dress over night in strong soap. Fill a boiler half full of soft water, put in one pint of javelle water (made by pouring one gallon of boiling water upon one pound of chloride of lime). Dip often to bleach evenly and then rinse through three waters.

TO CLEAN NECKWEAR.

The daintiest neckwear which is impossible to wash, if left over night in air tight vessel of gasoline will look fresh and clean when carefully dried.

The Art of Standing Originated With Birds.

And let us note that the art of standing began with birds. Frogs sit, and crocodiles, crocodile, alligator or tortoise, lays its body on the ground when not actually carrying it.

Note also that one toe has been altogether discarded by birds as superfluous. The dorking fowl has produced a fifth toe, but no natural bird has more than four. Except in swiftness, which never perch, but cling to rocks and walls, one is turned backwards, and by a cunning contrivance the act of bending the leg draws them all automatically together.

So a hen closes its toes at every step

Our Greatest and Best Summer Clearing Sale

Biggest and Best Corset Offering Ever Made in Hamilton

50 dozen Corsets, the clearing up of oddments of several large corset manufacturers, all go on sale Saturday at most ridiculous prices. Be here at 8.30 for first choice.

White Lawn and Swiss Muslin, 20c, for **12 1/2c**

JEROME HAD HANDS FULL.

Thaw Again Holds His Own Under Prosecutor's Fire.

Fussed Up a Trifle Once, But Quickly Recovered.

Despite Strain, He Helps Prepare For To-day's Examination.

White Plains, July 29.—William Travers Jerome, district attorney of New York, prosecutor at both Thaw murder trials, finished his inquisition of Harry K. Thaw in the Supreme Court at 5.25 o'clock this evening.

All told, yesterday and to-day, Thaw faced Jerome's lightning thrusts for ten hours, yet he held his own at all times, and to-morrow he will be in the hands of friends. His attorney, Charles Morchauer, expects to call him in the morning. This examination may be as long as Jerome's, and after it the district attorney may have a few more questions to ask.

Notwithstanding the mental strain he was under yesterday and to-day, Thaw labored late to-night with his attorney in Justice Mills' ante-room, going over the multitude of records used to-day by Mr. Jerome in his rapid-fire of cross-questions.

On the whole, Thaw and his attorney are well satisfied with the day's work. Thaw showed even more confidence than yesterday; in fact, his self-satisfaction at one time almost cost him dear when he ventured into a heated passage at arms with the district attorney. But he checked himself when he realized that he had nothing to gain and everything to lose by a show of temper.

Yesterday Mr. Jerome devoted himself to the prisoner's life history. To-day he based his questions chiefly upon various documents, letters and memoranda which he produced in surprising numbers. The one he found most useful was a tablet containing 26 sheets of foolscap paper on which were pasted a strange variety of newspaper clippings and scraps of manuscript. Thaw identified it as something he had prepared and sent to Delphin M. Delmas, his chief counsel during the first trial, for use in preparing his closing speech to the jury.

Evelyn Thaw was an interested auditor in court again to-day, but her husband on the stand ignored her presence. She steadily looked at him, but he resolutely refused to look at her.

Indications are that the hearing will last at least a week longer.

Thaw's examination was postponed when his attorneys called Clifford W. Hartridge, Thaw's former counsel, from whom Susan Merrill said she received \$25,000 to keep quiet women alleged to have been abused by Thaw in her New York lodging house.

Mr. Hartridge also was to tell Mrs. Merrill to keep quiet about what happened in her house and to keep everybody else quiet and to obtain from her letters to "Mr. Reid." Mr. Hartridge said he received a mysterious telegram Thaw addressed to Rodger O'Mara, the Pittsburgh detective, directing him to get three tin boxes kept by a certain "Miss Bell" in the "Highlands" exchange in that city. "Let nobody else have them," said the message to O'Mara.

Susan Merrill was the first witness at the afternoon session. Jerome examined her along the lines of her previous testimony alleging that Thaw flogged women in her lodging house. She described the case of one particular girl whom she said saw Thaw treat in this manner.

"When Mr. Thaw went away," she said, "he left money for this girl and

for others. I saw three girls whipped in all," she asserted.

Under cross-examination she said her maiden name was Cahill. She married a man named Manning, she said, but had the court change her name to Merrill. She said that her folks lived in West Medway, Mass.

"Did you ever write letters to Stanford White?"

"Yes, sir."

"Did he ever call at your place?"

"Yes, a few times."

THAW ON THE STAND.

Harry Thaw took the stand at 1.30 and Jerome's first question was: "Were you not crazy when you killed White?"

"I don't know," said Thaw, "I was not medically so."

"How do you know?"

"The doctors told me so."

"Did not several doctors," said Jerome, naming four, "swear in your presence that you were unable to appreciate the quality of your acts when you killed White?"

"I think so."

As Thaw took the stand his wife entered and took a seat where she had full view of his face. She wore the same girlish Scotch plaid dress and big straw hat that she had on yesterday.

Thaw's demeanor was as unruffled as it was yesterday and he swung his palm-leaf fan without apparent nervousness.

Evelyn Thaw had not sat three minutes when she went into an ante-room for consultation. She returned in a few moments and Thaw's eyes perhaps were the only ones in the room that were not upon her as she passed to her seat.

Thaw said that he was willing to accept the judgment of fourteen alienists who said he was irresponsible when he killed White.

"I think I may have had a 'brainstorm' he said.

Jerome pounced upon the word. "What do you mean by brainstorm? Was it a feeling of sudden anger or jealousy?"

"No, it was not jealousy. The alienist has explained it."

Jerome's aggressiveness seemed to anger Thaw and after the district attorney had read an alienist's long assertion that he had "dementia procox," or adolescent insanity, he asked with asperity:

"Do you think I have dementia procox?"

"No," replied Jerome promptly, "but that is not the point."

Thaw declared that several alienists were misled by misinformation derived largely from the New York district attorney's office.

He said Dr. Jelliffe had told him so at Matteawan. Thaw again showed his dislike for Dr. McLane Hamilton. While other alienists might have been "misled," he said, he did not so think of Dr. Hamilton.

"You do not think Dr. Hamilton would testify to a falsehood do you?" said Jerome.

"I don't know whether he would or not."

Jerome turned over to the witness a number of newspaper clippings that Thaw had sent to Attorney Delmas, on something of value in his summing up. The district attorney defied him to find anything there of the least value to a lawyer defending a man on the charge of murder.

Thaw fingered the clippings for a moment.

"Here is something," he announced, and he read slowly and impressively the following words from one of President Roosevelt's messages:

"The hideous crime of rape is the most abominable in all the category of crimes. Moreover, in my judgment, the crime of rape should always be punished with death."

From the sheets in his hands Thaw read also quotations from the Bible and from the poets on the subject of wrongs to young girls and children.

Jerome dropped the clippings and

held up a little note containing a pen and ink drawing.

"Are you willing this should be shown?" he asked.

"Most certainly not."

"Why not?"

"Because it is addressed to my wife and only proper for her to see."

"Don't you want us to find out whether you are crazy or not?"

"Yes."

"Then why do you not want this letter read? Is it not an obscene letter?"

"It might be if written to another man's wife, but not written to mine."

Thaw was asked to identify a gold hat pin with a miniature dog's head at the end. He said he had seen it before.

"Was it over the end of a whip?" inquired Jerome.

"It might have been the handle of a parasol," said Thaw.

Jerome then presented the report of the commission of alienists appointed by Judge Fitzgerald during the first trial. Its contents never before had been made public. This commission fearlessly antagonized the "Red Dragon" of Holy Writ, "See Rev. xlii."

"The unpardonable wrong, the offense no true man can condone—the violation of a maiden."

"A woman close to the sun, a woman with a diadem of twelve stars about her head and a moon beneath her feet."

Thaw denied that he had ever referred to White as the "red dragon," as one of the alienists alleged.

Jerome read a document given him by Dr. Hamilton, who alleged that it was a copy of a proposed letter to the newspapers submitted to him by Thaw during his first examination by the alienists. The letter condemned a certain class of wealthy men in New York, who, it is said, made a business of ruining young girls.

Thaw declared that he had never written anything of the kind.

The record of Anthony Comstock's examination before the first sanity commission brought out for the first time that Thaw had offered to pay all extra expenses if the Gerry Society would keep open all night.

"I have since found that the society had a place open all night," said Thaw, "and I can see why they did not tell me that."

"Why did you want them open at night?" asked Jerome.

"So that the agents of the society would aid us if Mr. Comstock or your office or I caught any of this gang of girl-hunters at night," was the answer. At 5.25 p. m. Jerome announced that he was through with Thaw except for a possible question or two later.

Course then adjourned until to-morrow.

CANADIANS WON PILE

As Individuals and as a Team They Did Well.

London, July 30.—The individual winnings of the Canadian at Biele were as follows:

Copping, Montreal	69 00
Forrest, Vancouver	75 00
Freeland, Hamilton	56 25
Gougeon, Montreal	29 00
Huggins, Hamilton	35 00
Jones, Prince Edward Island	21 50
Kelly, Toronto	26 25
McLure, Edmonton	40 00
McVitties, Toronto	29 00
Marsden, Winnipeg	15 00
Mitchell, Hamilton	75 75
Morris, Bowmanville	234 00
Richardson, Victoria	41 50
Russell, Ottawa	34 00
Smith, Chatham	10 00
Smith, Ottawa	41 50
Stack, Truro	67 75
Blackburn, Winnipeg	900 00
Albert Sprinks, Toronto	50 00
Bayles, Toronto	100 00

The total amount of the individual prizes won by Canadian was \$1,945. The individual and team money taken by Canadians amounts to \$4,398.

Blackburn, the Winnipeg man, whose winnings of \$900 are the largest of any Canadian, and Bayles, of Toronto, who won \$100, were not members of the Canadian team. They took part as individuals. Mortimer and Brown also shot as individuals, but their names do not appear on the list.

WIFE SAYS IT'S TRUE.

Evelyn Thaw Nesbit made the following statement about Mrs. Merrill's statements that Thaw lured two hundred girls to his rooms:

"I have known all the things the Merrill woman swore to since before the first trial. I met her first in the witness room on the first trial, and thought she was a woman detective. All of Thaw's friends seemed to make a great deal of her, and I often caught suspicious glances passing between them."

"I suspected something, and had her trailed by a private detective, whom I supplied with plenty of money. He posed as a millionaire, and thus got entrance to her apartment. He learned everything that she had sworn to. These things happened after I married Thaw. Fool! I don't care a rap for what he did before our marriage, but do care for what he did afterward."

TREE PESTS.

CHICAGO CITY FORESTER ON THE TUSSOCK MOTH PEST.

Tells of Insect's Habits—Larval is One of the Most Beautiful Caterpillars in America—How to Destroy the Eggs.

(Chicago Tribune.)

A bulletin aiming toward a timely fight against a destructive moth was issued yesterday by Jacob H. Prost, city forester.

Frequent complaints have been made to him of the ravages of the caterpillar of the white marked tussock moth. The bulletin described the history and activities of the moth and the best method of exterminating it.

Mr. Prost recommended spraying with arsenate of lead the leaves of trees and shrubbery attacked by the pest. He warns the public against ready-to-apply "tree dopes" and "curalls," explaining that spraying is not necessary to growth and development and should be resorted to only when the conditions become serious.

Part of his description of the insect and its habits follows:

"When the larvae of the insect is fully developed it is one of the most beautiful of our caterpillars. It is easily recognized by its bright red head, velvety black back bordered with yellowish stripes."

Four conspicuous tufts of cream colored hair are found growing straight up on the back and pair long black pencil-like plumes extend forward from the head at an angle from the body and a single one extends back from the posterior end of the body.

"When first hatched the larvae migrate to the under side of the leaves, where they feed upon the green matter of the leaf. When they are about four weeks old they begin to spin cocoons in which the insect changes to the adult stage."

The male adult is a brown colored moth with two pairs of wings. The female is a sluglike moth without wings. Soon after emerging from the pupa the female deposits eggs on the empty cocoons. The eggs begin to hatch the following spring about the latter part of May and June."

His suggestions for fighting the pest follow:

"Citizens can do a great deal individually by destroying the larvae at this time of the year and the egg masses later in the fall. This can easily be accomplished by crushing the pupa hidden in the cocoon and by gathering the egg masses and burning them. The crushing can be done by poking a stick against the conspicuous cocoons or by using long poles where the cocoons are up in the trees. This perhaps is the most simple and economical method of combating this pest. Where a tree has been cleared of the egg masses and caterpillars, reinfestation may, in a great measure, be prevented by placing a band of cotton batting around the trunk, for the insect can only spread while in the larvae stage."

GOOD SHORT STORIES

"A mild-mannered and genial Tennesseean, named Galloway, was elected to the State Senate from Shelby County," said Secretary Dickinson, of the War Department, himself from Tennessee, "but there was a protest over it, because, it was claimed, Galloway had been concerned in a duel in his younger days. The time came for swearing in the Senators and the clerk called the roll by counties. When Shelby County was reached Galloway, wearing a long black frock coat, stepped into the aisle."

"Mistah President and Senatubs," he said, "I have heard of this yere protest against my sitting in this body as a Senatub because I once engaged in an affair of honah. Now, suh, I want to say that I did engage in an affair of honah in my younger days, in the State of Mississippi, and I latuh in another affair of honah in the State of Arkansas. Once again I engaged in an affair of honah as a second, not as a principle, in the State of Mississippi."

"I contend, suh, that the State of Tennessee has no jurisdiction over what is done in other States, and I am here to say, suh, that if any Senatub thinks otherwise and does not vote for me at this time I shall call him out, by gad, suh!—call him out and hold him personally responsible to me, suh. That's all."

"And they all voted for him,"—Saturday Evening Post.

HAD NEVER HEARD OF HIM.

Judge George F. Lawton, of the Middlesex Probate Court, told me a story the other day of an American Minister who was spending his sabbatical year travelling abroad, says a writer in the Boston Record. Arriving in London, he made every effort to get an intimate view of the two branches of Parliament in session. Of course, no stranger is allowed on the floor of the House of Lords, but the minister, not knowing this, and with the usual amount of American push, tried to make his way in. There is a rule, however, that servants of the various lords may be admitted to speak to their master. Seeing the minister walking boldly in, the doorkeeper asked:

"What lord do you serve?"

"What lord?" repeated the astonished American; "the Lord Jehovah."

For a moment the doorkeeper hesitated, and then admitted him. Turning to an assistant standing near, he said:

"He must mean one of those poor Scotch lairds."

Window Boxes.

All who love flowering plants and who may not possess a garden should turn their attention to the decoration of the windows.

Window sill gardening is a rapidly-growing fashion, and a delightful one; the furnishing of window boxes artistically affords scope for the exercise of much taste. The boxes should be movable, the sills during winter being furnished with dwarf evergreen shrubs, such as retinopasas, euonymus and other types. These evergreens are an extravagance, however, in this climate, as the evergreens are likely to freeze. That is, the water put around their roots will probably freeze and kill them. And if they aren't watered they will die anyway.

Summer window gardening is another matter, and within the reach of all. Petunias alone, and they cost next to nothing, will work wonders.

Weatherwise.

"Father, why does the barometer go up in fine weather?"

"So that it can go down again when it rains, of course, silly!"—Simplestimus.

He that speaks sows; he that hears reaps.—Arabian.

THE MANEATING SHARK AT MESSINA.

"This is neither more nor less than the Carchardon carcharias of Linnaeus, the common shark of the high seas, whose voracity and 'accommodating' for whatever it devours would be almost incredible were it not attested and put on record by such authoritative observers as Dr. Condorelli and Dr. Perrando, two distinguished professors in the medical faculty of the University of Catania. It will be remembered that on December 28 last the Siculo-Calabrian cataclysm was immediately followed, if not actually accompanied, by an upheaval of the Messinese Straits, and that after flooding the beach it swept out with its backwash to sea not a few of the citizens of Messina who happened to

Most Successful.

To-morrow Treble's, Limited, two stores bring to a close the most successful shirt sale in their history, the buying has been great and will be even greater to-morrow.

The last delivery of this gigantic purchase arriving in the nick of time, has put their stores in perfect readiness.

No man can afford to let this opportunity pass without taking advantage of it, for to buy \$1.25 shirts for 60c is the chance of a life time.

Remember, your last chance is Saturday.

The violinist may not be an artist with the pencil, but he can draw his bow. No matter how warm it is, the house-painter may have to put on an overcoat.

An Original Excuse.

"Why don't you mend that large hole in your umbrella?"

"I keep it to put my hand through when it is still raining."—Meggen-dorfer Blaetter.

A man always expects his wife to be a lot better than he could possibly be.—Chicago News.

WHITE PLAGUE.

The Social Programme in Life Insurance.

First Move by Metropolitan Life Insurance Co. to Save Life.

As a well considered step to reduce the mortality from tuberculosis among insured lives, the Metropolitan Life Insurance Company of New York begins to-day the distribution of 3,500,000 copies of a volume called "A War Upon Consumption," which treats of "The Nature of the Disease; Its Extent, Growth and Spread; Its Cure and Prevention, including Friendly Advice to Persons Having Diseases of the Lungs."

Thus, what has come to be known as the social programme in life insurance is inaugurated on a gigantic scale.

Eleven thousand five hundred agents, representing 1,100 local Metropolitan offices throughout the United States and Canada, are under orders to distribute among 3,500,000 homes, where 9,000,000 Metropolitan policies are in force, information respecting the best means known to science to combat consumption.

Going into millions of homes the volume will be instrumental in saving numerous lives.

At present the Metropolitan policyholder dies of tuberculosis every thirty-two minutes, day and night.

One cannot bring to mind any organization, other than the wonderful agency system of industrial insurance, that can accomplish so much in so short a time in the education of large masses of people toward the prevention and cure of diseases.

Policyholders are urged to make themselves familiar with the contents of the little book. By doing that they will be in a position to protect themselves and their families against the great white plague.

Where cases of tuberculosis exist, polyholders are asked to write to the company, in order that information may be forwarded to them concerning nearby sanatoria, tuberculosis hospitals, dispensaries, anti-tuberculosis associations, etc. In addition agents will be notified to give such service as may lie in their power to help the unfortunate polyholders to gain admission or treatment in the proper institutions.

Grimly interesting is the Metropolitan's tuberculosis book.

In plain language and pictures it tells the nature of the disease and the extent of the annual toll in human lives.

Consumption germs, many times enlarged, look like ringed snakes. The microscopic reptiles may live for a long time in certain places. They are killed quickly by sunlight or ordinary daylight.

Intemperance, other excesses, closed windows, overwork, crowded sleeping rooms, crowded living rooms, crowded working rooms, smoke and dust are the chief allies of consumption.

The educational efforts and purposes of the company are symbolized on a beautiful title page.

"It will institute a concerted campaign to lower the rate of mortality at all insurable ages by giving its policyholders accurate information and the personal assistance of its agency staff, so far as practicable."

"It should be part of an agent's duty," says Dr. Frankel, "to acquaint himself with the ordinary laws and rules of sanitation and hygiene, to advise insured families when they are living under unsanitary conditions and in unsanitary homes. A policyholder is not only a policyholder but a citizen, and as such is entitled to the provisions which are made by municipal or other authorities, public or private, for the cure and prevention of consumption.

"An insurance company may prepare to do its share along the lines which it may legally follow. It can only be successful in reducing mortality from tuberculosis when it is working in unison and in harmony with all other agencies engaged in the same ennobling occupation."

In the Dominion of Canada, the book will be distributed from 55 offices: Alberta 2, Calgary, Edmonton; Nova Scotia 6, Halifax, Yarmouth and four other places; Ontario 22, Toronto, Hamilton, Ottawa, London and 18 other places; Quebec 14, Montreal, Quebec, Sherbrooke and 11 other places; Saskatchewan 2, Regina and Saskatoon; New Brunswick 3, St. John, Fredericton and Moncton; British Columbia 2, Vancouver and Victoria; Manitoba 2, Winnipeg and Brandon.

LAWN PARTY.

At Grounds of Mr. Charles Jolley, Mount Hamilton.

Last evening, through the kindness of Mr. and Mrs. Charles Jolley, of Belmont House, Mountain Top, the members and friends of St. Stephen's Church held a lawn social at their place, which was in every way a success. Although the storm interfered a little with the affair for a short time, a very pleasant time was spent by the large company, and cool breezes being enjoyed after the heat of the day. Owing to the accident which befell Mr. Wilson, the rector of the church, he was unable to be present, and Rev. Mr. Higginson, of the Church of the Ascension, acted in his stead. Anderson's orchestra added to the pleasure of the evening with its music, and Miss Ashley sang two songs, Miss Shanks gave a solo, Miss Ramsay played a solo on the piano, and Mr. Bert Summers sang twice. This programme was greatly appreciated. Refreshments—ice cream, tea, etc.—were served during the evening. The grounds were lighted up with electric lights and Chinese lanterns, which had a pretty effect. Mr. and Mrs. Jolley and the Misses Jolley were untiring in their efforts to make everybody feel at home, and succeeded admirably. The social was also a success financially.

DEAN CEDDES' SISTER.

Galt, July 30.—A family reunion was held at the residence of Rev. H. T. Bourne, Blenheim road, on Wednesday, in celebration of the 90th birthday of Mrs. Hannah Hollowell, widow of the late Wm. Hollowell, M. D., M.R.C.S., Edinburgh, professor of materia medica and therapeutics, Trinity College, Toronto, and sister of the late Dean Ceddes, Dean of Niagara. An address congratulating her on the attainment of her 90th birthday, and signed by nineteen of her grandchildren, was presented to Mrs. Hollowell, together with a gift of a draft for a substantial amount.

Milliners Predict Fuzzy Lids For Fall

Fuzzy lids, of beaver, are the hit of the millinery opening in New York. The two most modish styles are shown here. Brown is one of the most popular colors, and the trimming invariably is velvet.

Picture No. 1 shows the "Cavalier" shape, which is rolled up on both sides. Underlying the brim is a velvet inset of brown velvet. There is

a velvet rosette on the left-hand side. The French women wear this hat well down over the ears, in most cases hiding the right eye from front view. No. 2 is the nifty Russian Cossack turban for use with a suit. It is the favorite shape in Paris for the early fall, and promises to be the vogue, of all the shapes, in New York. The material is of beaver. It has one

plume, standing straight up and his cockades of velvet placed at intervals around the turban. This hat is worn low and rakishly on the right side, so that the left eye has to do all the seeing for the wearer. Incidentally, this hat of almost covering the right eye with the hat brim is notable in all the hats of the more faddish tendencies.

STRATTON'S CASE.

Wanted to Know About Detectives Opponents Employed.

Toronto, July 30.—Mr. Justice Magee has reserved judgment on the motion on behalf of J. R. Stratton, M. P. for West Peterboro, to commit John Hampden Burnham, petitioner against his election, for refusal to answer certain questions on examination. Mr. Stratton wanted to know the names of the detectives employed by Mr. Burnham, to discover the alleged corrupt acts of the respondent, also to be furnished with copies of the reports made by those detectives, and to know how much Burnham was paying them. Mr. Burnham objected to answer those questions, on the grounds of absolute privilege against divulging the names of witnesses, that the reports of the detectives had been prepared under instruction of counsel, and claiming that the Dominion act requiring the publication of election expenses does not apply to controverted elections.

CURSED THE JUDGE.

Old Lady Made Scene in Judge Morsen's Court.

Toronto, July 30.—A dramatic incident occurred in Judge Morsen's court yesterday before he adjourned over the vacation and prepared to go on his holiday to Nova Scotia. A sombre looking aged lady in black named Mrs. Heatley was a complainant before him, and the learned Judge in his judgment found that Mrs. Heatley owed the defendant a dollar for rent. The old lady disputed the judgment hotly, and finished up a tirade by shouting as she left the court: "God will curse the Judge who ruled against me!" His Honor ignored the interruption.

SHE RESIGNED.

Superintendent of Tuberculosis Hospital Tired of Complaints.

Grand Rapids, Mich., July 29.—Because she would not stand for disagreeable interference, Miss Almy C. Murray, for three years superintendent of the Tuberculosis Hospital maintained by this city, the only one of its kind in the country, resigned to-day. Miss Murray is from Toronto, a graduate of the Riverdale Hospital, of which she was later assistant superintendent for seven years before coming to this city. Since coming here she has built up the hospital, the plans for the new \$20,000 addition being drawn by her. However, she and Dr. Schurtz, president of the Board of Health, lately disagreed, though she has letters from him dated some time ago which praised her work most highly. Just what was the trouble is not known. At any rate Dr. Schurtz preferred charges of careless work against her and she appeared before the board to repudiate them. To-day she tired of the bother and decided to quit. The board accepted her resignation to-night, to take effect August 10, and will give her three weeks' vacation on pay.

SAVED FROM RAPIDS.

Two Men Had Narrow Escape at St. Mary's River.

Sault Ste. Marie, July 29.—Captain Morrell and Engineer Scott, who have charge of the dredging work at the Canadian locks, had a narrow escape from being dashed over St. Mary's River rapids in a small launch at an early hour this morning. The men were on their way to work in the launch and lost their bearings in the river on account of the heavy fog. They saw their mistake only when the lights of the international bridge loomed up. A small anchor thrown out did not hold, and the men were saved only through the action of a man passing on the bridge, who summoned assistance from the canal. Lines thrown out brought the launch in to safety.

Barkentine a Month Overdue.

Seattle, Wash., July 29.—A special to the Post-Intelligencer from Port Townsend says it is believed that the American barkentine J. M. Griffith, under command of Capt. F. T. Senders, and carrying a crew of ten men, has been lost at sea. The barkentine put out from Carm Island for Puget Sound and is more than a month overdue.

BIG STORM.

FARMER KILLED AND BUILDINGS BURNED BY LIGHTNING.

Boy Knocked Down and Injured at Harwich—Occupants of a House at Essex Had Narrow Escapes—Ruthven Postoffice Damaged.

Chatham, July 29.—A terrific electric storm, accompanied by heavy rain, passed over Chatham and vicinity last night. Many reports have reached the city of barns struck by lightning. The rain will greatly benefit beans, potatoes, sugar beets and other crops.

Terrified by the storm, Leo Doyle, son of Morris Doyle, of Harwich, got up last night, to be instantly knocked down by a bolt. Some hours later he was found unconscious. A physician brought him round after arduous work. He will recover.

Quebec, July 29.—Telephone Labbe, a farmer was struck by lightning and killed at St. Aubert de l'Islet, on Tuesday afternoon.

Essex, Ont., July 29.—A very severe electric storm passed over here early this morning. The house of J. W. Cockburn was struck by lightning but not much damage was done, but the house of Wm. Robinson, which was also struck was burned to the ground, the occupants just escaping in their night clothes. One of the girls was burned and cut on the face by falling plaster. There was no insurance on either the house or contents and the loss will be about \$2,000.

Ruthven, Ont., July 29.—One of the worst electric storms in recent years passed over this place last night, when T. H. Wigle's general store and post-office was struck by lightning, considerable damage being done by fire.

Petrolia, Ont., July 29.—A terrific storm passed over this town about 12 o'clock last night. The lightning was very vivid and lasted for upwards of one hour. A barn belonging to Mr. Aikens, about one mile south of the town, was struck, and the building and contents completely destroyed. The amount of loss is unknown.

Strathroy, July 29.—During a severe electrical storm last night a barn belonging to James Lowers, of the township of Metcalfe was struck by lightning and burned to the ground, together with the season's crops of hay and wheat. The barn was a substantial building recently reconstructed at a considerable cost. Mr. Lowers' loss will be heavy.

At Cairngorm, a few miles from here, the house of Albert Rowe was struck. The chimney was knocked off and several bricks crashed through one of them and struck a little daughter of Mr. Rowe's, slightly injuring her. The house did not catch fire, although considerable damage was done by the lightning.

CHICAGO WAS HOT.

Many Deaths From Heat and Lightning in Windy City.

Chicago, July 29.—Two days of torrid weather in this city were broken shortly after noon to-day by an electrical storm, which brought temporary relief. Several deaths resulted either from the storm or from the great heat. A maximum temperature of 92 degrees had been reached to-day. This swung down to 77 at 2 o'clock in the afternoon, and back again to 84 by 6 o'clock. The wind reached a velocity of 42 miles an hour during the storm and caused great damage to property.

Carl Hanson, a truck farmer, was struck by lightning and killed instantly while trying to escape the rain. Thomas Madoney, a butcher, fell dead on the sidewalk in front of his shop.

James Turner, driver, was struck by lightning, while on the seat of a lumber wagon. He was hurried to the road dead. Jos. Bohman, of Winnetka, was prostrated by the heat while fishing from the Kenilworth pier. He rolled from the pier into the lake and was drowned. Mrs. Hattie Henderson and Mrs. Dorothy Hartung were struck by an electric light wire that had been blown down by the wind and were burned seriously.

New York, July 29.—Another one of those hot sticky spells struck New York to-day, and, although the average temperature was only 75, at least two deaths were caused by heat prostrations.

Making Canadians of Germans.

London, July 28.—Referring to the Deutsche Tageszeitung's article, cabled on Tuesday, the Standard in a semi-humorous editorial ventures to think that the pan-Germans must look elsewhere for a "joyful sign" than to Vancouver. "The article," it says, "ignores the most salient features of Canadian development, which is the making of good patriots. Canadians of almost all foreign

MOVED WEST.

Headquarters of G.T.P. Transferred From Montreal to Winnipeg.

Montreal, July 29.—One of the most important things done by Mr. C. M. Hays, of the Grand Trunk, on his return from England this week, was to complete arrangements for the decentralization of authority in connection with the company's Western enterprises. To this end, he today issued a circular announcing that the office of Mr. E. J. Chamberlin, the vice-president and general manager of the Grand Trunk Pacific, has been permanently transferred from Montreal to Winnipeg, and that all communications to that officer should in future be addressed to him at that point.

This is the most important development that has occurred in connection with the Grand Trunk Pacific since the change of management, which occurred a few months ago.

DEPEND ON NAVY.

Britain Could be Invaded Successfully Without It.

London, July 29.—In the House of Commons to-day Prime Minister Asquith, announcing the result of an enquiry instituted at the urgent request of Field Marshal Lord Roberts by the Committee of National Defence regarding the possibilities of an invasion of England, said that the conclusions arrived at by the committee were that, so long as the naval supremacy of Great Britain were adequately assured, an invasion on a large scale, such as by 120,000 or 150,000 men, was utterly impossible. If, however, the command of the sea should be lost, Great Britain's subjectivity by an enemy would be inevitable, whatever the strength of its military organization might be.

CEMENT MERGER.

All Canadian Companies to be Amalgamated.

Montreal, July 29.—Arrangements have been made and completed for the amalgamation into one company of all the cement companies in the Dominion. The new company will include all the principal cement manufacturing companies in Canada, and the consolidated company, which will be known as the Canadian Consolidated Cement Company, will have a capitalization of \$25,000,000. Application has been made to Ottawa, for a charter for the company, and the underlying arrangements are pretty well completed, some of the strongest men in the country being among the underwriters.

In all some seven or eight mills will be included in the merger, including the plant of the International Portland Cement Co. Amongst some of the leading men who are interested in the merger are Sir Sandford Fleming, K. C. M. G., Mr. Rodolphe Forget, M. P.; Senator W. C. Edwards, of Ottawa; Mr. C. H. Cahon, and Mr. W. M. Aiken and others.

ALABAMA "DRY."

Anti-Liquor Legislation to be Passed Next Week.

Montgomery, Ala., July 29.—According to the prohibition programme, Alabama will be tied up hard in anti-liquor legislation by this time next week. The general bill to that effect, reported to the House to-day, will pass, and should reach the Senate not later than Monday, which will give it time to become a law by Thursday. It is effective with its passage.

By its provisions the State will be able to close up places supposed to sell intoxicants, brewers and selling agents. Any officer may enjoin and close up, the burden of proving innocence being upon the defence. Clubs must agree not to evade the law on penalty of loss of charter, and possession of revenue licenses on prima facie evidence of guilt.

CASTORIA The Kind You Have Always Bought

The Right House

"HAMILTON'S FAVORITE SHOPPING PLACE"

Our Choicest Showcases of Costumes and Separate Coats

The best-dressed ladies in Hamilton have no better appearing or more durable garments in their wardrobes than these extra choice Separate Linen Coats, Panama and Serge Costumes and Taffeta Silk Coats, which for the balance of the week THE RIGHT HOUSE offers at special July clearance reductions. 12 1/2c, were 20c; 43c, were 75c; \$1.39, were \$2.00; 15c, were 25c; 59c, were 88c; \$2.19, were \$3.19; 23c, were \$1.19, were \$1.88; \$2.39, were \$4.00.

CORNER KING EAST AND HUGHSON STS. THOMAS C. WATKINS HAMILTON, ONTARIO

The Art of Preserving Fruit

BY AN EXPERT

MAKING JELLY, BLACKBERRY JAM AND JELLY PIE.

By Alice Gitchell Kirk.

In preserving, canning or jelly making, iron or tin utensils should never be used. The fruit acids attack these metals and gives both bad color and taste to the fruit. The kettle should be broad rather than deep, and this may be porcelain lined, enameled or aluminum. As in any other work, the proper tools or utensils are necessary for the best results in canning, preserving and jelly making, such as preserving kettle, steam cooker or large kettle, skimmer, colander, wire sieve, wooden spoon, measuring cup, saucers, scales for large fruits if possible, wooden mash-

Mrs. Alice Gitchell Kirk.

or, cheesecloth jelly bag and plenty of clean cloth or towels. The regular kitchen pans hold the fruit and sugar. When the fruit is purchased, keep it where it will keep cool and free from dust or flies until ready to use. System will do much to lighten the work. Have the kitchen swept and dusted thoroughly with a damp cloth, to keep down all dust, and thus have less danger in keeping fruit.

Have kettle ready for sterilizing the jars as directed in the previous article, and all necessary utensils and sugar at hand. Then with a moderate amount of fruit to put up at one time the work should be a pleasure. To each quart of large fruit about one pint of syrup is necessary for canning. Two-thirds of a pint of syrup for a quart of the boiling fruit. One pint of sugar and the same of water, put over the fire, stir until the sugar is dissolved, bring slowly to the boiling point and boil five minutes or longer if desired richer. This makes a good sirup for all canned acid fruits. A light sirup may be made from one pint of sugar and two pints of water boiled 10 minutes for canning blueberries, and proceed precisely the same as for canning raspberries, cherries and currants, given in preceding article.

Black Raspberry Jam.

Measure the fruit and sugar and allow a pint of sugar to each quart of berries. Rinse the preserving kettle with cold water, so as to have a little moisture on the sides and bottom. Put in the berries and mash them well. Cover the kettle and bring slowly to the boiling point, stirring a little. Press through a sieve. Return the pulp and juice to the kettle, bring to the boiling point and add the sugar. Boil rapidly 20 minutes, or until it jellies, when tried in a saucer. Pour into sterilized glasses, set in the sun until cool and cover with melted paraffine as for jelly.

Cherry Pie.

Make a plain paste of one-fourth cup of lard and butter, two cups of pastry flour, one-half teaspoonful of salt and one-half cup of very cold water. Roll and cover a perforated

CABLE TO IRELAND

Will Give Speedier Service Than the Old.

New York, July 29.—The new direct cable to St. John's, Nfld., from this city, which has been laid by the Commercial Company, a distance of 1,200 miles, is expected to be completed to-morrow and in working order early next week. This will connect with the cable from St. John's to Ireland, and give a speedier cable by way of Halifax in the fall. The managers said to-day that the new service would be 50 per cent. faster than the average speed of the present Atlantic cables. The work was begun on Monday, July 19, by the cable ship Colonia, belonging to the Telegraph Construction & Maintenance Company of London.

WOMAN AT HEAD.

Chicago's Great School System in Charge of Mrs. Young.

Chicago, July 29.—The superintendency of Chicago's great school system has been given into the hands of a woman for the first time in history. Mrs. Ella Flagg Young, Principal of the Chicago Normal School, and an educator of national reputation, was chosen to-night by the newly-organized Board of Education as head of the public schools. Mrs. Young's selection followed a struggle for the office which has been going on since the resignation of Edwin G. Cooley several months ago. Mrs. Young is 64 years old, and was born in Buffalo, N. Y. She has been teaching since 1862. She was district superintendent of schools for Chicago from 1887 to 1890, and professor of education in the University of Chicago from 1890 to 1905. She is the author of several books on educational subjects.

TRUE LOYALTY.

(J. W. Dafoe, on Imperial Press Conference.) The fundamental here—the fruitful mother of a whole brood of misconceptions—is that the Imperial relation is one of loyalty to England by the Colonies; that is, of loyalty to Englishmen by Colonies. In the sense in which loyalty implies the devotion of a subject race, the Colonies are not loyal to England, nor are the Colonials loyal to Englishmen—but in the other sense—the loyalty of brother to brother, of friend to friend, of ally to ally—our loyalty is unbreakable and imperishable. Towards Britain, the cradle of the race, the home of our fathers, the flowing fountain from which we have imbibed our moral, religious and political ideals, the feeling of the overseas Briton is too deep to be put into words. But the living generation occupying to-day the British Empire are not our forefathers. They are merely our kinsmen, occupying the old home; between us there are ties of kinship, of affection, of devotion to a common storied past, of allegiance to the flag and to the King. But there is no subjection, no inferiority either one way or the other.

The Advantages.

Friend—Why do you encourage these woman's suffrage meetings? Surely you don't approve of them? Husband—Approve With all my heart! I can come home as late as I like now without our finding my wife home to ask questions.—Fliegende Blaetter.

"I thought you and Mrs. Brown were the best of friends." "We were, until we realized a summer cottage—together."—Detroit Free Press.

NEWS IN BRIEF

Montreal Citizens' Association wants a Board of Control.

The Polson Iron Works Co. desires to secure a site in Ashbridge's Marsh.

The Toronto police launch and several other boats made fruitless search for a body seen floating off Kew Beach.

President Taft forced the Conference Committee on the tariff to reduce the rates on rough lumber and gloves.

Dominion immigration officers are paying close attention to arrivals from the States by steamers to Toronto.

Residents in and near Lorne Park are annoyed at the granting of a liquor license to the Lake Shore Country Club.

M. Blieriot will enter a monoplane in the competition to be held in the fall at the Hudson-Fulton celebration in New York.

Five hundred homeseekers from eastern Canada arrived at Winnipeg at noon yesterday and continued west this afternoon.

Earl Grey and party left on Thursday for Toronto, en route to British Columbia and the Yukon. He will go by boat from Owen Sound to Port Arthur.

Mr. D. M. Eagle, of the Windsor Collegiate Institute teaching staff, has been notified of his resignation, to accept a position as principal at Nelson, B. C.

Phillippe Bellefeuille, proprietor of the Three Rivers steam laundry, was instantly killed last evening while working at the electric motor in his laundry.

Hon. Adam Beck received a deputation Wednesday from Brampton and Acton regarding the establishment of a joint receiving station for Niagara power.

The London Times suggests an Imperial cruiser squadron for the Pacific, consisting of vessels from the royal navy fitted for joint operations with squadrons to be created by the dominions.

At a meeting of the Peterboro Presbytery a unanimous call from Omeme and associated stations was presented by Rev. R. Pogue in favor of Rev. Donald Currie, of Hillsdale, in the Barrie Presbytery.

Eric Erickson, a coppersmith employed at the Dominion lighthouse depot, Prescott, died suddenly while at his work, due to heart failure. He was in the act of stooping to pick some article off the floor and expired immediately.

Unable to pay a fine of \$50 for selling liquor to a minor, Frank Martin, proprietor of an unlicensed hotel at Mitchell's Bay, went to jail for 30 days. A further charge of selling liquor without a license was tried on Monday.

At Fort William H. Mott was sentenced to four years and W. Speer to three years by Magistrate Pallin. They were charged with the theft of a baggage check from John Johnson, of Owen Sound. Both men are from Owen Sound.

The resignation of President Raffal Reis was presented to the Columbia Senate and unanimously accepted. August 3 was fixed as the date for the election of his successor to finish the constitutional period, which ends August 7, 1910.

From the estate of the late Edward McCordle, of St. Catharines, the sum of \$5,000 has been received by his Grace Archbishop McEvay for the purpose of establishing a purse or scholarship for young men studying for the Roman Catholic priesthood.

George Dolling, seven feet one and a quarter inches tall, arrived at New York from England. He was met at the pier by his brother-in-law, Benj. Corday, who is a mere strapping of six feet eight and one-half inches. Dolling weighs a number 17 shoe, about six inches wide and sixteen inches long.

Voting took place on Thursday at Peterboro on two by-laws. One to raise \$32,500 to build a reinforced concrete bridge over the river at Smith street, which carried by a majority of 139, and the other to raise \$21,500 for street extensions and filling the water front secured a majority of 148.

MARKETS AND FINANCE

Toronto Markets

LIVE STOCK.

The railways reported 111 car loads for Wednesday and Thursday's receipts of live stock at the city market...

Trade for butchers' cattle was brisk, at an advance of 10 to 15c per cwt., and more of the good kinds would have sold.

Exporters—There were no export steers reported. A few export bulls sold at \$4.25 to \$5 per cwt.

Butchers—George Rowntree bought for the Harris Abattoir Co. 180 cattle; butchers' steers and heifers at \$4.35 to \$5.65; cows, \$2.25 to \$4.60; bulls, \$2.25 to \$4.

Stocks and Feeders—Harry Murby reports the receipts of steers and feeders as being light. Feeders' weight being from 800 to 850 lbs. each...

Two choice cows during the week sold at \$60.

Veal Calves—The market for veal calves was a little stronger for the best quality. Prices were quoted at \$3 to \$6 per cwt.

Sheep and Lambs—Receipts of sheep and lambs were the largest of the season...

FARMERS' MARKET. The offerings of grain to-day were nil, and prices nominal.

Wheat, fall, old, bush \$1 10 0 00. Do, goose, bush 1 05 0 00. Do, new, fall 1 03 1 05.

Do, inferior 0 18 0 20. Eggs, dozen 0 24 0 27. Chickens, spring, lb 0 18 0 20.

Do, yearlings, lb 0 12 0 14. Ducks, lb 0 15 0 18. Fowl, lb 0 11 0 12.

Celery, per dozen 0 50 0 75. Potatoes, per bag 0 75 0 85. Onions, bag 0 15 0 17.

Beef, hangers, per 100 10 50. Do, forequarters 9 00 10 50. Do, choice, carcass 8 00 9 50.

Do, medium, carcass 6 50 7 00. Mutton, per cwt. 9 00 10 00. Veal, prime, per cwt. 9 00 10 00.

Lamb, yearling, per cwt. 12 00 13 00. Spring lamb, lb 14 00 15 00.

THE FRUIT MARKET. The receipts of fruit to-day were large and the demand better. Quotations are as follows:

Bananas, per bunch \$1 50 2 00. Currants, red, basket 0 40 0 55. Do, black 1 35 1 40.

WINNIPEG WHEAT MARKET.

Wheat—July \$1.24-1.2, October \$1.05 2-4, December \$1.02.

BRITISH CATTLE MARKETS.

London—London cables for cattle are firm, at 13 1/2 to 14 1/2c per lb. for Canadian steers, dressed weight...

THE CHEESE MARKETS.

Belleville, Ont.—To-day there were offered 2,800 boxes. Sales: 600 at 11 5/8c, 1,300 at 11 5/16c; balance refused, 11 5/16c.

A SHEEPSKIN SALE.

London—A sale of sheepskins was held here to-day. There was a good attendance, and offerings were in fair condition.

COBALT STOCKS.

The only feature in the mining markets in Toronto yesterday was the advance of Crown Reserve to \$4.00, at which figure 100 shares changed hands...

The Westinghouse have been putting in a week of good, hard practice, and they played a tie with the Thistles in Toronto a week ago, there is no doubt that they will be declared the winners...

The following players will play for the Thistles: Green, Campbell, Cooper, Marr, Rowe, Rigby, Caters, Parker, Wright, Banks, McLaren.

Mr. W. S. Murchie will be official referee for the game. At a meeting of the West End Junior Soft Ball League, who play at Victoria Park, at J. W. Nelson's, five teams sent representatives...

The following were elected: President, Mr. Martin; Vice-President, Harry Laing; Secretary, T. Brown; Treasurer, T. Aitchison; and the Executive Committee to consist of the manager of each team.

Games will be played on Tuesday and Thursday nights of each week. On the Civic Holiday at Maple Leaf Park, at 3 o'clock, the fast juvenile C. L. A. team of Toronto will cross sticks with the Tigers, of Hamilton.

This will be the first time that Hamilton has clashed with a Toronto team. Both are in their respective leagues, and there is quite a bit of rivalry in all games between the two cities, the lovers of lacrosse will be amply repaid who journey down to Maple Leaf Park.

The one price admission will admit to the game. The Tigers will put in a full practice at Victoria Park to-night.

Representatives of the Senior City League, playing at Victoria Park, will meet at J. W. Nelson's to-night at 8.30 o'clock. On Saturday the Blue Labels and Internationals will clash at 2 o'clock and the Senators and Barristers at 4 o'clock.

Canning Topics. The seasonable fruits are in all the markets and the time for canning and preserving is upon us.

Cherries, white and red, currants, green gooseberries, raspberries, blackberries and blueberries are in just the right condition to be made into jellies and jams, and cantaloupes and watermelons, although enjoyable and present for table use, are very good fruits for pickling.

ABBOTT WON LABATT TROPHY.

London, July 30.—Five hundred people crowded around the rinks yesterday afternoon and watched C. Abbott's rink from the London Thistles win out from John Lochead's rink of the London Bowling Club, in the finals for the Labatt Trophy.

The game was over, Abbott winning by two shots, 20-18. The semi-finals and finals of the Teunseh Trophy will be played off to-day, and play for the McEwe Trophy may also be concluded.

Play was begun this afternoon on the Scotch doubles. Scores: The game was over, Abbott winning by two shots, 20-18.

GOLF TOURNEY TO-DAY

Toronto, July 30.—The fourth annual tournament of the Lamton Golf and Country Club opens to-day with the team match at 9.30 o'clock this morning.

The tournament, which is open to all amateurs, is given by the Lamton Club with the object of bringing together players from neighboring clubs, as well as from a distance, for a week of golf and, incidentally, to get acquainted with one another.

The entries include players from Philadelphia (Oakmont), and Pittsburg. Play starts with the team match first, 18 holes this morning, second 18 this afternoon, the following being the draw:

9.30—H. C. Fownes A. E. Austin. 9.45—W. C. Fownes A. W. Wright.

9.45—C. B. Fownes C. E. Robin. 9.45—H. D. Shute C. H. Pringle.

9.50—H. D. Anderson Dr. Sheahan. 9.55—D. E. Hogg H. F. Killmer.

10.00—C. M. Shadbold J. C. Norman. 10.10—Judge Carr H. W. Edgar.

10.15—Geo. S. Proctor S. A. Rowbotham. 10.20—D. Voigt W. R. Smyth.

10.25—Chas. Hall Hedley Macklem. 10.30—A. E. Trow E. G. Fitzgerald.

10.35—G. L. Robinson R. P. Lester. 10.40—J. Miln, jun. A. E. Webster.

10.45—Jul. Sale, jr. F. C. Thompson. The afternoon round will start at 2.30.

SUCCESSOR OF HARRY PULLIAM.

John A. Heydler Named as New National League President. New York, July 30.—John A. Heydler, secretary and treasurer of the National Baseball League, will arrive in New York and assume charge of the business affairs of the league to-day.

A telegram, notifying Mr. Heydler of the tragic death of President Harry Clay Pulliam, who died yesterday morning, after shooting himself Wednesday night, was handed to him while he was en route from Alexandria Bay to Montreal by boat yesterday.

Mr. Heydler will, on his arrival here, make arrangements for the election of a successor to the top of his helmet, and stands about five feet five. He had outlined style of driving, and when he saw the pugilist about to start his motor car in front of a local dry goods store, he went up to him and said:

"You want to mind what I hold you. Don't go starting your engine in a hurry again, or I'll take you over and lock you up."

Johnston grinned sarcastically, and without further parley Kearns climbed into the car and told Johnston just where to get off. Johnston started his car and he started it slowly. Kearns strode off up the street swinging his club.

RUGBY SEASON NEAR.

President Seymour Will Call a Meeting of Inter-Provincial Union Soon. An early start will be made by the pigskin chasers this year. President Seymour is already making preparations for the semi-annual meeting of the Inter-Provincial Rugby Union.

C. A. A. U. CLASHES WITH OARSMEN.

The Canadian Amateur Athletic Association, the Canadian Association of Amateur Oarsmen and the Canadian Canoe Association are in collision again. Yesterday President Merrick, of the C. A. A. U., intimated that the union would throw out any C. A. A. U. man who rowed with or against Harvey Pulford, of the Ottawa Rowing Club's four, at the Canadian Henley to-day, here on his way from the big Canadian Canoe Association meet here, August 7, against Walter Small and "Rufus" Ryan, Pulford, Small and Ryan all played with and against professional hockey players, and while all say they did not take money, the C. A. A. U. says they are professionals.

"The C. A. A. U. might just as well dry up," said Ed. Mack, second vice-president of the C. A. A. U., and chairman of the regatta committee, "for Pulford will row at Henley, Pulford is the backbone of the Ottawa club. It was dead while he was out of it, and a week after he was reinstated the club was in full swing, and he raised \$1,800. If Ottawa thinks so much of him it's up to us to treat him right. He does not make his living by professional sport."

"Let the C. A. A. U. leave the C. A. A. O. to manage its own business; they are quite capable," says Joe Wright, of the Argos. "It will not bother our football men."

Only one or two C. A. A. U. men row, so the Pulford threat will not make much trouble, but the Small and Ryan case has a different aspect. A whole lot of Toronto paddlers are engaged in other sport controlled by the C. A. A. U., and they have said they will not compete against these men.

A MATCH FOR JACK JOHNSON.

Kalamazoo, Mich., July 30.—In case Jeffries finally decides not to fight Jack Johnson, Kalamazoo has a policeman who might be induced to try him a whirl. At least, he showed on Tuesday night that he had no fear of "the big smoke," as he called him. Johnson stopped over on his way from Chicago to Toronto.

After visiting the newspaper offices and numerous places of refreshment, Jack proceeded to smash a few city ordinances regulating the speed of automobiles. Kearns is an Irishman from the pavement to the top of his helmet, and stands about five feet five. He had outlined style of driving, and when he saw the pugilist about to start his motor car in front of a local dry goods store, he went up to him and said:

"You want to mind what I hold you. Don't go starting your engine in a hurry again, or I'll take you over and lock you up."

Johnston grinned sarcastically, and without further parley Kearns climbed into the car and told Johnston just where to get off. Johnston started his car and he started it slowly. Kearns strode off up the street swinging his club.

BASEBALL

To-morrow at Britannia Park Jack O'Connell, (the Mugsy McGraw of the Inter-city League), first series champs, will clash with the strong G. S. & M. aggregation of sluggers, from Brantford, in the Barton street ball yard. In the last two games the Telephone City outfit have demonstrated their ability to put the wood to the sphere, as in their game against the Veritys on July 17th, they registered 12 hits, and won handsily by 12 to 1. Last Saturday at Brantford they repeated the trick of the previous week and careened 18 singles, and were again victorious by a score of 10 to 1.

With McGavin and White in good shape the Irishmen should make a good showing, as when Manager O'Connell's box artists are going right there are none better in the amateur ranks. If the same prices prevail for to-morrow's game, twenty-five cents for adults, ten cents for boys and ladies free, with no extra charge for the grand stand. Monday, however, the box office charges remain the same, with the exception that ladies will be charged twenty-five cents. As the ladies have been treated very liberally by the local management in the past, it is hoped that the fair sex will appreciate the liberality extended them by turning out on Monday, Civic Holiday, in large numbers. The following table will be of interest to the followers of the Inter-city League, as it is the first time of this kind has ever been published in this city. It shows the standing at the close of the first series on July 17, together with the increase and decrease in percentage, inclusive of all scheduled games to date. The game to-morrow will be called at 3 o'clock, with Umpire Alf. Strowger holding the indicator.

Inter-city League standing: July 17, July 30. In. Dec.

St. Patrick, 667 615 — 52. W.E.P.C., 583 615 32 —.

G. S. & M., 417 462 45 —. Veritys, 333 308 — 25.

The line up follows: G. S. & M.—Cancelli, c.f., Burke 2b, Shea s.s., Mennis c, Bardgett lb, Dingwell l.f., McCallum 3b, Patterson r.f., Simpson p.

St. Patrick's—Padden s.s., Beattie 3b, MacDonald r.f., White 2b, Brennan c, A. McLeod lb, D. McLeod, c.f., Stevens l.f., McGavin p.

Billy Richards, who is slated for the full back division, is one of the best players in the country. He did not come up to expectations last year, but the opinion of the experts is that he was hampered by the company in which he was playing.

The former Ottawa College and McGill man will be a different player when he lines out with the seniors, for his past record shows that he can travel very fast when given a chance. In the Intercollegiate League Richards did not shine last year as he can.

A meeting of the Rugby Football Club's executive will be held about the middle of next month, when preparations will be made for an early start this fall.

FOR THE AMATEURS.

City League: 2. Alerts vs. Bayides; 4. Keystone vs. Broadviews.

TO-MORROW

To-morrow will see the close of this league for the season. The City League will put the finishing touches on a short but successful year. The schedule called for more games, but the management considered it advisable to wind up the affairs of the league, as amateur baseball is not taking here as it should. This will give the teams a chance to play independent ball, and there is no doubt but that there will be some interesting games yet. The schedule has been rearranged for the final day, and should have a fitting close, especially the last game, as there is bound to be much rivalry between the two teams.

The first game will be between the Alerts and Bayides, and playing to form, the Alerts should easily win, although they will be without the services of their regular catcher—Wally Simons. In all probability Lucas will pitch for the Alerts and Jimmy Brydges will catch. Jimmy is a somewhat brilliant backstop, and should easily fill the vacancy. The Bayides will have their regular line-up, and will make a strong effort to win. The second game will decide the championship, and should prove one of the best contests seen here in many days. Should the Broadviews win they will be champions for the second time. The first game will be between the Alerts and Bayides, and playing to form, the Alerts should easily win, although they will be without the services of their regular catcher—Wally Simons.

In all probability Lucas will pitch for the Alerts and Jimmy Brydges will catch. Jimmy is a somewhat brilliant backstop, and should easily fill the vacancy. The Bayides will have their regular line-up, and will make a strong effort to win. The second game will decide the championship, and should prove one of the best contests seen here in many days. Should the Broadviews win they will be champions for the second time. The first game will be between the Alerts and Bayides, and playing to form, the Alerts should easily win, although they will be without the services of their regular catcher—Wally Simons.

The game will be between the Alerts and Bayides, and playing to form, the Alerts should easily win, although they will be without the services of their regular catcher—Wally Simons. Should the Broadviews win they will be champions for the second time. The first game will be between the Alerts and Bayides, and playing to form, the Alerts should easily win, although they will be without the services of their regular catcher—Wally Simons.

Who plays on Saturday? is the question that is upper in one's mind. The general opinion is that the team which is first to arrive at the grounds will play, and the other game follow if there is enough material.

The scheme to form another Newspaper League will hardly meet with the approval of the teams. The hottest month of the year is August, and during vacation season it would be a difficult task to get teams together.

The Woodlands will play the East End Y. M. C. A. at Woodland Park this evening at 7 o'clock.

The meeting to-night of the Church League at Fred Skerrett's store is to deal with a protest entered by the Ascensions against St. Thomas concerning men whom the Saints played two weeks ago. Although kind of late in considering the application, the Ascensions claim they have a card up their sleeve, and will play it at the proper time.

GOOD GAME TO-MORROW.

To-morrow at Britannia Park Jack O'Connell, (the Mugsy McGraw of the Inter-city League), first series champs, will clash with the strong G. S. & M. aggregation of sluggers, from Brantford, in the Barton street ball yard. In the last two games the Telephone City outfit have demonstrated their ability to put the wood to the sphere, as in their game against the Veritys on July 17th, they registered 12 hits, and won handsily by 12 to 1. Last Saturday at Brantford they repeated the trick of the previous week and careened 18 singles, and were again victorious by a score of 10 to 1.

TROTTING

Detroit, July 29.—James B. Benyon, the eighteen-year-old son of Ed. Benyon, made his debut as a Grand Circuit driver this afternoon, when he piloted Fair Margaret home first in three heats. The track was slow, following last night's rain.

Ester Bells was a 2 to 1 favorite in the 2.17 trot. She led into the stretch the first time, but young Benyon drove up with Fair Margaret and landed her an easy winner. He came from behind in the next two heats and drove winning finishes.

SPORTS

FIRST DAY OF BOWLING TOURNEY.

The Competitors for the Times Trophy Enjoy Good Day's Sport.

Last Year's Champions Defeated in First Round—Preliminary and First Round Bowled Yesterday.

THE PRELIMINARY and first championship bowling tournament for the Times trophy was rolled on the Thistle Bowling green yesterday afternoon.

THE DEATH OF JOHN DRYDEN.

Former Minister of Agriculture Had Long Been Sick.

Tributes From Hon. Geo. W. Ross and Sir James Whitney.

Was Father of the Wife of Rev. J.C. Sycamore.

Toronto, July 30.—The Hon. John Dryden, Provincial Minister of Agriculture from 1890 to 1905, died at his residence, 9 Prince Arthur avenue, yesterday evening, after an illness extending nearly fifteen months. He was 69 years of age. His demise was not unexpected by the family and relatives, who in their bereavement will have the sympathy of the many hundreds who knew Mr. Dryden personally, and the thousands who had general knowledge of his untiring and zealous efforts for the advancement of agriculture in the Province, a matter which he always had so closely at heart. This feeling will be shared by many who during his lifetime were opposed to Mr. Dryden politically, for to know "John Dryden" was to like him.

Mr. Dryden is survived by his widow, one son, and five daughters. The son, Mr. W. A. Dryden, lives on the old homestead, "Maple Shade Farm," Brooklin, near Whitby. The daughters are Mrs. (Dr.) C. L. Starr, of Bloer street west; Mrs. (Rev.) W. W. McMaster, St. John's B.; Mrs. (Rev.) J. C. Sycamore, Hamilton; Mrs. Rev. W. E. Matthews, Chatham; the last three being wives of Baptist ministers, and Mrs. E. J. Zavitz, wife of Prof. Zavitz, of the Ontario Agricultural College, Guelph. The funeral will take place at Brooklin on Sunday at 3 o'clock in the afternoon. There will be a private service for the family at the residence, 9 Prince Arthur avenue, at 3 o'clock on Saturday afternoon, and the remains will leave for Brooklin by the Grand Trunk train at 5 o'clock that evening.

To those who closely followed his political career and particularly those who sat with him in the Legislature or assisted in recording the press the work of that body, his devotion to the duties of the department of which for many years he was head was a matter for constant commendation. Himself a successful farmer and a noted breeder of sheep and cattle, he brought to bear on the multifarious branches of the work of the Department of Agriculture the wisdom and experience gained by practical knowledge.

Hon. Mr. Dryden was in constant demand all over Ontario and in many other parts of Canada as well as the United States at gatherings for the discussion of matters pertaining to agriculture and sheep and cattle raising. Whenever he appeared in such assemblages he was listened to as only those who are talking to men themselves are practical, know whereof they speak, and he could always give advice and suggestions worthy of unquestioned acceptance. The Guelph Winter Fair might be instanced as one of the many institutions of a like nature where addresses from Mr. Dryden were accounted amongst the most valuable features of the programmes. A notable tribute to his standing as an agriculturist was his selection by the British Government a few years ago as a member of the commission to investigate and report upon the agricultural conditions and possibilities of Ireland. This was the first occasion on which a colonial was selected to act upon a commission whose work was solely confined to an investigation in the United Kingdom of Great Britain and Ireland. His work in this connection was such as to call for the praise of his British colleagues.

were of great advantage to the farmers of the Province. During his administration the Agricultural College at Guelph was enlarged and a dairy school established in connection with it. Like institutions were also built at Stratford and Kingston. He also organized twelve fruit experimental stations throughout the Province.

Baptist in religion, Mr. Dryden was for years one of the Governors of McMaster University, and among other official positions was Chairman of the board. He married in 1867 Mary Lydia, daughter of Mr. Thomas Holman, at that time a publisher in New York.

TRIBUTE FROM HON. G. W. ROSS.
Hon. Geo. W. Ross, when informed of Mr. Dryden's death, said that Mr. Dryden was one of the most valuable Ministers of the Ontario Government. He served first under Sir Oliver Mowat, and afterwards under my Premiership. Mr. Dryden always favored advanced methods in agriculture. He believed that scientific farming would produce the best results. To this end he extended and improved the courses of study at the Agricultural College, and always sought to impress the students with the dignity and independence of the farmer's life. It may safely be said that he added millions to the agricultural wealth of Ontario. His death will be very much regretted not only by his old colleagues, but also by all who knew him as an honest and progressive citizen.

THE PRIME MINISTER'S TRIBUTE.
Sir James Whitney expressed keen regret at the news of Mr. Dryden's death. "Although I knew of Mr. Dryden's illness," he said to a reporter, "the announcement of his death is a shock to one who enjoyed his acquaintance as I did for many years. Mr. Dryden was a first-class all-round specimen of Canadian citizenship. He was a very valuable member of the Legislature before he entered the Cabinet, and rendered good service in many respects, as Minister of Agriculture. The Province must always be the gainer by having such men as Mr. Dryden in public life, and I have no doubt that his loss will be sincerely mourned by the people of Ontario as a whole."

MARKSTAY MYSTERY
Suspicions That C.P.R. Brakeman Met With Foul Play.
North Bay, July 29.—The finding of the body of G. A. Ardell, a C. P. R. brakeman, near Markstay, on the morning of July 1st, and the circumstances surrounding the tragedy, occasioned considerable suspicion at the time that his death was not the result of an accident. It was learned that C. P. R. authorities were investigating the affair, but seemingly nothing has resulted to say aught upon this mysterious death. No inquest was held, and the body was buried without examination. The facts as known are that Ardell's train was held up by a wreck ahead, and he took advantage of the wait to visit a farm house about one mile away, where a dance was in progress. But inmates deny that he ever reached there. In any event his body was found next morning near the railway tracks in a mangled condition. In Markstay the impression is general that Ardell met with foul play, and that his body was placed upon the railway tracks to hide a crime.

A rumor in circulation that a bullet wound was found in the head of the dead man has no basis in fact, as the undertaker who laid out the body states that the mangled condition of the remains would preclude identification of any such wound except from a post-mortem.

MARKSTAY MYSTERY

Suspicions That C.P.R. Brakeman Met With Foul Play.

GENERAL STAFF.
Discussed at the Defence Conference in London.
London, July 29.—The second sitting of the Imperial Defence Conference, held at the War Office to-day, lasted two and a half hours. The Earl of Crewe presided. Mr. Haldane explained the War Office memorandum on the military defence of the empire. There was a general discussion on the question of an Imperial General Staff and other matters of importance. No resolutions were put to the conference. A committee of experts was nominated to discuss certain technical details and will meet at the War Office to-morrow. The conference adjourned until Tuesday, when it is expected the Admiralty memorandum on naval defence will be brought forward.

In the House of Commons Mr. Asquith announced that the members of the Imperial Defence Conference would be asked to sit on the Imperial Defence Committee before returning. Mr. Balfour hoped the invaluable assistance of the representatives of the self-governing dominions would grow. The right path was being followed in these matters. Sir Charles Dilke suggested that the best method of over-sea assistance to Imperial defence would be the provision of a squadron of fast cruisers for the Pacific.

Discussed at the Defence Conference in London.

KILLED BY A CRUCIFIX.
Fall Caused Point to Penetrate Bricklayer's Heart.
Montreal, July 29.—Amedee Lamarre, a bricklayer, fell from a scaffold in the east end yesterday, just as he was knocking off work for the day. Falling 25 feet, he landed squarely on his feet and would probably have escaped with but slight injuries had it not been for the fact that he was wearing a long crucifix next to his body. By the force of the fall the point of the crucifix was forced into his heart, killing him instantly.

SEAL OF CONFEDERACY.

Only Man Who Knows Its Hiding is Dying.
Washington, July 29.—Jas. H. Jones, a colored employee of the Senate stationery room, is ill at his home and his friends fear he will die. Jones was Jefferson Davis' colored bodyguard and valet. He is the only living being who knows where the great seal of the confederacy is hidden. He declares that he will die with the secret.

Jones hid the seal himself under instructions from Davis at the time Richmond was evacuated and promised Davis never to divulge the hiding place.

Literary Notes.
"You write too much," said the critic to the author.
"But, my friend," replied the author, "I've got to live."
"How about your readers?"
"Ah, but they are all born to die!"—Atlanta Constitution.

NEAT HOUSE DRESSES.

GOOD SHORT STORIES

THE WRONG SPIRIT.

F. W. Ayer, the well-known advertising agent, at the dinner in Philadelphia in anniversary of his firm's fortieth anniversary, said that to succeed in advertising required hard work.

"The successes in this business are stupendous," he said, "but some folks think they come easily. Some folks think that, working as Roebottom of Camden worked, a man can build up a great advertising fortune.

"Roebottom was a roofer. He was engaged on a Mickle street house. One day, as he was lurching, he was heard to give a yell of pain.

"What's the matter, Roebottom?" a carpenter asked.

"I got a nail in my foot," the roofer answered.

"Well, why don't you pull it out?" said the carpenter.

"What! In my dinner hour?" yelled Roebottom reproachfully.

A LONG DIVER.

"A circus came to a little town in Tennessee," said Colonel Robert M. Gates, to the Saturday Post, "and one of the attractions was a high diver, a chap who dove from the top of the tent into a shallow tank, which is a feat common enough, but which created a deal of talk in that locality.

"The wisest man who laid out it at the store. Many of them thought it could not be done without killing the diver, but on old man insisted that it was perfectly feasible.

"What do you know about diving?" he was asked.

"Well," he replied, "nothing in particular about that kind of diving, but I used to have a cousin who was the longest diver yet ever seen."

"Longest diver?" scoffed the other sitters.

"Omet," replied the old man, "he bet a thousand dollars he could dive from Liverpool to New York."

"Did he do it?"

"No, not that time. Y'see, he kinder miscalculated an' come up in Denver, Colorado."

A FRENCH CRITICISM.

Sir Charles Wyndham, at a dinner, discussed the leanness of actresses.

"It is odd," said he, "but the thinner an actress is the greater she is likely to become. To be thin, somehow, is to be artistic. Look at Maude Adams, Ethel Barrymore and divine Sara."

Sir Charles laughed.

"Once, at a reception that Mme. Sara Bernhardt gave in Paris," he said, "she led us all up to admire a new portrait of herself. It was a beautiful work. Very thin—she hardly weighed five stone in those days—the actress in a gold-colored gown, posed sinuously, a huge white dog beside her.

"A French critic started us all, as we were grouped about the picture by exclaiming with a loud, rude laugh: "Ah! A dog and a bone!"

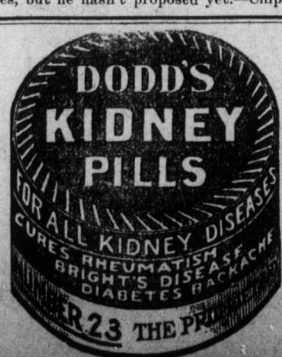

A TARKINGTON EPICUREM.

"Booth Tarkington, at a theatrical supper, spoke rather well," said a playwright, "on marriage."

"One remark in his speech struck me particularly by its epigrammatic truth. It was this:

"Before she marries him, a girl's opinion of a young man is the same as his mother's; after marriage she comes round rather to his father's view."

Young Sister—What, you can't ride a bicycle yet, and Jack has been teaching you for three weeks? Elder Sister—Yes, but he hasn't proposed yet.—Chips.

THIRD DEGREE.

POLICE OFFICERS PROTEST AGAINST CRITICISM OF IT.

Convention at Niagara Falls Passed Resolution Declaring That No Case of Improper Conduct Has Been Proved—Election of Office-bearers.

Niagara Falls, Ont., July 29.—The election of officers, drafting and passing of a resolution protesting against criticism of the so-called sweat-box and third-degree methods, and the reading of some very able papers, occupied to-day's session of the Police Constables' convention. The following officers were elected: President, Captain Emil Trudel, Chief of Police, Quebec; Secretary, William Stark, Deputy Chief of Police, Toronto; Treasurer, Inspector McClelland, of Toronto; Executive Committee, Colonel A. P. Sherwood, Dominion Police, of Ottawa; Chief Detective Silas M. Carpenter, Montreal; Chief R. G. Chamberlain, Vancouver; Chief W. T. Williams, London, and Chief John Kimmins, of this city.

The resolution of the Executive Committee dealing with the question of sweat-box methods was in part as follows: "Whereas, when a crime has been committed it is the duty of the police to use to the utmost limit the privileges and powers vested in them by law, and whereas those rights and privileges in the matter of prisoners' statements or confessions are well defined by law and established by repeated rulings of the highest judicial authorities, and whereas, notwithstanding gravely unfair attempts made by sensational newspapers and in jury courts to discredit the police and third-degree methods, your committee have been unable to discover any justification for such references, inasmuch as no case is to be found in which a responsible police officer has been found guilty of improper conduct in respect of prisoners' confessions; resolved, that this Association protest against such needless attacks on the integrity of the police and appeal to the Judiciary, the Bar and the press of Canada to unite in discouraging a practice so unfair to the police, and one which is calculated to destroy confidence in them."

M. Stephens, staff inspector, Toronto, delivered, an address on "The Conservator of Peace," which was well received.

Vancouver was chosen for the convention next year. To-night the visiting officers were tendered a banquet at the Lafayette Hotel.

THE FARM

ONTARIO'S AGRICULTURAL GREATNESS.

Mr. C. C. James, the Provincial Deputy Minister of Agriculture, has been presenting the Toronto Board of Trade with some interesting information relative to the importance, from an agricultural point of view, on the Province of Ontario.

The settled area of Ontario includes 24,500,000 acres, of which 14,000,000 acres are cleared, 5,500,000 acres woodland, 2,000,000 acres slashland, and 3,000,000 acres swamp, marsh or waste land. Of the 24,500,000 acres, 23,000,000 acres lie in what is known as Old Ontario, and were settled between 1784 and 1860. There are besides in the north country scattered tracts of land aggregating 1,500,000 acres in extent and settled within the last few years. For agricultural purposes we have to add another area of 16,000,000 acres unoccupied and only partly explored as yet. It is known as the clay belt, and is being opened up by the National Transcontinental Railway.

In 1906 Ontario produced \$12,000,000 worth of beef, \$10,000,000 in bacon and pork, and \$9,000,000 in cheese. In 1907 the corresponding figures were \$27,200,000, \$23,500,000 and \$15,900,000. In ten years the aggregate value of these three commodities rose from \$31,000,000 to \$84,700,000.

The number of horses on Ontario farms increased from 611,241 in 1896 to 726,421 in 1908, the number of milch cows from 956,000 in 1898 to 1,113,374 in 1908, swine from 1,640,787 in 1898 to 1,817,763 in 1908. In the same decade poultry increased from 9,084,273 to 12,285,613. Live stock to the value of \$29,750,000 was sold or slaughtered in 1908. In 1906 the figures had risen to \$61,500,000. The total value of live stock on the farms increased from \$104,000,000 in 1898 to \$189,500,000 in 1907, and the value of farm lands, buildings and implements from \$923,000,000 to \$1,222,000,000.

These figures are wonderfully eloquent of the agricultural progress of Ontario. There should be still further expansion, through a discouraging note comes recently in the estimate of the director of colonization that the rural population has decreased 114,000. The great clay belt of 16,000,000 acres in Northern Ontario, for the discovery of

THE ENGINEERS

To Petition Government in Reference to Graded Certificates.

London, Ont., July 29.—The convention of Stationary Engineers by a unanimous vote decided to adopt the recommendation asking the Government to provide for graded certificates for the engineers of the country. Bro. Charles Moseley, of Toronto, chief engineer of the Toronto Electric Light station, gave an interesting address on "Steam Turbines." Bro. Grandbois, of Chatham, stated in a paper on "Gas Engines" that, provided everything worked satisfactorily, gas power was much more economical than steam.

The Canadian Exhibitors' Association in connection with the Association of Stationary Engineers elected officers this morning as follows: President, W. R. Stavert, Montreal; First Vice-President, Mr. George E. Fisher; Second Vice-President, E. H. Hetherington; Secretary, W. Goff; Treasurer, H. C. Austin; Assistant Secretary, Mr. G. C. Keith.

He—And am I really the first man you ever in love with? She—Yes, dear; and you are the last man I ever expected to be in love with.—Boston Transcript.

AMONG THE JEWS

English Jewry has again distinguished itself at Cambridge University, and three young Jews were gazetted in the list of wranglers. The first of the three, and third in the roll of honor, was Mr. J. L. Mordell, born in 1888, in Philadelphia. He is a member of the Cambridge University Zionist Society.

In reply to a question addressed to him by "Ottoman Lloyd," Chief Rabbi Nahum replied that the Jews were ready to enter the Turkish army. But the Jews desired certain assurances respecting religious observances, dietary laws, the exemption of the rabbis and other matters.

Miss Florence Menckmeyer, the successful Jewish pianiste and singer, has appeared at the principal centres of Europe.

Toronto now has a Yiddish theatre, at which Mr. Joseph Gilbert intends to render "all the Jewish classical plays." The local minister objects to performances being given on Friday nights and Saturday afternoons.

In Buda-Pest there are two independent Jewish communities, one orthodox and the other reform. A marriage recently took place in the reform synagogue, but the brother of the bridegroom, an orthodox rabbi, declared the marriage to be invalid, according to Jewish law, and married the parties again.

The council of the University of Paris has accepted a donation of half a million francs (\$20,000) and an annual subvention of 15,000 francs from M. Henry Deutsch de la Meurthe for the founding of an Aero Technical Institute.

Mr. Falk Cohen, of Wellington, New Zealand, was again successful at the council election. He polled 6,446 votes.

M. Cavaillon, Sub-Intendant (first class), has been promoted Intendant-in-Chief of the Tenth Army Corps, of France, a position which corresponds in rank with that of general of brigade. Another Jew, M. Lemant, commandant of dragoons, has been appointed lieutenant-colonel.

Recently the British nation became the richer by a magnificent collection of Wedgwood, which Mr. Isaac Falckie presented to the British Museum.

Dr. Brody, a Jewess, was French colonial physician in Constantine. Before this she was ship surgeon on a Mediterranean steamer, being the first woman ship surgeon on record. Another Jewish woman occupied the same position in Tunis.

Perhaps the most striking proof of the downfall of the Black organizations has been their defeat at the Kishineff municipal elections. Their rout in the home of the first Jewish massacres of recent years has been complete.

At a private conference now being held in Koenigsberg, Germany, plans for a large Jewish emigration from Russia to Palestine and Mesopotamia are being considered.

A State charter has been granted to the Nashville, Tenn., Council of Jewish Women.

Julius Rosenwald, of Chicago, Ill., announces that he will donate ten thousand dollars to add an enlargement of the Chicago Hebrew Institute's present building if the membership is increased to a thousand and ten thousand dollars more if the institution raises fifteen thousand dollars.

Lord Swaythling has retired from the position of President and Treasurer of the London Russo-Jewish Committee.

which credit is due the Ross Government, is capable of supporting a population nearly equal to that of older Ontario. When the National Transcontinental Railway is built, and the Temiskaming and Northern Ontario extended to connect with it a settlement of that vast area may reasonably be hoped for, and a great addition to the agricultural wealth of the province. There is room for growth in the older portion yet by more intense farming. A difficulty, of course, presents itself at present in the scarcity of farm laborers.

Ottawa, July, 1909.

PLAGUE OF GRASSHOPPERS.

Pests Play Havoc in Many Parts of North Bruce.

Warton, July 29.—Reports from the surrounding territory would indicate that very few sections in North Bruce have been overlooked by the grasshopper during the past week or so. Correspondents invariably state that the plague has visited their locality and played havoc with everything green. In the Township of Kettle they are perhaps worse than on this side of the county line. In town on Tuesday the streets were literally covered, but the pests have moved along to other parts.

Values in Toilet Paper.

At Gerrie's drug store, 32 James street north. Packages of 500 sheets good paper 5c, and of 1,000 sheets excellent paper 10c, or 3 for 25c. Rolls of 800 sheets of good paper 8c, or 4 for 25c, and of 1,000 sheets excellent paper 10c, or 3 for 25c.

Trawlers a Menace.

London, July 28.—The Canadian and Newfoundland Cabinet Ministers who are now here have called the attention of the Imperial Government to the damage steam trawlers are causing to North American fisheries. It is expected that an international conference will be called.

Servant—A pound of tea for the mistress. Grocer—Green or black? Servant—Shure, either will do. She's as blind as a bat.—Judge.

Bad BLOOD

"Before I began using Cascarets I had a bad complexion, pimples on my face, and my food was not digested as it should have been. Now I am entirely well, and the pimples have all disappeared from my face. I can truthfully say that Cascarets are just as advertised; I have taken only two boxes of them."

OUR PAGE FOR HOUSEWIVES

FASHION DECREES COATS, HOWEVER WARM THE SUMMER DAY MAY BE

AMONG OURSELVES

The best street gowns are very formal looking things. Many, even for hot weather, will have coats, either real or simulated. Many of these coats are sleeveless, and when worn with chiffon gowns, are altogether charming. Buttons, embroidery and scars are the best hat garnitures. The hats are extreme, but bewitching.

HOW TO STORE WINTER FURS

The first essential in putting away winter furs is to air them well in the sun, or rather sun them well in the air for half a day at least. They should take no dust with them into their summer quarters and each piece of fur should therefore receive a careful beating with a small rattan carpet beater. Black fur, after it is well sunned, aired and beaten, may be stored away according to directions given below. Brown fur also seldom needs cleaning. But white furs, such as white fox, ermine, etc., and the lighter furs, chinchilla, beaver, mink and yellow fox, must be cleaned after their winter service before they are stored away. First brush them well with a clean brush broom. Then spread them out on a table and rub them with bran, moistened with warm water. The wet bran should be applied with a piece of soft flannel. Rub the furs until they are dry, and then finish off with dry bran, applied with a piece of muslin. The skins should be rubbed against the grain of the fur. After the bran process, the furs should be rubbed with magnesia until they are perfectly clean and white. Chinchilla may be wiped off with naphtha. The darker furs may be cleaned as follows:—Warm a quantity of new bran in a pan, being very careful that it does not burn. When it is quite warm, rub it into the fur with the hand. Repeat several times and brush thoroughly with a clothes brush. The long-haired furs should be combed smooth with a blunt tooth comb. When the furs are thoroughly clean and free from dust they should be subjected to another sunning and airing before being packed away. Moths deposit their eggs in the early spring, but it is seldom warm enough

to discard one's furs until the middle of April. Indeed, in May it is not uncommon to see people wearing white straw, flower-trimmed hats and fur collars or coats. But the middle of April is the time to discard furs, no matter how many raw days may come later on; that is, for the preservation of the fur it is well to tuck it away out of reach of the corrupting moth before she has a chance to lay her eggs, for it is not the full-fledged moth but the maggot which hatches from the egg which does the mischief with furs, woolsens and fine rugs. One of the best and simplest preservatives against moths is newspaper. They hate printer's ink quite as much as camphor balls and turpentine. Camphor, by the way, is very apt to turn furs yellow if it comes in immediate contact with the skin. Sew the furs up in muslin bags and do them up in newspapers, into bundles as nearly airtight as possible. Camphor balls or rags saturated with turpentine may be laid in the chest wherein the furs are to be packed, and this chest may be lined with newspapers. Then the furs should be packed in tightly with more paper and the lid of the chest fastened down. The box may then be stored in its usual abiding place until the following fall, that is if it is a good chest, more especially of cedar, or a trunk in good repair.

POTATO OMELET.

Potato omelet—Fry a fat out of some slices of bacon. Then cook to a brown two cupfuls of finely chopped cold potatoes in the bacon grease. When done, serve with the bits of bacon.

The Marquis de Chambray, of Paris, has come to America to lecture to children on proper mastication of food.

A little girl of fifteen came into the office and began to weep. She was exceedingly pretty, with wavy hair and big brown eyes, and the most perfect of pink and white complexions; but as the tears streamed down her face she began to moan. "I can't stand it another day. I feel that I'll have to kill myself. I'm ashamed to go out on the street and the boys and girls make fun of me at school. They say 'It's dished. It's dished!'" She put her finger on the tip of her nose and burst into a new paroxysm of tears. And it was dished, very very slightly. It had a little dent in the tip. If she had been older and philosophic, or a New Thoughter, or a high brow, or a Suffragette, a little thing like a dented nose would not have mattered. But she was just a sweet young thing and the whole world represented to her a dished nose, and that nose hers, the nose that should have been straight and perfect as the other features were flattened, very slightly, so, at the tip. At least it was very perceptible to Rosy, because she thought of it by day and dreamed of it by night. Rosy is one of many girls who are a little inclined to be morbid. And what she considered her disfigurement seemed about to ruin her life. We had a long talk together and I tried to console her, dwelling on the many really attractive things in life which even a dented nose could not mar.

But it was of no use. All she would consent to do was not to drown herself that day, but to wait until the weather grew warmer, when the outlook perhaps might change. She came back several times, however, and wept quietly in the corner and wanted to be operated on at once. So finally, after obtaining her mother's and father's consent, she went over to a physician and had the little dent filled in, and now her nose is as straight as any one's and Rosy is going to study stenography, and I think she is inclined to be rather vain of her looks. At all events she is happy. While we were at the doctor's one of the assisting surgeons brought out a small box in which there were five or six of what appeared to be very large moles. They were made of a very fine composition like plaster, colored a deep brown and some of them had one or two hairs protruding. The moles were so perfect that even the pores of the skin were perceptible. "These are for some Chinamen," explained the doctor. "We have a great many Chinese clients who are either seeking to disguise themselves or else to appear like Europeans. By different little operations we succeed in taking away the oblique look of the eye. A little tuck is taken under the eye and over it, which gives the round shape to the almond-shaped eye. The eyebrows are lowered by another little incision and a few stitches, the scars disappearing in a very short time and then by wearing one or two of

these moles the Chinaman's appearance is entirely changed. We frequently have also to change the shape of their noses, which are too flat, and to build up the bridge of the nose." It would certainly seem that the Chinese are away ahead when it comes to experimenting with their faces, and they know how to make use of every one of the Western innovations. A nap during the day is good for everybody, of both sexes and all ages, and the healthiest, sturdiest children are the ones who lie down for an hour some time in the day, preferably in the afternoon. They are the least nervous and the least excitable. This relaxation and passing into oblivion for a brief time, in the midst of the affairs of life, even baby affairs, undoubtedly give a poise and mental grasp that eventually grow into valuable qualities both for health and mentality. There is only one drawback to the daily nap, that is, with some children, they are occasionally robbed of their night's sleep through it. In such cases the nap must not be prolonged, and should be given earlier in the day, say a nap of half an hour, taken just before the afternoon walk. Habits of sleep are so quickly acquired that the child will soon wake himself at the end of the half hour's rest. When children are ill let them sleep as much as they can both day and night. Sleep is a restorer more blessed than any medicine, and often a warm bath and a day and night in bed will ward off an illness.

Grass stains may be removed by saturating in paraffine before washing.

To remove paint from linens rub the cloth with turpentine then clean with French chalk dampened with alcohol.

To take mildew from linen rub the spot with soap; scrape chalk over it and rub it well; lay it on the grass in the sun; as it dries, wet it a little. It will come out with two applications.

To clean furniture if rough, rub it with powdered pumice. If simply dirty, rub with diluted vinegar, which will cut grease and remove dirt. Then polish with some good furniture polish.

Furniture polish—Two ounces linseed oil, two ounces of alcohol, four drops aniline, four drops wintergreen. Put on and rub with a flannel cloth.

Violets, after they have been worn, will come out fresh and almost as good as new, by clipping the stems, without cutting the bouquet apart, and put the flowers into a deep glass of water, cover the heads with wax paper and set them in the refrigerator.

Table linen should be dampened thoroughly, and ironed until dry. It will then have enough gloss and stiffness to suit the most fastidious.

Muslin dresses of delicate colors should be washed with soap, and then laid to wash them in rice water, made by boiling one pound of rice in one gallon of water; re-starching; then wash the dress in the remainder. Rinse in clear or slightly blue water; then starch the dress and spruce with a quantity of rice water and iron quickly.

VACATION FOR MOTHER? WHY NOT?

By Cynthia Grey.

In a few weeks John will be digging into maps and fishing camp literature. Mary will be thinking of Atlantic City, and the children will be hunting up their old caps, sandals and easy shoes, anticipating long, glorious summer days in the country, and mother?

Why, mother, she thinks of taking a vacation. She is a regular out and out feminine Russell Sage in that respect. If there is any one thing mother DOESN'T need, it is a summer vacation.

No. She will hump her back a little lower over the ironing board, doing up Mary's lingerie gowns and sister Beattie's white skirts. She will sew John's buttons on his shirt, darn his socks, darn her pack up for his trip north, where the winds will be singing through the pine trees and spruce trees, deep streams flowing down to the sea.

Mother will never hold it against you that she is neglected, forgotten, and treated like a maid of all work. No, on second thought, you would never dare treat a servant as you do mother—she would get another job—mother can't!

Her love is great enough to cover all this, and you could have her shed her blood to dye your last summer's hat if you wanted it. Mothers, somehow, are made like that.

The fact that she has to stay home day by day, year by year, will never make a difference in mother's love, and her willingness to slave till she drops waiting on you and keeping the house sweet and pleasant for you.

But it will make a difference in the time she remains with you. It is not alone the money that rightfully belongs to her you are spending on your own amusement, but her very life!

Mother is the one entitled to a summer vacation if every other member of the family has to stay at home.

HOME MADE ICE CREAM AND TASTY ICED DRINKS

(BY HAZEL WILSON.)

PEACH ICE CREAM.

Parse and cut finely half a peck of ripe peaches, stir in two pounds of sugar, let it stand for two hours, then stir them well together and put into a preserving bottle to simmer for twenty minutes, stirring all the time to prevent scorching; then pour them into a pan and when quite cold add one quart of cream and one quart of milk. Stir well together, put instantly into a freezer to prevent curdling.

AN OLD-FASHIONED WINE PUNCH.

Parse with care the rinds of six fresh lemons, pour over it half a pint of boiling water, cover tightly for two hours, then add half a pound of white sugar, beat until light the whites of two eggs, then stir them into the mixture, whip it well and strain through a colander, then add one quart of red or white wine and freeze.

PINEAPPLE AND RASPBERRY ICE CREAM.

Cut the top of a large pineapple, then with a heavy spoon scoop out the pulp, rejecting the hard core.

Sugar the fruit, let it stand some time, then pour off from it one cup of juice. Trim the pineapple shell at the base, so it will stand firm and chill it in the refrigerator.

Wash well a pint of raspberries, add a quarter of a cup of water, half a cupful of sugar and the pineapple juice, cook the mixture a few minutes.

Remove from the fire, add the juice of a lemon and add more sugar if preferred, strained through cheesecloth.

Beat a quart of cream and a cupful of sugar until light and frothy, flavor with vanilla and freeze as ice cream. When half frozen, add the fruit juice, then finish freezing.

Pack and fill the pineapple shell, put it in the freezer can, and pack in salt and ice an hour or longer.

Surround the pineapple when it comes on the table with a wreath of flowers or leaves.—This is sufficient for ten persons.

A FRENCH DESSERT.

Heat one cupful of maple syrup in a double boiler, then add the yolks of four well beaten eggs and stir until thick, when cold, add one quart of whipped cream and set it in the freezer.

Pack with ice and salt, and allow it to stand for three or four hours. Do not turn the freezer.

PRINCESS APRON.

The Princess front adds greatly to the dressy character of this pretty apron, and the frills of embroidery that form the trimming gives the wide shoulder effect so essential to present style. Cross-barred muslin, linen, gingham and percale will all be suitable for reproduction.

NOW COMES A REVIVAL OF HAIR ORNAMENTS; UP-TO-MINUTE COIFFURES LOOK LIKE THESE

LAUREL LEAVES IN JET.

New York, April 24.—The hair ornament has come back. It has more than recovered its vogue of a year or so ago. Where one was worn then, two or three are worn now. The shops are full of them.

GOLD-MOUNTED TORTOISE.

And there's no end to their variety. There are gold and silver bands, jet laurel leaves mounted on elastic bands, tortoise shell combs with gold or silver beaded work, strings of pearls or imitation pearls, and all manner of fancy little embellishments for the coiffure.

EFFECT BEADS MAKE.

Hair dressing styles are in almost the same variety. Fashion has not decreed that a woman must wear her hair in any particular way, but on the

SIMPLE BAND ORNAMENTS.

contrary, millady dresses it as best becomes her features. If anything, the coiffures one sees now are not so low set in the back, but are more clearly made up in classic lines.

SOME OF THE VERY LATEST DIRECTOIRE GOWNS AS SEEN IN THE SHOPS

A SIMPLE EFFECTIVE MODEL.

The design here shown is a simple model to be slipped over the dress when at work or play. The fronts extend under the arm, and are joined to the waist portion of the back. The free edges may be trimmed with embroidery.

WALKING IN THE NEW GOWNS

How shall I walk in the knee waist-line dress? This is the pathetic appeal of the 1909 girl, who is no longer allowed the free American stride, but is forced to mince along like a woman on patens or stilts. From the Japanese we shall have to learn a new walk. Getsha girls to the fore! Let us know how you manage your cunning little bobbing steps in order that we may pattern the spring walk of 1909 after the kimono-clad girl from fair Japan. Frankly, can anything more ridiculous be thought of than for the woman who is trying to get the suffrage and grasp the reins of the franchise, to tie herself tightly together at the knees with the latest thing in draperies and a few buttons?

The spring fashions are the most especially contradictory and feminine affairs that one could imagine. The shirt-waist, the only sign of sartorial equality among the sexes, has been shelved. The short skirt which marked woman's emancipation from ankle-crobes is being abandoned for long, trailing draperies. Woman, who is getting ready to scream in the Legislature for her freedom, is, if she wishes to be fashionable, squeezing her abdominal organs into Directoire corsets. And now she who would walk after the vote from here to Washington ties herself tightly in at the knees and copies the wobble of the Japanese girl who is nothing more than a slave.

Well, it's a great thing to have the courage of your convictions and to be able to demand a vote, equal rights and no tariff, when you look like that!

TUBE FORM GOWN WILL DIE AN EARLY DEATH, SAYS ITS CREATOR

Signor Comelli, rated to be the greatest dress designer of the world, says the popularity of the tube form gown is to be short-lived. Next year women will have cast it aside for some other form of dress conceit, he predicts.

Comelli is the author of the "femme de tube," yet he condemns it to an early death.

When he and Mme. La Croix designed the directoire two years ago, he made the same prophecy. "It is simply to satisfy the public's chronic craze for something new," he said at that time. "Freak gowns cannot live long."

Would Signor Comelli hazard for the benefit of the readers of The (here insert name of paper) what he thought would succeed the tube form?

The signor wouldn't like to. He shrugged his shoulders vigorously and told the correspondent that he very

much disliked to prophesy, because there were so very many things to upset it.

Pressed, however, he prognosticated. "Something totally unlike it, I presume, but just as absurd," he said. "No, the public isn't ready for sensible styles. There must be a year or two more of the unique."

Comelli doesn't relish the arbiter's crown the world of fashion has bestowed upon him. He doesn't want to dictate. At heart he is simply a designer of grand opera and other theatrical costumes. He creates all the gowns worn in the Royal Opera House, Covent Garden, Drury Lane theatre and the Alhambra.

But the great modistes have persisted in copying him. If Comelli makes the style so for his people of the world of make-believe, it must be so for the world outside the theatre.

"What can I do?" he complains, shrugging his shoulders again.

THE U. S. TARIFF

Mr. Payne Presents the Bill to the House of Representatives.

Some Changes in Tariff—Has Downward Tendency.

Washington, July 30.—When majority leader Payne rose in the House of Representatives today to present the report of the Conference Committee of the two Houses on the tariff bill the measure had been in conference for just three weeks.

Contending that the bill marks a general downward tendency from present rates of duty Mr. Payne presented an exhaustive analysis of its provisions. He undertook to show that there had been a marked decrease in the rates on the necessities of life, while admitting that there had been an increase on some of the luxuries.

Beginning with a decrease in the rate of iron ore from 40 to 15 cents per ton, there is a general reduction throughout that portion of the bill, pig iron going down from \$4 to \$2.50 per ton and scrap iron from \$4 to \$3.

There is an increase on structural steel ready for use and also a slight increase on razors, nippers and pliers, etc.

Rough lumber goes down from \$2 to \$1.25 per thousand feet, with a corresponding reduction in the differential on dressed lumber.

The wool schedule underwent no change of consequence, but the entire cotton schedule was reconstructed, and the phraseology greatly changed.

In the much contested matter of the rate on gloves, the high protectionists fail to score.

The silk schedule was reconstructed, with a view of imposing specific rather than ad valorem duties. Oileths and linoleum are heavily cut, but otherwise the changes in the flax, hemp and jute provision were not materially changed.

Sugar and tobacco duties remain substantially as they were under the Dingley law.

There is a uniform increase on spirits, wines and liquors of 50 per cent.

The publishers win their fight for lower wood pulp and paper prices, the rate on the ordinary newspaper print paper being fixed at \$3.75 per ton, instead of \$6, as under the Dingley law, and on the higher grade of print paper at \$3.75, instead of \$8.

Mechanically ground wood pulp is to come in free of duty, instead of paying one-twelfth of its cost as under the Dingley law, but provision is made for a countervailing duty in case it becomes necessary to protect the United States against Canada's inhibitions upon the exportation of wood to the United States.

Hides of cattle come in free, and there is a corresponding reduction on leather and leather goods.

The House rates are practically retained on sole leather, leather for uppers, boots and shoes and harness.

Bituminous coal is reduced from 67 cents per ton to 45 cents per ton, and there is also a reduction on gunpowder, matches and dynamite.

Implementations from 20 per cent. ad valorem to 15 per cent., and the older works of art are placed upon the free list.

ARE DIVIDED.

Herkimer Street Baptists by No Means United.

Herkimer Street Baptist Church affairs are not getting straightened out very quickly. Among the members, both those in favor of asking Rev. Hugh McDiarmid to reconsider his resignation and those opposed, there is a feeling that Wednesday night's meeting did not improve matters. Rev. Mr. McDiarmid is away just now on his vacation, and has not yet received the resolution which was carried, asking him to reconsider.

In view of the divided condition of the congregation it is not thought he will do so; in fact, he said from the pulpit that his action was final and would not be reconsidered.

A B-A-A-D MAN.

Nine-Year-Old Incendiary, Robber and Thief, and Proud of It.

(Special Despatch to the Times.)
London, Ont., July 30.—Chas. Bridge, aged 9, a would-be bad man, was arrested this morning, and admitted to the police having burned a church, tried to blow open a safe in a coal and wood office, and robbed many residences.

When arrested he was in the theatre spending money he obtained from robbing two dwellings. When taken to a station he freely spoke to the police of his case and seemed proud of it. The boy is believed to have got his ideas from reading dime novels. He appeared in the juvenile court and was remanded.

THE CLOTHING MANUFACTURERS

Heaviest purchases are in the most popular patterns—it is in these he becomes overstocked, and explains why \$17.50 buys a \$25 suit and \$13.50 buys an \$18 suit, latest pattern, greens, greys, tans and olives. The manufacturer bears the brunt of this; you get the benefit, at our sale.—Fralick & Co., 13 and 15 James street north.

LACROSSE GAME.

The following team of the Capitals will go to Burlington to-morrow by the 1.30 car from the terminal station: Wagonast, Pearce, Mitchell, Church, Hill, W. Smith, Abernethy, Bowman, Strong, Hawkins, E. Smith. The Capitals will also play the Chippewas of Toronto on the afternoon of Civic Holiday, at Maple Leaf Park.

Seasonable and Reasonable.

Squabs, spring chickens, ducks, lamb, well-bred beef, fresh cut mushrooms, cauliflower, green corn, egg plant, vegetable marrow, white turnips, celery, cucumbers, green peas, plums, huckleberries, gooseberries, raspberries, red and black currants, grape fruit, limes, O. A. C. creamy butter, grape juice, apple juice, Regal Lager, 75c, watermelons, canteloupes.—Peebles, Hobson St., Limited.

Judge—You are a freeholder? Talesman—Yes, sir; I am. "Married or single?" "Married three years last June." "Have you formed or expressed any opinion?" "Not for three years, your Honor."—Success.

TEA TABLE GOSSIP.

—The dog which bit the little boy Arnott was destroyed immediately afterwards.

Mr. Arthur Davis left for Montreal this morning, and will leave on the steamer Dominion for Liverpool to-morrow.

—Among the merchants on King street east, between Walnut and Mary's, a new system of guessing their weights is being introduced, and is proving a source of great amusement.

—The Senior Y. M. C. A. Harriers will hold their first paper chase on August 4th. The start will be from the Central Y. M. C. A. at 7.15 p. m., and a distance of three miles will be run.

—Rev. T. C. Macklin, D. D., Provost of Trinity College, Toronto, will preach in the Church of the Redeemer at Stoney Creek on Sunday morning at 11 o'clock; at St. James Church, Van Wagner's Beach, at 3.30, and at St. Mary's Church, Bartonville, at 7 p. m.

—Fifty cents, Toronto and return, to-morrow afternoon on steamers Macassa and Modjeska. Boats leave Hamilton 2.15, 3.30, and 8.30 p. m., returning leave Toronto 5.30, 8.30 and 11.15 p. m. Full moon on the lake to-morrow night. See advertisement for Monday's programme.

—A horse belonging to Dixon Brothers ran away this afternoon from the front of the store, up King street to Hughson, up Hughson to Main, up Main street to James street. It continued up James street as far as Hunter street, where it was caught. No damage was done.

—The fire department had two calls yesterday, the first to 76 Ray street, where a small barn with some hay in it was on fire. It was caused by boys playing with matches. The damage amounted to about \$80. A still alarm was given at 7.55 from the Gurney-Tilden foundry, where smoke was issuing from a window. It was found to be merely the smoke from the Japan furnaces.

—The new boys' department in connection with the Y. M. C. A. is a fine, modern building, is an assured thing. If the plans and specifications now being drawn up by Architect Mr. Charles Mills are carried out, Hamilton will have the best boys' department of any Y. M. C. A. in Canada. This will probably hold true even though the present plans have to be somewhat modified. It is thought that possibly the funds on hand may not be adequate for the extensive building which the committee and architect are now laying their plans for, and that some curtailing may be necessary, but this will not be known until estimates are prepared. The committee in charge, consisting of Messrs. Alfred Powis, George Rutherford, J. J. Greene and W. J. Aitchison, are busily engaged working on the plans, and negotiating with Mr. Aitchison. They are pushing the work forward vigorously and working faithfully to secure the best building possible for the boys. They expect to call for tenders for the new institution in a very few days.

PLANS FOR THE BOYS.

Architect and Committee Working on Plans of Building.

That the new boys' department in connection with the Y. M. C. A. is a fine, modern building, is an assured thing. If the plans and specifications now being drawn up by Architect Mr. Charles Mills are carried out, Hamilton will have the best boys' department of any Y. M. C. A. in Canada. This will probably hold true even though the present plans have to be somewhat modified. It is thought that possibly the funds on hand may not be adequate for the extensive building which the committee and architect are now laying their plans for, and that some curtailing may be necessary, but this will not be known until estimates are prepared. The committee in charge, consisting of Messrs. Alfred Powis, George Rutherford, J. J. Greene and W. J. Aitchison, are busily engaged working on the plans, and negotiating with Mr. Aitchison. They are pushing the work forward vigorously and working faithfully to secure the best building possible for the boys. They expect to call for tenders for the new institution in a very few days.

MEN WIN.

Collins and Perkins Will Get Their Money.

Mr. E. D. Cahill this morning received a cable message from London announcing that the Privy Council had dismissed the appeal of the Dominion Natural Gas Company, in the T. H. & B. round house explosion cases.

This means that Collins and Perkins win the celebrated case, which has been carried through all the courts.

THE WEATHER.

FORECASTS—Moderate northwesterly winds, fine. Saturday light to moderate variable winds, fine.

The following is issued by the Department of Marine and Fisheries: Temperature. 8 a.m. Min. Weather.

Victoria ... 70 52 Fair
Calgary ... 80 50 Fair
Winnipeg ... 75 52 Clear
Port Arthur ... 80 52 Clear
Parry Sound ... 86 60 Clear
Toronto ... 86 66 Clear
Ottawa ... 80 66 Fair
Montreal ... 78 70 Fair
Quebec ... 74 64 Clear
Father Point ... 74 64 Clear

WEATHER NOTES.
The disturbance which was to the northward of Ontario and Quebec yesterday has passed eastward to the Gulf of St. Lawrence. The weather is showery this morning in the Maritime Provinces and fine in all other parts of the Dominion. The temperature continues high in the Western Provinces.

Washington, July 30.—Eastern States and Northern New York—Generally fair to-night and Saturday; slightly cooler in the interior to-night, light west winds.

Western New York—Generally fair to-night and Saturday; slightly cooler to-night.

Lakes Erie and Ontario—Light to moderate west and northwest winds and generally fair to-night and Saturday.

Probs.—Mostly fine and a little cooler with a few scattered thunderstorms. The following is the temperature registered at Parke & Parke's drug store:

9 a. m., 78; 11 a. m., 83; 1 p. m., 87; lowest in 24 hours, 69; highest in 24 hours, 93.

A DUTIFUL HUSBAND.

A man who had overestimated his capacity for the amber fluid was arrested on the street for improper conduct. In the police court the next morning the usual charge of intoxication was filed against him, and he was fined \$5, which he promptly paid. This done, he went out with a very worried expression on his countenance, only to return a few minutes later and cautiously approach the clerk.

"Please, sir," he said, "would you just give me a receipt for that \$5 I paid you. I want to show my wife that I didn't spend all my money for drink."—Success Magazine.

Steamship Arrivals.
Mauretania—At New York, from Liverpool. To-morrow—At New York, from Genoa. Virginia—At New York, from Trieste. Roma—At Naples, from New York. America—At Naples, from New York. Princess Irene—At New York, from Argentina. Trieste—At New York. President Grant—At New York, from Hamilton.

Columbia—At Cape Race, from Glasgow. Inolan—At Montreal, from Glasgow. Virginia—At Fame Point, from Liverpool. Montrose—At Father Point, from Antwerp. Manchester—At Father Point, from Manchester. Quebec, Que., July 30.—Montrose docked here 8.15 last night, and landed passengers 6.30 this morning.

Railway terminals in New York city are making preparations for handling a larger influx of baggage in September than ever before. It is expected that six thousand pieces will reach Manhattan Island each day at the height of the great homebound rush.

All things are more apt to come to those who don't wait for them.

FATAL ACCIDENT.

Memphis, Tenn., July 30.—One person was killed and five or six injured early today as a result of a switch engine dashing into a heavily loaded suburban street car in the southern part of the city.

THE DOMINION BANK

HEAD OFFICE, TORONTO, ONT.
Capital Paid Up \$2,990,000
Reserve Fund and Undivided Profits \$2,250,000
Deposits by the Public \$35,900,000
Total Assets \$41,430,000
A general banking business transacted. Sterling and Continental Exchange bought and sold. Commercial and Travellers' Letters of Credit issued available in all parts of the world.

Savings Departments
Are maintained at all branches. Special attention given to accounts of women and children.

DEATHS

BIENNEN—At 27 Lansdowne avenue, Toronto, on Thursday, July 29th, 1939, Nellie Holland, beloved wife of Edward Biennen. Funeral from residence of her brother-in-law, Jas. McGowan, 413 Bay street north, Hamilton, on Saturday morning at 10 o'clock. Friends and acquaintances please accept this intimation.

DICKSON—In London, England, on July 29th, 1939, James Dickson, barrister-at-law, of this city, aged 72 years. Funeral from Central Presbyterian Church on Thursday, the 3rd August, at 3.30 p. m.

PETRIE—At the residence of his son, James T. Petrie, St. Catharines, on Thursday, July 29, George Petrie, formerly of Jerseyville. Interment will take place at Jerseyville on Saturday, July 31, following a service in the Methodist Church, at 2.30. Friends and acquaintances are respectfully invited.

TORRANCE—On Thursday, July 29th, 1939, at the residence of her son-in-law, Mr. P. Bell, Glanford, Mrs. A. Torrance. Burial Saturday at 12 noon from her late residence. Service at the house. Interment at Cheltenham.

WHITE—In this city, on Thursday, July 29th, 1939, William Oliver White, aged 38 years. Funeral from the residence of his grandfather, P. J. Downing, 111 Rebecca street, on Sunday at 2 p. m. Interment at Hamilton cemetery. Friends please accept this intimation.

RIGHTS ON COUNTY ROAD.

Solicitor Lobb Here to Meet the County Representatives.

The question in regard to the right of the Hydro-Electric Commission to go on county roads without the consent of the County Council, which Councillor Binkley raised at the last session, is being fought out in earnest now between the county and the Commission. The Councilor asked if the Commission had the right to erect poles on the county and township roads without getting the Council's permission.

The contractors for the power line have been making advances in the way of erecting poles in the township of West Flamboro. Holes have been dug and poles provided. A few days ago Warden Gage instructed the Road Superintendent to have a summons issued against the agents of the company if any further work was done before they had consulted the Council and obtained their permission.

Last night Mr. Lobb, solicitor for the Commission, came up from Toronto and a meeting was held in Mr. Gage's office to talk the matter over. The Commission claims the right to run its lines over the public roads, through an Act of the Legislature passed at last session, without getting permission. The Warden contends that no company undertaking such construction can go ahead without first having given notice to the Council and parties concerned.

In the meeting last night an amicable settlement was reached, at least for the present. The company is to continue erecting the line under the supervision of the Road Superintendent, and will in the near future furnish Mr. Gage with a letter which will put an end to the controversy.

SWIMMING.

Hamilton Club Notes—Some Important Events Coming.

The warm weather of the past few days has kept the members of the Hamilton Swimming Club practising well, and they are all in good shape. It is expected that in the races to be held a week from Saturday a large number of the prizes will be won by members of the club.

In the second of the weekly handicap races, after some very close heats, the final was won by F. Hall from the scratch mark. H. Hudson received two points and S. Job and E. Millage received one each. To-night the third meeting will be held, and some exciting finishes are looked for.

On Civic Holiday, Aug. 2, the championship event of Hamilton Bay will take place at the Victoria Yacht Club, and about twenty of the members of the Hamilton Swimming Club will compete.

On Saturday afternoon, Aug. 7, the Dominion championships will be held at the B. H. Y. C. at Hamilton Bay. The winners will no doubt hold their own against the Montreal, Toronto and Ottawa swimmers who will compete.

The beginners' class is doing as well as could be expected, but the instructors still have room for more, and any who wish to learn to swim should hand in their names to the instructor, who is at all ways at the Y. M. C. A. on Wednesdays or Fridays, and he will then make arrangements to put them in one of the classes.

The water polo teams are steadily improving. A match is to be played on Civic Holiday at the B. H. Y. C. The polo practice nights are Wednesdays and Fridays, and all who know the game are invited to join. What is handicapping some of the players is to get a complete set of the water-polo rules.

The life-saving classes are steadily improving, and it will be necessary to form a new class in the near future. The local police practice every Wednesday afternoon, and so readily are they taking to the methods as taught them by the instructor that the majority of the class will soon be examined for their medallions and certificates.

Next Tuesday night a general meeting of the club will be held, and the main items of business will be the election of a new secretary, as W. C. Bath has left to take a position in Cleveland. The members of the club join in wishing him success in his new position. The arrangements for the carnival on Aug. 7 will also be discussed, and every member is requested to be present.

The new club emblem is now ready, and members should secure one at once from the captain, A. Gale. The stars are also ready for the swimmers who can comply with the conditions under which they are obtained. A large number have already been obtained.

THE MONTROSE.

Quebec, Que., July 30.—After landing her passengers this morning the C. P. R. steamship Montrose, which was in collision with an iceberg off Newfoundland on Friday last, will proceed to Montreal to discharge her cargo, and the necessary repairs will then be made.

TREBLE'S TWO STORES—Open Saturday Nights Until 11 o'Clock

Reinforcements Arrive in the Nick of Time for To-morrow, the Last Day of

Hamilton's Greatest Shirt Sale

Our last delivery of Shirts in our biggest purchase of manufacturer's stock arriving in the nick of time has put us in readiness to break all records in the last day of this successful sale, both in values and sales.

When we announce this sale is closed—closed it will be, so we advise all who want any of these splendid Shirts to get them to-morrow.

We again set before you the exceptional advantages offered you. The Shirts speak for themselves in a language that cannot be misunderstood. Final sweep-out, all one price.
