UNIVERSAL OZONATOR

For Air Purification in Banks, Restaurants, Cafes, Billiard Halls, Bowling Alleys, Etc.

The Universal Ozonator produces about 4000 cubic feet of ozonized air per hour. A motor-driven blower draws fresh air into the ozone generating units and expels the ozonized air into the room. As the ozone diffuses very rapidly, this feature assures a wide distribution of the ozone. The two-point switch produces means for varying the amount of ozone. For deodorizing purposes the ozonator will be found invalu-

Size is the only feature that can commend western wheat flour to any cook. And the good cook quickly discovers that quantity without quality is not worth buying.

"BEAVER" FLOUR GIVES BOTH QUALITY AND QUANTITY, because it is a blended flour. It is mostly the choicest Ontario fall wheat with sufficient Manitoba spring wheat to equalize the strength.

In "Beaver" Flour, you get the famous pastry-making qualities of Ontario wheat-you get the fine texture, the evenness and the delicious flavor of Ontario wheat-you get the nutriment of Ontario wheat-with the "strength" of Manitoba wheat which makes the dough "stand up" in the oven.

One of the big conveniences of "Beaver" Flour is the fact that it is equally good for bread and pastry-and best for both.

Beaver" Flour is superior to any western wheat flour for any and all kinds of baking, and is the cheapest flour you can use because the most economical.

This symptom of sleeplessness is one of the surest indications of an ex-hausted nervous system. You must have sleep or a breakdown is certain. Dr. Chase's Nerve Food feeds the feeble, wasted nerves back to health and strength. If I had been wide awake before, as doubly so now. The figure lookd like that of a woman; but it had appeared and disappeared with such rapidity that I was by no means sure. One of the maids doing some nocturnal courting, I decided, chuckling to think what madame's scandalized norror would be if she knew it. Quick as I had been, I had missed their first greeting whatever it was, and they now stood looking at each other by the two moss-grown steps leading to the Lady's Chapel. Madeshe had displayed in the evening, and ever her head she had thrown a white shawl, which was hardly whiter than the thin, pale face peering out of its olds. As for Yorke, he looked as auch as he had looked in the drawing-room-morose, gloomy, ill at ease, Imost sullen. So for a moment I saw hem as clearly as a couple of phoographed figures, standing face to ace in the moonlight by the steps of he Lady's Chapel. Then there was n imperious movement of one of nademoiselle's thin white hands, and lowly, he with his eyes on the ground nd she with her face raised, the came toward me. I caught her first words, sharp and impatient.

"No." was the curt answer. "And why not-why not, I ask? You cnew I should wait here for you.

SAVED SOUTH-WORTH'S LEG

Douglas' Egyptian Liniment Checked the Blood Poisoning.

When Blood Poisoning sets in you

When Blood Poisoning sets in you have to do something mighty quick—and the right thing, too. Mr. Edwin Southworth, of Comrey, Alta., found to his great relief that the right thing is to use Douglas' Egyptian Liniment.

Writing of the Liniment, he says:
"I prize this Liniment highly as it saved me from the loss of my leg. Four years ago I was hurt while working in the lumber camps and blood poisoning set in but was stopped by Egyptian Liniment."

Douglas' Egyptian Liniment is a sure preventive of Blood Poisoning if used promptly on cuts, burns, frostbites, or sores on man or beast. If proud flesh has already formed, festering started, or if Blood Poisoning itself has not gone too far, Douglas' Egyptian Liniment will clean out the wound, remove the unhealthy conditions and heal clean and quickly.

tensify the interest of the debate. chair was occupied by Professor Nichols, and the debate was opened by Mr. Wm. White and Mr. A. leaders of the affirmative and negative sides; the former being supported by Mr. Butt and Mr. Young, and the latter by Mr. Ches. Bowden and Mr. Hearder. Mr. White delivered a very finent speech on behalf of his side of the argument, and showed the necessity of such an institution, and how the money should be raised to build it, and made detailed reference to the great benefits that would accrue from it, and also explained what a Polytechnic really consists of, Mr. Soper delivered an equally earnest speech for the opposite side, and claimed that the time was not yet ripe for a Polytechnic, and that greater good could be done in elementary education before a Polytechnic would be required, and that it would be unfair to the country at large, inasmuch as it would border upon favourtism, and would imply taxation without re-

presentation The debate was well discussed by all who spoke, and a great deal of information was imparted to those present, and no doubt very many came away from the meeting with a better idea of what a Polytechnic really is. than they had on going to the meeting It was generally thought during the debate that the affirmative would have won, but at the close the argument seemed to turn the tide, and the negative was victorious by a majority of one. The chairman then gave his remarks on the debate generally, and added much information to what had already been given, and spoke in favour of such an institution.

All through, the meeting was a good no little humour was displayed. Eleven new candidates joined the Institute. This certainly speaks well for the success of the M. C. L. I., and we wish It a continuance of the same.

Cochrane St. Church Recital.

Hardware Dept.

Last evening's recital at Cochrane Street Church, was a distinct success. The choir members, who repeated the Christmas music, consisting of an anthem, four carols and a choral fantasy, sang beautifully and delighted the large audience present. The soloists were Misses Herder and Vincent gles and Alex Mews. Mr. Ruggle's rendition of Gounod's "O, Divine Rewas faultless and very efleemer," fective. The singing of Miss Herder was most divine and rarely has this Her gracefulness and particularly clear denunciation elicited favorable comment on all An admiring feature of the Recital was the instrumental trio of violing shaw and Alec Mews manipulated the violin and cello, respectively, and demonstrated their musical taland ability. These, combined with the organ, made a decidedly marked effect. The beautiful organ of the Church was heard to advantage in the six varied items rendered on it, the music being enchanting 'Lohengrin" was the piece de resistance and the performer received mer ited enconiums. The recital was in

FOOD

Interesting Words

A Prominent New York food expert recently said:

Statistics show that of 20 million school children in this country, 15 millions are more or less defective in eyes, teeth, glands, bony structure or otherwise.

This is largely due to their being fed upon substances in which the twelve minerals in the human body, and necessary to renew that body, are deficient in the food. Chief among these twelve minerals are Phosphorous, Iron, Magnesium, Calcium and Fluorine.

Common flour, rice, corn meal and some breakfast cereals have been robbed of 75 per cent. of their mineral elements, largely by being prepared to look "white and nice."

Grape-Nuts

Made of whole wheat and barley, contains all the valuable mineral elements necessary to the building of sound bodies and keen brains. This food is particularly rich in organic Phosphates, the essential mineral element necessary to brain building and brain development.

A regular morning dish of Grape-Nuts and cream is the daily, healthy habit of thousands of families, who for years have found by actual test that this food has properly won the title of "King of Breakfast Foods."

REDUCTION **OF TAXATION**

reducing taxation, and to give the sus pension of duty on hay as an illustraion of what he had done. We point ed out yesterday, that in his Manifesto 1908, he had made it a plank in his platform to place tea, sugar, pork, life on the Free List, and that he gave the same document an assurance without taking into consideration any other prime necessary of life. We may therefore fairly state that nearly a million and a half of revenue has been collected by the Morris Govern-ment of taxes which Sir Edward Morris gave the country to understand bore inequitably on the working elasses.

Now we find Sir Edward Morris had the assurance to set forth the suspension of the duty on hay last fall as an example of his effort to redeem his pledge in reference to a reduction of taxation. He did this, in face of the statement of policy, made by his Min-ister of Finance in his last Budget Speech, which must be taken as the Speech, which must be taken as the settled policy of the Government, in- ill during her voyage from Brazil settled policy of the Government, insmuch as it represents not only the opinion of the Minister responsible for the financial arrangements of the Government, but that opinion is in full accord with the deeds of the Government. said bore unjustly on the working lasses, and no proposal whatever has been made to the Assembly by the Government to change it. Here is part in his Budget Speech:

"Personally, under these circumstances, I should hesitate to assume the responsibility of advising a general reduction of taxation at the present time, contending rather, that such reduction, whenever should be gradual, and should depend upon the state of the revenue and of the public service, so that it might not dislocate our economic and indus-Morris, as we learned trial machinery."

Wedding Bells.

DALEY-HANLON.

On January 11th, at St. Joseph's Church, Salmonier, Miss . Hannah Daley, daughter of Peter and Bridget Daley, was united to Michael Hanlon. son of John and Ann Hanlon. The bride wore a pretty dress of cream lustre, with hat to match. The bridesmaids Miss Maud Daley, sister of the bride, and Katie Ryan were neatly attired in white. The groom was assisted by Messrs. Anselm Hanlon. brother of the groom and Alexander Daley. After the ceremony the party proceeded to the home of the bride, where luncheon was served, after which, accompanied by a number of friends, the happy pair drove to their future home, where an appetizing supper was in waiting. Soon the young people were dancing gayly, and as the night advanced the older members of the party felt their youthful merriment returning, and soon all were "tripping the light fantastic," until a late hour, when the reluctant withdrawal of the company showed now immensely they had enjoyed themselves. The people of Salmonier wish Mr. and Mrs. Hanlon many happy years of wedded life. St. Joseph's, Jan. 15th.

SPRACKLIN-HAZELTINE.

A quiet, but pretty wedding took place last night at the residence of the bride's aunt. Mrs. Walters, Monroe Street, when Mr. John Spracklin and Miss Irene Hazeltine, both of Brigus, were united in the bonds of Holy Matrimony by the Rev. J. W. Bartlett. The bride was assisted by her sister, Miss Aggie Hazeltine, while Mr. Wm. Ebsary acted as best man. After the ceremony a reception was held, only the immediate friends being present. The happy couple leave this evening en route to Brigus, where hey will reside in future.

All "cocoa" is not cocoa. All Lowney's is all cocoa.

Here are some facts you should know if you want to be sure of pure cocoa.

The use of alkali and starch in cocoas is quite common. Some manufacturers even defend these methods. Eminent physicians do not.

Analyses of some cocoas have shown the use of such adulterants as animal fat, cocoa shells, sea biscuit and coarse branny flour.

It is quite possible that you have never tasted pure cocoa. By pure cocoa we mean clean cocoa beans, ground fine and relieved of the excess cocoa butter-with no other ingredients added.

Lowney's is just pure cocoa. It has nothing added to cheapen it. Its full, inimitable flavor is due to the unvarying standards followed in our Montreal

Lowney's is simply delicious because it is all cocoa-made from skillfully blended cocoa beans of the choicest quality.

The British steamer Vermones, wit 139 passengers on board, was wrecked yesterday off Leifes outside the port of Oporto. Eighty-four passer gers were saved by life lines from the shore, but it is reported that sixteen were thrown out of the basket and perished. The steamer Hollandia stood by the Vermones all the morning but the tremendous seas made it impossible to render any assistance, as the stranded vessel could not be reached by boats, but finally life-savers managed to get their lines aboard. When the Hollandia left, the work of escue was still going on but it was feared the ship would break up rapidly. The Vermones which was bound from Glasgow to Brazil thence to New York, was owned by Lampult and Holt lines.

The Lord Erne, which left Cardiff on Jan. 6th for New York, took the Almerian in tow on Jan. 12th, but two steel hawsers snapped and she had to give up the attempt. The Almerian then shaped her course for Queenstown. The British steamer Avalon, which left Fowey, Jan. 4th for Boston, encountered the same gales, and was compelled to put back to Queenstown where she arrived in a disabled condition, with rudder bro ken, all boats washed away and her leck a mass of wreckage; a great sea knocked Capt. Frankland off the bridge, fracturing several ribs. Five seamen were also injured; they were transferred to hospital, and the ship docked for repairs.

over 300 majority.

The Balkan kingdoms have not weakened in their determination to re-open war unless Turkey accepts their terms quickly, in deference to the Powers they may withhold the execution of their resolve for a few days longer than seemed likely yesterday, as they wish the world to know that their policy is unchanged that as allies they inaugurated the doctrine "The Balkans for Balkan people." At the time when it appeared almost presumptuous folly to the great nations of Europe they declare now that they propose to maintain the right which their united armies won. They consider as independent nations they should manage their own diplomacy according to their own views; what their national interests demand, Balkan States have not changed their terms one iota, while the Turks receded all along the line except on the question of Adrianople and the Acgean Islands. The Allies have adopted an attitude of stern firmness to convince Turkey that no alternative is possible for the conclusion of peace, but acceptance of their original conditions, but in so doing, they have not wished to hurt the susceptibilities of the Powers or alienate their sympathy. They give this as the reason for their decision to await patiently the result of the note of the Powers to Constantinople, which may take any of the three following forms; first Turkey refusing flatly to follow the advice of Europe; second Turkey givaing inconclusive answer, with the obing inconclusive answer, with the object of further postponing decision, and third, Turkey asking for continuation of peace negotiations here on a new proposal which might provide for preservation of Adrianople but dismantling its fortifications and dismantling its fortifications, and pledge under guarantee of the Powers not to attempt any work in the future on fortifications of the town. Should Turkey refuse to follow the advice of the Powers or give evasive answer, the allies will carry out their plan, already announced, and ask for convocation of the Conference at which they will officially break off negotiations. This will be followed by denunciation of the armistice. If Turkey offers new proposals to the Bulgarian delegation, having precise instructions, which will insist on its claim for Adrianople, but will refer the matter to Sofia for consideration at a meeting of the Ambassadors to instructions, which will insist on its at a meeting of the Ambassadors to

discuss the situation without apparently coming to any further conclusion. At first several Ambassadors seemed to be disposed to take offence at what they termed the insubordination of the allies in taking simultaneous action with the Powers and intimidating Turkey with another ultimatum, which these Ambassadors remarked would only have the effect of neutralizing the action of Europe. Sir Edward and other Ambassadors succeeded in calming their colleagues by demonstrating that the intention of the allies had been misrepresented. They themselves had given full ex-
