miral Dot, who can be seen at P. T.

MEDICAL—We call attention to the
card of Dr. W. H. Lowry, who has com-
menced to practice in Guelph. He is a
young man of good promise, his career at
the University, and at the Medical Col-
lege was very creditable, and we wish
him all success.

SHOO FLY!—The flies this season are
not very numerous, but they bite ferociously,
and are, on the whole, a great nuisance.
Many plans have been devised for their
extermination, but we think the Magnet
Fly Catcher is ahead of them all. There is
no dirt, or danger from poison, con-
nected with it, and the plan is an excel-
lent one. See advt.

THE B. A. PRESBYTERIAN—We observe
letters patent have been issued forth
"Presbyterian Printing Co., of Toronto,"
with a capital of \$20,000. Mr. C. Blackett
Robinson is chief shareholder and man-
ager. The publication of the BRITISH
AMERICAN PRESBYTERIAN, commenced by
Mr. B. a little over two years ago, will
be continued by the Company.

INTERESTING TO TRAVELLERS—The
International Railway Guide for August is

railway time-tables in Canada and the
United States, and an amount of light
and interesting reading matter. The
price of the publication is twenty cents.
C. R. Chisholm & Co., general railway
news agents, are the publishers.

HIGH SCHOOL—The Rev. Mr. Tor-
rence, Inspector of Schools, has received
a notice from the Board of Public In-
struction, that the following pupils have
passed the June entrance examination
for admission to the High School in this
town:—Henry Adsett, Francis Gal-
braith, Peter Kilgour, John H. Kirk-
land, Charles Julius Mickle and Thomas
P. Webster.

In Mount Forest on Tuesday of last
week John Menzies, of Proton, appear-
ed before F. W. Stevenson, Esq., J. P.,
Egremont, to answer a charge of having
assaulted Robt. McEwen, also of Proton,
on the highway. Several witnesses were
examined, who sustained the charge.
Menzies was fined \$4 and \$5.50 costs, in
all \$9.50.

EAST GARAFAXA—At a recent meeting
of the East Garafaxa Council, a By-
Law was passed levying rates for the
current year as follows:—8 and three-
fourths mills in the dollar on the Town-
ship Assessment for County Rates
(equal to 4 and one-half mills on the
equalized assessment), 5 and one-half
mills in the dollar for Railway Bonds on the
Township Assessment (equal to 3 two-
hundredths on the equalized assessment),
1 and one-half mills in the dollar for the
equivalent to the Government School
Grant, and 6 mills in the dollar for
Township Rate.

THIEVING IN FERUS—For some time
past a system of petty thieving has been
going on in Fergus. Several parties have
had small sums of money and other
articles stolen. On Friday night last some
person or persons pilfered Mr. Petrie's Divi-
sion Court office. The entrance
was effected from the rear, the thief or
thieves having smashed a pane of glass,
which enabled them to reach through
and open the fastenings of the window,
which gave them easy access. The lock
of the door which separates the front
and back rooms of the office was forced,
and the whole place plundered. All the
office papers since 1870 were ransacked,
and the notes left for collection taken;
and also between \$1 and \$5 in small sil-
ver, 58 in law stamps, and a coat and
hat.

PRESBYTERIAN LIBERALITY—The Brent-
ford Express says that Rev. Mr. Cech-
rone preached on Sabbath, 28th inst., at
the opening of the new church in Wat-
ford, the collections at the services
amounting to \$312. On Monday evening
it was stated by the managers of the
church that a deficit of \$2,000 still re-
mained on the building. Mr. Cechrone,
accordingly, at the close of his address,
called for subscriptions to wipe off the
entire indebtedness, when \$2,900 was at
once subscribed, making a sum of \$900
beyond the indebtedness, and a sum to-
tal for the two days' services, of \$3,212.
This in a congregation of barely eighty
members! Congratulations in Guelph
please initiate.

On Friday evening a party by the name
of Phillips, long on to Hamilton, in dis-
cussing a bill for an act to his existence

was a prospect of the future.

Orange Young Britons at Toronto, on

H. B. O'Connor, Esq., having recently
removed from Rivesdale to Teeswater,
a complimentary dinner was given him
on his departure.

It is reported that Mr. John Valen-
tine, late resident of Paisley, was
drowned in the Red River near Fort
Garry, recently.

Mr. Michael Howard, of the County
of Grey, had two of his ribs broken by
falling from a hay mow to the floor on
Wednesday, 22nd ult.

No less than four applications have
been made for the position of hangman
at the coming execution of the soldier
who so foully murdered poor Brown at
Winnipeg.

Several bandits, who were recently
captured in the mountains of Santa Ana,
Nicaragua, received two hundred lashes
each, a band of music being employed
to drown their cries.

By a fire in St. Thomas, on Saturday
morning, property, consisting chiefly of
warehouses, to the amount of \$20,000
was destroyed. There are strong sus-
picions of incendiarism.

A boy in Exeter recently was shooting
with a bow and arrow when, having
aimed at a bird in a tree, the arrow
glanced and struck a young daughter of
Mr. C. Tom, shoemaker, destroying her

A St. John, N. B., paper is agitating
for a maritime university, to which all
the provincial colleges can be affiliated.
It suggests that it shall be non-teaching,

By an Act which comes into force on
the 1st day of August next, any person

A week ago a heavy frost was felt in
the section about Walkerton, in some
places completely destroying cucumber
plants and potato tops; it is also feared
that the late spring crops have suffered
to a considerable extent.

William Beggs, a pump-maker in
Owen Sound, died on the 28th inst. from
over exertion at the late fire in Harri-
son's Mills in that town. Death result-
ed from inflammation of the bowels and
kidneys, brought on by a cold induced
from over heating.

The Quebec Government has with-
drawn its permission to use St. Helen's
Island as a public park, on the ground
that the conditions which it was grant-
ed have not been fulfilled, and also be-
cause, as is alleged, public property has
been destroyed.

It is stated that under the will of the
late Sir Stephen Glynne, Mr. Gladstone
has £30,000 a year for life, and after his
death the whole property goes to his
eldest son, M. P. for Whiby. So the
liberal leader will now be free to in-
dulge his taste for China to an even
greater extent than heretofore.

In the North of Ireland there appears
to be a strong feeling against Home
Rule. During a speech made at a meet-
ing at Lisburn, Mr. Johnson, M. P. for
Belfast, said that before Mr. Butt gained
Home Rule he would have to face 100,-
000 Orangemen at the Boyne. This
strong declaration drew forth enthu-
siastic cheering.

It was rumored on Friday that a pris-
oner had escaped from the Central Prison,
Toronto, but the authorities refused to
give any information. It now appears
that the report was correct, and that the
man escaped from the window of the
hospital. Attention had been drawn to
the easy means of exit afforded, but no
notice was taken of it.

A petition in course of signature
among clergy belonging to the Extreme
High Church party in England, praying
that the Archbishops and Bishops may
be relieved from their duties in the
House of Lords. The petitioners say
that they do not wish to be understood
to express any opinion for or against the
present union between Church and
State.

The Chicago Times emphatically
wishes mechanics in the country to "keep
out of Chicago for the present. The
fire has created no necessity for them.
There are already more laborers in the
city than can find employment, even
should building in the burnt district
progress vigorously, and to multiply
them is simply to augment the army of
idlers."

A proposition having for its object
the utilization of the river Saugeen in case
of fire is to be submitted shortly to
the Walkerton Town Council, there being
no impediment whatever in throwing the
water by suitable appliances to the far-
thest limits of the town. Already a
strong feeling exists as to the necessity
of having something more efficient than
steam fire engines have yet proven to be.

The people of Culberty at a public
meeting recently held in that town to
consider the proposed removal of Victoria
University, formed a committee to re-
ceive subscriptions. They will be payable
only on condition that the permanent
location of the University be guaranteed
to Culberty. The object of the subscrip-
tions is to provide additional buildings,
and \$15,000 is the minimum sum speci-
fied. It was stated incidentally that the
agitation for removal was made by grad-
uates of the University settled in dif-
ferent parts of the country, and that
the faculty had not taken any leading
part in it.

FORBES'S JUBILEE—This annual
gathering in Toronto was brought to a
close on Friday, by the holding of
a picnic on the site of the old
Fort York. There was also an archery contest in the
afternoon, hand-some prizes having been
offered to lady as well as gentleman
competitors. It was arranged that there
should be a grand display of fireworks
in the evening, but about eight o'clock,
through the carelessness of a boy, the
bundle of fireworks, which was deposited
on a platform in the centre of the
grounds, became ignited, and immedi-
ately there was a simultaneous dis-
charge of rockets, Catherine wheels,
Roman candles, coloured fires, &c. For-
tunately, no one was injured by this
unfortunate accident.

The body of David Barrows, who was
drowned at Hamilton last week, was
found at St. Catharines on Saturday
morning.

London, Aug. 1.—The Empress of Aus-

posed intervention to Austria, but the
latter is ready to join the other powers

Postmaster Stefford had his head and

Detroit, Aug. 1.—A fire in Muskegon,
early this morning destroyed, nearly half
of the city. The fire is in the eastern
portion of the city. It is believed that a
number of mills are destroyed. About
ten squares are burned over.

New York, Aug. 3.—It is stated that
Carpenter will be examined before the
Beecher Investigating Committee to-
night. The Committee appear very
anxious that Moulton's statement should
be made before Beecher is examined, but
his whereabouts cannot be ascertained,
and his friends say he will not appear
before the Committee until after Beecher,
at all. At the beginning of the investi-
gation he told the Committee he would
tell what he knew after Beecher and Til-
ton had made their statements, and he
seems determined not to do it before.

New York, Aug. 1.—A report is current
that Frank Moulton sailed for Europe—
to be followed by Woodhull next week.

A Brooklyn paper has hunted up the
genealogy of Theodore Tilton's family to
base an assertion that insanity runs in
the family.

It is stated that Mrs. Tilton, in her ex-
amination before the Committee last
night, said that when Tilton brought the
Woodhulls to their house she tried to in-
duce them to leave, but they would not
go until she sent for the police to make
them. She denied ever making confes-
sion to Susan B. Anthony of criminality
with Beecher.

A Brooklyn paper says the following
letter comes from a friend of Mrs. Tilton,
and the authenticity of it has been de-
monstrated by inspection of the original,
which Mrs. Tilton intrusted for a few
hours to her friend without knowing
what use was to be made of it, but author-
izing him to make any use of it which
could serve truth and justice. It was
written to her by Mr. Beecher immedi-
ately after the publication of the Wood-
hull slanders:—

My dear Mrs. Tilton:—
I hoped you would be shielded from
the knowledge of the great wrong that
has been done to you, and through you
to universal womanhood. I can hardly
bear to speak of it, or allude to a matter
more painful to a pure and womanly na-
ture. I pray daily for you that your
faith fail not. You yourself know the
way and the power of prayer. God has
been your refuge in many sorrows before;
he will now hide you in his pavilion until
the storm be overpast. The rain that
beats down the flower to the earth will
pass by length, and the stem, bent, but
unbroken, will rise again and blossom
as before. Every pure woman on earth
will feel that this wanton and unprovoked
assault reaches to universal womanhood.
Meantime your dear children will love
you with double tenderness, and Theo-
dore, against whom these shafts are
hurled, will hide you in his heart of
hearts. I am glad that this revelation
from the pit has given him a sight of the
danger that was before hidden by specious
appearances and promises of usefulness.
May God keep him in courage in the ar-
duous struggle which he wages against
adversity, and bring him out, though
much tried, like gold seven times tried.
I have not spoken of myself. No words
could express the sharpness and depth of
my sorrow in your behalf. My dear
honored friend, God walks in the fire by
the side of those he loves; and heaven
never regret the discipline which I so
ever it may seem now. May the strain
and turn those poor creatures who have
been given over to do all this sorrowful
harm to those who have deserved no such
treatment at their hands. I commend
you to my mother's God. My dear friend,
may His smile bring light in darkness,
and His love be a perpetual summer to
you.

Very truly yours,
HENRY WARD BEECHER.

The Tribune says:—In the course of
Mrs. Tilton's examination on Friday
night, the incidents of impropriety in Mr.
Beecher's behavior towards Mrs. Tilton,
which Mr. Tilton had alleged had taken
place in his presence, were entered upon.
The statement that Mr. Beecher gave
Mrs. Tilton an improper caress by touch-
ing her ankle, when both were upon the
floor looking at engravings, was denied
by her in particular, besides her general
denial that there had been any improp-
riety. Of the other incident, the so-
called bedroom scene, Mrs. Tilton said
she remembered nothing more than this.
She was sitting with her husband and
Mr. Beecher one day in the bedroom,
which is connected by folding doors with
the common sitting-room in the house of
the Tilttons. Mr. Tilton went away for a
short time, and when he returned he
found Mrs. Tilton and Mr. Beecher in
the same place where he had left them in
this bedroom.

The Old Man in the Stylish Church.

Well, wife, I've been to church to-day—been
to a stylish one.
And seen 'you can't go from home, I'll tell
you what was done;
You would have been surprised to see
what I saw there to-day;
The sisters were fixed up so fine they
hardly bow to pray.

I had on these coarse clothes of mine—not
much the worse for wear.
But, then, they knew I wasn't one they call
a millionaire;
So they led the old man to a seat way
back near the door.
'Twas lookin' and unbuttoned, reserved
seat for the poor.

Pretty soon in came a stranger with gold
rings and clothing that
to a stylish one.
I thought that wasn't exactly right to seat
him up so near.
When he was young and I was old, and very
hard to hear,
But then there's no accountin' for what
some people do.
The finest clothing now-a-days of gets the
"best new"
But when we reach the blessed home, all
modified by sin,
We'll see wealth begging at the gate while
poverty gets in.

I couldn't hear the sermon, I sat so far
away.
So, through the hours of service, I could only
"watch and pray."
Watch the doings of the Christians sitting
near me round about—
Pray that God would make them pure
within as they were pure without.

While I sat there, lookin' all around upon
the rich and great,
I kept thinkin' of the rich man and the

Jobbery on the Intercolonial Railway.

During the late session of Parliament, the Public Accounts Committee brought to light some scandalous jobbery in connection with the contract for section 16 on the Intercolonial Railway, which was given to Messrs. King & Gough through favouritism, the Commissioners having recommended Messrs. Brooks & Ryan, who were contractors of experience, while the firm who obtained had none whatever. But they had the powerful influence of the Hon. Peter Mitchell, who is Mr. Gough's step-father, and who was a member of John A. Macdonald's Government. A sub-committee of the Public Accounts Committee have lately been fully investigating the matter, the evidence taken verbatim is now published, and it lets in the light on one of the most barefaced swindles that was ever perpetrated under the sanction of any Government.

It has been proved beyond a doubt that in order to give the contractors a chance to make money, large reductions were made in the work as originally detailed in the specifications—grades were lowered, masonry and fences dispensed with—and other changes made which, according to the engineer's estimate, reduced the cost of construction \$100,000. But even with all these reductions the work was so far behind that in March last it was taken out of the hands of the contractors. At this time the actual work done was measured, and according to the contract price was found to amount to \$102,000, while the contractors had received \$164,000 for it. Even allowing the contractors full price, without taking into account any of the reductions mentioned, the total value of the work was estimated at \$124,000, so that King & Gough were entitled to no more than they were entitled to in the most favorable mode of calculation. But this is not all. The contractors bribed the engineer to grant certificates for work which had not been done, and the mode of making out the pay sheets showed that a regular system of fraud had been put in operation in the prosecution of the work. In summing up, the Committee report that "large payments of money have been made without the Chief Engineer's certificate; improper pay sheets certified as correct; men returned as employed, and money received for them who were not employed; incorrect certificates of measurements given, and money paid thereon, together with the alleged bribery by the contractor of an officer in the employ of the Government; all matters of such public importance as, in the opinion of your sub-committee, to render necessary further inquiry in the interests of the public service."

A more disgraceful exposure of favoritism, fraud and corruption has not been given to the public for many a day, and the evidence goes to show that the late Government are responsible for all the nefarious transactions in connection with this contract.

The St. Catharines News is publishing a series of articles showing up Mr. Rykert's inconsistency and lack of principle. The sound trouncing Charley received from Mr. McKellar, and his later exhibition of his political character, will go far to put an end to his public career. It is now rumoured that the Quebec Ministry, unable to stand the pressure, will resign, and that the Hon. M. Joly, leader of the Reform Opposition, will be called upon to form a new Ministry. He is well qualified by his integrity and high personal character, as a man, and his talent and ability as a politician, to form a Government.

THE PROVINCIAL LOAN—Some of the Opposition organs are endeavouring to persuade their readers that the sale of Municipal debentures lately made in London by the Provincial Treasurer was the result of the Government being obliged to borrow money in the London market. This is very wide of the truth. The Government did not require to sell these debentures, which they received from the different Municipalities by way of payment of their indebtedness to the Municipal Loan Fund, but acting on the principle that the relations of debtor and creditor between such and the Government should be dissolved as soon as possible, they were disposed of in preference to holding them till they were redeemed, while negotiating their sale. The Government is in no way responsible for them beyond guaranteeing their validity and legality. Municipalities alone are responsible for their payment. The course adopted is far preferable to that of holding them till they would be redeemed, and frees the Government from any more connection with the Municipalities, which will now—save their credit—be obliged to redeem them as they become due—a step which some might have been slow to take had the Government retained the debentures in their hands.

BUSINESS OF THE T. G. & B.—An immense timber trade passed over the line of the Toronto, Grey and Bruce Railway during the present season. It is estimated that over 1,500,000 feet of square timber were shipped over the line to Toronto. Of this amount, some 140,000 feet were sent from Mount Forest stations. The business which was three times greater than last season promises to be largely increased next year.

Formosa.

The island of Formosa, to which Dr. Fraser is being sent by the C. P. Church, and which has been partly conquered by the Japanese, is the most wonderful of the almost unknown tropical lands. It is situated off the eastern coast of China, and contains from three to four millions of inhabitants, among whom are many cannibals. In 1867, Admiral Bell, of the U. S. Navy, attempted to punish two Formosans for piracy practiced upon the crews of the American ship Zouze, which had been wrecked upon the coast, and a British commander gave the inhabitants a dose of shot and shell for the same offence. The recent Japanese expedition was undertaken to avenge the murder of several islanders who were cast ashore on Formosa in December, 1871. The people of Formosa are divided into tribes, some of which owe nominal allegiance to China. Great Britain will not be pleased with the announcement that Germany is preparing to send a colony there.

Canada's Liquor Traffic.

From the report of the Select Committee of the Senate respecting a Prohibitory Liquor Law, we gather that during the last session 633 petitions were presented from Ontario, with 302,090 signatures. Out of 7,877 persons committed to gaol in Ontario during 1872-3, 5,444 were addicted to the use of intoxicating liquors. In the Province of Quebec, for 1872-3, 2,946 out of 4,021 who were sent to gaol were also intemperate. The revenue derived from the liquor traffic in Canada for 1873, was \$3,210,000. In 1873, 91,432,558 lbs. of grain were consumed in the manufacture of spirituous liquors in Canada. The Recorder of Montreal furnishes a statement that 7,753 persons were arrested in 1873 in that city for drunkenness and offences growing out of drunkenness; of this large number 1,017 were females. The above statement shows an increase of 15 per cent. in crime, and 23 per cent. in drunkenness. In the city of Toronto, in 1873, 2,328 males and 624 females were arrested for being drunk and disorderly; the increase in drunk and disorderly being 27 per cent. The same ratio holds good for all the cities and most of the large towns in Canada, and presents a fearful picture. It is shown by magisterial reports that fully one half of the crimes committed are brought about by the influence of intoxicating liquors.

The Corn Corner in Chicago.

New York, Aug. 1.—A special from Chicago gives details of the excitement on the Board of Trade there yesterday, consequent upon a successful corner made in the corn market yesterday. Prices opened at 67c and fell to 63c, then to 62c, when there was a lull, dealers wishing to see the day's receipts. Some prices went to 64c, and when it became known that the corner had contracted for the shipment of 1,021,500 bushels, there was great confusion and uproar. Prices went to 66c, then to 70c, and then to 80c. Large quantities were sold at this price amidst great excitement, one firm alone selling a quarter of a million bushels. The excitement continued, and dealers hastened to Sturge's counting house with receipts for purchases to get their cheques before three o'clock. When three o'clock struck the crowd burst the doors open, claiming the time-piece had been tampered with, but finally the crowd dispersed. It is said large numbers of small dealers will suspend. There were in store 2,059,732 bushels of corn on Thursday, held by the combination, who are said to hold 1,000,000 bushels under control of Chicago and the east. The combination extends from Iowa to New York, and the Bank of Montreal furnishes the funds. The corner in oats was a small affair compared to the corn corner.

Meanwhile Immigration.

The visit of Mr. Wm. Hespeler, in 1872, to the Russo-German Mennonites living on the shores of the Black Sea, combined with the exertions of the Dominion agent, Mr. Jacob E. Klotz, have already resulted in a very large number of those most desirable settlers having arrived in Quebec, and others being on their way to Canada. The agents for the Allen Line at Hamburg, Messrs. Falk & Co., at the beginning of June last received deposits from those Mennonites securing the passage for about 1,300 souls, or 250 families, to Quebec. Mr. Klotz, being notified by the Mennonites of the departure of this first division, proceeded at once to meet them, in order to assist and to guard against undue influence prejudicial to Canada being brought to bear by other agents in Germany. He met about 300 souls, including 250 adults, at Bremen, in Silesia, and safely brought them to Hamburg, notwithstanding the obstacles raised by the authorities at the city of Berlin and the machinations of American agents. This division of immigrants was under the leadership of D. Klaassen and G. Tover, two of the delegates who visited the United States and Canada last summer. They were all forwarded from Hamburg to Liverpool, and have since arrived safely at Quebec. On the 25th of June, Mr. Klotz received a second telegram from Odessa, informing that 140 families were on their way to Hamburg. These he met at the city of Berlin, there being about 600 souls, under the leadership of Henry Weiler, also one of the delegates who visited Canada in 1873. Having secured a special train he brought them all safely to Hamburg. During the 4th and 5th of July another large party arrived, and they were then forwarded in three divisions to Liverpool. They again joined at that port, and sailed per steamer Nova Scotia for Quebec, being in all 159 families or 320 souls. Another letter has been received informing Mr. Klotz that in about two weeks, 40 families of the same division of Mennonites will start for Hamburg. The number of Mennonites forwarded by Mr. Klotz from Hamburg to Canada up to July 14th is—Over 12 years of age, 624; from 12 years down to one year, 422; one year and under, 118; total, 1,164, exclusive of 40 families yet announced as preparing to come.—Globe.

STABBING AFFRAY IN LONDON.—On Friday night last information was laid against a man named Miller by one Schaver, who keeps a machine shop in London, charging Miller with having stolen a quantity of tools from his shop. A description of the man was given to the authorities, and a person answering thereto having made his appearance at the G. V. R. station, he was arrested by Constable Blackwell, who, with the assistance of Constable Kelly, proceeded to take him to the police station. The prisoner offered resistance once or twice on the way up, but nothing of any consequence until opposite the drug store of Dr. Sippi. Here he commenced to wrangle with the officers, Kelly at the time being on his right and Blackwell on his left. In an instant, and without any noticeable exertion on his part, he drew from one of his pockets a large dirk knife, about six inches in length, following it up with a blow at Blackwell's breast, and then at Kelly. Blackwell, unincumbered by the blow, struck at the prisoner with his walking stick, and the

villain in return aimed two or three blows at Kelly, the latter still having a scoured "mudger" which immediately drew a crowd to the scene, and he was then safely removed to the police station. The wounded men were taken to the police station, and medical attendance promptly called in. Shortly after midnight they were removed to their residences, Kelly being exceedingly weak and suffering great pain.

CANADIAN LEAD PENCILS.—Specimen lead pencils are to be seen in Ottawa, made from plumbago of the Buckingham mine. They are of superior quality, something like No. 2 Faber. Mr. Walker has gone to England for the purpose of forming a joint stock company to manufacture plumbago at Buckingham instead of shipping it in a crude state.

The Senate of the University of London, established by the late Lord Brougham when he was simply a potential member of the House of Commons, was lately solicited by a majority of Convocation to apply for a new charter, with power to the University to admit women to degrees. The Senate declined such action by a majority of 17 to 10. Twelve years ago this question had been brought before the Senate and voted down by a majority of 1—the casting vote of Mr. George Grote, the historian of Greece, who was then Chancellor of the University.

Special Notices.

St. Anne, Route de l'Est.
"I WAS FOR SEVERAL YEARS SUFFERING from Cough, Expectoration and Night Sweats, attended with extreme nervous and physical prostration. My body was greatly emaciated, and the general impression was that I had not long to live. I began taking Dr. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALISAYA, and improvement took place immediately. I gained in weight and strength. My Cough and Night Sweats disappeared, and I am now in the enjoyment of excellent health. Many of my friends to whom I have recommended this Elixir have experienced equally remarkable results."

THE GREAT ENGLISH REMEDY.
DR. WILLIAM GRAY'S
Specific Medicine

Before Taking. After Taking.

Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over indulgence in the use of tobacco and alcoholic spirits; but the Specific Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorrhoea, Impotency, and all diseases that follow as a consequence of Self Abuse, as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other Diseases that lead to insanity or consumption, and a Premature Grave, all of which, as a rule, are first caused by deviating from the path of nature and over indulgence.

The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one.

The Specific Medicine is sold by all Druggists at \$1 per package, or six packages for \$5, or will be sent by mail on receipt of the money, by addressing
