LOCAL NEWS PARAPHRASED

The York council met at the court house, Toronto, next Tuesday. It is said that Frank Sumner, C. E., will receive the conservative nomination for the local legislature in West York. The problem of self-help among women is the theme of Mr. Howell's story. A woman's reform, begun in the February Century.

At a meeting of the Press Locomotive club committee last night it was decided that the annual dinner on Saturday night next should commence sharp at 7:30 p. m. The Bill of a Toronto compositor, was arrested yesterday at London on a charge of stealing a value from Donald McKay. The value contained valuables to the extent of \$200.

In the case of Goodwill and Cornell the jury returned the following verdict yesterday. \$300 damages against Cornell and Goodwill, and that Cornell also pay Goodwill \$257.94 on the account.

Wm. Warwick & Sons have now ready the Canadian reprint of The Leisure Hour, Sunday at Home, Boys Own and Girls Own for January. These journals are especially attractive this month.

The Ontario Society of Artists will hold their first convocation on Thursday evening in the normal school. Every effort is being made to make the affair one of the fashionable events of the season.

The regular meeting of the West Presbyterian Young People's association was held last evening. An interesting literary and musical program, one of the finest yet, was rendered and highly appreciated.

A meeting was held at Pope's store, Davenport road, on Monday evening when delegates were appointed to attend the convention to nominate a candidate in the conservative interest for West York in the local house. Mr. Frank Sumner addressed the meeting.

The work of tearing down and rebuilding the premises of Messrs. Kelly & Pettley has commenced in West York. The Golden Griffin is now "turned upside down." The large saloon presents a confused appearance, being crowded with a much smaller compass, and most of the goods have to be covered up to save them from the dust and fallen debris. Business, however, will still be proceeded with, and the proprietors are anxious to clear out as much stock as they can at low figures.

A large audience assembled yesterday afternoon at the lecture of Mr. W. H. Miller, at the hall to hear Mr. Spencer's lecture on the very important and interesting subject—"Marriage." The lecturer was introduced shortly after eight o'clock and spoke for two hours. He clearly described the married state in all its different phases contrasting its advantages and disadvantages with the state of single blessedness. He showed how every one, no matter what his or her temperament may be, can live a happy life when united in the "holy bonds" of matrimony. The lecture was well enjoyed by all and heartily applauded.

"Rough on Bats." Clear out rats, mice, roaches, flies, ants, bed-bugs, kunks, chipmunks, gophers, 15c. Druggists.

Appleton's Encyclopaedia. Having had the use of Appleton's American Encyclopaedia in our university, I have pleasure in recommending the new edition of the same as a valuable work for the general public. The authors of the various articles are men of established reputation in their several departments, and may be regarded as trustworthy authorities. This encyclopaedia has an advantage over some more voluminous and expensive works in the more condensed treatment of the topics discussed, thus admitting of a larger number of articles without the sacrifice of any portion of the information naturally sought for in such books of reference. Those who desire a more elaborate or extensive discussion of any branch of science or literature will prefer to resort, not to an encyclopaedia, but to distinct treatises on the special subjects.

President Victoria University. Victoria University, Cobourg, Canada, Nov. 11, 1881.

Going Home to Die. Dr. Constantines of Toronto arrived here last night to take home a young printer named A. M. Tibert, formerly employed in the Sun composing rooms and lately carrying on business for himself as job printer on McDermott street, but who has been sick for some weeks past, and is now pretty far gone in consumption. Tibert's family want him home; but it is doubtful if he is able to complete the journey.—Winning-Sun.

"Bunions." Quick, complete cure, all annoying kidney, bladder and urinary diseases. \$1. Druggists.

Marriage. Marriage is, of all earthly unions, almost the only one permitting of no change but that of death. It is that engagement in which man exerts his most awful and solemn power—the power of responsibility which belongs to him as one that shall give account—the power of abrogating the right to change, the power of parting with his freedom, the power of doing that which in this world can never be reversed. And yet it is perhaps that relationship which is spoken of most frivolously and entered into most carelessly and wantonly. It is not a union merely between two creatures, it is a union between two spirits; and the intention of that bond is to perfect the nature of both by supplementing their character with the force of contrast giving to each sex those excellencies in which it is naturally deficient; to the one strength of character and firmness of moral will, to the other sympathy, meekness, tenderness. And just as solemn and just as glorious as these are for which the union was contemplated, and intended, just so terrible are the consequences if it be perverted and abused; for there is no earthly relationship which has so much power to enoble and to exalt.

YORK TOWNSHIP COUNCIL

The New Hall at Kelliston—Opening of Bloor Street—Dividing the Township into Wards.

The first meeting was held at Bunkle's hotel, Davisville, on Monday; Duncan, reeve, in the chair, the deputies present being Messrs. Watson, Park, Turner and Frankland. Mr. A. Gibb was absent. The others were duly sworn into office.

After passing several accounts the members proceeded in a body to the new town hall at Eglinton, and formally accepted the building where their next meeting will be held.

A deputation consisting of Messrs D'Arcy Boulton, D. Kennedy, A. M. Smith, etc. were then heard, respecting the opening of Bloor street west to the Humber. The council decided to inspect the street as soon as the weather permits.

The following officers were appointed: Geo. Leslie jr and J. P. Bull auditors, W. Brown and N. Shephard assessors, J. K. Leslie clerk, and W. Jackson treasurer.

Mr. Frank Turner moved: "That whereas several electors of the township of York are desirous of having the township divided into wards for electoral purposes, and that the taxes collected in each ward after paying all general and county rates were applied to such ward respectively for improvements to roads and sidewalks etc. it is resolved that the vote of the ratepayers be taken for or against the division, and that the next general election will be an opportune time to take such vote. This was not seconded and the matter will again be brought up at the next meeting of the full council in order to give electors of Riverside and Seton village an opportunity to express their views on the subject. The council adjourned.

POLICE COURT PENALTIES

A Big Array Before His Worship Yesterday Morning.

Seven drunks appeared before the coroner yesterday morning to receive their sentences.

John Bartram and William Hutchison were up on remand, charged with having burglarized the premises of Agnes Taylor, 327 1/2 Yonge street, to the extent of a number of overcoats and several boxes of cloth. Two other charges were lodged against them, that of stealing several rolls of cloth from W. J. Kelly and some tobacco goods from James H. Bisset.

Mr. Taylor testified that he purchased the cloth from both prisoners at the house of Mrs. McGinley. The prisoners made excuse to him that after they had purchased the cloth they found it to be too light a shade and they therefore wanted to sell it. They were also committed for trial on this charge.

William H. Hart was up on remand on a charge of having embezzled twenty cents from L. Ogden, secretary of the Toronto club. After hearing four pieces of evidence which were brought against the prisoner and also the good character which Alfred Little and Henry C. Lewis gave him the magistrate discharged him.

May Jane Buckley alias Sloan was charged with having stolen a pair of blankets from her husband, Thos. A. Sloan. Sloan stated that he had a wife in England. He brought the prisoner out with him over three years ago, and she afterwards had the cognomen of Mrs. Sloan. Some time ago Sloan and defendant quarreled, and the former took up with another woman. The prisoner was discharged.

William Turner, charged with stealing a hog from Alexander McDougall and Donald Gunn, was remanded until the thirtieth inst. Jas. Day and John Jones were remanded till the 19th. They were charged with having sold liquor without a license.

MR. BAINBRIDGE'S DEBT

In a New York Paper—A Large Congregation.

From the New York Herald.

The Rev. W. S. Bainbridge preached his first sermon as rector of St. George's parish in the church in Gramercy Park. There was a large congregation. The service, with the exception of the scripture lessons and the communion service, was read by the curate. Mr. Bainbridge was as tall as he has been represented, and his towering form, clad in a white surplice as he stood in the pulpit, gave him a most impressive appearance. The style of his delivery is extemporaneous and colloquial, but it has an earnestness and fervor that suggest deep conviction of the truth of that which he teaches, and a real solicitude for the spiritual welfare of those whom he is addressing. The subject of his sermon was the reality of the christian life, and the text selected was I. Timothy, vi., 19—"That they may lay hold of eternal life." In the course of his sermon he said that the apostle Paul had reason to know what it was to lay hold of life, for he had had a large experience. He had lived without reproach as one of the Jewish leaders, and yet in that respect he was forgotten the whole of that ritualistic life was blighted in one hour. The apostle was seeking after a fuller and more satisfactory life. He had the feeling, probably, which was described by the English poet laureate when he said:

"The life which light our nerves are scant;
Oh, life, not death, for which we pant;
More life, and fuller, that I want."

To too many people life was only a means for obtaining more worldly honor, more money, a social station or the gratification of the lower nature. The gospel of God was a message of God's good will to man, and when accepted it satisfied everything that a man craved. These were times when it was needed for christians to ally themselves devotedly to the everlasting grace of God and to all the joy that it would bring, for it was in the love of Christ that man would find eternal satisfaction. The christian life was not a cold, Alpine mist, but a life that touched our life in all its needs, its joys and its sorrows, and it was the greatest power on the side of humanity that the world possessed to-day. It was true that "Christ was in man the hope of glory." With Paul this was a life that possessed him; it was a passion that was needed in the present day, and it was the only power that could truly overcome the world. In speaking of the christian life he said that it was not a mere contemplation, and intended, just so terrible are the consequences if it be perverted and abused; for there is no earthly relationship which has so much power to enoble and to exalt.

BODY SNATCHING IN QUEBEC

A Security of Subjects—Medical Students Under Arrest.

MONTREAL, Jan. 16.—During the past few weeks scarcely a day has passed without some case of graveyard desecration and body snatching being reported from the country parishes near Montreal. The cause of these repeated grave robberies is the fact that in all the dissecting rooms of the city medical colleges, the greatest difficulty is experienced in procuring subjects in the ordinary way. The usual price from \$20 to \$25 (paid) in securing the requisite number, and at the present time from \$40 to \$50 is offered by some of the medical faculties. This dearth of subjects and the liberal remuneration caused the students to go out hunting for corpses themselves. The latest desecration on the dwelling places of the dead is reported at St. Marie, a small village on the Richelieu about fifty miles west of Montreal. On Saturday last two bodies were stolen from the vault in the cemetery. After a long search they were found under cover in a barn two miles away. Two medical students from the St. Marie cemetery after a long search they were found under cover in a barn two miles away. The International Throat and Lung Institute, Toronto and Montreal, is positively the only one in America where diseases of the air passages alone are treated. Cold inhalations are used through the Spirometer, an instrument or inhaler invented by Dr. M. Souville of Paris, ex-aid surgeon of the French army, with proper dietetic, hygienic and constitutional treatment.

Thousands of cases of Catarrh, Laryngitis, Bronchitis, Asthma, Catarrhal Deafness and Consumption have been cured at this institute during the last few years. IRISH AFFAIRS

LONDON, Jan. 16.—A Dublin correspondent says there are two distinct secret societies there. Penalties being the matter were a plot to destroy the lord lieutenant and his escort by bombs thrown from unoccupied houses.

Another arrest in connection with conspiracy to murder has been made. A Canon, Athol Mackenzie, confessor in the case of David, Healy and Quinn, accused of making inflammatory speeches, has been committed and judged on remand. A Catholic priest, J. G. McGinley, in an affidavit sworn to, stated that he had seen a young man, who attempted to deprive the officers of their revolvers. Four of the young men were arrested.

A WORD WITH W. J. C.

(To the Editor of The World.)

Sir,—In last Friday's World W. J. C. asks, What had Henry VIII. to do with Ontario? As if Henry VIII's time was too remote to bring up against present day Catholics. And a little further he says, The Roman catholic church is the same to-day it was eighteen hundred years ago. In other words, it changeth not. Do not these two statements seem contradictory? And as to the zeal of the Roman catholic priests in the cause of Catholicism being a proof of their godliness, it is no very strong proof, when we know that men are often found to be very zealous and preserving in a bad cause. The apostle Paul says as an indocile preacher Christ even of envy and strife. So if men preach Christ even of envy and strife, may not men preach Roman catholic doctrines from the same motives? As to the short lives of the Roman catholic priests, that has no great weight in their favor, when we hear David, King of Israel, say that bloody and deceitful men shall not live out half their days.
