COMMENTS ON THE THUNK.

THE PRESIDENTIAL ELECTION. His Own County.

Indianapolis, Nov. 9.—Official returns from all the presincts show that Gen. Harrison carried the city of Indianapolis by a plurality of 156, the vote being: Harrison, 13, 2006. of 156, the vote being: Harrison, 13, 326; Cleveland, 13,170. Blame carried the city by 625 plurality. Official returns for Marion County including the City of Indianapolis give: Cleveland 17,517, Harrison 17, 139; Cleveland 18,517, Harrison 17, 139; Cleveland 18,517, Harrison 17, 139; Cleveland 18,54.

It is pretty definitely astitled that Gen. Harrison's plurality in Indiana will be about 2500. The official figures on the State will probably not be known for several days yet as only three counties have been received by the Secretary of State. The Democrats concede, however, that the Republican plurality will be about 2500.

Under the old order of things, a late mail was the exception, but now it is the rule. We see that some of our sister nowns to the west of us have, through their municipal councils, petitioned the Grand Trunk authorities to hark back to the old order of things. If Mr. Hickson could use his way clear to carry the mails on a morning train he would undoubtedly contex a great favor on the public generally.

You may preach free trade to the farmers of the prairies, but they will have none of it. And out there your case will be getting worse all the time, instead of better. Some of these days Dakota will be coming in, not as one State mersly, but a two that will be four more than the property of the prairies. We know that for the first sixty years of this century the "solid south" ruled the Union. What reason is there to suppose that the movement works differently now or that progress and protection will not go together progress and protection will not go together in the future, as they have in the past? Non whatever, we should say. Can you honestly affirm that your favourite cause of free trade is gaining in any nation of the first-class—say member, we leave England out; but just tell us what civilized nation is doing anything to den's famous unfulfilled prophecy. REPORT ACCOMPANYING THE MEDAL

Excess of praise is hardly possible when speaking of this new and superbly beautiful design, which is intended to meet the demand for a mage expensive exterior or cabinet, together with a most superbaction. This organ is of most substantial and pleasing proportions, and of a style of finish suitable for any situation. In pleasing balance of proportions, practical utility of form, richness of ornamentation and delicacy of Mr. Walter Donville, late of finish, this instrument will not only compare favorably with London, Eng., is forming a class the best but surpass all organs of any make; while for strength for ladies intending to learn vio- and purity of tone, variety of expression and freedom of action lin playing. A few more pupils it is far in advance of anything yet produced.

SIR HENRY V. GOOLD, Hop. Pres. Society Science, Letters and Art, London, Eng. REV. IRWIN COATES, M.A., Hon. Sec.

This certainly shows that the Musical Bachelors and Doctors of Oxford and Cambridge Universities know something about an organ.

The Musical Opinion and Music Trade Review, published in London, Eng. April 1, 1887, under the heading CANADIAN MUSICAL EXHIBITS AT THE COLINDIES EXHIBITION, has the following:

Referring to Pisite Fortes of Mesers, Heintzman & Co., Dr. Stainer says as follows: "I much regret that, owing to the late period at which I was called upon to make a report, all the more important instruments exhibited by this firm HAD BEEN SOLD AND REMOVED. But those remaining fully justified their high reputation. An Upright Grand, which I examined was in every respect a fine instrument; the touch was sympathetic and had a good repetition; the tone was full aid rich. I also tried a specimen style No. 2, which was equally deserving of unqualified praise."
