GOOD MEN RETURNED FOR PARLIAMENT OF 1912-13

Only Two Members Go In By Acclamation—Many Hard Fights—Dental Representative Wins By One Vote

REFERENDUM CARRIED IN EVERY FACULTY

Small Vote Polled in University College—Wycliffe Gave Closest Decision, 19-16—70 per Cent. of Voters Are in Favour of Student Discipline

REFERENDUM.					
College	Registration	For	Against	Total	% Voted
Arts	754	235	85	320	42.5%
Science	797	307	178	485	61%
Meds	502	164	94	258	51%
Victoria	350	162	33	195	56%
Knox	45	29	7	36	80%
Wycliffe	41	19	16	35	85%
Trinity	125	55	13	68	54%
Dents	215	105	30	135	63%
Forestry	44	22	5	27	61.4%
Total	2873	1098	461	1559	54%

The campaign has been a whirlwind, short but, hard-fought and now it is over. The vote polled was not as large as it should have been, only 54% of the eligible voters exercising their franchise, but on the whole the turn out was good and the members of the new Parliament will be able to say with certainty that they have the student body behind them for the coming year. The candidates were all good men and the small majorities show that none of the members returned had things all their own way. The best fight of the election was in the Dental Faculty where J. I. Kelly nosed out Laverne Pattison by one vote.

One very favorable feature of the campaign was the fact that only two men were allowed to go in without a fight. A larger number of acclamations would have undoubtedly shown that the lack of interest that has been so much in evidence in the past had not yet been overcome.

THE REFERENDUM

The vote on the referendum was very decisive 70% of the voters being in favour of student control of discipline. It is unfortunate that not more than 54% of the men in the University of Toronto were sufficiently interested in a question of such paramount importance as to turn out and poll a vote. Never the less the men who thought about the matter and voted were strongly in favour of the plan and it now rests with the newly elected Parliament to shoulder this additional burden and prove themselves worthy of the trust that has been laid upon them. Just how actively the Parliament will take up the matter this spring it is, of course, too early to state.

President Marshall is delighted with the results of the campaign. "We got out a good deal larger vote on our referendum than is usual in our municipal or provincial election," said Mr. Marshall.

The Parliament stands on a stronger basis than ever before and the coming year should be one of continuous progress.

The change in the attitude of the student body towards the Parliament is the most remarkable feature of the campaign. There is not the slightest doubt now that as individuals and as a whole the newly-elected organization has the entire support and trust of the undergraduates.

The inquiries as to results came pouring into the Varsity office yesterday, and the staff heartily wished that the paper were a daily. To have such important

VARSIETY III. WIN

Defeat of Kingston Collegiate Brings One Hockey Championship Home

The long-neglected Varsity Juniors have brought home the only hockey championship that Varsity can boast this year. The First, the Intermediates playing in two leagues and the O.H.A. Juniors all failed to land the coveted honours; but a total score of 18-13 in the final round the Intercollegiate Juniors triumphed over Kingston Collegiate Institute. Varsity had won the first game last Saturday by 8-6, and for the first half in the return game, played Wednesday night at Kingston, that 2 goals led seemed hardly enough. The Limestone City School boys had the score 2-0 at one period and at the intermission were ahead by 5-3, leaving the total score on the round eleven all.

The second half was a whirlwind exhibition but after a few minutes of play it became evident that the youngsters had no chance to win out against the more experienced Varsity players. Kingston secured two goals but that scoring forward line that had rolled up record scores against St. Mikes, U.C.C., St. Andrew's and Simcoes in the early stages of the O.H.A. race got busy and ran in seven before the final whistle. It was a great game and Kingston Collegiate have every reason to feel proud of the showing they have made this year.

Boulter, the Varsity cover, retired a few minutes before half-time and Baillie was substituted.

The teams were:

Varsity III—Goal, Armstrong; point, Clarkson; cover, Boulton; rover, Reynolds; centre, Milne; left, Gouinlock; right, Sinclair.

K.C.I.—Goal, C. Stewart; point, Brownfield; cover, R. Stewart; rover, Cooke; centre, J. Stewart; right, Milne; left, Williams.

Referee—M. Cartney of Kingston.

ENGINEERING SOCIETY

Open Meeting on To-day—Mr. Gilbreth Will Speak

There is to be an open meeting of the Engineering Society on Sunday afternoon at 4 p.m. in Convocation Hall. They will be addressed by Frank Gilbreth, contractor, of New York on "Scientific Management." Mr. Gilbreth is the originator of this idea and it will be a most interesting meeting, and all interested are cordially invited.

MUCH ADO ABOUT NOTHING

The company presenting "Much Ado About Nothing" under the auspices of the Women's Dramatic Club, held its dress rehearsal last evening in Convocation Hall. The ladies are excellent actresses, and in their gala costumes, they gave promise of big things for to-night.

Previously, the Women's Dramatic Club has delivered all its productions in the Margaret Eaton School of Expression, where they have restricted it to a semi-private affair. But this year, the club decided to make itself more of an University institution, with a broader field, and the outcome is to-night's presentation.

The ladies have gone to great lengths in planning and in working upon this play. They have rehearsed loyally and have had a competent man in charge, and the result is that the production will be entirely free of any amateurishness. The past activities, indeed, have been characterized by the finished quality of the work, and this year, even better is anticipated.

The University students are urged to come and enjoy the play. The ladies can expect no less of you in their worthy endeavor to bring dramatic interests into this institution. And in this, their first offering to the University in general, they should receive your interest and support.

U. C. ATHLETIC ASSOCIATION

The election of officers for University College Athletic Association will take place at the Gym. to-night from 8 to 11 o'clock. The candidates are: Hon. Pres.—L. H. Corbett, M.A. (Accl.); President—W. G. Egbert, G. B. McLaren; Vice-Pres.—H. B. Clark, D. B. Coleman; Sec. Treas.—G. M. Chidley, H. L. Nicholson, H. N. Barry; IV Yr. Councillor—H. V. Hearst, K. E. Burgess, H. H. Wallace, A. F. Teller; III Yr. Councillor—E. B. Code, C. E. Smith, H. J. Reynolds; II Yr. Councillor—H. Crawford, D. Rankin, A. Bryan, H. Aird, E. Ryrrie.

All U.C. men are urged to vote. Those who are not already members may become such on payment of 25 cents.

WATER SUPPLY SYSTEM

Of London, Ont., Explained by Mr. Glaubitz, City Engineer

A little confusion was caused at the start by the belief that the train on which Mr. Glaubitz was to have come, had been delayed and would not arrive until after 5 p.m. Prof. Angus kindly offered to give a talk on the subject, but had just started when Mr. Glaubitz, who had evidently not waited for the train, arrived.

Mr. Glaubitz is City Engineer of London, Ont., and gave a very interesting address on the method of obtaining the water supply, which is from a system of wells. The old method of getting the water from natural springs at Springbank had the disadvantage of causing a water famine every summer and also of falling short of giving an ample supply at times of heavy requirements such as fires, etc.

The new system, which was advocated and exploited by our friend of the Hydro Electric, the Hon. Adam Beck, gives such good service that the citizens save annually in reduced insurance rates, the total initial cost of the plant.

He described very fully the wells distribution and construction, method of laying pipe especially under the new reservoir which is not entirely closed in, the sunlight being admitted through skylights. Pumping equipment, consisting of electric and auxiliary gas engine compressors, raises the water from the wells by compressed air entirely.

The hearty vote of thanks of the meeting was tendered to him by Mr. Ritchie, Vice-President of the Society.

LOST

At the Vic-Dents hockey match at Excelsior rink, a black silk watch-fob with oval buckle bearing the initials O.L.C. Finder please leave at Post Office.

After four hours of discussion the Freshman decides not to vote at all.

CANVASSING.

To the powerful freshman
All the great men go,
Bending like the willow
When the wind doth blow.

In his regal presence
All before him fall,
Begging for his influence
And his vote withal.

ANNOUNCEMENTS

In East Hall on Monday, March 11, at 8 p.m., the "Modern Language Club" will present the German comedies "Er ist nicht eifersuchtig" and "Die Schuleriterin."

The Annual Meeting of the Victoria College Athletic Association will be held in the Common Rooms, Friday March 8, at 3 p.m. Important business awaits attention.

There are a number of subscribers to the Settlement who have not yet paid up. Would the delinquents remedy this omission as soon as possible. Remittances may be made to A. S. Sibbald, University Y.M.C.A.

A meeting of the class of 1915 of Victoria College will be held in Room 39, Friday, March 8, at 4 p.m. Every member of the class is urged to attend, as the elections for the Bob Committee will be an important feature of the meeting.

COMING EVENTS

Mar. 8—Women's Dramatic Club, "Much Ado About Nothing."
8—U.C.A. Elections, Gym. 8 p.m.
11—Modern Language Club—German Comedies.

ATHLETIC DIRECTORATE

Nominations Are In For Next Year's Board—Elections Tuesday

The Secretary of the Athletic Association has received ten nominations for membership on the Athletic Directorate for next year. These names will be brought before an electoral body composed of representatives from each of the different faculties, colleges and athletic clubs in the University and from them the five undergraduate members of the Directorate will be chosen.

The list of men nominated is—G. Mel Brock, B. M. Frith, A. M. German, O. E. Finch, F. J. Livingston, W. C. Laird, 'Jeff' Taylor, W. E. Brown, Herb. Taylor, Jack Maynard.

The first three men are members of last year's directorate.

He in conscious greatness
Holds aloft his mace,
Smiling grandly on them,
As they state their Case.
Hours and hours they stay there,
Old Lit and his foe,
Begging, Begging, Begging,
Waiting for the blow.
Oh what raptures banished!
Oh what feelings queer!
As the great man answers,
"I'll not vote this year."

TORONTO, MARCH 8, 1912

THE ELECTIONS

To our new Parliament, heartiest greetings! This has been a contest of remarkable import. Never before was there such a keen interest in the elections to the Parliament, and the outcome of the referendum on the question of student control of discipline will be a guide for years to the legislators of our central organization.

Parliament stands in a position immeasurably stronger than ever before. The calibre of the men nominated, the vigour of the campaign, and the narrow margins by which the majority of the new members were elected insures a body of representatives whose handling of student affairs in the coming year will be truly effective. However, the task ahead of our legislators is no easy one. Theirs will be the problem of connecting up a latent college spirit with institutions which have been neglected. They must do more than to make two blades grow where one grew before. No blade whatever has yet shown itself in our field of finances, and yet as a revenue of considerable magnitude is essential to the progress of the Parliament, the money must be found. There are numerous defects to be made right in the agreements between the Parliament and the various activities which it controls. The question of a permanent Secretary to take over all routine duties and to extend the power and influence of undergraduate publications merits very careful consideration. Such a man is sadly needed, and yet finances will not at present allow his employment. Considerations of time quite necessitate the adoption of more expeditious methods of dealing with routine business. A system of standing committees would probably prove the most satisfactory innovation.

The referendum, it will be seen, meet with the approval of the student body. The vote, proportionally, of seven to three in favour is indicative of a growing sense of responsibility which, under the new Parliament, should grow into a wonderful University spirit. True, the fact that only 54% of the students so entitled voted is a disappointment, but the majority is so overwhelmingly in favour of student control that the Parliament will have to set about immediately to devise a final plan for the approval of the electorate.

The light vote on the referendum may be put down to several causes, greatest of which, despite the earnest efforts of the present Parliament to make itself clear, was the general indifference of hundreds of students. They did not know what the Parliament had been doing, and did not take pains to enlighten themselves. The lack of fourth year candidates caused a great falling off in the votes polled in the graduating years, and the counter attraction of a big Mining Engineers' convention drew away a hundred or more Science men.

Natural conservatism, the belief that the Parliament was not strong enough to assume the powers of discipline, and an unwillingness to vote for a change not fully understood, were the reasons for the 30% vote against student discipline. There is little opposition to the principle of student control, but the details of a plan of government which a great many did not care to undertake stood as an immovable barrier before them.

However, under the strong body which

the students have elected, possessing as it does a greater degree of respect and prestige than any previous Parliament, a broad, democratic plan of government may gradually be evolved. It may take time, but success is assured in the end if the students maintain the present degree of trust in their own powers.

Who will be the President of the newly elected body? The outgoing Parliament must exercise great care, for on their choice will depend to a very great extent the fortunes of their successors in the coming year.

A man of tact, judgment and untiring energy must be found.

The inspiration of a leader is all that the new organization needs to make this term a grand success.

The University of Toronto has entered upon a new era of attainment. The development of a mighty college spirit is dependent largely upon the activities of our new legislators. May they rise nobly to their responsibilities!

And on the very morning of the publication of the results of this, the greatest election in years, we receive a letter, published below, from a graduate of '06, inquiring about the college spirit at "Old Varsity." With what pride we can reply to our graduate that we have done in the past couple of weeks what had long been despaired of; that our central organization has practically been put on its feet, the best men in all faculties elected, and a definite answer given to the question of responsibility. We are not to stop here. In the course of the next few years there will be a wonderful expansion of college spirit. With our new Union the University will become more united and progressive, the social institutions will gain prestige, relations with the men outside the University will be strengthened, and an organization Campaign having as its object the unifying of the graduate and undergraduate bodies will be launched. We look rather far into the future, perhaps, but the temper of the present undergraduate body is sufficient basis for our hopes.

The success which this year has brought us will in turn engender success. Our University is coming into a larger sphere of activity and usefulness.

ONLOOKER'S CORNER

Autumn is usually associated with a sad sense of farewell to something you loved,—a sense of departure into a lonely, dead period. You, yourself, think of This mood whenever you think of October. And yet, in actual fact, no such mood exists for you, a student, in the merry months of Autumn. October is characterized by a certain happy excitement; you are at the beginning of a year of brisk action. All the melancholy musings of poets on the subject seems utter rubbish, as you begin to plan your brilliant career for the coming eight months.

But now is the autumn. Now, when sap is beginning to mount, when birds begin to sing, is the period when a universal sadness comes over you all, and you feel in your hearts a sense of coming calamity and wintry chill.

They take April, May and part of June from us. They take the joy of Spring from us. It would be all right, perhaps, to take the glow of Spring away from old men—but we are Youth! It is a crime.

Yes, I speak of examinations. Of the revenge that men take on Youth, because men are growing old. In their frenzy at that thought, they try to destroy ours, because theirs is dead. For remember, a man is not a different creature, a perfect human; he is only a worn-out boy.

Let us take hold of these wayward men, and show them how to attune human action to Nature's moods. Examinations, criminal trials, and modern religious services should be held in the fall. Terms, music, dances and games should have set apart for them lovely May.

It is too late this year to revolt against the men. But see to it, before you are entirely crushed, that Man can no longer dominate the limitless kingdom of Boy.

THE ONLOOKER.

CORRESPONDENCE

FROM A GRAD. OF '06.

To the Editor of the Varsity,

Dear Sir:—I note in the March number of "The Fra", Elbert Hubbard's monthly a quotation ascribed to President Hadley of Yale, as follows:

"The best thing the young man gets in college is the college spirit. The graduate

of a university is forever a brother to all who go, have gone, or will go to the university.

We speak of the college as our 'mater' or mother. The university that best fosters the college spirit, or bond of fellowship, other things being equal, is the greatest.

I have been wondering if this spirit here spoken of is more developed and more pronounced than half a dozen years ago in our "Alma Mater." At that time there was a general awakening to the fact that the college spirit or "esprit de corps," I think it was usually named, was a vital factor but one which was distinctly lacking in our college life. The class of '07, I think did more to awaken the college to a sense of this void than any other year. But the want was still unsupplied when last I was connected with U. of T. directly. Since then contact with students and

KNOX COLLEGE

Election craze is in the air. It's here, its there, its everywhere. Spirit of elections in the air? Yes even old Knox has become saturated with it. Some say Knox has been rudely awakened from her peaceful and orthodox ways. Others stand upon the shore of the old order dreaming dreams and seeing visions. They estimate the temperature of the water and consider the volume of the hilly waves undecided whether, in the face of possible difficulties, to plunge for a new shore offering brighter prospects or to bask in the sunshine where they are. Yet, again there are others who have become intoxicated with the spirit of progress that neither orthodox ways nor rolling waves can bridle them. These few enthusiasts have dubbed themselves the "Protestant party."

During the last week there has been great excitement over these three parties. Things came to a climax Tuesday night, however, when the Literary Society elections were held. The result is that four out of the seven members on the executive for the coming year are "Protestants". The results were somewhat of a surprise to many.

At 10.30 all the students assembled into Class room 1 where a tasty lunch was provided. The successful candidates, including G. A. McDonald, the president, made speeches and with one accord said "I will serve the Literary Society to the best of my ability."

A committee has been appointed to consider the advisability of starting a Knox College Journal. There is a consensus of opinion in favour of this new departure and it is certain that able men will be chosen and the journal made a great success.

There was considerable excitement manifested over the Parliament elections. The successful candidate is a graduate of Queen's University and somewhat of an orator having made a very good showing in the University Oratory Contest. We have every assurance that he will be of valuable assistance in the Parliament of the Undergraduates.

Within a month the men in theology will have completed their academic year and will be scattered over the Dominion as "sky-pilots." They are at the present time settling down to hard work preparing themselves for the searching tests in April.

FACULTY OF FORESTRY

Spring, and after Exams, Field Work is already in sight. So far none of the men who are going west in the Forest Service have been notified of their appointment and nobody, even heads of parties, knows where he is to go. If the government could announce who are to go and where, it would simplify matters all 'round.

Dr. Watts' First Aid lecture on Wednesday, always interesting, was especially so on Wednesday. He had dealt with Apoplexy and Epilepsy, and coming to Hysteria remarked, "most cases occur in young females, and as for treatment, don't sympathise with her too much—you may have it recurring every 15 minutes". The doctor also made a plea for broad mindedness, "Don't always call a man drunk, because he is insensible and his breath smells of Whisky. The stimulant may have been administered by misguided friends, for faintness."

WYCLIFFE COLLEGE

Friday evening was quite a theological evening at the Lit. The Freshmen and Seniors discussed, from the academic point of view, the union of Wycliffe and Trinity. The Judge was a graduate of King's College, Windsor. The Freshmen, upholding the negative side, won.

A magnificent picture "The Resurrection Morning" has been presented to the College.

We regret that the Adonis of the College, in the person of W. J. Taylor, is in great danger of losing his beauty, as his nose was broken by a hockey puck on Tuesday afternoon. He is progressing favourably.

The subject for debate on Friday night will be "Home Rule." Personalities are out of order.

A dazed, bewildered and awestricken air on the faces of some of the men betokens the advent of Prof. Dyson Hague. After all, the lecture room would be a very dull place, if it were not for adjectives.

APPLIED SCIENCE

The 2nd Year defeated the freshies in a fast and furious game of Hockey, this being the fourth game, thus winning the Loudon Shield, put up by T. R. Loudon, Honorary President of the Second Year. The series throughout was played with good feelings on both sides and much praise is due to the 1st Year, on account of the good sportsmanship displayed. It is to be hoped that the idea of inter-year series will be carried on. Catto starred for the 1st Year and of the Second Year Miller and Owens did excellent work.

Second Year line-up:—McDonald, Cameron, Miller, Owens, Edwards, Cavers, Maxwell.

First Year line-up:—McGie, Rice, Elliot Catto, Smith, Heinson, Gould.

Bill Brown of Arts was an efficient referee.

Election cards and canvassers have been in evidence for the last few days. Cigarettes as yet have not put in an appearance.

"Have you got a job for the summer." is second to the elections in interest around the School, as one 3rd year man defined it, "now you look for a job once a year and when you graduate its oftener."

New 4th Year motto—"Ad Hades cum sapientia." The new pins of the graduating class will bear this "Faciles decensus Arencie."

Elections are all the talk around the drafting room now. It looks as though Dutch MacPherson will get in by Acc. for president of third year. For the Civil and Architect vice-presidency, P. L. Fancher and F. Rutherford are both popular men, and for the Mechanical and Electrical vice-presidency, H. Black, E. Courtrice, A. S. Robertson and M. P. Verity are in the field. Varsity athletic representative is likely to be filled by C. V. Perry.

Members of the fourth year will be glad to know that the recent research undertaken by Dr. Kelvin Steinmetz in connection with the reclamation of western desert lands through the agency of a new system of fertilization, has been crowned with great success. Details have not as yet been published but in an informal address he explained that the manufacture of oxalene could be placed upon a thoroughly commercial basis in the near future. Samples of the new compound are on view in the fourth year lab. It is understood that the Doctor will proceed at once to Arizona to take charge of certain work for the United States Reclamation Service.

VICTORIA COLLEGE

The meeting of the Lit on Saturday night will be specially interesting on account of the election of 3rd and 4th year representatives on the Bob Committee. There is a large field of candidates and the election will be keenly contested.

The Y.M.C.A. elections held on Tuesday resulted in the bringing forward of an usually good executive. Every man is a sound "good, all-round head." and the Y. should enjoy an unprecedented year of prosperity and success.

HABITUAL HIGH-BROW

Blue papers forebode psychic blueness; yet, as I fill out mine, and hand it back, my cheek does not blanch with apprehension, nor does the pen 'slip from my nerveless grasp.' After all, what would College Life be without examinations? There would be then no Library, no Greek, no—Union! Speak it low.

The snow is gone from underneath, and the few roads of board-walk were soft to my feet as I approached this morning. There will be less snow, and more walks, and there will be sunlight and thunderstorms. There will be evenings, long evenings, at the College Street Library, to be followed by a stroll in the brightness of Yonge Street, and perhaps a cup of coffee at the Baltimore. And, somewhat later, the long-extended vigil, for lo! tomorrow is The Day.

Life, they say, is sensation; and there is an examination sensation as well as a sense of smell. There is the agony of finality, the joy of things accomplished; and if you fail—exams. are no test. Easy it is to bribe the conscience when the fight is o'er and lost. The High-brow has started to work.

**"Breakfast is
Ready!"**

You don't believe it—but it must be true, for the house is filled with the pleasant aroma of something good to eat. You don't believe any one could prepare breakfast in so short a time. Of course it's a

Shredded Wheat

BREAKFAST

the kind that's so easily and quickly prepared and so appetizing and nourishing. Shredded Wheat is ready-cooked, ready-to-serve. For breakfast heat the biscuit in oven to restore its crispness, then pour hot milk over it, adding a little cream. Salt or sweeten to suit the taste. Nothing so warming and satisfying and nothing so easy to prepare.

**SYNOPSIS OF CANADIAN NORTH-
WEST LAND REGULATIONS.**

ANY person who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.
Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.
In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$8.00 per acre.
Duties.—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homesteader's patent) and cultivate fifty acres extra.
A homesteader who has exhausted his homestead right and cannot obtain a pre-emption entry for a purchased homestead in certain districts. Price \$8.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$800.00.

W. W. CORY,

Deputy of the Minister of the Interior.

N.B.—Unauthorised publication of this advertisement will not be paid for.

The Royal Military College of Canada

THERE are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government institution, designed primarily for the purpose of giving instruction in all branches of military science to cadets and officers of the Canadian Militia. In fact it corresponds to Woolwich and Sandhurst.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis the cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and in addition, the constant practice of gymnastics, drills, and outdoor exercises of all kinds, ensures health and excellent physical condition.

Commissions in all branches of the Imperial service and Canadian Permanent Force are offered annually.

The diploma of graduation, is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulations of the Law Society of Ontario, it obtains the same examinations as a B.A. degree.

The length of the course is three years, in three terms of 9 1/2 months each.

The total cost of the course, including board, uniform, instructional material, and all extras, is about \$800.

The annual competitive examination for admission to the College, takes place in May of each year, at the headquarters of the several military districts.

For full particulars regarding this examination and for any other information, application should be made to the Secretary of the Militia Council, Ottawa, Ont.; or to the Commandant, Royal Military College, Kingston, Ont.

Correspondence—Continued

Continued from Page 2.

organizations of students from Harvard, Yale, Bowdoin, Dartmouth, Princeton, and other American colleges has brought home the sense of something lacking in our U of T. life, as never before. Class spirit, and college spirit are the outstanding factors of life in the American colleges.

Is the absence of this in Toronto, the reason, that that great University, one of the greatest if not the greatest in point of numbers of the student body, on the North American continent, is less known in the Eastern states than some of our Canadian prep. schools?

It seems too bad to have to explain, even to well informed Americans here, when one is classed as a graduate of our great University, what that University is, and what it stands for among educational institutions on this continent. I think the development of a full measure of this "college spirit" of which President Hadley speaks, would do much to obviate that necessity.

Is anything being done in these latter days to that end?

If so, would it be too much to ask you, or some of your distinguished contemporaries to advise me as to the progress of the movement, with any suggestions as to how an "Old Grad." might assist in the movement. Very truly yours,

R. W. McNEEL.
(Toronto '06, Arts)

Boston Press Club,
Boston, Mass.

COLLEGE SERMON

Will be Held in Convocation Hall—Dr. Eakin Will Preach

The Varsity would again call to the attention of University students, the Annual College Sermon Series in Convocation Hall. The installation of the new organ, the use of the coming University Hymnal and the increasing ease in securing preachers of outstanding merit should combine to give these services a very large place in the academic side of life in Toronto. This year the average attendance has been fully 1325.

On Sunday morning next Dr. Thomas Eakin will deliver the sermon. Dr. Eakin is one of the most influential of the younger graduates of the University and is widely known amongst the student body as one of the clergymen of New St. Andrew's Church and as lecturer in Semitics at Varsity. Those who are present on Sunday morning should hear from him a forceful and scholarly sermon. He will be assisted in the service by Prof. Robertson of Victoria.

UNIVERSITY COLLEGE

There are echoes of a very exciting personal conflict which took place in one of the corridors several days ago. Meagre details bring forth the fact that J. H. Pedley got into an altercation with the junior member of the post-office staff. Loungers in the Rotunda will now understand why the younger post-masters have been singing, "The post-office can lick them all."

First Freshette—Did you say your friend was a Knox man?

Second Freshette—No, knocks, please. We are all very glad to see Basil Frith back again to lectures. He has quite recovered from his operation for appendicitis.

It has been reported on good authority that Harry J. R. paid for a game in the Union the other day. On enquiry at the Colonel's office the incident was found to have slipped the latter's memory. "Stew" McKeough is to be congratulated for managing the Junior Intercollegiate Hockey team so successfully and well.

E. J. Reynolds (Fat) is already arranging with Scotty up at the Stadium to have a little house built for him at one corner of the centre hockey cushion where he can eat and sleep during next winter's skating-season. It will be so much handier.

Loy Sifton was around on Wednesday renewing acquaintances before leaving for Moose Jaw for good. We are all sorry to hear that Loy will have to give up his course and wish him every success in his new field. His valuable services will be missed on the rugby team in the fall.

Because of the baneful influence of divorces over the students, the Nevada legislature recently seriously considered the removal of the University of Nevada from Reno to Carson City.

GOOD MEN RETURNED

Continued from Page 1.

news remain unpublished for a day went sadly against the grain of the newspaper men.

The last meeting of the outgoing Parliament will be held on Monday next. A week later there will be a joint meeting of the retiring and incoming bodies, at which the officers will be elected.

The first meeting of the new Parliament will be held about the 25th inst. Already considerable business is accumulating, and duties will be pressing from the very beginning.

TRINITY COLLEGE

On Tuesday afternoon Trinity and McMaster played an exhibition basketball match in Trinity Gym. The visitors worked well together, excelling in combination and shooting, and won easily 49-24. Trinity seemed lost in the first half, scoring but 8 points, but in the second half they held the visitors down to 20 points, while they scored 16 themselves. Mel Brock refereed very satisfactorily.

Trinity line up—Centre, Wilkes; forwards, Boddy (16), Willis (8); backs, Hatley, Matheson.

SCHOOL ORCHESTRA

Elects Officers for Coming Year—Musical Committee Next Year

Wednesday the school orchestra elected an executive to carry on the good work next year as Jack Temple the organizer and B. M., being in his IV year may be far away from the "scene of action." Everyone admits that the band has been so successful that it should become a permanent institution and the executive appointed to carry on the work, are: Hon. Pres.—C. H. C. Wright; Chairman and B. M.—Harry Leach (II yr.); Assistants—T. VanDyke (II yr.) and C. Johnston (I yr.). Any one of these men are competent to take charge of the orchestra and now that it is established it will keep on growing in efficiency.

The band now boasts of about twenty members and their final appearance for this term will be on election night in the Gym. Friday, March 15.

Next year the School will have a Musical Committee composed of a member of the Octette, the leader of the Orchestra and a member of the executive of the engineering society and these three will direct the musical programme of the School for the season.

LIT. ELECTIONS

Tonight is one of the best that the year brings around for University College. The elections are to take place this evening and the old Gym. will be ablaze with light and excitement. Scores of sweater clad rough house artists will be there, fighting for sandwiches, fighting for the possession of a certain platform, fighting for the privilege of voting, in fact fighting for any old thing that presents an excuse.

Down stairs the perspiring organizers will be shouting orders to cabmen, quarrelling with their opponents, telephoning delinquents, chatting with rejuvenated graduates, smoking, and drinking coffee all at one and the same time.

The open mouthed freshman hardly knows what the excitement is all about but he knows that he is having the time of his young life and he will come again.

FROM THE VARSITY OF THIRTY YEARS AGO

HEATING PLANT FAILS!

During the recent cold weather the reading-rooms were so badly heated that Residence men were forced to read in their rooms, and many others to leave the reading-rooms and go home. Now that the weather has got warm again, we expect to have full steam on all day.

THINKERS!

One of the big guns of the Fourth Year in Metaphysics says that the number of thinkers in the world is very small, but that the number of men who think that they are great thinkers is very large.

Motorist—Shall I pass any hotel on this road where I can get a little something to drink?

Student—Hanged if I know, sir. I'm blamed sure I wouldn't.—*Jack O' Lantern.*

STUDENTS' EYES AND THEIR NEEDS

University men and women should be very particular about their eyes. If vision is poor, or reading tires, or eye-strain is suspected, the matter should be looked into at once and a remedy found: Time and nervous energy should not be wasted in student days.

Don't let matters simply take their course—do something—the finest service is at your command at the "Potter" optical house. Call if you will and Mr. Petry will advise with you—will answer your questions freely and help in every possible way.

Let him test your eyes and supply glasses—the test will be conducted with the utmost care and accuracy, and the glasses will be made as well as it is possible to make them anywhere.

There is a discount to students from the regular prices (twenty per cent.) which you may as well have.
