The copy filmed here has been reproduced thanks to the generosity of:

Metropolitan Toronto Library
Canadian History Department

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Metropolitan Toronto Library
Canadian History Department

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

TORONTO was founded by Governor Simcoe in 1794 and was given the name of York, by which title it was known until its incorporation as a city in 1834, when it received the Iroquois name it now bears as the capital city of the Province of Ontario. At that date its population numbered less than ten thousand, but the energy and public spirit of her people fostered a phenomenal growth, and the present population is estimated at 175,000.

Beautifully situated on the north shore of Lake Ontario, surrounded with lovely natural scenery, ornamented with charming public parks, with broad shady streets, elegant substantial buildings, important educational institutions, and hundreds of houses of worship, Toronto is more than ordinarily attractive and may duly lay claim to the title of "The Queen City of Canada."

The climate, tempered by the breezes of Lake Ontario, is salubrious and delightful, and renders Toronto an excellent resort in summer. The bay is protected by the island from heavy currents and has become a great meeting place for all kinds of aquatic sports. Many steamers and ferryboats ply between the city and the parks and groves in the vicinity, notably Hanlon's Point, the people's resort. Lorne Park is about fourteen miles west of the city, a delightful piece of woodland. Steamers make frequent trips to it, as also to Long Branch, Victoria Park, and the Humber River. High Park lies at the western terminus of the Queen Street car line, while Queen's Park, Horticultural Gardens and other breathing spots are found in the heart of the city.

As recently as ten years ago Toronto was far more distinguished as a literary and educational centre than for manufactures. Upon the adoption by the Canadian Government of a policy of protection in 1878, an era of industrial activity however set in, which soon made Toronto an important seat of manufacture. Her shrewd merchants and capitalists had before this tapped the more recently settled and growing regions northeast and northwest of the city by narrow-gauge railways, which have largely added to the trade and, together with the great trunk lines, have made Toronto one of the great railway centres of the continent.
