

SPRING SUIT TIME

THE kind of weather we have had these last few days is what we call a good business tonic. Spring suit time is here and so are the suits, from ten dollars to thirty-eight, and a host of beautiful fabrics and patterns to select from. We are satisfied that our Collegian models for young men are the best in town and just as full of snap and vim as it's possible for tailors' art and skill to make them. Then, too, we have a way of taking care of our customers that makes fast friends of them for all time.

LONG LIST OF AMENDMENTS DEFEATED IN THE LEGISLATURE

Opposition Was Armed With All Kinds of Proposals on Assessment Reform, Local Option and Other Questions, But They All Met the Same Fate.

The government Assessment Act, which has been passed by the committee stage of the legislature yesterday afternoon and withstood on all its important features a galling fire of opposition criticism. Mr. Rowell and all his loyal henchmen arrived in the house armed with a carefully allotted series of amendments calculated to answer the appeal of the people for tax reform as they heard it, and these, one after one, held the attention of the members for a few moments before falling into the basket. The range outlined was literally from Dan to Beersheba in assessment matters and included proposals to tax the lands of the E. N. O. Railway Commission, which were not in actual session, the alleviation of the general exemption in Northern Ontario, the exemption from taxation of those parcels whose income does not exceed \$500 from all sources, and the policy of local option.

One of the more interesting moments of a rather dull sitting, however, occurred when another radical reformer sprang from the government ranks in the person of R. R. Gagey of Manitowish. Rising at a moment when interest was gently simmering, he brought out a brand new policy and endorsed it in vigorous language as the taxation gospel he was prepared to support. Next year he hoped to bring in a bill, and he took this opportunity to prepare the house for what was in store.

Tax Every Man.
"Let every man be taxed for what he is worth," was the main tenor, and in direct conjunction was the plea that every wealthy man especially should be assessed on every dollar that he possessed.

"The present system is all wrong," he declared. "We are not getting half enough from the rich men of Ontario. Why should men like J. C. Eaton or Senator Cox get off as lightly as they do? Under the present law they do not pay a tithe of what they should."

This sentiment aroused applause from all parts of the floor, and particularly from Allan Studholme, the labor man, who pounded quite heartily. He succeeded in showing the working out of his idea, the member from Manitowish stated that if under a system of returning a voucher of his worth to the government yearly, a man lied about it, he should be penalized by a doubling of his tax the following year, and the tripling of it after that. Further, one worth \$50,000 should pay at a higher rate than one worth \$3000, similarly a man with half a million should pay double the rate of one with \$50,000.

This would naturally entail a revised collection method, but as for any special treatment for the north, he considered it absurd in that people there were fully as able to pay their way as in the older parts of the province.

The idea of taxing the T. N. O. lands did not meet with the favor of the government and the provincial secretary showed why it was an unfair suggestion. The full knowledge of the house on affairs as they existed should be established before anything of the kind should be contemplated, and of these, none, even himself, were fully seized. There had been contributions to at least two hospitals and schools of different kinds, in the mind of the chairman of more than equivalent value which the amendment would introduce. It was eminently an unfair project.

All Defeated.
The fall of this presaged the fate of all the other amendments, and in succession they were defeated on division. T. R. Mayberry of Oxford was the next member to bring forward a suggestion, and this was that if the income of a householder does not exceed \$600 from investments, he should be entirely exempted from taxation. This was naturally supported on the plea of the high cost of living, and the burdens which the support of a modern family laid upon the head of a family. The raising of the limit to \$400 was too small to be of any special value to a party who had a meagre source of income beyond his daily labors.

Z. Maceau's amendment that special privileges be granted to Nipissing, Timiskaming and other districts to the north by the assessment of improved land at the rate of unimproved and the erection of buildings and residences under the same meaning was not well received by the house.

Should Be Uniform.
Hon. Mr. Hanna pointed out that the measure was in contravention to the general attitude of the government, and that the province should be taxed on the same basis throughout. York County and any in New Ontario were subject to the same conditions and as such should be similarly treated. The application of the assessment should be uniform in character.

Mr. Rowell in rising to speak, included in a gentle jibe at the appearance of yet another tax reformer of radical notions in the government ranks. It showed that all were not of the same opinion as their leader, and this was borne out by the statements of Mr. Hanna and Mr. Gagey on some

points of agreement. Without doubt the people of the north were bound to benefit, and the amendment would receive a welcome all thru these newer districts to the north and west.

Local Option Appeal.
It was left to J. C. Elliott of West Middlesex, the deputy of the Liberals, to bring in the familiar local option appeal. It was, to be sure, guised somewhat differently, but the character was not changed, and the indifference of the members showed that it was settled for the year.

The sponsor explained it as giving the power to the council of any municipality to pass a bylaw that land and real estate should be assessed at actual value and incomes at a percentage of the actual value, with the provision that in the first year of its enforcement improvements and income be not reduced by more than forty per cent.

It was urged that boards of trade and other organizations had put themselves upon record as favoring it, and that there was a cry for it from many quarters. If government members would vote as some had expressed themselves the amendment would carry. It, however, was thrown out with the others and the bill went to its third reading.

Age is Reduced.
Earlier in the afternoon an important change was made in the act pertaining to neglected children by Hon. Mr. Hanna. The clause which fixed the age of children allowed to work on the street or engage in street occupation at twelve years was changed to ten. This was explained by the fact that a large number of newspaper circulation managers felt the original restriction a mistake and ruled out a class of boys who were earning money. The new arrangement will in no way conflict with the time for children to be off the streets at night.

A "hardy annual" was the manner in which Evan Fraser of Welland described his measure to establish the science of optometry in the province. It had been up on several occasions and had always failed, but he thought that the government should take steps

He withdrew it, however, on the statement of Sir James Whitney that before the session closed he hoped to be able to say something which would make such bills unnecessary.

Wants to Know.
Allan Studholme, wanted to know by what authority Prof. Sacco, the Italian immigration agent, had said to "The World" that he had tried Englishmen and Poles, but that both were inferior to Italians as workmen. The minister of agriculture promised an immediate enquiry into the matter.

Among the bills introduced at the afternoon sitting were: To provide a chief coroner for Hamilton, to prevent fraud and perjury and a registry and land title act, all by the attorney-general.

THEY WANT ROADS AND MORE LIGHTS

Spadina Ratepayers' Requests Will Be Considered in Two Weeks.

FOUR THOUSAND TREES

Councillor Miller Will Give Them Away to Those Who Call.

The Spadina Ratepayers held a meeting Wednesday night to agitate for road improvement and electric light in their section. Councillors Miller and Graham, who were present by special request, told them that the council meant to deal with road improvement in a comprehensive manner in about two weeks, when the whole council would inspect all the roads throughout the township and decide what would be done during the year in each district.

With regard to electric light, Councillor Miller advised the ratepayers present to submit a largely signed petition to the Hydro-Electric Commission and assured them of the council's support in every way possible.

Messrs. Miller & Son have presented property owners in the township with 4000 shade trees, which will be given to anyone who calls for them while they last. This is just another instance of the wholehearted interest displayed by Councillor Miller in everything affecting the welfare and happiness of the electors he represents.

The matter of street naming and numbering has been a somewhat vexed question, as the township council has not yet the necessary legal power to change the names of streets. At present the only way out is for the residents on streets that have name similar to city streets, to hold meetings, decide on a new name and make the change themselves. Residents on Waterford street held a meeting last night for this purpose, as there is a Waterford street in the city, that has been causing no end of trouble and confusion in the district.

The township assessors are getting along rapidly with their work, and have advanced valuations considerably. The total increase is expected to work out about fifteen per cent. additional.

The council meeting on Monday will be quite as strenuous as usual. Quite a number of deputations are expected and Reeve Syme has a big batch of special business which would almost justify a special meeting.

NORTH TORONTO.
The North End Citizens' Association will meet tomorrow night to discuss transportation. Ald. Morley S. Wickett will speak on his pet theory of "Street Cars on the Loop Improvement Basis."

TODMORDEN.
At 2.30 yesterday afternoon the remains of the late William Wilson of Plains road, Todmorden, were laid to rest in the St. James Cemetery, Todmorden. Mr. Wilson was born in England in 1819, and had been a resident in the Todmorden district for over thirty years. He was well known throughout the district and will be missed by a large number of friends and acquaintances.

SUTTON.
Talking to The World last night regarding the power question, Reeve A. E. Pugsley said: "We are considering the installation of a lighting system, but the matter has not yet reached a stage where it necessitates tenders for power supply. It is a hydro and the Metropolitan area is concerned. I am sure as favorable to the one as the other and would be inclined to take the best proposition offered."

Questioned regarding the Hon. Adam Beck's new bill compelling a vote on supply, Mr. Pugsley said: "That's only right. I think we would take a vote in any case."

WARD SEVEN.
Worcester Lodge No. 47, Sons of England, held a very successful open meeting last night in the Sheppard Block, Dundas st., when the members and their friends were entertained to a euchre party in St. James' Hall. Nearly 100 were present, and refreshments were served at the close of the playing.

The first game of the junior interschool girls' basketball series was played yesterday afternoon at the Annette Street School, when Palmerston avenue juniors defeated the home team. The senior teams of the same two schools play here on Monday afternoon.

The young people of St. John's Church held a bazaar and indoor game night. The auditorium was tastefully and brightly decorated with spring flowers and bunting and the many pretty booths, containing fancy articles and numerous home-made delicacies for sale, were in charge of bevy of young ladies. An excellent program rendered in promenade was a feature of the evening. The bazaar and entertainment will be repeated tonight.

W. S. B. Armstrong, secretary of the City Guild, gave an interesting lecture, illustrated with lantern slides, on "Slum Conditions and the Housing Problem" in the High Park Avenue Methodist Sunday School last evening. The lecture was a series given under the auspices of the class for the study of social problems.

The first meeting of the Runnymede Literary and Debating Society, held in the library building on Welland avenue last night, took the form of a debate, when the old, old subject, "Resolved, that the Franchise be Extended to Women," was discussed. Messrs. Modron and College supported the suffragettes and Messrs. Southall and Dunant backed the anti's.

WHOLESALE GROCERS SHOULD NOT SELL DIRECT TO STORES

Retailers Think They Should Be Left to Handle Trade With Consumers—Parcels Post Is Opposed—D. W. Clark Re-Elected President.

That the wholesale grocers in the province should not sell goods to co-operative stores, hotels and railway companies, that all groceries to consumers should come thru retailers, was the contention of the Ontario Retail Grocers' Association at its meeting in the King Edward Hotel yesterday afternoon. Hugh Blain, of the Eby, Blain Company, was asked by several retailers regarding the present system of disposing of goods direct to hotels, railway companies and co-operative stores. He replied that he did not think that wholesalers should sell to co-operative stores at all. He was absolutely against this, as they acted in opposition to retailers, and he thought it would be a good step for the wholesalers to stop the practice. In his opinion all such trade should be handled by retail merchants.

A resolution opposing the proposed parcels post system was drawn up and will be sent to the postmaster-general. It stated that if parcels post were inaugurated in Canada, it would be injurious to the grocers' trade.

Pay Every Two Weeks.
The association believed that railway companies and large corporations should pay their employees every two weeks instead of monthly. It was claimed that grocery bills owed by these employees extended one month and therefore ran up too high, and if wages came every two weeks, it would tend to induce cash purchasing by customers. A resolution will be sent to the Canadian Manufacturers' Association with the request that they use their influence to attain the desired result.

D. W. Clark of Toronto was re-elected president; John Diprose of London, 2nd vice-president; Wm. C. Miller of Toronto, secretary; and Thomas Shaw of London, treasurer. J. A. McIntosh of Hamilton was elected 2nd vice-president, and F. W. Ford of Ottawa, 3rd vice-president. The Toronto convention was chosen as the place for the next convention.

J. J. WARD'S SON DEAD.
Succumbed to Consumption Last Night at His Father's Home.

Mr. James D. Ward, son of former Controller J. J. Ward, died last night at his father's residence, 183 Close avenue, from consumption after an illness of two months.

The late Mr. Ward was born in Toronto years ago and had lived here all his life. He was in business for himself as a grocer at 128 1/2 West Queen street. He was a member of Holy Family Church. He organized and managed the Ward Marathon race.

Mr. Ward had been married about eighteen months, and his widow and the little girl survive.

Nerves on Edge Every Sound Annoys

Weak, worn-out nerves keep one in a constant state of irritability and excitement. The eyes are sensitive to light, and every noise jars on the overwrought nervous system.

If children are about they are a constant source of annoyance and irritation. Every door seems to slam, and a little extra excitement or exertion leads to wakeful nights, nervous headache or indigestion.

In this condition women are likely to be hysterical, and suffer greatly at regular periods. The nerves must be nourished back to normal by such treatment as Dr. Chase's Nerve Food. Being gentle and natural in action,

this food cure is highly prized by women, and used with most remarkable results in building up the broken-down nerve cells.

In a few days after beginning this treatment you will find yourself resting and sleeping naturally and taking your food with greater relish. As vigor is restored to the system it will be apparent in improved complexion and building up of the tissues of the body.

With the nerves revitalized the organs of the body resume their natural functions, and weakness and disease give way to new hope and confidence, new vigor and health.

NO FRANCHISE FOR OTTAWA

Dominion Lacrosse Association Will Not Expand—Still Talking Commission—Reserved Lists.

An executive meeting of the Dominion Lacrosse Association was held yesterday in the Prince George Hotel and all the magnates of the Big Four attended. Jones and Lionel York were also present representing the coast interests. The formation of a commission was taken up and Mr. Jones was instructed to take the matter up with New Westminster and report later. If they do not wish to come in the agreement made at the annual meeting will still stand good. It was decided to set aside \$200 as a fund to secure a trophy that will be given to the winning team every year.

The application of Alex. Bannerman for a franchise for a team in Ottawa was refused on the grounds that it would necessitate the formation of a five team league, which would force the teams to lay off once every three weeks. Mr. Caron of the Nationals worked very hard to have the capital city admitted, but, altho the meeting would have been pleased to consider a six team league, he was forced to admit that outside of Ottawa no other club had any possible chance of compiling a team.

The reserved lists of players will not be posted until Mr. Jones has arrived at Vancouver and some intimation received as to the feeling of the New Englanders. General business reports were taken up and an idea was put forward that will be acted upon in the near future to introduce the game more thoroughly amongst the youngsters.

LACROSSE GOSSIP.

The district committee of the Ontario Amateur Lacrosse Association will meet in about ten days to make the first draft of districts and all clubs intending to compete any series are requested to send the names and club colors to the secretary of the association as early as possible. Each club is also asked to advise the secretary of the association of the best possible arrangement may be made to save traveling expenses and delays.

The committee would like the names of good practical lacrosse men who are competent to act as referees and the various clubs by furnishing the names of first-class men worthy of a great favor, as is the intention to appoint a board of referees and all clubs intending to compete should be ready to supply information asked for will be a great help towards rapid progress.

The only division where interest in Canada's national games does not seem to be flagging is the C.R.A. of Owen Sound. With Blaney McGuireville, which was one of the best towns on the map for lacrosse, and Tom Neve Sound, this ought to be a hotbed for lacrosse. Get busy and let Orangeville Sound be heard from.

Lindsay lacrosse enthusiasts do not doubt they have overtopped Staley and market Talagons and are now located in their town. Try again, Lindsay.

Why don't Uxbridge and Cannington speak up? With Stouffville and Markham now organized and ready for battle these other two towns would make a compact district and have little expense.

The reorganization of the Brantford Lacrosse Club has been effected and an intermediate team will be put in the field landing the championship. There is a large amount of material there. The officers are: President, J. S. Rowe; second vice-president, W. J. Hamburg; first vice-president, F. Kelly; secretary-treasurer, W. J. Kelly; manager, Ed. Slattery; coach, can and A. Plovac.

WANTS BOXING ASSOCIATION

Athlete From Glasgow Suggests Controlling Body For Amateurs Like in Old Country.

To the Sporting Editor of The World: I notice the Judean Boxing Club has a grievance, evidently well grounded, according to the letter from a former officer of that club which appeared in the daily press. When we came to this country a year ago and ascertained that there was no boxing association as at home our surprise was natural.

In Scotland the Scottish Boxing Association issues the credentials, gives associations and passes judgment on a man who may be charged with an offence like Mr. M. Freeman's. In England and France there are also the boxing associations, that have full charge of boxing among amateurs in these countries.

I pride myself in being both a boxer (lightweight) and runner (one mile) of some merit. But there was no opportunity to participate in athletics except at one given by a business house that I only learned was open when too late to prepare. I did not familiarise myself with the boxing competitions as I did not like the conditions, so I am still a maiden Scot in Canadian boxing and running.

The point I am coming to is: You have an Athletic Association that does not give athletics and boxing tournaments with no governing body in that line of sport.

Trusting that I have not transgressed too greatly upon your space and that if you see fit to publish these thoughts good may result and that the Athletics

PRESIDENT SATISFIED.

President J. J. McCaffery telephoned home after the opening game yesterday at Newark that he was satisfied with the performance of his team, that he is still looking for material to strengthen. Two spectacular fielding feats saved the game for the Indians, who are stronger than ever before and playing in mid-season form.

FEATHERWEIGHT CHAMPIONSHIP.

LOS ANGELES, Cal., April 17.—Articles of agreement for the featherweight championship Kilbane-Dundee fight at Vernon April 29 were signed today by the fighters' managers. It was agreed the men should weigh 125 pounds at 9.15 in the ring 15 minutes later. The champion's manager said a fight with Jim Driscoll, the featherweight champion of England, was in prospect if Kilbane won from Dundee.

BOXING OFFICIALS.

The committee in charge of the boxing championships have been fortunate in securing a splendid list of officials as the following list of gentlemen, who have consented to act at the boxing championships at the Arena on Monday, Tuesday and Wednesday—evenings of next week, will testify. All of these gentlemen have had large experience in this class of sport. Referee, W. A. Howitt; timekeeper, J. D. Bailey; medical examiner, Dr. J. W. Barton; clerk of scales, Wm. Toronto Curlers Hold Enthusiastic Reunion With Many Notables in Attendance.

The 75th anniversary of the organization of the Toronto Curling Club was fittingly celebrated last night at the Victoria parlors, when about one hundred members and friends attended with President E. T. Lightbourne in the chair. Among those present were Messrs. M. Rawlinson, Grant; C. C. James, Queen City; J. J. Brennan, Lakeview; J. Anthony, Parkdale; R. Hicks, Peterboro; Sir John Willson, Rev. Dr. Padley and T. H. Brunton of the Ontario Curling Association.

The principal speeches were made by these gentlemen, and altogether an enjoyable evening was spent. Among the members present were John Bain, who joined 35 years ago, and Beverly Jones, 30 years.

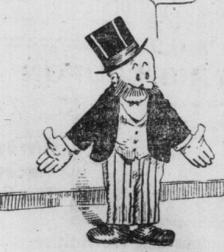

BROADVIEW Y. BUSINESS MEN TO MEET WEST END.

On Friday evening at Broadview Y. M. C. A. their Business Men's Club will entertain the same organization from the West End Y. M. C. A. in basketball and bowling. Last week the former club bumped West End in basketball, the score being 24 to 18. Two teams will be down on Friday night with West End and two exciting games are assured the spectators. Broadviews are going very strong at present, judging from the enthusiasm displayed at last night's practice, and the boys from the West End will have to get the limit to get away with the game.

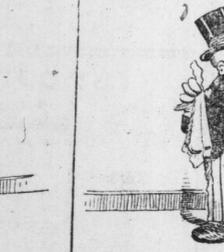

In bowling Broadviews will have their strongest line-up, including Walton, Park, Davies, Frost, Elder, Black. Visitors to the Broadviews are welcome at any time and it is expected that a big crowd will be on hand Friday evening to see the doings.

Birthday Greetings to Arthur A. Irwin

Arthur A. Irwin, business manager of the New York Americans, and one of the best known officials in baseball, was born in Toronto, Ont., April 14, 1888. Irwin is one of the few old-time players still connected with the game who has seen organized baseball grow from a small number of struggling teams to a dozen of organized leagues covering the entire country.

During his many years of service on the diamond, Arthur has in turn been a star player, a first-class manager, a college baseball coach and a successful scout. It is perhaps as a scout for the Highlanders that he is best known to the present generation of fans, for it has been said that he discovered a larger number of minor leaguers who have made good in the big show than any other major league scout.

As a player Irwin holds the unique record of being the only man who played on pennant-winning teams in the old American Association, the National League and the ill-starred Players' League.

Prospects are bright for a good lacrosse club for Kingston. Letters have been received from the Ontario Amateur Lacrosse Association stating that Prescott and Cardinal are very anxious to enter a team with Kingston and other places of Eastern Ontario.

Look For Good Racing on Kentucky Tracks—Four Hundred Horses Ready For the Work.

LEXINGTON, Ky., April 17.—With the opening of the spring meeting of the Kentucky Association here, which marks the beginning of the spring and summer racing season in Kentucky, less than two weeks off, the 400 thoroughbreds quartered at the association track are being put thru their final round of training preparatory to what looks to be the most prosperous racing season that Kentucky has enjoyed in years.

During the past two weeks numerous strings of horses have arrived from Juarez and Charleston tracks, among them being the racers of J. F. Newman, out of nine starts at Charleston, Mr. S. Harrison, with Bonanza and Winnie and Green B. Morris, with Console and Kiva; John B. Madden's string, including Bernardotte, under the care of Morehead, Moore, Goldie, James Everman, K. Abadie and W. F. Schuitze. Training Treavey will come up from Louisville with Hawkeye, James Everman's favorite for the Kentucky Derby, which he will race in the Blue Grass Stakes on May 2. Morris' string includes Foundation, Lord Marshall and seven other Derby candidates. This race includes majority of the best starters in the Churchill Downs classic, and is regarded this year as a pretty good forecast into the great Derby. H. Carrott, with the horses of H. K. Knapp and F. R. Hitchcock, will also ship to Lexington from Alken, St. James, and St. James Stakes on May 2. Morris' private assistant, Harry Payne Whitney, who has been wintering the runners at Harry Payne Whitney's private training grounds, will also ship to Lexington, and will be in charge of the training of the youngsters daily. Trainers and owners were somewhat dissatisfied with the work of Cassidy, and feel that Morrisey will deliver the goods. Gene Elrod, who will handle the betting on Kentucky tracks this season, is also here making arrangements for the mutuels for the meeting.

Kim Patterson has shipped to Havre de Grace with his string of four two-year-olds, which he has wintered at the Lexington track this season. William Scully, a Lexington horseman, who has recently entered the racing game, has also gone to the Maryland track with four good year-olds, Molina, Venus, Chaconne and Intermediate. Richard Benson of Kansas City, acting for James Butler, is in Lexington looking over the 22 yearling thoroughbreds recently purchased by Mr. Butler from the estate of James R. Cooney, his brother, in good condition, and will leave them at Kingston Stud in care of Miss Elizabeth Dalgnerfield, indefinitely.

E. A. Gray, master of Idle Hour farm, and one of the foremost turfmen in Kentucky, has gone to Chicago, accompanied by Mrs. Bradley, to attend the grand ball at the Del Prado Hotel, which is owned by Mr. Bradley. His horses, expected here within the next few days, have been making extensive preparations for her big "society" race meeting, which she will hold at her country home near Chicago on April 24. Mrs. Gray is making extensive preparations for the Land of Flowers, have arrived for the purpose of enlarging and redecorating the social feature, some very good horses racing, mixed in with amateur events, is promised.

BURLESQUERS IN REAL BASEBALL

The game played at Bayville Park yesterday morning between the Monte Carlo Club of the Star and the World of Pleasure Co. of the Gaiety resulted in victory for the actors from the Star by a score of 21 to 8.

The batting of the game was the heavy hitting of the Star team when they once solved the mystery of the Gaiety pitcher, Manager Sullivan drove one far into the bay.

OPPOSE LICENSE FOR BROCKTON
Men's Association Endorse Action Taken by Rev. Lawrence Skye.
A meeting of St. Paul's Methodist Church Men's Association was held on Tuesday night at which about 250 members were present, representing the various sections of the city. Resolutions were passed, representing the association, namely, that all the men's clubs and associations in connection with the church of various denominations favor a federation whereby united action may be taken on questions of moral and social reform, and on any questions affecting the moral welfare of the city, by the combined association, and this meeting strongly endorses the action now being taken by Rev. Lawrence Skye and the St. Ann's Association in endeavoring to prevent a renewal of the liquor license to the Brockton Club.

FURTHER RESTRICTION ON STOCK EXCHANGES
WASHINGTON, April 17.—(Can. Press.)—The incorporation of stock exchanges, listing securities of interstate corporations under penalty of being barred from the use of the mails and telegraph services, is proposed in a bill introduced today by Representative Neely of Kansas, a member of the Pujo money trust investigating committee. The bill would impose severe penalties on stock exchange officials, brokers or telegraph companies who transmit information in violation of the bill. It also states any business of an unincorporated exchange, and would give the postmaster-general authority to regulate transactions on stock exchanges, with particular prohibitions against "wash sales" and other manipulative transactions.

PEARL NECKLACES

The pearl necklace is a dictator of fashion at the present time. It must be visible upon the uncovered throat, which is the position that best suits the white lustre of the gems, and because it does not cling very tightly to the neck and drooping, it is more comfortable and day-time rock must be cut low, and that of the evening rock still lower, in the season.

Some valuable vacant land on the hill north of Sir Henry Pellatt's new residence has changed hands at \$115 a foot. It consists of 161 feet 5 inches frontage on Nina street by a depth of 120 feet. The sale price for the whole place was \$18,516. The vendor was John Butler of Woodstock and the purchaser J. Baker, a builder. Messrs. Winward & Co., real estate dealers, were the exclusive agents for the property.

DALY HOUSE IS SOLD

NO LICENSES FOR TOWN OF BRAMPTON

Commissioners Refused to Grant Petitions of Two Hotel Proprietors.

ROADS ARE VERY BAD

One Citizen Used Cans and Ashes to Fill in Holes.

BRAMPTON, April 17.—There will be no licenses issued in Brampton for 1913-14. Such was the action of the license commissioners when they met yesterday afternoon at the court house. Acting on the supposition that when the three years had expired there might be a chance for renewing licenses, the proprietors of the Graham House and the Royal Hotel had petitions signed and representatives present at the meeting. Rev. Dr. Long and E. P. Justin, K.C., looked after the interests of the temperance people. The local option bylaw was submitted three years ago and carried by a majority, but quashed on a technicality. Hon. Mr. Hanna refused to grant licenses. A year later the anti-brewery bill was passed. Since then Brampton has been under no-license law. The probability of a contest will be brought on next January. In the meantime, the agitation for county prohibition has taken the form of a largely signed petition for submitting the Canada Temperance Act. Representatives from Toronto Township were present to protest against the granting of licenses in Meadowvale, but were not pressing enough in their demands. Licenses were granted in Meadowvale, Streetsville, Cooksville and Port Credit. The license board consists of Messrs. E. Jamieson of Inglewood, J. McFall of Bolton, and W. Ware of Port Credit. Some of the main roads in town are in a deplorable condition, and so bad in some places that one of the citizens deposited his tomato cans and garbage in a hole in the middle of the road and covered it with ashes. This is a desperate state of affairs and complaints have been made to the authorities in this instance. Increasing traffic in the town is increasing the greenhouse area. A gang of 30 men are at present at work on the land adjacent to the new Rosedale survey, pushing the work to completion. The estate has 20 acres under glass, and with the new sections being built, will give the largest area under glass of any cut-flower industry on the continent.

HON. W.S. FIELDING AT KINGSTON

KINGSTON, April 17.—(Special)—Hon. W. S. Fielding, former minister of finance, is spending a brief vacation in the city as the guest of relatives, and will return to Ottawa on Saturday.

Where Your Profits Come In...

"Parkway Heights" is the one place in Welland where the men who are making \$3,000 to \$25,000 a year are going to live. It is the one place in Welland where the best homes must be erected in the coming years.

As the fine, big factories are built in Welland, the presidents, vice-presidents, general managers and superintendents must BUILD their homes, because there are no suitable houses to be rented in Welland. The city is growing too fast.

Naturally they will go to "Parkway Heights," the exclusive, attractive, high-class section.

Such men expect to pay from \$1,000 to \$2,000 for a lot in such a choice location. You can buy such lots NOW for \$200 to \$450. Surely you see the wonderful opportunity for making money in "Parkway Heights."

The Choicest Investment Property in Canada To-day

Put on the Market by a Company which has made Thousands of Dollars for its Clients

We are offering, in the PARKWAY HEIGHTS property, the finest land proposition ever handled in Welland. Every bank and business house in Welland knows the Laughlin Realty, Limited. We have sold many acres of valuable land—MORE THAN HALF OF IT TO WELLAND PEOPLE. The land which we placed on the market the last two years is building up rapidly. Much of it has changed owners several times, each at a good profit. We have made a success of every real estate proposition we have ever handled, and have made thousands of dollars for our customers.

The manufacturers of Welland are running their factories at a lower rate of expense than in any other city or town in Canada. They are making money. Welland is growing faster than any other city in the Dominion, so much so that people are leaving the old residential quarter to build their new homes in the beautiful wooded heights known as "PARKWAY HEIGHTS." Manufacturers and other business people will build houses there, either for themselves or to hold at A. No. 1 investments.

But seven minutes' walk from the business centre of Welland, "PARKWAY HEIGHTS" is reached through wide and well graded avenues. All modern conveniences are available. Sewers, gas, electric light and water are available. Street cars are to be extended immediately.

The Directors of this Company are also Directors of Welland's Street Railway, and this property, the choicest in Welland, and on which Welland's most industrial citizens are to have their homes, is going to have all the influence there is to make it as ideally comfortable and convenient as it is naturally beautiful. The land is of high elevation, and there is a beautiful wooded ravine running through the centre of the property.

Lots range from \$200 to \$450 each, according to location; though these prices are subject to increase each thirty days. Payments are on easy terms if desired, and arrangement can be effected whereby the purchase of these lots can be made without feeling the slightest inconvenience financially. Let us show you the plan. "PARKWAY HEIGHTS" is one of the best investments in Canada to-day. Sign the coupon and mail to us now.

Why Welland Is Attracting Capital and Investors

Seven Railways and the Welland Canal make Welland an ideal freight centre. The Government is expending fifty million dollars in widening and deepening the canal, commencing this year. This completed, Welland will be an unrivalled port on the Canadian waterways, with unsurpassed facilities for shipping.

Eighty per cent. of the entire population of Canada reside within a radius of 500 miles of Welland. The great cities of New York, Pittsburgh, Boston, Buffalo, Rochester, Chicago and others are also within an easy day's travel.

Welland, situated within 12 miles of Niagara, is served with unlimited cheap power—\$10 to \$15 per horse-power per year. Light is equally cheap, as Welland is the centre of the great gas belt. Gas costs but 30 cents per thousand for domestic purposes and 12 cents per thousand to manufacturers.

In four years the population of Welland has quadrupled itself. The large manufacturing interests located and locating there assures a still more rapid growth.

ONE MAN KILLED AND THREE HURT

Trains Collided Early Yesterday in Yards at Spadina Avenue.

CREW WAS IN CABOOSE

Investigation Will Be Opened by Terminal Superintendent Today.

When a G. T. R. train, running caboose foremost, crashed into the side of an eastbound freight train in the G. T. R. yards at the foot of Spadina avenue early yesterday morning brakeman J. J. Neil of Palmerston, Ont., was instantly killed and three other members of the crew very seriously injured. L. A. Shea, conductor, and G. Kelly, brakeman, were removed to Grace Hospital and will recover. Engineer Neil, brother of the unfortunate brakeman, was also slightly injured.

The accident occurred on the diamond in the yards. The Palmerston train, consisting of the engine and caboose, was backing westward from the Don to Bathurst street. It crashed broadside into a transfer train which was crossing into the C. P. R. yards. The three men were riding on the caboose. Neil on the platform and the other two inside, when the van crumpled up against the side of the freight train. It could not be ascertained who was responsible for the accident last night. Terminal Superintendent George Stokes will open an investigation today. Coroner Dr. Hopkins opened an inquest into the death of Neil at the morgue last night and adjourned until April 21.

Twenty-Five Durhams Disposed of at Very Good Prices.

ST. MARY'S, April 17.—(Special)—A deputation from the South Perth Agricultural Society met a special committee of the town council and decided to ask for tenders for the present fair grounds. The grounds are high and dry, situated a short distance south of the old G.T.R. town station.

The firemen were called out to extinguish a small blaze on the C.P.R. siding, south of the Thames Quarry, on Monday evening. It is supposed the sparks from a passing engine ignited some of the grass and fencing on the siding.

A young lad, falling from Embro, was in town recently in destitute circumstances. He was cared for by a friend here and later went out into the country and was arrested by the St. Mary's chief, charged with stealing from a farmer in Blanshard.

Here's a Secret

THESE people own this Automobile. Nobody thought they had money enough to buy one. Yet here it is; it's a beauty, and they own it.

On a Sunday morning they strike out over new country, laughing and chatting away. They are always finding new roads and new delights; they are always coming up over the edge of the world and discovering new wonders.

How did they get a machine like this, and how can you get one?

Here is the secret:

They know that an Automobile is supposed to depreciate 50 per cent. in price after the first year. But they also know that it doesn't depreciate anywhere near that amount in actual value.

So they began looking for a used car. A car that was still better in service than it was in price.

And they kept looking through the columns of Automobiles For Sale in the Want Ad columns of this paper.

They kept answering ads and investigating cars that other people were obliged to sell.

And finally they found just the car they wanted at just the price they wanted to pay.

Then they fixed it up a little, and now they go honking all over this country, just enjoying every minute of the time. They use it for everything from a baby buggy to a dray. And they're happy, confounded! they're the happiest people you have ever seen.

Did it ever occur to you that in the Want Ads of this paper there are always a lot of bargains like this—that there is always a chance for you to get an automobile in the same way?

Thousands of used machines are being sold every year. And machines that are being sold in this part of the country are advertised right in the Want Ads of the paper you are reading now.

Better begin trying to find your machine.

And when you answer these Ads please mention this paper. That will help us both.
