TARIFF TREATY SHADOW ESTIMATES EXCEED \$10,000,000 DIMS ONTARIO'S BUDGET

Col. Matheson Sees Men- ace to Development of Province in Measure of Reciprocity — Opposition Objects to Classing Pro- ceeds of Crown Land Sales as Current Revenue.

Clear in statement and serious in
tone, was the budget speech, delivered
by Hon. Col. Matheson, provincial
treasurer, before the Ontario Legisla-
ture yesterday afternoon. The serious
tone was owing entirely to the crisis
in regard to the trade of Ontario and
the Dominion caused by the projected
reciprocity agreement with the United
States.

Hon. Col. Matheson congratulated
the legislature and province upon an-
other very successful year. The cur-
rent account showed receipts of \$8-
881,004.68; expenditure, \$8,887,520.09,
leaving a balance of \$3404.59. This bal-
ance might have been made considerably
larger by a little book-keeping.

The receipts had exceeded the esti-
mates, except subsidies which are
fixed and the T. & N. O. Railway.
Others were much in excess of the
estimates. The increase aggregated
\$890,000, while the decrease in the T. &
N. O. of \$205,000, left the increase an
aggregate of \$485,000 over the estimate.

It was very satisfactory to note the
promptness with which executives had
paid the succession duties.

In spite of the spread of local option
the brewers' licenses fees amounted to
\$5000.

The decrease in the net earnings of
the T. & N. O. Railway were accounted
for by the large additional amount ex-
pended in connection with mainte-
nance of railway. This outlay entailed
increased expenditures of \$164,-
000, the wage schedule was also in-
creased to correspond with that of the
Grand Trunk and the C. P. R.

The T. & N. O. carried 770,000 pas-
sengers, without one passenger's life
being lost.

The charge against the T. & N. O.
for the current year was for the Porcu-
pine extension. It would cost \$30
million in length, and would cost
\$15,000 a mile. There was already a
very large traffic going out from
Kelso.

Fed by Northwest.

Negotiations were in progress with
the Grand Trunk Railway by which,
when the extension north was com-
pleted the T. & N. O. would share in
the G. T. R. traffic.

Such expectations were not disap-
pointed by the reciprocity agreement the
T. & N. O. would pay its way in two or
three years.

According to such leading C. P. R.
officials Mr. Whyte of Winnipeg, upon
the proposed agreement the tendency
of the northwest traffic would be
southward. That would divert the
northwest traffic from Ontario
and would result in great loss to
Ontario and Quebec by trade going
by Minneapolis and Chicago.

In re-building the west wing of the
Parliament Buildings the government
had provided additional 52 rooms. The
10,000 square feet of extra floor space,
figured at \$150 a foot rental as is
charged for good office buildings, pro-
viding light and heat, should be con-
sidered a good investment.

The new north wing and library cost
\$300,000 and provided 41,000 square feet
of floor space.

Spent \$2,000,000 on Hydro.

Two million one hundred thousand
dollars had been spent on the hydro-
electric system. In some respects it
has cost more than was estimated on
the original plan. The development of
the whole original scheme will be built
within the estimates given to the
municipalities and the municipalities
will get the benefit of the rates prom-
ised from all over the province come
requests for the extension of the ser-
vice, and down in the eastern part
of the province and in Port Arthur
district extensions will be made.

The whole system, without striving
to drive out the other power com-
panies, has compelled them to reduce
their prices to a more reasonable fig-
ure.

Col. Matheson declared it was odd
that the Dominion Government had
not given the Dominion Board of Rail-
way Commissioners power to regulate
the prices which power companies
should charge.

Test of Policy.

"The only real and supreme test as
to whether we have done well or not
is to be noted in the development of
the province. The government has
opened the north country, completed
the T. & N. O. Railway, and have
practically completed the hydro-elec-
tric system.

WARREN'S GIVEN TO DEPARTMENT OF FINANCE

Methods Adopted in Organi- zation of Farmers' Bank Set Forth in Return of Corre- spondence Brought Down in House of Commons—Man- ager of Branch Complained.

OTTAWA, Feb. 2.—A voluminous re-
turn was presented to parliament to-
day by Mr. Fielding at the request of
Mr. Foster, composed of correspondence
which reached the finance de-
partment relating to the transactions
of the Farmers' Bank. The return re-
fers to the warnings given as to the
methods adopted in organizing the in-
stitution. The later letters deal with
various transactions of the bank.

On Oct. 8, 1909, Legation McCarthy
wrote to Mr. Fielding, the manager
of subscribers to the shares of the
Farmers' Bank would dispute the
bonafide character of the subscrip-
tions. "Grave conditions have arisen,"
he said, "which require careful con-
sideration before the treasury board
grants any certificate for the organi-
zation of this bank. In a subsequent
letter dated Oct. 29, Mr. McCarthy
again wrote the minister of finance,
formally asking that the treasury
board stay any action on the appli-
cation of the Farmers' Bank for a
certificate. "I have received informa-
tion," he said, "that the alleged
subscribers for shares paid a sum of
money in cash and have signed notes
for a large sum of money, and that
the persons making the payment in
the name of the bank have transferred
the notes and received the proceeds,
and that the deposit either has been
made or will be made of the cash and
the proceeds of the notes for a suffi-
cient amount to make up \$250,000."

MANITOBA BOUNDARIES

Premier Roblin and Hon. R. Rogers
Confer With Laurier and Fielding.

OTTAWA, Feb. 2.—(Special)—Prem-
ier Roblin and Hon. R. Rogers, Rog-
ers of Manitoba had a conference this
evening with Sir Wilfrid Laurier
and Hon. W. S. Fielding on the
question of the extension of bound-
aries of the province. The conference
lasted for two hours and was adjourn-
ed until to-morrow afternoon. After
the conference, Mr. Roblin stated that
they had discussed the old proposed
definition of the boundaries and the
financial consideration, but had not
reached an agreement.

THE TRIPLE ALLIANCE

M. Pichon Insists That Entente Was
Never More Effective Than Now.

PARIS, Feb. 2.—Several of the
French newspapers have been insist-
ing almost daily that the triple alliance
between France, Russia and Great Brit-
ain is almost a dead letter.

M. Pichon, minister of foreign af-
fairs, in the senate to-day says that
the entente was never so complete or
productive of results as it is to-day.

It was charged, he said, that Russia
had left her ally in the dark with re-
gard to the historic interview between
Emperor Nicholas and Emperor Wil-
liam at Potsdam last November. This,
he said, was untrue. Russia not only
informed France before hand of the
subjects which were to be discussed,
namely, Persia and the Turko-Persian
railroad, but kept France posted daily
on all that transpired at the meetings.

M. Pichon, in conclusion, said he
could affirm from the point of view of
the interests of France and interna-
tional peace that France had nothing
to regret in the matter of this inter-
view.

A FORMIDABLE INDICTMENT

Russian Minister of Marine Charged
With Diverting Credits.

ST. PETERSBURG, Feb. 2.—The
duke of the meeting of the national defence
has drawn up a formidable indictment,
charging the ministry of marine with
diverting the credits voted in 1908-09
for torpedo boats and submarines for
the issue of the certificates and there-
fore withdrawn, he concluded. On Nov.
27, 1908, W. R. Travers applied for a
certificate for the bank, enclosing the
required declaration of assets showing
\$578,200 of subscribed stock and
\$291,210 as the amount paid up.

Mr. Boville thereupon referred the
application to E. L. Newcombe, deputy
minister of justice, and the latter re-
plied that the statements in the statu-
tory declaration of Mr. Travers were
sufficient—if they were accepted—to
show compliance with the statute, and
that the real capital involved and the
issue of the certificates are therefore
sufficiently accepted and thereupon issue
to the bank a certificate. However, Mr.
Fielding wrote on Nov. 30 to Mr. Travers,
stating that an amendment had been
made to the motion to go into supply,
calling upon the government to take
steps to enquire into the cause of the
mergers which have become so promi-
nent in the commercial life of the
country.

He said that in the course of the last
two decades at least 20 of these merg-
ers had been formed, having an au-
thorized capital stock issue of \$214-
750,000, of which \$188,075,000 had been
issued. Touching on the relation of
these mergers to this customs tariff, Mr.
Monk stated that in the fixing of the
tariff it was reasonable to provide
that proper dividends should be paid
to the stockholders, but that it was not
right it should be made possible for
these concerns to pay dividends on the
watered stock, behind which there is
no real basis of value.

SNOW BLOCKS TRAINS

Fierce Blizzards in West Reflected in
Late Arrivals at Union Station.

Fierce storms have been raging in
western Canada for the past forty-
eight hours, and this has had the usual
effect upon the railway traffic. C. P. R.
train No. 94 from Winnipeg, due
here at 3.30 yesterday afternoon, ar-
rived at 5.30 this morning. No. 86 from
Sudbury, due here at 8.20 yesterday
morning, steamed into Toronto at 11.15
last evening, covered with snow.

A man named James Ferguson, who
was stalled for four hours on his way
down from North Bay, claims that the
delay means a loss of \$50,000 to him
through his not reaching Boston in time.
The snow in the northern part of the
province is ten feet deep in some
places, according to Chairman Engle-
hart of the T. & N. O. Commission. For
the first time this winter snowplows
have been at work on that line and the
large quantity of freight moving into
the northland has been held up on ac-
count of the snow.

MAY DROP ATLAS COMMISSION.

Because he does not deem it fair
that his client should bear half the
cost of the proceedings, Wm. Douglas,
counsel for "Rev." George M. Atlas,
now serving six years in Kingston
penitentiary, may not go to Turkey af-
ter all to have the evidence of alleged
witnesses there taken to show that his
client did pay the money which he is
charged with stealing. A further ground
of objection is that in the consent
which his client has been asked to
sign, it is stipulated that the evidence
may be used at the trial even though
taken in the absence of either Atlas
or his counsel. Mr. Douglas will move
at Osgoode Hall to-day before Mr. Jus-
tice Riddell for a writ of certiorari, re-
moving the case of subornation of per-
jury now pending against his client to
the high court out of the sessions.

Died From Lockjaw.

Salvatore Seacola, 280 Victoria-street,
died early yesterday morning of lock-
jaw. The little girl had been treated
for the same disease three months ago
and was believed to have been wholly
cured.

Reception to Rev. J. R. MacLean.

In St. John's Anglican Church, Port-
land-street, a reception was tendered
last night to Rev. J. Russell MacLean,
newly installed as associate rector. The
gathering was large.

Bishop Sweeney spoke in high terms
of the new incumbent's work at Shan-
ty Bay and Colborne. Canon Williams
and others spoke and Rev. Mr. Mac-
Lean replied suitably.

AN AWFUL RISK.

MERGERS SHOULD BE INVESTIGATED

Mr. Monk Asks For Appoint- ment of a Royal Commis- sion—Situation the Result of Overcapitalization Says W. F. Maclean—The Ex- perience of the United States.

OTTAWA, Feb. 2.—(Special)—Public
rights had its innings in the house of
commons to-day. Two matters of far-
reaching importance were dealt with.
The first, dealing with the probable
alienation of the water power at the
Long Sault Rapids on the St. Law-
rence River, was introduced by R. L.
Borden.

At the evening session F. D. Monk
(Jacques Cartier) moved an amend-
ment to the motion to go into supply,
calling upon the government to take
steps to enquire into the cause of the
mergers which have become so promi-
nent in the commercial life of the
country.

He said that in the course of the last
two decades at least 20 of these merg-
ers had been formed, having an au-
thorized capital stock issue of \$214-
750,000, of which \$188,075,000 had been
issued. Touching on the relation of
these mergers to this customs tariff, Mr.
Monk stated that in the fixing of the
tariff it was reasonable to provide
that proper dividends should be paid
to the stockholders, but that it was not
right it should be made possible for
these concerns to pay dividends on the
watered stock, behind which there is
no real basis of value.

THEY WANT RECIPROCITY

West Wellington's M.L.A. Says Farm-
ers Will Wax Wealthy.

"Wanted, Reciprocity" was the
keynote of the meeting of the West
Ontario Liberal Association in Poulton's
Hall last night, both speakers and au-
dience joining in the refrain. James
McWinn, M.L.A. for West Well-
ington, presided from the viewpoint of
the farmer, speaking highly in favor of it.
It was his contention that the farmers
would greatly benefit by the increased
market for their products, as well as
the greater competition in agricul-
tural implements.

W. F. Summerhays gave an address
on "American Immigration. Among
the other speakers were: R. J. Mc-
Cormack, M.P.P. of East Lambton;
Cornelius Ryan, J. F. Edgar and other
prominent Liberals. Geo. Strath, pres-
ident of the association, was in the
chair.

OPponents of ANNEXATION

Former Immigration Commissioner
Says U. S. Settlers Are Emphatic.

"The strongest opponents of an-
nexation are the American settlers in
Canada," was the statement made yester-
day by J. McKay Dickson of Ed-
monton, who is in Toronto. Mr. Dick-
son was the Alberta commissioner of
immigration under the Rutherford ad-
ministration. He is enthusiastic over
the reciprocity negotiations and pre-
dicts for Canada an unprecedented
period of national growth and develop-
ment.

He says the trend of trade in the
prairie provinces will then be north
and south instead of east and west,
which will give the balance of
political power in Canada.

"The number of American settlers
who do not naturalize is less than
five per cent," said Mr. Dickson.
"They are glad to live in a country
where law is law 24 hours every day."

Other Side.

REGINA, Feb. 2.—At a crowded meet-
ing of the Saskatchewan Agricultural So-
ciety's convention this afternoon the fol-
lowing resolution was adopted with prac-
tical unanimity:

proval the proposed reciprocity arrange-
ments with the United States."

LONG SAULT BILL WAS WARMLY DEBATED

Measure Before U. S. Congress Discussed in House of Com- mons—All Canada Could Do, Said Sir Wilfrid Laurier, Was to Expostulate — A Question of Navigation.

OTTAWA, Feb. 2.—(Special)—There
was a revival in the house of commons
to-day of the discussion on the pro-
posal to dam the Long Sault rapids
on the St. Lawrence. On the motion
to go into supply R. L. Borden arose
to draw the attention of the govern-
ment to the present situation of the
matter. A bill, he said, was before
congress in which a company sought
power to build a dam at this point.

He pointed out that under the Ash-
burton treaty the channels of the
river from shore to shore were to re-
main open for navigation for ever to
the vessels of both countries. The
country was started last year by an
application to dam the Canadian side
of the river.

Hon. William Pugsley—"No such
proposal was before parliament."
Mr. Borden, somewhat nettled, said
his recollection was that such a pro-
posal was before parliament.

Mr. Pugsley—"The hon. gentleman
has not read the bill."
Mr. Borden, with some heat—"I have
read it and debated it. The hon. gen-
tleman is far too ready to rise and con-
tradict."

Canadian Opposition.

The opposition leader then went on
to say that the bill now before con-
gress was opposed by all Canadian
interests, and a memorial against it
had been presented at Washington.

The bill proposed to dam the chan-
nel and build a lock on the American
side, and complete the dam across both
channels to the Canadian side.

Mr. Borden declared that the naviga-
tion of the St. Lawrence was of such
supreme importance that the control
of it should not be allowed to go into
the hands of a private company, and
an alien corporation at that.

Sir Wilfrid Laurier, after a long
speech regarding the purpose of
the Canadian bill last year. He
assured him, however, that before the
government would agree to the dam-
ming of the St. Lawrence, from shore
to shore there would be a full dis-
cussion of the project. His under-
standing was that by international law
a country had the right to put on its
slopes of the stream all great works
which would not affect navigation, and
which were deemed for its own ad-
vantage or for the advantage of its
citizens.

The Legal Situation.

Sir Alan Aylesworth explained the
legal situation. A dam could be built
on that part of the river under United
States jurisdiction without reference
to Canada. If the dam was above
the height of the water at the head
of the island it would not affect the
level of the river, and Canada
could not object. They could not ob-
ject to the proposed dam because of
a height sufficient to alter the water
level.

Under the new agreement the com-
pany proposing to develop power on
the St. Lawrence would have first to
get the authority of the legislature
of its own country. Then if the rights
of the other country were affected the
right of appeal would be to the inter-
national joint commission.

Mr. Aylesworth in reply to John Hag-
gart, said that the company before it
could do anything, Mr. Lawrence or take
any steps there to build its plans
approved by parliament.

Mr. Pugsley's Explanation

Mr. Pugsley took the first opportu-
nity to deny a statement that the bill
of last session was to permit the power
company to dam the St. Lawrence. The
application was simply for a power
transmission equipment.

Mr. Pugsley explained that there had
been some criticism of the minister
regarding his proposal about obtain-
ing power from Waddington on the
United States side of the St. Law-
rence opposite Montserrat. He re-
cently Hon. Adam Beck, chairman
Hydro-Electric Power Commission, had
said that the hydro-electric might
possibly contemplate obtaining power
from this very same source.

Mr. Graham declared, amid cheers,
that the interests of navigation were
paramount along the St. Lawrence
and nothing could or would interfere
with this. If power from the south
Sault could there be produced with-
out harm to navigation, and without
damage to the Canadian side of the
river, he favored permission being
given.

Could We Get the Power.

Dr. Reid (Greenfield)—"Could we get
that power in Canada?"
Mr. Graham said he thought that an
agreement could be arrived at whereby
so much power would be available for
Canadian use.

Judge Doherty (St. Anne's) taking
up Ashburton treaty, showed a
specific clause which referred to the
channels at this particular spot, which
declared that they would be free and
open to navigation by vessels of both
countries forever. He said that the
treaty foresaw just such a con-
tingency as has arisen. Canada had
a strong case to present at Washing-
ton.

Fur Stock-Taking Sale.

February is the large bargain month
for fur goods. No better time to buy
than right now, because the furriers
must turn some of their large holdings
into cash before the spring comes. The
Dineen stock-taking sale should ap-
peal to all who are looking for real
bargains in furs.

DISMISS RAILWAY BOARD SAYS LABOR COUNCIL

Public Cannot Get Justice Until
Men of "Competent Ability"
Are Appointed.

"Justice will never be done in the
matter of the undesirable street rail-
way situation, until the premier and
cabinet of the Ontario Legislature re-
place the present Ontario Railway and
Municipal Board with men of com-
petent ability." This is what the Tor-
onto District Trades and Labor Coun-
cil endorsed last night, when the mu-
nicipal committee's report was consid-
ered.

The report further criticized the
board for being unable to agree upon
what should constitute a proper P.A.
Y.E. car or system. It was also the
opinion of the committee that Toronto
had been virtually robbed of \$600 by
the board for the inspection of a bridge
they were called upon to inspect
and which had already been inspected
by the city engineer.

"If the duties of the municipal and
railway board are so varied that they
can inspect any municipal work they
so desire, it is the opinion of the com-
mittee that they should not have the
right to draw salary from two sources
for doing the same work," continued
the report.

Joseph Gibbons, business agent of
the Street Railway Employees' Union
protested that Mr. Ingram had insisted
upon the very car that the men want-
ed and he should not be included along
with the others in the censure. The
council endorsed the proposal of re-
establishing a civic bureau of publicity
and industry.

NOT DISCUSSED AT CAUCUS

Sir James Whitney stated to The
World yesterday that the reports that
the power bill and bilingual school
bill were dealt with by a Conservative
caucus on Tuesday were unfounded.
They were not even mentioned, said
the prime minister.

Closing of Streets and Lanes Contemplated—Controllers at Cautious Speed.

By a letter from D. McNicol, third vice-president and general manager of the I.F.C.P.R., read yesterday before the board of control, the plans of the company for increasing their freight facilities in the centre of the city include:

- (a) To close Dorset, upon which they now own all the property with the exception of three small parcels, which they will expropriate.
(b) To construct nine tracks across John-st., which they say is the same number as the Grand Trunk has already constructed with the consent of the city.
(c) To construct one track across the intersection of Peter and Wellington-sts., across a small corner of the street which surrounds Clarence Square and across the intersection of Front-street and Spadina-avenue.
(d) To close up all the lanes within the block between John and Simcoe-sts., and to abut the lane between Wellington and Mercer-sts., and the lane between Clarence-square and Mercer-st.

Other Extension Plans. Mention of other plans for improvements in contemplation in other portions of the city were made. These include: Freight yard and shed facilities at Cherry-st.; freight and passenger facilities, including a new and enlarged station at the head of Yonge-st., and enlarged terminals at West Toronto.

Mr. McNicol's letter concluded with an offer to come to Toronto and explain the plan. Mayor Geary said he had written Mr. McNicol that he preferred having all plans submitted first. Controller Hocken was agreed to on the understanding that the city engineer and city solicitor report on the plans and that no action be taken until all plans have been submitted.

A Watching Attitude. The city solicitor, engineer and assessment commissioner were requested to take whatever action they deemed necessary for the city's interests in connection with the bill to amend the Municipal Act with reference to local improvements to be introduced in the legislature.

It was decided to have the city engineer report on probable cost of filling in behind the sea wall at Sunny-side.

RAILWAY MERGER NO MENACE

The City Solicitor, Johnson, found nothing objectionable in the bill of the Niagara and Toronto Railway Company to amalgamate with the Toronto and Hamilton Railway Company, which is before the Dominion House, A. C. Macdonnell, M.P., wrote the mayor expressing a fear that the proposed amalgamation might cause trouble for the city.

FEE-SPLITTING IN HOSPITALS

Dr. Young's Scathing Remarks on "Unclean Cowards." Speaking of the charge of a prominent surgeon, that some hospitals in the United States supported by philanthropy are "hotbeds for fee-splitting and commission jobbing," Dr. W. A. Young says in The Canadian Journal of Medicine and Surgery:

"It is well known in Toronto that this practice has been resorted to by a few more or less obscure medical men, who have added a bit of surgery to their other disqualifications, and have, unfortunately, succeeded in pushing themselves into one or other of the hospitals. If we are to exact the respect of the public for our hospitals, each individual member of the staff must, in some or more respects, live up to the highest surgical standard."

Now is the time for action on the part of the Academy of Medicine. Let our surgeons, and they are, alas! few, whom the profession at large bow down before and upon whose brow place the circlet of bay leaves, cast out from among them the unclean cowards who usurp their well-earned title and traffic in men's bodies, selling their own decency for half the gain."

Beakwater, for Port Stanley. LONDON, Ont., Feb. 2.—Government Engineer Lamb announced to-day that he had received instructions to prepare plans for a breakwater, 1200 feet long at Port Stanley, to cost \$250,000. Sixty thousand dollars has been appropriated this year.

ALDERMEN AT DEADLOCK ON SUNNYSIDE PROBLEM

Tie Vote on Bridge and Roadway Plans—Up to the Board of Control.

Alternative plans for the western gateway to the city were discussed at the special meeting of the board of works yesterday, the two particular schemes under consideration being a bridge over the Grand Trunk tracks at Sunnyside and the extending of Queen-street north of the tracks to Keele-street and Indian Road with an 80-foot span way under the tracks to Lake Shore Road. The result was a tie vote thru Chairman Aid. Chisholm voting in favor of the bridge, and both schemes will go to the board of control.

In a letter from the board of trade that body had opposed any bridge proposition because it might seriously affect the city's position with the C. P. R. in event of an unfavorable decision in the viaduct case.

A Deputation from the High Park Ratepayers' Association opposed the extension of Queen-street north of the tracks, the chief argument being that the radial roads would undoubtedly use this roadway to enter.

A Warm Argument. Those for the bridge believed it would not prejudice the viaduct case and that the property owners would present the city with a roadway and then the city would have two exits to the west instead of one.

Assessment Commissioner Forman estimated the cost of the roadway at \$350,000, with about \$100,000 damages to property owners south of the track.

Ald. Sweeney, Rowland, McBride, Weston and May lined up for the roadway, with Aid. Dunn also favorable, but paired with Aid. McCarthy, who was called away. Hilton, McCausland and Maguire voted for the bridge, and in order that it might not go down to defeat Chairman Chisholm made it a tie vote. To break the tie a hasty call was sent for Mayor Geary, but he was out.

RAILWAY ASKS STATED CASE

Wallace Nesvitt, K.C., and Hartley H. Dewart, K.C., representing the Toronto Railway Co., and H. L. Drayton, K.C., representing the city, were heard by Justice Riddell, in a private room, at Ossonge Hall, yesterday morning with reference to the points of law which the counsel for the railway company believe should be submitted to the court of appeal in connection with the street railway indictment, for maintaining a nuisance. Counsel for the railway not only asked for a stated case, but for a postponement of the re-hearing. Judgment was reserved, and his lordship is expected to hand down his decision this morning.

"SLEEPLESSNESS."

Thousands of people all over this land toss night after night on a sleepless pillow. The eyes do not close in the refreshing slumber that comes to those whose heart and nerves are right.

Some are troubled with weak and smothering spells; others palpitation of the heart; others have their nerves unninged; but whatever the cause—it comes entirely from a Perangement of either the heart or nerves, or both. Milburn's Heart and Nerve Pills offer the blessing of sound, refreshing slumber. They do this by their invigorating effect on the heart and nerves and will tone up the whole system to perfect condition.

Mr. H. Jewel, Keswick, Ont., writes: "I am glad to have the pleasure of telling you what Milburn's Heart and Nerve Pills did for me. I would have weak spells, seemed to lose my breath, and would have to get up in the night as I could not sleep. I tried many medicines but found nothing good until I used Milburn's Heart and Nerve Pills. I took three boxes and it is three years ago since I did so, and I haven't been troubled since."

Milburn's Heart and Nerve Pills are 50c. per box, or 3 boxes for \$1.25, at all Dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

MERITS OF PUBLIC UTILITIES

Freedom From Over-Capitalization—Strong Point, Says Con. Hocken.

Controller Hocken gave an address on "Public ownership of public utilities as practised in Toronto," at the monthly dinner of the Ontario Single Tax League last night. Robt. Tyson was in the chair.

"There is no danger of overcapitalization in public ownership," said the controller. "The Toronto Railway watered their stock to the extent of \$6,000,000 at the start, and the city has been suffering from it ever since. One thing to avoid in public ownership," he said, "is to take money from the taxpayer to pay for public utilities. These should be priced so as to pay for themselves."

The controller explained the reason of Montreal's low tax rate. "They charge over four times as much for water as we do," he said, "but in that way the tax rate is brought down to 14 mills. Toronto's tax rate could be lowered to 6 mills if we charged as they do."

He favored inaugurating a public utilities commission, free from the pressure of aldermen and controllers are brought under. Turning to the subject of direct legislation, he declared that it was "the bed rock of democracy," and the people were unconsciously being educated to it.

AUTOS FOR WAR

The unique military character of the coming automobile show in the armories is arousing a great deal of interest in military circles. To demonstrate the efficiency of motor trucks for carrying military supplies, one car, for example, will be loaded with the supplies of an entire regiment. Not only will this truck carry as much as several teams with wagons, but it would cover the whole distance from the railroad station to the troops at the front without relay stations, and would make much better time than teams.

Slueth Unpaid, Seized Furniture.

Who owns the goods and chattels of the home, hubby or wifey? This was the question Judge Morson was asked to decide in the division court yesterday, in the suit of J. M. Spencer, benedict, against W. W. Paterson, a private detective, who is suing Mr. Spencer's wife.

Mr. Spencer preceded his wife to British Columbia. After hubby had gone west, wifey became curious about some matters, and put the detectives on the trail. The lady followed her husband west without paying the sluth, who seized furniture left in storage. So, thru J. R. Roof, Mr. Spencer asked an adjournment of the case until a commission in British Columbia might take his evidence. The case stands adjourned for a week.

The Famous Rayo

The Lamp with Diffused Light

should always be used where several people sit, because it does not strain the eyes of those sitting far from it.

The Rayo Lamp is constructed to give the maximum diffused white light. Every detail that increases its light-giving value has been included.

The Rayo is a low-priced lamp. You may pay \$5, \$10 or even \$20 for other lamps and get a more expensive container—but you cannot get a better light than the Rayo gives.

This season's Rayo has a new and strengthened burner. A strong, durable shade-holder keeps the shade on firm and true. Easy to keep polished, as it is made of solid brass, finished in nickel.

Tie at Little Vic. Little Vic, rink was the scene of an exciting game of hockey last night, the contest being J. and J. Taylor office and shop teams. The score was 7 to 7. For the shop team Roy Cox's great weight and Nick Carter's net work were features for the office team. Brown, Flynn and West were conspicuous, and with little practice will possibly develop into real hockey players. The teams: Office (7): Goal, Weisner; point, H. West; cover-point, Brown; wing, Flynn; left wing, Reed; rover, Lunt; centre, C. Wright. Shop (7): Goal, W. Carter; point, A. Milne; cover-point, Cox; right wing, D. Bruffe; left wing, R. Another Good Sale At Maher's Exchange Demand Improving. The sale of heavy horses yesterday was a good one, and many western buyers are in the city looking for some good snags. Prices are keeping up pretty well, in fact some of the western men claim that they are altogether too high, but the price, especially of particularly good bay and chestnut geldings to take north at a reasonable price. Harris Abattoir Company bought five nice heavy working geldings at a fair price. They also bought a nice mare team. Sher. Willows of Cobalt picked up a couple of nice geldings to take north at a reasonable price. John Hodgins of Jarvis, Ont., bought a carload of 19 good heavy work horses. He paid \$200 for a nice black mare of good quality. A good team, chestnut mare and gelding, brought \$400. A brown mare sold for \$250, and a particularly good bay mare sold at \$240, also a bay gelding for \$225. J. D. Phillips picked up two city horses cheap. Malcolm McCollum of Lloydtown, Ont., got a cheap chestnut gelding for \$110. James Brett got a bay mare of good class for \$200. McGill Coal Co. picked up a very handsome black gelding for \$200 for \$165. C. W. Vanduzen bought a particularly well matched team of bay geldings for \$420. This looked a reasonable price for this pair. J. Shandler bought a nice bay gelding that looked cheap at \$180. George Whim bought a pair of good bay geldings for \$107.50. S. C. Duff of Austin, Man., purchased a car of 15 horses, and among the lot were some particularly good lookers. A black mare team at \$250 and a bay gelding team for \$275 looked good buying. A \$300 lb. team of bay geldings brought \$200. A black mare was bought cheap at \$110. Phillips and Henderson of Port Elgin, Ont., bought a bay team for \$235, a brown gelding for \$170, and another bay mare team for \$270. All were good lookers, and should make great work horses. Miller and Vansickle of Jerseyville bought a big brown mare team weighing nearly 2600 for \$465, and W. G. McFarlane a bay mare for \$235. Mr. Maher was well pleased with the sale, and on Monday next will have a large consignment of good fresh country horses.

Knotty Lee Working On His New Canadian Baseball Circuit. HAMILTON, Feb. 2.—Knotty Lee, the Toronto chap who is busy organizing the Canadian Baseball League, is in town to-day, more enthusiastic than ever over the prospects for the new league. Knotty has been in touch with Secretary F. H. Farrell of the National Association of Minor Leagues, and has been promised protection for the new organization, with class C rating. Secretary Farrell's friendly tone is explained by reason of the fact that Lee is well known to him, having played on the Troy team in the New York State League, when Farrell was president of the club, and in addition Farrell is very friendly to Ed. Mack, president of the Toronto Eastern League Club, who has practically promised to accept the presidency of the new league. It is at Mack's suggestion that Lee went to Galt to-day in the hope of interesting the Galt fans in the proposition. "Galt should make a good spot for a club," said Lee. "With London, Hamilton, St. Thomas, Woodstock, Berlin and Galt you wouldn't want anything stronger for the first season, and if these six towns hold their own the first year, expansion would be easy." In addition to interesting Ed. Mack in the proposition, Lee has also got Bill Phyle sitting up and taking notice. The former Toronto third baseman, now a free agent, has gone so far as to say that he would be pleased to take hold of one of the six clubs, and there is a chance that he will be found in charge at London.

Cheese Masters' Tournament. NEW YORK, Feb. 4.—Frank J. Marshall, the U. S. champion, who has led the National chess tournament practically from the start, will either win the tournament in the final round to-morrow or tie for leadership with the young Cuban champion, Jose Capablanca. The Cuban has overcome a poor start, and is now assured of second place if he wins from Johner to-morrow, and will tie with Marshall if the champion loses to Kreyborg. Marshall has drawn 3 games, but has not lost a single one of the eleven played. Oscar Charles of Chicago, who has kept close on Marshall's heels, ended his play in the tournament to-day in a draw with Ab. Hodges. This leaves the westerner with hope of only second place at best, and of retirement to third in case Capablanca wins his game to-morrow. Marshall, playing Tebenwursel, took a piece on the ninth move of a Queen's gambit declined, and won after 24 moves in the semi-finals to-day. Capablanca, pitted against Baird, played his favorite variation of the Ruy Lopez. Winning a pawn on the twentieth move the Cuban exchanged queens three moves later and outplayed his opponent in a rook and knight ending, in fifty moves. C. Jaffe, R. T. Black and Magnus Smith were the other winners to-day.

Central Indoor League. In the Central Y Indoor Baseball League last night the Storks got a 9 run win over the Owls, and the second game was close, the Night Owls winning by 2 runs. The scores: Tuckey and Walker, 3; Storks 7; Batteries—Bryson and Smith; McDonald and Jackson. Pioneer Football Club. The first general meeting of the Pioneer Football Club at the club rooms, 260 P. Adelaide-street, the officers and the captains were elected for the spring season. Judging by the enthusiasm shown the coming season promises to be a most successful one, and hopes are entertained that the same success will attend the efforts of both players and officials as attended their efforts last fall. Two teams are to be run, one in the senior and the other in the intermediate league, and all who desire to be connected with the club are cordially invited to the next general meeting, which takes place at the club rooms Thursday, Feb. 8, at 8 p.m., not previous Thursday, as previously arranged.

Baseball Notes. Thomas J. Lynch, president of the National League, has issued a formal call for the schedule meeting of the league on Feb. 14 at the Hotel Breslin, in New York. A meeting of the board of directors will be held at noon of that day, while the regular meeting of the league will begin at 2 o'clock. Camnitz, the Pittsburgh pitcher, who wants to collect \$1200 on a certain clause in his contract last year, will have a hearing before the board of directors. If the draft schedule is adopted at the meeting next week the Eastern League season will open at the island this year on Saturday, May 6, and the opening games of the Eastern League on April 29 are: Toronto at Baltimore, Rochester at Providence, Montreal at Newark, Buffalo at Jersey City. The Eastern League umpires have not been officially announced, but are said to be Benon, Hart, Rudolph, Black, Fender, Wright, Pollock and Murray. Tom Kelly was wanted, but has not signed yet.

Boys' Club Skating Meet. The Boys' Club skating meet will take place Saturday afternoon at 2 o'clock at North Riverdale Rink, Danforth and Broadview-avenues. The prizes there are 12 handsome silver medals, 1 gold medal, 1 pair tube racing skates, and 10 other prizes besides. These are all on view in Down's window, near the rink, Broadview and Danforth-avenues. The open events are 15 years and under, 15 years and under, and senior. There are two silver medals each for the 15 and 18 year classes, and gold and silver medals for the senior. The races are sanctioned by the Canadian Skating Union, and the meet is held

York County and Suburbs

YORK COUNTY COUNCIL INCREASE INDEMNITY Registrars Will in Future Report All Property Sales—Suburban Happenings.

The York County Council, by a practically unanimous vote, have increased the remuneration attached to their offices for sessional indemnity, from \$3 to \$5 a day, while the indemnity for committee work remains at the former figure of \$3 a day. Absence from a session of council, under the new dispensation, will result in the loss of the day's pay, and in order to insure this it will be essential that the councillor be present.

The reasons given for the advance in allowance is the added cost attached to city accommodation, in many cases nearly twice that of a few years ago, the extra expense in employing substitutes to carry on the work at home, and the increase in the demands on men in municipal life generally, not alone during the time the council is in session, but throughout the year.

The action of the county council would appear to be well founded, and it is a matter for congratulation that they have had the courage of their convictions and placed the allowance at a figure that will enable them to discharge the duties of the office with dignity and without any financial loss. Many other counties have for some time been subject to the new schedule, and for which the legislature has wisely made provision. The work of the county council is of equal importance with that of the legislature, and the remuneration, even at the added figure, is infinitely less. The effect of the new order of things will be to maintain the standing of the representatives, and will be endorsed by the community at large.

The York County Council, while dealing with a delicate question, have taken a right and proper course and need fear no criticism in the matter. At yesterday's session a radical stand was taken in the question of the assessment tangle by Reeve Poole of Whitechurch, who has given a good deal of thought to the question in the submission of a resolution, in which he was seconded by Councillor Keith of Newmarket. The resolution is in effect as follows: That the registrars of North and South York be requested to furnish the council with a list of all absolute conveyances whereby property has been transferred, and which have been registered in their respective offices during the year, such list to include the sellers, the purchasers, the consideration and description of the property transferred in like manner.

Reeve Puzsley of Richmond Hill and Reeve John Gardhouse of Etobicoke vigorously opposed the measure and cited strong objections, but council thought otherwise and went to the coup. Councillor Wiloughby made a strong appeal for \$500 for the Nesbitt bridge, and by his good presentation of the case, succeeded in getting \$400, and may get more as the work progresses. The Industrial Home commissioners, Messrs. Watson and Thompson, were authorized to expend \$3000 in the erection of a building at the Industrial Home, for industrial conveniences for the inmates. The work is badly needed. The good roads committee are busily engaged in formulating the report, which will probably be presented to-morrow. Saturday will conclude the session.

YORK PIONEERS.

The regular monthly business meeting of the above society will be held in their room, Canadian Institute, 189 College-street, on Tuesday, Feb. 7, 1911, at 3 p.m. Daniel Lamb, president; John Harvie, treasurer; J. W. Millar, secretary.

WESTON.

WESTON, Feb. 2.—(Special).—The Weston junior hockey team defeated the Lourdes hockey team of Toronto on the latter's ice last night by a score of 2 goals to 1. The play was fast, thrut and round, and the goal for Weston, made some phenomenal stops. J. La-batt was referee.

Weston Council No. 113, Canadian Order of Chosen Friends will hold their annual at home in the Weston Club rooms, Main-street, to-night. A splendid program has been provided, after which supper will be served, and the hall given over to dancing. A special car will leave Weston at 2.30 a.m. Music by Johnston's Orchestra.

CENTRE YORK CONSERVATIVES.

The executive committee of the Conservative Association for Centre York will meet at 172 West King-street, on Saturday at 2.30 p.m. Fred Rowntree, secretary.

NORTH YORK CONSERVATIVES.

North York Conservatives meet in Newmarket town hall on Saturday, Feb. 4, at 2 o'clock, sharp, for the election of officers and other business. Good speaking and a big rally expected. Every Conservative in the riding ought to make it a point to attend.

VEGETABLE GROWERS.

The Toronto Branch of the Ontario Vegetable Growers will meet at the Albion Hotel on Saturday, Feb. 4, at 8 o'clock sharp. Business of great importance will come before the meeting, and a big attendance is earnestly desired. George Syme, Jr., is president, and Frank F. Reeves, secretary.

REVIVAL DEFICIT \$4,060.

An official statement shows that the expenses of the Chapman-Alexander revival campaign were about \$18,000, while contributions were \$890, leaving a balance of \$4,060. It is expected that the shortage will be largely met by co-operating churches.

City Mission.
The monthly meeting of the board of "The Toronto City Mission" was held yesterday. The Rev. John Neil, D.D., president, presided. Reports showed many cases of pressing need. During January \$258.47 was expended from the charity funds besides, 418 articles of clothing and furniture provided for the helpless poor. There is an unusual amount of sickness among poor families at the present time. There is great need of clothing, needy men and women have to be refused because we have not got them. A phone message to North 756 will always secure immediate attention.

The members of the board of works visited the proposed sites for subways at Ashdale and Coxwell-avenues, and are of opinion that Coxwell-avenue is the most suitable.

BUILDING IN JANUARY.
The statement of building operations in the city for January shows 148 permits taken out, as compared with 137 in the same month of 1910. There were 212 new buildings erected in the month; just past as compared with 174. The amounts involved in the operations were \$82,883 in the month just passed, while \$458,550 was the amount spent in January of a year ago.

Who Knocks Louder at Your Door?

The Rent Collector or Opportunity?

There are two unfalling visitors at the door of every married man who rents a house—the RENT COLLECTOR and OPPORTUNITY. This is a wise balance, else the spirit of the renter would be heavy. The RENT COLLECTOR knocks regularly once a month. OPPORTUNITY has the sad reputation of knocking but once in a lifetime. However, there is satisfaction in learning that the ROBINS OPPORTUNITY not only knocks at your door often, but offers to furnish the door.

PARKVIEW

the attractive North Toronto home property, that offers the highest class home locations for the extremely low prices of from \$17 to \$20 per foot, and on easy terms. Parkview is on Lawrence avenue, one minute west of the North Yonge street cars, only 30-minutes' car ride to the city centre. The location is 500 feet above lake level, and from every vantage point there is a grand view of the city and surrounding country. Building restrictions of \$2,500 guarantee the best class of homes. Pure spring water may be obtained on the property. Here are grand possibilities in health and comfort for any city dweller, and especially if he pays high rent for cramped city quarters.

Open the door for Opportunity to-day. Get complete information and arrange for a motor trip over this property by communicating with the Head Office at 22 Adelaide street east, or the North Toronto office, at Glen Grove and North Yonge Street. Phone Main 7171, or North 5432.

64 CARS AT CITY MARKET TRADE BARELY STEADY

Cattle Prices No Higher - Sheep, Lambs Steady - Hogs Easy at Yesterday's Quotations.

The railways reported 64 carloads of live stock at the city market, consisting of 338 cattle, 1711 hogs, 529 sheep and lambs and 21 calves.

There were more good cattle on the market than on any day this week, the bulk of which was bought by the Harris Abattoir Co.

Trade was not any better, being inclined to be slow, as there were several lots reported unsold at the close of the market.

Prices were no better nor worse than yesterday; of hogs and hams, a heavy delivery it would have proved disastrous to the drover.

There were about 5 or 6 carloads of choice cattle good enough and heavy enough to export but all bought for local killing, 1200 to 1250 lbs. each at \$5.15 to \$5.20.

Sheep and Lambs. A moderate run of sheep and lambs sold as follows: Sheep, ewes, \$4.25 to \$4.50; lambs, \$4.25 to \$4.50...

Hogs. Selected fed and watered, \$7.00 to \$7.50, and \$7.15 to \$7.25, cars at country points. A fair supply of hams and springers were offered and sold at \$10 and \$70 each...

Market Notes. Alf. Pugsley, buyer for the Harris Abattoir Co., on the sheep, lamb and calf market, has been engaged by the commission firm of Dunn & LeVack as sheep and calf buyer...

Market Notes. The drovers shipping per G.T.R. by the Midland Division from points on that road, complained that the G.T.R. was not doing its duty in not allowing them to reach the market until midnight before they reached the market.

Market Notes. The annual meeting of the Live Stock Exchange was held Wednesday evening at the King Edward Hotel, about 80 members being present. After the reading of minutes of last meeting and the report of the treasurer, the members proceeded to elect the officers for the coming year...

Market Notes. The publishing of weekly sales of live stock next came under a long discussion. It was reported that the drovers felt no good was being accomplished by the reports of individual sales. However, the large majority of commission men, as well as buyers, felt that the reports were of great value...

Market Notes. At present all the large packing houses pay their cattle subject to government inspection, while the other buyers do not. This has become a very serious matter, as the percentage of condemned cattle appears to be on the increase.

Chicago Grain Review.
 CHICAGO, Feb. 2.—Toward the last wheat market today after much covering had been done by shorts sellers. Closing figures were the same as last night to \$1/2 below. The day's trading left corn unchanged from 2 1/2 hours previous; oats not affected or laid down, and hog products at 10c to 1 1/2c to 2c decline.

Alto wheat was on tap for both May and July during all business, the market held above yesterday's closing level a good part of the day. The early business followed reports that Argentine shipments would be small, compared with last week's huge receipts of shorts sellers. Factors were light receipts of northwest and the absence of moisture southwest. A big increase in stocks at Minneapolis and Duluth, 1,125,000 bushels so far this week, largely offset, however, the effect of small arrivals today at those points. The market for futures grew weak in the final hour and closed easy at almost the bottom figures. May ranged from 86 1/2c to 87 1/2c, with grain trades 1/2c to 3/4c off at 86 1/2c to 87 1/2c.

The corn market was rather irregular, but after mostly higher than yesterday, but meeting good offerings on the advance. May varied from 27 1/2c to 28 1/2c at 20 1/2c, closing unchanged at 26 1/2c. Oats rallied sharply. May fluctuations ran from 27 1/2c to 28 1/2c, and closed at 27 1/2c to 28 1/2c.

20c made a net gain of 1/2c to 3/4c; laid, 10c to 12 1/2c to 15c, and ribs 10c to 17 1/2c.

TRAFFICKING IN LICENSES

Commissioner Lamb Says Practice is Too Common and Must Cease.

The board of license commissioners yesterday afternoon approved of the transfer of the license of the Lemoor Hotel from Mr. Gilles to R. J. Fetterman on a basis of \$27,000 and an additional \$3000 spent on improving the building. Mr. Gilles bought the business eighteen months ago for \$25,000.

Commissioner Lamb said that this was the third time Gilles had had transfers and that "this trafficking in licenses" was becoming too general. He finally consented, however.

Robert McGrath made application to transfer his shop license at the corner of Eglar and Avenue and Arthur street to A. T. Luc. The matter was left over.

ESTATES OF THE DEAD.

Margaret Frances Admitage, late widow of Schomburgk Village, who died intestate, left an estate valued at \$288,822. Inez E. Clarke, the only relative daughter, is the applicant.

The Toronto General Trusts have also made application for the estate of William G. Hurst, an English truck cycle rider, who owned a house on Ontario street valued at \$100,000, less a \$200 mortgage. The estate was valued at \$250,000, which will be divided between his widow and brothers and sisters.

CATTLEMAN'S PROTEST.

At the annual meeting of the livestock exchange a resolution was passed protesting against the proposed new tariff, as disastrous to the cattle industry of Canada, and directing the attention of the government to the fact that cattle trade which now comes to Toronto and the east would be diverted to Winnipeg and shipped off to Chicago. In the east cattle would be sent to Buffalo for shipment from American ocean ports.

The following officers were elected for the year: W. J. Noeley, president; S. McLean, secretary-treasurer; Wesley Dunn, John Taylor, Frank Hummel and C. Woods, directors.

BALTIMORE BANK FAILURE.

WASHINGTON, Feb. 2.—The Third National Bank of Baltimore has been placed in liquidation.

ON WALL STREET
 Erickson Perkins & Co. had the following:

MARKET BULLISHNESS RESTRAINED.

World Office.
 Thursday Evening, Feb. 2.

Hesitation from a conservative idea of things financial was responsible for a halting in the movements of some securities on the Toronto market to-day. Speculative sentiment was backed by everything necessary to advance prices, but the selling was apparently inspired, and this prevented any possibility of a runaway market. There were no movements of real importance. Speculative operations were limited to four issues, and in two of these advances were made over yesterday's prices. There are no weak spots in the market as far as can be seen, and additional interest should result in still further improvement.

No Signs of Selling Pressure Stocks Continue Upward Move

New York Market Shows More Diversified Public Interest—Upward Movement in Specialties on Toronto Exchange.

World Office.
 Thursday Evening, Feb. 2.

Movements in the speculative specialties were again prominent in the dealings on the Toronto stock market to-day.

Mackay, Twin City and Sao Paulo were selected as favorites, and each of these issues moved in accordance with the general tenor of the market. Nothing not previously published was available in either of the stocks, but the buying was sufficiently good to raise the shares about a point above yesterday's close.

Mackay sold at 95 on the New York market at the close; Twin City touched 11 1/4 on the Montreal market, and Sao Paulo sold on the Toronto Exchange at 15 1/2 for the last trade.

Large transactions in Rio and Mackay to-day were mostly the result of floor-traders' in-and-out deals. Brokers' clients participated to only a small extent as there are as yet few speculative holdings.

Much of the public buying is still an investment character, dividends rather than market turns being the incentive for the purchases of securities.

An unexplainable proceeding to-day was the sale of Rio and Mackay. Rio is the only operator in this stock, and although 12 1/2 was bid for the shares here, a sale at 12 1/2 was reported on the eastern exchange.

The statement presented by the company was favorably commented upon in local financial circles, but facts are apparently of little effect against manipulative action.

Domestic Steel Corporation shares for some unknown reason were strong on Montreal, and the quotation was necessarily followed here.

Altogether the market showed signs of vim and energy at the close, sentiment was still inclined to favor the upbidding of some of the specialties.

WALL STREET POINTERS.

Marked improvement noted in iron and steel trade.

Harriman building program will not involve any change in Union Pacific financing.

German Conservatives in Reichstag attack listing of American securities in Berlin, especially St. Paul.

U. S. Steel unfilled tonnage expected to increase 150,000 tons in January.

Agitation for extra session on Canadian reciprocity treaty gaining strength.

General Chemical annual report shows 20.25 per cent. earned on common against 19.10 in 1909.

Makers of grooved and sheared steel keep have advanced the price \$1 a ton in the Pittsburgh district.

Steel foundries' report for five months ended Dec. 31 shows surplus available for dividends \$25,770.

The principal and interest on series "E" of the United Railways Investment Co. 6 per cent. notes of 1908 maturing Feb. 25, will be paid on and after that date at the New York Trust Co., 26 Broad st., or at the office of the United Railways of San Francisco, at San Francisco, on the presentation and surrender of such notes.

New York—It can be stated authoritatively that there is no truth in the report that the United Metals Selling Co. will liquidate, but on the other hand we learn that it is possible that the United Metals Selling Co. may be absorbed by either the Anaconda or the Amalgamated Copper Co. Conditions prevailing in the copper metal market are reported to be materially better and the quotation has been firmly established at 12 1/4 for electrolytic.

SPECIAL MEETING CALLED.

A special meeting of shareholders of the Union Bank of Canada will be called shortly to authorize the proposed increase in directors from 11 to 15, in connection with the proposed absorption of the United Empire Bank.

INCREASED DIVIDEND PROMISED.

An increase in the annual dividend rate to 10 per cent. authorized by the annual meeting of shareholders of the National Trust Co. The president, in his address, stated the increased dividend may be expected during the current year.

WILL PAY DIVIDEND QUARTERLY.

The directors of the Toronto General Trusts Co. have decided to pay dividends quarterly instead of half yearly.

COTTON GOSSIP.

Erickson Perkins & Co. say at the close of the market to-day:

The local cotton market followed the lead of Liverpool, which came moderately lower under liquidation, and prices showed a reactionary tone with little attention paid to bullish spot advice and further price reports from the southwest. So far, bulls have been able to hold prices slightly under the cent level, owing to the large spot demand and heavy exports to Great Britain. Lately, however, English trade has shown some hesitation, which may regard as natural in view of the seriousness of conditions in the southwest. Selling has been somewhat brisk and we suggest caution on every rally.

LIVERPOOL COTTON EXCHANGES.

Cotton—Spot quiet; prices 7 points lower; American middling, fair, 3.30; good middling, 3.25; low middling, 3.20; 7.47; ordinary, 7.22. The sales of the day were 600 bales, of which 300 were for speculation and export, and included 270 American. Receipts were 1900 bales, including some American. Futures opened easier and closed quiet.

MIMICO'S WARM ELECTION.

The case of Russell Warner, defeated candidate for office of reeve in Mimico at the last elections, is seeking to unseat R. H. Skelton, the man who holds the office at present, on the grounds that the polls, Master in Chambers Cartwright was about to hear the evidence, when some technical points were brought forward by counsel, on which judgment was reserved. Until the judgment is given, all the books and ballots which will be used in connection with the case will be kept in the vaults of the court of appeal.

New York Stocks

NEW YORK, Feb. 2.—Nervous and unsettled movements characterized operation at today in the stock market. After a mixed opening the market developed signs of heaviness, doubtless due to realizing sales, as well as to lack of demand from short interests, which covered extensively on the recent rise. In the afternoon trading the market grew stronger, but any ambitious attempts at bull operations were met with effective resistance. The growing spirit of confidence which was reflected in the resumption of the 200,000 shares of Erie preferred served to prevent any marked setbacks in the day's diverse movements, and at the close quotations compared favorably with last night's higher level.

The Hill issues were under pressure through the morning, and Northern Pacific was set back two points, only to recover part of its loss later. The railroad stocks did little in the early hours, but later a strong buying movement sent them up materially. Reading crossed 190 in response to a steady demand, and High Valley, after a number of contrary movements, advanced to a new high level for the present movement.

Continued strength marked the day's transactions in the copper group, in which the effect of the copper trade reports in the left.

The relatively stronger position of the railways of the country is reflected in combined statistics of 15 systems for December, which show an increase in net earnings of 21.80 per cent. over the corresponding figures of the previous year. "PORCUPINE GOLD BELLS"

28 GOLD CLAIMS OWNED BY ONE MINE COMPANY

Porcupine Exploration Co. Has Extensive Holdings in Whitney and Tisdale Townships.

PORCUPINE CITY, Jan. 30.—(From Our Man Up North.)—With holdings scattered over three townships, Tisdale, Whitney and Deloro, 28 claims in all, the Porcupine Exploration Company of Montreal and New York, Hugh H. Sutherland, mine man, in charge of the Porcupine, are perhaps to-day next to the Timmins Syndicate in the amount of prospecting work being done in the district.

The syndicate is backed by men of unlimited wealth and whatever holdings in Canada taken over come under the scope of work to be done by those in charge. Under Mr. Sutherland are two very capable representatives, one working on the Tisdale properties and the other on the Whitney holdings.

To date the syndicate has taken over the following Porcupine properties, the named bunch of claims being secured this week: McPortland and Morris claims, in Tisdale; Sevens McRae claims, in Whitney; near Bob's Lake; James Ryan claims, in Deloro; and three Lindbergh claims, in concession 5, lot 9, Tisdale.

The biggest cash payment yet made in the district, wherein the whole sum agreed upon was paid at once, \$50,000, was made by this syndicate when the McPortland and Morris claims were transferred finally.

J. D. McLeod, a western mining man, was placed in charge of the work on the claims by Mr. Sutherland, the syndicate's representative, and soon an 11-foot vein of blue quartz of the fine quality, running 312 to the ton, was opened. This vein is being stripped and worked.

The Ryan claims in Deloro will be worked as soon as camps and men can be secured. Yesterday two new leads were opened in the Lindbergh and one new one, five feet wide, on the McPortland and Morris. These claims are in about the centre of Tisdale.

The Bob's Lake claims have not been worked, aside from assessment work, but several leads have been opened. In all the Porcupine Syndicate holdings are so admirably situated that it will be surprising wide leads, carrying free gold and sulphide showings, have been found.

Porcupine Men Want Revised Mining Laws

Thirty Days' Assessment Work in Winter is Lost Time—Closed Season of Work Desired.

PORCUPINE CITY, Jan. 31.—(From Our Man Up North.)—Will some one please rise in the Ontario Legislature and propose very much needed changes in the provincial mining laws? Is the question prospective, the developers of a country's resources, are now asking.

According to the present code, a prospector should find a place to stake in the late fall or winter, and in the next three months do thirty days' assessment work. This brings the time into the dead of winter when the work performed is merely a waste.

From interviews with half a hundred or more prospectors in Porcupine, The World learns that fully 60 per cent of the assessment work done here this winter has been nothing more nor less than shovelling snow, purely a waste of labor at a time when the cost of work is 15 per cent more than in the summer time.

Another factor enters. The law thru forcing men to do assessment work at an inopportune time to get the most out of them in developing the district, teaches little dishonesties, and it is not presumed for a moment that dishonest practices should arise in connection with mining work.

Many a man, driven to desperation while enduring hardships in the bush, with no chance of making gains in his work as a roll of snow falls back into the trench to replace the one just removed, grows careless in maintaining a colorless conscience, and little discrepancies often creep into his manner of doing things which would never be thought of under good conditions.

It is estimated that there are now 1000 men living in this district in tents, with boughs for a bed and a pile of firewood for their only warmth, while another extremely unhygienic, later propagate and scatter disease, and make them victims of inadequate mining laws that harm the province as well as the developer.

All these points, fully and fairly discussed, are raised by the men of the camp as sufficient grounds for the present legislature to act on. Mr. Ryan had finished describing what could be found on one of his claims. The buyer listened attentively, and when Ryan had finished threw the house folks into a brown study by exclaiming:

Porcupine Notes

World Office.

Thursday Evening, Feb. 2. Responsible buying of McKinley-Darragh stock, which put the shares up 16 points to \$1.75, was the only feature of any prominence on the local mining market to-day. This issue has been prominent in the dealings for some weeks now, but to-day's movement overshadowed the slow progress which has been made in recent sessions, the stock selling up rapidly to-day to the top figures under heavy buying orders.

Considerable of the purchases of McKinley-Darragh are coming from New York, which has been built on the security for some weeks. It is rumored that a dividend of 15 per cent. will be declared payable on April 1, and that this will be made a straight quarterly disbursement, which would put the stock on a 60 per cent. dividend basis. The last distribution to the shareholders was made on Jan. 1, when 15 per cent. (3 per cent. dividend and 12 per cent. stock) was declared.

The other higher priced Cobalts displayed a marked firmness in to-day's markets. Nipissing advanced 5 points to \$10.85, and La Rose was also above its recent level, the share selling as high as \$4.85, under steady buying. There was active trading in the cheaper issues, but price changes in this sector of the list, were small, values holding steady in the majority of instances. Little Nipissing dropped another fraction at 6%, and Beaver and Hargraves made small advances, but were not sufficient to indicate any pronounced trend.

Hollinger continued in good demand and recorded another advance at \$4.30, four points above yesterday's levels.

It seems to be settled from the course that the railway survey now takes that when extended the line will keep well along the concession line south of Miller Lake.

Engineer B. N. Leyson of Toronto is again taking a look over the camp.

The Rea mines did not cause surface exploration work when the snow fell. Some of the more spectacular showings in the camp may be seen here on the surface, turned up with each day's work. There is little probability that the South African Company will release their hold here. A second payment is said to be due.

STOCK WAS OVER-ISSUED

Meeting of Little Nip Shareholders to Go Over Affairs.

A special meeting of the Little Nipissing Mining Company's shareholders has been called for Feb. 17. At the instance of the new directors an investigation into the company's registration books, and it has been definitely found out that an over issue of authorized stock has been made.

This was so stated yesterday by W. S. Mink, secretary of the company. This issue has not exceeded the company's capitalization of 2,000,000 shares, but so far as can be learned about 200,000 shares have been issued, the returns for which should have been made to the company's treasury, and this amount, according to the books, has not been received.

Rumors in this connection have been current for several weeks. The weakness in Little Nipissing is attributed to street gossip.

WILL PUSH OPERATIONS ON DELORO PROPERTIES

Mancha-Newman Syndicate Has 13 Claims, With Several Veins Already Uncovered.

Porcupine City, Jan. 30.—(From Our Man Up North.)—The Mancha-Newman syndicate, holding thirteen claims in southeast Deloro, and one claim near the middle of the same township, have opened work on their group and twenty men leave to-day to uncover and strip the several veins which were opened last fall.

Free gold in a reasonably large dyke was found on two of the claims before the syndicate was formed to operate on the properties. Southeast Deloro has some most excellent showings, and if the slight road were cut now along the west shore line, more development work would be on that quarter to-day, for small holders cannot afford to pay the enormous sum of \$50 a ton to get in provisions and material.

More transportation facilities is the key to further development in the out-lying district of Deloro and Shaw.
