## What Women Would Do If They Allowed to Vote

### WOMEN OPPOSED TO HOSPITAL GRANTS

Miss Boulton and Mrs. Courtice at Winchester School Meeting Argue That Money Is Better Spent on Prevention Than Cure — Great Independence of Thought.

The women's meeting in Winchester school Saturday night to discuss civic affairs was probably one of the most important public gatherings held since the opening of the campaign. It was productive of a rather startling surprise. The two bylaws for money to care for the diseased, which have attracted only favor at all other campaigns were severely criticized and attacked from a purely logical standpoint. The view was taken that too much money is spent on "cure" and not enough comparatively on "prevention." While not advising electors to vote against either the National Sanitarium or Sick Children's Hospital bylaws, both Miss Constance Boulton and Mrs. A. C. Courtice, in carefully prepared and ably delivered speeches, pointed out the danger of supporting philanthropic enterprises from the remedial rather than the prevention side. They pleaded, on the other hand, for greater civic expenditure along such lines as physical development and hygienic education.

Could Be Better Spent.  
Mrs. Courtice, who is principal of Balm Beach La Harp College, and convenor of the educational committee of the National Council of Women, said the large sum of money asked for the Sick Children's Hospital, which probably badly needed, and which a very justifiable demand, would be much better spent in educating children, who are now well, on methods of preserving and improving their health. "How much does Toronto spend upon disease prevention?" she asked. "I will tell you. It is only \$30,000, which is merely enough to pay for the examining of the children and nothing more. Yet we are asked to spend five times that amount in curing the little ones of diseases they might easily have escaped."

Mrs. Courtice then proceeded to show by skilful reasoning how it would be more humane, more philanthropic and more sensible to vote large sums with a view to having every child in Toronto acquainted with the necessary laws of hygiene and to give each

### Women's Influence In Civic Affairs

This municipal election has been distinguished by the appearance of women as an active influence in civic politics. The movement is one which cannot fail to have important results, and it ought to become a permanent organization for the creation and maintenance of keener interest in civic affairs. Three meetings were held on Saturday night, and were well attended, while the addresses were all calculated to awaken the deeper sense of personal responsibility for the improvement of social conditions. Women can do much to stimulate that healthy public spirit so necessary for the realization of high administrative ideals, and their co-operation should be heartily welcomed and supported.

### HIGHER TAX RATE FAVORED BY WOMEN

Mrs. Huestis Says Present Debt Could Be Cleared Up in a Few Years — Women Policemen Necessary and Better Protection for Young Girls Is Strongly Urged.

Toronto should strike a higher tax rate for a few years and clear up the present debt of the city, rather than lower it and increase the debt. Considering the several millions of dollars that are to be voted on New Year's Day, I feel to see the virtue of the proposition of lowering the tax rate," said Mrs. A. H. Huestis at the women's meeting in King Edward School, on Saturday night, held for the purpose of encouraging those women who are entitled to vote at the municipal elections, to go to the polls and cast their ballots. The property owned by the 12,000 women in Toronto who are entitled to vote is valued at \$10,000,000, and that of married women who have no vote at \$5,000,000.

Mrs. Huestis advocated the following improvements, and suggested to the women that they should find out before the elections how the various can-

### POOR SYSTEM OF EDUCATION IN TORONTO

Women Residents of East End District Criticized the Present Method and Charged That It Was a Century Behind the Times — Woman Candidate States Her Views.

The civic government of Toronto, especially in regard to the public school system, came in for some warm comment from the women of the east end of Toronto at a meeting held at Kew Beach School on Saturday night under the auspices of the Equal Franchise League. The chief discussion centred on what the women of Toronto would accomplish had they the vote at the election on New Year's Day. The bylaws to come before the citizens were all considered favorably, the prediction being made that the failure to carry them would prove disastrous to Toronto's future when many still living would see Toronto with a million population. Rev. G. S. Faircloth presided.

Mrs. Mary Cockett, the woman candidate for the board of education in ward one, startled some of those present by the declaration that the money spent in maintaining in the schools was nothing more than spending money teaching the younger generation the most scientific manner in which to kill their fellow human beings. This was something which would cease when women obtained the vote. "When suffrage is universal war will be relegated to the past," she said.

A Century Behind.  
That the educational system of Toronto was a century behind the times was the declaration of Miss Jessie Melville, president of the Junior Suffrage League. The mothers of Toronto realized this, but without the vote their influence on the board of education amounted to nothing. She stated the public schools are not sending out boys to do the work for which they are best fitted. A modern educational system sent the boys and girls out with a definite knowledge as well as a general knowledge of what work they will take up thru life.

Useless Start.  
What was needed was a definite and not simply a general knowledge. The only satisfactory way to supply this need was by the establishment of the trade school. "We have made a start in this regard, but such a small start that it is almost useless," said Miss Melville. "Let an untrained boy or girl apply for work in Toronto."

### 150,000 GARMENT WORKERS ARE INVOLVED IN NEW YORK STRIKE

NEW YORK, Dec. 29.—(Can. Press).—One hundred and fifty thousand men, women and children employed in the men's clothing industry in this city were ordered to go on strike tomorrow by the local executive committee of the United Garment Workers of America at a meeting today. Action to this effect was authorized by a big majority in a recent vote of the workers. Four thousand shops are expected to be affected if the order is obeyed.

Grinds of workers thronged the streets outside the building where the meeting was held and cheered when the strike decision was read to them. Hundreds of persons were prevented by the police from parading thru the east side to show their approval of the order. After the local committee met the national executive committee gave its endorsement and voted to place T. A. Rickert of Chicago, chairman, at the head of the strike. Other national committeemen present included Victor Altman, Buffalo; Meyer Schwartz, Cincinnati; Abraham Gordon, Baltimore; Frank Doyle, Syracuse, and John Bush, Canada.

No announcement was made whether the presence of practically all of the national committee was an indication that the strike would be extended to other cities. The abolition of child labor is asked. Other demands are a 20 per cent. increase, with a minimum wage scale of \$10 a week for women and \$15 for men; overtime work to be paid for at "time-and-a-half" rate; and holiday overtime at double rates; and clean and sanitary workshops.

Strike leaders, discussing the demand for better wages, said that men have been receiving as low as \$8 a week and women less.

### JANE FRAWLEY DIED AGED 93

One of the Oldest Women in Toronto, and Mother of Late Hotel Proprietor.

In the person of Mrs. Jane Frawley, who died at her home, 71 St. David street, last night, Ward Two lost its oldest resident. Mrs. Frawley was 93 years old, and had lived in Toronto for more than sixty years. She was born in Ireland, and fifty-six years ago, at Montreal, married the late John Frawley, who died thirty-one years ago. Mrs. Frawley was in comfortable circumstances, and leaves much valuable property to Katharine Frawley, her daughter, and the only surviving relative. James Frawley, a son, who died three months ago, was a well-known hotelman. Mrs. Frawley was a devout Roman Catholic and attended St. Paul's Church until a few years ago, when her health began to fail.

The Frawley family were well known in Toronto fifty years ago, when they owned a great deal of property on Yonge street and in Rosedale. They were in the dairy business. Real estate at that time was not as valuable as it is today, and the land on which Mr. Frawley's cattle grazed would now be worth millions. Mrs. Frawley, the son, delivered the milk and conducted the business until late in the seventies, when he opened a "livery" at the corner of Spadina and Jarvis streets, where he still lives. In later years he had his home transferred to the corner of Jarvis and Front streets.

### MRS. HARRIS DEAD MOTHER OF 'BOLY'

For Many Years She Was Well and Favorably Known at the City Hall.

After an illness of ten days Mrs. Catherine Harris, mother of R. C. Harris, works commissioner, passed away last night about 8.15, at her home, 50 Balsam avenue, at the age of 87. Death was due to a complication of diseases. Mrs. Harris was for many years in charge of the caretaking staff of the city hall, where she had appointments up till a few years ago, when she gave up her duties. She was very popular among civic officials and employees in general, who will sympathize deeply with Mr. Harris in his bereavement.

### ABSENCE OF LIGHTS CAUSED AN ACCIDENT

Pedestrian Struck by Street Car and Second Car Nearly Struck the Ambulance.

A scarcity of illumination on Front street, near Draper street, resulted in an accident on Saturday night. Joseph MacDonald was crossing the tracks at this point when he was struck by a Bathurst street car.

The injured man was hurried to St. Michael's Hospital in the police ambulance, where it was found he had received several scalp wounds and was badly shaken up. It was so dark at the spot where the accident occurred that several persons allege another street car had to be signalled to stop with a lantern, or it would have struck the ambulance.

The Celebrated English Comedian Here.

### CONVICTED LABOR OFFICIALS MAY GET LIBERTY PENDING OUTCOME OF LEGAL APPEAL

Attorneys For Defence Will Apply For Bail After Sentences Are Pronounced—Judge Has Power to Dismiss or Merely Fine Individual Prisoners—Dramatic and Touching Scenes Followed Verdict Returned at Indianapolis.

INDIANAPOLIS, Dec. 28.—(Can. Press).—Following their conviction for sharing in a conspiracy to blow up non-union works, the 28 officials of the Ironworkers' Union are tonight imprisoned in the Marion County jail. They are placed four in each cell on the second floor of the gray stone building, within a few blocks of the heart of the city. Punishments are to be imposed upon the men by Federal Judge Albert B. Anderson on Monday at 10 a.m. Monday's procedure, according to custom, will be first a motion by the government for judgment on the verdicts. The prisoners' attorneys may then offer motions to set aside the verdict on account of lack of evidence. The imposing of sentence will then be in order. Judge Anderson may ask the prisoners singly or in groups whether they have anything to say why judgment should not be imposed upon them. A wide discretion rests with the court as to the amount of punishment. Under the convictions the court may dismiss any prisoner, or impose a money fine or sentence any of all of the men to terms in a federal prison not exceeding thirty-nine and one-half years. Senator Kern and other attorneys for the defence already have stated

that appeals in behalf of the convicted labor union men will be taken to the U. S. circuit court of appeals. Will File Petition. To bring this about the attorneys will file here a petition for writs of error, accompanied by bills of exceptions to be signed by the court. This petition may be filed at any time within the present term which expires next May. Upon the grants of the writs of error they may apply either to this district court to the U. S. circuit court for supersedeas bonds. If bonds are granted and the prisoners are able to furnish them they may remain at liberty pending the appeal. Otherwise the men are to be imprisoned. Because of their inability to procure bonds ranging from \$5000 to \$15,000 four of the men now convicted were kept in jail during a great part of the trial. "We have taken no steps to provide bonds," said Attorney Harding for the defence. "We can do nothing until we learn after the sentences are imposed how high the bonds will be. If the men are admitted to bond and we can furnish the bonds, we shall use every effort to get them out of jail." Continued on Page 3, Column 4.

### LAWRENCE FORTESCUE TO CONTROL N. W. M. P.

Will Succeed Lieut.-Col. White, Who Has Occupied Post Since 1878.

OTTAWA, Dec. 29.—(Special).—An important change in the administration of the Northwest Mounted Police takes place on Tuesday when Lieut.-Col. Frederick White, C.M.G., comptroller-general since 1878, will retire and will be succeeded by Lawrence Fortescue, I.S.O.

Lieut.-Col. White has been in the government service for 45 years and has rendered distinguished services to Canada, particularly in the administration of justice in the west. The new comptroller first enlisted as a private in the ranks of the force, and after an adventurous career returned to Ottawa to join the office staff, having been accountant and assistant comptroller for some years.

### THE PARCEL POST

(From The Philadelphia Record.)  
The parcel post goes into effect January 1, 1913.

As a convenience it takes rank with the telephones. We have had for nearly 30 years a publishers' parcel post.

This unlimited cent-a-pound service has been a stupendous factor in public education. Our new parcel post provision is sadly limited, but it is a beginning and that is good.

Small packages may now be sent within certain zones at a minimum of cost to the sender. Large packages, weighing over 11 pounds, cannot be sent by mail, unless they are divided.

The transportation of small packages within the territory of each local city or country postoffice will now be done by parcel post. Women helped to gain parcel post by their earnest pleadings in behalf of isolated farm women in the rural districts whom it would benefit.

The women of some European countries enjoy a collection and delivery postal service which only requires the use of the telephone to enable them to supply their wants and dispose of their wares on reasonable terms without even leaving their homes.

### SENATOR CAMPBELL ILL.

Senator Archibald Campbell was removed to Wellesley Hospital about eleven o'clock last night from 7 Admiral road, in Miles' motor ambulance. He was taken ill just before he intended to retire. Dr. Andrew R. Gordon, 235 West Bloor street, was summoned. The physician, when asked by The World, stated that he did not know the nature of the senator's illness, and a diagnosis would be made today, his condition not being serious.

### ADVISED CONGREGATION FOR WHOM TO VOTE

Rev. R. J. Treleaven Reviewed Work of Council and Named Slate For Controllers.

Instead of preaching a regular sermon at Carlton Street Methodist Church last night the pastor, Rev. R. J. Treleaven, reviewed the work of the city council during the past year, particularly with regard to its obligations on moral issues. He referred especially to the Sunday sliding campaign. The records of the men who voted for and against the proposal to keep the slides open on Sundays were reviewed by the preacher. He read newspaper clippings to show that the advocates of Sunday sliding were actively opposing those who had voted against the proposition in council.

"When the advocates of an open Sunday make themselves active in a campaign, it is the duty of all Sabbath-observing people to support the candidates for board of control who stood firm for an English Sabbath," said Mr. Treleaven.

He therefore urged all church attendants to cast their votes for Foster, Spence, Yeomans and McCarthy. At Trinity Methodist Church last night Rev. Isaac Tovell read extracts from a circular issued by Rev. W. Rochester of the moral and social reform department of the church, in which those members of council who voted for and against Sunday sliding were named. The people were advised to cast their votes for the aldermen and controllers who stood for a closed Sabbath.

### WILL NOT TOUCH COLONIAL DUTIES

Austen Chamberlain Corrects Mistaken Idea of Bonar Law's Stand on Tariff Reform.

LONDON, Dec. 29.—(C. A. P.).—Austen Chamberlain, giving the exact interpretation to be placed upon the Bonar Law Ashton speech, says: "What the Unionist leaders seek from the people is power to arrange a reciprocal preference with the overseas dominions, but exactly what the amount or character of that preference shall be can only be settled when the British Government is capable of concluding such an arrangement. All parties must retain their autonomous rights. The Unionist party have no more pretensions to fix colonial duties than they have to fix ours. We believe commercial union would be to mutual advantage, and I don't doubt a satisfactory agreement could be come to as soon as our people have invested our government with the necessary powers."

HIGHER TAX RATE FAVORED BY WOMEN

The question is asked, "What experience have you?" There is no time in this age for apprenticeship. That is something that has gone with the old and slow generations.

"We need a housing commission," said Mrs. Huestis, "because without one, the construction of health is impossible. This commission should submit a housing bylaw to the legislature which would prevent the building of more squalid houses."

"Public Ownership," said Mrs. Huestis, "because without one, the construction of health is impossible. This commission should submit a housing bylaw to the legislature which would prevent the building of more squalid houses."

"We should have municipal control of tuberculosis institutions; we should have municipal abattoirs and municipal milk pasteurization. A home for feeble-minded women is another necessity in the City of Toronto, even if it were only to protect young women from the attacks of men who are so devoid of conscience as to be willing to take advantage of their misfortune."

"The Best Method," said Dr. Margaret Gordon, who presided at the meeting, said that the best way to show the government that women want the vote and will use it if they get it, is for those women who have the necessary property qualifications to vote, to go to the polls and cast their ballot in every election, instead of breaking windows and tearing up car tracks and the like, as the militant suffragettes are doing in England.

Mr. C. McIvor told the women that it was their duty to make their own privilege, even if it were only to make sure that some less reputable women were not voting under their name.

POOR SYSTEM OF EDUCATION IN TORONTO

The question is asked, "What experience have you?" There is no time in this age for apprenticeship. That is something that has gone with the old and slow generations.

"It is the duty of the citizens to see that the child leaves school ready to earn a living wage and to take a proper place in the community. That is the reason the women of this city want a say in the civic government."

"Right here is where the woman's vote has got to come. A woman is not an adventitious member of a man and what is more spends it to better advantage and with less waste. She learns the value of the money in the connection with the household."

"The woman candidate for the board of education, Mrs. Cook, who followed Miss Melville, agreed heartily with what had been said regarding physical development even more important than mental development. "How could a child who was physically deficient be expected to properly assimilate even the present mental education offered?" she asked.

"Will Help Women." W. E. Orr, the Beaches' Progressives Association, said that the declaration that if the women of Toronto who at present possess the ballot turned out to vote in anything like the proportion that they should do would do his utmost to help the women of this city not at present enfranchised to obtain the vote.

The Best Argument. Mrs. F. A. Hamilton, president of the Equal Franchise League, said that the assertion made that women's vote in the home was the best argument that could possibly be made for woman suffrage.

SPLENDID SCHOOL SYSTEM PROMISED

North Toronto Will Benefit Greatly by Its Union With the City of Toronto.

BOARD HOLDS BANQUET

Last Gathering of Annexed Town's Educationists Was Enjoyable Affair—The Toasts Were Many.

The North Toronto high and public school boards held an informal conference and supper in the Masonic Hall on Saturday evening.

Those who formed the public school board of the annexed town were B. T. Palmer, chairman; Robert Armstrong, James Logie, John Cook, Chas. Spittler and J. S. Davis, Jr., with H. C. Cooper as secretary-treasurer.

B. T. Palmer presided over the banquet, and with him were Ex-Mayor A. J. Brown, R. D. Fairbairn, W. H. Shaw, and J. S. Davis, Jr.

After supper was partaken of and the toast to the King honored, A. W. Urmy, principal of the Davilleville avenue school proposed "Cans" and Geo. H. Reed, principal of North Toronto high school, responded.

Proud of Schools. "The City of Toronto" was proposed by Ex-Mayor Brown, who said that he always had a sympathetic heart for educational institutions and did his best to advance education in North Toronto while it was a separate municipality.

MALVERN

Death came suddenly on Saturday to Thomas Weir, a well-known farmer in Malvern district.

He leaves a widow and three children, but no feeling was suspected. With very short warning he was seized with a violent attack of appendicitis and passed away in a few hours.

Other candidates for civic honors also spoke, including H. H. Ball, D. D. Reid, G. R. Sweeney, Thomas Davies and Ald. O'Neill.

Entertainers. Children. The primary class of the Eglington Presbyterian Sunday School met at the residence of their teacher, Mrs. James Logie, 15 Erskine avenue, Saturday afternoon, at which about sixty of the little tots were present.

They engaged in playing games, giving recitations and singing songs. Mrs. Logie provided tea for her little guests, after which each one was presented with a book.

Calamity—Almost. The Pickering News has the following item in its last edition: On Friday evening about eight o'clock a village had a narrow escape from what might have been a most serious disaster.

A well-known resident of Whitby had gone to Toronto with his team and wagon to secure a load of dynamite for use on the C. P. R. While in the city he lunched too freely and on his road home with his dangerous load he was overtaken by a fire.

Prisoners who receive terms longer than one year are to be taken to the federal prison at Leavenworth, Kansas. A special train will go by a secret route.

Details as to the time of leaving Indianapolis and its arrival at Leavenworth are not to be made public. It was learned that Marshall Edward Schmidt, who will accompany the prisoners, already had prepared for a special train, which will leave as soon as possible after the sentence. A delay in the arrangements may be occasioned by appeals which must act as stays on the execution of the court's judgments.

District Attorney Charles W. Miller, who prosecuted the cases for the government, said he would oppose any appeal for light sentences in the cases of certain of the prisoners.

Each prisoner had been handcuffed immediately after the courtroom was cleared of spectators and before deputy marshals they were marched five blocks through the streets in a brilliant winter sun.

The prisoners, each visible to the others through the bars, were variously dressed. Some wore light-colored suits, while the jury's verdict in light suits, while the appointment plainly was written across the forehead of each prisoner.

Outside the jail there were enacted a scene in which the prisoners, their wives and children of the defendants.

That verdict, delivered in the sombre courtroom in so brief a time, struck, first, silence, and then a hubbub of hysterical sobbing among the women who had months had hoped for a different result.

Some of the women attempted to climb over the railings which separated them from that part of the room where the defendants sat. Arms appealingly were stretched forth. Mrs. Frank J. Higgins of Boston fainting as she saw her husband being taken away.

Others began to cry, but the orders of the court were inexorable.

At the door of one of the corridors of the jail, President Ryan of the court, who was interviewed tonight, he was not allowed to be seen in his cell, but in response to a request he was led out.

"I have nothing to say about the verdicts except that we are here to be incarcerated, in olden times they used to cut off the ears of prisoners."

"What was done in the interests of the townworkers' union that all but two of the officers were sent to jail at this time," replied Mr. Ryan.

J. E. Cleland, who recently was appointed secretary of the union to succeed Hookin and Ed Lewis, a member of the executive committee, said the officers' new out of prison.

WHY VOTE FOR GOOD ROADS?

Toronto Daily News-papers Answer.

The Telegram says (Sat., Dec. 28): "GOOD ROADS ARE EVERYBODY'S FRIENDS and the good roads bylaw should have everybody's support."

"Good roads remove the difficulties that separate the producer in the country from the consumer in the city."

"Good roads increase Toronto's attractiveness as a place of residence."

The News (Sat., Dec. 28): "Every farmer within twenty miles of Toronto should be able to send his produce in by road. We should not be left behind from the surrounding country by impassable roadways. Good roads more when it reaches the consumer via railways, express companies and wholesale houses."

A VOTE AGAINST GOOD ROADS IS A VOTE FOR BAD ROADS.

Record Gate at Saturday's Hockey Game in Arena

Note and Comment

There were no records on the ice Saturday at the Arena, but all gate and attendance marks for hockey in Toronto were smashed...

The six men a side game continued to serve up spectacular hockey. On Saturday night it was one grand affair after another with a little combination thrown in to assist in the controversy with the rabid supporters of the old seven-side style.

The summary of goals shows that the Wanderers had it not all their own way for twice the Indians drew level and their best of the decisions of the officials and that at least three successful shots were nullified by the whistle for all-side. However the casual observer could easily discern the superior play of the visitors, especially in the third period, when they scored almost at will. It is a fact that the Wanderers played three men on defence, besides their goalkeeper after their score in the first half, and not only kept out the Indians till time was up, but added a couple more for good measure.

The pro record shows Canadians to have a clear lead in the N.H.A., due to the two victories over Toronto and the latter is at the bottom of the list. The Teumeshs are of course also without any percentage, but they are drawing fine. Whether the local teams can progress along this line remains to be seen. Toronto fans were never needed for support, but with resourceful managers like Ridpath and Nicholson, new blood is sure to be infused into both teams.

Hockey Gossip

The Queen City Hockey League session will consist of the following teams: In District No. 1, St. Marys, O.K.'s, Russell Motor and Tates, in District No. 2, C.R., Maxwellville, High Park and another team. The junior series consists of: in District No. 1, St. Marys, O.K.'s, Russell Motor and Tates, in District No. 2, Weston, Yale, B.O.B. and another team.

Eddie Lowrey and Burnett of the New Edinburgh team have decided to turn pro. If the Sydney Club of the Maritime League will pay them \$800 for the season. Some difference between our O. H. A. stars and the international ones. H. A. Mamme was offered \$200, while Lowrey and Burnett have to ask for their.

Billy Smith was elected captain of the Stewart's Hockey Club on Friday night. Billy has been acting captain since the beginning of the season, but was not formally elected until then.

Russell Bowie, who was referee at the pro game Saturday night, with the Montreal Victoria. Bowie is no chicken, but he has still got some 'nose' and should be a good asset to them.

Art Ross, captain of the Wanderer team, will be presented with a loving cup before the Teumesh-Wanderer game on New Year's night. The cup is the gift of his fellow-players of the Wanderer Club, and the presentation will be made by the Mayor of Montreal.

BASEBALL GOSSIP.

Bob Clark, the Pirates' manager, will begin his fourteenth year in this capacity next spring. His record speaks for itself. During his long engagement with the Pirates he has captured one world's championship and never has finished lower than fourth in the National League race. While Pittsburgh has had but one manager in thirteen years, the other major league clubs have employed a total of eight to nine, not one whom, in harness at the beginning of the 1900 campaign, is left. Clark's nearest rival in point of service are Connie Mack, who took hold of the Athletics in 1901, and John McGraw, whose engagement by the Giants occurred in 1902.

John Ganzel has completed the make-up of the Rochester team for next year, although he is always on the lookout for new talent. The pitchers include Jack Quinn, Bobby Keefe, Tom Hughes, Ed Klapper, Wilbur Upham, Akere and Dave Martin. Walter Blair and Fred Jackel are the catchers. Ganzel has two first basemen, Charlie Schmidt and Ted Anderson. Hook Simmons will play second base, and Del Padock third base. Jack Martin will cover short field, unless Ganzel can recover Tommy from the hospital. Ed Anderson and W.D. Conroy will look after the outfield positions.

Montreal Teams and Quebec Are Winners in N. H. A.

Montreal, Dec. 28.—Experience, combined with luck, won rather a decisive victory for the Canadiens over the Teumeshs by a score of 5 to 4. As this was the first appearance of the Indians, the Toronto fans turned out nearly 400 strong to see the newcomers proceed to down the squad from Peasopville. Somehow or other, it did not come off, and either the newcomers were not up to the mark, or the Indians would turn the tide in the hockey situation. But Sammy was not to be denied, and his collection of stars, and on hand to turn the trick except Sprague Chesbrough, who is under suspension for a week. However, and was an enthusiastic roter for his team. The game was a good exhibition of the individual style of play, and the crowd was more than delighted. The first two periods were rather tame, but they easily made up for any loafing they may have displayed by tearing things loose in the last. The fans were all kinds of encouragement, and when he scored a goal by himself, he was cheered to the echo. The Indians, however, they never let up as long as they lasted.

The Teumeshs lacked condition, although they have been practicing for two weeks, while the Wanderers are in grand shape, considering the practices they have had. The Teumeshs showed their experience on the defence and letting the Teumeshs run themselves to death. Then they came away and made a sieve of their opponents' net until the end of the game. The Indians were the only face from the east, and for the first game of the season he showed all kinds of specialties, which they never let up as long as they lasted.

Franchises Under Wraps. In the early stages the Canadiens appeared to be under no restraint, and did not play their best until well into the second quarter, during which time they played the visitors a little better than they were. In the closing period the visitors held their own, each team scoring a single goal. With the exception of the first few minutes the game was fast, although the Toronto seemed to have the pull until the Canadiens scored. The Canadiens were the first to score, Pitre making one of his shots from the side, which Holmes did not see, and it dropped into the net. The visitors then became the aggressors, and for nearly five minutes they had the better of the play. McGiffen, from the back-off, near the Canadiens' goal, scored.

This was followed by another, secured by a combination play of McGiffen and Pitre, the latter drawing Vesina out of the net, and thus getting a clear shot. In the next period Vesina was resumed, and Pitre was the first to score, putting his team in the lead again. The Toronto players seemed to have a better chance of scoring, but they were unable to do so. Foyton accepted an opportunity to tally his own, and the game was a draw. The Canadiens scored in less than a minute, putting Toronto in the lead again. The Toronto players seemed to have a better chance of scoring, but they were unable to do so. Foyton accepted an opportunity to tally his own, and the game was a draw.

O. H. A. Teams Cannot Play Hamilton Alerts

At Saturday afternoon's meeting of the Ontario Hockey Association executive the Hamilton Alerts were dropped from membership, and a barefaced attempt at a wholesale violation of the rules and principles of the association was effectively disposed of. Any other course would have been impossible. The committee's action was the result of the application of the Alerts for certificates for a dozen players who were brought from all parts of the country, and planted in Hamilton in time to get within the residence rule date. Some of them are notorious for their traveling propensities, Macdonald and Gustin being last in Cleveland, while others hailed from Kingston, Orillia, Detroit, Peterboro and Ottawa. Among them were: H. G. Mohan, Reg. Boyer, E.C. Langman, Clayton, Frechets, Fred E. Denison and B. V. Hantz.

At Saturday afternoon's meeting of the Ontario Hockey Association executive the Hamilton Alerts were dropped from membership, and a barefaced attempt at a wholesale violation of the rules and principles of the association was effectively disposed of. Any other course would have been impossible. The committee's action was the result of the application of the Alerts for certificates for a dozen players who were brought from all parts of the country, and planted in Hamilton in time to get within the residence rule date. Some of them are notorious for their traveling propensities, Macdonald and Gustin being last in Cleveland, while others hailed from Kingston, Orillia, Detroit, Peterboro and Ottawa. Among them were: H. G. Mohan, Reg. Boyer, E.C. Langman, Clayton, Frechets, Fred E. Denison and B. V. Hantz.

Stanley Gun Club.  
On Saturday the club spent a very enjoyable afternoon. There was a strong wind blowing across the traps, but nevertheless there were some very good scores put in. Mr. G. M. Dunk of the Dominion Cartridge Co. gave a very good account of himself, breaking 93 out of 100. Ely was also in form, making 25 straight. The club wishes to call attention of all shooters, that it will hold a turkey and dove shoot on New Year's afternoon, beginning at 2 o'clock, open to all-comers. Come and bring your friends and start the New Year right. Following are the scores:

Guelph Signs 'Em Up.  
GUELPH, Dec. 28.—President W. A. Mahoney of the Maple Leafs received a wire from Louis Cook, manager of last year's pennant-winning Ottawa team, accepting the terms for next year, and it is now definitely settled that Louis Cook will manage the Leafs next season. Pressed Mahoney has received a letter from Joe Dunn, catcher and outfielder, and he wants to come back to Guelph next year. Word has also been received from Catcher Daniels and First-Baseman Brady. They are anxious to return to Guelph. No trouble is anticipated in securing the other members of the team.

## QUEBEC'S NEW TEAM OUTSCORE OTTAWA

### Good Article of Hockey Put Up Tho Play Was Not First-Class at the Ancient Capital.

QUEBEC, Dec. 28.—By the score of 7 to 2, Quebec defeated Ottawa Saturday evening in the first game in the championship series played here this season.

Altho the play could not be considered first-class, yet, for a opening match, it was a good article of hockey was put up, both teams evidently playing with a determination to come out victorious.

While the Quebec team played better, it was by no means rough, and any penalties inflicted were for minor offences. The referee and assistant kept the game well in hand, not the slightest infringement of the rules escaping their notice.

Ottawa was a clear favorite among the bettors. This was due to the fact that it was the first senior game that the majority of the Quebec team played together, while, on the other hand, with one exception, the Ottawa team was the same as played last season.

The game started at 8:25, with an attack on Quebec's goal, and Moran was kept busy for a time. However, Quebec's defence succeeded in relieving, and the Ottawa goal was attacked. End-to-end play followed, until Lake secured the puck and scored the first goal for Ottawa in the second.

The second was the hardest of the match, the play being pretty evenly divided. Ottawa, if anything, having the better of the play. Brodeur finally brought it to a close by scoring. The third goal was scored quickly by Marks.

Mumery replaced Rocket Power as cover-point for Quebec in the first period. Then the puck was carried to the Ottawa end, Smith secured the puck and scored the first goal for Ottawa in the second.

Both teams evidently thought this was the turning of the tide, and each put forth their greatest efforts to win. There was no letting up on any part, each doing their best. Finally, in 8:30, Dennison scored again, putting Ottawa in the lead. After eight minutes' play, Malone increased Quebec's score to six, and two minutes later Marks added another, making it seven to three. Ottawa was now completely outplayed, and altho making a plucky stand, was unable to score.

—First Period—

1. Ottawa	Lake	2:35
2. Ottawa	Brodeur	5:55
3. Quebec	Marks	6:40

—Second Period—

4. Quebec	Smith	1:00
5. Ottawa	Dennison	8:29
6. Quebec	Malone	8:50
7. Quebec	Malone	9:20
8. Quebec	Smith	9:50

—Third Period—

9. Quebec	Malone	8:00
10. Quebec	Marks	2:00

Summary:  
Quebec: goal, Moran; point, R. Power; cover, Hall, centre, Malone; right, Marks; left, Smith.  
Mumery replaced Power in second period, Benedict replaced Lesueur in third period.  
Referee: J. T. Brennan. Assistant—Charles McNameara.  
Moran, Malone and Mumery were the stars for Quebec, while Lesueur, Darragh and Lake horse most for the Ottawas.

Estons New Year's Bowling Tourney.  
The annual bowling tournament of the Estons A.A. for the J. J. Vaughan Trophy will take place on Wednesday morning next (Jan. 1), on the Toronto Bowling Club and the Athenaeum Bowling Club alleys, commencing at 9 o'clock sharp. Each contestant is to roll three games. It will be a sealed handicap competition, and all money received over and above charges for the alleys will be spent on prizes. There will be sixteen prizes in all. The J. C. Eaton trophy emblematic of the championship between the store and factory for teams composed of ten men each from the different sections will also be competed for at some date shortly after the tournament.

The twenty men are to be selected for the New Year's tournament, those having the largest scores without handicap to make the teams. It is expected that Mr. George Dean will captain the factory stalwarts again and Mr. Harry McGee, the store boys from the bench. Mr. J. C. Eaton will officiate as final referee.

On the evening of the last game for the J. C. Eaton Cup the issues for the New Year's tournament will be given out. Messrs. V. E. Dennis, C. N. Mills, W. J. Bowman and Charlie Templeton will be a committee to look after the boys at the Toronto Bowling Club and Messrs. Geo. Studholme, Ed. Tolley, W. Hayward and W. J. Smith the secretary-treasurer, will act in a like capacity at the Athenaeum Club. Contestants can choose the alleys they prefer to roll off their games or but can only roll at one club.

Entries must be handed in to George Studholme, J. T. de la. Abby, factory time office; Ed. Tolley, J. T. de la. Minty, printing dept.; V. H. Dennis, S. I. de la. C. Templeton, Engraving, or the secretary-treasurer of the association. Entrance fee is 50 cents, which pays for the games rolled. All entries must be in by 5 o'clock on Monday, Dec. 30.

MONDAY MORNING, DEC. 30, 1912

THE MONEY BYLAWS.

It is not likely that the freeholders of the city will refuse the plans of the retiring council as embodied in the money bylaws to be voted upon on Wednesday. The sum in the aggregate seems a large one, and thirty years ago would have been large for a city only a third of the present size and wealth. But Toronto has grown tremendously and will continue to grow if it be not dwarfed by ill-adviced treatment and starved of those improvements which are essential to its development.

The waterworks bylaw of \$6,000,000 is the result of a generation of consideration and experiment. The only alternative is a gravitation system, bringing water from Lake Simcoe or Georgian Bay. Estimates for these have been given as high as \$30,000,000. The Scarborough plan will serve the city for many years to come, and will always be capable of expansion.

Once the sewage has been disposed of otherwise than by dumping it in the water supply, the city will have in Lake Ontario as fine a source as could be obtained from the north. There is a sincere and genuine difference of opinion over the additional filtration plant. Experts pro and con have declared for the usefulness and uselessness of the plant. There is no doubt about the grounds of dissatisfaction found in the erection of the plant. Whether they are serious enough for censure is another point of difference.

We think filtration is a poor substitute for pure water, and would prefer to see the emphasis and the millions placed on the purity of the supply rather than the purification. The ratemakers must be left to deal with the filtration scheme according to their taste and judgment. The M. O. H. says it is necessary.

There should be no difference of opinion about any of the other bylaws. They all make for the prosperity of the city and the increased value of real property in Toronto.

The freeholders are getting the chance to improve their own property at the expense of the city generally in voting for them. The waterworks bylaw will be charged on the consumers. The good roads bylaw is a step towards the reduction of the high cost of living. The voting of \$100,000 means the expenditure of \$200,000 in road improvement around the city, the province and the county supplying the rest of the money. What adds to the attractiveness of the city as a place of residence or of business, benefits every foot of land in the city boundaries.

Landlords who vote down money bylaws of this description are only cutting off their noses to save pocket-handkerchiefs.

The campaign for the Elbow street viaduct has attained a climax by the capitulation of all its opponents. To oblige the Rosedale residents a change has been made in the plans, and the papers which formerly opposed the proposal are now supporting it. The cost of \$2,500,000 will be covered easily in a short time from the increased taxation which the enhanced value of property adjacent to the east end of the viaduct will bring in.

The garbage disposal plant has been found self-supporting in some cities. It affords the only sanitary and satisfactory way of dealing with garbage. It is a health measure as well as a convenience, and the city can no more afford to do without it than a house can do without a garbage receptacle.

The two charity bylaws should be the first to be marked by voters. The sums asked for the Hospital for Sick Children and the King Edward Memorial Fund in aid of the Free Consumptive hospitals do not amount to a cent a head of the population. In both cases the money voted will supplement larger activities of a private nature carried on for the support and maintenance of these charities. The city helps both institutions in other ways, but the present grants are necessary to meet the pressing claims for care and cure which arise in such a large community.

It should not be forgotten that the money to be voted will all be spent in or near Toronto. The waterworks vote will not all be spent at once, but spread over some years. A start cannot be made until the plan is endorsed. The money voters are not doing anything very heroic in voting the \$14,000,000 or so asked for; but will benefit themselves individually as much as the community collectively by the wise policy of investment in

necessary improvements which the bylaws represent.

SIX NEW MEN.

Many people are rather disgusted with the old city councils of the past ten years and would like to see enough new blood infused into the aldermanic stock to raise the standard. The hope is in new men. One new man from each ward would be a sensible addition to the forces of organization and progress. We have been asked to pick out one man in each ward about whom there could be no doubt or dispute of his value to the city government. To do so without regard to politics or pull, but simply on the merits of the cases, is not an easy job, but we submit the following list as worth plumping for by those who are not so much concerned about getting old members back as getting a new deal altogether. At the same time we believe that in every case it will be found that these men will be found on the ballots of those who vote for three aldermen:

First ward—Walton. Second ward—Ball. Third ward—Burgess. Fourth ward—McLeod. Fifth ward—McElduff. Sixth ward—Maybee.

SUCCESS OF COMMISSION GOVERNMENT.

Upwards of two hundred cities and towns in thirty-three states of the neighboring republic are now under commission government. Their combined population approximates 5,000,000 and they range in size and importance from large centres such as St. Paul and New Orleans down to towns of less than 2000 inhabitants. The bulk of this extension of government by commission has happened since 1905, and in no case has any desire been expressed to revert to the older plan of a council elected by wards. That ward system has been the main cause of much of the corruption and inefficiency that has characterized the administration of American cities.

One of the best arguments in favor of the commission government in the United States has been afforded by the furious opposition to its adoption offered by the political organizations that have used municipalities to support their control of the electorate and the legislatures. Under the old system the purification of city administration was a matter of great difficulty and entailed a renewal of strenuous effort with every election.

Commission government once established has perpetuated itself because of its proven efficiency and the ease with which the people can secure and protect honest and capable administration.

A NEW NATURAL PHILOSOPHY.

Mr. J. W. Bengough calls attention in his poem on "The Voyage of the Natal" in Saturday's Globe to an interesting fact in natural history not previously noticed, that seabirds avoid the vicinity of a man-of-war. Mr. Bengough's poetic phrase is:

"The massy symbol of dread war, That 'en the friendly seagull shuns."

It does not appear that seagulls make the same distinction for naval reserve boats, and perhaps it is only where the vessels are on active service in the navy that the instinct of these delicate creatures of wind and wave is aroused. But it is to the credit of Mr. Bengough to have noted this remarkable demonstration of the innocent seagulls against "the horrid instruments of war."

BRITISH STREET RAILWAYS.

Several British cities have either already arranged for or are considering the establishment of motor bus systems either as adjuncts or feeders of their street railway undertakings. Liverpool has already one in operation; its cost having been about \$4000. It embodies some novel mechanical features, the most important being in its driving power—an electric motor driven by a petrol engine. A second bus of similar type has been ordered. Glasgow street railway committee has remitted to a subcommittee the proposal to acquire a number of motor buses intended to tap the districts in the neighborhood of the various street railway terminals and for use at night.

For the half year ending Nov. 30 last the Glasgow street railways carried 150,016,523 passengers, an increase, compared with the corresponding half of the previous year, of 21,215,619, whilst the receipts, amounting to \$2,460,000, show a decrease of \$47,000. This is due to the extension of the one cent stage from one-fourth to one-half of the penny stage. Under the new arrangements the one cent fares have increased from less than 26 millions to over 91 millions, or 69 per cent of the whole, while the two cent fares have fallen from 59.1-2 millions to less than 43 millions, or 2.8 per cent of the whole. Passengers can now travel a little over one mile for one cent. More than 40 per cent of the Glasgow system now extends beyond the city boundaries.

Dr. Hastings should beware lest his advice and practice cease to be practical, and give citizens the impression that he is becoming a doctrinaire. The prosecution of a man for keeping a few hens in his yard, coupled with the gratuitous attack on the only institution that is affording any relief for consumptive patients among the poorer classes, and the inefficiency of the filtration plant are arousing comment. Those who use him will be the first to abuse him.

'INSPIRED' FORECAST ON WILSON CABINET

It Comes by Way of Ottawa, But is Hailed as Inside Information—Bryan Not Mentioned.

OTTAWA, Dec. 29.—(Can. Press.)—The adage of going abroad for news of home fits the case of a U. S. cabinet prediction which comes to light thru a letter received here thru a most reliable source. It is to the effect that a friend of Gov. Woodrow Wilson, president-elect of the U. S., who spent several weeks with him in Bermuda, has stated that the following appointments are as good as assured: Attorney-general, Wm. H. Taft; Secretary of the State, Edward H. House; Texas, a life-long friend of Gov. Wilson; secretary of war, James Creelman; New York, president of municipal civic service commission, postmaster-general, Joseph Daniels of North Carolina, or Wm. B. Lamar of Florida, attorney-general of Florida. The writer observes that the traditions of democracy are preserved in these selections, "and wisely so," there being but one name, that of Lamar in the prospective cabinet.

The Wise Man

There is a man in our town, and he was wondrous wise; for early in December he bought a stack of ties. He sought his haberdashers and thence they addressed: "I want some light-colored ties to ornament my breast. The ties which once I cherished my wife has meanly burned; my best loved scarfs have perished, and are to ashes turned; and feminine relations have aimed most forceful views upon the art-criticisms in ties which I would choose. When I'm myself adorning, one which to me seems as beautiful as morning the house is filled with screams. And when I go out walking they at it loudly moan; they say they hear it talking when halfway down the block. It seems to me 'tis weakness to play a coward's part, and with a show of meekness, admit a change of heart. In ties of flaming brightness my ego's best expressed, all color, fire and lightness, like sunsets in the west. My mind is dark and dismal when sombre ties I wear; I sink in depths abysmal, bowed down by carking care. But in ties of blue, of character and force, my joy is most excessive; I feel just like a horse. I trust I am forestalling who knows what tame cravat, by personally calling to your attention. And so I want some screamers to twine around my neck—some really nifty streamers with which my throat to deck. Then pick me out some trap-pings of gay and giddy hue—but, lest they cause more scrapplings, just make them navy blue. His is a good example; we should express our views; but from some peaceful sample let us our fixings choose." Sherwood Hart.

SUBTERRANEAN STREAM THREATENS BIG TUNNEL

Project to Connect Italy and France Thru Jura Mountains May Have to Be Abandoned.

BERNE, Switzerland, Dec. 28.—(Can. Press.)—The engineering difficulties in connection with the construction of the Mont d'Or tunnel thru the Jura Mountains between Italy and France, appear for the present to be insoluble. The stream of water which burst into the tunnel on Dec. 23 and caused hundreds of laborers to flee, has increased in volume ever since, and has caused the River Orbe in the vicinity to swell to a dangerous extent. The whole of the surrounding valley is inundated. The engineers in charge declared that unless the subterranean stream can be diverted the tunnel works must be abandoned.

WATERWORKS BYLAW.

Editor World:—As a bylaw is to be submitted to the property owners on the waterworks debentures, I would like you to favor us with the report given by the experts some time ago, who were engaged by the city, Mr. Mansergh being one of them. The object is to consider it again so that we can entertain it in a business-like manner. If I am right, it was evident at the time the report was presented, the interest on the bonds for the Lake Simcoe project were far greater than the interest on the debentures. Since then we have spent an exceedingly large amount on the present system, far beyond our expectations, and with very unsatisfactory results. Now the authorities are asking for \$8,052,000 more, and when it is done, will it be guaranteed a good job? Why not consider the question again? E. C. Walker.

REJECTED LOVER KILLS WAITRESS.

BUFFALO, Dec. 28.—(Can. Press.)—Before a crowd of diners in a Niagara street luncheon, John Valiquette, 42 years old, a deaf mute, tonight stabbed to death Julie Goodie, 21 years old, a waitress. Valiquette came from Springfield, Erie County, to marry Miss Goodie today. When he called at the restaurant she refused to go with him. Valiquette drew a knife and stabbed her three times in the breast. He made no effort to escape. The girl died half an hour later.

SMALL DONATIONS FOR LARGE FUND

Cheque Was Received on Saturday From Late Patient Who Appreciated Kind Treatment.

Many of the small subscriptions received by the trustees of the National Sanitarium Association for the King Edward Memorial Fund for Consumptives are as noteworthy in their way as the larger gifts, because of the attendant circumstances. A cheque for \$100 was received last week from Messrs. Ignatius and Robert Halford of Madstone, Kent County, accompanied by a letter explaining that it was a bequest to the Muskoka Free Hospital from their late brother, John Halford, in grateful remembrance of the care and attention which he had received while he was a patient at that institution. No more effective tribute could well be paid to any institution than a mark of appreciation in such substantial form from one who had partaken of its benefits.

ODDFELLOWS HONOR D. M. McINTYRE.

KINGSTON, Dec. 29.—(Special.)—D. M. McIntyre, chairman of the Ontario Railway Board, and retiring president of the Oddfellows' Relief Association, was on Saturday night tendered a banquet by the directors' association of the Frontenac Hotel and presented with a gold watch and chain and illuminated address. The presentation was made by Vice-President John Donoghue, Toronto. Mayor Hoag was one of the guests of honor, and out of town guests included Henry White, Port Hope; J. A. Robb, M.P., Valleyfield; J. J. Keed, Montreal; Grand Master of Ontario, F. S. Evans; Wm. Brooks, Toronto; T. J. Potter, Montreal.

At Osgoode Hall

Dec. 28, 1912. Master's Chambers. Before Geo. M. Lee, Registrar. Adamson v. Coyle.—Braden (Watson & Co.) for plaintiff. An application by plaintiff for an order directing certain papers to be forwarded to the local registrar at Cobourg. Fiat granted.

Folau v. Rinlan.—Birnbaum (Day & Co.) for plaintiff. Motion by plaintiff for an order for amendment of writ of summons not yet served by substituting another description of land for that set out in writ of summons. Order made.

Judge's Chambers. Before Middleton, J. Bristol v. Kennedy.—J. Mitchell for defendant. Mary Kennedy, H. A. Buidere (Hamilton) for plaintiff. An appeal by defendant, Mary Kennedy, from an order of the local judge at Hamilton striking out paragraphs 1 and 2 of statement of defence and setting aside jury notice.

Judgment: I do not interfere with what has been done by the local judge in reference to the jury notice. I restore the paragraphs in question, and make amendments, both here and below, in the case.

Trial. Before Falconbridge, C.J. McGreevy v. Hodder.—W. F. Langworthy, K.C., for plaintiff. M. J. Kenny (Port Arthur) for defendant. Plaintiff's specific performance of a contract for sale of land in Port Arthur.

Judgment: I am of the opinion that the defence of the plaintiff entitled the defendant to come to the conclusion that plaintiff had abandoned the agreement to resell, and I do not decree specific performance. I do not, however, think that the defendant is entitled to retain the money paid on account of the property. Judgment for plaintiff for \$200 with costs. The law will take its course as to the scale of the plaintiff's offer. I do not give any certificate one way or the other. Thirty days' stay.

Before Kelly, J. Deevy v. Deevy.—T. D. McGee for plaintiff. F. A. Magee for defendant. An action by the father and mother of W. J. Deevy, deceased, against the widow and sole devisee and sole executrix of the said W. J. Deevy to set aside as fraudulent a deed of Nov. 21, 1909, from plaintiff to their son.

Judgment: To establish their claim the plaintiff set up the fact that the deed was not signed by them and what appears to be their signatures thereto are forgeries. I am not prepared to accept the testimony. Action dismissed with costs.

Before Kelly, J. Moran v. Burroughs.—C. A. Moss for defendant. J. A. Hutchison, K.C., for plaintiff. An appeal by defendant from the judgment of Britton, J., of May 4, 1912. An action to recover \$3000 damages from defendant for allowing his boy of tender years to go on street of Smith's Falls with a rifle and ammunition, whereby plaintiff lost an eye. Trial judgment was awarded for \$300 and costs.

Judgment: Upon the answers to the defence, the action should stand dismissed and the judgment in appeal should be set aside and judgment for the defendant. But it is a case for the judge to try. Judgment for the defendant guilty of negligence in not removing it from reach of the boy or sending it home.

Before the Chancellor, Latchford, J.; Kelly, K. Moran v. Burroughs.—C. A. Moss for defendant. J. A. Hutchison, K.C., for plaintiff. An appeal by defendant from the judgment of Britton, J., of May 4, 1912. An action to recover \$3000 damages from defendant for allowing his boy of tender years to go on street of Smith's Falls with a rifle and ammunition, whereby plaintiff lost an eye. Trial judgment was awarded for \$300 and costs.

Judgment: Upon the answers to the defence, the action should stand dismissed and the judgment in appeal should be set aside and judgment for the defendant. But it is a case for the judge to try. Judgment for the defendant guilty of negligence in not removing it from reach of the boy or sending it home.

Before the Chancellor, Latchford, J.; Kelly, K. Bornstein v. Weinberg.—L. M. Singer for plaintiff. A. R. Hassard for defendant. An appeal by plaintiff from the judgment of Britton, J., of May 4, 1912. An action by plaintiffs, owners of No. 82 Elizabeth street, for recovery of \$52.50 for double value of premises during defendant's retention of possession, \$124.50 for repairs to No. 82, the sum of \$249.00 for No. 78 and \$300 damages for loss of enjoyment, being a total of \$448. An appeal from the judgment of the trial judge for \$75.00 and costs.

Judgment: The plaintiff in this case put forward a grossly exaggerated claim, and the defendant on his part was equally blameworthy for his lack of any honest attempt to fulfil his judgment. At the hearing the amount allowed was six dollars the amount allowed so as to correct what was apparently an error in computation in the amount allowed by the judge for double value during the overholding. We also increase it by \$10 to cover time lost by the landlord in making repairs. We now allow a further sum of \$25 to cover loss attributable to wear and tear, not included in the judgment in his assessment. With this variation, appeal dismissed without costs.

Before Mulock, C.J.; Clute, J.; Sutherland, J. Taylor v. Yeandle.—R. S. Robertson for plaintiff. G. M. Pherson, K.C., for defendant. An appeal by plaintiff from the judgment of the local judge at Cobourg, Ontario, of Oct. 15, 1912. An action by plaintiff, an administrator, to set aside a conveyance in question as invalid and as having been obtained by fraud and undue influence of defendant, et al. The trial judge found in favor of the plaintiff. The action was dismissed with costs.

Before Mulock, C.J.; Clute, J.; Sutherland, J. Rex v. Clark.—J. R. Cartwright, K.C., for the crown. No one for respondent. An appeal by the attorney-general for Ontario from the decision of a magistrate refusing to convict defendant of selling liquor during prohibited hours. It appears that a bottle of liquor was alleged to have been sold on Saturday and the purchaser came for same and it was delivered to him on Sunday.

Judgment: Appeal allowed with costs here and below, and the case to cover time lost by the magistrate to be dealt with.

GUELPH'S CREDIT IS GOOD.

GUELPH, Dec. 28.—(Special.)—Ald. J. E. Carter, chairman of the civic finance committee, has succeeded in disposing of \$25,000 worth of city debentures at the excellent price of 101, or a bonus of one per cent. This is considered an excellent bargain in view of the tight condition of the market for local bonds, and it is said to be much higher than other places have been able to obtain.

The buyers of the debentures were the Wood-Gundy Company of Toronto. They consist of school, street railway and waterworks debentures, and will bear interest at 5 per cent.

REV. DR. MOORE MAKES DEMAND

Continued From Page 1. It should be removed by the nationalization of the land. Some plan should be devised by which the Dominion should hold the title to the land for the benefit of the whole people.

Physical Culture. Militarism was a terrible curse in some countries. If the school cadet and boy scout movements were developed with a view to the physical culture of the boys and the implanting in them of a spirit of true patriotism they were to be heartily commended.

At the Christmas season it seemed almost out of place to speak of another cause of poverty—personal extravagance. Some people whatever their incomes, would exceed them.

From the five-cent moving picture show to the more costly recreations there was a prevalent public rage for pleasure destructive of many homes.

There was no sure cure for poverty. Religion itself was not always sufficient.

Be an "Apple-seed Johnny"

There are two classes of citizens—just two—who should vote "yes" on the King Edward Memorial Sanitarium Bylaw on Wednesday next—viz, those who have had personal experience in their own families of the ravages of this awful white plague, "Consumption," and those who have not.

You are included in one of these classes—which? If in the former, the voting upon this bylaw will call forth memories too sacred to unveil. I know you will vote for it, for "a fellow-feeling makes us wondrous kind."

You will rejoice to hear that within the past ten years the deaths from this disease have been reduced 40 per cent.—nearly one-half of what they formerly were, and that through the efforts of this and kindred associations throughout the world there is assurance that before many years it will become quite as rare in our midst as Smallpox and Leprosy.

Perhaps, however, you belong to those who, like myself, have had no such personal experience. Strange, isn't it, that, although the deaths in Canada from this disease are about one out of every eight, we and our kindred are about one out of every eight who are under obligation to pass on to others blessings such as they themselves have received from their "forebears," who, when any expenditure of congested districts, the beautifying of our city, the brightening of life for the sick and unfortunate is to be faced, do not "sit back" and say: "It won't do me any good"—"I don't need it."—"What has posterity done for me?"

I believe in economy, but I do not believe in parsimony. A million-dollar expenditure added to our debenture debt today, upon an assessment of four hundred and twenty-four millions (\$424,000,000), means infinitely less than twenty-five thousand dollars, yes, ten thousand dollars, in our earlier days. At most, it means but a few cents annually to you and me. We owe to others less fortunate, and to posterity at large, the discharge of many of these obligations.

Yes, we want more "Apple-seed Johnny Cranks" in this city—men who, regardless of personal interests, are prepared to render unselfish service by planting "apple-seeds" as they journey along their way.

The King Edward Memorial Sanitarium is a most "likely spot" for just such a seed. With your pointed pencil, on Wednesday next, just "jab" a cross opposite the "yes" upon your ballot-paper. Even though you may not need it, others do—they need it, sadly, just by an "Apple-seed Johnny."

James Ryrie

P.S.—Don't you think the Sick Children's Hospital should have what they are asking for as well? This, of course, will cost you higher still. It will add the enormous sum of 31.30 more annually to your tax paper upon every thousand dollars of your assessment.

Don't you think the "kiddies" are worth it?

BRIGHTER HOPES FOR ENDING CONFLICT

Turkish Delegates Are Expected to Submit Modified Terms to Peace Conference Today as Result of Further Communications—Allies Fear European Intervention.

LONDON, Dec. 28.—(Can. Press.)—Notwithstanding apparently insurmountable difficulties attending the successful issue of the peace conference, the prospects tonight look brighter, more because of the changing atmosphere of the conference than on account of any new fact.

In the first place, it is stated on good authority that the Turkish delegates will present tomorrow modified terms better calculated to afford a basis for negotiation, and in the second place, the allies appear more anxious to come to real business, if it is at all possible. They have occupied the week end in exchanging long other telegrams with their respective governments, in order to be fully informed on all points and in complete agreement. They seem to be nervously apprehensive that they will be deprived of the fruits of their victories by European intervention. One of the delegates said tonight: "Between Two Fires."

It is difficult to say whether our struggle will be harder against Muslim oppression or against European intervention, which already several times has prevented us from shaking off the Ottoman yoke. Although our armies have victoriously reached Thessalonica, Europe might wish to return Adrianople to the Moslems, forgetting or ignoring what that would mean to the Christian population. But we know the value of the so-called European guarantees for Turkish reforms, and this time we will not give in.

"If official Europe likes horrors it shall have them. We will fight to the bitter end. An eye for an eye and a tooth for a tooth."

The Balkan delegates fear that Austria's attitude is encouraging the Turks to resist.

Rehad Pasha, the head of the Turkish delegates, is in constant touch with Constantinople with respect to the declarations which he will make at the next meeting of the conference tomorrow afternoon. It is reported that he is personally opposed to extreme proposals, but has been forced to accept instructions from the Porte, which were dictated partly by fear of the "Young Turks" and the military party, and partly in hope of favorable European intervention.

The Turks hold the view that they have nothing more to lose, and may secure better terms after the resumption of hostilities. Rehad Pasha himself is still sanguine of a successful issue of the conference.

NEW TRADE MARKS FOR BRITISH GOODS

Recent Legislation Provides For Drawing Distinction Between United Kingdom and Dominion Products.

LONDON, Dec. 28.—The text of the merchandise marks bill, which was recently introduced into the commons and which seeks to amend the law as to trade marks descriptions is now published. The measure provides that all goods bearing a description liable to make purchasers believe they had been manufactured within the British Islands shall be marked with the words "British Empire made."

Manufactured in any part of the British Empire outside the British Islands or with the words "not British" if manufactured outside British Empire. All goods marked "British Empire made" in accordance with this provision are to be accompanied by a sworn declaration before the commissioner for oaths that the goods were manufactured within the British Empire.

PARCEL POST IS NEW YEAR'S GIFT

Government of United States Makes Big Step in Public Ownership on Wednesday Next.

WASHINGTON, Dec. 28.—At midnight on Tuesday, Dec. 31 (New York time), the new parcel post system, authorized by congress, will be put in operation in the United States. Every thing is practically ready to start the machinery that will carry into effect this vast addition to the postal business of the country. Many difficulties are still to be overcome, but the postal authorities are satisfied that these will disappear with experience, and they do not doubt their ability to have the system running in apple-pie order within a very short time.

An immense amount of preparation was necessary to lay the foundation for this innovation in the relations between the postoffice department and the people. Postmaster-General Hitchcock, who had been an ardent advocate of the idea, has worked early and late in devising plans for giving the greatest amount of service and in overcoming difficulties that constantly presented themselves. He is now very well satisfied with what has been accomplished, and is looking forward with great interest to the workings of the experiment that will be undertaken under his direction.

In discussing the inauguration of the parcel post system, Postmaster-General Hitchcock said he regarded it as a stepping stone to the acquisition by the government of the entire express-carrying business of the country.

STEAMER WRECKED IN GALE: FIFTEEN OF CREW DROWNED

Danish Steamer Swamped in English Channel—Captain and Another Survivor Picked Up Exhausted.

PENZANCE, Eng., Dec. 28.—Fifteen of the crew of the Danish steamer Volmer were drowned when she was wrecked on Thursday in the great gale which has been raging in the English Channel.

The captain of the Volmer and another survivor were picked up in a state of collapse in an open boat today 50 miles to the southwest of Lizard and landed at Newlyn by a trawler this afternoon.

The crew abandoned the sinking steamer on Thursday. One of the boats, with nine occupants, was immediately swamped by the heavy seas, and six more men were washed out of the second boat, commanded by the captain. All of them were drowned.

The two survivors were dashed about for two days before being sighted by the trawler that rescued them.

GOVERNMENT HOLDS UP LAND PATENTS

International Power Company Said to Have Got Land Under Guise of Mining Claims.

WASHINGTON, Dec. 28.—By the joint action today of the war, interior and agricultural departments, extensive land patents of the International Power and Manufacturing Company of the State of Washington were held up, because of the belief of Secretary Fisher, as expressed in a statement, that the company was trying to "free itself from all control by the government by securing patents to lands under the guise of mining claims or by railroad scrip filings in combination with a special claim license."

HEARD SCREAM ON NIGHT OF THE MURDER

Testimony of Woman Neighbor Will Be Important Feature of Preliminary Trial of Henry Love Today—Startling Evidence Is Promised by Crown.

FLESHERTON, Dec. 28.—(Special.)—Sensational facts will be brought out at preliminary trial of Henry Love, the alleged wife murderer, at Ceylon tomorrow afternoon, according to Inspector Reburn who declines to disclose the nature of his new evidence, beyond that it will be of a startling nature. The investigation will be held in the Orange Hall, the building which nearly collapsed during the funeral services of the late Mrs. Love, two weeks ago.

Additional testimony of an inebriated nature is expected from the young son, Arnold Love, in regard to events immediately prior and subsequent to the disappearance of his mother. A woman has been found who heard a scream in the Love house at about 10 o'clock on the night the murder must have been committed. Much importance is attached by the crown to this testimony.

It is learned that another woman neighbor of the Love's, will testify that she saw Love early on the morning after Mrs. Love disappeared, and his actions were so strange that she spoke to her husband about it. This occurred a couple of hours before the time Love says he left his home on that morning.

Another Knife Found. The police have in their possession another knife with which it was possible to inflict the wounds that caused the woman's death. It is alleged by the crown that on the night of the crime, Arnold saw this knife on a window sill near the door to the cellar, where the murdered woman was hidden. Thru the boy and other witnesses an attempt will be made to prove that the clothing worn by Love on the day the woman disappeared is not to be found among Love's effects, particularly a pair of patched trousers and a black smock, which were the man's working clothes.

Those who were with Love while his wife was missing will testify as to his actions. Altogether, fifteen witnesses have been summoned. They are nearly all former neighbors of the Love's.

No Motive Found. The efforts of the police to find a motive for the crime have been entirely in vain, the officers have made searching enquiries during the past couple of weeks in every direction.

Crown Attorney Armstrong of Owen Sound has not sufficiently recovered from his illness to conduct the prosecution, and Hon. I. B. Lucas will again take the crown's case. Love will be defended by W. H. Wright of Owen Sound.

It is said that there is additional evidence to the effect that Love did not sleep in his own bed which was over the cellar where the body was concealed on the night of the tragedy, but that he lay upon a bed in a spare room.

EUROPEAN WAR FEARED IN ITALY

ROME, Dec. 28.—(Can. Press.)—The attitude of Austria is being freely discussed in political circles, and the opinion is gaining that the situation cannot continue without endangering the peace of Europe.

Leonidi Bisolati-Bergamaschi, the Socialist member of the chamber of deputies, who opposed the annexation of Tripolitana and Cyrenaica to Italy, writing to The Messenger, says that a rupture of the negotiations, if it takes place, will multiply the probability of a European war, since it is Austria upon whom all depends, and it is to Austria that a request for an explanation should be addressed. He urged that it was Italy's duty as the ally of Austria to ask for that explanation.

DECIDES AGAINST KING'S LIBELLER

Edward Mylius Must Be Deported, Says Board—Will Appeal to U. S. Secretary of Commerce.

NEW YORK, Dec. 28.—Eduard Mylius, the English journalist who served a year in jail for libelling King George, will not be permitted to land on American shores. The special board of enquiry, hearing his appeal from an order of deportation, so decided today in upholding the order.

Mylius announced thru his attorney that he would at once appeal directly to the United States secretary of commerce and labor to reverse the finding of the special board.

### The Daily Hint From Paris

**OF TAUPE GRAY VELVET**  
In some ways this suit suggests the military costume of the time of Napoleon. The coat opens over a loose vest of old rose brocade, which closes far to the side under the edge of the coat. The buttons and loops are made of velvet, as are the cords which cross the opening over the vest. Just back of the buttons are shaped insets a little darker in color. Similar braiding is used on collar and cuffs.

**ALBANY REACHED BY SUFFRAGE PIES**  
Only One of Pilgrim Sextet Failed to Finish—May Present Message Today.

ALBANY, N.Y., Dec. 29.—(Can. Press).—Tired and footsore, but still enthusiastic and glowing in the fact that they reached their destination two days ahead of schedule, the little band of "suffragette pilgrims," who walked 174 miles from New York to present a message to Governor-elect Sulzer advocating votes for women, arrived in Albany shortly after 4 o'clock this afternoon.

The 174 miles, which "Gen. Rosalie" Jones said was the record shown by the official registers, although railroad maps show some 25 miles less, was covered in twelve days of walking, an average of fourteen and a half miles a day.

Of the six "pilgrims" who started from New York on the morning of Dec. 16, five—Gen. Jones, "Surgeon" Livina Dock, "Col." Ida Graft, "Corporal" M. N. Stiles and "Private" Sibyl Wilbur—completed the long "trip" from Inez Craven, who was one of the sextet to make the start, dropped out en route.

Message a Secret. The "message," the contents of which will not be known until Governor-elect Sulzer reads it, will be placed in his hands by "Gen. Jones" at his convenience as soon after his arrival as possible. "The general" said. The governor-elect is expected here Monday.

All the marchers reported none the worse for their long trip, with the exception of "Surgeon" Dock. She is suffering slightly from rheumatism, and limped noticeably.

Today's journey was from Niverville, a distance of 15 miles. A score of local workers for the cause, headed by Miss Elizabeth M. Smith, president of the Albany Equal Suffrage Club, met the marchers at East Greenbush, shortly after noon and escorted them to Albany. There was no brass band, the only real demonstration in the musical line being "Everybody's Doin' It" from a bugle, behind closed doors in a house on the outskirts of Rensselaer.

Met by Veteran Suffragist. The marchers were met at the bridge over the Hudson River leading into Albany by two policemen and Dr. C. M. Culver, a local suffragist, who prides himself upon the fact that he has been "for the cause" since 1867, and who incidentally paid the toll of all in the band.

When the pilgrims reached the city, it was decided to have a short parade up to the capitol and down State street to the hotel, where they will make their headquarters in the city. There was no demonstration during the march, although there was a bit of grumbling "in the ranks" at the extra tramp up Albany's steepest hill.

### DO YOU AGREE WITH BERNARD SHAW?

WRITERS DISCUSS VIEWS OF AUTHOR

Remarkable Diversity of Opinions Given in Letters Received in The World's "Man and Superman" Contest—First Letters to Be Published Tomorrow.

The many and varied opinions given by The Toronto World readers in the quantity of letters that are coming in for The World's "Man and Superman" letter contest show they are losing no time in sending in their ideas. Below are given the prizes offered by The World for the best letters on Bernard Shaw's views as expressed in his most brilliant comedy "Man and Superman," which will be presented by Robert Loraine and his London company at the Princess next week.

**THE PRIZES.**  
For the best letter a lower box for Mr. Loraine's performance in "Man and Superman" at the Princess Theatre.

For the next best 24 letters—Each one a pair of seats for one of the performances of Robert Loraine in "Man and Superman" at the Princess Theatre.

Every reader of The Toronto World is eligible to enter this contest and compete for these prizes.

**THE QUESTIONS.**  
Here are the questions to be answered or discussed in your letter:

"Do girls entice men into marriage rather than risk single life?"

"Do mothers, in thinking so much of the necessity of marriage for their daughters, neglect proper consideration of the men into whose hands they give the future happiness of their children?"

**THE RULES.**  
All letters will be considered and the prize winners will receive the awards by mail.

The World reserves the right to publish, in addition to the prize winners, any letter that may be of interest.

The contest starts today, Limited to the first duty of manhood and womanhood is the declaration of independence; the man who plays the father's authority; the woman who pleads her mother's authority is unfit to bear citizens to a free people.

Below are printed some extracts from "Man and Superman" for the benefit of those not familiar with the play:

"We are ashamed of everything that is real about us; ashamed of our incomes, of our accents, of our opinions, of our experiences, just as we are ashamed of our naked skins. Good Lord, my dear Ramsden, we are ashamed to walk, ashamed to ride in an omnibus, ashamed to hire a hansom instead of keeping a carriage, ashamed of keeping one horse instead of two and a groom-gardener instead of a coachman and footman. The more things a man is ashamed of the more respectable he is."

"That's the devilish side of a woman's fascination; she makes you try your own destruction."

"It's the self-sacrificing woman that sacrifices others most recklessly."

"Oh, the tiger will love you; there is no love sincerer than the love of food. I think you love me that way. She patted your cheek as if it were a nicely underdone chop."

"You must cover before the wedding ring like the rest of us, Ramsden."

"You think that you are Ann's suitor; that you are the pursuer and she the pursued; and that it is your part to woo, to persuade, to prevail, to overcome; fool! it is you who are the pursued, and she who is the pursuer. You need not sit looking longingly at the bait thru the wires of the trap. The door is open and she will come in until it shuts behind you forever."

"In short, the way to avoid misunderstandings is for everybody to be plain and laconic and inquisitive and pretend as hard as they can. That is what obeying your mother comes to, is any reason why you are not to call your soul your own? Oh, I protest against this vile abjection of youth to age. Look at fashionable society as you know it, and you will see what a bugle, behind closed doors in a house on the outskirts of Rensselaer."

Met by Veteran Suffragist. The marchers were met at the bridge over the Hudson River leading into Albany by two policemen and Dr. C. M. Culver, a local suffragist, who prides himself upon the fact that he has been "for the cause" since 1867, and who incidentally paid the toll of all in the band.

### A Boy's Room

What sort of a room has your boy? Is it cheerful? Has he a comfortable divan or an easy chair, a drop-light or a lamp, a desk or a writing table? Or have you put all the worn-out furniture in his room that is too old and too shabby for any other part of the house?

There are two extremes to avoid in furnishing a boy's room; it should not be too shabby for him to show pride, nor too delicately furnished to be thoroughly comfortable. He wants no white stained furniture, no silk, silk-embroidered cushions. He may have them given him by girls, but he will take special care of them, never worry.

To begin with, let him have a picture moulding around his room so that the boy can have the trophies of his sport, his weapons and other articles of interest about him if he wishes, without too much injury to the walls.

Give him a room with a closet if possible, one where his clothes and shoes can be kept in order without too much trouble. Do make the task as easy as possible and it will be taken up with a vision of trousers that keep their creases and a boy that keeps his temper.

He will want an individual laundry bag, and a separate smaller one for his collars, in order that he may not have to grope about in the larger one for them when he is hurrying out to the laundry.

His blacking-stand can be put in the closet out of sight—but he will use it often if it is in an accessible place and he can see what he is about.

A small nickel towel rack by his bureau will keep things smooth and his drawers in better order for his absence.

A ventilator board in his window will improve his room, and he will use it in the evening, without a draft, and keep his room fresh and airy at all times, and it need not be taken out even when it rains. One last extravagance for his bed: give him an eider-down quilt if you wish him to sleep the sleep of the just, and get a new one for his physical comfort.

Now for his diversions. Given a comfortable, inviting room, the rest is a natural sequence; for the boys will flock there.

law of father and son and mother and daughter, the law of love, it is the law of revolution, of emancipation, of final suppression of the old and worn-out by the young and invincible. I tell you, the first duty of manhood and womanhood is the declaration of independence; the man who plays the father's authority; the woman who pleads her mother's authority is unfit to bear citizens to a free people.

"Marriage should ennoble a man? I shall change from a man with a future to a man with a past. I shall see in the greasy eyes of all the other husbands the sanctuaries of my soul, violation of my manhood, sale of my birthright, painful surrender, ignominious capitulation, acceptance of defeat. I shall decay like a thing that has served its purpose and is done with."

"I think you love me that way. She patted your cheek as if it were a nicely underdone chop."

"You must cover before the wedding ring like the rest of us, Ramsden."

"You think that you are Ann's suitor; that you are the pursuer and she the pursued; and that it is your part to woo, to persuade, to prevail, to overcome; fool! it is you who are the pursued, and she who is the pursuer. You need not sit looking longingly at the bait thru the wires of the trap. The door is open and she will come in until it shuts behind you forever."

### ENGLISH ACTORS HERE THIS WEEK

Lewis Waller Makes Bow at Alexandra and Wm. Hawtrey Returns to the Princess.

CHIP & MARBLE—SHEA'S

Two Noted Headliners in Vaudeville—Burlesque Shows Promise to Be Good Ones.

Tonight at the Alexandra Theatre, Mr. Lewis Waller will make his initial bow to Toronto, using for his introduction to the large audience that will greet him, Alexander Dumas' comedy of manners, "A Marriage of Convenience," which, being adapted to the English stage by Mr. Sydney Grundy, has no doubt gained rather than lost in the transformation. Indeed, it was heralded from Montreal, where it was seen last week, as the most delightfully graceful and amusing comedy of the time Mr. Waller, it is needless to say, should be at his best in a role that calls for graceful acting, brave speeches and sword play, and it may be said that no man of the past century has supplied better material for such representation than the author of "A Marriage of Convenience." The manager of the Alexandra Theatre, Mr. Lewis Waller, in his initial offering to Canada is one of great excellence.

Chip and Marble at Shea's. Manager Shea has booked a notable bill for this week at Shea's Theatre. Headling the list is Sam Chip and Mary Marble, presented by John Dunne, in their new sketch by Herbert Hall Winthrop, and the new offering again shows the clever grasp by Dutch youngsters. The scene is laid in Highland, and Mr. Chip and Mrs. Marble have a number of new songs that come between their comedy and their pathos. The special attractions for the week are Gordon, "The German Politician," and Bird Millman and Company, the dancing sensation on the wire, who will appear in a new sketch, "The Wire Act," by F. Dolan and Ida Lenhart, and the Kinetograph.

"We, U. S. and Co." at Gayety. Jacobs and Jermon, who present the "Queens of Paris" in "We, U. S. and Co." at the Gayety Theatre, have utmost faith in the value of the play, for not only have they engaged a company of chared, eminently satisfactory artists, but they have also secured the best of equipment of the production no money has been spared to make the most elaborate entertainment. These managers have as yet presented to a critical public.

"Cherry Blossoms at Star." "The Cherry Blossoms," which open a week's engagement at the Star Theatre this afternoon, will give a special midnight show on Tuesday night, New Year's Eve, at 11 o'clock. This will give the patrons of the Star a chance to see the Old Year out and the New Year in during a riot of fun.

Robert Loraine Coming. Robert Loraine, the young English actor who is also famous as an aviator, and motor expert, claims to possess a unique property in an automobile that has actually travelled over 20,000 miles on a single tank of gasoline. The car in question is one he formerly used in the second act of "Man and Superman." Shaw's brilliant comedy, that he brings to the Princess Theatre next week. As may be guessed, the car did all of its traveling on the roads and steamships, and never went out its first set of tires. The only time it was made to exert itself was in travelling from the theatre to the railroad stations and docks. In the case of "Man and Superman" has proved to be longer lived than an automobile, for Mr. Loraine had no accident in securing a car that is capable of making miles an hour. The car now makes its appearance on the stage at each performance.

Gaby Deslys Next Week. Gaby Deslys, singing and speaking in English, and appearing in the lively "Whirl of Society," in which she has been the star of the week, will be big Winter Garden last year, will be the attraction at the Alexandra Theatre next week. This much-talked-of artist will make her first visit to Toronto with her own company, to which has been added the New York Winter Garden Company, which includes Al. H. Johnson, Melville Ellis, Les Harrison, Harry Pinner, Lawrence O'Driscoll and a host of others, amounting to nearly 200 in all. Owing to the stupendous nature of this attraction, four matinees will be given during the week, on Tuesday, Wednesday, Friday and Saturday. The seat sale opens Wednesday morning.

New Year's Night Concert. Mr. Campbell's annual Scottish concert in Massey Hall on New Year's night should fill the hall. A glance at the program shows that the entertainment promises to be exceptionally fine. The leading artists who will take part are: Jessie Alexander, Harold Jarvis, Miss Jessie Mitchell, John Murray, a gifted violinist from Edinburgh, the 48th Highlanders' Band, male chorus, etc. Jessie Alexander, who has been in Toronto before. The band will play the accompaniments for two of Mr. Jarvis' leading numbers. Miss Hunter will introduce in many of the bagpipes, in one of her selections, and she will also play some old familiar strathspeys and reels, as they were heard in Scotland long ago. The band is down for three rousing numbers, bristling with Scottish airs. The seat plan is now open at Massey Hall, and down-town people will also be able to reserve seats at Nordheimer's music store, East King street.

### RALLIES HELD BY GALT "DRYS"

Enthusiastic Support of Local Option Pledged at Mass Meeting on Sunday.

GALT, Dec. 29.—(Special).—This was a red-letter day in the records of local option in Galt. All the church services were marked by features aimed at strengthening the defence in the repeal campaign, preachers strongly urging vigorous fight and music being rendered in harmony with abolition sentiments.

Two special mass meetings were held, one at the Salvation Army chancel, where a number of prominent business men voiced approval of the act which three years ago did away with seven hotel bars and two liquor shops, and the operation of which during these years has proved, they declared, eminently satisfactory.

At the opera house, which, too, was crowded, a mass meeting of the ladies was addressed by Rev. Mr. Crossley, the well-known evangelist, in a forceful manner.

No public meeting in the interest of repeal has yet been held, but it is expected that arrangements are on foot for an opera house gathering on the eve of polling.

### RING OUT YEAR WITH BIG CONCERT

Sixteen Entertainers Will Perform at Massey Hall—Scottish Concert New Year's Night.

The heavy advance sale for the big New Year's Eve concert in Massey Hall, points toward a capacity audience tomorrow night. In Toronto, the custom of celebrating the passing of the old year is a growing one and the old program of song, monolog and instrumental music has been chosen to reflect the spirit of the occasion. A two hour and a half program by professional concert talent at popular prices is an innovation in Massey Hall, and the public response has already justified it. The chief feature of interest will be Prof. O. B. Wise, the accomplished crayon-monolog artist, who draws two pictures at once, using a crayon in each hand, and telling appropriate stories in a clever manner. Besides, there will be selections by fifteen other concert artists and the Action Male Quartet, with encores extra. Good seat locations are still obtainable.

BRIDEGROOM UNDER ARREST. NIAGARA FALLS, N.Y., Dec. 29.—(Special).—Just when Harry Cole had completed arrangements to take his fifteen year old bride of nine days to the home of his parents in Canada, the law stepped in, and the bridegroom is tonight the occupant of a cell at police headquarters. Daniel Benjamin, brother of the bride, had Cole arrested on an abduction charge. Cole is 26. The child-wife told the police she would stick by her husband.

By its verdict the court and families of the bride were in possession of the bride. The conviction of the bridegroom was a surprise to the bride and her family. The bridegroom was arrested on an abduction charge. Cole is 26. The child-wife told the police she would stick by her husband.

# Stock Markets Generally Weaker--C.P.R. Down in New York

## STOCKS WEAK UNDER AGGRESSIVE SELLING

Wall Street Bears Met Little Opposition and Definite Downturn Was Result.

## C. P. R. HEAVILY SOLD

Gain in Cash by Banks Exceeded Expectations--New Business in Certain Lines Disappointing.

NEW YORK, Dec. 28.—After a week of colorless trading and stagnant markets, stocks moved in a definite way today and quotations were depressed in all quarters of the list. Trading became more active following a featureless opening, with the impetus coming from the best factors. There was no demand for stocks and the bears were able to make headway on comparatively limited offerings. Most of the prominent issues were depressed a point or more with a partial recovery before the close. Weakness of Steel was a depressing influence; and selling of C. P. R. from abroad affected the railroad list. Apparently there was no well-grounded reason for the weaker condition of the market, which was more active than for several days, and the declines seemed to be little more than a response to operations of the professional element.

## BANK CLEARINGS INCREASE AGAIN

Christmas Week Figures Show a Gain of Almost Twenty Per Cent. Over Last Year's Record.

Bank clearings in Canada last week (five days only) were almost 30 per cent. above last year, and the only decrease in the regular one at Ottawa. The gain over previous week was about 1 1/2 per cent. Figures for the week ending Dec. 26, 1912, and the week ending Dec. 23, 1911, are as follows:

	1912	1911
Montreal	\$46,517,804	\$38,872,825

## BIG INCREASE IN BANK FACILITIES

Over Two Hundred New Branches Opened by Banks in Eleven Months.

The remarkable increase which has been made in banking facilities in the Dominion of Canada during the last year is plainly evidenced in the following table, showing the number of branches maintained by the chief institutions during the first eleven months. It will be noted that the gain in that time was 22, or an average of about 2 per month.

## BOSTON "COPPERS" ARE MORE BUOYANT

The Boston copper stocks have "come back" in good style during the last few days, with the average price of twenty issues up 1 1/2 points to 46 1/2, in three days' trading. The basis for the recovery in the market is the continued strength in copper metal at around 17 1/2 cents a pound, and the improvement in exchanges generally throughout the country. The following table gives the range on the most active stocks for the last ten days:

	High	Low	Yest. Close
Arizona	7 1/2	6 1/4	6 1/2
Butte Superior	4 1/2	3 1/4	3 1/2
Granby Cons.	3 1/2	2 1/4	2 1/2
North Butte	3 1/2	2 1/4	2 1/2
Pond Creek	2 1/2	1 1/4	1 1/2
T. S. Smelting	4 1/2	3 1/4	3 1/2

## LOEB WILL JOIN THE GUGGENHEIMS

NEW YORK, Dec. 28.—William Loeb, Jr., collector of the port of New York, is to join the firm of M. Guggenheim Sons, the famous mining organization, according to an announcement given out by Daniel Guggenheim today. As Mr. Loeb is not well known as a financial man in the Wall Street acceptance of the phrase, and has not been identified with mining or smelting industries, his duties will probably be wholly administrative in character, along which lines he has great ability.

## MARKET ADOPTED AN EASIER TREND

Drop in C. P. R. in New York Had Adverse Effect on Sentiment in Toronto Exchange.

## THE SPECIALTIES HIGHER

Canners, Spanish River and Toronto Paper All Scored Sharp Advance at the Week-End.

While certain of the specialties were resilient and scored sharp advances in the Toronto Stock Exchange on Saturday, the general trend was toward lower levels. The easier tone was inspired by the weaker action of the New York list and, in particular, by the sharp break in C. P. R. The abrupt decline in C. P. R. to 27 1/4, a loss of 2 3/4 points for the day, was brought about by the bad turn in the European situation, owing to less favorable prospect for peace between the Balkans. The adjustment of the conference in London was the signal for a selling movement in the European bourse, and, as usual, C. P. R. paid the penalty for being held so largely abroad. The shares closed on offer here at 25 3/4.

## BRAZILIAN LED DECLINE

Brazilian held firm around 92 during the first hour in the Toronto market, only to drop rapidly later on the movement being a reflection of the downturn in C. P. R. The price worked off to 81 1/4, leaving a net loss of 5-8 for the day. Toronto Railway, Twin City and Rogers common were also lower, and bids on various other issues were dropped when the easier tone developed.

## SPENDING MILLIONS IN NEW EQUIPMENT

NEW YORK, Dec. 28.—The Northern Pacific has given an announcement ordering amounting to \$10,000,000, including engines, cars and oil tanks, according to an announcement given out today. The order really covers the requirements for 1912 and 1913. Part has already been announced, and some of the cars are being delivered now. The great bulk, however, will not be delivered until next spring and summer. While the order is a large one, no new financing will be necessary to provide funds. It is expected that treasury securities produced so far from time to time if the need warrants. The Northern Pacific has pursued this policy in raising funds for improvements and betterments for the past few years.

## DOMINION GRAIN ASSIGNS

R. L. B. Taylor Has Made Triple Assignment of Abitibi Units.

## BRAZILIAN EARNINGS ARE INCREASING

The Brazilian Traction, Light and Power Company has given a report of a cable stating that the approximate gross earnings of the tramways, electric lighting and power and telephone services owned or controlled by the company for the week ending Dec. 21, 1912, are as follows:

## MARKET IN SHAPE FOR ANOTHER SPURT

Reaction in Mining Exchanges Has Eliminated the Weak Spots and Course Is Now Clear.

## STOCKS ARE RESILIENT

Moderate Degree of Strength Shown, But Some Stocks Are Under Pressure.

The mining market at the week end showed a continuation of the same activity which stamped the recent movement, and, on the whole, displayed a moderate degree of strength. It was not, however, as advanced again, but rather that the gains scored earlier in the week were held so well that the list so resilient an appearance. The measure of profit-taking was under way in certain issues, but this was readily absorbed, and at the close prices were maintained practically level with the high records made to date.

## PETERSON LAKE A WEAK SPOT

The Cobalt stocks again proved the leaders, and the sustained demand for these proved conclusively that the public were good buyers at the enhanced values. City of Cobalt sold again at 35 1/2, the best price it has attained since 1911. La Roca was in demand around 33 1/2, and Nipissing held above the nine dollar mark, despite the incoming of some selling orders. Timiskaming was up half a point at 33 1/2-3. An active demand developed for Bailey, and the shares were quite active above seven cents.

## PETERSON LAKE A WEAK SPOT

Peterston Lake was the only issue to develop any weakness. The temporary lull in the call for this stock allowed the shares to drop further under profit-taking, and the close at 20 showed a loss of 2-4 for the day. This secondary trend in this security is likely to be followed by a further upturn later on.

## THE PORCUPINE LIST WAS FIRM

The Porcupine list was firm, and showed symptoms of participating in the activity in the near future. Peterson Lake sold at 29 1/2, and closed with a strong demand in evidence. Vipond gained a fraction at 19, and Swastika was quoted higher at 11. Hollinger was up five points above the previous sale, the shares changing hands at 51.85, but was slightly lower than that at the close of the week.

## THE SLIGHT REACTION OF THE LAST FEW DAYS HAS SERVED TO ELIMINATE WEAKLY HELD STOCKS

The slight reaction of the last few days has served to eliminate weakly held stocks, and has bettered the technical situation on the account. Meanwhile, with an active public interest assured, the market would seem in prime condition for further buoyant action.

## HUGE OUTPUT OF BRITISH CAPITAL

John Bull Let Canada Have Over Two Hundred Million Dollars in Past Year.

## OVER A MILLION PEOPLE OWN STOCKS

And the Average Holding is Over a Hundred Shares--Big Increase Indicated.

NEW YORK, Dec. 28.—The Journal of Commerce estimates that the industrial companies at 625,632, and 608,822 in 1911 with average holding shares of 84.4 and 85.4 respectively. The number of shareholders in 94 railroads is 420,487, compared with 415,683 last year, and the average holding of shares held 1912, against 184.9 in 1911. The number of stockholders in 247 railroad and industrial companies, with capitalization of \$1,984,143,884, is estimated at 1,058,029, compared with 1,024,490 last year, with average holding of 104.5, against 106.2 in 1911.

## IMPERIAL BANK OF CANADA DIVIDEND NO. 90

Notice is hereby given that a Dividend at the rate of Twelve Per Cent. (12 per cent.) per annum upon the Paid-Up Capital Stock of this Institution has been declared for the three months ending 31st January, 1913. The same will be payable at the Head Office and Branches on and after Saturday, the 1st day of February next. The Transfer Books will be closed from the 11th to the 13th January, 1913, both days inclusive. By order of the Board, D. R. WILKIE, General Manager.

This Bank has unexcelled facilities for handling every description of banking business throughout the world.

## TWO INVESTMENT STOCKS

Our honest conviction is that Peterson Lake will some day demonstrate itself as one of the big Cobalt propositions. We have advised the purchase of these shares and especially did we do so, when they were selling around 30. In our opinion the stock should be bought even now by investors who are willing to await results. Chambers-Ford is another stock that should attract the attention of those who have money at their disposal.

WHEAT RANGE IN CHICAGO

Report of Rainfall in Argentina Failed to Stimulate Dealings—Bids For September Delivery.

CHICAGO, Dec. 28.—The grain market today fluctuated slowly within narrow limits, while liquidation of provisions down to 3-8c under wheat closed unchanged to 3-8c under.

The wheat market while still bearish on the foreign situation, as reported yesterday, was on the gain characteristic. Somebody reported a fall in the Argentine, but it was regarded largely as a cry of fear and ignored it.

A range of 1-4c marked the widest of the situation. At the close there were plenty of buying orders, but these were easily filled without stiffening the price. Export bids were low for working, but the inquiry was not strong.

Cats were stagnant and the tone slightly easier. Lower bids and continued liquidation of January options weakened prices.
