TO BOYCOTT THE TROLLEY

Union on the Aggressive

At Six o'Clock This Morning Sechectady Railway Company Will Lose Its Passengers if Trades Assembly Plans Go.

Schenectady, N.Y., Nov. 16.—The Committee of the Trades' Assembly has been in session all day arranging details of the boycott against the Sechectady Railway Company. The boycott officially goes into effect at midnight, but will actually be enforced at 6 o'clock to-morrow morning. Seventy-one men, one from each union, will watch the cars and will be aided by others if necessary.

Every union man found riding on cars will lose his union card; every business man will be warned not to ride again, and will be boycotted if the warning is disregarded; if any employee contemplates to ride after being warned, his employer will be notified to discharge him. There are, it is estimated, 2000 persons who live at such a distance from the general electric or locomotive works that they are dependent upon the cars.

It has also been decided to extend the boycott to the use of gas and electric light, both of which are maintained and controlled by the Sechectady

STUDENT WOULD NOT MOVE ON

Herbert Brown of the Dental College Resisted Officer and Was Dragged to the Cells.

WENT TO THE HOSPITAL FIRST

To Have His Shoulder Set—Policeman Inevitably Did Not Know His Occupation.

One of those "move on" cases which are almost daily figuring on the police books resulted disastrously on Saturday night to Herbert Brown, a dental college student, 24 years of age, living at 67 Grange-avenue. Brown had his shoulder dislocated in his attempt to get away from policeman Innes, who arrested him for refusing to move on.

Brown, according to the information in the hands of the police, was standing at the corner of Queen and McCaul streets, when the policeman approached and told him to move on. Brown declared he was waiting for a car, and one word led to another until the officer placed him under arrest. The student resisted, and in the altercation his shoulder was dislocated. Brown was taken immediately to the Emergency Hospital, where Dr. Sturges was called to attend him. At 3 o'clock yesterday afternoon Brown was able to leave the hospital, and was taken to No. 2 police station, where Dr. Wilmore of the Royal College of Dental Surgeons was waiting to bail him out. Sgt. Watson drew up the bonds, and Brown went home. He will appear in court this morning in the Police Court to answer a charge of being disorderly.

Policeman Innes, who made the arrest, was one of the two representatives of the police force on the first Canadian contingent. He was a student when he placed him under arrest, and could not, therefore, have been acting by his feeling which is said to exist with the police against the students as a result of the "Hallowe'en" troubles.

The doctors at the Emergency Hospital said Brown made no complaint regarding the officer's treatment when he was admitted. He would not discuss the merits of the case last night.

Brown is said to have had his shoulder dislocated on a previous occasion.

CROSS FIRE FOR MITCHELL

Champion of Miners Meets Coal Barons' Lawyers in Sharp Battle of Wit.

INTERESTING EVIDENCE SUBMITTED

Recognition of the Union Clearly a Point of Contention.

Scranton, Pa., Nov. 16.—President Mitchell concluded his evidence before the Strike Commission yesterday. For two days he was subjected to a rigid cross fire from the representatives of the coal companies. His views were expressed in an answer to Judge Grey, who did not appear to understand a remark he had made, when he observed: "Our demand is that the rate of wages and the conditions of employment be embodied in an agreement between the union and the operators."

The strike leader was told that the increase of wages to the miners would mean an increase of the price of fuel to consumers, and was asked if he thought that would be fair. He replied: "Any corporation that cannot afford to pay living wages should go to business." He said he thought \$900 the lowest living wage that a miner should earn, as that amount would be required to educate his children. President Mitchell asserted that he thought the organization had the right to demand that no mine worker be employed for less than eight hours a day. Lawyer McVeigh asked him if he thought he had the right to compromise and restrict conditions of workers, and he replied in the affirmative, if that was what eight hours a day meant.

"And you think you have the right to ask the coal companies to become your partners in forcing such a condition?" asked the lawyer, who Mr. Mitchell declared was exactly what he would demand.

As to Hours of Service.

The witness was asked if he thought three hours' work was sufficient to enable a miner to earn \$900, to which he said no, and denied the suggestion of the operators that any of the coal miners could earn that amount in so short a time. He was told that miners had on deposit in the trust city bank \$175,000, but he said that did not necessarily denote prosperity among the miners.

ONE FIRE-FIGHTER \$900,000

Big Plant of Armour & Co., Sioux City, Ia., Totally Destroyed on Sunday.

AMMONIA CISTERN EXPLODES

Live Hogs Roasted While Thousands of Spectators Look On—A Great Spectacle.

Sioux City, Ia., Nov. 16.—The big plant of Armour & Co., which occupied three and a half acres of ground at the extreme south end of the stock yards district was totally destroyed by fire, which started at 12:50 o'clock this morning on the second floor of the fertilizer building. The loss, estimated by Charles W. Lennon, manager of the company, is a total of \$900,000. The insurance is \$725,000.

The cause of the fire was said by Mr. Lennon to have been either spontaneous combustion or an imperfect dryer. Quickly the Armour private fire department of six men was called out, and the entire city department followed.

Rapid Work.

By 1:30 o'clock six streams of water were being thrown upon the fire, which was destroying the fertilizer building. Twenty-four drums of 100 pounds of fertilizer building, which was of brick, 12x20 feet, four stories high, was located between the best-killing houses and the Chicago, St. Paul, Minneapolis and Omaha Railroad tracks on the east side of the plant. The fertilizer building burned like chaff. At 1:25 o'clock the roof fell in, and a moment later the fire burst into the best-killing house. Simultaneously, the cattle chute ignited and lasted about ten minutes, when it fell with a great crash.

Lard Burns Bright.

From the best-killing house to the oil building was only a step, and when the lard was ignited the fire spread in most spectacular appearance. The big best-killing house, where 500 carcasses were hanging, caught at 2 o'clock. By that time the entire plant, except the hog house, was a lake of fire. The hog house was a lake of fire. The hog house was a lake of fire. The hog house was a lake of fire.

TO GET BACK HIS OWN.

Three Burglars' Pistols Changed Constable's Mind

Three Places in Ailsa Craig B'oken Interiors and Much Property Removed by Early Morning Marauders—Posses of Citizens in Pursuit of Tramps.

Ailsa Craig, Nov. 16.—Three daring burglaries were committed there this morning between 4 and 5 o'clock. The perpetrators were three unknown men, supposed to be tramps, and an attempt was entered and \$100 worth of goods taken, while considerable ready-made clothing, hats, etc., was stolen from White & May's dry goods establishment. They also broke into the Queen's Hotel and extracted about \$2 in silver from the till and carried away considerable of the bottled liquor.

They were discovered at White & May's store, and word was sent to Constable Priestley, who shortly afterwards reached the scene. He overtook the burglars on the railway track, just east of the town. They turned on him, and, pointing revolvers at him, threatened to shoot.

C. K. Walker's jewelry store was entered and \$100 worth of goods taken, while considerable ready-made clothing, hats, etc., was stolen from White & May's dry goods establishment. They also broke into the Queen's Hotel and extracted about \$2 in silver from the till and carried away considerable of the bottled liquor.

REVELATION KILLS SON.

Discovers That His Father Was a Pious Man Who Married.

APPROACHED WITH INDUCEMENT

Member for South Oxford Offered Financial Bribe to Desert Party.

At the banquet tendered J. P. Whitney at London, Ont., on Friday evening, a statement of a somewhat sensational character was made by Donald Sutherland of South Oxford in the course of his speech during the evening. He said that the his experience as a member of the legislature was short but it had been of a unique character. There was none in the country that he regarded more than himself certain things that developed in the riding of late. It was a disgrace to civilization. An uphill fight was fought in the riding, and the party had won. The loss of South Oxford to the Liberals, he said, was due to the fact that the riding now as they never needed it before. They (the Liberals) had come to him with inducements to go with them, and the day before the election protest came to trial the Liberals came to him and assured him there was a big thing in it for him financially if he would do as they asked—go over to them. Mr. Sutherland only hoped that the trial of the protest in the constituency would come on again in December, for there were greater developments still to take place that would astonish the people of Ontario as to the desperate efforts being made by the Liberal party to retain power.

RADICALS' CURE DOUBTFUL.

Paris, Nov. 16.—Radicals, the living member of the famous twins, has left Dr. Doyen's private hospital, where she was surgically separated from Dodica, and gone to Hyeres. Her condition excites apprehension, and it is feared that the tuberculosis has gone too far for a cure.

MUSICIANS' STRIKE A SUCCESS.

\$50,000 a Year Added to Their Income by Movement.

COSTLY POTATOES.

Paris, Nov. 16.—The late strike of the musicians has resulted in a brilliant success. The artists have well maintained the dignity of their profession, and the syndicate still has a balance of more than \$50,000, besides the fact that henceforward \$90,000 yearly will flow into the musicians' pockets beyond what was the case hitherto.

BRIDES TAKE OFF MYRTLE.

Berlin, Nov. 16.—The wearing of myrtle as a symbol of purity and innocence is an immemorial custom of German brides. One stern pastor, Dr. Idlar, the pastor of Eberswald, so respects this pleasing symbol that he refuses to allow brides "with a past" to wear it.

HORSE HID A DIME.

Great Barrington, Mass., Nov. 16.—An operation on a valuable horse, belonging to E. E. Culver here, revealed a ten-cent piece under the skin on its forehead. The coin was dated 1870, but no one knows how it got there.

CITY WATER RATES.

Pay your Water Rates at once, secure the discount and avoid crowding.

TO-DAY IN TORONTO.

Rev. George Ward delivers before Anglican S. S. Association, St. Luke's Church, 8 p.m.

Miscellaneous meeting, Metropolitan Church, 8 p.m.

Unitarian Club, Webb's, 6:15 p.m.

RUSSIA URGED TO TAKE PART

Bear's Opportunity to Open Dardanelles Seen in Anti-German Attitude of British Press.

GOVERNMENT SAID TO BE DISTURBED

Kaiser Takes Leave of the King and Joins Lord Lansdowne's Party.

St. Petersburg, Nov. 16.—The newspaper Svet urges Russia to take advantage of the present anti-German attitude of the English press and the efforts of British diplomacy at a rapprochement with France and Russia to come to terms with Turkey under which "the Dardanelles must be thrown open and the Turkish batteries will have to salute only the Russian flag whenever Russian warships pass them."

STILL SUSPECT THE KAISER.

London, Nov. 15.—The visit of the German Emperor and world politics have been the topic which has chiefly engaged public attention in England during the week.

The hostile attitude of the German people and their ruler, which culminated in the Spectator's assault, scried, is not only the cause of the criticism, but the British government as well. Mr. Balfour, the Prime Minister, has some expression to his annoyance in his Guildhall speech, when he referred to the fantastic imagination about the Kaiser's visit to his nearest relatives.

The Spectator today resorts to a quiet intimation that Mr. Balfour is dwelling in a fool's paradise if his real opinion as to the Kaiser's visit is that it is a moderate depression which it compares his speech with Earl Stanhope's in 1868, when on the very edge of the greatest war of modern times he said there was not a cloud on the international sky.

Furthermore, the Spectator expresses the wish that Mr. Balfour's speech should be as frank as the speech of Earl Stanhope in 1868, when on the very edge of the greatest war of modern times he said there was not a cloud on the international sky.

WELL DIGGER BURST IN A FLIGHT.

A well digger, who got into an all-night party on Saturday, and had his leg broken in two places. He was taken to the Toronto hospital, and is now recovering.

ROY LEFT HIS COAT.

Policeman Gabriel of No. 4 Division intercepted a crack game which was in progress in a room at the corner of Bay and Dundas streets. He managed to seize one of the youths, and was getting his name when the latter slipped away. The coat was left on the floor.

ABSOLUTE SAFETY is the most important consideration to a Depositor. Other inducements are of secondary importance. On this basis we can with the utmost confidence solicit your account.

THE CANADA PERMANENT AND WESTERN MORTGAGE CORPORATION

STOCKS FURTHER DECLINE The Week on Wall Street One of Surprise Thru Continuous Lessening of Values.

LOCAL STOCK SYMPATHETIC Opportunity Now Open for Investors—Quotations, Notes and Gossip.

The past week has been one of serious depression in the stock market and the side effect was a general decline in values.

The stock market closed with everything cheerful and a strong tone to the credit. Liquidation this week has been enormous, and has extended far beyond the regular commission house selling, which usually marks the end of an extremely weak market.
