CHANGE IN OATH TO BE STATUTELY OPPOSED

Trouble Expected When Subject Comes Up To-morrow—Firmer Tone of Consols Indicates Likely Agreement as to Lords' Veto.

NEW YORK, June 26.—The Tribune's London correspondent cables: The conference on the veto question has sent up consols a few points. That is a sign that a settlement in the relations of the two houses is considered probable in the street, and that a continuance of cheap money is expected until the end of the year. If the great financiers succeed in mastering the secrets of the conference, the ordinary spectators, parliament and the press do not.

There are rumors that the budget has been settled on a basis of the supremacy of the commons, and a close definition of the finance bill, with the Speaker empowered to decide on the legality or irregularity of taxation, but these are premature. Equally irresponsible are the forecasts of a compromise on the general legislative question. Not until the four Unionists in the conference are prepared to take up the main Liberal grievance, that the lords wantonly hold up progressive measures and exact Tory bills, will there be a reasonable hope of peace. Ways and means will be arranged as soon as the Unionists agree that the lords shall have the right to veto general measures when the general electorate decrees that the country must be governed by a progressive government.

Until a modus vivendi, based on natural equity, has been agreed upon, the conference is wasting time and exhausting the patience of the genuine Radicals. Meanwhile, the true balance between the parties holds, and the newspapers are encouraging the belief that there will not be a general election until after the coronation.

The budget speech this coming week is likely to be a humdrum affair. The revenues have been swollen by good crops and avert with the largely increased expenditures the chancellor of the exchequer will not be forced to provide for a deficit exceeding \$5,000,000. He will do this by means of process, and will not introduce sensational expedients while he plays for safety and arranges concessions for keeping John Bull in the humor.

Oath May Cause Trouble.

The Sun's London correspondent cables: A bill altering the form of the oath of allegiance will be introduced on Tuesday. The budget for 1911-12 will be introduced Thursday. It is difficult to understand why Mr. Asquith considers the former measure uncontentious. It is doubtful whether the bill will pass its first reading on Tuesday without stirring up a storm. It will be opposed not only by the Irish Unionists, but by many other Protestants. Neil Primrose, M.P., Lord Rosebery's younger son, has been working against the bill, and now says he has a large number of members of the house of commons behind him. John Redmond, the Irish leader, who returned to London to attend the Bryan dinner, has issued a whip urging the Irish Catholic members of the house to be present at the session Tuesday.

Despite Mr. Asquith's pledge that the bill merely proposes an alteration in the language of the sovereign's declaration, and will not vary materially the conditions of the accession to the throne, there is bound to be a row on Tuesday. Not only do average Protestants oppose any alteration in the form of the oath, but trouble is expected from the extreme high churchmen in the commons and their friends on the episcopal bench in the house of lords, who object to any form of declaration which repudiates the doctrine of transubstantiation. The Lord Rosebery's younger son, who has been working against the bill, is not contented, seems to be belligerent.

Budget May Be Troublesome.

The budget, too, may prove a contentious subject. It is understood that Mr. Lloyd-George, chancellor of the exchequer, does not intend to lower the increased tax on whiskey imposed last year. This will undoubtedly lead to heated opposition from the Irish members, aided by the Scotch members, and if the Unionists and Nationalists vote in favor of a motion reducing the tax the government would be put in a minority, thereby precipitating a serious political crisis. The risk of a Tory-Irish combination against the government on the budget is not serious, but it is possible. This is one of the risks which a government without a homogeneous majority must always face. Nobody believes that Mr. Redmond has sufficient power to hold up the budget.

Members of all parties hope the conference or "meeting" of leaders will last so long as to render legislation on the lords' veto impossible this year. The leaders of the Liberal party have been widely charged, on the occasion of new peers on the occasion of the King's birthday. It is suggested that the party animosity to the peerage is only skin deep. Observers are unable to see consistency in a government supposedly hostile to the existence of peers appointing a batch of new ones. It is a curious method of abolishing the lords.

Record in Making. The Liberal Government obviously likes the work of making new peers. Within five years it has made forty-four, a record no Tory Government ever attained.

FIRE AT MIDLAND WIPES OUT A DOZEN BUILDINGS

Started in a Roller Rink—Believed to Be Fairly Well Covered by Insurance.

MIDLAND, June 26.—This morning about 3 o'clock fire was discovered in Normay Toole's bicycle shop, an annex to the Palace Roller Rink, and in an incredibly short time the flames were shooting high in the air. A livery barn and two dwellings to the east were soon in flames. The flames, not being resisted, struck back thru the outbuildings behind the business blocks on King-street, and in half an hour the middle section of the block was a seething furnace from Dominion-avenue to Victoria-street. It looked at one time as if the entire block would be wiped out.

The brigade, by splendid work, kept the business blocks and residences on either side of the fire-swept area from suffering to any extent. The rear of the Bank of B. N. A. took fire and blazed merrily away until two streams were turned on it.

Despite the efforts of the firemen the flames swept across Dominion-avenue and the upper story of a frame house was badly gutted before the efforts of the brigade were rewarded in preventing the fire spreading to the opposite block.

The buildings burned were the Palace Roller Rink, owned by W. H. Bennett, and an annex occupied by Normay Toole as a bicycle and repair shop; E. Grace, house and contents; James McDowell, house; W. H. McDowell, livery barn and dwelling; Smith Bros., cutters; the stables of John White; Dr. H. R. McGill and Thomas Argue, the partial destruction of the dwelling owned by S. Terry, and several small buildings used by the merchants in the rear of their stores. The total loss is hard to estimate, but it is believed to be fairly well covered by insurance.

STEAMER BURNED

Passengers, However, All Got Safely to Shore.

POUGHKEEPSIE, N.Y., June 26.—Late this afternoon the steamer Poughkeepsie, of the Central Hudson Steamboat Company, and the company's storehouse at Highland, opposite this city, were completely destroyed by fire. The motor boat, Cardinal, and the Wisconsin Navy, was badly damaged. The total loss was about \$125,000.

MRS. MURPHY ACQUITTED

Judge Summed Up Strongly Against the Prisoner.

BRYSON, Que., June 26.—Annie Murphy, who was charged with the murder of Howell and abetting in the murder of Howell and Dale, was found not guilty by the jury on Saturday. Judge Weir summed up very strongly against the prisoner, and when the jury brought in their verdict declared this was a black day for justice.

FORTUNE FOR OLD LOVE

Australian Cattle King Left \$7,000,000 to Former Sweetheart.

SPOKANE, Wash., June 25.—Mrs. Dolly Baker, of Coeur d'Alene City, Idaho, is said to be heiress to \$7,000,000. Twenty years ago she said good-bye to her girlhood sweetheart, Arthur B. Travers, in Montana, and he went to Australia. The girl grew tired of waiting and married Judge W. J. Groat, later divorcing him and marrying Baker.

UNITARIANS WOULD LIKE CHURCH NEAR CAR LINE

Congregation Will Be Asked to Consider Advisability of Selling Jarvis Street Property.

The comparative distance of the First Unitarian Church on Jarvis-street from any street car line has been a topic of discussion among members of the congregation for some time past. No definite action was thought of, however, till yesterday, when, at the morning service, it was announced that a congregational meeting would be held on September 1, to consider the advisability of offering the church for sale. The pastor, Rev. R. J. Hutcheon, M.A., has gone to Europe for the summer, and the meeting will be held immediately after his return, during the first few days of September.

NICE POINT OF LAW

On Interpretation May Depend Extradition to Italy of Charlton.

ROME, June 26.—The question of the extradition of Porter Charlton is being discussed by the press. The Giornale d'Italia publishes a letter from Advocate Anselmi, who examines the case at great length. He quotes authorities on jurisprudence and the Italo-American convention of 1868. He concludes that Charlton's extradition depends on the interpretation of the word "individuals" contained in the first article of the convention. According to the Italian interpretation the word does not include Italians as Italy does not surrender Italians charged with crimes committed abroad, because it is forbidden by article 9 of the penal code; but the American law does not forbid the surrender of Americans. Hence a different interpretation is possible.

TO SEE SON'S GRADUATION

New Yorker in Penitentiary Wants Out to Attend Commencement.

WASHINGTON, D.C., June 26.—Charles W. Morse, the New Yorker confined in the Atlanta Penitentiary, has a son who was in this year's graduation class at Yale. In a letter to President Taft, dated June 17, Mr. Morse expressed a desire to be present at the commencement exercises. He pointed out to the president that thru the exercise of his pardoning power, to permit prisoners to leave a penitentiary except for extraordinary reasons, would not be given to Morse merely to attend the commencement. With the reply based on the assumption that his request was for a full pardon, Morse has been asked whether his letter should be considered a final application, or whether there are other facts and circumstances that he would like to have considered.

\$20,000 CONFLAGRATION

Paint Works at London Give Firemen a Hard Fight.

LONDON, Ont., June 26.—(Special.)—A fire that resulted in the destruction of itself the plant of the Wortman Ward Manufacturing Company raged for several hours this morning before being got under control. The fire was noticed by a railway employe at 3.30 and had a good start. The shipping room, paint and varnish rooms and boiler and engine rooms are gone, and the loss is placed at over \$20,000. The firm manufactures churns, washing machines, wheelbarrows, etc., and employ about 200 men. The absence of a fire wall directed the whole plant with destruction, and serious explosions of paint and varnish made conditions dangerous for the firemen.

REPORT ON TUBE SYSTEM IS COMING NEXT WEEK

Jacobs and Davies Want More Information—Nothing in Light Co.'s Offer, Says Mayor.

The expert report on a tube system for Toronto will be ready in about ten days. Ald. McCarthy, chairman of the special committee on street railway affairs, yesterday received a wire from Jacobs and Davies, the New York engineering firm, stating that they will be in Toronto next week, and will be ready to submit their report on arrival. Ald. McCarthy had expected their arrival this week, but they ask for more information as to borings in different sections of the city, and this the city engineer's department will be asked to supply without loss of time.

Nicaraguan Revolution Makes Progress—United States May Protest Against Double Duty Levied.

BLUEFIELDS, Nicaragua, June 26.—A column of provincial forces under Gen. Arsenio Cruz, has captured Libertad and Jigalte, important towns in the department of Chontales. This column is part of Gen. Menz's army, occupying advantageous points within reasonable distance of Acopyapa. Gen. Menz with the great body of his troops remains with guns at Acopyapa, which is garrisoned by several hundred of the Madriz forces.

PRINZ OSKAR RELEASED

Came Off the Rocks at Belle Isle and is on Her Way to Quebec.

QUEBEC, June 26.—The steamer Prinz Oskar, which ran ashore at Flower Cove, Straits of Belle Isle, a few days ago, came off the rocks yesterday afternoon, and is now on her way back to Quebec, accompanied by the Davie wrecking steamer Lord Strathcona. She left Flower Cove at 6.30 o'clock this morning.

MR. MACKENZIE DENIES IT

Hudson Bay Company is Not Going into the Retail Business Here.

Jeffries and Jack Johnson on July 4, for a syndicate of newspapers, including The Toronto World. Mr. Beach was accompanied by his wife.

BIG DEALS AT PETERBORO

Water Power and Street and Radial Railways Bought by Syndicate.

PETERBORO, June 26.—(Special.)—A strongly capitalized company, it is announced, has purchased the Healy Falls, Burley Falls and Auburn (Peterboro) water powers. The Auburn plant will be improved by a new power house.

AN UNFORTUNATE BLOW-OUT

Mr. J. E. Coombes, manager of Oak Hall, wishes to extend to their numerous customers who were disappointed Saturday night owing to the main fuse of their light circuit blowing out, his sincere regrets. The circuit has only been on a temporary wire since the new store has been opened but after this week the service cable to the store will be completed and the trouble will disappear. Aside from the inconvenience to the customers, it meant a big loss to the firm, who were right in the midst of a big summer night's trade, so that it was a costly blow-out.

The Dusen Company are showing some splendid lines in genuine South American Panama straw at all prices beginning at \$5. Store 140 Yonge-street. Open every evening.

CONFERENCE BETWEEN COMPANY AND MEN TO TAKE PLACE TO-DAY—MANY OF THE MEN ARE AFRAID OF INVALIDATING THEIR CLAIMS FOR PENSIONS.

MONTREAL, June 26.—(Special.)—The question in regard to the negotiations between the C.P.R. and its trainmen now appears to be that, after having served ultimatums upon one another, the two parties are looking to a peaceful settlement. A conference between the representatives of the men and the company has been arranged for to-morrow, and it is proposed that this will pave the way for an agreement.

A considerable number of the men do not want a strike, their feelings in this regard being dictated by the fact that they have a considerable number of years' service to their credit; in the company's books, and if they were to go out they would lose this and thus be shut out of the pension, to which they will become entitled by a few years' more service.

This interruption of a service by a strike invalidates the pension claim, was brought home to the men by the machinist's strike of a couple of years ago when many men were compelled to re-enter the company and accept of new employes, the some of them had ten or fifteen years' service to their credit. These men argue that the award of the board of arbitration gave the men a substantial pension, particularly in the poorer paid branches of the service, and that, taking into consideration all the circumstances, the acceptance by the company of the award is about as far as it should be asked to go. There has been no change in regard to the Grand Trunk situation.

Mr. Willson yesterday visited several Quebec sites linked with Wolfe's name, and left today for Montreal in the interests of the memorial fund, of which Lord Roberts is chairman.

POISONER GETS 20 YEARS

Sent Prussic Acid in Capsules to Members of General Staff.

VIENNA, June 25.—It is officially announced that Lieutenant Adolph Hofrichter, who recently confessed to having sent poison to officers of the general staff, one of whom died, has been sentenced to be cashiered and to serve a twenty years' term of imprisonment. Hofrichter was recently found guilty at a secret court martial, and it was reported that he had been sentenced to be hanged. He was arrested on November 27 last, and after several months' confinement he admitted that he had sent capsules containing prussic acid to ten members of the general staff. His sole motive, he asserted, was the hope of becoming a staff officer thru the death of one of his superiors.

EATON'S DAILY STORE NEWS

On Tuesday—A Midsummer Hay - making Festival

"Make hay while the sun shines" is a good old adage, and here's a chance to put it into practice.

With the Store closed all day Friday and Saturday of this week, we are looking for great things on Tuesday. But we do not intend that you shall put off your pre-holiday shopping too long, and so we invite you down on Tuesday for a share of the grand good values prepared for this hot weather event, *The Hay-making Festival*. All over the Store special "hay-making" price cards flash forth their message of savings to be gained, and from eight o'clock until five in the afternoon the Store will throb and hum with buying interest, just as all over the country-side the meadows are athrob with the hum of the mower.

Come down Tuesday and Make Hay While the Sun Shines

Exceptional Go-cart Offer

100 extra large, very fine Steel Folding Carts, metal and nickel trimmed, closed sides, large three-bow hood, polished handlebar and half-inch rubber tired wheels. This cart folds quickly into small space. Admirably suited for street car, boat or train traveling. Marked very close to half-price, Tuesday \$5.00

"Arawana" Hammock

Here is a hammock value not often found. The "Arawana" is a large, roomy hammock, made in many styles and colors. Extremely restful, suited for any hanging, verandah, lawn or cottage home. Heavy, close weave, very strong and lasting. Extra wide pillow. Pleated valance and foot spreader. Unusual value, being greatly reduced for Tuesday. Choice \$2.50—Fifth Floor.

Welcome Watch Values at \$5.00

You need not spend more if you're one of the first 50 men or 25 women. The small sum of \$5.00 will buy you a guaranteed jeweled movement in a high-grade case. You couldn't tell it from a \$50.00 watch without careful examination of the works, for it keeps perfect time and has all the elegance of finish that you associate with a most costly timepiece. Needless to say, the price is scarcely enough to pay for the case.

The orders are to make a big day of Tuesday, and this is our sacrifice:—

25 only—Women's gold-filled, 0-size hunting-cased watches, fitted with a 17-jewel, adjusted nickel movement, each jewel having a separate setting; are equipped with Breguet hair spring, exposed winding wheels, patent regulator, etc. Splendid value, at, each \$5.00

MONDAY MORNING, JUNE 27, 1910.

THE UNITED STATES GOVERNMENT IS HUSTLING.

Over fifty of the three hundred odd suits now entered in the United States Supreme Court are being pressed by the national government in the interest of the public, and in nearly every case against private corporations, from the Standard Oil down. The most significant thing on this continent to-day is the change in public opinion which has forced those in office to prosecute the great wrongdoers against the people. The attorney-general of the United States, and a staff of lawyers and experts, are all busy in these cases.

Do you see anything like this in Canada? Political picnics could be made ever so much nicer for everybody there if the speakers had a 10-minute limit.

PUBLIC POWER AND ITS OPPONENTS.

The electric corporations are displaying their chagrin at the success of the hydro-electric power scheme in various little disagreeable ways. The opposition at Windsor to the carrying of the power bylaw, whereby 15,000 h.p. was added to the consumption of the scheme, reducing the price for Windsor from \$49 for 5000 to \$27.21 on the new basis of consumption, and reducing the cost proportionately for all the other municipalities, except Hamilton, was engineered by opponents of the commission, working partly thru agents and partly by direct influence.

One of the arguments used indirectly was that the use of power at Windsor would injuriously affect the eastern manufacturers. Another line of attack had respect to the alleged evil effect of allowing power to be exported to Detroit. As the power to be exported will be absolutely under control of the commission, nothing is to be feared on this account. The commission will see that fair prices are charged, and that the power will be returned for use in Windsor just as soon as there is demand for it.

Poor Hamilton is the only city not to be benefited by the Windsor agreement. Hamilton listened to the wiles of Mayor McLaren, who was pledged to support the hydro-power commission, but as soon as he was elected came out in the interests of the Cataract Power Company and insisted on the city making an agreement which deprives Hamilton of the reduction in the price of power which the other cities will get. Sir Henry Pellatt thought Toronto would follow the example of Hamilton, which, to say the least, was not really nice of him.

DESERVES THE CREDIT.

Mayor Geary deserves all the credit that can be accorded to him for the settlement of the question of the widening of St. Clair-avenue, and the added project of completing the good work by including Danforth-avenue. The World has advocated these improvements from the moment their necessity became apparent. The building of the Bloor-street viaduct must be taken up in the same spirit, and we trust that the mayor will give the matter the same attention which has been so effective in the case of St. Clair-avenue.

A TRUE HEROINE.

The annals of heroism do not contain a nobler story than that of little 14-year-old Nellie Crew, who, left alone with seven children younger than herself, woke up in the night and, finding the house on fire, carried them all to a place of safety and nearly lost her life in rescuing the last one. The coolness, the presence of mind, the persistence, the comprehension of the situation, the self-reliance of this little girl, are worthy of recognition by the Royal Humane Society. Nellie Crew is only a Canadian by adoption, having come from England with her father and mother two years ago. This is the kind of immigrant that will make the country great. The Crew family are having a struggle, as so many immigrants have at first, and Herbert Lennox is receiving donations to replace their belongings, all of which were lost in the fire which destroyed their home.

MORE SEASONABLE EXAMINATIONS.

The present year, with its long and comparatively cool spring, was a much more favorable one than usual for the children pursuing their studies for the midsummer examinations. Perhaps the sudden change to the great heat which set in two weeks ago has been responsible for an added strain upon the little ones. Certain it is that observant fathers and mothers realize that the strain has been very heavy. A strong desire has been expressed that the examinations should be arranged for a cooler season, when the young

brains are less likely to be overheated, and the young bodies less fatigued and exhausted with a fiery temperature. There is a growing feeling in favor of the abolition of examinations altogether, and we do not remember having heard any eminent person testify to any particular good they did for him, although many are earnest in recommending them for other people. But apart from this it ought not to be beyond the resources of the educationists of Ontario to readjust the examination period without throwing all the machinery of education out of gear.

ANNEXATION MUST EMBRACE THE WHOLE TOWN.

In connection with the annexation movement in North Toronto, some are suggesting that the northern boundary of the city should be Eglinton-avenue, and that the balance of the town be left as a separate municipality. There are many strong arguments against this idea, and, besides, there are as many annexationists north of Eglinton-avenue as there are south.

To carry out the improvements needed for the welfare of the future growth of North Toronto all the resources of the municipality as it now exists are being taxed, and if these obligations were thrown upon only a portion of the town, it can readily be seen that either the taxes would mount up very materially or the improvements would have to be suspended.

Within a short period the large block of land lying west of Yonge-street and south of Eglinton-avenue will be opened up for building purposes. This will be an extension of the fine building sites in the Avenue-road district of the city. Communication will be had with Yonge-street by way of the St. Andrew property and Frederick-street. High-class buildings in this part of the town, as is the case at other points, will demand sewerage and water, and justly so.

The Avenue-road annex will round off Davisville and add materially to that portion of Yonge-street which is already a profitable business centre. Contemplating expansions of this nature, due provision must be made for the growth in population, and what to do for the lack of relief by the only possible means, annexation to the city.

Some North Toronto people have been under the impression that if the town were annexed they would lose the benefit of their present healthful situation. To these it might be pointed out that North Toronto will still remain where it is, and that an increase of population will be more than compensated for by the adoption of better sanitary arrangements. The hard-headed thinking men of the town can see but one solution to clear up present municipal difficulties, and that is annexation.

RECONSIDER TREATY

Rumor That Russians and Japanese Will Revise Treaty of Portsmouth.

BOSTON, June 26.—Rumors are current at Manchester-by-the-Sea that the ambassadors from Russia and Japan will meet there this summer to reconsider certain parts of the treaty of Portsmouth, signed at Portsmouth, N.H., on September 5, 1905, formally ending the Russo-Japanese war. The Japanese Embassy is already settled for the summer at East Gloucester. Baron Rosen, head of the Russian Embassy, and appointment figure at the negotiations at Portsmouth, has changed his plans and is coming to Manchester to spend the summer instead of going to Bar Harbor. No official confirmation of the rumor could be obtained.

NEW RECTOR'S FIRST SERMON

Rev. J. E. Gibson Addresses Congregation of Church of Redeemer.

Rev. J. E. Gibson preached yesterday at both services, at the Church of the Ascension, for the first time since his acceptance of the charge. His regular duties with the congregation will not be commenced until Aug. 1, at which time he will be freed from his present church in Lloydstown. The words around which the new rector gathered the thoughts of his morning discourse were found in the parable of the laborers as told by Matthew in the 20th chapter and 13th verse. "But he answered one of them and said, Friend I do thee no wrong; didst thou not agree with me for a penny?"

"I believe," said the rector, "that this parable, with Christ as the Master of the vineyard, is a strong appeal to those who would purchase the fruit in death-bed repentance. It is a call to receive the wages even at the eleventh hour, but I believe, at the same time, that our Lord in His teaching, spent very little of His time persuading His hearers that they could continue in their sin and repent at the last hour. Now is the time, while we are working, for which we shall receive wages.

"But there is another, possibly more important lesson in the few words that follow in the next verse, 'Take that thine is, and go thy way.' I do not believe that our Lord was rebuking the man who called for justice, but rather did he reckon with him because he had made a poor bargain and did not ask enough. There are so many who are laboring in the cause of Christianity, and who have never stopped to consider what their wages are to be."

Those personally to whom his new congregation the pastor said, "If you are going to receive any good from my administration here, it will be because you demand great things. If any less is asked than that, time to time we are taken into the presence of the Lord God you are not asking enough, and dissatisfaction will result. So shall we build up a worship and a work that will be His work and so shall we be His children."

Burgess—H. R. Frost for defendant. Motion by defendant on consent for an order vacating certificate of lis and its pendens. Order made.

Judge's Chambers.

Before Middleton, J. Greenberg v. Wealey—G. H. Kilmer, K.C., for defendant; M. C. Cameron for plaintiff. An appeal by defendant from the order of the master in chambers of 18th June, 1910, dismissing motion of defendants, publishers of Bruce Tifler, to force out paragraph 6 of plaintiff's statement of claim in a libel action, as raising an immaterial issue, and also for security for costs. Judgment of paragraph 6 in no way aids the plaintiff's action for libel, but is in itself a count for slander, and cannot be struck out of the defendant's affidavit, now sought to be put in, and refused, is worthless, on the application for security for pleading, and this part of his motion also fails. Appeal dismissed, with costs fixed at \$20.

Offering of Portion of Securities to Public Will Result in Partnership Between Buying Public and Stores.

The departure that is being made by Toronto capitalists in offering a portion of the securities of the new Murray-Kay consolidation to the investing public of Canada is an interesting one. The consolidation means the bringing together of two of the largest businesses in their own particular line in Canada, and seeing that thousands of Canadians make a daily practice in doing business in the stores of both companies, it seems particularly business-like, to be advantageous both to the business of the new company and to the customers in general that there should be some form of partnership established as between the stores and the buying public. In London and other commercial centres similar enterprises have been particularly successful and have shown that the custom of allowing the buying public to come in and become shareholders has resulted in larger volume of trade being done in the stores, while in the long run the shareholders derive the benefit of this larger trade because it practically results in larger dividends being paid on the securities which they hold.

Another important development in connection with the consolidation of the stores is the fact that the capital of the John Kay Company, Limited, established away back in 1848, and the W. A. Murray Company, Limited, which started in 1852, are being merged.

It gives the public what it has long desired to have, and that is an idea of just what profits these larger stores find it possible to make. The statement of the combined earnings of the two companies as prepared by the accountants shows that for the last three years their profits amounted to \$389,875.65, being at the rate of \$196,485.55 per annum. These earnings would be equal to over 18 per cent, on the entire investment in the consolidated stock, which is being made by the new company, and after the payment of the 7 per cent, cumulative and non-cumulative interest on the surplus earnings of over 6 per cent, on the \$1,500,000 of common stock.

An interesting announcement in connection with the consolidation is that all the men who during the past few years have helped to make the businesses of the two companies very successful, are in addition retaining a very large financial interest in the new company, be actively identified with its management and direction.

For Arthur H. Kay, who had retired from participation in the business a few years ago, will, in addition to filling the position of vice-president, give the company the benefit of his long experience.

BUYING DIRIGIBLES

Italian Chamber Votes Large Sum to Supply Army With Them.

ROME, June 25.—The chamber today unexpectedly voted the expenditure of 10,000,000 lire (about \$1,193,000) for dirigible balloons for the army. The Socialists and Republicans opposed the proposal. They deplored increased army expenditure as useless, war being practically impossible. They advocated disarmament.

The discussion arose during the absence of the minister of war. He was summoned from the senate and made an eloquent appeal to the country's national honor.

The vote was then passed by a majority of 200.

ROOSEVELT A CANDIDATE?

May Run for Governor to Save New York State for Republicans.

OYSTER BAY, N.Y., June 25.—Theodore Roosevelt is going to plunge into the political fight that will be waged this fall for the control of New York State, persists in his refusal to talk politics, or public action, but it may nevertheless be said with authority that he will devote his supreme court to the Republican party from the defeat which he thinks menaces the state.

He will leave it to the governor to detect the wrongs that come to the surface, but he will not accept another nomination, sacrifice his place on the bench of the supreme court and go back into harness for two years more at Albany.

Experts Disagree.

When doctors disagree, leave it to the judges.

One batch of experts having found Michael Fraser, aged 84, of Midland, Superintendent of the responsible condition, even more complicated the situation for those trying to have his recent marriage annulled, by stating that Fraser is perfectly normal for his age.

Judgment of paragraph 6 in no way aids the plaintiff's action for libel, but is in itself a count for slander, and cannot be struck out of the defendant's affidavit, now sought to be put in, and refused, is worthless, on the application for security for pleading, and this part of his motion also fails. Appeal dismissed, with costs fixed at \$20.

Offering of Portion of Securities to Public Will Result in Partnership Between Buying Public and Stores.

The departure that is being made by Toronto capitalists in offering a portion of the securities of the new Murray-Kay consolidation to the investing public of Canada is an interesting one. The consolidation means the bringing together of two of the largest businesses in their own particular line in Canada, and seeing that thousands of Canadians make a daily practice in doing business in the stores of both companies, it seems particularly business-like, to be advantageous both to the business of the new company and to the customers in general that there should be some form of partnership established as between the stores and the buying public. In London and other commercial centres similar enterprises have been particularly successful and have shown that the custom of allowing the buying public to come in and become shareholders has resulted in larger volume of trade being done in the stores, while in the long run the shareholders derive the benefit of this larger trade because it practically results in larger dividends being paid on the securities which they hold.

Another important development in connection with the consolidation of the stores is the fact that the capital of the John Kay Company, Limited, established away back in 1848, and the W. A. Murray Company, Limited, which started in 1852, are being merged.

It gives the public what it has long desired to have, and that is an idea of just what profits these larger stores find it possible to make. The statement of the combined earnings of the two companies as prepared by the accountants shows that for the last three years their profits amounted to \$389,875.65, being at the rate of \$196,485.55 per annum. These earnings would be equal to over 18 per cent, on the entire investment in the consolidated stock, which is being made by the new company, and after the payment of the 7 per cent, cumulative and non-cumulative interest on the surplus earnings of over 6 per cent, on the \$1,500,000 of common stock.

An interesting announcement in connection with the consolidation is that all the men who during the past few years have helped to make the businesses of the two companies very successful, are in addition retaining a very large financial interest in the new company, be actively identified with its management and direction.

For Arthur H. Kay, who had retired from participation in the business a few years ago, will, in addition to filling the position of vice-president, give the company the benefit of his long experience.

BUYING DIRIGIBLES

Italian Chamber Votes Large Sum to Supply Army With Them.

ROME, June 25.—The chamber today unexpectedly voted the expenditure of 10,000,000 lire (about \$1,193,000) for dirigible balloons for the army. The Socialists and Republicans opposed the proposal. They deplored increased army expenditure as useless, war being practically impossible. They advocated disarmament.

The discussion arose during the absence of the minister of war. He was summoned from the senate and made an eloquent appeal to the country's national honor.

The vote was then passed by a majority of 200.

ROOSEVELT A CANDIDATE?

May Run for Governor to Save New York State for Republicans.

OYSTER BAY, N.Y., June 25.—Theodore Roosevelt is going to plunge into the political fight that will be waged this fall for the control of New York State, persists in his refusal to talk politics, or public action, but it may nevertheless be said with authority that he will devote his supreme court to the Republican party from the defeat which he thinks menaces the state.

He will leave it to the governor to detect the wrongs that come to the surface, but he will not accept another nomination, sacrifice his place on the bench of the supreme court and go back into harness for two years more at Albany.

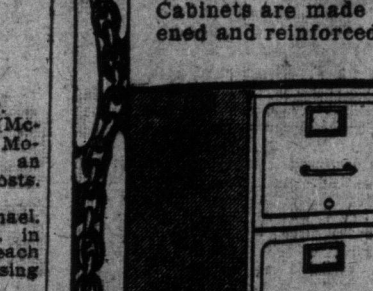

Experts Disagree.

When doctors disagree, leave it to the judges.

One batch of experts having found Michael Fraser, aged 84, of Midland, Superintendent of the responsible condition, even more complicated the situation for those trying to have his recent marriage annulled, by stating that Fraser is perfectly normal for his age.

BORDEN CONCLUDES HIS TOUR OF ONTARIO

Spoke on Tariff Question at Finch on Saturday—Leaves for Nova Scotia Wednesday.

OTTAWA, June 26.—(Special).—R. L. Borden, the opposition leader, concluded his political tour of Ontario at Finch, Stormont County, on Saturday afternoon. He leaves for Nova Scotia on Wednesday, and after a series of meetings in his native province, he will return west and make another political tour of Ontario in the fall. Indeed, he has tentative programs mapped out which will keep him busy right up to the next general election. At Finch on Saturday the meeting took the form of a picnic, and was eminently successful. Although there must have been about 1500 present, Borden, strongly Liberal, but both parties united to give Mr. Borden a warm welcome. George L. McLean, reeve of the village, who is a prominent Liberal, in presenting an address to the opposition leader, said: "We are pleased to note that our present visitors have fearlessly and honestly upheld the principles for which they stand both in parliament and before the country, and we hope that in the near future any public men at whom the finger of scorn is pointed, on account of actions that are not in the public interest and honestly upheld, will be driven permanently from public life."

Mr. and Mrs. Borden were accompanied from Ottawa by Mr. and Mrs. George H. Perley. At Finch they were met by Andrew Broder, M.P., Dr. John D. Adams, M.P., Mr. Milligan, J. G. Reed, M.P., Mr. John McLaughlin, ex-M.L.A., J. C. Mulligan, George Kerr, ex-M.P., Mr. J. Howard Ferguson, M.L.A., R. A. Pringle, ex-M.P., and many others. Hon. W. J. Hanna was unable to be present. The opposition leader dealt with the tariff question.

GOODNESS WITH FRANCE

Reported That French Minister of Foreign Affairs Disapproves British Policy Toward the Island.

LONDON, June 26.—(New York Sun Cable.)—There seems to be a rift in the entente cordiale. It is reported that France is displeased by the failure of Foreign Secretary Grey to adopt its point of view regarding Crete. The French cabinet is anxious to avoid military adventure of any kind anywhere, but certainly the French public is unwilling to tolerate any expedition to Crete to bolster up Turkish suzerainty.

It is reported that the French ministry of foreign affairs feels that Sir Edward Grey has adopted a risky and unsatisfactory policy in regard to Cretan affairs, believing that sooner or later some disagreeable incident will occur necessitating intervention as a result of Sir Edward's policy of procrastination.

The French Government wanted a conference, but Sir Edward would not accept the proposal. He also declined a suggestion that representatives of the protecting powers should meet frequently in London for the purpose of settling current business in regard to Crete. The present condition of the Cretan problem, is that the four protecting powers have agreed to a preliminary measure, that each shall send a second warship to Cretan waters before the next meeting of the assembly.

The Russian proposal to occupy Crete has been accepted in principle by the three other powers as a measure for adoption in the event of further emergency. The latter proposal had an immediate moral effect on the situation, for the Greek Government immediately addressed a remonstrance to the Cretan leaders.

Have you ever thought of ensuring the health of your office staff? Put in York Springs water and they will be safe as far as drinking water is concerned. Five gallons fifty cents.

Three Lives Lost in Hotel Fire. SENECA FALLS, N. Y., June 26.—Three persons lost their lives and another had a narrow escape from serious injury in a fire that destroyed the Seneca House here to-day. A building adjoining the hotel was also burned. The loss is estimated at \$40,000.

ST. LAWRENCE MARKET

Receipts of farm products were 100 bushels of grain, 10 loads of hay, about 50 conveyances of different kinds loaded with mixed produce, in the north market building, and a fairly large delivery of butter, eggs and a few lots of poultry on the basket market.

MARKET NOTES

John Barron bought the bulk of the best spring chickens on the basket market at 2c per lb. also in one of two instances he paid 25c for extra quality.

CHICAGO GOSSIP

Erickson Perkins & Co. received the following at the close: Wheat—Country buying of futures at Minneapolis would rather confirm belief in serious damage. There was a good deal of speculation over Sunday.

STREET RAILWAY

Gross Revenue \$68,250 Operating Costs 40,950 Net Revenue \$27,300

POWER DEPARTMENT

Gross Revenue \$52,000 Operating Costs 13,000 Net Revenue \$39,000

RAILWAY EARNINGS

As the gross earnings of the old system for 1909 amounted to \$81,222, with the largely increased mileage, reaching the residential portions of the city, the above estimate should be conservative.

POWER EARNINGS

As applications have already been received for the greater part of the available power, there is every reason to believe that on the completion of the development in November the whole will be contracted for.

Strong Franchise Position

The Sherbrooke Railway and Power Company is right from its inception a going concern. As a street railway concern the new company has a 40-year franchise from the City of Sherbrooke, which gives the exclusive right to build and operate a street railway within the limits of the city during this period, with exemption from all taxation for the first twenty years.

Outlook for City

Sherbrooke, by its situation as an industrial centre, is destined to keep pace with the tremendous development that is taking place in Montreal, and in the future an increasing number of industries will find it advantageous from a point of view of labor and power to locate within its limits.

Prospectus and forms of application

may be obtained at any Branch of the Royal Bank of Canada or the Eastern Townships Bank, or from McQuaig Bros. & Co., Montreal, or Brouse, Mitchell & Co., Toronto.

Serious Crop Deterioration in American Western States

Farther Reports of Damage in Minnesota and the Dakotas—Wheat Futures Higher at Chicago.

World Office. Saturday Evening, June 26. Liverpool wheat futures closed to-day 1/2c higher than yesterday; corn 3/4c higher.

July wheat at Chicago closed 1/4c higher than yesterday; July corn 1/2c higher and July oats 1/4c higher.

July wheat at Winnipeg closed 1/4c higher than yesterday; July corn 1/2c higher and July oats 1/4c higher.

Chicago crop late to-day: Wheat 1,100,000 bushels; corn, 200,000 bushels; oats, 80,000 bushels.

Northwest receipts of wheat to-day were 100,000 bushels against 100,000 a week ago, and 100,000 a year ago.

Crop Reports. Minneapolis. The Market Record says: Information of a reliable sort has been received by us from many parts of the three Northwestern and Canadian Northwest states, one saying that cattle have already died and that cattle have been turned into them to get what they can of the plant. The crop is in a most critical condition in very true. If rains come at once much of the damage can probably be repaired.

Finley Barrett says—Following from one of the best informed men in the Northwest I do not think Dakota can raise over half a crop, even if they get all the rain they want. Gone too far and getting worst every day.

Inter-Ocean of Chicago says a condition of 2 1/2 for the wheat crop in the three northwestern states suggests a wheat crop figured on the Chicago basis of 200,000,000 bushels, or 60,000,000 bushels short of the government promise, June 1. Minneapolis people figure that it means \$15,000,000 against a promise June 1, of \$50,000,000. Enthusiastic bulls at Minneapolis are talking about the three states not raising over 150,000,000 bushels.

ST. LAWRENCE MARKET. Receipts of farm products were 100 bushels of grain, 10 loads of hay, about 50 conveyances of different kinds loaded with mixed produce, in the north market building, and a fairly large delivery of butter, eggs and a few lots of poultry on the basket market.

Wheat—About 10 loads sold at 87 to 92 1/2c per ton. Butter—Prices ranged from 20c to 25c, the bulk selling at 22c to 23c.

Eggs—The bulk of the eggs sold at 35c. A few lots to special customers brought 37c. Prices ranged from 28c to 35c generally.

Poultry—Receipts moderate, but ample to supply the demand at the present high prices. Turkeys, 11c to 12c per lb. was noted; ducks, 8c per lb.; chickens, 10c to 12c, the bulk selling at 8c; fowl, 15c to 17c per lb.

Market Notes. John Barron bought the bulk of the best spring chickens on the basket market at 2c per lb. also in one of two instances he paid 25c for extra quality.

At Wright, in one of two instances, he paid 25c for extra quality. Out of the market for spring ducks at \$2.50 for one choice pair.

NEW PLANTS INSTALLED. COBALT, June 25.—For the Halseybury Frontier Company of South Lorrain, Mr. H. Lawrence Brown has ordered a five drill compressor and a hundred horse power motor. It will be delivered and installed as quickly as possible. The Halseybury Silver Mining Company have also definitely decided to put in a small plant. They will put in two plants, one for each shaft, and a boiler.

BERRY PICKERS NEEDED. GRIMSBY, June 25.—(Special).—Strawberry pickers are in demand. The crop is ripening with a rust and many berries will rot on the vine. Prices on the city markets show a drop. Early varieties of cherries should be on the market early this week.

Many Happy Returns. To Frank T. Lee, of W. A. Lee & Sons, born in Toronto 45 years ago to-day.

Security and Earning Power

The bonds of the Company are secured by a deed of trust in favor of the Montreal Trust Co., which is an absolute First Mortgage upon the Hydraulic development and transmission lines, upon all street railway extensions, present and future, and upon all new rolling stock of the Company, and which is a mortgage on the rights, powers, franchises and existing lines, subject only to the outstanding \$100,000 Sherbrooke Street Railway Bonds.

Messrs. Ross & Holgate, Consulting Engineers, of Montreal, who have examined and reported upon the position of the Company, estimate that its earnings for the first year after the work is completed should be as follows:

Table with 2 columns: Item, Amount. Includes Gross Revenue (\$68,250), Operating Costs (\$40,950), Net Revenue (\$27,300), POWER DEPARTMENT Gross Revenue (\$52,000), Operating Costs (\$13,000), Net Revenue (\$39,000).

RAILWAY EARNINGS.—As the gross earnings of the old system for 1909 amounted to \$81,222, with the largely increased mileage, reaching the residential portions of the city, the above estimate should be conservative.

POWER EARNINGS.—As applications have already been received for the greater part of the available power, there is every reason to believe that on the completion of the development in November the whole will be contracted for.

Strong Franchise Position. The Sherbrooke Railway and Power Company is right from its inception a going concern. As a street railway concern the new company has a 40-year franchise from the City of Sherbrooke, which gives the exclusive right to build and operate a street railway within the limits of the city during this period, with exemption from all taxation for the first twenty years.

Outlook for City. Sherbrooke, by its situation as an industrial centre, is destined to keep pace with the tremendous development that is taking place in Montreal, and in the future an increasing number of industries will find it advantageous from a point of view of labor and power to locate within its limits.

Prospectus and forms of application may be obtained at any Branch of the Royal Bank of Canada or the Eastern Townships Bank, or from McQuaig Bros. & Co., Montreal, or Brouse, Mitchell & Co., Toronto.

Business for Traction System and Market for Total Production of Power

The City of Sherbrooke and surrounding country offer a very attractive field for both the Traction and Power Departments of the Company.

The growth of the population of Sherbrooke has been of a very steady and permanent character. In 1871 it had a population of 4382, which has increased to about 17,000 at the present time. It is estimated that, including the Town of Lennoxville, where Bishop's College is situated, that the Street Railway serves a population of 20,000.

Although the population of the city has increased over fifty per cent. in the fifteen years since it commenced operations, the present street railway system has never been extended. It is now proposed to more than double the existing mileage.

Sherbrooke is the commercial centre of the Eastern Townships, which results in it having at nearly all times of the year a fairly large transient population.

It is also an important railway and industrial centre. It is a divisional point of the Canadian Pacific Railway; the Canadian Terminal of the Boston and Maine System, the headquarters of the Quebec Central Railway Co., and is on the main line of the Grand Trunk Railway.

Its importance as an industrial centre may be judged from the fact that it is the headquarters of such well-known concerns as the Jencks Machine Company and Rand Drill Company, which supply a large part of the mining machinery used in the Eastern Townships. The Fairbanks Scale Company (Canadian Branch), the Webster Cigar Company, the Silver Springs Breweries, the Sherbrooke Iron and Foundry Company, and the Paper Machinery Manufacturing Company.

In addition to the above, several important interests are considering at the present time locating in Sherbrooke, the conditions pertaining to labor, transportation and cheap power being favorable for the operation of industrial plants. The surrounding district, besides being rich in timber and minerals, comprises the greatest asbestos deposits in the world.

As the gross earnings of the old system for 1909 amounted to \$81,222, with the largely increased mileage, reaching the residential portions of the city, the above estimate should be conservative.

Ninth Day of a Remarkable Distribution of Muslins.

WE undertook to clear an immense surplus of imported Muslins in ten days. We accepted the offer only on terms that we judged would enable us to do so. And it was a big task we set ourselves, for the quantity was enormous. Fortune has favored the brave—we have kept up to our schedule. The weather has emphasized the value of cool washable dresses, and these materials are certainly as dainty as the Summer Girl herself. Two days remain. We make prices more attractive than ever to finish up the sale with a vim.

Back in the 80's

When people came down town to Simpson's on the horse car—do you remember what Yonge street was like? The building known as the Wanless Building was considered in those days one of the handsomest on the street. Of late years it has been surrounded and overshadowed by the Simpson block. Soon indeed, it is to be taken down and replaced by steel and roman brick, in uniformity with the rest of the Simpson block. Hence the remarkable shopping opportunities for men in the Wanless section these days.

On Tuesday!

SELLING 5,000 OF OUR BETTER CLASS NEGLIGES AT EACH 98c.
 Negliges that were stocked in the old Wanless building that will be torn down shortly. We are taking this short way of moving the stock. Come in Tuesday.
 5,000 Neglige Shirts, taken from our regular stock; all are this present season's designs and colorings; each shirt will fit perfectly; many different patterns; hundreds of different color combinations; sizes in the lot 14 to 18. Each, Tuesday 98c.

50c AND 75c NECKWEAR REDUCED TO EACH 35c OR 3 FOR \$1.00.
 This sale of Simpson Neckwear will appeal to men who appreciate good silk ties; every one was taken from regular stock; they are all this season's patterns and colorings, and are made in the correct shapes; there will be about 1,500 ties to choose from; all made in the popular four-in-hand style; none worth less than 50c, and many worth 75c. To get the best choice come at 8 o'clock. The price, each, 35c, or 3 for \$1.00.
