## Commons Considers New Tariff in May, Says Ballantyne Reds Make Gains Following Fighting in German Towns

### MEANS LONG DELAY HERE, S. REACHES FULL PEACE STATUS

Senators Differ Over Means  
 to Be Adopted While the  
 House is Indefinite.

### NO WORD FROM WILSON

Washington, March 21.—Altho active steps to declare a state of peace by congressional resolution are not expected until late this week, Republican leaders of the senate and house are to begin conferences tomorrow on the exact form such a declaration should take.

Some senators and representatives want to phrase the peace measure in the simplest affirmative terms, others prefer to repeal the declaration of war and go on record as demanding certain concessions from Germany, while still others are for inclusion of some sort of a declaration of international policy. The principal opposition to a policy declaration is expected to come from the treaty-reconcilable in the senate, some of whom have told the majority leaders they consider the treaty inopportune for congress to take any binding stand on the subject.

These senators do not like even the leading peace resolution by Senator Knox, Republican, Pennsylvania, which reaffirms the belief of congress in an international tribunal and disarmament.

For the present, however, the Knox resolution has the right of way so far as the senate program is concerned. It was reported by the foreign relations committee in December and unanimously passed by the senate on the basis of opening discussion of the subject late this week on the senate floor.

In the house the situation is less definite, the Republican leaders there having formulated no policy. In December they declined to let the question of a peace declaration come up at all, but many house members believe the case may be different now.

The senate again has refused to ratify the treaty, while the house committee already has several peace measures before it and Representative Britten, Republican, Illinois, announced today that he would introduce another tomorrow.

What Will Wilson Do?  
 With the treaty back at the White House and plans for a peace declaration still in their formative stages, reports of several days generally is expected in congressional debate on the issues raised in connection with the establishment of peace.

There has been as yet no intimation given of the action the president will take over the rejection of the treaty by the senate.

Three courses are open to Mr. Wilson. He can return the treaty to the senate, in which case the Republican leaders declare it will be pigeon-holed indefinitely; he can do nothing, while he waits for the people in the political campaign, or he can treat the treaty as a dead letter, and as international diplomacy is concerned, and proceed to negotiate a separate peace treaty with Germany which he alone, under the constitution, could initiate.

Whichever of these he chooses, a long delay seems inevitable before he can bring the country to a full peace status, and the state department holds out until such a status is attained the present diplomatic and trade relations with Germany must be continued.

### New Fiscal Policy Ready for Canada

Hon. C. C. Ballantyne States It Will Be Announced  
 On Return of Premier Borden About May 1—  
 Policy to be Neither Free Trade nor  
 Class Legislation.

Montreal, March 21.—Announcement that a new Canadian fiscal policy is ready and that it will be presented to the house of commons on the return of Sir Robert Borden about May 1, was made by Hon. C. C. Ballantyne, minister of marine and fisheries, on Saturday night, in an address to members of the Canadian Workers Federation of Returned Soldiers and Sailors, who tendered the minister a banquet in the Windsor Hotel here.

The minister intimated that the proposed tariff will not be class legislation, nor free trade policy, but one that will grant favors to none and will cover the diversified interests of Canada while yielding necessary revenue.

### Federal Shipbuilding Plans.

Discussing the question of shipbuilding, Mr. Ballantyne said that the government had not arrived at a final conclusion in regard to the building of passenger ships, but that with the completion of 62 cargo ships that part of the program was at an end.

In the course of his speech Mr. Ballantyne said that the Dominion Steel Company would within the next few days be officially informed that the government would take the maximum quantity of 75,000 tons of steel shipplates.

### CAR TURNS TURTLE; DRIVER RUNS AWAY

Five People Narrowly Escape  
 Death on Lake  
 Shore.

Four people were slightly, and one seriously, injured yesterday afternoon when their hired automobile capsized on the bridge bank just outside Mimico, on the Lake Shore road.

The driver, apparently, did not have full control of the car, for, while crossing the bridge, he wheeled sharply to the right, causing the auto to mount the bank and then turn completely upside-down, pinning the occupants helplessly underneath.

The taxi had been hired from the Culliton garage by Mr. C. A. Reeves, who was traveling with his wife, three sons and a friend, Miss Cotterell. When a rescuing party arrived, it was found that the driver had disappeared, and that it was necessary to cut the top off the auto in order to extricate the passengers beneath.

With the exception of Miss Cotterell, whose ribs were broken, all the injuries were slight. The chauffeur was captured shortly after the accident, but succeeded in making his escape, and the county police are now looking for him.

### MISSING GIRL LOCATED AFTER WEEK'S SEARCH

Annie Semple, the 16-year-old girl who disappeared from home last Monday and was believed to have been kidnapped, was located Saturday night in a house on Gore Vale avenue, by Detective Ward. The police premise developments in the case, which will likely materialize today.

The young girl left her home at 445A Yonge street last Monday to exchange a book at the public library, College street. When she did not return home that night her mother, fearing the girl had been taken away, asked the police to locate her daughter.

### FOUR FEDERAL BILLS

Ottawa, March 21.—(By Canadian Press)—Hon. N. W. Rowell, as minister of health, has given notice of four bills which he will introduce in the commons on Monday. They are in respect to food and drugs, maple products, honey and commercial feeding stuffs.

### TROUSERS UNCHANGED Price is Likely to Enforce Dictum of New York Tailors.

New York, March 21.—The tightening suit for men is no more. The New York custom cutters' club has decreed a "natural fitting cut, not so narrow and a fraction longer." The "slouchpick" lapel is also banned. Narrow sleeves will be retained. Trousers are practically unchanged.

### TURKISH NATIONALISTS HOLD ASIA MINOR AT MERCY; FEARS FOR CHRISTIANS FELT

Constantinople, March 21.—That the traditional grandeur of the sultan's pageant in an atmosphere which must be British dreadnoughts in the Bosphorus, is evidenced by most of the reports which believe that the sultan belongs to the victor.

The sultan issued an exhortation to his subjects Friday to pursue their usual vocations in peace, regardless of the foreign occupation. Meantime, a British warship was steaming towards the straits carrying Reouf Bey and many others supporting Mustafa Kemal's opposition to the dismemberment of Turkey and were rounded up in a raid on Constantinople preceding its occupation.

The nationalists charge the sultan with treachery and say he lacks courage and patriotism. The sultan's cabinet threatened to resign, but after several meetings decided to retain office. Altho it is reported the cabinet prepared to give the new cabinet a vote of confidence, no meeting of the

### TWO-MILE CORTAGE FOLLOWED THE BODY OF MAYOR OF CORK

Only Motive Suggested for  
 Murder is Revenge for  
 Killing of Policeman.

### PROCLAMATION ISSUED

Cork, Ireland, March 21.—Thousands of persons resident in the city and from the surrounding country today passed thru the city hall, where the body of Lord Mayor MacCurtain, who was assassinated early Saturday morning, was lying in state.

A procession of mourners two miles long followed the hearse yesterday, when the body of the lord mayor was conveyed from his residence to the town hall. Bishop Colahan walked in front of the first body of the Cork Sinn Fein volunteers, which acted as a bodyguard and which furnished the guard of honor in the town hall during the night.

A procession of mourners two miles long followed the hearse yesterday, when the body of the lord mayor was conveyed from his residence to the town hall. Bishop Colahan walked in front of the first body of the Cork Sinn Fein volunteers, which acted as a bodyguard and which furnished the guard of honor in the town hall during the night.

Today a proclamation printed in English and Gaelic and signed by Father Dominic, chaplain of the Republican Guard, was posted about the city. It said:

"With a grievous heart, I announce to you the death of our lord mayor, Thomas MacCurtain, commander of the Cork first brigade of the army of the republic. The public will observe Monday as a civil holiday to afford the citizens an opportunity of testifying their respect to our chief citizen and their horror at the brutal and cowardly manner in which he was done to death. Let no provocation move our citizens to retaliation or to any unseemly act."

The only reason suggested for the assassination of the lord mayor is revenge for the recent murder of policeman. Some persons today expressed the belief that it meant the beginning of a campaign of retaliation for the killing of numerous members of the Sinn Fein army and soldiers, for which acts no one has yet been punished.

The inquest into the death of the lord mayor was begun yesterday, but an adjournment was taken after brief formalities had been carried out. The solicitor for Lord Mayor MacCurtain's family requested that no former policeman should serve on the coroner's jury.

Alexander MacCabe, member of parliament for South Sligo, who had been released from prison after having served a sentence imposed last year on a charge of inciting a riot and unlawful assembly, has been re-arrested and sentenced to three months' imprisonment for inviting subscriptions to the Sinn Fein loan. MacCabe has (Concluded on Page 2, Col. 7.)

### ANOTHER ROUND-UP OF SINN FEINERS

Number in Kerry Put Aboard  
 Destroyer With Destination  
 an English Prison.

Dublin, March 21.—There was a roundup of prominent Sinn Feiners throughout Kerry yesterday. A number of them were put aboard a destroyer under military authorities, their destination presumably being an English prison.

The conditions under which Justice Moore and Justice Gordon are held in court at Keshmoneen is considered indicative of the precautions being taken to protect some of the public men. Six armed policemen guard their lodgings at night, others follow their carriage when they drive to the court, and while they are presiding at sessions the court room is guarded by plainclothesmen.

A number of the prisoners had to be taken to Court street station, on account of West Dundas station being taxed to capacity. There was an even hundred in the place when the police entered, but the plainclothesman allowed a diminutive mute to leave after being assured he had not been in the game. The slates, the police stated, were used to keep track of the winnings on, and that settlement was not made until the game was over. A number of the accused were allowed out on bail of \$100 each and so long was the line of bondsmen to ball the prisoners out that the police lined them up on the street outside of No. 2 station and called them in as their prisoner was arraigned before the magistrate for bail.

### ON THE FIELD OF THE CLOTH OF GOLD.

How will the Beck showdown with the Mackenzie power and radical sections come out this week? is the great question. No one seems to know. It depends on Sir William more than Sir Adam. The latter makes the show-down or offer, but Sir William has the show-down or offer that the private-owned service franchise.

Sir Adam arrives here today; his experts will hand their report to him; and if all goes well he may be able to make his proposal tomorrow.

Sir William was out of town for the week-end, but he may be in his office today or tomorrow when Sir Adam arrives with his lance and charger.

How the intimation will come to Sir William no one knows. But he will receive it with every knightly consideration.

The correspondence or the conversation will in all probability be of the most polite character. Sir William can be as polite and as receptive as any one in Canada. He never goes about with his c.e.t.-a's left so as to invite any one to tread thereon.

Sir Adam may also use scented note paper for his billets-doux to Sir William.

The public will await the message or the meeting with extreme interest.

Very not put it on at one of the movie theatres? The public and the farmers would certainly reach for the front seats!

### Announce Gold Discovery In South Saskatchewan

Find of Gold Nuggets on Farm Near Town of  
 Alask--Conditions Ideal For Placer Mining  
 -Already Acquiring Claims.

Alask, Sask., March 21.—George Egstead filed a creek claim at the sub-agency of the Dominion Land Office, Alask, on Friday afternoon. He brought up from a shallow well what appeared to be gold nuggets, and an analysis from Calgary says that the mineral is really that precious metal.

The well is located on the farm of W. Andre, ten miles west of Alask, near an old creek, or small river bed. It is an ideal place for placer-miner work, and the sediment is running high. When the land office opens on Monday there will be perhaps twenty-five claims acquired, under the federal mining laws. The claims are only five hundred feet wide. It is stated that Mrs. George Egstead has acquired a mining claim.

The other claims extend to the Dermarchant farmstead, which adjoins the Andre property.

Location of the Discovery.  
 The find of gold announced in the foregoing despatch is located in a district about 150 miles southwest of the city of Saskatoon, in southwest Saskatchewan, not far from the borders of Alberta. Alask, mentioned as the nearest place to the gold discovery, is on the Goose Lake branch of the Canadian National Railways line running from Saskatoon to Munson, Alberta.

### NAVAL DOCKYARDS WILL CEASE WORK BY FEDERAL ORDER

Government Issues Instructions  
 Affecting Esquimaux,  
 Halifax and St. John.

### TO SELL THE "RAINBOW"

Ottawa, Ont., March 21.—(Special).—Following the party caucus, in which it was decided not to inaugurate a naval policy, instructions have been issued to disorganize the present Canadian naval force; also to stop all naval work at Esquimaux, Halifax and St. John. Further, it has been reported that the vessels now in the Canadian navy will be sold.

H.M.C.S. "Rainbow" is to be sold.

### Close on July First.

Halifax, N.S., March 21.—The dockyard at Halifax is to be closed about July 1, according to advices from headquarters at Ottawa, just received here. The captain superintendent is to proceed with demobilization of ranks by July 1. The officers residing in the dockyards will be required to vacate their residences one month after demobilization, and all the ships and boats are to be sold. There are at present between four and five hundred men employed in the dockyard and many of them are skilled mechanics. There is also an office staff of about 75.

### POLICE ROUND UP EVEN NINETY-NINE

Raid in Cafe Yields Catch of  
 Foreigners Alleged to  
 Be Gambling.

Ninety-nine foreigners were arrested last evening when plainclothesmen, Clarkson and Mulholland raided a cafe at 16 West Dundas street. The police surrounded the building and when the plainclothesmen walked in none of the inmates made any attempt to get out. Mike Viccigis, is charged with keeping a gaming house and the other 98 are charged with being found in it. The police seized a full set of playing cards. The prisoners claimed they were playing for the price of "soft drinks."

The raid followed many complaints of gambling going on in the building on Sundays.

Station Overcrowded.  
 A number of the prisoners had to be taken to Court street station, on account of West Dundas station being taxed to capacity. There was an even hundred in the place when the police entered, but the plainclothesman allowed a diminutive mute to leave after being assured he had not been in the game. ### IMPORTANT GERMAN CITIES IN HANDS OF COMMUNISTS, WITH HEAVY LOSS OF LIFE

Anarchy and Bloodshed in  
 Essen, Leipzig, Dusseldorf  
 and Other Places—Some of  
 Turbulent Baltic Troops  
 Still Terrorize Berlin—Reds  
 Are Well Armed.

London, March 21.—Government advices received from Germany today are to the effect that the independent socialists are demanding further concessions on the part of the government, probably because the Communists are gaining the upper hand in west Germany.

The advices from Essen, Dusseldorf and Elberfeld indicated that all three towns were in the hands of the Spartans; that something approaching anarchy was taking place in Essen, and that fighting was continuing in Leipzig.

Communist troops also are in power at Dortmund, Bochum, Barmen, Hagen, Iserlohn and Hattingen. The police weak to do anything against superior numbers and better armed men.

The general strike has terminated at some places, the despatch adds, to work under the circumstances.

All was quiet in Frankfurt Sunday afternoon, says a despatch to The London Times from Brussels, but there was continued turmoil with loss of life, reported in various parts of the country.

A despatch to the same newspaper from Berlin, timed 2:50 o'clock Sunday morning, says the more truculent of the Baltic troops still hold various Berlin barracks. They are terrorizing the suburbs and raiding inner districts occasionally in armored cars with shooting if they are interfered with. It is reported that Wolfgang Kapp's party is still negotiating with the government regarding an amnesty, and is even demanding one seat in the cabinet.

The Berlin Communists number 10,000 well-armed workers and troops, and this number is steadily increasing, says a despatch to The London Times from Rotterdam quoting the Rotterdam Courant's Essen correspondent. The Communists have at their disposal big guns, armored cars and airplanes.

### DOGGING SENTRY ANNOYS WILHELM

Amerongen, March 21.—The constant pacing of the sentry behind former Emperor Wilhelm, when he walks in the Bentinck Castle garden, has so annoyed the one-time German ruler that on several occasions he has told the guard not to follow him so closely, but to stay out of sight.

### WHY SHOULD TURKEY ESCAPE JUSTICE?

Lloyd George Tells Indian Delegation She is Receiving Same Treatment as Her Allies.

A MESSAGE FOR INDIA.

London, March 21.—Premier Lloyd George on Friday discussed the Turkish question with the Indian delegation headed by Mohammed Ali, who declared that Turkey should have all her pre-war territory restored. The premier replied:

"I do not understand Mr. Mohammed Ali to claim indulgence for Turkey; he claims justice, and justice she will get. Austria has had justice; Germany has had justice—pretty terrible justice. Why should Turkey escape?"

"Turkey thought she had a feud with us. Why did she come in and stab us and destroy liberty throughout the world while we were engaged in this life-and-death struggle?"

"Is there any reason why we should apply a different measure to Turkey than we have meted out to the Christian communities of Germany and Austria?"

"I want the Mohammedans in India to get it well into their minds that we are not treating Turkey severely because she is Mohammedan. We are applying equally the same principle to her as to Austria, which is the greatest Christian community."

Referring to the temporal power of the caliphate, the premier said he could not interfere in a religious question, in which Mohammedans themselves differed.

The delegation requested that the Armenian massacres be investigated by an international commission on which the Moslems were represented.

Regarding the Armenian massacres, the premier said the allies were bound in the interests of civilization to exercise control of some sort, since the Turk government was incapable of protecting its own subjects.

"I want to give this feeling to the Mussulmans of India, who stood loyally by the throne and the empire, said the premier: "We recognize that they have the right to be heard in a matter which especially affects Islam. We have largely deferred to their wishes in the matter. The massacre was very largely affected by the opinion of the Mussulmans of India."

### EBERT BACK IN BERLIN

Cabinet Council Deliberating Regarding Serious Situation.

Berlin, March 21.—The government of President Ebert, which left Berlin a week ago when Dr. Wolfgang Kapp and his reactionary troops entered the city, is again in power. The cabinet, President Ebert and the members of his ministry reached here at 11 o'clock this morning from Stuttgart and soon after the order for a state of intensified alert was withdrawn.

Meanwhile the signs and symbols of the Kapp dictatorship, the wire entanglements and the barricades were being removed. Public services have in a measure been re-established, and it is hoped that soon Berlin will resume its normal activities, tho it will be a long time before the damage wrought, material and moral, will be repaired.

A cabinet council deliberated throughout the afternoon to determine the steps necessary to bring Germany back to her position prior to the revolution. This, it is believed, will require considerable maneuvering and delicate handling for the independent socialists and workmen are making heavy demands for concessions, which they feel they are entitled to because of the commanding position some of the groups hold in other parts of Germany outside of Berlin.

The situation in parts of the country appears serious. From the group of industrial centres on the Rhine and the Ruhr district continue to come reports of Spartacist agitation. In several places, particularly the Ruhr district, the Spartacists are said to be in absolute control. Here their available force is estimated at 70,000 men.

Concentrations of loyal government troops, however, are taking place, and the arrival at the scenes of disorder is expected to bring quiet.

The future position of Gustav Noske, minister of defence, is the subject of discussion. While his resignation has been demanded by the radicals, it is considered probable that he will retain his post for a time at least in order to restore the confidence of the Berlin population generally.

There are rumors that later Noske and Dr. Heine, as well as Chancellor Bauer and Foreign Secretary Mueller, who are represented as personifying a system of politics which has failed, will be omitted from the new administration. President Ebert, who is protected by the constitution, will undoubtedly remain until after the new elections. It is declared that the new cabinet will include active representatives of labor, Carl Rudolph Legien, president of the Federation of Trades Unions, being named for chancellor.

A manifesto, issued today by the trade unions, advises a resumption of work now that all grounds for continuance of the strike have been removed. It adds that the fundamental causes of the reactionary coup d'etat lie in the "unnatural peace of Versailles," radical amendment of which the manifesto declares to be necessary. The semi-official news agency says

The total attendance is expected to reach 400 and at the usual executive meeting today all members of the Dominion executive were present including President W. P. Purney. He is not in good health and it is probable that the duties of chairmanship will fall upon R. B. Maxwell, of Winnipeg, first Dominion vice-president.

**SPARTACANS IN CONTROL**

Red Army Reported to Have Won Number of Points in Ruhr District.

Coblenz, March 21.—The Spartacans gained control of the Ruhr district today. The red army won Duisburg, Ganshorn, Mülheim and Mettmann, west of Elberfeld. A report at noon states that Reichswehr from Duisburg has cut its way thru to Dinslaken, south of Wessell, where a Reichswehr concentration apparently is taking place. A direct report from Duisburg says that a soviet government has been set up there. No private telephone conversations are permitted except for the procuring of food and coal. A special train which left Coblenz at 11:15 o'clock Saturday morning to bring out 5000 Soviet and American business men reported endangered at Leipsic, where serious disorders have occurred, reaching that city at one o'clock this morning without incident. The train left Leipsic with its passengers at 10:30 a.m.

**RED DAYS IN NUREMBERG**

Attempt by Bolsheviks to Control Town Attended by Much Bloodshed.

Stuttgart, March 21.—The city of Nuremberg has ended its five days' paralysis, which were marked by civil warfare, rioting and an attempt by Bolsheviks to rush the public places and control the town. Telephone messages from Nuremberg conveyed this information as well as details of the riots.

The street car service was resumed today, the workers returning to the factories and the stores reopening. The casualties during the five "red days" have not been tabulated, but they are heavy.

The outbreak began last Monday morning when a general sympathetic strike was proclaimed in protest against Kapp. Thousands joined the strike, and on Tuesday delegations made the rounds and ordered the stores closed. Some remained open, however, and employees attempting to carry on business were severely handled.

On Wednesday a group of sailors armed with rifles and fixed bayonets, although the rifles were without locks and therefore unable to fire—seized two automobiles and after proceeding thru the city tried to rush the post office, where it was known three million marks of government money was stored.

Another group, meanwhile, tried to seize the station nearby. Reichswehr troops came up hastily and beat off the attacks, killing 20 and wounding sixty others.

Trouble started in the stockyards Thursday. There was little bloodshed on Friday and the Reichswehr and citizens guards regained control of the city. The men who tried to rush the work yesterday, the situation is approaching normal and industries are beginning to function.

**FORM AN IMPERIAL BUREAU OF STATISTICS**

Ottawa, March 21.—(By Canadian Press)—An imperial bureau of statistics in which Canada will be represented is under consideration. The bureau will probably be situated in London. Its aim will be to act as a centre where statistics from every part of the empire will be available more readily than is now possible. It is further proposed, by adopting a uniform basis for statistics in each part of the empire, to work out improved methods of comparison. At the present time, statistics in the different parts of the empire are not prepared on any such uniform basis and comparisons, in consequence, are difficult.

**SENSATIONAL EVIDENCE AT AMHERST FIRE TRIAL**

Amherst, N. S., March 21.—Some sensational evidence was given at the coroner's inquest at Amherst, N. S., on Saturday, into the death of Lewis King, who was burned to death in the fire that destroyed the Wood Patent Block early on Saturday morning.

**SLAUGHTER IN LEIPSIK**

Communists Hinder Work of Firemen With Machine Guns.

Berlin, March 21.—The Volkshaus in Leipzig reported today that the communists, captured today, had a hard fight with the Reichswehr, according to despatches received here. Five persons are dead, 12 seriously wounded. 50 were taken prisoner by the troops as a result of the fighting. Conflicts continue in other quarters of Leipsic. Many parts of the city have been set on fire by communists, who are hindering the work of the firemen with machine gun fire. It is reported from the Rhineland that at least four towns, Dortmund, Essen, Mülheim and Buer, are governed by soviet councils. In Essen bombardments and street combats were more than twenty hours. Severely wounded and many were killed and the casualties and property damage are enormous.

**3,000 KILLED AT LEIPSIK?**

Americans Returning to Coblenz Bring Story of Fighting.

Coblenz, March 21.—Three thousand persons were killed in the fighting at Leipsic before the government troops captured the town Friday, according to statements made by three American business men who arrived here tonight from Leipsic, which place they left Saturday night.

Up to Wednesday there was strike action in Leipsic against the Kapp regime, then anarchy and soviet control until the government troops shelled the Volkshaus and labor headquarters Friday afternoon. There were 2,000 persons in the building, who were shot down as they made their exit.

The shells finally set fire to the building, killing other hundreds. There was a demonstration on March 14, in which 36 persons were killed. Then the workmen secured arms and street fighting was heavy until the armistice was arranged Wednesday (March 17) at noon. The armistice ran until noon on Thursday. A Saxon aviator flying over the city on Thursday was shot down by a fire.

The fighting continued from Thursday between the workers, using rifles and grenades, and the Reichswehr and soviet volunteers until the Volkshaus affair Friday afternoon, when the trouble gradually quieted down.

**REV. G. C. MCKENZIE DIES IN TORONTO**

Passing of Rector Emeritus of Grace Anglican Church, Brantford.

Brantford, March 21.—(Special)—A worthy life ended in Toronto on Saturday, when Ven. Archdeacon G. C. McKenzie, for 35 years rector of Grace Anglican Church of this city, passed away. News of his demise was received here with deep regret, for in his long period of service he had earned the respect of all and the love of many. He remained in charge at Grace Church until about three years ago, when he retired, being appointed rector emeritus as a tribute to his lengthy service. Since that time he has resided in Toronto, but he was a frequent visitor to his friends here. At Grace Church this morning, his successor, Canon J. E. Potheringham, paid warm tribute to his worth, while a memorial service will be held on Monday at 1 o'clock, at which attendance of all civic and public representatives is expected. He occupied an outstanding position among the local clergy, and an honor will be paid.

**HAMILTON**

Hamilton, March 21.—Major W. S. Henare, son of Sir John S. Hendry, will command the 11th Battery. This was announced yesterday by Lieut.-Col. H. G. Carscallen, officer commanding the 3rd Brigade, C.E.A., of Hamilton. Lieut. Ganagan, 329 North Bay street, is in hospital, owing to a wound sustained in his arm, which he says was inflicted by himself while cutting a stick of dynamite. F. S. Morris, ex-controller and now assistant in the office of the city treasurer, is still recovering from the treatment he received, to be given on May 1 by Mr. Leckie. The last named young one of those who escaped from the police industrial school a few days ago, was captured here yesterday. To supply the need of leaders in Christian work was the aim of the County Y.M.C.A., said P. G. Fowler, field secretary, in submitting his report for the year, at the annual meeting of the West York Y.M.C.A., held yesterday afternoon. The occasion was the occasion of Albert E. Roberts, international secretary for town and country. Regular attendance at school by pupils was cited as a remedy for juvenile delinquency by Major J. P. Cowles, of the department of education, yesterday, when he spoke to the trustees, students, teachers and parents of Westworth County in the court house. Warden John E. Peart presided. The largest confirmation class in the history of the diocese was presented to his Lordship Bishop Oulton, by Rev. B. J. Renison at the Church of the Holy Spirit, yesterday. James Nunn passed away this morning at his home, 157 South John street, aged 74 years.

**FORM AN IMPERIAL BUREAU OF STATISTICS**

Ottawa, March 21.—(By Canadian Press)—An imperial bureau of statistics in which Canada will be represented is under consideration. The bureau will probably be situated in London. Its aim will be to act as a centre where statistics from every part of the empire will be available more readily than is now possible. It is further proposed, by adopting a uniform basis for statistics in each part of the empire, to work out improved methods of comparison. At the present time, statistics in the different parts of the empire are not prepared on any such uniform basis and comparisons, in consequence, are difficult.

**YORK COUNTY AND SUBURBS ANNEXATION SEEMS ONLY SOLUTION**

Young People Raise Goodly Sum to Enlarge Their Skating Rink.

Nothing could have been more gratifying than the success attending the "box social" given by the young people of Unionville in Victoria Hall, in that village, on Friday evening. The proceeds to be devoted toward the enlargement of the skating rink in the southern end of the town. The building was torn down to the roots, and from that to last there was not a quantum of ice skating. How great a success was the affair may be gathered from the fact that \$100 was realized from the sale of the boxes alone, to which were added other voluntary contributions. Preceding the social feature, there was an excellent concert, contributed by local and city artists. Among others were Miss Alice Story of Markham, elocutionist, who scored a great success. Miss Marie Davison of Unionville, in vocal selections, and Charles Stephenson of Toronto, G. A. M. Davison of Unionville proved an ideal chairman, and the sale of the boxes was negotiated by John H. Prentice of Toronto, the well-known auctioneer. The success of the evening was due entirely to a bevy of village maidens, who conceived and carried out the scheme for assisting in enlarging the rink, under the leadership of Miss Mina Sommerville. A delightful feature of the evening was the luncheon following the sale. On motion of R. L. Siver and W. M. Smith, the thanks of the gathering were tendered to the young women of the village. Dancing followed and was continued until an early hour in the morning.

**NEW CATHOLIC CHURCH FOR BEACHES DISTRICT**

The new church is situated at East Queen street and Lockwood road, and the parish boundaries are: North, G.T.P. tracks; south, the lake; east, Scarborough Beach Park, and west, Ashdale avenue. The demand for a church and school in the district has been keenly felt by the Catholics for some time past, as their number has been steadily growing, owing to the rapid development of the section, and it was found necessary by the diocesan authorities to relieve the overcrowded condition of the neighboring parishes of St. John, Kingston road, and St. Joseph, Leslie street.

Annexation to the city seems to be the only logical solution to the difficulty in the congested districts of the eastern section in York township lying north of Danforth avenue. The consensus of opinion for some time past has been that annexation to the city would soonest solve the problem of the sewer and water difficulty. Already 80 per cent. of the ratepayers in the section east of Payson avenue, between "Pape and Donlands," have signed a petition requesting the city to annex their territory, and a petition for annexation of a much wider area is already in circulation for signatures. According to the statement of Mr. George Langford, president of the prime movers for annexation, the lack of sewerage accommodation in the sections bordering Danforth avenue is becoming a menace to public health, and the water is obtainable and water is polluted with surface water and objectionable matter. "At certain periods of the year," Mr. Langford points out, "no water is obtainable and water has to be carried in pails from the city limits, for which a charge is made."

**CHURCH TOO SMALL FOR CONGREGATION**

St. Chad's Anglican to Undergo Repairs to Accommodate Increasing Membership.

St. Chad's Anglican Church, North Dufferin street, is now undergoing considerable alterations and repairs. The front of the church is being reconstructed, and a new entrance made, while the rear of the church is to be lengthened and otherwise enlarged to meet the needs of the growing congregation. All the departments of the church are active, and the Men's Club is also growing in membership. The church owns a plot adjoining the present building, which is soon become very valuable, land so near the city as to be difficult to buy at a reasonable price. Due to the welcome change in the weather, St. Clair avenue was thronged with an enormous crowd of shoppers on Saturday evening, all the stores reporting extra business. The sidewalks were five and ten thousand people promaded this popular thoroughfare on Saturday, which, now that the stores have so greatly multiplied of late, has an added attraction for shoppers, since they are able to buy goods as cheaply and in as great a variety as downtown. All the stores are preparing for a busy Easter trade, and the sidewalks are made bright with attractive colors. Another ratepayers' association has been formed in the Fairbank district of North Earlscourt, a number of prominent men having got together in order to obtain better representation on the township affairs. A meeting is to be held this evening in Wilcox Hall, on Vaughan road, when officers will be appointed and plans outlined for future work. A number of Oakwood and Earlscourt men attended an emergency meeting of the Oakwood A.F. & A.M. on Saturday night, at the York Masonic Lodge, Yonge street, and were in the second and third degrees of the order. W. W. Scoles is the worshipful master of Oakwood Lodge.

Denounce the Murderers. The police force of Cork will be increased Monday by large drafts of men from various parts of the country.

The Catholic bishop of Cork in his address at the cathedral today, said the country had received a terrible shock in the murder of the lord mayor, but that he advised that no reprisals be made. Ireland's cause could not be advanced by outrages, he said. The only party to derive advantage from the crime was the Irishman. He said that the military ought to apologize to the Protestants and bishops and other ministers also denounced the murder from their pulpits today.

At a meeting of the United Irish League today, presided over by the Earl of Bandon, resolutions expressing horror at the murder of the lord mayor and Constable Murray were adopted and plans outlined for future work. James Walsh, a brother-in-law of Lord Mayor MacCourt, was sleeping in MacCourt's home on the night of the murder. Several shots were fired at him, and he was injured. He was lying on a bed, and a lighted candle and light were near him. Walsh also declares that there were some men in the street near the lord mayor's home while the murders were being committed. These men, he says, were armed and disguised, and they held up several persons and threatened them with death if they moved within half an hour.

Logsdon says it is one of five coal operators arrested Saturday by federal officials, and one of 125 men indicted by a federal grand jury here for alleged conspiracy to enhance the price of coal. He says there is danger that the government's action may delay agreement on a new wage scale effective April 1, and miners may refuse to work after that date.

## SELF-GOVERNMENT FOR HAYTI, ALSO?

New York World Offers a Suggestion to Zealous U. S. Senators.

New York, March 20.—Discussing the action of the United States senate in declaring for the Irish republic, The World today says: "Why should the enthusiasm of United States senators for the principle of self-determination be suddenly exhausted when in the fulness of their hearts they have renewed the expression of their undying sympathy with Ireland?" "Not very far from the coast of the United States lies Hayti, where an officer in the United States uniform, with a company of marines at his back, dictates to the president of the republic of Hayti the decrees that shall be issued in his name. ## WOULD USE AIRPLANE TO CORRAL CARIBOU

W. H. P. Jarvis of Toronto Has Unique Plan for Canada's Northwest.

The Pas, Man., March 21.—(By Canadian Press)—Manipulation of the countless thousands of barren lands caribou and oxen by use of the aeroplane is the scheme of W. H. P. Jarvis of Toronto, in planning the best means of herding these animals. It is Jarvis' theory that aviators act as drovers and as the herds come down in the autumn drive them against the shores of the Hudson Bay and down along the coast and behind a strong fence built from a point above Fort Nelson, the tide water terminal of the Hudson Bay railway. Once they are jammed between the sea and the fence he expects to segregate the sexes and the does could be led thru a gateway and given their freedom while the fat bucks could be driven to the Hudson Bay railway and there slaughtered and shipped out to the Canadian and American markets.

Plans Aerodromes. The scheme provides for the aerodromes at Fort Churchill, Lake Athabasca and Chesterfield Inlet. The aviators would be expected to scout with machine guns for wolves and destroy them in order to preserve the caribou. This scheme relies upon the Hudson Bay railway entirely for its success, as providing means of transporting the meat to civilization, involving 100,000 carcasses a year.

WAS THE CHIEF SPEAKER

Woodstock, March 21.—(Special).—At the first annual meeting of the Oxford County Federated Women Teachers' Association held here Saturday Miss E. A. Marty, B.A., LL.D., public school inspector of Toronto, was the principal speaker. Miss B. Adkins, provincial secretary of the association, also spoke. Miss Marty told of the many opportunities presenting themselves to young teachers every day and pointed to her own appointment as the first woman inspector in Ontario. This she considered one of the many forward steps in education. Miss Marty was very optimistic of the outlook for women in educational matters, and prophesied that in the not too distant future a woman would be filling the position of minister of education for Ontario. The speaker ridiculed the fact that a man was at present holding the position of provincial inspector of household science. Protest to Government. As a result of Miss Marty's observations a resolution was unanimously

passed, drawing the attention of the provincial federation to the fact that the provincial inspector was a man. Speaking of increases in teachers' salaries, Miss Marty approved of a flat rate instead of increases on percentage basis, claiming that the poorly paid teacher on percentage basis, did not receive as much consideration as the higher up teachers in the profession.

## EXPLODE A BOMB IN BAKERY DOORWAY

Considerable Damage to Building and Nearby Windows Thru St. Catharines Outrage.

St. Catharines, Ont., March 21.—A bomb placed in the doorway of the International Co-operative Bakery and Grocery on Fager street caused considerable damage to that building and broke windows on both sides of the street for some distance at 1.29 this morning. The establishment is owned by a co-operative society of Polish residents of the neighborhood, bread being sold at cost price. The bomb contained seven large-sized railroad spikes which were imbedded in woodwork. No one was in the building when the explosion occurred. The damage is chiefly to the store. Operation of the bakery which is in the rear will not be impeded. The police this afternoon had been unable to throw a definite light on the mystery.

## SEVEN BY-ELECTIONS PENDING IN BRITAIN

Plethora of Candidates—Issue Individualism versus Socialism.

London, March 20.—Seven by-elections are now pending. Dr. MacNamara, who was promoted to minister of labor, will have a stiff fight against the Liberal and the woman labor candidate in Camberwell. Charles MacCurdy, who was promoted to food minister, had a big majority in the general election, but will meet heavy opposition in Northampton. Five candidates are appearing in Darford, made vacant thru the death of James Rowlands, including Tom Wins, formerly Liberal member for Grimsby. All the seats likely to be vacant shortly, are now held by the coalitionists, and since Premier Lloyd George's speech earlier in the week, it is obvious that the main issue will be individualism versus Socialism. There is a plethora of candidates everywhere, so straight fights will be few. Mr. Asquith, replying to Premier Lloyd George, who asked what he (Asquith) would have done if his government had remained until the end of the war, declared that the coalition was for the war only, and stigmatized the election in December 1918, as a trick election. Mr. Bonar Law, speaking yesterday, agreed with Lloyd George that the coalition should continue, and emphasized the necessity of united action in constituencies towards this end. PROVED. "Is life worth living?" "I think that question has been answered for good and all. The coast has been doubled and we all hang on."

The enquiry into the wholesale grocers' case will be continued in Toronto on Monday at 10 o'clock, when the board of commerce will also go into other matters. It has been intimated that some wholesalers had large quantities of granulated sugar on hand when the high prices went into effect on March 4, and that a big profit was reaped on these stocks. ### GET BACK TO OLD POLITICAL LINES

#### Former Editor John Lewis Declares for Responsible Government.

Mr. and Mrs. John Lewis, who have left Toronto to take up residence in Ottawa, were tendered a farewell dinner by the Political Education League on Saturday evening at the Peacock Inn, Yonge street. Mr. Lewis is one of Toronto's most widely known journalists, winning his fame as editor-in-chief for the past 14 years of The Toronto Daily Star. He has now been placed in charge of the publicity work of the Liberal party at Ottawa, and is in charge of two pages in The Ottawa Record. Mr. Lewis was also prominent as a member of the Political Education League, which he joined at its inception in April, 1914. In connection with this society, which was organized primarily as a pro-suffrage body, Mr. Lewis took an active interest in every fundamental reform, especially in tax reform and representative government.

**Makes Presentation.** A feature of the dinner was the presentation to Mrs. Lewis of a very handsome handbag of suede leather, by Mrs. James Cunningham, on behalf of the society. Mrs. Lewis made a fitting reply to Mrs. Cunningham's address.

The gathering was more or less of a family affair with short, informal speeches. Mr. Lewis urged the necessity of getting back to responsible and representative government which, he declared, is more than ever a necessity in days of reconstruction and unsettled post-war conditions. He also thought it high time that our should be run in the usual manner. "Departures and irregularities caused by the war in the method of running courts in general," said Mr. Lewis, "should not be allowed to continue in time of peace."

In her address, Mrs. Hector Prenter, president of the league, paid tribute to the work of Mr. Lewis in connection with the reform work. "He has been a leader in practically every fundamental reform, taking a particular interest in tax reform and single tax," said Mrs. Prenter.

"There have been many changes in the personnel of the league since its organization," she continued. "Some have passed into the great beyond, some have become increasingly rich, and have, accordingly, been lost to us, and some have left our city. Mr. Lewis has only gone to Ottawa, and, we hope, will not be entirely lost to our organization."

W. D. Gregory, who is a personal friend of Mr. Lewis, and Mrs. H. S. Corbett, a member of the league executive, extended to the speaker the Political Education League to both Mr. and Mrs. Lewis, and cordially invited them to attend any future gathering of the organization.

### BOYS' NAVAL BRIGADE

The inspection of the equipment of the training ship proved to be less satisfactory than that of the boys. In the evening event passed off without a hitch and the remarks made by Commander Kingsgate were received by the boys with marked attention.

**ARTER SYSTEM**  
**ACAIN IN VOGUE**  
**OLD COUNTRY**  
 Handley Page, Famous Aviation Authority, Tells of Existing Conditions.  
**ENGLAND PROSPEROUS**  
 Trusts Common Sense of People to Override Domestic Troubles.

The old system of barter is coming into its own. Ships leave English ports every day with merchandise for some eastern European country and return filled up to the hatches with the merchandise of that state. No money ever passes—it's just barter, and I can tell you, the nation of shopkeepers as England has been called, know how to keep shop. She is making a great deal of money just now by barter.

Thus spoke Frederick Handley Page, the famous producer of the giant bombing planes of the late war, to the World yesterday. Mr. Page, States, has come on a flying visit to Toronto to look up his old friends of war days, such as Col. Bishop, Col. Barker, Col. Maxwell and a host of other Canadian flying men. Incidentally Mr. Page will today address the Canadian Club at lunch time.

Asked how labor conditions were in England, Mr. Page said not half as bad as one is led to believe by the press reports on this side of the ocean. There were two parties in England who caused all the trouble, declared Mr. Page. The old Tory party said in effect, let the workers go out on strike and when they do not get the wages and food we have given them for years they will come to their senses and go back to work on our terms. On the other side were the extremists of the workers, who wanted a strike just to show the capitalists who really was master in the country. Between these two great enemies, said Mr. Page, there was the great middle class of England, who were not prepared to see a serious break between capital and labor. This middle class just pushed both sides to the edge, and, as in the case of the labor strike, they were not prepared to see a serious break between capital and labor.

Mr. Page, "brains can be found in all classes of society, and today the workers demand, and rightly demand, their share of the good things that are going around. As the Prince of Wales said in a recent speech, "Every man should have a sporting chance."

Boishevism, according to Mr. Page, will never find a place in England. Apart from the good common sense of the middle class and the majority of workers, there is, he explained, nothing to explode in England. If a man possesses some mad idea or has a "be in his bonnet" theory on some subject, he can in England go out on the street corners and expound his views without fear of seeing the inside of a prison. He then lets off all his steam and has no need to go down in his coat hole and conspire with others for the furtherance of his pet idea.

The sound common sense and the deeply-rooted knowledge on all subjects commercial is helping England to re-assert herself more quickly than any other nation in the world. English and English knowledge is not superior, continued Mr. Page, it is superior, grounded that nothing can upset it. People have lots of money, declared Mr. Page, but some who have made a lot during the war, lack the education of how to spend it. A man of this class when buying his wife four sets of furs, will probably purchase a pair of shoes for the kitchen and then have reached the spending limitation. There is no need for any man to be out of work in England, declared the inventor, if he really wants work. Mr. Page's own industry is hampered because they cannot obtain delivery of parts.

Discussing the part Canadian airmen played in the war, Mr. Page said they were all magnificent. He then spoke on a calculation he believed that there was hardly a Canadian family who had not some kind of relative in the R.A.F. "Canada is 'an conscious,'" he declared, "just as Britain was law-abiding conscious."

Mr. Page denied that he was in Toronto on business connected with his commercial flying machines. He said, however, that the service he was presenting great commercial flying possibilities in the future. It would not be surprising if some kind of commercial air service was established pretty soon in Canada, or between Canada and the States. In regard to his own companies, Mr. Page said the service between London and Paris was doing very well. The trip took three hours, the machine carried a load of 2000 lbs., and he expected, he said, that during the coming summer this service would be greatly patronized.

In all planes, said Mr. Page, they were reducing the size of the engine without loss of power or reducing the size of the craft. Small flying machines and Mr. Page declares that these were now people will have a run-about plane but as they have now a runabout motor car.

**Smart Blouses For the Spring Suit**  
 Every suit must have its smart blouse and the new ones are lovely enough to share the honors with the Spring suit or give an air of smartness to last season's. In the newly-arrived blouses are many with convertible collars, which when worn as a choker and finished with a black satin bow or stock give an added cachet to any costume. I will only describe a few of these for wear just now. For the casque blouses the handsome imported nets, Jerseys and crepes will require a story all their own.

A white crepe de Chine that gains its principal charm from the fine quality of material used, has groups of fine pin tucks with cut out silk embroidery sprays, plain back, short sleeves with turn-back cuff, button-trimmed. While a "Knox" waist has the hemstitched narrow front extending into the collar; rows of pin tucks and tiny embroidery flowers make a smart waist. Both styles come in flesh and navy also. Particularly lovely is one of heavy Georgette with a narrow ecru lace insertion running up the sides and across to the armholes, the same finishing the turn-over collar. This has further adornment of embroidery and cut pearl buttons. Still another crepe de Chine has the new deep yoke in the back, with a front of tucks arranged to simulate small box pleats, ecru flit is used on the high collar and small cuffs.

Equally good are the smart voiles in such a variety of styles that it would be difficult to enumerate them all. Just now the collection is most complete and varied, many little trifles being introduced in the blouses that give that indefinable touch of the artist.

**UNIVERSITY NOTES**

Examinations in theology begin the first of April. This surely makes us feel that the end is in sight. For the vast majority of us, the evil hour is postponed a little longer, but at that study is getting to be a much more common pastime than it was a few weeks ago. Some of the colleges are giving summer courses in theology, but there will be no summer course in arts. The engineers' surveying camp will be the only other form of summer study, and to an outsider it looks more like a picnic. They will go into a camp in Haliburton for a month or six weeks with the alleged purpose of getting up their practical work.

Prof. G. Le Bidols of the University of Paris gave a lecture in the physics building on Friday evening. He spoke in French on the subject of "Love Among the Great French Tragedians." The election of undergraduates for the Hart House council took place on Friday afternoon.

The Victoria College Orchestra, under the direction of Mr. Frank Elschardt, gave a concert Wednesday evening at Convocation Hall. Assisting artists were Mr. Arthur Blight, and Miss Frances Wood. Miss Addison gave a recital for the members after the concert.

**A TALL CROOK.**  
 The tallest man ever tried at the Old Bailey, London, is Douglas Victor Mirams, an insurance agent, who, with his father, is accused of conspiring to defraud a wealthy woman of \$6,000. He is 6 feet 3 inches tall.

**FLOODS SUBSIDE IN RIVER THAMES**

Water Falls From Three to Four Feet When Ice Jam Partially Breaks.

Chatham, Ont., March 21.—(Special)—Noah, in the biblical days of old, may have been elated when he saw the dove return with the olive branch, but he had nothing on the people of Chatham when they looked out their bedroom windows this morning, and noticed that the flood had subsided about two feet during the night. "It is like finding a new world," said the head of one family, which had been marooned for three days, over the telephone to the correspondent, and he echoed the sentiments of scores of families, who have been in the same predicament.

**Ice Jam Breaks.**  
 The ice jam in the River Thames, the cause of the flood, partially broke this morning. From that time the water has steadily diminished during the day. It is expected that blasting operations, which have been in effect during the past few days, will meet with some success tomorrow. Reports received here this afternoon from various points are to the effect that the water has fallen from three to four feet, and that land can be seen in some sections. The water is two feet below the G.T.R. tracks, and trains are running. The river has receded about six feet in the city since yesterday.

**Allege Attempted Murder; Western Farmer Arrested**

Prince Albert, Sask., March 21.—Joseph Switlicki, 29 years old, living on a farm north of Hafford, is under arrest on a charge of attempted murder. According to the reports received by the provincial police Switlicki went to the farm of Andrew Mysyk, aged 60 years, on March 17, and accused the latter of having given him poison to drink. A dispute followed, and, according to Mysyk's wife and son, Switlicki went outside the house and secured an axe with which he struck Mysyk on the head, inflicting a terrible gash.

**CAIRO TO CAPETOWN FLIGHT IS COMPLETED**

London, March 21.—The air ministry today announced that the Cairo to Capetown aerial flight was completed at four o'clock on Saturday afternoon by the arrival of Col. Van Rynveld and Major Brand, in a Voertrekker machine supplied by the government of South Africa, government to replace the wrecked "Silver Queen."

**RUMANIANS REFUSING ENTRY TO REFUGEES**

Bucharest, March 21.—The Rumanians are maintaining a strict guard along the Bessarabian frontier and are refusing passage across the border to any more refugees, among many of whom there are Bolshevists. All persons attempting to cross the Dniester river are being fired upon.

**Commission Will Settle Estonian-Latvian Frontier**

Reval, March 21.—A special commission has been formed to settle the Estonian-Latvian frontier question, on the initiative of Great Britain. The chairman of the commission will be a British colonel. The others will include the premiers of Estonia and Latvia, several Estonian and Latvian generals, and some entente representatives.

**Prisoners, Guns and Loot Captured by the Bolshevik**

London, March 21.—A Bolshevik communication received here today says: "In the direction of Novorossk we have reached the River Kuban and captured six thousand prisoners and 20 guns. In the region of Yekaterinodar we have taken 15,000 prisoners and a large number of guns and much booty."

**URGES AID FOR LAVAL**

Quebec, March 21.—(By Canadian Press).—In a pastoral letter issued by His Eminence Cardinal Beaudry, and signed by the archbishops and bishops of the ecclesiastical province of Quebec, an appeal is made for funds for the development of Laval University, Quebec.

**GERMANY WANTS FRONTIER RECTIFIED**

Claims Part of First Schleswig Zone as Hinterland of Flensburg.

Copenhagen, March 21.—The German government has presented a note to the plebiscite commission demanding a frontier line which would leave a large section of the first Schleswig zone to Germany, according to the National Tidende. Germany claims certain territory as belonging to Flensburg's Hinterland. Germany likewise asks for the town of Tondern, where, in the recent elections the majority of votes cast favored adherence to Germany, offering to make Denmark considerable economic concessions.

**SAYS QUEBEC LIBERALS MUST STATE POSITION**

Montreal, March 20.—At the inaugural meeting of the political campaign in St. James' division in favor of Fernand Rinfret, was held here last night, Ernest Lapointe, Liberal leader of the province, gave it as his view that the moment had arrived for Quebec to state whether or not it approved of the stand taken by Liberal members of parliament since the 1917 elections.

**REGRETTED BY TAFT**

Greensboro, N.C., March 20.—Former President William Howard Taft, who arrived here last night from Winston-Salem, when told of the senate having failed to ratify the peace treaty, stated: "I have nothing to say, except that I am very sorry. That seems to me to be all there is to say. However, altho the senate has refused to ratify it, the treaty may be brought back. It was once, you know. It might be again. I hope so."

**HARBORS AND RIVERS OF B. C.**

Last year the federal government spent on the harbors and rivers of British Columbia the sum of \$603,314, of which \$152,842 were spent on dredging. On the improvements of Vancouver harbor were spent \$149,876, and on Victoria harbor, \$153,796.

**GERMAN WARSHIPS COMING TO U. S.**

Battleship, Cruiser and Three Destroyers Will Be Sunk After Exhibition.

Washington, March 19.—Five German surrendered warships allocated to the United States under the armistice terms, a battleship, a cruiser and three destroyers, will be brought to the United States next month, it was announced today by the navy department.

The cruiser Frankfurt and three destroyers now at Rosyth, Scotland, will be towed over by three minesweepers and a transport which will sail for Scotland early in April to bring them back. The battleship is the Oestriland, 22,400 tons, built in 1911, and a second line ship during the war. She has not arrived at Rosyth under the agreement by which she was to leave Kiel March 15, but was expected to be on hand in time to accompany the other ships, crossing the Atlantic under her own power.

**A DESPERADO**

Burly Military Policeman (referring to diminutive prisoner): "Yes, sir—he repeatedly tried to commit suicide."  
 Officer: "How?"  
 B.M.P.: "Well, he tried to fight me all the way back to camp."

**U. S. SENATE ACTION SOURCE OF DANGER**

Resolution Expressing Sympathy With Ireland Oversteps Bounds.

Liverpool, March 20.—The Daily Post, commenting editorially on the action of the United States senate in adopting a new treaty reservation expressing sympathy for the aspirations of the Irish people, and declaring the hope that Ireland would have a government of its own choosing in the near future, says:

"The American senate has surely overstepped the bounds of good sense, to say nothing of good taste, in adopting a reservation to the peace treaty on Ireland. It has as much as said it will welcome the emergence of Ireland into full independence. That is hardly neighborly. Moreover, it is an example of the kind of international meddling which the senate professes to condemn in the covenant of the league of nations."

"All sensible Britons know, of course, that such resolutions are not to be taken quite seriously. They are, in fact, mere concessions to the Irish extremists in the United States; the senate has long shown a quick responsiveness to Irish 'pull.' None the less, they have an undoubted element of danger. Unhappily, there are hysterical patriots among us who may be easily worked up by certain interested writers and speakers to resentment of American interference with purely British affairs. This is a fact that the senators would do well to remember, especially at the moment when it is of vital importance to the world that Anglo-American relations should be most cordial."

"At the same time, the senate's unfortunate reservation ought to warn our own government of the serious consequences further 'shilly-shallying' with the Irish question is likely to entail. Truly, the Irish question is international."

The Toronto World

FOUNDED 1880. A morning newspaper published every day in the year by The Toronto World Company of Toronto, Limited.

MONDAY MORNING, MARCH 22.

Build Mount Pleasant Line.

The new recommendation of the board of control will be before the city council today for the building of the Mount Pleasant civic car line.

The road, which will cost about \$1,000,000, will serve immediately at least 10,000 who are residents of the district.

Of the amount originally voted for the line in 1914, about \$125,000 is still in the treasury. The balance will be raised by authorization of the legislature.

In common justice, the northeastern section of the city should be given this line, and it is difficult to see how any member of the city council can justify further opposition to the construction.

This Saddened Sun.

The Farmers' Sun is already a weary of the talk at Queen's Park—the opposition's talk, six critics to three victors, and the six having very little worth listening to, says The Sun, and annoys the Farmer members, who want to get into action in the committee rooms.

It is worth something to the new men to be shown how not to do it. They are satisfied with Premier Drury's opening deliverance. Mr. Doherty, speaking on St. Patrick's Day, showed them what genial humor can be like when it is emitted by an agricultural Moses.

The Sun complains that there is paucity of ideas with a prodigality of words—from the oppositions. What more could it desire? How can the public know that nothing is left in the old parties unless the old parties expose themselves?

Those who indite wisdom for mankind, whether in The Sun or in lesser luminaries, are not perfect, either in compression or substance. Neither, if the truth were known, are farmers in executive session assembled. Friend Morrison could probably tell of futile hours spent in the outlay of many words, by the outlay of many words, by the outlay of many words.

Grand Trunk Delay.

The hitch in appointing the board of management that is to co-ordinate the Grand Trunk with the Canadian National Railways, is due to a questioning of the legality of the shareholders meeting in London which ratified the nationalization agreement on the nineteenth of February.

Clearer than anything else is the proof that, under the surface, conditions are gravely disturbed in Britain. Lloyd George can never be a Tory, even if he beds with Tories. He has plenty of reason to say that, hitherto, the Tories have bedded with him, and that they are getting far more of his habit than he is getting of theirs.

TO BUILD MEMORIAL HALL

Kingston, Ont., March 21.—(Special)—St. James Church will erect a Sunday school hall to be known as the Macmorris Memorial Hall in memory of a former rector, the late Archdeacon George held up because it does not Macmorris.

When Brethren Are.

The other day Archbishop Mathieu of Regina spoke to the Quebec Canadian Club, and the vote of thanks to him was proposed by the Anglican Bishop of Quebec.

It is time racial and religious feuds deceased in this country. Sometimes it is easier to take peace than to ensue it. People will not gladly let their early teaching die, especially when it is established in a whole-hearted acceptance of authority.

Because one may think that something in faith or practice is not best for himself, is no good reason, in religion or common sense, why it should be wrong for somebody else.

It is sometimes good to pay your own faith the compliment of showing that it can survive friendly contact with the creed of another.

Who is Mr. Oakes? Mr. Oakes was one of the paid "sin-hounds" of the Committee of 100. He did such valuable work "spotting" for the master "sin-hounds" that he was loaned to the poor, inefficient license commission of Ontario to help (1) enforce the O. T. A. The province was too poor to pay for help, so the Committee of 100 gave us his services free, gratis, and for nothing.

THE balance sheet that shows upon one side receipts and on the other payments must necessarily prove the Ontario surplus. This is the Ontario government plan of the sheet. One instance will illustrate its receiver for the house of the government under the house of the loan of \$4,500,000 at 5 per cent. It spent under the housing act \$1,951,655.

It is worth noting by the curious that a long venerated antique, "the Ontario surplus," has finally disappeared from the field of ordinary receipts and expenditures. "Probably we shall never see it again. We are playing up to the money lenders now, showing them hazardous valuations of undeveloped resources, knowing that we shall have to keep company with them for the remainder of our days.

These public accounts are in a way more interesting than Boswell's "Life of Johnson." Or "Hone's" "Every Day Book." Who would ever guess that we are still rich in such permanent investments as a "special deposit" in the Ontario surplus? In that famous financial institution, the Farmers' Bank, also a current balance of \$1,445,666 in the same (Gibbs) like keeping. But it's true, nevertheless. Both sums are shown in the accounts ending Oct. 31, 1919.

MR. GUTHRIE: That ought to land the beauties. Eh, what?

He's a Sin-Hound, Says Col. Machin

An Open Letter in Reply to That Sent to Premier Drury by J. W. Oakes About Temperance Act Enforcement.

Editor World: A Toronto friend has sent me a copy of The Toronto World of the 15th inst., containing an open letter to the premier of Ontario, signed J. W. Oakes of Guelph, and also your editorial comment thereon.

Ordinarily I would not bother to answer either letter or editorial, but because I happen to be the president of the Ontario Temperance Society, and live in the Kenora, I feel I must in justice to both the league and Kenora refute some of the foolish statements contained in both the letter and the editorial.

SOME NEWS.

CHAPTER 27. The saddest part—at least, the most pathetic—of any great tragedy is, that things must go on in general it must appear as the nothing that happened.

Any woman who has experienced a great sorrow will tell you this. Her first-born child may lie dead in the room above, but she must go into the kitchen and decide whether there shall be fried potatoes for supper, and whether last night's roast shall be made into hash or stew!

Alice came to bless her work, after a time. But the first few days she had an intense desire to get away from everything in the vague hope that she could get away from herself.

"Won't you go away?" Mrs. Fairbanks said, "gentle, impractical mind did not connect with the idea of doing—she merely saw that Alice was restless, that there were circles and she looked tired and excited."

"Oh, how can I?" Alice answered half-irritably. "I'm such a burden, when I should be a help! I'm no use to you at all, my dear." Mrs. Fairbanks did not say it in the voice which the sympathy-hunting woman uses. She stated it as a simple, sad fact.

THE GIRL WHO SMILED THROUGH

By MARION RUBINCAM

SYNOPSIS OF PRECEDING CHAPTERS. Alice Fairbanks has always won her way thru life by her optimism. Her sunny nature has buoyed her up in the face of such circumstances as her father's desire to see her marry, her need of money, her necessity for working hard.

She sacrifices her trousseau to send for air-ordered cousin, Lois Kennedy. Lois gradually wins away David Alice, fearing his love is weakening, frees him from the engagement. Lois becomes engaged to him, and leaves for the city.

Alice came to bless her work, after a time. But the first few days she had an intense desire to get away from everything in the vague hope that she could get away from herself.

"Won't you go away?" Mrs. Fairbanks said, "gentle, impractical mind did not connect with the idea of doing—she merely saw that Alice was restless, that there were circles and she looked tired and excited."

"Oh, how can I?" Alice answered half-irritably. "I'm such a burden, when I should be a help! I'm no use to you at all, my dear." Mrs. Fairbanks did not say it in the voice which the sympathy-hunting woman uses. She stated it as a simple, sad fact.

THE GIRL WHO SMILED THROUGH

By MARION RUBINCAM

SYNOPSIS OF PRECEDING CHAPTERS. Alice Fairbanks has always won her way thru life by her optimism. Her sunny nature has buoyed her up in the face of such circumstances as her father's desire to see her marry, her need of money, her necessity for working hard.

She sacrifices her trousseau to send for air-ordered cousin, Lois Kennedy. Lois gradually wins away David Alice, fearing his love is weakening, frees him from the engagement. Lois becomes engaged to him, and leaves for the city.

SOME NEWS. CHAPTER 27. The saddest part—at least, the most pathetic—of any great tragedy is, that things must go on in general it must appear as the nothing that happened.

Any woman who has experienced a great sorrow will tell you this. Her first-born child may lie dead in the room above, but she must go into the kitchen and decide whether there shall be fried potatoes for supper, and whether last night's roast shall be made into hash or stew!

Alice came to bless her work, after a time. But the first few days she had an intense desire to get away from everything in the vague hope that she could get away from herself.

"Won't you go away?" Mrs. Fairbanks said, "gentle, impractical mind did not connect with the idea of doing—she merely saw that Alice was restless, that there were circles and she looked tired and excited."

HITCH DELAYING RAILWAY PLANS

Question of Co-ordination of Systems May Come Before House.

Special to The Toronto World. Ottawa, March 21.—There is a good deal of speculation here as to the hitch in co-ordinating the Grand Trunk and the Canadian National Railways.

The board of management which is to co-ordinate the Grand Trunk services with those of the Canadian National Railways, should have been appointed almost immediately after the ratification of the agreement.

It was thought when last season's legislation was passed, that every provision had been taken.

LIFT QUARANTINE; TRAFFIC INCREASES

Regulation at Border Ends Fears of Resorts.

Bridgeport, March 20.—The border quarantine was lifted here at midnight last night after having been in effect more than three months.

As a result of the much expressed fear that the large American summer resorts along the lake shore at Erie and Crystal Beach would be hit hard this year by the quarantine in the early opening season, have proved to be without any definite foundation.

The announcement that the bath would be lifted was known on Thursday, but even up until the last minutes those who had not been vaccinated prior to leaving Canada for the States were forced to undergo the operation.

MEXICAN OIL LANDS TO BE DEVELOPED Ten Year Concessions to Be Granted Natives or Naturalized Mexicans.

Mexico City, March 20.—A presidential decree, issued today, authorizes the granting of concessions for the exploitation of oil lands in territories belonging to the nation.

The decree provides that concessionaires must comply with existing laws regulating the petroleum industry, including their assent to the organic petroleum law which a future congress must enact.

In addition to affirming national domain over both surface and subsoil of those national lands which are to be opened to exploitation, the decree reaffirms national rights to the subsoil of all oil lands in Mexico.

Points upon which stress is laid in the decree are as follows: Concessions are to be granted for ten years, with a renewal of contract under the federal executive department's consent; concessionaires must drill within five years from the date of the concession, one well for each two kilometers of the land conceded, the first well within the first year; concessionaires must pay 100 pesos yearly tax for each kilometre or fraction thereof.

Concessions are to be granted to natives or naturalized Mexicans, or to companies organized under Mexican laws exclusively.

The decree provides for the confiscation of a concession, buildings, deposits, etc., by the government, should a concessionaire ask protection from any foreign government or admit a foreign government or a foreigner to be an associate. Nullification of a concession is provided for should a concessionaire fail to comply with the regulations.

TOWN OF DRESDEN MENACED BY FIRE. Union Block Destroyed—Loss Several Hundred Thousand Dollars.

Chatham, March 21.—(Special)—Fire, of unknown origin, completely destroyed what is known as the Union block in the town of Dresden, this morning. Had it not been for an efficient fire-fighting system and the work of many volunteer helpers, the fire might have resulted more seriously.

The flames were discovered at 10:30 in the block was a heap of debris. During this time, five streams of water were directed against the burning structure. The cause of the fire is not known. The block was a three-story building, and had been used as a warehouse for many years. The fire was completely extinguished at 11:30 p.m.

DAMAGE TO WHEAT STRENGTHENS CORN. Conditions in Southwest Cause Alarm—Oats and Provisions Advance.

Chicago, March 20.—Apprehension of damage to the wheat crop in the southwest gave a smart upturn today to the price of corn. Closing quotations were 15c, 2 1/2c to 3c net higher, with May at \$1.48 1/2. Oats gained to 1 1/2c, and provisions 10c to 50c.

Corn opened weak, but soon began to rally. The selling in the corn market was responsible for the decline in the price of wheat. An opinion was prevalent that the advance had been overdone and that corn would be overvalued to feed. Talk of a federal loan of wheat to the southwest, which would be a moderate stimulus to the market, threatened the wheat crop in the southwest. The incentive was supplied, and that the forecast was fair. A moderate stimulus to the market, threatened the wheat crop in the southwest. The incentive was supplied, and that the forecast was fair.

### Women Choose Easter Suits

With Particular Care as to Quality, Material, Distinctive Designing and Finesse in Tailoring. That is Why They Are Choosing From Our Magnificent Assemblages.

Every suit, from the simple, moderately-priced tailor-made to the exclusive three-piece model of Paris origination, exploits these sought-after points, besides offering a wealth of variety to make choosing pleasurable.

Military braid is used in dozens of ways to adorn stunning suits—elaborate embroidery in silk, chenille and metallic threads glorifies handsome dress models—vestees of duvetyne, metal brocade and novelty silks give brightness to sombre suit-coloring.

Tricotine, Poiret twill, English gabardine and Botany serge are mostly used in their making, in navy, black, rookie and sand. Priced all the way from \$37.50 to \$150.00.

### New "Studington" Coats

The many women who have been inquiring about these famous tailored coats will be glad to know that a shipment of very smart models has arrived.

Tough cut on mannish ultra-tailored lines, they possess a swank smartness, which is the secret of their renown. Moreover, they are always in season, always in style, adaptable alike to street, travel, motor or general wear.

The new models come in rich wool mixtures or plain shades, proofed for all weathers. Sizes 36 to 42. In the Women's Department. Priced, \$60.00 and \$65.00.

### If You Like French Pastry
