Japanese Minister to Mexico, Wildly Greeted There, Said to Have Made Speech That Will Make Washington Sizzle

(Canadian Press) Mexico City, July 22.—The Japanese minister to Mexico, on his arrival here yesterday, was met by a crowd of 5,000 cheering Mexicans and the extraordinary cordiality of his reception brought out a speech which has aroused excited comment everywhere in the capital and which made Mr. O'Shaughnessy, charge d'affaires of the United States legation, promptly take steps to have it transmitted to Washington with his own deductions as to its purpose.

The Japanese minister, greeted with a chorus of "banzai" made an address in Japanese, translated into Spanish by one of his attaches, and then spoke to the crowd. This makes not at all certain the full purport of the diplomat's remarks, but it is estimated that he announced the existence of a strong bond of sympathy between Mexico and Japan on the score, it is declared, he said, of both countries being in the midst of difficulties with the United States.

Japan would be heart and soul with Mexico if there should come a clash between that nation and the United States. Diplomats here, however, aver that they can see no more significance in the Japanese minister's remarks than perhaps in the indifferent utterance brought on by the great warmth of the reception. Reports last night had it that the newspapers because of this speech of the Japanese representative, are preparing anti-American editorials, even more inflammatory than those of the immediate past.

ATTACK ON COMPTROLLER IN CITY HALL

"Bobby" Dickson Comes at Adam P. Macintyre With Knife; is Downed and Arrested—Fancied Grievance Over Land

A murderous attack upon City Comptroller Adam P. Macintyre, in his office at City Hall this morning was only frustrated by Mr. Macintyre's presence of mind and activity. The attempt was made by Robert Dickson, well known around town, as a result of a fancied grudge against the comptroller. After a brief struggle the assailant was thrown to the floor and held there until the arrival of a policeman, when he was placed under arrest and locked up, charged with threatening to stab Mr. Macintyre. Dickson's trouble arises from an obsession he has regarding some property of his father who died possessed of a leasehold dwelling which he willed to the late George B. Vézina as trustee for his widow. The property was sold, and after the debts were paid, a small balance was handed to Mr. Dickson. The son made trouble about the matter at the time, saying that the money would have been paid to him. He made demands upon Mr. Vincent for cash and then transferred his attack to Mr. Macintyre, who only connection with the case was that he acts as trustee for the land upon which the late Mr. Dickson's house was located.

when he reached his office he notified the chief of police of the occurrence and warned him that Dickson should be looked after. Hardly half an hour afterwards Mr. Macintyre looked up from his desk in his private office and saw Dickson coming down the doorway with a knife in his hand. He rushed to the door, ordered him out but Dickson continued his approach. Mr. Macintyre, without wasting any more time, jumped for the man and caught him by the arm to prevent him using the knife. He hustled him into the outer office where he threw him to the floor and held him while Dickson made frantic efforts with the knife in his hand. Edward Chase, who was in the office at the time, tried to take the knife but Dickson succeeded only in closing the blade over Dickson's fingers so as to make it harmless. James Steele, a city constable who entered the office at this time, was dispatched for a policeman and returned with Patrolman Alexander Crawford who arrested Dickson and took him to the Water street lock-up. While the prisoner was on the floor he continued his threats, promising to "get" the comptroller at some future time. Dickson was confined in the provincial hospital at one time but was released as harmless. When the prisoner was searched a small nickel-handled knife was found on him but the larger knife was missing, and it is thought it was dropped on his way to the lock-up.

NOW SAY THAT TURKEY COMES BACK TO FIGHT

Report That War Against Bulgaria is Decided on

(Canadian Press) London, July 22.—The Morning Post publishes a Constantinople telegram via Vienna asserting that, after a long ministerial council, it had been decided to declare war officially against Bulgaria. The Turkish army, according to this account, has been ordered not only to occupy Adrianople, but to cross the frontier as quickly as possible and to march into Bulgarian territory. According to apparently reliable telegrams from Belgrade, the Serbian government regards this as an attack on the whole Balkan league, and the cabinets at Belgrade, Athens and Cetinje are preparing to act accordingly.

It also alleges that the Turks and Greece today agreed to the proposal that peace negotiations with Bulgaria should take place in Bucharest. An armistice is being arranged in Nish and it is hoped that it will be concluded within a couple of days. Greece insists that the armistice and the agreement for peace negotiations be signed simultaneously. Rumania has refused Turkey's request that she be allowed to participate in the peace conference. The European powers have consented to these arrangements. Sofia, July 22.—It is reported here that the Russian government is massing the horrors at Adrianople, giving the fleeing population no quarter. The Russian government is massing the horrors at Adrianople, giving the fleeing population no quarter. THOUGHT ALARM WAS FOR A FIRE DRILL

That's Why Many Died in Factory Blaze

Girls Disliked Drill Made Them Go to Street in Working Clothes—Feared Binghampton Life Loss Will Exceed Fifty—Heroes Amid Fearful Scenes

(Canadian Press) Binghampton, N. Y., July 22.—At daybreak, his form of city employees began to search for the dead entombed beneath the smouldering ruins of the overall factory of the Binghampton Clothing Company at Nos. 17 and 18 Wall street, in which many people lost their lives yesterday. Not until the tangled mass of brick and steel had been removed will the full extent of yesterday's holocaust be known. A conservative estimate places the number of dead at more than fifty.

BIG EDUCATION PLAN FOR BRITAIN

Government Planning a Revolution in System WILL BE VERY COSTLY

Understood That Decision is Those Who Dress a la Mode Must be Themselves Responsible—Still Every Courtesy, However

(Times' Special Cable) London, July 22.—The government is planning an educational revolution. The minister of education yesterday forecast a scheme to be introduced next year. The local authorities will retain control of the big boroughs, having complete autonomy. The rural districts will be supervised by provincial councils with administrative powers. The compulsory school age is to be raised above fourteen and elementary schools are to provide effectively for the physical well being of children. They will feed needy scholars on Sundays and holidays besides on school days. They will provide baths and playing fields for nursery schools under medical supervision. They will have power to prosecute parents for cruelty to children. Secondary examinations will be made within the reach of all every authority being compelled to provide a complete system of progressive education within its area.

CANCEL C. P. R. ORDER RE WOMEN WHO WEAR THE TIGHT SKIRTS

Evidently the C. P. R. do not intend to encourage the wearing of the hobble or other form of tight-fitting skirt by female passengers on their trains, despite the fact, as the punster would put it, that they are probably the most suitable gown to take a "trip" in. Some days ago an order was issued to conductors and other members of train crews to be on the lookout for women passengers attired in tight garments and to assist them aboard trains. An instance was cited wherein a woman who was "hobbled" to a superfluous extent in trying to step aboard a train at a certain station along the line had fallen and might have fared seriously had not a trainman helped her to arise.

tight skirts seemed still to be in fashion, the authorities sent the order for train officials to be careful in seeing that women wearing them got aboard in safety. Yesterday, however, a counter order was issued, it is understood, cancelling the one sent out just a few days previous. It is thought that the purpose of the counter despatch is that the women, if they wear the hobble or other narrow gown in traveling, must be responsible themselves if they happen to lessen their carefulness or vigilance to meet with an accident in getting on or off the train, but it does not, of course, imply that the train officials are to lessen their carefulness or vigilance for their safety, for this has always been one of the rules of the corporation.

WELCOMING BRIDE AND GROOM AT ENNISKILLIN, H. DUPLISSEAU IS SHOT

Skull Fractured By Bullet and He is in Serious Condition in Hospital. Herold Duplisseau of Enniskillin was seriously injured in a chivalric act that took place last evening. It appears that a bullet was carelessly left in one of the rifles used for firing salutes and this struck Duplisseau in the side of his head inflicting a serious wound. The injured man was brought to the city on the Ontario train this morning, accompanied by his father and mother and taken to hospital in the ambulance where it was found that the bullet had entered the top of his head, fracturing his skull and he is now in a very serious condition.

MARATHONS OUT TO PLAY SOME NOW

New Infielder, New Outfielder, New Catcher—Pease Exchanged For Black. Another exchange has been made in the way of strengthening by the Marathon management. Black has been exchanged for Pease, of the St. Croix team, who will be in the line-up this afternoon playing in the out-field. Fishery, the new catcher from New England, arrived in the city today and will likely be seen in action this afternoon, with Charles doing the pitching, against Fredericton. McPherson will be at short with Watrous, Riley and Pease in the out-field. Dickson was confined in the provincial hospital at one time but was released as harmless.

SING SING SHOPS BURN; CONVICTS FIGHT THE FIRE

Zurich, Switzerland, July 22.—M. Pichon, French foreign minister, is quoted by the Nouvelle Gazette today as saying: "I do not think that Austria is profiting by the circumstances, and intends to intervene in the Balkan trouble. The understanding among the powers has not been weakened, and will be maintained. I do not believe that any of them will take up arms in the Balkans and the Russian government is authorized, permit Bulgaria to be dismembered." The fire was fought mainly by 200 of the convicts trained as a fire brigade. They showed great bravery. The convict fire fighters did not wait for orders but scaled the roofs of adjoining shops and directed streams from them. The prison authorities describe the men locked in their cells, 1,200 of them as "orderly."

They were assembled in the inner court of the Vatican and notified by their commander that their memorial of Monday, in which they laid down their terms, could not be accepted by the Holy See, as it was destructive of the principle of discipline.

JACK JOHNSON FINED ONE DOLLAR IN LONDON. London, July 22.—Jack Johnson, though not present, was fined \$1 yesterday by Alderman Sir Wm. Theagar at the Mansion House for driving his motor car in London on July 12 without a proper identification plate. Joseph Levi, describing himself as Johnson's secretary, said he was sent over specially by Paris to plead guilty to Johnson's behalf. Johnson had come to London to meet his two autos, which are driven from New York at the London docks. Levi said Johnson was driving to the office to get an identification plate when a policeman stopped him on the Victoria Embankment.

A Word To the Wives Is Sufficient

After everything has been said that can be said on the subject of women's rights, all true women feel, no matter what their political ideas may be, that their first and most important duty is to the thrift and business-like management of their households. The question of pure foods is very much before the public at the present time, and every housekeeper is desirous of having on her table food stuffs that are as nutritious and as little adulterated as it is possible to procure.

Cadets to go Into Camp This Year at Sussex; Expect 1,000 of Them

A change has been made in the regulations regarding the annual encampment of cadet corps for this year so far as the maritime provinces are concerned. Instead of going to Aldershot as was done last year by the boys from the three Atlantic provinces, the lads from New Brunswick will bivouac at Sussex, on the site of the big military encampment there. The experiment of having the Junior arms camp for ten days at Aldershot last year was much of a success but the distance and need of precautions in getting the young fellows in safety to the grounds, etc., were not appreciated by those in charge. This will be done away with this year. The camp is expected to be about 1,000 strong, and will be in charge of Colonel Mercereau. It will open on August 4, and will be conducted on the same plan as governs the regular military camps throughout the Dominion. Instruction will be given in several branches of the service. The members of the Canadian Ordnance Corps will leave in the latter part of this month for Sussex to prepare for the issuing of the orders to the young fellows going to camp from St. John and other parts of the province.

THE TROUBLES IN CHINA

London, July 22.—The arrival of 1,500 Southerners with guns from Nanking suggests, according to the Shanghai correspondent of the Exchange Telegraph, Company a possible attack on the Shanghai arsenal. It is reported that the Northerners have gained a victory at Suohow Fu, province of Kiang-Su. Boarded Liner by Hiding in Big Laundry Basket

The woman, the first stowaway of her sex ever known to have come to the port of New York, had been waiting for days for a chance to slip from the ship unnoticed.
She is a middle-aged Frenchwoman, who had a handkerchief to see the United States, but had no money. She refused to tell the captain how she got on board, but it is believed that she hid herself in one of the big baskets of freshly laundered linen which the ship took on board at Havre.

MOONLIGHT EXCURSION

The moonlight excursion held by the Brotherhood of Railway Employees on the river last night was enjoyed by a large number. The City Council Band was in attendance and played during the entire evening. A little excitement was added to the occasion when one of the party slipped from the gang plank on leaving the boat at Indiantown. He was soon rescued and suffered nothing more than a slight drenching.
The excursion was very successful and much of the success is due to the efforts of the committees having the matter in hand. The managing committee was composed of the following: Wm. Howard, president; Thomas Donovan, Walter Shaw, C. Nichols, Thos. Dean, Fred McCarthy, and J. Murphy, while the ribbon committee had the following: Edgar Murphy, Hugh McCormick, Wesley Daley, and Wm. Smith.

FIFTY GIRLS BURNED ALIVE IN FACTORY FIRE

Flames Sweep Through Building Cutting Off 125 Employees—Many Fatally Injured in Frantic Efforts to Escape

Binghamton, N. Y., July 22—Fifty persons were killed, according to late estimates and as many injured, a dozen of them mortally, in a fire which swept the four-story factory building of the Binghamton Clothing Company this afternoon. The victims were chiefly women and girls.
Early tonight twenty-two bodies have been recovered in the city hospital and in private institutions are thirty injured. Some two score persons are known to have escaped, as by a miracle, from the building, which burst into flames like a tinder box and became a roaring furnace almost immediately after the first alarm was sounded. About 125 persons were in the factory when the fire broke out. The unaccounted for, or most of them, are believed to be still in the red hot ruins of the structure.
When the firemen came in response to the telephone alarm they were unable to get within 200 feet of the burning building and the ends of the streams from their hose were turned into steam, having no more effect on the fire than a spray of vapor upon the walls of a volcano in action. Life nets and extension ladders of the firemen were useless. There was no chance for those caught on the upper floors, except the chance of escape by jumping, and this many took, while others fell, shriveled and crumpled with the heat.
Scarcely one of the survivors was able to give a connected account of what occurred on the upper floors, except that when the employees there, mostly women and girls, realized that the fire call was no false alarm, and that death was sweeping down upon them. The coolest among them recalled that women faintly by dozens, and that a scene of indescribable confusion occurred. Some of the men employees seemed to have kept their heads and did their best to rescue the imperiled women.
The fire escapes were not big enough to hold all who rushed madly to the exits and there was a rush for the windows, the girls screaming with pain as the flames swept upon them from behind and seared their bodies. It was among these that the loss of life and injury was greatest.

SIR THOMAS SHAUGHNESSY OPTIMISTIC REGARDING BUSINESS IN CANADA

Montreal, July 22—Sir Thos. Shaughnessy, president of the C. P. R., in an interview today asserted that the present economic situation in the dominion is by no means such as to give cause for anxiety and that he fully expects conditions to be quite normal again in the late fall.
Sir Thomas made it clear that there is no need to anticipate anything in the nature of an economic crisis in Canada. That the banks and other interests concerned had the situation well in hand, and expressed the belief that the fact that his company had recently decided to spend \$100,000,000 on extensions and new construction work during the next and ensuing years was calculated to increase confidence and have a steady effect.

Groves, as clerk of the peace, acted in the case.

WHAT HAS BECOME OF THE YOUNG GIRL?

A Plea For The Return of Miss Innocence, Quoted From Pictorial Review For August

"This is a straight-from-the-shoulder talk to the fathers of young girls. We hope mothers will read it also, but we believe that many deceived and useless customs have been cast aside, and that today carries much to admire and rejoice over. But we have made a mistake in letting our girls grow up too fast. There is neither meekness nor shadow in the eyes of Miss Sixteen today. Neither is she exactly what you would call 'sweet.' She is 'smart' and amusing, but she does not bring a tremulous smile to the lips of old age nor fill the hearts of men, young and old, with the fine old desire to protect and screen her from all that might hurt or contaminate. Her eyes are lively and challenge. Her bearing announces an independence that is too assertive. There is nothing reluctant about her feet. Rather they press eagerly toward the dress, manners, customs and pleasures designed for those who have plucked ripe fruit from the Tree of Knowledge.

We men are proud of this new girl's spirit, of her achievements in the classroom, of her resourcefulness and adaptability when economic conditions force her into our factories, stores and offices. We smile at her good-humoredly, and say "Go to bed, girl!" while she elbows her way into the crowded lunch-room or trolley. But we miss the shadow in her eyes, the lily in her hand, and we do not like to think of her as the wife for our son. If we stop to analyze her position in the general scheme of life we think vaguely that she belongs in a class of her own, the class that must hold its own in the stern work-a-day world. Perhaps in preparing their daughters for the grinding, pitiless contact with those who toil parents have taught girls at once too much and too little—too much of how to protect themselves from evil in others, too little of how to flee the evil in self. And so, flaunting her preparedness, this type throws off the mysterious veil of maidenhood, melting into womanhood.

We are sorry for this girl, sorry for her parents and we are glad our daughters are not as this poor, world-worn little creature. That is because we really do not know our own daughters. We have not time to follow our girls into what we fondly believe to be a sheltered, refined life. Suppose some of you fathers put market prices into the background and for a few hours walk the sheltered path which you imagine your hard earned dollars provides for your daughters."

LEGS BURNED AND ITCHED

Souris, West, P. E. Island.—"My little girl, aged four years, was excruciated with a painful rash on her legs. It began in a dry rash very hot and itchy and after a few days it looked like little pimples with a white top on them. Her legs burned and itched very much and she was very nervous and was also cross and fretful. She used to scratch and make sores when I was not watching her. I had to leave her stockings off as they would irritate her legs. I used to bathe her legs with warm water and use the Cuticura Soap freely, then dry her legs and run on the Cuticura Ointment and she was cured in one week." (Signed) Mrs. P. J. LOBSTERS PLENTIFUL
Along the coast between Richibucto and Shediac lobsters are reported so plentiful that the packers cannot handle them all. Hake and cod are very plentiful. Dog fish have reached the coast in small numbers. Mackerel are not plentiful and the fish are small. The squally weather prevents the fishermen from getting out.

EMPIRE TRIP OF PARLIAMENTARIANS

Donald MacMaster, M. P., Speaks of Value

BROADENING PROCESS

If Imperial Court of Appeal Results One Good Thing, He Thinks, Will Have Been Achieved—Those in the Party

(Times' Special Correspondence)

London, July 8.—Donald MacMaster, M. P., when asked the other day to state what virtue lay in the visit of the members of the United Kingdom branch of the Empire Parliamentary Association to Canada, Australia, New Zealand and South Africa, replied: "The thoughts of men are broadened by the process of the suns. The value of this trip lies in its broadening effect on the minds of the members; it will be a magnificent opportunity to study John Bull's estate," he said, "and as an instrument for bringing the legislators of the empire into closer touch, it is extremely well timed."

"The Australian branch of the association has invited the English branch to send out ten peers and ten commoners for the purpose of visiting the commonwealth in order that they may be better informed of its resources and opportunities and have a larger sphere of knowledge on Australian questions that may arise in the future. The trip has been arranged to give us a little time in Canada. Little as that time will be, it will be valuable in giving members of the house at Westminster some idea of the extent of the dominion; some idea of the problems of construction which this young titan, stretching its vigorous limbs from the Atlantic to the Pacific, has to face."

"It will be valuable because they will see that every second man is not bogging, but that all rely on their industry, certain of ample return. It will be valuable if it results in an increase of knowledge concerning Canadian institutions sufficient to prevent such a faux pas as that of the Right Hon. J. B. Seely, who did not know when Empire Day was celebrated and what it celebrated. It is a very wise step on the part of the government to have the under secretary of state for the colonies as a member of this party in order that he may see the countries with the development of which he is so closely connected."

"What quickening may be given to empire questions now in the cradle? What strength of imperial faith may result? What new questions may emerge? These are questions which can be more thoughtfully dealt with after the trip, but there must be some. If, to take only one question, the visit results in a step toward the creation of an imperial court of appeal and the permanent presence, instead of the mere fugitive representation of overseas judges on the privy council as at present, something important will have been accomplished."

"Since this was written the party have left London. Twenty members of parliament left there on Wednesday en route for Australia, where they will be the guests of the Empire Parliament Association. The delegates sailed from Liverpool, and will visit Montreal, Ottawa, Toronto, Winnipeg and Vancouver where they will take a ship for Honolulu, Fiji Islands, Auckland and Wellington, New Zealand, before reaching Sydney. The return journey will be made via South Africa, and the trip will take up about four months."

The delegates included Lord Emmott, Lord Sheffield and Lord Castlemaine, C. B. Stuart-Wortley, Thomas Lough, Sir Hildred Cadzow, Sir Joseph Walton, J. Norton Griffiths, Arthur Sherwell, L. S. Amery, Sir Arthur Prestley, Donald MacMaster, Hamar Greenwood, Sidney Goldman, Capt. D. V. Pierre, Col. C. B. Yate, Will Crooks, Sir Stephen Collins, A. P. Hird and A. W. Black. Lord Emmott is under secretary of state for the colonies. Of the seventeen M. P.'s eight are Liberals, eight Conservatives and Will Crooks a labor man. Mr. and Mrs. Amery, Mr. and Mrs. Norton Griffiths and Sir J. Walton sail for Australia direct.

TALK OF A GENERAL STRIKE IN GERMANY

Force Government to Pass Electoral Reform is the Avowed Object

Berlin, July 22.—Socialist Germany is agitated over the question whether or not to arrange for a general strike to force electoral reform. The Socialist authorities in the Reichstag and some on the Landtag have been ineffective, and now Rosa Luxemburg and other stalwarts are advocating a general strike. At the same time, Dr. Heim, leader of the South German peasants' union, is advocating a general strike in Bavaria in order to break the Centre party and clerical dominance.

It is understood that a general strike will be keenly debated at the forthcoming general congress of Prussian stalwarts. Other strict followers of Karl Marx are raising the question about the Socialists in the Reichstag voting the taxation and supply demands of the militarists. Until the recent triumph of the revisionists, German Socialists did not dream of voting for any military bill. They always supported the opponents of any clause in such a bill, and in this way enabled the Centre to defeat the clauses of which they disapproved. In the same way the Conservatives, by threatening to vote with the Socialists, could usually force the government to present money clauses in a way that suited them. This time the Conservatives disapproved of a clause in the bill in regard to the inheritance duties, on landed estates, but the Socialists voted for it, and the Conservatives failed to wreck the bill.

The Socialist stalwarts declare that this is a desertion of principles. The Reichstag Socialists retort that the money would surely be collected in some way, and that they voted for the project because it was the least burdensome on the poor.

It is believed there will be another fight in the coming congress between the revisionists and stalwarts, with victory for the former a foregone conclusion. This will mean another stage in the development of the Socialist party into a labor party.

ONE ON THE BORROWER There is a certain type of man with whom many people are familiar, and who, when in company, has always either forgotten his tobacco pouch or mislaid his cigar case. A variety of anecdotes hinge upon this characteristic, and of these perhaps the following is as good as any: A certain workman, notorious for his sponging proclivities, met a friend one morning and opened the conversation by saying: "Can ye lend us a match, John?" John having supplied him with the match, the first speaker began to feed his pockets, ostentatiously, and then remarked, dolefully: "Man, I seem to have left my tobacco pouch at home." John, however, was equal to the occasion, and, holding out his hand, remarked: "Aweel, ye'll no be needin' that match then."

SHORT TIME LEFT TO GET THE BOOK

Telegraph and Times' Splendid Offer Will Be Discontinued Within a few Days.

Wanted—Some one who has failed to find the error eliminator being distributed to stenographers and office employees who are moving steadily forward with the Dictionary Department of THE TELEGRAPH AND TIMES as the starting point of their march of progress.

Get the "apt-aid" article, which may mean much to you. Start that course of at-the-elbow education which is going to land you in the "boss's" office.

Only one coupon and a small expense bonus gets it for you. It's title is Webster's New Illustrated Dictionary, OR COLLAPSE.

The claim is made that while the typewriter and the telephone are now the two most important mechanical devices in use, the typewriter is not the equal of the telephone in efficiency merely because of the deficiencies of its operators.

Less than thirty years ago typewriters could not be sold and the telephone was but poorly patronized, principally because of the lack of perfection in operation.

Now of the two methods of transmitting thought, the telephone, it is claimed, is the more accurate, as it transmits the sound of the human voice and expert operators have been obtained.

Typewriter manufacturers claim that their machines have been brought to such a degree of perfection that they do everything but think.

For the purpose of improving the product of the machines every encouragement is being given to stenographers to obtain the best "error eliminator" extant which is being offered for a few days more by THE TELEGRAPH AND TIMES.

One coupon and a small expense bonus gets it.

BOY SCOUTS' HEROIC ACT

Henri Bellin, a French Boy Scout, has just performed a particularly plucky feat. A chauffeur driving a car along a crowded Paris street was taken suddenly ill, and the vehicle dashed along, to the imminent danger of wayfarers.

Bellin leaped on the car as it passed and brought it to a standstill. The owner, who was inside, wished to repay him handsomely, but the boy would have none of it and hurried away.

His identity was established only by accident.

DOCTORS FROM ALL OVER WORLD

Seven Thousand Visiting Medical Men in London

CONGRESS NEXT MONTH

Appointment of Archbishop of York's Son to Important Post—Home-makers' Union for Married Women of England

(Times' Special Correspondence)

London, July 22—There will be seven thousand more doctors than usual in London during the second week of August. They will come from nearly every civilized country, with the probable exception of China, and they will all be taking part in the eighteenth International Congress of Medicine at the Albert Hall and other buildings in South Kensington.

This congress is such a colossal affair that its general programme of subjects for discussion forms a pamphlet of fifty-eight closely printed pages, and the separate papers to be read, the extracts and "independent" papers, presumably to be taken as read, and the demonstrations to be seen reach the astonishing total of 697.

So enormous is the range of medical science at the present day that the congress is divided into no fewer than twenty-three sections, and in some of these sections there are as many as forty subjects for discussion.

It is a sign of the time that the diseases of children are regarded as subjects to themselves, and the new science of radiology enjoys the same distinction.

Some of the Subjects

The history of medicine has provoked sixty-nine professors and doctors to take up the pen, and the variety of their subjects is as curious as that of a madman's imaginary complaints. Here are a few of the papers that will be read—

The Plague of Athens. Medical Practices Among the Egyptians. The Clinical Apparatus of Hippocrates.

Græco-Roman Surgical Instruments represented in Egyptian Sculpture. The Temples, Hospitals, and Medical School of Coe.

The Last Illness of Napoleon Bonaparte. Sepulchral Inscriptions of Christian Physicians in the Catacombs of Rome.

An Important Post

The king, on the recommendation of the home secretary, has appointed Basil Home Thomson inspector of prisons and secretary to the prison commission, to be assistant commissioner of the metropolitan police in place of Sir Melville Macnaghten, at the head of the Criminal Investigation Department of Scotland Yard.

Mr. Thomson, who is a son of the late Archbishop of York, was formerly in the colonial service and acted as prime minister of Tonga. Subsequently he was made governor of Vanuatu Prison, a position which he vacated to become governor of Wexford Scrubs Prison in 1907.

His knowledge of the conditions of the penal system qualified him for the post of secretary to the prison commission. He is the author of several books, including "The Prisoners of the South Sea Islands," and has also published a work on the "Prisoners of War."

The late Marquis of Northampton was a cherished friend of Bret Harte. This writer, apart from the keen pleasure he always felt in the companionship of Lord Compton (as he then was), loved at Compton Wynantse "to gaze upon the famous chimneys all worked in spirit and vigour, and to muse over the far-away lore in which the whole place is enveloped." Here, too, he could ponder over the brave days of old, and conjure up pictures of that fierce fight at Edgell's. Reminiscences of these visits may be found in "The Desborough Connection" and "The Ghosts of Stuckley Castle."

Home Makers' Union

Married women all over the country are being urged to join a "Home-makers' Union," which expects to become a powerful organization. Croydon has the distinction of being the first London branch of the new union.

The idea originated with Mrs. Woods, an advanced woman worker, of Stockwell, who assured a press representative that husbands need have no fear of the union; its object was simply to help poor working men in their battle against the terrible oppression of the wicked middle classes.

She went on to describe a truly Gilbertian picture of a deputation of members of the union waiting on a recalcitrant husband in order to hasten his reform. Mrs. Woods said the deputation was one of her ideas. That course would be taken in the case of husbands who do not give their wives a reasonable proportion of their income.

"We are out to assist our husbands," she said, "and if by our help they are able to obtain better conditions and wages it is only fair that we should obtain a share of the increased earnings. Of course, there are great problems which we have not yet gone into, but

Justice Goff, of New York city, empaneled a jury of lawyers to try a divorce case. A jury composed of members of the profession is said to be unprecedented.

where this is not found to be the case I should imagine that it would be possible to approach the husband and point out to him the unfairness of his action.

"If that had no effect we could then wait upon his own trade union, and get pressure brought to bear on him in that way. In the case of drunken husbands we could help their wives by means of the law."

Other objects mentioned in the union's literature are—

To protest against bad conditions of home life however caused.

To boycott tradespeople who are bad employers, who raise prices unnecessarily, or sell dishonest goods.

The union is to establish a central meeting place where meals can be served and young children cared for.

More for Exposition

San Diego, Cal., July 22—By a vote of 16 to 1, with half the voting population of this city passed a bond issue of nearly a million dollars for the completion of the San Diego Panama-California Exposition.

The original fund was a stock subscription of \$1,000,000. Then came a bond issue of \$1,000,000. Both these funds are about half expended; \$600,000 of the bond issue remaining in the treasury. The work of organization developed early that the funds were not sufficient if all the states and countries that notified the exposition of their coming really contributed.

The capital stock was a stock subscription of \$1,000,000. Then came a bond issue of \$1,000,000. Both these funds are about half expended; \$600,000 of the bond issue remaining in the treasury. The Middle Weights and the Bantams

FROM T. S. ANDREWS

Milwaukee, July 21 - Some boxing change managers so often it is hard to keep tabs on them. Sam Murbarger is having just the opposite experience and is having a hard time trying to keep in touch with one fighter for any length of time. Sam managed some of the lesser lights and then took hold of Eddie McGorty, but only for a time, when they parted. Then Sam annexed Jack Dillon, an Indianapolis middle-weight, and for a time they got along fine. Jack worked like a champion and at the present time is considered in line for title honors along with Jimmy Clabby, Frank Klaus, and Eddie McGorty.

Christie, a Milwaukee middleweight, had split with Teddy Murphy. As a result a conference was arranged for and it is a good bet that the two will hook up and try for some of the big things this fall. Christie has made an excellent showing in the last year and is considered a very promising 168 pounder.

The Bantams There are probably more good bantam-weights in the country today than for several years, boys who can do the bantam-weight limit, 116 pounds ring-side, without the least trouble and give a good account of themselves. Since the days of Jimmy Barry, Harry Forbes and George Dixon, when the latter was classed as a bantam, the class has not been overstocked with extra good boys, but now there are numerous lads in the class who are far above the average among them (besides the champions), Johnny Coulon, Kid Williams, Eddie Camp, Charlie Letours, Digby Stanley, Bill Berman, Frankie Conway and Kid Mahoney. All are high-class boxers and a tournament among the lot would prove a most interesting event.

Nova Scotia and The I. C. R.

(Maritime Merchant)

The changes that have taken place in connection with the Intercolonial Railway, both with regard to the increase in freight rates and other matters in connection with the administration of the affairs of the road, seem to be meeting with pretty strong criticism in some sections of the country. The stand is taken that the I. C. R. was never intended to pay a profit and that if the road shows a deficit the rest of the country should bear a portion of it just the same as the maritime provinces do with regard to the operation of the government canals.

We are not prepared to say that the increase in rates between local points in the maritime provinces is not bearing heavily on certain industries, such as coal and lumber, to certain points, but unless we are very much mistaken we think the time has come when in the interests of the province of Nova Scotia an adjustment of rates that will be nearer in keeping with company-owned roads in the west is desirable. A few years ago our transportation problem in Nova Scotia was purely provincial, and good and cheap local services were all that we needed. But anyone who reads our article in last issue on the industrial expansion which has taken place in this province during the past twenty-one years must readily see that we are now almost as much interested in western markets as we used to be

pressed himself strongly on this point. But suppose that they did do it, suppose that from the time they reached a point where they met the I. C. R. competition they adopted I. C. R. rates - what would the rest of the country say that is now being served by the C. P. R.; what sort of excuse would they give to the railway commission for having lower rates per mile immediately east of St. John than they have immediately west? We think it is time we got over talking about pre-confederation promises, particularly if they conflict with practical business. In a previous article we said we did not believe that Nova Scotia could ever be very seriously affected by excessive railway charges so far as interprovincial business is concerned, for water carriage can always be depended on to set as a satisfactory corrective. There will, of course, be some exceptions, but government road or company road, whichever it may be, will have to make its rates reasonable in this province or else it will lose traffic to the steamers and the sailing vessels.

Halifax Oarsmen to Go

Halifax Record - The inter-city octopede (crews of eight scullers) race in which a team of Halifax amateur oarsmen will be pitted against crews from New York, Philadelphia, and perhaps Toronto cities, is now a fixture for the National championship regatta on the Charles River, Boston, Aug. 8 and 9. James P. Fox wires Saturday afternoon from Boston that he had secured a boat at Boston for the Halifax crew.

The eight will practice on the Arm in four in St. Mary's centipede boat, and though the team is not yet announced, Hart, Cogswell, Fitzgerald, Power and P. O'Neill, Scullion, Jas. Meagher, Hinch and Martin are among the men under consideration, as it is expected that most of these scullers will be rowing at the National any way, and will be available.

Schlitz Brown Bottle Claims Authenticated

by Dr. Robert Wahl, President of the Wahl-Henius Institute of Fermentology. We reprint from his letter.

"Our observations, extending over the last twenty-five years, have convinced us beyond a doubt that exposure of beer to light has a very detrimental influence on its quality generally, but especially upon the flavor of the beer. We have tested beers repeatedly in this direction, placing the bottles into direct sunlight, and testing the same after one, two, three and five minutes exposure, found that the beer with three and five minutes exposure became undrinkable, on account of the peculiar odor developed. The detrimental effect of light upon beer can be successfully counteracted by the employment of brown or dark colored glass bottles, and such bottles are therefore recommendable."

He quotes famous authorities to corroborate his opinion

Authorities on the subject of the detrimental influence of light on beer are: C. Lintner, Lehrbuch der Bierbrauerei 1875, S. 343. Beck, Zeitschrift für das gesamte Brauwesen, 1882, S. 370. V. Huth, Der Bierbrauer 1876, S. 127. Ney, Allg. Zeitschr. f. Bierbr. u. Malzfabr., 1878, S. 273

Light cannot harm Schlitz in Brown Bottles. It is made pure and then kept pure

**FOOLHARDY VISITOR
TRIES TO SCALE THE
MINISTER'S FACE**

Came Hurting Down Cliff And
Now is Under Doctor's Care

Mountain climbing is said to be popular in Europe, and occasionally one hears of some adventurous spirit attempting to scale the heights of some Alaskan pinnacle, but as yet the idea has not become popular in New Brunswick. The other night, however, a young gentleman from the states who, with his father and mother, is staying at a hotel above Rothesay, attempted the most audacious approach to mountain climbing possible in this country and almost with very serious consequences.

He had been out on the river in a motor boat with two young ladies all evening, and about half-past nine, as they were passing along the shore of Long Island, one of his companions dared him to climb up the lower side of Minister's Face, a rock which rises almost sheer for three hundred feet. He at once took up the challenge, and after running the boat of shore started on his perilous ascent from the sandy beach. He made good progress at first but after going up about fifty feet he either became dizzy or his foot slipped; at any rate he fell hurtling down, striking against the side of the cliff and plunged deep into the sand at the bottom.

At first it was thought that he was very seriously hurt and he was rushed to Rothesay, where his father, who is a doctor, was summoned. No bones were found broken, but scratches innumerable were inflicted all over his body. He is at present resting uncomforably swathed in bandages and feels that a guide and a rope are not such unnecessary features of mountain climbing after all.

AUTO MEN MAKE THE ROTHESAY ROAD SAFER

Bad Place at Bridge Gets Attention
—Chance For Government To
Do Something

A great improvement is being made in the Rothesay road through the efforts of the New Brunswick Automobile Association of which T. P. Regan is the energetic president. A man has been employed since the beginning of the summer to fill in the holes on the road as they appear and this has made a marked difference in the surface.

One of the most dangerous sections of the road, that between Brookville and Torryburn, has been made much safer by the removal of the trees which closely hedged the road and prevented drivers from seeing ahead of them on this winding roadway. The worst spot on this road was the approach to the western end of the bridge which crosses above the I. C. R. tracks where the road takes a sharp double turn. The trees have been removed, giving a fair view of the road and preparations are being made to have the large rock at the corner of the turn removed in order to give the drivers an opportunity to see the whole road and any approaching vehicle.

When this is done it would be possible for the government, with very little expense, to straighten the road and thus add considerably to the safety of those using it.

LURED TO BUSHES IN PARK

Young Lad Mishandled
By Strange Man
Yesterday

FINGER MARKS ON THROAT

Arthur Gibbon, in Rockwood on Picnic, Enticed By Offer of Fifty Cents—Two Women Also Annoyed, Evidently By Same Man

To be lured into the bushes in Rockwood Park and be choked and struck by a strange man was the terrifying experience of little Arthur Gibbon yesterday afternoon.

The boy, who is the son of William Gibbon, of 66 Westmorland Road, went with his mother and several other children to the park on a picnic. Arthur and the other children started first and after reaching the park were playing near the lake. Arthur determined to go back and meet his mother, who he knew would be along soon. He had gone only a few yards out of the sight of the other boys when a strange man dressed in a grey suit and wearing a cap stopped him and asked him whether he wanted to earn fifty cents. The lad was all attention in a minute; the man then told him to follow and led him behind some bushes, when he suddenly turned and seized the young boy by the throat, at the same time threatening to choke him if he attempted to cry out. He then asked him several questions, still holding him by the throat, but as there were people passing by not far away he finally let the boy go and started away from the road through the bushes.

Young Gibbon was terrified, and when he reached his mother was hardly able to make her understand what had happened; his throat and shoulders had apparently been roughly handled, for there were marks of the man's hands.

The park policeman was notified of what had happened and energetic efforts are being made today to locate the man.

Two ladies are reported to have been bothered by a man in the park yesterday, and their description of him tallies with that of young Gibbon. He was rather over a barber to his face.

**DID NOT RECOGNIZE
THEIR NAMES IN THE
SOUNDS PRODUCED**

Police Court Trio Sat Still While
Strange Things Came From Lips
of Clerk

Of the six prisoners before the magistrate this morning three were foreigners. Whether due to the clerk's pronunciation or the spelling on the police books none of them seemed willing to answer when one of the strange sounding names was called out; then when they saw that one of them was meant, all started up, causing no little confusion before they were sorted out.

Theodor Fredericks, who was charged with wandering about on Long Wharf and not being able to give a satisfactory account of himself, and also with deserting from the steamer Heckla, was remanded until the captain could appear to give evidence.

John Savaskie, who was arrested while drunk last night said that he had been robbed of \$25. As he did not know a word of English and a friend of his who appeared to pay his fine was in the same plight, there was a dialogue consisting of questions variously put and repeated on the part of the magistrate and replies in pantomime and confused gutters by the foreigners. The magistrate fined him \$8, but allowed the fine to stand.

Agustia Tefindel, another of foreign extraction, was remanded on a charge of drunkenness.

Gerald Jeffrey, who was arrested on charge of being drunk and using profane language was remanded.

Two others were remanded on drunkenness charge.

William Golding, who caused some excitement the other day by attempting to hide under a boiler in the police court cellar, was let out this morning after being fined \$8 for being drunk and \$8 for profane language. One fine was allowed to stand.
