WOODSTOCK CHURCH HONORS THE MEMORY OF ARCHDEACON NEALES

Memorial Reredos Dedicated in St. Luke's Church Yesterday by Archdeacon Newnam. Woodstock, N. B., Nov. 16.—(Special)—At the beginning of the service in St. Luke's church yesterday morning the beautiful reredos, erected by loving friends to the memory of the late Thomas Neales, B. A., Ven. Archdeacon of Fredericton and for nearly forty years rector of the parish, was dedicated by Ven. Archdeacon Newnam, rector of St. Luke's church, St. Stephen.

NEWS FROM FREDERICTON

New Low Lift Pumps at Pumping Station Accepted by City of Fredericton. Fredericton, N. B., Nov. 16.—(Special)—Engineer Bourque today completed the test of the low lift pumps installed at the pumping station by John McDougall of the Caledonian Iron Works of Montreal and found them satisfactory. The test pumps supplied by this company did not come up to requirements and Mr. Bourque refused to accept them for the city. A representative of the Allen-Chalmers-Bullock Company, of Montreal, is here to-day arranging to have the city take over the high duty pump which is a concern of that company.

C.P.R. LABOR UNIONS ARE DISSATISFIED OVER THE SETTLEMENT OF STRIKE

President Bell Hardy Leaves the Mechanics' Union. His Resignation Follows Strictures Upon Him Made by Union Committee Which Investigated the Circumstances Surrounding the Strike Settlement. Winnipeg, Man., Nov. 16 (Special).—Circumstances surrounding the settlement of the recent strike of mechanical unions on the Canadian Pacific Railway were made the subject of investigation by a committee representing the various labor organizations affected. Their report in part is as follows: "We consider the circumstances mentioned in the evidence before us did not justify Brothers Hardy, McVeety, Shore, Marshall, McFarlane and O'Dwyer in making such a tremendous sacrifice as that of notifying the Minister of Labor of the acceptance of the majority report of the award of the board of conciliation and investigation, thereby calling off the strike without having: (1) Obtained definite and satisfactory terms from company. (2) In our opinion, in such a crucial moment as that reached at the time the strike was to be called off the eastern committee should have had an opportunity of considering the terms of settlement and the step about to be taken. (3) We consider that in justice to the membership over the system a referendum vote should have been taken before any committee should take upon themselves responsibility of such magnitude. We believe that everything was done to the best of their judgment and to their fairly judgment alone can be attributed such a disastrous settlement. For this which we consider irreparable weakness, firmness and strength were most necessary, we feel it our duty in the interests of the Federation to recommend the retirement from their official capacity in this settlement of Chairman Bell Hardy and Secretary-treasurer J. H. McVeety. (4) Calgary, Alta., Nov. 16 (Special).—Bell Hardy has resigned from the Mechanics' Union, following an investigation by a committee into the terms of strike settlement, and the publication of strictures on officials who conducted the recent strike.

MAGISTRATE ADVOCATES THE STRAP FOR BAD BOYS. Parents Must Look After Their Boys or the Reformatory Will Not be Large Enough to Hold Them in His Honor's Opinion. Both the witness and Detective Killan then hurried to Mill street and intercepted Gallet who was evidently journeying to his home on that street. Another vigorous examination ensued which apparently was doomed to failure as the lad held steadfastly to his story. Finally a threat to arrest him proved effective and saying "It was no use lying any more about it, I was done," he confessed to his complicity, which the deputy chief detailed on Saturday. Mr. Ritchie objected to any statements concerning his client to be permitted in evidence. Gallet admitted that he and Gillen heard Mrs. Wile complaining of her loss while Howard and Curran proceeded then up Water street. He was given a dollar by Howard and said the purse was thrown away on Water street where it was found in a place of concealment with the aid of Curran who accused Gallet of hiding it. Mr. McKewen differed with his honor over the admission of a half belief that Gallet said he saw Howard find the purse. It was not placed in evidence. Detective Killan said Gillen was in bed when he visited his home. He gave him 50 cents which was part of a dollar he said he received from Curran. The latter's father brought the boy to the police station. The magistrate said the woman might have been stranded in the city without a dollar. Adjournment was made until 2 p. m. when Gillen's testimony will be taken. Gillen was much affected and sobbed bitterly while the remainder expressed the regret of a suitable resolution expressing the respect of the court room such as advised their relatives "Bring us something to eat will you I'm nearly starved on that grub." "Don't be a cry baby 'till what you get and be man," was the injunction from one of the lads to Gillen as the latter bade adieu to his brother.

THE WAR AGAINST COCAINE AND PATENT MEDICINES

CROKER SPEAKS HIGHLY OF TAFT. "I Think Mr. Taft Will be a Good President" Is Opinion of ex-Tammany Chief. Queenstown, Nov. 16.—Richard Croker, the former Tammany Hall leader, was among the passengers who boarded the steamship Lusitania yesterday. He will make a six months visit to the United States. When seen prior to the departure of the steamer, he reiterated that he was out of politics, that his visit to America was of a purely private nature, and that he would not discuss in any way the recent election, or future possibilities. He did say, however, "I think Mr. Taft will be a good President, he has had experience."

New Patent Medicines Act Will Force Druggists to Comply With Regulations. Ottawa, Ont., Nov. 16 (Special).—Recent prosecutions in Montreal of druggists and others who had been convicted of selling cocaine to victims of that habit complied with the agitation in Toronto and Hamilton for legislation which will put a stop to the rapidly growing use of this insidious narcotic have brought reminders that the last session of parliament passed a bill respecting proprietary or patent medicines a feature of which was a clause absolutely prohibiting the sale of cocaine in any form. It has been generally supposed that this bill became law upon receiving royal assent but enquiry at the Inland Revenue department elicited the statement that this was a misconception of the act provides that it shall only come into force upon proclamation directed. The reason is that this bill became operative every one of the 2900 druggists in Canada must not only register his business but must also submit to the department the formulae for each preparation which he puts up. This latter feature involves far more work than was imagined at the time of the passing of the act for investigation has shown that practically every druggist in Canada no matter how small his business puts up some medicine of his own perhaps only a rough mixture or a spring tonic yet in every case he has to decide whether he will print upon the label a statement of the ingredients of which the medicine is composed or whether he will prefer to submit the formulae to the department and receive a certificate that it has been approved by the department. This provision of the bill has created such an enormous amount of correspondence and other matters that the department has found it absolutely necessary to defer the coming into force of the act until April 1, 1909. The registration of the names of druggists and of the formulae has now been in progress since October, but up to date only 110 druggists have complied with the provisions of the act, but applications for registration are now coming in at the rate of a score a day. Each druggist will be assigned a number which number will as far as possible be continued in future years. It is also contemplated that each druggist manufacturing a patent medicine must supply himself with a special stamp to be issued in connection with the act. These stamps will be of uniform design, not materially larger than postage stamps, will be issued by department at a cost of about 1 cent per stamp, 1 cent per hundred and can be obtained from any collector of inland revenue. These stamps may be applied for at any time between March and April 1st next, after which date none will be issued. They must be attached to packages immediately prior to April 1st, 1909, after that date all persons having in their possession any proprietary or patent medicine which is not stamped will be subject to a fine of fifty dollars and costs for the first offence, or of \$100 and cancellation of his certificate for the second offence.

FAMILY LIVED IN AN OLD BARN

Moncton, N. B., Nov. 16 (Special).—Christopher Horseman Steves Mountain has again been brought before the notice of the people. Nearly a year ago he was arrested by the Moncton police chief and was held in the local court but the case was thrown out by the grand jury at a meeting of the Supreme Court at Dorchester last January. Now he has been reported to the S. P. C. A. for not taking proper care of his children. Since the burning of his house a few months ago, Horseman and his six children have been sleeping in the barn and using the well-worn sofa in the living room. Complaint was made by a resident of Steves Mountain and it is likely the overseers of the poor will look into the matter.

PROGRESS IN WORK OF TEMPERANCE REFORM

Rev. Neil McLaughlin Dealt With This Subject Before the Every Day Club Last Evening. Rev. Neil McLaughlin, pastor of Portland street Methodist church, delivered a very interesting address at the Every Day Club last evening. He said that about two and a half years ago the temperance work was seen to be at a standstill in St. John. It was referred to in the preacher's meetings, but did not seem particularly outspoken on the subject. Now the sentiment had entirely changed, there was a new animating and the pulpits were taking up the subject more frequently, it was talked of at the preacher's meetings and the Evangelical Alliance, etc., and then the Every Day Club came into existence and it was keeping the topic before the people every week and in various ways keeping the matter prominent before the people and proving effectual as perhaps nothing else was doing. And now the press was certainly speaking out in more decided tones and it will certainly prove one of the strongest factors in securing temperance reform. As an evidence of the awakening the Temperance Federation is working with a new zest and as through the federation the provincial government had been twice waited upon by its representatives and asked for a prohibitory law. The Every Day Club has also circulated a petition asking to have the screens removed from the saloons and now a petition was being circulated through New Brunswick which did not seem particularly outspoken on the subject. All this was evidence that the public was awakening to the evils of the liquor traffic. The speaker referred also to the prohibitory law in Prince Edward Island and statements from the premier and prominent men there to the effect that the law was regarded as effectual in curtailing the drink evil.

COUNCIL MEETS THIS AFTERNOON

Repairs to Marsh Bridge and Matters Affecting West Side Wharves are Being Considered. The common council is meeting this afternoon to deal with the recommendations from the board of works regarding several matters affecting the west side wharves. It is possible that the plans for the Marsh Bridge Abolition may be opened, if the approval of the Great Marsh Commissioners can be secured for the plan. The mayor today received notification of the personnel of the commission, and this plans will be submitted to them for their sanction.

LEVIED ON DREDGE

Reported That Customs Authorities Have Taken Action Against Owner of Dredge Beaver. It is understood that the customs authorities have levied on G. S. Mayes for the amount of duty on his dredge, the Beaver, which was brought here in bond. The collector of customs who takes about a month there she had an audience with Archbishop Farley, and has since been much occupied with her social engagements. At the St. Regis she said to a reporter: "Frederick is a second son, and it will be necessary for him to earn a living. I am convinced that over here he would get the best possible education here for that end. "That doesn't mean by any means that I admire everything American. I like your women—they are delicately charming—that is, those one meets in society. But I must say I do not like your shop assistants, the haughty young women who condescend to preside at the counters in the millinery shops, for instance. They are not polite, and I do not see how they retain their places."

WILL BE TRIED IN WESTMORLAND CO.

Robert D. Harney Charged With Robbing the Mails was in Police Court This Morning. Robert D. Harney, the twenty-year-old young man who was arrested at Robbsey on the C. P. R. train on Saturday for alleged mail robbing, was before Magistrate Ritchie this morning. The charge of robbing the mails at Montserrat was read over to him and he chose to waive the right to plead. Later he was escorted to Rowe's photograph gallery by Deputy Chief Jenkins and Detective Killan, where his pictures were taken. Unlike other suspected criminals, who when photographed for the rogues' gallery distort their features in an effort to prevent recognition, Harney was exceptionally fastidious. A petition from Hon. H. A. McKeown to hold the accused in jail pending the arrival of a warrant from Westmorland county was granted.

A CROSS COUNTRY RACE

New York, N. Y., Nov. 14.—James J. Lee, of the Boston A. A., who ran so cleverly just a week ago in the ten-mile championship, won the honors today in the junior national cross-country championship over and around the Celtic Park course at Laurel Hill, L. L. Lee had the foot of a big field of 67 competitors all won and handily, romping away easily from his nearest contestant, W. Kramer, of the Acorn A. C., New York. The senior championship was won by Fred. Bellars, of the New York A. C., who duplicated his victory of a year ago in this event. The team championships in both events were won by the Irish-American A. C.

FRUIT STEAMER TAKES A CHURCH TO TROPICS

Boston, Nov. 14.—When the United Fruit steamer Brewster sailed for Jamaica yesterday she was literally a floating church. Packed away in her were everything that goes to fit up a church. There was a handsome pulpit, pews and all sorts of church furniture that is intended to go to a church now building at Port Antonio. The Brewster also had a large amount of general freight, consisting of shoes, groceries, clocks, preserves, books, apples, flour, dry goods and miscellaneous merchandise. Capt. Hinz and the members of the crew of the Brewster, who rescued the crew of the Boston schooner Frank Harriet from their burning vessel, will probably receive recognition for the heroic act from the United States government.

KILLED WHILE DRIVING ACROSS RAILWAY TRACK

London, Ont. Man, His Wife and Little Daughter, Returning From Church Killed by Grand Trunk Engine. London, Ont., Nov. 16.—(Special).—David Loughheed, his wife and little daughter, were instantly killed near Kingscourt Junction yesterday afternoon by Grand Trunk passenger train No. 3, in charge of Conductor Neil. They were driving home from church and were crossing the track when the engine struck them.

THREE HUNDRED PRIESTS ARE NEEDED IN CANADA

Toronto, Nov. 15.—Archbishop McEvoy, addressing the clergy of the Diocese of Ottawa, stated that there is a great shortage of priests in Canada at the present time. At least three hundred more priests are needed. The call to the priesthood should first be direct from God, and it was the highest honor a man could receive. Many are prevented accepting it. Some personally reject the call, while the stinginess of parents was not infrequently the cause of the call being ignored.

What an Englishwoman Thinks of the United States

New York, Nov. 6.—Lady Auckland, wife of the fifth Baron Auckland, of England, has decided to educate her son, Frederick Morton Eden, in this country. The youth, who is now at school in England, will enter the Massachusetts Institute of Technology two years hence. Lady Auckland, whose physicians ordered her to travel, was in retreat until a few days ago in the Convent of the Sacred Heart in Manhattanville. After passing a month there she had an audience with Archbishop Farley, and has since been much occupied with her social engagements. At the St. Regis she said to a reporter: "Frederick is a second son, and it will be necessary for him to earn a living. I am convinced that over here he would get the best possible education here for that end. "That doesn't mean by any means that I admire everything American. I like your women—they are delicately charming—that is, those one meets in society. But I must say I do not like your shop assistants, the haughty young women who condescend to preside at the counters in the millinery shops, for instance. They are not polite, and I do not see how they retain their places."

IS ARCHBISHOP OF YORK

Rev. Dr. Lang who Would not Come to Montreal Receives an Appointment. London, Nov. 16.—The Right Rev. Canon Gordon Lang, Bishop of Stepney, who a few days ago declined to accept the Bishopric of Montreal, has been appointed Archbishop of York. The new Archbishop was born in 1864. He was honorary Chaplain to Queen Victoria and has been Bishop of Stepney since 1901. He is closely identified with Oxford University.

MURDERER GOES TO CHAIR

Man who Stabbed Another in an Italian Row Paid the Penalty of His Crime This Morning. Auburn, N. Y., Nov. 16.—Andrew Del Vermo, convicted on January 28, 1907, of the murder of Antonio Page, on Nov. 30, 1906, was successfully electrocuted in Auburn prison this morning at 6.11. Two shocks were necessary to kill. The first one administered at 6.08 was of 1,840 volts, ground.

MONTREAL STOCKS

Montreal, Nov. 16 (Special).—The stock market reopened after the Sunday rest with a bullish tone still predominant. The prominent issues were Detroit, which rose two points to 84, Dom. Coal to 10, Ogilvie 114 and Dom. Steel at 20. Other active features were Power, 198 1/2, Textile, 90 1/2, St. Lawrence, 79 1/2, Traction, 26 1/2, Soc. 124, Pac. 198 1/2, Twin City, 91, Mexican, 74 1/2.

MUCH MYSTERY OVER DEATH OF "CHICK" STAHL'S WIDOW

She was Found Dead in a Doorway in Boston Last Night—Husband was Well Known Ball Player. Boston, Nov. 16.—While the Boston police are not inclined today to hold any person responsible for the death last night in a south Boston doorway of Mrs. Julia Harmon Stahl, widow of "Chick" Stahl the baseball player, there were still several mysterious circumstances to be cleared up. The most important of these was the absence of a considerable amount of jewelry. In seeking to account for this fact and for the reason of Mrs. Stahl's presence in the rather poor neighborhood in which her body was found, the police sought a man who was seen to cross Andrew's Alley, South Boston with Mrs. Stahl just before she entered the hall in which she died. This man is believed to have helped Mrs. Stahl into the doorway but was not seen to leave the house. The police waited for the result of the medical examination which was set for this forenoon before attempting to make any arrest. In the case up to the time that relatives of Mrs. Stahl noticed the absence of jewelry only today, the police had believed the case to be one of heart failure. But with the advent of robbery as a possible motive, the case appeared to be one of murder. According to Mrs. Stahl's father, John Harmon, the jewelry worn by her when she left home was valued at more than \$2,000.

Marr Millinery Co. MONCTON AND ST. JOHN

THE WHEEL O' FORTUNE

By LOUIS TRACY. Author of "The Wings of the Morning," "The Pillar of Light," "The Captain of the Kansas," etc.

(Continued.) Mr. Fenshawe was skeptical. Mirage-phenomena were familiar to him, but never had they dealt with natural objects beyond a range of a few miles.

There are certain matters which must be cleared up, said that nature has assumed the role of guide, he said dryly. "I have been well aware during the past few days that you were not able to fix the exact place described in the papyrus."

Mr. Fenshawe's pride was wounded. All the wrath of the disappointed connoisseur welled forth in his contemptuous words. Their very calmness and precision showed the depth of his anger, and von Kerber like Abdur Kad's felt that the time for specious pretence had gone.

"Yes, I was waylaid and robbed while driving from the station to the harbor," "Purposely, do you mean? Was the papyrus the object of the attack?"

"Then this man, Alfieri, knew of it?" "I have never concealed that from you." "It is hard to say whether you have not concealed, Baron von Kerber. My confidence in you is shaken. How can I know that this latest version of Alfieri's amazing interference in your affairs is the true one?"

"No man is so sensitive of his honor as he who is conscious of his own lapses. Von Kerber started as though the other had stabbed him. He resumed me from my assault, yes? Mr. Haxton is aware of it, and unless I am mistaken Miss Fenshawe also is no stranger to the news, seeing that our second mate is so greatly in her confidence."

"The older man, still watching the last wreaths of the mirage, seemed to be dead to the Austrian's biting allusion to Irene. I did not look for such a wag of deceit," he murmured. "The papyrus was genuine, and I sought no other proof of honesty. You say Mrs. Haxton and my granddaughter are in this part of silence. Let us have their testimony."

"Irene, as might be expected indignantly disclaimed any sympathy with von Kerber's methods. By chance, of the part Mr. Royson took in the affair at Marselles."

"I regret to say that I cannot answer you, Mr. Fenshawe," said the older man's searching glance unflinching. "Why not?" "Because I gave an undertaking to that effect to Baron von Kerber."

"But I am your employer, no he?" "No, sir. That is not my view of the contract I signed."

"Have you a copy of that contract?" "Yes."

"Will you show it to me?" "That is unnecessary," broke in von Kerber, with a savage impetuosity of the quasi-judicial inquiry which Mr. Fenshawe was evidently bent on conducting. "I give Mr. Royson full permission to answer any question you may put to him."

PLAYS AND PLAYERS

"PAID IN FULL" BY HARKINS TONIGHT

Tonight, at the Opera House, the W. S. Harkins Company will present "Paid in Full," one of the greatest plays given in America in years and now one of the big successes in New York, being played in many theatres.

The Recorder of Halifax says:—"Paid in Full" was promised by Manager Harkins to be one of the best plays he has ever presented and it is. Last night the academy was crowded, and at the conclusion of each act, curtain calls were demanded, and at the conclusion of the great scene in the third act, there were several curtain calls.

As seats are selling fast, an early call is full of great opportunities for good seating. Tonight after the performance it will be interesting to listen to the comments as to the ending of the play. No two opinions will be alike.

DEMAND FOR GOOD SEATS FOR THE COMING CONCERT

The attendants at the Opera House box office were kept exceptionally busy today, on account of the big demand for choice seats for the concert to be given by Mrs. Lizzie Blair Miller and Mr. Harry McCloskey, assisted by Mrs. S. Kent Seville, Miss Murray and Mr. D. Arnold.

On account of the date for this concert being so near to St. Andrews Day, it has been arranged that both Mrs. Miller and Mr. McCloskey will sing several songs so dear to the sons of Scotland.

SNOW AT CAMPBELLTON

Campbellton, N. B., Nov. 15.—The North Shore is in the grip of a heavy snow storm. Early this morning snow began falling and continued to pelt all day. About 8 o'clock tonight it began to cease and about ten inches of snow has fallen. The storm was accompanied by a strong northeast wind. Above here in Quebec the storm is reported even more severe. Trains are slightly impeded by the heavy fall of snow and are running a little behind time.

"Don't Neglect a Cough or Cold."

It can have but one result. It leaves the throat or lungs, or both, affected. Dr. Wood's Norway Pine Syrup is the medicine you need. It is without an equal as a remedy for Coughs, Colds, Bronchitis, Sore Throat, Pain in the Chest, Asthma, Whooping Cough, Quinsy and all affections of the Throat and Lungs.

A single dose of Dr. Wood's Norway Pine Syrup will stop a cough, soothe the throat, and if the cough or cold has become settled on the lungs, the healing properties of the Norway Pine Tree will proclaim its great virtue by promptly eradicating the bad effects, and a persistent use of the remedy cannot fail to bring about a complete cure.

Do not be humbugged into buying so-called Norway Pine Syrup, but be sure and insist on having Dr. Wood's. It is put up in a yellow wrapper, three pine trees the trade mark, and price 25 cents. Mrs. A. Elles, Inisfail, Alta., writes: "Last spring I had Typhoid fever and Bronchitis, which left me with a terrible cough. I tried doctor's medicines, but got no relief until my husband got me a bottle of Dr. Wood's Norway Pine Syrup, and before I had finished it my cough was cured. My husband also uses it whenever he has a cough. I would not be without it."

A QUEBEC PAPER HEADS A REVOLT AGAINST BORDEN

Significant Article in a Paper Controlled by Rodolphe Forget Says Conservative Leader Should Resign—F. D. Monk Suggested As His Successor.

Ottawa, Nov. 15.—That there is an anti-Borden movement down in Montreal no one can deny. It transpires that only a few days ago a delegation composed of Sir Alex. LaCrosse, F. D. Monk, M.P.; C. A. Doherty, M.P., and Rodolphe Forget, M.P., came up here to have a heart to heart talk with the Conservative leader and although the result of the interview cannot be ascertained, a little paper published in Montreal and supported by the member for Charlevoix (Rodolphe Forget) lets the cat out of the sack.

PROVINCIAL LIBERALS HOLD ENTHUSIASTIC CONFERENCE

The Party is in Fine Fighting Trim—They Express Confidence in Hon. C. W. Robinson—The Bye Elections.

A representative and enthusiastic meeting of the provincial opposition was held in St. John on Saturday in response to a call issued by Hon. C. W. Robinson, ex-premier of the province. Matters of interest to the party were fully discussed, and provision made for effective activity in the future.

The meeting was held in the office of Hon. H. A. McKeown, and among those from the different counties were: Westmorland—Hon. C. W. Robinson, vigorous and confident, and determined to maintain an effective organization for the future. From every quarter came reports of dissatisfaction with the Hazen government in respect to its partisan dismissal of Liberal office holders, its broken promises, and its obnoxious action in regard to the roads, which carries a great increase of direct taxation and without control from the municipal councils. Many of the speakers asserted that in the constituencies for which they spoke, a majority against the provincial administration would be recorded if elections were to be held at the present time.

CIVIL SERVICE REFORM PLANS

Uniform Examinations Throughout Canada is the Desire of Dr. Short, Chairman of the Commission.

Ottawa, Nov. 15.—The Civil Service Commission is busily engaged upon the preliminary stages of its work, and it is probably the new year before its plans are complete. Professor Short, the chairman, being anxious to secure uniformity of examination papers throughout the country, under the act of last session, in correspondence with the various educational authorities in order to secure a general system upon which the examination for entrance into the government service may be based.

BEWARE OF MERCURY

You May be Using This Harmful Drug, and Not Know It. A favorite method of administering this deleterious drug is in the form of pills. Beware of "quick-cure" articles, they may do more harm than good. Dr. Hamilton's Pills are the strongest and most reliable pills they are a positive menace to life. Merely to restore normal bowel action and gently stimulate the liver is all that the wise physician recommends. To keep the system pure and clean, nothing is so efficacious as the vegetable pills of Dr. Hamilton, which are composed of such herbs as mandarin, butternut and dandelion; they contain not an atom of any substance that could injure even an infant.

CHINESE EMPEROR AND THE DANGER EMPRESS ARE DEAD

EMPIRE MARKS TURN FOR 100 DAYS Both Died Alone and Death Bed Observances of 3000 Years Ago Marked Their Passing—Prince Pu Yi Is Now on the Throne With Prince Chun as Regent.

Peking, Nov. 15.—Tze Hsi An, dowager empress of China, the autocratic head of the government, which she directed with so successful interference since 1861 and without protest since 1881, died at 2 o'clock this afternoon. The announcement of the dowager empress' death was official and followed closely upon the announcement that Kuang-Hsi, the emperor had died yesterday at 5 o'clock in the afternoon, and it is believed that the death of the emperor and dowager empress occurred a considerable time before that set down in the official statements.

THE QUESTION OF PUSHER GRADES ON G.T.P. RAILWAY

There is Only One Such Grade in New Brunswick and One Other Before Winnipeg is Reached—An Engineer Shows Their Cost and the Alternative.

The Daily Telegraph has secured from a competent engineer who has been over the right of way of the G. T. P. in this province, the following information relative to the much talked-of pusher grades: In the 1,800 miles from Moncton to Winnipeg there are two short pieces of pusher grade, one a little more than twelve miles in N. B. and another of ten miles in the eastern part of Quebec. The rate of grade on these is less than the maximum on the I. C. R. or C. P. R. in this eastern section, and over these grades all passenger and local freight trains can be hauled by single locomotives, making it necessary to double the power only on the heavy through freight trains.

BACKACHE MEANS WEAK KIDNEYS

Backache is Warning Not to Neglect Nature's Danger Signals—Also Gives a Recipe Many Times.

Take care of backache. A great many cases of kidney complaint are reported about here; also bladder trouble and rheumatism. An authority once stated that pain in the back, loins or region of the kidneys is the danger signal nature hangs out to notify the sufferer that there is something wrong with the kidneys, which should receive immediate attention. Only vegetable treatment should be administered and absolutely no strongly alcoholic medicines, which are harmful to the kidneys and bladder.

LIBERALS WIN IN ELECTIONS IN CUBA

General Gomez is Chosen President and the Liberals Sweep the Country.

Havana, Nov. 16.—Practically complete returns of the elections show that the Liberal victory was even more decisive than supposed last night. Official returns from 1,380 of a total of 1,468 polling places show that General Jose Miguel Gomez received 180,923 votes, against 118,209 for General Mario Menocal, the Conservative candidate. The Liberals carried every province in the island. Havana province went Liberal by 25,000 and the city by 12,000.

NOVA SCOTIA

Capt. J. A. Watt, of Halifax, has been arrested on Sheet Harbor, where he has been locating rights for a large and prosperous industry. The industry will be known as the Brookside Wood Ware and Canning Company. The object of this company is to turn and manufacture many kinds of small wood ware with the sawing business.

TWO GOOD IDEAS

The management of the Nickel Theatre, in pursuance of a policy of pure and unadorned amusement for the children of St. John, whose liberal patronage it enjoys, has decided to eliminate today and afterwards at matinees all portions of pictures which depict highly dramatic action, violence, etc. Furthermore, it has been decided to withhold the privilege of admission during evening shows to children under fourteen years of age, who are unaccompanied by adults. The Nickel has for some time been co-operating with truancy officials.

SATURDAY'S CONFERENCE

The leader of the provincial opposition is to be congratulated on the representative character, the enthusiasm and the aggressive spirit of the conference held in this city on Saturday afternoon and evening. The Liberal leaders see in the broken pledges and the general incompetence of the Hazen government sound reasons in the public interest why they should enter upon a vigorous campaign for its overthrow at the earliest possible moment.

But the chief reason for vigorous opposition to the Hazen government is found in its own record. Take, for example, the highway act. This was to be the first and greatest piece of legislation introduced by the government. The new act as adopted was a complete disappointment to the people, and even the government is now ashamed of it and will try to patch it up.

Then there was to be a great decrease in the price of school books. How this works out may be illustrated by the new blotter, which sells at three cents. It is so much smaller and poorer in quality, and contains so few pages in comparison, that parents find it profitable to go on buying the old large blotter at five cents. It is also a fact that in regard to other books the sale of them is so regulated that in many cases the old prices have to be paid.

One of the worst features of the government policy is that which relates to dismissals and appointments. If a list of the relatives of members of the ruling party who have been appointed to office were made up it would astonish the public, and these appointments were made without reference to fitness or the ability of the appointees. In addition, there has been a general slaughter of Liberal office holders, and appointments made with equal disregard of qualifications.

What the Kaiser says tomorrow when he meets Chancellor Von Buelow will have a marked effect upon the future of Germany. Public feeling has been aroused to that pitch where much depends upon a word.

The people have not failed to note that the first year of the Hazen administration has been marked by greater destruction through forest fires, and more reckless and general slaughter of big game than any year for a generation. The fact is largely due to partisanship and incompetence. Pledged to have all public work done by public tender and contract, Mr. Hazen violated this pledge at the very outset of his career as premier. The government's lumber policy is marked by vacillation, and tends to create uneasiness rather than to make for stable conditions such as would keep the industry on a solid and satisfactory basis.

Under such circumstances, and encouraged by the recent great federal victory, the Liberals of New Brunswick are justified in their belief that the Hazen government will not long hold the confidence of the people, and that it is already on the down grade. The opposition should have new support in the house as a result of the by-elections, and march steadily on to a complete victory, perhaps before the end of the present legislative term.

ELECTRIC POWER

The substitution of electricity for steam as a motive power is one of the notable facts of the period, and nowhere is it more in evidence than in New York city and state. The following interesting statement is from the Brooklyn Eagle: "To a degree little appreciated by those whose attention is not especially directed to the change, has the mode of substituting electricity for steam, as a motive power, progressed. Already the cars going in and out of New York City are moved by electrical power. In less than a year's time the passengers to New York City who now pour in of a morning by ferryboats from the railroads whose terminals are in New Jersey, will all be brought to the greater city by electricity. In a year's time four, if not six, terminal tubes will be in operation and the cars running through will be moved as are those in the Brooklyn tubes, by electrical power. As a part of this revolution, the various lines of railroads running out into New Jersey will be electrified. Work of this kind is now being done on the Erie. The Pennsylvania is given less to announcing what it proposes to do than what it has done. Nevertheless, there are indications that it has already engaged on the work of electrifying its system from New York to Pittsburg. The Central Railroad has been making plans for a long time which involve the possibility of the movement of all its cars, passenger and freight traffic, between New York and Buffalo. One day, in the not far future, we shall all of us wake up to the appreciation that we are looking upon a locomotive as a relic of an archaic period, when soot and dirt was the inevitable consequence of railroad travel. When consumption of coal by the motor engine is no longer a part of railroad operation, more comfort and satisfaction in travel and more of the travel will be the satisfactory result. The substitution of electricity for steam is a consummation devoutly to be wished."

The election of General Gomez as president of Cuba doubtless means the early withdrawal of the American governor and another attempt on the part of the Cubans to carry on their own affairs without American intervention. The elections were held without disorder, and the majority for Gomez was decisive. The sharp lesson of three years ago has apparently not been lost upon the Cuban people, who now realize that if they are to remain even nominally independent they must refrain from revolutionary outbreaks.

Northumberland county Liberals should be careful not to pledge themselves in the by-election until the party in that county has carefully considered the situation and decided as a party what course it should pursue. Liberals in other parts of the province would be glad to see their friends in Northumberland elect a straight Liberal opponent to the Hazen government.

There should be a vacancy in the representation of Albert county in the legislature. The attorney general might give it his attention.

THE FALL WIND.

With quivering sighs it dies away, the leaves hang limp and still. The tall trees bend with graceful curves as it marches o'er the hill. Like the ocean waves that rush on shore, the wind moans through the trees, and the velvet carpet beneath is strewn with dead and fallen leaves.

They stand in wait for their coming fate, the cool and frosty night. That will change their robes from dainty greens to clove and holly hued. They stand arrayed on dress parade, in every shade and hue. But at autumn's call they drop and fall and await the coming new.

The leaves take on a somber hue, the brilliant green has passed. Although the sun shines bright and clear, Time does not change the plan. Age leaves its mark on everything. And the rulling of the universe will ne'er be done by Elizabeth Blodgett.

LEGITIMACY OF LIQUOR TRADE

Rev. J. W. Kierstead Addressed Sunday Afternoon Temperance Meeting of Thorne Lodge.

A large audience gathered for the opening of the gospel temperance service held by Thorne Lodge in Tabernacle Hall yesterday. E. N. Stockford presided and James Keyes conducted devotional exercises.

St. Mary's orchestra assisted with the music.

Rev. J. W. Kierstead delivered a strong address on the question whether or not the liquor business was a legitimate one. He said, according to John Stuart Mill, a legitimate business was one which was of mutual advantage to all parties in its transactions.

Illustrating this he went over the story of Jacob's entering Bees to sell his birthright for a paltry morsel of food.

This transaction was agreed to by both Jacob and Esau but still could not be said to be of mutual advantage. Hence, according to the definition, he could not call it a legitimate business transaction.

If a man gave his hard earned money to a dealer for groceries, clothes, etc., or to his landlord for rent he was receiving value for the trade. In these cases every party to the transaction had received advantage.

With the groceries and meals a man's physical being was renewed, his blood, brain and brawn nourished and strengthened. With the clothes he bought he was preserved from inclemency of the weather and retained his social status.

When a laborer bought liquor from a dealer the speaker said he paid his money and received in return something which did not increase his physical strength or skill as a workman. All laborers employed united in saying that a man's usefulness as a laborer of any kind depreciated just in proportion to the amount of liquor consumed. That he was buying something that was not to his advantage and, by applying the definition of Mill, the liquor business was not a legitimate business.

The speaker closed his remarks by an earnest appeal to all Christian men and women to realize and perform their duty in regard to the liquor traffic. If it was not a legitimate business it should not be tolerated and he hoped that the people were allowed to express themselves the liquor traffic would not exist very much longer.

Rev. W. Camp will address the meeting next Sunday afternoon.

NELSON SHIELDS FOR CANADIAN SCHOOLS

Rev. Edward W. Matthews, secretary of the British and Foreign Sailors' Society, who is now visiting Canada will arrive in Saint John this week and will address a public meeting next Monday.

Through the assistance of Lord Strathcona the society has placed a "Victory" shield in every school in Canada. The shields are the gift of Lord Strathcona and the mounting and distribution is being undertaken by the society. The shields are made from copper taken from Nelson's flag.

The directors of the society have put aside 100,000 Victory charms made from the same copper for the boys and girls of Canada and each child presenting the shield will receive one of the charms.

The directors ask Canada to fund at least 100,000 shields towards the fund.

ST. PETER'S Y.M.A.

St. Peter's Y. M. A. opened their winter series of debates yesterday afternoon with a discussion on the question, "Resolved that liquor causes more crime than all other agencies."

The affirmative was led by E. Black, supported by J. Donnelly, T. Pope and C. Murphy. The negative was led by F. De Grasse, supported by F. Burke, T. Harry and S. Downing.

M. Coll, principal of St. Peter's school, acted as judge and awarded the decision to the negative.

FOUND DEAD IN WOODS

Lincoln, N. Nov. 15 - It was learned here today that the body of Fred MacDougal, a prominent resident of South Lincoln, had been found in the woods about three miles from his home late yesterday. Death was due to apoplexy. Mr. MacDougal disappeared from his lumber camp on the east side of the Penobscot River Thursday and upon his failure to return a searching party was organized to look for him. He was 35 years old, a Mason and Oddfellow and leaves a widow and family.

A SEASONABLE SERMON

Rev. C. W. Townsend Preaches on "What Are The Wild Waves Saying?"

The Rev. C. W. Townsend preached last evening to a large congregation on "What Are The Wild Waves Saying?" In view of the opening of the winter port this week, his discourse was deemed especially appropriate. In introducing it, he said the wild waves said different things to different persons. Nature responded to the moods of man, and like a phonograph, spoke out what man had spoken in. To the lover the waves said some sweet, soft, sentimental things. To the poet they had wonders to tell. They had uttered strange things to the seaman, and he had sought to interpret these things on the canvas, as Turner in his marvellous painting of "The Slave Ship." To the sailor the waves brought back, to memory the thought of places he had visited, and stirred him with an ambition to set out on new jaourneys. To the merchant the waves told of ventures afloat; sometimes they brought welcome tidings of gain, and at other times sadly tragic tales of loss. To the advertising quack they even spoke in his own vulgarizing speech. Once on all the bathing-houses round the coast of England this question was painted, and the answer given in bold, arresting letters: "Take Beecham's Pill." No wonder the waves get wild; and were angry at such desecration. To the widow and orphan of the drowned sailor the waves spoke in pathetic and breaking hearts. Here the preacher recited Tennyson's poem to the sea, "Break, break, break on the cold grey stones, O sea!" To the tired worker and contrivance invalid the wave spoke of rest and recuperation. They spoke to the men of God, Isaac Watts, standing at Southampton, looked across the silver waters of the Solent to the flowery meads of the Isle of Wight and wrote his famous hymn. "There is a land of pure delight," etc.

THE WAVES SPEAK OF GOD.

"The voice of the great Creator dwells in that mighty tone." They tell of His power, His glory, His skill and His goodness. They proclaim His providential government of the world. We sing, "Blessed are they that have heard the voice of the sea." The man said he wished she would rule them straight. It is not Britanna, but Jehovah that rules the waves. His way is in the sea and His footsteps in the great waters. The waves remind us of those that go down to the sea in ships. What thousands there are afloat. What a debt we owe them for bringing conveniences and comforts to us and for protecting our country. Let us remember the dangers to which they are exposed, and pray for those in peril on the sea. Let us give thought to the fact that they are debarr'd from many privileges we enjoy; and to have more consideration for them. Here the preacher put in a strong plea for the sailor.

The waves spoke of the spread of the Gospel. Jesus loved the sea. His first followers were fishermen. Let us remember the dangers to which they are exposed, and pray for those in peril on the sea. Let us give thought to the fact that they are debarr'd from many privileges we enjoy; and to have more consideration for them. Here the preacher put in a strong plea for the sailor.

The waves said to us, "This is not your rest." They told of storm, agitation, separation and sorrow. The waves are telling of the time when the sea shall give up the dead that are in it, and there shall be no more sea.

PROBATE COURT

Estate of George P. Simonsen, late of the city of St. John, trader. Petition of administratrix Mrs. Frances A. Williams, of the parish of Wilmot, Carleton county, widow, sister of deceased. Other next of kin have renounced in her favor. Administration granted. No real estate. Personal \$250. E. T. C. Knowles, proctor.

Estate of James M. Johnson, hatter. The deceased died in 1891, appointing two executors, one of whom was his wife. The widow died. No inventory was filed and no account. Some of the legacies were not paid. One of the unpaid specific legacies twice applied in writing to the surviving executor for information, to which no reply was made, and no information given or inventory filed. Citation therefor an inventory was this day filed, but there being no satisfactory explanation of the failure on the part of the executor to previously file the inventory and to give information to the person entitled thereto, the costs of the application are ordered to be paid by the executor personally and not out of the estate. Bowser S. Smith, proctor for petitioner; C. N. Skinner, proctor for executor.

Before the court adjourned Judge Armstrong stated that there are nearly 250 estates in which probate or administration has been granted within the past three years in which no inventories have been filed. As the act throws the duty upon the judge of the probate court to see that these inventories are filed, notices are now being issued to the representatives of such estates calling for the required inventories to be filed. Wherever persons so notified neglect to so file their inventories unless for some very good cause is shown the costs will be made payable by the defaulting individual and not out of the estate.

Blair Neal the new organist of the Mission Church of St. John Baptist, Paradise Row, presided at the organ Sunday and made a very favorable impression. He comes from Chatham well recommended and takes the place of Mr. Parks who recently went to New York.

"SATIN MIGNON" ---Very Popular UNCOMMONLY SOFT AND LUXURIOUS The Ruling Fabric For Evening Gowns "SATIN MIGNON" is a material that Paris and London, as well as the large American and German style centres have welcomed with enthusiasm. The particularly soft, pliant and brilliantly lustrous characteristic of the new satin commend it highly for the new voguish Directoire gown, or for other apparel worn at evening functions. Its exceptional sheen and shimmer, which so beautifully display soft evening tints, place it in an entirely new class—something unquestionably unique.
