## FACULTY OF MEDICINE.

---

THE PRINCIPAL, (ex officio.)

Lecturers,—DR. LAWSON,  
DR. W. J. ALMON,  
DR. HATTIE,  
DR. REID,  
DR. FARRELL,  
DR. WOODILL.

Demonstrator,—DR. ROSS.

Prosector,—DR. T. R. ALMON.

President,—DR. W. J. ALMON.

Dean of the Faculty,—DR. REID.

The First Session of the Medical Faculty of Dalhousie College, will be opened on Monday, 4th May, 1868, when an Inaugural Address will be delivered in the University Hall, by DR. A. P. REID, Dean of the Faculty, at 7.30 o'clock, p.m. The regular courses of lectures and demonstrations will be commenced on the following day, (5th May,) and continued daily throughout the session, which extends to the end of July.

This Faculty has been organized and affiliated to the University for the special purpose of affording Instruction in the *Primary* Branches of Medical Science, so as to enable students to become thoroughly prepared to carry out their studies and complete the medical curriculum elsewhere. A flourishing commercial city like Halifax, offers great facilities for the organization of a complete Medical School; but the promoters of the scheme feel that, at the present juncture, when the laws regulating the Practice of Medicine throughout the Dominion are in

a transition state, they will best subserve the interests of the profession—and the public, by simply affording a thorough course of theoretical and practical instruction, without adding one more to the number of licensing bodies. It is not intended, therefore, that the University shall exercise its power to grant Medical Degrees. Students, after completing their studies here, may proceed to one or other of the existing Medical Schools of Canada, England, or the United States, where instruction in the final branches can be obtained, the necessary examinations passed, and a license or degree procured in the customary manner. The Faculty have entered into correspondence with the various Medical Schools and Examining Boards, with the view of making an equitable arrangement so as to secure to students full recognition of their time and attendance. Thus far the Faculty have met with the hearty cooperation of the authorities of Medical Schools, both in Canada and the United States. Our Courses will be recognized by McGill University, Montreal, and count for their equivalents there in time and attendance, so that a student will be enabled to acquire a large portion of his education here and graduate at Montreal by attending one or two sessions at that University. The Medical Schools of the United States, so far as heard from, will recognize attendance during one course as equivalent to a year's study with a preceptor. The University of New York will count the classes by diminishing an equivalent of either fees or classes, as may be deemed most appropriate. The Medical Faculty of Harvard University, Boston, Mass., will grant similar recognition. The arrangements with other Schools will be announced as replies are received.

## COURSE OF INSTRUCTION IN THE FACULTY OF MEDICINE.

The Lectures will be delivered in the University Building, Grand Parade.

### I. CHEMISTRY.

Prof. GEORGE LAWSON, Ph. D., L.L.D., Lecturer.

Lectures daily from 2 to 3, p.m., illustrated by diagrams, tables, apparatus, preparations, and demonstrations on the black board. Experiments daily.

Class Book, Fownes' Manual.

Fee for the Course of Lectures, (three months,) \$6.

The Course will embrace general properties of matter and its relation to electricity, heat, light, and chemical affinity, description in detail of the non-metallic elements, the atmosphere, water, &c., the metallic elements and their compounds, principles of chemical philosophy, micro-chemistry, &c. In organic chemistry, all the more important vegetable and animal substances will be described, including products of fermentation, acetification, destructive distillation, the alkaloids, fats and oils, &c. The course will be concluded by a few lectures on the chemistry of digestion, assimilation, secretion, &c. Throughout, special attention will be given to substances used in medicine, and the best methods of detecting the various poisons will be shown in the Class Room.

## II. INSTITUTES OF MEDICINE.

ALEX. P. REID, M.D., L.R.C.S. Edin., L.C.P. & S., Ca.,  
Lecturer.

Lectures daily from 11 a.m., to 12, illustrated by Microscopical Preparations, plates and vivisections.

Class Books,—Carpenter, Dalton, Todd & Bowman, Kirke & Paget.

Fee for the Course of Lectures, (three months.) \$6.

The Lectures on Institutes of Medicine will embrace Histology, Physiology and General Pathology, the first two divisions of the subject receiving most attention. Towards the close of the course a general outline of Pathology will be given.

## III. ANATOMY.

EDWD. FARRELL, M. D., Surgeon to City Dispensary,  
Lecturer.

Lectures daily from 10 to 11 a.m., illustrated by the fresh subject, dried preparations, including skeletons, &c., life-size plates, colored to nature, two full series of which have been received from Europe.

Class Books,—Gray, Wilson, Sharpey & Quain.

Fee for the Course of Lectures, (three months,) \$6.

Every facility will be offered to students to become practically acquainted with Anatomy, under the Lecturer, (Dr. Farrell,) and the Demonstrator, (Dr. Ross.)

**PRACTICAL ANATOMY.**

JAMES D. ROSS, M. D., Demonstrator.

Rooms open from 4 to 6, and 8 to 10, p.m.

Fee for Practical Anatomy, \$4.

THOS. R. ALMON, M. D., Prosector to the Chair of Anatomy.

**IV. MATERIA MEDICA.**

ALFRED H. WOODILL, M. D., Physician to City Dispensary,  
Lecturer.

Lectures daily from 3 to 4, p.m., illustrated by specimens  
of the various pharmacological substances, microscopical  
objects, &c.

Class Books,—Pereira by Farre, Stille, Dispensatories.

Fee for the Course, (three months,) \$6.

**V. OBSTETRICS.**

WILLIAM J. ALMON, M. D., Consulting Physician to City  
Hospital and Dispensary, and Physician to City  
Alms House, and

ALEXANDER G. HATTIE, M. D., Physician to City Hospital  
and Dispensary,

Lecturers.

Lectures daily by one of the Lecturers, from 9 to 10, a.m.

Class Books,—Bedford, Tyler Smith, Cazeaux, Churchill.

Fee for the Course, (three months,) \$6.

The Lectures will be illustrated by plates, &c., and  
senior students will have opportunities of becoming prac-  
tically acquainted with the modes of treatment, &c., under  
direction of the Medical Officers connected with the Alms  
House and Dispensary, where a large number of cases  
occur.

## PUBLIC HOSPITALS, &c.

---

The **PROVINCIAL AND CITY HOSPITAL** is visited daily at 12 M., by the Medical Officers, and may be attended by Students without payment of any fee. The **CITY ALMS HOUSE**, containing from 200 to 400 patients, half of whom are usually in the Hospital Wards, will likewise be available to Students, without fee. The best opportunities are here presented for clinical instruction, midwifery practice and treatment of diseases; likewise for the observation of pathological appearances, which will be demonstrated by postmortem examinations.

**CLINICAL LECTURES** will be delivered at the Provincial and City Hospital and City Dispensary. Instructions will be given at the bed side, including physical diagnosis, and many opportunities afforded to Students to become familiar with the operations of minor surgery.

The **HALIFAX DISPENSARY** is carried on after the model of the DeMilt Dispensary, New York, being divided into three Departments, viz.: (1.) *Surgical*, including the Eye and Ear; (2.) *Medical*, including the Heart and Lungs; and (3.) *Diseases of Women and Children*. At this Institution from 30 to 50 cases are treated daily. Here the Student can have the advantage of becoming practically acquainted with Pharmacy and Midwifery under the Officers of the Institution.

Certificates of Attendance on the Hospitals and Dispensary will be given to those Students who attend regularly.

## EXTRACTS FROM THE REGULATIONS.

1.—Students desirous of attending the Lectures shall, at the commencement of each Session, enrol their names, age, and residence, in the register kept by the Dean, and each Student shall procure from him a ticket, for which he shall pay a fee of one dollar.

2.—The register shall be closed within one month after the commencement of each Session.

3.—Each Lecturer shall deliver five lectures during the week, and each lecture shall be of one hour's duration.

4.—Each Lecturer shall examine his class weekly on the subjects treated of in the preceding lectures, and such examination shall be considered a lecture.

5.—A roll of the names of the students attending each class shall be called from time to time, in order that certificates of attendance may be given at the end of the Course.

6.—The Matriculation examination is similar to that required by McGill University, Montreal, adopted under the Medical Act for Ontario, and recommended by the "Council of Medical Education and Registration" of Great Britain. Students desirous of passing it may present themselves to the Principal of the College any time during the Session. Students, not matriculating, may attend the classes without passing this examination.

Any additional information may be obtained on application to DR. REID, the Dean of the Faculty,—residence, 98 Argyle Street, opposite the Grand Parade.
