H. R. STEVENS:—

Dear Sir,—From exposure, I took sick about nine years ago with Rheumatic Fever, from which I suffered about four months. When I recovered from the fever I found myself suffering with pain in my side and constipation, which brought on the piles. I consulted a physician, and paid him over \$200 for attending me, and all the while I was gradually growing worse. Then one physician after another was employed, until seven of the best physicians of Boston had taken my case in hand.

Further Proof. FACTS WILL TELL. Goffstown, N. H., Aug. 1, 1876.

Dear Sir.—Allow me to say a word in favor of VEGETINE. During the past year I have suffered from a complication of diseases. I lay in bed from the 3d of November until the middle of the followhe so of hovember until the riddle of the following June, and on an average did not sit up two hours a week; I had eight of the best physicians in the state, but got no help, and constantly grew worse. They agreed that I had heart disease, phthisis, pyaemia, and kidney complaint, and could never be any better. I was reduced in weight 50 pounds, which is much, for I am naturally thm. In June, finding I was failing under the treatment of the physicians, I commenced the use of Veentrust through the carnest persuasion of friends, and, I am happy to state, with good results. I have gained ten pounds in weight, and can sit up all day, walk half a mile and ride six.

I am greatly encouraged, and shall continue using the Veentrus if I can get it. I sm a poor man, but for the truth of this statement I refer to any man in Goffstown or vicinity.

Your, very thankfully,

The possibility of using land as a basis of connected with a vast system of emigrathe construction of the road is the chief tion from Europe. How is the contemafter another was employed, until seven of the best physicians of Boston had taken my case in hand.

On consultation between several of the leading physicians, they concluded my complaint was sathma and general debility. I had great difficulty in breathing and an inhaler was required to afford me breath. Through the treatment of one physician I took from 75 to 100 boxes of calomed pills, and faithfully tried all the medicine that extend the vast amount of medicine that control of the road and to yield a fund place are the supply of emigrant labor. One physician said I was diseased all shrough my system, and he repretted that he could give me no hope for health. My suffering from indigestion was o great that it was impossible to keep any solid food on my stomach, and the whole nature of my food was broth from oatmeal.

I also took a prescription from a celebrated English physician, who said my trouble was Bronchits and Dyspepsia. I took 18 bottles of medicine especially prepared for Dyspepsia, and I have used a great deal of medicine from apothecaries' prescription. I have taken Sarssparilla until you could count the bottles by the dozen, and indeed I have given nearly all the popular advertised medicine a fair trial I had a dreadful cough, and did not average over two hours' sleep a night fer syeurs.]

### About Roads

We are glad that a correspondent is enabled to speak so favorably of at ast one road in the County. There is a system which may produce good results in the hands of thoroughly competent and unselfish men, but is, unfortunately, calculated to encourage the

acrifice of public to the promotion of individual and private interests.

It is said that the roads of Ontario which are superior to ours, do not cost any more, because they are maintained by direct taxation upon the people of the Townships through which they pass and who, having immediate control of those entrusted with the expenditure of the money, secure only the best and most competent men. If the money expended in both Great and by-Road services in this Province, (and which in this County amounts to some \$15.000 a year) were placed in the hands of the Municipal Councils, under such a perfected system as the importance of the charge and the immediate influence of local public judgment would soon establish, there can be little doubt that the result would be advantageous to the people. Whatever may be the faults of our Municipal Councilsit will be conceded that they are generally prudent and economical in administering the local revenues. Unlike the Legislature and the Government they are new organizations, created at a period when practical business ideas had been pretty well established throughout the country. The Government and Legislature are

with. The reason is because the change that is needed would involve umberland at Fredericton last winter, lished. the release of patronage from their own hands, and such self-denial is never put in practice in the Legislature, however much it may be preached outside. It is to be hoped that in time we shall have all this remedied. It seems a long while to wait, however, if our public men do not become less selfish than they have been in the past. It cannot he that they do not realise the importmuch it may be preached outside. It Chatham, Black Brook, Point aux C.r., Liverpool, in their circular of 3rd July,

I cannot but regard the formula from which Dr.
Channing's Sarssparilla is prepared, as one of the best possible combinations to constitute an effectual remedy, for the cure of Blood Impurities. So far as my experience leads me with this remedy, I can testify to its great value in the treatment of all Strumous and Cachectic affections, as Gisndular Enlargements, and a wide range of sith affections; as a reliable preparation for general use as a bood puri-AFFECTIONS. American Machines. Of the former there are over 200,000 in use, and the extraordinary number 200,000 were manufactured and sold last season, it was a season over 500 of our manufacture on it use, every on of which (no exceptions) stands as a monument it the grand and unprecedented success of hom manufacture and sur enterprise. A list of ou Agents in this section of the Province will be formed appended, and farmers are requested to ask information of them relative to our Mowers in use in their respective localities, which will establish beyond doubt their unquestic nable superiority over any other mower to be had in our market.

The facility of procuring all parts or pieces with in a nominal length of time must show beyond the shadow of a doubt the claims such an enterprise has upon the farmers of the Maritime Provinces.

For the coming harvest of 1877 we will manufacture LARGLY in excess of our numbers of last season, and trust that our growing enterprise may find such inducements held out to it as will be commensurate with its merits.

Let it be remembered we have no hesitation at all times, in entering into a friendly competition in the field with any other machine in our market. NOT ANANESE OUR MOWERS TO HE INFE.
