MEXICO REBELS HAVE LAID SIEGE TO GUAYMAS

Despatch Says Streets Have
Been Barricaded and
Harbor Closed

HUERTA DON'T INTEND
GIVING UP HIS JOB

U. S. Ambassador Likely to
Meet With Exciting Reception—
Outside Interference
Will Not Be Welcomed.

Mexico City, August 6.—A despatch from Guaymas to the German charge d'affaires here says the streets of Guaymas are barricaded, the harbor is closed and the city is in a complete state of siege.

Mexico City, Aug. 6.—Personal friends of President Huerta and military men who appear to enjoy his confidence vigorously assert that he will not consider resigning, or any compromise with the rebels. They say they would regard as gratuitous the sending of a representative here by the United States with the announcement that he is intended ultimately to be an ambassador, but whose primary mission is to act as mediator. They insist that if the United States is sincere in its desire to restore peace the most practical means to this end would be the recognition of the Huerta government.

Any suggestion by Mr. Lind, or any other foreigner that President Huerta resign in favor of a provisional president, or that a compromise be effected with the rebels will be regarded as unfriendly interference and resented by the government was the comment of one man high in official circles today. He added that mediation from the outside was out of the question. It would be unwise, said President Huerta just now was getting his army in shape and the government was unwilling to dominate the situation.

As simply a personal representative of President Wilson this man, continued Mr. Lind, might come to the coast, but if he attempted to interfere with the politics of the country he would be ignored.

A large number of Mexicans and Americans believe that the recognition of President Huerta at the present time would not result in materially strengthening the government, but another element of opinion would at least give Huerta a chance to restore order.

Regarding the possibility of an expedition of the United States to accept to all factions, one official said today that this was practically an impossibility, that such a man would have to be totally unknown and such a person would not have the power to control the situation.

Encouraged by articles in the local press, the public has reached the belief that recognition of the Huerta administration by the United States was almost a certainty, and the announcement from Washington that President Wilson still is opposed to recognizing Huerta has been a decided shock.

The character of the conversation among all classes concerning the situation does not differ greatly from that in official circles, and unless there is a radical change in sentiment, it is not impossible that the reception accorded Mr. Lind will be a quiet one. Although there is talk of public demonstration of disapproval at his coming, it is assumed that the government will take all steps to look after the personal safety of President Wilson's representative and of Americans in general in the event of demonstrations. It was announced here that Mr. Lind might be expected to arrive by the end of the week. Mr. O'Shaughnessy, the American charge d'affaires, today transmitted to the foreign office the information of the acceptance of Ambassador Wilson's resignation and the appointment of Mr. Lind to act as advisor to the embassy.

Mexico City, Aug. 6.—L. Blum, the American arrested here yesterday on a charge of complicity in a plot to assassinate Provisional President Huerta, has been given his liberty, provisionally pending an investigation by the authorities.

HUDSON BAY LINES READY NEXT YEAR

Good Progress, and Expect
Railway Completed by
December, 1914.

HON. MR. COCHRANE
HAVING WORK RUSHED

Minister Lets Contract for the
Final Section of 165 Miles
Before Going on Autumn
Trip.

Ottawa, Aug. 6.—The expectation now entertained is that the Hudson Bay Railway will be completed by December, 1914. The work is being pushed ahead with great vigor and the developments of the terminal facilities at Nelson are being driven ahead so rapidly that the resources of the new port will assist materially in finishing the northern portions of the railway.

When Hon. Frank Cochrane took charge of the department of railways and canals the first contract for the line had just been let for an expenditure of three million dollars. Owing to the slowness with which the contractors had reached the contract of building the river at LePas there was a good deal of delay, and it became necessary to extend the time from December, 1913, to December 1, 1914. The bridge work had good progress has been made. On July 23 the contractors had reached Governor Lake Narrows, at Mile 40 with the steel, and it is hoped to reach mile 60 by August 25th. It looks as if 150 miles of grading will be completed by the end of the year.

Just before Mr. Cochrane set out on his journey over the route to Hudson Bay he let the contract for the second section, 68 miles, from Thicket Portage to Split Lake Junction; the amount was \$1,800,000. More recently the contract for the third section, 165 miles, has been let for \$3,700,000. The time for the completion of these two latter sections is December 1, 1914.

The men working at the terminals now number 180, and it is expected that by autumn 250 will be employed. Five steamers were chartered this summer to carry supplies, and the following plant has been purchased for delivery this season:—Sea-going tug \$42,500; tug \$10,000; one steel tow barge and two steel sectional scows \$18,500; dredging machinery \$25,000. The Polton Iron Company, Ltd., of Toronto, is finishing a \$750,000 section of steel, one of the most complete ever built in Canada. The same company is also at work on a \$32,000 stern wheel tug.

The West thus, after many years of dallying, may expect to get the route opened about three years after Mr. Cochrane's assumption of office.

Fredericton, Aug. 6.—The provincial government's monthly meeting came to a close this evening. The resolution of the St. John Valley Railway Company to increase the capital stock of the company from \$800,000 to \$1,000,000, the applications of the New Brunswick Black Foxes, Limited, and of Kennebec, Ltd. St. John, for incorporation were approved. The reports from provincial government's inspecting engineer, D. F. Maxwell, show upwards of \$2,000,000 spent on the St. John Valley Railway construction up to August 1; the estimates for the month of July amounting to about \$200,000. The report on the Gibson and Minto Railway showed that the steel on the line was all laid, and that the hauling of coal had been commenced. Upwards of \$500,000 has already been expended, the provincial bond guarantee to the Gibson and Minto Railway, which was reported as showing some improvement in his condition today.

ARRANGEMENT REACHED
IN BUCHAREST YESTERDAY

Roumania's Threat to Occupy
Sofia Brought Bulgars
to Terms

Bulgaria Wanted to Hold Off,
but Threatened Fate of Sofia
Speedily Brought Discussion
to End—Demobilization at
Once.

Bucharest, August 6.—Peace was concluded tonight between the Balkan states, and the preliminary treaty was signed tomorrow by the delegates of Serbia, Greece, Montenegro, Roumania and Bulgaria. The agreement was arrived at only after an hour exhibition of the utter helplessness of Bulgaria to face her ring of enemies.

Wednesday the discussions in the peace conference threatened to become interminable, but Mr. Majoreco, the Roumanian premier and president of the conference, clinched matters by threatening that unless Bulgaria accepted the modified frontier proposed by the allies, Roumania's army would occupy Sofia next Saturday. This threat had the desired effect and an agreement was arrived at today after numerous private meetings between the delegates and a general sitting of the conference.

Body of David Knight Mollison Found in Stanley Park With
Bullet Through His Brain

Vancouver, August 6.—The identity of the body found in Stanley Park yesterday was established tonight as that of David Knight Mollison, 1144 Hare street, a figure well known in financial and club circles of this city. He has been prominent throughout the east, having at one time been the head of a large wholesale establishment at St. John, N. B., and later a commercial traveller for a Toronto firm. He was connected with the Sterling Bunt Company, Limited, of this city, and is said to be worth a million dollars.

As he was independently rich, the friends of the dead man are at a loss to account for his act of self-destruction, which was in the opinion of the police the cause of the death, and attribute it to depression over the death of his mother, Mrs. Mollison, of Columbus, Ohio, where he spent his childhood. He was born in 1878, and was married with two children to Miss Mollison, a well known actress, who made her debut in this city, and later went on the professional stage when she had a successful career as a woman singer in the Commercial Grand Opera.

Calgary, Aug. 6.—When the teeth of Bartlett, the strong man gave way in an aerial act at the Empire Theatre here this afternoon, a woman swinging from a strap held in the mouth of her fellow performer, fell to the stage, and received injuries which rendered her unconscious for some time, and which were at first thought to be of a serious character. A hatpin, driven into her skull narrowly missed penetrating her brain.

ABOLISH THE LORDS, PLEADS LLOYD GEORGE

An appeal to democracy against the House of Lords was reiterated by David Lloyd George, Chancellor of the Exchequer.

"The Premier has already announced that next year he will introduce a measure for a new second chamber," he said. "It will be a chamber in which all parties and all sections and all creeds will have equal treatment."

"Under the present system Liberal governments would have no powers by and by except such as the Lords vouchsafed to them. A Liberal Premier would have to go around to Belgrave and ask the butler to tell him his lord's orders for the day."

"ATTRIBUTE MY CURE SOLELY AND ENTIRELY TO TAKING 'FRUIT-A-TIVES'"

Hull, Que., Dec. 24th, 1909. "For the past twelve years, I had painful attacks of Dyspepsia. I could not digest my food and everything caused the most agonizing pain in my stomach. I also had a fearful attack of Constipation and at times, I had no movement of the bowels for two weeks."

Three doctors attended me for two years and gave me all kinds of medicine but did me no good. My weight came to only 30 pounds and everyone thought I was going to die. Finally, I had the good fortune to try "Fruit-a-tives" and as soon as I began to take them, I felt better. I persisted in the treatment and to my great joy, I steadily improved."

Now I feel very well, weigh 115 pounds, and this is more than I ever weighed even before my illness. I attribute my cure solely and entirely to "Fruit-a-tives" and can now praise them too much for saving my life. To all who suffer from Dyspepsia and Constipation, I recommend "Fruit-a-tives" as a miraculous remedy."

She was surprised. When Dr. Morse's Indian Root Pills cured her Chronic Liver Complaint

Mrs. R. Smith, of Winnipeg, Man., tells an interesting story of relief from almost intolerable sufferings.

"I can hardly tell you how great my sufferings have been. Chronic liver complaint accompanied by biliousness was a daily source of trial to me. Every day I experienced the sickening effects of these ailments. I longed for some medicine that should permanently drive them away."

Hearing of Dr. Morse's Indian Root Pills, I thought they were worthy of a trial. My surprise was indeed great. From the very first I experienced relief. Continuing with them I found my troubles were slowly but surely leaving me, and before long I once more knew what it was to be free from the harassing effects of the ailments that had long racked and weakened me. So great is my faith in Dr. Morse's Indian Pills that I shall never on any account be without them."

These are the biscuits that vanish fast behind busy little milk teeth. Puffs and rolls, ampu, waffles, cakes and crumpets for all your goodies—Five Roses.

Arriving on time and with an extra 100 miles to his credit beyond the distance he promised to cover when he set out, Edward Payson Weston, the veteran pedestrian, reached Minneapolis, Minn., from New York and was accorded a wonderful reception.

In just two months he has walked 1,546 miles. He left the metropolis on June 2, saying he would arrive here August 2. He changed his route so that he walked 100 miles more than he originally intended. He was able to do this by hard walking the first part of the way. When he reached Stillwater, Minn., July 29, he was four 1/2 weeks ahead of his anticipated time.

ST. JOHN, N. B., THURSDAY, AUGUST 7, 1913.

THE SHIPS ARE NEEDED.

The need of the three Canadian battleships to form part of our Imperial Squadron is emphasized by the report received in London that Germany is contemplating a special cruiser squadron, which will be available for the protection of German interests in distant seas. This, as a despatch states, is a new phase of Germany's naval policy, as hitherto all the German fleet have been concentrated in the Baltic and in the North Sea. The comment of the London press is significant. "This report," says the Daily Telegraph, "will only serve to emphasize the importance of Mr. Churchill's scheme for establishing an Imperial patrol with the aid of the various Dominions. Unfortunately at this moment when Germany is taking action to show her flag on the distant seas in a powerful squadron, the British scheme is temporarily endangered by the adverse vote of the Canadian Senate."

MADE IN THE EMPIRE.

The British Empire Trade Mark Association which was organized in London some time ago should render an important service to Canadian industry and Canadian workmen. Many Boards of Trade and Chambers of Commerce in Great Britain, Australia and other parts of the Empire have already declared in favor of a "Made in the Empire" hall mark, and in Canada the proposal should be second only in popularity to the made-in-Canada propaganda. It would tend towards closer relations amongst all British peoples for trade purposes.

A THOROUGH INVESTIGATION.

During his visit to the Pacific Coast Hon. J. D. Hazen is making a thorough investigation of the questions connected with the protection and regulation of the fisheries. He will be in Dawson on Saturday and it is reported will probably spend some days in Vancouver on his return in further inquiry and discussion of the affairs under his direction.

ARTISAN IMMIGRANTS.

An attempt has recently been made by Liberal partisans in the West to make it appear that the Borden Government are encouraging the immigration of British artisans into the Canadian West and that as a consequence some of the principal centres there have more men than there is work for. There are no grounds for this foolish contention. The British artisan is not encouraged in any way whatsoever to come to Canada. When he arrives at a Canadian port he is asked what his occupation is, and where he is going. If he says he is going to Winnipeg, Regina, Moose Jaw, Calgary, Edmonton or any other western town, he is told of the labor conditions there as reported by the western agents of the department. The ship prepares a manifest of all the immigrants on board, containing their names and points of destination; and so soon as the artisan is informed about the demand for labor or the lack of demand in the place whither he is bound, the manifest is stamped with the words opposite his name, "Advised as to Labor Conditions."

CURRENT COMMENT

The Modern Ambassador.

(Manchester Guardian.)

The quality most necessary in an ambassador now is the gift of getting in touch with every shade of opinion in the country to which he is accredited, of estimating the strength of political tendencies, of forecasting the immediate future, and of preventing the likelihood of our foreign offices ever being taken by surprise. They are the qualities of the ideal special correspondent; he must have a knowledge of men, and of all kinds of men, and be quick to grasp new ideas and to gauge their force.

Canadian Security.

(Galt Reporter.)

The security offered by Canadian municipalities to the money-lender is glibly offered. It could not be better. Years ago Duluth repudiated millions of its civic debts and got away with the trick. No Canadian city has followed Duluth's bad example. On the contrary here we have municipalities that live up to every obligation incurred.

U. S. TARIFF ALTERATIONS.

The Underwood tariff bill has been altered in the Senate at Washington, and in some respects is not so favorable to Canada as it was. For instance, the bill now provides that wheat shall be taxed 10 cents a bushel and four 45 cents a barrel, when imported from a country or dependency which taxes American flour and wheat. It is reasonably certain, therefore, that if we removed our duties on these articles, American wheat and American flour would be able, at existing prices, to enter the West and reduce the Canadian settler's profit—a kind of reciprocity that would not suit his pocket.

DIARY OF EVENTS

HISTORIC DAYS IN CANADA

OTTAWA BECOMES THE CAPITAL.

Ottawa was selected as the capital of Canada by Queen Victoria fifty-five years ago today. The news of Her Majesty's choice was received with great rejoicing by the few inhabitants of the little lumbering village on the banks of the Ottawa, but the decision was correspondingly unpopular in other cities. The question of a Canadian capital was brought to the front in 1847, when a mob burned the parliament houses in Montreal. Thereafter the "perambulating parliament" met alternately in Toronto and Quebec, but this was inconvenient and entailed great unnecessary expense. Local jealousies rendering it impossible for the legislature to select a permanent capital, both houses agreed to an address, in 1857, remitting the question to the Queen for solution.

Ottawa's central location, literally standing with one foot in Upper Canada and the other in lower Canada, inclined Her Majesty to the choice of that town. Montreal, Toronto, Quebec and London, all of which had at one time or other been the temporary capital, unsuccessfully urged their claims to be constituted the permanent seat of the Canadian government. Ottawa was founded by Col. By in 1827, and in his honor was named Bytown. In 1854 it received its present name and was incorporated as a city. The cornerstones of the parliament buildings were laid by the Prince of Wales in 1860 and in 1866 the Canadian Parliament was opened there by Lord Monck. At the time of the selection of Ottawa as the capital, the province had a population of 2,258,437, according to an accurate estimate, 1,305,923 of these being in Upper Canada and 1,320,314 in Lower Canada.

Not So Crusty.

Though immortally labelled "Crusty Christopher," by Tompason, "Christopher North" was not without his amiable side. When his daughter was being wooed by W. E. Aytoun, that young gentleman balked at the ordeal of asking papa; so the girl went and did it herself. Returning to her anxious lover she said: "Papa's answer is pinned on the back of my dress," and turning her round Aytoun read: "With the author's compliments."

A FEATHER IN CANADA'S CAP

The success of Private Hawley bringing the King's Prize to Canada not only a personal triumph for him but reflects itself on all of us because, as is well known, the Rifle which Hawkins used in the National Arm, and made in England. GERMANY PLANS NEW SQUAD

Montreal, Aug. 6.—A special cable to the Star says: "Berlin gramm announce the creation of a templated special cruiser squadron which will be always available for protection of imperial German interests abroad. This looks as if German government is about to enter a new phase of their naval policy for many decades practically German fleet have been concentrated in the Baltic and then overtook the North Sea."

The Daily Telegraph says the report will only serve to emphasize the importance of Mr. Churchill's scheme for establishing an Imperial patrol with the aid of the various Dominions. The Daily Telegraph "Unfortunately at the moment Germany is taking action to show her flag on the distant seas in a powerful squadron, the British scheme is temporarily endangered by the adverse vote of the Canadian Senate."

Lord Selborne in Dilemma On Shipbuilding Points Situation. TWO BRITISH KEEL TO ONE OF GERMANY. Programme Will Have to Be Changed Unless Contribution From Union Is Forthcoming.

London, Aug. 6.—"If Germany above the present navy law, policy will be two keels to one of the striking statement of Lord Selborne, during the House Lords debate yesterday on the building policy of the government."

The debate was initiated by Selborne, who indicated that the House was necessary and that the government was deliberately fastidious short sixty per cent. margin.

Lord Selborne In Debate
On Shipbuilding Policy
Points Situation.

**TWO BRITISH KEELS
TO ONE OF GERMANY**

Programme Will Have to
Be Changed Unless the
Contribution From Dominion
Is Forthcoming

London, Aug. 6.—"If Germany bids
above the present navy law, then our
policy will be two keels to one," was
the striking statement of Lord Ashby
St. Ledgers, during the House of
Lords debate yesterday on the ship-
building policy of the government.

The debate was initiated by Lord
Selborne, who indicated the govern-
ment was deliberately facing the
short sixty per cent. margin which it
was agreed was necessary and which
they themselves had laid down.

In 1915 Germany would have 20
Dreadnoughts in the North Sea, while
we should only have a total of 39,
exclusive of those not built by British
taxpayers. He said nothing about
Canadian ships. That was a matter for
the people of Canada. He only asked
the House to note how sorely that
help from Canada was needed. State-
ments of Winston Churchill proved that
the government still consider themselves
responsible for defence of the whole
British Empire. Suspense of Canadian
ships had made it necessary for the
First Lord to reconsider his policy and
expedite the construction of three ships.

The first point he made was that
when the government proposed to
build only five ships this year they
were deliberately falling short of the
proving point, namely that they
themselves had laid down.

Lord Ashby St. Ledgers, who is
Winston Churchill's cousin, told Lord
Selborne that the First Lord did not
claim that we possess 60 per cent.
superiority now, but that our pro-
gramme would "develop" such a ma-
jority. Within the next eighteen months,
there would be delivered from the
shipbuilding yards the following capi-
tal ships: For Great Britain, 12; for
Germany, 6; for Italy, 3; for Austria,
1, and for France, 2. He claimed that
in 1916 we shall have a sixty per cent.
margin, plus "something between four
and eight ships."

If the Canadian ships are not forth-
coming, then the whole shipbuilding
programme will have to be reconsid-
ered. Critics ask what are we going
to do about protecting our trade in
the Atlantic and in the Pacific, but
you must not count the enemies' ships
for the purposes of calculation in
home waters and count them again as
proving on our trade in the Pacific
and other seas. If there is any subtrac-
tion from an enemy's ships for that
purpose, an equal subtraction must
also be made from ours. There is in-
deed, no additional peril for which no
provision has been made.

The Daily Telegraph, in its editorial
comment upon the debate says:
"Are we to have the mere shadow
of a fleet in the Mediterranean and a
squadron which is under imperial
control in the outer seas? We shall
have only six or seven ships on an
average, or ten when the Canadian
ships or their substitutes become
available. What is to be the action
of the Dominions? They are no longer
colonies, but nations. The time has
come when, next year, probably
be faced with estimates amounting
to nearly fifty million pounds."

The Morning Post says:
"We have already indicated our
feeling in favor of the acceleration of
the British programme by the laying
down at once of three ships to com-
pensate for the hypothetical Canadian
Dreadnoughts. That would perhaps
suffice were it not that there is every
probability of the three powers con-
cerned, by their combined building,
forcing the pace to such an extent
that next year's programme must be
greatly increased."

The Times advises that Unionists
should insist that the three extra
ships should be commenced next
spring, inasmuch as the emergency
has been clearly demonstrated by the
memorandum addressed to Premier
Borden by the First Lord of the Ad-
miralty.

The Daily News (London) says that
the Mediterranean position must be
our concern only in view of probable
emergencies, otherwise England will
certainly go bankrupt over its building
programme.

**HARTLAND'S RHODES SCHOLAR
NOW TRAVELLING IN SCOTLAND**

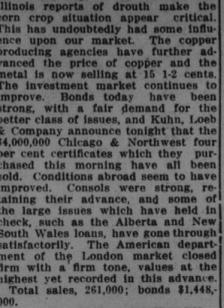

Hartland, Aug. 5.—Hartland's
Rhodes' scholar, Harry Reid, son of
Mr. and Mrs. John Reid, is spending
the summer vacation travelling in
Scotland. Travelling is one of the
important educational activities of a
Rhodes man. They study eight weeks
and travel six alternately through the
term, and spend the whole vacation
in travel.

Mr. Reid is a student at Trinity Col-
lege, Oxford University. At Oxford
all the students have to attend camp
two weeks during the year for mili-
tary training. Even the Prince of
Wales, who is enrolled at Oxford, at-
tends camp. Mr. Reid is attached to
the cavalry, a member of the King Ed-
ward Horse, and has the honor of
being one of the fifty best riders
chosen as a guard of honor to King
George on the occasion of the laying
of the corner stone of the new Aus-
tralian building in London on July 24.

**CLOSING STOCK
LETTER FROM
RANDOLPH**

(F. B. McCURDY & CO.)
New York, August 6.—There was
little change in speculative conditions
during the afternoon although the
market in the leading stocks dis-
played a generally firm tone. Read-
ing continued under pressure was sup-
plied freely, and shows a loss of
nearly two points. Toward the close
the action of this stock had an influ-
ence on other important issues, near-
ly all leading stocks yielded fraction-
ally. The news from the west grows
more alarming. From Kansas and
Illinois reports of drought make the
corn crop situation appear critical.
This has undoubtedly had some influ-
ence upon our market. The copper
producing agencies have further ad-
vanced the price of copper and the
metal is now selling at 15 1/2 cents.
The investment market continues to
improve. Bonds today have been
strong, with a fair demand for the
better class of issues, and Kuhn, Loeb
& Company announce tonight that the
\$4,000,000 Chicago & Northwest four
per cent certificates which they pur-
chased this morning have all been
sold. Conditions abroad seem to have
improved. Consols were strong, re-
taining their advance, and some of
the large issues which have held in
check, such as the Alberta and New
South Wales loans, have gone through
satisfactorily. The American depart-
ment of the London market closed
firm with a firm tone, values at the
highest yet recorded in this advance.
Total sales, 261,000; bonds \$1,448,
000.

**MR. EMERY REPLIES TO
MR. DINNEEN'S LETTER.**

St. John, N. B., Aug. 6th, 1913.
To the Editor of The Standard:
Sir—Replying to the letter from
E. J. Dinneen of the Norton Griffiths
Dredging Company, I would infer that
Mr. Dinneen either thinks that a cor-
poration's interest is a farce, or that a
man should perjure himself because he
had accepted of his (Mr. Dinneen's) hos-
pitality, paid for by another, the Do-
minion Government. In the contract
signed by the Norton Griffiths Dredg-
ing Company they must provide meals
for the inspectors and Mr. Dinneen
was not giving anything away; in fact
there were times that at 5.30 p. m.
the steward was wondering where the
 grub, as Mr. Dinneen calls it, for the
supper was coming from. Mr. Dinneen
will, no doubt, be summoned to give
evidence before the coroner's court,
unless, perchance, he will be like the
ships that pass in the night, and be
in Eastport and when he does he will,
no doubt, be able to tell where the
life-saving apparatus was kept. Mr. Din-
neen did not order me off the dredge.
He was standing on the street waiting
for a car and I approached him and
asked if it were true that the dredge
had been withdrawn from the work,
and he said yes, and I went to my own
home and had a clean bite.

Thanking you, Mr. Editor, for your
valuable space, I remain
Yours truly,
E. N. EMERY,
Inspector of Measurement,
Dredge McDougald.

**CLOSING LETTER
ON COTTON
MARKET**

(F. B. McCURDY & CO.)
New York, August 6.—There have
been few in the trade who supposed
that the rains reported over Sunday
in the western belt have been suffi-
cient to afford any lasting relief, ex-
cept possibly in some few localities.
The feeling that they had not been
adequate was strengthened by yester-
day's weekly bureau and apprehensions
were revived by this morning's
reports of dry, warm weather and
the forecast for fair, continued dry
weather tomorrow. Liverpool was a
shade better than due, the effects of
a poor spot demand being fully offset
by continental buying and the market
here opened 3 to 5 points higher. Un-
favorable crop accounts are coming
in from Texas, Oklahoma, Mississippi
and Arkansas, but few complaints are
received from elsewhere and trade
buying shows itself only in a moder-
ate way on dips.

MUSICAL COMEDY

The most delightful of musical
comedies, "The Pink Lady," will be
at the Opera House all next week.
The production is of such an elabo-
rate nature that it is imperative that
the evening's performance should be
begin at 8.10 promptly, and the man-
agement requests the co-operation of all
patrons in being seated at this hour.
The scenic detail of the production is
on a massive scale, the company num-
bers sixty people, and the resources
of the Opera House stage will be
taxed to the utmost. Arrangements
have been made to hold the Weisford
train on Wednesday and Thursday
evenings until 11.45 p. m. for the
accommodation of those desiring to
witness the performance on these
evenings.

CLIFTON NEWS.

Clifton, Aug. 5.—A number of
friends and relatives of Amos J. Wet-
more gathered at his home here to
wish him joy on Saturday evening, it
being his twenty-first birthday. Dan-
cing and games were indulged in, after
which refreshments were served and
the people returned to their homes
after all having spent a very pleasant
evening.

(J. C. MACKINTOSH & CO.)
New York, August 6.—The nervous-
ness over the situation in the south-
west, which had been allayed by the
light rains reported over the last
weekend appeared to have been revived
by today's weather bulletins, which
indicated a resumption of droughty
conditions in that territory. This sit-
uation does not seem as yet to have
stimulated any general demand from
either speculative or trade sources
but offerings were smaller today and
there was enough support to send
many shorts to cover and bring an
advance of prices ranging from 8 to
10 points. While bearish sentiment
predominates around the ring, opinion
is nevertheless divided upon the ques-
tion of whether the early receipts will
be readily absorbed. Some can see
nothing but approaching depression
while others believe that the south
will be able to market its product far
more slowly than usual. The size of
the crop and the world's consumption
requirements remain in the realm of
surmise and until the prospect in these
regions is better defined the market
is likely to be swayed by transient in-
fluences.

**IMPORTANT APPOINTMENT
TO MT. ALLISON STAFF.**

Sackville, N. B., Aug. 5.—Miss Elaine
Claverling, pupil of Victor Beigel, Lon-
don, "teacher of singing and breath-
ing," has been added to the staff of
Mount Allison Conservatory of Music.
Miss Claverling, in addition to her
excellent training in the best acad-
emics, and from the well known Victor
Beigel, has considerable experience
in teaching, and with satisfaction has
also filled the post of instructor in
Victor Beigel's own studio. Dr. Hen-
nington Pegler, London, has great
pleasure in giving references in every
way satisfactory on behalf of Miss
Claverling, whom he has known for a
number of years, and holds in very
high esteem.

THE MARKET
SITUATION**

(F. B. McCURDY & CO.)
World—Money that has been hoard-
ed ever since the opening of the
Balkan war is beginning to reappear
and to seek conservative investments.
Times—A pronounced increase in
small buying orders is taken to mean
the re-awakening of public interest
in good dividend issues.

Sun—Speculative sentiment is aided
by a higher range of quoted values
for American shares in Europe.

Tribune—Bond buying is pointed to
as an evidence of a gradually return-
ing period of confidence.

Herald—London is a modest buyer
of stocks.

American—Domestic commitments
are already greatly reduced and are
being still further drawn in.

Commercial—Banks have found
that they will have no trouble in
financing the crop movement and they
say that all preparations to do so
have been made.

Chicago, Aug. 6.—Wheat—Cables
were lower and foreign news was
bearish and spring wheat weather per-
fect. The market opened a trifle
lower on local selling, but it soon
developed that there was very little
wheat on the market and a quick
advance was had to 90 before anyone
began to let go. Southwestern mar-
kets as well as Minneapolis failed to
show any material weakness and this
also caused considerable covering by
yesterday's sellers.

Corn opened easy on reports of
showers in parts of the belt, but offer-
ings were quickly absorbed by com-
mission houses, and sold out bulls,
causing a sharp advance.

Oats—The trade has been smaller
than usual and no important news.
Provisions—Light trade in provi-
sions market shows a tendency to go
with corn.

GREEKS TRIM FREDERICTON BANGOR LOSES TO ST. CROIX

About a thousand people witnessed the Marathons defeat the strong Frederiction team on the North End grounds yesterday afternoon by a score of six to three and the game was won by the Greeks by nothing more than timely hitting and the failure of the Frederiction players to find Charles who pitched a great game from the start to finish.

Charles O'Brien, who was so badly injured some days ago, was back in the game again yesterday and was given a grand ovation when he went on the field. He played a good steady game and made some excellent plays and the error that he committed in the last inning was the only one that he failed to handle a quick one and it did not prove very costly as no runs were made. O'Brien's friends are delighted that he is well enough to play again as he is without a doubt one of the best players in the league.

Wildes, of the Frederiction team, made three errors, and some of the Frederiction admirers might be unkind enough to blame those errors for giving the game to the Marathons but it might be stated that only one of the errors allowed a run and that was in the eighth inning and after the Marathons had the game well secured. The umpire was not to blame either as there was not one kick coming from the visitors and the nine hits made by the Greeks and Charles' excellent pitching were alone responsible for the victory.

Dedrich started the game for Frederiction and three hits totaling two runs were made off him in the first inning. Not another hit was made off him and he was working fine until the sixth inning when three hits more were made off him and one run had been made, tying the score. Then Captain Ganley, batted for Frederiction and Morey in, with the result that the first man up soaked the ball to left for a single and another run was gained. The following account of the game by innings will give the fan the correct story of what happened from start to finish:

FIRST INNING.

White was the first batter and drew a base on balls. Ganley hit to Charles who booted the ball from him and the batter was safe. White then drew a base on balls. Ganley then drew a base on balls. Dedrich struck out. Stone hit a nice single to centre field and scored White and Ganley. Connelly hit to Waterhouse at short, forcing Stone out at second. Connelly was then thrown out when he tried to steal second.

O'Brien went third to first. Pinkerton singled to centre. Shanley flew to short. With two down Pease hit a beauty to centre field for two bases and placed Pinkerton on third. Bien came across with a hit to left field and scored Pinkerton and Pease. Bien was out on second strike. Dugan struck out a single into a two base hit.

SECOND INNING.

Callihan went out, short to first. Wildes struck out. Murphy fouled out to catcher. Waterhouse struck out. Riley flew out to short and Ramsey flew out to left.

THIRD INNING.

Dedrich struck out. White struck out. Ganley drew a base on balls and second. Dugan went out, third to first.

Charles reached first on an error of Wildes, and was then caught napping off the bag by a nice quick throw from Catcher Murphy. O'Brien flew out to right. Pinkerton went out, third to first.

FOURTH INNING.

Stone struck out. Connelly singled to centre. Callihan fled out to left and Wildes struck out.

Shanley went out, short to first. Pease flew out to third. Bien drew a base on balls. Waterhouse hit to second and Bien was put out at that base.

FIFTH INNING.

Murphy struck out. Dedrich went out, catcher to first. White drew a base on balls. Ganley went out, pitcher to first.

Riley reached first on an error by Wildes. Ramsey sacrificed, third to first. Charles flew out to second. O'Brien went out, pitcher to first.

SIXTH INNING.

Dugan drew a base on balls. Stone sacrificed to pitcher to first. Connelly singled to right field, it being the third hit of Charles in the game and it scored Dugan from second. Callihan fled out to second, and Wildes struck out.

Pinkerton singled to right. Shanley hit to Dedrich, who made a boot. Pease singled to left and Pinkerton scored. Shanley, who had been given a life on the error by Dedrich, was thrown out at third. Bien singled to right and placed Pease on third. At this stage Dedrich was sent to the bench and Morey put in to pitch. Waterhouse singled to left and scored Pease. Riley hit to Connelly at third, who put Bien out, and then doubled. Riley out at first, retiring the side.

SEVENTH INNING.

Murphy went out, pitcher to first. Morey went out, second to first. White struck out. Ramsey singled to left and was then thrown out trying to steal second. Charles struck out. O'Brien fled out to second.

EIGHTH INNING.

Ganley went out, second to first. Dugan went the same route, third to first. Stone struck out.

Pinkerton singled to right. Shanley fouled out to Stone. Pease drew a base on balls. A wild pitch put Pinkerton on third and Pease on second. Bien hit to Wildes, who muffed. Pinkerton scored and Pease went to third. Waterhouse sacrificed to first and Pease scored. Riley fled out to Ganley in centre.

NINTH INNING.

Connelly struck out. Callihan went out, second to first. Wildes hit to centre for two bases, making the fourth and last hit of Charles. Murphy hit to O'Brien, who muffed.

Morey fled out to right field, and the game was over.

ST. CROIX 14, BANGOR 5.

Calais, Me., August 6.—In a loosely pitched game of ball here this afternoon the St. Croix team defeated the Bangor team by the score of 14 to 5. The heavy hitting St. Croix team landed hard and often with telling effect upon Gibbs' offerings. Black, Lynch, Parker and Vance were the star batsmen, while there were no particular star features. Tewhey showed up well at short for Bangor, and Bill Lee, who twirled the article of ball, allowing only five hits and striking out nine men.

SHOOTING ON RANGE YESTERDAY

The St. John City Rifle Club held their annual cash prize and Morrison Cup match yesterday afternoon on the local rifle range. There was a fair attendance but a strong and puffy wind was somewhat difficult to get onto. But with this handicap some of the members put on some good scores, especially the younger fellows.

The following are the winners in this match:

A Class.	200 500 600 T.D.
John Chandler, cup	32 34 32—98
Jack Donnelly, \$2.	34 34 29—97
G. W. Hazen, \$1.50.	32 32 31—95
F. Emery, \$1.	28 33 33—94
H. A. Chandler, \$1.	32 32 33—93
D. Conley, \$1.	32 32 28—92
R. A. C. Brown, with a total of 91, was counted out.	

B. Class.	33 28 28—89
A. D. Logan, \$2.	33 28 28—89

EBBETS GATHERS UP MINOR LEAGUE STARS.

Charles Ebbets, manager of Brooklyn, has an array of contracts with minor league stars which he carried on a little junketing trip into the bushes. Ebbets would not make any disclosures as to the talent he had secured, but it is known that he brought out the best that he had, specifically checked the purchase of Pfeiffer, the Greys' pitcher, who has been burning up the Central League with his speed.

AMERICAN TEAM WHICH PLAYED THE AUSTRALIAN CRICKETERS

THE ALL NEW YORK CRICKET TEAM. E. P. POLY PHOTO.

The largest crowd that has watched them since they began their present tour of the United States, Canada and Bermuda saw the Australian cricketers pull off their match in great shape against the All New York fifteen at the grounds of the Casino Island Cricket and Tennis Club, Livingston, S. I. From their total of 101 runs (for six wickets) the anti-players advanced to 100 before they were all disposed of, giving them a lead of 42 runs over the home players, and won the two day match by 9 wickets.

TO BATTLE FOR WORLD'S CHAMP HONOR

San Francisco, August 6.—The next lightweight match with a title of the ring at stake will be for the championship of the world, Willie Ritchie, the American champion, made this statement yesterday, when he agreed to meet Freddie Welsh, champion of Great Britain and Australia in Vancouver, for twenty rounds on September 1st. Welsh already has a decision over Ritchie, awarded in November 1911, when Ritchie substituted at the eleventh hour for Ad Wolgast, then the champion, who was stricken with appendicitis on the eve of a match with Welsh.

Ritchie had never fought a long distance bout then and went into the match untrained. His surprising show, big won him his chance at the title from Wolgast. Articles stipulating the weight and division of the purse will be signed as soon as Ritchie returns from a training trip into the mountains, whether he left yesterday.

If Ritchie wins at Vancouver his next bout probably will be with Leach Cross in New York for ten rounds, no decision, in the latter part of September. His best offer, he says, is a \$10,000 purse, but other offers had been suggested.

Except by a knockout the title could not be in peril in a match with Cross, and accordingly Ritchie feels fairly confident that on Thanksgiving Day he will return to San Francisco for twenty rounds, either with Harlem Tommy Murphy or Ad Wolgast.

HARBOR MOTOR RACE TOMORROW

After a good deal of trouble the committee in charge of the motor boat race to be held on Friday afternoon for the Norton Griffiths trophy has succeeded in getting enough entries to make an interesting race, and it is hoped that a fleet of motor boats will assemble to watch the contest and give a note of animation to the harbor for the benefit of tourists and other spectators. The Patricia, which won the race last year and is now owned by Cyrus Inghes, will be among the competitors this year. The start will be made at four o'clock on Friday afternoon from a line off the North Market wharf, and the course will be about twelve miles long. The boats will run round Partridge Island, proceed up Courtenay Bay, round a buoy there, return to the North Market wharf, and then run round a buoy near the Beacon Bar and return to North Market wharf again.

The race is being run under the rules and the auspices of the Eastern Section of the Canada Power Boat Association. The trophy was presented by Norton Griffiths, M. P., to commemorate the inauguration of the work at Courtenay Bay, the first race being held on the day Hon. W. T. White formally opened the work for the excavation of the dredge dock.

CANADIAN HORSE BROKE MAINE RECORD

Special to The Standard.

Bangor, Me., Aug. 6.—A big grey Canadian stallion, Earl, Jr., from Enderly, B. C., swept all before him in the \$3,000 free-for-all at the Pine Tree Circuit meeting here Tuesday afternoon. Not only did he win first money but he also succeeded in breaking the Maine record of 2:08 for a half-mile track, which he himself made at Lewiston last week, by winning the second heat today in 2:06 1/2. This is regarded as phenomenal trotting on a half-mile track in competition, and will cause wide comment among horsemen everywhere. The stallion went the last quarter in 29 1/2, or a 1:59 clip. Earl, Jr., captured the three last heats of the race, but won none of them without a struggle. Hal B. Jr., pushed him hard in each of them, and succeeded in wresting victory from the Canadian horse in the first heat, the time for which was 2:10 1/2.

The racing here today was the fastest ever seen on a Maine track and attracted nearly 6,000 to the park. The summary follows:

Three-Year-Old Trot—Purse \$1,000.

Derby Worth, b. h., by Axworthy (Yeaton) 2 1 1 1

KENTUCKY MARE TENARA WON BIG STAKE

Kalamazoo, Mich., August 6.—Before the largest crowd that ever witnessed a horse race in Kalamazoo, the Kentucky mare Tenara, driven by Andrews, easily won the \$12,000 paper mills stake, the feature of today's grand circuit card. The event was raced on the four-heat plan, \$3,000 for each heat. In the first heat Tenara and Judson Girl raced even to the half, when Judson Girl broke. The other horses also broke, and Andrews had no trouble in bringing Tenara under the wire an easy winner.

In the 2:16 trot, the first race of the day, Frances Graham had no difficulty in beating Grand Marshall, who was thought to have the race at his mercy. Geers sprung a big surprise when he drove his mare under the wire first in every heat in the race.

The summary follows:

2:16 Trot, Purse \$1,000 (3 in 5).

Frances Graham, br. m. (by) 1 1 1 1
Franco (Geers) 2 2 2 2

Among the arrivals in the city yesterday was Joe Neptune, who last season was the fast shortstop with Houlton in the Maine and New Brunswick League, but who since last spring has been with the Lynn team in the New England League. Joe has worked in a great number of games with the Lynn team and was batting well up to the 300 mark but for some time past has been on the bench. He only got his liberty from the team a few days ago and having obtained a fat offer to play with a team in Glace Bay, C. B., he accepted and left for Cape Breton on the express last night. Joe arrived in the city yesterday morning and remained over to witness the game between the Marathons and Frederiction. Last night he said that he enjoyed the game which he considered was a fast one. He said that he received a tempting offer to join the Frederiction team yesterday but did not accept.

THE NEWS IN SHORT

To Resume Dredging.

G. F. Palmer, of the Norton Griffiths Company, Ltd., returned yesterday from Montreal and attended the legal proceedings in connection with the Norton Griffiths Dredging Company have been started, but adjournment has been made until Friday. Palmer said that a number of dredges will soon be at work in Courtenay Bay.

Wins Parker Medal.

The Parker silver medal for mathematics in the High School was won by F. Arthur Willet, son of David R. Willet, with a total of 100 out of a possible 125, and Miss Grish is a close second with a score of 109. Lyman Anglin led in arithmetic and algebra, and Monica Grish is highest in geometry, but Willet's aggregate in the three subjects is better than any of his fellows.

Severed an Artery.

The young son of William A. Maud was seriously injured while at work on his father's house at Veld yesterday morning. He cut an artery on a piece of glass, severing it. It was found impossible to check the flow of blood and the boy was brought to the city where he was dressed at the hospital. He was later taken back to Westport.

Cloudburst in Wyoming.

Omaha, Neb., Aug. 6.—A brief patch from Shoshone, Wyoming, reports a cloudburst in that city yesterday. Several persons are reported drowned and two feet of water in streets. No further details are given.

Shot by Gunmen.

New York, Aug. 6.—William L. a young man of whom the police are little, except that he comes from a respectable family, is dying in a hospital, the victim of an assault. Lustig is believed to have been the man who shot him. The woman suddenly left and started after her. He found his hand barred by four men with revolvers. They all fired and three of the shots took effect. A big black car provided means of escape for the gunmen. The police have no knowledge of what led up to the mysterious shooting.

PROPER NEEDLES PLAY BIG PART IN HAND EMBROIDERY.

Needles for Embroidery. While some may use the ordinary sewing needle, the large majority of the best needleworkers prefer the long-eyed or "Horse" needle, and this is the one recommended by nearly all of the societies of Decorative Art in this country. Nos. 9 and 10 are the proper sizes for one thread of Filo Silk, which is to be embroidered into linen, lawn, grass linen, or bolting cloth. For ready stamped lines use No. 8 or No. 9; for heavier lines use No. 8, and for butchers' linen or fabrics mounted over linen, No. 7 will be required. No. 7 is the size for heavier work in two threads of Filo Silk. Persian Floss and Etching Silk require a No. 8 needle, and for Roman Floss a No. 4 needle is needed. For Rope Silk choose a No. 22 Chenille Needle.

ROSS AMMUNITION

Robbing the "Ross" also because of its reliability. The "Ross" is the emblem of the British Empire, and is the best rifles and ammunition in the world.

Severed an Artery. The young son of William A. Munro was seriously injured while engaged at work on his father's house at Westfield yesterday morning. He cut his arm on a piece of glass, severing an artery. It was found impossible to check the flow of blood and the boy was brought to the city, where his wound was dressed at the hospital. He was later taken back to Westfield.

Cloudburst in Wyoming. Omaha, Neb., Aug. 6.—A brief despatch from Shoshone, Wyoming, reports a cloudburst in that city early today. Several persons are reported drowned and two feet of water in the streets. No further details are given.

Shot by Gunmen. New York, Aug. 6.—William Lustig, a young man of whom the police know little, except that he comes from a respectable family, is dying in Bellevue hospital, the victim of assassins. Lustig is believed to have been lured to "Humpty" Jackson's coffee house by a woman on Monday night. They had just taken a seat at a table when the woman suddenly left and Lustig started after her. He found his exit barred by four men with revolvers. They all fired and three of the four shots took effect. A big black touring car provided means of escape for the gunman. The police have no knowledge of what led up to the mysterious shooting.

THE CLIFTON INSTITUTE.

Clifton Branch of the New Brunswick Women's Institute held its annual meeting in the hall on the evening of Tuesday, August 5th, after partaking of a picnic tea with a large circle of admiring friends. Mrs. A. E. Wetmore, who was elected president, read a hearty and comprehensive address of welcome. Other officers installed were Mrs. N. Puddington, first vice-president; Mrs. G. Wetmore, second vice-president; Mrs. S. S. Carmichael, secretary-treasurer. Several pretty songs and readings were rendered. Mrs. M. Wetmore, R. N. of Norton, Mass., gave a highly appreciated talk on the training of children from birth to maturity. Miss G. Carmichael of the public school teaching staff, Montreal, demonstrated all arrangements of the pilgrimage. To them I give my sincere thanks for the excellent treatment accorded me. THIEVES ENTERED HOMES OF WEALTHY AND STEAL THOUSANDS IN GEMS

The wealthy summer residents of Narragansett Pier, R. I., are in a state of panic following a series of robberies during the last week. Mrs. John H. Hanan suffered the greatest loss. Thieves entered her home and took away jewels valued at \$100,000. The conclusion reached by detectives on this case is that the robbery was committed by some person who had access to the Hanan home. Mrs. Charles C. Ramsey, daughter of E. H. Harriman, also suffered heavy losses. Robbers entered her home and got away with \$75,000 worth of jewelry. The residences of Mrs. Albert B. Lambert and Mrs. John R. Fell, both of whom are prominent in the social world, were also robbed, but no estimate of the amount stolen has as yet been revealed.

THE PILGRIMAGE TO STE. ANNE DE BEAUPRE

Editor of The Standard: Sir: I would ask you to kindly allow me a small space in your paper to express by an open letter my heart-felt thanks and sincere gratitude to all those who helped me to make the double pilgrimage to Ste. Anne de Beaupre and Montreal a success. For it was one in the fullest sense of the word and in every respect, I am most thankful to all those who joined in the excursion, and take occasion to congratulate them on their most commendable conduct during the whole trip. I wish also to thank the agents all over the provinces who sold tickets for me, as well as those who acted as my train agents. I am grateful to the different branch lines of railways, as well as to the P. E. I. Railway and the Charlottetown Navigation Co., who granted special rates over their different roads. I think I have a special mention to make and have a heavy debt of gratitude to pay to H. H. Melanson, Esq., I. C. R. general passenger agent, of Moncton, and George Pulos, Esq., of the Traffic department of the Richelieu and Ontario Navigation Company, Montreal, for the judicious and efficient manner with which they conducted all arrangements of the pilgrimage. To them I give my sincere thanks for the excellent treatment accorded me. I am sorry that I have to signal

Health and Beauty Helps

Mary D: I want you to try the following recipe to whiten, soften and beautify the skin of your face and neck. One ounce of which you will find equally beneficial to the hands and arms. Though inexpensive, it is the best ever tried. Dissolve 4 ounces of glycerine in 12 pint with hazel (or hot water), then add 2 teaspoonful of glycerine. This will clear and soften your skin quickly, while removing tan, sunburn, freckles and other blemishes. Cora: Objectionable fuzzy or hairy growths are easily banished if you mix enough powdered delatone with water to form a thick paste and apply to hairy surface for 2 or 3 minutes, then rub off, wash the skin and every trace of hair is gone. Excepting in very aggravated cases, one application of delatone is sufficient. No harm will result, but be certain you get delatone. C. H. H.: The redness and dullness of your eyes, as well as the burning sensation of which you complain can be readily cured for practically nothing. Just get an ounce of cryolon, dissolve it in a pint of water and put a few drops in each eye daily. This is a natural tonic, which will both soothe and strengthen, while continuing to use brightens and beautifies the "windows of your soul," making them stronger and more attractive. A. M. F.: You should try this shampoo, which I always use because it keeps my hair lustrous and fluffy, and is so cheap and convenient. You can make it by dissolving a teaspoonful of cantroxin in a cup of hot water. Use while it is still very warm and rinse the hair thoroughly several times after you have shampooed it well. This shampoo also benefits the roots of the hair, keeps the scalp perfectly clear of dandruff and has an invigorating effect. A. J. B.: Your trouble with itching scalp and loss of hair can be overcome with this excellent quinine hair tonic, which I always make up here at home. Get an ounce of quinine

THE ROSS INVEST

To the Editor of the Globe: Sir—My attention has been called to the report of the coroner's inquest in the case of Ernest Ross in this morning's Telegraph and Standard. A grave injustice has been done me by statements credited to witnesses in this case. According to the Telegraph's report, Herbert Phillips, who was a former employe of the Norton Griffiths Dredging Company, and who had been discharged on July 18th for intoxication, is credited with the statement that he heard Captain Board and myself laughing while the man was in the water. This is an absolute falsehood, as well as other statements attributed to him. Another witness, George A. Driver, who was also an employe of the dredging company, and who was discharged for the like cause, gave evidence at a former hearing reflecting on the captain, which must be taken with a grain of salt owing to his manifest bias. The two inspectors who gave evidence, Edward N. Emery and George Finlay, have no love for me, as I ordered them both off the dredge and told them to get their grub elsewhere. I think in view of the evidence given at the last hearing, I should be given an opportunity to produce witnesses and statements which would name names to the coroner to be subpoenaed as witnesses at the next hearing. E. J. DINNEEN.

SHERIFF'S SALE

There will be sold at Public Auction on Thursday, 21st day of August, A. D. 1913, at 12 o'clock noon, at Chubb's Corner, so called, in the city of Saint John in the County and County of Saint John, all and singular, all the interest of Eugene L. H. Smith in all that lot of land described in a deed therefrom from one William Seely to Eugene L. H. Smith as "all those other lots of land and premises situate on the south side of Seely street aforesaid and described as follows: Commencing on the south side of Seely street eight-eight (88) feet from the eastern side line of Gooderich street, thence to the eastern side line of Seely street aforesaid one hundred and twenty (120) feet more or less to the eastern side line of said William Seely's lands; thence southerly at right angles to Seely street along the said eastern side line of said lands ninety-seven (97) feet six (6) inches to the rear of lots fronting on Venona Avenue; thence westerly parallel to Seely Street aforesaid along said rear line one hundred and twenty (120) feet and thence northerly at right angles to Seely street ninety-seven (97) feet six (6) inches more or less to the place of beginning, being lots numbers 7, 8 and 9 on said plan." Same has been levied on and seized by me under an execution issued out of the Supreme Court, in the case of Eugene L. H. Smith vs. said Eugene L. H. Smith and Herbert J. Smith, at the suit of Fred F. May, of Fred F. May.

THE EASIEST WAY TO BANISH HAIR

(Aids to Beauty.) A very simple method has been discovered whereby hairy growths can be removed from the face, neck or arms without pain or trouble. The new paste is made with a little powdered delatone and water and applied to the hairs not wanted, and after 2 or 3 minutes it is removed, when every trace of hair will have vanished. No harm results from this treatment and when the skin is washed to free it from the remaining delatone, it will be firm and spotless. Stubby eyelashes will grow long and curl beautifully if the new paste is applied at lash-roots with thumb and forefinger, and thin eyebrows come in thick and glossy, by rubbing pyroxin on occasionally. Use care not to get pyroxin where no hair is wanted.

AROUND THE CITY

Coroner Has't Decided.
 In regard to the triple drowning at Loch Lomond Coroner Berryman said last evening that no further steps had been taken in the matter, and he had not yet decided on an inquest.

Held on Serious Charge.
 Between 8 and 9 o'clock last evening Officer Briggs arrested Lindsay Saben, a native of Nova Scotia, and placed him in the North End station. Saben, who is 29 years old, is held on a serious charge.

Drunk and Disorderly.
 Yesterday afternoon a drunken man was arrested on the beach off the Red Head by County Policeman Armstrong. In addition to a charge of drunkenness he is charged with disorderly conduct.

Keys and Watch Found.
 Two keys found on Brussels street and a watch found on the City Road have been handed to the chief of police and the owners can receive the same on application at the central police station.

A St. John Man "Written Up."
 McLean's Magazine for the current month contains an interesting sketch of the St. John man, Mr. Nelson, who wrote the song, "My Own Canadian Home." The article is written by Rev. H. A. Cody, pastor of St. James' church.

Illegal Salmon Netting.
 Complaints have been made that parties living along Black River have been netting salmon after they entered the river. J. F. Calder, fisheries inspector for St. John and Charlotte counties, went to Black River yesterday and made an investigation, obtaining information which showed that the complaints were well founded. The inspector will take action to prevent the use of salmon nets in the river in the future.

Alphonse Verville Coming.
 Alphonse Verville, of Montreal, the only labor representative in the Canadian parliament is expected in St. John in a few days. While here, it is expected he will address a meeting in the interests of the local labor party. Mr. Verville, who was a plumber, by trade before entering politics, has sat in parliament several terms, and is regarded as an able speaker, having a good command of English as well as of French. He was for two years President of the Trades and Labor Congress of Canada.

The Local Coal Tariff.
 In reference to the statement in an evening paper that new I. C. R. tariff on coal from Norton to St. John had become operative, it was said that the I. C. R. offices that the new tariff which raises the rate 35 to 70 cents a ton between the points mentioned went into effect on July 15th. Considerable quantities of coal have been shipped from the Grand Lake district to St. John, but it is expected that when the C. P. R. starts taking out coal by the way of the road to Fredericton there will be a falling off in this traffic.

Had a Narrow Escape.
 An Italian laborer named Guiseppe Lovatti had a narrow escape from being badly injured on the Market Square about nine o'clock last night. With a couple of companions, and carrying a heavy valise, he ran to catch a street car bound north and got on the wrong side of the car. The car was starting off at a rapid rate and as the Italian was crawling on in under the passenger guard a car coming from the North End was about to cross it on the Market Square when the motorman, seeing the form of the man on the side of the car, brought his car to a stop just in time to save crushing Lovatti between the two cars. A number of people witnessed the affair and it was indeed a narrow escape for the foreigner.

Mrs. J. S. McGivern.
 The many friends of Mrs. James S. McGivern will learn with the deepest regret of her death, which took place at her home, 80 Duke street, yesterday. The deceased had been ailing for the past two years, but was only seriously ill for seven weeks. Besides her husband she leaves two daughters—Mrs. J. D. McKean, 25 Sussex and Miss Annie at home; also a son, Richard J., of Vancouver, B. C.

The late Mrs. McGivern was a daughter of Rev. W. H. Snyder, formerly of Mahoon, N. S., and in addition to a large circle of friends in this city she has many friends throughout Nova Scotia who will be grieved to learn of her demise.

The funeral will take place from her late home tomorrow afternoon at three o'clock.

GOOD WORK OF LOCAL DIVER

Edward Lahey Successfully Raised Large Tug In Bay Chaleur on Bottom Since Last Spring.

Diver Edward Lahey, of this city, arrived home yesterday morning from Bay Chaleur and is receiving the congratulations of his friends on his success in having raised and saved a large steam tug called the St. Isidore owned by the Prescott Lumber Company on the Benjamin River in the Bay. The tug is 110 feet over all and 35 feet beam, is a side wheeler, and is rated as one of the most powerful tugs in the Bay. Last spring she got caught in an ice flow off Dutch's Cove and it is thought that one of the dead lights was broken in the ice jam causing her to fill and sink about 150 feet off shore. A number of men attempted to raise the steamer but were unsuccessful and word was sent to St. John to send Diver Lahey to do the work. Diver Lahey with his pumps, etc., went to work on July 10th and although he found the task a hard one he was very successful. The steamer was sunk deeply in the mud but after hard work he managed to place four heavy slings under her and the cables were fastened to large scows.

Last Saturday when Diver Lahey was satisfied that all was ready the scows were made fast to the cables and the tug was raised with the flood tide. Another tugboat had been engaged to tow the sunken steamer to a place to beach her but on the way to the scene this tugboat broke shaft so two powerful gasoline boats were used and the sunken St. Isidore supported by the scows, was towed to the Benjamin River, about four miles above the cove and beached on Sunday. When Diver Lahey left her on Sunday last she was clear of water and the damage to her could be easily repaired.

The sunken craft was beached none too soon for shortly afterwards there was a terrific storm and the wind blew a gale and caused considerable damage in that vicinity. A mill chimney was blown down, a small boat wrecked and a boathouse was blown over at Dutch's Cove.

It was while engaged in raising the St. Isidore that the services of Diver Lahey proved handy for the captain of the big steamer Count Oscar. On the voyage to the Bay Chaleur from Liverpool the steamer lost two blades of her propeller and while these blades were being placed into position one of the heavy nuts weighing 200 pounds sank to the bed of the river. Diver Lahey was engaged and recovered the nut and the work of replacing the blades was proceeded with successfully.

WILCOX REID COMMITTED FOR TRIAL

Will Be Tried in Higher Court On Infanticide Charge.

HEARING OF CASE IN SUNBURY REFUSED

Bell Boy's Evidence Disagrees With Prisoner's—Magistrate Says Testimony So Far Is Solely Circumstantial.

The preliminary hearing was continued yesterday in the police court in the case of Viola Reid, who has been confined to jail for some months on a charge of infanticide.

The hearing was commenced at 2 o'clock. Little new evidence was taken, the session being practically wholly taken up with the reviewing of the evidence submitted by previous witnesses.

After the counsel for both the defence and crown had recalled the contents of the hotel and left her, Magistrate Ritchie briefly reviewed the evidence given by the different witnesses, clearly stating the case as it had been presented, and after stating that it only rested with him to say if there was sufficient evidence to send the accused up for trial, he committed the prisoner for trial on the charge of infanticide.

F. A. Guthrie, of Fredericton, was present as counsel for the defence, and B. L. Gerow conducted the case for the crown.

William T. Leavitt, bell boy at the Dufferin Hotel, was called to the stand and he recalled the arrival of Miss Reid at the hotel, that when getting out of the elevator and entering the hotel she was carrying a suitcase and a baby. He had ushered her into the parlor of the hotel and left her there. He knew nothing of her whereabouts after that. Contrary to the statement of the girl brought out in the evidence, he recalled that she had stated that she was alone with the girl in the parlor and when he was leaving he saw a man in the parlor. According to previous evidence, Miss Reid had stated that she had given the baby to a nurse at the hotel while she was in the parlor.

Miss Cook, nurse at the Evangeline Home, was called to the stand and she stated that the woman who on the 16th day of April, called at the home and took Miss Reid and the infant baby.

William Williamson had given evidence at the hearing, and while he recalled driving a woman and infant from the home somewhere about the 16th day of April, he could not swear Viola Reid was the girl.

It was the purpose of bringing out that she was the person in question that Miss Cook was recalled.

F. A. Guthrie, counsel for the defence, briefly reviewed the points brought out in the preliminary hearing and argued that the case was in Sunbury County as it was there that the child had been found, and that there was more evidence that there the crime had been committed. B. L. Gerow, for the crown, referred to a section of the criminal code which stated that if there was any doubt in the mind of the magistrate holding a preliminary examination as to where the crime had been committed, it was within his jurisdiction to determine where the trial was to be held. He stated that he was committed to a hearing in Sunbury county was not granted.

Mr. Gerow briefly reviewed the facts brought out in the evidence and argued that there had been sufficient evidence submitted to send the accused up for trial.

Magistrate Ritchie, in reviewing the evidence, noted that little had been stated by any of the witnesses of what had transpired from the time the accused entered the hotel till she boarded the train at the depot. He remarked that the case depended largely on circumstantial evidence, but this was often found to be more positive than direct evidence. He recalled the fact that while no identification of the child as the accused's, had been made, it had been stated that three different articles of clothing found on the dead infant were identically the same as those worn by the child of Miss Reid while in the Evangeline Home.

The Magistrate remarked that it did not rest with him to say whether or not the accused was guilty, but simply to state whether or not sufficient evidence had been submitted to commit the girl to trial. The case, he said, then rested with the grand jury to see if there was sufficient evidence to find a true bill, in which case the accused would be tried on the charge of infanticide. He then committed the girl for trial.

GOOD WORK OF LOCAL DIVER

Halifax Lad Who Ran Away With the Howe Show Arrested Here and Will Be Taken Home.

A couple of days ago chief of Police Clark received a wire from Chief Rudland, of Halifax, requesting him to locate and hold a boy named John Dunn, who was believed to have run away from Halifax with the Howe Circus. Yesterday afternoon about 2:30 o'clock Patrolman Crawford found the young fellow driving a team for a man named Parks and locked him up in the police station to await word from Halifax.

Young Dunn is only 15 years of age. He said that after being with the circus for a few days he got enough of it, as he found it a hard life, and when he arrived in St. John he decided to remain here, so he left the circus and obtained work driving a team.

It is expected that some person will arrive from Halifax this morning to take the young fellow back to Halifax.

AFTER ALL, BABIES LOOK SO MUCH ALIKE

North End Mothers Wheel-Ed Each Other's Infant Home Before Finding Their Mistake.

Two North End mothers were the principals in an amusing mix up last evening which will be related with considerable amusement by their friends. While they were talking their babies for an outing. Accordingly the baby carriages were requisitioned and the two youngsters carefully tucked in.

On Main street the mothers met and stopped to chat. After they had discussed upon the safe movement, the price of coal, and the very latest things in fall hats, they separated. While they were talking the care of their respective infants was confided to children who were playing in the vicinity. When the mothers returned their way it was with the wrong babies. The carriages were much alike, and each having fallen the mistake was not noticed until the first of the women to reach home discovered that she had brought a child not her own. Ensued a hasty search for her neighbor an exchange and the infants were again motioned by the proper women, but until some of their friends had had a hearty laugh over the exchange.

WIDESPREAD INTEREST IN SILVER BLACK FOXES

The Taylor's Company Industry on a Sound Basis—A Popular Investment.

From the news columns of papers in Quebec, Ontario and the western provinces it would appear that the Silver Black Fox Industry is appealing strongly to the investor throughout the Dominion. One scarcely needs to refer nowadays without finding some reference to this money-making business, evidencing the widespread interest in financial affairs, that is being shown in the industry. The report of the Government Committee on Conservation, which was made last week, confirmed the fact that the industry is on a business basis, and that there is still considerable time in which large profits will be garnered by the shareholders in the first class case. Amongst these is the Taylor's Silver Black Fox Company, Limited, which has a very favorable guarantee, and under which they will pay to their shareholders a substantial profit next season. An advertisement of the company appears on another page of this paper.

The new fall dress materials are being shown in satisfying assortment at P. A. Dyckman & Co.'s. The past season being the largest in this department that they have ever experienced induced them to buy heavily for the coming season. Buying as they do, direct from first hands, the middle man's profits is eliminated. That is why you will find prices at their store a shade less than elsewhere. They buy for a spot cash, that is another factor in getting the prices down. Go there when you want correct dress goods at the most attractive price.
