Washington Looks for German Surrender British Army Delivers a Smashing Blow

HAIG'S MEN IN MIGHTY BLOW CAPTURE 10,000 PRISONERS

British in Attack on Wide Front Sterm Line of Sambre Canal, Advance More Than Three Miles Beyond it to East, Take Two Hundred Big Guns and Numerous Villages—French Cooperate.

London, Nov. 4.—Breaking deeply into the enemy positions along a thirty mile front today the British captured more than ten thousand prisoners and two hundred guns, Field Marshal Haig reports tonight.

The British have entered Oisy, and further north have captured Lancrecies. From the latter point to just west of Guise, which is still in the enemy's hands, the British advanced along the Sambre-Oise Canal and the Oise.

Fighting is proceeding around Lequesnoy, where the Germans launched a heavy counter-attack.

Storm Canal Line.

The line of the Sambre Canal was stormed, and the British made an advance of more than three miles beyond it to the east.

Gen. Haig's statement says: "This morning troops of the Fourth, Third and First British Armies attacked between the Sambre Canal, Oisy and the River Scheidt, north of Valenciennes. On the whole of this thirty-mile front troops from the United Kingdom and New Zealand have broken deeply into the enemy's positions. Over ten thousand prisoners and 200 guns are already reported captured.

Attacked with French.

"On the right of the attack the First and Thirty-Second Divisions advanced to the assault in conjunction with French forces operating to the south of them. With great dash and gallantry these two divisions stormed the formidable obstacle presented by the line of the Sambre Canal, and in spite of strong resistance from the enemy, have pressed on to a depth of over three miles to the east of it. "In these operations the First Division under command of General Strickland, having captured the town of Calloux, forced passage of the canal opposite the place and near the lock two miles to the south of it. At the latter point, assisted by Royal Engineers, the First Cameron Highlanders effected the passage of the canal in six minutes. "In its subsequent advance this division captured the villages of Fesmy, Hautreuve and La Groisse, with 1,600 prisoners.

Take Ruedenhaut.

"On its left the 32nd Division crossed the canal at Ora and after severe fighting took Ruedenhaut, having cleared the line of the canal to the south and north of this village. It continued its advance, and drove the enemy from the villages of Mezieres, Lafolle and Sambretion. "In the centre of the attack the 12th Division, under General Marland, the Fifth, General Harper, attacked the western face of Mormal Forest. "After heavy fighting the infantry and tanks drove the enemy from his positions in the western outskirts of the forest, capturing the villages of Soyeres, Preux-Au-Bois, Heoc, Fuloy and Louvignies. "Thereafter our infantry continued the advance, overcoming alike the great natural difficulties of the heavily wooded ground and the resistance of the enemy.

Lancrecies Falls.

"Moving though the enclosed country on the southern edge of the forest the 25th Division forced crossings of the Sambre Canal opposite Lancrecies, and captured the town. Further north the 15th and 50th Divisions penetrated deeply into the forest itself and are still advancing. "The 38th Division has reached Les Grandes Fatures and the 17th Division has captured Locquignot, in the sector of the forest. "Severe fighting took place this morning in the neighborhood of Lequesnoy, where the enemy counter-attacked in force and was repulsed by a New Zealand Division with great loss in killed and prisoners. Our troops have passed to the south and north of this fortified town, and are now several miles to the east of it.

SOME CHANGES MAY BE MADE IN CABINET

Ottawa Citizen Hears That There Will Be a Reconstruction Soon.

FRED PARDEE MAY GET A PORTFOLIO

London Times Considers it Time for Representation at London.

Ottawa, Nov. 4.—The Evening Citizen asserts that there will be a re-organization of the cabinet soon and that Mr. Fred Pardee, M. P. for West Lambton, may be given a portfolio.

London, Nov. 4. (Canadian Press despatch from Reuters, Ltd.)—The Times discussing the necessity for preparation for diplomatic work with a view to peace, says it is high time for Britain to assemble representatives of the dominions whose full participation in the peace conferences is a matter of course. "Austria and South Africa have already their chosen statesmen with us," the Times adds.

Many Surmises.

Ottawa, Nov. 4.—While the possibility of the summoning of parliament being either hastened or delayed if the end of the war comes soon is a matter of some speculation in political and official circles at the capital, statements as to the intentions of the government are based upon speculative surmises only. Up to the present time there has been no official intimation of any kind and the government's course will of course depend upon the developments in Europe. In this connection it is pointed out until a treaty of peace is actually signed the measures and instruments enacted and created for the purposes of the prosecution of the war will remain effective. When it was assumed that the war would last at least until the spring months the expectation was that parliament would meet about the middle of January.

It is considered improbable that any overseas happenings will cause it to be summoned early. If they are along lines indicated by recent momentary developments it is probably more likely that the meeting of parliament may be somewhat delayed. An authoritative statement as to the government's intentions will undoubtedly be made when it is definitely known whether or not Germany will accept the armistice proposals framed at Versailles.

MRS. D. B. ALLEN ILL.

Special to The Standard. St. Stephen, Nov. 4.—It was learned here this afternoon with profound regret that Mrs. D. Boise Allen who had accompanied to Marathon, N. Y., the remains of her young husband who had died here of influenza, is herself stricken with the disease and is critically ill in Marathon.

300,000 Austrians Taken By Italians

Victorious Armies of King Victor Emmanuel, Who Commanded in Person, Captured Five Thousand Guns From Enemy Before Armistice Went Into Effect—Austrian Army Destroyed.

Washington, Nov. 4.—Three hundred thousand Austrian soldiers and not less than 5,000 guns had been captured by the victorious Italian armies before the armistice went into effect at three o'clock this afternoon, said an official despatch tonight from Rome.

This included all captures since the offensive began October 24. The soldiers of the once powerful Austrian army, the despatch said, continued to flee in disorder. Since the offensive started, sixty-three Austro-Hungarian divisions were put out of combat by fifty-one Italian divisions, three British and two French divisions, with Czech-Slovak units and an American regiment.

Under King's Command. "The war against Austria-Hungary, which was conducted under the direct command of His Majesty, the King of Italy, with an army inferior in number and still inferior means since the 24th of May, 1915, has come to an end," said the despatch.

"With unshakable faith and indomitable valor the Italian army waged a continuous and hard war for a period of forty-one months and won the stupendous battle begun the 24th of October and in which were engaged in their entirety all the resources of the empire. "So far the enemy has left in our hands 300,000 prisoners and not less than 5,000 guns. The soldiers who used to be one of the most powerful armies in the world are now fleeing in disorder and without hope from the valleys which they had invaded with truculent confidence.

Had Fifty-One Divisions. "On October 21, after having overcome on strongly fortified positions the resistance of powerful enemy rearguards, our troops consisting of fifty-one Italian divisions, three British and two French divisions with Czech-Slovak units and an American regiment, put out of combat sixty-three Austro-Hungarian divisions.

"The rapid and most daring advance of the 29th army corps to the city of Trent, precluding the retreat of the defeated enemy troops, pressed from the west by the 37th army corps and from east by the first, sixth and fourth army corps, determined yesterday the complete crumbling of the Austrian front. "From the River Brenta to the sea, the irresistible impetus of the twelfth, eighth and eighth army corps pressed inexorably the enemy retreating across the plains. The Duke of Austria is advancing rapidly at the head of his inevitable third army, anxious to return to the old positions which he had once heroically conquered. "The Austro-Hungarian army is destroyed. It has suffered heavy losses in the tenacious resistance during the first days of the offensive and in the pursuit, it lost an enormous quantity of material and artillery. "In Albania, our advance guards have occupied Scutari."

VIENNA DELIRIOUS OVER-ARMISTICE

Lively Time in Old Town and Folks Hug Each Other—Report of Emperor's Abdication.

Geneva, Nov. 4.—(By The Associated Press)—Vienna was delirious with joy when it was learned that an armistice had been declared. The streets were soon crowded with men and women and children, crying and embracing each other. The general opinion is that food will follow peace. The report that Emperor Charles has abdicated roused little interest. The Austrian press is attempting to calm the population, emphasizing the fact that the armistice terms are of a most severe nature and involve great sacrifices to the empire and the people.

Monarchy or Republic? Amsterdam, Nov. 4.—Count Karolyi, the Hungarian premier, addressing a public meeting, is quoted in a despatch from Budapest as saying: "The elementary power and public opinion having desired that not only democracy and independence should be realized but that a decision should be taken regarding the future form of government, the King, at the government's request, has released the ministers from their oath."

A resolution was then passed providing for a plebiscite to decide on the question of a monarchy or a republic for Hungary.

Croatian Diet. Berne, Nov. 4.—(By The Associated Press)—The Croatian Diet, meeting at Agram, has adopted unanimously a resolution calling for the re-establishment of the Austrian kingdom and uniting Croatia, Slavonia and Dalmatia with independent Austria.

Archduke Submits. Amsterdam, Nov. 4.—Archduke Joseph of Austria and his son, Archduke Joseph Franz, according to a despatch from Budapest, have taken an oath to submit unconditionally to the orders of the National Council of Hungary and to support it in all its decrees.

Amsterdam, Nov. 4.—The Czech troops are disarming German-Austrian and Hungarian troops in the Czech towns of Bohemia and Moravia, according to a despatch from Prague.

THE ALLIES SIGN TERMS OF A GERMAN ARMISTICE

If Accepted They Mean Surrender and Immediate End of War.

CONDITIONS WOULD MAKE HUNS HELPLESS

Signing of Agreement By Allied Representatives and United States.

Washington, Nov. 4.—Armistice terms to be offered Germany have been agreed upon unanimously and signed by representatives of the Allies and the United States and France. It accepted they mean surrender and the immediate end of the war, leaving final peace terms to the dictation of the victors.

Secretary Lansing announced the agreement tonight, saying that the conditions follow the outline given by President Wilson of what would be required to preserve the supremacy of the Allied arms and render Germany powerless to renew hostilities. Secretary Lansing announced the agreement tonight, saying that diplomatic unity has been completely restored under conditions of utmost harmony.

It is understood the terms are to be submitted to Germany immediately, and that their publication in full will follow shortly. The statement has been authorized that the drastic conditions under which Austria dropped out of the war today furnish an accurate indication of their nature.

Austria's Exit. Washington, Nov. 4.—Austria-Hungary, the last and most powerful ally of Germany, passed out of the world today under terms of abject surrender. Not only have the armed forces of the once powerful Austro-Hungarian empire laid down their arms to await the end of the war and peace terms dictated by the Allies and the United States, but Austria-Hungary territory is open for operations against Germany. Even the munitions of the former Kaiser's armies if refused to accept conditions now being prepared for them make prolonged fighting necessary.

Drastic Terms. The terms which stopped the victorious advance on the Italian front were accepted by Austrian command-in-chief, in the name of the Vienna government, and their execution is guaranteed by the thorough beating already administered which had converted the defeated army into a disorganized, fleeing horde. Even the terms imposed previously upon Bulgaria and Turkey hardly were so drastic. In addition to all of the military precautions, the Austrians are compelled to retire from a wide strip of territory within the borders of their empire when the war began, surrendering all of Italy irretrievably and thereby losing any advantage for argument over boundaries around a peace table.

Sent to Berlin. The presumption in official circles here was that the stipulations would be in the hands of the German government in less than twenty-four hours. If they are accepted, a reply settling the issue of peace or further fighting may also be received within that time. The uncertainty caused President Wilson to cancel tonight his proposed trip to New Jersey tomorrow to cast his vote in the congressional elections.

Although the complete text of the historic Versailles document probably is only now on the cables for Washington, its substance had been reported upon fully, and approved by the President before the final draft was prepared. Subjected to analysis by military officials here, both Allied and American, the terms of the Austrian armistice which are said to be no more drastic than those for Germany, are interpreted to mean absolute surrender.

Will Likely Surrender. Nothing is left to the good faith of the vanquished, and no restrictions or limitations are imposed upon the victors. These officers believe Germany, left alone, also must throw herself without reserve upon the mercy of the victors.

Final adjustments, territorial or otherwise, are all deferred to the peace conference for which the cessation of hostilities paves the way. The official report received here today.

German Leaders Fear An Uprising At Home

Events in Austria-Hungary Induce Them to Believe That it Would Be Advisable to End the War—Winter Season May Enable Germans to Hold Out Until Spring.

(By Arthur S. Draper). Special cable to New York Tribune and St. John Standard.

London, Nov. 4.—Despite the weather, the Flanders and Argonne pushes are continuing in a highly encouraging manner. King Albert's army has reached Ghent and Liggett's first American army has come to the outskirts of Dun and within fourteen miles of the railway at Stonay. The Americans are now with the stride and it is possible that they will close the southern gap within a reasonable time. The American advance has proven a great assistance to Gouraud in operating on their left, the enemy being forced to withdraw to maintain their alignment. In three days of fighting the Allies have taken nearly 15,000 Germans and 100 guns, a severe loss to the enemy at this stage when the Austrian divisions are being withdrawn.

Full of Fight. The British who pushed a mile and a half beyond Valenciennes found the enemy full of fight, and had to meet several strong counter attacks south of that town. The French between the Serre and the Oise have also encountered strong resistance, but in Flanders the Germans are drawing behind the Scheidt, leaving behind only clusters of machine guns to check the advance of the Belgians. The French, British and Americans are attacking between the Dutch border and Tournai. All reports show the enemy capable of offering powerful opposition whenever he considers it necessary to hold a particular sector at the top. There are no signs of rout, such as the Austrians experienced. There is every indication that the Germans can hold on throughout the winter if they refuse to submit to the armistice terms.

DECLARE KAISER NEED NOT QUIT

Amsterdam, Nov. 4.—Party leaders of the German Reichstag in their recent discussion decided that there was no necessity for the abdication of Emperor William. The Lokai Anzeiger of Berlin says, "It was officially announced in Berlin today that Emperor William's military cabinet has been placed under the minister of war. Germany, the organ of the Centrist party, already has announced that the Centrist party demands the Kaiser's retention on the throne. The national Liberals are reported to have taken the stand that the Emperor and Hohenzollern dynasty must remain as a symbol of German unity. A majority of the Progressive party also is said to support the Emperor, and the Christian Social Workers are championing his cause.

German appeal for an armistice was submitted on the basis of acceptance of the peace terms already outlined by President Wilson, and when the discussion starts the Allies and the United States will be in a position to dictate its results. In fact, the real peace conference has been sitting at Versailles.

The judgment of army officers as to the situation on the western front in a military sense is that Germany must accept the armistice conditions or face a debacle of her armies. Signs of disintegration of the German forces facing the Franco-American lines have been evident for two days. The German official statement yesterday admitted an American break through. If the breach is widened the German armies will be cut in half as effectively as were the Austrian armies in Italy. They then may be crushed separately. So strong is the impression here that Germany will accept, that when word came that a statement was to be issued by the State Department tonight, a Washington newspaper put out an extra saying that the war was over and that Germany had surrendered. It caused no excitement. The Versailles conferees evidently did not sign the final draft of the armistice terms until late today. Just before 5 p.m. it was stated at the State Department that the work had not been completed. An hour later word went out from the department that an important statement would be forthcoming at 9 p.m.

ARE NEAR GHENT. London, Nov. 4. (British Admiralty Wireless)—Belgian troops are in the outskirts of Ghent, according to an official report received here today.

Events in Austria-Hungary which have hitherto been viewed by Germany merely in relation to their effect on her own chance of continuing the war or obtaining a satisfactory peace age now beginning to inspire fears for the future, in which the acceptance of defeat is already discounted. There is a dangerous element in the German body politics which might go far beyond the lines laid down by the independent Socialists. This fear is now coming universally to express in the German press. It may be behind the remark of the Berlin Tageblatt, the developments in the neighboring monarchy remind one desperately of the soldiers' and workmen's councils of the Bolsheviks in Russia, and it is echoed also in another journal, which reminds its readers that prophecies of Trotsky and Lenin are already finding fulfillment in Austria-Hungary.

Junkers Fear Uprising. It is probable that among the powerful reasons which are urging the Berlin government to make peace at all costs is this same dread of what will happen if the miseries of war continued and of what may be impossible to prevent, even should peace be secured immediately.

The conditions in Austria-Hungary are so generally known in England that the latest reports here indicate a fate approaching anarchy. A despatch from Vienna, says: "Although excitement reigns at Prague, so far order has not been disturbed in Croatia. However, unrest is spreading, and bands of deserters are plundering in the village of Nasic. Posenega and Murtevac are burning, and the palace of Baron Gutman and Count Peljasevitch have been plundered and set on fire. Warehouses of the Hungarian State Railways have been broken into and a hundred wagons of foodstuffs carried off. Trains have been repeatedly fired on, and an express from Budapest has been plundered." (Continued on Page Two.)

GERMAN GOVERNMENT MAKES PROTEST AGAINST AIR RAIDS

The Master Culprit Squeals When He Finds Himself Getting Hit.

THREATENS TO RAID ALLIED TERRITORIES AGAIN Claims That Orders Were Issued to Leave Civilians Alone.

Amsterdam, Nov. 4.—An official telegram from Cologne says that twenty-seven persons were killed and thirty-five others were badly injured in an Allied aerial attack on Bonn, fourteen miles southeast of Cologne.

Washington, Nov. 4.—The German government today notified the United States that since October 1 its air forces have been under orders to make bomb attacks solely against important military and industrial objects within the immediate operations of war on the assumption that Allied and American air forces were to receive similar instructions.

The note delivered through the Swiss Legation, protests that air raids have been carried out recently against several German towns with loss of life among the civilian population and that unless such raids cease Germany can not refrain from aerial attacks on Allied territory outside of the zone of operations.

News to Washington. This was the first notice received by the American government that such orders had been issued to the German air forces, which have constantly raided defenseless cities and towns in France, Great Britain and Italy since the war began. The state department made public the German note without comment.

It follows: "The German aerial forces have been under orders since the beginning of October of this year only to make bomb attacks, which are directed solely against important military and industrial objects within the immediate operations of war. These orders were issued on the assumption that the enemy aerial forces were to receive similar instructions.

More Hypocrisy. "In assuming this the German people find themselves disappointed. A short time ago the enemy made bomb attacks on the German towns of Wetzlar, Kalserslautern, Mannheim, Ludwigshafen, Freiburg, Forbach, and Weisbaden, claiming numerous victims among the civilian population, nor has occupied territory been spared. It is evident that Germany can refrain from aerial attacks on enemy territory behind the area of operations only if, on their side, the enemy from now on will reciprocate and also refrain from making aerial attacks outside the area of military operations.

"In the expectation that the intention shared by the other side to further humanity and preserve important objects of culture will meet with the understanding of the opponents the German government proposes to the governments of the other belligerent countries that corresponding instructions be issued without delay to their aerial forces, informing them of the measures taken."

Looks Like Joke. There was no intimation as to what action, if any, the American government would take with regard to the German protest. It was said authoritatively, however, that official reports show that American air operations have not up to this time gone beyond attacks upon purely military objectives. Such damage as may have been caused to non-military property and civilian losses have been incidental, it was said.

In view of the repeated raids of German air forces during the past four years not only on defenseless towns in France, England and Belgium, but also on hospitals plainly marked and far beyond the fighting zones, military and diplomatic observers here do not believe the German protest will be taken seriously by the Allied governments.

HAIG'S MEN IN MIGHTY BLOW CAPTURE 10,000 PRISONERS (Continued from Page One.) "On the left English troops, having followed up the enemy closely through out his withdrawal yesterday morning, attacked and drove him from his new positions on the line of Anouille River. East of this river the guards division has captured Preux-Au-Sart, and the 24th Division has captured Wargnies-Te-Petit and Wargnies-Le-Sand.

The 115th Division has crossed the Anouille River east of Jenlain. "Further north our troops hold Sebourg and Sebourg-aux-Jules. "On the extreme left, to the east of Valenciennes, the Canadian troops have made progress along the right bank of the Scheldt and have passed beyond Estreux and Onnaing.

"Our advance is continuing on the whole battlefield."

ST. JOHN MAN GETS HONORABLE MENTION IN POETRY CONTEST

Verse by J. Mortimer Robertson was "Highly Commended" in Victory Bond Competition.

A St. John man, J. Mortimer Robertson, has been awarded "honorable mention" by the Victory Loan Committee in a poem entitled "A Victory Sonnet," which he forwarded to the Central Loan Committee in a contest for the poem that would prove of most value in the bond selling campaign and at the same time breathe the true spirit of patriotism. Contributions were received from over 1,100 competitors and a goodly number of the poems submitted were meritorious, making it quite difficult to award a prize.

Professor M. W. Wallace, Toronto, acted as judge, and gave the award to George H. Maitland, a Toronto newspaper man. In making the award, which was not an easy matter, the judge considered those poems which combined patriotism and bond-selling appeal, many of the contributors were looked the way of the requirements in degree, but all breathed the spirit of patriotism.

The local man is mentioned along with a few others who have received "special" honorable mention, and he is to be congratulated on his success. Each of those awarded special mention is entitled to a prize of a \$3 special piece, which will be forwarded through a channel designated for the purpose. The local poem is the subject of much favorable comment by the writer, J. Mortimer Robertson, 44 King Square. The poem is as follows: A Victory Sonnet.

Men of fair Canada, and women too! Your sons and brothers have gone forth to die; They faltered not, nor raised the question "Why?" Their only thought, to see this vile thing through. Some of them, doubtless, will come back to you. Broken of limb, or with the slightest eye. Dare you, with folded hands, stand idly by? Nor do you sit down the foul Hun new? You cannot go yourself! Then you can strew Your money for the cause we hold so high. "Five hundred millions needed"—hear the cry. And heed it, to your country's call prove true. Canada's Victory Loan again is due. Save to the uttermost, and buy! buy! buy!"

ANDREW D. WHITE DIES AT ITHACA

Was Cornell's First President and One of Foremost Diplomats of United States.

Ithaca, N.Y., Nov. 4.—Dr. Andrew D. White, Cornell University's first president and former ambassador to Germany and minister to Russia, and one of the foremost diplomats and statesmen of the United States, died here this morning at his home as the result of a stroke of paralysis, which he suffered last Friday, Nov. 1. The funeral will be held on Thursday, Nov. 7, the anniversary of Dr. White's birthday.

Andrew Dickson White, Ph.D., LL.D., L.H.D., D.C.L., was born at Homer, Cortland Co., N.Y., Nov. 7, 1832, the son of Horace White and Clara Dickson. He was graduated from Yale University in 1853, travelled in Europe, studied at Sorbonne and College de France 1853-54. From 1854 to 1855 he was attaché to the United States Legation at Petrograd. From 1855 to 1856 he studied at the University of Berlin. He became professor of history and English literature at the University of Michigan, remaining there from 1857 to 1863. In 1863 he went to Syracuse, N.Y., and was elected state senator. During his four years term he introduced much important legislation which became law, including a bill incorporating Cornell University, of which he became the first president, serving from 1868 to 1885. In addition to the presidency he filled the chair of modern history and thoroughly equipped Cornell to become a modern institution. Later he was United States ambassador to Berlin and minister to Russia. In 1899 he attended the peace conference at The Hague, and he had served on important foreign commissions sent by the United States. He had filled other positions and had written many books.

POTATOES DULL

Fredrickton, Nov. 4.—The local potato market is exceedingly quiet. Good stock is worth nominally \$2.50 per barrel, but the spuds are not coming in. Many farmers as well as their help are down with the Spanish "flu," and that may be one of the chief causes for the quiet market.

Quotations from Boston this morning, received by a local shipper, are \$2 per 100-pound sacks. This surely does not forecast any very high figure for New Brunswick potatoes this year. New York and Boston distributors find it difficult to explain the lack of interest at the distributing houses there. Reports received by the commission merchants are to the effect that from most country shipping points the market is a little stronger, but as far as the distributing centres are concerned the market is dull, with very little interest being taken by the buyers.

EPIDEMIC DEATHS FOR THE MONTH TOTALLED NINETY

Grand Total of Deaths in City Was One Hundred and Sixty-Three—Influenza Appears to Have Passed Zenith.

Reports to the Board of Health for the past two days would seem to indicate that the epidemic of influenza had passed its zenith and was now on the decline. Five cases reported on Sunday were listed yesterday and only eight new cases were reported to the board. Twenty-three houses were released from quarantine.

The deaths for the month of October from pneumonia, broncho-pneumonia and influenza totalled ninety out of a grand total of one hundred and sixty-three. T. M. Burns, secretary of the board, said this was the largest number of deaths in one month in the history of the board, and it had been keeping records for thirty years.

The deaths reported from the three diseases were: Resident Non-res. Total. Influenza, 18 4 22. Pneumonia, 11 13 24. Broncho-pneumonia, 14 14 28.

Yesterday a call for experienced nurses to care for pneumonia cases among the Indians at Hampstead reached Hon. Dr. Roberts and he turned the call over to Mrs. G. A. Kuhring. A hospital has been secured and the sick persons placed in it but there is a lack of experienced nurses and Mrs. Kuhring has issued a call for help from this class. Any woman who has had experience in nursing the sick can be of service. Miss Burditt of East St. John has volunteered and will leave for Hampstead tomorrow, but she needs any woman willing to go with her or follow her to that village will please notify Mrs. Kuhring, 81 Sewell street. Immediately on receiving the call for help Hon. Dr. Roberts got in touch with Lieut.-Col. McAtty of the Depot Battalion and he secured two Indian volunteers from the battalion who went to Hampstead at ten o'clock and have not had the necessary experience to deal with pneumonia cases and hence the call for experienced women. Mrs. Kuhring would be glad to hear from any woman in any part of the province who would be able to answer this Macedonian call.

FURTHER DEATHS IN YORK COUNTY

Temporary Hospital Fitted at Hampstead—Improvement at Devon.

At Hampstead a construction camp has been started as a temporary hospital and six Indians, with pneumonia, are in the Devon Reserve there has been a general improvement, with but two cases still serious. The Whittlock died from pneumonia at his home, Miramichi road, aged 37 years. His parents, wife, four children, four sisters and two brothers survive. Miss Mona M. Moody, aged 24 years, died last night at Prince William from pneumonia, following influenza. Her father and two brothers survive. Harry O. Donnell of Miramichi, aged 30 years, died here today of pneumonia. He came to nurse a relative who had the disease. His father and wife at Miramichi survive.

W. J. S. Miles, principal of the St. John High School, the next speaker, made a splendid speech telling in a few words what he had seen and what a person who realized what the war for the boys overseas. We owe it to the men in responsible positions who have to finance the war. The man who is to be admitted to the one who help him in the future to buy a bond, and the man who dies his money out of the soil.

Premier Foster said he expected to go to Ottawa in the near future to confer with the Provincial Premiers, and he hoped to be able to stand there and say that New Brunswick had overshot her quota. W. J. S. Miles.

PROVINCIAL AMOUNT HAS REACHED TOTAL OF \$2,706,400

Parish of Kars, Kings County, Has Won Four Crowns—Other Sections Have Gone Over the Top—St. John Amount \$2,438,550—Addresses at Open Air Meeting.

The grand total reported at Victory Loan headquarters for the city and county of St. John for the first week was a little short of the two and a half millions aimed at the amount standing at \$2,438,550 for the six days. For the province exclusive of St. John, telephone reports received yesterday placed the amount for the same period at \$2,706,400.

The parish of Kars, Kings county, has won four crowns, having oversubscribed its quota one hundred per cent; Rogersville has captured one crown; Loggieville has three crowns and to its credit. Yesterday four places went over the top and won their flag, Dufferin and St. David parishes, Lunenburg county, Edmundston and Westfield.

The aim of the central committee for this district is to have the largest per cent of subscribers per capita in all Canada, and they ask the citizens to help them attain this object. Wear the button and show the window card if you have bought a bond for next week a whirlwind campaign is to be inaugurated in which the services of over two hundred young ladies, members of the Y. W. P. A., and the commercial men have been enlisted, and every person and house not showing these marks of participation in the work will be called upon. This week marks the end of the ward canvassing and after that all workers will be free to get subscriptions in any part of the city.

For the first week the total from the wards and headquarters was \$1,181,850, a daily average of nearly \$197,000. The number of subscribers in the wards was 2,888. This is not the total number of subscribers, as it does not include the banks and headquarters subscribers.

Open Air Meeting. Although the weather was chilly last evening the open air meeting of the Victory Bonds was held in the great hall of the city. The speaker was warmly enthusiastic and the objective of \$10,000 was more than attained. \$10,500 was subscribed at the Imperial Theatre. The chairman of the evening, F. A. Dykeman, made a good introductory speech, announcing that Hon. W. E. Foster was to address the audience.

Premier Foster said that he wondered why it was necessary to point out the reasons why people should buy Victory bonds. He knew that that had already been done, and well done by other speakers. The money was to pay for Canada's part in the war, and to uphold the honor of Canada, of New Brunswick and of St. John.

"Not so many years ago," he said, "salesmen used to sell gold bricks or shares in worthless mines, but now no more gold bricks for us. We know just what we are getting in and behind it. The great resources of Canada are behind these bonds. We owe a generous response to the men in responsible positions who have to finance the war. The man who is to be admitted to the one who help him in the future to buy a bond, and the man who dies his money out of the soil."

Premier Foster said he expected to go to Ottawa in the near future to confer with the Provincial Premiers, and he hoped to be able to stand there and say that New Brunswick had overshot her quota. W. J. S. Miles.

W. J. S. Miles, principal of the St. John High School, the next speaker, made a splendid speech telling in a few words what he had seen and what a person who realized what the war for the boys overseas. We owe it to the men in responsible positions who have to finance the war. The man who is to be admitted to the one who help him in the future to buy a bond, and the man who dies his money out of the soil.

FOUR PERISH IN FIRE ON A STEAMER

The Mineola Lying at Bar Harbor Badly Damaged and Is Sunk.

ALL THE PASSENGERS HAD BEEN LANDED Vessel Ran on Rockland-Bar Harbor Route—Captain Died Recently.

Bar Harbor, Me., Nov. 4.—A fire which originated in the boiler room of the steamer Mineola, while lying at her wharf here yesterday, got under way before the arrival of the fire department. Three deck hands and an oiler were caught in the forecastle and suffocated. They were found huddled together. The dead men are: Edward Rawley, of Rockland, deck hand. Ernest Foster, of Rockland, oiler. Louis Almada, of Providence, R.I., deck hand. Nebemiah Dunning, of Jonesport, deck hand.

When the fire department arrived at the wharf the steamer was in flames. As there were no burns on the bodies it is believed that they could have made their way to safety if they had not stopped to dress. After a hard fight the water was let into the steamer by opening the sea cocks and the steamer sunk. While the amount of damage to the steamer could not be estimated, the whole upper works were destroyed.

Passengers Landed. At 6.30 p.m. Saturday night the steamer Mineola arrived at her docking wharf at Bar Harbor and the passengers and freight were immediately discharged. Captain Frank Bray was in command, this being the second trip from Rockland in the Mineola. He had taken command after the death of Captain Shuts which occurred in Rockland a week ago.

At the time of the fire only the four men in the forecastle were aboard. It was about 3 o'clock that the alarm for the fire came in and by the time the department arrived on the scene the flames were well under way, the upper works were in flames and the smoke was very thick.

Sunday afternoon the steamer Catharine arrived from the Rockland wharf with pumps and wrecking crew. The Mineola will be pumped out and raised. The steamer Mineola was built at St. George in 1901. She was 121 feet in length and 26 feet in width with a depth of 9.6 feet. She had a gross tonnage of 295 and net of 107. She carried a crew of 15 men.

FUNERALS. The funeral of Thomas G. Gallagher took place yesterday afternoon from his late residence, 283 Douglas avenue. Interment was made in the new Catholic cemetery. The funeral of Albert E. Horsman took place yesterday afternoon from his late residence, Rockland Road. Services were conducted by H. E. Bennett. Interment was made in French Hill cemetery. The funeral of Mrs. D. McKillop took place yesterday afternoon from her late residence, Fort Dufferin. Services were conducted by Rev. Mr. Hodges and interment was made in Cedar Hill.

Mrs. William J. Bishop. Moncton, Nov. 4.—Friends in Moncton were shocked to learn of the death of Mrs. William J. Bishop, of Bridgeport, Conn., of pneumonia. Mrs. Bishop was formerly Miss Jennie Dunham, daughter of Mr. and Mrs. Arthur Dunham, of this city, but has been a resident of Bridgeport for the past six years. She leaves to mourn a sorrowing husband and one little daughter, Jean, besides her father and mother, four brothers and three sisters.

ENTENTE ALLIES CARRY ATTACK GERMANY BY WAY OF AUSTRIA

Terms of Armistice Agreed to by Vienna Make Surrender Complete.

GERMAN CONDITIONS ARE TO BE SIMILAR

The Document Signed by Austrian Commander Blow to Germany.

Washington, Nov. 4.—Terms of armistice under which the land and sea forces of what once was the Austro-Hungarian empire have laid down their arms, were announced today simultaneously in Washington and the allied capitals. They accomplish complete surrender and open Austrian and Hungarian territory to the allied and allied operations against Germany.

From the drastic document, it may be stated, may be gleaned an accurate outline of the conditions nearing completion in the supreme war council at Versailles under which Germany may have a cessation of hostilities.

Military clauses:

"1. The immediate cessation of hostilities by land, by sea and air, and the withdrawal of all Austro-Hungarian forces operating on the front from the North Sea to Switzerland.

"Within Austro-Hungarian territory limited as in clause three below, there shall be only maintained as an organized military force (?) reduced to pre-war effective.

The Evacuation.

"Half the divisional corps and army artillery and equipment shall be collected at points to be indicated by the Allies and United States of America for delivery to them, beginning with all such material as exists in the territories to be evacuated by the Austro-Hungarian forces.

"2. Evacuation of all territories invaded by Austro-Hungary since the beginning of the war, shall be within such periods as shall be determined by the commander-in-chief of the Allied forces on each front of the Austro-Hungarian armies behind a line fixed as follows:

"From Pic Umbral to the north of the Sclavia it will follow the crest of the Adige and the Eisach, passing thence to mounts Rerchen and Brennar and the heights of Goetz and Scallier. The line thence turns south, crossing Mount Toblach and meeting the present frontier Carnic Alps. It follows this frontier up to Mount Tavis and after Mount Tavis the watershed of the Julian Alps by the Col de Predil, Mount Mangart, the Tricorco (Torgoia), the watershed of the Col di Podbergo, Podanican and Idria. From this point the line turns southeast toward the Scheeberg, excludes the whole basin of the Ave and its tributaries. From Scheeberg it goes down towards the coast in such a way as to include Castuz, Matungia and Volocsa in the evacuated territories.

Evacuated Areas.

"It will also follow the administrative limits of the present province of Dalmatia, including the north Lisarica and Trivania and to the south territory limited by a line from the (Semirand) of Ceps Barica to the summit of watersheds westward, so as to include in the evacuated area all the valleys and watersheds flowing towards Sebenico, such as the Cioola, Korka, Butimice and their tributaries. It will also include all the islands in the north and west of Dalmatia from Presuda, Selvo, Ulbo, Scherda, March, Page and Punta Dura in the north up to Melada in the south embracing Santandrea, Buel, Lisa, Lesina, Tercola, Curzola, Cassa at Lagosta, as well as the neighboring rocks and inlets and passages, only excepting the islands of great and small Ziorna, Bua, Solta and Braza. All territory thus evacuated (shall be occupied by the forces) of the Allies and the United States of America.

"All military and railway equipment of all kinds, including coal belonging to or within those territories (to be) left in situ and surrendered to the Allies, according to special orders given by the commander-in-chief of the forces of the associated powers, on the different fronts. No new destruction, village or requisition to be done by enemy troops in the territories to be evacuated by them and occupied by the forces of the associated powers.

Sat Up in Bed To Get Her Breath.

Palpitation of the heart, shortness of breath, inability to lie on the left side, feelings as if smothering, oppressed feeling in the chest, dizzy and faint spells, tired, weak, worn out feeling, involuntary twitching of the muscles, sleeplessness, restlessness, etc., all point to the fact that either the heart or nerves, or both, are not what they should be. Any of these conditions should be remedied immediately so as to avoid a complete breakdown of the who's system.

Milburn's Heart and Nerve Pills will bring energy to the weakened constitution, strengthen and regulate the heart, and tone up the tired, overstrained nerves.

Mrs. William Steeves, Chemical Road, N. B., writes:—"I have been a great sufferer from nerve troubles and palpitation of the heart, which was so bad I had to sit straight up in bed to get my breath. I could not lie on my left side at all. I tried doctor after doctor, also several different remedies, but got no help from them. My mother insisted on me trying Milburn's Heart and Nerve Pills. By the time I had used one box, I was feeling very much better. I took in all three boxes, and now I am in perfect health and can enjoy a good sound sleep, and can lie on my left side without any trouble."

Milburn's Heart and Nerve Pills are sold, a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

THE BRITISH ATTACK ON WIDE FRONT SOUTH OF THE SCHELDT

German Army in a Serious Condition and May Collapse Soon.

HUNS HAVE SUFFERED 2,500,000 CASUALTIES

French Army Has Taken During October Total of 10,387 Prisoners.

London, Nov. 4.—At dawn this morning British troops south of the Scheldt River attacked on a wide front, according to a report received from Field Marshal Haig today. The report says that the attack has been launched satisfactorily.

Military authorities, who three weeks ago were skeptical over the return of peace because of the military situation, are convinced that the German army is in a serious condition owing to its inability to shorten its line and produce fresh reserves.

Terrible Casualties.

It is pointed out that German casualties this year amount to 2,500,000, of which 1,000,000 are permanent casualties. Last March Germany had eighty fresh reserve divisions, which meant divisions which had not been in line for a month. Now the German reserve consists of fifty divisions, only seven of which have had as much as a fortnight's rest.

German divisions are now appearing on the firing line with many hundreds of rifles below the German normal of 6,750.

On Oct. 3, regiments in forty or fifty divisions were reduced from a four-company to a three-company basis. Many of the youths of the 1920 class, which the Germans wished to hold till the spring now are in the field. This is Germany's last man-power hope.

Lost Many Guns.

It is calculated that Germany had 18,000 guns on July 15, of which a third have been lost. The number of guns and batteries has been reduced, and some batteries have been equipped with third rate weapons.

French Drive.

Paris, Nov. 4.—The Germans maintained activity with their artillery and machine guns on the night of Oct. 31 on the entire fifteen-mile front along the Aisne between Rethel and Semmy, according to today's war office report.

The French first army during October, in the fighting on the Oise front, took 19,387 prisoners, 113 cannon and 1,500 machine guns.

London, Nov. 4.—More than 20,000 prisoners and several hundred guns have been taken by the 4th British division operating on the Asiago Plateau towards the Trentino.

Steamer Bayfield Arrived in Halifax Last Spring from Great Lakes — Went on Duty Last Friday.

The Halifax Pilot steamer Bayfield, went into commission last Friday and took up her position at the entrance of the harbor. Her commander is Captain Francis Mackay, formerly one of the Halifax pilots.

Since the Bayfield reached Halifax early in the spring, after coming around from the Lakes, many repairs have been made, and she now resembles a new steamer. Ample accommodation has been provided for both crew and pilots, the staterooms in the after part of the ship being reserved for the latter. On deck a serviceable galley is located, running from port to starboard, and the dining room is also attractive. The entrances to the engine room and boilers are located next to the galley. Tachot, of Toronto, was found Saturday night lying on the track near the station. He was found to be under the influence of liquor and said he thought he had been led to drink by two of his brothers-in-law who were coming with him to attend the funeral of a relative somewhere in the Lake St. John region. Let us show them what answer their Home Province makes to the trick that would snatch Victory from their hands, that would make their blood, shed for US, of no avail—

That would make of the altar-offering of their lives a vain sacrifice, an unvalued gift, a useless thing toward which the souls of those they saved respond with no deep, unstinting gratitude!

THEY DID ALL— for US! What will we do for THEM? What can we do to repay an individual sacrifice more than a thousandfold repeated by more than a thousand New Brunswick boys?

Let us repay them by individual sacrifice.

Let us give them New Brunswick's evidence of affection, the measure of our gratitude to them, not in words, but in dollars, not in messages, but in figures that will number their own message across three thousand leagues that New Brunswick and her people know how to REPAY!

ST. JOHN, N. B., TUESDAY, NOVEMBER 5, 1918.

"We are fighting for a worthy purpose, and we shall not lay down our arms until that purpose has been fully achieved."—H. M. The King.
TO THE PEOPLE OF THE EMPIRE—Every fighting unit we can send to the front means one step nearer peace.

UP TO GERMANY NOW.

With Austria out of the war and her country and railways opened up to the Allied troops with facilities to carry the battle into German territory, Berlin must decide at once upon the course to be pursued. It should be but a matter of days—possibly, even hours—before the fighting ceases on all fronts and the stubborn Teutons acknowledge complete defeat. The terms under which Austria yielded are such as to make it impossible for Germany to continue. The provision which opens to the Allies the whole of Austria and Hungary as an avenue of attack means that the Kaiser's country can be invaded through several new channels. Passing through the Bohemia route, for instance, and using the railway from Vienna to Prague and beyond, Allied troops could be transported to the German border at points little more than 125 miles from Berlin almost as quickly as German troops could be brought back from the western front to put up a defence against them.

It is reasonable to expect that the Austrians may open the Allies will lose no time in striking direct at the vitals of the German Empire. If Germany withdraws troops from the western front to meet this new danger the progress there will be greater than the most enthusiastic optimist could have imagined. Not once during the entire course of the war to date has Austria been so seriously invaded as to interfere with her railway lines which, before the opening of hostilities, were regarded as among the best in Europe outside of France. Therefore communication with the interior of the country and the German border should be easy. Indeed it is more than likely that Allied troops will be moving toward that goal in very short time.

There is no reason to believe that the German country fronting on the Austrian provinces has been at all prepared to withstand invasion. None was expected from that quarter, and with the great superiority in men and equipment which the Allies now enjoy, it would seem impossible for Germany to successfully withstand a movement in that direction. From the situation as it seems today one of two developments is almost certain—Germany will either speedily surrender unconditionally, or the Allied troops will go through to Berlin. And of the two the first is by all means the more probable.

CONCERNING A CELEBRATION.

Yesterday's local celebration of Austria's retirement from the war may be cited as a most excellent example of "repressed emotion." If there was any real enthusiasm in the city while the noon whistles announced the good news, it certainly did not manifest itself vociferously. We should do better on the next occasion, and the City Council, in preparing for a real demonstration, is taking the proper course.

Throughout the entire war, even while the casualty lists were telling their saddest story, and the situation on the battle fronts presented few, if any, encouraging features, we were advised to go on with chin up and the grim determination not to falter. Canadians have gone through; they have passed the crisis. Complete and glorious peace is likely to come long before the first snow falls. Let us have, this time, a real celebration, over hearing in mind the necessity for returning thanks for the victory, but at the same time affording opportunity for an observance that will recall memories of Ladysmith and the other occasions of the South African war. Canadians have willingly endured the grim and serious side of war for more than four years. When that war is over this city should be the scene of a celebration that will compare favorably with the best previous efforts.

A COMMENDABLE SUGGESTION.

The London Daily Mail, in a recent issue, made the interesting suggestion that, as an evidence of good faith, "the present German government should surrender for trial by the Allies: Wilhelm of Berlin, the author of the war and of the order to murder prisoners; General von Kluck, who authorized the first outrages committed by the Prussian armies; General von Buelow who, on August 22, 1914, announced that 'with my authorization the town of Ardennes has been laid in ashes and 110 of the inhabitants shot'; General Stenger, for his order of August 26, 1914, to murder all British prisoners and wounded; General von Boehne, who authorized the murders at Thermende; Major Manteuffel, who ordered the burning

and sacking of Louvain, and Captain von Foerster, who murdered the Falaba passengers."
To the Daily Mail's list could well be added all who participated in the murder of Edith Cavell, all who had any part in the sinking of the Lusitania; Colonel Schurtz, who commanded the artillery corps which time and again shelled Rheims cathedral; all aviators who bombed hospitals; the officer who sank the Llandovery Castle; the German Crown Prince, and all other male members of the Hohenzollern tribe, Hindenburg, Ludendorff and von Tirpitz, the man who first invented German gas, and every German spy throughout the world. If capital punishment could be imposed upon every one of those mentioned there would be none found outside of Germany to shed a tear. The world would then be a better and a sweeter place in which to live.

NO NEED FOR ALARM.

Certain newspapers, which, in the last Dominion election opposed Union government, have started to clamor unnecessarily for the repeal of the War-Time Elections Act. Those newspapers forget that the Act in question was passed to meet a certain set of conditions brought about by Canada's participation in the war, and the necessity of seeing that our effort should not be hampered. We, in Canada, are in a different position from the people of the United States. We have been in the war for more than four years and, proportionately, our contribution has been greater. The problems of re-establishing the soldier in civil life after the conclusion of hostilities, of getting back to conditions of peace in our industrial life, and the after-war development of our country, may require more attention here than similar questions will demand across the border. Until hostilities have definitely ceased and the problems created by war participation are in a fair way to settle down, it may not be in the national interest to rescind the War-Time Elections Act, but there is no need for alarm. The men at the head of Canada's affairs have the interests of the country and the people at heart, and may be completely trusted to change the Act whenever that change will be for the benefit of the country, and without regard to political considerations. The motives of newspapers that now demand a change, or that seek in any way to embarrass the Government, are properly open to suspicion.

TODAY'S ELECTIONS.

Canadians will follow with deep interest the result of today's Congressional elections in the United States both because the contests are largely turning on war issues, and because President Wilson has made an unprecedented appeal to the country to return a Democratic Congress. As the Congressional branches stand the Democratic majority is not so large that it might not be overturned. In the Senate, of 96 members, there are 57 Democrats and 39 Republicans, while the House of Representatives contains 231 Democrats against 195 Republicans, a Democratic majority of 36.

The Democratic majority in both Houses is moderate, and it would not require a political landslide to turn it over. Such a turnover might hinder or change the war programme of the United States, but it would lessen President Wilson's personal prestige both at home and abroad, and anything that would do that at this time would be unfortunate. Tonight's results will be awaited with keen interest in Canada as well as in the country directly affected.

WHAT ABOUT THAT BOND?

What about that Victory Bond? Have you purchased it yet? The news from the European battlefields indicates that the fighting will soon be over, but the bills will still require to be paid. Therefore the need that the 1918 Victory Bond campaign shall more than realize its objective is as great as ever. This week should set a new mark for Victory Loan enthusiasm in St. John, and throughout the Province. The results attained by the canvassers to date have been quite satisfactory, but the effort must not slacken if the campaign is to be wholly successful. Buy a bond today and help to hand the Kaiser a knockout.

A BIT OF FUN

A Tactful Friend.
(From The Pharmaceutical Era.)
Raymond Hitchcock says that while he was lying in a Philadelphia hospital,

"non-voluntarily" from an operation for appendicitis, one of those hoodlums who always say the wrong thing in the wrong place called on him and told him the following story to cheer him up:

Philadelphia's most famous appendicitis expert has a dog of which he thinks a great deal, which had a lopsided walk. A friend asked the doctor on one occasion the cause of this.

"Why," was the reply, "he's got appendicitis."
"Then why don't you operate on him?" queried the caller.
"Why operate on that dog? Why that dog's worth a hundred dollars."

It's Usual Name.

(From The Yorkers Statesman.)
"What a narrow street that is!" said the visitor being shown about the suburban town by a citizen.

"Yes, it's narrow," replied the citizen.
"And in wretched condition. See the holes in the pavement?"
"Yes, it looks bad."
"And dirty everywhere. What is the name of that street?"
"That's Grand street."

A Queer Sort of Fable.

(From The Sun Dial.)
She was the University man-hater. He told her a week after she started to rush her that some day he would kiss her. And thirteen weeks later he did it.

"And was it really worth all that effort?" she asked lovingly.
"It was worth more than you can ever know," he answered.
"And the next day he collected \$78.95 from the bunch who had said it couldn't be done."

A BIT OF VERSE

EDITH CAVELL.
Of many brave martyrs to honour we've heard
For tradition and history have told;
Though of millions doubt there's been said not a word
Whose honour was rarer than gold.

To the list yet unfinished one more we must add,
That posterity's history may tell
Of the great war of nations, the blood that was shed,
And the murder of Edith Cavell.

When the wee scrap of paper was thrown to the wind
And Katerdorn threatened the world,
A little contemptible army stepped in
And the flag of defiance unfurled.

When the call to humanity's succor was made,
To each loyal heart went a thrill;
Among those to answer and offer their aid,
Was a woman named Edith Cavell.

This brave British nurse many kindnesses showed
In Belgium's dark hours of need,
When the blood of the helpless and innocent flowed
To satisfy Germany's greed.

To foe as to friend she was gentle and kind,
And the murder of Edith Cavell.
But sad is the story to tell,
A martyr's reward was all they could find.

When murder and loot and rapine were at large,
She assisted a victim to fly;
Then the cowardly Boche quickly trumped up a charge
And sentenced her shot as a spy.

As she stood on the spot where they placed her to die,
On their cars from her lips the words fell,
"My country will settle with you by and by."
Was the warning of Edith Cavell.

"I was prompted by mercy in what I have done,
Your espionage charge is a lie;
Though unarmed in the hands of the treacherous Hun,
I am ready this moment to die."

As prophetic and pointed her warning words came,
She defied those foul fiends of hell;
Retribution will make you remember the name,
And the murder of Edith Cavell.

A. O. H. Wilson, Cleary street, has received word from Ottawa that his son, Lance Sergt. Frederick James Wilson, infantry, had been admitted to No. 1 Casualty Clearing Hospital, Oct. 21, suffering from gunshot wound in the thigh. Sergt. C, 2nd Regt., 10th Inf., U.S.A., of New London; May, of Lynn, Mass.; Yvonne and Laura, teachers, now at Trent, of Amherst, and Simon at home, of St. John.

Mrs. Russell Sage.
New York, Nov. 4.—Mrs. Sage, widow of Russell Sage, capitalist, died early this morning at her residence in Fifth Avenue from complications brought about by old age. She was ninety years old and had been in feeble health for several years. Three or four days ago her condition became serious and the end was not unexpected. Born of parents of frugal means and in her early life a school teacher at a salary of \$300 a year, Mrs. Sage, on the death of her husband, found herself the beneficiary of an estate of more than \$60,000,000.

Russell Sage at one time owned the Shore Line Railway between St. John and St. Stephen.

William Gillen.
The death of William Gillen occurred at his home in East St. John yesterday morning. He was a native of Ireland and came to this country in his youth. As a young man he entered the employ of the Intercolonial Railway, now known as the Canadian Government Railway, and remained in their service for more than forty years. Mrs. Beecher Swain.
Presque Isle, Me., Nov. 4.—No death chronicled during the last few weeks has caused more regret and genuine sorrow than that of Mrs. Beecher Swain, of Caribou, only child of Mr. and Mrs. Carey Gammon, of this village, whose sad bereavement is most keenly felt by friends. Mrs. Swain was a most charming young woman of sunny disposition, and was only 24 years old. She was born in Moncton, N.B., and in 1912 was graduated from the Syracuse, N.Y., University, where her parents resided. Her marriage to Mr. Swain took place Dec. 30, 1914, besides whom she leaves a little son about six months old. Her home was a happy place, and her husband, who is superintendent of the Caribou Light & Power Co., is greatly bereft. Mrs. Peter McCarthy.
The death of Mrs. Peter McCarthy took place Sunday night at her residence, 42 Pond street, from pneumonia following influenza. She is survived by her husband, five small children, three brothers, and three sisters. Her husband and three of the children are ill with the disease.

BRUNSWICK I. O. D. E. SHOW FINE RECORD

Members of This Chapter Busily Engaged in Sewing and Knitting for Soldiers—Make Fine Donations.

A splendid record of work accomplished was heard by representatives of the Brunswick Chapter, I. O. D. E., who were present at a meeting held at the residence of Mrs. Frank Tilton, De Monts Street, last evening.

Mrs. W. I. Fenton, the Regent, presided. The sewing committee report 104 pairs of pyjamas made by members, 72 pairs of socks were donated to the Soldiers' Comfort Association, and 72 pairs to the West Side S. C. A. To Colonel Corbett, 14th Field Ambulance, 101 pairs of socks were forwarded. An ambulance rug which has been knitted by members of the Chapter was also sent overseas. \$30 was voted to No. 10 Siege Battery for Christmas Comforts, and the treasurer reports \$1,036.00 forwarded to Col. Bennett for comforts for the New Brunswick boys in the Siberian Expedition.

Members of the Chapter are making each day two dozens which they contribute to the V. A. D. Diet Kitchen, and the Chapter donated four blankets for influenza patients. On account of the ban on public meetings the usual Hallowe'en tea was not held but the reports handed in last evening show that the Chapter is actively continuing its efforts for war relief in many ways.

DO YOU SUFFER FROM BACKACHE?

When your kidneys are weak and torpid they do not properly perform their functions; your back aches and you do not feel like doing much of anything. You are likely to be despondent and to borrow trouble just as if you hadn't enough already. Don't be a victim any longer.

The old reliable medicine, Hood's Sarsaparilla, gives strength and tone to the kidneys and builds up the whole system. Hood's Sarsaparilla is a peculiar combination of roots, herbs and herbs. No other medicine acts like it, because no other medicine has the same formula or ingredients. Accept no substitute, but insist on having Hood's, and get it today.

RAILS, SHIPPINGS AND MOTORS UP

Trading Marked by Moderate Dealings and Steady Advance Until Final Hour.

New York, Nov. 4.—Peace stocks had their inning again today, investment shares of various classes scoring substantial gains on Austria's capitulation and publication of the Allies' terms to that country. Rails, shippings and motors, with occasional outbursts of activity in the oil group were the dominant features. Trading was characterized by moderate dealings, but an almost steady advance was in the last hour, when realizing for profits over tomorrow's holiday caused slight setbacks.

Gains among rails of the investment division ranged from 1 to 2 1/2 points, the Harriman and Hill groups denoting absorption of an impressive character. Popular grangers, coalers and moderate priced issues of the western and southwestern sections were not far behind. Atlantic Gulf featured the shippings, although yielding part of its six points rise, but Marine Preferred and minor issues such as American International and Pacific Mail were moderately active and firm.

Oils Active. Oils manifested much of their recent activity and uncertainty, gains of 3 to 7 points in Mexican Petroleum, Royal Dutch, Texas Company and Panama Petroleum giving way to irregular impairment at the close.

Such issues as Baldwin Locomotive, Bethlehem Steel and New York Air Brake represented the heavy war stocks, while Industrial Alcohol's extreme break of almost five points and Sumatra Tobacco's decline of about 12 were believed to result from liquidation by professional interests. Sales amounted to 685,600 shares.

Bonds were strong on the largest turnover in many months, to which the new Liberty 4 1/4 contributed by sales of numerous blocks all at 98, railway bonds were 1 to 2 per cent higher and Internationals, especially French municipals, made noteworthy gains.

Total sales (par value) aggregated \$17,000,000. Old U. S. Bonds were unchanged on call.

PEACE STOCKS GAIN AGAIN

Southern Pacific Advances Within Fraction of Its Recent High—Sumatra Weak.

(McDougall & Cowans) New York, Nov. 4.—The leading peace stocks increased their gains in the afternoon with Southern Pacific advancing to within a fraction of its recent high and the shipping and motor stocks continuing strong. A number of individual advances were scored among low priced railroads. There was further weakness in Sumatra, and the remainder of the war group moved irregularly.

U. S. Steel rallied from the low of the afternoon. This stock continues to defy classification as a war or peace stock, and meanwhile moves only within a small range. Wall Street is awaiting an answer to the question of whether the Steel Corporation and the Steel Industry generally stand to lose more through the halt in the war programme than can be speedily recouped from a resumption of ordinary commercial uses of steel.

NOTICE

Military Service Act, 1917.

EMPLOYMENT OF MEN IN DEFAULT UNDER THE MILITARY SERVICE ACT.

The following Regulations, recently approved by the Governor General in Council, impose strict obligations upon every employer TO ASSURE HIMSELF THAT EACH OF HIS EMPLOYEES OF MILITARY AGE AND DESCRIPTION IS IN POSSESSION OF DOCUMENTS PROVING THAT HE IS NOT IN ANY WAY IN DEFAULT UNDER THE MILITARY SERVICE ACT. An employer who is charged with having a defaulter in his employ must be able to prove THAT THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR MILITARY AUTHORITIES TO THE EMPLOYEE IN QUESTION WERE PRODUCED FOR HIS INSPECTION at the time when the employee was taken into his employment, and that it was reasonably established to his satisfaction that the man was not in default under the Military Service Act. It should be clearly understood that the Canadian Registration Certificates given on June 22, 1918, at the time of general registration, in no way define the status of a man under the Military Service Act.

REGULATIONS.

106. Every person who employs or retains in his service any man who has deserted or is absent without leave from the Canadian Expeditionary Force, or who is in default in the performance of any obligation or requirement for reporting or for military service, imposed upon him by the Act or Regulations, or any proclamation thereunder, shall be guilty of an offence punishable on summary conviction by imprisonment not exceeding six months, or by a penalty of not less than One Hundred Dollars, and of not more than Five Hundred Dollars, or by both such imprisonment and fine, unless such person prove that he made due inquiry and that THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR THE MILITARY AUTHORITIES TO THE MAN SO EMPLOYED OR RETAINED IN HIS SERVICE WERE PRODUCED FOR HIS INSPECTION, and that it was reasonably established to his satisfaction by such inquiry and papers that the man was not a deserter or absent from the force without leave, or in default in respect of any of the obligations or requirements aforesaid.

LOGGIEVILLE SETS THE PACE IN N. B.

Town Asked for \$100,000, But Has Already Made It \$190,000—The Flu.

Special to The Standard. Loggieville, Nov. 4.—The Victory Loan campaign is receiving the hearty support of the citizens. The quota allotted to this town was \$100,000, and at first it seemed an extremely large amount, according to the population, in comparison with other towns many times its size, but the canvassers were not discouraged at the outset and went eagerly to work to accomplish their task, and on Saturday night it was made known that Loggieville was the third town in New Brunswick to receive the flag and the first to win a crown. Two more crowns have since been added to the above, the amount obtained being now in the vicinity of \$190,000, and from present indications it would look as though this town would double its quota. The influenza continues to spread throughout the place. The afflicted homes seem to be exempt from quarantine, but the ban is still on all public gatherings.

SCOTIA STEEL.

Montreal, Nov. 4.—Nine months' results hold out the promise that Nova Scotia Steel and Coal Company, Limited will earn a surplus for the common stock of about \$2,500,000 for the year ending Dec. 31, or more than double last year's showing, for the common stock was \$1,260,477; that is, earnings should be equal to about 17 per cent, against 8 1/2 per cent, in 1917.

Net profits of the company, after allowing for fixed charges, but before allowing for taxes and depreciation, amounted to \$2,743,125 for the nine months ending Sept. 30. That compares favorably with \$2,316,591 for the full year 1917, when interest charges are allowed out, but not depreciation and taxes; that is, the company's net income was some \$400,000 larger in the nine months than in the twelve months of 1917, and would seem to indicate a full year's profit of \$3,000,000.

SCHOONER FLOATED.

Yarmouth, N. S., Nov. 4.—The tern schooner John A. Beckerman, which went ashore at Tuxet, while bound from an American port to Halifax, with a cargo of coal, has been floated.

Mrs. Grace Anthony, Miss Goldie Jamieson and Murray Batson Pass Away—Good Sardine Run.

Campobello, Nov. 4.—Mrs. Grace Anthony, wife of Horace Anthony, and daughter of Mr. and Mrs. John Malloch, died at Wilson's Beach, Nov. 1. Besides her husband she is survived by two small children. Goldie Jamieson, aged 18 years, died of Spanish influenza in Maine. Deceased was a resident of Campobello for about ten years, residing here with her mother, Mrs. Eben Calder. After the death of Mr. Calder, her stepfather, about a year ago, she moved to Maine. Murray Batson, son of Mr. and Mrs. Cadwallader L. Batson, of Campobello, now of the States, died of influenza in Vancouver. The young man was a fine promising fellow of about 32 years and leaves a wife and two children behind. The catch of sardines still goes on, the weirs of Harbour De Lute and Priar's Bay having had good hauls for a week.

Are you giving Your Mind a Chance?

Many a man's mind is distracted by his health, when it ought to be centered upon his business. Business and professional men and women usually exert their brains at the expense of their bodies. They are forced to neglect exercise. They often form bad habits in eating, sleeping, resting or playing. Hence, they easily form the worst habit of them all—constipation. Constipation means infinitely more than mere failure of the bowels to act regularly and thoroughly. It means stagnation of the bowel contents, increased fermentation, putrefaction and germ action, and production of irritant and poisonous substances. These are absorbed into the blood and carried all over the body, irritating the nerves, clouding the brain, hardening the arteries, raising the blood pressure, etc. Nujol helps Nature to re-establish easy thorough, daily evacuation of the bowels—as regular as clockwork. Nujol makes it easy for intestinal muscles to act. Nujol prevents stagnation of bowel contents. Nujol absorbs poisons and carries them out of the body. Get Nujol from your druggist. Take Nujol according to directions.

HISTORY'S WARNING

Just now there is much talk of peace from Germany. The German government and the German people are, it is said, ready to surrender. Only the terms of surrender, they say, need to be adjusted—of course, around a council-table!

Away with such rubbish! Let us be warned by history. History teaches us that all this talk of surrender by the Government and the people of a country, acting together, is altogether remote from any conceivable actuality. The ruling classes of a strong autocratic and bureaucratic government, such as Germany, surrender only when their army is beaten out of its boots.

That has not yet happened to the Germans. It is only in process of happening. The Kaiser is not the whole of the German ruling class, though he is, and has been, its chief sign and symbol. But beyond the Kaiser there are the Junkers.

What profit to us if the Junkers "depose Charles to make James King?" Not only the man but the whole accursed system—that is what we are after. That is what we mean to get. The Victory Loan will get it. Lend for that high purpose. Lend—as you mean to win.

GENERAL ELECTIONS IN THE UNITED STATES HELD TODAY

Democrats and Republican Leaders Each Claim New Congress.

NEW YORK HERALD SEES DEM. SENATE

Predicts Election of Smith in New York and Republican House.

Washington, Nov. 4.—Victory in Tuesday's congressional elections is claimed in statements issued by Democratic and Republican campaign leaders.

Homer S. Cummings, acting chairman of the Democratic National Committee predicted that the Democratic majority in the Senate would be increased by the vote taken in senatorial contests and that the Democrats would make gains in the House of 30 to 60 members.

Republicans will control the next House by a majority of 25 members, Representative Foss of Ohio, chairman of the National Republican Congressional Committee declared.

While no formal statement was issued by the Republicans as to senatorial contests, leaders of the party indicated that the next Senate would be Republican by a safe margin.

In his analysis of the political situation, Chairman Foss said 270 congressional districts are "safely" Democratic and 172 are "safely" Republican and 33 are doubtful. The most noticeable gains claimed by the Republicans are from Ohio, his own state, the present delegation from which includes 17 Democrats and nine Republicans with one seat vacant. Fourteen seats will go Republican, five to the Democrats and three are doubtful. Foss claims.

Maine Is Sure.

Twelve states with 36 seats are claimed as solid Republican by Chairman Foss as follows: Delaware, Idaho, Iowa, Maine, Nevada, New Hampshire, New Mexico, North Dakota, Oregon, Vermont, Washington and Wyoming. Seven states, all in the South, with an aggregate of 64 members of Congress, are conceded by Representative Foss to the Democrats.

Our advices from every state point to a sweeping Democratic victory," said the statement issued by Chairman Cummings. "The Democratic majority in the next Senate will be increased and we will control the House by a substantial majority. Reliable estimates of the net gains by the Democrats range from 30 to 60. The tide is running strongly in our favor, especially in the Middle West and far Western states, with a pronounced drift toward Democratic candidates in every state."

The Democrats, Chairman Cummings claims, will control at least two-thirds of the states in which senatorial contests have developed. He predicts that the Democrats would gain in nearly every state in which there are contests for the House. Some districts are admittedly close, he said, but victories are assured in sufficient number of districts to insure Democratic control of not less than 50 in the next House.

N. Y. Herald Forecast.

A New York despatch to J. M. Robinson & Sons says that the New York Herald's final poll indicates election of Smith as governor of New York state by plurality of 57,000 and forecasts Democratic control of the United States senate but loss of the house by them.

REV. W. TOMALIN SEVERELY HURT

Rector of Shediac, Formerly of Trinity Church, St. Stephen, Falls from Ladder.

Special to The Standard.

Shediac, Nov. 4.—Rev. W. Tomalin, rector of the Church of St. Martin-in-the-Wood, Shediac Cape, is suffering from severe injuries as the result of falling from a ladder. Part of the collar bone was crushed, his shoulder injured, and a wrist was badly sprained. Rev. Mr. Tomalin's injuries were pressed by Dr. F. J. White, of Moncton, who was summoned by telephone. The rector's many friends hope that he will be able to be out in a short time. Before coming to Shediac he was rector of Trinity Church, St. Stephen.

The steamer Northumberland is on this route, handling heavy freight, which has accumulated on the Island since the crops were harvested.

Was Troubled With BOILS FOR SIX MONTHS.

From the days of Job to the present time, boils have been one of the greatest afflictions of the human race.

Very few people escape from having them at some time.

All the polishing and lancing you may do won't cure them and stop more coming.

Boils are caused by bad blood bursting out, and the bad blood must be made pure before the boils will disappear.

Burdock Blood Bitters is the greatest blood purifier known. It cleanses the system, and purifies the blood by removing every particle of foul material from the system, and when this is done, never another boil comes, and health and strength are permanently restored.

Mr. C. H. Bridges, 470 Barton St. E., Hamilton, Ont., writes:—"I was troubled with boils for about six months and tried several remedies without any relief until I tried Burdock Blood Bitters, and the effect has been wonderful. After using two bottles, I was rid of them all. I feel like a new man; my appetite is better, and I sleep better than I have for years. I can highly recommend B. B. B. to all who are troubled as I was."

Burdock Blood Bitters has been on the market for the past 40 years, and manufactured only by The T. Milburn Co. Limited, Toronto, Ont.

SUB-INSPECTORS WERE UPHELD IN THE POLICE COURT

Court's Decision Shows Inspectors Can Search Pockets of Suspected Persons—Other Liquor Cases Are Dealt With.

Albert Murray appeared in the police court yesterday morning on a charge of being drunk, and having liquor in his possession. He was fined \$8 on the first offence, and \$200 or six months' imprisonment on the second offence. This fine of \$200 marks the initial step in the repeated warnings of the magistrate.

A drunk appeared, pleaded guilty, and was fined \$5.

Daniel Lewis appeared on a charge of refusing duty on board ship. He pleaded not guilty, and as his ship had left port was remanded until arrangements can be made whereby he may sign articles with another ship.

Harry Quinn, previously mentioned in the press as arrested on the charge of interfering with Sub-Inspector McAlmish in the lawful discharge of his duty, was fined \$50 in court yesterday, but the fine was allowed to stand. The case has caused some extra articles to be written in individual's pockets, should such individuals be under suspicion of having liquor in their possession. It was settled yesterday morning when Magistrate Ritchie decided in favor of the inspectors, who have a right, by Section 162 of the liquor statutes, which reads "An inspector has authority to

LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezeone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.

It is a sticky ether compound which dries the moment it is applied and simply shrivels the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezeone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.

You are further warned that cutting at a corn is a suicidal habit.

Catarrhal Deafness May Be Overcome

If you have Catarrhal Deafness or head and ear aches or are growing hard of hearing, go to your druggist and get 1 ounce of Parmit (double strength), and add to it 1/4 pint of hot water, and a little of catarrhal strength. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when the hair is dry, and a little of catarrhal strength and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, luscious, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

search any 'pocket' vehicle, or conveyance." Concluding the case, His Honor remarked: "Inspectors and policemen are sworn to carry out the law, in its every provision, and they must be protected, more particularly during war time, and under the present day war legislation."

In the afternoon Francis Totten was fined \$200 on a liquor charge as having such in his possession, or as being the owner of it. The circumstances of the case are as follows, and on this was based committal: "Totten told Edward Curran where the pool of the case, as another witness liquor was, in a hall on Union Street.

Curran procured the liquor and took it to a residence on Paradise Row.

Next day Totten came to Curran and asked him if another chap had brought the liquor to Curran's shop. It not being in the shop, he sent an "empty" play afterwards to the shop on the same mission. His Honor in summing up the evidence, asked why Totten was so interested, although the liquor was not found in his possession? He then struck the fine as previously mentioned. Wm. M. Ryan appearing for Totten asked for a remission of the fine, as another witness liquor was, in a hall on Union Street.

himself could follow up his statements.

Four other liquor cases scheduled for yesterday afternoon, were postponed until this afternoon on account of the absence of the Chief Inspector, who is prosecutor, but on account of business did not reach the court room until late in the afternoon.

DR. ADLER RELEASED.

Amsterdam, Nov. 4.—Dr. Frederick Adler, who assassinated Austrian Premier Sturegh on October 31, 1916, has been released from prison, according to Vienna advices.

RUSSIA ON STRIKE

Copenhagen, Nov. 4.—The indications are that Russia will refuse to make any further indemnity payments to Germany, according to the Frankfurt Gazette.

The newspaper says that Russia, which had paid two instalments of the war indemnity, has stopped the transport of gold and bank notes to Germany.

"Evidently," adds the newspaper, "she refuses to pay the last part of the indemnity."

Catarrh of the
Stomach Is
Dangerous

"Thousands Have It and Don't
 Know It" Says Physician.
 Frequently Mistaken for In-
 digestion—How to Recognize
 and Treat.

"Thousands of people suffer mor-
 eless constantly from furfed, coated
 tongue, bad breath, sour burning sto-
 mach, frequent vomiting, rumbling in
 stomach, bitter eructations, gas, wind,
 and stomach acidity and call it indig-
 estion when in reality their trouble is
 due to gastric catarrh of the stomach."
 writes a New York physician.

Catarrh of the stomach is danger-
 ous, because the mucous membrane
 lining of the stomach is thickened and
 a coating of phlegm covers the sur-
 face so that the digestive fluids can-
 not mix with the food and digest it.
 This condition soon breeds
 deadly disease in the fermented, un-
 assimilated food. The blood is pollu-
 ated and carries the infection thron
 out the body. Gastric ulcers are apt
 to form and frequently an ulcer is the
 first sign of a deadly cancer.

In catarrh of the stomach a good
 and safe treatment is to take before
 meals a teaspoonful of pure Bismu-
 ted Magnesia in half a glass of hot
 water as hot as you can comfortably
 drink it. The hot water washes the
 mucus from the stomach walls and
 draws the blood to the stomach while
 the bismuted magnesia is an excellent
 solvent for mucus and increases the
 efficiency of the hot water treatment.
 Moreover the Bismuted Magnesia will
 serve as a powerful but harmless anti-
 acid which will neutralize any excess
 hydrochloric acid that may be in your
 stomach and sweeten its food con-
 tents. Easy, natural digestion with-
 out distress of any kind should soon
 follow. Bismuted Magnesia is not a
 laxative, is harmless, pleasant and
 easy to take and can be obtained from
 any local druggist. Don't confuse Bis-
 mutated Magnesia with other forms of
 magnesia, milks, citrates, etc., but get
 it in the pure bismuted form (powder
 or tablets) especially prepared for
 this purpose.

Obeyed instructions.
 (From The Boston Transcript.)
 Mrs. Blank sent her new and very
 green maid out to buy some peaches.
 "Now, Mary, be sure that they are
 ripe," she warned. "You'd better pinch
 one or two before buying them."
 In a little while the maid returned
 and after handing her mistress the bag
 of peaches, she took two others out of
 her pocket, saying: "And here are the
 ones I pinched, as you told me, mum."

When you suffer
FROM RHEUMATISM
 Almost any man will tell you
 that Sloan's Liniment
 means relief

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and No-body Will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a harmless, natural remedy for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

OUCH! RUB OUT RHEUMATIC PAIN
 Rub pain, soreness, stiffness, sciatica right out with "St. Jacobs Liniment"

Count fifty! Pain gone. Rheumatism is "pain only." Not one case in fifty requires internal treatment. Stop drugging! Rub the misery right away! Apply soothing, penetrating "St. Jacobs Liniment" directly upon the "tender spot," and relief comes instantly. "St. Jacobs Liniment" is a harmless, powerful remedy which never disappoints and can not burn or discolor the skin.

Limber up! Stop complaining! Get a small trial bottle of "St. Jacobs Liniment" at any drug store, and in just a moment you'll be free from pain, soreness, stiffness and swelling. Don't suffer. Relief awaits you. "St. Jacobs Liniment" has relieved millions of rheumatism sufferers in the last half century, and is just as good for sciatica, neuralgia, lumbago, backache, sprains and swellings.

SAYS HOT WATER WASHES POISONS FROM THE LIVER
 Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddler, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furfed tongue, nasty breath, sour stomach, or common rancid, it's your liver. Sallow skin, muddy complexion, watery eyes, all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins.

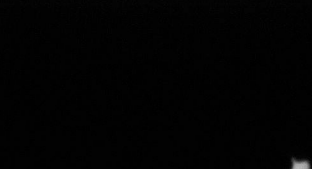

Every man and woman, sick or well, should drink each morning before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate is inexpensive; any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

WHEN YOU SUFFER FROM RHEUMATISM
 Almost any man will tell you that Sloan's Liniment means relief

For practically every man has used it who has suffered from rheumatic aches, soreness of muscles, stiffness of joints, the results of weather exposure.

Women, too, by the hundreds of thousands, use it for relieving neuralgic, lame backs, neuralgia, sick headache. Clean, refreshing, soothing, economical, quickly effective. Say "Sloan's Liniment" to your druggist. Made in Canada. Get it today.

OUTDOOR GAMES.

The outdoor activities of the Y. M. C. A. which had been greatly interfered with during the past week, were resumed yesterday and the boys under the leadership of the association staff kept the handball and other games busy during the day.

LIEUT. MACLAREN HONORED.

Major MacLaren, Coburg Street, has received word that his nephew, Lieut. Ian MacLaren, son of Col. Murray MacLaren, C. M. G., has been awarded the military cross. Lieut. MacLaren has been in khaki since August, 1917, and is an officer in the 85th Battery of Canadian Field Artillery.

Mrs. Catherine Gillis of Main Street, Fairville, has received a cable from her son, Pte. Cornelius Gillis, stating that he was in a convalescent hospital in Ipswich, England, and would soon return to duty. He was wounded on Aug. 28 and since that time has been in hospitals in England. He crossed with the 118th Battalion and has seen much fighting.

THE PULP BUSINESS.

Charles E. Clowes, Fredericton, is a guest at the Royal. Mr. Clowes is known throughout the southern province where he is interested in large pulpwood lands. This industry is reported to be in a flourishing condition and as many of the mills are now drawing on account of the prevailing sickness among the workmen, many of whom are laid up.

THE BUTTER SUPPLY.

That there are fair supplies of butter in the province at the present time, but that in order to make it last people should not buy more than they need, was the statement of a dairy man yesterday. He stated that the Canadian government had commandeered the products of creameries in all provinces except the three by the sea so that no supplies were obtainable from the west except the dairy output.

TRENCH CAVED IN.

The contractors on the East St. John water extension met with a setback yesterday when about forty feet of the trench caved in on them but they hope to have it cleaned out this morning. Another car of pipe arrived yesterday for this work and this will be laid at once. Already about thirteen hundred feet have been laid. Commissioner Hilyard expects with fine weather to have the job finished a little ahead of schedule time.

When brought in they were loaded down with knives and other articles. Another break was learned yesterday, this one being in a hardware shop on Main Street. The break occurred Saturday night or early Sunday morning but beyond minor damages to the shop nothing was taken. The thieves were after money only, but found little or none on the premises, as the proprietor had the foresight to remove any accumulated cash during the day's business.

EXPRESS EMPLOYEES ANXIOUSLY WAITING

No Decision of War Board Yet Received by Dominion Express Men Regarding a Settlement of their Grievance.

No report has yet reached the employees of the Dominion Express Company on the award of the war board to settle their grievance with the company regarding a wage schedule. A decision was expected on Friday last and up to 8 o'clock last evening nothing was learned of its findings. Comment yesterday among some employees was that further action on their part might ensue should the war board not concede their demands. However, they express a hope of being awarded all or a part of that which was asked by them during the strike. The decision of the board is expected hourly today, when the president of each division in the eastern area will be notified.

CHILDREN'S TOYS WILL BE SCARCE

Barely Enough to Meet Christmas Demand — Toy Making Non-Essential Industry Says War Trade Board.

That the supplies in stock in the retail stores of children's toys is barely enough to meet the demand, and that toys for the Christmas trade will be scarce, was the opinion expressed by a retailer yesterday. He stated that the War Trade Board had recently handed down a decision stopping the importation of toys, as they claimed that toy making was a non-essential industry. As a large part of the toys are manufactured outside of Canada the ruling means that this country will have to go short on toys for a while at least.

ITALIANS HAPPY AT GREAT VICTORY OVER AUSTRILIANS

Italian Colonies in Canada Celebrate — John De Angelis, Consular in St. John, Receives Telegram from Zolini, Consul General.

While the civilians in every allied country were yesterday rejoicing over the downfall of Austria and celebrating the great victory of the Italians and British, the happiest class of residents were the sons of sunny Italy, who are now stronger allied to Great Britain than ever.

Mr. DeAngelis received the following telegram late yesterday afternoon from Zolini, the Italian consul-general at Montreal:

Montreal, Nov. 4, 1918. Italian Consul-General, St. John, N. B.

I beg of you to make public the following telegrams which I have received this morning from the Royal Government:

Rome, Nov. 4th, 1918. Italian Consul-General, Montreal.

Italians have entered Trieste, our tri-colour flying from the tower of Sanguinetto. News immediately spread throughout Italy causing the greatest demonstrations of joy. In Rome the bells of Campidoglio are ringing.

Rome, Nov. 4, 1918. Italian Consul-General, Montreal.

Italian troops have entered and occupied Trento. Italian cavalry have entered Udine from Udine and Salsburgh. Indescribable enthusiasm continues in all Italian cities. In Rome more than two hundred thousand people are demonstrating their joy with unquenchable enthusiasm. Will you please have the national flag over that agency for three days as a mark of joy for the complete national unity which has been the dream and desire of all Italian people for many years.

Have sent the following telegram to the Royal Government in the name of all Italian colonies in Canada: "Italian colonies in Canada have rejoiced with the most lively enthusiasm the news of the tremendous victory of our army and the entrance of Italians into Trento and Trieste. They charge me to express their profound joy for the accomplished unity of the nation, the dream of many generations, and their immense gratitude to the Italian army which with the tenacity and perseverance of the country and the support of the allies have on the last great war of independence."

CAPTAIN AVISS HAS SAD CASE

Commander of Ship Left With Four Children Whose Mother Died Sunday Night in Parks Hospital.

The death of Mrs. Herbert Aviss at the Parks Emergency Hospital on Sunday, has brought to light a particularly sad case. Mrs. Aviss was the wife of the master of a vessel now in port, and had been in the habit of accompanying him on his voyages. Shortly after the arrival of the vessel, she contracted influenza, and this developed into pneumonia.

Beside her husband four small children, the youngest a baby six weeks old, survive, and the father will be obliged to let the ship sail without him while arrangements are being made for the children, so suddenly deprived of a mother's care. The scene at the hospital yesterday was a heart-rending one, the stricken father trying to comfort the little ones who were calling for mother, not realizing that she was gone from them forever.

A. B. SKELLEY HAS TRAVELLED MUCH AND SAW SERVICE

Was in the British Navy and Went Through the Horrors at the Dardanelles — Left Here for Montreal.

A. B. Skelley was a passenger on the outgoing Montreal train last Saturday evening en route to Montreal. He was picked up a few times by a freight train got away from the home which held little inducements to the parents. The parents had died, and I was placed in an orphan home which did not meet my youthful desires, and at the first occasion offered I left it. About 40 miles from there he said he was taken in by a farmer and his wife, who gave him a helping hand, and learning of his former environment never went him back again. About twelve years later he died, and he commenced to roam.

W. F. Hatheway opened up a discussion on the new schedule of harbor rates proposed and advocated that no export tax be imposed. He thought the council should go easy in raising the rates for it made it harder for the merchants to compete with other ports. He endorsed the suggestion of the president that the council should go easy in raising the rates for it made it harder for the merchants to compete with other ports.

Senator Thorne said it was generally realized that the rates at the present time were too low and that there be some revision but he favored the idea set forth by the president. In the city of Halifax both import and export charges were made for top wharfage.

TWO BREAKS HAVE BEEN REPORTED

Two breaks occurred last Sunday night or early Monday morning. The "Confidant" was broken into and the cash draw filled of \$15. An attempt to break open a safe on the premises proved fruitless. The "Brown" Grocery, Main street, was also broken into, but no goods were reported missing. Apparently the register was empty, and their contempt at finding it so was exemplified when they broke glass in the door facing the street, contrary to the manner of their egress which was through the back door. This break has been reported to the police and a detective is working on the case. It is believed some small boys are the thieves in each case.

PLANS TO CELEBRATE GREAT DAY WHEN PEACE IS DECLARED

Representative Meeting Held Yesterday — Monster Parade, Speeches, Band Concert and Fireworks Display on the King Square.

At a meeting held in the office of Mayor Hayes yesterday afternoon plans for a celebration of the day when peace is declared were adopted, and a committee appointed to carry out the details.

There were present at the meeting representatives of the citizens' reception committee, Mr. League, G. W. V. A., military headquarters and the members of the common council. After discussion the plan proposed by A. O. Skinner was adopted. It is proposed to have a public holiday proclaimed and if the ban on indoor public meetings has been lifted the churches will be asked to hold services in the morning. In the afternoon it is proposed to have a monster parade and speeches on King Square, and in the evening a band concert and fireworks on King Square.

For the parade the following order has been suggested: A float trimmed with the colors of the Allies, carrying the Mayor and commissioners; a similar float carrying the head officers of the military in the city; members of the Great War Veterans' Association, officers mounted; the good ship "Navy League," followed by all the sailors in port; military and private automobiles suitably decorated for the occasion; all the soldiers in the city, followed by the private citizens, each person in the parade carrying a small Union Jack.

After parading the principal streets the procession would wind its way to King Square where addresses would be delivered by leading speakers. In the evening a band concert and fireworks display on King Square would be the feature and round out a day of celebration for victory.

A. B. SKELLEY HAS TRAVELLED MUCH AND SAW SERVICE

Was in the British Navy and Went Through the Horrors at the Dardanelles — Left Here for Montreal.

A. B. Skelley was a passenger on the outgoing Montreal train last Saturday evening en route to Montreal. He was picked up a few times by a freight train got away from the home which held little inducements to the parents. The parents had died, and I was placed in an orphan home which did not meet my youthful desires, and at the first occasion offered I left it. About 40 miles from there he said he was taken in by a farmer and his wife, who gave him a helping hand, and learning of his former environment never went him back again.
