A Common Cold

Is often the beginning of serious affections of the Throat, Bronchial Tubes, and Lungs. Therefore, the importance of early and effective treatment cannot be overestimated. Ayer's Cherry Pectoral may always be relied upon for the speedy cure of a Cold or Cough.

Last January I was attacked with a severe Cold, which, by neglect and frequent exposures, became worse, finally settling on my lungs. A terrible cough soon followed, accompanied by pains in the chest, from which I suffered intensely. After trying various remedies, without obtaining relief, I commenced taking Ayer's Cherry Pectoral, and was

Speedily Cured. I am satisfied that this remedy saved my life. - Jno. Webster, Pawtucket, R. I. III. — Jno. Webster, Pawticket, R. I.

I contracted a severe cold, which suddenly developed into Pneumonia, presenting dangerous and obstinate symptoms.

My physician at once ordered the use of Ayer's Cherry Pectoral. His instructions were followed, and the result was a rapid and permanent cure. — II. E. Simpson, Rogers Prairie, Texas.

Rogers Prairie, Texas.

Two years ago I suffered from a sovere Cold which settled on my Lungs. I consulted various physicians, and took the medicines they prescribed, but received only temporary relief. A friend induced me to try Ayer's Cherry Pectoral. After taking two bottles of this medicine I was cured. Since then I have given the Pectoral to my children, and consider it

The Best Remedy for Colds, Coughs, and all Throat and Lung diseases, ever used in my family.-Robert Vanderpool, Meadville, Pa.

Robert Vanderpool, Meadville, Pa.

Some time ago I took a slight Cold, which, being neglected, grew worse, and settled on my lungs. I had a hacking cough, and was very weak. Those who knew me best considered my life to be in great danger. I continued to suffer until I commenced using Ayer's Cherry Pectoral. Less than one bottle of this valuable medicine cured me, and I feel that I owe the preservation of my life to its curative powers.—Mrs. Ann Lockwood, Akron, New York. Ayer's Cherry Pectoral is considered, here, the one great remedy for all diseases of the throat and lungs, and is more

in demand than any other medicine of class. - J. F. Roberts, Magnolia, Ark. Ayer's Cherry Pectoral, Prepared by Dr. J. C. Aver & Co., Lowell, Mass. Sold by Druggists. Price \$1; six bottles, \$5.

SAN FRANCISCO, CAL., Oct. 3 .- Passengers by the Australian steamer, which arrived on Saturday, bring detals of a most revolting tragedy that occurred in Salmon are reported to be plentiful in New South Wales, Aug. 28. The crime recalls the Pocasset murder in Massachuetts several years ago. Wadham Wyndham, a man of excellent standing, becoming suddenly attacked with religious children. In explanation he said that he felt called upon by God to commit the resurrection was near and ance organizations will be held in the Masonic Hall next Tuesday evening.

deed. The Testatection was like in their time had come. Wyndhan's wife offered resistance. He took her out doors and with a stone broke in her skull. He than took a carving knife and fork and thrust them into her side. THE VOLUNTEER WINS AGAIN.

youngest daughter of the late John Hallaran, teer were on the east of the line not 200 vards apart, each working grad the line. The Thistle was nearer and went away on her trip nearly four lengths ahead of the Volunteer. The Volunteer outpointed the cutter ly nearly two points, and won the race by the Little Metis, on the 22nd September, WILLIAM LINDSAY DUNCAN, Engineer, son of John Duncan, Esq., Farmer, Campbellton, aged 27 years, deeply regretted by a large circle of relatives and friends.

The wind at the start was blowing about 20 miles an hour. It maintained that velocity all the way out except during a period of perhaps 50 minutes when it let does considerable, during which time the Thistle people claimed that they were becalmed while the Volunteer held the wind. Really the contestant were equally affected.

The boats set spinnakers coming hon

and the question as to whether the broad cutter could go fast enough before the wind to make up the latter's gain in windward work was soon to be decided. The Volunteer had a lead of fully $2\frac{1}{2}$ miles when the Thistle rounded and that The Thistle was the first to take in her spinnaker, but the Volunteer followed suit immediately. This move was occasioned by the fact that neither boat could make the lightship with the wind aft and a haul up was necessary on the run home. The wind let up as well. It dropped to 10 miles an hour, yet the Volunteer got there all the same. The accompanying boats tooted their horns in grand style at every possible opportunity, and the spectators, by cheering and wav ing their handkerchiefs, evinced their delight at the result. The steamboats had much trouble in getting back to the finish line in time to see the Volunteer successfully defend the American cup. Most of them wanted to see the Thistle round the outer mark. That detained them nearly 15 minutes, but once unde way for home they maintained a jolly good speed and leaving the Thistle far astern, they got there in time to see the American sloop cross the line a winner by 11 minutes and 48 seconds. In the windward work the Volunteer beat the Thistle 14m. 49½s. On the run before the wind the Thistle beat the Vol-

unteer 2m. 54½s.

After the race Mr. Bell admitted that the Volunteer with her centreboard had fairly beaten the Thistle in the racing to windward. He was rather inclined to the opinion that a centreboard was pretty useful thing.

HOW A POST OFFICE THIEF ES CAPED.

MONTREAL, Sept. 29 .- An employe of the Montreal post office named Lesuier has been on trial for several days for stealing money letters from the post office. The evidence in the case was clear against the prisoner. The counsel for the defence, in their address to the jury, which consisted of six Englishmen and six French Canadians, urged the evidence against the prisoner, were for conviction, but the six French Canadians, Derby. although admitting the case was very clear, were for acquittal, simply because the man was a French Canadian. When this fact became known Judge Baby very indignantly and strongly censured the jury. The action of the jury has occasioned a great deal of comment, and the general feeling is things have come to a pretty pass when an offender is to be discharged simply on the ground of his nationality.

IMPROVEMENTS.

HALIFAX, N. S., Sept. 16.—The Inter-colonial railway authorities are making extensive preparation for the carriage of the Asiatic mails this winter, which are expected to come by Canadian Pacific steamers to British Columbia, thence carried across the continent by the all Canadian route to Halifax for transporta-Canadian route to Halitax for transporta-tion to Europe. About 120 miles of new rails of extra heavy pattern are being laid down between Halifax and Levis, replac-ing the light 56-pound rails. About eight miles of snow fencing and one and a half miles of iron and wooden sheds are to be erected before winter sets in. These improvements will it is expected. These improvements will, it is expected, render delays such as occurred last winter, next to impossible in any ordinary season. The total expenditure in this connection will reach \$150,000. Ballast trains are also working briskly on all divisions of the road, and the roadway will be put in better condition than ever to meet the

Circumstances change, temptations imminsh, positions improve, misfortune becomes endurable by habit, but persons who are disagreeable to us always irri-

How to Make Money. The following statistics gathered from reliable sources are both interesting and instructive and may be turned into money, so to speak, by farmers and poultry raisers. The number of fowl has greatly increased in the United States during the last five years but this increase has been larger in the New England and Middle States than in any other. Twenty-seven States report over one million each. Thirteen States report over three millions each while the States of Illinois, Iowa, New York, Ohio and Pennsylvania report over five millions. Ohio and Pennsylvania report over five millions each. In eighteen of the States the annual average product of eggs per hen is as follows:

Me., 7.5 Doz. Penn, 5.2 Doz. Ohio, 4.0 Doz. Mass., 7.2 " N. Y., 5.0 " Ill., 3.6 " Conn., 7.1 " Ind., 5.0 " N. C., 3.6 " N. C., 3.6 " Ky., 4.4 " S. C., 3.1 " Vt., 5.9 | Iowa, 4.3 | La., 3.0 " It will be noticed that the average number of eggs laid per hen per year ranges from three dozen to over seven dozen and that those states which reported the largest number of hens did not make the most money because, as the figures show, they only got an average of four to five dozen of eggs per hen per year while the New Eugland States showed an average of from six to over seven dozen. The question arises then why do hens in the New England States

A little girl wasn't far wrong when she told her Sunday school teacher, iu answer to the question, "What is the worst thing about money?" that it was 'cause we ain't got any.
