FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and and extensive trial of flw wirtues has conclusively-shown with what success it accomplishes the surpose designed. It is easy to make a physical pill, but not easy to make the objection, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hithest that alimest every purpositive medicine is seriouslesses and irritating to the bowless. This is not. Many of their produce so much criping pain and revulsion in the system as to more than counterbalance the good to be derived from them. Their life consists to their mystery. I have so unveteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectural was pronounced by selentific men to be a wonderful mediciae before its effects were known. Many entent Physicians have declared the same thing of my Fills, and even more confidently, and are withing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stemach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting wherever they exist such derangements as are the first origin of disease.

Being sugar wrapped they are plessant to take, and being purely vegetable, no harm can arise from their use in any quantity.
