MEETING OF EGG PRODUCERS

An enthusiastic preliminary meeting of poultrymen was held in Middleton last Saturday night. It was generally agreed that some co-operative shipping agency was greatly in need and would be of value to both egg-producer and consumer. Both eggs and dressed poultry will be marketed through the New Brunswick Egg Exchange which has had considerable success in that province. W. F. Jones, who effected such excellent results in organizing egg circles in P. E. I., is now manager of the N. B. Exchange.

As referred to previously, Mr. A. F. Curran, the District Poultry Promoter, will supply an expert to call the Egg Circle Members' books. The hens will be shipped live-weight, probably to Boston, as this market in the past has absorbed great quantities of Canadian egg hens.

At the time of flock-culling, the expert will also demonstrate the best killing and dressing methods, so that members will have a uniform product in the fall. The N. B. Exchange will market the dressed poultry also, but the grading of the birds will probably be done in Annapolis County. For those interested in disposing of broilers, it is suggested that Gunn

Langlois Co. of Montreal, are establishing a killing plant in Truro for a month and a half. Those who cannot make satisfactory sales locally, or elsewhere in the province, are advised to communicate with this firm. The final organization meeting will be held on Saturday evening, June 27. To judge from the last meeting a very large attendance is expected. It is hoped that Mr. Curran will attend this meeting. For further information, communicate with C. A. Good, R. R. No. 1, Lawrencetown, secretary-treasurer of Annapolis County Egg and Poultry Circle.

RESTFULNESS

There are some people whom we meet with as we journey who impress us with a sense of restfulness. We are all tempted to strain after effect sometimes, but in the presence of these people we do not think of that. There is no effort to keep up conversation. We are not ashamed even of being silent. Like a breath of evening after the garish day, when coyness and quiet have followed on the sunbaked, such natures often, we know not how, envelop us with sweet sense of rest.

INSTITUTE LETTER FOR MAY

The local institute held a very enjoyable and successful meeting on the evening of May 28th. The business session consisted of the reading of various sources. Mrs. Goucher, convener of Home Economics, reported that she was successful in obtaining the services of Mrs. Evelyn Spencer, the "Fish Evangelist" if a suitable place could be found for the demonstration. A program was rendered in charge of the Committee for the evening. Mrs. C. M. Hoyt, convener, "Park Development" by Mrs. Cecil Parsons, was followed by discussion and suggestion made for beautifying the spot. A solo by Miss Georgie Balcom, of Margareville and readings by Miss Ardis Whitman, of same place, were most delightful and highly appreciated. A "Lunch" was served which netted a neat little sum. About 50 ladies were present. The interest is keen in every department of the work. Come and join us.

C. W. PARSONS, Secretary W. I.

ANNUAL AGRICULTURAL STATISTICS OF CANADA, 1925

It is announced by the Dominion Bureau of Statistics, Ottawa, that the annual census of field crops and live stock for 1925 will be made this June. These statistics are collected jointly by the Dominion and Provincial Governments by means of cardboard schedules issued to farmers through the rural school teachers and children. In British Columbia they are mailed direct to the farmers. These schedules call for the acreage sown this year to the principal field crops and for the numbers of farm animals alive on the farm in mid-June. The areas thus collected form the basis of the annual statistics of acreage and yield. It is very important for all classes in Canada that correct statistics of agricultural production should be published, but it is especially so for the farmers themselves who through co-operative wheat pools are now undertaking to market their own wheat and other products; because accurate statistics are essential to fixing of fair prices. Any farmer who has not received the blank cardboard schedule through the rural school of his school district or otherwise by the middle of June should make immediate application for same either to the teacher of the Public School District in which he resides, to the Provincial Department of Agriculture at the capital of his province, or to the Dominion Statistician at Ottawa.

To issue an invitation is to render ourselves responsible for our guests' happiness for as long as he is under our roof.

ELECT THE TICKET
AND
GIVE THE OLD PROVINCE A CHANCE

1. Business Government

The leading business men in the province are running as Opposition Candidates in this campaign because they realize the seriousness of Nova Scotia's present position. Give them a chance to straighten out provincial affairs.

2. Reduction of Expenditures

One of the biggest drains upon the provincial treasury at present is the keeping up of an army of useless officials and the giving of pensions to a yearly increasing group of government favourites. A new government will have every motive for cutting out this deadwood and lightening the people's Burden.

3. Reduction or Abolition of Direct Taxation

Previous to 1912 public services were paid for out of coal royalties, Dominion subsidies and the like, practically without resort to taxation. In 1912 direct provincial taxation was introduced. Immediately after each provincial election since that date a batch of new direct taxes have been imposed. At the same time the government has thrown upon the towns and municipalities the burden of keeping up services previously maintained by itself and in this way has increased town and county taxes. Legislation has also been passed increasing school taxes, poll taxes and other local assessments, while various petty exactions such as game license fees, partnership and joint company taxes have discouraged business. Fees for automobile permits are higher here than in any other part of America but the government has now taken steps to impose an added tax of three cents a gallon on gasoline. A prudent government will make these exactions unnecessary.

4. Independent Audit

The investigation into the St. Margaret's Bay Road scandals whereby hundreds of thousands of dollars were shown to have been improperly taken from the government showed conclusively that the present system of audit under a government official is a farce. The recent disclosure that the Provincial Treasurer, while employed in another position of trust, had misappropriated over \$30,000 and now objects strenuously to having his provincial accounts audited, makes an independent audit imperative. No honest government with nothing to conceal would object to such an audit.

5. Stopping the Exodus and Bringing Back Our People

Industry has been killed in Nova Scotia by monopolists and stock exploiters and no lead whatever given by the government to industrial development. A new government will be pledged to right these wrongs and give employment to our people.

The Tourist's Eternal Triangle

Someone has just published a book about Canada. It is only a little book—about eighty pages—but it contains an astonishing amount of information. It will tell you how many cities there are in Canada; how many people there are in those cities; how many bushels of wheat were grown in 1924 and how much money the government makes out of the business of governing. It will also tell you, incidentally, that Victoria, B.C. is one of the most beautiful cities of the world and that Vancouver has the second finest harbor there is anywhere.

That is the right sort of book to publish. There is nothing vague, nor indefinite nor yet inaccurate about the information it gives. It errs, if at all, in being a trifle too modest. Victoria, is indeed one of the most beautiful cities in the world, but that is not all one can say about it. It is the capital of British Columbia and as such is the centre of the province's recreational, industrial, and social activities and that's saying a whole lot. Then there's Vancouver. Look at its bathing beach. No wonder the citizens have built the second finest harbor in the world when they have a great and beautiful slab of the Pacific Ocean to fling themselves and each other into to revive their weary bodies and minds whenever the business of operating their famous harbor becomes burdensome.

These two cities are linked with each other and with Seattle, to the south, by what is known as the Triangle Route of steamships of which the Princess Kathleen, of the Canadian Pacific Coastal service is a member. The "Kathleen" recently made her inaugural trip on this route and is now permanently in the service.

Ontario's Many Summer Resorts Afford Varied Pleasures

Every summer tens of thousands of visitors seek rest and recreation, health and happiness in the fascinating hinterland of Ontario, where woods and waters abound on every hand, each with its special charm.

A fascinating retreat for fishermen in this part of Ontario, is the French River district. Since the erection of a comfortable, commodious bungalow camp which opened in 1923, visitors have flocked there in numbers that have taxed its capacity. Fighting bass, grows strong in the swift waters of the river, and huge muskellunge are caught in large numbers. Other species are plentiful too.

Most of the Ontario places are easily reached from Toronto. The Muskoka and Kawartha chains of lakes are the annual haven of many visiting families who occupy cottages, camps and hotels of varying degrees of comfort and luxury. All enjoy the dry, pine-scented air that is a sure remedy for hay fever. Many vacationists are ardent fishermen; others delight in sailing and paddling canoes. The summers are all too brief to satisfy these lovers of Ontario's out-of-doors.

Camps hidden miles deep, away from the railway lines, yield exceptionally good fishing and wholesome food. Such a one is Billy Burke's log camp on Trout Lake, reached by an 8-mile launch ride from Paget station. Ka-Wig-A-Mog Lodge, hidden away from civilization, is about 8 miles from Pakeness, and transportation is via the Key Valley Railway, owned by a Milwaukee lumber concern, which operates a railway bus, mounted on railway car trucks, and fitted with a Ford motor for power. At the sawmill town, this mode of locomotion is exchanged for a motor launch that carries guests to Ka-Wig-A-Mog Lodge, an attractive structure devoted to dining and social affairs. In addition to the Lodge, there are a number of cottages built about an eighth of a mile apart, on both sides of the long, narrow lake, thus insuring privacy. Mixed fishing is good here and in nearby waters, while Trout Lake affords plenty of small-mouth bass. Bon Echo, an out-of-the-way resort, is reached from Kaledar, Ontario, by automobile which passes along hillside carpeted with blue flowers and seemingly to emanate a blue haze. The lake is located on a spit of land that separates the Mazinaw Lakes, two lovely sheets of water. They are of great depth and from them rises a sheer rock to over 200 feet, possessed of a three-fold echo. It bears on one face a bass-relief of Walk Whitman, to whom the rock is dedicated. Bass fishing is good. There are two fine beaches; one of deep water that delights divers, and the other has a vast, silver sandy floor with shallow water, and makes a safe, ideal beach for women and children.

Port au Baril on Georgian Bay, is unique in that its capacious rustic hotel is located on an island. Fishing, bathing and boating are its chief attractions. Georgian Bay with its thousands of islands and indented shore-line, is a paradise of beauty and sport, and is sought by many visitors from the States with summer homes on the islands. Those who prefer the mainland, will find a string of summer resorts dotting the shore-line for 100 miles.

MIDDLETON BOY SCOUTS

Last week we were honored by the visit of J. O. Kaubach, esq., our new assistant Provincial Commissioner, who was very pleased with the work that we are doing, and also of the prospect of a good attendance at the County Camp, which will be held at Mount Auburn for the Boy Scouts of Kings, Hants and Annapolis Counties.

From this week and until further notice, the weekly Scout Meeting will be held on Friday, at 7.30 in the Armouries.

A GROWING BOY

(Crowded out last week)

McCauley's boy has grown in rank in the savings bank some money stowed away! It's honest money, all his own and not his dad's at all; it's his to keep, invest or loan, it's subject to his call! It's not play-money which his dad has given with a wink by contract inducements and had, with money which he knows his father will demand to cut some mortgage that he owes or debt upon his land! It's money that he knows is his, the real, the honest thing, not wrapped around with theories nor fastened with a string.

That boy has grown a trip'e inch, his chin is tilted high, his glance is straight without a flinch or shifting of the eye! Self confidence is in his smile, his jaw is set and firm, he has a courage worth the while without a quail or squirm! He has a self-esteeming pose, a sure and steady poise, a look about his very clothes that's missed in many boys! This fellow's dad is very wise in method deed and plan; the lad through faith and mental size is helped to be a man.

Open Tuesday and Saturday Nights. Closed Thursday at Noon.

Hot Weather Necessities

Every home needs a Refrigerator when hot weather arrives. Keeps food nice and fresh and saves spoilage.

An Oil Stove helps make the cooking much more pleasant. Install a Florence Automatic and make your wife smile.

A Thermos Bottle is an essential: you can keep the liquids either hot or cold. No home is complete without a thermos. Quart and pint sizes.

Keep the flies and mosquitos on the outside by screening your windows and doors. There is nothing so unpleasant as the botheration of flies and mosquitos. Do it today before it's too late.

HOW CIVILIZED ARE YOU?

Don't be afraid of the question. It is easy to answer. The finest representation of civilization are by no means found among the so-called cultivated and educated classes. Civilization depends upon what we call progress far less than many think. Here's the heart of the matter: What is your attitude toward the various forms of life about you? Men, women and children, the beasts of the field, the birds of the air, the four-footed inmates of the home—these are the things, if I may use the word, your treatment of which will tell how civilized you are, far more than your relation to bonds or banks or books or estates, or even that highly excited thing men call 'society.' The most perfect example of the most perfect civilization was a man who had never been to college, who was ostracized by nearly all the social leaders of his day, who even had no place to lay his head. This man, by his spirit, his life of love, kindness, goodwill, justice, compassion, stands today, two thousand years since he came among us, humanity's ideal of what is highest and finest in the only civilization wholly worth the name. How civilized am I. Nothing answers the question more accurately than my treatment of my fellows.

A Middleton girl says: It's wonderful how much kissing goes on right under one's nose nowadays. Oh, yes, we thought some body would be telling. Likely she knows. It pays to advertise — Try it.
