BRAZILIANS DEGIDE TO REMAIN NEUTRAL

Rio Janeiro, April 28-(Delayed) .- The Brazilian Government issued a proclamation of neutrality today in respect to the war between the United States and Germany.

Buenos Ayres, Argentina, April 30.— The question of Argentina's attitude in the war was debated today in a stormy session of the National Congress of Socialists, during which several fist fights occurred. The congress rejected by a vote of 4,210 to 3,557, the resolu-tion submitted by the executive com-mittee, setting forth that German sub-marine methods were in violation of international law, and recommending the arming of ships. The Congress adopted a declaration in favor of ab-solute neutrality. STORMY SESSION.

"When I was chairman of the board of health," a remark made by C. R. Somerville at the Rotary Club at noon today, caused not a little surprise to the members, as he is now the chairman of the board. It is believed, however, that he has forwarded his resign ation as member, and that his resignation will be followed by that of Jeffrey Hale, and Dr. H. W. with the issue remaining in doubt. For six days, the armies of Great Britain and Germany have struggled for the mastery in a conflict which baffles superlatives. Tens of thous-ands of reservists have been hurled against the British battlefront by Field Marshal von Hindenburg in a supreme effort to check the British advance, but so far without avail. Almost literally foot by foot, Gen. Haig is forcing his stubborn foe back. The sides are fighting with a resolution as grim and savage as any the war has shown, and it seems to be a question as to can sustain its ghastly sacrifices the longest.

What of May Day?

However momentous the issue which hangs on the bloody struggle in France, they are insufficient to hold the attention of the German people, who are facing a situation at home fraught with even more tremendous possibilities. WHERE DOES RUSSIA STAND?

PETROGRAD, April 28—In an in-erview with the Associated Press oday, the minister of justice made the following statement as to peace: "Russia wants peace on the terms proposed by President Wilson. The and entrance of the revolution and entrance of the United States into the war have somewhat changed the objects for which we are fighting. We want peace restored without annexation or indemnity, and favor a conference with the Allies to determine how this can be attained."

This is a contemptible, detestable proposal to come from a minister of the new republic, standing as it professes for the victory of democratic principles and for the overthrow of tyranny. If Russia should express herself as favoring a movement among Socialists to lead Germany to the light and send Hohenzollernism to the pit, the ideals of her leading men might have consideration, but any proposal that seeks a slackening of the pace, a lightening of the blows or a lessening of the forces that are determined to crush the enemy will be regarded by the other Allies as a base betrayal. Now just a word in regard to what "Paper Doils" say about equal rights. They should be willing to give up all the little courtesies which the men give them now, and that if a lady went into a crowded street car, and no gentleman arose to offer her a seat, she would call them gentlemen no longer. Well, in that case she would be right, whether she has equal rights or not; it is only the place of a gentleman (if he is one), to rise and offer that young lady his seat. It is also said by some people that if the women had a vote, it would be the first step towards it. I believe it would mean better laws, both in Canada and the British Empire, when we know that the women are ranked amongst the bravest and best of our land. We hear so much about the brave men who are fighting on the brave because according to my idea, it is :

CHICAGO, April 28.—Detroit won its first game of the season from Chicago today, when they shut out the locals 3 to 0. They clinched the game however in the sixth when Young's single, Cobb's triple and a sacrifice fly by Veach netted two more runs. Score:

May Day Strike Is Called In Austria by Socialist Party Copenhagen, April 29—Via London-Reports that a May Day strike is to take place in Austria are confirmed by the Arbeiter Zeitung of Vienna, which announces that a general strike has been ordered by the Austrian Social Democratic party for May 1. On that day will be held a series of meetings intended as peace demonstrations. Work will be resumed on May 2. Although the commission sat for many weeks, costing a tremendous sum of money, not one soil-tary improper act on the part of anyone had been established. Sir Sam said that previous to his sailing for Europe last spring he had heard rumors that "an attempt was to be made to destroy me." "Enlarged Appreciably."

Paris, April 29.—The war office communication tonight reads:
"Along the Chemin-des-Dames the German artillery, energetically countershelled by us, bombarded our positions at Hurtebiz. Grenade fighting likewise was lively in that region in the first lines.

"Northwest of Rheims and in Champagne we effectively shelled the German organizations. In the region of Courcy last night we took more than 200 prisoners. Calm prevailed on the rest of the front.

"Belgian communication: There is nothing to report except the usual artillery actions."

"Out of the prime minister, giving hlm a brief summary of this, and told him that in case anything turned up he was to cable me promptly, and I would return instantly. I have never yet been able to ascertain how the New York financial gentleman became possessed of the information."

Sir Sam then criticized the appointment of Sir George Perley as Canadian overseas minister. If there was anything wrong with the finances in England was much more necessary than an overseas, a finance minister in England was much more necessary than an overseas minister of milities with the finances in England in connection with Canadian troops overseas, a finance minister in England was much more necessary than an overseas minister of milities. Sir Sam said he had known that in 1915 the convalescent system in England was wrong. He had remedied it, and the system has now become the model for every warring nation—enemy or friend.

In one year it saved Canada upwards of six millions of dellars.

An earlier statement said that French troops last night attacked German positions near Courcy, northwest of Rheims, the war office announces. The gain was considerably great and 150 prisoners were captured. German attacks in the Champagne failed. In Upper Alsace the French advanced as far as the second German line at several points, inflicting losses on their adversaries and bringing back prisoners.

The text of the statement follows: "Between the Somme and the Oise intermittent artillery engagements occurred. German attacks in the region of Laffaux and north of Cerny-en-Laonnois were broken up by our fite. In the sector of Craonne patrol encounters and grenade fighting occurred. "There was heavy artillery fighting in the Champagne, between Prunay and Auberive. Two German attacks on small French posts rear Tahure and in the vicinity of the Navarin farm were without result.

"In Upper Alsace our detachments penetrated at several points as far as the second German line. Spirited grenade encounters terminated to our advantage and cost the German losses. We brought back prisoners."

The man from Chicago was made use of after that in a less fatiguing way out in green front headquarters.
There was a curious scene today when war trophies which are to be shipped to Canada were being cleaned up by prisoners taken yesterday, while groups of our men who were on Sunday leave, stood round, good-naturedly chaffing them.

Message of American Congressmen Has Aroused Great Interest.

London, April 30.—The message of American congressmen to Premier Lloyd George in reference to Ireland is printed in the morning papers without comment, except in the Dally News, which says that it re-emphasizes rather than reveals the intensity of feeling in America on the Irish question. The Daily News adds: Victories sure to be won by the solfighting shoulder to shoulder for liberty, declared the hero of the Marne,
will "hasten the end of the war and
tighten the links of affection and esteem which have ever united France

No department of the C. P. R. has more care or thought devoted to it than the handling of baggage, for the traveler owes so much of his good temper and comfort to the knowledge that his trimks are handled carefully and delivered on time. The amount of baggage handled on so large a system is phenomenal—no less than 7,899,652 individual pieces being forwarded during the year 1916. There must have been quite a number of families on the move, for the list includes 28,309 to been quite a number of families on the baggage department. as in order to has a second delivery of milk from the farm to the city dweller passenger trains are used. The total number of milk cans forwarded during the year 1916 was J.162,472.

The most convincing proof of the care with which baggage is handled on the C. P. R. is given in the figures of claims paid on loss, damage, pilferage. Out of nearly eight million pieces of baggage handled, the amount paid on loss was only \$1,791.79; on damage only \$1,669.68; and on pilferage only \$571.07, the cost to the company in these respects being only five cents per hundred parcels.

This is a record of which Mr. J. O. Added the propular capacity is graphed. This is a record of which Mr. J. O. Apps, the popular general baggage agent of the Canadian Pacific Railway, may well be proud, and is sufficient to show that the so-called "baggage smasher" has been entirely eliminated, if indeed he ever existed, between Digby, N. S., and Victoria, B. C.

Decorous, too, they are, these boys and boys, but about them, nevertheless, is an air of expectancy. The good time to come is what helps them to be so well behaved during the first part of the "grown-up" service. Things will happen which throw one off one's guard. For example, daddy who has been ushering the first fifteen minutes can't get into his own seat. He takes one directly in front. What more natural than to punch him in the back with your fist, just to let him know you are there, and glad to see him, especially if you are a small bay?

Sister:

Well, dear brother and sister, I can not call either of you anything else, for I never had friends like either one of you before. And say, I don't know how to express my thanks to you for your kindness towards me while I was in London, O, say, I have it over the boys here. They all want to know who was so kind to me, and I don't forget to tell them the City Mission, and they shut up right away. I told them that was nothing to what I have got. I told them if that suitcase was all I had got in the City Mission, they could have kept it, and, of course, they thought it was something good to eat or to wear, or something else.

But I have told them about my Christ and some of them hang their heads, while a lot of them just laugh. But while they are laughing on the inside. For I have Christ to laugh with, and why should I care how much they tease me. I have a friend. I am sorry to say that of all my companions in this bunch that they have put me with, there is not one who wants to hear of this great everlasting friend. And, oh, when I st here and think of how he has pardoned all my sins, and I guess we all know I was no saint, it makes me feel like licking everyone that insults him.

Well, brother, I want you to pray for me both at home and in the mission, for I will need all of your prayers.

The steady growth of the junior congregation of St. Andrew's, which has room for all hoys and girls who "have reached an age of understanding," and and twelve years, is the best in-ation that the children like it, and ents are appreciating the opportun-afforded the little folks to learn the ole. Well-Known Aplarist Reminds That Honey is Not Perishable,

that there were announcements, one from a little man inregard to a boys' club, and one by a little woman concerning a girls' mission band. The collection followed, taken up by two boys appointed the previous Sunday. During this there was a tuneful "voluntary" from the masculine choir.

The Boys' Day.

It was truly "boys' day." The subject for the occasion was "King Saul," and the story of his life and reign was told simply and effectively by Mrs. D. C. MacGregor, the Leloved assistant supervisor, told, of course, with the help of the children.

It was twice as interesting to think that Saul fought the Philistines just where Britishers are fighting the enemy today, and that a London woman a few days ago had a letter from her son in the very place.

There was that thriller about Jonathan and his armor-bearer defeating the Phillistines single-handed with arrows and the help of the thunder, which made the superstitious Philistines think the armles of Saul were coming.

Then there was that incident in the career of the king where he disobeyed God and took the sheep and the cattle and lied to Samuel about it.

You could just see Samuel rebuking Saul and walking away from him and standard the cattle and lied to Samuel about it.

You could just see Samuel rebuking Saul and walking away from him and standard the cattle and lied to Samuel about it.

The members about forty in numbers, presented interesting reborts indicating that the outlook for a good honey season this year was bridged here and instructive paper was read by D. Anguish. Lambeth, known throughout the province as the most successful aplarist in Ontario. He is regarded as an authority on the subject. His subject was "Preparing bees for the harvest, nectar, secretion and gathering of the same."

In giving advice to the beginner he used the following "dont's":
