ing Chances

Dissolution of the Union of the Two Kingdoms Must Come After Nego tiation Only-Report of the Swedish Committee-Terms to Be Insiste On by Sweden In the Event of a

Stockholm, Sweden, July 26.—The Cabinet has resigned.

A special committee appointed by the Riksdag to deal with the crisis which created the revolution in Norway yesterday delivered its report. The committee declares unanimously that the Government bill cannot be addited in the form in which it is now presented to the Riksdag, and proposes that the Riksdag shall signify its willingness to negotiate with Norway for a dissolution of the union if the newly-elected Storthing requests a repeal of the act of union, or if such request is received from Norway after the Norwegian people by a plebiscite have declared in

ple by a plebiscite have declared in favor of a dissolution of the union. Terms Sweden Should Demand. The committee recommends that in the event of a dissolution of the union Sweden should insist on the following

First, the establishment of a zone on each side of the frontier separating the kingdoms within which the existing for-tifications shall be razed and new for-

tifications may not be erected.

Second, the right of pasturing reindeer belonging to Swedish Laplanders in North Norway.

Third, that the transit trade through both countries shall be secured against

unjustifiable obstruction. unjustifiable obstruction.

Fourth, that the status of Sweden in respect to foreign powers as established by the treaty shall be clearly defined, so that Sweden shall be completely to other Sweden shall be completely freed from responsibility for Norway to other States.

Arbitration Desirable.

The committee also regards an arbitration between Sweden and Norway

tration between Sweden and Norway as desirable, although it does not consider it an essential condition for the dissolution of the union. The committee further proposes to authorize the Government to raise a loan of \$25,000,000 which can by a resolution of the Riksdag be made available for such readjustments and arrangements as may be necessitated by the new conditions. Regarding eventual negotiations with Norway the committee declares that: Norway the committee declares that:
"Whatever may be demanded for the
welfare and dignity of Sweden as a
condition of the repeal of the act of
union on the part of Sweden and of
the recognition of Norway must be
claimed and adhered to with rigor and
eleganticities."

claimed and adhered to with rigor and determination."

Newspapers Await Debate.

Christiania, July 26.—Commenting on the situation in Stockholm all the newspapers prefer to await the debate in the Riksdag on the report of the special committee before considering the conditions Sweden desires to impose, but the majority inclined to the opinions that these conditions will not be acceptable to Norway.

Kalser in Sweden.

Wisby, Sweden, July, 26.—The German imperial yacht Hohenzollern with Emperor William on board, arrived here yesterday.

ROUTE SHOULD BE CHANGED.

St. John Valley Said to Offer Botter Grade and Trade. Ottawa, July 26.—The New Brunswick delegation in connection with the route of the National Transcontinen-

tal Railway through the Province, met Sir Wilfrid Laurier, Hon. W. S. Field-ing and Hon. H. R. Emmerson yester day forenoon. Senator Thompson and

Mr. Carvell were the principal speakers.

A petition by F. B. Carvell, M. P., Senator Thompson, Senator Ellis, Senator Domville, Senator Wark, O. Turgeon, M. P., James Reid, M. P., and O. J. Leblanc, M. P., was presented to the Government, which set forth that the question to be decided was by which route the greatest amount of traffic could be conducted for a given amount of money. The central route was circuitous in order to obtain the necessary grades. It was lengthened for this purpose by at least forty-five miles between Grand Falis and Chipman, in excess of the actual distance between these points.

man, in excess of the actual distance between these points.

On the other hand, the St. John Valley rouse, which the delegation wanted the Government to adopt, offered a down-grade of two lengths of 1 per cent. going east from Grand Falls to Fredericton, and practically a level grade from thence to Moncton. The local traffic on the valley route would make it a paying investment. To secure the advantages to Canadian ports over Portland, the route which offered the least resistance to transportation, should be selected. The Premier promised to look into the whole question.

Apple Shippers, Take Warning.

Ottawa July 26 .- The Department of Ottaws, July 26.—The Department of Agriculture has received information to the effect that the Government of Cape Colony, South Africa, intends to enforce more strictly the existing regulations against the introduction of apples infected with the disease known as "black spot," or insect diseases, and exporters of such fruit from Canada are warned that shipments found to be so infected will be liable to confiscation under the provisions of the import reunder the provisions of the import regulations.

Grown-up athletes sprain muscles by overdoing wholesome exercise. The aches and soreness are taken out with Perry Davis Panitiller. Rub it well into the throbbing flesh and relief is immediate.

AND PLANET

The Blenheim Minister has Some Harsh Things to Say of Report in this Journal

Omcial Record Bears Out The Planet Aftermath of the Liquor Case Appeal.

In its account of a Blenheim liquor case appeal before his honor Judge Dowlin, The Planet commented as follows on the evidence of Rev. Mr. Gilmore, who was one of the witnesses for the presecution :-

es for the prosecution:—

"Rev. George Gilmore, of Blenheim, possesses a deligate and dangerous power. To satisfy the admiring curiosity of Barrister O. L. Lewis, he modestly confessed his triumphs to Judge Dowlin yesterday afternoon. By a whiff of the unfortunate taster's breath he not only discloses his weakness, but the reverend gentleman has instantly spotted the peculiar character of his beverage. With marvellous subtlety he distinguishes whiskey and beer and wine—and, for that matter, can without wavering that matter, can without wavering readily separate the breath of sherry wine from port wine. He modestly admitted that it might take an extra whiff to distinguish gin, but balanced this admission by the startling statement that he could always tell what he had been drinking by the smell of his own breath."

As a result, The Planet is this morning in receipt of the following communication from the gentleman in question, and accedes at once to his perfectly proper request for its publication :-

To the Editor of The Planet :

I was of the opinion that there was one newspaper in Chatham that dealt fairly in reportorial matter, but it seems I must change my mind or conclude that the editor of The Chat-

conclude that the editor of The Chat-ham Planet allows his paper to ap-pear on the streets before scanning its contents.

In the report of the Blenheim ap-peal case that appeared in yester-day's issue there is so much of pre-judice manifested and of bad taste shown that I am obliged to call your shown that I am obliged to call your attention to the fact that the said report is grossly incorrect, that only such parts of the evidence are given as favor the liquor man's side of the cage, and that the report as a whole is such as could be looked for in the arena of clap-trap journalism. My opinion, Mr. Editor, is that you are a party to such misrepresentation, and I therefore respectfully request and I therefore respectfully request you to make the necessary correc-tions, and ask for the apology that such impertinent scurrilousness calls

tions, and ask for the apology that such impertinent scurribeusness calls for. Does that reporter fail to detect the odor of the bar-room on his wretched production? To state that I swore all the article in question attributes to me is to state what is contrary to fact. To put that article as a fair setting forth of the proceedings of the appeal case is so monstrous as to beggar any man's powers of stigmatization. Why did the reporter not note W. J. Hutchinson's evidence as to the condition of the youth? Why did he not state that W. J. O'Brien, instead of going to the Chief of Police in Blenheim to ask for attention, called upon the two men that Crown Atterney Smith a ld "su ted his purpose well," and who when cross-examined, were forced to admit had not been in the bar-room all day to find out who was there? Why did he not report that the Crown Attorne cross-examined, were forced to admit had not been in the bar-room all day to find out who was there? Why did he not report that the Crown Attorney stated before the judge that he could produce evidence to show there were other youths under age in the bar-room that day?

bar-room that day?
Fair-minded people ask "Why?"
As the case is still before the court
I cannot enter upon its merits. The
above is sufficient to indicate the unreliability of anything from such

source.

The nature of the report (f) calls for more severe treatment, but I shall close by requesting you to give this reply to such impertinent personalities as conspicuous a place in your paper as the article in question was accorded.

Respectfully

Respectfully,

For truth and decency,

GEO. GILMORE.

Blenheim, Ont, July 25th, 1905.

The Planet appreciates the good opinion in which our esteemed correspondent kindly states that he previously held it, and this journal trusts that he will be just enough not to amend that opinion without reasonable cause. We believe Mr. Gilmore knows-as, we trust, do all our readers-that this journal always seeks to be accurate and fair in its chronicles of public matters. Immediately, therefore, on receipt of the above letter with its serious charge, a representative of The Planet was despatched for the official court stenographic record of our correspondent's sworn testimony on this matter, which is as follows :-

Mr. Lewis-How do you tell the difference between fermented and unfer-mented wine i Witness (Rev. Geo. Gilmore) — By the smell.

ARMIES 7 MILES APART

Past Three Months Most Quiet Period of Entire War.

Reconneitering Parties In Constant Touch But Losses Are Unimportant -Russian Loss In Friday's Clash 100 Men and a Reverse-Japs Dislodge Enemy From Neighborhood of Puku and Puryong.

Fusan, July 26.—The past three months with both armies has been the most quiet period of the entire war. There has been no engagements at the front, the only encounters being those of reconnoitering expeditions sent out by both armies with a small total of

sses.
The Russian and Japanese lines are tain a screen of cavalry outposts, some miles in front of their trenches to guard attacks. Reconnoitering forces from both sides traverse the neutral zone, frequently feeling the strength of the others at the front and making a small weekly list of killed, wounded

small weekly list of killed, wounded and captured.

The fight reported on Friday was the first worthy of mention, which has occurred east of the railway. Two Russian reconnoitering forces approached the Japanese line, one about twenty-miles, the other seventy miles east of the railway. The first contingent consisted of two squadrons of cavalry, the second of two battalions of infantry. Both retired after brief encounters. Both retired after brief encounters.

Russians Lose 100.

The Japanese sustained no losses, but those of the Russians are supposed to have been nearly 100.

In the first encounter the Russian

In the first encounter the Russian cavalry, with its front side a thousand metres long, advanced upon the Japanese line until it came under fire, when it retired in confusion and the infantry advanced. The Japanese fired

fantry advanced. The Japanese fired 40 rounds with a captured Russian battery, when the Russians refired, the Japanese following them for ten miles.

Enemy Dislodged.

Tokio, July 25.—An official report from the headquarters of the Japanese army in Northern Cores, says:

"On Monday, July 25, the army succeeded in dislodging the enemy from the neighborhood of Puku and Puryong and occupied a line to the orthward."

Reinforcements For Linevitch,
St Petersburg, July 26.—Reinforce.

Reinforcements For Linevitch, St. Petersburg, July 26.—Reinforce-ments for Gen Linevitch are steadily being forwarded. Thirteenth army corps, the headquarters of which are at Smolensk, will leave for the front

MODEST INDEMNITY ONLY.

Peace Truly Wanted Pays Spokesma of Japanese Plenipotentiaries.

of Japanese Plenipotentiaries.

New York, July 24.—That Janan will demand an indemnity from Russia in the negotiations for peace, and that the war will be declared at an end at the conclusion of the negotiations at Portsmouth, N. H., next month, is the belief of Baron Komura, head of the Japanese peace mission, as voiced by Almar Sato, official spokesman for the baron. The party arrived here yesterday.

baron. The party arrived here yesterday.

Mr. Sato, in an interview last night, said: "I am confident that peace will be successfully negotiated by the appointed delegations. The Japanese will be guided by moderation, and no excessive demands will be made, but the sentiment in Japan and Russia is for peace, and in the interests of humanity and propriety there must be peace.

"The cost to Japan, however, has been great. On both sides the loss has been fro,000 men, of which Russia lost 170,000. The war is costing Japan one million dollars a day, and there is a feeling that there ought to be an in-

feeling that there ought to be an in-

demnity."
Asked as to the probability of an armistice, Mr. Sato said that that probability would be among the first questions the plenipotentiaries would consider. Based on previous treaty ne-gotiations, Japan will make the de-mands for Russia's consideration he said. The peace terms were formulated by the Emperor of Japan and his coun-

Witte Is Welcomed.

Witte is Welcomed.

Of the attitude of the Japanese plentpotentiaries toward the Russian delegates, Mr. Sato said: "We admire M.
Witte and Baron Rosen, The announcement of M. Witte's appointment was
more welcome to us than that of any
other person could have been. We recognise him as a great statesman."

Of the future of China, Mr. Sato
said: "If the central Government could
work in harmony with the district or

work in harmony with the district or Provincial Governments, China would become a great power, but at present that seems to be impossible." Japan's attitude toward China was most friendly, and she felt that it was more or less under Japan's protection. This protection, by way of illustration, Mr. Sato said, was "not so strong over China as that of the United States over South America.

Mr. Sato emphasized the announce-ment made frequently before, that Ja-pan does not seek territorial agrandiz-ment, saying: "We want in Man-

pan does not seek territorial agrandizement, saying: "We want in Manchuria equal opportunity, or what Mr. Hall called "the open door."

Japan Over Populated.

Mr. Sato said Japan is over populated, and that in the opening up of Manchuria and Corea, an attractive field for immigration would be nearer home than those offered in Hawaii or this continent.

continent.

Mr. Sato said that while a desire for Mr. Sato said that while a desire for peace was the sentiment of Japan it was not a desire for peace at any price. "Japan is in a prosperous condition at present," he said, "and the war taxes do not fail heavily upon the people yet. There has already been subscribed \$250,000,000 to a new internal loan, and our prosperity is further indicated in the success of our foreign loans."

TUESDAY, JULY 25, 1905.

NO LYNCH LAW

Yesterday morning there occurred near Chatham an outrage which the provincial authorities cannot afford to ignore. A farmer named Dulmage, who, it is said, had ill-treated his wife, was dragged from his bed by a party of masked men, dumped into a well, and held in the icy water until almost dead, then taken up and flogged so mercilessly that he is now in a critical condition.

This is lynch law. It matters not how degraded and brutal this man Dulmage was, If he ill-treated his wife he should have been punishedbut the punishment should be legally administered. One cannot afford to wink at lynch law in this province The men who took part in the outrage on Dulmage-every man of them-did infinitely more harm than did Dulmage in his brutal treatment of his wife. If they are "respectable" men their offence is all the greater, for their "respectability" will tend to make lynch law seen less heinous in the eyes of the pub lic, and will encourage people to take the law into their own hands.

If the local authorities show apathy in the detection and prosecu tion of these lynchers, it is to be hoped that the Attorney-General's Department will take the matter up and do what can be done to bring the culprits to Justice. At any cost the terrible evil of lynch law ought to be promptly and sternly suppressed in Ontario whenever it rears its ugly head.-Hamilton Herald.

MUST RESIGN.

When the new scale of salaries for judges goes into effect those judges who are directors of bank and loan companies, industrial concerns, etc. will be called upon to resign their places on the board. Quite a number of the judiciary are identified with these commercial concerns. A few of

POPULAR AUDITING. Toronto Telegram.

The rural auditor was never a suis-

ance like J. Lorne Macdougall. His audit consisted in a yearly glance at the township books, after which the treasurer would set up an oyster supper for the auditors and the accounts would be pronounced well and

truly kept.

The imperfections of this style of audit were never exposed until the treasurer died or absconded. The treasurer died or absconded. The town or township might lose money. What is the loss of mere money compared to peace and a quiet life? blessings that will make the compared to peace and a quiet life? blessings that will never return to Ottawa until the quiet, unobtrusive audit of the back townships supplants the rude and boisterous methods of John Lorne Macdougall.

WEDDED

A very happy event took place at St. Joseph's Church this morning at 6 o'clock, when Miss Rose Matte was united in marriage t o'Mr. Noah Peltier, a prosperous young farmer, of

Dover.

The bride looked very charming attired in beautiful white organdie trimmed with silk netting, as did also the bridesmaid in cream taffeta. The bride's travelling suit was a beautiful one of green silk, shaded brown. The happy young couple left on the 2.37 to eastern points. On their restain they intend taking up their residence in Chatham.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,-

THE BELL TELEPHONE COMPANY OF CANADA is a purely Canadian Company.

At the opening of the Parliamentary Committee statements were made by various witnesses, whose ignorance of the facts must be their only excuse, that a very considerable portion of the stock of the Company had been allotted to the American Bell Telephone Companies for patent rights which were now valueless and that the burden of paying dividends on such stock represented an annual tax of about \$3.60 on every one of the Company's subscribers.

In the evidence before the Committee, both the testimony of the Officers and the complete records of the Company which were produced, proved the absolute falsity of such charges.

The facts are that with a total capital stock of \$7,916,960.00 the Company's patent account stands at the inconsiderable sum of \$70,000, every dollar of which represents not only full value in existing patents, but secures to the Company other important advantages to we shall refer later. For the present we merely emphasize that not one dollar of royalty or tribute is paid by the Company for patent or other rights.

With the exception of a trifling amount of stock issued to the American Company for the acquisition of valuable patent rights essential to the Company's existence at the date of organization, all of which has been written off as such patents expired, not one dollar of stock has been issued for patents.

The stock held by the American Telephone and Telegraph Company has been paid for in cash at or above par and the interest of that Company is purely that of a minority stockholder having no controlling voice in the management or policy of the Canadian Company.

Probably there is no large corporation doing business in Canada to-day of which the sentiment is so thoroughly Canadian as that of The Bell Telephone Company of Canada. It is entirely independent in its management and operations, as well as financially. The Company is officered almost exclusively by Canadians and those holding executive offices have, almost without exception, begun their business career in the service of the Company.

The list of shareholders shows that about eleven hundred persons hold stock in the Company, of whom over ninety per cent. are Canadians.

M'KINLEY'S DEATH.

On the afternoon of Sept. 6, 1901, worn out by a long period of exacting labor, I set out for Philadelphia with the purpose of spending a few days at Atlantic City. When I reached the Broad street station in the Quaker City I was startled by a number of po licemen crying my name. I stepped up to one, who pointed to a boy with an urgent message for me. President McKinley had been shot at Buffalo, and my presence was required at our Philadelphia office at once. A message had been sent to me at Trenton, but my train had left the station precisely two minutes ahead of its arrival. Handing my baggage to a hotel porter, I jumped into a cab and dashed away to our office. I remained there until dawn of the following

The opening pages of the story of the assassination were badly written, and I ordered a substitute prepared. An inexperienced reporter stood beside President McKinley in the Music hall at Buffale when Czolgosz fired the fatal shot. He seized a neighboring tele-phone and notified our Buffalo correpondent and then pulled out the wires in order to render the telephone a wreck, so that it was a full half hour before any additional details could be

I ordered competent men and expert telegraph operators from Washington, Albany, New York and Boston to hurry to Buffalo by the fastest trains. All that night the Buffalo office was pouring forth a hastily written but faithful and complete account of the tragedy, and by daybreak a relief force was on the ground. Day by day through the long vigil while the president's life hung in the balance each incident was truthfully and graphically reported. In the closing hours of the great tragedy false reports of the president's death were circulated for the purpose of influencing the stock market, and to counteract them Secretary Cortelyou wrote frequent signed statements giving the facts to the Associated Press.—Melville E. Stone in

LITERARY DRUDGERY.

Froude passed seven years in collecting materials and writing his "History of England."

Nearly five years of Irving's time were consumed in writing "The Life of George Washington." Gibbon devoted over twenty years of

his life to the labor of reading for and writing the "Decline and Fall." Dickens says in the introduction to "Dayld Copperfield" that he spent two

years in the composition of that novel. Bancroft devoted nearly thirty years to his "History of the United States,"

to his "History of the United States," which is not a history of the country at all, since it ends where the history of the country properly begins.

Crudes labored nineteen years on his Concordance to the Bible and immediately after its publication was sent to a lunatic asylum. He never fully recovered from the mantal disease brought on by this gigantic undertaking.

Very primitive water Pines.
Very primitive water pipes of an ancient date have been discovered in the streets of Manchester, England. They were hollowed out tree trunks fitted together so as to make a wooden condit. duit. The joints were somewhat in the style of those of a fishing rod, the thin end of one trunk being made to fit into the thick end of the other. It is supposed that this means of sup-plying Manchester with water was in use about 200 years ago, and discoveries of the same kind made in other towns go to confirm that view. The bering through the wood was about four inches in diameter. The supply of water in those days was not only much less in absolute quantity than now, but very much less in proportion to the population.

Highholes' Large Families. Few birds have larger families than the highhole, but, were it not for the number of his family, how could he hold his own among so many enemies? His conspicuous size and color always make him a shining mark to the collector, for every village lad in the land has collected flickers' eggs. He is a fellow of expediency, however. If his home is robbed, his wife soon lays another set of eggs. It is on record that one pair, when tested by the removal of egg after egg, laid seventy-one eggs in seventy-three days.—St. Nicholas.

What You Don't Hear. You hear something like this every day in the week: "Ten years ago he couldn't get credit for a suit of clothes. Now he can write his check for \$50,-000." But when did anybody hear anything like this? "Ten years ago he was thoughtless and regardless of his ellow men and cared for nobody but himself. Now he is kind and gentle and is a constant encouragement to all who desire to enlarge their faith in human nature."

"What would you to if you had a hundred thousand dollars?"
"I'd own a private yacht." "Then you wouldn't have a hundred thousand dollars."

Strange Women. In Japan it is the height of bad form for a woman to express an opinion contrary to that of her husband. Wonderful people!

The Result.
Friend-What was the result of the consultation of doctors? Invalid (glancing at the receipted bill)—It left me in a very poor condition.

"I am well now and enjoying better health than ever before in my whole life."

That is the statement of a woman who had never been well until she was made well by the use of Dr. Pierce's Favorite Prescription. There are a great many other women in like case. They have always been sufferers from disease. They have never known the joy of perfect health.

health.

For all such women Dr, Pierce's Favorite Prescription holds out the prospect of perfect and permanent health, by the cure of the womanly diseases which weaken women. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"It gives me pleasure to let you know of the

weakness. It makes weak women strong and sick women well.

"It gives me pleasure to let you know of the great benefit received from Dr. Pierce's medicines and the advice which you so kindly sent, writes Mrs. Bertie Parker, of Bouham, Fanniu Co., Texas. "I took your 'Favorite Prescription.' Golden Medical Discovery' and 'Fleasant Pellets,' and followed your advice regarding the 'Lotion Tablets,' and am cured. I had been treated by different doctors and spent one hundred dollars for treatment and medicine, but received very little relief. I have only spent seventeen dollars and fifty cents for your medicine and it has cured me in three or four months of ulceration and falling of uterus. I suffered severe misery in my back, also irregular periods. Had bearing down in lower portion of body and severe misery in my back, also irregular periods. Had bearing down in lower portion of body and year year your. Had smothering spells, breath was very your. Had smothering the in stomach may shoulders. Bowels constituted. I am well now and enjoying better health than ever before in my whole life. Am happy to tell you that I was cured by your good advice and good medicines, the 'Favorite Prescription,' 'Golden Medical Discovery,' Pleasant Pellets' and 'Lotion Tablets.' These medicines cured me and will cure others also."

The dealer who offers a substitute for "Favorite Prescription" does so to gain the little more profit paid on the sale of less meritorious medicines. His profit is your loss, therefore accept no substitute. Dr. Pierce's Pleasant Pellets regulate

Embassy In London In 1818.

In connection with the announcement that Whitelaw Reid has leased Dor-chester House, in the opinion of many the finest private residence in London, it is interesting to recall the modest establishment of one of the earlier en voys to London from the United States. Richard Rush, who was sent to the court of George III. in 1818, has left a record of his ewn house hunting in London, where at that time, he says, "houses of the first class, with sumptu ous furniture to suit, were not to be hired at all." However, Rush did not want a house of the first class, and after inspecting numbers of furnished residences his choice fell upon one in Baker street at a rent of 450 guineas a year. The rooms were twelve, exclusive of the basement, and water from the New river was conveyed to every floor. The house was small, but this, as Rush explained, was in keeping with the smallness of his salary. "Nevertheless," said the patriotic minister, "it is not for those honored by being selected to serve the republic abroad to complain."—London Pall Mall Gazette.

Municipal Ownership, Vienna, without much talk about it, has gone even further in some respects in municipal ownership of certain utilities than London or Brussels. It has nunicipalized its gas and electric lighting plants, has provided municipal pawnshops, runs its own traction sys-tem and even has a municipal system of life insurance. Formerly, owing to its bad water supply, Vienna was annually scourged by typhoid fever, but the municipality took in hand the construction of a water system and tapped the pure lakes and springs of the Alps, many miles away, and now has as pure a water supply as any city of Europe, not even excepting Glasgow, which draws its water supply from famed Loch Katrine. As a result of this wise enterprise the city is now practically free from typhoid.—New York Tyihune.

GREAT EARTHQUAKE.

Most Violent Disturbance In Central

Vienna. July 25.—One of the most violent earthquakes ever known was in-dicated by the seismographs of the hy-drographic instruments at Laibach and Pola Sunday. Between 3.55 and 4.17 a. m. the in-

statueen 3.55 and 4.17 a. m. the instruments showed extraordinary movements in waves, signifying an earth-quake catastrophe at a distance of 6.000 kilemetres (about 3.700 miles).

At 7 a. m. the instruments were still

At 7 a. m. the instruments were still vibrating.

The distance indicated by the seismographs would locate the earthquake in Central Asia (the most probable point) or in mid-Atlantic.

Recorded in Toronte.

Toronto, July 25.—The earthquake reported yesterday was resorded on the seismograph at the Meteorological office as one of the greatest disturbances on record. The instrument shows it began suddenly at 10.12 p. m. Sunday night, which would correspond with £10 a. m. yesterday, Greenwich time. The quake lasted 3 hours and 18 minutes. It attained its greatest force between 10.25 and 11.15 p. m. The maximum movement was recorded at 10.45 p. m., and the swing of the boom amounted to 20 millometers.

THINK OF ME AS DEAD.

Se Wrete 14-Year Florence Mowers to Mother on Eloping.

Thomas, July 25 .- Mrs. Mowers, who lives at Port Bruce with her 14who lives at Port Bruce with her 14-year-old daughter, Florence, and who attends the markets here regularly, came to the city on Saturday morning as usual and on her return home found her daughter missing and a letter from her on the table reading:

"Good-bye, mother. Think of me as ene dead. Don't follow us, as it is no use. We are going to the States te get married."

The girl, Mrs. Mowers reported to

The girl, Mrs. Mowers reported to the police Sunday, ran away with a man named Walter Weir, 85 years of age, who has been around Fort Bruce and visited at the Mowers' home for some time. He was a married man, but some time. He was a married man, but Mrs. Mowers says he claims to have secured a divorce from his wife, who is at present living at Port Stanley,
The girl was seen in the city at 6 o'clock on Saturday night, and the pair are supposed to have gone to Detroit.

BRITAIN CUTS GERMANY OUT.

Trade Figures With Canada and What

London, July 25.—The Financial News correspondent quotes certain figures from the latest report of German statistical trade to show how Great Britain's imports to Canada have increased at the expense of German trade. Since the new customs regulations came into force the value of the imports fell from \$12,300,000 in 1903 to \$8,200,000 in 1904, whilst for the same time British imports rose to \$8,200,000 in 1904, whilst for the same time British imports rose from \$58,900,000 to \$61,800,000. The chief German falling off is in iron and foodstuffs, whilst woollens and ready-made clothing somewhat increased, and sugar has been annihilated.

MB. PARENT CHAIRMAN.

Changes on the Transcontinental Railway Commission.

Ottawa, July 25.—Premier Parent of Quebec will be here to-day, when it is expected that arrangements will be made to appoint him Chairman of the Transcontinental Railway Commission, in the place of the late Mr. F. B.

sion, in the place of the late Mr. F. B. Wade.
Mr. Brunet, the Quebec commissioner, will retire in favor of Mr. Parent.
Mr. C. F. McIsaao, M.P., for Antigonish, has been mentioned as the representative of the Maritime Provinces on the commission.

MR. KELLIHER APPOINTED.

Chief Engineer of the Grand Trunk Pa-cifie An Irishman, Montreal, July 25 .- Mr. B. B. Kelli-

Montreal, July 25.—Mr. B. B. Kelliher has been appointed chief engineer
of the Grand Trunk Pacific, with headquarters at Montreal.
Mr. Kelliher has been with the Grand
Trunk Pacific since 1994 as division engineer at Winnipeg, which office he held
until his recent appointment to the
chief engineership. He is an Irishman,
but from 1886 to 1991 had wide railway
experience in the States. He, however,
never took out naturalization papers or
dropped his British allegiance. dropped his British allegiance

Mrs. Kyle Committed For Trial. Ingersoil, July 25.—Mrs. Kyle was yesterday afternoon given her preliminary hearing before Police Magistrate Morrison, and was committed for trial at the fall Assises for the shooting of David McGee. No defence was entered, the only witnesses being Dr. Tait, Raymond Hutt, who loaned the revolver, and Miss Whitman, who was at the Kyle homestead on the morning of the shooting.

Hurricane Destroys Island. Sydney, N.S.W., July 25.—News has been received here that a hurricane devastated the Marshall Islands June

The Marshall Islands form a large archipelago of small islands of coral formation northeast of the Ladrone Islands, Polynesia.

Flaxseed Market Cornered. Buffalo, July 25.—John D. Rockefellow, through the American Linseed Oil Co., has cornered the flaxseed market, and has compelled the three big independent mills here to close. The price of linseed oil will be advanced 40 cents a gallon. This advance will seriously affect many industries,

Youth Arrested For Theft,
Listowel, July 25.—A young man
about 17 years of age, named Ben Merrick, was arrested here yesterday afternoon by Chief Hardwick for theft
in Palmerston, and handed over to
Chief Darroch of Palmerston, who issued the warrant for his arrest.

Toadstools Kill*Four.
Philadelphia, Pa., July 25.—Toadstools mixed with mushrooms and eaten at a birthday party has caused the death of four of the six members of the family of Joseph Franzor, a farmer who resided near Landiaville, N.S.

The minister's wife engaged a new servant. The girl was very friendly with a constable, and one day she inwited him to come round to see her. When he came it was washing day. She went and fetched him some beer biscuits and cheese, but just then a voice called out, "Mary, have you got started to wash yet?"
"Yes," said Mary.

"What are you doing now?"
"Oh, I am just filling up the copper."

London Telegraph.

No Need For Worry.
The Husband (on his deathbed)—My darling, when I am gone, how will you ever be able to pay the doctor's bills? The Wife-Don't worry about that, dear. If the worst comes to the worst, I can marry the doctor, you know.

\$100 REWARD \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly uptreatment. Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure

for any case that it fails to cure.

Wavinsky and Peter Pizer. Mr. \$3.50 apiece for assaulting Sam Kovinsky and Peter Pizer. Mr. Kovinsky says he will appeal the case as he thinks they were not suf-

ficiently punished.
Geo. Taylor, a colored man, was fined \$1 and costs, \$5.50 in all, yesterday, for being drunk and dis-

TOWNSHIP WON

In the Court of Appeal before Judge Dowlin held last week the appeal of County Commissioner John Grant against his assessment on the Mills drain was dismissed.

Mr. Grant appealed before the Dover Council, who sat as a Court of Revision on the assessments on this drain and his appeal was thrown out by them. He counted his

out by them. He carried his case before Judge Dowlin, who upheld the council in their action.

Mr. Grant's complaint was that he was over assessed to the amount of five dollars.

BAPTIST S. S. EXOURSION

The City of Chatham left her moorings yesterday morning taxed to the
wery limit of safety by the large
crowd attending the William St. Baptist excursion to Belle Isle. It is estimated there were 750 on board. The
day was delightful and was marred
only by a thunder storm just as the
excursionists were embarking at Belle
Isle. It is expected that the venture
will net about \$100.

A regrettable accident occurred The City of Chatham left her moon

Minet about \$100.

A regrettable accident occurred during the stay on Belle Isle. Miss Trant, an operator in the Bell Telephone Company's office, in getting out of an automobile was unfortudente enough to injure her ankle. The member was temporarily attended to on board the boat, and a surgeon was called when Chatham was reached.

SOULFUL SINGER J. W. White, all-round athlete,

professional man, and sprinter, takes interest in many things. A short time ago he appeared on the public horizon as an estimator of journal-istic advoirdupois and, later, brand-ed, unjustly, by the P. M. pionic of-ficials as a professional foot racer. All these things Mr. White modestly admits, but he has one talent not so far famed which he last night excavated from the napkin in which it has been concealed—his singing. On the homeward trip last night he gathered about him a band of seraphs and led the choral singing. So inspiring was it that those liv-ing on either side of the river were of the opinion that a band of earthbled state and were being caught up to glory. Evidently the sporting barrister was, again debarred for he is around taking his usual interest is around taking in things to-day.

It is far easier to argue eloquently con economy than it is to practice it.

The best way to keep ahead of the races is to keep away from them.

Silence is always safe, and is frequently the smartest we can say.

ROUTE OF THE **NEW ROAD**

Wrong Impression Corrected - Alder men Want Copies of Documents-Other Civic Notes.

"A wrong impress on seems to exist oncerning the proposed route of the Windsor & Essex Electric Road through the city," said Mayor Cowar this morning. "The road at first this morning. "The road at first wanted to come along King street and asked a bonus of \$100,000. This, of course, was so preposterous that no attention was paid to it. The no attention was paid to it. The company then proposed to come along King street to Inches avenue, along Inches avenue to Harvey to Queen street to the market square. Residents of Harvey street thought that King street residents got the road to pass along Harvey street so that King street dwellers would not be bothered with it. Such is not the case as that route is one proposed by the company, along with some optional routes, one entering the city by Park avenue, to Queen, to School street, another entering the city by Lacroix street, to Richmond, to Queen street."

Lacroix street, to Richmond, to Queen street."

"You might add," said Ald. Austin, "that the Industrial committee had nothing to do with the route. The statute governing the matter provides that notices of the request for a franchise, the proposed route, etc., should be posted for 60 days. It is during that time the duty of any who wish to challenge the giving of a franchise, the proposed route or other details to do so. The Industrial committee would be meddling if it had anything to do with it at that stage." it at that stage.'

"We intend going on with the pavement of the market square and the work of laying of the sidewalks as soon as the sewers shall have as soon as the sewers shall have been laid," said Ald. J. A. King this

The Mayor had a complaint this morning from Park avenue residents that the granolithic sidewalk being laid on that street is too low. The Engineer, they claim, has refused to bring it to a level where the water will not lie on it. The matter is being Tooked into.

Several of the aldermen complain Several of the aldermen complain that they are not able to judge intelligently of questions before them by reason of not being provided with copies of documents upon which they are required to pass. 'It is very difficult to absorb a lengthy document when it is hurriedly read over to you," said one alderman this morning. "We should be provided with copies of the more lengthy documents at any rate."

The managers of McKeough school and trustees Robertson and Paxton inspected the school yesterday preparatory to making some changes in the working of the lavatories.

CURE FOR HAY FEVER

The Central Drug Co. Say Hyome Will Give Relief-Sold Under

The season for hay fever is almost at hand, and many people feel that they will be obliged to go away in order to avoid the sneezing, watery eyes, and other annoying symptoms of this disagreeable summer disease. The Central Drug Co. wish us to announce that when Hyomei is used

as a preventive, or a cure, there will be no hay fever. They advise daily treatment with Hyomei for two or three weeks before the usual time for the annual appearance of hay fever. If this is done, the attack will be prevented. However, if the preventive treatment is not started soon enough, and the disease makes ts appearance, use Hyomei six seven times daily, and relief will be given at once, There is no stomach dosing when

There is no stomach dosing when Hyonei is used. Breathed through the neat pocket inhaler that comes with every outfit, its medicated air reaches the minutest air cells, killing aff germs and soothing and healing the irritated mucous membrare. The complete Hyomei outfit costs but \$1, extra bottles 50 cents. It is the only treatment for hay fever sold by the Central Drug Co. under a guarantee to refund the money if at does not give satisfaction.

That which is accepted on faith of-ten suffers on cribical analysis.

A man who is too bosy to care for his health is like a workman who is too busy to sharpen his tools.

hot, Cold, Medicated and Electric BATHS

HE EXPLAINS

Ald. Austin Gives an Interview on his Position in Reference to Proceedings at Monday Night's Council Meeting.

Ald. Chas. Austin was interviewed by a Planet reporter this morning in reference to the proceedings at the Council meeting last Monday evening, a report of which appeared in this journal.

"I am reported as saying that L insisted on pilots being used on the cars instead of fenders," said he, whereas it was exactly the opposite statement I made; that is, that we insisted on fenders being used in all cases.

"You omitted to state that when Ald. O'Keefe charged me with not advising the Industrial Committee of the meeting with the railway people to consider the whole agreement together, and when he also stated that insisted on retaining ridiculous clauses, that my reply was that I had notified the whole Council of that particular meeting, and in regard to the retaining of the clauses the railway people not only had the able assistance of their stockholders (two of whom were barristers) but also of the Council; my point in that reply was that in place of receiving assistance from all of the Councillors present they were there in the interests of the railway. Another omission was when Ald, Edmondson asked me

"If I would assume all the responsibility for what happened at the bridge." I replied, "No ,I won't,' and I added, "I am willing to assume my share of it, and asked Ald, O'Keefe if he had read clause 7 of the by-law ?" Had Ald, Edmondson read the by-law carefully he would have seen that the "bridge question" was to be decided by the whole Council, and it was his duty or any other alderman's, who saw the city's interests were being jeopardized, to see that active and immediate steps were

that active and immediate steps were taken to protect them. I acted in the bridge question simply as an aldaerman, not as chairman of the Industrial Committee, as it was not the special business of any committee. "Ald. King's statement that members of andustrial Committee have been ignored and matters decided by one or two, I have been given to understand was in reference to matters, concerning the proposed franchise to derstand was in reference to matters, concerning the proposed franchise to Windsor and Essex Ry. Ald. Kingl was imputing motives and actions to members that had no foundation in fact, that is that he thought that this road had requested an entrance to the city by means of King St. West, and that the Mayor and myself, residing on that street, had used our infigures and had the application changed to Harvey St, which is the Atreet that Ald. King lives on. We pointed out by the correspondence, in the presence of the City Clark, this morning, that the railway never asked for any such the railway never asked for any such franchise at any time, and he admit-

ted his mistake.

"This whole trouble has arisen through aldermen voting on by-laws and agreements and not remembering what were contained in them, and not taking the trouble to find out before they make rash asser-

tions."
In conclusion, should there be any question affecting the city's inter-ests, on which the Engineer and I have any difficulty in deciding, it will be brought before the Council.

DEMISED

LA TELL The death occurred yesterday of The death occurred yesterday of Frances Ward, of the 3rd concession, Chatham Township. Deceased was better known as Mrs. Hutchinson and was 65 years of age. She leaves a husband and three sons living in Chatham—Sylvester, Edward and A. H. Hutchinson, and two daughters, Mrs. Maggie Hurst and Miss Sarah Hutchinson, of the same place.

WILL WATCH LEGISLATION.

Convention of the Union of Canadian

Winnipeg, July 26.—The convention of the Union of Canadian Municipalities opened yesterday with a large attendance from the east, Manitoba and the Territories. Mayor Urquhart of Toronto, in the absence of Mayor Large

the Territories. Mayor Urquhart of Toronto, in the absence of Mayor Laporte of Montreal, president of the union, occupied the chair.

Mayor Thomas Sharpe welcomed the delegates to Winnipeg.

Ald Couture of Montreal responded on behalf of the convention.

The president's address was given by Mayor Urquhart, who referred to the battle at the House of Commons over the Toronto & Hamilton Railway two years ago, in which Montreal came forward to fight for the rights of Toronto. There should be Provincial union in each Province, meeting annually, and appointing delegates to the convention of the Union of Canadian Municipalities. Provincial organization could look after legislation in Provincial Parliaments, while the Dominion union could watch the interests of municipalities in the Ottawa House.

The annual report of the secretary treasurer was read by W. D. Lightall. The union, he said, has had a history of continued success since its formation. There are now on roll 180 members, comprising practically all the leading municipalities of Canada.

The principal event of the year had been the formation of the Dominion telephone committee, which had been the means of throwing a flood of light on the telephone situation. In Ottawa, and Montreal the municipal forcess were lining up for a corporation fight.

Toronto, July 26.—After having his wagon jolted by a street car while cross-ing over Dundas street bridge, causing horse, wagon, driver and all to plunge through the railing at the east-ern end of the bridge, turn two somer-saults in the fall down a 50-foot em-bankment, dash through a second fence and finish on the railway tracks below. Thomas Mill, 65 years old, a sewing machine agent, of 137 Beaconsfield avenue, emerged yesterday afternoon with only his little finger sprained. The horse is a trifle nervous as a result of the accident, and the wagon lacks a dash-

ONE DOLLAR SAVED REPRE-SENTS TEN DOLLARS EARNED.

The average man does not save to exceed ten per cent. of his earnings, He must spend nine dollars in living expenses for every dollar saved. That expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberdain's Colic, Cholera and Diarrhoed Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by All Druggists.

PARENT IN THE SADDLE.

Accepts Chairmanship of Transcontinental Railway Commission. Montreal, July 26.—Hon. S. N. Par-ent, ex-Prime Minister of Quebec, was ent, ex-Prime Minister of Quebec, was offered and accepted the Chairmanship of the National Transcontinental Railway Commission yesterday afternoon. In an interview he said that he would now have to resign not only as Mayor of the city of Quebec but as a member of the Legislature.

BOOKBINDING.

Orders for bookoinding should be left at this office. It is surprising how nice a volume can be made of now nice a volume can be made or these magazines, even though they are somewhat soiled from much hand-ling. Books, magazines or periodi-cals bound or rebound in any style at very reasonable prices. Blank at very reasonable prices. Blank books, such as journals, ledgers, day books with any kind of ruling, made to order. All work warranted first class.

NEW ADVERTISEMENTS.

AGENTS WANTED—To sell Judge Ermatinger's fascinating book, "The Talbot Regime," a work of great local interest. Agents make good money. William Briggs, Pub-lisher, Toronto.

MR. KIPP SPEAKS

President Kipp, of the Electric Railroad Company, and Senator Lily, were in the city this morning. "The Aberdeen bridge trouble is

very unfortunate," said Mr. Kipp in response to the Planet's enquiry, "but I really cannot see that the company is to blame. On Thursday morning last the City Engineer told us to quit work. I at once sent up town for the Mayor and he and Ald. Austin and the City Engineer came. We agreed with them that the work for temporary nurposes should go on We agreed with them that the work for temporary purposes should go on and the City Engineer went so far as to have a nail driven to indicate where we were to lay our tracks. It was upon this agreement that the work proceeded."

"We do not desire trouble," said Senator Lily. "We want to secure and retain the good will of the peo-nle of Chatham as we hope to have

ple of Chatham as we hope to have many dealings with them. There will be no trouble unless it is forced upon us."

HE absolute purity of the ROYAL BAKING POW-DER makes it pre-eminently the most useful and wholesome leavening agent known. It contains no lime, alum, phosphate or ammonia, leaves no acid or alkaline residuum in the food, and its use always insures pure, light and sweet bread, biscuit and cake which are perfectly digestible and wholesome, whether hot or cold,

Royal Baking Powder has been analyzed by the Chief Health Officers of Great Britain, Canada and the United States who recommend it for its wholesome and economic qualities.

In the Stock Exchange competition, Sergt. W. Kelly of the 16th Royal Grenadiers, 171st, won a reserve prize wf £1.

Ten Bodies Recovered.

Houston, Texas, July 26.—Ten bodies were yesterday recovered from the oil fire which has done so much damage in the Rumble field. All of the victims were negroes. The loss is now estimated at \$875,000 in oil and sank damage. The fire is still burning, but is confined to an area of 190 acres.

Shah Faints From Heat.

Paris, July 26.—The Shah of Persia while shopping here yesterday, suffer ed a brief fainting spell from the effect of, the heat. The attack passed of without serious inconvenience.

REV. GILMORE AND PLANET

Continued from Page 1.

Mr. Lewis-Have you had experi-

Mr. Gilmore—I have had. Mr. Lewis—From the breaths f Mr. Gilmore—Yes, and from drink-

ing, too.

Mr. Lewis—Then you say a man can take a glass of liquor and smell his own breath? I want his honor to understand that. Now, do you believe it.

Mr. Gilmore-I believe I can. Mr. Lewis-Will you say you have ever smelled or endeavored to make any experiment to ascertain the class

of liquor you say this man had?

Mr. Gilmore — No, but I think I can tell.

Mr. Lewis—Can you tell the differ-Mr. Lewis—Can you tell the difference between whiskey and wine by the smell of the breath?

Mr. Gilmore—Yes.

Mr. Lewis—And beer?

Mr. Gilmore—Yes, if in much quan-

tity. Lewis—And you can tell the difference between sherry wine and port wine? port wine?

Mr. Gilmore—I would not say that.

Mr. Lewis—But you can distinguish between all the different classes of liquor by the smell of the drinker's breath afterward?

Mr. Gilmore—Yes, I think so.

Mr. Lewis—Which was he drink-ing?

mr. Lewis-Which was he drink-ing?
Mr. Gilmore-Well, I am of the opinion it was in the nature of wine.
Mr. Lewis-What led you to be-lieve that?
Mr. Gilmore It had the Mr. Gilmore-It had the odor of

NO TONGUE CAN TELL SUFFERING

From Itching and Bleeding Eczema -Pain Terrible-Body and Face Covered with Sores - Doctors and Medicines Failed.

ANOTHER WONDERFUL **CURE BY CUTICURA**

"No tongue can tell how I suffered for five years with itching and bleeding eczema, until cured by Cuticura, and I am so grateful I want the world to know, for what helped me will help others. My body and face were covered with sores. One day it would seem to be better, and then break out again with the most terrible pain and itching. I have been sick several times, but never in my life did I experience such awful suffering as with this eczema. I felt that death was near, and longed for that time when I would be at rest. I had tried many different doctors and medicines without success, when my mother insisted that I try Cuticura. I felt better after the first bath with Cuticura Soap, and one application of Cuticura Ointment. I continued with the Soap and Ointment, and have taken four bottles of Cuticura Resolvent, and consider myself well. Any person having any doubt about this wonderful cure can write to my address. Mrs. Altie Etson, Bellevue, Mich."

ITCHING ECZEMA

And All Other Itching and Scaly Eruptions Cured by Cuticura. The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalled head, from infancy to age; all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment, and Pills are such stands proven beyond all doubt.

THE BATTLESHIP.

Gun Platform Which Can Be Moved Around the World.

Primarily, the battleship is merely a gun platform which can be moved about, says Archibald S. Hurd in the Booklovers Magazine. It would be far cheaper for a country in need of de-fense from a foe coming over sea to mount guns around its shores and abstain from building battleships. The shore guns might be supported by some coast defense ships-small monitors But this is a form of economy in which no nation with ocean borne commerce and distant possessions can indulge. Consequently men of war are built to

go anywhere and do anything.

The battleship is a mobile gun platform. The principal weapons of the Kansas comprise four twelve-inch guns which can discharge, according to the proficiency of the gunners, from one to two projectiles of 884 pounds a min-ute; eight of the eight-inch weapons, each firing a 259 pound shell at the rate of two or three a minute, and twelve seven-inch pieces, each of which can throw projectiles weighing 165 pounds three and one-half times in sixty seconds. In addition twenty three-inch guns discharge per minute twelve shells weighing fourteen pounds. In the first minute of an action at sea the discharge of a single broadside would result in about 14,500 pounds of metal being hurled through space with tremendous force. The surprising anomaly is that while these guns, the cause of the ship's existence, cost less than \$1,000,000, the mountings and the platform on which they are carried and moved from one side of the world to the other, if the need arises, entail an expenditure of not far short of \$7.000. 000. The guns are cheap; it is the platform with its machinery and its 4,000 tons of armor which is expensive.

WHOSE UMBRELLA?

Copyright, 1905, by T. C. McClure

"Will you please take this seat?" The man spoke as if he were asking, not offering a favor. He stepped into the aisle, and the girl in the brown tam o' shanter slipped into his place. The car was crowded

Underneath the tam the young man discovered a whole new world of charms, which interested him quite as much as America did Columbus the girl had an advantage over America in being able to look back at her discoverer out of two very wide open

"Thank you," she said to Columbus. Then she looked down and her eyes rested on the man's gloved hand, which only partly covered the ivory handle of an umbrella. He remembered the hole in his glove and snatched it away to hide it in his pocket. Before he could catch the umbrella in his other hand it fell against the girl's knee. She grasped it firmly with both her "Thank you," she said again, raising

her eyes for a brief instant to the man's

Columbus stared. "Pardon me, but why?" he asked, observing the delicate color rising in the girl's cheek.

She did not answer, but her eyes were bent lovingly on the umbrella handle. It was one her grandfather had given her when she was sixteen and she had worn out four silk covers on it. She was glad the man did not insist on an immediate answer. What must he think of her? After a minute she looked up.

"Why do you thank me?" the man asked in a dazed but very low tone. "For my umbrella," she answered still holding it firmly.

"I-I beg your pardon, Miss"-"No, I am not mistaken," she said, her sense of humor coming to her assistance. She held out the umbrella handle for him to examine.

"Do you see those three wrinkles in the dog's brow?" she asked, with the littlest smile in the world. "I carved

"PARDON ME, BUT WHY?" HE ASKED. them there myself to show how wor ried he had grown trying to take care

He looked at the lines across the dog's ivory brow. "I didn't know a girl"— he began, but broke off. The girl liked him better for his hesitation to talk. He seemed to understand the fitness of things.

"Where did you lose it?" he asked "Where you found it," she replied

"Did you take it to the lost property office of the street car company and leave it there for me?" he asked, with a touch of triumph in his voice. "I did not know there was such place," she exclaimed.

"Well, I paid 21 cents for it at an auction of unclaimed goods last week, informed-the man.

The girl opened a tiny purse. "You can't buy it if that's your in-tention," he said firmly, but deferen-

conductor. The girl rose hastily and rushed toward the door, leaving the umbrella behind. Columbus followed. with the bone of contention under his

In the street the girl stood and look ed at him. It was beginning to rain. "The rain falls on the just," the man said, glancing down at himself, "and on the unjust," he added, looking her squarely in the eyes. "I shall put the umbrella over us both."

"If I attempt to take your pocketbook as well as this umbrella," said Colum-bus as the girl walked silently by his side, "you may call a policeman. There is one right across the street." The girl

did not reply.

At the foot of a flight of stone steps she halted. "This is my home," she

"And here is your umbrella. I am sorry if my impertinence offended you."
Columbus handed her her property.
"Let me pay you the 21 cents—please," said the girl, hesitating on the

Columbus raised a protesting hand. "But father would not like it"—
Columbus looked up suddenly. "Your father"— He heshated a moment and then took the chance. "May I—won't, took tell me where your father is?" I won't to the subject of th him send me a check for the 21 cents if you insist," he said, laughing at the situation in spite of his earnestness. The girl twirled the umbrella. She went up another step, and the man's face showed his disappointment.

Finally she turned and smiled. "And to whom must father send the check?" A great light seemed to brighten Co-lumbus' face. "To Henry R. Benton, with Monroe & Shields, brokers," he

Frowns, as many as there were on the dog's brow, took possession of the space between the girl's eyebrows. Her memory did not like to be tested "I'll remember," she said as the man

turned to go. Elizabeth Volney carved another wrinkle in the brow of her umbrella

handle dog.
"You have worried a heap lately, doggle mine—and tonight the man who bought you at an auction is coming. He—he has been here frequently since father took a liking to him. Funny, isn't it? Father doesn't usually like the sort of men who are so—so bold as to do what he did. He came right straight to father's office with the check for 21 cents to have it duplicated so he might keep it to-oh, to remember you by, I fancy, doggle! And fa-ther talked to him and they discovered that they both had uncles who had fought together in the civil war and all

Henry Benton loomed up in the doorway unannounced. He had met Judge Voiney in the hall, and had been told that he would find Elizabeth by

sorts of nonsense." The girl surveyed the newest frown with admiration.

"Really, I should have been a sculp-

tress, doggie. Your frowns are beauti-

the library fire.

"I'm jealous of that dog, Miss Elizabeth," he said, stepping in.

"You should—like him very much," said the girl saucily, tossing her chin in the air and laying the umbrella on the floor as she came to greet Benton.
"I do, but I also like his mistress—

very much." The girl tried to pull her hand from the man's firm clasp. Her face turned prettily pink. "I came here tonight for the express

purpose of telling you how much," he said, compelling her attention.

The girl traced figures on the carpet

for fully a minute.
"Elizabeth," began the man softly, putting one hand beneath her chin. love you. Do you believe me?" For answer the girl laid her head on his arm.

"And to think that I just carved ana long time afterward.

Enting No Joke. Eating not a pleasant, not an elevating subject? No subject under the blue canopy, no subject to be found be-tween the covers of the fattest encyclopedia is more worthy of the deepes and the highest and most sustained thoughts of man. And probably no other subject receives half the attention which is given to eating. Nothing has been more important in the prog-ress of the race than the additions to the variety of man's food. In his primitive state, a mere clam eater, he was hardly superior to the beasts that per-ish. When he became a hunter, seeking the strong meats of wild game, he developed new qualities, expanded intellectually and gained in energy, en-terprise and endurance. Then came the pastoral and agricultural age, with an acquired taste for vegetable growths and the dawn of civilization. from advance has been on the heels of something new to eat. Today the teeth of man declare him omnivorous. though vegetable food is still a heavy tax on his powers of digestion. He lacks those multiple gastric arrange-ments by the aid of which the cow, for

example, is able to subsist on vegetable food alone.—Atlantic.

Deep Drinking. In a German university the man who can drink a quart of beer without tak-ing breath is not a hero, but only an ordinary student, says a writer in the London Chronicle. At the German kneipe, or club meeting for the drink ing of beer and the singing of students songs, there is a special challenge to a bier konig (beer king) contest. The huge pots are filled, the duelists face each other and at the word of com-mand they drink. The first who can invert an empty pot and sputter "blei konig" wins.

Drinking without going to the trouble of swallowing is thus described by the same writer: "This form of friend ly duel has evolved a method of drink ing that may be seen in Egypt, where a native seems to pour water down his throat without that sort of lock sys-tem our less educated canals demand. A German student will bring pot and mouth to the intimate angle, and down goes the beer without a tremor of the throat. This, of course, gives no pleas ure, but to the wondering onlooker it is merely an acrobatic feat."

Young birds should never be taken from the nest unless one knows much about their feeding habits in captivity, and once taken and reared it is nothand once taken and reared it is noth-ing short of cruelty to set them free again. For while in captivity many kinds of birds can be made perfectly happy, yet they will never have learn-ed to find their own food, and if given their freedom the following fall or suring they will perish miserably their freedom the tolowing the co-spring they will perish miserably. Cedar hirds, vireos and warblers are very difficult to raise and should never be taken from the nest, but a song sparrow, robin, thrush or sparrow hawk, if well cared for, will become tame and if given the run of an entire room will furnish unending amusement.—C. William Beebe in Recreation.

HE grate of a range will get out of repair. If you let ashes accumulate in the pan until they come near the grate you are sure to burn it out or warp it. On account of the construction of ordinary ranges, repairing a grate means taking out the fire bricks and practically taking the fire-box to pieces. It is the work of a stove expert.

The Imperial Oxford Range has a patented draw-

out duplex grate. By this construction the grate and frame is readily drawn out over the ash-pan without even disturbing the linings. Repairs are thus easily effected even by one without experience.

The life of the fire-box linings is thus prolonged, as they do not require to be moved to repair the grate.

Imperial Oxford Range

This is only one of the exclusive points of the Imperial Oxford Range which make it last long and reduce the necessity and expense of repairs. Though the baking and roasting qualities of the oven are the most vitally important features of the Imperial Oxford Range, we have forgotten nothing that will make it last long and add to the ease of its operation.

Write for some of our booklets and the name of the nearest dealer who can show you an Imperial Oxford Range.

The Gurney Foundry Co., Limited TORONTO, MONTREAL, WINNIPEG, VANCOUVER

Forced Liberality.

It is not often miserliness gets such a straightforward rebuke as in the case quoted by the Montolair Times. In the early days of primitive Methodism there traveled in England an eccentric minister named Neale, who was famous for his plain talking. On one occasion he was preaching missionary sermons at a village se noted for its small collections that he determined to pass the plate himself.

On his round he came to a farmer who was, as Mr. Neale well knew, the richest man in the place. This individ-ual placed a penny on the plate. Mr. Neale stopped immediately and said in "Take your penny out, man, take it

out! Don't you see you've covered up your laborer's sixpence?"
The rebuke was effectual, and a much more valuable coin was placed

on the plate.

From Java, Sumatra, Mauritius, Zan-zibar and Guiana come the little brown flower buds of the clove tree. When gathered the buds are red and are dried by exposure to the smoke of wood fires and afterward by the rays of the sun. In a very short time they become of a deep brown color. To secure a monopoly and thus keep up the price the Dutch in the seventeenth century destroyed all their clove trees except these in the island of Amboyns The chief value of cloves lies in their essential oil, which forms about one

sixth of their whole weight.

Good Stage Elecution.

It was one of Joseph Jefferson's tinctions that he was not only an cate, but an example, of good stag. ocution. He was, however, an excep-tion that proved the rule. The first step toward a better state of affairs is to convin. managers and actors that it is desl. 2.le. With the memory of many a bad quarter hour of strained effort to hear what should be appre-hended with ease, we respectfully submit this word of suggestion

Its Exact Shade.
The elder Dumas once was wearing the ribbon of a certain order, having recently been made a commandant, and an envious friend remarked upon it. "My dear fellow," he said, "that cordon is a wretched color! One would think it was your woolen vest that was showing." "Oh, no, my dear D'E-," replied Dumas, with a smile, "you're mistaken. It's not a bad color; it is exactly the shade of the sour grapes in the fable."

Possible.

She—And do you think it's possible for a man to love two girls at the same time? He-Oh, yes; provided it isn't also at the same place.-Philadelphia Ledger.

Remember that what you believe will spend very much upon what you are.

Anyone wishing good doors and windows should call on John Glassford, who is tearing down the old Rutley House, and will have no use for this old material in his new brick hotel

A Most Remarkable A CANADIAN SCULPTOR Remedy.

Has Used it for 22 Years.

DIARRHOEA, DYSENTERY, COLIC, STOMACH CRAMPS, CHOLERA MORBUS, CHOLERA IN-FANTUM, SEA-SICKNESS, and in fact all ROWEL TROUBLES can be quickly cured by the use of DR. FOWLER'S EXTRACT OF WILD STRAWBERRY. It is the original Looseness of the Bowels remedy.

Be sure and accept no substitute.

Has been on the market 60 years, so ou do not experiment when you buy it.

Mrs. D. Taylor, Cranbrook, Ont., writes: "For the past 22 years I have used Dr. Fowler's Extract of Wild Strawberry as a family remedy for all kinds of summer, complaints with the summer complaints with the greatest success, in fact, I have found it a most remarkable remedy."

> Price 35 Cents. ALL DEALERS SELL IT.

A London (Eng.) insurance company has established an agency in St. Louis to write policies on the lives of valu-able horses. Any horse may be insured if he can pass an examination as to his sanity and good health by a veterinary surgeon. The polices range from \$256 to \$10,000 and the rate is 6 per cent, under \$5,000 and 51-2 per cent, above \$5,000.

YOU MELANCHOLY WOMEN. Can't even sleep—restless day and night—brooding over imagined trouble all the time. The disease isn't in the brain, but in the blood ,which is thin and nutritious. Do the right thing now and you'll be cured quickly. Just take Ferrozone; ut turns everything you eat into nourishment, consequently, blood containing lots of iron and oxygen is formed. Ferrozone makes flesh, muscle, nerve—strengthens in a week, cures very quickly. You'll live longer, feel brighter, be free from melancholy if you use Ferrozone. Fifty cents buys a box of this good tonic—fifty chocolate coated tablets in every box—at all dealers. Can't even sleep-restless day and

actical. Ae-Do you think you could love me in a cottage? She-Possibiy not, but I might be able to put up with you till you could make money enough to buy

Subsequent, Old Party-Were you named after your father? Little Fletcher — Sure! He's lots older than I am.—Chicago

a larger house.

Virtue may be its own reward, but some people make a trademark of it.

YOU'RE ONLY HALF SICK.

But nevertheless you feel pretty "seedy." Best prescription is Dr. Hamilton's Pills; they tone up the entire system, strengthen the stomach, elevate your spirits and make you feel better in one day. It's by cleaning the body of wastes, by purifying and enriching the blood that Dr. Hamilton's Pills accomplish so much. Very mild, accomplish so or the genuine.

The Hamilton's Phila accordingly prompt and guaranteed in every case. Your druggist sells Dr. Hamilton's Pills of, Mandrake and Butternut in yellow boxes, 25c. each, or five for \$1.00. Get the genuine.

"Yes," said the married man medita-tively, "when you see a woman hanging out a line of clothes and the line slips and lets the blessed lot down in the mud, that, my boy, is the psychological moment in which to leave that woman Alone."

Hard Ones Too. Little Will feller what calls on yer sister? Little Johnny-I don't know yet. Pop calls him something different every time he

WIRE WOUNDS.

My mare, a very valuable one, was badly bruised and cut by being caught in a wire fence. Some off the wounds would not heal, although I tried many different medicines. Dr. Bell advised me to use MINARD'S LINIMENT, diluted at first, then stronger as the sores began to look better, until after three weeks, the sores have healed and best of all the hair is growing well, and is NOT WHITE as is most always the case in horse wounds.

F. M. DOUCET.

Weymouth. Love is romantic. Matrimony is decidedly a matter of fact.

The hot summer weather is new here and most people are thinking of a trio to some cool summer resort. We would advise you to call on W. E. Rispin, city passenger and ticket agent, 115 King street, who can issue tourist tickets for all summer resorts, including Muskoka, Georgian Bay, River St. Lawrence, Great Lakes and Atlantic Sea Coast points at particular low rates, and will supply all information and pamphlets.

MODELLED CRAWLING PANTHER THAT CREATED SENSATION.

Boston Globe Characterized It As One of the Most Intensely Dramatic Things That Has Been Done in Animal Sculpture in This Country -High Praise For the Work of Student John Wilson.

One of the sensations of the annual exhibition of the Boston Art Club of this year was a small sculpturesque study of a crawling panther. The Art Club shows do not usually contain a great deal of sculpture, and the paintings of one kind and another are apt to absorb all the attention of critics and visitors. On the opening day of this exhibition, however, the art writers of the Boston daily newspapers gathered around this plece of work with keen admiration. Not for a long time had Boston seen a bit of original animal sculpture that seemed so instinct with vitality and energy as this representation of the great feline of the north woods.

Some of the critics wondered who the sculptor could be, and were told by others, better informed, that the panther was modelled by a young man, a Canadian, still a student in the school of the Museum of Fine Arts.

reiteration that the sculptor, John A. Wilson by name, had worked this production up from a slight sketch in clay; that for a model he had used a which, when chloroformed, had

cat, which, when chloroformed, had been set into the position corresponding to the desired pose of the panther, and a casting made to serve as a basis of information for carrying out the original idea.

And that idea, in the judgment of the critics, was very well carried out. The Boston Globe said in its notice of the exhibition: "In addition, there are few little places of sculpture, notably

a few little pieces of sculpture, notably a model of a panther, by J. Wilson, a rising young sculptor who has been studying with Bela Pratt. This is one studying with Bela Pratt. This is one of the most intensely dramatic things that has been done in animal sculpture inthis country. In fact, since Barye there has been nothing done equally all good. The entire spirit of the animal has been caught and done to life." The Boston Herald said: "Among the sculptures the Stalking Panther (182), by John Wilson, is a powerful work by a very young man, one who is still a student at the Museum of Fine Arts."

which he gained all his preliminary training.

A visit to Mr. Wilson's workroom, where he displays a score or more of ambitious sketches in clay, awaiting only time and opportunity to become important sculptural realities, gives a sense of the likelihood that this young man, who has set before himself the ideal of becoming an animal sculptor, ought normally to go far.

"I believe thoroughly in the field for a sculptor of animal life." he said, after explaining his motives in making a number of the little sketches. "The sculptor to succeed along the lines established by Barye must be absolutely familiar with both animal forms and animal life.

absolutely familiar with both animal forms and animal life.

"At the same time he cannot, of course, afford to be only an animal sculnfor. The foundation must be laid broadly. Above all every sculntor to

THE CRAWLING PANTHER, live up to the requirements of the art has to gain a thoroughgoing knowledge of the human figure. If he has learned to model that as it should be modelled, constructively and not superficially, all the rest is easy so far as technical considerations are concerned." ly, all the rest is easy so far as technical considerations are concerned."

Mr. Wilson entered the Cowles Art School in Boston several years ago. Later he enrolled himself in the School of the Museum of Fine Arts. His South African Ilon, now in the Provincial Museum at Halifax, was finished before this time, and attracted not a little attention. His piece of statuary, a recliming figure, was part of the exhibit which the school sent to the World's Pair in St. Louis.—Frederick Rice, in Toronte Globe.

The ventilation should be good, but there should be no drafts.

now could She Doubt? "Oh, mamma," she cried, rushing in to her mother's room and flinging her arms around the parental neck, "he loves meh! He loves meh!"
"My dear child, I'm so glad! Has he

told you? Has he asked you to be his wife?" "No, but he's down in the library learning to play chess with papa."

WEARING AWAY YOUR LUNGS?

Yes, and your strength too. Stop coughing and get rid of that catarrh. The one remedy is "Catarrhozone," which goes to the diseased tissues along with the air you breathe; it can't fail to reach the source of the trouble; it's bound to kill the germs, and as for healing up the sore places, nothing can surpass Catarrhozone. If you don't get instant relief and ultimate cure you will at least get your money back, for Catarrhozone is guaranteed to curep Catarrh in any part of the system. You run no risk —therefore use Catarrhozone—at our expense if not satisfied.

The Great Man, It is easy in the world to live after the world's opinion; it is easy in solitude to live after your own, but the great man is he who in the midst of the crowd keeps with perfect sweet-ness the independence of solitude.--Emerson.

I know of no manner of speaking so offensive as that of giving praise and closing it with an exception.—Steele,

A BAD BRUISE.

Often causes a good deal of trouble The best cure is a prompt application of Nerviline, which instantly stops the pain, prevents swelling, removes all blackness and discoloration, Nerall blackness and discoloration, Ner-viline is antiseptic — prevents blood poisoning. No liniment so strong, so penetrating, so swift to destroy pain. You miss a lot of comfort by not us-ing Polson's Nerviline. For nearly fifty years it has been the standard family liniment of Canada.

The disposition is to think everyone else the possessor of more pe-culiarities than we really have.

There's a story of a farmer and his son driving a load to market. Of the team they were driving one was a steady, reliable old gray mare, the other a fractious, balky black horse. On the way the wagon was stalled and the black horse sulked and refused to pull. "What'll we do, father!" said the younger man. "Well," said the father, "I guess we'll have to lay the gad on the old gray." That homely compliment to women, "The gray mare's the better horse," suggests how often when there's an extra strain to be borne it is laid on the woman's back. How often she Arts."

High praise, of course, and of a quality to stimulate a young artist it he has the right stuff in him, or to hurt him if his limitations run in the direction of vanity and self-satisfaction. At any rate, the degree of accomplishment already reached by this sculptor is full of interest: how much further he will go is for the future to determine. To make predictions regarding an artist who has still to arrive is notoriusly dangerous, so many mishaps may intervene to prevent brownes from becoming fulfilment. The excellent showing, however, made by this young Canadian has already excited considerable expectation in Boston, and there seems to be not odoubt that if his professional course continues as it has becun his career will rebound with credit both to the land of his birth and to the city in which he gained all his preliminary training.

A visit to Mr. Wilson's workroom,

An engagement ring is the first piece of jewelry that a girl regards with heartfelt affection.

PACIFIC COAST EXCURSIONS,

John Loughrin Dismissed.

Toronto, July 26.—It is rumored around the Parliament buildings that John Loughrin, registrar of deeds for Nipissing, and magistrate at Sudbury, has received his letter of dismissal. He goes for offensive partisanship, Mr. Loughrin holds offices netting him about \$4,000 a year.

It's the successful man who always prates of the luck of fools.

BIG FIRE

The Barns Belonging to M. Wilson and Geo. Taylor Totally Destroyed -Narrow Escape of Surrounding Buildings.

A number of small boys, with matches and cigarettes, were the cause of a very serious fire yesterday afternoon about half-past three o'clock. The boys were taking advantage of the absence of Mr. and Mrs. Matthew Wilson and family to steal some choice apples that were stored in Mr. Wilson's barn at the rear of his residence on Wellington

After they had eaten as many of te apples as they could, they lit their cigarettes in the barn and decamped. It is supposed the matches set fire to the hay in the building and, as a result, the Wilson barn and George Taylor's barn adjoining were totally destroyed.

Some one sent in the alarm to the Some one sent in the alarm to the fire hall from the Riverside Terrace. The fireman who received the telephone call heard the words, "Back of George Taylor's, the eigar man." The brigade turned out to Mr. Taylor's store on King St. and laid a line of hose at the rear of the building, but no fire could be seen. They went back to the hall and received the message corrected, and the inwent back to the hall and received the message corrected, and the informant this time gave the words, "Back of George Taylor's residence." They then lost no time in reaching the fire, but by this time the blaze was far beyond control and the firemen directed their efforts towards saving the surrounding buildings. The residences of Mr. Wilson, Mrs. Thornton and G. K. Atkinson, which were in close proximity to the fire.

were in close proximity to the fire, were in danger several times. Mrs. Thornton's storehouse was destroyed and the Atkinson residence caught fire seven or eight times, and had it not been for 80 feet of garden hose,

which was used with good effect, the house would surely have been destroyed. This was caused from the fact that the firemen did not have enough hose with them to reach the building, having laid a long line of hose on King St. which they were forced to leave.

Fortunately, Mr. Taylor's horse was at pasture and some men working nearby ran his buggy out in the yard, but both buildings were completely destroyed. A phaeton belonging to Mr. Wilson, which was in the barn at the time was also destroyed.

The experience of yesterday goes

ing to Mr. Wilson, which was in the barn at the time was also destroyed. The experience of yesterday goes to show how careful people should be to give explicit directions in sending in a fire alarm over the telephone. If the firemen had received correct information the first time, much of the damage caused by the fire might have been averted.

Through the thoughtlessness of a bicyclist the team attached to the truck had a very narrow escape from serious injury. When the team was running down Wellington St. a man who was wheeling to the fire passed in front of the horses, and Driven Johnson, in order to save the bicyclist, pulled up his horses. They both slipped and fell, but got up again and proceeded to the fire, none the worse for their tumble.

Why furnaces crack in Summer.

In the old fashioned hotwater heaters with wide, flat surfaces, the soot finds a splendid resting place. A scraper and brush jams soot into the interstices brush jams soot into the interstices between the water sections. There it cakes and hardens, absorbs moisture, then it expands, and you have a cracked waterpost. If you have a 'Bison' hotwater heater you won't have any furnace troubles. There are no flat soot collecting surfaces in the 'Bison'—no crevices where soot can lodge; there will be no cracked waterposts, no delays, no mess, no plumbers' bills.
