ECHOES FROM AMERICAN BAPTIST WOMEN'S MISSIONARY JUBILEE 1871-1921

By Miss M. E. Hume.

What shall I say in attempting to describe the wonderful events which took place in the historic First Baptist Church of Boston, Mass., April 26, 27, 28?

Now let us take a seat in one of the comfortable cushioned pews. Notice if you please, the stately proportions of the beautifully decorated walls and galleries. The fine pipe organ, and magnificent stained glass windows. Is there not a feeling of rest and repose creeping over your weary spirit, after the mad rush of the City streets?

Presently a voice breaks thro' the stillness, and Mrs. Wood of the Gordon Training School calls the first meeting to order. Business, similar to that conducted by our own Convention, is transacted and discussed.

Towards the close of the afternoon session, a lady in silver grey stole softly thro' the doorway, and silently took a seat in the side aisle. After a few moments the chairman announced that altho the hour for closing had arrived she felt sure we would be glad to hear a few words from Mrs. Helen Montgomery. She was greeted with a Chautauqua salute, and in her own inimitable way expressed her great joy in being present at the first of the Golden Jubilee.

Who are those five young girls at the seat of honor? All the way from the Orient have they come to bring their message and present their plea.

"Dr. Wa Saw Sa was the first Burmese girl to get a college education. After completing her studies at the Baptist College, she obtained a medical Scholarship and studied five years in the Government University at Calcutta. Then she spent

two years in Medical study abroad, and obtained diplomas from the Royal College of Physicians and Surgeons at Dublin.

On her return to Burma in 1913 she was appointed Assistant Surgeon in the General Hospital. Next year she was appointed Supt. of the Dufferin Maternity Hospital at Rangoon, where she is meeting with large success in the training of native nurses. She is one of the most consecrated Christians, and a helper in every good work.

Khanto Bala Roy is a young woman of 24 or 25 years old, who comes of a fine family her father being a Brahman convert who later became the most powerful preacher and pastor in the mission. She is loyal to the cause of bringing her own people to Christ.

Kan en Voung. Her father was an opium fiend. She never saw him, as she was a little child when he sold her to Dr. and Mrs. Sweet. Her mother who was a Christian worked for a little while in the school with Mrs. Sweet. Since her mother died Grace Kan has been entirely in the care of Dr. and Mrs. Sweet as their adopted daughter. She is now head of the Kindergarten Dept. of the Hangchow Union High and Normal School.

Nakaji Ohicka Sann (is about 35 years old). Her father is not living. She has been for 14 years associated with Miss Mead at the Osakia Training School, first as a Bible school girl, and then as Dean of the School. Her rare gifts of mind and heart are consecrated to the Master's service. She has been greatly used of God in leading the girls in the Japanese schools to Christ.

Y. Nandamah, Nellore, South India, is a third generation Christian. Her father and mother were both teachers, so she grew up in a happy Christian home. She graduated from the High School Nellore, and then did the preposterous thing of studying medicine. She attended the Medical College at Ludhiana and is now connected with the Hospital in Nellore.

The whole audience was stirred to its depth as one after another of the five presented their pleas, and begged for helpers. The present needs, are great. China is in her most dangerous time. What is said of her can be said of all other Oriental nations.

Dr. Offord of East China told of a river on the banks of which stands a Baptist Girl's School. Some years ago a babe in a basket was being sold on this spot. A Missionary passing asked the price. \$3.00 came the reply. \$4.00 was offered by the missionary and the bargain closed. This baby is now the wife of a missionary and has all her children working on the Mission field.

The "New Woman", the first Magazine for women in Korea, has recently been started. It is edited and published by women. About 2000 copies of each issue have been sold.

MADAM X

Turned out into the streets through the unjust suspicions of her husband, denied the dearest privilege of a mother's heart, the right to see her son—Jacqueline Floriot maintained the sacred traditions of motherhood even though the mire of a sordid life retarded her weary footsteps. Her husband, grown in political influence, became the judge of a Paris criminal court and strangely enough Jacqueline's murder of a blackmailer who would have ruined his career brought her before this bar of justice for punishment. Another cruel twist of fate and Raymond Floriot, her son, was placed before the bar in her defence. And here the tragic triangle fought its piteous battle. The mother recognized her husband in the stern justice before her but her eyes did not perceive her son. When the truth came, when her woman's honor was vindicated, death gave her peace. "Madame X" is tragedy, but is tragedy of the sort that distills and purifies one's thoughts and ideals. Pauline Frederick as Jacqueline Floriot, has a role in which she exceeds all her previous efforts. She is at the zenith of her art in this masterpiece. At the Opera House, Monday and Tuesday, July 25-26.

THE DIFFERENCE.

A pessimist closes an eye, wrinkles his face, draws up the corner of his mouth and says: "It can't be done."
An optimist has a face full of sunshine. He beams on you and says: "It can be done", and then lets Joe do it.
But a pep-ti-mist takes off his coat, rolls up his sleeves, goes to it and does it.

For Meatless Days

WHEN you want to save Time and Trouble—serve Pancakes. When you want to save cooking—a big meal—serve Pancakes or Griddle Cakes. When the appetite balks at fish—serve Pancakes, or Griddle Cakes, or Waffles. But, at all times, when you seek real nutrition in pancakes, dainty aroma and flavor, palatable richness and easy digestion—then serve FIVE ROSES pancakes or griddle cakes. Not only does FIVE ROSES flour bring the wonderful food value so plentifully stored up in Manitoba's finest wheat, but it makes

Delightful and Digestible Pancakes

Fried in pan or baked on griddle, no cake can ever disturb the most delicate stomach, if made from a FIVE ROSES batter. Simply because FIVE ROSES is such a sturdy and glutinous flour that it resists the absorption of fat, merely "sking" enough to brown becomingly with a golden contrast, to crisp with crinkly, curly edges.

Serve this economical dish oftener, since FIVE ROSES makes it so palatable and nutritious.

COMMON SENSE USE OF CAR BEST INSURANCE

Ten Commandments For Driving, If Observed, Show Good Intent on Part of Operator

There are various kinds of "insurance" policies. Perhaps the best of all is the kind that is implied in the commonsense use of the car dna which takes into consideration the person in the street. Ten commandments for driving are proposed of good intent. They are, says "L. H. G.":

1. Drive on the right side of the road; it's just as good as the left.
2. Slow down when approaching a cross-road; it is nearly as dangerous as a railroad crossing.
3. Look out for children. You can never tell what they'll do, and you're always wrong if you hit one.
4. Try to help instead of hinder the traffic officer; he's there for your good, and he's got a tough job.
5. Be sure that your "dimers" really dim; it's no joke driving into a blinding glare, as you probably know.
6. Read and obey the warning signs; they're not put up as ornaments.
7. If you feel you've got to speed, do it where it won't kill anybody but yourself.
8. When making minor repairs, stop where your car may be seen from both directions; otherwise you may stop longer than you anticipate.
9. Speeding around corners is a straight route to the hospital. Don't race past a stopped street car. Some day the jury may call it manslaughter.
10. Use discretion. The fact that you had the right of way won't bring anybody back to life, least of all yourself.

BALANCING WIRE WHEELS

Owners of cars with wire wheels will do well to look to the balance of these. In order to reduce the magnitude of the centrifugal force of excess weight on one side of the wheel the latter should be balanced just as a flywheel is. The wheel is jacked up and revolved just slightly to determine which side is the heavier. A piece of electrician's tape is then wound around a spoke on the opposite side. This process is continued until the wheel remains in any position in which it may be placed, showing that the weight is equal on all sides.

PUMP LEAKAGE

When the water pump begins leaking do not assume that necessarily it is because the nut is too loose. Frequently the nut is not to blame at all, but poor packing is the real cause of the trouble. Packing for this part consists of candle wick soaked in tallow, heavy twine similarly treated or special packing material. After the nut has been turned to press the packing down do not turn it further, as excessive squeezing is apt to damage some part of the body of the pump.

CROSSING HINT FOR MOTORISTS

Shifting into intermediate speed before crossing railroad tracks is a mighty good habit to form. The reduced speed makes a quick stop possible, when necessary, while acceleration is much quicker in second should the motorist find himself on the tracks before noticing the approaching locomotive. Safety first!

OLD HOME WEEK PLAN FOR EXHIBITION

Efforts being Made to Attract Former Residents to City First week of September

One of the special features of this year's exhibition in St. John will be a "Back to the Old Home" movement. Efforts are being made to attract former St. John residents to the city the first week in September, just when the surrounding country is at its loveliest. In the advertising campaign, several national mediums are being used with the idea of bringing before the people advantages of planning their vacation for this time so as to include the Exhibition in Old St. John.

Special railway rates will be allowed, as in pre-war days, and this fact will probably influence many to take the trip. It has been found necessary to increase the number of men working at repairs on the grounds in view of the short time in which to complete improvements. Extensive repairs are being made to the cattle sheds and other alterations are being made with the object of better utilizing space.

The prize list is to be more generous than ever and several cash prizes have been put in the place of cups, which were presented formerly.

Space in the halls is pretty well taken up. The number of ice cream and soft drinks booths has been greatly reduced and their place will be filled with industrial exhibits from substantial business houses.

In the Women's Department, the tea room has been done away with because of the increased interest taken in women's work. This will give space for larger and more varied exhibits.

The Exhibition Association will deal direct with the amusements this year, having been greatly disappointed last season in the amusements provided. Several "stunts" and good aerial acts are already contracted for and it is promised that this feature will be better than ever.

BATTERY READING

In taking battery readings with the hydrometer the operation should be performed before the distilled water is added to the solution, which will otherwise be diluted and a wrong reading given. Also after the water has been put in it takes some time to mix with the acid. The water being lighter stays on top, and if the hydrometer is used say an hour after the water has been added it will take up only a weak solution, which is not the real one.

In preparing electrolyte for storage batteries nothing but chemically pure sulphuric acid and distilled water should be used. Commercial grades of acid and ordinary drinking water contain enough metallic impurities to cause disintegration of the active material, inducing sulphating and ruining the battery in short order.

GREASE CUP COVERS

Certain of the grease cups fitted on the modern car are so placed that they inevitably collect dirt on the outside, some of which may work its way in and eventually get into the bearing with the grease when the cup is refilled. By way of covers for such cups an ingenious car owner takes hollow rubber balls and enlarges the holes just enough to permit of the balls being slipped over the grease cups, retaining a good tight grip at the bottom. If the balls are painted the same color as the adjacent parts of the car they are not at all unsightly.

FOR THE TOOL BOX

A convenient addition to the tool box is a small packet of wire nails of different sizes. These nails may be used to replace lost cotter pins and for many other purposes.

WANTED—A PUBLIC AWAKENING

It is said that the wicked Emperor Nero "fiddled" while the beautiful city, whose safety was entrusted to his care burned as a result of his ruthless act.

To-day there is too much "fiddling" while the destiny of the community and the state are in the balance.

There was never a time in all history when there existed a greater need of people being interested and active in the carrying on of world activities than now. The great war that taxed resources of all kinds to the breaking point produced a condition which demands the best energy of mind and body to overcome.

In European countries at the restoration of peace there began a determined effort to restore pre-war conditions with the least possible delay. The result has been that even in the areas devastated by the ravage of the war industrial processes are going on at a rate that may well cause the people on this side of the water to take note.

The people of Canada are apparently slow in taking advantage of the splendid opportunities open to them. There appears to be a willingness to rest on our oars. Shorter hours and less production is the evident desire of those who man the industrial institutions of our country at a time when conditions demand that every ounce of effort should be put forth to rebuild the ravages of the war and provide for future advancement.

In our own province and community there is apparently an inclination to fail to put the proper emphasis upon the real duties of life. There is a tendency to neglect the institutions which once occupied public attention. The community interest, the church, the matters of public concern are too often passed over as of minor importance as compared with the pursuit of the pleasures of the hour.

Car-riding, golf, cricket, baseball and tennis, all have their place in present day activities—and they should—but they ought not be allowed to interfere with the vital interests which we owe to the community and the state, and in so far as they are allowed to do so are disastrous to the public welfare.

Our province has wonderful possibilities—our own town and community a great future if its citizens are true to their citizenship and awake to the responsibilities resting upon them.

What is needed most of all is a faith in ourselves and our country that will enable us to undertake

great things and to accomplish results. As a residential section this vicinity is unequalled anywhere, and in addition we live in a most fertile district well adapted to any class of agriculture. In the centre of one of the very finest fruit-growing sections, our apples have won a reputation second to none in the markets of the world. We have splendid facilities for the carrying on of any class of industrial activity. With practically none of the drawbacks which prevail in other lands at the present time opportunity is certainly knocking at our doors.

The need of the hour is a public awakening and an earnest co-operation on the part of our people. Failing in this we miss the great chance which may not come to us again.

While very much has been done for the fruit-growing industry by the United Fruit Companies along the line of systematic packing and marketing of our apples there is one very important matter which so far has received very little attention. We refer to the proper advertising of our apples in the markets of the world, and perhaps most of all in the home markets. The orange and raisin producers of California, and many other similar interests, are spending immense sums yearly in bringing their products to the public attention and find the investment a profitable one. Until the proper emphasis is put upon this phase of the situation, and the food value of the apple is adequately set before the public, growers cannot expect to meet with the success that might easily be theirs.

DR. DEWOLFE AT THE METHODIST CHURCH

Dr. H. T. DeWolfe who supplied the pulpit in the Methodist church, Sunday evening, July 17, spoke from the text, 2 Cor. 3:3, his subject being "Living Epistles". He showed the origin and character of epistolary correspondence in the early Christian era—and how that Christians were then and ought to be now living letters written by Christ, who employs various amanuenses—and writes permanently upon the tablets of the human heart. Every Christian is an explanation, or exposition, or an enforcement of some application of the law of love which ultimate embodiment and expression is Jesus Christ. Such writing has a universal appeal and is universally intelligible. Men always and everywhere understand love.

In closing he spoke of practically erased manuscripts whereon monks ignorant of real value copied inferior compositions; and raised the question how far in the present day are Church Members not Living Epistles but caricatures of Christ or worthless palimpsests.

GREENWICH NOTES.

Miss Bertha Spidle, whose home is in Massachusetts is visiting at the home of her grandparents, Mr. and Mrs. James E. Forsythe.

Mr. and Mrs. A. K. Forsythe returned home last Friday afternoon from a month's visit to the old home of the latter in Sudbury Co., N. B. They were accompanied by a niece of Mrs. Forsythe, Miss Mildred Hunter, who will be their guest for a time.

Miss Leah Forsythe left here on Saturday morning for St. John, to resume her work in a store there, after enjoying a very pleasant two-weeks vacation.

Her many friends in this place are gladly giving a welcome to Mrs. Arthur Leslie—nee Dorothy Brown, whose home has been here practically all her life. She is accompanied by her husband who is Head Supervisor at the N. S. Hospital, Dartmouth. They arrived on Saturday and are guests of Mrs. Fred Forsythe.

John Andrew of the staff of the Royal Bank, Wolfville, is stopping with his mother here for a time, as he is afflicted with a trouble in one eye.

We understand an unusual number of our residents attended the service at the Baptist church, Port Williams, last Sunday evening, the majority of the number, not being regular "church-goers" over there. Two lady missionaries, Miss Martha Clark and Dr. Zella Clark, who are on a furlough from a long service in India, were the speakers, Miss M. Clark having charge of the service. The choir rendered appropriate music. Dr. Clark spoke on her medical work a good deal. The church was well filled with an audience of interested listeners. Dr. Clark and her sister, are visiting at the home of their sister, Mrs. Prosser, at the Baptist parsonage, Upper Canada.

Mr. and Mrs. T. A. Pearson and their daughters spent last Sunday with relatives in Annapolis County.

The Windsor baseball team defeated the Berwick team at Windsor on Monday by the score of 6 to 3. The game was one of the best that has been played in the series. Windsor and Kentville are now tied for first place in the league.

Wolfville people will be interested to know that Capt. Arthur Hunt Chute is to be one of the lecturers at the Kentville Chautauqua next month. His subject will be "The New World Spirit"—"Young Canada-Young America".

On account of it being so warm on Tuesday evening the attendance at the Tennis Dance at the Parish Hall was not very large. Those who were present however had a most enjoyable time. The music was excellent. The chaperones were Mrs. Geo. Anderson and Mrs. Russell Forbes.

There is one favorable feature to Canada's trade returns for June. While the reduction of \$125,000,000, as compared with a year ago, is unwelcome, it is encouraging to note that the reduction in imports was \$77,000,000, and in exports only \$48,000,000. Canada sent out more than she brought in during June.

A VISITING PREACHER

At St. Andrew's church last Sunday the speaker was Rev. G. A. Logan of Upper Canada, who exchanged pulpits with the minister for the day. This was the first time the Wolfville congregation has had the privilege of listening to Rev. Mr. Logan since his coming to Canada and they were interested and instructed by his helpful addresses. The text of the morning sermon was in Ps. 110:7; the theme being "The Brook in the Way".

The preacher began by saying that while the divinity of Jesus was unquestioned by most people at the present day, little attention was often paid to the human side of his character. Jesus had the same temptations and trials as humanity generally is subjected to and had access to the same sources of help and support. The psalmist looking down the ages to the time of Christ declared that "He shall drink of the brook in the way." The picture is of a pilgrim journeying through the heat and dust of a summer day, who on reaching a brook of cooling water gets down on his knees and takes deep draughts of the refreshing beverage and resumes his journey with uplifted head and strengthened purpose. The preacher designated some of the branches of "the brook by the way", at which Jesus received strength and inspiration. Some of these were stated as being nature, human sympathy and religion. In practical terms the preacher set forth how from each of these it is intended that our lives should be broadened and beautified and made what God intended they should be.

Coming Events

Notices under this heading are inserted at 10 cents a line. Each repeat, 5 cent a line; minimum charge, 30 cents. Contract rates on application.

It is expected that the pulpit of St. Andrew's church will be occupied on Sunday next by Rev. Dr. Ross, of Fort Massey church, Halifax.

A party of tennis players from Windsor expect to visit Wolfville to-morrow for a friendly tournament with members of the local club. Arrangements are being made for a tournament with the Bridgewater players here next week.

The Wolfville Tennis Club will entertain the visiting players from Windsor at Tea, Saturday afternoon, at the Parish Hall. The hostesses will be Mrs. J. E. Hales, Mrs. J. D. Harris, the Misses Rockwell and Miss Schurman.

BOY ARRESTED FOR THEFT

On Tuesday of last week a gold watch valued at \$100 was stolen from the home of the owner, Mr. William O. Bishop, of Greenwich Ridge. As it was thought that the person taking it had gone in the direction of Windsor, the chief of police of that town was notified and given a description of the suspected boy. Enquiries proved that the boy spent a day and night at Windsor but hearing that he was wanted boarded the train for Kentville on Friday evening. On Saturday evening a bicycle was stolen in Wolfville and on Monday Policeman Crowell got busy. Information was obtained that a boy answering the description of the one wanted was at Blue Beach on Sunday with a bicycle and on Monday afternoon Policeman McDonald, of Windsor, arrested him at Falmouth. Policeman Crowell went to Windsor on Monday evening and brought the boy here. He gave his name as William Harper, of Port Williams, and said that he disposed of the watch to a man in Kentville for \$5.00. The boy was brought before the juvenile court on Tuesday and sent to the reform school at Halifax for three years.

THE CROP OUTLOOK

The refreshing rain of last week and again on Wednesday of this week did an incalculable amount of good to growing crops. Gardens are looking well and peas, beans, new potatoes and other vegetables are already in the market. The apple crop in spite of the ravages of early frosts and a long period of drought, will undoubtedly be a very large one. Haying is now in full swing and the crop is said to be much better than was at one time feared. The yield of early potatoes is not large owing to the continued drought, but it is hoped that the seasonable rains now occurring will greatly benefit the later varieties. Grain it is said will be short in this section, as the crop has matured to too great an extent to be benefited by the rains. Taken all together the outlook for the farmer is a rather promising one providing good prices prevail.

DIED IN CALIFORNIA

The death occurred recently in California of a former Gaspereau man, William Henry Kinnie, a son of the late Abner Kinnie, of that place, and a brother of Mr. R. A. Kinnie, of Wolfville. The deceased was 85 years of age and went to California when a lad of 23. He went into the milk business and invested in real estate and acquired considerable wealth. Mr. Kinnie had political aspirations, and took an active part in the affairs of the Republican party. He was elected to the office of sheriff of San Mateo county in 1886 and held the position for some time. His death was sudden in the midst of active duties. He is described as "a genial gentleman, honest and square in politics, a kind heart beloved by his associates." He is survived by his widow, who is a sister of Mr. J. Andrew Caldwell, of Gaspereau.

BISHOP COMPANY

WOLFFVILLE

REAL STORM AT SEA SHOWN IN WILLIAM FARNUM PICTURE

One of the most thrilling sights possible on the screen is the sinking of a ship in a storm—even if the storm is "made to order." But there are storms—and storms. Those who were concerned in the making of the storm scene in "The Scuttlers," which will be shown at the Opera House, Wednesday and Thursday, July 27 and 28 declare they got the thrill of their lives.

Even William Farnum, the popular William Fox star, who has been in many thrilling scenes, says this scene surely made his red blood run fast. And the camera-men who photographed the picture are willing to sign a statement that they want no more thrills of this calibre.

The action took place outside of San Francisco on board of a 250-foot ship, taken over by the Fox company for the purpose. J. Gordon Edwards was directing the picture. The day was rather mean and threatening, but this gave the grey light necessary for the scenes. Mr. Edwards intended to pump the storm from the ocean in the customary motion picture way; but the vessel had hardly pushed its way beyond the three-mile limit when rain began to fall, and a high wind dashed the waves over the ship. At first Mr. Edwards, as he balances himself on the rolling deck, thought it would be well to return to port.

"Just the kind of weather we want," Farnum insisted. "Put an umbrella over the camera, Gordon—and this ought to be corking stuff."

So a shelter was made for the camera and the storm scenes taken. Little rehearsal was needed. The real action was there. The company didn't try to act. What the members endeavored to do was to keep on their feet. Their faces, too, expressed the right emotion. One man became too realistic. He got seasick and had to be taken out of the line of the camera.

In "The Scuttlers" are other remarkable scenes, embodied in a peculiarly thrilling story of romance and adventure. According to report, Farnum, in this picture, is seen at his best. Don't Miss It.

NOT A WHISPER

One day the children were having an object lesson on the blue heron. The teacher called attention to the small tail, saying, "The bird has no tail to speak of." Next day she asked the scholars to write a description of the bird, and a little girl wound up by saying: "The blue heron has a tail but it must not be talked about."

In Dublin a zealous policeman caught a cab driver in the act of driving recklessly. The officer stopped him and said:

"What's your name?"

"Ye'd better try and find out," said the driver peevishly.

"Sure and I will," said the policeman, as he went round to the side of the cab where the name ought to have been painted; but the letters had been rubbed off.

"Aha!" cried the officer. "Now ye'll git yersel' into worse disgrace than ever. Yer name seems to be obliterated."

"You're wrong!" shouted the driver triumphantly. "Tis O'Sullivan!"

WILLIAM FARNUM The Greatest Character Actor on the Screen, in

"THE SCUTTLERS"

One of the most thrilling sights possible on the screen is the sinking of a ship in a storm, not a made storm but an "Honest to Goodness" storm at sea. Even the players in this picture admit they had the thrill of their lives.

Most of the action takes place on board a ship far out in the Pacific, and there are also stirring scenes on a desert island. Farnum enacts the role of a detective for Loyds, who disguised as a common sailor, is commissioned to run down suspicions that a captain is scuttling his ships for the insurance.
