CARACTERIALS!

Vivian Boniuk, Dal co-ed places another blood donation in storage.

Red-Bloods Social Starts Tuesday

If you are a red-blooded Dal-Kings student of eighteen or over, you are eligible to participate in the most exciting social event of the year! Delta Gamma is sponsoring the annual Red Cross Blood drive on January 26th, 27th, and 28th in the common room of the arts annex building. This is your chance to lie back and rest constructively. All that you need is a half-hour to spare and a willing arm.

The Butsy Shield will be awarded to the faculty, fraternity, or residence that donates the highest percentage of blood per capita. Tau Epsilon Phi has won this award for the past six years. Hopefully, TEP will encounter strong competition this year from the other societies. Remember, even if your blood is rejected, your name will still be registered under your faculty or fraternity.

Give a little of yourself and keep in mind that only the nurse knows for sure. Best you find out your blood-type too.

A Tale Of Two Constitutions

Last week Council met for fifteen and a half hours to discuss two constitutions. First on the firing line was the constitution drafted last autumn by Eric Hillis, Member-at-Large, and Gary Hurst, Law Rep. Hillis moved, Hurst seconded that their draft be accepted in principle as the framework for a new constitution. Motion passed representation in the next few thetic to the plight of the student

Council Chief Seeks Million-Dollar Loan For Campus S.U.B.

Other Tuition Hikes?

HALIFAX, NOVA SOCITA

BY TERRY MORLEY **Gazette Writer**

The rumour that other Maritime Universities are all planning a fee increase next year seems to be borne out in a series of interviews with Maritime university Presidents.

Mount Allison President, Dr. Cragg told the Gazette that although he was "sympathetic" to the Canadian Union of Students "freeze the fees" program, this was "just not possible". He said that "fees will have to go up unless governments can be persuaded to increase the size of their contributions."

At St. F. X. much the same problem exists. Monsignor Mc-Lellan, the new President said that "government will have to

give a lot more money to the universities." U.N.B.'s President, pointed out that "the money has to come, as far as the Maritimes is concerned from the federal government. They don't seem to be coming to grips with the problem." He felt that federal aid should be earmarked for the universities and should not be in the form of grants to the general provincial budget.

Dr. Beveridge, of Acadia, emphasized the necessity of fee increases unless more government aid is received. He remarked that "we would like to keep fees reasonably low, but the hard practicalities of the situation are that we are being forced into raising fees." Dr. Beveridge, another freshman President, felt university fees would continue to climp unless there

was a basic change in the financial situation. King's President Dr. Smith,

when told of the CUS "freeze the fees" campaign commented "I can't say that I'm stumping for a freeze in fees". He felt

Carnival is selling out.

Then Jos Williams, Memberat-Large, rose imposingly from his place and moved that the title of the Hillis-Hurst draft be revised. Williams wished to replace "Constitution of the Student Body of Dalhousie University", with "Constitution of the Dalhousie Student Union." After an impassioned appeal by Peter Herrndori, about the necessity of this change to the whole philosophy of student government at Dal, the Hillis version was soundly defeated.

Students Confused About Hurst and Hillis introduced Article One and managed to have retained the name "Council of Students". They introduced Article Two, which was immediately amended by Williams in such a way as to give the whole constitution a different framework. Williams' version was accepted. Again for Article Three, Williams (who incidentally spoke for the executive and had all his amendments seconded by Carl Holm) saw his version passed. Finally in the middle of Article Four, when it became obvious that the Council was bogged down with two competing, and very dissimilar constitutional frameworks, Hillis and Hurst threw in the towel, and with an amazing sleight of hand procedure Williams' week old draft became the official draft.

It soon became clear that although Council would argue about every clause into the small hours of the morning, that nonetheless the Williams' draft was to be by and large the constitution passed by Council. This proved to be the case. Mr. Williams proposal that the President and the Vice-President run as a "ticket" to be voted on "jointly" by the student body

was defeated overwhelmingly after a stirring speech on keeping political parties out of campus politics made by Eric Hillis. But the rest of his basic points remained intact.

In 1961-62 the GAZETTE ran steady campaign to have the Book Store improved, apparently to no avail.

October 11, 1961, saw an editorial "Bookstore Action Need-

"Why space on the Dalhousie campus should be occupied by one of the most flagrant examples of bad business procedure ever to beset a University is a question that has long plagued GAZETTE

editors. . . ", it declared. The editorial went on to call for student action. When there was none, the campaign was intensified. In February, 1962, the GAZETTE called for a student boycott.

"Only in this way can the administration be shown that the students are serious in their deon Quinpool Road, for service. years \$40, for nothing." Nevertheless, to several generations, Atwood will be remem-Carnival

bered as a Hero. In 1950 he was awarded the coveted Golden "D", for many years of devoted service to the student body."

That same year Atwood made the first of two gifts to the University, the first bringing new chairs to the gymnasium, and the second, in 1954, going into the S.U.B. Fund.

Until 1963 Atwood annually gave a gift of money to the University "in gratitude for the living I have been able to make, which might not have been possible for a similarly handicapped person", he said.

Commenting on the "D" award, a GAZETTE editorial stated: "Roy has been on campus for at the Mall February 6. more than twenty years and durthe most interested of non-stu- fast. dents in college affairs. .

Such a reward is only a small recompense for Roy's many years of interest and service, but the good wishes of a generation go with it."

And on January 19, 1945, an editorial entitled "The Atwood Legend" was published.

"On the 15th aniversary of his association with the Uni- Dalhousie Student Council versity, the Gazette pays editorial tribute to the unsung but deserving campus hero, Roy tickets. Walter Atwood, genial bossman

of the gym store. . . He faces adversity with a stoic determination reminiscent of the ancient Spartan warrior, A perfect example of "Health is Wealth."

Roy enjoys an All-Bran breakfast daily. . . Commenting on the administration's decision, Atwood said "I feel that the University has

been fair to me, and I have been fair to the University."

Atwood, who has been aware of the impending change for some time, would have been happier if "they had left it for a few more years, so I could apply for an old-age pension at 65 years." He feels that he has at least two or three more good years left."

He continued, "During recent years the enrollment of the University has increased at a substantial rate. This increase has reached proportions that demonstrate a most inadequate accomodation for the expanding needs of the book business. This is the main reason why you are going to have a new bookstore."

ROY ATWOOD

Apparently, he concluded, his business had "been given no consideration whatsoever", in spite of these frequent offers of service. He was surprised and displeased that "somebody had to be brought in from Upper Canada when there is adequate local

Egyptology

WHEN read in the context of the entire Antigonish speech, Premier Stanfield's statement that "If Dalhousie should wish to maintain a graduate school of Egyptology the people of Nova Scotia are surely compelled to finance it," simply does not constitute a challenge to academic freedom. By now almost all observers agree that the treatment of the speech by the Halifax Chronicle-Herald was sensationalism and nothing more.

LAST week, the Gazette interviewed the Presidents of the major Maritime universities (except Dalhousie) plus Dr. Norman MacKenzie formerly President of UBC.

NOT one of them felt the statement heralded governmental interference in the curriculums of the universities. However, though we may undoubtedly relax about a threat to university autonomy from the Stanfield government (it isn't at all likely), we might very well be concerned with the obvious confusion shown by these top educators towards the problem of academic freedom vs. governmental fiscal responsibility.

THE problem of relationship between the state and the universities is growing more acute every day as more public money is spent for higher learning. Yet none of the men interviewed by the Gazette gave any clear indication of a philosophy about the problems inherent in the relationship. Naturally one could not expect profound statements out of the brief telephone conversations that the Gazette had with these administrators; yet it is disappointing that they failed to rise above political statements, designed to assure the university community that the Premier had not really implied anything by the use of this example.

TYPICAL of the statements made by the Presidents was the one by Msgr. McLellan of St. Francis Xavier Univerity, in whose honour Premier Stanfield had visited Antigonish. After pointing out that the "Egyptology" illustration had been "pulled from the blue" Msgr. McLellan went on to say that Stanfield "was talking about a time when government will be providing money for capital projects and not as at present for current expenditures. The government would naturally want the buildings they are paying for to be useful." Of course the problem lies in determining "utility" and in recognizing the legitimacy of either the state or the university to make this value judgement. It seems to me that these problems are crucial, not only for the educational system, but also for society itself.

BASICALLY there are two points of view on the role of government in the educational system, particularily in the field of post-secondary education. Dr. Norman MacKenzie, interviewed in Victoria, B.C. at the Empress Hotel, expresses the first well when he says "though universities should set up a list of priorities for various projects, if they spend money in an extravagent or wasteful manner then the government and the

IN a democracy it is necessary that the state voluntaritly abjure legislative authority over certain spheres of public action. For example, it is undoubtedly necessary that the government refrain from using its coercive power to muzzle the press, or to arrest politicians who are active alternatives to the regime. Freedom, though a complicated, and somewhat vague idea, is nevertheless most certainly concerned with specific rights like those. Democracy is a form of government designed to permit the exercise of these, and other "political" rights, and hence to permit individual freedom. Since education is an effective way of influencing individual character, and hence of controlling individual personalities, it seems to me to be imperative that the government concerns itself only with providing the necessary framework for a decent educational system. The state provides money for the educational system, but the legislature abandons its powers to the professional educator in order to preserve political freedom ... or rather, in order to helpensure political freedom.

THE state refrains from participating in the decision making apparatus of the university structure, not because it is unaware of the very real advantage to society in taking part, but because it recognizes the greater dangers if it takes part.

"freeze the fees"

THE comments of Maritime university Presidents on the CUS "freeze the fees" program are very disturbing. Disturbing because none of the Presidents gave the slightest indication that he was willing to take his university into debt in order to force the government to provide the money for operating our institutions of higher learning at the same fee level; and because none of them showed any real awareness of the CUS campaign.

OF course taking a university into debt is a serious proposition and one that cannot be faced lightly. But it is no more serious than the present proposition of depriving bright students of a place in university because of their family circumstances. Canada cannot afford this atrocious waste of some of our best brain-power for the want of adequate government financing of our universities. The Gazette believes that the university administrations who should be more fully aware, than government, of the implications of "country club" academic community, must take the lead in holding the fee line. They must hold this line at all costs, and that includes the cost of taking the university into debt, regardless of the feelings of the bankers on the Bo of Governors.

action in que

FOLLOWING IS A RECONSTRUCTION OF A SPEECH BY ROBERT PANET-RAYMOND, THE VICE-PRESIDENT OF L'AGEUM, THE STUDENT UNION AT THE UNIVERSITY OF MONTREAL, OUT-LINING THE PRINCIPLES OF STUDENT ACTION IN QUEBEC.

By VOLKMAR RICHTER Reprinted from The Varsity

Students in Quebec, educated at the classical colleges, were brought up to sit, obey, absorb knowledge - to fit in. But, they were discouraged from taking any action on their own and this difformed the mind in many ways. Also, it turned out self-centered people with the singular purpose of getting rich as quickly as possible.

Still, these students were dynamic - enough so to stage a riot in downtown Montreal in 1954 in support of demands for lower transit fares. It was a riot staged for their own good. It lost its chances for success when the sympathy of the public was lost following the acts of vandalism that occurred.

Today in Quebec, there is a complete change of outlook among students, Whereas they used to be ignored and practically a closed society since no one took them very seriously because they only existed as students for four years. students now see themselves as a social class with autonomous rights and duties. Thus, today one sees them taking action for the good of the entire class. Opposition towards students loans, r example, was taken to support demands for free education and a salary for students. In 1958, three students tried to to the Gazette of December 4. get an audience with Duplessis 1964, defeated a resolution deto speak to him about the possigned to urge the Federal Govsibility of free education. They ernment to comply with the failed and on returning to the United Nations resolutions on campus were laughed at. Their economic sanction against the ideas of student action were just Government of South Africa, One too new for the rest of the stuof the reasons given by the dents. This is the influence of the Council President in justifying classical colleges showing itself. the Council's action was that it But since then student action is ironical for the African nations in Quebec has come a long way. to request an embargo on the In 1960, students at the University Republic of South Africa when of Montreal staged a strike ad-"all those nations now have invocating the recognition of some creased, rather than stopped, union workers on campus. This incident condemnation of "apartheid" and put l'AGEUM on the map. demanded stringent economic In 1963, support was given to the installation of a lay rector at U of M and to a change in the pontifical character of the university. UGEQ (Union Generale des Etudiants de Quebec) and a similar organization for the classical colleges were founded; a committee on free education was set up. Also, a cafeteria boycott was held which was against more than a food price hike but involved opposition to the administration taking such action without first consulting the students. The demonstration against Gordon MacGregor of TCA was unfortunate. Its purpose was much more than the non-acceptance of the Caravelle, but involved student support for the title-change to Air Canada, and bilingual services on the airline. Trouble started when the student organizers were not allowed to charter buses for the demonstration which prevented the arrival of a student police. Further efforts to control the crowd were frustrated when the police refused to let a car with loud-speakers through the lines. What did not make the papers that year was the offer to send reinforce Resolution A/1761. students from the university into This the economically depressed areas urged all member states to re-

of Quebec to aid the people there. our programs called Chantiers students go into the St. Henri area, offering to tutor the children. In this way they can enter the homes, gain the confidence of the residents and are able to discuss their problems with a view of 5 to 10 cents will soon be imposed on all drinks sold in the Student Centre to finance the

Students are gradually taking action on international issues too. The Quebec students pulled out of CUS because it was not representing them well enough on the international level. We are at the moment establishing close contacts with the universities of Algeria, Tunis, Brussels, Toronto and Moscow.

The student syndicalism will occur in English Canada too. You have never felt as one organization but the day will come. You have social problems that students could take action on too. Thus, the student is not merely Then you too will be following working for himself as the ego- the motto of PAGEUM - "Serving students and the nation."

speaking out

Only time separates the student and the professional journalist. No matter how loftly the ambitions, no matter how strong the determination, the rude fact remains that some of you will wind up splitting infinitives in the city rooms, the press galleries and the not-very-far flung bureaus of this nations's Newspapers.

Some of you will come as G.K. Chesterton came to Fleet Street in 1899, certain that a newspaper is still a place where "anything could happen . . a place of random work and riotous recreation and unfailing comedy of fierce rivalries and generious friendships and queer associations; a place, in fact, to exhilarate any man with a sense of romance and independence".

Looks more neat and regular than a newspaper with its parallel columns, its mechanical printing, its detailed facts and figures, its responsible polysyllabic leading articles. Nothing, as a matter of fact, goes every night through more agonies of adventure, more compromises or barely averted catastrophies. Seen from the outside, it seems to come round as automatically as the clock and as silently as the dawn. Seen from the inside, it gives all its organizers a gasp of relief every morning to see that it has come out at all".

An older and more cynical Chesterton was to write that the Press Lords had made newspaper offices "like any other business". had pushed the reporter down, made him a "man who writes things on the backs of advertisments". "Is there any institution in the world", he asked, "that does harm on so gigantic a scale as the press?

Which of Chesterton's judgments holds validity today?

He and his who are doing all they can to kind have succeeded intranscreate an incident around this forming a once noble profession

In 1964, all the student movements united in a general con- district of Montreal, the slum gress and a Student Syndicalism Day was held on March 2. In the fall students opposed the loan plan, formed UGEQ and withdrew from CUS. Syndicalism is a reality - it will develop and mature to helping them. A special tax and along with it comes a new respect from society for the student. On the U of M campus we have project. achieved three of the four objectives with which we started out.

We have forced the administration to ratify the sitting of student representatives on joint committees, have forced it to publicly state its intentions of publishing its financial statement and have forced it to stop opposition to the incorporation of the student government. The fourth objective, the setting of the site for a co-op, has been held up only because the university re-

cently made an alternative proposal which is now being studied. centric graduate of the classical colleges used to do. In one of

cople have the right to question these projects." In other words Dr. MacKenzie feels that since governments are responsible to the people for the money they disburse, they must therefore have a say in its disbursement.

THE other viewpoint, and I must stress that it is not necessarily an antithetical one, was expressed by Dr. Beveridge, President of Acadia University. He said quite categorically that he was not in agreement with Stanfield's statement and that "it is up to the faculty, the Senate, and the Board of Trustees to determine the curricu-

lum." In other words it is up to the professional educators to determine the list of priorities in the universities.

BUT having presented these different viewpoints in this way I must record that all the men talked to, were most moderate and all suggested in one way or another that the government and the universities must work together. Dr. Smith of the University of King's College foresaw a situation where the government would be hiring people with a background in university administration to advise them on university affairs. He placed himself, however, with the government supporters by stating that "it is up to private foundations to support schools of Egyptology." Dr. Smith appears to have made a value judgement that schools of Egyptology are not 'useful' enough to entitle them to government aid. Worse, he indicates that he favours society's permitting government to make this value judgement.

THE President of Mount Allison, Dr. Cragg, remarked that he did not think "that the government should take an active role in determining the university curriculum." However, he decried the play that Stanfield's speech received in the with the Nova Scotia government.

echoed by the President of UNB who said that he felt "government should have a voice if the university ever, it is inevitable that they will want to have gotten off the ground. some say in major developments."

not able to concisely articulate the implications which ones will not? of government participation in determining curriculum; it may well be a disaster for them if rate it is inevitable that public funds be spent for there has not been public debate on this question their support; but no university can be fully efin the event that one of the Canadian provinces fective in either education or research if it to be elects a government wilder, and more anti- trammelled by the necessity to gain public approval intellectual, than the present Social credit regime of its actions. in British Columbia.

BY the same token it is up to the students to make the administration recognize the value of low fees, indeed, the necessity of low fees. To this end we call on the Council of Students to organize an orderly demonstration protesting the fee hike at Dalhousie. Furthermore this demonstration must take place now, and not in May, when the administration "officially" announces the \$75 tuition increase, with no students around.

DAL must take the lead for all the Maritime universities in making the "freeze the fees" campaign a reality.

- by T.M. -

ballot-box

In a recent speech at St. F.X. University in Antigonish, Premier Stanfield recognized the increasing role that public funds are going to have to play in the financing of colleges and universities. While there can be no doubt of this there is ominous portent in the approach Mr. Stanfield is taking. He says that the government must keep the general public's opinions in mind when allocating funds in support of the various departments and research projects in universities.

courses

It is only natural that the Premier should keep a close watch on the political implications and effects of government expenditure, but it would be a fatal mistake to let such considerations overshadow the more important aspects of scientific and scholarly advancement. It is unfortunate but nonetheless true that important and vital areas of achievement Chronicle-Herald and made it abundantly clear in their first embryonic forms seldon look very that he felt that his university could co-operate significant to the layman. As the late whether in Canada or in South President Kennedy said, "Is not Africa itself and the decision

Dehomey, and Mauritania.

taken should reflect the true sentiments of the particular student body. I am not saying here that the Council's decision on this particular resolution does not reflect the majority sentiment on the issue, quite on the contrary. It may well be that this is our feeling, but, please, let our true feelings be equated with the true facts and understanding of apartheid even though we may not be "our brother's keeper". If a university audience cannot have the moral courage to say NO to a glaring injustice and a threat to peace, how can we hope or expect our politicians to answer the call?

The flouting excuse that the solution to apartheid remains with the enslaved africans in South Africa is as unrealistic as it is to say that the solution to Nazism lay in the hands of the six million innocent souls. Let the Council recall the Sharperville massacre of 1961 where the government troops perpetrated a mass indiscriminate slaughter upon the africans at the instance of an imminent labour strike.

An embargo has two way effect, one positive and one negative. The positive effect is one which the U.N. has chosen as the best solution short of actual military intervention. The negative effect is incident to the positive good even though it has been used as an excuse for not implementing sanctions. The line of argument here is that it is "not right to demand starvation of innocents besides that of offenders." Surely, is this noble argument applicable only to apartheid or it can be stretched to apply to where any economic boycott has been demanded like Cuba? Nor should we say that only those nations with a greater volume of export to Cuba or South Africa should alone respond to the demands for sanctions. It may be that the sanctions are not in the best interest of Canada, but if Canada genuinly deplores apartheid there is not any other reasonable way, short of sanctions, wherein Canada can make it manifestly clear to the rest of the world her detest of the evil policy.

The views expressed here represent the general reaction of the African Students in Dalhousie and all those who had the rare occasion to read the Dalhousie Gazette.

embargo on that country. egulation would certainly join in, and support it wholeheartedly.

Why? Because I think college is becoming a rich man's havenfees should definitely not be raised. Greater support from the government is what's required. If it's not organized, then it isn't effective. If it doesn't have the backing of the Student Council, then it doesn't seem legitimate. The Student Council should lead and not follow.

Out Of Touch?

The concept of God is out of touch with the man on the street, according to Dal Physics professor Archibald.

Dr. Archibald, who spoke before a meeting of the Science society, drew parallels between Science and Religion. Science, he said, was an attempt "to understand the physical world; merely to understand, not to exploit." On the other hand religion was an attempt "to understand human experience. . . and to place man in the scheme of things and determine his purpose."

Archibald traced the idea of God from its primitive conception until its present day form. What started as a picture of a King who demanded unreasoning obedience has become a complicated concept "which is out of contact with the man on the street", he said.

However this does not mean religion is altogether discredited. Dr. Archibald does not believe that "they have started asking the right questions." He cited Biology which he said will advance tremendously in the next fifty years because it has begun to ask the "right questions."

Restrict Rink

The rink will be restricted to Dalhousie students plus one guest next Tuesday night.

The move is in response to complaints that the rink is overrun by high school and Halifax citizens on the only two nights open for free skating.

If it appears that the rink will be emptied by the new rule, aliens will be invited to return in future weeks.

get out and vote. If we can be of versities, a stepped up and more efficient program of social work. Our program. We thank you very Thank you very much.

Liberal Party Platform

The following is a policy statement from the Dal-King's Liberal club:

"We have tried to keep our statement of policy brief and to the point so that you can see we stand without a great deal of study.

"Some of the policies outlined in the attached statement are very similar to those of the Liberal Party of Canada. This is because we are a part of that great party and because we have influenced their policy in the past. Other sections of the policy statement contain policies which we have developed ourselves in an effort to find solutions to the problems that confront our nation. If they are good solutions they will enjoy your support and will soon become policies of the Liberal Party. It is the job of University Liberals to stimulate the party and to keep good ideas

bubbling to the top. "The Liberal Party has served Canada well in the past and it will continue to serve her well in the future for it enjoys the loyalities of Canada's young men and women. We believe the greatness which belongs to Canada and we ask for your support on January 28.

"OUR POLICY"

1. The Liberal Party will continue its support of the United Nations as it goes about its all

permanent U.N. force.

4. Admission of the People's

sentatives of these industries and 5. We will undertake to join the Organization of American States so that Canada can asTRANSPORT

1. We will establish a steamship service (with Canadian built ships) to link the Atlantic Provinces directly with the great potential afforded by the West Indies.

2. We will arrange a direct air link with Bermuda and the West Indies from Halifax and we will provide a subsidy until this becomes a profitable route. This will provide Atlantic businessmen with fast direct communication and should assist in developing greater trade.

NORTHERN AFFAIRS 1. We intend to undertake a public works program which will assist in the development of the vast untapped resources of Canada's northland.

ECONOMIC & SOCIAL

1. The Liberal Party will take the necessary steps to make the Economic Council of Canada a more effective force in the planning of our economy so that Canada can take advantage of all the opportunities which the coming years will offer.

2. Continue the re-equipment 2. Funds will be provided to program for greater efficiency the Provincial governments to and to make our Armed Forces assist in the retraining of rea more effective tool of our Exdundant workers who are technologically unemployed. 3. Canada will continue to dis-

what happened _____ last year at the neptune theater

By DOUGLAS BARBOUR

The Neptune is, for better or worse, OUR theatre, and not only should be, but cannot help being, important to us. Haligonians, whether or not they ever see a performance at the Neptune, are involved in this venture. We of the university are, or should be, even more involved, for two reasons: that the university and the theatre pursue certain common goals, and that we are, supposedly representatives of an interest in culture that is reflected in such things as the live drama.

INADEQUATE SUPPORT Anyone who bothered to read the interview with

Leon Major will remember what he had to say about the relation of the theatre and the university, and about the theatre's educational function in a community. Perhaps the first thing to say about last summer's season is that a real attempt was made to realize this function. TWELFTH NIGHT played to packed houses of high school students this fall, and made a great impact upon them. The Shakespeare Weekend this summer was another brave attempt to realize various possibilities in this theatre. The weekend was an intellectual and artistic success; local support, however, that is patronage, was disgustingly poor. One can only hope that the Neptune and Dalhousie will have the temerity to attempt a similar project again.

As for the "season" itself, it can only be called a success, however much we find we have to qualify that term. Five plays, plus a special play for children, playing in repertory for the whole summer, went a long way towards demonstrating the special virtues (and defects) of this slowly maturing company of players. For a repertory theatre ideally exists to present plays in a unique and individual style belonging to that company alone. Our own Stratford Company is a good example of this. After ten years they are a cohesive whole, and their productions are distinctively their own. After less than two years, such a statement cannot be made about the Neptune company. But there are signs, and they can be studied.

PLAY FOR LAUGHS

What becomes obvious, then, especially after this past summer, is that this company leans toward the special type of production that can be generalized as "comic". Such a generalization is necessary, here, for the five plays of the past season all call for different approaches, and promote vastly different reactions in an audience. Nevertheless, all five plays were given what can be broadly called a comic treatment, and one, at least, THE GLASS MENAGERIE, so gained

from such a new approach as to almost emerge as a different play from the original. Curt Reis apparently recognized the comic potential of his actors, and took advantage of that fact to direct a somewhat comic, Brechitian, or objective, version of what had always been known as a serious, sentimental memory-play. The result was a wealth of fresh insights into the play and its meaning. For this reason THE GLASS MEN-AGERIE might be considered the artistic success of the season, as ANTIGONE was of the previous summer. Certainly, like ANTIGONE, it played to the smallest houses. But the popular successes of the past season were also interesting and stimulating productions, even the Broadway fun game, COME BLOW YOUR HORN. This last, although most of the actors were unable to participate in its peculiarly Jewish milieu was at least interesting for the performances of Bernard Behrens and Mary McMurray, who gave sterling comic characterizations as the two parents in the play.

WANTED - ORIGINAL PLAY OH DAD, POOR DAD was an extremely interesting production, because it demanded a special kind of comic approach. It can be considered a qualified success, because too much of a sense of insecurity, of misunderstanding, hung about the production. There were some fine scenes, however, and it gave some of the younger members of the company a chance to attempt characterizations of some complexity. JOHN A. BEATS THE DEVIL is more to be faulted in the writing than in the production, for this production gave as much life and depth as was possible to the script that had been provided. It was well done, and because it was a brand new play, it allowed the company a certain freedom of style. In a few years this company may be ready to do a really distinctive job on a good original play, provided the latter can be found.

***TWELFTH* DEFINITIVE**

The climax of the summer's productions, and one of the high points of the theatre's short history was their production of TWELFTHNIGHT. It was not faultless, indeed there was one fault in the casting that was almost irreparable, and yet it attained to a very high degree of success. It was deliberately played for humour, and it forcefully demonstrated the high comic potential of the company. Certain of the scenes with Sir Toby, Andrew Aguecheeck and co., could not have been improved upon, Bernard Behrens once more demonstrating his capabilities, and Ted Follows showing his talent for slapstick. I feel that the scene where Malvolio reads the false letter was perhaps the single most laugh provoking scene of the whole summer. No small credit for this

must go to George Sperkakos, who put his some-times bothersome affectations to the service of his characterization. The result was a comic Malvolio, which is absolutely necessary if the play as a whole is to remain comic. Two other performances stand out in this production. Roberta Maxwell's Olivia was a warm and comic appreciation of this usually frigid character. Miss Maxwell was a most important addition to the company last summer; I hope she will remain. Perhaps the best performance of the play, and an indication of the potential of this young actor, was David Renton's Feste. Ironic, and somewhat sinister, aware, ever so aware, of his precarious position in the house, this Feste balanced all the unreality of the main plot and all the slapstick of the subplot, centered our own objectivity into an awareness of time and life that gave a depth of meaning to the whole play. It was a masterly performance. Mr. Renton is one positive reason for pride in the Neptune, for he has learned most of what he knows there, and the fact that he could do so is in itself a cogent argument for the existence of such a theatre. Just about everyone turned in good performances, however, and the result was a rich, expressive production. The only real mistake was the casting of Dawn Greenhalgh as Viola. Miss Greenhalgh is not a bad actress as her performance in THE GLASS MENAGERIE demonstrated, but she was not Viola. The part required a smaller woman, and a lighter touch. Still, the final verdict has to be loud approval, and a great deal of credit should go to Leon Major who staged the play so effectively.

HAPPY FAMILY

Leon Major told us that many of his actors have to UNLEARN a lot as well as learn new things, before they can finally cohere into an ensemble. Their backgrounds are different, and such unlearning takes time. What is a hopeful sign is that the company does seem to be fairly static as to personnel. If this group of actors and actresses can only stick together for another few years, the chances are we'll have a real ensemble of players. I hope that this will prove to be the case.

The plays the company plans to put on this winter are all more or less comic. It appears that Mr. Major is also aware of the comic potential that characterizes his company. It should be an interesting an entertaining season for this reason. It is surely up to us to discover this. As members, however humble, of the intellectual community of this city, it behooves us to visit the Neptune at least once. I think everyone will find the experience an enjoyable one.

GAZETTE REVIEWS Lawren Harris Showing At Gallery

Lawren P. Harris was born in 1910 in Toronto, studied in the Boston Museum School of Fine Arts, and during the war served as a regimental tank officer and later af official Canadian War Artist. His work ranges from murals and mosaics to portraits, and he is represented in private and public collections across the country, including the National Gallery and the Beaverbrook Art Gallery. He is presently head of the Fine Arts Department of Mount Allison University. As these two reviews indicate his exhibit, "Non-Figurative Paintings", has aroused considerable comment and consternation at Dalhousie. It will be on display at the Dalhousie Art Gallery until January 30.

By PAUL BISCOP It has been six years or more centre light in the background. ple in general have been asking er. Some artists do not know From the technical viewpoint,

Audience Applauds Caligari Horror Film

By DAVE GIFFIN

The audience thoroughly en- meaningless from the point of joyed the Dal Film Society's view of advancing the story, as, screening of the original German for example, the opening scene horror movie, THE CABINETOF of the town in which the action takes place, and the incompre-DR. CALIGARI: it reduced them to gales of laughter. This was hensible shot of what is apparently certainly not what the makers the town morgue after the first the town morgue after the first of the film intended. With the murder, which is not shown at all, Too little of the story is told passage of time, however, the picture has, in many respects, visually; too much reliance is become undeniably funny. Some thought the scenarists was to portray the

since I saw an exhibition of Lawren Harris's work, but, from what remember, the foundations for the present exhibit were there: concern with space and the relation of objects to space, and the use of geometric figures. His works at that time were not as intellectual as the present ones, however.

Intellectual" is the one word that sums up the present exhibition of Mr. Harris's works, and resulting from this intellectuality is a coldness which I find particularly frightening. His paintings are intellectual because they appeal only to the mind and not to the emotions, and their coldness is the coldness of pure thought untempered or warmed by emotion. They have left the human element behind to become exercises of the mind, exercises of pure forms in space. I say pure forms because his forms are mainly rectangular, always geometric and always extremely precise. In short, they are very controlled and disciplined.

There is a noticeable lack of colour in the exhibition. Most of the paintings are in tones of grey ranging from light to black. This, of course, results in concentration on the subject, without the interference of the appeal of color to the imagination and the senses. But, as well, it contributes to the coldness of the works. Only three or four were saved somewhat by a liberal use of colour, and thus could appeal, at least, to the senses, if not to the imagination. The most striking of these, VERTICAL VAR-IATIONS, NO. 2, unfortunately fails somewhat, by being done on too small a scale. Number 14, YELLOW SUITE, shows an unusual psychological effect by relying on the transposition to color to visually complete it. Number

ting for several reasons. Most of the paintings do not use ordinary oil paints, but rather a gloss or semi-gloss enamel. The effect of this is to leave a smooth, textureless surface. His forms are perfectly edged, and how he

Earlier this month, Lawren His early portraits, which are Harris gave a short talk on the absorbing character studies, are development of his technique impressive, but there is nothing which gave one a better idea of very unusual about them In one what to look for in his paintings, painting, a nude, he displayed an and explained some of the start- ability to imitate nature very has been able to achieve this ling qualities of his work. He well, although he usually pre-

figures dominate. He presents

tion and devotion, but he is at between the buildings. But he

dom and imagination. Influenced by Cezanne's impressionism, the cubism of Picasso, and lastly by Mondriaan's neo-plasticism, he eventually came to do such work as one sees in this exhibition.

Harris terms himself a frustrated architect; he regards his paintings as solutions to selfimposed visual problems. He stresses design and balance, but he does not believe in design for own sake. Depth is lacking, but not space. Subtle colours of gray intrigue Mr. Harris; he sees gray as the sensitive neutral which gives rise to an infinite range of possibilities. In this later work, there is more emplasis on tone than colour, with one or two exceptions, such as YELLOW SUITE. He uses the same colours and shapes in each of the paintings. In PLANE AS-

SEMBLAGE, as in the others, the and the design is simply wedges Often in the space which surfigure appears. Music is said

the product of an insane mind. of an asylum to another. This, in effect, reduces the original ful.

idea that there is such a thing as insane authority, and that it is exceedingly dangerous, to the level of unbelief. The director's interpretation gives authority a beneficent aspect, which, unfortunately, was a serious error in the light of subsequent events in German history.

AMATEURISH FAULTS

As a film, THE CABINET OF DR. CALIGARI has many flaws. By 1919, the technique of silent films was fairly well developed in America, yet the German picture illustrates an almost amateur approach. This is not to condemn the film on the basis of its surrealistic sets, which are entirely appropriate to telling the story of a diseased mind, nor on the basis of the extravagant gestures of the actors, which were after all as rigidly stylized in the era of silent films as during the period of the Restoration stage. However, numerous visual sequences in the film are absolutely

his paintings - MIDNIGHT CHIM-ES and THEME AND VARIA-TIONS. Perhaps the viewer would be more at home if he could listen to appropriate music while

viewing. Most of the visitors to the gallery are impressed by PLANES IN SPACE and VER-TICAL GROUPS. IN PLANES IN SPACE, one "board" floats in space while the others seem to be attached to the foreground. The same type of striking non-con-

ultimate triumph of reason over inept use made of an iris diasenseless acts of violence com- phragm to focus attention on one mitted by insane authority. The or two of the actors is discondirector of the film changed this certing. Furthermore, the techaim by reducing it to a phantasm, nique of heightening suspense by shifting from one protagonist's Thus, in the film, the story of point of view to that of another Dr. Caligari and the monster who is little developed in the film, commits murders at Caligari's although American movie-makinstigation is told by one inmate ers by this time (practising on the Western) had become quite skill-

> BANALITIES BORN Not a little of the audience's mirth can be explained as the result of seeing what have since become pictorial cliches performed with perfect seriousness. Almost every device in the film has been repeated in one or more of the movies that developed from the genre it established, including least one re-make of DR. at CALIGARI itself. Caligari's monster, a sleepwalking mental patient named Cesare, who is responsive to Caligari's hypnotic suggestions, is the prototype in manner, movement and makeup, of the long line of semi-human of a heroine rendered unconscious through fright, invariably clothed in clouds of diaphanous silk, became a standard and unvarying plot-piece which perhaps reached its ludicrous extreme in

KING KONG, (a picture which really DID terrify its audiences). The theme of the mad scientist is still with us today, in the to have inspired at least two of person of Dr. No. The plot elements have since become so stereotyped, in fact, that it is difficult to separate the film's art from its artifice.

IMAGES ITS ORIGINS

Although the film's director, Dr. Robert Wiene, provided a rather unfortunate implication by placing the story within a framework of insanity, he deserves credit for opening an insight on the period in which the film was made. Nowhere but in Germany. it seems to me, could such a

film have been made at that time. when a widespread feeling of pervaded society. A gloomy atmosphere of utter depression permeates the picture, if one can view it objectively. No escape from the deranged world of the lunatic asylum seems possible. The picture reflects well the type of chaotic social order which produced it, and is, in this sense honest. Wiene also deserves credit for pioneering an enormously entertaining type of movie, although this, we may be

lated"; "I am having a really wonderful time because of the spontaneous acts of kindness. My landlady is excellent"; "The Canadian people are most hospitable. seem to lead fuller less artificial lives, - one certainly feels part of the community"; "During my three years in Canada I have been impressed by the kindness and thoughtfulness of most Canadians I have met.

This has helped me adjust to a new way of life".

As might be expected when youthful students come to a new and relatively young country a fair number of the comments were derogatory. To select a few: "On the whole I find lack of sincerity among people in Canada. Most people tend to show interest in other people only because 'it is the thing to do'. As a result a false stilted atmosphere is created. From a financial point of view I never would have made as much money elsewhere"; "The sum total of Canadian society monsters extending from him- seems to be ignorance and hyp-self to television. The abduction ocrisy tempered by mateseems to be ignorance and hyprialism". "Canadians are not interested in anything outside Canada - too busy with the rat race". "I find Canadians very touchy on political issues" GIRLS FRIGID

A real problem, since it raises emotional responses, is that relating to the relationship of visiting students with Canadian girls. Again there was a range of opinion such as. "I love Canadian girls but I'll never marry one because they have too much freedom and do not respect their husbands". "The girls are nice, but the sports are odd. They

Kahn-Tineta Horn, 22-year old Mohawk crusader from the Caughnawaga Indian Reservation near Montreal has accepted an invitation from the Dalhousie CUS Committee to speak on the Canadian Indian at Dalhousie.

Kahn-Tineta, which means "lush green meadow", will present her address on Thursday, January 28, at 1 o'clock in Room 21 of the Arts and Administration Building. She is expected to be in good form.

Bells Edge Axettes BY PAT BALLOCH

Ladies Sports Editor

After a rather disappointing showing a week ago the Dal Tigerbells bounced back to down Acadia 27-25 in a basketball game played in Wolfville last Saturday.

The game was played in the Acadia Gymnasium - however there was no real excitement such as lights going out as there was at the U.N.B. tournament. No one was really playing up to potential but Dal played just well enough to edge the Axettes. At half-time the score was 14-12 so the game was a tough struggle all the way through. Many fouls were called and both Dal and Acadia lost one guard when they fouled out. Wendy Stoker, Margie Muir and Susan Lane were again the star players and the only scorers for Dal, Muir, a Freshette, from Moncton was the high scorer with 14. While Sue Lane and Wendy Stoker made 7 and 6 respectfully. Perhaps the fact that for the first time in years there were spectators. Only one bleacher full who were as quiet as mice - but still that's quite an advantage and a morale

booster. Having had a great start to the season, the team zooms off to play Mount Allison on Friday night and U.N.B. on Saturday

afternoon. D.G.A.C. activities started the short end of a 64-43 score. with the Keep-Fit classes two weeks ago. The first turn out in the first twenty minutes and was very poor, but last Thursday a lot more girls showed up. You should see all the dates own and played a stronger game the girls are getting now! The boys are all impressed seeing them fit and trim all of a sudden (oh Yea!) Everyone should come if they can possibly make it as its a lot of fun as well as being beneficial.

On Monday January 25th there is a warm up being held in the gym to prepare everyone for the basketball interfaculty tournament the following Monday. Anyone can come even if you've never seen a basketball game before — good luck if you haven't. Just contact Margie Muir at 429-0515 or your faculty representative.

A bridge tournament is being

Why Does It Happen?

By MARGARET DREW

One cannot pick up a modern newspaper of magazine without finding headlines concerning crises and conflicts on the world scene. Such words as war, racial segration, and social injustice have become part of the standard twentieth century vocabulary and men are concerned with the problems they represent. But before one considers the solutions to these problems it is first necessary to question the reasons for their existence.

situation.

conference.

and the United States.

Why, for example, have riots in the Congo risen to such violence that doctors, missionaries, and nationals have been murdered in mass slaughters? What causes a man to hate because of the color of another's skin? Such questions as these were carefully considered this Christ-

mas by more than 7,000 university students who attended the Seventh Inter-Varsity Missionary Convention at the University of Illinois. The atmosphere permeating the convention was one of intellectual stimulation; there was a deep delving into the problems of this present world, and their relation to Christianity.

One particular example was the death of Dr. Paul Carlson, medical missionary in the Congo. In the midst of rioting, and accused of being a spy, this man died in a hail of enemy bullets. Yet, some of his final recorded words completely denied the existence of a turmoil within in his own mind. "All is calm here and we thank God for that", he said, voicing in ten short words his whole outlook on the critical

The ability of highest learning would be the to perform as a fighting force centres of highest morality, hapis destroyed." So it is with piness, and harmony. Yet any men cut off from God. God college student knows that this is not so. Eric S. Fife, Miscreated man and gave him a unique position, but demands that sionary Director for IVCF, feels man, in response, should accept that a good government is not His authority. the solution either. In his book,

Man's Peace, God's Glory, he The aim of five-day convention says: "A government cannot rule at Urbana was to discover the without power but 'power corways in which this authority should influence our lives. In an intellectually stimulating presentation centred about discussions and question forums, speakers from England, India, Cuba, Canada and the negro South dealt with the philosophical, moral and religious ideals that are predominant in the world today. A panel consisting of about speakers and IVCF staff members dealt with controversial issues covering topics ranging from "after-life" to "practical suggestions for combating racial

> Yet even more significant and by far the most striking aspect of the convention was the logical manner in which the Christian message was retold. It was Dr. Graham who stressed the fact that there are certain "ultimate situations" that every human who lives must face, the chief of which are guilt, struggle, suf-fering, and death. As university students we have recognized the existence of these so-called "situations", and have already had to cope with at least the first three. Dr. Graham went on to say that human life is inextricably bound to these ultimate situations; if these do not have meaning, there is no meaning to life. In order for death to have meaning there must be an

prejudice.'

an example cited the Moslem view that Allah in his extreme mercy rescued his prophet Jesus from the cross rather than allow

him to be crucified. But the Christian God is unique in that his love for man was strong enough to let his own Son die the death of a common criminal. Why did Jesus, God himself, suffer so willingly for the men who hated Him? The answer to this question was one of chief messages of the conference. The fact that God gave man the free will to choose right from wrong is further evidence of His incomprehensible love.

Rev. Stott went on to say that since it is the law of human flesh that all men should die, it is a logical conclusion that the world will not be free from death until every man has experienced it. But this is not God's purpose; God's purpose is to give life to man. The only way death can finally "run its course" without touching the life of every human being involves the dying of one man instead of all others. Our own experience tells us that for

a man, woman or child this is impossible. John, for example, is fully aware that even if he is "madly in love" with Mary, he still cannot die for her. They must eventually accept their fate. But Luke 18:27 says, "The things which are impossible with men are possible with God". That is to say, only God could overcome death by dying instead of man. But God, being immortal, cannot die in his own being, Rev. Stott continued, that it thus becomes necessary for God to take on the shape of man, die the death of man and instead of man, and thus preserve the life of man for eternity. It was Jesus Christ who did this very thing. But unlike other men He rose from Histomb and thus secured the victory of good over evil, of life over death.

This is the essence of Christi-anity. But as this speaker pointed out, we as students have a duty to perform as well. Christ bought our lives; the least we can do is devote them to His service. This is why the speakers at Urbana tried to impress upon the students the awareness that Christians need not be ashamed of the truths they know. Paul Little, editor of the EVCF magazine. "His", gave a striking illustration. Suppose a man has secretly found a cure for cancer and then decided to keep it to himself. Society would certainly be merciless in his condemnation. Even so, says Paul Little, the Christian student possessing at least a partial knowledge of God's purpose for life must not hide it within himself. Christ can be communicated only through life. This is the significance of the incarnation. P.T Chanapilla of India re-emphasized the necessity for the Christian to communicate the message through his own life. The convention, then, gave a comprehensive outline of the problems confronting every individual and offered its timeproven answer, with the invitation for every man to try lacking in this respect, and as it or at least to investigate it.

J. Vee's Marriage Bureau Uses Computers Drop Three By BOB FORREST

The Toronto Varsity

Some years ago, Professor K. M. Wallace of Los Angeles State College wrote a book refuting the common theory that romantic love is the main factor in determining marital happiness. He preferred the premise that if you establish a couple's com-

patibility before they meet, they will be more likely to stay in love after they fall in love, and in 1963 Mrs. Gertrude Neiger, a trained social worker, applied that concept in organizing the Scientific Introduction Centre in Toronto.

Mrs. Neiger stresses the im-The object was to provide a clearing-house for personality portance of eliminating bad dates, information to avoid "the com - and consequently, bad marriages. plex, nonsensical ritual of mate She criticizes "haphazard" marselection in our society." BASKETBALL

ACADIA at SMU - The Axmen, after posting impressive victories over S.M.U. and Dal, should have little trouble with the hopelessly weak Saints. Acadia should score over 100 points in winning by 40 points or more.

DAL at MT. A - Dal should post their second victory of the season over the Hawks. The homecourt should not help MT.A as the Tigers will out shoot, and perhaps more important, out defense the hometown squad. Dal by 20 or more.

ACADIA at MT. A - Again another pushover for the Axmen, who are presently ranked third in the nation. The Wolfville crew will just have too much everywhere out should score over one hundred points while winning by 35-40 points.

DAL at U.N.B. - Both teams have improved vastly over last years squads, but the Tigers should be strong enough to post their second win of the weekend. With improved rebounding and a faster offense, the Tigers should pull out a squeakey. Dal by 5 or less.

S.M.U. at X - In perhaps the most important game of the week, the Huskies should pull a minor upset by downing Axmen on their home court. With Russell and Brandt doing most of the scoring, S.M.U. should repeat their pre-Xmas 92-89 win. S.M.U. in squeaker.

HOCKEY

DAL at ST. FRANCIS (2) In a rough weekend of action, the Tigers journey to Antigonish for a pair of games with the powerful Xmen, presently ranked second in the nation. In two pre-Xmas games, Dal was downed handily 10-1, 7-1. The Bengals have improved greatly since their two losses to the Xmen but still don't have enough power to down the league leaders. St. X should win both tilts.

U.N.B. at ST. DUNSTAN'S - In a battle between two of the stronger teams in the conference seventh-ranked St. Dunstan's should down the fifth-ranked Red Raiders. With a balanced attack and the ever dangerous Billy MacMillan, last year's scoring champ, the Saints should win by a couple of goals.

MT.A. at ST. U. - The Hawks, after a slow start in league action, should round into form and down the Tommies in their second in as many weeks.

U.N.B. at ST. U. - The Red Raiders downed St. Thomas 6 - 1 in their first meeting of the season and again should have too much power for St. T. - U.N.B. by 3 or 4 goals.

LAST WEEK: right 9 - wrong l.

SMU and Dal players jostle for rebounding position in last weekend's b-ball action. The visiting Huskies paced by John Russell's 38 points went on to down the Tiger's 96-78. Players shown above are from left to right, Jim Danies and Ed Brandt of SMU, Larry Archibald (10), Tom Beattie (20) and Norm Vickery, Russell, Rick Dorherty, and Tiger Captain Howard Parker. squad. The Axettes are well train- in the gym. ed, wear attractive uniforms, and take an active interested part in the games they attend. With an extensive array of cheers (ten or more) - the Acadia cheering squad don't only cheer at half time or between periods when it does no good at all, but lead cheers during the playing of the game when it gives the players a moral boost. The Dal cheerleaders, Acadia St. F. X. when they show up, do give a good show during the intermission DAL (about five minutes worth) but UNB while the game is being played Mt. "A" sit bored or cheer and sing during SDU the free throws. Certainly with a little effort, improvements could

round out the league.

Lead Inter-Fac In three games played last

Meds

Sunday afternoon, Engineers defeated Science 5 - 3, Medstrounced Dents 8 - 2 and Pharm-Ed

In the first game Murray was the big gun as usual for the engineers as he scored two, while Mason, Heinz and Mosher scored the rest. MacDonald, O'Herne and Bob Bailey scored for the losers.

Meds completely outplayed ed two each.

John Napier was the big gun for Pharm-Ed as he netted three, while Knight, Cruikshanks and Plante (2) scored the rest. Taylor scored two for Commerce and Muir and Nelson the other two. In a game played last week, Commerce won their third game of the year by surprisingly up-setting Law 7 - 3. Hayman of Law started off the scoring but Commerce rebounded to score six goals in a row by Plante (2), Dick Rafuse, Nelson, Wayne Deyone and Wayne. Law tried

candidates in the course will another for good measure to receive Red Cross certificates round out the scoring at 7 - 3.
