Before an Insurance Company will take a risk on your life the examining physician will test the urine and report whether you are a good risk. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or the twinges and pains of lumbago, rheumatism and gout. The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed two or three times a night. This is the time you should consult some physician of wide experience—such as Dr. Pierce of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Send him 10 cents for sample package of his new discovery, "Anuric." Write him your symptoms and send a sample of urine for test. Experience has taught Dr. Pierce that "Anaric" is the most powerful agent in dissolving uric acid, as hot water melts sugar; besides being absolutely harmless it is endowed with other properties, for it preserves the kidneys in la healthy condition by thoroughly cleansing them. Being so many times more active than lithia, it clears the heart valves of any sandy substances which may clog them and checks the degeneration of the blood-vessels, as well as regulating blood pressure. "Anuric" is a regular insurance and life-saver for all big meat eaters and those who deposit lime-salts in their joints. Ask the druggist for "Anuric" put up by Dr. Pierce, in 50-cent packages. Silence reigned for some moments, but at length a small girl put up her hand. "That's right, Ethel," said the mistress encouragingly. "What is "its retreat?" "Please, miss," answered Ethel at once, "it means its tail!"

Despite the economizing tendency of the war, Lord Lonsdale still smokes his big cigars. When in the right mood he is an excellent raconteur. "Quite so," replied Ananias, not a whit abashed; "but, you see, the laws of gravitation there are petrified,

A FAMOUS GRAPEVINE.

Supplies King George With 200 Bunches Yearly.

James Jack, keeper of the grapevine at Hampton Court Palace. England, has retired after thirty-two years active service as chief custodian of the King's vine. The vine was planted in 1768 by "Capability" Brown, the famous landscape gardener of the eighteenth century.

The vine is now considered one of the finest in the world. It stretches in wide perfectly trimmed squares, eighty feet by twenty-six, the whole length and breadth of the greenhouse. Two hundred bunches of grapes from it are sent to King George at Windsor every year. The grape is the old Black Hamburg.

Some years ago twelve bunches were shown at an exhibition of the Royal Horticultural Society and were awarded the Hogg memorial medal for special excellence and culture. Two the bunches weighed 3 pounds ounces each, and the whole twelve weighed about 42 pounds, an average of 3½ pounds each.

The measles are rampant in and around the burg. Hardly a home but nas a victim. The school has been closed indefinitely. There is no one dangerously. The older ones have a much harder time tnan the little people. Methers, though, will do everything and anything that their children may escape. Since it is a malady to which all human flesh is susceptible at some stage in life, we question if is the part of wisdom to almost lock up young ones to evade it, as it is a much more serious proposition to take it when grown up. This has been proven right here.

It will be a wonder if hogs do not take a slump soon.

The war has been affecting the book publishing business and eventually there will be a revolution in the producing and selling of books. Owing to the shortage of paper, binding materials, printer's ink and the advance in the price of type. the cost of production has increased about forty per cent.

LIVE STOCK MARKETS TORONTO.

Receipts of live stock at the Union Stock Yards since Saturday morning were 175 car'oads, comprising 1899 catile, 926 hogs, 17 sheep, 108 calves and 1699 horses. The horses were in transit to France.

Trade was active in nearly all of the different classes of butchers' steers and heifers, with an advance of 10c, and for really extra choice cattle we think fifteen might be recorded in some instances, but one of the heaviest buyers for an abbatoir only reported 10c advance.

There would be about 20 carloads of cattle that sold at \$8 and up to \$8 25, and there would easily be 20 carloads more that sold from \$7.75 to \$7.90. It will thus be seen that there were more good cattle than has been here for some time. The common and medium sold at steady values, but a little quicker sile on account of the good demand for the better classes.
