London, Oct. 29.—The following article is printed conspicuously in the Times: "There is reason to believe that the critical situation on the Italian front has received and is receiving the prompt and sympathetic consideration of the French and British Governments. It is understood that the Italian commander-in-chief already knows that he may rely on the most prompt and fullest support it may be in the power of the allies to give.'

London, Oct. 29.—That Great Britain and France must go promptly to Italy's help is the view expressed by several morning newspapers. The Times, which prints a

statement implying knowledge that such help is contemplated, says editorially:
"Our word to the people of Italy is to stand firm for help will surely come. Italy must not and will not be deprived of the fruits of the ultimate victory for which she has battled so long and so arduously. In the truest sense the Isonzo is our front as much as the Somme and now that it has collapsed we must do our utmost without delay to repair it. There is no need for alarm, but there is the utmost need for promptitude and broadness of vision.

The Daily Chronicle, taking a similar view, says it ought to be possible to have British or French divisions, or both, in north Italy in a very short time. The Daily News, on the other hand, while holding it incumbent on the Allies to consider how best to succor Italy, thinks it is impossible to send direct relief on the scale the situation

While all the newspapers recognize the gravity of Italy's peril, strong confidence is expressed in General Cadorna and the Italian army with the conviction that they ultimately will emerge victorious. Italian perserverance and successes of the past are realled with warm admiration and the weakness of some links in the defensive chain is condoned. The Times says:

"The troops so suddenly and fiercely tried may well have blanched. The gallant Italian army has proved its courage and de-votion so often in this war that a single unfortunate episode leaves no stain on its honor."

ELIMINATE "COWARDICE" PHRASE.

Rome, Sunday, Oct. 28.—The Italian war office has issued an amended version of the official statement on operations issued early to-day. As amended the first sentence of the announcement reads:

"The violence of the attack and the failure to resist on the part of some units forming our second army allowed the Austro-Germon forces to break into our left wing on the Julian front."

This version eliminates the words, "which in cowardice retired without fighting or surrendered to the enemy."

SITUATION GRAVE.

Italy's soldiers have failed to check the onrush of Austro-Germans and the entire line of the Isonzo is threatened with annihilation. Sweeping down the mountains into the plains of Friuli, the invaders have cap-100,000 prisoners and 700 guns.

Great Britain and France are reported to be taking sters to give the shattered Italian army prompt and full support. What form this aid will take has not been disclosed. The French cabinet met last night to decide upon the manner of co-opera-tion on the Italian front.

When General Cadorna will make a stand is not yet clear, but two positions, capable of de-fense, are available. The Ger-mans have reached the lowlands mans have reached the lowlands and are but nine miles from Udine, Cadorna's general head-quarters. The railroad running north and south through Udine might make a defensive line, but the Tagliamianto river, eighteen miles west of Udine, probably would offer a strong-

troops holding the Carso line southward to the head of the Adriatic, but General Cadorna still would be able to offer stout resistence on a line running through Tolmezzo, Gamona, Udine, Buttrio and Gradisoa. The capture of Gradisca by the Teutons, however, would make a retreat from the Carso inevitable and also somewhat of a dif-ficulty. The line of the Tagliamento river, it appears, would give the Italians the better na-tural position from which to hold the Germans from the Venetian plains and the over-

running of northern Italy. Although the whole Isonzo line is in grave danger, there is also a serious threat in the Teuton drive to the Italian line in also a serious threat in the Teat ton drive to the Italian line in Carnia Alps and even, in the Dolomites, north of Bellenue. Apparently Field Marshall von Mackensen is endeavoring to drive a wedge between the armies on the Carso front and those in the mountains northwest of Udine. Some of the advanced Italian positions in the Carnic Alps probably have been abandoned already. If this should prove true the Tagliamento river seems to offer General Cadorna his first offensive line, unless his armies stiffen greatly and hold the invaders within a few miles of their present positions.

Operations carried out by the Belgians and French looking toward the elimination of Houthoulst Forest, north of Ypres, are progressing favorably. The entire Marckem peninsula, south of Dixmude, has been captured by allied troops, who have also aken Marcken and several other villages west of the forest. This sort of thing was in direct contradiction of the idea that under a Union Administration matters should stand mainly as before, Conservatives and Liberals who had loyally supported a win-the-war policy to still represent their ridings. With a solid Quebec some Liberal gentlemen were evidently figuring on getting ultimate control. Under such circumstances he deemed it to be their duty to name a "win-the-war" standard bearer.

Mr. Reville said that matters should be made clear in that regard. Mr. Harold had been in the field after Union negotiations, and attended a meeting at Toronto of Liberal members and candidates with regard to which a report had been given out that Laurier and his new policy would be supported.

Mr. Harold later explained that he had left before the meeting failure of Recruiting.

Amid a scene of enthusiastic approval, Mr. W. F. Cockshutt was for the fifth time in his life tendered the unanimous choice as standard bearer for the Dominion House.

The convention took place on Saturday night in the Borden Club rooms and there was a large attendance of delegates and others, including a sprinkling of Liberals, as an open invitation had been extended to the gathering.

The resolution was unanimously carried.

Failure of Recruiting.

Mr. Cockshutt went on to touch upon the situation at Ottawa. He reviewed the support given the war by the Borden administration. The first call was made for 20,000 men, and 33,000 answered it. The second and many ensuing calls were as readily met until about a year ago, when a luli came over recruiting, for the reason the speaker declaard that the burden was not equally borne in all parts of the Dominion. From all sources, Canada had contributed 434,000. Of this number, Ontario had given 187,000 and the Toronto district 90,000 ontario as a whole 434,000. Of this number, Ontario had given 187,000 and the Toronto district 90,000. Ontario as a whole had answered the call magnificently, but as the calls became more and more frequent, the question arose as to whether all were doing their fair share. Figures showed that some provinces were doing all and more than that which was required of them but others had not responded, hence came the announmement by Premier Borden of a mflitary service act which would call upon those who had not heeded the voluntary appeals.

Had all parts of the Dominion responded as well as Ontario. Mr. Cockshutt was confident that the military service act would never have been required; without desiring to cast a reflection upon a sister province, it must be admitted that Quebec had proved the stumbling block in the way of voluntary enlistments. As a result, the Military Service Act was brought in, calling upon all able bodied men to serve. Mr. Cockshutt went on to give figures as to the enlistment in the province of Quebec. A French population of 160,000 had given 14,000 recruits a most unfair proportion.

The speaker had a word of commendation for the British element in Quebec, than whom none, he declared, had done more nobly, British enlistments in Montreal alone having reached the gratifying figure of

London, Oct. 29—A German torpedo boat destroyer was hit twice by shells from the British and French destroyers during a fight Saturday between six allied and three Germans vessels off the Belgian coast, according to an admiralty statement issued to-day. The three Germans were forced to seek safety under the land batteries. The statement says;

"Six British and French torpedo boat destroyers patrolling off the Belgian coast Saturday afternoon, sighted and attacked three German torpedo boat destroyers and 17 airplanes. Two direct hits were obtained on one of the enemy's destroyers, which immediately retired under the protection of their land batteries.

"The airplane formation was not broken by the fire of the anti-aircraft guns on our destroyers. Each of the airplanes dropped three bombs in the vicinity of our vessels, which suffered no damage, as'de from two men being slightly wounded."

common cold cream

When this home-made lemon lotion is gently massaged into the face, eck, hands and arms daily, the skin

neck, hands and arms daily, the skin naturally should become soft, clear and white, and the complexion dainty and attractive.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to bleach the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months.

"One Meatless Meal a Day" is a good food slogan for war time, or any time-better make it two meatless meals a day—it would mean health and strength for the nation. But be sure and get the right substitute for meat in a digestible form. Shredded Wheat Biscuit is the ideal substitute for meat. It is 100 per cent. whole wheat prepared in a digestible form. Two or three of these little loaves of baked whole wheat make a nourishing, satisfying meal at a cost of only a few cents. Delicious with milk or cream or fruits of any kind.

# A Bowl of Soup and a Slice of Bread

How many of us grumble at the burden of planning three meals a day, day after day! How much more simple it is in Belgium, where most of the inhabitants stand in line for a few hours to get a bowl of some and a slice of bread—the entire day's ration.

Imagine any little child you know trying to grow on such a pittance! Naturally the poor little Belgian children are breaking down. Tuberculosis, rickets and kindred ills are the common lot. As far as funds will permit these children are taken to Holland to recuperate under proper feeding and care. But funds are so low they cannot be kept longer than 6 weeks, and more than 15,000 children are waiting for this much. Generous contributions (marked for the Belgian Children's Health Fund) will enable the Dutch authorities, who have replaced the American Countries, to carry on this vital work successfully.

Then the orphans! Think of the thousands whose fathers have fallen in battle, are still fighting, or have been taken away into German bondage. Living in the midst of pienty, will you deny these orphans must be fed and clothed and educated? Yet this work too, must depend largely on charity. Mark your contributions for the Belgian Orphans' Fund.

As you plan your own meals, remember Belgium's "Bowl of Soup and a Site of Bread" and HELP until you feel the pinch. It's a debt we owe to Belgium.

Your contribution will go entire through the Belgian Minister of the Interior (In Le Havre, France) to Dutch authorities, who administer the relief work under the approval of the British and Dutch Governments, and Mr. Hoover's Committee.

What will you do for the walfs of Belgium? BELGIAN RELIEF FUND
