Grant of \$500 Voted by Council for Preliminary Work on the New Boulevard

Bridgeburg, May 10.—The Bridgeburg Council has made a grant of \$500 to the Park Commission for preliminary work in grading and finishing the park site on the Canadian Niagara boulevard here. Five thousand dollars are to be expended for that purpose. A soldiers' memorial will be constructed. The Council, however, plans to do the work gradually through the Park Commission. The Council has also set next week, May 12th to 19th, as clean-up week for Bridgeburg, following which an inspection will be made of all property by the Sanitary Inspector.

MANY THRILLS IN "THE FALSE FACES"

Exciting Incidents Pictured in Big Production

The remarkable experience of being blown from a vessel torpedoed by a German U-boat and landing on the top of the submarine, is depicted in the new Paramount-Artcraft special picture produced by Thomas H. Ince and starring Henry B. Walthall, which will be shown at the Griffin Opera House next Monday, Tuesday and Wednesday. As the "Lone Wolf," now a secret service agent for the Allies, Mr. Walthall pursues a dastardly Hun spy and after he really falling into the hands of his enemies, escapes and frustrates the schemes of his plotters, who have a base on Marlin's Vineyard. Mr. Anderson plays the feminine lead, and a special support is given throughout by Irvin Miller. The picture with unusual skill. The submarine boat scenes are particularly well done and show to what lengths film producers will go to secure realism.

FINE SUPPORT FOR MISS GISH IN "BOOTS"

Richard Barthelmess Leading Man for Noted Star

An excellent cast appears with Dorothy Gish in "Boots", the picture Manager of the Griffin theatre has selected for today. Richard Barthelmess, who will be remembered as having appeared in "The Hope Chest," with Miss Gish, and the "Bab" series with Marguerite Clark is the lead opposite the saucy little star.

SIBERIAN'S ADVANCE AT 7 MILE RATE

Five Rifle Regiments of the Reds Surrender to Allied Forces Who Have Reached Shemala River

London, May 10.—A despatch from Omsk under date of May 1 says that since the capture of Chistopol, on the Kama, by the forces of Admiral Kolchak, the Siberians have been advancing at an average rate of seven miles a day and have reached Shemala River. The enemy's resistance has been broken in the Bogomol Bogomol area (Samara district), and a further rate of advance is being maintained in this region. Five rifle regiments of the Reds are reported as the main front and it is reported that there is a great lack of discipline among the enemy.

DESERVE SUPPORT

19th Band Will Give Varied Program at Armories Next Thursday to Raise Funds to Carry on With

In times of peace it had been a source of wonder for many years how a city of the size of St. Catharines could maintain a musical organization of the class of the 19th Regt. Band, but during over four years of war the continuance of the band and the maintenance of its high musical standard became nothing short of a marvel. Loyalty on the part of retired members who sprang into the ranks vacated by members who enlisted and sacrificed on the part of those unable to serve at the front sustained for St. Catharines the fame won by its remarkable band.

VICTORIA DAY.

Unless there is too strong a request from local interests to make a change, which seems improbable, the observance of Victoria Day might as well be on Saturday, when it falls, as on Monday. The only reason for bringing it up in the City Council at an early date was to give local business an opportunity of asking for a change of date if they wanted it. There seemed to be some who desired to have the holiday set on Monday so that Saturday would be kept for work, and it was only for the purpose of permitting discussion on the matter that the question was introduced. The Journal believes these days should be kept just as they come on the calendar. There is only a certain amount of trade done in a month and we fall to see where the shifting from one day to another makes for any greater expenditure of money by the people.

From the evidence secured up to the present time the dislocation of 90 per cent. of the larger merchants is strongly in favor of Saturday being the holiday.

Further, it best suits the factories which close at noon on Saturday anyway. In as much as the school pupils lost a lot of time last winter through the influenza epidemic, it is rather unwise to have them lose Monday the 26th also. The observance of Saturday is best for all, we believe, though not wanting to prejudice the Council in any action it may seem fit to take.

MOTHER'S DAY.

One of the days of the year that should be marked to-morrow, which is being kept as Mother's Day. To the one who bore us, who watched over our cradles, who kept a vigil through the long nights when there was sickness or anxiety, and who directed our course from infancy to maturity, to her we owe our lives. Too often in the rush of life we forget to pay sufficient tribute to the self sacrifice and constant care of the mother. The nation and the individual owe a debt to her.

WHAT EXCHANGES SAY

THE WISE TYPOS.

The members of the Calgary Typographical Union polled a unanimous vote, 142 strong, against the organization of the One Big Union. It is doubtful if such a decided expression of opinion that will have quite as wide results has been made since the campaign began. One supporter of the One Big Union has declared that the Typo have as much intelligence in matters of this kind "as can be served into the leg of a mosquito." But it is doubtful if the public in general and the labor men who are sincerely interested in the question now at issue will form any such an estimate. The Typographical Union in Calgary, as in all parts of the country, is composed of the very brightest members of the unions. The Typographical Union is perhaps the best administered of any of the unions in North America. This verdict, so unanimously given, accordingly will have a very far-reaching effect upon the ultimate decision.

HIAWATHA SETS THE PACE

Peterboro Review: The Indians of Hiawatha have set the white race a worthy example in the matter of rewarding their returned soldiers. They did not stop at a brass band welcome home, at a flow of oratory or a banquet, although all of these featured in the reception. But after a flow of oratory and the feasting every returned veteran was presented with ten acres of land. And by the way it was not land in the wilds of N.W. Ontario or beyond the bounds of civilization, but right in the community where these heroes of the war can spend the rest of their days amid old home associations.

TIMES HAVE CHANGED.

Woodstock Sentinel-Review: Mr. Rowell is a Liberal who endeavors to keep in touch with the progress of Liberalism, which is more than can be said of some of the politicians who take pride in boasting of their Liberalism. The point he makes as to the change that Liberalism has undergone in the past fifty years was worth making. A man who talks enthusiastically about the relationship of Liberalism to individual liberty seem to ignore the fact that the conditions of life have completely changed in some ways during the past fifty years, and that some of the old formulas and principles, once so triumphantly proclaimed, have no application to present-day needs.

BUT SHE DIDN'T

Brantford Expositor:—If the woman who stays at home and gets the meals, and mends the socks, and washes the clothes, the dishes and the floors, gets the youngsters off to school on time, fill the cellar with preserves and does a hundred other jobs in a 14-hour work day—if she should decide to strike on the first of May—Good-night!

CROWN COLONIES FOR CANADA?

St. John Telegraph:—The proposal to add several Crown colonies to Canada, colonies having large colored populations untrained in self-government, is one most Canadians would regard with little hesitation, and such a project would be unlikely to become a live issue in Canada unless it should be shown that it is much less complicated than appears on the surface. So much for political union. Trade is quite another matter, and Canadians for business and Imperial reasons are ready to adopt any reasonable means of facilitating an exchange of products between Canada and the British West Indies. Beyond that, it is by no means certain that political union

 "I was a great sufferer from Rheumatism for over 10 years. I consulted specialists, took medicines, used lotions; but nothing did me good. Then, I began to use 'Fruit-a-tives'; and in 15 days, the pain was easier and the Rheumatism was better. Gradually, 'Fruit-a-tives' overcame my Rheumatism, and now, for five years, I have had no return of the trouble. Also, I had severe Excema and Constipation, and 'Fruit-a-tives' relieved me of these complaints; and gave me a good appetite; and in every way restored me to health." F. H. McHUGH.

WELCOME MAY SNOW!

Montreal Gazette:—For enthusiasts the cheerfulness comment us to the westerers. That week-end snow-storm which developed into a blizzard that made even the old-timers of Alberta take notice is hailed as being worth ten million dollars to the crop. Yet there are people in the East who grieve because the thermometer registers from 40 to 50 degrees at the beginning of May. No snowflake could live a second in such mildness: It is the proper spirit that sings over the wires from Edmonton on the steep banks of the North Saskatchewan. The Storm King is defied in May as in December, for the worst he can do with his sweep in snow is to make the wheat grow longer. The Albertans deserve a bumper crop and good prices for their promising outlook.

A COWARDLY SLANDERER

(Woodstock Sentinel Review) Under the law of this country a member of parliament, speaking in parliament, cannot be held accountable by any process of law for any statement he may make. No matter how cowardly or how vile or how injurious the slander, the member of parliament, speaking under the protection of parliament, is free from legal responsibility. Because that is so, honorable men, self-respecting men, men possessed of a sense of decency, are particularly careful of the statements they make with regard to the character, the conduct or the motives of others. There are men, however, who are neither honorable nor self-respecting nor possessed of a sense of decency, and they do not hesitate to take advantage of this protection by parliament to make statements within the House they would not dare repeat on the outside.

Rodolph Lemieux bears the title of "Honorable" before his name; but he is not too honorable to play the part of a cowardly slanderer under the protection which parliament affords him. In the course of a speech in the House of Commons on Friday he repeated the charge that the Liberal press of Canada, which had supported the Union Government had been "bought." He was challenged to make the statement outside the House, so that he could be held legally responsible for it. He was challenged to name, under the protection of the House, a specific instance of a Liberal newspaper that had been bought. He restricted himself to generalities and refused to abandon the protection of the House. The incident owes its chief significance to the light it throws on the character of Mr. Lemieux. He is a coward, otherwise he would not abuse the protection which parliament affords him. He is a slanderer or he would not make charges against the characters and reputations of others, knowing that he cannot be called upon to substantiate them. He has held the high position as a minister of the Crown, yet he cannot un-

CANADIAN TRADE WITH FRANCE.

M. Paul Balbaud, formerly Professor of French at the University of Toronto, has returned to Canada after four years' service in the Transigation Sections of the French and British Armies. He comes with the support of the French Ministry of Foreign Relations through the society "France-America" to foster closer associations between the countries, especially working through a sub-division, "France-Canada". M. Balbaud informs the Canadian Trade Commission that it is hoped to form self-supporting bodies in every Canadian city, mutually to make known French and Canadian products of field and factory, and to form groups of manufacturers and agents for trade purposes. He hopes to improve the opportunities for study of Canadian students in France, particularly those who desire to take up advanced commercial subjects. M. Balbaud is making a tour of the Dominion which runs to the coast.

CRIMINAL LIBEL CHARGED.

Toronto, May 10.—The first case taken up in the Assizes was that of Harry Corti, who is charged with criminal libel. Grovanal Danovara, the complainant, alleges that on Jan. 19, 1918, and again on February 9, the accused referred to him in his paper, the Tribuna Canadapola, as dishonest and a swindler. Corti, in his plea of justification, which was filed, claims that any statements he made about Danovara were true and were published in the public interest. He alleges that Danovara, who was Italian consul at Welland, either through himself or his secretary, obtained from Italians who were liable for military service \$50 on the promise that he would obtain exemption for them; that he failed to keep proper lists of Italian reservists in his district; promised exemption to his fellow countrymen if they would buy stock in the Italian Wine Co. of Welland, in which he was interested, and that he obtained 300 shares of stock in the company from some of the directors whose claims for exemption were under consideration. The complainant is the proprietor of La Voce Papolo at Welland.

DR. ARTHUR B. COBB

The most REMARKABLE thing about this modern Dental establishment is that every Dental operation is performed by a Dentist who has specialized in just that particular branch of Dentistry.

Dr. Cobb personally supervises the extractions; and his method, perfected by twenty-three years of experience renders the operation painless in normal cases.

There are also Specialists here who devote their entire attention to Crown and Bridge work with the natural result that their work gives complete satisfaction and gratification.

The most ASTONISHING thing about this exceedingly modern Dental establishment is that the patient has all the benefits of Specialized treatments at such extremely moderate charges.

There is no charge for examination and the patient is told at that time just what the completed work will cost him.

THE SMALL MIXED FARM FOR THE FRUIT GROWER

By A. D. Harkness, Vineland

The subject of the small mixed farm for the fruit grower, especially in our own district on the other side of the lake, is very important at the present time when we have difficulty in procuring labor to do the work. One of the most important points is the location of the small farm. If you are near a shipping point or near markets, it is a great advantage to the small farmer, because he is sure to have small quantities of fruit or vegetables at different times of the season to sell or to ship, and it only takes him a small part of an hour to dispose of his produce. Another important point is to be where there is a co-operative association. Where you have a small quantity to ship, the express rates will eat up the profit, but if you ship through your co-operative association, you get a 100-pound rate, and you make a great saving in your express charge. At the present time with our high rate of wages, the man who has a small farm does a large portion of his own work, and he makes good wages for himself and for any other members of his family who may be able to work on this small place with him.

HIGHER WAGES. From the present outlook I think that wages are going to be much higher than in the past. I do not think we will ever see low wages again. I mean by that, that we won't get down to \$1.50 or \$1.75 a day throughout the farming or fruit growing districts again. It will be more like \$2.00 a day or a little higher. With the small farm there is also a saving of land. A man with a large farm is not so particular whether he uses every portion of his land to produce fruit or vegetables as the man who has a small lot. On my place there is a creek running across it. In 1914, when I took up this land, the creek took up a strip about 30 or 40 feet in width, now it does not take up any land at all. I have the land cultivated right to the bank of the creek, and I am planting a row of Wakar apple trees on the bank, so I can spray from either side. In our thickly settled districts we can use every foot of land, and we have no waste. As you go through the country, on the large farms you will see any amount of land going to waste that ought to be made arable.

Another point for the small farmer is that we do not require such expensive machinery. On a seven, eight or ten acre lot we do not require the power spray pump. While I believe better work can be done with the power spray pump, you must admit that good work can be done with the hand pump; I am inclined to think we cover the trees a little better than with our hand pump. We are not so apt to miss some part. I believe the small tractors are going to play an important part in our small fruit farms when they become perfected, just as important as the large tractor plays on the large farm.

BEEES AND POULTRY. In the small fruit lot we are enabled to keep bees and poultry. I am of the opinion, and I think general experience will bear me out, that bees are almost a vital factor in the successful growing of fruit. The small fruit grower is enabled to keep a few colonies, from 20 to 50, and perhaps more. In 1914 I got a few bees and ran them along with my farm, and I never handled bees before and I have learned practically all I know about bees since then. In 1917 I had 18 colonies and I took 800 pounds from them. In 1917 I had 18 colonies and I took 900 pounds. In 1918 I started the spring with 22 colonies, and I took off 2,400 pounds of honey. This was all white honey. In the Vineland district we do not get any second crop of dark or buckwheat honey.

Poultry works in nicely on the small fruit farm, also. What I would plant on the small farm would depend largely on the nature of my soil. If I had a light or sandy loam I would plant strawberries, raspberries, blackberries, asparagus, peaches and sweet cherries. When I got my place I thought I was unfortunate in having about three acres of clay on a ten acre lot, but I find that this is the soil I can get on earliest in the spring, and I believe it is just as valuable and perhaps more valuable than the lighter soils. On these three acres of heavy soil I planted plums, pears, apples, black currants, red currants, and gooseberries.

OTHER FRUITS. In our district a good many of our growers have been paying special attention to the growing of peaches, whether their place was large or small. When I bought my place there were over 500 peach trees on it - practically half the ground was taken up with peach trees. The first spring I took out several of these trees; I did not take out enough. In the fall of 1917

THEM UP IN BASKETS AND SELL THEM THROUGH OUR ASSOCIATION.

RICH SOIL NEEDED.

Asparagus is another good thing to plant on the small fruit farm, but we should not plant asparagus unless we are close to a shipping point. It takes asparagus about four years to come in. I have come to the conclusion that to get the most out of my ground it should be well drained, and from my observation in the last couple of years, I am satisfied that for asparagus we have to make our soil rich, planting the rows three and a half or four feet apart. On well under-drained soil that can be got on early in the spring, there is no reason why we could not grow radishes and lettuce between our rows of asparagus. These two crops come on early; they are shallow rooted and are harvested early. I have seen those worked out and I intend to try it myself.

As I have stated, I believe on the small lot or even on the large lot, peaches have been planted too extensively. In 1914 we had no crop of peaches at all; in 1915 the prices were very low; in 1916 prices were still very low; in fact so low that there was very little money in the crop for the grower. In 1917 peaches were better, but still there was not much money in the crop. In 1918 those who had crops got good money, but the crops were very poor. For these same years, look back over the plum orchard. In the last seven or eight years there has only been one year that plum trees have not had a crop, so I think it is important for a person with a small fruit farm to have a portion of his acreage planted with plums and grapes. Grapes are a very reliable crop, although perhaps

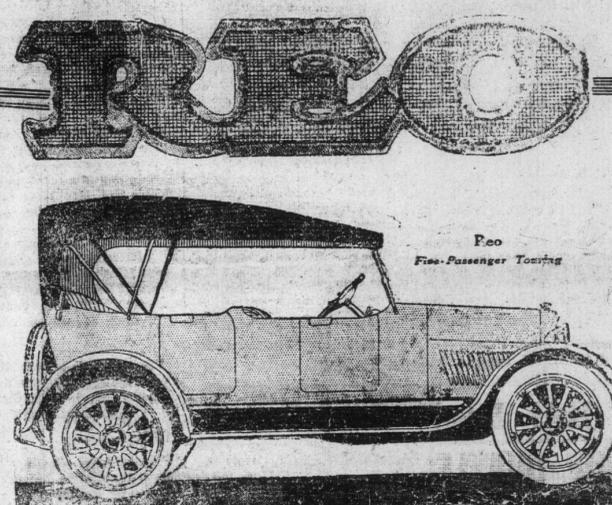

not as great money makers on your high priced lands as other fruits, they are almost a sure annual crop.

HAS DONE WELL.

I bought my place in 1914. I really all my planting except peaches and raspberries was done myself in that year. I had 226 trees planted, and a number of pears and grapevines, and a few quince, and a few apple trees and sweet cherries and sour cherries. Last year I commenced to get fruit from them, but only a small quantity. My peach trees were planted in 1912; they ought to have given a big crop in 1916; I got 50 baskets. In 1917 I got 250 baskets; in 1918, 267 baskets. If I do not do better I am going to take them all out. Practically all my money has been made from inter-planting.

Last year I sold off my small place \$2,410 worth of produce. It cost me for baskets, labor and picking, \$390 odd. It is a small fruit farm but I am satisfied with it, and I am satisfied with my home. I have not a greenhouse to grow my early crops yet, except a cold frame, and I am working under considerable disadvantage, but I am going right ahead to fix things up, and I believe on my small place there are good prospects for the future. If some person came along and said to me to-day, "Harkness, what would you take for your farm?" I would ask \$10,000 for my nine acres, three acres of which is heavy soil and six light soil.

"Is it hard to write for the newspapers and the magazines?" asked the sweet young thing. "Not at all," replied the writer. "But it is hard to get the editors to buy your stuff." - Detroit Free Press.

A Reo Owner Says It's Better Than We Could

ASKED HIS OPINION as to the relative merits of various competing makes of automobiles, a Reo owner after a moments thought said: "THERE ARE MANY good automobiles - but the man who owns a Reo is lucky!" YOU KNOW THAT WORD "lucky" has come to have a new significance of late - since our boys over there used it. TO BE "OUT OF LUCK" was their way of expressing any tragic or difficult or aggravating condition. It might be the result of bad judgment or bad conduct or just chance, but they covered it all by the one expressive term "out of luck." THIS AUTHORITY WAS RIGHT - used in that sense the owner of a Reo is always lucky. HE ALWAYS GETS THERE, though his friend in some other car stop by the whyside. NEXT TIME YOU HEAR a motorist in trouble exclaim, "just my luck" - repeat to him what that Reo owner said. GOOD LUCK in the ownership of a good automobile is the result of good judgment in selecting the right one when buying. IT IS EASY TOO to determine which is the best car in any size or price class. Just ask owners. And ask garage men - ask anyone who knows, to name the two best, and, as one of them he will name Reo. THEN NOTE how much oftener Reo is mentioned than any other comparable car - follow the suggestion, and you can be lucky too!

AUSTRIAN MAJORITY RENOUNCES IDEA OF A UNION WITH GERMANY

Basle, May 10.—The majority faction of the Austrian national assembly, according to a report from Vienna, has decided to renounce the idea of the union of German-Austria and Germany in the interests of Austrian and world peace.

CANADIAN SOLDIER, JAS. TURNER, RUNS AMUCK IN BELFAST, STABBING

London, May 10.—A Canadian soldier, Driver James Turner, ran amuck in Belfast and stabbed a number of persons, three of whom have been sent to the hospital. One of them is in a serious condition, and the others, stabbed in the back, are seriously injured. Turner, who had been running through the street, lunging at passers promiscuously, was chased by infuriated crowd, who captured and mauled him before he was arrested.

THE WEATHER

Toronto, May 10.—The general distribution of pressure remains much as it was yesterday except that the highest barometer is now in the Lower St. Lawrence and the lowest in Virginia. Rain is falling near Lakes Erie and Ontario while the weather is fine over the western and northern portions of the Lake region.

THOROLD

Mr. Edward P. Foley, president of the Board of Trade, addressed the Council at their last meeting. He stated a large number of pulp and paper men, members of the technical section of the National P. and P. Association, were expected to visit Thorold on the 14th of this month, and as they were to be escorted around the town in automobiles, he asked the Council to have some of the streets to be traversed cleaned up and repaired as far as could be.

A most enjoyable social time was spent last night at the home of Mr. and Mrs. Sidney English, James Street, when they entertained the members of the St. Thomas Church Choir. During the evening a guessing contest was held and the winner, Mrs. Birchall and Miss N. Boyle were the prize winners. A farewell was also expressed by Mr. English on behalf of the choir to Mrs. M. Thompson who is returning to Edinburgh, Scotland, to live with her father. The appreciation of the guests to the host and hostess of the evening was extended for those present by Rev. Mr. Howitt. Delicate refreshments were served during the evening.

THE CAPE IS MAKING A STRONG BID FOR FAVOR

When Worn as it Should be There is No Garment More Graceful.

Capes of all kinds are making a strong bid for favor in smart circles this year and yet there are few things that are more difficult to wear and at the same time more graceful and attractive when worn well.

Perhaps one reason for their popularity is that they are such adaptable things and elect to be fashioned in material that is equally suitable for night wear or day, as for instance, fine serge, Georgette, satin and so on.

Chamois cloth is playing rather an important part in some of the models just at this season before the spring wraps come definitely into their own, and in shades it has many variations. Sometimes the wrap and cape is bright and gives just that brilliant touch that is extremely welcome in the rather drab atmosphere of the month of March.

Freedom of movement is an essential of the day and the new capes conform to this requirement by substituting slits for sleeves, but one would never guess it until millady uses her hands, so carefully hidden are they among the folds.

Novel features are not lacking in fact they are numerous. Take the collar, for instance. The smartest model has a high one that swathes the neck in full soft folds and buttons at one side, and often these buttons do not stop when their duty is done, but continue right on over the shoulder of the cape until they reach the hem.

The Stuart period has been the source of inspiration in another case where a satin lined crepe cape has one end that is designed to be thrown over the shoulder and this effect gives it a marked distinction.

Then there is the cape with the yoke and the model cut on circular lines, and so on. As far as variety goes these wraps leave nothing to be desired.

Peacock blue is a favorite color for lining the day-night cape, particularly when it is developed in black, but as a matter of fact the shade of both outside and in is a question that the owner of the cape may settle as her individual taste dictates.

High Collars are Particularly Chic, and in Most Models Slits Substitute for Sleeves.

The real spring wrap for evening wear is, as one would suppose, developed in a typical springtime tint.

A fascinating affair is depicted that owes its charm to the satin and georgette which have joined in a felicitous alliance in its development. Inserts of fibre silk fringe add a unique and pleasing finish.

Now that travelling conditions are

THE JOURNAL

somewhat improved the tourist is likely to indulge in her favorite sport and she will find the cloak of the season ideal, either in a thick cloth for travelling or in a softer fabric to throw on when chill winds blow, or at sunset when the cold air rushes in from the mountains or sea.

Of course if she is going to some Utopian spot where there is no smoke or smut, pure white will develop for her a stunning wrap (but few of us are.)

The capes with just a slight suggestion of the military are wonderfully smart and these have chic details that give extra warmth, as do the sleeves of the waistcoat. In a model of this sort the cape scarcely meets in the front.

Original in both line and conception are these wraps, almost without an exception, and more than one of them has a hint of the picturesque highwayman's coat. A scarf thrown carelessly over the shoulder forms a hood and the soft folds of the fabric hang gracefully in front.

Although, as we said once before, the color scheme is a matter of personal desire, it may interest some of us to know what Dame Fashion has set the seal of her approval upon. Champagne colored cloth lined with opalescent pink satin is a striking contrast; so too is russet brown with a tomato red satin lining.

Hoods are not generally worn, nor does there seem any possibility of their finding favor, but here and there appears a hooded model.

It is fairly apparent that hoods as our grandmothers knew them will never take by storm the maid of 1919 (although it is never safe to be too certain about what turn fashion will or will not take.) She is too elegant, thinks too much of artistic lines of forms and coiffure to willingly disfigure the symmetry of either.

GREEN ROOM COSSIP

Ann Little, Theodore Roberts and others in the cast of Wallace Reid's new Paramount picture, directed by James Cruze, say they had a yell of a good time during the course of the production. Wally drove a car around a course at breakneck speed, while his support sat in the grandstand and yelled, "Go to it, kid! Wally didn't hear them, but he certainly went to it, as the fans can tell for themselves when the picture is released.

Fatty Arbuckle held up his right hand the other day and swore that his New Year's resolutions were still intact. Inasmuch as everybody else in the party had fallen from grace, there was a unanimous demand to find what Fatty's resolutions consisted of. Here they are: "To eat nothing that will make me thin; to keep laughing myself and to keep other people laughing; that's all, since that will keep me busy during 1919!"

Lilla Lee's pt horse, Hippocrates, has a wooden leg; in fact, he has four of 'em, that being the sort of a horse he is. She was getting him nicely trained; he got so he wouldn't kick at all, when she took a trip to New York. When she got back Hippocrates had been sent to some store-room, and the little Paramount star is disconsolate.

GENERAL DEBILITY FOLLOWS INFLUENZA

Health Can Only be Restored Through the Use of a Blood-Making Tonic.

Debility is a loss of vitality not affecting any one part of the body particularly, but the system generally. It is dangerous because it reduces the body's resistance to disease. When debility follows acute diseases, convalescence is slow, and one's strength does not return as it should. An attack of influenza often results in debility that persists for months. Everybody recognizes that the remedy for debility is to build up the blood, because the blood goes to every part of the body, and any improvement in its condition is quickly felt throughout the system.

In cases of simple anemia, or debility following acute diseases such as fevers or influenza, Dr. Williams' Pink Pills will be found valuable, because they really build up the blood and strengthen the nerves. There is no other medicine as valuable for growing children, and for men and women whose nervous energy has been overdrawn. They are worth a fair trial in every case where thin blood and weak nerves have started the trouble. The value of Dr. Williams' Pink Pills has been proved in the home of Mrs. John Fram, Owen Sound, who says: "My daughter Mabel was troubled with a bad cough; she was pale, weak and her appetite was very poor, indeed I feared that she was going into a decline. A friend advised the use of Dr. Williams' Pink Pills and after taking eight boxes she was again enjoying the best of health. Again last autumn Spanish influenza attacked our home, and after the acute symptoms were past, both myself and another daughter were left very much run down. My daughter was so weak that she could not walk to school and would tremble when she got upon her feet. I was so weak myself that I could not do my housework. Again we resorted to Dr. Williams' Pink Pills, and in each case we took five boxes, when we were as well as ever we had been. I never enjoyed better health than I am now doing, and am able again to do my housework. After our experience it is not possible for me to say too much in favor of Dr. Williams' Pink Pills."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail from Dr. J. C. Williams, 140 West 20th St., New York, N. Y. Boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

in fact. Inasmuch as everybody else in the party had fallen from grace, there was a unanimous demand to find what Fatty's resolutions consisted of. A correspondent, evidently a negro, writes the following letter to the New York Globe during the week of the presentation of D. W. Griffith's Arctcraft picture, "The Greatest Thing in Life" at the Strand Theatre in Manhattan:

"If permissible I would like to thank Mr. D. W. Griffith through your paper for producing 'The Greatest Thing in Life,' which is on the screen at the Strand Theatre this week. It's a wonderful play in every way. There is one scene where a white and colored soldier run into one another going over the top, and the scene enacted there is the first real serious part for the colored people of all the war plays up to date. On the stage and on the screen we are generally used as a joke."

The incident referred to is undoubtedly one of the most remarkable

ELSIE RYAN and NORMAN HACKETT, in "TEA FOR J", Grand, Monday evening, May 12.

white man is felt unmistakably by all who witness the scene and an indescribable feeling of relief grips the spectator as the young fellow slowly presses his lips to the cheek of his black comrade that he may "go West" in happiness.

The incident is revolutionary and attempted by somebody other than Griffith might easily spell ruin. But it is used by the master director as the very climax in the development of his theme of the brotherhood of man. As a touch of dramatic art and as an example of noble sentiment transferred to the screen it probably has never been equalled on the screen. In brief, it is one of the things that make Griffith the great figure he is.

The other day Dorothy Gish, Paramount star, received a dainty scented note from a town in Maine. It was written by a little child who had admired the picture in which the star had appeared.

"Dear Dorothy," the note read "My name is Dorothy, too, and my mama says it means gift of Heaven. Did you know that?"

Greatly pleased the star of "The Hope Chest" turned to her director. "Do you know that Dorothy means gift of Heaven?"

"Gift of whom? Don't try to kid me, young lady, for I know," retorted the director in a professional tone.

And Dorothy Gish is of the opinion that at least one director has lost the illusions of his early youth.

Ethel Clayton has completed work at the Lasky studio at Hollywood, Calif., on a new production, the title of which is "Pettigrew's Girl." The picture is said to embody one of the most charming stories growing out of the war, though in no sense a war picture, that has been written in many months. It was first published in the Saturday Evening Post, Dana Burget being the author. Will M. Ritchey wrote the scenario and George Melford was the director. Paul Perry was the cameraman. Monte Blue plays the leading male role, and Miss Clayton will be seen for the first time in the characterization of a chorus girl.

A SICKLY WIFE NO FIT MATE FOR ANY MAN GIRLS AND WOMEN SHOULD LOOK WELL TO THEIR HEALTH AND STRENGTH

Never before was physical health and vigor so highly esteemed and so eagerly sought for as to-day.

No man finds happiness in a sickly wife, and the woman who wishes to spare no effort to maintain perfect health.

If your daughter growing up strong and ruddy? Has she strength to drink in greedily all the pleasures that youth so zealously seeks—or is she compelled to use the street car instead of enjoying the delightful exercise of walking—does she after the ball arise refreshed and vigorous, or is she exhausted, indigent, and perhaps irritable?

When strength and vigor can be so easily maintained by Ferrozone, when the glow of health is so quickly brought to the cheeks and elasticity to the step, it is plainly a mother's duty to see that Ferrozone is on hand to assist her daughter back to health.

Upon the wake of Ferrozone quickly follows a stream of rich, nourishing blood which imparts that power and surplus energy so earnestly desired by those in ill-health.

Stop and think what this means for your daughter—certainly a great deal, and it can be accomplished by Ferrozone.

Stop and think what this means for your daughter—certainly a great deal, and it can be accomplished by Ferrozone. Every growing girl and young woman derives enormous benefit in many ways from this nutritive, vitalizing tonic.

It is especially suited for young women and is a guarantee of health and regularity as long as it is used.

Ferrozone is free from alcohol and perfectly safe to use. Prepared in the form of a chocolate-coated tablet and sold in 50c boxes or six for \$2.50, at all dealers, or direct from The Catarrhzone Co., Kingston, Ont.

A large gathering of representative men from Essex and Kent counties, representing practically every municipality between Chatham and the Border Cities, met in Tilbury Tuesday afternoon and discussed the question of permanent roads. A trunk road through the centre of Essex County was favored by the delegates. The route suggested is: Border Cities to Maidstone, in the most direct way, thence to Tilbury along the middle road, thence to Chatham, along the most conveniently direct route.

"DANDERINE" FOR FALLING HAIR

A small bottle of Danderine costs but a few cents at any store. It stops falling hair, itching scalp and ends dandruff, besides it doubles the beauty of your hair, making it appear twice as heavy, thick and abundant. Try it!

HERE AND THERE IN SPORT

By J. C. L.

The Veterans Football team are taking on the fast Willard eleven at the Lassess grounds this afternoon and no doubt will make them hustle to the best of their ability.

The Canadian owned "Billy Kelly" will go to the post a slight favorite in today's historic event, "The Kentucky Derby."

Billy Kelly had a great year as a two year old and has won both his starts this year so his chance of bringing home the honors for Commander J. K. L. Ross of Montreal is more than good.

Merritt has made big plans for a monster field day on the 24th and visitors are expected from many outside points. The event will serve as a fitting windup to the memorial fund campaign and St. Catharines sport lovers are assured of a good time on

Victoria Day if they will attend the Merritt games.

The thoroughbred horse market goes up and down the same as the stock market. Years ago a prominent American owner paid \$22,000 for a two year old named Canvas who was more or less a failure the following year and he gradually drifted into other hands until three years later Geo. P. Sherman of Baltimore purchased him at auction in the paddock at Pimlico for \$46. Canvas won the cross country event two days later for his new owner and repeated the trick ten days later at Woodbine Park Toronto when he showed a clean pair of heels to Picktime, Pagan, Bey and three other good jumpers. This was his last time to win first brackets for after a summer of ill-luck he broke a leg at the Club House bank at Toronto in the fall and was destroyed.

THE NERVY NINE

There were eight with me at Valcartier, Nine of us all in a tent; I could tell you the name of every one, Of every single son-of-a-gun (And they've all gone somehow one by one Like them ten little nigger boys went). But you wouldn't know Big Ben from Jim, Or "Shorty" from Sam, or "Red" from "Slim," And even Long Alec, you wouldn't know him, So my breath would be mispent.

There were nine of us camped at West Down South, And nine if us crossed to France; And we grew to savvy each others' gaits, When all of a sudden we fouled the Fates, And the only one left of all us mates Is me by the grace of Chance! In one short week there were four went West, Four of the whitest, four of the best, Pushing up daisies with all the rest That fell in the big advance.

Then Alec got hit in a bomb attack And he'll never scrap again; He's over in Blighty merry and bright, Lucky, poor chap, it wasn't his right, We simply could not get him in that night, As he lay out there in the rain self hit, And tough as he is, I was scared a bit; But we'll see him again when they pass him at For the reinforcement train.

Then Ben and Slim went for officers' jobs (How they love a Sam Browne belt) Now I guess I could beat 'em both out of sight In holding my men in the thick of a fight, But I only just know how to read and write, And I'm damned if I ever spelt, But Ben has dropped an "h" in his life, And I've seen him eat his peas with a knife, And the other guy, Slim, has some kind of a wife, And that's where the pinch is felt!

And so I'm left alone of the bunch (They called us the Nervy Nine), If I have my eye on old Blighty now, Do you blame me, boys, if I feel somehow A trifle fed up, and sick of the row And the tag of the firing line? Ah, if they could only come back again, The men that I knew on Salisbury Plain, But they won't so I guess I must stand the strain Till the German give me mine. —Odes to Trifles by R. M. Eassie.

IDEAL VACATIONS FOR GOLFERS In the magnificent resort districts of the "Highlands of Ontario" are many fine golf courses, providing facilities for the lover of the royal and ancient game to enjoy his favorite recreation amid the most beautiful and picturesque surroundings. In the Muskoka Lakes region are two nine-hole courses and one eighteen-hole course. Overlooking the beautiful Lake of Bays are three other well kept golf courses. Details regarding these golf links, hotel accommodations, etc., are given in illustrated booklets, "Muskoka Lakes" and "Lake of Bays," obtainable on application to Grand Trunk Agent, or C. E. CANADIAN TRADE WITH FRANCE

M. Paul Balbaud, formerly professor of French at the University of Toronto, has returned to Canada after four years' service in the Transatlantic Sections of the French and British Armies. He comes with the support of the French Ministry of Foreign Relations through the society "France-America" to foster closer association between the countries, especially working through a sub-division, France-Canada. M. Balbaud informs the Canadian Trade Commission that it is hoped to form self-supporting bodies in every Canadian city, mutually to make known French and Canadian products of field and factory, and to form groups of manufacturers and agents for trade purposes. He hopes to improve the opportunities for study of Canadian students in France, particularly those who desire to take up advanced commercial subjects. M. Balbaud is making a tour of the Dominion which runs to the Coast.

AUSTRALIAN BOXERS COMING TO AMERICA

Johnny Kilbane is one champion who is beset with challenges not only from boxers in this country, but from overseas. Denny Valger and Joe Lynch are hurling darts at Kilbane, and now two menaces are headed this way from Australia. One is Johnny Hill, the bantamweight champion of the Antipodes, and the other is Heel or Melville, a leading featherweight. Hill comes in at about 118 pounds and is so far superior to the little men in Australia that he has been forced to go even as far as the welter-weights to get matches. Not so long ago he won on points from Harry Stone, once referred to as the champion of the East Side of New York. Melville landed in San Francisco Tuesday and immediately boarded a train for New York. Charley Harvey, who makes a specialty of developing and bringing out foreign boxers, and who brought Ted Lewis to America from Australia, will handle Melville's affairs in this country, and already has camped on Kilbane's trail. Little is known of Melville's prowess, but if Harvey has taken him over he must be good. Harvey, by the way, wants another Lewis-Britton match. Charley, who handles Lewis, insists that Britton give Lewis another chance before he enters into any negotiations to meet Leonard, and that the winner get the bout with the champion of the light-weights. If Lewis is back in shape he surely merits a fight with Britton, and perhaps Britton this time would finish on the short end.

ROYAL FAMILY AGAIN PATRONS OF RACING AND ROWING

London, Eng., May 10.—For the first time since the war a house party will be entertained at Windsor for the Ascot racing week in June, when King George will revive the semi-annual procession along the Ascot race course on the two principal days of the meeting. This was one of the last public functions abandoned by Queen Victoria, who once greatly enjoyed the drive, although she paid small attention to racing. The Royal family will also be at Windsor during the Henley regatta, and they plan to appear at Henley during the concluding day of the meeting and witness the finals.

MOORE VS. WILDE.

Louisville, Ky., May 10.—Nate Lewis, of Chicago, manager for Pat Moore, upon his arrival here yesterday to attend the Kentucky Derby, announced terms had been accepted for what he termed a world's title match between Moore and Jimmy Wilde in London on about June 4. Moore, according to Lewis, is guaranteed approximately \$15,000 for the match.

HUN DELEGATES DIVIDED.

Paris, May 10.—The German delegates to the Peace Congress are considerably divided among themselves in their views on the peace terms submitted by the allied and associated powers, it was intimated yesterday by a high British authority.

FARM LOANS for SOLDIERS

How Returned Men Can Become Farmers

EVERY returned man who wants to become a farmer and is qualified for that vocation can get real, practical help through the Soldier Settlement Board.

The Government's programme includes:

- (1) The securing of land.
- (2) The loaning of capital needed to purchase equipment and live stock, and erect buildings.
- (3) Agricultural training and farm supervision.

The Loans Granted

Loans may be approved by the Loan Advisory Committee, according to the needs of the settler, on the following basis:

- (1) Up to \$4,500 on the purchase of land.
- (2) Up to \$2,000 on the purchase of live stock, implements and other equipment.
- (3) Up to \$1,000 on the erection of buildings and other permanent improvements.

The first and third are repayable in twenty-five equal annual instalments; the second in four equal annual instalments beginning the third year, no interest being charged for the first two years.

On all these loans the low interest rate of five per cent will be charged. A cash payment of ten per cent of the purchase price will be required on the land but this may be waived by the Board in special cases.

Qualified settlers on Dominion lands may secure loans up to a

maximum of \$3,000 on a plan similar to the above for farm equipment, live stock, and erection of buildings, provided security offered justifies the loan.

To Whom Granted

To be entitled to these privileges a man must have served with an honourable record in the Canadian, Imperial, or British Colonial forces in an actual theatre of war or outside of the country in which he enlisted (service in U.S. or Bermuda not included). Others eligible are:

A British subject who lived in Canada before the War and who was on active service with the Allied Forces in an actual theatre of war.

A member of the Canadian Expeditionary Force who served in Canada only, but is in receipt of a pension for disability occasioned by such service.

These benefits are also granted to widows of such men.

A Broad Policy

All soldiers whose best interests will be served by taking up farms will be assisted. Only suitable land will be approved. That is (a) land that is near to existing railways or organized communities; (b) land that will make money for the soldier; (c) land that will provide a first class home.

In addition to these advantages the Board has planned a system of collective purchase, so that it can guarantee settlers the best value obtainable anywhere in live stock, implements, lumber, and other needs. It will also assist soldier settlers with advice and supervision, if necessary, in the management of their activities, so that the best results will be obtained.

700 GLASSWORKERS LOSE

Cincinnati, O., May 9.—Seven hun-
dred men were thrown out of employ-
ment today when the Boldt Glass
Works shut down its plant.

The company announced that, owing
to approaching prohibition, it was
forced to close the works, but, in case
the President lifted the war-time pro-
hibition ban, all of the men would be
given work the day following.

CALL ISSUED FOR SESSION OF CONGRESS

President Wilson Makes Proclamation for Extra Session to be Held at Washington on May 19th.

Washington, D.C., May 8.—President Wilson issued a call by cable today for a special session of congress to meet on Monday, May 19th. Secretary Tumulty, in making the announcement, said it would be impossible, of course, for the President to be here on the opening day. The date fixed for the special session was much earlier than Democratic leaders expected.

White House officials said that in naming an early date for the session President Wilson was guided largely by the advice of Secretary Glass as to the necessity of passing annual appropriation measures which passed in the closing days of the last session.

TO FORM ASSOCIATION,

After the regular business was transacted, the Public School Board at its meeting last night decided to take steps to form an Urban School Trustees' Association. Towards this end the Secretary of the Board was instructed to send invitations to the school trustees of all incorporated cities in the Province of Ontario to meet in St. Catharines on June 26th.

DOLLAR SILVER FOR YEARS, SAYS BAKER

New York, May 8.—Director of the U. S. Mint, Raymond I. Baker, expressed himself as follows:

The Fillman Act was passed to relieve a condition in world trade and exchange, which was wholesale, and was speedily growing dangerous. Under authority conferred by the Act we turned 350,000,000 silver dollars into bullion and exported the silver to the value of \$260,000,000, most of it going to India. Shipments were also made to the credit of our allies, the allocation of the amounts being determined by their needs. By means of these shipments favorable effect was had in the way of stabilizing rates of exchange.

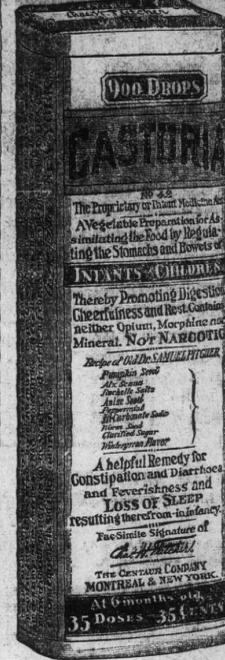

Ordinarily the silver purchases for the mint are much less than were made in 1918; in fact, the quantity handled during 1918 was two and two thirds greater than the quantity handled in 1917. It is quite likely that the purchases of silver under the Fillman Act will extend over a period of ten years, and also that these purchases will have the effect of keeping up the price of the metal during that period.

There is still a tremendous demand for silver, from India and the Orient and the European countries also are crying for the metal. The demand for silver will grow, I believe, with the expansion in world trade following upon reconstruction in Europe and revival of industry.

There is reasonable basis for belief in dollar silver for some years to come, he said, but I would not venture anything beyond that, although we never can tell. At \$1 an ounce, though, silver mining is very profitable. It is profitable at 85 cents an ounce.

DAMAGE TO THE YOUNG TOMATOES

That the prolonged wintry conditions that are prevailing throughout Ontario have resulted in actual damage in the case of tender plants is beyond dispute. At the end of last week there was every reason to believe that no vital damage had been done, and this is probably the case still with the hardy tree fruits. In fact, Mr. Percy Hodggets of the Department of Agriculture has as yet no report of damage to fruit trees or even to tender fruits. Mr. Hodggets, however, confirmed the reports of serious damage to young vegetable seedlings. "We do not know exactly the extent of this damage," said Mr.

Hodgets, "but we are in touch with at least two counties—Essex and Prince Edward. In each of these there has been sufficient harm done to be very noticeable. The District Representative of the department in Essex estimates the damage at several hundred thousand dollars, so it must be rather extensive in that county."

What damage has occurred is due, probably, to the excessive rain and cold weather of Sunday last, when tender plants in cold frames were put to a severe test, hail falling in some parts of the Province.

Legislation has now been passed which will allow 96-inch wide trucks to operate on public highways.

MORE THAN EQUAL

The Tramp leaned against the door while the farmer's wife looked him up and down.

"You look strong," she said. "Are you equal to the task of sawing half a load of wood?"

"Equal to it madam?" said the tramp. "The word is inadequate. I am superior to it."

And down the road drifted a cloud of dust raised by his plodding feet.

As a rule the majority of chicks that are alive at the end of four weeks from hatching will live to maturity, as this period is considered the most critical in the chick's life from the standpoint of epidemics of disease.

Glen Ridge

The Ideal Residence Area of St. Catharines

Glen Ridge is by far the most desirable residential subsection in St. Catharines now on the market, and possesses the following enormous advantages:

- 1. It is close to the heart of the city, all lots being within one mile radius of the Post Office and City Buildings.
- 2. There are building restrictions ensuring the erection of only the most desirable dwellings.
- 3. Beautiful surroundings and park areas.
- 4. Prices moderate and reasonable terms.

We expect a big movement in this property in the next two months. So act quickly and own a home in the most beautiful sub-division in the Niagara Peninsula.

Wastefulness Must Go

Forecasts—Northeast winds, cool, Sunday, unsettled, partly fair, cool.

It does not pay to waste Nature's gifts. Soil fertility, forests, waterpower, metals, are being rigidly conserved. If it is necessary to conserve these, how much more necessary is it to conserve natural gas—a commodity which is known to be limited in quantity, and for which there is not adequate substitute.

ALTHOUGH NATURAL GAS IS CHEAP, DO NOT WASTE IT—THE SUPPLY IS NOT EVERLASTING.

KING GEORGE

Hale Hamilton with his ingratiating smile will appear on the screen at the King George Theatre on Monday and Tuesday in his famous romantic comedy of laughs "That's Good". Mr. Hamilton has become as popular with the picture audiences as he is with theatre-goers abroad, and in America. His comedy methods are distinctively original and refreshing. Richard Washburn Child, the author of this entertaining story (which was originally published in the Saturday Evening Post) is generally conceded to be O'Henry's successor in American literature. He knows human nature and tells a story with spirit and dash.

"That's Good" is a play of deep sympathies and delightful comedy giving this dynamic young screen star, a role in which he is seen at his clever best. The story shows a quiet, easy-going young man, content with his possessions, and who asks nothing more than to be allowed to enjoy life in his own way. This is not to be however, as an unscrupulous band decide that he and his accumulated wealth are their legitimate prey. That he is cleverer than they, is amusing and delightfully shown in a manner which brings out in the full the spontaneous and forceful humor of the star, whose debonair and electrifying personality is thrown into the character he portrays. It is a play full of love and laughter and provides rich entertainment rare with irrepresible humor an unusually brilliant cast supports Mr. Hamilton in this production which includes Siella Gray, Herbert Prior, James Duffy, Lewis Morrison and Marjorie Yeager.

AT THE HIPPODROME.

Trapped in a shack by an outlaw gang and given the choice of surrendering a flag revealing the location of a hidden treasure or being blown up by dynamite placed beneath the building, Dick and his companions defy their enemies and choose to die with their secret. This tensely dramatic situation is filmed in the fourth episode of "The Man of Might," Vitagraph's latest adventure serial, which will be seen in the Hippodrome Theatre on Monday and Tuesday. The prisoners can mark the minutes they have to live by the sputtering fuse, which at first stretched across the clearing in front of the shack, but is rapidly shortening. At this sputtering end they vainly shoot until their ammunition is exhausted.

The story centers about a hidden treasure and the fight for the flag, which years before was divided into six pieces, forgotten and scattered all over the country, which tells the secret.

William Duncan directed the serial and plays the role of Dick. He is supported by an all-star cast, including Edith Johnson and Joe Ryan. The serial was written by Albert E. Smith and Cyrus Townsend Brady, authors of "Vengeance, and the Woman," "The Iron Test," "A Fight For Millions" and other Vitagraph successes.

HOPES FOR COMPROMISE

Vatican Organ Suggests Fiume in Exchange for Dalmatia.

Rome, May 10.—The Osservatore Romano, the organ of the Vatican, in an evidently inspired article, today leads for the first time with the Adriatic question before the Peace Conference at Paris. It expresses the hope that a compromise will be reached at Paris by which Fiume will be assigned to Italy in exchange for concessions to Jugoslavia in Dalmatia.

Lemons Beautify!
Make Quarter Pint of Lotion, Cheap

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to bleach the skin and to bring out the rose, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quart of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands, it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons. It is reported that a non-inflammable tank for airplanes has been invented, which will minimize the fire danger in flying.
