FIFTIETH YEAR

PROGRESS IN KINRADE CASE STRIKE IS NOT YET SLOW OVER

Number of Striking Government Employees Shows But Small Increase Today—Many Returned to Posts
 Jurymen Are Angry at Action of Crown and Will Hold an Indignation Meeting to Talk It Over

MANY DISMISSALS ARE NOW EXPECTED
 WANTED TO MENTION NAME

Government Today Asks for Vote of Confidence in Chamber of Deputies—Rank and File Dismayed by Dismissals
 Foreman Spera in Interview Declares That Jurymen Wish to Place Themselves on Record in Definite Way

Paris, May 13.—The number of striking government employees shows no appreciable increase this morning. The services are nominal at some places, notably at Bordeaux, and the telegraphers who went out yesterday have returned to their posts.

The concerted efforts of the strikers stationed at various bureaus in Paris, to induce their comrades to join the movement have been without effect. The authorities are confident and express publicly their firm belief that the strike will be over in a few days.

On the other hand, the leaders of the strike claim that the Government is bluffing and that its figures regarding the number of men out are ridiculous. They declare the movement will extend widely and they do not refrain from applying vile epithets to Premier Clemenceau, minister of public works, Harbord, and other government officials, and they intimate that the general federation of labor soon will make a formal appeal on this point.

Only at Harre, where both the post and telegraph services are practically tied up, is the situation worse today. The batch of dismissals last night evidently has dismayed the rank and file. The government this afternoon will ask for a vote of confidence in the chamber of deputies and if this is obtained another and larger batch of dismissals will follow immediately.

The official statistics issued at noon give the total number of strikers at 84. The postmen charged with the delivery of newspapers refused to make their rounds this morning. They were expelled from the postoffice and replaced by men of the navy. The American chamber of commerce in Paris has organized a special service to insure the despatch of American mails via Cherbourg and Havre.

METHODIST CONFERENCE ELECTS PRESIDENT

Rev. James Calvert Won Out, But Victoria Clergyman Made a Good Run
 Vancouver, May 13.—Rev. James Calvert was elected president of the Methodist conference at the Western minister today. Rev. E. R. Newton Powell of Nelson was a close second, and Rev. A. E. Roberts, Victoria, also made a good run. Mr. Roberts was then elected secretary. The conference will be held at the Hotel Vancouver at noon today. There are no important changes in the stations on the island.

LIMELIGHT CAST ON CARIBOO BILL

Famous Nome Miner Star Witness in Wine Supper Case Admits Was Once Dance Hall Poobah and Prizefighter
 Vancouver, May 13.—Cariboo Bill, the sturdy miner from Nome, was the star witness today in the Police Court when he told a story of the flooding of Wm. Mullins, who lost his roll of \$200 in the Glasgow Hotel. R. Rines, proprietor of the house, was fined one hundred dollars and costs and his license will be cancelled for his part in the little drama, which included the taking of a photo by flashlight of Mullins surrounded by bottles of booze which he denies having bought. Mullins, slightly drunk, was hauled out of bed, dressed in a blanket and photographed in the centre of an oasis of champagne. Next day he was called upon to pay for the feast which the photograph indicated had occurred. Cariboo Bill told the magistrate today that years ago he was a ballroom promoter in the Dewey dance hall in Grand Forks, Yukon. He also admitted in a grilling cross-examination that he had been a prize-fighter, but that this occupation was merely a side line. He declared positively that Bill Mullins, right up to the time of the wine supper was as sober as a judge.

American Diplomat Honored

Paris, May 13.—The French Government, as a mark of the high esteem in which it holds Henry Vignaud, first secretary of the American Embassy here, has made him a Grand Officer of the Legion of Honor. This rank as a rule is conferred only on the chiefs of diplomatic missions. Mr. Vignaud has been a Commander of the Legion for the last 20 years.

The Principals in the Hains Murder Case Which Has Been in the Public Eye for Many Weeks

CAPT HAINS

MRS CLAUDIA HAINS

GEN HAINS AND MAJ HAINS

COURT HOUSE AT FLUSHING

MAY ASK ANOTHER TRIAL IN HAINS CASE

Counsel for Convicted Man Considers Question of Trying for a New Trial—Family Seems Unperturbed

Flushing, N. Y., May 13.—Great interest is manifested here in the next step to be taken by the defence in the famous Hains murder case in which the jury recently returned a verdict of manslaughter in the first degree against Capt. Peter C. Hains after having been out for four hours.

Mr. McIntyre, chief counsel for the defence has made no announcement as yet but it is possible that he will try for a new trial.

The Hains family has taken the announcement of the verdict coolly and this leads to the belief that they expect new developments.

Capt. Hains was tried and found guilty of manslaughter as the result of his shooting William E. Annis at the Bayview Yacht Club last summer. The unwritten law was invoked in his defence and also the insanity plea.

SENATE RIDER IS BAD FOR CANADA

Louis Coste, of Waterways Commission in Vancouver Today Says Rider Would Prevent Development

VITIATES PRINCIPLE OF PROPOSED TREATY

Asks Canada to Recognize Riparian Rights on U. S. Side of Boundary and Does Not Allow Dominion Right Share

Vancouver, May 13.—Louis Coste, of Ottawa, member of the International Waterways Commission is here. He was asked today regarding the waterways treaty with a rider attached by the United States senate. Coste explained that the rider effects the use of water for power purposes at Sault Ste. Marie. He added: "The principle adopted in the proposed treaty specified an equal division of the waters of all boundary streams. The rider vitiates this principle inasmuch as it asks Canada to recognize riparian rights on the United States side of the boundary in the St. Mary's river between Lake Superior and Lake Huron. This recognition would prevent Canada from utilizing the one half of the water flowing from Lake Superior as any diversion above the St. Mary's river by Canadian interests would affect the rights of owners of land covered by water in the 'rider'."

In this connection Mr. Coste pointed out that the Michigan Power Company has already on the American side of the river a power canal with a capacity of one half of the flow of the river as a 40,000 horsepower while on the Canadian side the Lake Superior Consolidated Company has a power canal with a maximum capacity of 5,000 cubic feet of water per second, equivalent to about 15,000 horsepower. The rider would simply prevent any further development of the Canadian side.

SOLDIERS REFUSE OBEDIENCE TO OFFICERS

Young Turks Send Insistent Message to Schefket Pasha Asking for Aid to Quell the Troops

Cologne, May 13.—The Koelnische Zeitung publishes a despatch from Salonika saying that the Young Turk officers at Erzurum, Asiatic Turkey, have sent a telegram to the local officers of the Committee of Union and Progress declaring that their soldiers are refusing obedience and demand the restoration of the Sultan and at times threatening a general massacre.

The message begs Schefket Pasha, the commander of the Third Army Corps, to send representatives to quiet the troops and the people and concludes with the statement that the Young Turk officers do not dare to show themselves abroad.

Distressing Stories
 Marsh, Asiatic Turkey, Monday, May 10.—Distressing accounts continue to be received here from the country-side of Armenian villages assailed by bands of Mohammedans who, acting on the supposition that the Armenians were resisting against the Government, were quick to strike the first blow, the men being killed whenever found within reach of knife or bullet.

The girls received no consideration, and some of them were carried off to become the wives or slaves of rich men. Houses were sacked and then burned and farmers were driven off. In other towns they looted day and night and kept off large numbers of besiegers. There are probably forty-five hundred refugees in Marsh.

American Ship Arrives
 Alexandretta, Turkey, Wednesday, May 12.—The United States revenue cutter Tacoma arrived here today for the protection of American interests. This vessel was on her way to the Pacific Coast via the Suez Canal and was diverted from Gibraltar. She is the first American ship to appear in Turkish waters since the beginning of the massacre and disorders in Asiatic Turkey.

Special to The Evening Post.
 Salina, Kas., May 13.—A. P. Riddle, former lieutenant-governor of Kansas, was killed near here today in an automobile accident.

WINNIPEG FAIR DELEGATES IN SEATTLE

Committee of Business Men from Prairie City Are Seeking Ideas at A.Y.P.E. Headquarters

Seattle, May 13.—Seeking to profit by the experience of the management of the Alaska-Yukon-Pacific exposition for the benefit of the Canadian exposition and Selkirk centennial, to be held at Winnipeg in 1912, twenty-three business men of Winnipeg arrived in Seattle last night for a two days' stay.

The party came by boat from Victoria, arriving at 9 p. m., and immediately established headquarters at the Hotel Washington. After taking luncheon at noon today as the guests of the exposition management, the party will go to the exposition grounds, where the afternoon will be spent. Friday the party will be the guests of the city, although no definite arrangements have been made.

According to Mayor Sanford Evans, of Winnipeg, who is the leader of the party, the governments of the provinces of Western Canada have promised their hearty co-operation.

The party will go to Ottawa where they will be received by the Canadian parliament, which is expected to make such financial provisions as are necessary for the success of the exposition.

"We have come here," said Mayor Evans, "for the purpose of seeing what the exposition should be and to get an insight into the spirit which has made possible the achievements of Seattle."

The Canadian exposition will be open from June until October, in 1912. No officers as yet have been selected or a board of management chosen, but with the completion of the tour, work will be started immediately. Another delegation of business men has gone to the eastern coast on a similar mission.

Deloraine Man Killed

Deloraine, Man., May 13.—Joseph Roblin, aged 20, was killed this morning while working on a gasoline well-boring outfit. While examining the machinery his head got caught and he was crushed to death.

Result of Voting Contest

JUDGES' CERTIFICATE
 Victoria, B. C., May 13, 1909.
 We the undersigned Judges of the Contest-Evening Post Voting Contest do hereby certify that we have counted the Ballots for all the Candidates in said Contest and find the results as follows:

Name	Number of Votes
Miss Florence Russell	1st. 407,905
Miss Mabel Addison	2nd. 235,470
Miss Emma Price	3rd. 255,235
DISTRICT NO. 1.	
Mrs. W. Macdonald	1st. 134,720
Mrs. J. Ringshaw	2nd. 116,028
Mrs. J. B. Elliott	3rd. 114,125
DISTRICT NO. 2.	
Miss Maud Frummo	1st. 139,150
Miss Veta Monk	2nd. 103,665
Miss Irene Chausas	3rd. 97,557

SPECIAL PRIZES.
 For the greatest number of subscriptions after first three prizes and first and second District Prizes are awarded.

Subscriptions.
 Miss Beatrice Keyland..... 79
 Miss Alice M. Wilson..... 78
 And we herewith award the prizes as follows: The Bullock Five-Passenger Touring Car, value \$1,500.
 Miss Mabel Addison—The Behning Player Piano, value \$450.
 Miss Emma Price—The Gerhard Heintzman Piano, value \$450.
 Mrs. Walter Macdonald—Ladies' Solitaire Diamond Ring.
 Miss Maud Frummo—Ladies' Solitaire Diamond Ring.
 Watch, set with three diamonds.
 Miss Veta Monk—Solid Gold Watch, set with three diamonds.
 Miss Beatrice Keyland—Solid Gold Watch, set with one diamond.
 Miss Alice M. Wilson—Solid Gold Watch, set with one diamond.
 Mrs. J. B. Elliott—Solid Gold Braochet, diamond set.
 Mrs. Irene Chausas—Solid Gold Braochet, diamond set.
 And we further find that the contest has been conducted strictly in accordance with the published arrangements.

Witness our signatures this 13th day of May, 1909.
 R. L. DRURY,
 W. G. FINKLADY,
 Judges.

Ottawa, May 13.—Commencing on Monday next the Senate will have morning sittings.

HAS NOT CHECKED A NEW RECORD FOR GREAT WHITE PLAGUE

Campaign Waged Against Consumption Has Failed to Stop Ravages Is Charged by New York Philanthropist

Washington, May 13.—That the vigorous campaign against tuberculosis has failed to check the Great White Plague, was the startling charge made today by Nathan Strauss, the New York philanthropist, at the fifth annual meeting of the National Association for the Study and Prevention of Tuberculosis here today.

Mr. Strauss backed up his assertion by official statistics from the New York health department showing an increase of thirty-three per cent in two years in cases of tuberculosis in the city that Dr. Koch described as leading the whole world in the fight against the disease.

The reason of this failure to make headway, Mr. Strauss declared, was the neglect of the mitchel wrought by the tuberculosis dairy company. Citing the results of scientific investigation and his own eighteen years' experience in saving lives, he summed up by saying that the abolition of tuberculosis will begin when it is made a crime to sell milk unless it comes from tuberculin tested cows or has been properly pasteurized.

Tried to Crawl Under Train.
 North Bay, Ont., May 13.—Mrs. Benjamin Paterson attempted to crawl under a train which was blocking the tracks last night when the train started, passing over her limbs. Her legs were amputated but the woman died four hours later. She leaves a husband and four children.

Laymen's Missionary Congress.
 The report of the Laymen's Missionary Congress, which took place last week at Toronto, will be read by Mr. Geo. H. Robertson, who attended the meeting at that city, tonight at the St. Andrews church.

United Kingdom Heads the List in Both Exports and Imports—Two-Thirds Accredited to Europe

Washington, D. C., May 13.—A new record for the international commerce of the world in that year at \$140,000,000,000 and the imports at \$18,000,000,000.

Ten countries contributed more than two-thirds of the total. On the export side the United Kingdom headed the list with \$2,075,000, the United States coming next with \$1,835,000; Germany next with \$1,628,000, and France fourth with \$1,590,000.

On the import side the United Kingdom again headed the list with \$3,143,000, Germany coming second with \$2,082,000; France third with \$1,801,000, and the United States fourth with \$1,340,000. Practically two-thirds of this total of international trade is accredited to Europe. In the year under consideration Canada took fifty-eight per cent of her imports from the United States.

BIG DEMONSTRATION FEARED IN LISBON

Lisbon, May 13.—Considerable uneasiness has been created here by the fact that during the past few days the government has made a number of political arrests, searched various suspects and adopted a number of precautions in fear of a plot or a big Republican demonstration to take advantage of the present political anarchy in parliament. The local garrison is being kept under arms.

THREE IMPORTANT MEASURES ARE PASSED

Amendments to Railway Act, Including Level Crossings Clause, Carried—Post Office Bill Discussed

Ottawa, May 13.—Three important government bills passed through the House were the total of yesterday's achievements, and it left the order paper well thinned, so that no bill is now in the way of the amendments to the Railway Act, which is not expected to pass the House this session.

Among bills passed yesterday were those amending the railway act, including the level crossings question. Mr. Langstaff protested against the acceptance of the amendment moved in the senate by Senator Belue, but Mr. Graham refused to alter the bill and it was finally passed after a division had been taken, 100 to 70, the only liberal voting with the Opposition being Mr. Miller, and it is stated that he did so because he objected to the interference of the senate, which he would like to see put out of existence.

Post Office Bill. The afternoon was spent on the bill to amend the post office act, which increases the salaries of letter carriers and the more poorly paid postal employees. Mr. Monk wanted the increase to date back to the beginning of the fiscal year, April 1st, but Mr. Lemieux said he had no authority to consent to this change. The bill granting authority to the postmaster general to employ clerks for the inside civil servants caused a great deal of discussion, the Opposition charging that it was merely following the promise made during the last general election in order to win Ottawa for the Liberal party.

Mr. Cothens got after the civil service, which he considered underworked, and overpaid. He asked Mr. Fisher to name any other industry where the employees were worked at half speed for five hours a day and so generously paid. Mr. Fisher said that in Ontario was paid from \$500 to \$600 a year, while a man in Ottawa got \$1200 a year for typewriting or filing documents. Such a condition reflected discredit on the civil service. Mr. Fisher only replied to this that the new civil service commission would improve matters.

Mr. Fisher's bill providing for a commission to study the distribution of natural resources was passed after the Opposition had protested that it merely appeared, under the present conditions, to be another excuse for spending money.

SUES FOR DIVORCE AFTER 40 YEARS LAPSE

Ordered From House Man Never Returns and Now Asks Divorce

Dayton, O., May 13.—After a lapse of more than forty years, Paris W. Burnham brought suit for divorce from Abigail Burnham. The action is based on an alleged occurrence in 1868, three years after their marriage. The petitioner alleges that he discovered his wife sitting on the lap of a man named Duffy, who is a public school teacher in Ontario was paid from \$500 to \$600 a year, while a man in Ottawa got \$1200 a year for typewriting or filing documents. Such a condition reflected discredit on the civil service. Mr. Fisher only replied to this that the new civil service commission would improve matters.

BODY OF WOMAN FOUND IN WOODS

Mystery Was Unraveled in Burnaby Yesterday—Police Have No Clue to Identity

New Westminster, May 13.—A mystery was unraveled in Burnaby near this city yesterday, when the body of an unknown woman was found at a distance of six feet, near Sixth avenue, Burnaby, but up to the present time nothing whatever as to the cause of death or identification of the body has been found.

George Mattheus, who lived near the place, was clearing land when he made the discovery, and he reported the matter to the police at once. City and provincial officers are investigating, and an inquest was held today before Coroner Pittendrig.

Bad Times for Shah

London, May 13.—A despatch to the Times from Tehran says that the Shah has been weakened by the action of the powers and has granted all of their demands. The nationalists and revolutionists are still dissatisfied and threaten to attack him, with the obvious desire of getting rid of him altogether.

Will Erect Grand Church

New York, May 13.—The Fifth Baptist church, which is being erected by John D. Rockefeller's church, will be razed and a new \$500,000 structure erected on the site, according to a decision reached last night. Dr. Aked, the pastor, announced that nearly \$100,000 had already been raised for the structure.

Appointed Agent

Edwin Orrett, for several years traffic manager for the Pacific Mail Steamship company at San Francisco, has been appointed the American traffic manager for the Osaka Shosen Kaisha (Osaka Mercantile company, Limited). The appointment is effective June 1st, at which time Orrett will take offices in Tacoma and begin the supervision of the new Japanese line traffic from that port.

REBECCAS CAN NOT LIVE IN NORTH AFRICA

Lack of Water in Cyrenaica Makes It Inadvisable for Jewish Settlement to Locate There

London, May 13.—The report of the expedition which the Jewish territorial organization (the Ito) sent to Cyrenaica in North Africa last August to examine that territory with a view to a Jewish settlement has just been published. It is unfavorable to the idea of a large Jewish settlement in this part of the world, and even Israel Zangwill, the president (and founder) of the Ito, in a preface, more or less admits this while disagreeing with some of the report's conclusions.

In view of the possibilities still open in other territories, the council of the Ito has decided that no further action be taken in regard to Cyrenaica, "as the prospects of colonization in that country do not appear to be sufficiently favorable to warrant the costly experiments suggested." Cyrenaica, which is situated between Tripoli on the east and Egypt on the west, although in the neighborhood, as it were, of the Holy Land, is of course, beyond the Zionist's limit, so in any case there would be no hope of the two bodies uniting forces over this particular position. The chief drawback to Cyrenaica, in the modern name of the Turkish province, is that the consequence of its lack of water it could never hold a really large population, in Mr. Zangwill's own words, "the dry light of science had been turned upon the rosy Cyrenaica of literature and showed a dry land. There is a fairly good rainfall, it is true, but the unfortunate porosity of the soil makes the water largely evaporate, and irrecoverable. In the most painful literal sense of that much abused proverb, the project did not hold water."

GIVES DECISION FOR THE DOMINION GOVERNMENT

Mr. Justice Cassels Decides for Ottawa in the Lillooet River Water Case—Injunction Granted

Ottawa, May 13.—Mr. Justice Cassels delivered his judgment in the case of the Attorney-General of the Dominion of Canada vs. the Burrard Power Company, Ltd. and the Attorney-General of British Columbia. In the information in this case, the plaintiff sets out that Lillooet river and Lillooet lake are wholly within the lands known as the railway belt, granted in 1887 by the province of British Columbia to the Dominion for the purpose of aiding the construction of the Canadian Pacific railway. On April 7th, 1906, the water commissioner for the district of New Westminster, assuming to act under the British Columbia Water Clauses Consolidation Act, 1891, purported to grant to the Burrard Power Company, Ltd., a record for 26,000 inches of water out of the river and lake. The Dominion government alleged that this record, if acted upon, would seriously interfere with the public right of navigation in Lillooet river. The Dominion also alleged that the British Columbia Water Clauses Consolidation Act expressly provided that lands reserved for the Crown should not be affected by its provisions. The Attorney-General for the Dominion claimed that the water record was invalid, and asked the court for a declaration to that effect; also for an injunction to restrain the Burrard Power Company from proceeding to complete and enforce any rights it may assert under the water record.

DUKE OF ABRUZZI TRIES TO SUICIDE

On His Way to India He Becomes Depressed and Is Rash

Rome, May 13.—Sensational reports have reached the government offices here to the effect that in a fit of depression, the Duke of Abruzzi attempted to commit suicide with a revolver. The duke, who is on his way to India, is said to have been restrained by a member of his suite, who had been keeping a watch on him. The duke of the expedition had written letters to the effect that the duke is in an utterly reckless mood. Court circles are much agitated over the news.

CRAZY PREACHER ATTEMPTS TO SUICIDE

Once Cut Off His Head So He Could Devote Time to Street Preaching

Minneapolis, May 13.—Charles J. Newstrom, a carpenter, has been arrested for examination as to his sanity. Seven years ago he chopped his head and a baby's face instead of being unable to do any more carpenter work and so could give all his time to street preaching.

VISITING EDITOR PRAISES VICTORIA

August Ender, of Escanaba, in the City Thought Place Was 100,000

August Ender, editor of the Daily Mirror, of Escanaba, Mich., is visiting Victoria at present for the first time, and has fallen a prey to the charms of Vancouver Island. "It is a beautiful city," said Mr. Ender to the Evening Post today. "When I was coming in on the steamer I thought from the view I had that it was a city of at least 100,000, and was surprised to learn that it is smaller than that."

MURDERER OBTAINS A RESPIRE

Toronto, May 13.—Walter Blythe, who was to be hanged this morning for the murder of his wife, at Agincourt last January, has obtained a respite until June 17.

FIVE YEARS FOR LOPAKINE

St. Petersburg, May 13.—M. Lopakine, a former director of police who was arrested in St. Petersburg last January and placed on trial May 11 on the technical charge that he was a member of the revolutionary organization, was today condemned to five years' imprisonment at hard labor.

BIRTHS, MARRIAGES & DEATHS

BORN. MACRAE—At New Westminster, B. C. on the 5th inst., the wife of F. A. Macrae, of a daughter.

MARRIED. BANTLY-LIPSKY—On the 5th inst., at St. Annes, by Rev. Father Brabant, S. Anton, Bantly-Lipksy, of St. Annes, and Mrs. Rev. Father Brabant, S. Anton.

DEATHS. MATTHEWS—In this city on the 7th inst., Wm. Matthews, of Happy Valley District, Victoria, aged 86 years, a native of Cornwall, England.

WANTED—Persons to grow mushrooms for us at home. Waste space in cell, garden or farm can be made to produce 15 to 20 per week. Send for illustrated booklet and full particulars. Montreal Supply Co., Montreal.

ANNUAL SESSION OF KNIGHTS OF PYTHIAS

Nearly Every Lodge in British Columbia Sends Delegates to the Convention Now Meeting in Rossland

Rossland, May 13.—The twentieth annual session of the Grand Lodge of Knights of Pythias opened in Oddfellows Hall at 10 o'clock yesterday, with an attendance of over one hundred, including grand officers, past grand officers and delegates from nearly every lodge in British Columbia.

The sessions held in the forenoon and afternoon were devoted principally to hearing the annual reports of Grand Chancellor H. A. Brown, of Slocan; Grand Keeper of Records and Seals B. Fiedler, of Victoria; Grand Master of Exchequer T. Walker, of Victoria, and other officials. These revealed that the organization is in a very prosperous condition.

SCENES OF RIOT IN THE FRENCH CHAMBER

Delegates Jump Over President's Chair and Rings Bell—Socialists Sing the Marseillaise in Chorus

Paris, May 13.—There were wild scenes in the Chamber of Deputies this morning as the government asked for 2 vote of confidence on the attitude assumed by it in the strike of Government employees.

TWO MAGISTRATES TEST ZAM-BUK

Cure effected in both cases.

Mr. F. Rasmussen, of 211, Marquette Street, Montreal, who is a Justice of the Peace, and a man not inclined to give praise except where it is well due, says:—"For many years I was troubled with a serious eruption of the skin. This was not only unsightly, but very painful. I first tried various household remedies, but as these proved altogether useless, I took medical advice. Not one, but several doctors in turn were consulted, but I was unable to get any permanent relief. At the same time I determined to give Zam-Buk a trial, and after a thoroughly fair test, I can say I am delighted with it. I have the best reasons for this conclusion: because, while everything I tried failed absolutely to relieve my pain and rid me of my trouble, three boxes of Zam-Buk have worked a complete cure. In my opinion this balm should be even more widely known than it is."

DUKE OF ABRUZZI TRIES TO SUICIDE

On His Way to India He Becomes Depressed and Is Rash

Rome, May 13.—Sensational reports have reached the government offices here to the effect that in a fit of depression, the Duke of Abruzzi attempted to commit suicide with a revolver. August Ender, editor of the Daily Mirror, of Escanaba, Mich., is visiting Victoria at present for the first time, and has fallen a prey to the charms of Vancouver Island. "It is a beautiful city," said Mr. Ender to the Evening Post today. "When I was coming in on the steamer I thought from the view I had that it was a city of at least 100,000, and was surprised to learn that it is smaller than that."

MURDERER OBTAINS A RESPIRE

Toronto, May 13.—Walter Blythe, who was to be hanged this morning for the murder of his wife, at Agincourt last January, has obtained a respite until June 17.

FIVE YEARS FOR LOPAKINE

St. Petersburg, May 13.—M. Lopakine, a former director of police who was arrested in St. Petersburg last January and placed on trial May 11 on the technical charge that he was a member of the revolutionary organization, was today condemned to five years' imprisonment at hard labor.

BIRTHS, MARRIAGES & DEATHS

BORN. MACRAE—At New Westminster, B. C. on the 5th inst., the wife of F. A. Macrae, of a daughter.

MARRIED. BANTLY-LIPSKY—On the 5th inst., at St. Annes, by Rev. Father Brabant, S. Anton, Bantly-Lipksy, of St. Annes, and Mrs. Rev. Father Brabant, S. Anton.

DEATHS. MATTHEWS—In this city on the 7th inst., Wm. Matthews, of Happy Valley District, Victoria, aged 86 years, a native of Cornwall, England.

WANTED—Persons to grow mushrooms for us at home. Waste space in cell, garden or farm can be made to produce 15 to 20 per week. Send for illustrated booklet and full particulars. Montreal Supply Co., Montreal.

A LITTLE REFLEXION

The fact has long been apparent that one of the most important and profitable industries capable of development in British Columbia is that of the manufacture of Wood Pulp and Paper. The decline of the American and European forests is gradually forcing this great industry to Canada and there is no question but that inside of ten years British Columbia, with her great forests and extensive waterways will be the leading producer of Wood Pulp and Paper in the world. Nowhere outside of Western Canada is there sufficient standing timber upon which to maintain the great paper industry in the future. Fifteen years ago the combined Pulp and Paper mills of Canada produced only 300 tons per day. Today the daily production is 4,000 tons, and it is not absurd to believe that what has been done in Eastern Canada during the last fifteen years will be more than duplicated in Western Canada during the next fifteen years. The question of securing sufficient Wood Pulp upon which to operate the paper mills of the world is a question that is now perplexing the minds of both American and European manufacturers. The once great forests of the United States are gradually being depleted and at present it is almost impossible for the American mills to secure sufficient material for the operation of their plant. In 1908 almost one million cords of wood was imported by the American mills from Canada in addition to \$7,638,740 worth of Wood Pulp. One ton of news paper requires approximately one cord and a half of four-foot wood. Wood is now worth from \$10.00 to \$15.00 per cord in the United States. Great Britain in 1908 imported \$35,186,219 worth of Paper and Paper; Germany, \$7,653,100; France, \$10,944,000; Spain, \$1,845,507; Mexico, \$1,076,944; Argentina, \$1,043,862; Brazil, \$1,064,727; British India, \$919,825; Chili, \$498,849; Strait Settlements, \$1,014,165; China, \$2,620,891; Japan, \$2,519,507; Australia, \$2,129,449; British South Africa, New Zealand, Cape of Good Hope, Canary Islands, Philippines and Egypt, \$2,280,527.

The Wood Pulp, in order to produce the majority of this vast consumption, has to be secured from Canada, Norway, Sweden, United States, Denmark and Germany. The fact has long been recognized that British Columbia with its tremendous forests is alone in a position to relieve the great strain on the Wood Pulp and Paper market in the future. On account of the universal scarcity and increasing price of news paper almost every large daily newspaper in the United States, Canada and Europe during the past year has either been obliged to increase its selling price or reduce the size of its paper. At present the six daily papers of Victoria and Vancouver consume about 200 carloads per year of news print, and the price averages laid down in British Columbia \$57.00 per ton—cost of manufacture, approximately \$30.00 per ton. The situation has, however, become much more serious in Japan, China, Australia and New Zealand, where they are mostly dependent on outside sources for their product. Australia alone in 1908 imported over 100,000 tons of News and Wrapping Paper. Had there been sufficient mills to produce it in British Columbia every dollar of this vast trade would have come to this province instead of going to Norway, Sweden, Germany, Eastern Canada and the Eastern United States.

We are preparing to rush work on our big plant at Quatsino Sound, northern part of Vancouver Island, which, when fully completed, will have a capacity of 600 tons of News and Wrapping Paper per week. We have acquired almost 100 square miles of Pulp Limits and there is not the remotest doubt but that the Preference Stock which we are now offering will pay from 25 to 50 per cent annual dividends and will prove the best Industrial Stock ever offered for subscription in Western Canada. Those wishing reservation on the first 300,000 issue must make application at once.

KILLS WIFE, THEN GIVES HIMSELF UP

Seattle Man Walks Into Police Station and Says, "I've Killed My Wife!"
—Police Confirm

Seattle, May 13.—"I've killed my wife," announced William George, a laborer, as he walked into the police station this afternoon and handed over a thirty-eight calibre pistol to the desk sergeant. The man was immediately placed under arrest and according to the directions detectives hurried to the man's home at Brighton Beach and found the corpse of a woman with a bullet through the brain. George and his wife were divorced three years ago and the man has been in the habit of going to her home every Saturday and taking their children, four and six years of age respectively, out for a walk.

SUGGEST ARMY RESERVE FOR CANADA

Imperial South African Service Association Meets in Toronto

Toronto, May 13.—Delegates from all parts of Canada of the Imperial South African Service Association met in Toronto yesterday for the purpose of deciding on ways and means of bringing pressure on the Dominion Government to form an army reserve for Canada, composed of members of the Association, service to be for a period of ten years.

The Association expects in return a free grant to each of its members enrolling of 320 acres of land.

At Wandsworth recently a blind solicitor won a case, using the Braille system throughout.

MUSIC IN THE HOME

Whether it be a Chopin value unannounced in delicious serenity, the beauty of a Mozart Rondo, or the more everyday merriest of an inspiring march from Sousa, music makes life sweeter. There is nothing like a good piano to bind a family together and make home a real "dulcedomum."

Perhaps you think you cannot afford to lay out \$400 or \$500, but don't figure that way, for this week we are offering

BIG PIANO BARGAINS

One instrument is brand new, the others have been rented out or taken in exchange. Each is in A-1 condition. From among them we itemize four "specials":

For \$150
A "Bill" Upright Piano
Tremendously reduced in price; not only a good-looking instrument, but in excellent condition as to tonal qualities and fine, yielding elastic touch.

For \$265
Brand New "Palmer" Piano
A dainty upright instrument, fit for a lady's boudoir or living-room; in splendid condition, bright and silvery in the upper notes and the bass distinct and musical. This piano yesterday was priced at \$375, today a rare "snap" at \$265.

For \$280
A \$500 Piano
A "Kron" Upright Grand, but slightly used and none the worse, a fine instrument with a clear singing tone. A marvelous bargain at \$280.

For \$295
A "Martin-Orme" Piano
A fine upright, not long ago priced at \$450, only slightly used and with a strength and sweetness of tone that will delight you.

Don't fail to come here at once if you want to secure the boldest Piano Bargain ever offered in Victoria.

SAVATION ARMY TO ESTABLISH COLONIES

Commissioner Coombs Made a Tour Over the E. & N. to Look for an Advantageous Site

The establishment of one or more colonies on Vancouver Island is a project which the Salvation Army is considering. Commissioner Coombs, while in the city the other day investigated the scheme, making a tour over the E. & N. line in company with H. E. Beasley, its superintendent. He was shown the land which is being cleared at Ladysmith and at Qualicum. However, the commissioner did not confine his inspection to these sections. He looked into the advantages of other districts for settlement.

While the official did not express any definite opinion as to the practicability of establishing new colonies here, he appeared to be exceedingly favorably impressed. In fact, those in the party gathered from his remarks that he had formed the opinion that the best advantage could be found in no better place to make homes than on that part of the Island traversed by the Esquimalt and Nanaimo railroad. It is expected that the Commissioner will take a further tour up with the organization with which he is identified and the outcome, it is thought, will be the diversion of large numbers of desirable Britons here during the next few months.

Such an influx, it is stated, would fit in admirably with the policy of the Canadian Pacific railway in respect to the island. They have undertaken to clear a large portion of the land which came to them with the purchase of the E. & N. and are looking for settlers of an industrious class, people who may be depended on to develop the property placed at their disposal to the best advantage. It is also pointed out that not only would the establishment of one or two colonies in the districts lying near Victoria, help the railway by increasing business, but it would assist every city, farmers being needed, that the natural resources of the Island may be properly exploited.

BODIES OF VICTIMS WERE BLOWN TO PIECES

Twenty Killed by Premature Blast of One Thousand Pounds of Dynamite Near Albany Yesterday

Albany, N. Y., May 13.—At least twenty men were killed by a premature blast of dynamite yesterday in a stone quarry operated by the Callanan Road Improvement Company near the village of South Albany. It was at first believed that the death toll would reach thirty, but at night several Italian workmen who had been reported as missing were accounted for and it is not believed that more than a score of lives were lost.

Among the dead are John Hoyt Callanan, vice-president and general manager of the company, Chas. Callanan, a brother of the manager, and Leroy McMillan, assistant superintendent.

One thousand pounds of dynamite exploded, scattering the bodies of the victims for hundreds of feet around. It was with difficulty that the blackened, dismembered remains, mutilated almost beyond recognition, could be identified. As darkness was falling a wagon drew up to the engine house loaded with bodies that had been picked up on the quarry hill. A crowd of grief-stricken relatives gathered around, eager to identify the dead, only to turn away at the sickening sight. Clothing hung in shreds from the bodies, from which the heads of some were missing, others lacked arms or legs, or both.

Portions of Bodies.
Italians with shovels searched here and there for portions of bodies, bringing them to the engine house in boxes to the engine house, which served as a temporary morgue.

C. P. Macellari, the local Italian consul and doctors and undertakers were early on the scene. The body of the two Callanan brothers, Fred Snyder and Fred Zappert were among the first to be identified.

"The Callanan Road Improvement Company does a large business in furnishing crushed stone for road building, and preparations for yesterday's blast, which was scheduled to take place at 5 o'clock in the afternoon had been going on for six weeks. Thirteen holes five inches in diameter and about seventy-five feet deep had been drilled at points about twenty feet back of the quarry.

Explosion Terrific.
The displacement was expected to amount to nearly 40,000 tons of rock, and over 3000 pounds of dynamite were to have been used. The workmen had placed 500 pound charges in six of the holes and were working on the seventh when there was a terrific explosion, hurling tons of rocks into the air and scattering the bodies of the victims in all directions.

Several of the men were engaged in pumping water out of the holes, others were placing the charges of dynamite, while the others were standing near by directing the work. Another force of men were carrying dynamite from the storehouses some distance away when the death dealing blast.

caused by the premature discharge of an electric cap, exploded. Houses in the vicinity were shaken, windows shattered and consternation reigned in the little village half a mile away.

Another gang of men at work at the foot of the quarry fled for their lives and it was not known definitely at nightfall whether or not any of them had met death as a result of the shower of rocks hurled down upon

them. The foreman in charge said tonight that he thought two of the men were killed.

Followed.
Sloop after the explosion fire was discovered in the woods in which the dynamite storehouse was located and it was feared for some time that the flames might reach the building, in which a carload of explosives was stored, but the fire was extinguished before it reached there.

It developed that five of the great charges of dynamite remained unexploded and this rendered somewhat difficult the search for bodies, the workmen fearing further explosions.

The Callanan brothers were well known in Albany, where they maintained the company's offices during the winter months, moving to South Bethlehem when the season opened.

Oldest Patent Attorney in U. S.
Washington, D. C., May 13.—Major Albert E. Johnson, one of the oldest practicing patent attorneys in the United States, died here last night of his 83rd year. During the civil war he acted for some time as private secretary to Edwin M. Stanton, secretary of war. At one time he was prominent in Masonic circles.

Hohenzollern in Collision
Brindisi, Italy, May 13.—The Hohenzollern on entering the harbor collided with the Italian torpedo boat destroyer Memmo, seriously damaging the latter. At the luncheon on board the Vittorio Emanuele, the Emperor made reference to the earthquake disaster, and expressed the greatest admiration for the courage and self-sacrifice shown by the Italian people.

IRON ORE SCHEDULE BEFORE SENATE TODAY

Speeches May Be Inspired Favoring Free Listing Natural Products

Washington, May 13.—The schedule relating to iron ore will be before the senate when it meets today and may give rise to speeches favoring placing the four great natural products, iron ore, lumber, oil and coal on the free list.

As far as is possible, Mr. Aldrich in charge of the tariff bill for the committee on finance, will endeavor to have the senate agree to paragraph 1 of the bill on the previous reading of the bill so that the schedule still under consideration may be reduced to the lowest possible number.

VICTORIA LOSES A WELL-KNOWN PIONEER

August Frederick Beaumann, Whose Funeral Occurred Yesterday, Came Here in '68 With the Rush From 'Frisco

Victoria lost a pioneer of pioneers in the death of August Frederick Beaumann, which occurred the other day. He came here, in company with the late Mrs. Beaumann in 1868, and from that date until retiring from business upwards of thirty years ago was a familiar figure about the streets of the city.

Before his arrival in the northwest Mr. Beaumann had passed through some events which now are recorded by historians as being the most noteworthy of the nineteenth century. He was in Paris at the time the remains of the great Napoleon were brought from the Isle of St. Helena for interment. Later he came to America, and while at New Orleans the Civil War broke out and he followed, personally, the varying fortunes of the armies of the north.

After his arrival in the northwest Mr. Beaumann had passed through some events which now are recorded by historians as being the most noteworthy of the nineteenth century. He was in Paris at the time the remains of the great Napoleon were brought from the Isle of St. Helena for interment. Later he came to America, and while at New Orleans the Civil War broke out and he followed, personally, the varying fortunes of the armies of the north.

THE HOME OF THE DRESS BEAUTIFUL AND EXCLUSIVE

Campbell

EVERYTHING READY-TO-WEAR FOR LADIES AND CHILDREN

A Costume Harvest

A RICH HARVEST of exquisite costumes awaits you in our showrooms. Your dollars are the silver sickles which reap the harvest, and it is astonishing how few dollars it takes to harvest a beautiful costume—a costume perfect in fit, absolutely correct in fashion, and having that subtle air of refinement and grace in harmony with your individuality. Today we quote three suit-lines of extraordinary value, but kindly remember they form but a small portion of our stock; reap now, whilst the harvest is ripe.

FOR \$12.75 we are selling Misses' Costumes in new wool-mohair, new tweeds, and fancy summer fabrics, stylish self-colors and self-stripes; they are Campbell Value.

FOR \$17.50 we are giving extraordinary value in ladies' costumes. They are in the new tones of green and blue, also in black, either stripe or self-effects, three-quarter coats, buttoned trimmed, latest skirts, all hand-tailored; they are Campbell Value.

FOR \$27.50 we are giving the greatest value ever given in ladies' hand-tailored costumes. You should see these.

LINEN DUST AND MOTOR COATS, a special new line in natural linen color, regularly sold at \$10, but we give you the advantage of Campbell Value and have made the price \$6.75 and \$5.90

CRASH MOTOR COATS, the coat used by many leading motorists. Our price \$13.50

IMPERIAL DEFENCE WAS TOPIC AT DINNER

Lord Strathcona Declares That Canada Will Not Be Wanting in Taking Part in Defence of Empire

London, May 13.—Lord Strathcona presided over a distinguished gathering at the Canadian Club last night, those present including Prince Francis of Teck and Lord Milner.

Admiral Douglas declared that if we had an Imperial Council of Defence we would keep the Empire.

Lord Strathcona, proposing the Dominion and the Governor-General, referred to the naval defence question and declared that Canada would not be wanting in taking her part in defence of the interests and dignity of the Empire.

Joseph Martin, in responding, said there was nothing in the cry that no Englishmen are wanted in Canada.

MUCH DYNAMITE IS STILL IN QUARRY

Searchers at Scene of South Bethlehem Disaster Dread to Go Too Near for Fear of Death

Albany, N. Y., May 13.—Search for the fragmentary remains of the victims of yesterday's explosion at the Callanan Stone Quarry at South Bethlehem was resumed today.

Fourteen bodies had been recovered last night. The others are either buried under the tons of rock displaced by the premature blast or have been blown to such small bits that it will be a practical impossibility to recover them as bodies. Of the fourteen bodies recovered several have been identified. The number of dead was believed today to be twenty or

more. The exact number may never be known.

A TURNING POINT

It is very evident to those who have taken note of the course of events that Victoria is at a turning point in its history. The city has emerged from the status of a provincial capital and residential point and is about to enter an era in which commercial and industrial interests play a prominent part.

A CENTENNIAL

The people of Winnipeg have begun a campaign for what they call a "Canadian Exposition and Centennial" to be held in that city in the year 1912, and a representative body of men from the Prairie capital are in or en route to the city today.

SOME PROVINCIAL RIGHTS

The decision reached by the Dominion and provincial governments, to refer the questions involved in the rights of the province in the fisheries and the Indian Reserves directly to the Supreme Court of Canada instead of presenting it first for the determination of the Supreme Court of this province, seems very business-like.

Dominion government saw fit to devote its officers, who were parties to the suits, no one thought it necessary to charge that body with fighting the provinces. Neither did anyone allege that those who were asserting the rights of the province were fighting the Dominion.

THE PEACE RIVER

Great progress and development is reported from the Peace river. So many people are pouring into the country, notwithstanding the lack of railway facilities, that the Dominion government is about to erect it into a separate land district.

A CANADIAN AVIATOR

Mr. J. A. D. McCurdy is soon to leave New York for England to take part in the competition for aviation prizes. About a week ago he addressed the aeronauts and inventors in New York, and a dispatch from the city to the Montreal Star says that he made some interesting disclosures.

NAVAL DEFENCE

We had the pleasure of printing some days ago a very interesting paper from Rear-Admiral Fleet upon the naval defence of Canada. The article has also appeared in some eastern exchanges, and we find in the Montreal Witness the following intelligent comment upon it:

It is to be employed in the coast service, with classes for the training of artificers, electricians, shipwrights and fitters of skilled ratings. Then, should necessity arise, there would be a trained body of naval men available for service.

THE PEACE RIVER

Great progress and development is reported from the Peace river. So many people are pouring into the country, notwithstanding the lack of railway facilities, that the Dominion government is about to erect it into a separate land district.

Hotel Supplies Just Received

HOTEL, CLUB and restaurant keepers will be interested in knowing that we have just received a shipment of helps in the serving of liquid refreshments and will appreciate the timeliness of this shipment arriving in good time for the holiday this month.

We have just received some excellent Bar Spoons, Trays, Mixers, Ice Water Pitchers, etc. Of course, we have crockery, cutlery, table linen and kindred lines, and you'll not find such an assortment or values elsewhere.

Stylish Bedroom Furniture

Might just as well "fix up" the bedroom now and especially when such excellent furniture pieces are offered you. We would greatly appreciate a visit from you and an opportunity to show you some of our offerings in these lines.

Four Very Attractive Dressers and Stands

Four moderately priced Dressers and Stands are listed here - but a sample of the many offerings of our furniture floors. These are picked at random from an extensive stock of such bedroom requirements.

- DRESSER AND STAND - A low priced style of excellent design. Made of Golden Surface Oak, Dresser has large, oval bevel mirror and three drawers. Price for the two pieces - \$37.50

A Half-Dozen Stylish Dressing Tables

Come up to our third floor and see the row of excellent dressing table styles we are showing. Six attractive tables are offered you at interesting prices.

LOW STYLE DRESSERS AT \$40

Women folk favor this low-style dresser. Its great, long, oval mirror is placed so that the full figure may be seen with ease.

SWELL CHIFFONIERES AT \$35

A popular price for a chiffoniere - \$35 - and at this figure we show a magnificent range. We have gathered together a half-dozen splendid styles selling at this price, and we are showing them on our third floor.

BRASS AND IRON BEDS AT ALL PRICES. SOLE AGENTS "OSTERMOOR" MATTRESS \$15

Weiler Bros logo and address: 425 and 460, Government Street, near Yates

THE FUTURE OF THE PAPER INDUSTRY

Mr. Greeley Kolts From Eastern Canada Enthusiastic Over the Prospects of This Province

Mr. Greeley Kolts, who will visit Victoria tonight on his way to the East, is enthusiastic over the future of British Columbia in the paper industry.

"I have always considered the Canadian people cold and unresponsive to the needs of the Arctic; but no, they are demonstrating and planning for the West. They are getting along well, but I am surprised to learn that a movement is not a wonder in our time."

"Personally I am glad I can see the great paper industry of Ontario and Quebec. This industry was or is being developed today. The combined mills are producing more than a million tons of paper a year."

"When misfortune came and swept him aside like a pebble beach, he did not sit down at the windows with protracted sobs. He did not hang about the door of his neighbors."

"After a short journey for you reach Grand Mere, Que., where the Laurentide Pulp & Paper Co. is one of the largest pulp and paper mills in the world."

"After Mr. Booth has succeeded in gathering in millions of dollars to enable him to go over to and laugh at the mint, he goes to go into the paper business of commercial pastime."

A Striking Style in New Buffet \$50

If you want to add an attractive piece of furniture to your diningroom place this new arrival in buffets in it. Here is one of the most attractive buffet styles we have shown.

A New Music Cabinet \$12

We are offering a new style in a Mahogany finished music cabinet just received. A plain design but very attractive.

WEDDING GIFTS

They're a problem, aren't they? - to some. There's an easy solution to the difficulty of choosing a gift that'll be appreciated if you but make your selection from this stock of Libbey Cut Glass.

A Perfect Coffee Maker

Good, delicious coffee, every day, is now assured - no bit or miss about it - with a

Manning-Bowman "METEOR" Coffee Percolator

All the strength and aroma are extracted from the coffee by distillation - a process which will save you one third, no style and size.

Furnishers of HOMES, HOTELS, CLUBS, BOATS, CHURCHES, SCHOOLS, STORES, OFFICES

HAPPINESS

Happiness that invaluable aid to the... wending their way through the journey of life...

Then, in the common course of events, all have a time or another, to breast the cold, deep waters of affliction.

But just as nine people out of ten are far more prone to blame than praise, so poor humanity, when weary and heart-sore, or beneath the stress of anxiety, is apt to forget...

That latter fact seems to prove that happiness comes from within, and not from without; and it is a thing that should be fostered and encouraged...

Still, it behooves all sensible parents to guard against a deplorable type increasing in numbers...

Young in spirit, young in sympathy, young in the right things in years and consequently happy.

And to this last some brave words of Phillips Brooke, who has been long enshrined in my own heart, come as a clarion call.

"Tick-tock-tick-tock" ticked the big clock solemnly.

"You are right," said Uncle John, "it is a fine morning, I hope, said Bertie, softly, 'I crept in so softly last night, one leg at a time.'"

"Tick-tock-tick-tock," answered the clock.

"And then Robin drove them down to the station, where mamma looked at the station clock, and instantly her face grew very sad.

"Our clock has lost twenty minutes again," she said. "I wish John must sail away alone, Bertie, listen to me. Go home, my boy, get into that clock and see what is wrong."

cherry color, here and there, plain zephyrs may be made to look quite smart if bands of material are used...

Some of the new French skirts are set into the waist on very fine cordings, and I always think that this is a very pretty fashion if it is cleverly and somewhat simply carried out.

The sulky nature is hardest of all to manage, because it is difficult to understand what really passes in the youthful mind.

Infants and children are not so much affected by the average teacher as insufficiently.

Now that the summer, if not actually here, yet is at least in view, it is time to get out of the kitchen a few good recipes for cold sweets, suitable for Sunday luncheon, or dinner.

Take a corbeille de fruits, cake and scoop out the centre, leaving a wall about an inch thick.

Take a pound of the best dried figs and remove the stems and pits.

Have the required number of macaroons and of halved peaches, and moisten the former with orange syrup flavoured with maraschino.

Have ready a ring-mould of rice about two and a half inches in diameter and in the required number of cooked pears cut in half (good bottled pears are best).

Have ready a quart of lemon jelly, a cup of water, and three-quarters of a pound of prepared dates and then more jelly, and continue till the mould is full.

One bottle of claret, the juice of one lemon, half a teaspoonful of castor sugar, a cup of water, and three-quarters of an ounce of gelatine.

Cut half a pound of preserved or fresh fruit into pieces and let them lie in a curacao-flavored syrup for some days.

Place four spoonfuls of castor sugar in a pan and stir it over the fire until it becomes brown.

er of an ounce of gelatine, which has been dissolved in milk, then pour the mixture on to the beaten yolks of two raw eggs and add two tablespoonfuls of the cream.

When set turn out and brush over with caramel, and scatter with about two ounces of crushed burnt almonds.

WITH THE POETS

(By the late Algernon Charles Swinburne.)

If love were what the rose is, And I were like the leaf, Our lives would grow together In fields or singing weather.

If I were what the words are, And I were like the tune, With double sound and single Delight our lips would mangle.

If you were life, my darling, And I, your love, were death, We'd define and die together, Ere March would sweep the weather.

If I were what the words are, And I were like the tune, With double sound and single Delight our lips would mangle.

If you were life, my darling, And I, your love, were death, We'd define and die together, Ere March would sweep the weather.

If I were what the words are, And I were like the tune, With double sound and single Delight our lips would mangle.

If you were life, my darling, And I, your love, were death, We'd define and die together, Ere March would sweep the weather.

If I were what the words are, And I were like the tune, With double sound and single Delight our lips would mangle.

If you were life, my darling, And I, your love, were death, We'd define and die together, Ere March would sweep the weather.

If I were what the words are, And I were like the tune, With double sound and single Delight our lips would mangle.

laughed Miss Rodney, looking up at Polly, perched upon Gulliver, making a quaint contrast with the sober, sleepy, old steed.

"Oh, Miss Rodney, have you heard? Elsie has the driving whip—it is the first prize for the carts, you know—and the judges have given me the first prize for the riders!"

"I have my doubts about Gulliver," laughed Miss Rodney, patting the big horse, who was apparently going to sleep from sheer boredom.

"Well, he ought to be obliged, if he isn't getting the prize that I'm glad about—it is that I could be in the parade. You were so dear to think of this funny costume—and it is so pretty, too—and to lend me things and to work so hard to help me get ready."

"The good little sheep run quick and soft, Their colors are grey and white; They follow their leader nose to tail, For they must be home by night."

"And one slips over, and one comes next, And one runs after behind; The grey one's nose at the white one's tail, The top of the hill they find."

"And they get to the top of the hill They quietly slip away, But one runs over and one comes next— Their colors are white and grey."

"And over they go, and over they go, And over the top of the hill The good little sheep run quick and soft, And the house upstairs is still."

"And one slips over, and one comes next, And one runs after behind; The grey one's nose at the white one's tail, The top of the hill they find."

"And they get to the top of the hill They quietly slip away, But one runs over and one comes next— Their colors are white and grey."

"And over they go, and over they go, And over the top of the hill The good little sheep run quick and soft, And the house upstairs is still."

"And one slips over, and one comes next, And one runs after behind; The grey one's nose at the white one's tail, The top of the hill they find."

"And they get to the top of the hill They quietly slip away, But one runs over and one comes next— Their colors are white and grey."

FOR THE LITTLE TOTS

The Sleepy Song As soon as the fire burns red and low And the house upstairs is still, She sings me a queer little sleepy song

The good little sheep run quick and soft, Their colors are grey and white; They follow their leader nose to tail, For they must be home by night."

"And one slips over, and one comes next, And one runs after behind; The grey one's nose at the white one's tail, The top of the hill they find."

"And they get to the top of the hill They quietly slip away, But one runs over and one comes next— Their colors are white and grey."

"And over they go, and over they go, And over the top of the hill The good little sheep run quick and soft, And the house upstairs is still."

"And one slips over, and one comes next, And one runs after behind; The grey one's nose at the white one's tail, The top of the hill they find."

"And they get to the top of the hill They quietly slip away, But one runs over and one comes next— Their colors are white and grey."

"And over they go, and over they go, And over the top of the hill The good little sheep run quick and soft, And the house upstairs is still."

"And one slips over, and one comes next, And one runs after behind; The grey one's nose at the white one's tail, The top of the hill they find."

"And they get to the top of the hill They quietly slip away, But one runs over and one comes next— Their colors are white and grey."

"And over they go, and over they go, And over the top of the hill The good little sheep run quick and soft, And the house upstairs is still."

THE MANAGEMENT OF UNRULY CHILDREN

Of late years a great change has come over the manner in which so-called unruly children are treated.

Formerly they were roughly divided into two classes, good or bad, and punishment was meted out almost automatically without any consideration of the slightest attempt to understand individual character.

Much progress in matters educational has been made during the last generation, and psychology and physiology are more studied than formerly; but there is still room for improvement.

Unruly children may usually be divided into two classes, each class being made up of many different types.

To the first class belong the self-willed, headstrong child, boisterous and open in his ways, enjoying a rattle and bellion against authority, and caring little for punishments as he considers the same well worth the candle.

Bullies at school frequently belong to this type of unreasonableness, and are quite easy to deal with, as such a child frequently possesses many very fine qualities and is a living force in years and consequently happy.

The chief ingredients of happiness are a living force in years and consequently happy.

Children of nervous and highly-strung temperaments often belong to the first type mentioned above.

Have the required number of macaroons and of halved peaches, and moisten the former with orange syrup flavoured with maraschino.

Have ready a ring-mould of rice about two and a half inches in diameter and in the required number of cooked pears cut in half (good bottled pears are best).

DAINY COLD SWEETS

Now that the summer, if not actually here, yet is at least in view, it is time to get out of the kitchen a few good recipes for cold sweets, suitable for Sunday luncheon, or dinner.

Take a corbeille de fruits, cake and scoop out the centre, leaving a wall about an inch thick.

Take a pound of the best dried figs and remove the stems and pits.

Have the required number of macaroons and of halved peaches, and moisten the former with orange syrup flavoured with maraschino.

Have ready a ring-mould of rice about two and a half inches in diameter and in the required number of cooked pears cut in half (good bottled pears are best).

Have ready a quart of lemon jelly, a cup of water, and three-quarters of a pound of prepared dates and then more jelly, and continue till the mould is full.

One bottle of claret, the juice of one lemon, half a teaspoonful of castor sugar, a cup of water, and three-quarters of an ounce of gelatine.

Cut half a pound of preserved or fresh fruit into pieces and let them lie in a curacao-flavored syrup for some days.

Place four spoonfuls of castor sugar in a pan and stir it over the fire until it becomes brown.

er of an ounce of gelatine, which has been dissolved in milk, then pour the mixture on to the beaten yolks of two raw eggs and add two tablespoonfuls of the cream.

SOCIAL SNARES

The Value of Good Manners. It is often said, in these days, that good manners, like good conversation, have gone by the board.

Certainly, as a nation, we have lost the art of good manners, and are becoming more and more uncouth and awkward, and our manners are said to lack that elegance and finish which are so characteristic of the Frenchwoman of good breeding.

Here are one or two which will I think be novelties to my readers and I can vouch for the excellence of all of them.

Take a pound of the best dried figs and remove the stems and pits.

Have the required number of macaroons and of halved peaches, and moisten the former with orange syrup flavoured with maraschino.

Have ready a ring-mould of rice about two and a half inches in diameter and in the required number of cooked pears cut in half (good bottled pears are best).

Have ready a quart of lemon jelly, a cup of water, and three-quarters of a pound of prepared dates and then more jelly, and continue till the mould is full.

One bottle of claret, the juice of one lemon, half a teaspoonful of castor sugar, a cup of water, and three-quarters of an ounce of gelatine.

Cut half a pound of preserved or fresh fruit into pieces and let them lie in a curacao-flavored syrup for some days.

Place four spoonfuls of castor sugar in a pan and stir it over the fire until it becomes brown.

THE HOUSE BEAUTIFUL

Without giving way to gaudy pride in our own establishments, there are a few of us who do not know how to manage or other which may stand as the apotheosis of confusion and chaos.

It is not that we are not naturally neat and tidy, but that we are not so much interested in the details of house-keeping as we should be.

Here are one or two which will I think be novelties to my readers and I can vouch for the excellence of all of them.

Take a pound of the best dried figs and remove the stems and pits.

Have the required number of macaroons and of halved peaches, and moisten the former with orange syrup flavoured with maraschino.

Have ready a ring-mould of rice about two and a half inches in diameter and in the required number of cooked pears cut in half (good bottled pears are best).

Have ready a quart of lemon jelly, a cup of water, and three-quarters of a pound of prepared dates and then more jelly, and continue till the mould is full.

One bottle of claret, the juice of one lemon, half a teaspoonful of castor sugar, a cup of water, and three-quarters of an ounce of gelatine.

Cut half a pound of preserved or fresh fruit into pieces and let them lie in a curacao-flavored syrup for some days.

Place four spoonfuls of castor sugar in a pan and stir it over the fire until it becomes brown.

HINTS ON SANDWICHES

A short time ago I gave some recipes for sandwiches, but I do not think it will be out of place to give a few more this week, for they are really extraordinarily useful, for tea parties, when they will be greatly appreciated, and at small supper parties, little card parties, and any other informal or social functions of this kind.

There was a day, since gone by, when a sandwich was made of bread or toast, and was of a very substantial order.

Now at tea and evening card parties, dainty little sandwiches, savory and sweet, are all the rage.

As sandwiches take some time to cut and arrange, it is best to have them prepared and doled out early and put away in the larder, where they will keep until needed.

For supper the sandwiches may be arranged on a silver entree dish or on a silver tray.

Party sandwiches should be cut small and very thin and into neat rounds, pointed them smoothly at the ends. I shall only give the recipes of one or two kinds that are particularly delicious, very rarely met with, and very rarely made.

Grade a third of a tumbler full of tongue, the same quantity of the same quantity of whipped cream.

Remove the skin and bones from six sardines, pound them smoothly with a little of the oil and some butter, and season rather hotly with pepper.

Take some slices of sponge or Madeira cake and spread them with honey, and scatter the slices with chopped celery, and cut into triangles. Garnish with parsley.

Take some cold cooked sweetbread and cut into thin slices. Arrange on a slice of bread. Cover another slice with a puree of cooked green peas moistened with mayonnaise sauce and will season.

ABOUT PUSS

Did you ever think why we call the cat 'puss'? A great many years ago the people of Egypt, who had many idols with a cat's head, and whose gods were more active at night, and because she was so fond of mice, and because her eyes changed, just as the moon changes, which is sometimes full, and sometimes only a bright little crescent or half-moon, as we say. Did you ever notice your pussy's eyes to do this?

And the queer old clock said, approvingly, "That's the way to mind—clock!"

When Uncle John came back Bertie went to meet him, for the clock was just right—"The Youth's Companion."

Did you ever think why we call the cat 'puss'? A great many years ago the people of Egypt, who had many idols with a cat's head, and whose gods were more active at night, and because she was so fond of mice, and because her eyes changed, just as the moon changes, which is sometimes full, and sometimes only a bright little crescent or half-moon, as we say.

And the queer old clock said, approvingly, "That's the way to mind—clock!"

A great many years ago the people of Egypt, who had many idols with a cat's head, and whose gods were more active at night, and because she was so fond of mice, and because her eyes changed, just as the moon changes, which is sometimes full, and sometimes only a bright little crescent or half-moon, as we say.

THE "LORDSELKIRK" OF WINNIPEG PARTY

R. Ross Sutherland, Winnipeg Barrister, Tells of Tour of Canadian Exposition Delegates, and of Prospects

R. Ross Sutherland, a barrister, of Winnipeg, and well-known in Victoria, is here as a member of the Pacific Coast delegation which will get in on the Vancouver boat at three o'clock today.

This is a work in which I have great interest. I suppose it will grow into as large a share of interest as anybody of the present generation could have in the British Commonwealth, which will form a part of the Canadian Empire.

SOUVENIRS MADE FROM CEDARS OF LEBANON

James T. Stott, of Victoria, Receives Communion Set Made From Historic Tree

A very interesting souvenir has just been received from England by James T. Stott, of Victoria, in the form of a communion service made from the wood of a historic cedar of Lebanon, long a prized relic at Burley Hall, near Bradford, Yorks.

The tree was carefully nursed in a hot-house for several months, but showed no signs of life, and then, in a fit of disgust, the owner threw it into a refuse heap. A few weeks later he noticed signs of life in the tree, so he took it up and planted it in the lawn at Burley Hall.

In addition to the communion service from this wood, the articles received include a money-box for his daughter, Miss Jessie Stott, which were sent by Mr. Herbert Stott, a brother of the Victorian, in business as a wood-turner in Bradford.

WAS O'MARA VICTIM OF ROBBERY AND MURDER?

Man Found Dead on Clover Point Beach Identified—Family Have Theory of Foul Play

The man who was found dead on Clover Point beach on April 8th has been identified. Jerry O'Mara is his correct name. The local police authorities located his children, four sons and two daughters, by means of a photograph. They are residing in the vicinity of Stockton, Cal.

R. ROSS SUTHERLAND

Barrister, of Winnipeg

The Lord Selkirk of the delegation, a son of the late Hon. Senator Sutherland, who was born at Fort Garry, Winnipeg, 85 years ago, his mother and father being amongst the Selkirk colonists who came to the Red River settlement in 1812.

When he first arrived in Victoria O'Mara resided with Mr. and Mrs. Sutherland, Burdette Ave. He said that he had no means of identifying his father's name, and while giving his name as O'Mara in one instance he denied it later, declaring his cognomen to be Selkirk. This puzzled the police. The reference to Stockton, however, put them on the track and the picture did the rest.

MORE RAPID PROGRESS ON THE TARIFF BILL

Vote on Duty on Lead Products Will Be Taken in Senate Today

Washington, D.C., May 11.—A vote on the duty on lead and other products will be taken in the Senate today. In definite terms the Senate majority that all the recommendations of the committee on finance will be upheld.

JOHN HOUSTON HAS ABANDONED CLAIM

Famous Owner of the Empire Has Given Up His Claim at Prince Rupert

Vancouver, May 11.—By filing an abandonment of his famous mineral claims at Prince Rupert, John Houston, editor of The Empire, has removed the last possible obstacle to the legality of the sale of lots on the Grand Trunk Pacific townsite. Refused permission to locate his newspaper plant at Rupert, Houston staked a claim and then erected his office. Houston declares he has not made any money out of the transaction.

"COMPANIES ACT, 1897."

I HEREBY CERTIFY THAT THE "McClure-Timber & Lumber Company" has this day been registered as an extra-provincial company under the "Companies Act, 1897," to carry out or effect all or any of the objects of the company to which the legislative authority of the Legislature of British Columbia is referred.

power to issue and transfer stock. The time of the existence of the Company is thirty years from the 15th day of March, A.D. 1869.

FAREWELL JAPANESE SHIPS

Japanese Training Cruisers Aso and Soya Broke Rings Early Today and for Vancouver

ADMIRAL CHARMED WITH HIS RECEIPTS

Thousands of Victorians to Esquimalt Yesterday Attend Reception On Japanese Flagship

"Sayonara Aso Kan; Sayonara Kan."

Soon after 7 o'clock this morning Japanese training cruisers Aso and Soya that once fought as men-of-war but their modern Esquimalt harbor and steamed their way to Vancouver, with Newby, the local pilot, assisting on the bridge of the Aso, visit to Victoria was through joyed. Admiral Ichihi and his said that nowhere they had had offered more pleasure to them.

"It is difficult to express the fulness that I feel for the kindness and splendid hospitality people of Victoria" said Admiral Ichihi yesterday. "I and my officers, sets and all on board have the enjoyed their visit to Victoria only because of the hearty and generous kindness with which we were welcomed, but also because of the splendid reception given to us. This harbor of Esquimalt remains all of home; its scenery is so scenery, and both are beautiful. I hope it will not be so long as I my first and second visits until again to Esquimalt."

It is twenty-nine years since Admiral Ichihi's previous visit. His first, Capt. Shimamura, came to Esquimalt on the training gunboat Hiei he is going to Vancouver, as the officers, for the first time.

Reception on Flagship.

Hundreds visited the Japanese cruisers on Sunday. On board flagship Aso the Admiral and his staff gave a reception to which Victorians were invited, and many throngs came and went. The steam pinnaces and auxiliary warships piled with the local land and boats, and a special street service was given for the occasion. Both vessels were draped with and covered with awnings. This was profusely done, and the lanterns being festooned on the deck under the awning. Visitors were hospitably received, and the cadets being led to the deck to the unlimited the wonderful naval guns, search conning towers and other points about a warship.

On board the Aso, where Admiral Ichihi received his guests, in Commander Crawford, in command of the Esquimalt station, Capt. Ed and Major Bennett and many local military officers. Crawford and his officers, and many other entertainment that was typical of the Japanese. The Japanese was provided for the entertainment of the visitors. Firstly, in the regatta of Saturday, we sent by Mrs. Edwards, wife of the commander of H. M. S. Alger, the presence of the Japanese staff, while the flagship's band drew up on the quarter deck to play a few bars of music as each captain stepped forward to receive the challenge cup won by the victors. The Japanese were in which the competing blue far and went through many obstacles. Following this, Jujitsu and fencing exhibitions were held.

Mats Spread on Deck. Mats were spread on the deck while the guests and Japanese and bluejackets thronged about the deck. The mats were spread in the manner of the pupils of Prof. Kodō Kan. Jujitsu is an ancient Japanese art, and when the lessons of the cadets completed—they are at school of cadets—the mats are spread and experts teach jujitsu. It is a study of any Japanese boy, and no university is without its mat-spread floor. Judo is taught. Jujitsu is the oldest art of fighting without weapons and it looks like wrestling. The pitting cadets are impassive; in jujitsu is exacted by the code of jujitsu. They squat at either side of the cushioned mats, a row of legged, hunched, close-cropped young men with the regulation kimonos, and as the umpire holds up two stop out and crouch salute. Then they grasp the arm of each other's garb and feeling a leg pressed against the leg, other lightly, then a sudden jerk and one is on his back, so long while the other seeks to hold that cannot be broken, a hold that must make the other cry "enough." The grips, holds and are peculiar and risk, but they are really not an art taught for entertainment, nor for play; it is an art of the master of Judo knows how a rival completely hors de combat. By a sudden twist a clever student can unhinge a joint or strike a bone. The struggle in jujitsu is uses his own strength; it is the strength of the antagonist he seeks.
