Montreal Stock Market.

TRANSACTIONS A DISAPPOINTMENT, THOUGH WAR EAGLE ADVANCED—CONSOLS BEING LOWERED IN VIEW OF WAR CAUSE THE DULLNESS—TWIN CITY REPORTS A GREAT INCREASE.

Montreal, Sept. 5.

To the daily trader the speculative market has been a disappointment for when it seemed strongest then it was weakest, and vice versa. The local market in being very quiet today disappointed almost every one. There have been symptoms of rousing from inaction. Continued quiet, therefore, fails to give satisfaction. There was reason, however, in the sedate movements of to-day's stock market. Consols were lower  $\frac{1}{4}$ , a certain indication that the Transvaal situation was again in a state of ferment. How great and how widely spread would be the effect if, as was rumored, war should break out in 48 hours, no one can define with any accuracy, but it would affect money, and through it everything. New York market was strong in the specialties. Omaha still kept rising on the report of a 7 p.c. dividend payable in January, but all securities whose activity depends on the London market were in a depressed state. That in these circumstances the Montreal market should not be exuberantly active is natural. War Eagle, on selling amounting to 3,500 in the morning session advanced 7 points and may be considered as practically the only stock selling at an advance. Outside the mining stock and C. P. R. the trading was in insignificant amounts.

Can. Pac.  $\frac{1}{4}$  lower at 97 $\frac{1}{2}$ ; 450 shares were sold. Buyers and sellers separated on demand 97, and offer 96 $\frac{1}{2}$ .

Mont. St. Ry., at the same price, 324, at which price 450 shares changed hands. Demand closing 324, offer 323.

Richelieu & Ontario 1 lower at 112 $\frac{1}{2}$ . There was an offer of 112 $\frac{1}{2}$ , while the demand was 113 $\frac{1}{2}$ .

Toronto Ry. sold  $\frac{1}{4}$  lower, at 117 $\frac{1}{2}$ . Final offer was 116 $\frac{1}{2}$ , and closing demand 116 $\frac{1}{2}$ .

Republic ex-div., at the same price, 122, which was also the demand, 131 being the offer.

Montreal & London 1 higher at 58, closing offer 54, the demand being 59.

War Eagle advanced 7, selling at 357; 3500 shares were sold; closing demand 358 and offer 356.

Payne ex-div. so'd above the lowest price of Friday, 4000 shares. Closing demand and offer 125 and 123 $\frac{1}{2}$  respectively.

Bank of Commerce  $\frac{1}{4}$  lower at 149 $\frac{1}{2}$ .

Montreal Telegraph 1 lower at 171; offer 170, demand 173.

Morning sales amounted to 12,211.

N. W. Lands, pfd.—100, 54 $\frac{1}{2}$ .

STRAWS.

Magog's cotton mill is for the present closed down.

Canadian Pacific is, it is said, negotiating with the Boston and Maine to send all its winter grain and freight to Boston.

Advices from Sydney state that shipments of coal from the Dominion Coal Co.'s mines for the month of August were well over 200,000.

That Omaha reached its highest price on Friday was owing to an expectation that a dividend of 7 p.c. will be paid in January. Its earnings for seven months have increased \$1,000,000.

Hants County, N. S., has, it is said, shown up again with large samples of the ore from which pure antimony is extracted. The lands on which they have been found, belong, it is said, to Mr. E. E. Wallace, butter merchant, St. Catherine St., Montreal.

An officer of a life insurance company, which has loaned many millions in the West, has compiled comprehensive data on the subject of interest rates, and he is of opinion that the day of more than 5 p. c. loans in the country beyond the Mississippi has departed for ever.

Canada will figure largely at the Paris Exhibition. Besides the somewhat detailed account of mining exhibit given last week, it is said on the authority of Mr. Perreault, one of the Dominion commissioners, that all the British colonial sections will be lighted by the Royal Electric company, and that in section 6, the Public Works department, the C.P.R., G.T.R., Montreal Street Railway, and Richelieu & Ontario will exhibit.

Members of Canadian Mining Institute have left for their annual meeting at Nelson, Sept. 10. Among them were J. E. Hardinan, president; A. W. Stevenson, vice-president; R. Meredith, W. Mann, J. Percy Taylor, R. B. Ross, S. J. Simpson, Montreal. After the meeting at Nelson the party will visit Rossland Trail and other western points.

Huntingdon, P.Q., Sept. 1st.—Mr. Johnson purchased a lot for \$1,500, and has let the contract for a building to be completed by November, 102 x 26 feet, two stories, to be used for shops and offices. For offices, 18 x 20, \$50 per month is charged. Some of the mines are good investments, but again many of them are only on paper. Wages are \$3 to \$6 per day, 8 hours per day. Messrs. Farwell, of Sherbrooke, Robinson and Miner, of Granby, have purchased many town lots, and on some they are building, others they are holding for investment. Mr. Morrison describes Grand Forks as situated in a beautiful valley, surrounded by the Kettle River, rich soil, fit to grow anything. Peaches and other fruit do exceptionally well. He reports Messrs. Findlay Bell and G. A. McLaughlin as doing well, and Mr. J. W. McLaughlin as in a fair way to become a millionaire. Mr. Morrison is so favorably impressed with the place, as soon as he can dispose of his business to advance here, he will hit himself to the land of "gold and sunshine."

**MONTREAL MINING EXCHANGE.**

Montreal, Sept. 5.

The feeling this morning in mining issues was decidedly stronger. The feature, of course, of the trading was Big Three, the news telegraphed on Saturday about the \$208.00 ore having the anticipated effect of advancing the price of the stock considerably. Opening sales were made at 27; some lots being sold at 27 and 28, but closing sales were made at 27. The closing quotations being 26½ bid and 27 wanted. In our opinion Big Three is good enough to hold, as we are convinced the near future will see much higher prices.

In point of activity Virtue came next to Big Three but there is evidently a feeling of doubt both on the part of buyers and sellers, for to use a slang expression, both sides are "sparring for wind." The bulk of the trading was done around 46, the closing sale, a small lot of 300 shares, bringing 48, but the closing quotations were 45 to 46½. Virtue is all right, and will undoubtedly see much higher figures.

California was freely sold, a lot of 20,000 shares changing hands at 10½. Slocah Sovereign sold at 38, an advance of two points over the closing sale of Friday.

Montreal-London opened strong, selling at 59, but it gradually weakened, selling down to 55 for small lots, closing 55 to 58.

Virginia was offered down to 13½; no sales.

Towards the close of the session the dividend payers were in much better demand, and though bids were not materially higher, much more than the bid price would have been paid.

**MORNING SALES.**

Slocah Sovereign—500, 38.  
Big Three—2,000, 27. 13,230, 26½. 300,  
29. 100, 25½. 500, 26.

# NEW YORK EXCHANGE.

MARKET GREW STRONG EARLY IN THE DAY — U. PAC. PFD. A FEATURE — UN. PAC. WITH N. Y. C. NOR. WEST. OM. ARE CONSIDERED THE VANDERBILT CONSOLIDATION — MONEY HARDENING TO 4½ OR 5 FOR 60 DAYS.

New York, Sept. 5.

Conflicting reports from the Transvaal in regard to the political situation there, are reflected in the somewhat irregular prices of securities. Consols, money, and account, show declines of ¼ and ½ respectively.

Aside from the situation in the Transvaal, there does not seem to be any disturbing factor in the near future. It seems quite probable, however, that money rates may show a slightly hardening tendency this week in response to the calls for money, which are being made upon New York from other parts of the country.

Saturday's bank statement, while about what was expected, and possibly a little better, was made on falling averages, and the West and South are undoubtedly making calls on New York to remove their crops. It is not thought that we shall have a tight money market, but it seems quite likely that in the near future we may be paying 1 p.c. more for our money than we are paying now.

Nothing has come out over the holiday of any importance bearing on stock values and the newspapers this morning are remarkably bare of such news. The technical position of the local stock market is not particularly strong, in that there are a good many lightweight operators carrying stocks which would be thrown over on any considerable decline. On the other hand, there is a fair sized short interest in a good many stocks which continues to support them in the face of an otherwise heavy market.

New York (noon), Sept. 5.

Although the news from the Transvaal was of rather startling nature the London market showed only moderate declines, and there was no weakness either in Americans or in Consols.

Our market opened fairly steady, but very dull, the features being the strength of T.C.I. and Republic. There was some pressure on B.R.T., owing to the publication of the earnings of the first two months of the fiscal year. As compared with the first two months in the previous fiscal year there is actually a falling off of some \$75,000, whereas compared with first two months of 1897, there is only a gain of some \$190,000. It was thought that insiders were small sellers at the opening, but around 103½ a great deal of support made its appearance.

After the first 15 minutes the market became positively strong under the leadership of the Vanderbilts.

The buying of Nor. West was thought to be for inside interests, the Room became bullish on Un. Pac. pfd., while N.Y.C. advanced on buying by one or two foreign houses. The story of the Vanderbilt consolidation has been revived again, the roads concerned being supposed to be N.Y.C., Nor. West., Om. and Un. Pac.

All railroad earnings continue to be satisfactory. During the last half hour T.C.I. has become exceedingly strong on what is looked on as inside buying.

There is no doubt whatever that the short interest although reduced, is still

quite extensive, and that its elimination can only be accomplished by putting the stock to materially higher figures.

Time money showed a hardening tendency, the rate for 60 days being 4½ to 5 p.c., and it is rumored in the Street that some large houses have borrowed money for a long period as high as 6 p.c.

## MINING NEWS.

### ROSSLAND ORE SHIPMENTS.

Rossland, B.C., Sept. 4.—One of the most gratifying features of the week from a mining standpoint has been the increase in the ore production which has not only turned the 100,000 tons mark for 1899, but has also broken the record for weekly shipments, and this, notwithstanding that a large shipper, the Centre Star, owing to the installation of a new power plant, did not ship a pound of ore during the week. The Iron Mask is increasing its shipments and averages eight cars a week, while the Evening Star is holding its own and the big shippers the Le Roi and War Eagle, are steadily increasing their output. The Columbia and Kootenay has made its first shipment for the year, having sent a car load of ore to the Hall Mine smelter at Nelson. Following are the approximate shipments for the week:

	Week Tons.	Year Tons.
Le Roi	2362.5	58,271.5
War Eagle	2329.5	31,626.1
Iron Mask	252	2,739
Evening Star	63	737
Deer Park	—	186
Centre Star	—	8,157
Columbia Kootenay	31.5	31.5
Total	5,005.5	102,580.5

Victoria, B. C., Sept. 1.—A company, capitalized at \$200,000, is to be incorporated during the next thirty days to take over en bloc the mining claims recently staked at Wreck Bay on the west coast of this island. This is at the point where the warm Japan current strikes the American coast line, about five miles from Ucluelet, and not far from where the steamships Cleveland and Commonwealth came to grief about two years ago.

When the gold was first noticed in the black sand of the beach the discoverers thought they had located a second Klondike, for colors were so numerous that one might stretch himself on the beach and pick up the little flakes of gold on the point of a pen-knife.

Then it was found by experiment that the gold was too fine to be saved with a rocker or sluice boxes and Wreck Bay claimed no further attention.

About this time some one thought to try a pan from midway up the gravel cliff that rises to a height of perhaps 80 or 100 feet above the sea. To his unbounded surprise colours were more numerous than in the beach gravel, proving conclusively that the gold was washed down instead of having been cast up by the tides.

Experts now declare that the owners of the Wreck Bay properties have one of the greatest hydraulic propositions in America—one that will make them all rich men.

They have refused proposals from San Francisco, Montreal and Chicago capitalists to work the properties on a share basis and have also declined to sell.

## MATTERS IN THE BOUNDARY.

Grand Forks, B.C., Sept. 1.—C. C. Young, of Boston, Mass., has been appointed agent in that city for the sale of shares of the various mining companies organized by J. P. Graves. During his stay here, Mr. Young bonded the Smuggler, the Apex and the Keystone. These properties, together with a number of others, will be floated in Boston. Mr. Young says he is confident that a great deal of Boston capital will be diverted to the Boundary Country.

Good progress is being made in drifting on the vein recently tapped by a cross-cut tunnel on the Morrison in Deadwood camp. The east drift is now in 18 feet. Average assays give values of \$36.85 per ton. The west drift is in 14 feet. Assays give values of \$26.80 per ton.

The work of preparing to utilize the Boundary Falls water power for electrical purposes has been resumed. Last autumn a substantial dam was constructed above the falls. Now a tunnel is being driven through the rock, which rises sheer above the top of the falls, to connect the dam with the flume which is to be built to convey the water to the machinery site. The tunnel when completed will be 130 feet in length and the flume 1800 feet long. It is intended to use the electric power for lighting and power purposes, and it is probable that connection will be made with several of the mining camps in the district. At the present time the Mother Lode in Deadwood Camp is the only mine in the district using electricity for lighting and blast firing.
