The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

The original copy was borrowed from, and filmed with, the kind consent of the following institution:

National Library of Canada

Maps or plates too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

L'exemplaire filmé fut reproduit grâce à la générosité de l'établissement prêteur suivant :

Bibliothèque nationale du Canada

Les cartes ou les planches trop grandes pour être reproduites en un seul cliché sont filmées à partir de l'angle supérieure gauche, de gauche à droite et de haut en bas, en prenant le nombre d'images nécessaire. Le diagramme suivant illustre la méthode :

JOHN BERTRAM

1st Vice-President Canadian Manufacturers' Association

HE CANADIAN MANUFACTURERS' ASSOCIATION take much pleasure in placing this brochure in the hands of its friends.

It contains some information regarding the Association; the names of the officers and of the Executive and Tariff Committees for the current year; the general objects which are the reasons for its existence; the By-Laws by which it is governed, and the names of the gentlemen composing the Dominion Government.

It also contains extracts from letters written by some of the members of the Association, who, it will be observed, are numbered among the most influential business men of Canada, and who are representatives of many of our most important and flourishing manufacturing industries. These letters explain themselves, and indicate the high value the writers place upon the Association as an organization, and upon the work being done by it.

WILL YOU JOIN?

MANUFACTURERS who are not already members of the Canadian Manufacturers' Association are respectfully invited to connect themselves with it. They are also invited to lend their assistance in inducing others to join. The membership fee is not large, the revenue being only sufficient to meet current expenses.

In union there is strength, and manufacturers would do well to unite their efforts and sustain this Association in what it is doing to give the home market for manufactured products to home manufacturers, and in supporting the National Policy. If that policy stands, Canadian manufacturers may hope for fair remuneration on investments in their business. If it is defeated and destroyed, disaster must inevitably follow. Its enemies are working actively to destroy it—will its friends work as energetically to sustain it?

BY - LAWS

—OF THE—

Canadian Manufacturers' Association

NAME

The name of this organization shall be "The Canadian Manufacturers' Association."

OBJECTS

The objects of this Association shall be :—

1. To secure by all legitimate means the aid of both Public Opinion and Governmental Policy in favor of Home Industries and the promotion of Canadian Manufacturing Enterprises.
2. To enable those engaged in all branches of Canadian manufacturing enterprises to act in concert as a united body whenever action in behalf of any particular industry or of the whole body becomes necessary.

MEMBERSHIP

1. Any person directly interested in any Canadian manufacturing industry is eligible for membership in this Association.
2. The membership of any officer of a company, or member of a firm, entitles the officers of the company or members of the firm to the privileges of the Association.
3. The annual fee entitling to membership in the Association shall be \$10.

FINANCIAL YEAR

The Financial year of the Association shall begin with the first day of January, and end with the last day of December.

HEAD OFFICE

The Head Office of the Association shall be in the City of Toronto.

OFFICERS

The officers of this Association shall be :—

1. President.
2. First Vice-President.
3. Second Vice-President.
4. Treasurer.
5. Secretary.

DUTIES OF OFFICERS

1. The duty of the President shall be to preside at all meetings of the Association, and to perform all functions incident thereto according to usage. It shall also be his duty to instruct the Secretary to call special meetings of the Association when requested to do so by the chairman of any standing committee, or by any five members of the Association.
2. In the absence of the President at any meeting of the Association, the senior Vice-President present shall perform his duties.
3. In the absence of the President and both Vice-Presidents at any meeting of the Association, the occupancy of the chair shall devolve upon the Chairman of the Executive Committee.
4. The duty of the Treasurer shall be to receive from the Secretary all moneys belonging to the Association, and to deposit the same in such bank as the Executive Committee may direct, and out of such moneys he shall pay all

JOHN BERTRAM & SONS, DUNDAS, ONT.

accounts and orders certified to as correct by the Secretary, and countersigned by the President or the presiding officer at any meeting of the Association. He shall keep an account of all his receipts and disbursements, and an abstract of the same shall be presented to the Association at the first general meeting held in the financial year. He shall submit his accounts for the inspection of any Auditor or Auditing Committee which may be appointed by the Executive Committee, and he shall produce all his books, papers and vouchers before the Executive Committee whenever required to do so.

5. The Secretary shall be the Executive officer of the Association, and also Secretary of all standing committees. He shall keep a register of the names of the members of the Association, the particular industries in which they are engaged, and their places of business. He shall keep the books and conduct the correspondence of the Association. He shall attend and take the minutes of the proceedings at all meetings of the Association and of the standing committees. He shall keep a fair record of all the business appertaining to his office, give sufficient notice of all Association and Committee meetings, collect membership dues and pay the same over to the Treasurer, and perform all other duties properly devolving upon him. Compensation to the Secretary for his services shall be determined by the Association in general meeting assembled or by the Executive Committee.

COMMITTEES

The Standing Committees of the Association shall be as follows :—

1. Executive Committee.
2. Tariff Committee.
3. Representatives to Toronto Industrial Exhibition Association.

And such special committees as the Association may consider necessary to appoint.

COMMITTEES—HOW CHOSEN

1. The Chairmen of the Executive Committee and Tariff Committee shall be chosen by the Association at the first general meeting held in the financial year ; at which time the Representatives to the Toronto Industrial Exhibition Association shall also be chosen.

2. The Executive Committee shall consist of ten members, and the Tariff Committee of twenty members, to be chosen by the General Officers of the Association and the Chairmen of these committees immediately after the first general meeting of the Association in the financial year, and the General Officers of the Association shall, in addition thereto, be ex-officio members of all Standing Committees.

DUTY OF COMMITTEES

1. The Executive Committee shall act as an Advisory Board to the General Officers of the Association, and also to transact such business as may be assigned to it by the Association.

2. The duty of the Tariff Committee shall be to hear, consider and act upon all applications from manufacturers who may desire the co-operation and assistance of the Association, where concerted action may be deemed necessary in behalf of any particular industry or of the manufacturing interests of the whole country. Whatever action may be taken in this direction by the Tariff Committee shall be considered as the action of the Association; and it shall be the duty of the Secretary, as Executive Officer of the Association, to carry out the instructions of the Tariff Committee.

3. This Association is entitled to five representatives in the membership of the Toronto Industrial Exhibition Association; and the duty of these representatives shall be to attend the meetings of the Industrial Exhibition Association and act thereat, and at other times, as shall to them seem to be in the best interests of this Association.

MEETINGS

1. The Annual General Meeting of the Association shall be held in the City of Toronto as early in the financial year as may be deemed expedient by the Executive Committee, of which due and timely notice shall be given to the members by the Secretary. Other general and special meetings may be called for such times and such places as may be determined by the Executive Committee.

2. Standing and other Committees shall meet at the call of their Chairmen, promulgated through the Secretary.

QUORUMS

1. At all Annual General Meetings of the Association not less than fifteen members must be present to constitute a quorum. At other meetings of the Association not less than ten members.

2. At all meetings of the Executive Committee, not less than five members must be present to constitute a quorum ; and at meetings of the Tariff Committee not less than ten members.

CONDUCT OF MEETINGS

All meetings of the Association, and of Standing Committees shall be conducted as follows :

1. If there should be no quorum within fifteen minutes of the time fixed for the meeting, an adjournment may be had.

2. Any member who may desire to speak must address the Chair. All motions must be made in writing. Any member who may have already spoken to a motion, must obtain permission from the Chair to be again heard regarding it. The Chair may at any time announce that the subject is open for conversational discussion.

3. No debate may be had except upon a motion regularly before the meeting.

4. The previous question when moved must be seconded by at least two members.

5. A resolution calling for or receiving a report or other document shall not bind the meeting to an approval of it.

6. The Chair shall decide all questions of order.

7. A motion to adjourn shall always be in order.

8. In voting no proxies shall be allowed.

ORDER OF BUSINESS

At the Annual General Meetings of the Association the order of business to be observed shall be as follows : -

1. Reading minutes of previous meeting.
2. Business arising out of minutes.
3. Receiving communications.
4. President's address.
5. Secretary's report.
6. Treasurer's report.
7. Reports of Standing Committees.
8. Reports of Special Committees.
9. Unfinished business.
10. New business.
11. Notices of motions.
12. Election of officers.
13. Induction of officers.
14. Appointment of Chairmen of Standing Committees.
15. Appointment of Representatives to Toronto Industrial Exhibition Association.
16. Reading papers and informal discussions.

This order of business may be suspended or varied at any meeting by unanimous consent.

As far as applicable, this order of business shall be observed at all other meetings of the Association, and of the Standing Committees.

AMENDING BY-LAWS

These By-Laws may be amended at any meeting of the Association by a two-thirds vote of the members present, one month's notice in writing having been given to the Secretary by the member desiring such amendment. This notice must contain the precise terms of the alteration proposed; and such proposed amendment shall be included by the Secretary in his circular to the members calling the meeting at which the amendment is to be considered. It shall be in order that amendments to the amendment to be voted on shall be discussed and voted on at the same meeting.

DOTY ENGINE WORKS COMPANY

TORONTO

The Secretary of the Canadian Manufacturers' Association, who is also Editor of the Canadian Manufacturer, desires to make this statement :

Among the objects the Association has in view is the dissemination of facts concerning it, and the publication of such arguments as will afford enlightenment regarding its aims and regarding the policy of tariff protection to Canadian manufacturing enterprises.

The better to accomplish these objects the Association was pleased to adopt the Canadian Manufacturer as its champion and organ.

To test the question as to whether, in his dual capacity, the Secretary and Editor was working to the best advantage in the interests of the Association and of manufacturers generally, an expression of opinion regarding it was requested of members of the Association, and following are extracts from some of the replies thereto ; and it is only to show the sentiments of the writers that, in the following pages, their views are given :—

W. K. McNaught, *Sec.-Treas.*

American Watch Case Co.

President Canadian
Manufacturers' Association.

TORONTO, Aug. 19, 1892.

It affords me no small pleasure to bear testimony to the ability and fair-mindedness which has characterized your editorial management of the Canadian Manufacturer. Your articles not only bristle with facts, but are sound and to the point; and in my opinion it would be a good thing for the country if they could be read by every voter as well as every manufacturer in the Dominion. In regard to your services as Secretary of the Canadian Manufacturers' Association, I consider that you have performed your duties faithfully and with marked ability; and from an intimate personal knowledge of what has been done and is being done, I am of the opinion that the Association has been singularly fortunate in securing your services.

James Watson, *President*

Strathroy Knitting Co.

Mnfrs. of Knitted Goods.
First President Canadian
Manufacturers' Association.

HAMILTON, ONT., Aug. 22, 1892.

I have much pleasure in saying that during the time you have been Secretary of the Canadian Manufacturers' Association, you have given every satisfaction. You have taken great interest in the working of the Association, thoroughly understanding the duties which were required of you; and you have throughout been of great use and help to the manufacturers. I hope you will continue to take the same active interest you have heretofore done.

It is a cardinal principle of Protection that the Home Market is a thing of great value which belongs to the people, and which should not be given away to strangers.

Moderate duties only should be imposed upon articles which we cannot economically produce at home.

WHEN WERE YOUR BOILERS LAST INSPECTED?

R. W. Elliot

Elliot & Co.

Mfrs. Drugs, Chemicals, etc.
Ex-President Canadian
Manufacturers' Association.

TORONTO, Aug. 20, 1892.

The receipt of another number of the Canadian Manufacturer containing a very valuable article as to the attitude of the Government towards our Association, reminds me of the debt of gratitude we owe to you for the many able articles which have set forth our views and defended our interests. These have been the seeds of thought from which many other journals have derived inspiration. We want such articles all the time.

Thomas Cowan

Engine and Machine Works.
Ex-President Canadian
Manufacturers' Association.

GALT, ONT., Oct. 21, 1892.

Allow me to congratulate you on the success which has crowned your efforts as editor of the Canadian Manufacturer. Your articles, besides being well written, contain a vast amount of valuable information, and have done much to educate public opinion in favor of the development of our home industries. They have also done much in the direction of cultivating and developing a Canadian National sentiment, so much to be desired. I hope you may long be able to pursue the noble work in which you are engaged.

As Secretary of the Canadian Manufacturers' Association, I am sure I express the sentiment of every member of that important body when I say that, since you assumed that position, you have never relaxed your efforts in the direction of promoting its best interests. My experience is that whether visiting you personally, or corresponding with you on business, you were always ready to extend a hearty welcome, or to give prompt attention to any matter requiring your services. I wish you every measure of success in your dual capacity.

Protection, by reserving the home market, organizes industry, lessens the cost of production and utilizes the country's resources.

I desire to express my appreciation of the services you have so ably rendered, and the painstaking care you have ever exemplified in our interests, and in the interests of other industries since you have been connected with the Canadian Manufacturers' Association. While perhaps it has not been possible for you to accomplish the utmost wishes of all the members, I feel sensible you have done your duty. I trust you may receive the encouragement you deserve in your efforts to further the interests of the Association.

Bennett Rosamond, M.P.

Rosamond Woolen Co.

Ex-President Canadian
Manufacturers' Association.

ALMONTE, ONT. Aug. 29, 1892.

From all the intercourse I have had with you as Secretary of the Canadian Manufacturers' Association, added to a constant perusal of the Canadian Manufacturer, assures me that you are a worthy successor to your predecessor, Mr. Nicholls, which, everyone knows, is saying a great deal. As a member of the Association, I hope you will long continue your connection with it.

In free trade Britain the duties and income tax average \$4.36 upon each man, woman and child. Free trade is an expensive luxury, which has resulted in making more than 25 paupers to each 1,000 of the population. The United States, Germany and France have protection. In the first there are less than 2 paupers to each thousand of the population; in Germany there are less than 7, and in France less than 8. Both Germany and France are as old and as densely populated as Britain; their Governments are as expensive, and their natural resources no greater.

Protection is the Political Issue

George Booth, *President*
Booth Copper Co.

Treasurer Canadian
Manufacturers' Association.

TORONTO, Aug. 16, 1892.

It was no slight responsibility to succeed to the position held by Mr. Nicholls, the late Secretary of the Canadian Manufacturers' Association, but I am pleased to bear testimony that you have ably filled the place. You have been indefatigable in your attention to the requirements not only of the individual members, but of the Association as a whole. The finances of the Association have been put on a better basis by you than at any former time. I congratulate the Association in having secured your services.

William Christie
Christie, Brown & Co.

Biscuit Manufacturers.

TORONTO, Aug. 17, 1892.

When you took the position of Secretary of the Canadian Manufacturers' Association, and of editor of the Canadian Manufacturer, I had grave doubts of your ability to fill the place. However, time has shown the wisdom of the selection. Your course as editor has been and is commendable, inasmuch as you have taken an impartial view of all questions on which you have written. You have been a consistent advocate of protection even when such views did not accord with those of the powers that be. The Canadian Manufacturer has filled a niche long vacant, and filled it to a nicety.

We often hear of the benefits of free trading in the open markets of the world. This means the fiercest competition between all industries in all countries. It means that the country that produces the cheapest has the strongest probability of succeeding. It means that to produce the cheapest, even with labor-saving machinery, wages must be depressed to the point of starvation. "Free trade" and "the open markets of the world" resolve themselves into a scheme to enslave and debase labor.

Samuel May, *President*
Dodge Wood Split Pulley Co.

Manfrs. Wood Split Pulleys, etc.
TORONTO, Aug. 27, 1892.

Respecting your services as Secretary of the Canadian Manufacturers' Association, we must say that we have always found you eagerly watching the interests of the manufacturers, and always prepared with appropriate data and statistics to throw light on subjects under discussion. We believe you have been largely the means of bringing the Association to its present successful standing; and we hope you will long continue to give the manufacturers of the Dominion the benefit of your able services.

A. T. Paterson, *Manager*
Londonderry Iron Co.

Manfrs. Pig Iron, etc.
MONTREAL Aug. 24, 1892.

So far as my information extends, your services have been valuable to the Canadian Manufacturers' Association. I have read many articles in the Canadian Manufacturer which indicate a much more sound and intelligent appreciation of the real interests and proper trade policy of this country than is usually met with among those who attempt to handle such questions.

If a foreign nation should send a fleet and bombard and destroy a Canadian city, every Canadian would burn with indignation and demand that some sort of reprisal should be inaugurated. But such vandalism would be of less importance to us than that foreign capital should be allowed to demolish our important domestic manufacturing industries.

All crude materials used in manufactures which cannot be produced to any considerable extent in the country, or which, from climatic or other causes not depending on the cost of labor, cannot be produced at home under as favorable conditions as elsewhere, should be admitted duty free.

J. H. Birkett, *Sec.-Treas.*

*Canadian Locomotive
and Engine Co.*

| Locomotives, Machinery, etc.

KINGSTON, ONT., Aug. 22, 1892.

I have great pleasure in bearing testimony to the zeal with which you continually advocate the cause of the National Policy, and to the fearless way in which you always speak your mind when the Government seems to be tending away from the line laid down as the platform of the dominant party of the country. Always on the alert for any information that may be of use to your numerous patrons, yours is no sinecure. Your efforts call for the hearty co-operation of the great community of manufacturers, and you deserve that which is sometimes more than mere financial recognition—hearty expressions of approval and commendation. I hope you may live long to make the paper over which you preside heard and its power felt in the cause of the mainstay of this great country.

J. L. Goodhue & Co.

| Mnfrs. Leather Belting, etc.

DANVILLE, QUE.

It gives me much pleasure to say that your services as editor of the Canadian Manufacturer and as Secretary of the Canadian Manufacturers' Association have met with our fullest approval. Your outspoken defence of the National Policy, and claiming "Canada for Canadians" we have greatly admired, as well as your fearless criticisms of the faults in our tariff and the position of the Government in regard to them. We wish that your articles on these points could have a wider circulation among the general public, and that we had more writers of your stamp on other Canadian papers.

Resolved,—That unrestricted reciprocity with the United States would work the destruction of the National Policy, and, therefore, would be against the interests of Canadian manufacturers and to the great disadvantage of all the people of Canada. *Unanimous vote of Canadian Manufacturers' Association.*

I am very much pleased to have an opportunity of expressing my very high appreciation of the able manner in which you have conducted the Canadian Manufacturer, and of the convincing way in which you have upheld the principles of the National Policy. The perusal of your editorials has been a pleasure to me, and I am sure they should be convincing to all who honestly desire to be enlightened on the great question of the best policy for building up our country. I trust we may long have your able assistance as editor of the paper, as well as your most valuable services as Secretary of the Canadian Manufacturers' Association.

H. McCULLOCH, Jr., Sec.-Treas.

The Goldie & McCulloch Co.

Mnfrs. Steam Engines, etc.

GALT, ONT., Oct. 7, 1892.

We have much pleasure in stating that we have always very highly appreciated the Canadian Manufacturer, and the way it has been conducted under your able editorial management; and we have no doubt you will continue to render it the leading organ in the interests of Canadian manufacturers. In our opinion you have discharged the onerous duties of Secretary of the Canadian Manufacturers' Association very faithfully, and we trust you will long enjoy health and vigor to enable you to continue the important work and duties which devolve on you.

Any form of taxation is always more or less inconvenient. The best form of taxation is that which rests most easily upon the people, and, while raising the revenue, gives encouragement to the people in their chosen occupations. Taxation in some form is a necessity, and whatever system will produce the revenue with the least burden and inconvenience should be the national system.

John Cowan, *President* | Mnfrs. of Malleable Iron,
Oshawa Malleable Iron Co. | OSHAWA, ONT., NOV. 4, 1892.

As Secretary of the Canadian Manufacturers' Association, it is only fair to you to observe that, following in the steps of your predecessor, Mr. Nicholls, who enjoys the universal esteem due to his varied talents, you have, mainly through the faithful performance of your manifold duties, succeeded in increasing the membership and advancing the usefulness of the Association. The circumstance of your freedom from political bias in dealing with industrial questions must commend itself to the approbation of every fair minded man; and your advocacy of a moderate protection to manufacturing interests, based upon the real requirements of our country, rather than a rigid adherence to abstract theories, certainly appears to favor at all times the existence of a tariff calculated to insure a steady development of it.

Chas. G. Pease, *Sec.-Treas.* | Mnfrs. Rattan Furniture, etc.
American Rattan Co. | TORONTO, Aug. 24, 1892.

Your long service in the interests of Canadian manufacturers as editor of our representative journal, the *Canadian Manufacturer*, and as Secretary of our Canadian Manufacturers' Association, has earned for you a very large place in our esteem, and we hope you will continue to hold these trusts for a long time. The general interests of all manufacturers have been upheld by your discussions of ways and means to benefit the craft.

As a nation, Canada possesses great material advantages for the building up of an intelligent and happy people; but these would be surrendered if too largely shared. Canada should not part with her birthright. As well might a father of a family, just embarking in a prosperous business with a small capital, distribute his property equally among the poor of his neighborhood, depriving himself of the means of providing for his children.

George W. Sadler

Robin & Sadler,

Mnfrs. Leather Belting, etc.

MONTREAL, Aug. 26, 1892.

We have for years read your editorials in the Canadian Manufacturer and have always found them to have the true ring and right spirit as to the advancement of Canadian industry and the National Policy, besides being ably written and pleasant to read. As to your connection with the Canadian Manufacturers' Association, we think from our experience and observation that the position you hold could not be better filled. We must say you are always attentive and obliging to members who come in contact with you, who might be seeking information in connection with the Association. We hope to see you wield the pen for many years more in the interests of Canada, Canadians and Home Industry.

George Burch, Manager

Whitman & Barnes Mfg. Co.

Mnfrs. Edge Tools, etc.

ST. CATHARINES, ONT., Aug. 19, 1892.

We are in a position to testify to the merits of the Canadian Manufacturer. The editorial department has not only been conducted with much ability, but has also been truly loyal to Canadian manufacturing interests. Your services as Secretary of the Canadian Manufacturers' Association are much appreciated.

The working man knows the blessings of protection in the work he performs and the wages he earns. The farmer knows it in the home market he enjoys for his products. The consuming classes know it in the cheaper goods they buy.

That the nations of the world fully recognize the hostility of free trade to their interests, is demonstrated by the fact that practically all of them have protected themselves against it, just as they have protected their harbors with fortifications.

| Canada Iron Furnace Co.

MONTREAL, Aug. 16, 1892.

I have pleasure in stating that I take much interest in reading the able articles which from time to time appear in the Canadian Manufacturer, more especially those dealing with matters connected with our Protective Tariff. As a manufacturer, I am of course fully in accord with the stand the editor of that paper has taken in regard to this question. He is doing a good work for the interests of Canadian manufacturers, and in doing it for them he is doing it for the whole country.

Cyrus A. Birge, Manager

Canada Screw Co.

| Mnfrs. Screws, etc.

HAMILTON, ONT., Aug. 17, 1892.

I have appreciated very much your efforts to advance the interests of Canadian manufacturers and of the country generally through your articles in the Canadian Manufacturer; and I feel sure these efforts are being appreciated not only by the manufacturers, but by many others. They are instructive, and have an undoubtedly strong educating influence in favor of the policy of protection. Your efforts as Secretary of the Canadian Manufacturers' Association have been earnest and faithful, and I have appreciated them very much, as have other members of the Association. Only warm interest in the welfare of the Association could have induced the strong efforts which you have made to advance and promote its usefulness.

No manufacturing industry can attain a proper measure of prosperity if those who cultivate the soil have their purchasing power crippled by excessively low prices.

Canadian manufacturing industries are in continuous competition with similar industries in other countries; and without tariff protection they would be driven out of the Home Market under present conditions of wages.

We have been much pleased and instructed in reading the Canadian Manufacturer. The information given and the general get up of the paper is such as to make it welcome to all manufacturers as well as to all who take an interest in the manufacturing development of the Dominion.

A. J. Parker, *President*

Acme Silver Co.

| Mnfrs. Silver-Plated Ware.

TORONTO, Aug. 16, 1892.

Your services have been of inestimable value to the manufacturers of Canada in your capacity both as editor of the Canadian Manufacturer and as Secretary of the Canadian Manufacturers' Association. Your editorials in the Canadian Manufacturer meet the approval of all who uphold the National Policy.

The National Policy was not made in the interest of any country but Canada. There is no sentiment in it. Either with or without it we cannot sell abroad one dollar's worth of anything we produce more than the country we sell to is willing to take. Under it the best methods obtain for conducting the business of the country, and for securing the greatest good to the greatest number. It was framed upon business principles, to protect as far as possible every class of the community. Every worker, whatever his occupation, whether the remuneration be fixed or fluctuating, is benefitted by it, because the prosperity of every individual depends upon the prosperity of every other individual. Low wages for laborers means low wages for professional men. There is no escape from this fact. So long as the foreigner stands ready to capture our market with the products of his low wage labor, so long shall we need the National Policy to protect us from such assaults.

THE CANADIAN MANUFACTURERS' ASSOCIATION

Promote Canada's Manufacturing Industries

H. E. Walton, *Manager* | Mfrs. Vehicles.
Gananoque Carriage Co | GANANOQUE, ONT., Aug. 18, 1892.

I have much pleasure in expressing the confidence we have in the utility of the Canadian Manufacturer. It is the one consistent protective journal published in Canada, and you deserve much credit for its able editorials, and also for your efforts in behalf of the Canadian Manufacturers' Association, of which you are Secretary.

L. J. Cosgrave | Brewers and Maltsters.
Cosgrave & Co. | TORONTO, Aug. 20, 1892.

I have much pleasure in testifying to the marked ability with which you have conducted the editorial department of the Canadian Manufacturer. The manufacturers of the Dominion should consider themselves much indebted to you for your advocacy of their interests. They have not failed to note the ability and care with which you have discharged the duties of Secretary of the Canadian Manufacturers' Association.

Henry J. Bird | Mfrs. Tweeds, etc.
Bracebridge Woolen Mills | BRACEBRIDGE, ONT., Aug. 20, 1892.

I have much admired the bold and trenchant manner in which you have combatted for the true principles of our National Policy. Both as editor of the Canadian Manufacturer, and as Secretary of the Canadian Manufacturers' Association, you have fought well and manfully for the best interests of the manufacturers of Canada and for the welfare of the country; and I beg to testify my approval of your vigilance in our interests.

Dean Swift said: "Whoever makes two blades of grass to grow where only one grew before, deserves better mankind, and does more essential service to his country than the whole race of politicians put together." And that is just what the National Policy does for Canada.

CORALINE CORSETS

The merit and popularity of our Coraline Corsets are attested by the fact that the sales are increasing rapidly year by year. They are filled with the best pressed and tempered Patent Coraline Cord, which, as a filling, is the most popular and satisfactory at present in use. Ladies are cautioned against the purchase of worthless imitations of our Coraline goods. The genuine Coraline is better value, and gives better service for the money than any apparent imitation. They can always be recognized as they have our name, with Coraline and Date of Patent stamped on the inside of the Corset.

Patented July 28th, 1881 ; September 19th, 1889

Brains and Capital

**A
Partner's
Death**

IN every partnership there are two factors of great importance: The managing brain and the capital employed, and if death removes either the business must suffer. It often happens that the brains belong to one man and the capital to another. If the manager dies the capital is worth less than before; if the capitalist dies and his capital is withdrawn, the manager is crippled. It is clear that each has an insurable interest in the life of the other, because the profits of each depend in part upon the life of both. The firm should therefore insure for the benefit of the business on either the ten-twenty plan or the natural premium life plan of the Manufacturers. These are the plans best adapted for partnership insurance, the premium rates being very low; and it is respectfully suggested that no firm can afford to be without this protection.
