Turn First Sod of G.T.P. At Fort William July 1

Will Mark Beginning of Construction of Branch From Lake Superior to Main Line—Contracts Moncton to Winnipeg to Be Let This Fall.

Montreal, May 5.—(Special.)—It is understood that Dominion Day will be celebrated this year in Fort William by the turning of the first sod of the Grand Trunk Pacific branch, which is to connect the main line with the waters of Lake Superior, at a distance of 300 miles.

If Obstructed, To Shoot Deputies Ride on Wagons

Sheriff Starts in Well and Broken Backbone of Strike is Driven—Employees Accuse Police of Dereliction of Duty.

Chicago, May 5.—(Special.)—Determined efforts to break the teamsters' strike will be made by the employers to-morrow morning. Armed deputy sheriffs will ride on the wagons beside the non-union drivers and they have offers to shoot the first person who attempts to interfere.

A family grocery supplies is impending, owing to the teamsters' strike among the wholesale grocery houses. Already prices of many commodities have gone up. This is particularly noticeable also in fresh fruits and vegetables. Strawberries to-day are three cents a quart higher on account of the strike. Staple goods are also reported short all over the city.

One Way to Stop Rioting.

Rioting continued in various parts of the city again to-day, especially in the downtown district. Several people were hurt during the day, including by-standers, as well as strikers and strike breakers. Numerous arrests were made. An order issued early in the day by Chief of Police O'Neill directing that all persons should be prevented from following wagons as they went through the streets had much to do with the absence of rioting. The police to-day turned back all groups of men that attempted to follow wagons.

A Brutal Assault.

Edward Lashen, president of the Lashen Teaming Company, was severely beaten by union teamsters at West Madison and Union-streets. Lashen was driven out of his own wagon and was asked to show a union button. Before he was given a chance to explain he was pulled from his wagon, knocked down and kicked. Police Lieut. O'Connor was in time to capture Lashen, and his condition is serious.

Edward W. Johnson, a colored porter in no way connected with the strike, was attacked to-night and beaten in the face with brass knuckles. Sheriff Barrett to-day expressed the belief that the crises of the strike was over and the backbone broken.

The Employers' Association this afternoon decided to offer a reward of \$500 for the arrest and conviction of any person interfering in any way with strikers who have taken the places of employees.

GASOLINE STOVE EXPLODES.

Teacher and Pupil Painfully Burned at Lachine Academy.

Montreal, May 5.—An explosion of gasoline, by which a teacher and pupil were painfully injured, occurred at the Lachine academy. During the noon hour several teachers and pupils have been accustomed to use a little gasoline stove for the purpose of making coffee. They were when one of the teachers was lighting the stove the gasoline exploded.

The teacher, Miss Winifred Davies of Montreal West, was badly burned, and a little boy named Lancaster of Montreal West, a pupil at the institution, had his hands scorched.

“Bobs” to See Buffalo Regt. 74th to Visit Toronto Then Lt.-Col. Pellatt Arranges for Postponement of Dominion Day Trip So That Boys in Blue May Come Sept. 1.

Buffalo, May 5.—(Special.)—The board of officers appointed by Brevet Brigadier General Fox to make arrangements for the visit of the 74th Regiment to Toronto have now decided to send the command to the Canadian city on Sept. 1. July 1 was the original date selected, but at the suggestion of Lieut.-Col. Pellatt, commanding the Queen's Own Rifles, the trip was put over until September.

Public Can Bring Pressure To Defeat Western Coercion

Meetings in Every Municipality Will Compel Government to Abandon Autonomy Bill.

Parliament has upheld the principle of the coercion clauses of the autonomy bill by a large majority. The pronouncement does not reflect public sentiment throughout the country. Ontario, the whole west, New Brunswick, Nova Scotia and Prince Edward Island are opposed to the coercion of the people who are about to enter the sisterhood of provinces. Their representatives in the following of the government were induced to support the bill by the most despicable means. Some of them were appealed to on grounds of party expediency. Some of them were tempted, some were intimidated. And the result of this manipulation is that the house of commons has passed the second reading of the autonomy bill on a vote of 140 to 59.

EXTRAORDINARY LEGISLATION.

Ordinarily the members who have betrayed their constituents may be left to the judgment of the people. For the common, everyday crimes against good government this is sufficient. But the autonomy legislation is extraordinary legislation. It affects the liberties of half a million people of the present day, and it reaches into the future to lay upon the millions who are to inhabit the Northwest restrictive legislative action in the matter of education. It will not help the 500,000 people who are the present victims of coercion or the millions of new generations, that some of the authors of the iniquity are left at home at the next general elections and that others bask in the luxury of senatorships and public office. The great question is, how can we prevent the perpetration of the outrage? Popular vengeance, as manifested at the polls, cannot restore the liberties that have been legislated away, but obstruction at Ottawa, obstruction aimed at the life of the coercion clauses of the autonomy bill, will render the west secure in the liberties that the other provinces enjoy. Obstruction defeated the remedial bill. Obstruction as a weapon of parliamentary warfare is as effective to-day as it was in 1896.

TWENTY MEMBERS NEEDED.

Fifty-nine members are on record against the coercion of the Northwest. Twenty of these members, if they are in deadly earnest, can prevent the bill going through the committee stage. Ten members can hold the house for 24 hours, and 20 of them can hold it for an indefinite length of time. Surely there are, among the 59 members who voted against the autonomy bill, 20 who are prepared to make this struggle, for the independence of the Northwest.

The World believes that the necessary number of members can be found to obstruct the measure, but the willing must have encouragement and the lukewarm must be urged. And here is where the public comes in. The public is the one force which can initiate obstruction in the Dominion parliament, and it is the one force which can maintain it to the point of success. If the public is in earnest, and we believe it is very much in earnest, it has only to manifest its desire for obstruction to have its mandate fulfilled. To every Ontario elector interested in protecting the Northwest against the imposition of separate schools, The World would say:

- ### AN APPEAL TO THE PUBLIC.
- (1) Write to the member of your electoral division, calling upon him to resist the legislation at Ottawa. A letter enclosed in an unstamped envelope, addressed House of Commons, Ottawa, will reach him.
 - (2) Organize a public meeting. Any twelve freeholders, by making requisition of the mayor or reeve of the city, town, village, or township, as the case may be, can have a public meeting called, on three days' notice. The World publishes to-day a form of the requisition.
 - (3) Cut out the accompanying form. Get the necessary number of signatures and forward it to your mayor or reeve. He is bound to call a public meeting forthwith.
 - (4) Invite your member to be present at the meeting. Call upon him to state specifically what he is willing to do to defeat the coercion clauses. Pass strong resolutions calling upon your member to enter the campaign of obstruction at Ottawa.
- A month of meetings of this kind, in conjunction with obstruction tactics at Ottawa, will compel the government to abandon its policy of coercion. Many things have happened since the bill was introduced to cause the government to hesitate to proceed with its coercion program. The majority it has secured on the second reading is large in appearance, but it has size without substance. The right kind of resistance will shake it to its very foundation, and the government will not dare risk the result of a large siege backed up by public sentiment.

A CLEAR-CUT ISSUE.

The World believes that the issue in the autonomy bill is more distinct to-day than it ever was. The line of cleavage is clear. There can be only two camps of public opinion, that which will fight the bill till it is defeated or withdrawn, and that which favors or condones the coercion of the Northwest. The Globe must join one or the other of these camps. So must Leighton McCarthy, M.P. So must every public man and public journal which has taken the public school know who are the true and who the spurious friends of provincial rights and educational liberty. And it will find out if it forces its representatives to take one side or the other of the simple question:

“Are you prepared to oppose the coercion clauses till they are defeated or withdrawn?”

And never forget that the basic reason for parliamentary obstruction to a constitutional law—which can never be repealed—is that the principle of it ought to be submitted to the people in a general election before it is introduced in parliament.

REQUISITION FOR PUBLIC MEETING.

To _____ mayor (or reeve) of the city (town or township) of _____

“We, the undersigned ratepayers of the municipality of the city (town or township) of _____, in the county of _____, hereby request you to convene a public meeting of the ratepayers of the municipality at the city hall (or other convenient meeting place), on _____ day, the _____ day of 1905, for the purpose of considering the educational clauses of the bills providing for the admission of the Territories of Alberta and Saskatchewan as provinces of the Dominion of Canada, now under consideration by the House of Commons of Canada.”

WHAT SHALL THE HARVEST BE?

THE COERCIONIST POLITICIAN SOWS BROADCAST THE SEEDS OF DISCORD.

Premier and Downey Star At First Baseball Game

Then Toronto Beat Rochester in Garrison Finish, Scoring 6 Runs in Eighth and Ninth, With Much-Needed “Home” to Excite the Fans.

The Eastern League baseball season was formally opened Friday afternoon at Diamond Park. The weather was ideal—nice and warm, without wind. The threatened showers didn't materialize, and the result was a bumper crowd for our opening day, and a Friday at that. The impression has been gaining ground of late that Toronto has a strong team this year. This impression was rather increased by the opening experience on Friday at the ball grounds, and if the same quality of ball is served up in the coming games as was developed in the inaugural game doubtless crowded stands will result all summer. For many years Toronto has been unable to win the opener; few there are who remember a time when the first was left as a victory. But Friday's game dispelled this old idea, and for the first time in many years the opening contest resulted in a victory. The crowd, the anxious to win hardly expected their team to win out; consequently when they did so, the fans went wild, tossed caps in the air and crowded over the stands onto the field and even up the playing line.

Crowd Big and Curious.

The opening attendance was a remarkable one, considering all the circumstances. It was, however, doubtless due to a desire on the part of the Toronto fans to see what kind of a team Manager Harley has collected. It was also due to the fact that Hon. J. P. Whitney, Premier Ontario, had consented to open the pitching season and that J. P. Downey had consented to catch. Everybody was anxious to see the new battery work in the initial game. And they were not disappointed.

It required fully all afternoon to get the season of 1905 initiated. First on the program was the usual procession, which left the Grand Union Hotel at 1:45 and toured several of the important downtown streets. First came a small detachment of mounted police, then the Q. O. R. band in a tall-ho—the horses being decorated with banners advertising the fact that a baseball game was on. Then came the directors and past officers of the Toronto Baseball Club in their carriages, and with them were the officials of the Rochester club. Last in the procession were the Rochester and Toronto players, also in open carriages. The representatives of the press were also accorded a fitting position in the parade.

At the Ball Grounds.

At 3 p.m. the grounds were reached and an entrance was made at the southwest end of the park, and disembarkation took place in the centre of the field at the south end. The players were then formed in single line, and with the Q. O. R. band on their left, marched forth to the stands. Promptly on time the Premier of Ontario and the party representing the Ontario legislature, whom had been entrusted the duty of officiating at the opening—reached the grounds. The carriages entered at the south gate and circled the field almost before the front of the stands was reached. Here the party left their carriages. Premier Whitney was given a flattering reception by the people present, which he fittingly acknowledged.

PROMOTER ASKS \$2,258,000 FROM E. R. WHITNEY OF MAGOG

CLAIMS CANADIAN MILLIONAIRE WENT BACK ON AGREEMENT RE ASBESTOS MINES OPTION.

New York, May 5.—(Special.)—It was learned to-day that just before E. R. Whitney of Magog, Canada, who recently married a telephone girl, sailed for Europe on his honeymoon, he was served with a summons in a suit for \$2,258,000, the complainant being Richard S. Kauffmann of No. 42 Broadway, this city.

“We accepted service of the summons,” said Mr. Newberger to-day, “but we have no complaint as been prepared, and it is my opinion that none will ever be served. Certainly the case will never come to trial, for although Mr. Whitney is worth many millions he does not owe Kauffmann, who is a promoter, a single penny.”

According to Kauffmann, Whitney is the owner of certain asbestos mines in various parts of Canada, and after obtaining options on other such mines, he engaged Kauffmann to finance the securities of a projected consolidation, Kauffmann says he took an option on the bonds and interest on the proposed company.

After he had made much favorable progress, Kauffmann alleges that Whitney suddenly announced that he had given some German bank an option on the \$2,000,000 bonds, and that Kauffmann's work failed. He says his compensation as promoter was a suit for \$2,258,000 in cash and \$2,000,000 in stock.

WOULD CALL A CONVENTION AND DEMAND RESIGNATION

West Huron Conservatives Are So Indignant With Lewis, M.P., They Threaten His Seat.

Goderich, May 5.—(Special.)—So intense is the feeling among the Conservatives of the riding of West Huron over the misrepresentation accorded by E. N. Lewis, the Conservative member, in his vote on the Borden amendment, that his resignation will in all likelihood be requested. Although his stand is not altogether unexpected, it is as bitterly resented now that his betrayal—for so it is called—is a registered fact. In view of the protest petitions signed throughout the riding and the plain opposition to the autonomy bills manifested, it is felt that there must be “something” behind Mr. Lewis' vote.

James Mitchell, secretary of the West Huron Conservative Association, to-day wrote the president of the association regarding the advisability of calling a convention without delay and demanding that Mr. Lewis retire.

Garry, chairman of the board of directors of the corporation, said: “In the absence of the president of the company, Mr. Corey, who sailed for Europe two days ago, it is impossible for me to discuss our plans. We have had several men in Ontario looking over the ground, and they report that conditions in the steel trade are promising in that province. What we do cannot be announced as yet, but we are in possession of information which probably will be made known on the return of the president from Europe.”

THE FIRST ISSUE OF THE COMPANY'S

Business, Residential and Winter Resort Lots—The Site Consists of 640 Acres, About One Mile Square in Area.

It is situated on a slight elevation, sloping from the center on either side towards the sea, chosen very carefully by the members of our company and the company's engineers with a view towards insuring perfect drainage. The location is well suited to the development of a thriving business and residential community.

This tract is being divided by many avenues and a grand boulevard. The arrangement is effective, and when the streets and avenues have been cleared, leaving only the stately royal palms, there will be no more picturesquely beautiful spot in the tropics. Most of the lots are 50' x 125' in size, except where otherwise surveyed, as per plan.

These lots are unusually large and their size gives plenty of room for lawns, gardens, fruit and shade trees. The first issue will be sold for \$50.00 to \$100.00 each lot, according to location. Call or write for early selection and get your choice. Only a limited number will be sold at this price.

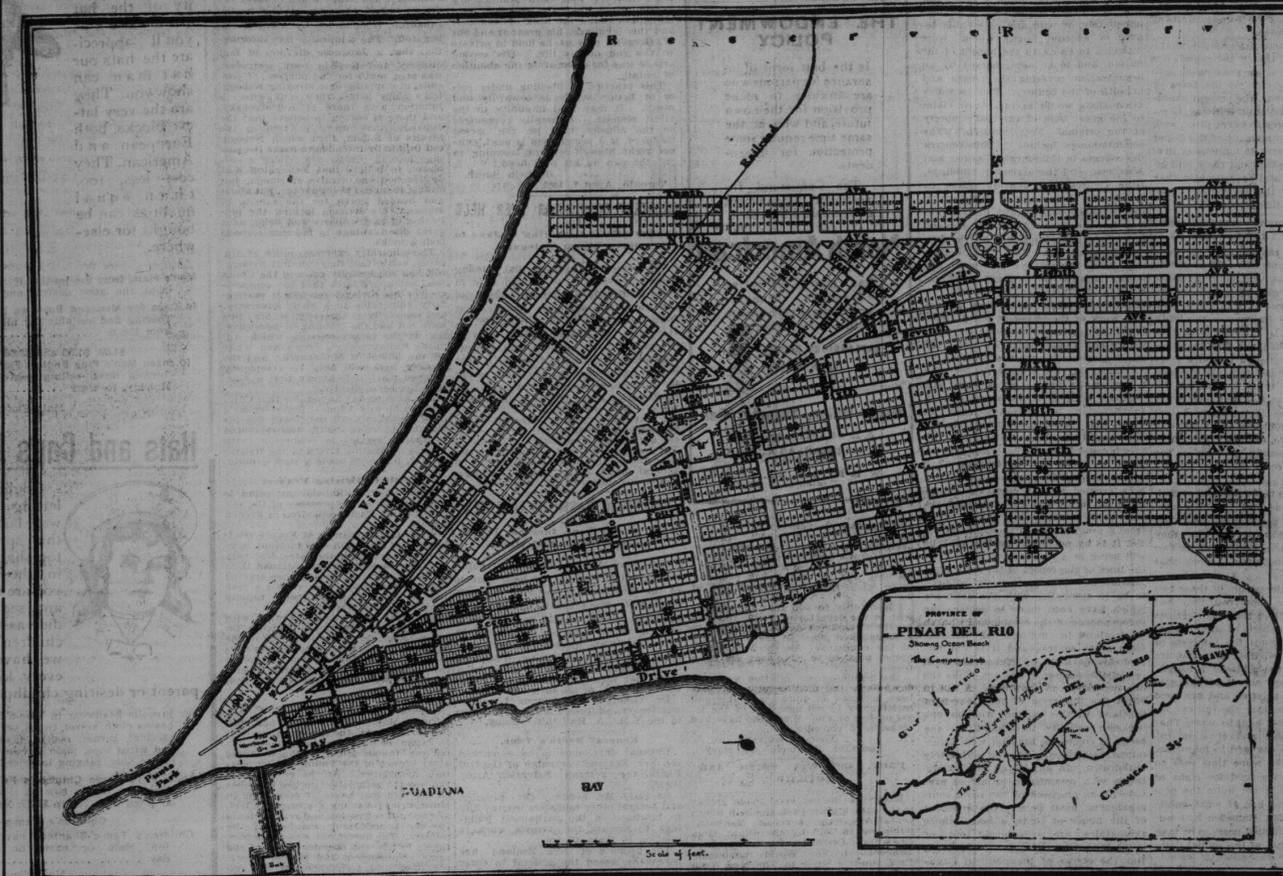

Remember that hundreds of Canadian families have purchased plantations from our company and are going to make their permanent home on our estate. Very few plantations lots are now left of our first issue at \$50 per acre. Our next issue of 10,000 acres will be \$20 per acre.

The same quality of lands can't be bought in Cuba for less than \$50 per acre anywhere and today.

Our Business and Residential Lots will be sold rapidly, so don't let this opportunity pass. It is a chance in a lifetime. The same lots will advance in price rapidly.

Hundreds are going down in September who have already located for their lot.

So rich is the soil of Cuba that a tract the size of a city lot will furnish all the fruit and vegetables that a family can consume.

The above Plan is a Sketch of the Survey of the Company's New Business, Residential and Winter Resort Site, adjoining the Colony of the Canada-Cuba Land and Fruit Company, Limited, in the Province of Pinar Del Rio, Cuba.

VALUE OF AN ACRE OF LAND IN CUBA.

Not only is Cuba attractive as a winter and health resort and permanent place of residence, but the fertility of its soil gives it agricultural conditions which are fast making it famous as a field for the cultivation of Citrus Fruits and Early Vegetables.

Every acre of tillable land in Cuba is, in our opinion, worth \$100 as it is today. Cultivated (in oranges, for instance), it is worth \$1000.

These assertions seem broad, but they are not the less true. Every acre of good citrus fruit land in Cuba will yield from \$300 to \$500 yearly. Call the average \$350 and you have TWENTY-FIVE PER CENT PROFIT ON \$1000 VALUATION—that is, of course, on the supposition that your land and planting COST YOU \$1000 per acre. California oranges pay these returns and are sold at these prices, in spite of their drawbacks, which don't exist in Cuba.

RESOURCES.

Citrus Fruits, such as Oranges, Grapefruit, Pineapples, Lemons and Limes, grow almost without care, while early vegetables—Potatoes, Beans, Peas, Tomatoes, Cucumbers, Onions, Corn, etc., can be grown and shipped in December and January, when they bring the highest prices in the Northern Markets.

The light soil of the Island's rich loam—is loose and easily worked. Its fertility is marvellous. In fact, the climate and agricultural conditions make it a natural fruit orchard and a huge winter vegetable garden, requiring only ordinary effort to yield a rich harvest, its position below the "frost line" insuring to the orange grower the permanency and safety of his investment and far larger returns than can be obtained in Florida or California, since in those localities enormous sums must be expended to protect the orange groves from the killing frosts which frequently prevail.

CAN'T TOUCH UNION FUNDS.

Money in Bank is in Trust for Sick Benefits Only.

The Sheet Metal Workers' Union won a legal victory yesterday when the master-in-chamber decided that funds to its credit in a bank cannot be attached. Action was brought by the Metallic Roofing Company to recover \$140 costs of its suit against the union, following the strike two years ago. Mr. Cartwright held that the money forms a trust fund for the relief of sick members and for general benefits and could not be applied to any other purpose. No costs were allowed either party.

Leave was given St. George's Church, Guelph, to sell to the Guelph Railway Company 10,000 square feet of the church property held in trust. The price was \$5000 and the church will receive \$2000 to pay off mortgages, and the legislature will pass an enabling act.

Pelletier's Denial.

Quebec, May 5.—Hon. L. P. Pelletier this city denies the rumor that he intends presenting himself in the course of Levis for federal honors in the by-election. Mr. Pelletier emphatically states that he is out of politics for good.

2,500,000 BUSHELS FOR SALE.

Winnipeg, May 5.—The Ogilvie Flour Mills Company, on the subject of wheat in farmers' hands yet to market, stated today that late and complete returns received from buyers and inspectors indicated not more than 2,500,000 bushels for sale after providing for the necessary seed.

Victorian is Icebound.

St. John's, Nfld., May 5.—The Allan Line turbine steamer, Victorian, from Liverpool for Montreal, with 1000 passengers, is stuck in an ice-ice, one mile off Cape Ray, at the entrance of the Gulf of St. Lawrence. She is unable to proceed farther, the ice being packed across Cabot Strait.

Too Many Restrictions.

The suggestion advanced before the board of control on Thursday by the city architect, that a graded tax be levied on building permits, has created a good deal of talk among local architects, who, as a general thing, do not favor the proposition. E. J. Lennox thought that architects would take the course of including the amount of the tax in the price of their services. The consensus of opinion appears to be that sufficient restrictions on building already exist.

KEEP POLITICS OUT.

Officers of Permanent Force Are Given an Intimation.

Ottawa, May 5.—Militia orders promulgated today convey a plainly worded warning to officers of the permanent force who have been employing political influence to secure their own advancement in the service. The notice reads: "The honorable the minister in militia council retracts that he is obliged to call the attention of officers of the permanent force to the unsoldierlike practice that prevails in several quarters of making or permitting to be made, applications to him for changes of station or special privileges through unofficial channels. The minister desires it to be distinctly understood that he will only consider communications from officers of the permanent force that reach him through the proper official channels, and he further desires it to be understood that officers of the permanent force are dissatisfied with their stations or positions, they are at liberty at any time to forward their resignations, which will be promptly accepted."

An Entertaining Advertising Agency.

The development of the advertising business is strikingly shown by the increasing number of college men who are engaging in it. A recent addition to the local ranks is Robert M. Barker, a comparatively young Harvard graduate, who, for four years past, has been active in the public department of the Swift & Co., Chicago, and who is now connected with Albert Frank & Co., general advertising agents of this city, Chicago, Boston and Philadelphia.—The Times.

Mr. Barker's work for Swift & Co.

has attracted wide-spread attention, and through a young man, he has risen rapidly to an enviable position as an expert in the planning and execution of public campaigns.—The Sun.

Mr. Barker has traveled extensively,

and has had several years' experience in newspaper work. He is also well known as a contributor to the magazines.—The Editor & Publisher.

Referring to Albert Frank & Co.'s

new acquisition, The Pittsburg Gazette says: "Albert Frank & Co. place more exclusive financial and high-class advertising than any other agency in the country."

Duncan O. Bull Again Honored.

New York, May 5.—At the annual meeting of the American Jersey Cattle Club in New York City today, Duncan O. Bull of Brampton was elected a director for the ensuing three years. This is the second time in the history of the club that a Canadian has been appointed to the position by the unanimous vote of the Canadian Jersey Cattle Club. He is the youngest member on the board, and it is a great compliment to the Canadian breeders to have one of their number honored in this way by the American Jersey Cattle Club. Mr. Bull, it will be remembered, has just been appointed manager of the Cuban Realty Company, Limited.

C.P.R. Has the Advantage.

Ottawa, May 5.—The railway commission heavily today the application of the department of public works for a crossing over the C.P.R. tracks at Pembroke, to reach a wharf. The C.P.R. contended that there never was a public street there, and the department will have to prove that there was or pay the entire cost of a crossing.

International Railway Men.

Washington, May 5.—The International Railway congress, divided into five sections, devoted several hours to discussions today. Adjournment was taken shortly after noon that delegates might lunch and prepare for the reception at the White House this evening.

PUBLIC INQUIRY.

Endo Saunders at Chatham in License Commissioner's Charge.

Chatham, May 5.—(Special.)—Endo Saunders, provincial license inspector, who is the special commissioner delegated to investigate charges against the West Kent License Board, was here today arranging for the investigation, which will be held here publicly on Wednesday next. The commissioner has been granted full judicial powers and promises an open and impartial enquiry. If no one comes forward to make charges, it is understood the commissioner themselves will place in the box. Crown Attorney Smith will act for the government.

Four Boxes of

Milburn's Heart and Nerve Pills

Effected a Complete Cure.

They are a specific for all troubles arising from a weak condition of the heart or from the nervous system. For troubles such as Palpitation of the Heart, Sleeplessness, Nervousness, Faint or Dizzy Spells, Shortness of Breath, Starting in the Sleep, Cold, Clammy Hands or Feet, Brain Fog, etc., we would strongly advise the early use of Milburn's Heart and Nerve Pills, as this remedy, taken in time, has been the means of saving many a life, and restoring strength to those who were weak, nervous, health-shattered invalids.

Mrs. E. Kilmer, Humberstone, Ont., writes: "Allow me to tell you of the great results I have derived from Milburn's Heart and Nerve Pills. For four years I suffered intense pain around the heart, and was very dizzy. After using four boxes of Milburn's Heart and Nerve Pills, I was completely cured."

Milburn's Heart and Nerve Pills, 50 cents per box, or 8 for \$1.25.

Anglican Women's Auxiliary Made Presentation in Closing Session.

The third session of the nineteenth annual conference of the Women's Auxiliary of Anglican Missions took place yesterday. Miss Ritchie gave an instructive address on missions, and an informal conference was held, all diocesan officers taking part. In the afternoon the proceedings opened with prayer by Mrs. Tilton. The Right Rev. Dr. Holmes, Lord Bishop of Moosomin, delivered an address on "The Women's Ministry." The address was listened to with rapt attention by an audience of upwards of 900 ladies, and the practical hints thrown out by the speaker will doubtless be acted on by some of the members of the branches.

On the occasion of retiring from

the post of corresponding secretary, which office he has held for nineteen years, Mrs. Wiloughby Cummings was presented by the members of the Women's Missionary Association with a solid silver heavy tea service and a large silver salver. Mrs. Davidson, in an appropriate speech, made the presentation. Complimentary speeches from various members of the society followed, after which various committees were formed.

The total amount of thank-offerings

was \$32.25. The session closed with prayer.

Ex-Members G.O.B. Association.

At the annual meeting of the Queen's Own Rifles Ex-Members' Rifle Association, Capt. W. H. Meadows was in the chair. The reports of the various departments showed a marked improvement over former years. The following officers were elected: Captain, W. H. Meadows; second lieutenant, Walter J. Barr; secretary, James Goerke; treasurer, John Mackenzie; auditors, Charles Gilbert and Alexander Noble. All members of the regiment are eligible for membership, and are earnestly invited to join the association. All information can be had from the secretary, 56 Yonge-street, or any of the members. The association begins the season's practice on Saturday next.

Factories in West End.

City Architect McCallum yesterday received applications from the Peace Fur and Fur Co. to erect a foundry on the tracks, to cost \$25,000, and from the Toronto Gas & Gasoline Engine Co. for a factory on the east side of Dufferin-street, below King-street, to cost \$15,000.

GOLDWIN SMITH AND DISRAELI.

Manchester Comment on Novell's Privileges With the Living.

London, May 5.—(C. A. P.)—Owing to weight and construction, the Canadian government's agricultural exhibition car will not be allowed to travel faster than five miles per hour. Commenting on Goldwin Smith's letter to The New York Nation, regarding the edition of Disraeli's novels, recently appearing in the United States, The Manchester Guardian says Goldwin Smith makes some comments which not only concern his own case, but have a wider bearing on the question of the amount of freedom that a novelist may permit himself in dealing with living persons whose identity he but thinly disguises. The "Oxford professor" is represented by Disraeli as a man who has "dreams that could not be realized at home. The fact is says The Guardian, Goldwin Smith resigned his chair for the performance of a sad domestic duty, which occupied him for a year and a half.

The Dundee advertiser, referring

Nobody will dispute that the mind of the country, especially a country like Canada, where men can read and use to read, is nourished by the literature it feeds on. In Canada the mental food is almost wholly of American origin."

Ten Months as a Lesson.

In the police court yesterday, Police Magistrate Denson sentenced an Italian named Miguaco to ten months in the Central Prison for interfering with P. C. Allen in the performance of his duty on a recent Sunday afternoon. Mr. Miguaco defended the prisoner, as protested against the sentence as being too severe. It may appear to some in that light, but the view taken by the court seems the only proper one. The Italian colony is large in this city, and they must be taught to observe our laws and customs the same as other citizens. Had the officer allowed them in this instance to carry out their intention of rescuing his prisoner, it would doubtless have given them courage to do further at some future time. The lesson learned by the prisoner, and which will have a lasting effect, is that he must not be a lawbreaker. P. C. Allen was severely injured by a missile being thrown, and his face bears the marks. Two others were fined.

Southampton, May 5.—Last night the Blacksmith shop and carriage works and contents of McLean & Tuppel were destroyed by fire.

DUEL TO FOLLOW DEBATE.

Hungarian Premier Interrupted by a Member and Wants to Fight.

Buda-Pesth, May 5.—A duel between Premier Tisza and a member of the opposition, Herr Pozsgay, will be the outcome of a stormy debate in the lower house of the Hungarian Diet today. Premier Tisza had bitterly assailed the demand of the opposition in that section demanding customs boundaries against Austria. He pointed out that Hungary as an independent state would only be able to conclude treaties under the most unfavorable conditions, while it was the utmost importance that Austrian markets should be open to Hungarian agricultural products.

The Premier was interrupted by Herr

Pozsgay, a member of the opposition, who said it was "beyond pale" that Hungary should be placed in the position of a vassal state.

An uproar ensued, and the sitting

was suspended. Afterward Count Tisza sent his seconds to Herr Pozsgay.

MAN BURNS WITH BARN.

Dunrobin, Ont., May 5.—During a severe thunderstorm this morning the stable of James Carlisle was struck by lightning and completely destroyed, with all contents. Charles McKay, in his attempt to save his brother's cow, which was in the stable.

War in Paper Bags.

E. B. Eddy, "old warhorse" among the manufacturers in Canada, has lately been aroused to vigorous and determined action because of the lack on the large wholesale grocery and jobbing trade in Canada in "concrete" bags and paper grocery bags. Complaint reached Hull last month that someone was cutting paper bags and selling in a secret, underground way to the retail trade in small lots at close to the large price, thus cutting into the profit that should naturally go to the wholesale buyer in handling bags.

It did not take long for E. B. E.

to get to the bottom of this, and, having ascertained facts, he telegraphed every agent he has in Canada, from coast to coast, just these five words: "Meet the competition in bags."

Now, a message like this from a man

like Eddy means war, just as much as "mobilize," if called by the British admiralty throughout the empire would mean war; so "war it is, in the atmosphere clears after this storm."

LABOR'S THANKS.

Appreciate the Discontinuance of Prison Broom Making.

At the meeting of the District Trades and Labor Council on Thursday evening, a resolution was adopted, cordially endorsing the action of the Ontario government in discontinuing the manufacture of brooms in the Central Prison.

For a number of years, so the labor

men say, the council endeavored to induce the House government to take this action, but it was not until the public came into power that they succeeded.

Typewriter Galore.

A most unique and successful venture in the typewriter business has been carried out in this city, the point aimed at being to create a concern that would have absolutely no interest in any particular make of typewriter. In the past each Typewriter House controlled one make of writing machine, and this was placed before the public as the best and only perfect writer. Frequently a purchaser would have two or more makes of typewriter before him, and would derive much amusement from the arguments advanced by the competitive agents as to why their particular make of writing machine was the best. The Dominion Typewriter Exchange, with offices and repair department at 72 Victoria-street, Toronto, is the concern that has reached this creditable position in the typewriter business.

The Dominion Typewriter Exchange state emphatically

that their concern is positively free from any contract with any typewriter company or manufacturer, and that they are not in any way prejudiced in favor of any particular type of writing machine.

It seems clear and logical that a

concern such as this one is can give an opinion absolutely unprejudiced as to the best type of writing machine for a particular class of correspondence or circular work. The Dominion Typewriter Exchange, with its variety of writing machines, is clearly entitled to its splendid clientele, particularly so with the expert organization of workers which Mr. Reddick, the proprietor and manager, has succeeded in securing, as prompt and expert service is a most necessary adjunct to any business.

Will Compel Permission.

The City Dairy Company has applied for an injunction to restrain the city from preventing the erection of stables on Orchard-avenue, in the rear of the property, as the action being taken because of the refusal of the board of control to grant a permit.

Something for the Shareholders to Consider

Those who happen to be shareholders in the Toronto Railway Company for

contention of the successful litigants. They say that they cannot admit that the funds and estates in question belong to the property of the Free Church church purposes, at the discretion of its governing body.

According to the judgment of the house of lords, the property is to be held for behoof of the special trusts created for special purposes, and to which particular endowments have been appropriated. This finding at once settles the point whether the minority are capable of administering the various trusts and applying them to the purposes for which these were intended.

Prisoner Day Incident. A lamentable breach of good taste marred Prisoner Day celebrations in London. Early visitors to the statue of Lord Beaconsfield, which faces Westminster Abbey, were astonished to find placed in a prominent position a shield of prisoners with the words "Protection is not only dead, but damned," picked out in forget-me-nots, while the picture of Brighton Beach was attached. There was no clue to the sender, and the decoration was removed at an early hour. The tributes were more numerous than ever. Great garlands and festoons numbers fifty men, who were left at prisoners covered the pedestal, in London.

CUPID ON THE CURB.

Salvation Army's Stringent Rules for Young Lovers.

Marriage among members of the American branch of the Salvation Army is regarded as too serious a matter to be left entirely in the hands of romantic young couples.

A romance reported at headquarters has brought to light the London Express' New York correspondent, a stringent set of rules for guidance in love matters, which has been strictly observed.

In the first place, if a young and ardent soldier looks with the eye of affection on a girl, he is not to begin by bestowing on her little love-like attentions.

He fills in a stereotyped form, giving the name of the young woman, and her rank in the army. On this form he specifies with barometric exactness the height of his passion and his precise reasons for wishing to take the maiden wife.

This is submitted to a board composed of members of the army who have been tried in the matrimonial courts and come out acquitted, but refined. If the young man's proposition meets the approval of the board, the couple are put on probation for six months.

If the young man droops and languishes, if his appetite fails, and he grows careless of his personal appearance, seeks solitude, and wanders alone in the night, he is regarded as a suitable subject for matrimony.

If, on the other hand, his pulse keeps normal, he does not get into bad society, and he shows any tendency for the society of the other sex, his probation is extended. At the end of the time he has probably banished Cupid.

"Marriage is a serious thing," says Colonel Cox, "and the army permits no divorces. There is a regulation that officers must marry officers. This exists for the reason that a wife assumes the rank of her husband, and the position carries with it certain duties and obligations which a private could not fulfill."

"But suppose an officer should fall in love with a private?" it was asked. "You disregard his happiness and compel him to give up his choice."

"In the army," replied Colonel Cox, "severely 'usefulness' is regarded as a large factor in happiness. A match would impair the officer's usefulness, and consequently could not increase his happiness."
