CANADIANS FIND FOES ABNORMALLY NERVOUS

Germans at Slightest Sign of Unusual Movements Send Over Hurricane Barrages—Enemy Masses Great Many Guns.

By Stewart Lyon. Canadian Headquarters in France, via London, June 21.—The enemy is still very nervous along the western front. The slightest sign of an abnormal movement on the part of the British or Canadian troops brings down what the official report characterizes as "hurricane barrages," the enemy depending chiefly upon his guns for the holding of the line.

Fred Pardee, chief Liberal whip, who announced in parliament yesterday that he had broken with Sir Wilfrid Laurier on the conscription issue.

BORDEN GIVEN WARNING OF UPRISING IN QUEBEC

Quebec's Warning Note. Louis Gauthier, Liberal member for St. Hyacinthe, Que., said last night in the house of commons: "This is one of the most solemn hours of my life. It may be the last opportunity afforded me to address the house of commons of my country. If you press the passage of this bill my people, declaring that this government has no mandate, will use the very bill to fight it out. There will be suffering; there will be pain. They may have to go to the direct consequences, but my people will go to the limit if you impose this legislation. I believe that they will be right and I will do as they intend to do."

Chief Whip Fred Pardee resumed the debate. He expressed his deep regret at parting with Sir Wilfrid Laurier, to whom he paid an eloquent tribute of praise and affection, but declared that in the present national crisis he could not be bound by party ties, and, therefore, declared himself in favor of conscription and against the Laurier amendment which proposed a referendum.

BATTLE ASSUMES WIDE DIMENSIONS

German Sources Report Extraordinary Italian Effort in Trentino.

ALONG ENTIRE FRONT

Drumfire Continues Thru Whole Night, Preparing for Trent Drive.

London, June 21.—Little news explanatory of the real situation on the Trentino front in the Austro-Italian zone has been received, but unofficial reports say the battle, which is of great proportions, extends along the entire line from the Sugana Valley to the Asiago plateau. It is in this region that the Italians are endeavoring to break thru the Austrian line to one of their main objectives—Trent.

An Amsterdam despatch says: The Cologne Gazette correspondent on the battle on the Sette Comuni plateau has assumed extraordinary dimensions. Drumfire continued the whole night, reaching such violence in the morning that the mountains in all southern Tyrol re-echoed. The battle, says the correspondent, extends along the entire front from the Sugana Valley to Asiago.

A Vienna despatch says: The official report from general headquarters reads: "After 24 hours of artillery preparation, an Italian infantry attack on Sette Comuni plateau began early yesterday morning and was carried out with the greatest display of effort, especially on the northern wing in the region of Monte Perno and the frontier ridge."

"All the enemy assaults failed by reason of the victorious defense of our troops. A local success, which gave the Italians gain of about 100 yards, was nullified by a counter-attack. Nothing of importance has occurred on the Isonez front."

FORESTERS DECIDE FOR ORGANIZERS

Plan to Have Work Done by Members for Bonus is Voted Down.

Hamilton, Friday, June 22.—The question of the disbanding of the supreme tenant of organization and the organizers during the period of the war for its members, and substituting the members of the order, to whom a bonus for each member secured should be paid, took up practically the two sessions yesterday afternoon and evening of the high court of the Canadian Order of Foresters. During the evening session the question was taken up and lost on a vote of 244 to 232.

Another motion which occasioned considerable discussion had as its aim the disfranchisement in the high court of the organizers, but this was also lost.

To Pay Soldiers' Dues. By a unanimous vote it was decided to pay the dues of the members serving at the front, and if necessary, to levy a per capita tax of fifty cents a member will be levied to avoid making any inroads on the fund in question.

It was also decided to reduce the organizer's staff during the period of the war.

A collection, amounting to \$108, was taken up for the Canadian Red Cross Society and delivered to W. H. Wardrop, K.C., who delivered a stirring patriotic address.

The credential committee reported an attendance of 84 delegates from all the provinces of Canada.

A recommendation of the good and welfare committee that some of the questions on the medical examination papers be stricken off was adopted.

It was also decided that the high court recommend to the executive committee the granting of a token to all entitled members or their beneficiaries, for services rendered to their King and country, said token to be left to the discretion of the committee.

Toronto was chosen as the next place of meeting.

CANADIAN BOXER JOINS AMERICAN ARTILLERY

The Bearing Fourteen Bullet Scars, McCarthy Will Fight Again.

St. Paul, Minn., June 21.—The he bears 14 bullet scars received in the earlier battles about Ypres, Charlie McCarthy, the Canadian boxer, former member of the "Princess Pats," was accepted as a recruit today for the first Minnesota artillery. The examining doctor declared his physical condition good despite the wounds. McCarthy appeared in several ring bouts in the twin cities since his discharge from the Canadian troops.

Quebec, Que., June 21.—Charlie McCarthy, the boxer mentioned in the St. Paul despatch, seems to be the same who left the Canadian ordnance corps at Quebec without leave some time ago. He fought several bouts in Quebec, posing as Canadian lightweight champion, and so far local officials are aware of, never saw any service overseas, much less with the Princess Pats in their first battles, as he was fighting around Quebec during the first two years of the war. McCarthy, at one time, played in goals for the Wanderer hockey team in the National Hockey Association.

ALLIES HAVE RAISED BLOCKADE OF GREECE

U. S. Minister Droppers at Athens So Informs Washington.

Washington, June 21.—The lifting of the allied blockade of Greece was announced in a brief cablegram to the state department today from Minister Droppers at Athens. This is taken here to mean that the allies are satisfied with the Greek situation and that there is no further need to apply repressive or punitive measures.

Cordial co-operation between the powers guaranteeing Greek independence and the new Greek King, Alexander, is expected. The blockade originally was imposed as a result of former King Constantine's antagonistic policy. It was very strictly enforced during the demobilization of the Greek army and the withdrawal of Greek troops from all northern Greece into the Peloponnese, and was one of the strongest measures of repression used.

The allies agreed on many occasions to raise the blockade under certain conditions, but the Greek government failed to live up to their part of the agreement. The Greek legation here gave out several statements from Athens declaring starvation was resulting.

TO MAKE RAILWAYS PAY HANDS FORTNIGHTLY

Senate Gives Third Reading to Bill of Senator Robertson.

Ottawa, June 21.—In the senate today third reading was given Senator Robertson's bill providing for the payment of railway employees twice a month, and the date for its coming into effect was set as January 1, 1918. Senator Robertson pointed out that cash payments were largely exacted by the merchants, and that it now costs \$2.40 to buy the quantity of food that could be purchased for \$1.27 at the beginning of the war.

Third reading was also given the business profits war tax bill. Senator Chouinard, referring to a suggestion in a Montreal paper that there should be an open vote on conscription, asked what the government was going to do about it. Sir James Loughheed said the question being a hypothetical one, was out of order.

tub satin is withal a most practical un-

pink and blue silk, is another favorite

"Shirt Waist" Dresses of Wash Silks

The Smartest Little Frocks Imaginable for
Go-away or Stay-at-home Usefulness, and
Simple and Practical as They Are Smart.

NEEDLESS TO SAY, they hail from New York,
where simplicity is practised as a fine art by
those who make modish things to wear.

The silk, which resembles Habutai in weave, and
possesses its cool, fresh-looking, washable qualities—is
white, striped with blue, rose, green, black or mauve
and green.

Though scarcely any two of the models are pre-
cisely alike, they are all fashioned in simple shirt-waist
style, with blouse-like bodices, and skirts showing
flounces, panels or folds of the silk with stripes running
crosswise. Many of them have collars of white crepe de
Chine, China silk, or organdy muslin. Some have
broad sailor collars of their own material.

For warm-weather wearing at home or at the
Summer resort they mean endless usefulness, being
smart enough for the formal occasion, and simple
enough for the most informal of times. Sizes run
from 34 to 38, and the prices are \$27.50 and \$30.00
each.

Little Talk on Modes and Makers

UMBRELLAS are among those
comforts of life which we take
pretty much for granted. Yet
only a few years before the sealed the
heights at Quebec, Gen. Wolfe of glori-
ous memory, writing from Paris to a
friend in London, says: "The people
here use umbrellas in hot weather to
defend them from the
sun, and something of
the same kind to save
them from the snow
and rain. I wonder
a practice so useful is
not introduced in England." Think
of the gallant warrior casting envious
eyes on an umbrella!

From the time of Queen Anne
feathered and oil-silk umbrellas had
been in fairly common use for women,
but the daintily apparelled beauties,
the Marquises of the Park and coffee-
house, were the only members of the
male sex who ventured to carry them.
One of the principal sources of op-
position to their general use appears
to have originated with the chairmen
and hackney-coachmen, whose trade
flourished on the rainy day, when
their vehicles afforded the only shel-
ter procurable by the man who must
go abroad.

The history of many a town in the
British Isles records the appearance
of the first umbrella in its streets. In
Glasgow it was carried by a certain
Mr. John Jameson, a surgeon, who
brought it back with him after a
visit to Paris about 1751 or 1752. In
Edinburgh it was exploited by a phy-
sician named Spens. And in Taun-
ton, so the story goes, at the begin-
ning of the nineteenth century, there
were only two umbrellas in the town,
one belonging to a clergyman, who
used to hang it up in the church
porch, where it attracted much won-
der and admiration.

As a shield against the glaring sun
of Eastern countries, the use of the
umbrella or parasol dates back to
antiquity. The paintings and sculp-
tures of Egypt supply interesting
evidence of its prehistoric vogue.
Slaves hold it over kings, and prin-
cesses recline beneath it in their
chariots. It was reserved exclusively
for royalty.

In Rome, when the veil was not
spread over the great open theatre,
the women and "effeminate" men
used to shade themselves from the
sun with the umbrella of the time—
a sort of canopy of skin or leather.
Horsemen taking long, hot journeys
used them also.

In Japan, from time immemorial
the umbrella has been all-pervasive.
It is inseparable from Japanese art.
It figures in dance and song. What
would a Japanese opera be without
its parasols?

The pioneer of the umbrella habit
on this side of the world was doubt-
less Robinson Crusoe. You will re-
member that he saw it in his travels
in Brazil, and when cast adrift on
his desert island contrived a similar
device from the skins of animals. In
England, for many years there was
a certain species of large umbrella
that rejoiced in the nickname of the
"Robinson."

NEWSPRINT PROBE BRINGS SENSATION

Tilley, Publisher's Counsel,
Withdraws Because Inquiry's
Scope is Limited.

COSTS OVER-STATED

Papermakers by Agreement
Used Arbitrary, Not Actual,
Figures.

Ottawa, June 21.—A sensation de-
veloped in the newspaper investiga-
tion before Commissioner Pringle to-
day, when just before the close of
the forenoon sitting, W. N. Tilley,
K.C., counsel for the publishers, with-
drew from the case on their behalf
after unsuccessfully trying to delve
into the operations of the companies
engaged in the export of paper from
Canada. The withdrawal followed a
ruling by Mr. Pringle that under the
order-in-council his investigations
were confined to the cost of produc-
tion, selling price and supply of news-
print in Canada and could not embrace
the operations of Canadian compan-
ies across the line.

Heated Discussion.
There was much heated discussion
on the point between opposing coun-
sel and the publishers' representa-
tive was successful to the extent of
learning the names of the Canadian
news in the Canadian export com-

pany, a question Mr. Pringle permit-
ted during the examination of J. A.
Bothwell, general manager of the
Brompton Pulp and Paper Company.
There are four companies in the Cana-
dian Export Company, viz.: the Lau-
rentide Company, Price Brothers, Bel-
go-Canadian Company and the Brompton
Company. J. A. McCarthy, presi-
dent of Price Brothers, is also presi-
dent of the Canadian Export Co., with
Mr. Bothwell as vice-president, and
H. Bierman of the Belgo-Canadian
and George Cahoon of the Laurentide
as directors. Mr. Bothwell denied
that it had anything to do with price
fixing in Canada, being, he said,
simply a selling agent for export
trade only.

Cost of Production.
During the session manufacturers
of newspaper paper were under cross-
examination in regard to statements
of cost of production, selling prices,
profits, etc., which they had submit-
ted in response to a questionnaire sent
out by Commissioner Pringle. H. A.
Stewart, K.C., Brockville, acted as
counsel for the Dominion Govern-
ment; W. N. Tilley, K.C., represented
the daily and weekly newspapers, and
there was quite an array of counsel
representing the manufacturers.

It was brought out in the cross-
examination that in many of the
statements submitted regarding one
or both of the two principal items of
cost of paper, ground wood and sul-
phite, had been entered at arbitrary
figures instead of at the actual cost
of production.

Arbitrary Figures.
The treasurer of one paper manu-
facturing company said he had used
an arbitrary figure instead of the
actual cost for ground wood on the
instructions of the president of his
company, and that he had understood
from the latter that the price used
had been agreed upon.

Another witness admitted that the

use of arbitrary figures instead of
actual cost of production had been
adopted by his mill during the latter
part of 1916, in accordance with an
understanding among the manufac-
turers.

Mr. Tilley endeavored to establish a
connection between the change in the
method of cost recording at that time
and the fact that the appeal of the
newspapers to the government was
made on October 7, 1916.

One witness admitted a change in
the method of writing off depreciation
in his mill, which increased the
allowance for this item by about 50
per cent. It was brought out that
this change in method had been
made for the first time in the pre-
paration of the reply to Commissioner
Pringle's questionnaire.

Wide Difference.
In the case of one company it was
shown that the use of actual cost of
production of ground wood and sul-
phite instead of the arbitrary figures
that had been used by that company
meant the difference on its 1916
business between a loss of \$10.45 a
ton and a profit of \$7.37 a ton. It
was brought out that even the profit
of \$7.37 a ton was after paying \$1.50
a ton to a selling agency and allow-
ing for depreciation, an amount that
was \$4 a ton higher than the amount
fixed by the federal trade commis-
sion of the United States.

The evidence showed that Athliti
Power & Paper Company, Limited,
and Spanish River Pulp & Paper
Company, Limited, whose combined
output is almost one-third of the total
Canadian production of newspaper
paper, sell their entire production
through George H. Mead & Co., of
Dayton, Ohio, of which George H.
Mead, president of the Spanish River
Pulp & Paper Co., Ltd., is practically
sole proprietor.

Tilley Meets Obstacle.
Mr. Tilley's question to a witness

as to who composed the Canadian
Export Paper Company brought from
the counsel for the manufacturers a
strenuous objection to any question-
ing along that line on the ground
that as that company did an export
business only, its operations did not
come within the scope of the inves-
tigation. Mr. Tilley said he had
reason to believe that the company
in question was composed of paper
manufacturers representing a very
large proportion of the Canadian
production.

He pointed out that only eleven per
cent of the Canadian production is
used in Canada, and argued that it was
pertinent to enquire as to the means
used to dispose of the other 89 per
cent and as to whether those means
had any bearing on the prices in Can-
ada. He claimed that the Canadian
Export Paper Company was a Cana-
dian company, composed of Canadian
paper manufacturers, with its head
office in Montreal, and insisted on the
right to bring out evidence as to
who composed that company and its
methods of operation.

Following a lengthy argument on
the question, Commissioner Pringle
ruled that the witness, under examina-
tion was not required to answer the
question as to which paper manufac-
turers composed the Canadian Ex-
port Paper Company. Mr. Tilley had
no further question to ask the witness.

ENQUIRY AT WASHINGTON.
Washington, June 21.—Members of the
American Newspaper Publishers Associ-
ation met here today to decide on a policy
regarding newspaper taxation for war
revenue, and to take up the federal trade
commission's recommendations for gov-
ernment control of newspaper manufac-
ture and distribution.

Difference of opinion developed over
both questions. Frank P. Glass, president
of the association, supported the trade
commission's recommendations, but others
declared action in that direction would

set a dangerous precedent. Mr. Glass
pointed out that the government is about
to take a hand in food distribution, and
perhaps would supervise distribution of
fuel.

Unsatisfactory Situation.
The association probably will recom-
mend changes in the present water-power
laws to guarantee longer tenure by lessees
of water-power sites, as the association
plans to put up newspaper mills of its
own. Members said today capital was
reluctant to invest in the project unless
a long tenure was guaranteed.

The newspaper situation, it was brought
out, is still far from satisfactory. Can-
ada's high excise profits' tax on news-
print mills, it was said, is discouraging
production and threatens to create a new
shortage. Agents of South American and
Australian publishers are in this country
to buy 200,000 tons of newspaper, which,
it is said, may have a decided effect on
the market. Members of the association
are for prohibiting the export of news-
print under provisions of the Export Con-
trol Act.

Since the beginning of this year, detective headquarters estimate that over 200 motor cars have been stolen, all of which, with two exceptions, have been recovered. The thefts average about one car a night. Boys and young men are the chief delinquents in this class of theft, and the police believe that many of the thefts are influenced by the negligence of owners in leaving their machines unlocked. Recently a Kingston car was announced and put into effect a minimum sentence of six months in jail for motor car thieves, but so far it has apparently had no effect in reducing the number of cars stolen.

RHEUMATISM From Kidneys

Unbearable Pain and Often Could Not Walk—Cure Certified to by Commissioner of Oaths. Toronto, Ont., June 20.—There is not the mystery about rheumatism that many seem to think. Nor is it an ailment that is all but incurable. There are poisons in the blood which get there because the kidneys are failing to do their duty. Until you get the kidneys right you cannot possibly get rid of the poisons which are continually accumulating. The writer of this letter suffered for five years with rheumatism. In spite of all that three doctors could do for him. He was completely cured eight years ago by using Dr. Chase's Kidney-Liver Pills.

Little Son Discovers Crime on His Return From School. Buffalo, June 21.—Bert Maxam, an inspector in an automobile plant, was killed by his wife here this afternoon as he slept. His little son discovered the crime on his return from school this afternoon. Neighbors responding to the alarm found the wife's body hanging to a rafter in the cellar. The child says his parents had quarreled much about unpaid household bills. On the husband's return from work this morning, the quarrel was renewed, and he went out and paid several bills before he sought his bed. It is presumed the wife attacked him after he was asleep. His head was nearly severed with one stroke of an axe. The couple were married five years ago in Cleveland. There are two children.

TEXAS SHERIFF OUT FOR TANLAC

"Money Could Not Buy the Good it Has Done Me," Says Prominent Texas Official. "Money could not buy the good Tanlac has done for me, and I gladly commend it for what it has done in my case," said Hon. Archie R. Anderson, of Houston, ex-sheriff of Harris County, a few days ago. Mr. Anderson needs no introduction to the people of Texas, as he is unquestionably not only one of the best known but one of the most popular men that ever held public office in the "Lone Star" state. After serving as deputy sheriff of Harris County for twelve years, Mr. Anderson was elected chief of police of the City of Houston. He had occupied this office only a short time when the sheriff of Harris County died. Mr. Anderson's friends then persuaded him to make the race for unexpired term of sheriff, to which he was easily elected. He was honored with re-election seven different times and served the people in this important office for fifteen consecutive years. Four years ago Mr. Anderson declined re-election and retired to private life. He cast his lot among the people of Houston and is a large property owner and foremost citizen of this interesting and prosperous city. "I was in a run-down condition," continued Mr. Anderson, "and had no appetite at all. I could hardly sleep at night, and never felt like getting up in the morning. I was so tired. I had the worst form of indigestion, suffered all the time from gas on my stomach, and was continually belching up undigested food. I had to take my coffee without sugar. As when I drank it with sugar I would just belch for hours. I would bloat and swell up like I was poisoned, and suffered with neuralgic pains of the face and head, and nothing seemed to help me only in a temporary way. I just can't tell you how long I suffered before I began taking Tanlac, a few weeks ago. When I started taking it, I felt a relief of troubles like mine I just felt like I couldn't make it any longer. I was so tired and I had done even more for me than I had expected. I began to feel better after taking the first dose, and I have felt just as good as new since then. I am a different man already. I sleep like a log now, and I feel just like I want to publish just what I'm telling you. I never felt better in my life than I do now taking Tanlac. I am willing for you to publish my statement and let every suffering person who may wish benefit by my experience with this great medicine. Tanlac is sold in Toronto by Tamplin's Drug Stores."

FOE TAKES BY STORM POSITIONS OF FRENCH

Unfavorable Observation Conditions Impede Artillery Battle With British. Berlin, June 21.—German troops yesterday stormed the French positions northeast of Soissons on the Aisne front, along a width of 1600 yards, says the official statement, which adds that the French lost heavily. The text of the official statement reads: "Western front—Army group of Crown Prince Rupprecht: In Flanders and in the Ardennes, the artillery battle did not become active on a wide front until clearer observation conditions prevailed in the evening. The battle continued locally also after nightfall. In the neighborhood of the coast a slight surprise attack resulted in a number of British being brought back as prisoners. At Hoop, east of Ypres, strong reconnoitring advances by the British were repulsed yesterday and early today. At Vermelles and Loos also enemy enterprises failed."

TIPPLE WAS WILD LEAF NOSTED OUT

Grays Overcame Early Lead - Warhop Failed This Time - See-Saw Affair

Providence, R.I., June 21.—The Grays made it an even split on the four games thus far played here, taking the measure of the Leafs this afternoon by a 7-to-6 score. The contest was by far the best yet played here by the two teams, and was anybody's game until the last man was out. The Leafs seemed and alternated in the lead; the score was tied two or three times with the advantage shifting from side to side.

The Grays presented a shifted line-up because of the illness of Cooney, who was the victim of a drugist's mistake in giving him a powerful medicine instead of boric acid for an eye wash. Cooney had a narrow escape from losing his eyesight, but came back in the game in the sixth. Vean Gregg pitched the entire game for the Grays, and was in splendid form, striking out eight of the Leafs, and with fast fielding, would have held his opponents to half the runs scored.

Errors of omission cropped out on a half-dozen times, and the locals did everything in their power to give the game to the visitors, but just as the stage was apparently set for an avalanche of Toronto runs, somebody pulled a phenomenal stunt and the situation was reversed. Tipple started for the Leafs, and was in hot water from the first minute. He was very wild, and when he got the pitcher over it was smashed to the outside. He passed four men in the second inning, but fine fielding saved him, only one run slipping over. After he had walked Tutwiler in the fourth and Kane had doubled to left, Tipple was yanked, and Warhop sent in, also the old underhand artist had pitched a hard game yesterday.

Lightning fielding, especially by Blackburne, got him out several holes, and then in turn Blackburne made an error on an easy chance that gave the Grays an easy run.

Aitenberg fanned to start the battle, but Jacobson hit to left for two bases. Whitman lifted a weak one to left; Larry doubled to centre, scoring Jacobson; Graham walked. In the second, a single to centre, sending Lajoie home, and putting Graham on third. A double-play worked, and Graham walked to first. Kane and Thomas walked in the second. Tutwiler, Kane and Thomas walked in rapid succession, and the Grays led by three runs. Blackburne made a grand stop of the ball and doubled Thomas and Allen, but Tutwiler scored.

With one out in the third, Whitman hit but Thomas, and talked when Larry hit to left for his second two-bagger. Tipple passed Tutwiler in the fourth, and Kane made a two-base hit. Tipple and chased and returned called to save the fight. Thomas hit the first ball pitched for a single, and Tutwiler walked. Blackburne pitched a long fly that sent Kane over.

Kane opened the sixth with a hit, and Thomas walked. Allen's cut at first advanced both, and after Gregg had popped to Larry, runs were over.

The Leafs tied the score in the eighth. Onslow made a great catch. Blackburne's out at first sent both runners a notch, and Graham scored them on a beauty single.

EVERYBODY WORKS TO HELP SOLDIERS

People of Australia Are United in Carrying On the War.

ALL ARE VOLUNTEERS

Toronto Traveler, Returned, Tells of Red Cross Activities There.

News from far away Australia and the great things being done there for King and country and in the cause of the liberty of the world, comes to Toronto in a very direct way...

"The things that are doing are simply wonderful," says the traveler, and not by the women alone, but more especially the men are straining every effort...

"Take for example the making of the cases for packing Red Cross supplies. These cases are all made by business and professional men, who, every week, give so much of their time to the work...

"The work is all controlled by two organizations—the Red Cross, under the superintendence of the governor-general, and the Soldiers' Comforts, headed by the federal judge of Melbourne...

"The Red Cross Volunteers' Motor Corps, too, has an extraordinary thing. Members go with their motor cars four times a week to the various hospitals and convalescent homes...

"Then the rest houses for returned soldiers are so well looked after. The cleaning of the house is done by volunteers. The women of Melbourne—women of means and leisure and women who make leisure a gift...

"Another channel thru which patriotic funds are being raised is the work of Red Cross and other women who are making a day every week to this office."

"The socialist element defeated convention," said Mrs. Lamb, "but the soldiers, too, voted against it, saying, 'If they won't come willingly we don't want them.'"

"On their way home the vessel stopped at the Fiji Islands, and a body of one hundred natives with twelve British officers came on board. They are described by Mrs. Lamb as men of exceptional physique, well drilled and well set up, their fuzzy-wuzzy hair being quite a feature, and when dyed a bleached, dirty red-while it denotes a strong streak of aristocracy. They are to be used in France to help in the work of transportation—a department in which their great strength will be an undoubted asset."

"The homeward voyage, tho it proved free from danger, was not without its fears. Reports of 'subs' in the Pacific of this continent, and the entire trip on board the Niagara, of the Canadian-Australian Line, was made without lights after midnight. The spirit of patriotism has proven infectious in western waters, and no less a sum than \$5000 was contributed to the Red Cross from the Niagara."

Distinguished Guests Pay Many Compliments to Soldiers From the Dominion.

London, June 21.—A most interesting Masonry ceremony from a Canadian standpoint was held tonight by the Grand Lodge, under the guidance of the Worshipful Master William Perkins.

The speech of the night was made by Sir John Currie, who said all the emblems of the British Empire are united in a common purpose... necessary task of suppressing the war.

The prime minister has never underrated the difficulties that he will be up against in carrying the conscription bill... and that all Canadians are united in a common purpose.

Honorable Eric MacFayden said that a turn of the wheel of fortune had been given to the British Empire... necessary task of suppressing the war.

Mr. Perkins said that every Canadian resident in England felt that he had a special mission... necessary task of suppressing the war.

TOO MUCH UPLIFT NOT ENOUGH FOOD

Crown-Attorney Greer Scores Social Service Commission Against School Principal Reports to Board.

"CLUMSY MACHINERY"

Too Many Superfluous Secretaries and Time-Wasting Reports.

An interesting phase of the inquest before Coroner Dr. Fred Winnett into the death of Louisa, the eight-month-old daughter of Mrs. E. G. Stoutley, 81 Wilton street, was the "clumsy system of distribution" of the city's "clumsy system of distribution."

When the Stoutley case first attracted the attention of Mayor T. L. Church, it was supposed that the child died of starvation. This was later proved erroneous, and testimony submitted last night offered additional proof that the children had been well fed.

Mrs. Doris Sullivan, 1 Napanee street, Toronto, was the only witness who saw the child die. She was going to the school when she saw the child lying on the ground.

Mrs. Sullivan described the condition of the house by saying its only furniture consisted of a bed, a table and a chair. Three rooms were used by the family.

Mrs. Sullivan said that the children were sometimes overfed, in her opinion. She said she had to ask the imperial munitions board to help her out.

Ald. Ball, as he inspected the new extension of the Merton street extension, said that the children were sometimes overfed, in her opinion.

It "seems to me," remarked the crown attorney, "that there is too much uplift and not enough food being distributed in Toronto."

Committee Investigating Case Against School Principal Reports to Board.

For over three hours last night, the board of education wrestled with the report submitted by the special committee investigating the charges made against Principal Wm. Morrison of Page Avenue School.

FOE RESORTS TO USE OF DUMMY ARTILLERY

Germans Employ Many of These False Weapons to Deceive Own Infantry As Well As Allied Spotters.

By R. T. Smith, Staff Correspondent of the Associated Press. British Headquarters in France, June 21.—Because of the comparative quiet which reigns along the western front German prisoners taken in night raids say they are being told anew that the allied offensive is definitely ended.

From what officer prisoners say there is palpable nervousness all along the German line as to where the British will strike next.

These officers frankly say that they, as well as the higher command, thought the British, having chosen the Arras battlefield for the beginning of their offensive, would have to continue the fight there, and start preparations necessary to a modern offensive made it virtually impossible to shift the front of attack once it had been selected.

They followed the attack on the Messines Ridge to upset this theory, however, so that now the Germans do not know just what to expect.

Prisoners from the ranks say they have been told that the British attacks on the Messines Ridge were wholly repulsed, but that the truth is beginning to filter into the German army organization and to be appreciated at home, despite the efforts of the German press to conceal the fact and the significance of the British victory.

The Germans are still resorting to the use of dummy guns and dummy gun flashes, both in an attempt to conceal their real positions, and to deceive the infantry as to the amount of artillery support available.

Many dummy guns were found during the German retreat from the Somme, and now more are being discovered in the Messines-Wytschate area.

All the prisoners continue to dwell upon the feeling which exists between the German gunners and infantrymen. The gunners say the only excuse they can offer for lack of artillery support for the infantrymen is that they are not given a sufficient quantity of ammunition.

The experiment was hardly a success because the re-lining of barrels or the fixing of badly damaged guns, has become a matter of months.

The British air tactics are continuing to have a most depressing effect upon the German morale.

Apparently by the necessity of competing with the British air force so as to impress the German troops a little more favorably, the German machine lines flew quite low over the British lines and opened fire with machine guns.

HUNS DEPARTING MORE BELGIANS

Men Taken Away Sent to Points Near Front in France.

Have, June 21.—A large number of Belgian civilians from the Mons region have been deported by the German military authorities, according to circumstantial information received by the Belgian Government.

The deported men were sent to points as far as twelve kilometers from the front in France, notably to Fenain, Arieux and other places in the environs of Douai, where they were forced to work in all weathers on military tasks, such as roadworks, trenches and handling war material.

The victims were compelled to labor twelve hours daily and sometimes to do additional work at night. Many, who had never done manual work before, were roughly treated and all scantily fed and badly housed.

Among them are several persons who had previously been deported to Germany and then repatriated.

FOOD CONTROL BILL WILL PASS ON TIME

Prospects Brighten That First of Next Month Will See It Law.

Washington, June 21.—Prospect for the passage of the vitally important administration food control bill by July 1, as earnestly desired by President Wilson, appearing brighter tonight after the house had rejected important amendments which promised to delay final action and senate leaders had tentatively agreed to compromises designed to greatly expedite consideration.

Rejection in the house on a point of order cleared the way to passage to such an extent that a final vote is expected some time Saturday.

Prohibition proposals and Representative Lettrout's amendment to strike out the licensing feature of the bill, constitute the only important obstacles to a final vote at that time.

To pass the measure with as few additions to the original draft as possible in order to expedite consideration is the plan of Representative Lettrout, in charge of the measure. He told the house today that minor changes would be made at a sure while it now is of the utmost importance that the big control machinery be started.

House Republican rallying generally to support of the bill, one of the speeches today in its behalf being delivered by Representative Lettrout, Massachusetts, acting Republican leader.

Allan R. Hawley, President of the Aero Club, Commends Strong Aerial Arm.

Washington, June 21.—A billion dollars probably will be required to put 100,000 American airplanes and 10,000 to 20,000 aviators into the war, Allan R. Hawley, president of the Aero Club of America, told a sub-committee of the house military affairs committee.

Mr. Hawley predicted that the day of trans-Atlantic airlines was at hand. "We are now manufacturing six cruisers out of crossing the Atlantic and have both the pilots and the instruments needed for piloting them," he said.
