Pritchard winning the East Wellington by-election, Hon. W. E. Albert Hellyer, who resigned the riding, made this reference to Mr. Raney: "You have heard that he was a man of one idea, not broad enough to conduct the business of the attorney-general's office. In reply to this I need only remind you that the press has commended Mr. Raney's work so far. He is taking a broad view of all matters brought before him. Mr. Raney got a cordial reception. His first point was that it would be impossible to carry on the business of government without an attorney-general, a lawyer, having a seat on the floor of the

Mr. Raney dated his antecedents back to his great grandfather, a British soldier in the war with America. "I am not therefore an outsider in this province," he said. "I understand that Col. Pritchard date, and I must state plainly that the contest is not between Col. Pritchard and myself, but between Col. Pritchard and those who support him and the government of Ontario."

New Light in Acceptance.

Mr. Raney threw a new light upon his acceptance of the office of attorney-general after W. F. Nickle had declined it. "I thought," he said, "seeing that Mr. Drury was a premier of Liberal antecedents, that it would be well to have an attorney-general of Conservative antecedents."

"If Col. Pritchard contests this rid-

"If Col. Pritchard contests this riding with me," he continued, "one of two things will happen. If he succeeds two things might be offered and another riding might be offered and another attempt to elect another attorney-general that would involve adjournment of the session. The other alternative would be a general election. This thing has not, however, been considered and I am only stating my own viewpoint. I am not aware of the circumstances that account for the announcement of this contest coming from Toronto. But I understand the information was telephoned or telegraphed from Toronto."

Mr. Raney denied as a figment of imagination the story told in the Halton election that Premier Drury had caused the arrest of a soldier for trespassing upon, his farm at Crown Hill. Liberty League Welcome.

Quoting the announcement of the Literty League that it is coming into politics as a party, Mr. Raney said, "That is quite right and there cannot be too many parties in politics."

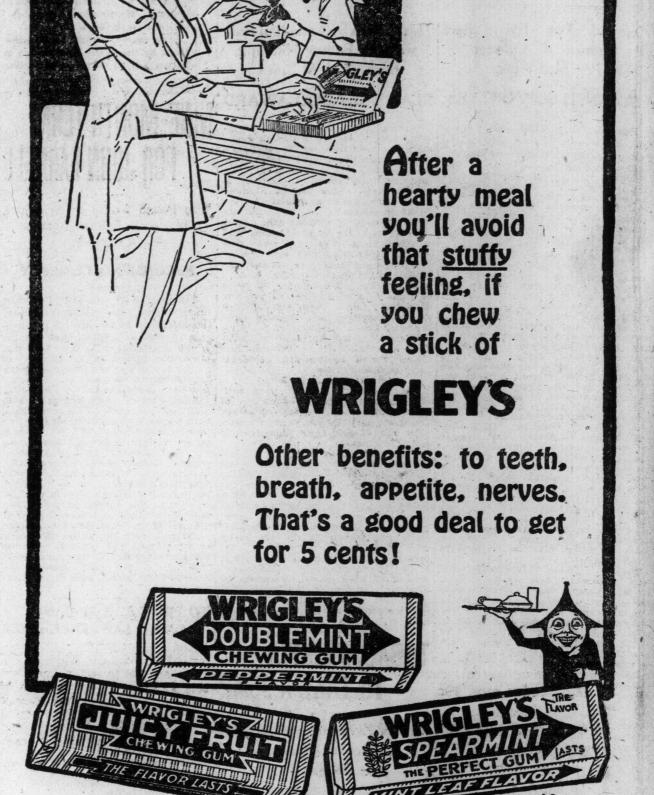

Mr. Raney quoted a number of his own recommendations in behalf of returned soldiers, reducing B.O.T.A. fines and penalties within the past week. "We are trying, he said, to give a province a human kind of government, but we do not claim any special credit for it. In my department there will be no hidden diplomacy or hidden legislation. There will be no hidden administration except where it is absolutely necessary.

"I am not going to say a word of criticism of Col. Pritchard. I am not going to argue any connection between him and the new party, the Liberty League. But if there is a contest every ounce of strength, every dollar of money that new party can command will be put behind the candidature of Col. Pritchard. He cannot help it. He cannot prevent it if he would. Whether they want him or not, they do not want me, or they would not want \$20,000 to oppose me."

Surveyors' Association Hear Report on Maintenance From George Hogarth.

A record attendance was on hand yesterday morning when the second day's deliberations of the Ontario Land Surveyers' Association commenced in the lecture room of the Engineers' Club, West King street. President C. Fraser Aylsworth again occupied the chair.

George Hogarth presented the report of the committee on roads and pavements, remarking that good progress had been made in construction in face of labor conditions and prices of materials. Better standards of construction, have been set up in the Reasons Given for Standing townships, he said, while the expenditure on county roads in 1919 was two and one-half times greater than the expenditure of 1918.

Mr. Hogarth pointed out that over the entire county road system maintenance had been given closer attention and the surfaces of all the roads kept in more satisfactory condition for travel, and much progress had been session of the Citizens' Liberty League | made in work not only on main trunk roads but also in the new farming

Classic Hosiery Co. Seeks For Accounting and Damages

The suit was opened yesterday in the non-jury assizes before Mr. Justice Logie, in which the Classic Hosiery Logie, in which the Classic Hosiery Company asks for an accounting and seeks damages from A. W. Fillis, Adam Irving, J. P. Eastwood and William Lorimer in connection with the sale of the business of Fillis, Irving and McFadden to the plaintiffs in 1918. The plaintiffs claim that, by the terms of the sale, they were to be indemnified against all claims due by the firm they were buying and by the firm they were buying, and allege that as a result of the negligence of Eastwood, who was solicitor for both firms, they were made liable for debts amounting to \$6,775. They also claim that the defendants were directors or provisional directors of both companies and made a profit out of the sale.

An accounting of these alleged profits, and \$9,500 from Eastwood as in-demnity for the liability sustained because of the alleged improper organization of the company, are asked. Plaintiffs also seek \$3,488 for alleged breach of covenant, and against Fillis, Irving and McFadden and Lorimer they seek to recover \$1,080 on a note given by the original firm and ensured by Lorimer also \$100 from each cause of the alleged improper organdorsed by Lorimer; also \$100 from each of the defendants for stock. The defendants deny the allegations.

ORDER IS PRAISED

Lieut.-Governor Compliments Sir Wm. Gage and Nurses for Aid to Sufferers.

Interest in the work of the Victorian Order of Nurses was shown by the large number who attended the annual meeting held at the Gage Institute yesterday, Sir William Gage pre-siding and his honor the lieutenant-

governor being present. Practical things done during the ear were outlined in the report of year were outlined in the report of Miss Edith Campbell, district superin-tendent, who told of 41,804 visits, which was an increase of 6,000, of the babies born in Toronto 1,500 were cared for by the Victorian

Among other things recorded were seven new districts, all of which had outgrown the services of one nurse. The Needlework Guild was thanked for the supply of women and children's clothes. And Drs. Harley Smith and Hutchison for care of nurses who were ill. Recognition was given the helpful co-operation of the neighborhood Workers' Association during the present epidemic of influenza, to the Red Cross for motors for the use of the nurses and to Mr. Reid for ar-

ranging motor service. The order in Toronto has 25 members, who, during the past week made 550 visits in two days, the nurses going night and day to the limit of

The financial statement showed that receipts for the year were \$38,687.08, the sum including \$11,000.95 from patients, and \$11,639.83 from the Federation for Community Service. There is a balance on hand of \$6,058.42. Regret was expressed at the resignation of Miss Hall, owing to ill-health. The good fortune of the management in securing the competent service of Miss Campbell was also emphasized The memory of the late W. D. Mat-thews and Mr. Wilkie, old friends of the order, was recalled by the chairman, who also commented on the val-uable help given by the Federation for Community Service.

Hon. Lionel Clark, the lieutenant-

governor, in a brief address, complimented Sir William Gage and the nurses upon the work done for the sick and suffering. He knew the field which the Victorian Order covered was vast, and that it had won for it-self a high place in Canada.

Past History. His honor recalled the formation of the Jubilee Nurses in honor of Queen Victoria's golden jubilee, and the extension of the order of nurses to diflater, at the time of the diamond jubilee. Concluding, the lieutenantgovernor said that he felt that Sir William Gage and the nurses would

The medical report was presented by Dr. Dobbie, who drew attention to the need of consideration for the conditions under which the order worked and advocated motor cars for their use in order to save their time for services to those needing them. The report was seconded by Dr. Harley Smith, who emphasized the unselfish attention to duty and the untiring energy of the nurses—qualities that had given them first place in the esteem and affection of the men overseas. Dr. Smith also referred to the kindred work of the St. Elizabeth Order of

Visiting Nurses.

That Sir William Gage must have great satisfaction in knowing the share he has in helping the sick and suffering was the expression of Rev. Dr. Cody, who also eulogized the work of the nurse as a combination of science and personal interest. Religion, war and science had evolved nurse, whose foundation began in the fourth century, was carried on by re-ligious orders thru the middle ages,

and found its modern form in the work of Florence Nightingale. That the white plague was on the decrease and that this was largely due to the efforts of Sir William Gage, was the statement of Rev. Father Minnehan. Among others who spoke were Dr. W. A. Powell and Rev. Dr. Crawford Brown. Rev. Dr. Tovell W. sald the opening prayer.

Appeal to the Public!

Telephone operators have not escaped in the prevailing epidemic, the result being a very high percentage of absentees in all our eleven city exchanges.

Numbers of citizens, kept at home through illness, are using the telephone more than under normal conditions. As a result the calling rate is very heavy.

There are, of course, necessary telephone calls that must be made. But may we ask that, until the situation clears, all telephone users assist us by making only necessary calls.

MALICIOUS ATTACK

The so-called "serious charges" against J. The nine charges were made by A. Macgregor at a In Ginghams, Chambrays, Linen meeting of the west end branch of the suitings, Fancy Voiles, Flannelettes, U. V. L. held on Tuesday night and a committee of three was immediately delegated by that branch to bring up the matter with the U. V. L. executive committee. The "trial" last night ended in a unanimous vote of confidence in J. Harry Flynn and the expulsion from the league of Comrade Macgregor. Each charge was brought up in turn and fairly considered and one by one they were declared to be absolutely false, utter foolishness, not offences at all or unfounded suspicion. Macgregor's chief witness, J. H. Corbeil, was declared to be disreputable and to have contradicted himself

the different branches.

"This serious charge is simple enough to explain," said Flynn. "The committee elected had only powers to decide on boundaries, and I maintained, and still declare, that it should have authority to allot members to the different branches. The matter is one of misunderstanding." Charge dropped.

In the evidence for the next charge, which involved several members, including MacGregor's wife, Corbeil stated that Flynn had made certain slanderous statements, but witnesses proved this to be absolutely false. A free fight nearly developed between Chairman Campbell and Corbeil over Corbeil's evidence, and only for the fact that his resignation had already been tendered, forceful ejection would have been the best that the witness could have expected. tee elected had only powers to decide on boundaries, and I maintained, and still declare, that it should have authority to allot members to the different branches. It was found that no U. V. L. funds were involved. The publishers of this veterans organ sequested scurity for payment before the issue would be taken off the press, so Flynn gave the press company a U. V. L. cheque for the required amount, but used his personal bank account as security. Matter dropped.

Several other charges were made by MacGregor, but these proved to be either Flynn's personal affairs apart from the U. V. L., or matters over which he, as president, had no control. These, after a lengthy and heated hearing, were declayed to be "unfounded, malicious, suspicious."

NEWS OF LABOR

STRUCTURAL WORKERS ARE NOT SATISFIED

That the Union of Structural Iron-workers in Toronto and the Joint Industrial Council have given the employers in this industry every opportunity to open and carry on negotiations for mutual service, wage increases and better conditions, was amply shown yesterday by the business manager for the union, when he showed The World communications commencing last October and going well into February entirely ignored by the firms. In October the business manager informed all the companies by individual communication of the recommendations of the joint industrial council relative to the trade, asking for a conference at the earliest opportunity. Veterans all over the province do not generally approve of the erection of a war memorial in Queen's Park in comruemoration of the Ontario fallen, but rather favor the erection of individual memorials. Especially active in the egitation for these memorials are the various branches of the G. W. V. St. Pats Beat Canadiens Until They Cried-Eight Goals.

Montreal, Feb. 18.—Completely disor-ganized and playing far below their usual form, Canadiens fell victims to usual form, Canadiens fell victims to Toronto St. Patricks tonight here to the tune of 8 to 2. From the start of the game the St. Pats were conspinued by their victorious play, but altho they scored a two-goal lead in the first period, the Canadiens were by no means out of it, and before the end of that period had reduced the lead by one goal. It was in the second pariod that Canadiens played and looked like a beaten team. Only Vezina's sterling work in goal saved a hig score from being, piled up. However, two more were put on by Toronto, and thereafter the game was little more than a farce, with Canadiens making continual changes to stave off defeat. Lalonde was taken ill in the third period, and the play became uninteresting, the visitors being content to rest on their laurels and save themselves for their game Saturday with Ottawa.

Berlinquette, however, added a tally

Berlinquette, however, added a tally for the Frenchmen. Practically every player or the Pats' team took a hand in acoting, Predgers turning the intitrick and Wilson scoring two, while Nobie, Dennenay and Roach scored one apiece.

St. Patricks started with a rush, Randall stopped Arbour as he was about to shoot, Randall proke away and carried the puck up the fee. Corbeau checked Randall, but as he was checked, Randall passed to Noble, who scored, putting St. Patricks in the lead. Canadiens were ragged in their play, and missed numerous chances. Prodgers, Noble and Wilson checked back, like fiends. From a face-off near St. Patricks' nets, Prodgers secured possession and carried the pick up the fee. He got inside the local defence and passed to Dennenay, who had replaced Wilson. Dennenay went in close and scored Toronto's second goal, making the score, St. Patricks 2, Canadiens 0.

Matte was given a penalty. Heffernan replaced Matto. Lalonde started a grush with Cleghorn. Lalonde shot, and on the rebound off Lockhart's pads of Cleghorn scored. The period finished with Canadiens forcing the play and St. Patricks in the lead by 2 to 1.

Starting the second period, Wilson was back at centre. Canadiens opened on the offensive. St. Patricks attacked and outplayed Canadiens. Randall went the length of the ice and scored Wilson passed to Wilson, who went in any geored. Wilson started another play, and carried the puck up the ice. He puck near his own goal and went straight, to Canadiens' nets. He forced his way between Lalonde and Pitre and scored. Roach, who had been sent on to rest Noble, added another play lead, St. Patricks opened the third on the cifensive. Cleghorn accepted a pass and shot. Lockhart saved, and commerce. Thorpe ... Riddell, of Dons senior O.H.A. team, did great work for Royal. His rushes were especially brilliant. Chinn, Winchester and Graham played nice hockey for Royal. Lynn and Braithwaite were very busy for Union. About two thousand fans viewed the two interesting battles and the rooting was spirited. This was good preparation for the big heat on Friday night. Rodden and Farlow made a good defence for the scullers, and, with Hicks back on the forward line, it gave the double-blue better checking ability. The Granites worked smoothly thruout, and the game just put them on edge for the week-end. The forwards had the range nicely, but found Crook a hard nut to crack. ARE HANDPICKING ALL IMMIGRANTS

Canada Turns Back Thirty From Malta at New York Under Instructions.

New York, Feb. 18 .- Thirty immigrants from Malta, bound for Canada, who have been held at Ellis Island by Canadian authorities, were this afternoon ordered deported back to their home country.

Dr. R. T. Rutherford, of the Canadian immigration department, ex-plained that he has recently received instructions from Ottawa that no more Maltese will be received as im-migrants in Canada under any conditions whatever.
"My instructions were positive on

this score," said Dr. Rutherford.
Dr. Rutherford said that he had received no information as to why the Canadian government will in future exclude people coming from Malta. "It is true that Malta is under British rule," he said, "but it is also true that even Englishmen must answer to Canada's immigration requirements

before they will be admitted. "Owing to labor conditions in Can-ada we have been instructed to enforce the exclusion laws to the letter. There is an increasing tide of immigration to Canada by way of New York, and I believe there will be a big rush this spring. Most of the aliens are now coming from southern Europe and we are sending a great many of them back. We are handpicking the immigrants for Canada now."

The commander-inchief wrote: "A most daring advance was made by the Royal Canadian Regiment and some Engineers, supported by the Gordon Highlanders and vance of the Canadians resulted in our gaining a point some 600 yards nearer the enemy, and within eight yards of their trenches. It was a gallant deed, worthy of our Canadian comrades."

On February 21 it was officially announced that 18 Canadians had been killed and 61 wounded in this attempt under the direct command of Smith-Dorrien to rush Cronje's stronghold. The Victorian Order of Nurses, which held its annual meeting yesterday afternoon at the Gage Institute, has been doing wonderful work in the recent epidemic; the nurses paid 515 visits in two days. At the meeting Sir William Gage was in the chair and gave an address; his Honor the Lieutenant-Governor spoke, and also the Hon. Dr. Cody and Dr. Harley Smith. Among those present were: Hon. Premier Drury and Lieut.-Col. Carmichael had a deputation from the counties of Grey and Simcoe yesterday, requesting that the present roads connecting Barrie, Owen Sound, Meadord and Collingwood be designated a provincial roadway. The substantial nature of the request means a larger grant from the government, and this would apply to the Owen Sound-Collingwood section, already designated a provincial roadway. Summer traffic is heavy, and the scenic attractions of the country bring many tourists in the summer months.

Mayor Gray and Reeve Say, of Meaford, Mayor Patters, of Owen Sound, and Reeve Brown, Collingwood, were in the deputation. Premier Drury and Lieut.-Col. Car-

In a fresh builts demonstration in Montreal, where the steadying of foreign exchange rates and the upward trend in New York stocks seem to have inspirited the sugar pool.

Price changes were, for the most part, in the direction of moderate gains, but there were a few exceptions, the most atriking being Canada Cement, which, on light dealings, soid off a point to 66, with the ciosing bid down to 64%. Dominion Iron was offered freely in the afternoon, 400 shares conting out in small blocks, all at 70 a net decline of half a point. Canada Bread was fairly active and a shade firmer at 30. Canada Steamships was traded in for the first time in several days, and advanced half a point, to 73½. Consolidated Smelting opened off half a point at 23½, but retrieved the loss on fairly brisk buying. The holding of the annual meeting of the Provincial Paper Company awoke some interest in the stock, which was dealt in for the first time in several lailing below the hundred-share mark. DOWNWARD MOVE IN GRAIN PRICES

Elsewhere List is Dull and Ir- Fresh Seizure of Foodstuffs Apprehended—Lower Hogs Another Factor.

> Chicago, Feb. 18.—Bearish sentiment increased in the corn market today, chiefly owing to a department of justice report about seizure of foodstuffs. The close was unsettled, 1c to 11/2c net lower, with May \$1.32% to \$1.32%, and July \$1.29% to \$1.29%. Oats finished %c to 1c to 1%c to 1%c down. In provisions, the outcome varied from

45c decline to 5c advance. Altho the department of justice merely reviewed what had been done in the past, and did not advert to grain, the past, and did not advert to grain, the report was construed as bearish by the corn trade. Selling pressure, which resulted, was given additional force on account of a fresh decline in the value of hogs. Some notice was also taken of announcements that a cargo of Danublan corn had been shipped from a Black Sea port, and that New York had bought two cargoes of Argentine corn. Moreover, belief was expressed in some quarters that with a return of the railroads to private ownership on March 1 the distribution of grain woulds be facilitated to a material extent.

Oats decreased with corn. Seaboard buying, however, was persistent on the way down.

Fackers bought lard and ribs, and this offset more or less the influence of a decline in hog values.

MONTREAL PRODUCE MARKET.

Montreal, Feb. 18.-The local market Montreal, Feb. 18.—The local market for cash grain was slow today, there being little demand, and the volume of business transacted was small. HERRICK GOLD MINES

ASHARE

Should be easily and quickly opened up; because it is well defined and continuous in practically a straight line for a distance of 1,000 feet on the surface and has been tested to a depth of 800 feet by diamond drilling. The results obtained show ore averaging \$15 in gold to the ton over a good width. There is a very even distribution of gold in this vein over its entire length on the surface. This is a most excellent indication that the property will make a big gold mine.

A mining plant is being installed and should be in operation in a few weeks. As soon as this work is completed the shaft will be continued to depth and rapid progress should be made in opening up the ore body.

A few months' aggressive mining should make available a large tonnage of excellent commercial ore and warrant the erection of a mill.

The directors of the company are men prominent in the business world and of unquestioned integrity.

This is a clean-cut mining proposition of merit. It represents the efforts of capable business men, well versed in mining, to make a big gold mine of a promising property. The elements that make for success are strongly in evidence here. Those who are looking for a mining investment with attractive possibilities for profit would do well to acquire a holding in Herrick while there is an opportunity to do so at 40 cents a share.

Wall Street Grows Enthusiastic Over Return of Railways to Private Owners.

CRUCIBLE IS BUOYANT

New York, Feb. 18 .- Rails led another dvance of prices on the stock exchange today, speculative issues embracing the recently reorganized roads making relatively greater gains than the investment

recently reorganized roads making relatively greater gains than the investment division.

Increasing recognition of the changes which are to come over the country's transportation systems on their return to private operation and favorable aspects of federal legislation constituted the impelling causes of the movement.

As for investment or gilt-edged rails, traders seemed suddenly to reach the belief that they had been selling "out of line," or far below quotations justified by their intrinsic or physical values. Gross gains of one/to almost five points attended the steady accumulation of pacific, grangers, coalers and eastern trunk lines, but cotton carriers made more moderate improvement. Foremost in the rise were Canadian Pacific, Northern Pacific, Great Northern preferred, St. Louis and San Francisco first preferred. Atchison, Reading. Delaware and Hudson and New York Central.

There were substantial advances also in many industrials and specialties which featured the acute depression of the two preceding days. Rallies of 3 to 12½ points in such issues as Crucible Steel, General Motors, oils, equipments and shippings were effected at the expense of an overconfident short interest, but these were reduced by realizing sales before the close. Sales amounted to 925,000 shares. Continuance of the six per cent. call money rate, further absorption of commercial paper by local and interior banks and firmer foreign exchange tendencies were among the helpful developments of the session.

Speculative or convertible rails in the bond market kept pace with the demand for kindred shares. Liberty issues reacted slightly, with steadiness in internationals. Sales (par value) were \$11, 375,000.

Youth Must Be Served Well in Clothing

Is the Motto Which Actuates the Simpson Departments Specially Devoted to the Supplying of Suits for the Boy, the Youth and the Young Man. Realizing How Scrupulous in Dress the Young Male of Nowadays is Growing to Be, Our Buyers Are Careful to Secure Only Styles Which Are Authentic and Materials Which Impress With Their Finish and Become Appreciated Through Their Durability.

In the Spring of 1920, the matter of clothes will assume considerable importance in the eyes of the Boy and the Youth. The "winter garments of repentance" will be flung into the clothes press and the chest, or perchance, into the ragman's barrel, and

Youth will demand something lighter, smarter, more responsive to the new season's care-free impulses and abandon which inspire him. Simpson's Departments specializing in clothing for the Boy and the Young Man, will be well equipped to take care of him.

The Young Man will find the styles he sees illustrated, reflected in the garments he purchases. He will find a large and varied assortment set forth, an assortment which embraces all the modes men today are wearing. He will like their cut, their quality and the service he receives.

The Boy and his Mother, on the Second Floor, will be as fortunate in the matter of choice. From the little tad who carries a mass of taffy in his cheek all day to the lad who feels that "longs" are not so very distant, we aim to suit them with satisfaction. The wearing quality, the finish of the suits and the little conveniences such as belt straps, pockets and governor

And in clothes for Man and Boy, the Price will please. To present the best quality at the most reasonable figure is the desire which stands behind the cost marks on the clothing.

New Suits of Finest Navy Tricotine

Perhaps it's because tricotine, the most fashionable suiting rabric this Spring, shows up to better advantage in navy than in any other color-or it may be that manufacturers knew that this season of all seasons, women in choosing their suits would do so with an eye to their durability and practicality - whatever the reason may be, the fact remains that where the color of the new Spring suit is concerned, navy vastly predominates.

In our Misses' Suit Department, the very newest style notes are featured in suits of best quality navy tricotine.

Popular Bolero Styles

Particularly with Misses—they like the novelty of their jaunty little coats and loose bell sleeves, often three-quarter length. One model gains added smartness from accordeon pleating on the skirt and gay vestee of figured silk. \$100.00

A Smart Tailleur
