MARKED INTEREST IN THE STOCK MARKET

British Consols Sold at New Low Level Today

AMERICAN STOCKS DROP

Wall Street Opened Weak and Montreal Market Was Also Affected by the Panicky Conditions--London Trading Weak.

NEW YORK, Aug. 8--With British consols selling at a new low level and American stocks generally lower, London following the sharp declines here yesterday, the opening of the New York stock market today was attended with unusual interest. The decline in consols is generally attributed to disturbed conditions in the money market abroad, but it is not so easy to assign a cause for the crumbling away of prices here. The sharp decline in quotations was without explanation further than it was due to the heavy selling by railroad and other shareholders who did not care to hold. There was nothing to show whether their desire to sell was because they were tired of waiting for an upward movement of prices, because of the low supplies of money, or because of the depressed sentiment in Wall street over the difficulties in which many corporations find themselves with the national and state government. The stock market opened weak.

NEW YORK, Aug. 8--The opening dealings in stocks showed liquidation still in force and there were some sharp declines and heavy offerings of some prominent stocks. Union Pacific sold at 121 1/2, and 121 on simultaneous sales of 1,800 shares, compared with 121 1/2 last night, and sold lower on subsequent transactions.

LONDON, Aug. 8--Trading on the stock exchange today was rather demoralized by yesterday's break in New York; prices went down all round. The selling was not heavy but few buyers were about and the influence of Wall street is not so great here that operators are disposed to await the developments of the immediate future.

Montreal Feels It MONTREAL, Aug. 8--(Special)--Further liquidation of long stocks and bear activity sent stocks lower today. Among the more conspicuous declines were Dominion 1934, Nova Scotia Steel, 65 1/2; Detroit United, 42 1/2; Mexican, 42 1/2; Power, 90; Mackay Freighter, 42. Montreal Street opened above yesterday's low, but broke after the first hour and was offered at 107 3/4.

SMUGGLING CHINESE Evidence a Profitable Business is Being Done on the Mexican Border. EL PASO, Texas, Aug. 7--Eleven Chinese who had crossed the Rio Grande, east of El Paso, were captured in the rear of a Chinese restaurant today. In company with Chinese were Max Chew, proprietor of the restaurant, one of the wealthiest Chinese in the district and a man known as the "Jew Kid."

ADJUDGED INSANE LEOMINSTER, Ass., Aug. 7--Herbert E. Fletcher, who yesterday fired four shots from a revolver at Oscar Beas and Miss Ella Egerly, while they were seated on a piazza at Fletcher's home, one of the bullets striking Beas in the cheek, was adjudged insane in the local court before Thomas F. Gallagher, of Fitchburg today. Fletcher was committed to the county asylum at Worcester.

FATAL CANOE RACE DEFIANCE, Ohio, Aug. 7--While canoe racing on the Muncie River today the boats of Karl Kroetz and Victor Mansfield became entangled and both young men were thrown into the water and drowned.

John W. Brown FREDERICTON, Aug. 7--The death occurred at Boston, Mass., on Sunday, of John W. Brown, formerly of this city, after an illness of two weeks of meningitis. He was aged 32 years, and is survived by two sons, John A., and LeRoy, and one daughter, Mrs. E. F. Brigham, of Boston. One brother, George B., of Hackettsburg, N. J., also survives. Miss Edna Brown of this city is a niece of the deceased. The funeral took place at Boston yesterday.

Lord Sholto Douglas, son of the Marquis of Queensbury, has taken a job as a drummer for a Detroit jewelry house.

The United States has the largest foreign population. Argentina, with 12,000,000 are foreigners, ranks second.

CONDITIONS IN BELFAST

Dispute in Coal Trade Settled--Troops Still Guard Streets

BELFAST, Aug. 8--The dispute in the coal trade here has been settled and work was resumed today. The troops again took possession of the streets this morning, the factories are re-opening and the normal conditions of business are gradually returning.

EARL GREY'S VISIT

Governor Tweedie Says Programme Will be Carried Out as Arranged--The Mayor's Dinner.

Leutenant-Governor L. J. Tweedie arrived in the city this morning from Chatham and is registered at the Royal. His honor said he had come down to see that everything was all right for the governor's visit. The programme, he said, would be carried out as previously announced, no changes being made. Invitations are being sent out today by the mayor for the dinner to be tendered his excellency at the Union club on Wednesday evening, Aug. 14, by the mayor and council. The hour for the function is 10.30 o'clock.

STRIKES THREATEN

WESTERN RAILROADS DENVER, Colo., Aug. 7--Grievance committees of employees of the Denver, and Rio Grande and other roads are in the city, and they will demand an additional two cents an hour for yardmen. Every railroad in the west is threatened with a strike. Sixteen of the larger mines near Trinidad, depending directly on the Colorado and Southern for the handling of their product, today closed indefinitely as a result of the switchmen's strike. The shutdown will throw some 3,000 men out.

To prevent the closing of their mines, which would entail a loss of thousands of dollars and to relieve a threatened coal famine at Central City, ten of Central City's most prominent citizens turned "breakers" and manned a coal train of fuel destined for that district. They took charge of the freight at Golden, where it had been laid out since the calling of the general strike last night on the Colorado and Southern last week.

CHARGED WITH GRAND LARCENY

KINGSTON, N. Y., Aug. 7--Amnest W. Belcher, superintendent of the Cornell Steamboat Company's machine shop here, was arrested today, charged with grand larceny in the second degree, upon arrangement in court later. Belcher admitted having defrauded the company. It is alleged that Belcher for the past fifteen or twenty years has been retaining the proceeds of sales of materials belonging to the company. He is charged with having stolen from the company, during the past year, property to the extent of between \$20,000 and \$30,000. Belcher is a brother of former Mayor Belcher, of Paterson, N. J., and is said to have lost money when his brother absconded with public moneys two years ago. He was released on \$2,000 bail tonight.

PROBATE COURT

The will of the late Eliza Dunlap was today admitted to probate and letters testamentary were granted to James Dunlap and Robert Ledingham, the executors named in the will. The estate values at \$2,800 real and \$50 personal property. H. A. McKewen, proctor.

A petition for passing of accounts in the estate of the late David Lynch was presented by his widow Mary A. Lynch and a citation was granted returnable Sept. 23. Earle, Belyea & Campbell for the petitioner.

THE CZAR IS HOME

ST. PETERSBURG, Aug. 7--Emperor Nicholas reached Peterhof tonight, returning from his trip on the imperial yacht Standart, to Swinemunde, where he was in conference with the Emperor William of Germany.

THEY STAND TOGETHER.

The rumor that Admiral Glasgow will resign is not well founded. Wun Lung and Wun Gundy would not stand for it. He has been their companion for more than half a century, and if he should retire they would also insist upon superannuation, or at least that they should be consulted. Many a night they and the admiral had together in the days before the designer of the Ludlow was born, and none grieved so

GERMAN PAPERS SAY FRANCE HAS A MOTIVE IN MOROCCAN ACTION

Difficulties Continue--El Araish Surrounded by Tribesmen Who Are Exasperated Over Casablanca Matters, and More Trouble is Expected.

TANGIER, Aug. 8--The French warships yesterday landed 2,000 additional men at Casablanca, where street fighting continues judging from the deafening firing heard day and night by those on the ships anchored off the town. The Jewish quarter of Casablanca has been sacked. Many persons were massacred in the streets. The city is said to be full of dead Moors and the Moorish quarter is in ruins, having been set on fire by the shells from the big guns of the cruisers. All the stores are closed and much hunger and distress prevails among the poor. The foreign consuls have ordered the stores to be reopened and have established tariffs for foodstuffs designed to mitigate the sufferings of the poor. The Europeans, who are all safe, either on board bluejackets. The warships continue to drop an occasional shell into groups of Kabyles on the beach in order to prevent them from approaching the town.

PARIS, Aug. 8--In spite of the firm intention of the French government to keep within the terms of the Algiers conference, the situation in Morocco, the French press clearly foresees that France, unless the situation rapidly improves, has entered upon a long and heavy task. The newspapers express the opinion that France, upon which the chief burden is resting the security in the disturbed country, will fall, may be forced to occupy in turn all the Moroccan ports and then probably be compelled to undertake punitive expeditions to Fez, after which it would be impossible to withdraw as was the case with the British in Egypt. As the British bombardment of Alexandria enhanced the prestige of Great Britain in Egypt, it is argued the French bombardment of Casablanca will have a similar effect in Morocco. An expedition to Fez, the newspapers point out, would like the expedition to Tez el Kober, complete the parallel.

The Petit Parisien today prints an interesting interview with a high personage at the German foreign office, which indicates that Germany recognizes the logic of the situation and is prepared to acquiesce in France's "irrefragable" dominance in Morocco, provided France is prepared to give a quid pro quo, in the shape of an admission of German influence and German industrial securities into the French market.

ALGERIE, Aug. 8--The steamer Oasis has arrived here today from Casablanca reports that quiet has been restored there among the natives and the Europeans are all well. The bombardment of the place by the French cruisers lasted forty-eight hours. The native quarters were much damaged. Additional French forces were landed yesterday afternoon. The report of the bombardment of Mazagan by the French cruiser Duchayne is confirmed.

THE LUDLOW MAY BE LONG TIME LAID UP

But She Will Be a Most Magnificent Craft When She Does Return.

It will be some weeks before the very stately Ludlow will be ready for the route. She is being fitted with ventilators for the engine room and a skylight in the quarters. It is hoped the skylight will do away with the present practice of running the electric lights during the day, and thus effect a saving in coal, as the dynamo would not then have to be operated. A new pump is also being installed and the boat is being generally overhauled, repainted and painted. She should certainly present an admirable appearance when the work is done, but her expense bill will be no small item.

EN ROUTE TO OTTAWA

Liberal M. P.'s From New Brunswick Are All on Their Way to the Capital.

OTTAWA, Aug. 8--(Special)--The Liberal members of the commons from New Brunswick are en route to Ottawa and will be here today for a conference with Sir Wilfrid Laurier in reference to the election of New Brunswick's representative in the cabinet to succeed Hon. H. R. Emerson, ex-minister of railways. The new minister, it is understood, will be either F. B. Carroll, member for Carleton county, or Hon. Wm. Pugsley, ex-premier of New Brunswick, and now Liberal candidate for the St. John agency in the federal house. Sir Wilfrid's choice doubtless will largely be influenced by the views expressed today by the New Brunswick members.

A TEN YEAR OLD GIRL CLIMBS THE JUNGFRAU

INTERLAKEN, Aug. 8--Ida Liechte, ten years old, has just climbed the Jungfrau with three alpinists and two guides. The party started from Eismeer station at 3 p. m. Tuesday and spent the night at Berglütte, from which point the regular of the ascent was completed in five and one half hours. The climb was exceptionally difficult owing to the strong wind and severe cold. Ida Liechte is the daughter of the director of the Jungfrau Railway, and is the youngest high Alpine climber of renown.

THE I. C. R. MOTOR CAR

She Did Not Do as Well on "dry" Trips. The new I. C. R. motor car was given another trial trip this morning. An extra passenger car was attached as a trailer. The train made good time out of Hampton, doing the run about the same as the regular suburban train, but coming back the heavy grades proved too much for the new machine with her extra load, and considerable time was lost. The failure is attributed to poor coal that would not steam well. Another trip will be made tomorrow when different coal will be used and it is expected better results will be obtained.

A young lady of the west side, while crossing the Union street trestle last night slipped and fell into the water but was rescued without injury.

deeply and sincerely as he when the alderman decided to strike a rival and name it the Ludlow. "United we stand, together we fall," said the alderman, and Wun Lung and Wun Gundy endorsed the sentiment. He has since seen these two restored to favor, and has rejoiced. If he should resign they would no doubt commit bars kill the next day.

If possible Earl Grey will be kept away from City Hall. The mayor is afraid that if his excellency went there he would observe the condition of the Prince William street pavement, and forget what he was to say to the people about his resignation in Canada.

Mr. Peter Binks denies that he is slated for a position in either the federal or provincial cabinet. He says he is not looking for trouble this summer.

Mr. Jamesy Jones says he has never seen as much weather in the same space of time as we have been getting lately. The crop, he thinks, must be unusually good--particularly the rain crop.

HOW A MASHER WAS SUBDUED

A Would-be Lothario Handed a Lemon on An Ocean Liner.

NEW YORK, Aug. 8--How the attentions of a would-be masher, who annoyed several women on the voyage of the Carmania, were suddenly stopped by a citron presentation when the promenade deck was crowded with passengers who enjoyed the man's discomfiture, was told yesterday after the Cunarder had berthed from Liverpool.

A southern woman, who returned from a trip abroad with her husband, was the object of the masher's attentions. From the outset of the voyage he had ogled her at table, in the saloon, and on the promenade decks, and no amount of scowling or evidence of annoyance could shake his obtrusive attentions. Finally she decided to humiliate the man. Her husband and several friends gathered to see the fun. Surprised indeed was the masher to see that at last the woman was paying some attention to him. With a smile she indicated that the two would meet farther up the deck and a nod indicated the place. With a punctilious bow the man extended his hand to grasp that of the woman. But there was no hand clasp, for instead her fingers relaxed their hold on a large juicy citron. There was a roar of laughter from the crowd scattered along the deck, and the masher, red in the face, hurried through the saloon entrance and went to his cabin. Thereafter he was scarcely seen.

THE CHATHAM SPORTS

The morning was rainy but has cleared up and gives every promise of a good day.

"BOB" CRAWFORD RESIGNS

He Leaves Police Force to Accept Position With a Mercantile Firm.

Officer Robert Crawford has resigned from the police force. In consequence of a complaint made to Chief Clark by the police magistrates, Officer Crawford was temporarily suspended from the police force pending an investigation into the charge that he had spoken of the magistrates in uncompromising terms. This morning Officer Crawford was offered a lucrative position as chief shipper for Emerson & Faber. He accepted the offer and tendered his resignation to Chief Clark. The chief received the officer's resignation with regret and gave him a high recommendation.

Officer Crawford has been connected with the police force almost nine years and has always been a competent and efficient officer. His friends will wish him every success in his new sphere.

SITUATION IN DOMINICA

German Officers Are Now Instructing the Army.

PUERTO PLATA, San Domingo, Aug. 8--German officers have been chosen as instructors of the Dominican army. The presidential election will take place in November and the present administration will be continued in power unless relieved by a revolution, which would be a difficult task. The government is watchful and has ample resources, thanks to the American occupation. Carlos Mola and some revolutionists from Puerto Rico have landed in Barabola and defied the American protectorate. They have been reinforced by General Rosa, who will actively resist the government's vigilance and the Mexicans may place cruisers around the island.

BLOWING THEM OUT

Boulders on Site of New Wharf Being Removed With Dynamite.

The work of blowing up the big boulders on the site of the new 600-ft wharf on the west side is being carried on every day. Yesterday good headway was made and several large lumps of stone were demolished. One of the charges set off yesterday is reported to have shaken the works and the ground thereabouts to a considerable extent, making the people think for a few seconds that an earthquake was paying them a visit. However, no damage was done except to the boulder, which suffered considerably. It is expected the site for the first two crabs will be ready in a few days.

WANTED AN APOLOGY

Interesting Case in City Court This Morning. A city court case that aroused considerable amusement was heard before Judge Ritchie this morning, when Megarity & Kelly sued Mrs. Hamilton for some sexual dollars. The defendant claimed that the amount was increased and that she owed the plaintiffs only about \$1.19. She demanded an apology from the plaintiffs and refused to leave the court till she got it. The judge assured her that an apology would be made, provided she gave the point, and J. King Kelley, the plaintiffs' counsel told Mrs. Hamilton that his clients were sorry for having given her so much trouble, whereupon she left the courtroom. The case of the Hebrew congregation of the Times against Meyer Gordon for the recovery of \$33 for the privilege of selling meat slain by the rabbi, was resumed today. Dr. A. W. MacRae asked for the privilege of amending particulars and adding the amount stated. J. King Kelley the defendant's counsel, objected and his objection was sustained. Mr. Kelley announced that he would call no witnesses for the defence but would move for a verdict in the defendant's favor, and falling that a non-suit.

THE FISH MARKET

Tomorrow's supply for the local fish market will probably be rather limited and it will behoove intending purchasers to place orders tonight or early tomorrow morning. Salmon has advanced from one to three cents a pound and will likely be very scarce next week. Prices are quoted as follows--Salmon, 18, 25 and 28c per pound; cod, 5c; haddock, 6c; mackerel, 15c; halibut, 15c; smelt, 10c; pickerel, 10c; finnan haddies, kippers and blotters the same as usual. Mackerel, shad and smelt are reported scarce.

FINANCIAL and COMMERCIAL

BIG SLUMP IN WALL STREET

The New York Market Bordered on Panic Yesterday Lowest Level of Years Reached by Many Railroad and Industrial Stocks--Various Causes Are Assigned.

New York, Aug. 7.—Conditions bordering on a panic, during which both railroad and industrial stocks suffered heavy declines, many reaching the lowest levels for years, were experienced on the New York stock exchange today. The sudden decline in prices is attributed generally to the effects of the imposition of the Standard Oil fine and state attacks on railroads in their efforts to enforce recent drastic legislation.

Prices, at first buoyed up under the report that capitalists were merely ridding themselves of superfluous securities, soon declined, when the liquidation became general. Stock after stock, regardless of its previous good reputation, tumbled one after the other and excited brokers struggled on the floor to rid themselves of declining securities. Conditions were so bad if not worse than the so-called panic of March last. Falling stocks today received practically no support and many levels far below those of the spring were recorded.

Some keen observers of the Wall Street situation say that they would not be surprised if an old-fashioned panic such as has been called the "twenty year panic" would occur at any time. The would-be investor under ordinary conditions is afraid to buy. The immense surplus shown in the savings bank report yesterday gives sufficient evidence that the money is going into the stockings rather than into the stock. People who are holding stocks today are catching the scare. To others some of the offers are too alluring to be considered substantial. Where a year or so ago an investor would consider himself doing well and secure with a first class stock paying him 5 or 6 per cent, he has now held out to him stocks yielding seven per cent. The same is true in the bond market. It looks too much like a "come out" game.

Various reasons are given for today's slump, but the Standard Oil fine, the government attacks on railroads and the general recession of trade are regarded as large and active factors. In the market today the first stock to go was Smelters. That was weak all day for bear pressure that brought it yesterday down below its low figure on March 25, when the second shock of the spring panic occurred, succumbed easily. It was followed closely by Amalgamated Copper. The Interborough Metropolitan stocks had already fallen below their previous low record, and Atlantic City line went by the board at the same time.

As the flurry continued one stock after another gave way to the rush of orders. Louisville & Nashville went to 107 and few persons noticed in the confusion that it had touched a figure where it had not been in years. The closing tone was weak and irregular with not all the rally held. Bonds were steady; total sales, par value, \$1,108,000. United States funds declined 1/2 per cent on call.

Regarding the Japanese loan the London correspondent of the New York Evening Post writes: "As regards the railway schemes for which the present loan is intended, the details are distinctly interesting from a geographical as well as from a financial standpoint. Roughly speaking, the money is required to broaden the gauge of the South Manchurian Railway, running from Port Arthur to Changchun (a point slightly south of Harbin) from three feet six inches to four feet eight and one-half inches the latter being the standard gauge on all the Chinese and Korean railways. The South Manchurian Railway is, of course, that portion of the Manchurian railways retained under Japanese control after the conclusion of the war, and there is no doubt that it covers a highly productive area, both as regards agriculture and minerals.

"By these means of transit, it is maintained that Japan could be reached from London in about eleven days, with only about seven hours at sea. It is stated that most of the \$4,000,000 just raised in London (with the help of underwriters) will be spent in this country for railway materials, but I have good reason to know that Japan is also spending very largely

THE RIVER SERVICE

THE RIVER SERVICE

Demand for a Full Investigation of the Crystal Stream Fire--Competition on the Lake Route. To the Editor of the Evening Times: Sir—Through your columns I would like to ask the criticism of the city, St. John and the river counties why some effort is not being made to locate and bring justice to the Crystal Stream fire. When we review the last twenty years of the history of steambusting on the St. John river and recall the number of passenger boats burned during that period, and the circumstances connected therewith, we naturally come to the conclusion that somewhere, within the steambusting region, persons exist who have a mania for burning steamboats of the passenger service. In each case the question has been raised to the origin of the fire, but as no investigations were held, the events passed into history, leaving the public to grope in the darkness of uncertainty. But the horrible tragedy of June 21st, when the steamer Crystal Stream was burned and four young men lost their lives, while the remainder of the crew narrowly escaped the same fate, was of such a nature as to cause the public to demand an investigation. The investigation (termed an inquiry) was a feeble effort, keeping so far beneath its privileges, tended to soothe rather than disturb, as to give to the public no satisfactory evidence as to the origin of the destructive fire, and the demand is still made for further inquiry. While the steamers were operated on the river they were all owned in the City of St. John, and should thus be of interest to all citizens. If a boy had owned one of the large stores in your city and stolen a small amount of goods or robbed the till of some of its contents, and no clue could be given, detectives would have been set to work at once to if possible locate the offender and bring him to justice. But a steamer valued at \$2,000 and owned in the City of St. John, can be burned with terrible loss of life and government property under suspicious circumstances, and no effort is made to find the perpetrator. Of all the things that a citizen should be interested in, why is it that the City of St. John, which is the largest city in the province, should have a steamer burned and four young men killed, and no effort is made to find the perpetrator. Of all the things that a citizen should be interested in, why is it that the City of St. John, which is the largest city in the province, should have a steamer burned and four young men killed, and no effort is made to find the perpetrator.

THE HAPPY HALF HOUR

The Happy Half Hour has an exceptionally strong bill commencing at 12:25 today and for the balance of the week. Picture-quester Canada shows scenes in Quebec, Montreal and the West, and includes some of the buffalo and other animals in Banff Park. This picture should be seen by everyone. I Must Forgive, is a Danish story of strong dramatic interest. A Slave's Love is a hand colored picture and will prove without question to be the handsomest colored picture ever seen in the city. The scenes are laid in the Far East, and the rich and gorgeous colored costumes worn by the principals are well worth seeing. The Oxford-Cambridge boat race shows the contest that took place on March 16, 1907 over the historic course and shows the thousands of spectators lining the banks of the Thames. Le Domino Rouge, assisted by Harry B. Le Roy, will sing the popular illustrated song, Arrah Wanna. Altogether this programme is the best yet seen at this popular place of amusement.

THE RIVER SERVICE

Demand for a Full Investigation of the Crystal Stream Fire--Competition on the Lake Route. To the Editor of the Evening Times: Sir—Through your columns I would like to ask the criticism of the city, St. John and the river counties why some effort is not being made to locate and bring justice to the Crystal Stream fire. When we review the last twenty years of the history of steambusting on the St. John river and recall the number of passenger boats burned during that period, and the circumstances connected therewith, we naturally come to the conclusion that somewhere, within the steambusting region, persons exist who have a mania for burning steamboats of the passenger service. In each case the question has been raised to the origin of the fire, but as no investigations were held, the events passed into history, leaving the public to grope in the darkness of uncertainty. But the horrible tragedy of June 21st, when the steamer Crystal Stream was burned and four young men lost their lives, while the remainder of the crew narrowly escaped the same fate, was of such a nature as to cause the public to demand an investigation. The investigation (termed an inquiry) was a feeble effort, keeping so far beneath its privileges, tended to soothe rather than disturb, as to give to the public no satisfactory evidence as to the origin of the destructive fire, and the demand is still made for further inquiry. While the steamers were operated on the river they were all owned in the City of St. John, and should thus be of interest to all citizens. If a boy had owned one of the large stores in your city and stolen a small amount of goods or robbed the till of some of its contents, and no clue could be given, detectives would have been set to work at once to if possible locate the offender and bring him to justice. But a steamer valued at \$2,000 and owned in the City of St. John, can be burned with terrible loss of life and government property under suspicious circumstances, and no effort is made to find the perpetrator. Of all the things that a citizen should be interested in, why is it that the City of St. John, which is the largest city in the province, should have a steamer burned and four young men killed, and no effort is made to find the perpetrator.

THE EVENING TIMES, ST. JOHN, N. B. THURSDAY AUGUST 8, 1907

The Evening Times.

The St. John Evening Times is published at 27 and 29 Canterbury street, every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd. A company incorporated under the Joint Stock Companies Act.

THE EVENING TIMES, THE DAILY TELEGRAPH. New Brunswick's Independent newspapers. These newspapers advocate: British connection. Honesty in public life. Measures for the material progress and moral advancement of our great Dominion.

BRING MILLS TO CANADA The growing export of pulpwood from New Brunswick by American firms owning timber lands in the province, and the possibility that this business may assume much larger proportions, make the subject one of very real importance here in other parts of eastern Canada.

"Pulpwood is almost the sole material from which paper is made. Spruce pulpwood is as much to the papermaker as hides are to the tanner. If the supply of it is cut off there is no substitute to take its place so long as competitors have spruce wood. The day may come when paper will be made from cotton stalks, corn stalks and refuse sawdust, but so long as spruce is available these more expensive materials will never be used. So that if Canada prohibits the export of pulpwood it is not to be supposed that the paper mills now here would be allowed to remain in possession of the field. Many of the 1,200 paper mills in the United States must either use Canadian fibre or close down, and it is reasonable to suppose that the result would be the moving of a number of plants to Canada. These plants would afford competition to the seller of pulpwood, and they would also build up milling towns and provide a market for farm produce, which is quite as important as the pulpwood sold by individuals. It must be remembered that in Ontario, particularly, and in Canada generally, the provincial governments are the great owners of pulpwood, and that the pulpwood sold by settlers off their own land is not such a great trade. But, even for them, as shown above, prohibition of export might be a good thing. The prohibition by Ontario of the export of sawlogs has not ruined anyone who has timber to sell. Timber berths which were offered for a certain figure in 1900 have sold for two and three times that sum in 1907. The prohibition of the export of sawlogs has transferred the saw-milling business from Michigan to Ontario, and it is reasonable to suppose that the prohibition of the export of pulpwood would transfer a large part of the paper-milling business from Wisconsin and the New England States to Canada to the benefit of everybody in this country."

SIR WILFRID LAURIER In Ottawa the question of federal cabinet reconstruction is now under consideration, and New Brunswick is deeply interested. Sir Wilfrid Laurier is a delicate task to perform. His choice of a colleague from New Brunswick will largely depend, it is said, on what the members from this province may recommend, and it is an interesting fact that within the past two weeks there has been a change of base on the part of a number of journals in regard to Dr. Pugsley. Influences have already been at work to draw the faithful together, and Dr. Pugsley has received sudden tributes of regard from unexpected sources. On the other hand Mr. Carvell is said to have influential support, and the situation is intensely interesting.

The rumor persists in Ontario that Hon. Mr. Sutherland is to succeed Mr. Hyman in the cabinet. It would seem, then, that this vacancy must now be filled, as London was not represented at the last session of the house. Whether Sir Wilfrid will have the courage to deal with any other portfolios than those of railways and public works is a question that is being asked with much eagerness throughout Canada. Many Liberals are thinking as that staunch Liberal journal the Montreal Witness thought when on Sir Wilfrid's return from London it said: "Sir Wilfrid Laurier upon his return finds himself confronted with a task heavy enough to frighten a man less brave and less noble. There were reasons for his being unwilling to forsake his place at the helm at home. No one can deny that the Canadian Liberal party has fallen upon evil days. No doubt it is largely responsible for our present condition of prosperity, but nations and parties as well as men sometimes in gaining the whole world lose their own souls. Once the Liberal party was the foe of

privilege, the enemy of corruption, the friend of all the sturdy virtues that go to the upbuilding of a nation's character. It came into power in support of those ideals. He is a bold man who would deny that of late there have been many departures from them and a general lowering of tone which acts as dry rot. Once before, when Sir Wilfrid returned from a European triumph, he found a distinguished member of his cabinet endeavoring to lead the party in ways outside the path of its true political faith. When he came Mr. Bourassa from making a personal friendship and the loss of a lieutenant who had aided him again and again in victory. There are those who believe that he will be no less brave today."

These are strong words from a friend and supporter, and they indicate how weighty is the task to which the premier must set his hand.

Along with the confident assertion of his physician that Mr. John D. Rockefeller will live to be 94 years of age comes the announcement that the Standard Oil Company is to be prosecuted for giving short measure as well as receiving rebates.

A Berlin cable says: "The German government will raise no objection to France, Spain and Italy taking energetic action in Morocco. On the contrary, she assures them of German sympathy. Herr Langworth, the German charge d'affaires at Tangier, has been instructed to inform the French minister that Germany fully recognizes the necessity for the solidarity of all Europeans in Morocco in the present situation."

The Sun this morning states that the New Brunswick Year Book is "credible to the good sense and enterprise of the government." But the Sun would not care to have its own imprint on the book. The government made the mistake of having the appearance of the book cheapen the value of its contents.

Interest in political matters is becoming active in Ontario. The Conservative leaders of the eastern part of the province met in Kingston this week and laid plans for preliminary organization work; and at Stratford in the western part of the province the executives from five ridings met for a like purpose.

Of the hoodlums who broke up the Bourassa meeting in Quebec East the Montreal Witness says: "To whom these young men belonged can easily be surmised, seeing that they followed the word of command of the Quebec Liberal press." This is plain talk to the newspapers of the ancient city.

The city is still without a director of public works. Another summer is passing without any improvement in the condition of the city's streets. The pavement in places is utterly disgraceful.

In Quebec province Mr. Bourassa is at present the political storm centre, and will be the more aggressive because of the organized attempt in Quebec East to prevent him from addressing the people.

Mr. Borden, in Toronto yesterday, expressed the opinion that there would be another session before parliament is dissolved.

MET A LARGE WHALE

Captain of Doble Liner Saw a Big One Floating off Low Point. NORTH SYDNEY, Aug. 5.—Captain Simonsen, of the Doble Line steamer Dagoid, which arrived in port from St. John's, Nfld., about noon Friday, reported meeting one of the largest whales he had ever seen about six miles off Low Point. The big fish was dead, and was of the Sulphur belly variety. Captain Banks Rudderman at once put to sea in search of the prize, but was unable to locate it. Captain Simonsen believed the whale was worth about one thousand dollars.

At a meeting of the United Baptist church foreign mission board yesterday, the annual report of the secretary was read, discussed and passed. This report, which embodies a synopsis of the work of the board during the past year, as well as the operations of the missionaries in India, will be submitted to the maritime Baptist convention, which will meet in Wolfville on the 23rd inst. Other reports for the convention were also considered. A. A. Wilson, E. C. C. solicitor to the board, reported on the condition of certain bequests, and the board adjourned.

BOURASSA TO CONTINUE

He Will Carry on a Series of Meetings in Quebec District Where He Was Attacked.

QUEBEC, Aug. 7.—There is much indignation here over the incident which followed the Bourassa meeting on Monday night. According to Mr. Laverne, Mr. Bourassa will continue his meetings throughout the whole district. The five men arrested Monday night for creating a disturbance at the Bourassa meeting in Jacques Cartier place have been released. Two of them were partisans of the speaker, and Sub-Chief Walsh said that Mr. Bourassa had expressed a desire not to push the prosecution, and had asked that the disturbers be set at liberty. One of those arrested turned out to be a Montreal detective, who attended the meeting in the interest of the member for Labelle. The opinion prevails that the hoodlums who broke up the meeting were hired for the purpose. It was reported that one of them was heard observing in the course of the tumult: "Now I've thrown twenty-five, and I think that I've earned my \$2. Guess I'll go to bed now."

A POLICEMAN SUSPENDED

Policeman Robert Crawford Suspended by Chief for Using Bad Language When Speaking of Police Magistrate.

Patrolman Robert Crawford was last Tuesday night suspended by Chief of Police Clark on the ground of having used obscene language in a street when speaking of Judge Ritchie. An investigation will be held.

It is understood that Crawford denies the charge and will likely bring witnesses in support of his contention. Policeman Crawford joined the regular force Sept. 7, 1900, succeeding the late John McFadden. Since his appointment he has been once suspended, charged with sleeping on duty. Some weeks ago he arrested William White, and there was a big street fight before White was taken. In the police court the decision was against Crawford and the present matter, it is said, arises from that circumstance.

CARVELL OR PUGSLEY?

Ottawa, Aug. 7.—(Special)—The Liberal members of the commons from New Brunswick are en route to Ottawa and will all be here tomorrow for a conference with Sir Wilfrid Laurier in reference to the choice of New Brunswick's representative in the cabinet to succeed Hon. H. R. Emmerson, ex-minister of railways.

The new minister, it is understood, will be either F. B. Carvell, member for Carleton county, or Hon. William Pugsley, ex-premier of New Brunswick and now Liberal candidate for St. John in the federal bye-election.

Sir Wilfrid's choice will doubtless be largely influenced by the views expressed tomorrow by the New Brunswick members.

EARLY LOVE STILL HOLDS CZAR'S HEART. The New York World publishes the following: ST. PETERSBURG, Aug. 3--Such extraordinary measures are taken to prevent the czar that his appearance will probably be as little known to his people as that of the Chinese Emperor to his subjects. He has one pleasure in life at Peterhof, which he has just left, as a reward to his faithful subjects. He drives frequently to the neighboring village of Snelka, ostensibly to visit his uncle, the Grand Duke Constantine, but here also is the home of Mlle. Kessalkina, the prima ballerina of the St. Petersburg Opera, with whom he was married in love while hardly more than a boy. The police for ten days before the czar's departure from Peterhof for the Gulf of Finland patrolled the roads, obliging the owners of villas to keep indoors, with windows tightly closed on the day of their ruler's passing. Secret police were posted behind every hedge. 'All divorcees granted in British Columbia may be illegal,' such is the opinion of Justice Clement. LOST: LOST--BLACK SPANIEL BITCH, ANSWERS TO 'JESS' RETURN TO 2 BRITAIN STREET. LOST ON MONDAY--POCKET BOOK, containing \$14. Reward if returned to TIMES OFFICE. LONDON, Aug. 6--Since Richard Croker's Derby winner, Orby, collapsed in the race for the Atlantic stakes at Liverpool on July 25, when he came in last in a field of four horses, rumor has been doing the rounds that the colt is ill.

FALL CIRCUIT HORSE RACES

Three Days' Racing at Moosepath, Aug. 31, and Sept. 2-3--\$1,650 in Purses--Six Big Events on the Card.

Entries for the fall circuit horse races at Moosepath Park under the auspices of the Gentlemen's Driving Club on August 31 and September 2 and 3 will close August 19th with the secretary, John Ross.

There will be \$1650 in purses for these races and it is expected many more horses will be entered than in the summer meet held in July. The track is being put in first-class shape and it would not be surprising if the track record was smashed.

Considerable interest attaches to the fall meet as it occurs at the same time as the big fermen's tournament, so that a large number of visitors will no doubt be in the city to participate in the big time. The races will be as follows--

First Day--Saturday, August 31. 2.15 Class, Purse No. 1, Trot and Pace. 2.35 Class, Purse No. 2, Trot and Pace.

Second Day--Monday, September 2. 2.30 Class, Purse No. 3, Trot and Pace. 2.35 Class, Purse No. 4, Trot and Pace.

Third Day--Tuesday, September 3. 2.21 Class, Purse No. 5, Trot and Pace. 2.26 Class, Purse No. 6, Trot and Pace.

Conditions--Races to be mile heats, best 3 in 5 to harness. Entrance fee 5 per cent, with 5 per cent additional for winners. Purse divided 50, 25, 15 and 10 per cent.

NOTE--Fall circuit races are to be held as follows: Chatham, August 27 and 28; Fredericton, September 17 to 18; Halifax, September 25 to October 2; Charlottetown, October 8 to 11.

FAST MILES IN CANADA. Only on five occasions has a mile been run in Canada in 1:30 or better, and four of these were at Fort Erie. The performance was: Corsucate, 3 years, 86 pounds, Fort Erie, August 13, 1903, 1:38 1/2, the Canadian record.

Denham, 3, 85, Fort Erie, July 27, 1907, 1:38 3/4, the Canadian bred record. John Yerkes, 73, Fort Erie, August 20, 1903, 1:38 3/4.

Scarrell, 3, 83, Fort Erie, July 18, 1904, 1:39. Ralph, 4, 104, Woodbine, June 1, 1900, 1:30.

The only other horse owned in Canada in the 1:30 list is Mr. Robert Davies' New Mown Hay, who won a mile race in 1:38 2/5 at Belmont Park, October 6, 1905.

SOME OF HANNAH'S THOUGHTS

Editor Times: "The lightning bug is brilliant. But it has no mind. It blunders through existence and is lost on the way."

This quotation is my auto-biography in a nutshell, Hannah says the fire-fly is all right. She calls them stars glinting in the meadows going off at night. Hannah is practical but she has a sense for the beautiful in scenery—night or day.

Whatever she says goes along with me. She taught school awhile before we came together, and her memory is stored with quotations from the Reader. We were late getting supper last night—I couldn't find the cows. After milking time Hannah and I were sipping tea and eating cornbread out at the back porch. Hannah was talking. She said it was mercy that she ever consented to have me for a husband.

"If I had any one else to care for me, which is doubtful, I would not be able to write for the papers." She said, she felt proud of me.

"Buckwheat," she exclaimed, "your name expresses more than the maple leaf as a national symbol. It is both beautiful and useful. The great things in life—What is more beautiful and useful than a field of buckwheat in bloom and thousands of bees gathering honey from each opening flower? Then think of the millions of buckwheat cakes that are laid as a corner stone to our young and rising generation. The only ceremony being the passing of the molasses jar. Then when these youngsters grow up and go out into the world they move it along. They are leaders as editors, doctors, statesmen, preachers and merchants and what-not."

She then repeated a couplet from the old Reader—Words she often makes use of, by Cowper:

"God made the country. Man made the town. I watched my chance and looked to see if it would take—'Hannah you ought to have been the spouse of Laurier or Roosevelt. Your learning and talents would adorn such a position."

I was going to tell you all about our marriage and golden wedding, but the cows got out of the cowyard into Hannah's cabbage patch, she made me quit rather abruptly and so when I got the cows back through the bars and came in the house, Hannah said, "It's bed time, take off your boots and get ready for bed." She asked me if she was doing much damage to the cabbage. My Sunday school teacher told me always to sell the truth—like George Washington—so I said, "a few dozen cabbages are now in the ends of the cows, but they will give more milk in the morning." Hannah is a good wife, but she is subject to brain storms. I generally go to the woodpile or barn till the storm is over. It was night and I had my boots off, so I sat down in the corner "till the clouds rolled by." The way Hannah talked you'd think I'd ate the cabbage. Red headed women are good natured and quick tempered, but they never turn grey and their freckles are always in harmony. Hannah talked so quick I could scarce take any notes. She illustrated her remarks by fingering things around. I wished I was at the Hague peace conference. I heard the word divorce very often. "All things come to those who only wait." So after a while Hannah said, come away to bed—what are you staring up so late for?" I rubbed some Johnson's liniment on some places and went to bed. Hannah kept on talking after going to bed.

BUCKWHEAT. I have been in town over night sometimes and heard the bell and fog horns. They sound as if all the world was dead. So I tried to think it was a little rough outside and would be calm in the morning; so I fell asleep. We took one another for better or worse—it's sometimes worse, often better, like everything else. Anyway Hannah is like a big sunflower, cloud or shine, summer or winter. If your office doors are big enough I want to bring her in when we're down shopping. I'll let you know beforehand, as you had better take one of Hawker's tonics as a brace.

Yours, HANNAH.

COMPLAINS OF CRUELTY

Mrs. James Wells of 125 Sheriff street will sue her husband for a divorce on the ground of cruelty and desertion.

She maintains that her husband has never supported her properly and when he was drunk treated her cruelly. Mrs. Wells alleges that shortly before leaving his home about a month ago he inhumanly beat the eldest child, a girl of seven years old. She adds that, one day during her absence from home, he told a neighbor he would shoot her and the two children if he caught them outside. Mrs. Wells intends having him arrested for cruelty to herself and the children, and if this proves unproductive of better results she will seek divorce.
