Two Sisters Among the Drown-
ed in River Tragedy
of a Minute
Husband Saved, Wife is Lost; Striking
Rescue Work From Shore; Craft Said
to Have Keel Over Under Blast of
Cutting Wind; Sank Before Anything
Could be Done

The converted steam yacht "Dream," which has been a familiar craft on the St. John river for years, sank off Gorham's Bluff nearly opposite Oak Point, about ten o'clock this forenoon during a northerly blow. Two men and two women who were passengers, were drowned, says a report to The Times, and the Dream is now at the bottom of the river with nothing but a small jolly-boat dangling at the submerged davits.

FATHER AND SON
TAKEN OUT OF
JAIL AND SHOT

Nashville, Tenn., Oct. 20.—Two men recently convicted of manslaughter were taken from the county jail at death in a vacant lot two hundred yards from the jail.

ORATION FOR
LLOYD GEORGE
AT GURDHAL

London, Oct. 20.—Lloyd George received one of the most remarkable ovations ever witnessed in the Guildhall today, when he rose to propose the health of the Prime of Wales, who was guest of the corporation of the city at luncheon. For several minutes it was impossible for Lloyd George to proceed. He was visibly affected.

APPROPRIATIONS
FOR METHODIST
MISSION WORK

Toronto, Oct. 20.—Following the meetings of the Methodist General Board of Missions here, it was announced that total appropriations for all Methodist missionary societies mission purposes, both in foreign fields and in Canada, including administrative, educational, and miscellaneous purposes, amounted to \$1,255,941.

Outgoing of Lloyd George
Acclaimed in Press
One of Two Notes of Warning
Mixed With Words of
Acclaim at Downfall of
British Government—Le
Matin Hopes France Will
Never See the Welshman
Again.

Paris, Oct. 20.—The dominating note in the French press comment on the fall of the Lloyd George cabinet in England is that the change cannot fail to make negotiations for the settlement of Europe's problems easier. To the majority of the papers it is looked upon as a victory for France.

COLLEGE GIRLS
ADOPT LOWLY
OCCUPATION

Chicago, Oct. 20.—To the ranks of the millionaire newsboy and the capitalist rag-picker there was added another paradox of industry when Miss Lisa Ellison and Constance Greenberg, sophomores at the University of Chicago, hung out their shingle as shoe-shiners in the university women's building.

BRITAIN AND U.S.
LAND MARINES
AT LADWOSTOK

Vladivostok, Oct. 20.—British and U. S. marines were landed here today to guard the consulates of the two nations.

The British cabinet yesterday is expected to delay the opening of negotiations looking to the refunding of the \$5,500,000,000 British war debt to the U. S. It is not expected, however, that it will affect interest payments on the debt due this month.

REVIEW OF THE METAL MARKET

In its summary of the iron, steel, metal and machinery market, Canadian Machinery and Manufacturing News, Toronto, makes the following comment in its Oct. 19 issue:

Although there have been no declines in steel prices, some readjustment is appearing in coke and pig iron. Canadian furnaces announce a reduction of \$5.00 bringing the price per ton to \$86.80, while Pittsburgh reports a softening process that does not appear to be sufficient to produce a market.

It would almost appear that buyers had anticipated more of a shortage in deliveries than has developed, but there is no indication that the easier undertone to the market is caused by decrease in general industrial activity. Seasonal influence will undoubtedly have its effect, and while it may develop that there has been a fair amount of work done, it is more probable that progress has been made in spite of strikes and other problems. The easier price tendency may be attributed almost entirely to cessation of labor troubles.

Steel ingot production is back to the rate of last June, or on a basis of about thirty-seven million tons a year. The August production had dropped to a basis of twenty-five millions, while September had a corresponding increase, showing of thirty-three million ton average at the close. At the present rate of going, according to advices from American centres, a shortage in production need not justify consumers stocking in anticipation.

While the general tone of the steel market is easier, no reductions have been made. Merchant bars have been quoted at \$2.00 mill, Pittsburgh, but it is said some are offered at \$1.95. The Hamilton price rules at \$2.70, with the Montreal and Toronto warehouse range from \$3.15 to \$3.25. There has been a good demand recently for boiler tubes. This is a seasonal feature, and prices show a slight advance, about 5 per cent.

Congestion at American centres of production is undoubtedly a factor in maintenance of prices. Shipments are much below production, but it is reported that steel mills are not accumulating anything like the volume they had at the high point of 1920, when three million tons of finished steel were piled up. At the present time there is not one-tenth as much, and mills are reluctant to go further, as buyers may not want the material if late in delivery. The unfilled obligations of the Steel Corporation, at the end of September, amounted to 6,091,000 tons.

Montreal reports that no price changes are anticipated, and that they will remain steady until close of navigation. The limit of the upward movement has been reached, and reversions, if any, should be in a downward direction. The situation as regards galvanized and black sheets has become a little easier owing to slight falling in demand and larger supplies from British mills. There is good demand for boiler tubes and the market is adequately supplied. Some machine tools and mill equipment are moving, but the demand is somewhat spasmodic. There is some indication that prices may move higher, as it is a question whether machinery reproduction could be carried on at present figures. Should the movement acquire strength, it will, it is said, tend to eliminate the "business-at-any-price" element that makes its appearance under conditions that have existed for the past year.

POINT SYSTEM WILL DETERMINE BEST COWBOY

The point system has been decided upon as the best means to determine the world's champion cowboy when the "world's series" of western sports is held in Madison Square Garden, New York, early next month. The competition will last ten days, starting Saturday afternoon, November 4. "Tex" Austin, who is promoting this novel competition in the metropolis for the first time, will hang up \$26,000 in cash prizes for the various events which are to consist of broncho riding,

teer wrestling, steer riding, calf roping, fancy roping, and trick and fancy riding.

Already entries have been received from the winners at the roundups held at Pendleton, Ore.; Cheyenne, Wyo.; El Paso, Tex.; Miles City, Mont., and Las Vegas, New Mexico.

MAJORITY OF BULGARIAN ACADEMY OF SCIENCES IN JAIL

Sofia, Bulgaria, Oct. 20.—Nine of the sixteen members of the Bulgarian Academy of Sciences, who were former cabinet members under the regime of King Ferdinand, are political prisoners

here, and the suggestion has been made by the minority members, with outward seriousness at least, that the majority hold future session of the academy in the office of the governor of the prison.

Still another member of the academy, its president, ex-Premier Ivan Guecheff, is under the ban of the authorities, who have ordered his apprehension, but he has thus far evaded arrest.

TABERNACLE SERVICES.

Last night saw the close of a week of special services at the Tabernacle Baptist church, when an informal

evening was spent by the congregation. The chairman then called for brief talks on the various departments of the church and A. H. Patterson spoke for the trustees, Mr. Murray for the Sunday school, Fred Crawford for the Men's Brotherhood, and Mrs. Bertha Patterson for the Sunshine class. The work of the World-Wide Guild as well as the Mission Band is under the direction of Mrs. A. L. Telford, George Fry leads the boys' work, Mrs. R. D. Colgan is the head of the W. M. A. S. and Mrs. George Fry is president of the Ladies' Sewing Circle, the teacher training class is in charge of the pas-

tor, the B. Y. P. U. was reorganized under the group plan and given promise of a strong force with an attendance of more than sixty.

BUBONIC PLAGUE AGAIN SHOWS UP IN HAWAII

Honolulu, Oct. 20.—Two deaths from bubonic plague have been reported on the island of Hawaii since August 1. A little girl and her brother were the victims. The mother and father have been quarantined.

Health authorities have ordered all stray dogs and cats in the infected districts to be chained and shot.

TRAFFIC REGULATIONS.

To the Editor of The Times: Sir—It can do harm at this time, when new traffic regulations must be formed, to draw attention to any and all problems which seem to call for action. Unquestionably, all horse-drawn vehicles, and bicycles on country roads after dark should carry a light. There can be no possible objection to this in view of the fact that what is fair for one class of traffic is fair for the others, and that it is principally for the increased safety of these drivers that the law will be made. They have such a law in England, why not in New Brunswick?

This brings us to the next step in the campaign for safe and sane traffic regulations, and that is, the abolition of the obsolete rule that automobiles shall be equipped with "Dimmers" and use them. Concerning the degree of brilliance that should be permissible in motor car lights, there is a flat divergence in ideas of those presumably competent to discuss the matter. How to get enough light thrown on the road without subjecting drivers to the fatal glare is the nub of the matter.

Western traffic men, coming in contact with the country road problem more often and constantly than easterners, condemn the law that requires "dimmers." They find that lights weak enough to leave the approaching driver some degree of safety do no good because neither the oncoming chauffeur nor the one using "dimmers" can see anything in an event. In the East and all large cities the dim light is urged because, it is erroneously pointed out, no one needs to point a brilliant light on the streets since the streets are well paved and the curbs unmistakable.

Anyone who has driven into the ditch or "kicked" a passing car with a fender while driving along a country road with dim lights wishes he had not been so "courteous." The city man who has suddenly plunged two or three feet into a hole in the street and broken a spring because he could not see clearly may sue the municipality—and waste his money.

Non-glaring lenses are near the ideal. But the driving public has not been educated to the point of realizing that a brilliant light is not necessarily a glaring one. Any amount of propaganda or campaign directed at "educating" the public to use non-glaring devices will do little good but the manufacturers of motor cars equip their lamps today with non-glaring lenses approved by the various States and Provinces on this continent. A list of these approved lenses can be obtained from the Secretary of State of Michigan or on application to the National Automobile Chamber of Commerce in Detroit.

The police can be furnished with these lists and those who are driving today with glaring lights should be required to fit their cars with one or other of the approved Lenses. The cost would be less than \$5.00 per car. To dim an automobile light on a country road on a dark, rainy or foggy night, is just asking for trouble. The lights would not be on the car in the first place if they were not needed for the operation of the car and the safety of other users of the highway.

Yours truly, St. John Automobile Trade Association, J. ROYDEN THOMSON, Secretary.

St. John, Oct. 19.

"GOATS' BEARDS" ON THE WAY

Forty-seven Bales of Them Pass Canal Bound North—New Generation Mystery.

Washington, Oct. 20.—Instead of the "bees' eyebrows" or the "lizards' knees," it threatens to be the "goats' beards" pretty soon. "Cats' whiskers" is already old fashioned. Whatever all this modern argot may mean to the rising generation, the "goats' beards" is initiated as an advance fashion by no less official a publication than the Panama Canal Record, which ordinarily speaks of marlin spikes, garboard stakes, and ship chandeliers. Witness the following official bulletin:

"An item in the cargo of the steamship Felix Taussig, passing through the canal on August 18 from Pacific to Atlantic ports of the United States, was forty-seven bales of goats' beards, weighing 23,127 pounds. Another was twenty-one bales of human hair tufts weighing 10,467 pounds."

Since fashion announces the return of the pompadour, it necessarily means the return of the "rat" and that accounts for the human hair tufts, but the goats' beards remain a mystery.

TORONTO PLANS FOR AN ITALIAN ORANGE LODGE

Toronto, Oct. 20.—The name of Garibaldi, the Liberator of modern Italy, will be linked with the name of King William III, on the next twelfth of July parade in Toronto.

Steps have been taken for the formation of a new Orange Lodge in the city, which will be composed entirely of Italians, most of them members of the Evangelical Temple in Elm street.

Rev. D. R. Gaultier, the pastor, has been active in organizing sufficient member for the formation of a lodge. Application to the Grand Orange Lodge of Ontario will be made in the near future.

HAS ROOM FOR MILLIONS MORE

Quebec Government Will First Encourage Farmers to Settle in New Districts.

(Montreal Gazette.)
Quebec, Oct. 17.—"The province of Quebec would quite easily accommodate 15,000,000 more inhabitants on short notice," said Hon. J. E. Perrault, Minister of Colonization, Mines and Fisheries, commenting on the future of colonization in this province and the advantages offered to settlers in the vast areas at the disposal of his department, which he said was unlimited.

It appears that though colonization will be encouraged there will be no efforts for some time to get settlers from Europe, the idea apparently being rather to encourage province of Quebec farmers with their large families to establish themselves in new districts and get more land to cultivate. Conditions in Belgium, for instance, are not encouraging for any campaign to bring settlers here, in view of the visible opposition of the Belgian Government to emigration to this continent until the period of reconstruction is over. The same seems to be the case in other countries. Hon. Mr. Perrault stated

that English, Scotch and Irish immigration would certainly be welcomed.

As regards repatriation from the United States, there are various opinions as to the possibility of attracting French-Canadians back to their native soil, and the impression prevails in some quarters that the campaign may not be carried very far.

An important announcement made to The Gazette representative by Hon. Mr. Perrault was that an act affecting fisheries in the province would be presented at the coming session. The main lines of that legislation, it is understood, will affect coast fishing in

the Gaspé Peninsula and on the North Shore.

Whether subsidies to erect refrigerators in Montreal, Quebec and elsewhere will be announced in the measure, could not be ascertained, but the act will cover Hon. Mr. Perrault's own investigation during his inspection trips.

POLICE FIND HIS MONEY HIDDEN IN WOODEN LEG

White Plains, N. Y., Oct. 20.—Jim Cote, ragged and with a wooden leg, walked into the police station here and begged for a night's lodging. He said he was broke and friendless. He spent the night in jail. In the morning when arraigned before Police Sergeant Read, it was noticed that the prisoner kept feeling of the wooden limb.

"What itches down there?" asked the Sergeant. "Nothing, only a little change," was the reply.

A search revealed a secret receptacle in the wooden leg within which was \$90.00. No charge had been made against Cote and he was allowed to depart.

Since September, 1919, Denmark has cared for 16,456 Austrian children.

MANGANESE ORE IN SCOTLAND

Five miners from Wales are now at work on the seams of manganese ore discovered at the historic Moor of Coluden, in Inverness-shire, and the shaft has already been sunk to a depth of over forty feet, says the London Observer. All the way down the ore is being found in greater quantity and richer quality as digging proceeds. Some of the seams, including one at a depth of only twenty-five feet from the surface, are seven feet in thickness. Manganese is a mineral indispensable to the manufacture of Bessemer and other steels, and supplies are comparatively scarce, so that the Coluden find points to far-reaching possibilities in the industrial development of the Highlands.

The discovery was made by chance. Thomas Wallace, an Inverness geologist, while on a visit to the neighborhood, observed an unusually dark-colored rock in the bed of a small stream. He dispatched a portion of the rock for analysis, which resulted in its being pronounced to be manganese ore, containing a percentage equal to the best Indian supplies.

On approach of winter frogs bury themselves in mud until spring.

SHARK MEAT SAVES CREW ON LONG TRIP

Los Angeles, Cal., Oct. 20.—Only the capture of a 10-foot shark off the west coast of Mexico saved the lives of the 11 members of the crew and Captain R. J. Healey of the auxiliary schooner Moonlight, which arrived here recently from Newport News after one of the longest voyages on record.

Facing death by starvation, when they ran out of food, members of the crew successfully angled and caught the huge shark, cut the meat into strips and cooked it.

RECENT DEATHS

Francis N. Ganong.
Francis N. Ganong, aged seventy-seven years, passed away at his home, Elmhurst, Kings county, at 5.30 o'clock Thursday after a short illness which he bore with Christian fortitude. He was a life-long resident of Elmhurst, and was highly respected by all who knew him. He is survived by his wife, three nieces and four nephews. The funeral will take place at 1 o'clock on Saturday to Kingston cemetery.

WOMEN'S HOSPITAL AID MEETING

The Women's Hospital Aid committee met yesterday with Mrs. T. H. Carter presiding. The treasurer's report, read by Mrs. Lester Mowry, showed balances of \$2,826.18, general; \$6.99, flower fund; and \$986.22, emergency fund. Mrs. C. O. Morris, in her report as chairman of the house committee, recommended the giving of ten dozen pairs of bed room slippers and two dozen bath robes. The committee was empowered to buy materials for the bath robes. The Baptists promised to make three, the Catholics, four, and the Anglicans eight. Mrs. Carleton Lee was appointed to take the place of Mrs. A. C. Skelton on the committee until her return. Mrs. Belle Hows, social service nurse, reported thirteen cases. Mrs. Ralph Robertson gave the report of the visiting committee. The meeting decided to present two wheel chairs. R. I. Gale, superintendent of the hospital, thanked the Aid for their work. The denominational vice-presidents reported as follows—For the Roman Catholics, Mrs. J. H. Doody; for the Anglicans, Mrs. Leonard, and for the Baptists, Mrs. Carter. A large number of books were received at the meeting and Mrs. E. L. Rising and Miss Hunter were appointed a committee to paste on them the labels donated by Mrs. Carter. It was decided to authorize Miss Lindsay to provide coaches for the return of patients who were unable to walk to their homes. Mrs. L. M. Owens and Mrs. Lester Mowry were appointed conveners to arrange a Halloween treat for the children. Mrs. C. O. Morris was appointed convener of the visiting committee.

HENRY PERCY BORDEN DEAD

Ottawa, Oct. 20—Henry Percy Borden, civil engineer, who for the last six years had been a resident of Ottawa, died at his home in Rockcliffe yesterday. Mr. Borden, who recently entered private practice here as a consulting civil engineer, was born in 1872, in Port La Tour, N. S. He was educated at Mount Allison, and at McGill, where he was graduated in 1902 with the degree of bachelor of science.

Rev. J. R. Watts President.

Waterproof Boots for Men

Why Hurlbut's Cost Less Per Day of Wear

The uppers are made of the highest grades of calfskin or kid; linings of wear-resisting double twill; double stitched and reinforced wherever the strain is greatest; solid leather counters; outer soles of genuine oak tanned leather; Hurlbut welted and made over lasts which conform to the natural shape of the foot. Let us fit your children with these good shoes—they're cheaper in the end.

TRAIN DERAILED; DRIVER IN WRECK OF BURNING ENGINE

Decatur, Ill., Oct. 20—Wabash fast passenger train No. 2 eastbound, was derailed near West Lebanon, Ind., last night. It is reported that Engineer Charles Schumgege of Decatur, is buried in the burning wreck. The baggage man is said to be fatally hurt. None of the sleeping cars left the rails and no passengers were reported to be fatally injured.

Men's Shirts For Winter

New and Different Styles

Shirt styles don't change very much as a rule from year to year. But it's men who keep up with the little differences that always look the best. Latest arrivals at this store are featuring "new and different" style ideas that will make a direct appeal to well dressed men. You'll find here a splendid variety of popular cloths, colors and patterns.

SEMI-BOSOM SHIRTS
With small double thick starched bosom that keeps the cold from penetrating. Cuffs are starched too. Made by the makers of high grade shirts. \$2.50 to \$3 each

SOFT BOSOM SHIRTS
These have starched cuffs and are showing in a fine variety of durable cloths. Patterns and color effects you will like. \$2 to \$3 each

SHIRTS WITH COLLARS TO MATCH
This style has become very popular of late. Collars may be had in starched or soft styles and are separate from the shirt. \$2.25 to \$3.75

(Men's furnishings, ground floor.)

Do You Need a Good Warm Overcoat

We have some splendid values for you here. Brand new styles with deep full pockets and comfortable collars that will turn up high when required. Some are made with belts; others are free hanging.

Enough variety in fabric, style and color to meet individual tastes and needs.

Styles for men or young men. In heavy plaid backed cloths or warm soft piled materials that are ideal for cold weather wear.

It's a wise idea to make your selection while stocks are complete. Unusual Values—\$22.50 to \$59.00

Elyria, Ohio, Oct. 20 - Traveling 2,000 miles from his home in the Southland, 11-year-old Richard Merrill has entered the Gates Hospital for Crippled Children here to face an agonizing ordeal during the next two years. In order that he may be rendered capable of kicking a football and ul- timately joining some eleven, young Merrill will submit to suffering and training of his limbs. The lad, who has clubfeet, was sent here by the Mesa, Arizona, Rotary Club. E. F. Allen of this city, president of the International Society for Crippled Children, is giving personal supervision to arrangements designed to transform this once hopeless youngster into a normal lad. Local surgeons declared that, after two years, young Merrill will be able to run, play and kick.

street, is attracting scores of curious spectators. It is literally covered with blossoms and bears 20-ounce apples. Lightning hit near the tree this summer. Immediately the apples fell off the leaves turned brown and fell to the ground, while the branches died, apparently. Then Chris Brown opened a bakery, while wiring the tree with wire. Nichols was ready to cut the tree down for fuel when he noticed the limbs were turning green and buds were popping out from the branches. Fruits, however, are expected to destroy the tree's second crop of apples this year. Horticulturalists from all sections of Northern Ohio are studying this latest phenomena. DOCTOR, BADLY HURT, TREATS INJURED DRIVER New Rochelle Ambulance Wrecked by Motor Truck While Answering Emergency Call. New Rochelle, October 20.—Three attaches of the New Rochelle Hospital were seriously injured when a motor truck hit an ambulance in which they were responding to an emergency call at Webster and Washington Avenues. Injured are: Dr. Leuelth Caro, interne; August Woerner, driver, and William Brown, orderly. Although severely injured himself, Dr. Caro treated Woerner, who was badly hurt, and in danger of bleeding to death. At the hospital, where the three were taken, it was said that if Woerner lived it would be due to the prompt treatment Dr. Caro had given him. Brown sustained a concussion of the brain and is in a critical condition. William Massaro, the driver of the truck, was arrested on a charge of violating the law which gives ambulances the right of way.

FOR DIPLOMACY, NOT COURT CASE

Important Judgment Relative to Action Following Collision in St. Lawrence.

Montreal, Oct. 20.—Mr. Justice MacLennan in the admiralty court yesterday, handed down a ruling of international significance. It dismisses an action instituted by Peter Brown, junior, owner of the Danish ship Sarmatia, claiming damages from the steamship Indochine, cancelled the warrant of arrest of the latter vessel and maintains that, as the Indochine belongs to Indo-China, a French possession administered in the name of the French republic, it was immune from seizure.

The judgment constitutes, so far as is known, the first finding of a Canadian court on this question. It was in accordance with successive decisions of the English courts in maintaining the principle that all government owned or government requisitioned ships, whether used for military, political or commercial purposes, are in time of peace as well as of war, immune from seizure. Any question arising as to damages caused by such ships is one for diplomatic settlement and not for litigation in the courts.

The Indochine was sailing to Montreal in last August when it collided with the Danish steamer Sarmatia, near Three Rivers. The owner of the Sarmatia, Peter Brown, took action in damages and seized the Indochine.

The Widowed Blackbird.
(London Times.)

On one of the cold, rainy days of summer a blackbird was observed working furiously in a suburban vicarage garden. Although wet and bedraggled, she sought no shelter, but toiled on with feverish haste. First to a well bank in the garden, then to an apple tree on the lawn, she passed backwards and forwards rapidly and unceasingly, carrying at each journey to the tree a little moss and mud.

During a slight break in the down-pour, the now keenly-interested observer passed quietly across the lawn, and saw that the foundations of a home

had been well and truly laid in a fork of the apple tree. Again the rain descended, but the industrious builder continued her work, undeterred by the state of the weather, and untrammelled by any question of rate of wages or *unemployment* rules.

Soon the new house became a home, occupied by a thriving family. What, then, had become of the main blackbird, just when his love affairs had reached their crisis, and the joys and responsibilities of matrimony lay immediately before him? The howling of cats, amongst the bushes suggested the grim solution of the difficulty. Blackbirds have enemies, "treat in tooth and claw," and the male blackbird at the height of his happiness had fallen a victim to the malevolence of one of his four-footed foes.

His mate received from the dwelling at the vicarage sympathy and help. With tender interest she was watched over during the brooding period, and nothing was allowed to disturb her. Then, on a certain Sunday evening, came trouble and anguish. The little blackbird, instead of sitting quietly on her nest, was dashing wildly from tree to tree, and calling in angry and staccato notes, "Chip! chip! chip! chip!"

Beneath the tree was a tabby cat, evidently a personal and well-recognized foe, for the brave bird swooped down at it again and again, with the obvious intention of driving it away, and at each swoop the cat, with its outstretched claws, tried to bring down the bird. With anxious cries the blackbird flew into the apple tree, though to see that all was well with the four tiny nestlings which now occupied the nest, and immediately the cat leapt up the trunk of the tree in search of the trunk of the tree in such a way as to make it unclimbable by cats.

During the succeeding fortnight the mother bird fed her little family "single-handed," and watched over them with assiduous care. From time to time, cats of various hues passed over the lawn without attracting any particular attention, but whenever the tabby came into view, no matter at what distance, immediately its presence was proclaimed by the anxious outcry and the fighting attitude of the little blackbird.

In due time, maternal love and solicitude had their reward. The fatherless fledglings stepped from the

nest to neighboring twigs, and later, encouraged by their mother, flew higher trees. And as they rested on the branches out of harm's way, their mother, at a higher level, looked down upon them and gave vent to her feelings of pride and satisfaction in soft little crooning notes.

WOMAN TOO WEAK TO WALK

Now Works Nine Hours a Day.— Lydia E. Pinkham's Vegetable Compound Restored Her Strength

Union Village, Vt.—"I was weak and nervous and all run-down. I could not walk across the floor without resting and I had been that way for weeks. I saw your advertisement in the paper and after taking one bottle of Lydia E. Pinkham's Vegetable Compound I felt the good it was doing me and I took seven more in all. Before I finished I was able to work nine hours a day in a steam laundry. I cannot say too much in favor of your medicine. I trust all sick and suffering women will take it. It has been two years since I took it and I am strong and well."

—Mrs. L. A. GUMANN, Union Village, Vermont.

This is only one of such letters we are continually publishing showing what Lydia E. Pinkham has done for women, and whether you work or not Mrs. Gumann's letter should interest you.

Many women get into a weak, nervous run-down condition because of ailments they often have. Such women should take Lydia E. Pinkham's Vegetable Compound at the first sign of trouble. Good health is necessary and this splendid medicine will help you to keep it.

are you one of the marked 4?

Do your gums bleed easily? If so, take heed. Pyorrhea is coming. It strikes four persons out of every five past forty, and thousands younger, endangering their priceless teeth and health.

Brush your teeth with Forhan's FOR THE GUMS

More than a tooth paste—it checks Pyorrhea 35c and 60c in tubes

A quicker lovelier manicure—

The new 5-minute Set

EVERYTHING you want for the quickest, easiest manicure is in the new Five-Minute Set. There are just two things to do to make your nails look as if they had been professionally manicured.

You no longer have to cut the cuticle. Instead of tiresome soaking and cutting, you just work carefully about the nails with an orange stick dipped in Cutex Cuticle Remover, then rinse and the hard dry edges of dead cuticle will simply wipe away.

Then the two marvelous new polishes in this set help to make the manicure infinitely easier than it used to be. Cutex Powder Polish is practically instantaneous and it is more brilliant than the luster you get from any other polish. The new Liquid Polish goes on swiftly, easily—dries in-

stantly and leaves a brilliant, delicately tinted luster that resists frequent washings.

This new Cutex Five-Minute Set contains these essentials for the quickest, loveliest manicure. Full sizes of Cutex Cuticle Remover, the new Cutex Liquid Polish, the new Cutex Powder Polish, orange stick and package of emery boards. The price is \$1.00. You will be delighted when you see it.

Cutex sets come also at 60c, at \$1.50 and \$3.00, or each article separately at 35c. At all drug and department stores in the United States and Canada.

Motors Versus Trotters.

(Toronto Globe.)

The trotting horse is, or was, especially an American product, and trotting as a gentleman's pastime was seen at its best on the old Harlem River Speedway, constructed by the municipality of New York, from 155th street to Fort George. But the Speedway has been thrown open to the automobile, and the famous trotting contests along it are now only a memory.

Among those who might have been seen on the Speedway in other days were Nathan Strauss with Cobwebs, 2:12; C. K. G. Billing with Lou Dillon, 1:58 1/4; or the black champion Chian, 1:58; Gen. Brayton Ives with Monte Carlo, 2:07 1/4; James Butler with King Direct, 2:04 3/4; Frank Work with Preyell, 2:08 1/4; and Pilot Boy, also 2:08 1/4. F. E. Smathers had a whole fleet of trotters and pacers for pleasure driving on the Speedway, including Lord Derby, 2:05 3/4; John M., 2:02 1/4; and Morinville, 2:04 1/4.

These and other well-known trotters not only exhilarated their owners, but also delighted thousands of spectators who gathered to see them vying with each other along the Harlem. But in recent years the trotters were not at high in quality, and the drivers were less expert. The motor was absorbing attention elsewhere, and now it has the run of the Speedway.

The opening meeting of the local branch of the Engineering Institute of Canada, held in the Orange Hall last night, was made a signal success by an address delivered by J. A. Coderre of Montreal, specialist in wood preservation for the forest laboratories of Canada. A. G. Tapley presided at the meeting and a tentative winter programme was drawn up.

Conquering Fog.
(Vancouver Star.)

(Great progress in laying equinoctial fogs has been made in experiments at Pittsburg, where a spray of oil and organic acids prevented mist from forming at the contact point of cold air and water.

These experiments may prove of incalculable value to navigation. Heavy fogs at the time of the fall and spring equinoxes constitute the greatest menace to shipping in all parts of the world. It is quite within the limits of possibility that the near future may see development of the apparatus used at Pittsburg forming part of the standard equipment on every ship, and making it possible for navigators to lay heavy fogs in the immediate vicinity at least. One by one the perils of navigation are being removed and commercial intercourse by sea, which is the greatest insurance of international unity, is being advanced step by step.

Changes in the constitution of the Women's Canadian Club were considered last evening at a meeting in the Natural History rooms. Mrs. W.

Edmond Raymond presided. The constitution had not been revised since 1912. Several changes were suggested and will be taken up at the annual meeting.

LOCAL NEWS

ENGAGEMENT.
Mrs William M. Megarity has announced the engagement of her daughter, Edith Jane, to James Harold McKay of this city, the marriage to take place on November 5.

BIRTHDAY PARTY.
Little Miss Dorothy Palmer on Tuesday evening was hostess at a party in honor of her seventh birthday when many of her friends called to tender their wishes. The evening was spent in games and music and prizes were won by Mrs. Robert Chisholm and Miss Hazel Quinn.

AT CITY HALL.
The semi-monthly pay day at city hall for the officials and others was carried out today. The following amounts were paid: \$299.20; police, \$3,514.95; firemen, \$2,595.18; sundry, \$1,472.66; ferry, \$1,382.00; officials, \$2,227.02, total \$11,559.91.

ON HER ROUTE AGAIN.
The steamer D. J. Purdy, which plies between Indiantown and Fredericton on the main river, was refloated yesterday and left this morning on her regular scheduled trip. She ground led near Onomoto wharf early yesterday morning, having been driven ashore by a high wind. After some of the cargo had been removed she was refloated last evening at 5 o'clock and returned here. She was not damaged.

WILL DISCUSS AMALGAMATION

Premier Foster, Dr. Carter and Chancellor Jones to Halifax for Next Week's Meeting.

Premier Foster will leave for Halifax on Monday evening to attend a meeting of the representatives of the colleges of the maritime provinces, at which will be discussed the proposed amalgamation of the universities in the three provinces, in order to take advantage of the \$1,000,000 Carnegie fund. The meeting will be held in the provincial assembly chamber, opening on Tuesday morning at 10 o'clock. Dr. W. S. Carter, chief superintendent of education for the province, and Chancellor C. C. Jones of U. N. B. will be among those attending.

Premier Foster said this morning that, unlike Nova Scotia, the government of this province was vitally interested in the question of amalgamation, as the University of New Brunswick is a state college, while the Nova Scotia government is not required to furnish any financial assistance to any of the colleges in that province. Mr. Foster said that he did not intend to take part in the discussion, but would be present to obtain information.

ST. JOHN AT THE TURNING POINT IN ITS HISTORY

Signs Point to Citizens' Determination to Elect Mayor for Hydro at Cost—Must Pay Taxes by Tomorrow Noon to Vote.

In order to be able to vote on the hydro question during the majority election on November 13 citizens must have their taxes for 1921 paid before noon on Saturday.

That there is a deep interest being taken in the issue of the coming contest is shown by the many people who are assuring themselves that they are qualified to cast their vote for power at cost.

Those who have in hand the circulation of the nomination paper of G. Fred Fisher, the citizens' candidate, have observed a decided strengthening of the forces that are rallying behind the standard of cheap power. This state of affairs is highly encouraging and is proving beneficial in urging the committee behind his candidacy on to further endeavors.

The committee is working with one principal object in view—to obtain for the people of St. John the advantages which are now being enjoyed by a great many of the cities and towns in Ontario—power at cost. They feel that the introduction of this advantage here has now been too long delayed—that the people have been deprived of something which they confidently expected to be well on its way towards consummation long before now. If significant indications can be taken for anything, the taxpayers of the city are now, more than ever, determined to put an end to the jockeying of their interests and elect a representative who will direct his efforts towards bringing about the betterment of a great public service at once. The general feeling is that St. John today is at a great turning point in its history.

THESE NEW COATS Are As Different As Different Can Be

Elegance is the keynote of these New Coats of the soft nappy materials such as Ve'lour, Duveltyne, Polo and Bolivia Cloth of which they are fashioned. They are becoming to practically every type of figure, and what is vastly more interesting, it doesn't take a small fortune to own one.

FOR THE ORPHANS

The Orphans' Auction Club opened its winter meetings last evening at the home of the secretary, Miss B. Haines-Carmarthen street, with a large attendance. The evening was pleasantly spent with bridge and music and refreshments were served. The next meeting will take place on November 2, at the home of Mrs. Akery, Kennebec place. This club was formed last winter and money raised at its meetings is given at the end of the year to the city orphanage.

CONDITION CRITICAL

The condition of Daniel Daley, who was given a transfusion of blood from two of the hospital doctors yesterday, was reported this afternoon to be very critical. There has been no improvement since the operation. Mr. Daley was an interne at the hospital and the only hope held out for his recovery was to have blood transfused into his system. Dr. A. Davis and Dr. H. H. Sharpe each gave a pint of their blood for this purpose in order to give him a fighting chance for life.

FINES IN TRAFFIC CASES

Ralph Somers, in the police court this morning pleaded guilty to operating a car without a license and displaying two different tags. John Ritchie, owner of the car, said he had not thought it worth while to buy a license this year. The car had been in the garage and he did not know why Somers took it out. A fine of \$20 was imposed on Somers. This case is the result of a collision which occurred recently in Union street and which was reported by Policemen Kilpatrick and Chisholm.

Thomas W. Wiggins pleaded guilty to a charge of driving an automobile on the wrong side of the road here yesterday. He was fined \$10 and costs of \$1 as he did not appear when notified, and a summons was issued.

THIS DISTRICT IS THE WINNER

C. P. R. Prize for Best Section Goes to That Between Harvey and Prince William.

J. M. Woodman, general superintendent of the C. P. R. New Brunswick district, has received a communication from headquarters in Montreal notifying him that a section between Harvey and Prince William on this division is the best, east of Fort William, and that general manager, J. J. Scully's prize of \$100 has been awarded to section foreman W. Hunter. Four districts were in competition for this big honor prize. New Brunswick, Ontario, Quebec and Algoma.

The news that his district received this honor was gratifying to Mr. Woodman. In addition to the general prize Mr. Woodman will award a prize of \$50 to the next best section. Prizes of \$25 and \$10 will be awarded by the superintendent and road master to the third and fourth choice.

LIFE STORY OF ONE DOLLAR BILL

Passes Through Thirty-one Hands in Fourteen Days—How it was Spent.

Chicago, Oct. 20—In order to get a line on the life and adventures of a dollar bill, the Wauegan-Chicago Chamber of Commerce started out a new bill, with a circular attached, requesting every person handling the bill to make a notation of its use.

The dollar was spent thirty-one times, but it never got into church or theatre, and was not used for amusement in the fourteen days. It was new when it started out, but when it came back it was wrinkled and dejected. Here is its history for fourteen days, changing hands for service. Five times for salary; five times for tobacco; five times for cigarettes; three times for candy; three times for men's furnishings; three times for meals; once for automobile accessories; once for bacon; once for washing powder; once for garbage; once for shaves; once for tooth paste.

PROVINCES ASKED WHAT THEY WILL DO

Canada to Take Part in Empire Exhibition Near London Next Year.

Ottawa, Oct. 20—(Canadian Press)—Canada will participate in the British empire exhibition near London in 1924. Announcement to this effect was made by Premier King last night. He said that the extent of Canada's participation depended to a certain extent on what the various provincial governments were prepared to do. He had addressed a letter to the provincial premiers. He emphasized the importance of including all sections of the dominion in the exhibition.

HALIFAX MURDER CASE STARTED

Halifax, N. S., Oct. 20—Ralph Myles, charged with the murder of his sweetheart, Florence Miles, on June 2, appeared before Chief Justice Hertz in the supreme court this morning and pleaded "not guilty." Andrew Cluney, K. C., appeared for the crown and Irwin C. Doty conducted the defense. Mr. Cluney intimated he would try to prove insanity for the crown and on their return will make their home in Fredericton.

The groom is operations manager for the Nashwaak Pulp and Paper Company for New Brunswick. For some time he was city engineer of Fredericton.

FIRE LOSSES WERE VERY MUCH SMALLER

Toronto, Oct. 20.—Fire losses in Canada during the week ended Oct. 18 are estimated by the Monetary Times at \$61,000, compared with \$435,450 the previous week.

FREDERICTON WEDDING.

Fredericton, Oct. 20.—(Special).—On Thursday evening, at Christ Church parish church, Miss Bessie Gertrude Pugh, daughter of George L. Pugh of Nashwaak, became the bride of George Alexander McKnight of Fredericton. Mr. and Mrs. McKnight left by motor immediately following the ceremony, and will visit St. John, Montreal and talk on their return will make their home in Fredericton.

The groom is operations manager for the Nashwaak Pulp and Paper Company for New Brunswick. For some time he was city engineer of Fredericton.

BURIED TODAY.

The funeral of James P. Devine was held this morning from P. J. Fitzpatrick's undertaking parlors, to the Cathedral for high mass of requiem by Rev. R. McCarthy. Interment was in the old Catholic cemetery.

FRENCH COMMUNISTS BREAK AWAY FROM MOSCOW

Paris, Oct. 20.—The French communist party, by decisions of its congress which ended its sessions yesterday, broke away from Moscow internationalism.

CHARGE AGAINST SUB-INSPECTOR WAS WITHDRAWN

Fredericton, N. B., Oct. 20—Chief Inspector John B. Hawthorne, following his return from St. John, where he commenced an investigation into a charge of drunkenness preferred against Sub-Inspector Henderson said today that the investigation had been dropped following the withdrawal of the charge by Albert Doherty of St. John.

Two witnesses, who had been with Inspector Henderson on Sunday evening, the time referred to, swore positively that there had been no evidence of intoxication or liquor about. A third witness was produced by the accused, but not examined, the charge having been withdrawn by the informant following the evidence of the first two witnesses.

It was hinted, however, by the informant that efforts would be made along other lines.

ESTATE OF FREDERICTON MAN \$79,000

Fredericton, N. B., Oct. 20.—The estate of the late Charles W. Whipple, was probated yesterday before P. J. Hughes, K. C. A total valuation of \$79,000 was placed upon the estate. The personal is \$65,000. Mr. Whipple left no will and two-thirds of his personal estate goes to the only surviving son, Frank M. Whipple of this city and one-third to the widow. The real estate also goes to the son, subject to the widow's rights. The real estate consists of the family residence in Waterloo street, property adjoining the Barker House, the former McMurray property in Queen street, and a lot in Shore street.

NEW COMPANIES.

Toronto, Oct. 20.—Authorized capital of \$12,281,500 is represented by companies whose incorporations were reported to the Monetary Times during the week ended Oct. 16, compared with \$15,223,900 the previous week.

SLUMBER SPECIAL

This week we offer: Full size White Enamel Metal Bed with 2 inch continuous posts, newest style rectangular fillers, Metal Spring to fit bed, and a full size 40 lb. fine Cotton Mattress—three pieces delivered for \$29.25. Same spring and mattress with same style bed with 1-1-16 inch posts for \$25.00. SEE WINDOW DISPLAY.

Electric Vacuum Cleaners to hire by the day.

THE LIFE OF A VACUUM TUBE

When the filament of a vacuum tube is heated to a high temperature the metal volatiles, that is, turns into a vapor at a rate which is dependent upon the temperature to which the filament is heated. The higher the temperature the faster the filament volatiles. If the filament is of the metal type the cross section area is continually reduced by the volatilization process with a resulting increase in resistance. In the case of the coated filament the resistance remains practically constant throughout the life of the tube since the coating only, evaporating.

If the metal filament is operated at constant voltage throughout its life, as the cross section diminishes there will be an increase in resistance and a consequent decrease in current. A decrease in current means a decrease in the electron emission which is an undesirable feature. If the filament is operated at constant current rather than constant voltage the life of the filament will be materially shortened.

The life of a filament of the metal type is also affected by the diameter of the wire of which it is made. The larger sizes of wire having a much longer life than the smaller wire filaments at a higher temperature. The life of a filament is greatly shortened by operating at a temperature in excess of the normal temperature.

Since it is not convenient to directly measure the temperature of the filament under actual operating conditions it is customary to rate the tube at a certain filament current which, of course, will gradually decrease as the filament decreases in size with length of service. In the case of the metal filament, "bright spots" or portions of the filament which are at a higher temperature than the rest may be observed when the filament is nearing the end of its useful life.

The normal life of the standard tube filament in use today should be about 2,000 hours or more with reasonably careful usage. A life of ten times this length is sometimes obtained with tubes used in laboratories in experimental work.

In some types of tubes, especially in those of low vacuum, and to a lesser extent in those of high vacuum, there is a certain amount of ionization due to the filament re sintering in the formation of positive ions which bombard the filament and cause local excessive temperatures. This condition is not so important a factor as the filament current itself which is dependent solely upon the adjustment made by the operator.

A filament of the coated type should never be heated, above a dull red or reddish yellow and should never approach brilliancy. The metallic filament on the other hand operates most satisfactorily when at a temperature which causes it to become incandescent.

The use of too great a filament current and therefore too high a temperature will result eventually in a black deposit on the inner surface of the glass container, which is due to the volatilization of the filament and the formation of the deposit. This condition is often the cause of the breakdown of the insulation inside of power tubes and is due principally to overloading of the tube. It is possible to get as much as 70 watts output from a tube rated at 5 watts but the life of the tube will be only a few minutes. In this case the tube is overloaded several hundred per cent.

SIX SEDITIONISTS OFFERED CONDITIONAL PARDONS

Washington, Oct. 20.—Six men serving sentences imposed after conviction under the espionage act have been offered conditional executive pardons, the Department of Justice announced, the condition in the case of three who are aliens being deportation and in the others that they be law-abiding in future.

The men to whom the offer of clemency has been made are Walter T. Neff, former secretary-treasurer of the Marine Transport Workers, Philadelphia; John J. Walsh and Benjamin H. Fletcher, members of the same union, and Ragnar Johannsen, Siegfried Sternberg, and Carl Ahlsten, formerly of Minneapolis, but natives of Sweden.

The last three are alleged to have been members of the L. W. W.

Germany is using lignite, peat and "brown coal" for fuel for her industries.

"THIS CAR TO SHIPWRECK," DISPLAYED IN SAN FRANCISCO

San Francisco, Oct. 20.—Shipwrecks have found their place in street car signs here along with baseball games, prize fights, industrial exhibitions, and baby shows. The Market Street Railway Company, satisfying itself that the oil tanker Lyman Stewart, recently beached after a collision with another vessel, was due for a long stay in her rocky cradle, displayed signs reading, "This car to the shipwreck" on all cars passing the wreck scene.

The jury in the case in which Thomas A. Moore sued George Gortner for \$8,000 for alleged slander yesterday awarded the plaintiff \$100. At the afternoon session of the court Mrs. W. Porter and her son gave evidence and the case went to the jury at five o'clock. Daniel Mullin, K. C., appeared for the plaintiff and W. H. Harrison, K. C., and C. J. Mellday for the defense.

SOPRANO VOCALIST TO CURE INSANITY

New York, Oct. 20.—The state government has hired a young woman, Miss Ethel Pannings of Chicago, whose soprano voice is pitched at a peculiar tilt, to visit the Manhattan State Hospital for the insane, at Ward's Island, and attempt to cure some of the patients by her singing and her personality.

Dr. Marquis Hayman, superintendent of the hospital, has called upon the young woman's service upon the advice of various famous alienists and therapists, who have, through science, decided that a certain pitch of a certain voice, has the ability to influence and

relieve from obsessions any mental defective brain.

The voice and personality of Miss Pannings are said to be so unusual as to be unique. She is a soprano, and her voice is vibrant and thrilling, though not penetrating. It is through the vibrations of her voice that she expects to accomplish her results.

Mrs. Ronig of Winnipeg, who is making a tour of the maritime provinces as organizer of the missionary auxiliaries of the Christian churches, spoke last evening in the Coburg street church under the auspices of the W. M. S. She spoke in both the Douglas avenue and Coburg street churches on Sunday.

LUX For Men's Shirts

Shirts can be kept soft and lustrous if you launder them with Lux. Save them from being rubbed to pieces and yellowed with impure chipped soaps. The thin, satin-like wafers of Lux which are made by our own exclusive process and dissolve instantly in hot water.

How to use LUX with men's silk or other shirts

Whisk one tablespoonful of Lux into half a bowlful of very hot water until you get a rich suds. Add cold water until lukewarm. Dip the shirt up and down, squeezing the suds through and through the garment, especially through the soiled spots. Do not rub. Rinse in three lukewarm waters. Roll in a towel to dry. When still damp, press with a warm iron on a well padded board. Pongee should be ironed when entirely dry.

Lux is unequalled for washing fine garments. It is sold only in sealed packets—dust-proof!

GIRL GOES INTO THE DEPTHS FOR LOST TREASURE

Margaret Naylor, English Diver, Has Try for Riches on Sunken Galleon.

London, Oct. 2.—(A. P. by Mail)—The profession of deep sea diving which anyone would classify as a calling particularly fitted for men, has been successfully invaded by a woman. Margaret Naylor, an English girl, is acclaimed as one of the most efficient and daring wearers of the helmet in British waters.

She has gained a wide reputation during the last two years, and more recently for her efforts in the recovery of treasure from the sunken Spanish galleon lying in ten fathoms of water near the shore of Mull, an island off Scotland. There, in the cozy little harbor of Tobermory, she has been a hundred yards from the beach, lies one of the great treasure ships of the Spanish Armada. The boat was one of the vessels launched by the ambitious Phillip, in 1588, for his attempted conquest of England.

So certain was this monarch that he would add the British Isles to his already large domains, that he actually sent on his jeweled regalia in advance. It is believed today that the richly jeweled crown is lying somewhere in the sixty feet of water among the wrecks of the Admiralty de Florencia, which Miss Naylor has succeeded in negotiating.

Although the task presents many problems which would cause anxiety to divers of the stronger sex, Miss Naylor shows no fear. She had had one or two narrow escapes from death in the course of her experience, without being in any way deterred from tackling the risky business again.

Miss Naylor recently made a trip to the southern coast of England and obtained some excellent specimens of undersea plant life. She nearly lost her life when her feet became entangled in a ladder which she was using, and only her presence of mind enabled her to free herself and be hauled safely to the top.

Two cases brought by the S. P. C. were taken up in the police court yesterday afternoon. In the case against Mrs. Edie Murphy, charged with driving horses unfit for work, Dr. H. London, a veterinary surgeon, gave evidence, as well as a boy who had driven the horses. In the case against E. Bentley, charged with driving one horse unfit for work, Dr. London also gave evidence as well as the owner of the horse. Both cases were postponed until next Monday.

WOMEN'S HOSE

of Vienna, said to be one of the only three living scholars capable of reading demotic, which was the shorthand of hieroglyphics.

The sheets were found in sealed cylinders or jars in the forecourt of a tomb at Thebes by Dr. Clarence Stanley Fisher. Egyptologists have been waiting impatiently for nearly a year to learn the secrets of ancient Egypt hidden in the mystic writing. The announcement that Dr. Reich had accepted the task was made yesterday by Dr. George Byron Gordon.

Demotic, it was explained, was used for official documents and other records which called for a shorter, more compact form of writing than the hieroglyphic, which were used for inscriptions on monuments.

Enough deciphering has been done on the sheets to ascertain that they contain information as to how taxes were levied and collected in Ptolemy's reign. Modern economists are particularly interested in this, as the system

WOMEN'S HOSE

was said to have been so evenly distributed that it brought in large revenues with no apparent hardship to any class.

Mrs. George J. Barrett, 274 Prince street, W. E., entertained the choir of the Carleton Methodist church, of which she is a member, at her home last evening. About thirty were present. After the regular weekly practice had been held social enjoyment held sway. The choir has assumed all responsibility for the payment for the new gowns in which they first appeared last Sunday.

Six employing electricians passed examinations held recently. They were F. C. Harris, L. Danielson, Carl May, C. W. Griffiths, J. V. Cunningham and J. G. Barrett. One employing electrician failed, and all three of the journeyman electricians who were examined failed to pass. Barry Wilson, city electrician, and G. G. Hare, city engineer, were the examiners.

Here's A Furnace That Will Heat Your Home Better--- and With Less Coal

Why we selected the **SUNBEAM** PIPELESS FURNACE For Our Leader Clean Durable Economical

Rightly called "The Women's Furnace," because it makes housework pleasanter, the home brighter and more cheerful. No annoyance or danger from dust or gas. DURABLE, SAFE, ECONOMICAL.

No matter how cold and blustering it may be, no matter how low the mercury drops in the tube, you can enjoy summer warmth and comfort in every room of your house. We guarantee an average temperature of 70° degrees—OR NOT A PENNY TO PAY. YOU SAVE ON COAL too, with a

Costs Less to Install **SUNBEAM** PIPELESS FURNACE Costs Less to Operate

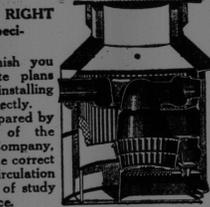

From every standpoint of comfort, economy, health and sanitation, you owe it to yourself to investigate the SUNBEAM plan of heating. Made by the largest manufacturers of heating equipment on the continent, it embodies the utmost in heating efficiency—and at dollars less than any other type of furnace of similar weight and construction.

Come in and let us point out, one by one, the many worth while features that make SUNBEAM PIPELESS FURNACES an investment in lasting satisfaction and comfort.

MADE RIGHT, INSTALLED RIGHT

Free Plans and Specifications

We will gladly furnish you without cost complete plans and specifications for installing your heating plant correctly. These plans are prepared by the Engineering Dept. of the SUNBEAM Furnace Company, and are based upon the correct principles of air circulation generated through years of study and practical experience.

OAK HALL

King St. Market St. Germain St.

ROBBED OF \$1,460 BY AGE-OLD TRICK

Chef Gave Up Real Money to Become Custodian of "Trust Fund."

For Needy Italians—Strong Box When Opened Contained Wad of Worthless Paper.

Toronto, Oct. 20.—The oldest trick is new to some people, as was demonstrated very vividly to Joseph DeGenio, 118 McGill street, on Monday afternoon, when he was robbed of \$1,460, the savings of many years, by two confidence men, by the favorite method of switching the genuine roll of currency and leaving the valueless wad of paper.

PAR THE NEW STYLE IN ARROW COLLARS. Cluett, Peabody & Co. of Canada Ltd.

DeGenio open the box. Then the fraud was discovered. It is the opinion of the police that the confidence men who operated this trick are the ones who, some time ago, relieved another Italian, employed at a Yonge-street restaurant, of a considerable sum.

AUTOISTS ENGAGE IN PISTOL BATTLE. Fusillades Exchanged Between Two Motor Cars Racing Through London, Ontario.

London, Ont., Oct. 20.—Two automobiles, the occupants of which engaged in a furious revolver battle, raced east on Dundas street, but the police have been unable to learn anything about it.

GNAWS ROPE AND SAVES HERSELF AND HUSBAND. Detroit, Oct. 20.—Mrs. Delma R. McDaniel saved her own life and that of her husband, Monday night by parting with her teeth a rope that held fast to an anchor.

MARRIED BEFORE SHE WAS THIRTY; LOSES \$100,000. Chicago, Oct. 20.—Her father's promise of \$100,000 if she remained unmarried until she was thirty, was an inducement to Josephine Kryl for six years, but the lure of another six years did not last long after she met Paul Taylor White, a jazz composer of Boston.

FINDS AFTER SIX YEARS HE'S PRINCIPAL PROFESSOR. Princeton, N. J., Oct. 20.—A Princeton professor for six years and didn't know it. This is the record of Dr. Henry Pirenne, famous Belgian historian and former rector of the University of Ghent.

THE Traffic Problem. Vancouver Sun.—The traffic problem today is not the old problem of carelessness at all. Carelessness on the part of both motorists and pedestrians do cause accidents. It should be punished and prevented. But the real problem is to adjust the rights of both careful motorists and careful pedestrians in relation to one another.

MORNING NEWS OVER THE WIRES

D. A. Lafortune, K. C., one of the crown prosecutors of Montreal, and member of parliament for Jacques Cartier, dropped dead in the Montreal court house yesterday. He was well known in parliament for his striking wit.

Said the Fish—

"No matter in what way I am cooked—just a few drops of Lea & Perrins' Sauce and you'll enjoy me infinitely more than without it."

GOOD food is made all the better by the addition of a few drops of Lea & Perrins'. It enhances the flavor of full-flavored meats and imparts a piquancy to quite ordinary dishes. Its wonderful strength makes it most economical to use.

Lea & Perrins' Sauce The Original and Genuine Worcestershire

"The first thing to reach for"

The Original and Genuine Worcestershire

Sir Lomer and the Ladies. (Toronto Globe.)

Sir Lomer Gouin has been making a vigorous speech to the Women's Liberal Club of Montreal. He says the part of women in politics is to be a soothing element in the strife among men. They should be the mediators and should watch out for wisdom and justice in everything. They have been a great inspiration to the leaders of the Liberal party.

If Sir Lomer had gone no further his remarks might have been dismissed as a string of platitudes, but he touched specifically on the franchise question. "It was thanks to you," he said, "that the Province of Quebec pronounced itself unanimously in favor of the Liberal party. I also wish to thank the women of Laurier-Outremont who caused the biggest majority I have ever experienced in my political career. You have in your hearts that fiery enthusiasm which, unfortunately, you rarely find with us men."

An Outworn Custom. (Toronto Globe.)

The hazing season has been running its annual course at the University of Toronto. The rites administered to freshmen every year have the sanction of time, but have nothing else to commend them. The high spirits of the undergraduates could find more useful and more ingenious outlets. In many universities on this continent these ceremonies have been abandoned with the consent of the students themselves.

The standard of conduct of the University population is a credit to the youth of Ontario. The ebullitions which occasionally required the forcible attentions of the police twenty years ago and further back no longer occur. There is no rowdy intent in the hazing process; it is merely a foolish survival, harmful sometimes in individual cases. It can be abolished by an act of renunciation on the part of the sophomores. As freshmen they were its victims, and they should be its victims no longer.

Ross-Dykeman.

Miss Edith Claire Dykeman, youngest daughter of Mr. and Mrs. Gilbert Dykeman, 94 Wall street, and Charles E. Ross were married on Tuesday evening at the home of the bride's parents by Rev. H. A. Cody, pastor of St. James' church. Among the hand-

VAR LADIES' FINERY FROM MAIL TO GREECE

Washington, Oct. 20.—Importation of mail of virtually all articles of feminine finery into Greece is prohibited for six months, according to information received by the Post Office Department from the Hellenic government.

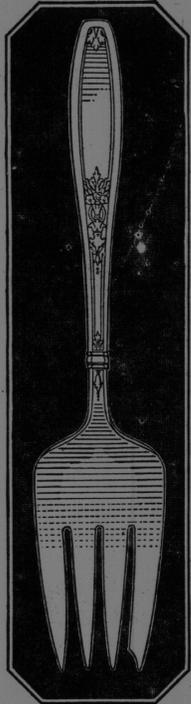

Among the articles that are banned either by regular or parcel post mail are bonnets, fine cantrics, chocolate articles made of crystal, artificial flowers, garments for women made of wool, women's hats, false jewelry, fin-aces, porcelain lamps, silks, sweet-seats, umbrellas, parasols and beveled glass.

ROYAL MARRIAGES. (Toronto Globe.)

The deposed King Constantine of Greece is a first cousin of King George the Fifth. His wife is also first cousin of King George. What benefit has the double relationship brought to Great Britain? Both Constantine and his wife betrayed the Allies during the war. British royalty has frequently married continental royalty for reasons of state which seemed plausible at the time, but it would be difficult to point to any of these matches that has permanently served British interests.

Newest vanity cases have search-lights which come on when the case is opened.

1847 ROGERS BROS. SILVERPLATE

FIRST RULE IN ENTERTAINING—Have enough silverplate!

WHEN company comes, you have enough chairs for them. Do you have enough silverplate?

It is easy to get into the habit of getting along with too little silverplate. But at small extra cost you can get additional pieces that make a table fairly shine with correct service. It will give you much pleasure to add 1847 Rogers Bros. cold meat fork, jelly knife, individual salad forks, etc., which your dealer will show you.

Remember that the high mark of quality in silverplate has been "1847 Rogers Bros." for seventy-five years—commemorated this anniversary year by packing sets and fancy pieces, without extra charge, in decorated chests and gift boxes.

Be sure to see the beautiful GIFT PACKAGES at your dealer's. Ask for "1847 Rogers Bros." by its full name, to get exactly what you want.

Railway statistics show that in transporting high explosives 400 persons are killed and injured annually.

THREE PIONEERS OF KLONDYKE DEAD

One was D. E. Clendenning, Remembered in St. Stephen.

Dawson City, Y. T., Oct. 20.—(Canadian Press)—Death has claimed three Klondike pioneers within three days. D. E. Clendenning, a wholesale tobacco dealer here, who came from the maritime provinces and was known in his youth in Calais, Maine, and St. Stephen, N. B., died on Tuesday. Auguste Labelle, a pioneer woodsman, and Oscar Gustafson, an old time miner, are also dead.

BETROTHAL OF WILLIAM AND PRINCESS REUSS

Amsterdam, Oct. 20.—The civil betrothal ceremony of former Emperor William and the Princess Reuss, occurred this morning, says a message received here from Doorn.

Try this for Flavour!

"SALADA" ORANGE PEKOE BLEND

Blended, like all "Salada" teas, for flavour alone this new blend will delight the most critical. We will gladly mail a sample. SALADA, MONTREAL.

Word has been received by Mrs. W. Edmond Raymond that Basil King, well-known Canadian author, will be in the city soon in response to an invitation from the Women's Canadian Club to address the club.

BASEBALL

Chance Report Denied.
New York, Oct. 20.—Reports that Frank Chance, former leader of the Chicago Cubs, was to manage the Boston Red Sox next season, were denied last night by Harry Frazee, owner of the Boston team.

BASEBALL

Royal's Averages.
Batting and fielding averages of the Royals, champions of the South End League, show Tynes leading at the

stock and in the field. The team show a combined batting average of .375 and a fielding average of .898 for the season. The statistics, compiled by the score, follow:

Table with columns: Player, A.B., R., H., Avg. Rows include Tynes, Hogan, Nelson, Harper, Brandy, Biggs, Brown, Saunders, Fove, Middleton, Austen, Hayes.

Team batting .317 98 119 .375

Fielding

Table with columns: Player, P.O., A., E., Avg. Rows include Tynes, Hogan, Nelson, Price, Brown, Saunders, Fove, Middleton, Austen, Nelson, Diggs.

Team fielding .212 76 34 .898

WRESTLING

Bout by Rounds.
Winthrop, Oct. 20.—Jack Taylor, Canadian heavyweight wrestling champion, and Stanislaus Zbyszko, former world's champion, wrestled ten tentative rounds under the new White rules to a draw here last night, each man gaining one fall.

CURLING

N. S. Girls.
Truro, N. S., Oct. 20.—At the annual meeting of the Nova Scotia branch of the Royal Caledonian Curling Club here last night, Lieutenant-Governor McCallum Grant was elected honorary president and Judge Paterson of New Glasgow, president. A motion was passed that the Scottish curling team which is to visit Canada should divide their time in Nova Scotia as follows:—Halifax, January 2 to 4; New Glasgow, 5th, and part of 6th; Truro, remainder of 6th, and 7th.

RING

Siki-Norfolk Bout Off.
A bout for the light heavyweight championship of the world between Siki and 'Kid' Norfolk, which was to have taken place in Madison Square Garden on November 30, has been cancelled. Tex Rickard received notification yesterday that Siki would be unable to fulfill the engagement as a result of his pending match with Joe Beckett in London on December 7.

BASKETBALL

East End Boys Win.
The East End Boys' Club basketball team defeated a team called the "All Stars" last night by a score of 18 to 8 in London.

FOOTBALL

U. N. B. Defeats Mt. A.
The U. N. B. football team journeyed to Sackville yesterday where they defeated the Mt. A. team, 6-0. A try was converted early in the game, but after that the Mt. A. defense lightened and there was no more scoring. The try

McGill, Montreal and Ottawa English rugby football teams will meet in a series of games at A. D. MacTavish cup. It is reported that the winners of the series will meet the champions of the maritime provinces in Montreal on November 6 for the cup and the championship of eastern Canada.

To Meet Scottish Team.
At a meeting of the executive of the New Brunswick branch of the Royal Caledonian Club of Scotland, held in the Compensation Board office last evening, it was decided to play the visiting Scottish curlers in this city on January 8 and 9. All clubs in the province, which are members of the Royal Caledonian branch, will be invited to send two rinks to enter the competition. On Monday evening, January 9, the visitors will be entertained at a banquet.

A NEW CLASS.
A wrestling and weight-lifting club is to be formed at the Y. M. C. A. and it is evidently going to be a popular institution as already twenty members have joined, and it is not proposed to start the activities until next week.

SHERIFF AND 3 OTHERS ARE HELD FOR MAN'S DEATH

Texas County Primaries has Fatal Flareback at Corpus Christi — Ku Klux Klan Said to Figure in Affair.

Corpus Christi, Texas, Oct. 20—A fatal flareback to the Nueces County July primary was staged here recently as a result of which Fred Roberts, prominent for many years in Corpus Christi affairs, is dead and four men are in the county jail. The men in custody are Frank Robinson, sheriff of Nueces County; Lee Petzel, constable; Joe Aebco, a special officer; and Cleve Goff, a farmer. No charges had been filed late Saturday night.

Roberts was shot and instantly killed as he sat in his automobile in what is known as the "hill district" of Corpus Christi. The killing followed an extended argument in Warren's store, and was preceded, it was said, by promiscuous shooting, both inside and outside of the store. Three bullets pierced Roberts' body after he had leaped into his automobile, and he fell back dead without a word.

A short while afterward Chief of Police Fox arrested Petzel and Aebco at the scene of the shooting. Sheriff Robinson and Goff were taken into custody in the sheriff's office.

While the city is quiet two rangers are en route here. They were ordered out by Governor Neff at the request of County Judge Sutherland and Mayor Lovenskiold.

Ku Klux Figures in Case.
The Ku Klux issue figures in the case to the extent that Mr. Roberts, always a political leader in Corpus Christi, in the July primary was active for the candidate supported by the Klan, and Robinson and Petzel were renominated with anti-Klan votes. As to immediate happenings prior to the tragic affair, very little is known as none of the defendants will make a statement, and G. E. Warren likewise has refused to discuss the case.

Trouble began early in the day when Sheriff Robinson visited Warren's store. It is declared that Robinson said to Warren: "Are you a Kluxer?" and a few seconds later slapped Warren's face. A crowd gathered. Mrs. Warren put in a call for the police and Chief Fox responded. Fox talked to Robinson and left. Later, it is said, the controversy was renewed and Warren sent for Roberts at his home. Friends of Roberts says he went to the scene only as a peacemaker; they declare he was not armed.

When shooting began inside the store the crowd scattered. Shots were then fired on the outside. Roberts was seen to dash to his car. He sprang in, then threw up his hands and fell back dead. Three bullets had pierced his body. One passed through his right hand, pierced his chest, and emerged from the back. His right arm was broken just below the shoulder. No one could say who had done the shooting.

OFFERS TO BUY AND MOVE BENJAMIN FRANKLIN HOME
Philadelphia, Oct. 20—A citizen whose name is withheld has written to the Bridge Commission stating that if nothing else is done to preserve the old Benjamin Franklin house at 311 Spring street, which must be removed to make way for the Delaware River bridge between Philadelphia and Camden, N. J., he will purchase it and have it removed to some appropriate site.

JACK THE CLIPPER USES SCISSORS ON SCHOOL GIRL'S HAIR

Houston, Texas, Oct. 20—A "Jack the Clipper" is at large in Houston.

For the second time in the past two weeks a Houston school girl has lost her hair at the hands of a man who has successfully made his escape without his identity becoming known or leaving an accurate description behind him. Pretty little Miss Leah Culpepper, the 12-year-old daughter of Mr. and Mrs. J. W. Culpepper, is the second victim of this fiend. Saturday night the girl was standing on the back porch

of her home calling to a negro servant in the rear when a hand crept out from the dark recesses of the porch and grasped her hair, which was hanging down her back. With one quick her assailant severed her beautiful, curling blonde hair and dashed for the street. The horrified and frightened girl, with trembling hands clutching at the remaining straggling stumps of hair, fled screaming into the house. During the time of her attack the girl was in full view of her sister, who was sitting at the piano but had not been aware of anything amiss until she heard the frightened screams of her sister. Investigation proved that the culprit in his haste to make good his escape had dropped a double handful

of the girl's beautiful curls as he fled. Short Call Officers Reed and Lewis hastened to the scene but could not discover the identity of the "clipper" and his whereabouts from the meagre evidence the terrified child was able to supply.

This episode is a sequel to the clipping of the hair from the head of beautiful Marie Houser while she slept in the room with her sisters two weeks ago.

\$2,625 FOR A PIG.

Gulfport, Eng., Oct. 20—Hammonds Cobler, the famous Berkshire prize pig, has been sold for \$2,625.

WHY MOONSHINE'S KICK IS VICIOUS

Aldehyde Content Makes it Extra Poisonous, Says Official

Home-Made Liquor Contaminated by Zinc and Copper Salts, Health Congress is Told.

(Science Service.)
Cleveland, Oct. 20—That why "pure corn liquor" or "moonshine" has a more vicious kick than aged-in-the-wood whiskey was explained to the American Public Health Association meeting here by J. S. Duran, director of the industrial alcohol and chemical division of the Federal Promotion Commissioner's office.

Before and after prohibition analyses show that the only essential difference between the "aged-in-the-barrel" and "moonshine" whiskeys is in the aldehyde content. These aldehydes found in the local and home distilled article are very harmful to the human system, he said, and can only be eliminated by fractionating in an alcohol column or long aging in wooden barrels.

Salts of zinc and copper also contaminate many illicit liquors. The evidence at hand seems to indicate that the after effects in cases of alcoholism are worse than before prohibition, Mr. Duran warned.

Aside from the ghastly effects of the drinking of wood alcohol, redistilled denatured alcohol, tincture of ginger and other dangerous concoctions, he said, the minimum amount of vitamins required.

The body can store up vitamins for future use, Dr. H. C. Sherman of Columbia University told the delegates in an address this afternoon. He emphasized the importance of eating more than the minimum amount of vitamins required.

Laboratory animals fed on the minimum amount of vitamins required for growth and then deprived of them altogether fall rapidly, he said, while animals which have been given a large surplus of vitamins have continued to grow for some time after the vitamins have been taken away. Human beings fed on the minimum have not always been saved from the so-called deficiency diseases.

The amount of vitamins in meat will vary considerably, according to the diet upon which the animal has been fed. The same is true to a lesser degree of the nutrition afforded vegetables and fruits in different localities. Milk, eggs, fruits and vegetables in simple quantities were recommended by Dr. Sherman to supply these mysterious vitamins.

"Vitamins," said Dr. Sherman, "are like electricity. They can be handled and studied through their effects, but their exact nature is not yet known. Recent chemical experiments, however, seem to indicate that at least two substances may be involved in the effect hitherto attributed to vitamin A and the similar to vitamin B."

The increase in the mortality rate of infants under one month of age at Boston during the last winter is greater, among native born women than among the foreign born, Dr. Julius Levy of the Bureau of Child Hygiene of New Jersey told the association. He quoted figures from all parts of the country in support of his contention that this increase presents one of the most alarming problems now confronting the public health authorities.

Why a woman's skin needs TWO creams

YOUR skin demands very different care at different times. To give it the proper care you need two entirely different creams—one for protection, one for cleansing.

One
Wind whips the natural moisture out of an unprotected skin and leaves it rough and dry. The burning effect of the sun is very similar. Unless you protect your skin it will become permanently rough and coarse.

The kind of cream you need for this is one that holds the natural moisture in the skin and acts as an invisible shield against exposure. This is Pond's Vanishing Cream. Delicate, soothing, it is absorbed the instant you smooth it on your face, and contains no oil to reappear in a shine.

Moreover, this cream gives your skin a smooth, velvety surface that

makes it look its best at a moment's notice and holds the powder on for hours.

The other
For thorough cleansing you need a very different cream—one made with oil. Nothing but an oil cream will reach deep into your pores and remove the fine particles of dirt that have bored deep.

The cream with just the right amount of oil for a thorough cleansing is Pond's Cold Cream. Smooth it on your face and neck every night and after every dusty trip. It removes the ground in dirt that ordinary washing cannot reach. It is so fine it cannot clog the pores.

These creams are sold in jars and tubes of convenient size at all drug and departmental stores at 50 cents each. They contain nothing that can promote the growth of hair. The Pond's Extract Co., 146 Brock Ave., Toronto, Canada.

POND'S

Cold Cream for cleansing
Vanishing Cream to hold the powder

MADE IN CANADA

PRINCE OF WALES TO STUDY SOCIETY OF OWN COUNTRY

London, Oct. 20—Putting aside foreign tours for the time being, the Prince of Wales will devote the year 1923 to personal investigation of England's social and industrial problems.

To achieve this he will make tours to many of the largest cities and manufacturing districts. His social engagements will be mainly fitted in with these trips. For instance, when he goes to stay with Lord Derby at Knowsley Hall next March in order to see the race for the grand national, the visit will be so arranged that he will be able to inspect the new dock extensions and other improvements at Liverpool and

also the present circumstances of the City of Manchester.

Already he has received numerous invitations from towns throughout Britain to call and make their acquaintance, and so far as he is able will do so.

While on his world cruise the prince carefully studied an extensive library of books devoted to social conditions and reforms, and he intends to obtain further enlightenment by attending the weekly meetings of the London County Council, the body which is responsible for the welfare of the 2,000,000 inhabitants of Greater London.

The period until Christmas, 1922, will be devoted to the prince's holiday, upon which the physicians have been insisting for the last three years. He will spend most of this time hunting

and has taken Easton Grey House, Malmesbury, for six months, where he will hunt regularly with the Duke of Beaufort's pack.

LOSS IS \$20,000 WHEN BRADSHAW GIN BURNS

Bradshaw, Texas, Oct. 20—Damage estimated Saturday night at \$20,000 was caused by the fire which swept the R. C. Malone gin here, destroying a large quantity of cotton seed.

The blaze was caused, authorities believe, by a box of matches that went through the suction from a wagonload of cotton. This is the third cotton gin fire in Texas this week. The others occurred at Corsicana and Athens.

FROM CATTLE KING TO OIL MAGNATE

Wichita Falls, Texas, Oct. 20—No history of the Electra field is complete without a story of the Waggoner interests. Twenty years ago the leading cattlemen of Texas were real kings of the range. W. T. Waggoner's yearly drive and transportation amounted to 40,000 head, and from June to October shipped two trains weekly, or 84 trains to market during the season.

For 10 years previous to 1918 a large oil company held leases on over 100,000 acres of his land and during that time there was little opportunity for the independent operator to gain a foothold, and it was not until the early part of this year that the ranch was definitely opened up for exploitation. Waggoner has built a refinery with a capacity of 2,000 barrels daily, just across the line a few feet in Wilbarger County. At the present time his royalties and production is over 4,000 barrels daily. The over production he markets in tank cars, of which hundreds leave Electra daily. Not satisfied with branding his cattle with his three D's, each car bears the same brand as it leaves the plant.

Early last year a party of capitalists representing an English syndicate, made an offer to buy the entire holdings from Waggoner for a consideration amounting to \$75,000,000, which was refused.

On this ranch the Texas Company has 128 producing wells with a daily average of 30 barrels per well; 12 wells in the south field alone producing 68,000 barrels during September, the remaining 146 producing 67,000, making a grand total of 135,000 barrels of high grade oil for the month. Added to this production, hundreds of other wells are pouring their golden tributes to the coffers of the Waggoner estate, with over 200 derricks mark places in various places on this wonderful property.

NO MORE JAZZ CLOTHING FOR MEN, SAYS U. S. EXPORT.

Chicago, Oct. 20—The United States is through with jazz clothing for men, according to W. L. Mohr, general manager of the United National Clothing Co. "There are no freak models to speak of in the styles for next spring," said Mr. Mohr. "Conservative ideas predominate. Sport models and ruffolios will be the snappiest garments for men. Nifty knickers, with knitted cuffs to match the golfer's socks, will be a feature this

That Regular Spoonful of Natural Bran.

THE daily use of natural Bran is the best way to keep fit, because Bran is a fine yet harmless corrective. It keeps the internal organs functioning regularly and naturally—it keeps the system cleansed—it promotes vigorous health.

Get the Bran Habit—and you will live longer and enjoy life better. Take three tablespoonfuls with the morning and evening meal every day. Take it with the foods you like best—it makes them taste better—at breakfast with milk, cereals, preserves, or fruit—at dinner with soup or in the form of bran gems, bread, bran muffins, cookies or biscuits. But be sure to take it regularly and be sure to get natural Bran.

MAKE BRAN COOKIES
½ cup Tillson's Health Bran; 2 cups flour; ¼ cup brown sugar; 1 heaping teaspoon baking powder; 1 level teaspoon baking soda; ¼ cup water; 1 egg; ½ cup butter; 1 heaping teaspoon ground cinnamon; ¼ cup raisins; ½ cup chopped walnut meats.

Beat sugar and butter to a cream; add egg and beat well; add water, mixed with baking soda and flour, stirred with baking powder; then add the other ingredients and mix thoroughly. Drop by teaspoonfuls on greased pan and bake in a moderate oven. Sufficient for 48 cookies.
