TAKES GRIP ON TRANSPORTATION

Interstate Commerce Commission's Priority Orders.

Await Harding's Word for Emergency Control—Efforts to Form New Unions of Shopmen and Industrial Peace in U. S. is Not Near.

(Canadian Press.) Washington, July 26.—While the United States administration continued today to await results of the attempt to operate the strike affected mines, at the same time confining its policy in the rail strike to support of the railroad labor board as the only authorized agency to deal with it, the interstate commerce commission put into effect today transportation routing and priority orders as the basis of the programme for control of the country's depleted coal supply and transportation facilities.

The priority order established a preferential system for shipment of fuel and food over all railroads east of the Mississippi. Another mandatory order directs all the roads in the country to disregard established routings in favor of such routing as would expedite movement and avoid congestion.

For Emergency Control. Having joined in the fuel distribution plan this prepared for producing operators and railroad traffic experts today awaited the word from President Harding to set in motion the machinery for emergency control. He was expected to establish today the directing agency for the scheme by the appointment of a presidential committee of representatives from the Interstate Commerce Commission and the departments of commerce, justice and interior, with Secretary Hoover as chairman.

With the aid of an administrative committee of operators and railroad traffic experts, the governmental body will direct the activities of the local committees of operators in making fuel delivery and in distributing fuel to the roads and other public utilities in the order of preference established by the interstate commerce commission in serving the needs of the general public.

Chicago, July 26.—With the United States government today assuming control of freight traffic, and the railroads continuing efforts to form new unions of shopmen, peace in the railway strike seemed a remote possibility.

On the other hand, good will was apparent in meetings being held at Baltimore between officials of the B. and O. railroad and representatives of the freight handlers' union, which have been regarded as possible precursors of other individual settlements if successful.

No further progress of the strike was looked for, although fifty maintenance men at Shawnee, Okla., and some at Moberly, Mo., quit work yesterday because armed guards were patrolling the railway property. A resolution adopted by representatives of nearly 800 general chairmen of the Clerks' and Freight Handlers' Union declared they would resort to "their economic power" if their grievances were not adjusted, but it was believed that they would take no further strike action pending negotiations.

Curtailed of train service during the last twenty-four hours was negligible. The Pennsylvania railroad issued a statement last night, saying passenger and freight service had been restored to normal on that road.

Reports of violence or threatened violence were slightly increased, and troops were called out in three more states, while in Montana the Great Northern Railway was promised troops for protection at Havre and Wolfe Point. Denison, Texas, was placed under martial law by Governor Neff, who ordered five companies of the Texas National Guards to duty there. The companies of Alabama state troops were mobilized at Birmingham ready to march to the scene where disorders were reported.

When state troops were ordered to Fondre, near Jellico, Ky., in Pennsylvania, the western presidents' committee announced positions, several detachments were sent to strategic points.

Chicago, July 26.—Adhering strictly to its hands off policy in the railway strike, the U. S. railroad labor board yesterday turned its attention to routine matters.

With the board contemplating no action, the western presidents' committee on public relations of the Association of Railway Executives issued a statement last night asserting that western lines were moving freight as offered, passenger trains were being operated normally and transportation conditions were normal everywhere.

Boston, July 26.—The Boston and Maine railroad met its maintenance of way employees yesterday and agreed to submit the questions at issue to the railroad labor board for decision. The employees asked for restoration of the wage scale in effect previous to the strike recently ordered by the labor board, and restoration of working conditions, which had been varied by the board.

Washington, July 26.—An agreement has been signed at Chattanooga, Tenn. between officials of the Brotherhood of Railway Clerks and the Southern Railway, which definitely averts a threatened walkout of clerks on the Southern Railway and its affiliated lines, so local officials of the Brotherhood announced last night.

The agreement comprised concessions from both sides, the employees accepting a reduction in minimum entrance salaries, while the management agreed to grant twelve days' vacation annually, full pay for a definite period during sickness, and half holidays on Saturday.

Women Attack Workers. Toledo, Ohio, July 26.—Forty women, wives and relatives of striking railway employees attacked non-union railroad

BOTTOMLEY MAY BE HEARD IN COMMONS

London, July 26.—The House of Commons yesterday adopted a resolution permitting Horatio Bottomley, now serving a prison sentence for fraud, to attend in custody at the House on Tuesday, if he so desires. A member has a right to defend himself in prison against expulsion proceedings, which have already been instituted against Bottomley.

PLANS TO CHECK LIQUOR SUPPLY

U. S. Treaty with Britain Part of Wide Project.

Aim is to Secure Co-operation of All Nations from Which There are Heavy Exports—Expected That Canada Will be Consulted.

(Canadian Press.) Washington, July 25.—The success which the U. S. government has met in co-operating with the Canadian government in the prevention of rum running and liquor smuggling is an important factor in a movement begun by Washington officials to conclude a treaty with the British government covering the curbing of rum running into the U. S.

U. S. prohibition officials say the co-operation of the Canadian authorities has been valuable, and what is now being attempted is practically an extension of co-operation to the British government, though in a more formal way. It is understood here that the proposed treaty between Great Britain and the U. S. would not apply to Canada. It would be directed principally toward the curbing of rum running into the U. S. from Bermuda and the Bahamas.

It is expected, however, that Canada will be consulted by the British government and the latest co-operation by Canada in curtailing smuggling will continue.

The movement for an understanding with Great Britain is only a part of a larger movement to secure co-operation in liquor enforcement with all nations from which there are heavy liquor exports. This is definitely stated on high authority.

TREASON TO PAY FULL PENALTY

Harding Will Release No More Prisoners Guilty of Political Offences—Refuses All Amnesties.

Washington, July 26.—President Harding put his foot down hard on general amnesty for political prisoners. He declared that as long as he was president he would never pardon a criminal who was guilty of preaching the destruction of the government by force.

He made this declaration of policy to a delegation of persons seeking general amnesty for all political prisoners. He told them he could not bring himself to grant general amnesty until he knew all prisoners held under the war acts had committed only strictly war offenses. He stated that he was giving consideration to the cases and that he had instructed the Department of Justice to expedite reports in all these cases, but concluded by placing a strict ban on requests for those convicted of advocating the overthrow of the government by violence.

The delegation asked for amnesty for all the 87 political prisoners now in Federal penitentiaries. They brought with them a petition containing 1,000,000 signatures pleading for the release of the prisoners.

Paul F. Brisenden of Columbia University, who acted as spokesman for the delegation, explained to the president that no individual pardons were sought, and that only a general amnesty was desired.

LIBERALS AND PROGRESSIVES; QUEBEC RUMOR

Ottawa, July 26.—(Canadian Press.)—Statements published in Quebec that fifty-two Progressive members of parliament had announced their willingness to join the Liberal party are received here with reserve.

It is generally understood that there were some kind of pourparlers between some Progressives and some Liberals looking to closer co-operation between the two parties, but it has been said positively that there was no agreement of any binding character reached. It is explained that the "unconditional" union with the Liberal party.

MUTINY AMONG THE IRREGULARS

Nationalist Headquarters Hears of Internal Troubles

One Leader Said to Have Been Put to Death—Insurgents Falling Back in West Ireland and in Some Places Retreat Reported Precipitate.

(Canadian Press Bureau.) Dublin, July 26.—The irregulars are continuing to fall back before the advance of the Irish National army in the west of Ireland, according to reports from the front, with the retreat in most places rather precipitate, although occasional stands have been made by fighting parties of the irregulars.

Mutiny is said to be rife among the irregulars, reports received in Nationalist headquarters say, and one of the insurgent leaders is reported to have been executed.

Bomb in Dublin. Dublin, July 26.—Six civilians, four of whom were women, were wounded by a bomb thrown at a lorry in which national soldiers were riding in York street last evening. No soldiers were injured, although companions of the bomb thrower fired ten or twelve revolver shots at the troops. Two men were arrested.

Dublin, July 26.—Gavan Duffy was resigned as foreign minister of the provisional government. He announces that while he agrees with the government's military policy, he opposes its policy on certain other grave and urgent issues so strongly that he cannot longer honorably remain with the administration.

MAY BREAK FROM INTERNATIONAL

Talk of Purely Canadian Autonomy for Maintenance of Way Men.

(Canadian Press.) Winnipeg, July 26.—Canadian maintenance of way and railway shop employees, approximately 30,000 will in all probability break with their international affiliation, according to reports here, declared T. Y. Geckle, local secretary, here last night. He said it is expected a decision will be reached at an early date.

He asserted that the question had been under discussion for some time and was practically an accomplished fact, the expressions of the men and their well as their selected representatives being practically unanimous.

Ottawa, July 26.—The last labor report gives 162 branches of the Maintenance of Way Employes and Railway Shop Laborers' Union in Canada, with 12,000 members, and 2,065 branches and 168,000 members in the U. S.

GARDEN FETE AT ROTHESAY

On the beautiful grounds surrounding the residence of Mrs. L. P. D. Tilley at Rotheday, this afternoon, the DeMotts Chapter, I. O. E. E., are holding a garden fete for patriotic purposes of the chapter. The tea tables are placed on the lawn under the shade of the trees, and with the ideal weather today, the effect is picturesque.

Several novelties have been introduced, including "The Old Woman Who Lived in a Shoe," an archery booth and a "rose gift" booth. Those in charge of the various departments are as follows:—Regent and general convenor, Mrs. Sherwood Skinner; tea tables, Mrs. J. M. Robinson, Mrs. H. W. Frink and Mrs. H. B. Robinson; candy table, Mrs. G. K. McLeod, Mrs. Sherwood Skinner, Mrs. Carville, Mrs. Corlanti Robinson, Mrs. A. Powell and Miss Elizabeth Furlong; archery, Mrs. F. C. Jones, Mrs. F. W. Thomson, Mrs. W. E. Foster, Mrs. Simon Jones, Mrs. H. C. Sparling, Mrs. Arthur Adams and Mrs. Herbert Schofield; archery, Mrs. M. B. Edwards and Miss Edith Skinner; ice cream, Mrs. Charles Coster and Mrs. E. T. Sturdee; The Old Woman Who Lived in a Shoe, Mrs. Stewart Skinner, Mrs. M. B. Edwards and Miss Edith Skinner; rose gift, Mrs. Walter White and Mrs. Ernest Barbour; tickets, Mrs. Roy Campbell and Mrs. A. H. Powell.

CAR SERVICE IN BUFFALO.

Buffalo, July 26.—The International Railway Company operated thirty per cent. of city cars today, and re-opened the Lockport-Buffalo branch which had been idle since the strike of carmen was called on July 2. There were no disorders. The main street line, one of the most important in the system, was operated today without police guards on the cars.

DENIES STRIKE REPORT.

Chicago, July 26.—E. F. Grable, president of the International Brotherhood of Maintenance of Way Employes and Shop Laborers, denied today reports that the 400,000 members of the union in the U. S. were threatening again to strike. He said negotiations were proceeding satisfactorily before the U. S. labor board.

CHINESE HELD.

Lee Hung, a Chinese, held, it was said, at the instance of the C. P. R., is at the central police station awaiting deportation.

As Hiram Sees It

"Hiram," said the Times reporter, "Hiram Hornbeam, 'I saw two boys passing in a sloven partially loaded with freshly cut grass. They were lying at full length on the load of grass with their feet toward the sky, a supreme content possessing them. The world was theirs. They knew that the occupants of every limousine rolling along the pavement envied them, as I did from the curb. One of my first impressions on the great world came to my mind. It must have been as much as four or five miles into a far country—a new world of adventure. A neighboring farmer had bought some standing grass and went to cut it. I went along with his little boy. We spread the grass, had a lunch in mid-forenoon, ate dinner under the trees, washed in the little river, helped to rake the hay, ate more lunch, and then, embedded in the soft load of hay, rode home in the twilight and under the stars. There were kings in those days, Hiram. 'Always will be,' said Hiram, 'as long as the boys. Come out to the Settlement and be a king again—we're haying now.'"

"Alas!" said the reporter, "I would need a ladder to climb up and down the haystack, and my joints would creak louder than the harness. But on a day such as this my heart is there, Hiram. 'Always will be,' said Hiram, 'as long as the boys. Come out to the Settlement and be a king again—we're haying now.'"

"Alas!" said the reporter, "I would need a ladder to climb up and down the haystack, and my joints would creak louder than the harness. But on a day such as this my heart is there, Hiram. 'Always will be,' said Hiram, 'as long as the boys. Come out to the Settlement and be a king again—we're haying now.'"

SYRIANS FIGHT FRENCH TROOPS

Troubles There Following Confirmation of Mandate by League of Nations.

Calre, July 26.—The Syrian committee here announces that when news that the League of Nations council had confirmed the British-Syrian mandate was received in that country a band of Syrians attacked French troops at Hauran, killed two officers and seventeen men, destroyed two tanks and captured prisoners and war material. The French are reported to have been forced to retreat until reinforcements were hurried from Damascus.

The Syrians also are reported to have brought down a French airplane at Hauran and to have attacked a French outpost at Jaroud, killing fifteen Frenchmen. The committee alleges that disorder has broken out in the whole of Syria.

NO CHANGE IN COAL PRICES AT SYDNEY, N. S. W.

Sydney, N. S. W., July 26.—In spite of a brisk demand for bunker and foreign cargoes, there had been no change in prices of coal at Sydney since April 20, it was said at British Empire Steel headquarters last night. Screened coal is selling at \$7 a gross ton, and run of mine at \$6.40.

Coal going foreign or for bunker is usually sold by the short ton of 2,000 pounds, whereas coal for local purposes is sold by the long ton of 2,240 pounds. For bunker purposes, run of mine is used almost exclusively.

GERMANY TO BUY PROPERTY SEIZED BY ITALY IN WAR

Berlin, July 26.—Count Teofilo Rossi, Italian minister of industry, and Count De Neurath, German ambassador to Italy, have signed a convention for the purchase of confiscated German property in Italy by the German government. The German government will buy it back as a whole. It will then be restored to its former owners. The purchase price is fixed at eight hundred million lire to be paid in instalments. Property already liquidated or nationalized by the Italian government for political, historical or military reasons, is excluded from the agreement.

WEATHER REPORT

Issued by authority of the Department of Marine, Fisheries, and Forestry. E. F. Stupart, Director of Meteorological Service.

Synopsis—Pressure is now high at over the eastern provinces of Canada and near the North Pacific coast and lowest in Manitoba and the southwestern states. The weather is fair and moderately warm throughout Canada. A few scattered showers have occurred in the southern portions of Saskatchewan and Alberta.

Fair; Moderately Warm. Maritime—Light to moderate winds, fair and moderately warm today and on Tuesday.

Gulf and North Shore—Light winds, fair and moderately warm today and on Thursday.

New England—Fair tonight and Thursday. Little change in temperature, moderate east, shifting to south winds.

TY COBB NOW IS LEAGUE LEADER

One Point Ahead of Sisler for Batting Honors

St. Louis and Giants Win the First Games in Important Series—Williams Scores 22nd Homer—Morton Fails in "Iron Man" Attempt.

(Canadian Press.) Detroit, July 26.—Ty Cobb today was back in his old place at the head of the American League batters and was leading George Sisler by one point. The Tiger manager took the lead yesterday, when, in five times up, he made four safeties while his rival was getting one out of three. The figures showed that in eighty-one games Cobb was at bat 319 times, making 131 hits for an average of .411, while Sisler in ninety-two games batted 378 times and hit safely 155, making his average .410.

Yesterday's Games. New York, July 26.—The St. Louis Browns and New York Giants had games held today on their leadership in the American and National leagues, as a result of their victories in the opening games of the crucial series with the New York Yankees and St. Louis Cards.

Two and a half games separated the leading American League rivals as they opened the second encounter while the combatants in the National had a gap of but a half game between them. Urban Schoker recovered his ability to jinx the Yankees, after four straight setbacks, and waved a shutout speed, while his mates knocked Submarine Carl Mays from the box and tallied eight runs. Ken Williams lashed out his second-hundred homer and scintillated in the field.

The Giants had a more strenuous time with the Cardinals, winning 9 to 8 the fifth that drove Bill Doak from the box. St. Louis rallied in the ninth and came within a run of tying the count by driving across four tallies off Fred Toney.

Cobb led his team to an 8 to 5 victory over Washington with Walter Johnson pitching. Guy Morton shut out the Athletics 4 to 0, in the first game of a double header but failed in an "iron man" attempt to pitch both games. He was knocked out of the box in the third of the second game and the Mackmen broke even with Cleveland by winning 11 to 4.

Blankenship twirled the White Sox to a 3 to 1 triumph over Boston. Wagon's poor pitching enabled the Chicago Cubs to score six runs off him in the fourth and defeat the Boston Braves 6 to 3, while the Reds captured a slugging game from Philadelphia 15 to 11 in ten innings.

The Pirates got the best of the Dodgers 5 to 3. Mount Vernon, Ill., July 25.—Harry "Slim" Sallee, former pitcher of the St. Louis and New York Nationals, has been signed by the local team of the Missouri-Illinois League, a semi-pro organization, so it was announced here today.

St. Louis, July 26.—Spectators at the St. Louis-New York game yesterday were by no means stingy in their approval of the latest New York-Boston deal. Joe Dugan, who figured in the bargain, was greeted by hooting and jeering when he made his debut in a Yankee uniform. Elmer Smith, the other new acquired Yankee, was not given a chance to appear in the line up.

Members of the chamber of commerce and the Rotary Club today were awaiting the result of letters they sent yesterday to Commissioner Landis, President Johnson and President Hoey, protesting against the deal, which were characterized "unsportsmanlike" and "indecent."

PENSION RENEWED

Settlement of Problem in the Case of British Columbia Soldier.

Ottawa, July 26.—If an ex-soldier in receipt of a permanent pension for a wound in the ankle subsequently loses the leg through an accident in civilian life, have the pension authorities just grounds for cutting off the pension? This puzzling problem is presented to the dominion command, G. W. V. A. in the case of ex-Private John Munro of Lakeview ranch, Altonola, B. C., and has been settled by the restoration of the pension, which had been discontinued following the accident in which Munro lost his leg.

FUNERAL OF TRURO MURDER VICTIM

Truro, N. S., July 26.—The last chapter in the murder-suicide tragedy that took place here Monday afternoon was closed today, when the body of Dr. R. B. Bentley was interred at Wallace, with full Masonic honors. Service was conducted at his late residence here, after which the cortege proceeded to Wallace, followed by some thousand people for part of the distance. A large number of citizens and members of the Masonic fraternity went to Wallace for the final obsequies.

The funeral of Felix Cook, who shot Dr. Bentley and afterwards took his own life, was held yesterday afternoon and the body was interred in Terrace Hill cemetery.

Hon. J. A. Robb to England. Quebec, July 26.—A passenger on the C. P. Steamship Empress of Scotland yesterday was Hon. J. A. Robb, Canadian minister of trade and commerce. He is on a mission to England.

RUSSIA GOING BACK TO VODKA

Moscow, July 26.—A decree authorizing the sale of vodka, which has been prohibited since 1914, is expected to be issued on August 1.

The pre-war strength of vodka is forty-eight per cent. alcohol. Under the new decree the strength will be thirty-eight per cent. and the manufacture will be undertaken on a state monopoly.

A BIG ENTRY LIST FOR HEILEY

Names of 258 Contestants at St. Catharines

Talk of Stretching Future Meets to Three Days—Ottawa to Have a Rowing Course—Tender in Good Form—Late Sport News.

(Canadian Press.) St. Catharines, Ont., July 26.—Oarsmen from various parts of Canada and the U. S. are arriving on every train to compete in the Canadian Association regatta on Friday and Saturday. In all 258 contestants are entered for the various events. Morning racing for some of the preliminaries will be necessary on Friday and at the annual meeting of the association, which will take place on Saturday, the question of extending the meet to three days will be discussed, so great has been the growth of the regatta since its post-war revival.

The Henley Aquatic Association, a local organization which has sprung into existence as an auxiliary to the C. A. A. O. since an effort was made to remove the annual meet from this course, has arranged a series of aquatic stunts which will be sandwiched between the finishes to relieve the waiting of the spectators while the contestants are up course.

Ottawa, July 26.—(Canadian Press.)—The proposed Henley course for Ottawa is now assured, at least that is how Mayor Frank Plant feels about it. He said last night that many legal difficulties had hitherto prevented action, but these had now been overcome. He was sanguine that Ottawa would soon have a Henley course second to none in Canada.

Delanco, N. J., July 26.—A bit of polishing up today and Lew Teller, Philadelphia challenger, will be in tip-top shape for what he hopes will be victory over Benny Leonard, lightweight champion, in their world's title bout in Jersey City tomorrow night.

Albany, N. Y., July 26.—Nate Siegel of Boston, U. S., in the fourth round of a scheduled twelve-round bout here last night.

Halifax, N. S., July 26.—Entries for the Nova Scotia tennis tournament, which will commence at Bridgewater, on August 7, will close July 29 with the honorary secretary, L. A. Gaston-guay, Halifax.

CUT SALARIES OF STAGE FOLK

Talk of Reduction of Thirty Per Cent—Appeal to the Profession.

New York, July 26.—A move long expected in the theatrical world to bring a reduction in the salaries of actors and actresses, has been made by A. H. Woods, who has addressed a general appeal to the profession through the Actors' Equity Association to accept a reduction.

Mr. Woods warned the players that unless they were willing to join in the general wage reduction now under way that "next winter would be a lean one for many of the profession."

Other managers, who agreed that a cut was necessary, indicated that, in general, salaries representing a reduction up to thirty per cent. would be offered players for next season.

Mr. Woods said that next season would see leading men and women getting from \$300 to \$400 a week and average salaries running from \$100 to \$250 a week.

THOMAS TO BE THE RULER IN THEATRICALS

New York, July 26.—Augustus Thomas, dean of U. S. playwrights has been appointed executive chairman of the Producing Managers' Association, a post corresponding in the theatre to that of Will Hays in motion pictures and of former Judge Landis in organized baseball. It is understood that the post carries with it the responsibility of actual arbiter of all matters of plays pertaining to the production of plays in the U. S.

AIRPLANE APRE, FALLS; THREE ARE KILLED

Granda, Spain, July 26.—An airplane carrying mails and passengers between Rabat and Casablanca, Morocco, fell yesterday near Gaudis, a few miles from here, after catching fire in mid-air. The three occupants of the machine were killed.

Paderewski's Plans.

Paris, July 26.—Ignace J. Paderewski, has decided definitely that his country is unwilling to accept his political services further and has arranged to return to the U. S. in November to fill several concert engagements.

FARMERS HOLDING SECRET SESSIONS

New Movement at Convention in Saskatoon.

Place-Farming on Business Basis—Also to Discuss the Question of Politics—Active Progressive Party Supporters at the Meetings.

(Canadian Press.) Saskatoon, July 26.—A new farmers' movement aimed at placing farming on a business is presaged by the first convention of the Farmers Union of Canada, which opened here yesterday. About a dozen prominent agrarians from the west are in attendance. The sessions are private.

The basis of the movement, so far as can be gathered from the slight information that has leaked out, is to place farmers in such a position that they will receive remuneration for their product equal to the cost of their production.

The possibility of the new organization entering politics will be discussed. Whether the new group will be a separate body in dominion or provincial politics, or both, or whether it will affiliate itself as part of the existing Progressive party is not yet clear. Active supporters of the Progressive party are in attendance at the convention. The sessions are being closely guarded from the press.

Regina, July 26.—Great progress was made yesterday in the Saskatchewan legislature on the wheat board bill and when the session rose for the day all the clauses of the bill were passed. Third reading will be given today, it is likely, and the session will probably conclude tomorrow.

Edmonton, July 26.—The concurrent legislation of the Saskatchewan and Alberta legislature regarding co-operation in a federally managed work program will be uniform and practically identical, so Hon. J. E. Brownlie, attorney-general, announced after the opening of the legislative here yesterday. He said he would introduce the wheat board bill by the way of a resolution today if agreeable to the house and would explain the measure at the same time.

FOR NEW COUNCIL BRANCH

Toronto, July 26.—On the eve of his departure for a meeting of the Canadian Council of Agriculture in Winnipeg, J. J. Morrison, secretary of the United Farmers of Ontario, said he would submit to the Winnipeg meeting a proposal to establish an eastern branch of the Canadian Council of Agriculture with headquarters in Toronto.

"We have 60,000 members in Ontario, about 12,000 in maritime provinces, and 2,500 in Quebec, so the cost of establishing the branch in the east would be about five cents a member," said Mr. Morrison, who added: "We in the east know little of agriculturalists in the west, and likewise they do not understand us. I think that the establishment of this branch would do much to overcome difficulty and promote better relations."

TENDERS FOR THREE BRIDGES

Dungarvon Angling Rights Sale—Appointments to Boards of Health—Mrs. Robert Scott Dead.

(Special to Times.) Fredericton, N. B., July 26.—The department of public works is calling tenders for building the Giroud Bridge, parishes of St. Paul and St. Mary's, Kent County, the Second Bridge, parish of Cardwell, Kings County and the Hall (Albert) Bridge, parish of Cardwell, Kings County.

Rev. Alpheus Daigle, Catholic, Montreal, and Right Reverend Bishop Schell of Victoria, B. C., have been registered temporarily to solemnize marriages in New Brunswick.

An upset annual record of \$100 is being asked by the department of lands and mines for the angling rights on the Dungarvon and all its tributaries up to thirty per cent. higher than average salaries running from \$100 to \$250 a week.

Appointments to sub-district boards of health in ten counties are gazetted. They are James T. Ryan, Moncton, Albert County; Dr. M. E. Commins, Bath, Carleton County; Dr. Denmore, Bathurst, Gloucester County; Dr. O. R. Peters, Rothesay, Kings County; Dr. P. H. Laporte, Edmundston, Madawaska County; H. B. Bridges, Gagetown, Gloucester County; L. S. Pinault, Campbellton, Restigouche County; John Kelly, St. John City and County; Dr. L. Chapman, Grand Falls, Victoria County; Dr. A. Sommay, Shediac, Westmorland County.

Mrs. Scott, wife of ex-Alerman Robert Scott died on Tuesday night after a lingering illness. She was formerly Miss Rossborough and with her husband survives here, removed to Fredericton some twelve years ago from Dumfries.

H. C. L. IN STATES.

Washington, July 26.—While living costs generally in the U. S. were twenty-three per cent. lower last month than in June 1922 and two tenths of one per cent. lower than in March, this year, here, after catching fire in mid-air. The three occupants of the machine were killed.

MONTREAL STOCK EXCHANGE.

Montreal, July 26.—(10:30)—During the first half hour's trading on the local stock exchange this morning, nothing of interest transpired, and prices were unchanged. The general tone was steady.

GENEROUS GIFT VIA WATERLOO ST. BAPTIST W. M. S.

A generous bequest made by a former member to the cause of missions, was reported at the annual meeting of the W. M. S. of the Waterloo street Baptist church held last night in the church vestry with Mrs. Thomas Robinson, the treasurer, in the chair. The late Mrs. J. S. Smith, through the Waterloo street W. M. S., of which she had been a member, had bequeathed to the work of the United Maritime Baptist Women's Missionary Union the sum of \$700, and at last night's meeting the treasurer, Mrs. John Frodsham, in giving her report referred to this generous gift.
The treasurer's report was a very encouraging one, and all of the reports presented showed the year to have been a most successful one. Miss Marion Hamilton, who had been the delegate from the Waterloo street branch to the meeting of the southern association of the Baptist denomination in Sussex, submitted an interesting report of the association meeting. The election of of-

INSTITUTIONS FOR DRUG ADDICTS

Intimation of This in Inspection of Penitentiaries by the Hon. D. D. McKenzie.

Victoria, B. C., July 26—Intimation of the possible establishment of a system of institutions throughout the dominion for the care and treatment of drug addicts, or for special accommodation for them, was made here yesterday by Hon. D. D. McKenzie, solicitor general for Canada.

He said that he was visiting the penal institutions to ascertain conditions under which men and women were held in confinement, with a view of being able to make suggestions to the premier, as to how improvements could be brought about, particularly regarding those addicted to the drug habit.

TOO MANY MIDDLE MEN.

(London Advertiser.)
Information now out shows that United States has 1,088,462 stores, with more than 8,000,000 men and women behind counters. That works out at one store for every 106 of population in United States, seemingly too great a covering for the trade to be secured. But still there is nothing to hinder more of them starting into business tomorrow in spite of these figures.

SAVES LIFE OF DOG.

Speedy application of surgical treatment saved the life of an English sheepdog belonging to A. Silver, grocer in Toronto. Two weeks ago, as the dog was crossing Adelaide street, a heavy truck ran over it, breaking its hind leg. Its owner immediately took it to a nearby veterinary, who set the limb and put it in a splint. The animal is now able to move around, and the leg is healing rapidly.

PAPAL BLESSING TO COLUMBUS KNIGHTS

(Canadian Press Despatch.)
New York, July 25—Edward L. Hearn, European commissioner of the Knights of Columbus, arrived today on the Majestic, bearing with him a special blessing from His Holiness, Pope Pius XI, the Knights of the United States and Canada.

THE NATIONAL WAY ACROSS CANADA

Canadian National Rail Services are the Acme of Travel Comfort.

From the Atlantic Provinces to the West and to the Pacific, the ideal rail route is the Canadian National—"The National Way."

Whether on business or on pleasure bound the traveller has the advantages of a through rail service that is unequalled for excellence. The finest equipment of all steel trains is furnished and the most modern of standard sleepers, compartment cars, and modern diners.

The "National Way" is also the finest scenic route, and by reason of its construction furnishes the smoothest and most comfortable journey.

From the Maritime Province points there is the best service to Montreal via the "Ocean Limited" and "Maritime Express."

From Bonaventure Station, Montreal, the famous "Continental Limited" leaves daily at 9:00 p. m. for Ottawa, North Bay, Cochrane and Vancouver. This is the finest of through Transcontinental Service, the equipment of these Canadian National trains being of the most modern standard.

Fleet Agents of the Canadian National Railways will afford customers all the detailed information regarding these services. Enquiries addressed to the General Passenger Department, Montreal, will be promptly replied to, and booklets describing the territory will be mailed.

KEEPING BOYS ON THE FARM

(Buffalo Times)

"How can we keep the boys on the farm?" used to be a favorite topic for rural debating societies. A letter from St. Catharines, Ont., reports one solution. They are told: "Cherry-picking jobs in the Niagara district are very attractive this year. The reason is that among the army of pickers are many farmettes. Some of them are college girls."

CORNS

Lift Off with Fingers

Locate, mark a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

CONSTABLE SHOT TWICE.
Sherbrooke, July 26—Shot twice in rapid succession Constable Wilfrid Gauvreau, of No. 4 police station, lies in a critical condition at the St. Vincent de Paul Hospital. In addition to two serious wounds, his condition was aggravated by the fact that he had lain by the roadside for three hours before he was discovered and had weakened considerably owing to the loss of blood. The constable had been following a couple of suspicious characters whom he had noticed around the Quintal property, on King street east, near Murray street, and trailing them as far as the St. Pierre overall factory on Council street. The two men appeared to hesitate about coming out of the shadows and were apparently preparing to force a window when Constable Gauvreau called to them. His challenge was greeted by a couple of bullets, one of which passed through his right thigh, while the other bullet entered behind the right shoulder and came out at the left side of the neck. Gauvreau retained enough presence of mind to fire

a shot from his own revolver, but it evidently went wide. He managed to drag himself along Council street for a distance of about a hundred yards, but weakened by the loss of blood, he stumbled and fell in the roadway. It was nearly three hours later, at about 5:20 a. m., that Mr. Ludger Blouin found Constable Gauvreau.

At a meeting of the creditors of W. H. B. Sadeir yesterday afternoon in the office of the Canada Permanent Trust Co., authorized assignee, it was reported that disposal of half the assets had been successfully accomplished and the balance will be sold at once. Another meeting will be held in August.

TWO STORES WASSONS Sydney St. and Main St.

Be Careful What You Wash Your Hair With
Don't use prepared shampoos or anything else that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.
The best thing to use is just plain Mulified coconut oil shampoo, for it is pure and entirely greaseless. It's very cheap and beats anything else all to pieces. You can get Mulified at any drug store, and a few ounces will last the whole family for months.
Simply put two or three teaspoonfuls of Mulified in a cup or glass with a little warm water, then moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff. Be sure you get Mulified. Beware of imitations. Look for the name Watkins on the package.

BETTER THAN HARD COAL
Soft coal so free from soot that it does not make whickers on stove covers or pipe and does not mat or cake when burning, is far better than Hard Coal for general household use. Quicker to light, takes less to make a fire, cheaper in price and can also be used for open fires and small heating stoves. Such a coal is Broad Cove soft coal. The main thing is to insist on getting the genuine article. No other soft coal burns just like Broad Cove. You will know it by the above characteristics.

ANSWER THIS PUZZLE WIN \$1000 OR OVERLAND
The operator of the movie machine in this theater decided to play a joke on his audience, so he threw these re-arranged "Movie" players' names on the screen.
To solve the Movie Puzzle, all you need is a pencil and a sheet of paper. Rearrange the letters, so that they will spell the names of the stars. In case of a tie, the final 25 "Points" will be awarded by three independent judges on the basis of the number of "Points" (which is the maximum) will win the OVERLAND Automobile, or \$1,000 in cash. Second highest will win \$500; third prize, \$250; and so on down the list of 25 big prizes. In case of a tie, both winners will receive same prize. Send in your answer TODAY, as soon as it is received, we will send you a circular telling about the 19 "Superior" Features of the VELVIPONT Fountain Pen.
COSTS NOTHING TO TRY—YOU CAN WIN
You will not be asked to buy a Velvipoent Fountain Pen, nor spend one penny in order to win. Just write your answer to the Puzzle on one side of the paper, name and address in upper right hand corner. You can win—Don't delay—Answer the Puzzle NOW and send your solution to:

Northrup, 350 Madison Ave.—CHICAGO, E. J. Power, Manager, Association Bldg. The Audit Bureau of Circulation audits the circulation of The Evening Times.

THE HEALTH CENTRE.

As a result of the meeting of representatives of influential organizations yesterday the Health Centre for St. John may be regarded as assured. There is work to be done, of course, but when the various organizations have engaged in preventive health work with the aid of the Rotary and Commercial Clubs, Council of Women, Knights of Columbus, Women's Institute, Catholic Women's League, Hebrew Young Women's Society, Red Cross and others who only await a call to service are in favor of a project. The Victorian Order has a building it is ready to use in making a Health Centre on the larger scale. The Society for the Prevention of Tuberculosis must have new quarters. There is need of room for a dental clinic and for the treatment of physically defective school children, whose parents cannot afford to pay for their treatment. A centre is needed where public health nurses may be trained, as they cannot be got from other provinces or the States, and the need is urgent and will steadily become greater. Hon. Dr. Roberts made very clear the saving in overhead expense, the reduction of ever-lapping and the increased efficiency in service which would result from having one Health Centre. Hon. J. G. Forbes pointed out no less clearly that all preventive work is an economic saving as well as a saving in health. There is no sound argument against this proposal. It will be a very great community benefit, and will benefit the whole province through its training of public health nurses. The needs of the Health Centre, the Victorian Order and the Society for the Prevention of Tuberculosis may all be met at the same time by a combined appeal to the people. A decision had to be made before the first of August or wait another year. The citizens would not desire to wait another year.

THE COAL SITUATION.

The city council may have to add to its other duties that of considering what we are going to do for coal next winter. The outlook is uncertain. There is today an actual scarcity of coal in portions of the United States. Added to the falling off in production due to the miners' strike there is the inability of railroads to deliver all that is available. That condition may become worse. Already industries are going on short time, trap service is being reduced and the great steel industry is threatened with a tie-up. There is a fear of trouble in the mines of Nova Scotia. Quantities of Welsh coal are coming to the United States and to the St. Lawrence, but already the price of Welsh coal has gone up. Of course there is no immediate danger of a local shortage, but what will the winter conditions be if the strike continues? That is what our people must think about, and the city council will do well to look about to discover means of coping with a serious situation if it should develop. If the miners are determined to go the length of crippling industry, and the railroad trouble should continue and seriously affect transportation, the chances of getting an ample supply of anthracite coal would be greatly jeopardized so far as a supply for Canada is concerned. There is no immediate cause for alarm, but good reason to be on the alert and ready to meet an emergency which may arise.

THE VOCATIONAL SCHOOL.

The vocational committee has taken prompt action on the Rutherford report. It has approved the report and its recommendations which will go to the provincial board, whose approval is assured, as it is only too willing to lend assistance and enable the province to get its full quota of the federal grant for vocational training. It is announced that a conference of the city commissioners, the Ontario Agricultural College, former Professor of Field Husbandry in the University of Saskatchewan, and now President of the Manitoba Agricultural College. He is a type of scholar-farmer who has arisen out of the movement for agricultural education. His record looks good; of course his political capacity remains to be tested.

Some days stand out from others in the city's life, because they see the culmination of long effort to get needed improvements. Yesterday was such a day for St. John. The decision to establish a Health Centre, and the action of the vocational committee in regard to a vocational school for the city made it a very notable day. This will be a notable week, for it should also witness the next forward step in regard to the acquisition of cheap light and power.

"TRANS-CANADA" TOUR.

One reads with much interest the following announcement in the Montreal Gazette: "Increasing interest is being manifested in the trans-Canada tour of the Montreal Board of Trade, which has been inaugurated as one means of marking the centenary of that institution, and which also is regarded as an important contribution to the interests of the Dominion and the Empire by helping to bring East and West together. In this connection an opportunity is being offered to members of the British Parliament to join the tour, and it is confidently anticipated that between twenty and thirty will avail themselves of this means of receiving information of Canada at first hand. The success of the undertaking is now assured and the tour promises to prove one of the most important journeys undertaken in the Dominion." The maritime province reader of this announcement may perhaps suggest that a trans-Canada tour should begin at Halifax, and include a visit to Sydney, St. John and Charlottetown. Our people would be very glad to extend a welcome to members of the Montreal Board of Trade, as well as to the members of the British Parliament who seek to receive information at first hand. They would like especially to have the British visitors, since they have but rare opportunities to see Canada, and they will not see the most interesting part of it unless they come east of Montreal. Also our people would be glad to aid in bringing the east and west together. It may be possible to get at least the British delegation to come this way after they have seen the west and central provinces. Their tour should really be "trans-Canada."

Referring to the League of Nations the New York Evening Post recently said: "After all, the League is a highly practical body. As Lord Robert Cecil said the other day, it has prevented three wars, created an International Court of Justice, is governing considerable parts of Europe, and has formulated a sound programme of economic restoration. Secretary Hughes' reference to the Court is one of warm implied approval. Mr. Taft remarked that the important fact about the four Power agreement was its assertion of the interests of all in respect to each and of each in respect to all." As time passes and the League pursues its programme, Americans will more and more realize that that is just what the League itself means.

It is announced that eastern Canada, meaning Ontario, Quebec and the maritime provinces, are asked to send 87,000 harvesters to the west, and that the first excursions will go the first week in August. The west has every assurance of a great crop, and help is needed. The condition of the labor market indicates that great numbers of men will welcome the opportunity to go west for a time. But, as the Times has before remarked, the transportation companies which make it easy for them to go west should also give them a low rate for the return journey.

Halifax Chronicle:—"Conditions in Canada are so similar to those in the United States and our relations are so close and intimate, that we are bound to be affected almost similarly to our neighbors. But on the other hand, we are fortunately free as yet from labor troubles and if this happy situation is continued, and in view of the bountiful harvest which is promised all over the country, Canadians may look forward with a high degree of confidence to a substantial improvement in the industrial situation and the general business of the country."

Toronto Globe:—"Manitoba farmers have chosen for their Leader John Bracken, aged 39, a native of Leeds, Ontario, a graduate of the Ontario Agricultural College, former Professor of Field Husbandry in the University of Saskatchewan, and now President of the Manitoba Agricultural College. He is a type of scholar-farmer who has arisen out of the movement for agricultural education. His record looks good; of course his political capacity remains to be tested."

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis
Formerly Technical Electrical Expert For U. S. Government

Lesson No. 65.
ADJUSTMENT OF THE CRYSTAL DETECTOR.

Certain types of minerals, such as galena, silicon or carborundum possess the valuable property of rectification. One of these crystals used as a detector and properly connected in a receiving circuit rectifies the high frequency oscillations intercepted by the antenna, into pulsating direct currents. These pulsations are then converted into audible sounds through vibration of the diaphragms in the receiving telephones.

Crystals are usually mounted in a metal cup and held firmly in place by being surrounded with a metal having a low fusing point. This cup forms one terminal of the detector, the other terminal being, by the majority of cases, a pointed contact so adjustable as to be moved over the surface of the crystal until a sensitive spot is located which produces maximum audibility in the Zincite Bronzite type of detector.

The value of a crystal detector rests in its property of sensitivity to the incoming oscillations and its ability to stay in adjustment. Some crystals, of which galena is an example, although highly sensitive, are difficult to retain in adjustment due to the fact that contact is maintained by the slight pressure of a delicate wire on the surface of the crystal. Other crystals may be less sensitive but are more stable in adjustment as they require the firm pressure of a sharp point for maximum, when used as a detector, necessitates comparatively heavy pressure at the point of contact.

The sensitive spot on a crystal for properly receiving the incoming signals can only be located by experiment, which consists of moving the contact point over the surface of the crystal until maximum signals are obtained. By the use of a test buzzer a detector consisting of galena used in conjunction with a delicate wire, may be maintained in adjustment whether or not signals are being radiated from a transmitting station. A simple circuit for a form of test buzzer is shown in the accompanying diagram.

A small high frequency buzzer (B) is connected in series with two dry batteries (A) and a push button (C). A wire is connected from the contact side of the buzzer to the terminal of the detector (D) which supports the fine wire contact as shown in the diagram. Pressing the button operates the buzzer and the fine wire contact may be moved over the crystal until the maximum sound is heard in the receiving telephones. With this location of the contact point the crystal is in adjustment for the incoming signals.

RADIO BROADCASTING AT ARLINGTON.
Recent additions to the naval wireless station at Radio, (Va.), (Arlington) will soon provide facilities for a regular broadcasting service on a wavelength of 2650 meters. Arlington is well known as the source of radio time signals, and for some time amateurs have been hearing test calls by voices from this station to New Orleans, New Harbor and Norfolk.

BROADCASTING MOVING PICTURES.
The broadcasting of moving pictures by radio in a similar manner to the present method of broadcasting music and lectures, is promised in the near future, for public entertainment.

Sending pictures by radio between America and Europe has already been accomplished in the past year. These however were "still" photographs and the length of time required in transmission is too great to allow the reproduction of moving pictures by the same method.

It is reported that instantaneous transmission of photograph has been accomplished by the use of a metallic substance known as selenium. This substance exhibits the important property of changing from a non-conductor to a good conductor of electricity depending on whether it is placed in the dark or is exposed to rays of light.

This process of changing from an insulator to a conductor takes place within the interval of a few minutes and it may be further developed so as to transmit pictures in a minute fraction of a second.

Successful development of this form of broadcasting would permit of centrally located theatres supplying large communities with a combination of moving pictures and the necessary accompaniment of music or speech.

A WOMAN I KNEW.
I mind me of a woman that I knew,
A shadow-woman, pale and drab,
And small—
The caravan of Life had passed her by,
And as it passed had moved her not at all.

Man in the Street
It is noted that this week there was a demand at the local employment bureau for haymakers. The applicants might have been, with some success, referred by Superintendent Ryan to the ring at the armory last night.

Answers to Correspondents.
No, Clarissa; the fact that the left leader saw you home from the ball game—the outcome does not bring you within the scope of the term "fielder's choice."

Some chap in upper Canada declares that a summer camp is a fount of rest. The last one we were at was a roind of yeast.

Alberta's first midsummer session of legislature convened yesterday. It should be a hot session.

Outlook is decidedly in favor of Strike of 40,000 Canadian Railway Shopmen.—The outlook does not bring you the only ones in favor of it.

A sport writer suggests that the New York Yankees are slumping because they play too much golf. Before prohibition it used to be another story.

INTERNATIONAL CROOK KILLED

"Liverpool Jack" Dies Alone in Tenement Room

A Criminal Fifty Years—Notorious on Two Continents—Policeman Dies Fighting Gang.

New York, July 26—Patrolman Arthur Loewe, shot four times yesterday in a single-handed pistol battle with four safe breakers in South Brooklyn, died at 10:15 o'clock last night at a Methodist Episcopal Hospital.

Loewe, an aviation veteran of the world war and a patrolman of gallant record, struggled bravely to the end, aided by all that surgeons and nurses could do for him, but the four bullets, which had killed through his body proved too much for him.

And before he went Loewe had the satisfaction of knowing that as a result of the shots he fired in the dark yards behind H. L. Heberlein's warehouse in Brooklyn, one of the most notorious of crooks had preceded him.

When Loewe, summoned by Mrs. Marie Kennedy of 253 Eighth street, who was awakened by her crying baby and saw two men sealing her back fence into the warehouse, had fought his fight with the pair and two who vaulted back over the fence to aid them, there was nothing left of a trail of blood to tell that he had not fought wholly in vain.

All day long police waited, certain that at least one gunshot case would show up somewhere. They were right. Yesterday afternoon John Walsh, known to criminologists of two continents as "Liverpool Jack," left this life, down near the Navy Yard, four miles from where the pistol fight had taken place.

A Criminal Fifty Years.

Just as soon after that as they could the police got word to Loewe that a man had been accounted for, that he was who had preyed for more than fifty years with England and America as his chosen hunting grounds, a man whose business was safe cracking, whose list of aliases were overlong, who had spent more than thirty of his sixty-five years in prison and who, at the very moment when, twice wounded, he had dropped his burglar tools and fled with his pals, was badly wanted in Trenton.

Loewe died with all the consolation his family and his religion could give him. He was buried with police honors, a hero who gave his life in the doing of his duty.

The other man slunk away from the fight, hid himself in a tenement bed room, staunchly his own words as best he might with tissue paper, refused the aid of either doctor or priest, drove away his sister with fear, and died alone. His body was taken to the Kings county morgue for an autopsy.

Uniformed men and detectives, set to average the shooting of their comrades and sent upon the capture of a band that had shown itself desperate and dangerous in the early morning encounter, got their first real start on the case when a telephone message came to Brooklyn from Mrs. Rose Ryan, wife of a truck driver, asking that an ambulance be sent to her home at 42 Carlton avenue, as a man had been shot.

Detectives hustled in the wake of the ambulance from Cumberland Street Hospital. They got there just as Dr. Gerber was straightening up from a brief examination of a shriveled form on the bed to shake his head and say that the man was dead.

Even death, as the detectives bent over, could not conceal that the man who lay there among tumbled bedclothes, rendered from wounds ill staunch, was, in fact, convict. Aged hard, worn, they might have mistaken him for some bedridden mendicant but for that evil face, the shifty look that still wore and the palor that comes only of long years of forced housing.

Liverpool Jack—At Last.

A close scrutiny, and one exclaimed: "Liverpool Jack" last night.

The detectives took the weeping Mrs. Ryan to the station house, and there before they released her as quite innocent of any knowledge of the associate even of the unregenerate brother who made his occasional home with her, they got the story. It was a story told by the woman with no consciousness of its dramatic picturing of one who had fought the world all his life, and who, in the end, refusing all comforts and all company, had chosen to die alone.

It was just breaking day when Mrs. Ryan heard her brother come reeling into the tenement, grope his way down the dim hall and enter his room. She never suspected anything worse than drink was wrong with him until about 10 o'clock she heard groans. She went in to find a painfully wracked figure tossing on the bed, while the life fluid oozed slowly from a wound in the chest and another in the right arm.

"What's happened?" gasped Mrs. Ryan.

"Fight with cop. He shot, I shot," Walsh mumbled.

Slowly, painfully, the falling man worked himself almost upright. Pointing a shaking, shrunken finger as his sister, he said:

"If you go out of this room to get a doctor I'll jump out the window."

A glance into the baleful eyes that bored into hers told Mrs. Ryan he meant it, so she promised not to get the ambulance.

"But a priest, pool fellow," she said: "The priest you had quavered in his protest against the doctor was steady and hard as, syllable by syllable, Walsh got out:

"Do and I kill you."

Wounds Cruelly Dressed.

The sister gave a gesture of surrender and the injured man, fumbling under his pillow, produced a bottle of raw iodine. "Four this in 'em," he ordered.

Tears flowed from his eyes, and the clenched mouth trembled as Mrs. Ryan doused the open wounds. When the brown liquid had soaked down into the tissue paper Walsh had managed to cram into his hurts, he sank back exhausted, using his last bit of strength to wave his sister from the room.

For hours after that Mr. Ryan sat in her parlor and prayed, or tiptoed to the door of the soundless figure, afraid to stay out, afraid to go in. Each time she would wring her hands and go back to repair to her chair by the window,

Beauty Unsurpassed

Gouraud's Oriental Cream

waiting, waiting for the summons she believed must come.

It never came. At three o'clock in the afternoon, able to hear it no longer, she gently opened the door and went softly to the bedside. There was no need for her quiet then. Liverpool Jack was dead.

Captain John J. McCloskey was notified by the glass arrangements of their find in the tenement. He went to the station to share in questioning Mrs. Ryan. He got nothing from that, but as soon as his own look before the dead man was taken to the Kings county morgue, had satisfied him that the man really was the notorious Walsh he ordered word conveyed to the Methodist Episcopal Hospital.

It was cheering to Loewe, but surgeons said last night that even with the stimulus he hardly could pull through. He had been hit four times instead of twice, as had appeared at first. One bullet had lodged in the groin, another had penetrated the right side above the hip and had punctured the intestines, and two others had passed through his body.

Career of Liverpool Jack.

When the examination of Mrs. Ryan was done and the messengers were on their way to the hospital, McCloskey went back to his own office and produced from the files this tabloid record of the career of Liverpool Jack.

Oct. 9, 1878, as John Warren, sentenced to Sing Sing prison from Manhattan, for burglary.

June 3, 1883, as John Welsh, sentenced to prison for five years in Manchester, England, for receiving stolen goods.

April 5, 1893, as John Wogan, sentenced to Poughkeepsie to one year in jail for burglary.

March 3, 1895, as John Wesley, sentenced in St. Louis to six months in jail for having burglar's tools.

March, 1898, as John Walden, sentenced in Baltimore to ten years for attempted burglary.

Aug. 15, 1905, as James Wren, sentenced in South London, England, to seven months for attempted burglary.

—, 1906, as John Walker, sentenced in London, England, to five years for larceny.

—, 1911, as John Walsh, sentenced in Jersey City to three years in the State Prison at Trenton for burglary, and being a fugitive from justice.

—, 1914, as John Walker, sentenced at Trenton to one year for burglary.

Captain McCloskey said that Walsh was born somewhere in the Cherry Hill section of Manhattan, and that before many years he had roamed the old Fourth and Seventh wards.

Walsh in all his aliases never forgot the name with which his real name started, an idiosyncrasy which he refused to give up even when at times it seemed to make things comparatively simple for the police. In his own safe-blowing line he was an expert and an associate of experts, an associate, indeed, of more than two generations of them, as the professional lives of such go.

So far as is known, he had no near relatives except the sister who died, and who died yesterday morning that he might die alone.

SCHOOL FOR CRIME.

"Liverpool Jack" Was Mentor of Gang of Youths.

(Special to The Gazette.)

New York, July 23.—Detectives delving tonight into the shadowy activities of "Liverpool Jack" Walsh, who made an international career of crime on Saturday when he died alone, stanching the wounds of four police bullets with tissue paper, were working on the theory that the sixty-five-year-old safe-breaker was the mentor and leader of a band of young burglars.

When Policeman Arthur Loewe, war veteran, fought four thieves in the darkness preceding Saturday's dawn, in a yard in South Brooklyn, he received four wounds which caused his death. Before he died in the Methodist Episcopal Hospital he learned that "Liverpool Jack," one of the four yeggs, who escaped, had died from his bullets.

That left three of the band to be accounted for, and spurred on by Loewe's death, detectives went out after them, determined to bring them in. But, up to late tonight, no arrests had been made. Checking up, however, the records of Walsh's crimes, they found that the old crook had one cardinal rule which he never violated—whether he was cracking a safe below New York's "downtown"—which he did once—rifling a strong box in England. That was, that he must be the leader of every criminal enterprise in which he enlisted.

But, the detectives pointed out, Walsh came out of prison the last time an old man, he would have been sixty-six years old in a few months, and they were working on the conviction that he had no direct evidence that "Liverpool Jack" was running a school for crime, and refusing, in fact, to disclose the exact extent of the progress of the ground that to do so would handicap the hunt.

RECENT WEDDINGS

Matthews-Mingo.

(Passaic, N. J. Herald.)

Miss Vera Grace Mingo, who was a teacher in school No. 8 during the term just closed, and who resided with her sister, Mrs. Willard Bent, 284 Lodi road, Wallington (N. J.), became the bride of Frank Leslie Matthews of West Roxbury (Mass.), at noon on Saturday, July 8, in St. Thomas' church, corner of Fifth avenue and 88rd street, New York city.

The Rev. W. Powell officiating. Mrs. Willard Bent was matron of honor and Walter Thompson of Somerville (Mass.), was best man. The bride wore a cape dress of French blue crepe roma and silver grey trimmings, and a picture hat. She carried a bouquet of orchids. The matron of honor was attired in leaf brown canton crepe with hat to match. After the ceremony the bridal party had luncheon at the Pennsylvania Hotel in New York, after which the newlyweds left for an extended honeymoon trip along the Atlantic coast, upon which they will reside at 19 Caledonian avenue, West Roxbury (Mass.).

Ward-Sorenson.

A quiet wedding of much interest took place this morning at the residence of Mrs. M. C. B. of which the groom is an officer. Also a handsome walnut chair from the staff of Jones & Schofield, Ltd., where the groom is employed. After a short trip through the province Mr. and Mrs. Ward will reside in this city.

White-Hayes.

At Lower Millstreet, on July 19, Miss Olivia Hayes, daughter of Mr. and Mrs. Hiram B. Hayes of Upper Millstreet, was married to William Walter White, son of Mr. and Mrs. William White of Lower Millstreet. The ceremony was performed by Rev. B. W. Turner, Methodist, assisted by the Rev. John White of Ward Andrew's, Freshyter church, Winnipeg, and Rev. C. S. Young of the Lower Millstreet Baptist church, at the home of the brother of the bride, Harley Hayes.

Dexter-Odell.

On July 22, at the residence of Mr. and Mrs. W. J. Odell, Musquash, their daughter, Edith Beatrice, became the bride of Russell Sage Dexter of Dexter & Richards, Quebec, son of Mr. and Mrs. Nathan Dexter of Dexter, N. S.

Rev. H. Fairweather officiated. Leo Collins of Fairville was groomsmen, and the bride's sister, Marion, was bridesmaid. Mr. and Mrs. Dexter will reside in Granby, Quebec.

Marsten-Phinney.

Miss M. Ellen Phinney, of Centreville Village, N. B., and Frank Marsten, son of Mr. and Mrs. Frank L. Marsten, Fall River, were united in marriage recently at the parsonage of the Third Baptist church, Fall River. Mr. Marsten is a graduate of the Union Hospital, and is at present employed as industrial nurse at the Merchants Mill, Fall River.

RECENT DEATHS

Miss Mary Stohart.

At her home in East Branch, Kent county, on Saturday morning, the death occurred of Miss Mary Stohart, Miss Stohart was stricken with paralysis and never regained consciousness. She is survived by a sister, Mrs. E. Bowser, of Rexton, and a brother, Duncan Stohart, with whom she resided, also by several nieces and nephews. The funeral took place on Monday afternoon from her late residence to the Presbyterian cemetery, West Branch. It was attended by many friends and relatives. The services at the house and grave were conducted by Rev. Alexander Craige, of Bass river.

Miss Eleanor Loomer.

Miss Eleanor Loomer died on July 22 at the home of Mrs. Aylene Steeves, Hillsboro. She was aged ninety-one years.

July Clearance Sale of Summer Wash Dresses

In the dress section of this store you will find compelling values in smart frocks that will be just what you want to finish out the season.

Organdies, Voiles, Gingham, Spotted Swiss, etc., as well as clever combinations of two materials.

Prices have been greatly cut in order to clear them out quickly.

Special Voile Dresses at \$3.75

White grounds with navy, green or cardinal spots. Waists are made in surplice style and skirts have becoming overskirts edged with narrow frills of self material.

Checked Gingham at \$2.75 and \$3.75

Large and small checks among these and many color combinations. Styles are very suitable for porch, house or even street wear.

Patterned Voiles at \$5.95

Materials are in dainty pale colored grounds with small flowered patterns. Frocks are prettily trimmed with fine Swiss embroidery and dainty white organdy sash. A very extraordinary bargain at the price marked.

Spotted Swiss at \$8.95 and \$12.75

Inserts of organdy are used to trim many of these dotted Swiss frocks. Especially attractive are models combined with contrasting material. These are showing in bright and darker shades.

Flower Tinted Organdies at \$6.75 to \$12.75

Fresh, crisp models in such tints as corn flower, buttercup, apple green, rose, geranium, etc. Some of these have pretty little skirt pockets and are trimmed with narrow lace edges.

Sale Commences Thursday Morning at 8.30 o'clock.

KING STREET GERMAIN STREET MARKET SQUARE

EVIDENCE IN PARIS CASE

At the afternoon session of the trial of John Paris yesterday, G. H. Vernon, K. C., counsel for the defence, asked the crown subpoena the witnesses for the defence as the prisoner was without necessary funds. On objection by the attorney-general Judge Chandler ruled that it was impossible. The attorney-general opened the case for the prosecution with a review of the evidence available for the crown.

Mrs. Ella Calvin, Millidgeville avenue, was the first witness called by the crown, and she told of going with her twelve-year-old daughter, Alice, to Riverview Park to pick berries on August 1. Alice became frightened when she saw Paris and called out to her mother. Paris was dressed in khaki riding breeches, a blue coat and a soft hat with a dark band.

She said that on August 6, while she was in the park again talking to several women Paris came up behind them. She thought he had been listening to the conversation. On this day he wore a different suit.

While Mrs. Calvin was on the stand, Mrs. Vernon drew the court's attention to the fact that several of the witnesses for the crown were in the court-room and she ordered them to leave until they were called.

Alice Brown.

Alice Brown, aged thirteen, and daughter of Mrs. Calvin, told of going to the park with her mother on August 1 and becoming afraid when a man, who she was told was the prisoner, came toward her. He had a piece of scantling and a green board in his hand, and when she called her mother he turned into the bushes.

Mrs. Bertha Craft, who lived in the next house to Paris, said she saw him in his yard on August 1. The following day she saw him between 9 and 10 o'clock going toward his own back door.

On the night of Aug. 2 she was out watching the reflection of the Cushing fire at that time she said she saw window dressed in khaki pants, light shirt and light colored soft hat similar to the one shown her in court. While she was standing on the street Mrs. Ethel Byers and Mrs. Gerow, Alfred Byers came along on his bicycle and alighted near to Paris.

On the morning of Aug. 3, which day was her only son's birthday and the date of the fire in the Britain street fish shed, Walter Humphrey came to her house and asked her husband for the boat as he wanted to put Paris over the river. Just before 12 o'clock noon she saw Humphrey and Paris get into the boat and cross the river to the Strait Shore side. At this time Paris wore a blue suit and a light shirt.

To Mr. Vernon, she said that Walter Humphrey gave her name to the detective who came into their house in September and she asked him what kind of a scrape he had got into, but Humphrey had not been discussed with her.

James Kimball.

James Kimball, aged fourteen, of Prince Edward street, told of finding the body of Sadie McAuley covered with stones in the Riverview Park while he was picking berries. At first he could see her shoulder and he then removed a piece of stone and could see her hair. He then went and told of his gruesome discovery to the men working on the street.

Ronald McAuley, father of the murdered child, was the last witness before adjournment. When he heard that his child was missing he was in Prince Edward Island.

The attorney-general asked his honor whether he thought it advisable to hold evening sessions. His honor replied that evening sessions were hard on everybody and he did not think it wise to hold them if it could be avoided. E. A. Agar, a member of the jury, said that he got through with the trial as soon as possible. As the crown had no more witnesses on hand the court was adjourned until this morning at 10 o'clock.

POLICE CHARGE WOMAN WITH MAKING MOONSHINE

(Toronto Globe.)

An underground still was located yesterday afternoon by Plainclothesmen Brown and Geaves at 10 Draper street. On entering the house the police lifted a piece of oilcloth on the kitchen floor and they found a trapdoor. On lifting the door they dropped down into a partitioned off cellar and set a still. Two hundred gallons of mash, six gallons of alcohol and eight gallons of home-made whiskey were found. Pearl Kirschenbaum, alleged owner of the still, was arrested on a charge of breach of the Inland Revenue Act and with selling liquor. She was allowed out on bail of \$2,000.

Provincial Constable Trebell arrested Benjamin Frier, 284 Richmond street west, on a charge of selling liquor. Frier was released on bail of \$2,000.

CHILD GAMBLERS.

(London Chronicle.)

Do school children gamble? A suggestion that small boys and girls indulge in modest betting was made Monday by a member of the London Municipal Police court, when a bookmaker was fined for taking betting slips from children.

A social worker stated to a Daily Chronicle representative:—

"There is no doubt that gambling is on the increase among all classes," she said,

WORLD'S WHEAT HARVEST

THIS YEAR 2,753,386,000 BUSHELS

Washington, July 26.—The estimated 1922 wheat harvest for all countries for which figures are available shows a slight increase over production for the same countries in 1921. Department of Agriculture statistics just issued show these countries' crops of wheat will aggregate about 2,753,386,000 bushels this year compared with 2,723,506,000 bushels last year and with a five-year average ending with 1918 of 2,577,577,000 bushels.

Russia is not included in the estimates. Wheat acreage for the countries for which statistics are available is about 191,000,000 acres, which shows a general decrease compared with 1921.

ELECTORS TO DECIDE SCHOOL QUESTION

Bridgeburg, July 26.—The Fort Erie Council has decided to put before the electors on August 15, the question of a \$40,000 grant for additional school construction. In its by-law the council will ask the ratepayers if the latter favor the expenditure of \$40,000 for an addition to the main school. Nothing will be said about the counter-proposition which the council favors, viz., a branch school in the Amalgam section.

U. S. FARM POPULATION.

For the first time the farm population of the United States has been enumerated separately from the rural population as a whole in figures made public by the Census Bureau this week. The farm population on January 1, 1920, numbered 31,814,269, or almost thirty per cent—29.9 per cent, to be precise—of the total population of the country.

BUT IT COST HIM \$500.

(Toronto Telegram.)

Posing as a nice, clean elderly gentleman, and with a face which looked more pious than many you see at church, Max Gold, per his counsel, W. B. Horkins, pleaded guilty to having a still at his home on Lippincott street. But his defence was a galling plea that he had just started up in the business, had taken a "gambler's chance," failed, and made not a cent. With a black bordered handkerchief and a pint of tears, it would have been more terrible than a funeral. At one stage of the proceedings it looked as if the learned counsel might break down under the weight of grief, but Mr. Horkins bears up well under burdens like this, and, brushing away a tear, went bravely through the ordeal.

And to show how simple-hearted a soul was this elderly and pious-looking gentleman, Plainclothesmen Brown and Geaves said they had found a forty-gallon still and thirteen barrels of mash, capable of producing 796 gallons of liquor. The dear old gentleman was operating on a large scale.

A youth of seventeen, believed to have been assisting, was allowed to go to Crown Attorney Armour had no tears to shed over either the dead body of Casar or the living figure of Max Gold.

"While the government is trying to stop the importation of liquor, these men are making it. They ought to be sent back to their own country. We don't want them here," said the crown.

Amid more tears and groans, the pious-looking old law-breaker was fined \$500 and costs or six months, and given an additional six months.

Has Ambitious Plan To Attract Farmers From British Isles

Hon. Manning Doherty Thinks Time Is Ripe for Strong, Continued Effort to People Ontario's Fertile Lands With Best Type of Old Country Agriculturists.

(Toronto Globe) Ontario is to go out after the better type of British agricultural immigrant never before. With a view of discussing and formulating plans for an extended campaign of education and enlightenment in the British Isles, Hon. Manning Doherty, Minister of Agriculture, is calling a conference to be held at his office in the last week in September, which will be attended by Mr. Doherty,

and then be abandoned, but an organized effort to secure the best type of immigrants, and have them selected. Selection Most Important. In the minister's view there were three phases in securing immigration into Ontario, the first and most important being that of selection of the settlers, next transportation, and, third, placing them when they arrive.

"Some of our national problems," he said, "can never be solved—not in our time at least—without a healthy immigration. I mean, for instance, the unemployment problem, the problem of the national debt, and that of the shortage of farm help. In connection with immigration, however, I hold that it is the duty of the government to have a plan which will, as far as possible, eliminate the chances of the immigrant a failure.

HON. MANNING DOHERTY Agent-General Noton of London, England, and representative men and women of Ontario interested in the scheme. Conference in September.

Temporarily confined to a bed at St. Michael's Hospital, Hon. Mr. Doherty outlined yesterday what he had in mind for the province in that connection, and sketched to some extent the proposals with which the conference will deal in September. In effect, the minister's idea is to meet the British government in its new legislation for directing emigration to the British Dominions by which Britain will defray one-third of the transportation costs of such emigrants.

Attract Three Classes. The minister has in mind a scheme to go out after intending British emigrants in three distinct classes, and to attract to Ontario, and the same applies to some extent to the second class. Discussions at the conference will include possibly a proposal of loans to refinance and also for other classes free land grants. With members of the third class the problem is to deal with the matter of proper education and care until they are settled.

Better Opening Here. He felt then, as he feels now, he said, that Canada and Ontario were not capitalizing the tremendous assets this country had to offer these desirable immigrants, because, unquestionably, Canada, in general and Ontario, in particular, held out better prospects and opportunities than any of the other colonies. The minister was unable to say just what factors or factors seem to attract to Canada to the other Dominions, but ventured the opinion that similarity of currency in New Zealand, Australia and South Africa might have something to do with it. He did not think Canadian prohibition laws had anything to do with the matter, and had never heard of anything to that effect from Mr. Noton.

Cannot Place Boys. There are several institutions, he says, which take orphaned children, bring them to the land and give them a good education, and then at the age of 16 do not know just what to do with them. When in England, Mr. Doherty suggested that the institution at South Sutton extend its activities to Canada by building in Ontario two years in Canadian methods, and then let them settle on Ontario land. While the suggestion the minister made to the institution authorities was that they build and equip the institution, he said yesterday that he was not just sure that it would be worth Ontario's while to spend the money, and get these boys out for a sort of post-graduate course in Canadian agriculture before placing them on farms of their own.

"I think the time is ripe now," said the minister, "for a well thought-out, well planned, systematic scheme of immigration for Ontario. I don't mean a campaign that will just last one season

and then be abandoned, but an organized effort to secure the best type of immigrants, and have them selected. Selection Most Important. In the minister's view there were three phases in securing immigration into Ontario, the first and most important being that of selection of the settlers, next transportation, and, third, placing them when they arrive.

There would be no "get-rich-quick" advertising in connection with Ontario's Old Country immigration campaign, said the minister. The British people would be told the plain facts, and the true prospects for success if energy and thrift were applied to Ontario agriculture.

Australia's Big Scheme. Australia already has a scheme under way, Mr. Doherty said, which involved the expenditure of \$15,000,000 in securing the best of English immigration. The big chance for Ontario, he held, was now when the larger English estates were being broken up on account of heavy taxation and the tenants were seeking other pastures.

Authority on Immigration. Mr. Campbell, who has given considerable thought to all matters bearing upon immigration, expressed himself in favor of a new immigration campaign for Canada. "Canada should encourage the immigration of Old Country boys of fifteen or sixteen years old," said Mr. Campbell. "They should be placed upon governmental experimental farms, and at the end of five or six years' training should be sent to work for farmers, under the supervision of the government. For a period of from three to five years their salaries should be placed to their credit in the government bank, and when they arrive at the age of twenty-one, arrangements should be made to secure land, buildings and implements for them, to give them a start in life. The minister of Agriculture for Toronto strongly approves of the scheme which he is anxious to put into operation as soon as possible. Such a scheme would be of tremendous value to Canadian farmers, and also give opportunities to thousands of Old Country boys, who are at present compelled to follow blind alley occupations.

Careful Testing Needed. "The time has come to speak in a frank manner to all immigrants coming to Canada," Campbell. "Before sailing for Canada, all immigrants should be compelled to pass a test in order to ascertain whether they are fitted for the policies or require a more settled community in which to start farming. The eastern provinces have many great things in store for the agriculturist."

HANDS AND ARMS MADE SURPRISINGLY BEAUTIFUL. Girls, Derwillo not only beautifies your complexion, but it is wonderful for the hands and arms. Derwillo comes in three shades, white, flesh and brunette. Since short sleeves are in vogue it is necessary to have your hands and arms look their best. A trial of Derwillo for this purpose will astonish you. It stays on much longer than powder and does not come off on clothing. Sold under money-back guarantee at all toilet counters of department stores and up-to-date druggists.

HAILEYBURY HIGH SCHOOL TO RUN DOUBLE SHIFT. Cobalt, July 26—Double shifts will be the order in the lower forms in the Haileybury High School during the next term. Three additional teachers are to be engaged and the intention is to have half the pupils attend from eight in the morning until noon, and the balance for four hours in the afternoon, commencing at one o'clock. The accommodation of the building is limited and an unusually large influx of new pupils is anticipated from September. The High School serves Cobalt and the townships of Bucke and Coleman, as well as the town of Haileybury.

Be a REAL WOMAN

Sparkling with vivacity and spirits; glowing with vitality; and owning a complexion that any school girl might envy.

It is easy to have a soft velvety skin free from blemish, red cheeks and well formed nose and shoulders. Every one knows how yeast builds health and vitality, clears the skin, fills out the hollow places and puts good firm flesh, just where it is needed. The simplest way to end a corn is instantly. The corn loosens and comes out. Made in two forms—a colorless, clear liquid (one drop does it) and in extra thin plasters. The plasters are made in a special laboratory. Sold by all druggists.

DEADLY EFFECT OF THE STRIKES

(Bradstreet's) Industry is more irregular, with the railways striking, and through it the coal-tie-up, striking, depriving the manufacturing interests, whose need for fuel is weekly becoming more pressing. The refusal of the coal miners' unions to accept arbitration has been a big disappointment to the country, and this feeling has been accentuated by knowledge of the fact that the railway shopmen's strike has been so conducted, by neglecting both loaded and empty cars in transit, as to deprive essential industries of badly needed fuel.

PROHIBITION IN CENTRAL EUROPE. Economic considerations are winning support for prohibition propaganda in many European countries, according to Mr. E. L. G. Hohenenthal, Past Master of the Sons of Temperance, and a member of the committee of the International Prohibition Federation, who returned recently after a tour of Europe, during which he spent five months in investigating conditions there in their relation to the cause which he supports.

DEADLY EFFECT OF THE STRIKES. Industry is more irregular, with the railways striking, and through it the coal-tie-up, striking, depriving the manufacturing interests, whose need for fuel is weekly becoming more pressing. THE U. S. FARMER'S BETTER OUTLOOK

Good Crops Promised and Market Conditions Fairly Good This Year.

(National Bank of Commerce, New York.) Good crops at fair prices make the United States prosperous. Nearly one-half the output of the country are directly dependent upon agriculture and a much larger proportion are indirectly dependent upon it for livelihood. The ability of this country to produce food and other agricultural raw materials has made possible its rapid industrial development and is the basis of its foreign trade.

ENO'S FRUIT SALT

for Sick Headache & Biliousness

These troublesome complaints are generally due to a sluggish liver, and are most frequently experienced by those who lead a sedentary life. A teaspoonful of ENO'S "Fruit Salt" in a glass of cold water will prove soothing and refreshing, and by eliminating harmful waste matter soon restores normality and buoyancy. For your health's sake ask your druggist for ENO'S FRUIT SALT.

MISTAKEN FOR ROBBER AT ENRIGHT'S HOUSE. Nephew Enters Via Roof, Police Are Called and General Excitement Follows.

New York, July 26—Excitement was caused at police headquarters in Brooklyn last Saturday evening when a female voice said to one of the operators on the telephone switchboard: "I wish to report that somebody is breaking into Commissioner Enright's house." The communication was repeated in a few seconds when the information was relayed to the Atlantic Avenue Precinct. All the available patrolmen and detectives were rushed in an automobile patrol wagon to the Commissioner's home at 887 St. Mark's avenue.

KEEP FIT. Never let your system get run down -- keep fit all the time. As long as you keep yourself strong and healthy, it is almost impossible to contract colds and other contagious diseases. Don't wait until your system becomes weakened, but immediately you notice you are hot feeling up to the mark, start fortifying your system against disease by taking Carnol. These remarks apply especially to mental workers, who realize the importance of taking proper care of themselves.

Job-Bel THE WONDER SALVE (Registered). "It's great stuff for piles. I had them, bleeding itching and protruding. The second application stopped the bleeding, and I have had comfort ever since. No, I'm not cured, but it's my own fault. I have left so good I neglect myself. You can refer anyone to me."—A well known citizen's unqualified testimony. Sale at druggists, or Jos. A. Murdoch, 137 Orange street, St. John, N. B. Price 50 cents and \$1.00. Mail orders promptly filled.

Inflamed Eyes. If your eyes are inflamed, weak, tired or overworked, they ache, if picture shows make them feel very sore, get a bottle of Job-Bel. It is a powerful eye medicine, and will cure you in a few days. It is a powerful eye medicine, and will cure you in a few days.

WOMAN TOO WEAK TO WALK. Now Works Nine Hours a Day.—Lydia E. Pinkham's Vegetable Compound Restored Her Strength. Union Village, Vt.—"I was weak and nervous and all run-down. I could not walk across the floor without resting and I had been that way for weeks. I saw your advertisement in the paper and after taking one bottle of Lydia E. Pinkham's Vegetable Compound I felt the good work was being done and I took seven more in a few days. Before I finished it was done and I was able to work nine hours a day in a steam laundry. I cannot say too much in favor of your medicine. I trust all sick and suffering women will take it. It has been two years since I took it and I am strong and well."—Mrs. L. A. GUTMANN, Union Village, Vermont.

MECCA OINTMENT. Burns, Sores, Cuts, Etc. Get Free Sample From Your Druggist.

Cuticura Soap—The Safety Razor—Shaving Soap. Many women get into a weak, nervous, run-down condition because of ill-health, they often have. Such women should take Lydia E. Pinkham's Vegetable Compound at the first sign of trouble. Good health is necessary and this splendid medicine will help you to keep it.

MOTOR CAMPS ATTRACT CARS

Letters to Toronto Publicity Bureau Show They are a Popular and Profitable Investment.

(Toronto Globe.)

Some time ago the Toronto Publicity Bureau sent out fifty-seven letters to representative municipalities in all sections of the United States and Canada containing a questionnaire seeking information on the measure of success which had attended the operation of municipal motor tourist camps.

The questionnaire was explicit. It asked eleven questions directly relating to the operation of the scheme and the facilities afforded tourists, and the answers, in the majority of instances, indicated that the operation of a camp was not attended by any undue difficulties or undesirable features, and that, moreover, the expense of maintenance was negligible when placed beside the additional local trade which resulted therefrom.

Provide Fuel and Light.

A typical answer came from the town of Atoka, Okla., situated on the King of Trails and the Jefferson Highway. It is quoted as follows:

- 1.—How many cars can you accommodate? 100 cars.
2.—Do you provide free? Wood? Yes. Hot water? No. Fuel? Yes, wood. Tables? Yes. Chairs? We provide benches, movable. Light? Yes, electric. Rest house? Yes, with sewerage connection.
3.—What regulations have you found necessary to enact? We require tourists to place trash, cans, etc., in trash cans.
4.—How do you define visiting motorists? Any one travelling in a car who wants to spend a week in our camp.
5.—How long are campers permitted to stay? One week. This means more money spent in the town.
6.—Is your camp area patrolled by local police? Boy Scouts, one boy on duty during June, July and August.
7.—Do you find proximity to residential districts a disadvantage? No. It is better to entertain our guests in our front yard.
8.—Have you a camp caretaker? Twice weekly, general clean-up and all rubbish removed.
9.—Do you permit vendors of commodities to sell in the camp area? No, our benches are furnished by our merchants advertising their wares.
10.—What are the objections to a

complete tourist camps in the country. We figure that \$1 per head is a conservative estimate of the amount each will spend in our camp ground. If we have fifty people each day that means \$50 outside money spent in our town every day.

Local Committee Formed.

Dr. P. E. Doolittle, president of the Canadian Automobile Association, has been appointed chairman of the Special Committee of the Ontario Motor League which was formed this week to investigate the possibilities of the establishment of motor camping sites in the city under municipal supervision.

Up to the present no definite suggestions have been made regarding sites for such camps. There are many sections of the city which would lend themselves admirably to this purpose, and it will be one of the duties of this new committee to investigate and report upon suggested locations.

Has Monetary Value.

Yesterday Dr. Doolittle communicated with Secretary Miller of the Retail Merchants' Association, and it is expected that the association will favor the scheme. In his letter, Dr. Doolittle points out the value and importance of the establishment of a camping area to the city, and, drawing from her personal experience in the western provinces, brings to notice the monetary value of the great volume of additional tourist traffic thus created.

SCHOOLS OF EAST ST. JOHN IMPROVED

The annual meeting of the East St. John and Little River schools, district 8, of the parish of Simonds, was held last night in the new school at East St. John with the chairman, W. F. Burditt presiding and P. E. Graves as secretary.

The secretary reported a balance on hand of \$16,200 with all accounts paid. The estimates for the coming year amounted to \$11,173 which was about the same as the estimates for the last year but it was expected that the school rate would be slightly lower as there had been an increase in valuation.

THE K. OF C. HAVE A RIVER OUTING

About two hundred people enjoyed a wonderful outing on the St. John river yesterday afternoon and evening, when the Knights of Columbus held their annual picnic at Crystal beach. A large number of pleasure-seekers went up the river at 1:30 on the steamer Hampton and this was augmented by those who went on the D. J. Purdy at 5 o'clock.

ST. BARNABAS CHURCH PICNIC

The best picnic in the history of St. Barnabas' church was held on the grounds of L. R. Ross yesterday. An efficient committee and fair weather together with the kindly act of Mr. Ross made the day a huge success from every standpoint.

Try at 3 p.m.

We'll say you're floored—but it's not heat; it's lack of energy, and you can get that back.

Vital men resist the heat. Don't let it make you lag.

One package of Little Sun-Maids brings 145 calories of energizing nutriment, in practically predigested form. No tax on digestion, therefore doesn't heat the blood. Yet you feel the pep almost immediately.

Supplies fatigue-resisting food-iron also.

You can't be cool always, perhaps, but you can be re-vitalized. Try at 3 P.M.—the "low vitality hour"—and see what raisins will do.

motor camp, if any? None; they bring loads of dollars into the town. Possible in Toronto.

11.—Do you think a camp or camps can be successfully operated in a city the size of Toronto, with more than a half million population? Yes.

In this case the president of the local Chamber of Commerce, to whom the questionnaire was referred, added further paragraphs to amplify the description of the municipal camp. Army regulation style cook ovens have been provided and separate buildings house shower baths and toilets for men and women.

men. Clear drinking water is always available; a fine shade, swings and sliding boards are provided for the benefit of children who may be among the visitors, and a shelter house, 20 x 30 feet, is provided for tourists who have not equipped themselves with tents and have trusted to fine weather.

Touching on the commercial aspect of the situation, S. W. Butler, the president of the Chamber of Commerce, in an accompanying letter says: "Our town is only 2,500 population, but we have one of the nicest and most

Dish Towels and Aprons

Let Them Soak Clean in Rinso.

THEY should be CLEAN, shouldn't they, all those kitchen things—aprons, towels, dusters, wash cloths etc.? But there are so many and you are so tired! Alright, let Rinso wash them. It will—every stain and speck of dirt will rinse away after a good soaking in the cleansing Rinso suds.

Rinso is the new modern method for the family wash—but use it properly—do not pour the Rinso direct from package to tub—make the Rinso solution first as per directions on the package. Then it guarantees wonderful results.

IF YOU USE A WASHING MACHINE

Soak your clothes in the Rinso suds as usual—for one hour, two hours, overnight, or as long as convenient, add more Rinso solution and work the machine. Rinse thoroughly and dry—you will have a clean, sweet, snow-white wash.

At All Grocers Rinso Made by the makers of LUX

In the open or in the office, this food helps

EXPLORERS and hunters have taken Grape-Nuts as one of their principal foods—because Grape-Nuts contains much nourishment in small bulk.

Office workers find that a breakfast or lunch of Grape-Nuts is much better for them than a heavy, starchy meal—because Grape-Nuts digests easily and wholesomely.

The richness and crispness of Grape-Nuts, that splendid wheat-and-barley food, have a wonderful charm for the taste.

An order to your grocer today will bring this splendid food to you. Ready to eat from the package—add a little cream or milk in the dish.

MICA NOW PUT TO MANY USES

Big Demand for One of the Oddest of Natural Substances—Of Vital Importance to Electrical Industry.

Washington, July 26.—Do you re- member how you used to sit before the old barrel stove in the parlor, or before that "new fangled" latrobe, watching the glow of the cheery winter fire through the "singlass" windows? You may think that since the basement furnace has generally supplanted the trouble- some pecky things the producers of "singlass" must have long since gone bankrupt; but there's more demand for it now than ever before, says the United States Bureau of Mines.

Anyway, it was not singlass at all in the front of the stove. Had it been, it would have lasted only as long as paper, for singlass is made of the air bladders of certain fish and is a soluble combus- tible substance. What really was in the stove windows was mica, one of the oddest of natural substances, and which is now one of the greatest boons in the electrical industry as a perfect insulator. So important is mica in electrical goods,

As a heat-resisting, transparent me- dium, sheet mica is still used in furnace

It is declared, that many of the larger electrical supply manufacturing com- panies own and operate their own mica mines.

Mica, says the bureau, includes a group of several minerals characterized by a perfect basal cleavage by virtue of which they may be split into ex- ceedingly thin plates.

How often, as a youngster, did you make wonderful finds of "gold" or "sil- ver" among the rock deposits near the homestead? Of course, the dreams of wealth vanished when you found the silvery or golden flakes were only mica. Such mica has no commercial value, it is only valuable when it occurs in large deposits where it appears in "books" fairly free from defects, varying in width and length from a few inches to feet and up to six inches or more in thickness.

Of the several varieties of the min- eral only two are of commercial value, the "muscovite" or white mica, and the "phlogopite" or amber. India, Canada, and the United States are the chief pro- ducers.

Mica possesses a combination of special qualities which is found in no other substance, consequently no satisfactory substitute has been found. Chief among these qualities are elasticity, toughness, flexibility, transparency, ability to with- stand excessive heat and sudden changes of temperature, high dielectric strength, cleavability, and resistance to decom- position.

Use in Electricity.

An important use of electrical mica is for interleafing between the copper seg- ments of commutators. Thin films are used in vast numbers in condensers for magnetos, and in wireless apparatus. As sheets in greatly diversified shapes, or as washers and tubes, mica is used ex- tensively as an insulator in dynamos and in various appliances, in fuse boxes, sockets, insulators, electric heaters, flat-irons, telephones, etc.

As a heat-resisting, transparent me- dium, sheet mica is still used in furnace

for ornamentation of pottery, lamps, curtains, cloth, and in India in decorat- ing the temples.

As Dressing for Wounds.

An unusual use for the ground pro- duct, which, says the Bureau of Mines, fortunately has not extended outside India," is in medicinal preparations and wound dressings.

The recent development of wide uses for the ground product has opened a wide field for utilization of waste and scraps, and saved the industry much ex- pense. The more impure and coarser types are used as a coating to prevent pitting and finer grades are used in paint, ornamental tile, and concrete. A mix- ture of ground mica and powdered aluminum is said to make a rust-pre- venting paint of good quality.

On account of its heat-resisting qual- ity it is used extensively in railroad car- rials, in pipe and boiler cover- ings, in fireproof paints, and even in rub- ber tires. Ground mica is also used in annealing steel, as an absorbent, for nitroglycerin in the manufacture of cer- tain explosives, as a component in roof- ing, as a filler in rubber and other pro- ducts, in calico printing and as tire powder.

The purest and finest powder is used for wall paper decorations, and is also in- ducant for wood bearings, and mixed with oil as a lubricant for metal bearings. It is also used in the manufacture of mica cir- cular sheets of high-grade muscovite are used extensively in phonographs as sound-producing devices. Such sheets are also used in other sound-detecting devices such as the submarine detectors.

The brilliancy of its reflecting sur- faces gives the mineral a wide use as a decoration, notably as Christmas tree "snow." Coarse ground mica is also used

NEWS NOTES ABOUT PROMINENT BAPTISTS

(Maritime Baptist)

Rev. J. A. Swetnam, pastor of the Waterloo Street Baptist church, St. John, has been granted five weeks vacation during August and September. The church is paying his expenses while at the convention. During his absence Rev. P. Cosman, who is attending Yale University, will supply the pulpit for the month of August. Rev. Mr. Cosman is well known in the city and Waterloo street church considers themselves fortunate in securing him to fill the pulpit.

Rev. H. Baker, pastor of the Grand Avenue Baptist church, New Haven, Conn., has been pleased in mentioning Rev. Gordon H. Baker, pastor of the First Baptist church, Schenectady, N. Y., who passed through St. John accompanied by his two boys, having motored all the way from New York State en route to Nova Scotia, where they will spend the vacation season.

Rev. E. A. Robertson has resigned the pastorate of the churches in Caledonia and Kempt, Queens Co., N. S., after a pastorate of two years.

The Canadian Hunter will load at Mediterranean ports for Canada in the first part of September.
The Wekika, Captain Howard, finished loading refined sugar last night and sailed this morning for Cardiff.
The Tyrhenia docked in Montreal early yesterday morning.

MONCTON PERSONALS.

(Transcript, Tuesday)

Mrs. Charles Lea is spending a short time at her former home in St. John.
J. H. Callaghan, St. John, was a visitor in the city yesterday, en route from Hillsboro to St. John.
Mr. and Mrs. Jeremiah Wall and daughters Josephine, Loretta and Florence, left today for St. John, after spending a week, guests of Mr. and Mrs. T. O. Jenner.
Wm. J. O'Brien left on Monday evening for St. John, having received word that his brother is seriously ill in that city.
Miss Emma McAllister of Winnipeg, is spending a few days in the city, the guest of her brother, W. C. McAllister.
Mr. and Mrs. Frank Carson left for St. John this afternoon for St. John to attend the Knights of Pythias Doyles meetings.
Dr. Agnes Fraser, of Lawrence, Mass., and Miss Dorothy Fraser, R. N., of Newtow, Mass., married to the city and are the guests of their parents, Mr. and Mrs. J. R. Fraser, Lewisville. They were met at St. Stephen by their brother, Ray Fraser.

AMHERST PERSONALS.

(Amherst News)

H. J. Lough, M. P., is reported to be rapidly improving from his attack of pleura-pneumonia.
Miss Margaret Patton of St. John arrived in town today and left for Tidnish Bridge to visit her sister, Mrs. A. E. Johnston.
Herbert Kirk of Sussex arrived in on Saturday night and left for Amherst Shore to join Mrs. Kirk, who is visiting her sister, Mrs. A. Leon Moss, at her summer cottage.
Rev. W. A. and Mrs. Wood and family passed through Amherst on Friday en route to Stanley, N. B., where Mr. Wood has accepted a call to St. Peter's Presbyterian church. They will be the guests of Mrs. Wood's parents, Mr. and Mrs. F. C. DeWolfe, Port Howe, for a few days, and then proceed to Stanley, accompanied by Miss Myrtle DeWolfe and Mrs. Wood's mother.
Miss Gladys Burns of this city is visiting relatives in Sydney.
Miss Margaret Bowen and Miss Mary McManus left this morning on their vacation which they will spend at Halifax.
Fred Nesbitt, a great war veteran formerly of this city, is now located in the Olenagan Valley, B. C., where he is conducting a poultry and fruit farm. Mrs. Nesbitt is a daughter of Thomas O'Leary of New Maryland.
Gleaner.—Mrs. J. B. Hawthorn was

called to St. John this morning by the serious illness of her sister, Mrs. J. M. Roberts. She was accompanied by Miss Marion Hawthorn, daughter of Mr. and Mrs. J. H. Hawthorn.
Mrs. Henry Pickard of Marysville is visiting her daughter, Mrs. Kenneth Black, of St. John and Mrs. Randolph Titus is visiting friends at Charlott. Mrs. Jenny Bliss, Miss Agnes Bliss and Miss Alice Gibson of Marysville, left this morning for St. John on a short visit.

CHILD MURDER, A SECRET FOR YEARS REVEALED

North Attleboro, Mass., July 25—Workmen tearing down a tenement house here yesterday found the skeleton of an infant wrapped in rags and hidden in a box in the attic.
Medical examiner Charles Holden said that the child had been about two months old, and had been dead probably five years. A corset string was found knotted about the neck.

TRAIN STRIKES AN AUTO; TWO KILLED

Montreal, July 26—Telephone Gauthier, forty, of St. Dorothée, and Jos Payette, fifteen, whose parents live at 800 Wolfe street, Montreal, were killed, and Lionel Gauthier, brother of the dead man, was injured seriously when a motor truck in which they were driving was struck by a train at a level crossing at Cap St. Martin, near here yesterday.
Mrs. J. B. Denis, fifty-two, of Ste Anne de Bellevue, was killed by the Ottawa express, west-bound, when she stepped across the track opposite Valois station, and was struck by the engine.

OLYMPIC DISABLED.

London, July 26—The sailing of the White Star liner Olympic for New York August 3 has been cancelled. Her stern post is cracked. Those who had booked passage will be transferred to the Homeric.

STROLLERS

THE CANADIAN HENLEY THIS WEEK

Nineteen Years Since First Championships There

The Records of the Course at St. Catharines and Interesting Facts About Competition—Hilton Belyea There to Defend Title.

St. Catharines, Ont., July 26.—(Canadian Press.)—For two days of this week—Friday and Saturday—this city will be invaded by oarsmen from many parts of the country, and from the United States, who will gather here to compete in the Canadian Amateur Association of Oarsmen regatta, which the Canadian championships are decided, over the "Royal Canadian Henley Course."

It is nineteen years ago since the first "C. A. A. O." championships were first rowed off here, the regatta previous to 1903 having been rowed over courses in various parts of the country, with the first regatta being held in Toronto in 1880. For several years the events were held at Hamilton, Lachine, Ottawa and Toronto, rotating up to 1922, when for three successive years Hamilton was the place chosen for the regatta. During the period of 1895-1902 it was held in Brockville for four years, once in Ottawa and twice in Toronto. In 1903 it was held at St. Catharines for the first time and has, with the exception of the war years, been held here continuously since then.

The course, previous to 1903, was over a mile and a half straightaway, but in that year the distance was changed to a mile and 550 yards straightaway. In 1907 another change in the distance was made, when it was made a mile and a half with a turn.

According to the rules of this regatta, all clubs holding membership in the "C. A. A. O.," which have been organized for two months previous to the holding of the regatta, or clubs whose amateur status is recognized by the governing body in the country to which it belongs, are eligible to compete in the blue ribbon events at the Canadian Henley.

The events. The races for each regatta consist of single scull, senior and junior; primary sculler, for 140-lb. scullers who have never won a sculling race; special sculler for contestants who shall not weigh over 140 lbs. at water-side, and who have never won an intermediate or senior sculling race; double scull shells, senior and junior; four-oared shells, maidens (140 lbs.); four-oared shells, special (140 lbs.); eight-oared shells, primary, special, senior and junior; also, at the discretion of the regatta committee, a consolation eight-oared race for being contestants of the junior clubs may be added to the programme.

The challenge cup for senior single sculls, the junior single sculls, the challenge cup for senior double sculls, the challenge cup for senior four oars and the junior four oars are the oldest of the events that are on the regatta's programme. With the exception of the war years, they have been competed for since 1880. The challenge cup for pairs was also instituted in 1880, but was dropped from the programme in 1906 after a most interesting career. Crews from the United States won the latter race on eleven occasions, while Toronto clubs won the remaining races for that event.

To Joseph Laing of the Grand Trunk R. C. of Montreal, a star of the early '90's, and Robert Dibble of the Don Rowing Club, Toronto, go the honor of having won the senior single sculls the greatest number of times, each having won the blue ribbon event in five consecutive years. Laing scored his string of victories from 1880 to 1884, winning at Hamilton, Lachine, Ottawa and twice in Toronto, while Dibble's victories were all won over the course here in the years 1912-1913-14-15, prior to his enlisting for service overseas, and again in 1920 on his return from active service.

Laing holds the record for the mile and a half straightaway course, his time of seven minutes and fifty-six seconds at Ottawa in 1883 being the fastest time for the event. In 1903 Lou Scholes of Toronto, rowing under the Toronto R. C. colors, won over the mile and 550 yards straightaway course here in eight minutes and 3 1-5 seconds. The best time for the present course was made by Bob Dibble in 1920, when he won in eight minutes and twenty-eight seconds. Hilton Belyea of St. John, who won the championship last year, rowed over the course in 8:40 and two-fifths.

The records for the senior double sculls show this race to be a very open one, and one in which clubs from the United States have met with more success than any other event on the programme. Pairs from Portland, Me., were successful in 1882-83; the Metropolitan R. C. of New York won it in 1886; the Celtic R. C., Chicago, in 1891; the Vesper Club of Philadelphia in 1893, 1894, and 1895; Worcester B. C. in 1898, Delaware B. C., Chicago, in 1899; Crescent B. C., Philadelphia, in 1906; Harlem B. C., New York, 1909, and the Vesper B. C., Philadelphia, last year. The Winnipeg R. C.

Put one on--the pain is gone!

pair, A. C. Fox and J. Turnbull rowed over the course alone in 1887, and with the exception of 1881, when a pair from the Nautilus R. C. of Hamilton were the winners, crews from Toronto clubs have won this race on all other occasions. The record for the race is 7 minutes 28 1-5 seconds, made by J. Costello and J. Kelly of the Vesper B. C., Philadelphia, last year.

The senior eight oars was established in 1896, being rowed for the first time over the mile and a half course at Toronto when the Argonauts won in 8:01. After the first year there were no contests for the eights until 1903. From 1903 until 1908, when a crew from the Winnipeg R. C. were returned the winners, it had been a clean sweep for the Argonauts. Detroit B. C. won the eights in 1909 and the Ottawa R. C. in the following year. Argonauts won in 1911 and 1912; Winnipeg R. C. in 1913, and the Nautilus R. C. of Hamilton in 1914 and 1915. In 1920 a crew from the University of Toronto, but rowing under the Argonaut colors, were successful, while last year the University of Toronto Rowing Club made up of university graduates and under-graduates won the big event. The fastest time for the course was made by the Argonauts in 1914, their time being 6:19 2-5.

The challenge cup for senior four oars, which was won by the Vesper Boat Club last year, has had an interesting career. In the early days, up to 1896, easterners won the Senior Fours, the Chatham R. C. and the Lachine R. C. winning it once each, the Nautilus R. C. of Hamilton three times and Toronto clubs on the other occasions. In 1896 a Winnipeg four was victorious, repeating in 1906, 1906, 1906, and 1913. The Detroit B. C. won in 1899, 1900; Ottawa in 1909, 1910 and 1912. The remaining years it was won by Toronto Clubs, with the Argonauts winning four successive years—1901, 2, 3, 4.

The title holders, with event, club, and time, as decided a year ago, are: Senior single sculls, H. A. Belyea, St. John R. C., 8:40 2-5. Junior single sculls, E. McGuire, Mutual R. C., 10:18 3-5. Senior double sculls, J. Costello and J. Kelly, Vesper B. C., 7:28 1-5. Junior double sculls, H. F. Moran and F. Walter, Don R. C., Toronto, 9:23 1-5. Senior four oars, Vesper B. C., Philadelphia, 7:31 4-5. Junior four oars, Argonaut R. C., Toronto, 9:39 2-5. Senior eight oars, University of Toronto R. C., 8:41 1-5. Junior eight oars, University of Toronto R. C., 7:11 2-5. Single sculls (140 lbs.), H. A. Clark, Detroit B. C., 10:42 2-5. Single sculls (maiden), R. J. Clench, St. Catharines, 10:52 3-5. Junior four oars (maiden), Don R. C., Toronto, 9:24 1-5. Senior four oars (140 lbs.), Don R. C., Toronto, no time. Primary eights (140 lbs.), Detroit B. C., 7:19 2-5. Senior eights (140 lbs.), Lachine R. C., 7:13.

REPLY TO GOMPERS. New York Times: The president of the American Federation of Labor criticizes the proclamation of the president of the United States on the ground that, as he says, it "overlooks fundamentals." But that is exactly what it did not overlook. Mr. Harding clearly saw the fundamentals and stated them with precision. Law must prevail over force. Reason must get the better of self-will. The life of the entire nation is to have first place over the advantage of any part of it. Government must be ready to do its full duty in emergencies affecting the whole country. If these things are not fundamentals, what could be?

THE WEEKLY HIKE OF THE INDOOR-OUTDOOR Club of the Y. W. C. A. was held last evening to Seaside Park under the direction of Miss C. Littlefield. About fifteen girls participated. There is only one more outing before Miss Littlefield leaves at the end of the month.

The annual picnic of St. Barnabas' Sunday school, which was held yesterday on the grounds of L. R. Ross at Sandy Point, was a success in every respect. Donations of prizes, ice cream and other things were received from Alexander Peacock, Albert Peacock, Mrs. Ferguson, Mrs. Barbour and Mr. Ross.

Philip Conkey, three-year-old son of Mr. and Mrs. Fred Conkey, 140 Britain street, while playing on Long Wharf last night, slipped through a hole into the water. Mr. Jenkinson, mate of the Kanaga, climbed down after him and managed to pull him to the surface of the wharf. He was taken to the hospital and is reported to be resting well.

The case against Louis Reid, who was charged with breaking and entering the offices of the Ready Beverages Co., Fair-

ville, and stealing a quantity of goods, including personal property of the committee present were Alexander Wilson, George P. Hennessy, J. D. P. Lewin, Mrs. R. O'Brien, Mrs. W. Edmond Raymond, Dr. H. S. Bridges and A. Gordon Leavitt, secretary.

The report of F. S. Rutherford on the vocational education needs of the industrial district of St. John was unanimously approved by the St. John vocational committee at a meeting held yesterday in the office of the school trustees, with Chief Justice H. A. McKeown

Stephen, extended the welcome on behalf of Adria Temple, No. 167. Replies were given by Walter Como and R. H. Bradford, of the Boston delegation. An informal reception and dance was enjoyed following the speeches.

Punch Manager Dead. Hamilton, Ont., July 26.—Roy Vernon Somerville, business manager of Punch, is dead in London, England. He was born in Dundas and was a son of James Somerville, M. P., proprietor of the Dundas Banner.

POPE URGES RUSSIAN RELIEF, MAKES FURTHER LARGE CONTRIBUTION. Rome, July 26.—Pope Pius has addressed an apostolic letter to the patriarchs, archbishops and bishops, urging renewed efforts to aid Russian famine sufferers. The letter says that the Holy See will make a further contribution of 2,500,000 lire for relief work.

LOCAL NEWS

POLICE COURT.
Three men charged with drunkenness were fined \$8 or two months in jail in the police court this morning.

BLUE ROCKS VICTORS.
The Blue Rocks defeated the Imperials on the Queen Square diamond this morning, 5 to 3. The batteries were: For the winners, Hammond and Stewart; for the losers, Merryweather and Lee.

ON WESTFIELD LINKS
Ladies' foursomes held on the Westfield Golf and Country Club yesterday afternoon were won by Mrs. Harold Schofield and Mrs. A. C. Carr to whom the prize was awarded. About thirty-five ladies participated.

NOW HAS LICENSE
George Craft, who was before the court on Saturday, charged with operating a motor truck without a license and was given until Wednesday to get one, appeared in court this morning and exhibited his license. The report was made by City License Inspector Robert Harris.

VERY PLEASANT TIME.
The members of the Last Car Club spent happy hours last evening at the hospitable home of Mr. and Mrs. S. Cadell, Riverview, Pokok, at the weekly meeting. In the progressive wip play Mr. Crane and Miss Dow were winners, and consolation prizes went to Mr. Olton and Mrs. Horsman. Dainty refreshments were served by the hostess, and in all it was an evening greatly enjoyed.

QUESTION OF RULE OF ROAD
Barney Aaron was before the magistrate this morning charged with making a wrong turn at the south side of King square yesterday afternoon. The report was made by Sergeant Spiney. Aaron explained that he belonged to Toronto and was used to turning to the right. At the time he had been reported he made the wrong turn to avoid the Junior Chautauqua parade. Sergeant Spiney said the man's statement was correct and that he had not endangered any lives by making the turn he did. The magistrate accepted the explanation and Aaron was allowed to go.

PARKING CASES
Sitting Magistrate Henderson said this morning that the law regarding parking of automobiles in the city is being observed. Some had been reported and their cases taken up but it was felt that where parking had been so long allowed in certain places it was not fair to begin to enforce the law without fair warning to all. Four people had been reported for parking in Market square and one for parking in Prince William street, all on Monday. Those reported had explained that they were not yet familiar with the new enforcement and their explanations had been accepted. All those reported for violations on Monday were excused but the law would be enforced from that date. The reports were made by Sergeants Baxter and Spiney and Police-man Young.

HYDRO MATTERS
Report Says Engineer Places the Distribution Cost Not Above \$600,000—Mayor's Report Delayed.

The report of Engineer Gordon Kribs on the cost of hydro distribution in St. John is in the hands of Hon. Dr. E. A. Smith of the N. B. Power Commission. A copy, it was expected, would be handed to Mayor McLellan today. It is reported that Mr. Kribs finds that the distribution system is not at all about \$600,000, a sum considerably below the original figures.

Mayor H. R. McLellan announced this morning that he very much regretted to have to delay in making his report on hydro. He said the report would not be available tomorrow, as he had confidently expected it would because a portion of information he desired would not be on hand until Friday night or Saturday morning. He said he knew it would be disappointing, and he regretted it very much, but would have it ready to present next Monday morning.

UTILITIES BOARD

Telephone Matters Before the Commission at a Session Here.

At a meeting of the Public Utilities Commission held this morning, a letter was received from Dr. Walter of the Cambridge Rural Telephone Company asking for a postponement for one month of a hearing in that case as there seemed to be no possibility of an agreement between the companies concerned in that case being reached at present. H. M. Hopper, appearing for the Cambridge Telephone Company, made the same representations. The application will be heard on August 28.

VISITORS HAVE NICE DAY ON THE RIVER

A large number of the local members of Adria Temple, No. 187, D. O. K. K., and their ladies, visiting members of Abou Ben Adhem Temple, No. 143, of Boston, and Dokays and their friends from outside points, went on board the D. J. Purdy for Fredericton this morning. The steamer was specially decorated and in honor of the Boston delegation the Stars and Stripes was flown alongside the Union Jack. The Purdy was to make only one stop on her way up the river, at The Cedars. The fine day should ensure an enjoyable trip for all on board her.

MAY CUT DOWN LENGTH OF TRIAL

Five Witnesses Heard in the Paris Case This Morning

Walter Humphrey Repeats His Accusations—West Side Residents Say They are Positive Accused was in the City on August 2.

From present indications the time required in taking the evidence in the fourth trial of John Paris, accused of the murder of Sadie McAuley, will be much less than at the previous three trials. This morning six witnesses, including Walter Humphrey, who is regarded as the principal witness for the prosecution, gave testimony. The others were Ethel Byers, Laura Gerow, Alfred Byers, Ernest Campbell and John McDonald. No evidence which had not hitherto been disclosed was presented.

Mrs. Ethel Byers, of Fairville, wife of Alfred M. Byers told of visiting her daughter, Mrs. Laura Gerow, on the evening of August 2 last, when she, her daughter, and her sister-in-law, Mrs. Craft, saw the Cushing mill burning. She said she saw Paris there. She told of her husband coming up on a wheel and speaking to Paris.

Cross-examined by Mr. Vernon the witness said she visited her daughter frequently. Paris, she said, had a small mustache. To the judge, she said, she has seen Paris many times before August 2. Mrs. Laura Gerow, wife of Joseph Gerow, 181 Water street, west, said that in August last she was living next door to Paris' house. On the night of the Cushing Mill fire she, said she, saw John Paris.

Alfred M. Byers, Harding street, Fairville, corroborated the evidence given by his wife. After viewing the Cushing Mill fire he said, he went to his sister, Mrs. Craft's, Water street, Carleton, where he saw Paris. There he saw also his wife and Chester Ford. Paris he said, had a small mustache. Ernest Campbell, laborer, 45 Duke street, West St. John, said that in August last he lived at 133 Water street, west, two houses from where Paris lived. He knew both Paris and Humphrey. He remembered the Cushing Mill fire on August 2, and the British fish shed fire early on the morning of August 3. On the morning of August 3, he said, he saw both Humphrey and Paris. He put a cloth on a boll on Monday. The witness said he had never seen the face of a child. The arm looked inflamed. He said the sore area would be about the size of a new nickel. Paris and Humphrey then went towards the river. About 2 o'clock Humphrey returned alone.

To Mr. Vernon, the witness said he was intimate with Humphrey and had talked over the murder with him before the case came up. He said Paris made no move to hide the boll on his arm.

Walter Humphrey, 133 Prince street, west, said he knew Paris since May, 1921. On the morning of August 2, he said, he rowed Paris from Carleton to the St. John side of the river. Paris wore a soft hat, brown coat, khaki riding breeches with leather strapings and tan shoes. The Cushing Mill fire was on the same evening and early the next morning the British fish shed, of which his brother, Stanley Humphrey had a lease, was burned.

The witness corroborated the evidence given by Ernest Campbell. He thought the boll was on Paris' right arm. He said Paris asked him to help bury "that kid" in the park while he was rowing the accused across the river on August 3. He did not see Paris again until August 5 or 6, when detectives were seen in Carleton.

The witness said he later made certain statements to John saw Detective Power. Sometime around the first of August, the witness said, Paris asked McDonald for a loan of \$2, saying he had come home that day from Truro.

To Mr. Vernon, he said, he had stolen several times, but had never been convicted. He said he had not stolen since before he met Paris.

The witness said he had formerly lived with Walter Cook and that he had had a quarrel with Cook over Cook's wife. He could not remember having at a previous trial sworn that he did not see Paris and McDonald together on August 1.

John McDonald, South Bay, said that in August last he lived at 79 Tower street west. He knew both Paris and Humphrey. He told of meeting Paris and Humphrey on the evening of August 1, when Paris tried to borrow \$2. Paris said he had just come back from Truro. On August 2 while at work at the pulp mill he saw a man climbing the rocks on the opposite side of the river.

After the body of Sadie McAuley had been found, Walter Humphrey had made statements to the witness which caused him to repeat them to Detective Power. Cross-examined by Mr. Vernon, the witness said he knew Humphrey since a year ago last April. The witness said that he had been arrested when some lead pipe was found in his garage, but was acquitted.

John Best took the stand as court was adjourned until 2:30 o'clock.

JACK PICKFORD TO BE MARRIED JULY 30
Los Angeles, July 26.—The date of the wedding of Marilyn N. Miller of the stage to Jack Pickford of the screen has been advanced from August 1 to July 30. This announcement was made by Pickford's mother. The wedding will be at the home of Mr. and Mrs. Douglas Fairbanks in Beverly Hills.

The Shrine of Loveliness

There are places in this world even for gems, flowers and birds whose only use is beauty.

Somewhere in every home, no matter how modest, there should be at least one object of rare loveliness.

Whilst there is hardly a piece of furniture which does not combine beauty and utility, we claim there is a need for things which err on the side of beauty.

This thought comes to us now, when new homes are being outfitted and occupied for the first time. Why not set up in the new house a shrine of loveliness?

Look at your home critically and discern where a decorative piece would lift the tone of the whole house.

After that it will be a simple matter to find just what you want in our large stock of quaint and decorative pieces.

Always pleased to have you look around.
