The success of this store in ready tailored overcoats has been achieved by avoiding cut and dried selections. We have never been in the rut of considering overcoats solely from the view of a size range. Our aim is to give a man individuality instead of taking it away from him; and whoever examines our new Spring Overcoat Selections will find them characterized by that intensely personal note that has given this store its reputation.

ONE LAST APPEAL FOR GIRL DEPORTEE

"Death Sentence" to Send Her Back to Europe, Asserts Counsel.

NEW YORK, March 16.—Esther Kaplan, 22 years old, of 249 Monroe street, who has been living in the United States for 12 years with her father and mother and two brothers, all American citizens, is facing deportation on the ground that she is feeble-minded. Meanwhile friends and counsel are planning to make a last appeal for the unfortunate girl to Secretary of Labor Davis.

Either lost her last chance to establish her legal right to stay in America two weeks ago when the United States Supreme Court ruled against her. Her cause was argued before the court by James Marshall, son of Louis Marshall. The younger Mr. Marshall and Congressman Dickstein have worked hard to save the girl from deportation, because she has no relatives to whom she can go for protection if the United States sends her back to the Ukraine. The Ukrainians do not want Esther, nor do the Russians.

"The girl will virtually be sent to her death if she is deported," said Mr. Marshall, Sr. "Under the statute the Secretary of Labor has absolute power in her case and can allow her to remain here. Hers is one of the most pathetic cases that ever came before the Supreme Court."

The case of Esther is particularly distressing to her mother, Mrs. Anna Kaplan, who said that her hair had turned gray by worry. Samuel Kaplan, 56, her father, and her brothers, Abraham, 24, and Samuel, Jr., 16, are all able to support the young woman, they say. Congressman Dickstein and Mr. Marshall plan to have the girl and her mother make a last appeal to the Secretary of Labor.

\$6,000 FOR AN EYE
Schoolboy Recovers Damages From Fulham Borough Council in England.

LONDON, March 16.—Damages of \$6,000 were recovered by a schoolboy, John Blake, in the King's Bench Division against Fulham Borough Council for injury to his eye, whereby he practically lost his sight. His father was awarded \$300 for expenses incurred.

Blake, the son of a laborer employed by Fulham Council, when going home from school in November, 1923, (according to the story told to see some of the Council's workmen break up a road with wedges and sledge hammer. He was struck in the left eye by a splinter of stone, and the eye had to be removed. His other eye was, it was said, in a weak state, so that he was practically blind.

The Borough Council, it was contended, had been negligent in the erecting of a screen round the spot to protect the public from flying chips.

WHOOPIING COUGH IS A VERY SERIOUS TROUBLE HER 5 CHILDREN HAD IT
Mrs. S. H. Craig, R.R. No. 1, Palmerton, Ont., writes:—"Two years ago, last winter, our five children had very severe attacks of whooping cough. We were recommended, by our druggist, to use

DR. WOOD'S NORWAY PINE SYRUP

which we did with the greatest of success. It cleared out the throat and bronchial tubes, and loosened the phlegm so that they were able to cough it up, and in no time I had quenched the "whooping."

"Dr. Wood's" is put up only by The T. Millburn Co., Limited, and has been on the market for the past 33 years. Be sure and get the genuine.

Why Suffer? Wear Glasses
Headaches are out of date. One is not supposed to suffer headaches with the patience and resignation of a Job. Headaches can be cured to stay cured.
The chances are nineteen to one that your headache trouble is the way your eyes take of telling you something is wrong.
Perhaps your eyes have shown their strain in other ways. They may smart, twitch or burn. The print may dance before your eyes, or blur—especially in reading at night.
Perhaps none of these symptoms have bothered you as yet. But it is wise to have your eyes reported upon—if for no other reason than that four in five need Glasses—often without knowing it.

Healthy Children

WHAT a joy there is in the laughter of children. How quickly that laughter dies when constipation—that great enemy of healthy bodies—coats the tongue and dulls the appetite of your boy or girl. Mothers often fail to recognize in the bad breath, the coated tongue and fretfulness, the danger of disease that lurks like a shadow ready to throw its black mantle over the loved one.
DR. CALDWELL'S LAXATIVE SYRUP PEPSIN relieves the cause—constipation—and should be in every home. You will be astonished how quickly this great family remedy will put laughter back in the eyes of your child.
It is a safe, mild laxative especially suitable for children, pleasant to take, with no cramping after effects. It contains no narcotics or mercurials.

SAINT JOHN, N. B., MARCH 16, 1925.

"A STERN NECESSITY."

In the course of an article in which the Maritime Provinces and the West are subjected to some scolding because of their demands for better conditions and for national policies designed to bring such conditions about, Toronto Saturday Night arrives, or is driven, to the conclusion that utilization of the Maritime winter ports in preference to Portland is "a stern necessity."

cup might stand always for an ideal to be striven for. It is the ideal of sportsmanship and fair play in all games. There is no real reason why hockey cannot be the cleanest of games. It is true that the liability of accidents is high, but this is true of other games where unfair methods are unknown. The public wants to see clean games, and the officials of the League have repeatedly expressed their determination to enforce them.

Why should the policy of the United States use more narcotics than those of any other nation in the world? The charge that they are entitled to this evil distinction is made fully by Mr. Frederick A. Wallis in the Current History Magazine.

Before the United States entered the war, while its ports were closed against us by this country, the Maritime ports were recognized as of incalculable value to Canada and to the Empire.

While it wastes some time in re-proving the Maritime Provinces, and while to some extent it obviously misunderstands the Maritime movement, Saturday Night at least does some service in pointing out how vital the Maritime ports are to Canada and in broadcasting its conclusion that they must be given the Canadian traffic which is their due.

THE LADY BYNG CUP.

Hockey is altogether too fine a game to be marred by the somewhat savage tactics displayed by players in too many parts of Canada during the present season. Hockey players are full-blooded athletes and in the heat of the contest evidence of deliberate rough playing on its side naturally leads to quick and often dangerous reprisal on other players of this sort are bound to occur from time to time in games calling for courage and incessant activity at high tension, but in hockey and in some other forms of athletic competition, rough play and fouling have alarmed lovers of clean sport, who remember too well the extent to which such occurrences tended to discredit lacrosse.

The action of Lady Byng in offering a challenge cup to the National Hockey League for presentation each year to the player on any team who, while being thoroughly effective, has shown himself an absolutely clean player, is being most cordially commended by lovers of clean athletics and fair play all over the country. The Ottawa Citizen believes this cup will be a wonderful incentive in promoting clean sport. It says: "The Lady Byng

Odds and Ends

The House of the Plotters

Another landmark of the National Capital about to pass: The old Surratt house at 64 H street northwest, linked forever with the assassination of President Lincoln, is to be demolished so that while the back walls and certain parts of the house will remain intact, it will give an up-to-date business exposure, on the street. A shop on the ground floor, with an altogether modern front, are contemplated.

Mrs. Surratt kept boarders at this house before her arrest and execution for complicity in the murder of Harry D. Hon. W. H. Bennett, K. C., Passes Away at Hospital in Guelph, Ont.

GUELPH, Ont., March 15.—Hon. Senator William H. Bennett, K. C., of Simcoe county, died today at a Guelph hospital after a short illness. Senator Bennett was in his sixty-seventh year, having been born at Barrie, Ont., on Dec. 23, 1858. He resided for many years at Midland. He served many years in the House of Commons and was elevated to the Senate Nov. 19, 1917. Senator Bennett is survived by his wife and one brother, J. H. Bennett, of Barrie.

OTTAWA, March 15.—There are now seven vacancies in the Senate, one in Ontario, one in New Brunswick, two in Quebec and two in Prince Edward Island. Senator Bennett was a Conservative.

LENTEN TOPICS IN PULPITS OF CITY ON SUNDAY

Rev. Dr. S. D. Fallis of Toronto Heard in Centenary

REV. CANON SISAM IN TRINITY CHURCH

Baptist Ministers Have Pulpit Exchange-Salvation Army Opens Campaign

The Lenten thought was emphasized in the city churches yesterday, many of the clergymen pursuing a course of sermons on some phase of the season. Large congregations attended the various churches.

At Centenary. Rev. S. W. Fallis, D. D., manager of the Book and Publishing House, Toronto, preached in Centenary church in the morning. His text was Matthew 16: 26, "Will you build my church, and the gates of hell shall not prevail against it?" He left out the controversial clause, he said, because he was not worried about the foundation. That was sure, because built by Christ Himself. He would also state that the church structure, being built upon that foundation, was as indestructible as the foundation because Christ had so stated in His parables of the kingdom, as told in the 13th chapter of Matthew.

Schools of Thought. There were two schools of thought, one found in all our colleges, which the Kingdom of God would come, despite the difficulties and failures which the message he brought in a day when failures were always being talked about. The other school of thought said that the power of evil was bound to spread and permeate the world, until utter ruin ensued. Then Christ would come and establish a new kingdom. The speaker went into detail in explaining the differences between these two ideas, saying that the former was absolutely in accordance with the teachings of Christ, who was using men to carry on His work in the world of spiritual teaching, preaching and physical healing.

Dr. Fallis said that doubt of the ultimate success of Christ's Kingdom meant doubt of Christ Himself. He urged the congregation to cultivate an open mind to catch the truths of other teaching that might not have been heard by them before. He said old prejudices and a disregard for his own duties of the age and must be done away with if the universal church would bring nearer the fulfillment of Christ's Kingdom in this day.

This was the first time Dr. Fallis had been in Saint John, he said, and he was much pleased to be here and to meet old friends, whom he came to visit at the invitation of A. M. Peters, manager of the Bank of Montreal, and Mrs. Peters, Leinster street.

Special Music. Professor Emilio Taranto gave several violin selections last evening in Centenary church, accompanied by Mrs. F. J. Hodgson on the piano and Miss Alice G. Hea on the organ. Mrs. L. M. Curran sang a solo in the beautiful Mendelssohn anthem, "O come, let us worship" and Branga's "Angels' Serenade," with piano and organ accompaniment, with Professor Taranto playing the violin obligato. Mrs. Hodgson and Miss Hea played a duet setting of Raff's Cavatina for organ and piano. Professor Taranto played for his first number "Havanaise," Saint Saens; two short numbers, "Berceuse," by Faure and "Zephyr," Hubay; "Meditation," by A. Glazounov; "Scenes de la Carde," by Hubay. The choir sang another number, followed by the closing hymn, after which the vesper hymn was sung, following the benediction. Rev. Robert G. Fulton preached the third of his Lenten sermons.

Canon W. B. Sisam. Rev. Canon W. B. Sisam, of Moncton, was the special preacher in Trinity church yesterday morning and in Saint John's (Stone) church last evening while his pulpit in Moncton was occupied by Rev. C. J. Markham, curate of Trinity church.

In Stone church in the evening his text was "I am among you as one who serveth." The speaker said that Lent was not a time of negation but of action, when the individual was to reflect upon how far he or she had been fulfilling Christian duties. Canon Sisam spoke of the three things which militated against the true religious life, failure to follow the tenets of faith, wasting time in idleness and being content with profession of religion without carrying the profession into practice. He urged the congregation to look for the duty near at hand and to care for the poor at the gates and the hungry in the midst. In closing he pointed out the tremendous power exerted by the whole world's population and that if they steadfastly carried out the teachings of their faith

they could stamp out war and vice and crime.

Baptist Ministers. The Baptist minister of the city observed his customary monthly interchange of pulpits yesterday morning. Rev. I. B. Colwell, of East Saint John, was the preacher in the Fairville church; Rev. Dr. S. S. Poles of Gernain street, conducted the service in the Ludlow street church; Rev. E. R. MacWilliam, of Waterloo street, was in the Charlotte street church; Rev. C. T. Clark, of Fairville church, occupied the pulpit of the Tabernacle church; Rev. James Dunlop, of Central church, was the preacher in Gernain street; Rev. W. A. Robbins, of Ludlow street, preached in Waterloo street; Rev. Dr. C. B. Freeman, of Charlotte street, conducted the service in Victoria street church; Rev. A. L. Tedford, of Tabernacle church, was in Edith avenue; Rev. G. B. MacDonald, of Victoria street church, was the preacher in Central church.

Open Campaign. The twelve day Salvation campaign was opened in the Brindley street chapel on Saturday night, and will be continued each night until Tuesday, March 24, with Ensign Friend in charge, and special speakers assisted. Rev. F. T. Wright was the speaker Saturday night, and his subject was "Partakers with Christ." The Sun-

day services had a very large number in attendance and Adjutant and Mrs. Wright, divisional young people's secretaries for New Brunswick, gave addresses. Ensign Friend in introducing the speakers expressed high hopes for the success of the campaign, and up to last evening there had been seven of those attending who had come forward professing conversion. Adjutant and Mrs. Wright are to be the special speakers tonight and other speakers during the week will be Rev. William Lawson, Rev. Walter Small and Major and Mrs. T. A. Burton.

Minister Away. In the absence of Rev. W. M. Townsend, minister of St. Columba Presbyterian church, the services there yesterday were conducted by Rev. George Scott. Mr. Townsend has been in Halifax attending a meeting of the Presbyterian home mission committee and is expected back in the city this evening.

Preached in Fairville. Rev. Walter Small, missionary on furlough from China, was the preacher at the morning service in the Fairville Methodist church yesterday and exhibited a number of interesting curios which he had brought from China.

Ludlow Street. Duncan McIntosh, chief steward of the steamer Metagama, was the speaker last evening at the regular service in the Ludlow street Baptist church. Rev. W. A. Robbins, pastor of the church, in heartily welcoming Mr. McIntosh, referred to the fact that this was the first trip of the Metagama here since leaving the dry-dock after being in trouble on the coast of Newfoundland.

COMING TO SAINT JOHN. The Rebekah Lodges of the Oddfellows this week will welcome the president of the Rebekah Association for the Maritime Provinces and Newfoundland, Mrs. Mattatall, of Truro, who will be in Moncton on Monday and will arrive in Saint John on Tuesday. On Tuesday evening she will be entertained at the Sign of the Lantern at dinner and a theatre party following. On Wednesday night she will visit Jewell Rebekah Lodge No. 6 when initiation ceremonies will be carried out. On Thursday evening she will make her official visit to Sapphire Rebekah Lodge No. 9.

SOCIAL ENJOYED. A very successful birthday social and entertainment was held in the Victoria street Baptist schoolroom on Friday night under the auspices of the Ladies' Progressive Bible Class. Short addresses by Mrs. Gilbert Pucey, president of the class, and Rev. G. B. MacDonald, the pastor, were given.

Winter Beauty. (Fiona Macleod in "Where the Forest Murmurs.") Winter has not only whitened the hill-moors but dusted the green roofs of every strath and corrie. To the hill-born it is a call as potent as any that can put the bitter-sweet ache into longing hearts. There is peace there; and silence is there; and, withal, a beauty that is not like any other beauty. The air and wind are auxiliary; every cloud or mist-drift lends itself to the ineffable conspiracy; the polar loveliness often more exquisitely delicate than the harem, often incalculable or immeasurable, or beautiful with strangeness, as moonlight on great waters, or the solitary torch of Jupiter burning his cold flame in the heart of a mountain-tarn. There is no soundness like it.

THE LATE MRS. M. A. BROWN. In referring to the death of Mrs. Margaret A. Brown, who passed away last week, it was incorrectly stated that she died in the General Public Hospital. Mrs. Brown died at her home, 814 Duke street, West End.

Fables On Health

CUT FINGERS. ONE of Mrs. Mann's youngsters picked up a paring knife from a pan of half-peeled potatoes. An awkward attempt at a potato, and then— Blood spurted, splashing the child's face and clothes. There was a scream. The mother grabbed the child. Fast work was necessary. She knew that it was from an artery. From her apron she tore a strip. Around the arm between the wound and the heart she tied this tightly. Soon the blood ceased flowing nearly altogether, and it was not until then that the mother realized how frightened she was. "My, what a scare!" she exclaimed. When the child had fallen asleep Mrs. Mann freshened her memory

HOW MUCH YOU GET OUT OF YOUR WORK DEPENDS GREATLY ON HOW MUCH YOU PUT INTO IT. If the blood is dark, it is from a vein, and the bandage should be placed beyond the wound from the heart. A pressure of the fingers sometimes will stop the flow, if it is not bad, or a piece of ice placed on the wound is effective, she recalled. The whole world seemed to be dancing mad. The twins were too. They ran across the field from one fence to the other to see who would beat.

Adventures of the Twins

By OLIVE ROBERTS BARTON. THE MARCH HARE ARRIVES.

Nancy and Nick were playing under the chestnut tree in the meadow. It was warm and spring-like, although it was much too soon for the old trees to be showing any signs of green. And even the grass was brownish looking from being buried under the snow all winter. But the sky was as blue as summer, and the big white clouds were scurrying across it like kites. The wind blew and blew and blew and everything, even the identified old chestnut tree, was acting a bit mad. The tree waved its arms this way and that like a dancer, and the other trees over in the forest could be seen bending first one way and then the other like an audience keeping time to the tune. The little dry woods danced, and out on the road the dust danced, and early motifs seemed to be dancing in the sunlight. The whole world seemed to be dancing mad. The twins were too. They ran across the field from one fence to the other to see who would beat.

meadow to the place where the children were playing. Just half a dozen long hops and it was there. "Hello!" cried Nick. "Where did you come from?" "Never mind," said the visitor. "I'm here and that's enough. I'm one of the first signs of spring. I'm the March Hare and I'm supposed to be mad. But I'm not. I'm a very sensible person and a hard worker. I've just come from the Fairy Queen. I've got a dozen things to do for her. Do you want to come along?" "Oh, yes, yes, yes!" cried the Twins. "Is it an adventure?" "Call it whatever you like," said the March Hare. "I don't know what it will be before we get through with it. But as you are only children you can't go where I go without magic. Look behind the big stone and you'll find the magic green above. Put them on at once and hop on my back. I'm in a hurry." It didn't take the little boy and girl a minute to jump into the little green shoes, and in another minute they were sitting on the March Hare's back ready to start. Either the March Hare had grown very tall or the Twins had grown very small, but once you have magic with you, size matters nothing. But not only the Hare had changed—everything else had changed, too. They understood everything the two birds in the tree were saying. And although they knew where Wally Woodchuck lived and everything, they usually never saw him from one week's end to another. Now, however, they saw Wally carrying home a bucket of water, and Mrs. Woodchuck hanging out tea towels to dry. The whole world had changed in a minute. Away they went on the March Hare. (To Be Continued.)

Crossword Craze in Britain. (London Times.) Sometime ago there appeared in these columns an account of the mania for crossword puzzles which was then devastating the United States. It was calculated, roughly, that several million working hours a day were being spent by good Americans upon the pastime. The account was hardly printed before the craze had crossed the Atlantic with the speed of a meteorological depression and had swept this country from end to end. The nation still bends before the blast, and no man can say when it will stand erect again. In the meantime the mental habit of generations and the outward face of everyday life have undergone a sudden change. Tube and omnibus show signs of a fierce intellectual activity. Little knots of clerks and typists spend a well-earned luncheon hour in joint pursuit of the elusive clue. Hard-worked business men hurry home to take part in the family word-hunt. Highly placed officials do not disdain to compete publicly for the modest prize. The stationery and the libraries of clubs are subject to an unwanted strain. Advertisers, quick to spy an opportunity, have seized occasion's shaggy forehead with both hands. In every walk of life the modern Theseus plunges day after day into the self-sought labyrinth, whilst his Ariadne deftly manipulates a string of dictionaries by way of guiding thread. If the craze lasts, the prophetic eye may see presenting emerging from the welter an uplifted people endowed with an uncanny and hitherto unimpeded knowledge of the intricacies of their mother-tongue, including many a technical, scientific, or literary by-path.

Mrs. Smith's Rainy Day Discovery. The rain was pouring down in sheets. Mrs. Smith had neglected to go to the library. In desperation at her boredom, she read the paper through twice and then discovered that she had been skipping the want ad pages. She glanced at the ads . . . became interested . . . and then read column after column of them. "This is the most interesting shopping trip I ever took," she said to herself. "I've found out where I can pick up a sewing machine cheap . . . this butter and egg ad is worth investigating . . . and I'm surely going to answer that ad about exchanging phonograph records." The longer Mrs. Smith read, the more enthralled she became. She had discovered—what so many people know—that the want ad pages of this newspaper represent a great market place—a great "department store," in which merchandise of all sorts is offered at astonishingly low prices. Real estate . . . used cars . . . musical instruments . . . office equipment . . . household furniture . . . and many other things may be obtained through the classified advertising pages at a saving.

Right Rev. James Morrison, D. D., Catholic Bishop of the Diocese of Antigonish, including Cape Breton Island and the counties of Pictou, Antigonish and Guysborough, caused a pastoral letter to be read yesterday in all the churches of his jurisdiction, appealing especially for help for the stricken women and children, "a large number of whom" he had personally found to be "at the verge of starvation."

HALIFAX, March 15.—The text of the letter of Bishop Morrison, of Antigonish, N.S., read in all the Catholic churches of Eastern Nova Scotia, today is as follows: "Dear Rev. Fathers: Doubtless you are aware of the serious labor crisis brought about within the last few days in and around the mining centres of Eastern Nova Scotia and Cape Breton. As is usual in such cases, there are propounded various theories as to the causes leading up to this unfortunate turn of events.

It is not, however, the purpose of this letter to discuss such real or alleged cases, except to say that if the true standards of Christian life were faithfully adhered to in the everyday business of the world, and if a rightly directed conscientious observation of the justness of the law should exist between man and man, whether in financial or labor matters, or for any other reason, the mutual recriminations that are being bandied so freely in the unfortunate matter, or for any other reason, would be of little avail to the employees or the employer.

"O, Verge of Starvation." What I wish to stress for the moment is the grim fact that as one immediate result of the labor crisis in and around the mining sections of this country some thousands of men and women, and many children, are in the direst want for the prime necessities of life. I have gone personally to some of these stricken localities in order to obtain first hand information as to actual conditions, and I have very truly to report that there is a large number of people who are on the verge of starvation from which the time being they are being precariously saved from day to day by the heroic efforts made by less favored communities by giving of their own limited means.

Direst Want Menaces. This measure of assistance, however, even in its present uncertain form, cannot continue beyond a very limited time, and unless it be supplemented from sources outside the stricken regions, the result must be that many, especially the young growing children, will be faced with the direst want. It is impossible that our sense of Christian charity can remain unshaken by any such untoward condition of affairs, and hence it behooves us as Christian people to take to the rescue of these children. The spirit of charity will not have us turn a deaf ear to an appeal in behalf of the suffering children, and we may be confident that in the presence of these circumstances the faithful will willingly deprive themselves, if necessary, of no small legitimate comforts in order to help save the innocent victims of the harrowing industrial calamity.

Appeals to Patriotism. Moreover, from a sense of sane and unselfish patriotism for the welfare of the community, we can well see our duty to step into the breach at this ominous moment. Who that has known of the sad disabling of a generation of children not by bruising or breaking, but by starvation following in the wake of Great War, but must see the necessity of bending every effort to forestall any such calamity in this land. We do not wish to have grow up among us a group of crippled children consequent to under-feeding in their growing years. It is enough to recall the harrowing accounts of the thousands of children in Europe immediately following the war, who, because of the lack of food, and other diseases by reason of starvation conditions, to have us put forth our best efforts to save a replica of such things in any part of this country. The better element of the world nobly and generously responded to the world-wide call of our Holy Father to help save the children of Europe in the trying circumstances above referred to, and the faithful of this diocese (Continued on page 10, sixth column.)

What the connoisseur think of them in far off cities is shown by a letter that has just arrived. Either would be a novelty in my diet and I know would create a sensation among the ladies."

THE EVENING TIMES-STAR, SAINT JOHN, N. B., MONDAY, MARCH 16, 1925

\$70,000 DAMAGE IS CAUSED BY SUNDAY BLAZE

Old Post Office Building in Prince William Street Suffers

TWO STORIES ARE BADLY GUTTED

Fireman Knocked Unconscious But Not Seriously Injured

Damage to an estimated extent of \$70,000 was caused by fire which broke out about 8:30 o'clock last evening in the six-story stone building opposite City Hall, better known as the "Old Post Office." Thousands of citizens visited the fire during the battle against the flames which lasted for six hours, the "fall-out" sounding at 11:20 o'clock. Through the well-directed efforts of the local fire department, who fought the flames gallantly, the blaze was confined to the fifth and sixth floors of the building, which is the property of the Federal Government. The other stories suffered heavily from smoke and water. Two alarms were rung in the second coming about 6:55 p.m. The water pressure was good and with the assistance of pumps, streams were directed through the windows of the fifth floor from Water street, a distance of nearly 100 feet, while from Prince William street, where the distance to the third floor was about 75 feet, the firemen had no difficulty in directing their hose. On the fifth floor, counting from the Water street level and the third from Princess street, where the fire originated, were the offices of Alexander Gray, Federal Public Works Department engineer in charge of Saint John Harbor. Here valuable plans were destroyed in addition to many documents and papers, valued in all at \$10,000. Not included in this, however, were the plans of which there were duplicates in Ottawa.

Deluged With Water.

The sixth floor, occupied by Thomas Killen, janitor, was also completely destroyed. The fourth floor, occupied by the Navigation School, the port veterinary surgeon and the wireless office and the third floor, occupied by the Customs express department, were only slightly damaged by the fire in the vicinity of the elevator shaft, but they were deluged with water. The repair rooms of the Marine and Fisheries Department in the basement and the engine rooms, also situated there, were damaged by the water.

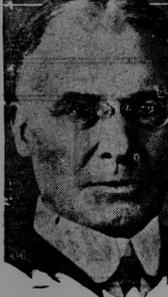

Clock Stops.

The clock, perched high on the face of the building, which for many years had told the time to countless thousands, was completely destroyed. Flames burst through the casing and then the hose on the extension ladder was directed through the opening. The clock stopped at six minutes to six, just nine minutes after the alarm was rung in from Box 26.

Flag Braves Flames.

Through all the smoke and fire the Union Jack, which graced the flag pole on the roof, continued to blow bravely in the breeze. The thousands of people who jammed the streets in the vicinity of the fire watched this symbol of a mighty Empire as it braved the terrors of fire and smoke with a sort of fascination. So thick was the smoke that at times the flag was shut out from view but, when the wind cleared the clouds away, one heard on every side the triumphant, "There it is!" The principal loss of life was among the feathered folk who inhabited the window ledges and had built their

homes there. Pigeons, suffocated by the smoke, fell to the sidewalk dead, while their mates circled around the fire, possibly wondering what had ousted them from the homes and made them untenable. Thomas Killen lost a valuable dog which was suffocated by the smoke.

Fireman Unconscious.

Edward Beck, of No. 1 Hook and Ladder, was injured while at work on the fifth floor. He was struck across the back by some falling beam and knocked unconscious. First aid was administered by his mates and a call sent for the ambulance, but when it arrived Beck, fully recovered, refused to be taken to the hospital and shortly afterwards went back into the fire. The building was owned by the Federal Government.

SONDAN ACCORDER NATIONAL STATUS

Added to List of Those of Whom League Opiam Treaty, Being Sent.

GENEVA, March 15.—The Soudan has been recognized as a national entity for the first time as the result of action taken by the League of Nations Council session just concluded.

Considerable speculation resulted from the report on the second opium conference, accepted by the Council. The report reviews the conference's results and recommends, in order to make the opium treaty universal, that "Secretaries-General of the League send documents to all nations not members of the League or who did not participate in the Geneva opium conference."

Soudan Is Added.

The list submitted to the Council Saturday night added the Soudan. The addition was made following a request by the British, who wished to establish a precedent of the Soudan as a national entity, at the same time occurring the League's recognition.

The incident is certain to bring a protest from Cairo, claiming that it is an attempt by the British to make a fait accompli of the separation of the Soudan.

CHRISTIAN SCIENCE MAN FOUND GUILTY

Winnipeg Practitioner Convicted of Manslaughter After Little Girl's Death.

WINNIPEG, March 15.—William Elder, Christian Science practitioner, was found guilty of manslaughter Saturday in connection with the death of Doreen Watson, 12 years of age, daughter of Robert Watson, who died of diphtheria on Nov. 22, 1924. The jury of 11 men took 60 minutes in reaching a verdict. With it came a strong recommendation to mercy.

Judge's Views.

In his summing up, Mr. Justice Dyart, who presided at the Assize Court trial, declared Christian Science was not on trial.

"Christian Science treatment," continued Mr. Justice Dyart, "for a 12-year-old child ill with diphtheria, is not a treatment recognized by the law."

IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally by Drinking Glasses of Good Water

No man or woman can make a mistake by flushing the kidneys occasionally, says a well known authority. Too much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood. Then you get sick. Rheumatism, headache, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of scalding, begin to drink soft water in quantities; also get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in the system so they no longer cause irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive and can not injure; makes a delightful effervescent lithia-water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications. By all means have your physician examine your kidneys at least twice a year.

Plant Importers Given Warning

The Department of Agriculture at Ottawa has issued a warning to importers and shippers of nursery stock from countries other than United States to Canada to the effect that the regulations of the Destructive Insect and Pest Act are not being carried out.

This warning points out that all shipments must have an official label furnished by the Government specifying the quantity, kind and value of the nursery stock, the country and locality of origin, the destination of the stock, the name of the consignor or consignee, the port at which it is imported, the date of shipment from customs and whether the shipment is to be forwarded by freight, express or mail.

The only ports for importation of nursery stock in Canada are Montreal and Vancouver and, if not properly labeled, packages in parcel post often are forwarded direct to their destination and then have to be returned to Montreal or Vancouver for inspection in which cases the importer is required to pay the cost of postage both ways. This warning has been sent out in an endeavor to prevent shippers causing Canadian purchasers the loss of contents and the expense through failure to observe the regulations.

took a very commendable part in that effort; and now we cannot be less concerned when there is a danger of having these same conditions brought about at our very doors.

Must Fulfill Duty, He said.

To be careless or indifferent to such a grave menace would scarcely be worthy of a proper standard of citizenship in this country and could not be construed otherwise than as being unconcerned about the country's best welfare. Accordingly, whether it be from motives of charity or patriotism, we cannot afford to be remiss in courageously meeting this duty of saving the children to the community and to the country.

I, therefore, ask you Dear Reverend Father, to bring to the notice of your people the situation, as above referred to, and to take whatever measures may be possible to help provide assistance for these people in their present period of distress. I need not again stress motives why we should all co-operate with the utmost harmony of action and to the fullest extent of our ability to ward off a situation that bodes imminent suffering and future disablement for the coming generations in the districts directly affected.

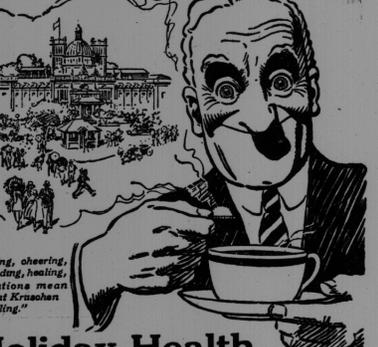

Orders Collection.

We can be helpful to these people by contributing money, food and clothing. Accordingly, in the name of charity and in the name of the healthy civic life of the country, I ask you to announce a special collection in your church, to be taken Sunday, the twenty-second instant, or as soon thereafter as may be at all possible; to remit the proceeds thereof immediately to the Bishop, who in turn will, without delay, forward the amount to a committee of our reverend clergy in the affected districts in accordance with arrangements already made for that purpose.

I asked the reverend pastors in the affected districts that they also make this same appeal to those of their faithful who may be able to further assist in this work and to expend in their respective district the amounts so collected.

In those parishes where it is feasible to collect, also clothing and food-stuffs, I ask that some local organization be affected to gather together such articles of food and clothing and to forward the same by rail to the Rev. John H. MacDonald, P. P., of Sydney, who with his assistants and a co-operative committee will see to the equitable distribution of all such receipts in kind.

In all such cases the reverend pastors will make out a list of such goods as may thus be forwarded and mail the same to Rev. Father MacDonald, of Sydney, as above explained. He gives twice who gives quickly; so dear father, I trust that in this suddenly trying situation all will do their ut-

Holiday Health on a Ten Cent Piece

Some people with plenty of money go down South for a few weeks every year to build up the wear and tear of the year on their bodies.

Others, with less money and time, take their little daily dose of Kruschen Salts at home, at the cost of half a cent a day.

There's nothing to choose between these two methods of treatment as far as the nature of remedies is concerned. Both are excellent in that respect — only Kruschen happens to be several thousand times cheaper and keeps you in perfect health all the year round.

"It's the little daily dose that does it," says Grandpa.

A tiny dose of Kruschen Salts—as much as will cover a ten cent piece — dissolved in a cup of coffee or tea shows approximately the therapeutic activity and potency as does the holiday down South.

The vital salts combined in Kruschen are those which Nature demands for the body's perfect health. Kruschen supplies them in a form in which they are most easily assimilated by the system and absorbed by the blood. No other preparation can make this claim.

So now you know what to say to the man who tells you that Epsom or Glauber is "just as good" as Kruschen, and who tells you that Kruschen only gives you "that Kruschen feeling" of bounding health and cheerfulness. So wonderful is the effect of the "little daily dose" in clearing your body of all impurities and keeping the system that you need no other treatment to keep you in perfect trim.

Kruschen is sold in 75c bottles by all druggists. Get a bottle today and start a new life to-morrow.

Good Health for Half a Cent a Day

A 75c bottle of Kruschen Salts contains daily use for adults is "as much as will do" — nearly enough for six months — which means bounding health for less than half a cent a day. The dose prescribed for BOLE IMPORTING AGENTS: CHARLES GYDE & SON, MONTREAL.

INVENTOR SEARCHING CLOCK. COPENHAGEN, March 16.—To prevent suspicion being cast on honest workers in factories handling gold and precious stones, where searches are necessary to keep down thefts, a Danish engineer has perfected a clever invention. It is a sort of an electric time clock which can be set so that it flashes a red light at irregular intervals. The red flashes means that the worker who punches the clock will be searched that day, simply because he happened to punch at that time and not because of any suspicions regarding him.

Digging Into the Past

More pages of the world's history are believed to have been exposed by the excavations (shown above) made near the great Pyramid of Ghizeh in Egypt by the Harvard-Boston Archaeological Expedition. They have uncovered what is believed by many to be the tomb of King Senusert, who anted-dated King Tut by some 1600 years.

Explains Reasons of Sun's Eclipse Being Off Schedule

NEW HAVEN, Conn., March 16.—Success in the search for the reasons why the total eclipse of the sun was five seconds later than the prediction on January 24, has been attained to some extent, Prof. E. W. Brown, of Yale University, said today.

"The event will be late if either the sun is ahead of its predicted place or if the moon is behind," said Prof. Brown. The sun was sufficiently ahead of its predicted place to account for the five-second delay, according to the professor.

"Another second of the time is explained by the fact that the diameter of the moon used in the prediction was too large or that of the sun too small, or perhaps both."

Morning Stock Letter

(From McLaughlin and Cowan.)

NEW YORK, March 16.—Saturday's rally was due to short-covering and to the cessation of liquidation which was being caused by the break in the wheat market. The stock market is still in a position where there can be upward moves in special stocks, but very heavy public interest renders the general market dangerous at all times. We believe in cutting down commitments on all rallies and buying only those stocks rated. Possibilities for the rally in 1935 seem to make them the features for the year future. U. S. Steel Common was very well bought on Saturday and we expect to have another large movement before this move will be a railroad.

Brokers' Opinions

NEW YORK, March 16.—Clark Childs, "the relative smoothness of last week's financing, which its size is considered augurs well for economic soundness of the market," says Livingston & Co. "The best rails look higher to us."

"Rach's & Co." says this afternoon many issues should be in a position to have a good sized recovery. On the weakness in the Motors would suggest purchase of Overland.

"On the theory that further favorable dividend announcements during coming week would make exceptions of the oils and falls for the time being."

Has Only One Assistant

BILLY LAUDER, LEFT, AND EDDIE COLLINS, MANAGER OF THE CHICAGO WHITE SOX, IS NOTHING BUT ORIGINAL.

While every major league manager in the south has from three to six assistants helping him direct the play of recruits and regulars, Collins is pinning his faith on one man, Billy Lauder.

There is a bit of the Damon and Pyrrhus about the Collins-Lauder combination. Eddie received his first baseball training under Lauder at Columbia University. Collins was a student, Lauder the coach.

A big league star at third during his day, Lauder was quick to see the possibilities in Collins. He was responsible for Connie Mack giving him a tryout.

Now that Collins is to take his debut as a big league manager, he seeks the aid of the man who taught him the fundamentals of the game. No doubt he hopes Lauder will be able to do as well with the White Sox rookies.

"Billy should prove invaluable to me," says Collins. "He has the faculty of correcting your faults in a way that keeps you interested and no one knows more baseball. Having been a pupil of his, I know."

Among the passengers who arrived in the city yesterday on the Canadian Pacific steamship Metagama from Glasgow were two prominent men in sporting circles, J. M. Munro, a well-known dog fancier and judge, and D. K. Watson, one of the most popular rugby players of the West of Scotland.

The former brought a large Alsatian wolfhound with him, and proposes to show him in some of the big kennel classes in the west. Mr. Munro came to Canada in 1922 and was so impressed with the country that he recently purchased a 600-acre farm in Carleton Place, Ont., and is now en route there with his family.

Mr. Watson came to Canada to look over the country and if he is favorably impressed he will purchase a farm and locate in the west. Prior to leaving Glasgow the sport writers wrote glowing tributes to his achievements while playing wing three-quarters for the West of Scotland team. They expressed regret that he was leaving, but wished him all success if he decides to locate in Canada.

Third is Tentatively Cleared—Twelve Were Under Eyes of Play Jury

NEW YORK, March 16.—Two of twelve Broadway plays under fire as objectionable have been exonerated by district play juries under a system District Attorney Banton approved to avert a formal censorship of the theatre.

Two Cleared.—The two plays cleared outright were "Desire Under the Elms," the Eugene O'Neill drama Mr. Banton himself deemed too improper for even revision and "They Know What They Wanted," a Theatre Guild production, featuring Richard Bennett and Pauline Lord.

WHOLE TIME MAN FOR FIRE CHIEF CITY HALL DEPARTMENT

Discussion Over Sunday Night Fire Brings Word of Plans.

SUGGESTED BILL BE SENT OTTAWA

Commissioner Wigmore Advises Charging Government \$1,000 For Fire Fighting.

The foreshadowing of an all-time chief for the fire department and the advisability of sending a bill to the federal public works department for fighting the fire last night in the old Post Office were features of a discussion this morning at a committee meeting of the City Council.

Commissioner Wigmore introduced the matter and said he thought it would be a good thing to send a bill of \$1,000 for the services of the city firemen to the public works department. The government paid no taxes to the city on any of its property but they expected, and received the same protection as the citizens who were paying all the bills.

Mayor Potts said this fire afforded a good example of the danger in having such a forest of poles and wires in the city and Commissioner Harding said it showed the need of having all wires in the centre of the city underground.

Whole-Time Man.

Commissioner Harding commented on a statement that the stand pipe in the building had not been used and said he had known cases where these standpipes were installed and not water in them. He expressed the opinion that periodical inspection of fire appliances was necessary.

Commissioner Harding said this would fall within the province of an all-time chief and intimated that his recommendation for a new fire chief would include that he be an all-time man.

Commissioner Wigmore said he thought this would be the right plan to adopt.

ORDINATIONS HERE ON HOLY SATURDAY

Five Young Men to Be Elevated to Priesthood in Saint John Cathedral.

Five young men who have just completed their studies for the priesthood will be ordained in the Cathedral here by His Lordship Bishop LeBlanc on Holy Saturday morning, according to word received by the families of three who reside in Saint John. The announcement came in letters from the students over the week end.

Those from Saint John.

Those belonging to this city who are to be ordained are Rev. Melville Nicholson of the late Mr. and Mrs. Joseph Nichol of 142 St. Patrick street; Rev. Arthur Kinella, son of Mr. and Mrs. Augustin Kinella of 165 Paradise row and Rev. Joseph Butler, son of Mr. and Mrs. James Butler of 94 Metcalf street North End. The others are Rev. Joseph Henneberry of Fredericton, and Rev. Francis Gillen of Moncton.

The four first named were elevated to the office of deacon some time ago at the Holy Heart Seminary in Halifax where all the young men have been completing their studies.

REV. DR. CHOWN TO BE HERE THIS MONTH

General Superintendent of Methodist Church to Address Public Meeting.

The regular session of the Methodist Ministers' Association met this morning in Centenary church hall, with Rev. Robert G. Fulton presiding. Matters in relation to the reception of Rev. Dr. S. D. Chown, General Superintendent of the Methodist Church of Canada, who is coming to the city the latter part of the month, and will speak at a public assembly on Monday, March 30, were taken up. The ministers present at the meeting were Rev. Mr. Fulton, Rev. J. M. Rice, who acted as secretary in the absence of Rev. Hugh Miller of Silver Falls; Rev. Neil MacLaughlan, Rev. H. A. Goodwin, Rev. George Orman, Rev. William Lawson, Rev. Walter Small, Rev. E. E. Styles, Rev. Fred T. Bertram and Rev. Henry Penna.

CADETS AT CHURCH

Turns Out 155 Strong For Parade to North End Services.

Captain D. V. Palin took 155 boy cadets to church for morning services, the cadets from the city proper assembling at the armories and meeting the North End boys at the King Square, from where they marched in double file to Victoria street Baptist church and to St. Peter's. Rev. Dr. Charles Freeman, of Charlotte street Baptist church, West Saint John preached in the Victoria street church. The boys all assembled at the St. Peter's church after service, and were dismissed by Captain Palin, on account of the treacherous walking, which also had hindered taking out the full band. The West Side boys sent a good contingent, who were escorted by the floats by Captain Palin and dismissed.

HORSE IS SHOT.

A horse belonging to George Taylor, Marsh road, was shot at his request by the police on Saturday.

WHOSE PURSE?

A lady's purse, containing a small sum of money, was picked up in Union street, near the Opera House, this morning. It can be reclaimed by the owner at the central police station.

GOES WITH WARNING.

R. Biels was before Magistrate Henderson on a vagrancy charge in the police court this morning. After giving him a warning, he was allowed to go by Magistrate Henderson.

DEPOSIT FORFEITED.

John Connors, reported by the police for failing to move on when ordered to do so on Saturday, failed to show up when his name was called in the police court this morning and his deposit of \$8 was forfeited.

HERE FROM ENGLAND.

Mrs. Frank O'Brien and little daughter, Miss Margaret and Miss Josephine O'Brien, arrived from England yesterday on the Melita, after a six months' visit with Mrs. O'Brien's parents, Mr. and Mrs. Ronald Stellar. They will be here for two weeks, guests of Mr. O'Brien's parents, Mr. and Mrs. John O'Brien, Millidge street, before proceeding to their home in Toronto.

FOR WILLING WORKERS FUND.

Mr. W. E. Roop, of 305 Union street, was hostess at a delightful party, a link in a chain of teas and parties being held for the benefit of the fund of the Willing Workers, of Germain street Baptist church. The rooms were very pretty with yellow daffodils and red tulips and with lighted candles giving a soft light. Mrs. S. S. Poole, wife of the Rev. Dr. Poole, presided over the party. Mrs. T. B. Mullin, Mrs. Joseph Needham and Miss L. Charlton. The guests were Mrs. Roop, Mrs. Poole, Mrs. T. B. Mullin, Mrs. Joseph Needham and Miss L. Charlton. The Rev. Dr. Poole presided over the party.

TROUBLE IN HOME.

Because his wife slammed the door and interrupted a game of cribbage he was playing at 8 o'clock yesterday morning, William McAleer picked up a chair and hit her with it, Mrs. McAleer testified in the police court this morning when her husband was before Magistrate Henderson on a charge of assault. Mrs. McAleer said her husband was unable to sleep through drinking and kept her awake at nights. The magistrate said that he was disposed to send McAleer to jail without the option of a fine, but his wife asked that this not be done as they were in poor circumstances. At her request His Honor imposed a fine of \$20.

DID NOT SAVE DEPOSIT.

Something unusual in the way of trying to save an \$8 deposit on a charge of drunkenness was offered in the police court this morning by a West Saint John citizen. In the majority of cases when an arrest is made and a deposit put up, the defendant does not appear in court. This morning, however, the procedure was reversed. Inspector Killen and Policeman McCavour, however, swore on the stand that the man was drunk. He was so drunk, Policeman McCavour told Magistrate Henderson, that he fell. Despite this testimony, the accused stuck to his story that he was not drunk. The magistrate fined him. "Well, I suppose I'll have to contribute my little bit," he remarked as sentence was passed.

REPAIRS AT ONCE AT SCENE OF FIRE

District Resident Architect Begins Appraisal of Old Post Office Damage.

That the old post office building, badly damaged by fire last evening, will be repaired at once, was announced this morning by W. W. Allingham, district resident architect. He commenced today the work of appraising the damage to the building. He was unable to give out any estimate for several days.

The larger portion of the damage, Mr. Allingham said, was confined to the upper part of the building, although the water had wrought considerable havoc to the lower floors. All the occupants, he said, were moving to other quarters for the present. The work of moving out many of the office fixtures started this morning.

In Various Offices.

The Customs Express has moved back to their former quarters in the Customs House under James McKinney. This department escaped serious damage, as the Salvage Corps men covered the parcels carefully with rubber sheets. The work of removing the parcels to the new quarters commenced this morning.

Alex. Gray, engineer in charge of the Saint John Branch of the Federal Public Works Department, will have office either in the new post office building or in the Customs House. The Navigation School, under Captain Pollock, will be conducted temporarily on the third floor of the Customs House.

J. G. Chesley, agent for the Marine and Fisheries Department, said this morning that the repair rooms and the equipment of the department had escaped serious damage in the fire. Water had been responsible for what little damage to the present. The repair department, he declared, will be moved at once to the Marine Dock on the West Side.

Many Visit Scene.

The scene of the fire this morning was visited by many citizens. The wires in the vicinity were heavily coated with ice. The water was dripping steadily in the building, and the sidewalk and alleyway next the building were still roped off.

C.P.R. REQUESTS DAYLIGHT TIME MAY 3--SEPT. 27

J. M. Woodman Sends Letter On Matter to Common Council.

WILL BE TAKEN UP ON THURSDAY

Building Law Bill to Be Presented to Council Tomorrow.

Daylight saving time, was discussed at a committee meeting of the city council this morning and action deferred until Thursday. The proposed building law was also referred to and it was decided to advertise the bill for submission to the N. B. Legislature. Tenders for the revenues from the North and South Market Slips and for Market Slip, West Side, were referred to the Commissioner of Harbors for a report.

Commissioner Bullock asked if there would be any objection to offering the use of the city hall drafting rooms to the federal public works department and it was agreed that this would be done.

Revenue Bids.

Tenders were opened as follows: North and South Market Slip, John Jackson, \$1,710; Market Slip, West Side, Charles Cobham, \$10. The Mayor kept the West Side Slip than let it for \$10 and Commissioner Harding said he thought the slip should not be leased but the debris should be cleared out of it. The tenders were referred to Commissioner Bullock. No tender was received for Sydney Slip, which last year was leased for \$1,200.

K. A. Wilson asked that the seal of the city be affixed to a duplicate of a deed to David Magee, from the city, in order that the deed might be registered, the original deed having been lost. The common clerk was instructed to comply with the request.

Daylight Time.

A letter was read from J. M. Woodman asking that in order to facilitate railway time table making daylight time this year be set from May 3 to September 27, as these were the dates likely to be announced for the general change in time tables and would likely be adopted by Toronto, Ottawa and Montreal.

The common clerk said that last year daylight time went into effect in Saint John at midnight on May 17, and ended at midnight on September 6.

R. M. Bartlett said he had heard the matter of daylight saving time was coming up at this meeting and the suburban residents would like to have the time as mentioned in Mr. Woodman's letter.

Mayor Potts said he had received communications protesting against the adoption of daylight time this year. Commissioner Harding said he was in favor of adopting the suggestion in Mr. Woodman's letter.

Commissioner Frink said he felt considerable should be given the letter as it was an attempt at uniformity. It was decided to take the matter up at the Tuesday meeting of the committee and decide the dates.

A letter from Mrs. William Pugsley expressing thanks for kindly expressions of sympathy was ordered filed.

Building Law.

Commissioner Harding asked authority of the council to advertise a bill to give the city the right to make by-laws governing the erection of buildings in the city limits. Commissioner Wigmore pointed out that such a bill could be introduced at this session of the Legislature now only by the courtesy of the Government.

Commissioner Frink asked if the people were to be allowed to know what was in the bill and Commissioner Harding said he would present a copy at the council meeting tomorrow. It was decided to advertise the bill.

DOG'S COLLAR FOUND.

A dog collar, bearing license number 1429, was picked up in the street Saturday by Sergt. Ralph Dykeman. It is at the central police station.

Furniture That Grows Old Gracefully

There are some men who refuse to surrender to old age. Time furrows their cheeks and silvers their hair but their old shoulders are straight, their keen old eyes are alert, their old heads are carried proudly. These men have in them the inherent qualities that enable them to grow old gracefully.

So it is with furniture—with some furniture. Long after the more faddish, less substantial pieces have been discarded, it stands steadfastly—scarred, perhaps by generations of romping youngsters, but more beautiful than ever. The passage of time—perhaps even of generations—mellows it and darkens it and enriches its beauty.

In buying at Everett's you have the assurance that you are buying just such furniture—furniture that will indeed grow old gracefully.
