The newly-elected president, M. Emile Loubet, then drove a landau. He wore the coronation of honor, and was accompanied by General Bayot, Duke of Angoulême, grand chancellor of the Legion of Honor, and escorted by a squadron of troopers, arm and drums.

In the meantime the cabinet remained in the late president's study, which was transformed into a temporary office. All the officers of the household took part in the ceremony.

Mme. and Mlle. Faure, who had been praying the greater part of the night before the remains, attended at 8 a.m. in the chapel of the palace, and then retired to their apartments and took part in the procession at noon in the chapel of the Elysee.

The procession started from the palace at 10:45, headed by General Zurlinden, the military governor of Paris, followed by the bearers of wreaths from the late president's household and the legislature. Then "present arms" rang out, and the band of the Republican Guard played the funeral march.

United States Troops Have to Fight Fires as Well as Filipinos.

Further Severe Fighting—Americans Lose Two Killed and Ten Wounded.

Manila, Feb. 23.—Immense damage has been done by the fires which are believed to have been started by the insurgents last night.

The cloud of smoke hovered over the city to-day is conveying the impression to the people about the bay and in the outside districts, that the whole city is under fire.

Sharpshooters at various parts of the line have been very active, but otherwise there has been no further excitement since this morning's attack.

Lieut. Eugene S. French, of the First Montana Volunteers, and Private Oscar Felton, South Dakota Volunteers, were killed, and two other Dakotans were wounded.

These desiring free instruction in art should apply to The Canadian Royal Artillery, 2nd Battalion, 240 St. James street, Montreal, Canada.

The Art School is maintained in the Mechanics' Institute Building, Montreal, and is absolutely free.

With daylight this morning the enemy commenced their morning tactics at various parts of the American line, apparently for the purpose of withdrawing attention from affairs inside the city.

An attempt was made to rush through our lines near Calocan, but it was promptly checked by hot and effective musketry and artillery fire.

In the meantime small bodies of rebels, evidently some of those engaged in last night's cowardly work at Tondo, spread out between the city and outposts.

From 8 to 10:30 a.m. the United States major command joined in the engagement, hurling ten-inch shells over the lines into bodies of the enemy as indicated by the signal corps.

So far the American casualties are one man killed and ten wounded.

At 11 o'clock there were sharp engagements at the Chinese cemetery and San Pedro Macati, also simultaneously, but artillery fire from both positions drove the enemy back.

From high towers in the city fires can be seen burning at a dozen different points outside. Some of these are probably due to the Monastioch's shells.

Scores of rebels have been arrested in Tondo district, one band of sixty rebels having two caps of arms and accoutrements.

Business is practically suspended for the time being.

Washington, Feb. 23.—General Otis today received a report from the following: "There were destroyed edifices in Manila, the city last night. Buildings were fired in three different sections of the city. The fires were controlled by troops after several hours' fighting."

Manila, Feb. 23.—Major-General Otis today issued a general order directing all the inhabitants of Manila, until otherwise ordered, to confine themselves in their homes after 7 o'clock in the evening.

The following letter from a gentleman now in Atlin City has been handed to the Times for publication: "The position of affairs in Atlin City at the present time is, to say the least, far from satisfactory."

When a young woman sits down and ponders over her future life, there is one all-important subject which she should not forget. In a day-dream she may build castles in the air with a happy home, laughing children and a loving husband in the foreground. At that moment she may be facing death. Matrimony and motherhood hold out no happiness to the young woman who suffers from weakness and disease of the distinctly feminine organism. The woman who suffers in this way will be a weak, nervous, sickly, petulant wife and an incapable mother and an unamiable housewife. Not knowing the truth, her acquaintances will not understand that she is deserving of pity rather than reproach. "Any woman may be strong and healthy in the womanly way if she will use the right remedy. Dr. Pierce's Favorite Prescription is the best of all medicines for weak and ailing women. It acts directly on the delicate and important organs that surround the womb and motherhood. It makes them strong, healthy and vigorous. It banishes the dangers that surround maternity. It insures a healthy baby and a complete mother of healthy children, as the result of the use of this medicine. Mrs. John M. Conklin, of Baltimore, Md., writes: "I am enjoying the best health I have had for many years. I had been suffering from the internal organs, of female weakness, and was very weak when I commenced taking your medicine. I never-giving cure for constipation—Dr. Pierce's Pleasant Pellets."

Vote No. 35, superintendent of the juvenile reformatory, Victoria, \$840, was called to the chair when the House, in accordance with the resolution just passed, resolved itself into committee of the whole for the purpose of granting supply.

Mr. Higgins (Esquimalt, gov't.) was called to the chair when the House, in accordance with the resolution just passed, resolved itself into committee of the whole for the purpose of granting supply. The consideration of the various votes went through like clock-work, until something of the shape of the "snag" was unearthed by the senior member for Victoria (Mr. Helmecken). The first thing that struck that gentleman was in regard to the reduction of the salary of the superintendent of justice, department, particularly the district registrar of the Supreme Court, who, the estimates said, received an additional salary of \$500 from the Dominion.

Mr. Helmecken made the statement, that this was not the case. He said that he had believed that payment was made, but the matter would have to be revised if it were otherwise. The vote was passed. LAND REGISTRY SALARIES. Vote No. 32, \$25,000, land registry office for the year, was the next subject. Mr. Helmecken followed by referring to a previous occasion when the willingness to reduce the seasonal allowance to \$400 had been expressed by members now sitting on the government benches. He said that if the Finance Minister would reduce the amount to \$400 he would support it. Mr. Cotton blandly recommended Mr. Helmecken to move it himself. The speaker moved the amendment, and the House agreed to it.

Mr. Helmecken followed with another vote of the Jubilee hospital, with which he made hold a good deal of sympathy in the province to compare. THE MEMBERS' INDEMNITY. Some fun was created when vote No. 42, indemnity to members, \$22,900, was reached. Mr. Eberts started it by asking if there had been no change made in the salary of the members since the last session. Mr. Cotton asked what information he could give the hon. member? Mr. Helmecken said he wanted to know any information that was to be known. He said that the Finance Minister would reduce the amount to \$400 he would support it. Mr. Cotton blandly recommended Mr. Helmecken to move it himself.

Mr. Helmecken followed with another vote of the Jubilee hospital, with which he made hold a good deal of sympathy in the province to compare. MORE MEDICAL VOTES. Votes to aid the resident physicians in various localities were put through without discussion, except in the case of the one relating to the Victoria hospital. PRISONERS' KEEP. The sum of \$23,000 had been set down for the purpose of providing maintenance for prisoners in jails, and Hon. Mr. Martin explained that it was believed that this was necessary and the government always boldly faced such a proposition. SHERIFFS' FEES. This item of \$2,500 led to an explanation by Mr. Eberts and the statement by Hon. Mr. Martin to the effect that it was not the intention of the government to pay salaries for work that was not done. They were to be paid only for the work they did, and when that was done, but that was all.

Mr. Helmecken followed with another vote of the Jubilee hospital, with which he made hold a good deal of sympathy in the province to compare. THE HOUSE THEN WENT INTO COMMITTEE OF THE WHOLE FOR THE PURPOSE OF GRANTING SUPPLY.
