THE TIMES NEW REPORTER

THE PIPE EATERS. Finney's Hill, June 29 (via Water Works office, by wireless to Director Murdoch).—The infusoria are increasingly active and troublesome. They have attacked the reinforced concrete pipe along the whole McArthur & McVey section with great avidity, and seem to like it. They have eaten it full of holes and are now feeding on the remnants. No claim has yet been submitted for extra or damages, but would advise sending along some more material of same kind as soon as possible. There are symptoms of a disturbance in the Dry Lake, which may mean that the infusoria there are about to get busy and eat up the neighbors. We have taken every precaution possible but you know how it is with infusoria. They are almost as greedy as contractors, and care no more for the public than Mr. Vanderbilt.

INQUIRIES FOR ROGERS

Moncton, N. B., June 29.—(Special.)—Wishing to learn what became of the two boys, William Rogers and William Grogan, the superintendent of the Children's Institute at Boston, has written the police asking for such information. The boys in question spent one Sunday here in the police station, and since have gone to St. John, where they are in the hands of the police charged with robbing poor boxes from three churches. The letter states that the mother of young Rogers was very anxious about him.

PRINCESS ZARA
BY ROSS BEECKMAN.

(Continued.)

"How you probe the inmost secrets of one's heart, Dubravnik," she smiled at me. "I will tell you the truth, and the whole truth. It is because I never loved him, because I never knew and appreciated his worth, until he was dead, that I believed that I could not live and bear the thought that he should continue unavenged, while Alexis Durnie, the perpetrator of such outrages, appeared before me at St. Petersburg, and even dared to make love to me. I was a girl then and I did not appreciate all the love that was lavished on me. I am a woman now, and you have taught me what love is. I am not the same creature, now that I was a few short hours ago. You have changed the world for me, for you have made what was once a hell, a heaven of sweet thoughts."

"Zara, had you already abandoned the insane idea of becoming Durnie's wife, before we referred to it, now?"

"Yes, I never really entertained it. It only occurred to me as a means of accomplishing an end. I hate the man so, for all he did to Yvonne; and when he dared to raise his hopes to me, knowing that I had been her nearest and dearest friend, knowing also that I was once pledged to Stanislaus, I was filled with a hatred more terrible than words can describe. Oh, if you knew the bitterness of one who is used only for a tool; because she happens to possess beauty. But you cannot know; you cannot guess."

"True, I do not know; but I can guess. Remember, I heard what you said to your brother, on this same subject in the garden."

"Ah!"

"Like a flash of light through the darkness, my own peril returned to her."

"You! What are you going to do?" she exclaimed.

"I am going about my daily duty just as though nothing had happened," I replied.

"Those men out there are waiting to kill you. Come! Let us see if they are still there."

"We went to the window together and peered out. The caretta was still waiting."

"Tell me your true name again," she demanded rather irrelevantly, I thought, as we drew back. "You told me, but I have forgotten. You must learn the other one."

"You must learn how to answer to it, also, for it is to be yours, as well as mine." Then I mentioned it, and she repeated it after me several times, under her breath.

"Do you know of any way, no matter how, to escape those men who are waiting outside?" she asked.

"What is it?"

"I can have them arrested where they are—every one of them; and if, in case of your servant can be induced to carry a message a short distance for me."

"He would be stopped. The message would be taken from him, and read."

"He would be permitted to go on again, for the message would mean nothing to those who stopped him. It would be in cipher, and assistance would not be long in coming, once it were delivered. Men in whom I can implicitly trust would soon clear the streets for us. We would have nothing to fear after that."

"Then you are content with the police, Dubravnik?" But when she made the statement I noticed with joy that there was no suggestion of her former displeasure. There was, I took a fountain pen and a pad of paper from my pocket, and wrote rapidly—or, seemed to write, for the pen left no trace upon the paper. My invisible note was completed and I was writing with another pen upon a second sheet of paper when the princess entered the room. This time the writing was plainly visible, and while I asked her for an envelope I passed it to her to read.

"It was addressed to my friend Canfield who had charge of the messenger service, and merely informed him to forward the packages that had been left with him that morning" to their several addresses without delay. It was signed, "Dubravnik."

"Is this the note my servant is to take?" she asked, incredulously.

"I folded the apparently blank sheet with the other and placed them both in the envelope which I had already addressed."

"You see there is no harm in it, might even if the men outside should read it," I added, when the servant had departed.

"Your man, who is of course a spy, will read the note, which I purposely left unsealed, as soon as he is out of sight of the house. In an hour every man who is waiting to take my life will be in prison. If your brother is among them he will not be harmed and you—"

I hesitated, and she raised her eyes to mine and said:

"Well, and if?"

"You will have to do as you have agreed to do, obey me." I hesitated again, and then with a desperate courage, added: "Love, honor, and obey me."

SHAPED AUTO-VEIL OF PONGEE.

This motor veil, which is really a hood, keeps out every bit of dust and thoroughly protects hat and hair. The hood may be made of light, thin pongee or of liberty silk, and the method of making is clearly shown by the photograph. One end of the long, scarf-like strip of material is sewed around an oblong of the same material on three sides. This oblong fits over the top of the hat or cap and its front edge is gathered up and held under a little flat bow. The long length of material hanging from the oblong strip falls over the hair at the back, the lower ends being slashed up and hemmed, and these ends are drawn forward and tied about the throat. Thus a hood is formed which fits neatly and comfortably over hat and hair.

Removes the Dirt—Not Life of Clothes

Naphtho SOAP

Soaps that "eat" dirt also "eat" clothes. So beware of "Dirt-Eaters"!

Naphtho Soap contains the correct proportions of powerful Dirt-Removing—not "eating"—ingredients. The alkali is milder—less caustic—without rubbing—without injury to clothes or hands. Some soaps, when used in hot water, turn white clothes yellow. Naphtho may be used in hot or cold water, leaving white clothes beautifully white, pure, sweet. No back-breaking—less rubbing—less time—no ill from wash-day chills. Naphtho lathers freely, weighs more, and lasts longer than other soap.

WOMEN HEAR ADDRESSES ON PRACTICAL SUBJECTS

Important Matters Discussed at Yesterday's Session of National Council of Women—Froken Gad Tells of Denmark's Educational System—Paper Read by Miss Mabel P. French.

Toronto, June 28—After a rest of two days, Women's Congress resumed work this morning, divided, as last week, into sections.

Froken Gad talked to the education section on Danish high schools. "Denmark," she began, "is known abroad as a small country, exporting an astonishing quantity of butter and pork. How is this possible? It is due to the high schools. These high schools are established to teach practical courses by which the pupils may afterwards earn their living. The course for young men lasts from November to April, for young women from May to August."

"The teaching must be made interesting to pupils if it is not to be a failure. As there are no examinations to give them on the longings for knowledge is their only motive. They become intimate with their teacher, and this gives weight to his work."

In the discussion which followed Froken Gad explained: "We sing a good deal in Denmark. Dancing is one of the best things for young people."

In the art section the question of women in architecture and sculpture and design was discussed. Art in its relation to the present activities of life was also discussed.

Miss Mabel P. French, B. C. L., a practicing barrister of St. John (N. B.), was one of several who addressed the section on laws concerning women and children, the topic being the Parental Rights Rights of Women. Miss French confined herself almost entirely to the New Brunswick situation.

Miss Carlisle, of the Ontario factory inspectors, addressed the industrial section. She said that she believed that Canada leads the world in healthy conditions of manufacturing clothing. "There is nothing in the industrial situation," she said, "that threatens the health of the woman in her own best character, and the self-respecting and well behaved woman in her own best character. I have always been deeply impressed with the feeling that a woman's industrial independence is dependent on herself. Women never had a better chance or brighter prospects than at present. I am sure you will find as large a number of generous, self-sacrificing sisters and daughters among the working classes as among any other class of women."

Before a joint meeting of the sections on professions for women and health, Dr. Murdoch read a paper on State Training of Nurses in New Zealand, in which she pointed out the public is protected from untrained women, claiming to be trained. The New Zealand government has instituted a system of registration. Anyone who wishes to know if a nurse is trained or not may find out by looking over the list of registered nurses. The efforts that are being made in England, and especially in London, to keep up the standing of the public is protected from untrained women, were detailed by Dr. Murdoch.

Eczema, Salt Rheum.

Eczema or Salt Rheum, as it is often called, is one of the most agonizing of skin diseases. It manifests itself in little red blisters, which contain an extremely irritating fluid. These break and subsequently crust or scale is formed.

The intense burning, itching and smarting, especially at night or when the part is exposed to any strong heat, are almost unbearable.

The pre-eminent success which Burdock Blood Bitters has met with in permanently curing a disease of such severity is due to its wonderful blood cleansing and purifying properties.

No other remedy has done, or can do, so much for those who are almost driven to distraction by the terrible torture, as our thousands of signed testimonials can testify to.

Mrs. John O'Connor, Burlington, N.S., writes:—"For years I suffered with Salt Rheum. I tried a dozen different medicines, but most of them only made it worse. I was advised to try Burdock Blood Bitters. I got a bottle and before I had taken half a dozen doses I could see a change in continued its use and now I am completely cured. I cannot say too much for your wonderful medicine."

WALKED TO DEATH WITHOUT A TREMOR

Stratford, Ontario Negro Pays the Capital Penalty for a Brutal Murder—He Killed a Woman While Drunk.

Stratford, Ont., June 28—"I don't feel hungry and won't eat anything, thank you. I guess I will take breakfast in heaven this morning."

This was the last statement of James Frank Roughmond, colored murderer, who with head erect, firm step and a smile on his face walked to the gallows in the jail yard here at 8 o'clock this morning to execute the brutal crime committed last September. On September 30 last year, Roughmond, who had completed 20 days in Stratford jail for theft, was released. In the afternoon of the same day he stole a policeman's overcoat and going out to the home of Mrs. Peak, in Down's town, and finding the woman alone outraged and murdered her. In his drunken stupor he was found by the woman's two sons asleep beside the body of his victim. The crime was traced directly to him and he was sentenced to hang.

Toronto, June 28—(Special)—Dr. R. W. Bell, of the Provincial Board of Health, returned this morning after a week in Fort William, as a result of a special scare.

Dr. Bell reports that "there is not a case of cholera in Fort William, the only one near there being that of a Galician named John Ptaszynski, who is isolated in a hospital, five miles north of the town. He is a case of cholera in construction work on the Transcontinental when he contracted the disease. Smallpox was, however, cut off at the end of the town. He had only a light attack, but soon became seriously ill with bronchitis."

The case where he was at work was some distance east of Lake Superior Junction, 180 miles north of Fort William, and the sick man of the town, twenty miles south, distant considerably over 200 miles, and through the roughest country.

Two or three of his fellow countrymen, who were with him, but soon abandoned him and he continued his heart-breaking tramp alone. He had only \$5 in cash and little or no food. Twenty miles south of Superior Junction the man broke down completely, sleeping as he had been forced to do in open air, practically with no food and with his disease gaining on him, the man was alone for several days without help.

Fortunately a railway doctor heard of his condition and hunted him up. He was discovered fifteen days after he left his camp. Word was sent ahead to Fort William, and the man brought down a doctor and nurse and took charge of him and it is hoped he will pull through, though starvation and exposure had almost done their work.

The question of responsibility for allowing the man to leave the construction camp while suffering from smallpox may be looked into. Dr. Cooper & McDonald are the contractors.

HIS AUTO TURNED OVER ENBANKMENT

Fred Curry of Windsor, N. S., Badly Hurt in an Automobile Accident—Taken to Halifax Hospital.

Halifax, N. S., June 28—Fred Curry, of Curry Bros., Windsor, left Halifax this evening to ride to Windsor in his automobile. He had got less than three miles on his journey when he ran over an embankment on the shores of Bedford Basin. His car missed the road.

People who saw the accident ran down and found Curry pinned beneath his machine. He was released and taken to the hospital, where it is believed he will recover. The automobile was still at the roadside at midnight, when men went out to bring it back to town.

HE WAS FINED \$20

William Turner, a Bartender, Fined for Selling Liquor to an Intoxicated Man.

In the police court yesterday afternoon William Turner, bar tender for P. M. O'Neill, was fined \$20 or one month in jail for selling liquor to Henry Marshall, an intoxicated person. J. B. Baxter, who appeared for the defense, objected to a statement under oath by Turner, which might show some mitigating circumstances. George A. Henderson, counsel for Inspector J. B. Jones, signified his willingness that this course should be followed.

Turner then took the stand. He said that on Saturday afternoon about 4 o'clock there were a good many people in the bar room. Three men of whom Marshall was one were there, but he did not see that they were under the influence of liquor. One of the men, other than Marshall, called for three beers and paid for them. After drinking they all walked out, without assistance. The defendant said he did not know that Marshall had been under the influence of liquor till told by a policeman.

Mr. Baxter submitted that the offence had been inadvertently committed and asked for the minimum penalty. Mr. Henderson spoke briefly saying that the defendant's statement coincided largely with what he had been informed transpired.

Judge Ritchie in summing up remarked that it had been the rule to impose the maximum penalty, but in view of the plea of guilty and the statement made by the defendant he would impose a fine of \$20 or one month, this, however, was not to be regarded as a precedent.

Mr. Baxter reminded his honor that \$10 was the minimum, but Judge Ritchie replied that the minimum fine was never imposed, and the amount levied was paid.

BERNARD SHAW UNDER BAN

Another One of His Plays Has Been Prohibited By the British Censor.

London, June 28—Another of Geo. Bernard Shaw's plays, "Press Cuttings," has been forbidden production by the censor. Mr. Shaw in announcing this fact in a humorous letter to the Times, characterizes the censor's act as revenge because King Edward, in his birthday honors, made Beerholm Tree, who was to have produced Mr. Shaw's celebrated play, "Showing up of Bianco Postnet," a knight, and he added: "It only remains for the king to make me a duke in order to complete the situation."

Beware of Ointments for Catarrh That Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface, such articles should never be used except on prescriptions from reputable physicians. The danger is that mercury will be taken into the food you can possibly derive from them. Halls Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surface of the system. It is by far the most reliable and safe remedy for Catarrh, and is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Catarrh Cure, Sold by Druggists. Price 50c per bottle. Take Hall's Family Pills for constipation.

CANADA TO HAVE NEXT PRESS MEETING

Next Imperial Conference Will Probably be Held in Winnipeg During the Exhibition of 1912.

Montreal, June 28—A London cable says: The St. James Gazette says that the imperial press-conference has been an enormous success, and by its success imperial settlement has reached its full-orbed maturity.

A permanent committee of the imperial press conference has been elected to maintain contact between the different journals. The decision has been reached to hold further conferences. It is likely the invitation of the Winnipeg world's fair committee will be accepted, and the conference meet there in 1912.

It is expected in well informed circles, although no official confirmation is obtainable, that Hon. Mr. Fielding has decided to issue the new Dominion government loan on Friday next. That is the day on which the Dominion day speeches here will be reported, which will include utterances from Lord Grey and Mr. Fielding. Ten millions sterling is the amount expected, namely \$7,000,000 for redemption, and \$3,000,000 of new money.

Conjectures respecting the price indicate as most probable 3 1/2 per cent at about 97. Prices of consols and gilt-edged securities are somewhat depressed by the largeness of Canada's needs, but it is believed that Canadian credit never stood higher with investors generally.

A city of Montreal four per cent bond issue of \$200,000 is also spoken of.

THE CONVENTION The Liberals of St. John County last evening nominated the man who will defeat Mr. Mosher. They also gave their answer to the St. John Globe, which, as one of the personal organs of Mr. Hazen, protested against an appeal to Liberals in this contest. As their candidate the Liberals have selected a man of high character, a resident of the county, and a successful business man, who is interested in all that pertains to the welfare of the county. He has no political sine to answer for, he is an excellent public speaker, and he is heartily endorsed by Mr. Lowell and every other active Liberal worker. A glance over the list of names of county Liberals who spoke last evening in hearty support of Mr. Bentley shows that there is the heartiest unanimity, and that the party which has held the county for so many years is not minded now to let a follower of the Hazen government break the continuity of Liberal representation.

The Times commends to its readers the report of last night's meeting. The speeches of Mr. Lowell, Hon. Mr. Robinson, and of Messrs. Lee, Donovan, Cochrane and other county men breathe the spirit of victory. There is no break in the ranks. Hon. Mr. Robinson's searching criticism of the Hazen government is of deep interest to the people of every constituency in the province. He held up to public scorn the broken pledges of the government, and showed clearly that with a much greater income than their predecessors they who in opposition preached economy are today greater spendthrifts. The shallowness of their pretensions was revealed, especially Mr. Hazen's course in regard to members of the Liberal party, whom he courted when in opposition and flouted when their votes had brought him into power. The issue is now fairly joined. Mr. Bentley is a county man, a clean man, a strong man. Whatever may be said of Mr. Mosher as a suitable representative may be said with greater force of Mr. Bentley. That he is not as widely known to the people of the county as the other man who has already conducted one campaign is not an element of any importance in the case. The people all know Mr. Lowell, and his whole-hearted endorsement of the candidate, with that of one his worth and his standing in the party. And before the campaign is over those who have not become personally acquainted with him will have an opportunity to do so. He is well-known in the eastern end of the county, and will take occasion, with Mr. Lowell, to visit the western part and come into touch with the election.

It was well said by Mr. Lowell last evening that it is principles the members of the party are called upon to consider. The Liberals of St. John county have a duty to perform. They will not be misled by the Globe, which supports a Conservative provincial government and loses no opportunity to hurl insinuations at the Liberal minister of public works. St. John county is Liberal. It must remain Liberal. Throughout the province the reaction against the Hazen government is making itself felt. If Mr. Mosher carried the county it would be heralded through Canada as another Conservative victory. There is no longer any pretence about coalition. Mr. Hazen is in power, and uses his power to break down Liberal influence in federal as well as provincial affairs. The people of the province gave Mr. Hazen his opportunity to lead a government and he has not measured up to the standard. They now await an opportunity to reverse the popular verdict. St. John county was not carried away in the general elections and its course has been justified. Now it will send Mr. Bentley to aid Mr. Lowell in upholding the interests of the people.

BRITAIN'S FLEET The Times prints today another English review of the greatest naval event since the world has ever seen. The review of this paper will be thrilled and inspired, as British subjects, by this story. The London Chronicle makes some general observations on the subject of naval

defence which will be not less interesting, since they express a moderate English view, and we quote them in full—"What Lord Rosebery said, the colonial visitors have now seen. The mother country has not failed or faltered in the primary duty of imperial defence. Except for some small contributions, it is she alone who has built, maintained, and manned the great armada, of which even the fleet at Spithead is not the whole. Of the quality and bearing of the officers the visitors had some little opportunity of judging on board the Dreadnought; the alertness of the men was displayed in the admirably-conducted attack upon Whale Island. The drive through the dockyard—at once the oldest, the largest, and the best-equipped establishment of the kind in the world—must have similarly impressed the visitors with the vast resources which the mother country devotes to the service of the fleet. "She does this ungrudgingly, and she will continue so to do it, in whatever additional degree the proved necessities of the case, with the benefit of the doubt in favour of security," may require. It was Colonel, the apostle of peace as well as of free trade, who said that in certain given circumstances—and the assumption which he made is strangely applicable to the present circumstances—"he should vote £200,000,000 for or against," may require. Liberal resentment at the course pursued by the St. John Globe grows steadily. That journal at present favors the return of a Conservative in St. John county. It did not even wait to learn who the Liberal candidate would be before trying to create dissension in the Liberal ranks, by asserting that there should be no appeal to Liberals as such in this contest. Yet the Globe knows perfectly well that the election of Mr. Mosher would be hailed as a Conservative victory, and as a blow not only to the federal government, but especially to the minister of public works. And that is what the Globe desires.

The Hon. C. W. Robinson made a very effective speech at the Liberal convention last evening, and was heard with great pleasure by the county delegates and those city men who attended. His intimation that he would be ready to join Mr. Bentley and Mr. Lowell in the campaign and in the more the people see of Mr. Robinson the more they are impressed with his high character as a public man, and his ability to lead his party. He will doubtless be heard at different county centres during the campaign.

The hope of the Conservatives that there would be a lack of harmony or enthusiasm in the county Liberal ranks was blasted last night, and the Standard today begins to warn its readers against the Liberal "campaign committee," and those who "do not make elections with prayers."

Those blind leaders of the blind, the Globe and Standard, have been telling their limited circle of readers who the Liberal candidate in St. John county would probably be. Their readers know better today than to place any further reliance in these journals.

HINTS FOR HOT WEATHER (By C. R. Quincy) Do not consume alcohol with the idea it will make you cool. It won't; although it may tend you to the cooler. If the thermometer is very high, put it in the lexbox. Even in the warmest weather, do not try to keep an electric fan a favorite fidget. Remember to dress sensibly. A stiff linen collar is indispensable.

Do not become excited. If hit by a motor car do not shake your head after it, but sit quietly on the curb and recite some comforting motto. If your business goes bust, don't worry about it; remember you have so much to bother about.

When bathing in very hot weather, be careful not to reach any drowning person. Soak in cold water. But cold fogs are a sure way to ensure this in the ordinary restaurant is to order something hot. Poker is a safe hot weather amusement, if you are subject to cold feet. Do not exert yourself to catch a cold. Pretend to yourself that you are cool. Only don't do it too realistically or some sweeter friend may smile you with an envious punch.

PROVINCIAL NEWS

New Brunswick Dr. Allison, of Sackville, arrived home last Monday morning from Oxford, where he had been attending the conference, and accompanied by Mrs. Allison, he left Tuesday for Middleton, Conn., where he will attend the fifth "commencement" since his graduation at Wesleyan University. The marriage of Miss Jennie M. Babbitt, daughter of the late T. D. Babbitt, of Gibson, York county, to W. K. C. Parlee, B. A., manager of the Herald Publishing Company, Fredericton, was announced to take place on July 14th. Mr. Parlee is an Arts graduate of Mount Allison University. A grass fire on the river bank at Milltown gave the Milltown firemen some work during the late afternoon. Saturday at a time when the temperature was very high.

Schooner Viking, which brought a number of passengers to St. Stephen Saturday morning, grounded a short distance from her wharf, but succeeded in getting underway again unaided. Saturday was another hot day, the temperature being in the 80's although a fairly strong breeze prevailed. Indolence the heat was most uncomfortable.

Nova Scotia What might have proved a fatal accident occurred on Tuesday last at Annapolis, when Ella McKinnon, of Smith Cove, was shot by the discharge of a gun held in the hands of her cousin, a fourteen-year-old boy, named Harold Bennett. She was playing with her cousin and they were examining a twenty-two calibre rifle when the gun accidentally went off, the bullet penetrating the girl's side in the vicinity of the lower rib. She is in a very dangerous state, but the doctors hold out hope of her recovery. Considerable opposition has been raised at Lunenburg to the Tennis Club's plan of building a club house on the grounds, Victoria Park. Tennis club partisans and those who oppose the club's plan are making the local papers hot with anonymous letters in defence of their opinions. It is not known just what the property committee of the town council will do in the matter. During the thunderstorm of Thursday night the large barn of Amiel Corkum, Middle La Have, was struck by lightning, caught fire and totally destroyed. There was some insurance. The civic census returns in so far as they are complete, indicate that the population of Sydney is well up to, if it does not even exceed 17,000. Two men were hurt in the collieries at Grace Bay on Saturday. George Ross was rather badly hurt by being caught between a pillar and a box in No. 2. His body was bruised and he received internal injuries. A Polisher had his arm broken at Caledonia. A fierce fire has been raging since noon yesterday in the woods back of Stevens Island, Bedford Basin, and as a result smoke was very noticeable in Halifax. So far as could be learned no great damage was caused. G. W. L. Blackadar has been appointed to the position of mechanical science teacher for Lunenburg and Bridgewater, vice D. S. McCurdy, resigned. Applications were received from five others. An Indian named Peter Lewis from Truro was given a cheque on Thursday for \$200 for hockey sticks he manufactured during the winter. He cashed the cheque in Dartmouth and came to Halifax. He visited a saloon with a friend and he afterward left and had his money with him. B., June 28.—For the opening of Camp Sussex a finer day could not have been desired than today has been up to 6 o'clock. Early this morning it was quite hot but about noon the sky became cloudy and the air considerably cooler and so it remained until 6 o'clock, when a heavy rain set in and is still falling. This is somewhat of a disappointment unless it ceases very soon will retard the progress of the camp very effectively. The advance parties in camp deserve much credit for the prompt manner in which they pitched their tents while the ground was dry. The majority of the canvas dwelling houses of the infantry regiments are now almost all set up for the arrival of the troops tomorrow. With the exception of the hospital tent all those of the army medical corps are ready for use. The advance party of that body under Capt. Jones worked hard all day and are well satisfied at the result of their labor. No. 11 Company R. C. R. have been steadily on the move since they came to camp. Their work was principally the pitching of the tents for the officers. As a result of their efforts the staff lines are now complete and the staff officers will find their tents neatly arranged for them when they arrive in camp. On almost every train some of the officers and men are coming into camp and since no parade orders have been issued the latter have very little to do. Two teams from the A. S. A. F. BENTLEY, ST. MARTINS IS CHOICE OF COUNTY LIBERALS

He Was Nominated by the County Convention Last Night and Made a Ringing Speech of Acceptance—Hon. C. W. Robinson Issues a Sweeping Challenge to the Premier and Shows How Mr. Hazen Has Broken His Pledges to Liberals Who Helped to Place Him in Power—County Men Enthusiastic Over Their Candidate and Pledge Him Their Support.

At an open convention of the Liberal party of St. John county, in Berryman's Hall last night, Allister F. Bentley, of St. Martins, was unanimously chosen as the candidate at the forthcoming contest for the seat in the local house made vacant by the appointment of Hon. H. A. McKewen to the supreme bench of the province.

Councillor Donovan and Councillor Cochrane were both nominated, but withdrew in favor of Mr. Bentley. There was a big attendance, great enthusiasm prevailed, and the hearing of the new highway act on the municipalities. Before the general election Mr. Hazen had promised certain things to the people and he had broken all his promises. (Applause.)

Hon. Mr. Robinson, on rising, was received with a tremendous outburst of applause, the audience springing to their feet and cheering again and again. He said:

Mr. Chairman and gentlemen, delegates of the county of St. John, I thank you most sincerely for the reception. I am pleased to have the opportunity of being present and of saying a few words with my good friend, Mr. Lowell, who has so long represented the county of St. John at Fredericton. No county in the province has a representative who looks after its interests with more zeal than Mr. Lowell. Indeed, as he has told you, so watchful has he been of your interests that when the government of which he was a supporter wanted to pass something which he was convinced the county did not want he stood up against it and was successful.

"The government of the day made special road law for the county which stood on the statute book for thirty years. Yet when the Hazen government wanted away your rights as a municipality and said you should elect only two members on your county board when you had five, Robert Maxwell, president of the council? Dumb as an oyster! By assuming the right to elect the third member of your county board, the government has taken away from the county the very thing Mr. Hazen promised the municipalities—the control of their own affairs."

"I must congratulate you on the magnificent attendance here tonight and on the fact that you have many well qualified men to represent you. I must also congratulate Mr. Bentley, whom I met for the first time this evening. I feel sure he will make you an excellent representative. Your attendance and enthusiasm show that you are going into this fight with confidence and are sure of victory when the day of election comes. (Cheers.)

"You have maintained your grip on Mr. Lowell for a long time and I hope you will continue to do so. He is a man who has won the respect not only of his friends or the opposition but of all Mr. Hazen's supporters. They fear him because he stands up for what he believes to be right."

"By the Standard this morning I see I am asked to make an apology for the financial statement issued before the provincial election. I am sorry my editor of the Standard is so ignorant. I have not seen any proof that the statement was incorrect. It was prepared by a chartered accountant and I have no apology to make except that I was not able to present the affairs of the province in a good light as I should like to have done."

"I think you will agree with me that, during the last few months, we have had only one financial statement so far, which they could call their own. They claimed a surplus of \$40,000 for the year ended Oct. 31, 1908. Now there was certain sums paid after October, 1907, which could not be included in that year's account and when Mr. Flemming came into power he dragged them all into a net, issued bonds and so paid for them. He said he wanted to start with a clean sheet."

"So the bonds were issued and he was responsible only for the year which ended with October, 1908. When the close of the year arrived, I can imagine his announcing to the auditor general that he had a surplus of \$40,000 and that the attorney general reminding him that there were items amounting to nearly \$100,000 still to come in. 'But if I pay them,' Mr. Flemming must have replied, 'I shall have a deficit of \$60,000! Better close the accounts up now.' (Much laughter.)

"Notwithstanding all they told us, gentlemen, that nothing would be carried over, we found, in answer to an enquiry in the house, that of the \$40,000 balance, nearly every dollar belonged to the previous year."

"The present government have enjoyed an income we never had. We felt we were lucky if we had \$800,000, but, through the efforts of Mr. Pugsley, Mr. Tweedie and Mr. Emmerson, the province secured an increase in revenue of \$130,000 a year through the additional subsidy, and the present government received the first payment of this sum. It swelled the revenue of this province to more than \$1,000,000, yet still they could not carry on the administration without a deficit."

"An examination of the accounts shows that there is a deficit of about \$50,000. Their cry for years was that the late government was extravagant. Mr. Flemming quoted such items as payments for flowers and bands, which were spent in St. John for the entertainment of the prince—the king's representative. I suppose they would have gone down to meet the representative of the king, who came to visit this loyal city, with a wheelbarrow and a mouth organ! (Much laughter.) I can imagine Mr. Flemming toiling up the street with the wheel barrow and Mr. Hazen following with the mouth organ (renewed laughter.)

"It was all clap-trap, gentlemen. They said the money was wasted on the roads, and the cry was 'put us in power and we will show you how the money should be spent.' How have they shown us? They expended \$100,000 more; had an income of \$1,000,000 and yet came out with a deficit. Their policy has been one of recklessness unheard of. They contended if the road money was handed wisely there would be money enough and they would even reduce the road tax. What did they do? They went to work and doubled it."

"I have always contended that the province never had money enough for the roads, and with the increased subsidy it was the hope of the late government to increase the grant. Nothing is more necessary than good transportation facilities to make a county prosperous."

"The government are not treating the people of the province with candor, there is the school book question. The previous government was charged with having a surplus of \$1,000,000. I have never heard of it. I believed the time had come when the prices on school books could be reduced, and I said so before the last election. Our friends appear to have made a reduction to a certain extent, but whether they have reduced the cost to the province no man knows. They are distributing the books to teachers to sell all over the province, and have appointed people who are supposed to employ clerks. If the government had the interest of the scholars at heart why did they make these appointments? How easy it would have been to make school teachers the vendors. How, as things are now, do they expect to get the money back? There will be thousands of dollars lost in the province."

"The teachers could do all that was required in the way of distribution, and it would have been the simplest thing for the government to collect the money, for they have the teachers' salaries in their own hands. This method was too simple. They wanted jobs for their friends."

"Take again the administration of justice. When in opposition they charged the courts with delay and expense, and all over the province, and they led the people to believe that if they were put in power they would reduce the delay. Contrary to the law, we find them employing lawyers in the county courts instead of the county clerk as the law directs. Take Albert county. A lawyer was sent there as the representative of the attorney-general to prosecute a political opponent who was kept before the court for a week on a preposterous charge. It was an abuse of the power of the attorney-general, and it is a disgraceful precedent. The prosecution of this ridiculous case, and in the end Judge Wedderburn said he had no jurisdiction, and intimated that the representative of the attorney-general was incompetent and did not know what he was doing. Honest men are almost afraid to live in Albert county if they are opponents of the government." A voice, "There are others too."

"If charge against Mr. Hazen that the office of attorney-general is being used for party purposes, and being dragged in the mud for political gain."

—Ex-Premier Robinson in his speech at Berryman's Hall last night.

Mr. Lowell asked that the same welcome be given Mr. Bentley in the western part of the county. He contended that the present by-election was a very important one for the Liberal party. The electors should remember that, was not the candidate but the principles they were to vote for. The function of the opposition was to watch the government. "Why they carry off the whole country if they were not watched," he said.

The speaker went on to refer to the hearing of the new highway act on the municipalities. Before the general election Mr. Hazen had promised certain things to the people and he had broken all his promises. (Applause.)

Hon. Mr. Robinson, on rising, was received with a tremendous outburst of applause, the audience springing to their feet and cheering again and again. He said:

They contended if the road money was handed wisely there would be money enough and they would even reduce the road tax. What did they do? They went to work and doubled it."

"I have always contended that the province never had money enough for the roads, and with the increased subsidy it was the hope of the late government to increase the grant. Nothing is more necessary than good transportation facilities to make a county prosperous."

"The government are not treating the people of the province with candor, there is the school book question. The previous government was charged with having a surplus of \$1,000,000. I have never heard of it. I believed the time had come when the prices on school books could be reduced, and I said so before the last election. Our friends appear to have made a reduction to a certain extent, but whether they have reduced the cost to the province no man knows. They are distributing the books to teachers to sell all over the province, and have appointed people who are supposed to employ clerks. If the government had the interest of the scholars at heart why did they make these appointments? How easy it would have been to make school teachers the vendors. How, as things are now, do they expect to get the money back? There will be thousands of dollars lost in the province."

"The teachers could do all that was required in the way of distribution, and it would have been the simplest thing for the government to collect the money, for they have the teachers' salaries in their own hands. This method was too simple. They wanted jobs for their friends."

"Take again the administration of justice. When in opposition they charged the courts with delay and expense, and all over the province, and they led the people to believe that if they were put in power they would reduce the delay. Contrary to the law, we find them employing lawyers in the county courts instead of the county clerk as the law directs. Take Albert county. A lawyer was sent there as the representative of the attorney-general to prosecute a political opponent who was kept before the court for a week on a preposterous charge. It was an abuse of the power of the attorney-general, and it is a disgraceful precedent. The prosecution of this ridiculous case, and in the end Judge Wedderburn said he had no jurisdiction, and intimated that the representative of the attorney-general was incompetent and did not know what he was doing. Honest men are almost afraid to live in Albert county if they are opponents of the government." A voice, "There are others too."

"If charge against Mr. Hazen that the office of attorney-general is being used for party purposes, and being dragged in the mud for political gain."

—Ex-Premier Robinson in his speech at Berryman's Hall last night.

GRAND SUCCESS

Wonderful Growth in Sales During 1908.

The year just passed will long be remembered for the financial and commercial depression. Business houses all over Canada were affected. Most of them show a loss over 1907. Some did about as much business last year as in the preceding one. A few—a very few—show substantial gains. In spots and "financial depression" the sales of "Fruit-tives" doubled in 1908 over 1907.

The National Drug & Chemical Co. of Canada Limited bought "Fruit-tives" in 100 gross lots (14,000 boxes). Lyman Sons Company of Montreal, and Lyman Brothers in Toronto, also ordered "Fruit-tives" by the hundred gross lots. These big wholesalers bought such big orders simply because the retail dealers ordered so many boxes of "Fruit-tives"—and the dealers had to keep "Fruit-tives" always in stock to supply the constantly growing demand of people in every section of Canada.

Today, "Fruit-tives" are the most popular family medicine in the Dominion. In the big cities, in the smaller towns, on farms and ranches, "Fruit-tives" are as steadily in curial all forms of Stomach, Liver, Bowel, Skin and Kidney Trouble, Rheumatism, Headaches and

PRIESTS HAD A GREAT TRIP

Rev. J. Hebert V. G. and Rev. J. A. L'Archeveque Had a Splendid Tour of the Holy Land

Reston, N. B., June 25—The very Rev. J. Hebert V. G., of Dartmouth, and Rev. J. A. L'Archeveque, parish priest of Cocagne, who have been on an extended voyage to Europe and the Holy Land, returned home this week. They expressed themselves as delighted beyond measure with their trip. Before leaving on their interesting voyage they laid out an itinerary of the tour and everything went on smoothly and pleasantly. The two fathers sailed from New York direct to Naples, thence to Marseille, to Lourdes and back again to Marseille. On March 23rd, they set sail for Port Said (Egypt), from which place they went to Cairo, where they spent two days and visited the pyramids among other sights. Going back to Port Said, they sailed to Java and then on to Palestine and Jerusalem. Here they spent twelve days taking in all the sights and surroundings, every point being of much interest, especially the biblical scenes. Bethlehem, Jordan and the Red Sea were next in line. When all the principal points were seen, the steamer went on to Java for Cafia, then on to Gallie, Mount Carmel and Nazareth. From this point the stage was taken to Tiberias, thence they took the train to Damascus. After visiting the cities of Lebanon, Barout came next on the programme. Setting sail on the 22nd of April for Constantinople, they witnessed from the harbor the assault on the castle of the late Sultan. Not going to Paris, they went to Venice, where they spent the night, and then they went to Athens, where they were most agreeably welcomed by the Greek monks. The beautiful and ancient city of Athens, with its many points of interest, Messina, the scene of the great earthquake, came next. Here they spent the night, and saw hundreds of bodies being recovered. They were told that at that time there were 40,000 bodies lying about the streets. Coming back to Naples, where they tarried two days, they proceeded to Rome, where they reached on May 1st, and leisurely spent three weeks in taking in its many scenes. They next proceeded to Assisi, Loreto, Padua and thence to Venice, where the beauties of the city captivated the hearts of the visitors. Milan, with its stately cathedral, was the next place to enjoy and go through the Simplon tunnel, a ride of thirty minutes' duration, they entered Lozanne. From there they branched out to Paris, to stem the tide. This election will have an important bearing on the future.

When the present government were in opposition you remember how they charged Hon. William Pugsley with being an idiot. He was charged with being an idiot every dollar that went through his hands, and claimed that \$8,000 a year went into his own pocket. It was not true as Mr. Pugsley stated in his evidence. Mr. Hazen in a few months has received money at the rate of \$8,000 a year. I do not think Mr. Hazen was receiving too much, but I want honesty and fair play. If a man of Mr. Pugsley's recognized ability, who succeeded in getting the money, Mr. Hazen in a few months has received money at the rate of \$8,000 a year. I do not think Mr. Hazen was receiving too much, but I want honesty and fair play.

CHIEF ENGINEER OF G. T. P. COMMISSION HAS RESIGNED

Hugh Lumsden Has Tendered His Resignation to Hon. Geo. P. Graham—His Action Was Not Unexpected

Ottawa, June 28—Hugh Lumsden, who was appointed chief engineer of the National Transcontinental Railway Commission, has tendered his resignation to Hon. Geo. P. Graham, minister of railways.

It is understood that there has been a feeling on the part of the authorities that Mr. Lumsden has stayed too closely to his desk and has not personally gone sufficiently over the work which is in progress along the line of the National Transcontinental Railway for the purpose of checking up the work of the district engineers and the engineers under them.

Mr. Lumsden's resignation, it is understood, is more directly due to the recent work of the board of arbitration on classification, of which Mr. Lumsden was a member, representing the National Transcontinental Commission.

AARON JENKINS FATHER OF DEPUTY CHIEF DEAD AT 84

A Vigorous, Regular and Natural Life Closed on Sunday—He Was 62 Years Married.

Aaron Jenkins, father of Deputy Chief of Police Fred W. Jenkins, died at his home, Cady's, Queens county, on Sunday in the 84th year.

Mr. Jenkins was a vigorous and successful man, and when the end came he peacefully slept away. A week ago he was taken to his bed but suffered no pain, it being a natural disorganization of the life forces.

Mr. Jenkins was of loyalist descent, his grandfather coming from Maryland with the Loyalists and settling on the Bellisle.

At twenty-two years of age Mr. Jenkins married Miss Little, daughter of Dr. William Little, of the Narrows, Queens county; they have had sixty-two years of happy married life together, and today Mrs. Jenkins is vigorous and in good health, only three months younger than her husband.

On their marriage Mr. Jenkins bought a large tract of land stretching back from the bank of the river, covered with timber, and their first home was in a camp which he built on a clearing he made in the forest.

Those were the days when there were no railways or steamboats and supplies had to be brought up river by small boats and lumber rafts worked sixty miles by hand to market.

GOOD DENTISTRY!

Emerson puts the point plainly. "If a man can write a better book, preach a better sermon or make a better mousetrap than his neighbour, though he build his house in the woods, the world will make a beaten track to his door."

SEE THE POINT!

Our fillings, Crown and Bridge work are the best. It will pay you to have your teeth put in good order, painlessly and at reasonable charges.

Our good work makes good friends, who remain with us.

York L. O. J., No. 3, will hold its regular meeting in the Orange Hall, Green street, tomorrow evening at eight o'clock, instead of on Thursday, July 1. A large attendance is requested as final arrangements will be made for July 12th. Several degrees will also be given.

Charles L. O'Keefe was on Saturday afternoon surprised when he was made the recipient of a very handsome case of table silverware by his associates in the mill room of the York cotton mill. Mr. O'Keefe is soon to join the ranks of the Benedicts.

An extremely interesting event in the retail Dry Goods Trade, and a great boon to the shopping public, will be announced in tomorrow's evening papers. One of our prominent Dry Goods Houses has made a very fine and valuable purchase of a large block of reasonable goods, which they will be able to place on the market at a very low figure. Watch the papers for these announcements.

Patrolman McNamee was summoned to David Ritchie's apartments at 132 Erie street between nine and ten o'clock last night to calm the beligerent spirits of Mrs. Ritchie and Mrs. Spragg, who were engaged in verbal warfare. The officer restored the tranquillity of the neighborhood by inducing the women to discontinue their quarrel between four and five o'clock this morning he was again summoned to the house to suppress a disturbance in which the husbands of the two women were principals. The two couples will oppose each other in the police court tomorrow, as Spragg and his wife preferred information against Ritchie and his wife with the police clerk this morning.

AT CITY HALL

Board of Works and Harbor Board This Afternoon—Water and Sewerage Tomorrow

The board of public works will hold its regular monthly session this afternoon, when the matter of permanent street pavement will probably come in for considerable discussion. The petition from residents of Germain street will be discussed and the board will decide what action they will take with regard to it.

Following the board of works, the harbor board will meet to take up the matter of the transfer of the west side lots to the government for improving the shipping facilities. The recorder has drawn up an agreement and this will be submitted at this afternoon's meeting and if found to cover the needs of the case, will be recommended to the council.

Tomorrow afternoon the water and sewerage board will meet on Thursday afternoon the treasury board will have its monthly sitting and the ferry committee will meet on Friday.

PERSONALS

Miss Marion Thompson, Redpath street, has left for St. John, N. B., where she will remain for some time visiting friends.—Montreal Star.

Mrs. H. T. Albright arrived by the by the Calvin Austin this morning to spend the summer as the guest of her father, Isaac Erb. Mrs. Albright has spent the winter with her husband travelling in the southern states and Florida. Mr. Albright is now located in New London, Conn.

R. B. Humphrey writes from Sussex that Mrs. Humphrey is now believed to be out of danger and is progressing very favorably at the Sussex Cottage Hospital, so excellently conducted by Dr. J. Upham Burnett with an efficient trained staff.

Mr. Humphrey writes in very high praise of this admirable institution which has recently been started, chiefly through the bounty and public spirit of Captain Calhoun, of Hothway. It has already done considerable good, and is of such a character as should commend it to others for support.

T. F. Foley and family, of 383 Main street, have removed to Croucheville for the summer.

THE RYDERS HAVE ALL DONE WELL

Four Generations of Them Served Their Country, the First at Waterloo and the Last in Militia.

"He is of the knapsack breed," said Captain George Ryder, of the 71st Regiment of infantry as he talked with a Times man, who was surveying the diminutive form of Bugler Jimmy Ryder, aged 13, of the same regiment and son of the captain. Companies H. and F. passed through the city at noon en route to camp at Sussex. There are in all 64 men, Captain Laughlin being in command of F. and Captain Ryder of H. The latter being senior in command.

The little chap attracted no little attention as he strode back and forth in the train shed, with hands behind his back and head erect. It was a question as to the age of the bugler that occasioned the remark quoted. "Yes, its in him to be a soldier," continued the genial captain, "its in the blood. My father served in the time of the Fenian raid, and my grand father fought at Waterloo."

Jimmy, as his father referred to him, was here as a bugler during the visit of the Duke and Duchess of York, some eight years ago, a mere mite at that time.

Here is the list of the four generations: Lawrence Ryder, saddler at Waterloo; John Ryder, color sergeant Fenian raid; Captain George P. Ryder, H. Company 1st Infantry; Bugler Jimmy Ryder of H. Company 71st Regiment.

Captain Ryder has three, and last year had four sons in his regiment. In Company H. are Bugler John Ryder, aged 14, in H. Company Sergeant Stewart Ryder, and last year Frank Ryder was orderly room clerk—a record indeed.

This family would seem to have done their duty by their country. Captain Ryder has the long service medal, and the auxiliary forces medal, and has been going to camp for thirty years. He is of fine physique and looks every inch a soldier. He naturally is proud of his family tree.

ARTILLERY MEN WILL PRACTICE

Major S. B. Smith Has Arranged for 1 inch Army Rifle Practice at the Dorchester Battery

There will be 1 inch army rifle practice at Dorchester Battery, Barrack Square, beginning either next Saturday or the Saturday following.

Major Smith, commanding No. 2 Battery, applied for permission, and has received word from the D. O. C. that it is granted.

The practice will be from Dorchester Battery over the flats at Courtenay Bay, seaward, and care will be taken to insure range and lookout parties detailed for service during the practice and the men of the force. Major Smith has applied for the necessary ammunition.

ST. JOHN PASTOR WILL WED TODAY

Rev. J. J. McCaskill Pastor of St. Matthew's Church Will be Married at Fort Kent.

In the Presbyterian church at Fort Kent, Maine, today, Rev. J. J. McCaskill, pastor of St. Matthew's Presbyterian church, of this city, will be married to Miss Frances Dickey Cunliffe, of Fort Kent. Rev. Mr. McKay, of Houlton, will perform the ceremony and the newly wedded couple will spend their honeymoon in Quebec.

THE N. B. PRESS MEN

It is probable that the New Brunswick Press Association will hold a short session in Sackville early in September. Plans are now being made with a view to having newspaper men from all parts of the Maritime Provinces meet in Amherst about September 8th with a view to forming a Maritime Province Press Association and it is because of this fact that the New Brunswick men have chosen Sackville for their place of meeting and the Nova Scotians have selected Amherst. Each of the present associations will hold a session at the respective meeting places after which they will unite in Amherst. Prince Edward Island journalists will also be invited to be present at this latter gathering.

A LUMBER DRIVE SEIZED BY SECRET SERVICE MEN

Rainy River, Ont., June 29.—(Special)—A huge drive of saw logs, said to number about fifteen thousand, which had been cut illicitly on the Canadian side and towed into the United States waters near Beaudette, were seized Saturday night by Secret Service Agent Houles on behalf of the Washington government. The logs likely will be returned to the owners of the logs being made with a view to forming a permit upon which they were cut, who are believed to be MacKinnon & Mann, or interests allied with them. The logs were cut by half-breeds, who had arranged to sell them on the United States side, and in order to do this had broken both the laws of Canada and the United States.

LIFE PRESERVERS ON YACHTS

The jury at the coroner's inquest into the death of F. L. Robinson at Westfield, brought in a strong recommendation for life saving appliances to be conveniently placed on all yachts.

The usual cork jackets and life buoys are sometimes stowed away in lockers because they are in the way. When emergency arises considerable time is wasted in producing the life saving appliance. This delay may mean the loss of lives which a little care would save.

A life preserver cushion is exhibited in the window of J. A. Pugsley & Co., which fully meets with all the requirements of the ordinary life preserver and has the advantage of being very useful as a cushion as well. Several yachts, motor boats and canoes are now equipped with this protection and should an accident occur with one of these cushions handy, they will doubtless prove their life saving power. One great advantage they have is that they can be accurately thrown for a long distance.

The public schools of the city will close at noon tomorrow.
