RICHIBUCTO

Richibucto, Sept. 25.—Robert Stewart has been engaged as bookkeeper by W. E. Forbes. Herbert Hannah has been added to his staff of clerks.

Little Miss Marjory Bell, who for some time has had to go about with the aid of crutches, was taken last week to the Moncton hospital, where she was operated on by Dr. W. A. Ferguson for a malformation of the bones of her legs. The little patient is doing well as can be expected.

MONCTON

Moncton, Sept. 27.—The fifth annual convention of the district lodge of the International Association of Machinists was brought to a close here tonight after two days' session. Routine business occupied the attention of the delegates largely. This afternoon the following officers were elected: President, C. W. Blackney, Moncton; vice-presidents, A. McCollier, Prince

Edward Island; A. Neudsen, St. Leonard's (Que.); W. E. Mitchell, Stellarton (N. S.); secretary-treasurer, Jas. Blackwood, Moncton; executive—Jas. Hains, Campbellton; A. J. Demery, St. Ronald (Que.); John Delahunt, Moncton.

HOPEWELL HILL

Hopewell Hill, Sept. 26.—The steamer Tanagra has arrived at Grindstone Island to load deals for Messrs. Peck Smith. Dr. Trueman Bishop, of St. John, came to the Hill yesterday to consult with Dr. Atkinson in the case of Mrs. Sarah Atkinson, who has been suffering from an attack of heart trouble.

but is improving. Drs. Murray and Daak were in attendance.

REXTON

Rexton, Sept. 26.—Mrs. Robert McMurray, of Newstead, the guest of Mr. and Mrs. John McMurray last week. Mrs. Jonathan Sullivan, who has been spending some time here and vicinity, returned to Portland, Maine, Monday.

CANADIAN WOMEN AND THEIR WORK WOMEN'S CANADIAN CLUBS

By MARJORY MACMURCHY

(Copyright Publishers Press Limited.)

The first Women's Canadian Club was formed in 1907. One would not like to venture the statement that if men's Canadian Clubs had not existed it is improbable that a women's Canadian Club would ever have been added to the history of Canada.

Canadian Club. One other predominant motive which spurs on the growth of the Canadian Club is nationality.

Club are: President, Mrs. E. A. Smith; vice-presidents, Mrs. R. Thomson, Mrs. G. W. Jones, Mrs. A. R. Melrose; secretary, Mrs. G. M. Campbell; treasurer, Miss Travers.

Women's Canadian Clubs differ widely in some respects. But they all have a large membership. Montreal, which is the oldest Women's Canadian Club, is the only one, as far as the present writer knows, which keeps to the idea of the men's club and has a speaker address them at a luncheon.

SOME POSSIBLE APPOINTMENTS

Considerable interest is taken in rumors about the streets. One story has it that Chief Justice Barker is to be made lieutenant-governor of the province, and that Premier Hazen is to be appointed to the supreme court bench in New Brunswick to fill the vacancy caused by the promotion following the resignation of the chief justice.

TERRIBLE HEADACHES

Trenton Merchant Driven to Despair by the Pain—"Fruit-a-tives" Cured Him.

Trenton, Ont., Jan. 29th, 1909. "I was a dreadful sufferer for many years from Stomach and Liver Trouble—but my greatest suffering was from violent headaches. They were so distressing that I almost had to give up my business. I went to Toronto, consulted specialists and no more headaches—and I threw my glasses away."

"Fruit-a-tives" not only cured my headaches, but completely cured me of all my digestion, and restored me to perfect health again. "Fruit-a-tives" is the greatest cure for headaches in the world and is the only medicine made of fruit juices.

HARVESTING ONIONS.

How to Handle the Onion Crop—Gathering and Storing.

The ripening of the onion crop can be determined by the falling down and withering of the tops. If ripening is very late, there is danger of difficulty and loss in curing on account of wet weather. If the harvesting is very much delayed after ripening, a secondary growth may begin, which makes harvesting more difficult, and injures the quality of the crop. The methods of harvesting differ in many points, with different localities. They also differ considerably with varieties. The white globes require more careful treatment than the reds and yellows, as they are more easily injured by unfavorable conditions, and they are less stained by wet weather and yellowed by the sun, and are generally considered more hazardous to grow.

JELLY MAKING

It is rather surprising to find that jelly is not made generally. It is a tasty kind of preserve, but the fact that it is not made more frequently is probably due to the fact that housekeepers suppose it rather difficult to make.

Jelly is made of cooked fruit juice and sugar, usually in the proportion of one pound of sugar to one pint of the fruit juice. Many of the fruit juices may, however, be made with less sugar, some being made with as little as one-half pound of sugar to one pint of juice. The acid fruits require more sugar, so we use the sugar to suit the fruit. Sugar tends to destroy the flavor of the fruit, so the less sugar used the better the flavor of the jelly.

A FEW APPLE DESERTS

Baked Apple—Wipe nice sound apples and place them in a deep enough to hold them comfortably. Pour over them a little vinegar in which has been steeped cloves, allspice and cinnamon, and add sugar to taste. The amount must of course depend upon the quality of the apple and the strength of the vinegar. Cover them closely and let them bake four or five hours. Let the dish become cold before serving—the colder the better. Serve with sweetened cream. It will cut like jelly and is delicious.

DAIRY SEPARATOR INFLUENCES DAIRYING

Of all the factors which have affected dairying, the hand separator has undoubtedly wielded more influence than any other single device, or perhaps, all other devices combined. Ten years ago it was regarded as a curiosity in most sections of the country, while today in every community, where dairying prevails to any extent, it is a common article of household furniture.

It was his wish to retire. He said, during the campaign, that he meant to do so if beaten. But his friends beg him to continue in their lead. He feels that the refusal might look like deserting them after heavy defeat. He is looking well, very well, strong, cheerful, though his exertions have been enormous during the past six weeks. It is simply true that he appears physically far more fit than when the struggle began. He has the quiet heart of one who lives as ever in his great Taskmaster's eye. Hence he can talk soundly. While I walked turn for talk with him, a number of Liberals who successively went in looking rather unhappy, came out with glad countenances. He is the Great Encourager now as ever before.

PRESERVING EGGS

We have tried a number of different methods of packing eggs and so far have found nothing which gives such good results as water-glass. The following different methods were tried: 1.—A mixture of one part water-glass to twenty parts of water have good results where the eggs were not kept in the solution longer than six months, after that time they were somewhat lacking in flavor.

RATIONS FOR THE DAIRY

My hobby is what bran for both calves and milk cows. Good authorities say that bran is unnecessary and the extremely high price of bran tends me to eliminate it from the ration. I have lost faith in bran to the extent that I believe it unnecessary with alfalfa hay, but alfalfa is practically unknown in this section, though many dairymen are experimenting with it. I have a small area seeded to alfalfa the last of August, a month later than I think would have been best on land prepared as well as I know how to prepare it. It is a splendid stand, and if I can get it through the first winter unimpaired, I expect great results. I am in search of some good alfalfa hay and hope to see some of the best in the hard north to bear a wagon to spread manure from alfalfa-fed stock on this section as a winter protection and to increase the fertility of the soil. We have been unable to find first class alfalfa hay at a reasonable price.—G. G. Gibbs, New Jersey.

POULTRY SEASONABLE POINTERS

Poultry culture is a profitable business for the one who enjoys the work. Those who cannot see any real enjoyment in it, or on the other hand take a dislike to the work had better leave it alone. In preparing poultry to kill for market it will improve the quality of it somewhat that he got anything well done. Yet his conciliatory sense is such that he did much for Canada. He must have secured a great bond of friendship between the Dominion of the States and the Empire, all the English-speaking peoples. Reciprocity is reasonable, humane, Christian. Its opposite, the Tory policy of lessening tariff barriers, is barbarous and foolish. Too little stress was laid on these points by Liberals during the late campaign. They were repeatedly warned by experienced speakers that they better themselves against the dominating influence of higher sentiment on behalf of more such intercourse. The paramount interest of any people is to be on good terms with their neighbors. The more intimate between the Dominion and the Republic the better for Great Britain and British connection. These truths can be brought home to the electors who failed to grasp them last Thursday.

**TO BE SPEEDY**  
 Company Planning Two Fine Vessels for Liverpool Service

**LARGER THAN VIRGINIAN**  
 Speed Will Be First Consideration, But They Will Be Luxurious, Too—Plan to Have Them in Commission in 1913.

(Montreal Witness.)  
 The Allan line directors are planning the inauguration of a fast service from this port to Liverpool, and to have it in operation early in 1913.

Tenders have been invited for the construction of two new liners in which speed is to be the chief consideration. The ships will be somewhat larger than the big turbine vessels, the Victoria and the Virginia, which are 520 feet in length. They will have a minimum speed of eighteen knots per hour, and will have large first and second class passenger accommodations arranged in the most sumptuous manner.

The various shipbuilders of Great Britain and Ireland are endeavoring to excel each other in the production of the new craft so far contemplated for the Canadian service.

Speaking of the new ships, an official told the Witness that speed would be the first consideration in their construction. Their passenger accommodation and laundry capacity, it is a law in marine construction, that as speed increases, capacity decreases, and decreases at an alarming rate, as the speed mounts. Vessels of ten knots per hour may carry 10,000 tons, a ship like the Victoria of 14 knots, about 6,000 tons, the Virginia of 17 knots, about 2,000 tons of cargo, while a vessel of 23 knots per hour, which is almost entirely disappeared.

The new ships will require over a year in construction, so they cannot be ready for the Canadian service until some time in 1913.

**DR. DANIEL HAS MAJORITY OF 110**  
 County Declaration Made Tuesday by Returning Officer—The Figures.

Wednesday, Sept. 27. Daniel, 110. In the office of Sheriff deForest in the court house yesterday morning, A. O. Skinner, the returning officer in the recent election, declared that Dr. Daniel had a majority of 110 votes. Dr. Daniel elected to represent the city and county of St. John in the next parliament of Canada, with a majority of 110 votes. It was at first published that his majority was only 43, but the returning officer has corrected the present figure. Mistakes occurred either in calling out figures, marking down, or in some other way, passing unnoticed for a long time.

For instance in one ward in a booth in Carleton the figures published at first were 144 for Daniel and 74 for Lowell, whereas under correction they are 144 for the M. P. and 74 for the defeated candidate. This was a mistake in the marking of the box. All mistakes such as these were rectified yesterday morning, however, and the figures in Lansdowne in the booth A. to E. were verified. Mr. Maher, the returning officer, making a statement satisfactory to the court. On account of the figures not being marked on the box, they were in doubt, but Mr. Maher verified their correctness as here published.

Chas. F. Sanford was present yesterday morning as agent for Mr. Lowell and Dr. Daniel looked after his own interests. Mr. Skinner, as returning officer, was assisted by his son, Roland. The exact figures are as follows:

**NEW ZEALAND BALIS AT "SIR"**  
 Antipodeans Are Angered by Joseph Ward's Title

**Auckland Man Declares They Resent Premier's Acceptance of Coronation Honor—Cannot Swallow Patent of Aristocracy—Own Party Protests.**

(New York Sun.)  
 That new title which came to Sir Joseph Ward, premier of New Zealand, subsequent to the imperial coronation in London, at which Sir Joseph delivered one or more speeches per day, has been received with far less enthusiasm among the New Zealanders than by the recipient of the honor, according to Morris Copeland, Auckland, New Zealand, who is at the Wolcott.

Sir Joseph was only a knight when he passed through New York last spring on his way to attend the coronation and the coronation, but in the bestowal of coronation honors he was made a baronet. New Zealanders think that as he was already entitled to be addressed with a laudible he ought to have refused to accept a further elevation in rank, Mr. Copeland reports.

"The premier has been looking ground at home ever since the coronation honors were given," said Mr. Copeland, who is agent in New Zealand for an American firm of manufacturers. "We pride ourselves on being the most democratic country in the world, and that was some criticism when Joseph Ward first became 'Sir.' But that was not necessarily a patent of aristocracy, as a knight's title does not descend to his heirs. That is why people are little short of enraged over Sir Joseph's accepting the title. It makes him an aristocrat, with a hereditary title. Even the Liberal or Conservative papers have criticized the premier for taking the new title, while you can imagine that the opposition press has seized the occasion to fling insults against Sir Joseph."

"American manufacturers are very slow at pushing their goods in New Zealand," said Mr. Copeland. "They seem to have very little idea just what or where New Zealand is, and some regard it as a little island off the coast of Australia, when the fact is it takes as long to get from Auckland to Melbourne as it does to travel from New York to London. Such American houses as are trying to do business in that part of the world usually have a representative for Oceania, which comprises about a fourth of the surface of the earth, and more business to be done in New Zealand than in the whole of the rest of it."

"Is there any demand for American goods?"  
 "Well, it is easy enough to create a demand. The country's imports from the United States today are probably not in excess of 7 per cent of the total of goods brought in. The Germans are making a stronger play for New Zealand goods than Great Britain get a preference of 10 to 15 per cent in the tariff, still Americans can't compete. The quality of American goods imported is far superior to the German standard."

"There would be a demand for American goods in any line, provided the line was introduced by a capable man. New Zealand is growing rapidly and though there are 1,100,000 people in the country at present the latter is easily capable of sustaining a population of 4,000,000. Its resources have only been scratched."

"There are very few Americans in Auckland, which is a city of 110,000 inhabitants, and we have no trade commissioner there as Canada has, and he is very aggressive in looking after the interests of the manufacturers. Canada ships mostly machinery and gets in return frozen beef and mutton."

"New Zealand is very loyal to the crown of Great Britain—in fact it prides itself on being the most intensely loyal of all the British possessions, but there is one class of Englishmen it does not want. These are the remittance men. There are many of them, unfortunately, who are wasters and a curse to the country. For two or three days a month they put a little money in circulation, but that is all. The rest of the time they live on the money they receive from their families in England. They are a very few poor persons in the country, but a great deal of experimental legislation—at the expense of the people—but we have made a great many steps forward. The nationalized railways, telephones and telegrams yield the government a big revenue, and that makes taxation less. The telegraph pays the government 30 per cent per annum and the post department runs so that it shows a good profit. In spite of the fact that it costs five cents to send a letter from here to New Zealand, and your post office department loses money on the same, it only costs two cents to send a letter from New Zealand to this country and our post office department makes money on it."

**Believes Sir Wilfrid's Successor, R. L. Borden, is Also Actuated by High Ideals—His Excellency, at Ottawa Banquet, Gives Sound Advice to Canadians—Will Defer Departure Till October 12.**

Ottawa, Sept. 27.—In a speech, marked by rare tact and dignity and by a whole-hearted and inspiring imperialism and Canadianism Earl Grey had a formal public farewell to the people of Canada today.

EARL GREY

"I do not believe," he said, "that you could find either in this country or outside of it two men who better fulfill all the highest ideals of the world gentleman and statesman. Their high characters are examples to all Canadians. Never during my whole term of office have I heard one word of selfish ambition from Sir Wilfrid Laurier. As a leader of the opposition he will be the same great servant of state and crown that he has been as leader of the government."

"Sir Borden will, I know, continue the high traditions of Sir Wilfrid. You Canadians are happy and fortunate in having the destiny of your country in the hands of such men."

**Will Delay Departure a Week.**  
 His excellency announced that owing to the political events of the past week he was glad to say that he would have a week longer in Canada than he had expected. His departure had been postponed until the 12th of October. He expected to be also intimated that he expected to disregard the unwritten convention which had kept previous governor-generals from returning to Canada, and he hoped to revisit the Dominion, coming back next time via the Hudson Bay Railway.

He suggested the wisdom of cultivating a closer partnership with Newfoundland, in preference to the present untidy policy of holding aloof on each side. He urged as among the ideals of Canadian statesmanship the necessity of training the character of the children through the influence of the very best teachers that the country could give, and the thorough supervision of moving pictures to prevent evil influences on young minds; the careful sanitation of homes and effective measures to prevent the spread of disease in the rapidly growing cities of the Dominion.

"Every moment of my life in Canada during the past seven years," said his excellency, "has been one of unintermitted happiness for myself and my family. To be governor general of this Dominion is the happiest and pleasantest billet in the whole service of the imperial crown. It is not easy for us to leave without sufficient feeling and sincerity, was a fitting valedictory and a thoughtful resume of national problems and of national development during the seven years of his tenure of office, concluding with an eloquent tribute to the character of the two political leaders, Sir Wilfrid Laurier and Mr. Borden, in whose high leadership Canada was indeed fortunate."

**ITALY AND TURKEY ON VERGE OF WAR**

**Ultimatum Issued to the Sultan, and Troops Are Ready to Sail for Tripoli.**

Rome, Sept. 27.—Italy's next move on Tripoli will depend upon the answer which the Porte makes to a note which was presented by the Italian charge at Constantinople, and in which the government at Rome demands guarantees against a repetition of certain acts on the part of Turkey that have been made the subject of complaint by the Italian residents of Tripoli. These guarantees are very extensive and include the right of Italy to supervise all measures which she considers necessary for the conduct of affairs in that province. The note is couched in the strongest terms and is in intent an ultimatum.

According to Constantinople advices here the Porte is disposed to make important concessions to Italy, but the chief difficulty is held in Rome, that there is little likelihood of their acceptance for Italy has gone so far that it would be difficult for her to adopt a policy which is completely at variance with that which she announced a day or two ago.

It is said that Great Britain, France and Russia have been solicited by Turkey to intervene but have refused.

**Italy's Grievances.**  
 Milan, Sept. 27.—A despatch from Milan says that all railways leading to Tripoli are crowded with military troops destined for Tripoli and are awaiting completion of their equipments.

Paris, Sept. 27.—The Italian embassy here today authorized the declaration that Italy feels satisfaction from Turkey for a series of recent incidents. Among these incidents are the arbitrary arrest of Italian subjects at Constantinople and their imprisonment despite all the Italian government's remonstrances. Among these incidents are the arbitrary arrest of Italian subjects at Constantinople and their imprisonment despite all the Italian government's remonstrances.

London, Sept. 27.—A news despatch from Paris today says that Italy has sent an ultimatum to Turkey saying that the latter must agree to Italy's occupation of Tripoli and that unless a reply is received by tomorrow, Italy will immediately proceed with her threatened occupation.

**HARD TO GET OUTAWAY**

**GOING-MEN FOR THE MINISTRY**

Rev. Dr. Stephenson Says There Are Plenty Willing in Newfoundland and Maritime Provinces, But They Lack Education.

Toronto, Sept. 27.—In speaking today at the Methodist board of missions on the subject of getting young men to enter the ministry and missionary work, Rev. Dr. Stephenson said that it was extremely difficult to get sufficient members.

"We have plenty of young men in Newfoundland and the eastern provinces who are willing to enter the church, but they lack in scholastic training. They are more gettable than those men further west who are taken up with money making. The farther west you go the worse it is."

"Besides, it is hard work putting oneself through college, let me tell you, with fees rising every year, and we want bright men. So you see the difficulty in regard to the poor and middle class. Looking at the children of wealthy parents we see that they are too busy generally with other matters to bother with religious subjects."

**THE BAPTIST MINISTERS**  
 (Maritime Baptist).  
 Rev. J. A. Glendinning will sail from St. John for Indiana, October 11.  
 Rev. C. W. Townsend, N. B. Home missionary, spent a few days in the city last week.

Rev. M. E. Fletcher preached at both services in the Tabernacle church, this city, last Sunday.  
 Rev. D. B. Harkness, Superintendent of Western Missions, is now in Ontario in the interests of western work.

Rev. E. E. Daley, closer of work in Immanuel church, Turro, N. S., last Sunday. He begins his pastorate at the Tabernacle, Halifax, at once.

Many will sympathize with Rev. I. M. Ottain, of the Temple church, Yarmouth, N. S., in the death of his wife.  
 Rev. O. C. Wallace, D.D., of the First Baptist church, Baltimore, is to preach at the anniversary services of Dover Court Road church, Toronto, Sunday, October 29.

Rev. E. A. Allaby, pastor of the Greenwich, N. B., group of churches, was in the city last week. His health, which had not been very good for a while, is now improved.

We regret to hear that Rev. R. J. Flinn, Chipman, N. B., is not in very good health. He has been away three months leave of absence and may visit his old home in England.

Rev. R. J. Colpitts, who has accepted the call of the Macquarie, N. B., pastorate, will begin his work there on Sunday, October 8. His post office address there will be Keewick Ridge, N. B.

Rev. Gordon Keirstead, of Greenwich, N. Y., son of J. B. Keirstead, of this city, has been spending a few days here. He is on his wedding tour, having been married recently in New York.

Another of our young ministers, Rev. T. S. Roy of Digby, N. S., has just taken to himself a wife in the person of Miss Mary E. Richard of Campbellton, N. B. They were married on Wednesday, September 27.

Rev. H. A. Bonnell is to become pastor of the Newcastle, Queens county field, in succession to his son, Rev. J. J. Bonnell. The latter, whose health has prevented his preaching for several months, is somewhat improved, and he hopes after a few months more rest to be able to resume work.

**THE MONSTER PARADE**

**Thousands Joined in Procession Which Escorted R. L. Borden Through the Capital's Streets Last Night to the Music of Many Bands.**

Ottawa, Sept. 26.—Ottawa's Conservative enthusiasm, pent up for fifteen long years, found spectacular vent tonight. The elaborate public demonstration arranged by the Ottawa Conservative Association, in honor of the victorious Conservative leader, made ample amends for the disappointments of the preceding four elections and rivaled the most enthusiastic outburst of acclaim ever given Sir Wilfrid Laurier on his return to the capital, when he was victor instead of vanquished.

It was the first real chance the capital has had to really cheer Mr. Borden and full advantage was taken of it. The special popularity in the city, where he has been a mile long and wide for eleven years, is almost as great as that of Sir Wilfrid. This, combined with the great victory of the Conservative party in the Dominion on Monday last, the fact that both Conservative candidates in Ottawa were among the victors, good weather and ample time for preparation made conditions ideal for a record-breaking demonstration so far as the capital is concerned.

Fully 20,000 people lined the route of the procession which escorted Mr. Borden, Mr. Perley and the two local members of the principal streets of the city. Some 10,000 people were in the triumphal parade of flag bedecked motors, carriages and supporters mounted, or on foot. The parade was a mile long and took forty minutes in passing. For nearly two hours street car traffic was practically at a standstill and the air was filled with the music of brass bands, the cheers of the jubilant Conservatives, the shouting of horns and the noise of fire crackers.

**HE IS JUST PLAIN MR. BORDEN UNTIL HE IS SWORN IN**  
 Canada's Next Premier at Present is Entitled to That Designation Only—Later He Will Have "Honorable."

There has been some discussion as to the proper way to address R. L. Borden, Canada's next premier, and there is considerable doubt on the matter. For general information it may be said that Mr. Borden is entitled at the present time to the title of "Mister" or "Esquire."

The title "Right Honorable" indicates that the holder is a member of the Imperial Privy Council. In Canada it is the custom to make only members of the Canadian cabinet Canadian privy councillors. In Canada a cabinet position carries with it the title of "honorable" for life. Mr. Borden and all members of past and present Canadian governments are entitled to the title of honorable for life.

In provincial affairs members of provincial governments are entitled to the designation of "honorable" just so long as they hold office, and no longer. Once a member of a provincial government resigns his title of honorable is dropped.

In British the custom is different. There, a title of the direct cabinet, a number of other statements are made members of the privy council. This appointment is honorary, and the men appointed (outside cabinet rank) never sit in the council. The theory is that all the great figures of the empire shall be members of the Imperial Privy Council, and so may be assembled in meeting at some great crisis of empire. Such a crisis has never yet arrived, and the imperial privy councillors from Canada and the other colonies have never yet been called upon to meet.

Several Canadians are now members of the imperial council, and so have a right to the title "right honorable." Laurier is one, Cartwright is another, Tupper is another. In addition to these men there are four other Canadians, among them Sir Charles Fitzpatrick, have been granted the title, which is for life. Most Canadian prime ministers, including Sir John Macdonald and Sir John Thompson, have borne the title, the latter obtaining it the day he died. It is probable that Mr. Borden is long premier he, too, will have been made a "right honorable." As soon as Mr. Borden is sworn in as premier of the Dominion, he will have the title of honorable for life; till that time his proper designation is simply Mr. Borden.

**SISTER SUSPECTED OF POISONING SISTER**  
 New Orleans, La., Sept. 27.—Following a report that the stomach of Elsie Crawford, who died suddenly a few days ago, contained opium, Miss Annie Crawford, a sister, was arrested. Though no formal charge has been made, the police assert there is evidence to warrant holding her. Miss Elsie is the fourth member of the Crawford family to die under mysterious circumstances in fourteen months.

Miss Annie Crawford is a beneficiary of insurance policies on the life of her sister Elsie, and is said to have been named as the beneficiary of policies on the lives of her mother, father and the sister who died last year.

London, Sept. 27.—Truth says today: Although reciprocity has been rejected, it will serve as a useful reminder of the crassness of the foundation on which the Chamberlain scheme was reared. **TELEGRAPH OPERATOR SUICIDES FROM NIAGARA BRIDGE**

Niagara Falls, Sept. 27.—(Special)—Edward M. Hannan, twenty-eight years old, a telegraph operator of this city, committed suicide this morning by jumping from the American end of the lower steel arch bridge. He missed the water by about six feet and struck a cribbing between a narrow railway and the river. The impact of the body broke through planks two inches thick and ten feet long, the body lodging on the rocks beneath. It is a drop of 212 feet from the bridge to the cribbing.

The Department of State announces that officials at Ottawa with Herault's College minds, who will see that the table of precedence is accurately adjusted, and that we make no slips of the tongue from long disuse in referring to dukes and royal highnesses. The last time we had a royal highness at Rideau Hall was thirty-three years ago when the Marquis of Lorne was viceroy. We forget just how the matter was settled then. The fact that his excellency

was only a marquis, while his wife was a duchess, must have puzzled the Duke of York, the king's son. Canada found him a splendid dinner giver, an excellent tennis player, a superb horseman, and altogether a charming personality, but a bit of mind and action an uncompromising and reactionary Tory of the extreme British school. He died in 1819 from the bite of a pet fox.—Canadian Collier's.

### WEDDINGS

Trecartin-Merritt.

Wednesday, Sept. 27.  
A pretty wedding took place yesterday afternoon at 4 o'clock at the residence of Mr. and Mrs. F. R. Merritt, 35 Brook street, North End, when their daughter, Miss Etio W., was given in marriage to Edward S. Trecartin, manager of the Ogar Box, Mill street. The officiating clergyman was Rev. J. C. B. Appel, and the ceremony was witnessed by only near relatives and friends of both parties.  
The young couple were unattended. Miss Merritt was gowned in green silk, and wore a large white picture hat, and the wedding a dainty luncheon was served, and later left on the Boston express for a honeymoon trip to Boston, New York, and other cities in the States. The bride's traveling gown was of blue and white, and many friends of the young couple returned their handsomely on the happy event, and they were the recipients of a vast assortment of gifts of silverware, cut glass, and furniture. Among these might be mentioned a handsome parlor suite from the groom's employer, I. S. Isaacs. On their return from the States Mr. and Mrs. Trecartin will reside at 59 Paradise Row.

Wednesday, Sept. 27.  
The home of Miles Christopher, 310 Duke street, W. E., was the scene of a very pretty wedding yesterday morning when Miss Ever O. Green, formerly of Kings county, but now of Boston, became the wife of Miles E. Ellison, of Queens county (N. B.). The ceremony was performed by Rev. D. Hutchinson. There were no attendants. The bride arrived from Boston yesterday morning. After the ceremony Mr. and Mrs. Ellison left for their future home in Queens county.

Rintoul-Hammond.

Fredericton, Sept. 26.—The home of Mr. and Mrs. Guilford Hammond was the scene of an unusually interesting event yesterday afternoon when their daughter, Miss Lucy Beatrice Hammond, was united in marriage to James L. Rintoul. The ceremony was solemnized by Rev. Dr. J. H. MacDonald, pastor of the Brunswick Street Baptist church, in the presence of the immediate relatives and friends of the contracting parties. The bride, Miss Hammond, during the past few years, has been from the Montreal General Hospital Training school. She was becomingly attired in white, and carried a shower bouquet of lilies of the valley. Her traveling costume was of navy blue and her hat of Austrian beaver. Mr. Rintoul is a native of Glasgow, Scotland, and now occupies the position of secretary-treasurer of the Philadelphia Water and Power Company with headquarters in New York. The bridal party left last night on the Boston train. They will make their home in Brooklyn (N. Y.).

Collins-Vanwart.

Thursday, Sept. 28.  
The home of Mr. and Mrs. John F. Vanwart of this city, was the scene of a pretty wedding at 4 o'clock yesterday afternoon, when their eldest daughter, Miss Alice Beatrice, was united in marriage to John Long Collins of Campbellton. The ceremony was performed in the presence of a large number of friends and relatives, by Rev. W. W. Malcolm, assisted by Rev. Dr. A. Morrison. The bride, who was given away by her father, was attended by Mrs. Bruce S. Robb as matron of honor, and her sister, Miss Annie Dean Vanwart, as bridesmaid. William R. Fraser acted as groom's attendant. The bride wore a handsome gown of cream satin in empire style, with pearl trimmings and carried a bouquet of white roses. Her wedding veil was a family heirloom, having been used on four similar occasions. The bride was honored with a pale blue silk and wore a black Gainsborough hat, trimmed with white plume and touches of pale blue. Her bouquet was of pink roses. The bridesmaid's dress was of pink chiffon tulle. She wore a large black picture hat and carried a bouquet of pink carnations.

At the conclusion of the ceremony the wedding supper was served. The house was prettily decorated for the occasion, with parol palms, potted plants, and autumn leaves, and the dining-room was set with flowers in pink and white. Among the out of town guests, who were present at the ceremony, were: Joseph Collins, father of the groom; Miss Susie Collins, his sister; and Messrs. Charles and Frederick Collins, his brothers, of Alma, Albert

county; Mr. and Mrs. Fairbanks of Montreal; Miss Ollingham of Portland (Me.); Mr. and Mrs. Henri Techachit of Bradford (Pa.); and Mrs. J. D. Murray of Banquette. A large number of very beautiful presents were received by the young couple. The bridegroom's present to the bride was a piano. Mr. and Mrs. Collins are in Alma before proceeding to their future home in Campbellton. The bride's traveling costume is a strictly tailored suit, trimmed with fringe and maroon velvet.

Trainer-Johnson.

Thursday, Sept. 28.  
A very interesting event took place yesterday morning, when John Trainer, son of Patrick Trainer of Union street, was married to Josephine Johnson, daughter of Gustave Johnson, of 1 Union street. The ceremony was performed at 10 o'clock in the Cathedral of the Immaculate Conception by Rev. A. W. Meahan. The bride was very prettily attired in a suit of grey, the coat being of willow plume. The couple were accompanied by their friends, who by invitation, witnessed the ceremony, afterward sat down to a dainty wedding breakfast. The presents, including china, silverware and furniture, were varied and valuable, attesting to the popularity of the bride and groom. J. J. Manson, milliner, with whom the bride was employed, presented a beautiful set of Linotype china, and the bride also received a handsome armoire from the staff of the same company. Mr. and Mrs. Trainer left by I. C. R. for a trip to Prince Edward Island. They will reside in Union street.

Power-Shea.

St. Peter's church, North End, yesterday morning at 6 o'clock, Rev. J. H. Bongmann, C. S. R., officiated at a pretty nuptial event, in the marriage of John Power, contractor of West End, to Miss Mary E. Shea, of Simonds street. The groom was supported by his cousin, John Power, and the bride's sister, Miss Gertrude Shea, was bridesmaid. Owing to a recent bereavement in the home of the bride, no invitations were issued, only relatives being present.  
The bride was given in marriage by her father, who was in a navy blue suit and wore a white beaver hat. Her bridesmaid wore a becoming suit of tan with a black beaver hat and willow plume. After the wedding a tempting breakfast was served at the home of the bride's mother, Mrs. Mary Shea, 66 Simonds street. Before taking up their residence in west St. John the bride and groom will enjoy a honeymoon trip to Boston and New York. They received a handsome assortment of wedding remembrances from many friends, including a valuable array of cut glass and silverware.

Wetmore-Buchanan.

Thursday, Sept. 28.  
A very pretty wedding was solemnized at the home of Mr. and Mrs. Samuel Buchanan, Nelson street, West End, at 4 o'clock yesterday morning when their daughter, Carrie G., was united in marriage to Stanley M. Wetmore, proprietor of a pharmacy in Queen street, city. The ceremony was performed by Rev. A. J. Archibald, in the presence of only relatives and intimate friends. The bride was given away by her father and was dressed in white silk, with lace trimmings and bridal veil. She carried a shower bouquet of pink and white roses.  
After the ceremony a wedding breakfast was served and Mr. and Mrs. Wetmore left on the Boston boat on a honeymoon trip to Boston, New York, and other cities in the States. On their return they will reside at 210 Queen street. Both the bride and groom are well known in the city, and received many handsome presents. The groom's present to the bride was a piano. The bride also received a sterling silver chafing dish and spoons from the congregation of the Charlotte street Baptist church, where she has been a choir member for some years. Many other presents of cut glass, etc., were also received. The bride's traveling dress was of green broadcloth, with hat to match.

W. D. McDougall.

Moncton, N. B., Sept. 27.—(Special)—W. D. McDougall, well known restaurant keeper, died suddenly today in the Royal Victoria Hospital, Montreal, where he had gone for an operation a week ago. The patient did not survive the operation. A time was taken up with the judging, and it was found that there was not time for the speeches which were to have been delivered by some of the judges.  
There was a large vegetable exhibit, and it was clearly shown that St. John county can produce a great amount of first class vegetables.  
Cereals, wheat and buckwheat were among the exhibits. One product that came in for a lot of attention was alfalfa which was grown from the seed imported by the association. It was clearly shown that alfalfa can be successfully grown on New Brunswick soil.  
In the domestic science department, the preserves, cake and bread display attracted much attention. This was a new department this year and the entry list was very large. The live stock was considered very good and there were a great many entries. The sheep class that was not filled was the sheep class, and R. R. Patchell, the secretary of the association, said that the people of the county had a fine lot of sheep raising business, and he was at a loss to explain the cause.  
The judging began about 1 o'clock, and it was 5 o'clock before the work was finished.  
The poultry of Hiram Lemon, of the North End, was very fine and carried off a great many of the prizes.  
Officers of the association were greatly pleased with the work, and the different classes were filled, and consider the fair a success in every way.

The York and Cornwall mills are still in the hands of the St. John shareholders and there is a possibility that the transfer to the Canadian Cottons, Ltd. will not go through. It is said that the Montreal company practically entered into possession and not finding the conditions as they understood them to be, withdrew from the contract. A local shareholder who has been in Montreal recently said it was true there had been a hitch, but the differences might be satisfactorily settled.

Chester Martin, the first Rhodes scholar from New Brunswick was in the city Wednesday visiting his parents and left in the evening for Winnipeg, where he is professor of modern history in the University of Manitoba. Mr. Martin returned recently from England, where he spent some time at Oxford renewing the acquaintances formed in the years spent at that institution. He said he met some of his fellow students from Canada, who had remained to take special courses at Oxford, and who were all doing well.

Rhodes scholars were a very active part in the life of the colleges, and he believed that the whole scheme was working out very well.

## MOOSEPATH FAIR WAS CONSIDERED GREAT SUCCESS

Many Prizes Awarded at the Annual Exhibition of the St. John City and County Agricultural Association—The Decline of Sheep Raising—Alfalfa Experiments Highly Encouraging.

Friday, Sept. 29.  
A large attendance and ideal weather conditions combined to make the annual fair of the St. John City and County Agricultural Association a great success. Many people went out from the city, and automobiles and other carriages were very much in evidence. The entry list was very large and the judges had a busy day.
