Restigouche in 1873, having been are the Counties of Gloucester and the in 1873, having been referred that they "should submit any explanations which the Surveyor General may have to give in respect to the matter which were referred to them," your Committee therefore proceeded to make a further investigation into the matters referred to them and now beg to submit this their second report.

Your Committee have held eighteen sessions and have had before them and exasions and have had before them and examined under oath, Hon. Surveyor General, Hon. President of Executive Council; Hon. Provincial Secretary, Deputy Surveyor General Andrew Inches, E. Byron Winslow (Ferguson, Rankin and Co's Agent in Fredericton), John Ferguson, jr., and Deputy Robert Ellis, Seizing Officer, Gloucester. It will be observed the evidence has been most exhaustive in its character.

After a careful perusal of the evidence and consideration of all the facts elicited. your Committee find:

Resolution of regret was moved by Senator Campbell, and carried unanimously. As this is the first case of the kind since Confederation, proceedings establish a precedent.

Parliamentary business will be wanted to them on payment of \$300. This amount, the Surveyor General states, was taken with the \$700 before mentioned in connection with the Nepisiguit River seizures, as final settlement of \$4158, being original amount of Ferguson, Rankin & Co.'s seizures. Mr. Ferguson, however, states that he was under the impression that the first payment of \$700 was intended to cover all the seizures, and that the \$300 was especially for the expenses insmount. epartment, and unpaid.
